## DYNAMITE PLACED ON THE TRACK

### Disast'ly Attempt to Wreck President's Special.

#### Plot Discovered by Watchman on the Road.

#### Two Men Who Placed Explosives on Viaduct Escape After Revolver Battle.

Santa Barbara, Cal., Oct. 16.—What is pronounced by Sheriff Nat Stewart of Santa Barbara county as the "Wreck of San Francisco," special agent for the Southern Pacific, who has been a deliberate attempt to dynamite an 800-foot bridge 200 miles north of here, over which President Taft's special train passed early today, was frustrated by the vigilance of a Mexican bridge watchman at 1:30 this morning. Sheriff Stewart and Mr. Wines returned from the scene tonight and said the evidence of a plot was complete.

Although the suspects have disappeared the officers say they have certain clues and already several men have been summoned from San Francisco and will be placed on the case. It has been ascertained that the men have not left the mountains, and a close watch is being kept on all passengers.

Seen by a Watchman.

The bridge it was planned to wreck is a fine structure 300 feet long. About midnight the Mexican watchman was passing over the bridge on his regular round. At about half way across he noticed the dim outline of a man in the gully beneath the bridge. He called to the man, who immediately started to run. The watchman, seeing his plan was being carried out, but he went wild. He then made a dash for dynamite and during a package of dynamite at once notified the sheriff's office here by telephone. The sheriff notified the railroad officers, and Wines, who was on the president's special, was advised to get off the train at Santa Barbara and make an investigation.

Found the Dynamite.

When the officers arrived at Canyon they were taken to the spot by the watchman. Inside a boxlike section of bridge pier, six sticks of dynamite were found. The dynamite was entirely hidden from view except that a fuse 10 feet long hung out.

In a shallow trench at the next pier 18 sticks of dynamite were found, five attached. Both of these plots were about the middle of the bridge.

The inspectors discovered two sticks of dynamite lying to one side of the bridge, exactly at the spot where the man had been seen to place the dynamite and attaching the fuses.

Watchman Just in Time.

The officers said the dynamite would test 40 per cent, enough, they declared, to blow the bridge to atoms. They believe the watchman came along just about the time the suspect was about to explode the dynamite. The watchman says he first saw the man from a position taken directly above the dynamite on top of the bridge the man could have commanded a distant view of any train approaching.

The 10 feet of fuse lighted, he could have easily had time in which to place himself beyond any danger of physical harm by the explosion, and if an experienced dynamite he could have so timed his fuses as to destroy any train which passed.

The Mexican watchman told the officers that he saw a strange man two days ago at a hotel, but he paid no attention to him. He also told the officers, if any, the officers have reason to believe that they express the hope that the development soon will be a success.

## HEAVY SHIPMENT OF POTATOES

### Left for Idaho Shipped from Twin Falls Yesterday.

There was shipped from this city Thursday, 25 cars of potatoes to different parts of the West and it is understood that the heavy shipments are yet to come. The fame of the Twin Falls potatoes is being spread throughout the length and breadth of the United States and raisers are having no trouble in disposing of their crops at a very good price.

# A FORMAL DEDICATION

## Twin Falls County Officials and Bar Association Celebrate Completion of Handsome Building.

### Judge Ailshie and Governor James H. Hawley Deliver Able Addresses Wednesday Afternoon.

### Many Taxpayers Visit Courthouse for the First Time to View New \$150,000 Acquisition.

Twin Falls county's magnificent new courthouse was dedicated, with appropriate ceremonies Wednesday afternoon of this week and the exercises were attended by an assembly that completely filled the court room and overflowed into the lobby. The ceremonies were somewhat delayed awaiting the arrival of the train from the east on which Governor J. H. Hawley was to arrive from Colorado Springs, where he had been attending the opening of the Dry Farming Congress. The county building was thrown open to the public during the afternoon and the Governor and his friends were shown through the structure by the county officials and nothing but words of praise were heard on every hand. The meeting was called to order by Judge C. O. Stocklager, who in a few

chosen words welcomed the people on behalf of the bar of Twin Falls county and the county officials, who had the ceremony in charge. The Judge then introduced Justice J. P. Ailshie of the supreme court of the state. The speaker whom he arose received

the city of Twin Falls has been in gala attire this week in honor of the Grand Lodge of Odd Fellows, who are holding their annual session here. Besides the Grand Lodge, the Rebekah Assembly, Grand Encampment and the military branch are also in annual session.

On Sunday evening the visitors commenced to arrive, when more than 100 came in on the regular evening train. On Monday morning a special train brought in a huge crowd and with the visitors from the different lodges on the train swelled the crowd until the city has been taxed to the utmost in taking care of the visitors.

The members of the different communities are to be congratulated on the successful way in which they handled the visitors and the citizens with true Twin Falls spirit. Not only all the aid possible. The business houses were tastefully decorated for the occasion and at night the city was splendidly illuminated, making a very nice appearance. On Monday evening a reception was tendered the visitors in Dramatic parlors, the program as published in the Tuesday issue of the Times being carried out in a highly satisfactory manner.

Monday was taken up with the session of the Rebekah General Assembly and Grand Encampment, with the work of the year. On Tuesday morning the different lodges were in session and in the afternoon the parade was given. The parade is one that will long be remembered by the citizens of the city and was taken to the City Park where the Decoration of Chivalry was conferred on several candidates. The work was done by the military branch of the order and was witnessed by an immense throng of people. In the evening the Rebekah entertained the Grand Encampment, and in the morning the military and subordinate degree work was put on in the Masonic hall.

Wednesday the different branches of the order held their regular session and in the evening the visitors were entertained in the Dramatic parlors. (Continued on Last Page.)

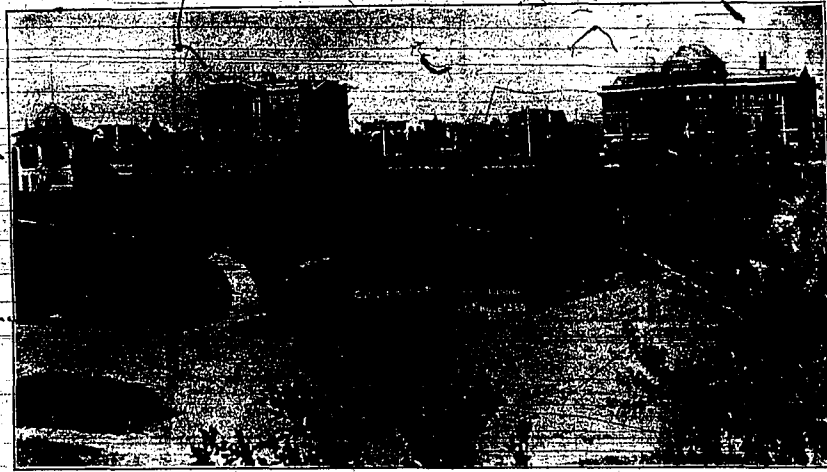

introduced Judge Stocklager. Judge Stocklager paid a high tribute to the speaker, who was to follow and after a brief speech gave way to Justice Ailshie of the state supreme bench. Here in a short half hour, the distinguished guest gave a masterly bit of oratory on "The Lawyer," typifying in him the strongest factor in every upbuilding influence in a community, upholding with a fervid appeal of the members of the bar to keep the standards up to the highest plane.

Judge R. P. Quarles, formerly located in Honolulu, was next called upon and after paying high tribute to the growing Twin Falls county, gave a short address on the forms of courts in the Hawaiian Islands.

For the local bar association, Judge Ailshie in a well-delivered address paid his respects to several political quotations, urging the bar irrespective of the party lines, to stand for the things needed to aid the people. He dwelt especially upon the need for a railroad commission and the initiative and referendum and recall.

Attorney Frank Martin of Boise, the last speaker on the program, arrived on the scene from the Muscovite banquet and paid in a few words his tribute to the city, to the bar association and urged that it might be made stronger each year. He urged the formation of a state association along similar lines.

A brief valedictory address by the townmaster, closed the most successful meeting ever held by the Twin Falls County Bar Association.

## JUDGMENT AGAINST COMPANY

### North Side Company Held For Payment of Damages to County.

Judgment by default was Monday rendered by Judge Walters, against the Twin Falls North Side Land & Water company, in the case in which the county is plaintiff and the company defendant. The action was brought by County Attorney James J. Bothwell for the collection of fees due and not paid under the private agreement which Auditor Harry W. Anderson pushed through the board of commissioners. The judgment was for over \$2,000 and costs, with accrued interest.

Thursday the company attempted to set aside a judgment by the action, but as judgment had been taken by default, through non-appearance, this could not be fled.

Whether or not the company will be able to have the judgment set aside, and the damages filed is a question.

The action of the company in permitting judgment to be taken by default gives ground for wide speculation as to the motives prompting the move.

As the situation now stands, the company stands committed by the judgment to pay the entire sum to the county, says the Herald.

## BONDS FOR TWIN FALLS BAR ASS'N. BANQUET

### \$70,000 CARRY Election Held Monday Afternoon and Bonds are Voted.

#### 217 VOTES IS FAVOR OF PROPOSITION TO BE AGAINST.

Insurance—Completion of High School Building—Work to be Pushed as Fast as Possible.

At an election held Monday afternoon to vote on the question of bonding this school district in the amount of \$70,000 for the completion of the wings of the new high school building the proposition was carried. There were 217 votes cast, 217 in favor of the bonds, and 60 against.

The intention of the trustees is soon as the bonds are disposed of to go ahead and build the building so that it will be ready to be occupied for the next term of school, commencing next September. The school buildings are now crowded to the limit, the trustees being compelled to use several buildings in the down town district. There are now enrolled 1363 pupils and new ones are coming in each week. With the completion of the high school building the school will make care of the present enrollment and it is hoped that the building that new buildings will have to be erected in the near future to keep up with the rapid growth of the city.

#### THIRTY-FIVE ENJOY INFORMAL BANQUET AT THE HOBBSON.

Several distinguished state jurists attended event to celebrate dedication.

A jolly crowd of attorneys of this city were hosts at an informal banquet planned as a fitting conclusion to the dedication ceremonies of the courthouse Wednesday evening, having as their guests the prominent attorneys and jurists visiting in the city. Among those present were the Honorable JOHN H. HALL, of the program, presided by Mrs. Hall, had the tables arranged in the shape of a letter L to denote the profession and the southbourns fully in keeping with the clever idea. The guests arrived at the set time and spent a pleasant hour in the hotel prior to giving the guests of honor opportunity to meet the local members of the bar and the members of the newspaper profession, who hovered around on the outside by courtesy. At nine-thirty the banquet committee of thirty-three the assemblage adjourned to the dining-room and the attack on the high price of living began with an onslaught of carving on toast, running through a perfectly served ten-course banquet to the final course brought out to prepare the service for the banquet which was to follow.

GOLD, SILVER, COPPER, LEAD AND ZINC IN IDAHO

Increased Production of Silver, Lead and Zinc, but Decrease in Gold and Copper in Idaho, according to the United States Geological Survey.

The value of the mine output of gold, silver, copper, lead and zinc in Idaho in 1910 according to C. N. Gerry, of the United States Geological Survey, was \$16,660,000, an increase of \$1,500,000 in 1909, an increase of \$656,547.

There was a decided decrease in the yield of gold and both placer and lode mining, also in the production of copper. The largest increase in production was in lead, in Silver Lake county, and in zinc, in Shoshone county. Mines yielded 88 per cent of the value of the state's total output of the metals.

Production of gold was \$1,296,842, a decrease of \$250,000 compared with 1909. Of the total output, \$242,546 was derived from placers, of which White Pine produced \$130,864 and Nevada county \$111,682. The gold from lode mines, about 91 per cent was derived from copper, lead and zinc ores.

Production of silver, in Idaho in 1910 was 2,369,742 fine ounces, valued at \$2,979,543, a decrease of 1,141,522 fine ounces from 1909. Of the total output, the 1,910 output, 6,479,836 ounces came from lode ores.

Production of copper in Idaho decreased from 3,115,889 pounds, valued at \$1,185,014, in 1909, to 2,707,222 pounds, valued at \$1,000,000, in 1910. The production of zinc increased from 90,461 pounds to 310,948 pounds in 1910.

Production of lead in Idaho in 1910 increased 12,272,984 pounds over that of 1909. The value of the lead produced in 1910 was 615 per cent of the value of the total mine production.

Production of zinc in Idaho was 310,948 pounds, an increase of 210,487 pounds over 1909. The value of the zinc produced in Idaho in 1910 was \$1,000,000.

United States Department of Agriculture, Office of the Secretary, Washington, D. C., Oct. 3, 1911. Sentiments on animal products under the tariff act will no longer have to pay for a survey, as they have had in the past on unsurveyed lands.

The total quantity of ore created or sold in Idaho in 1910 was 1,786,174 short tons, having an average value per ton of \$89.90, or a total value of \$159,200,000.

There were 417 mines producing gold, silver, copper, lead or zinc in Idaho in 1910, compared with 254 in 1909. Of these 417 producing mines, 263 were placer mines, many of which mined very small quantities.

a warm welcome from the audience and congratulated the people of this county on having the finest county building in the state, which he said spoke volumes for the class of citizens which made up the population of this county. He also made a few remarks in regard to the respect which the citizens of the United States and this state in particular had for

the laws and especially for the dedication of the county. He again thanked the audience for his kind reception and gave way for the principal speaker of the afternoon.

Governor J. H. Hawley was introduced, and was given a splendid reception. The Governor complimented his remarks by saying that he had just returned from Colorado Springs, where he had been attending the meeting of the Dry Farming congress, having left on the afternoon train, and felt that he was not prepared to make an address during the occasion. He congratulated the people of Twin Falls county for the grand work they had accomplished in making the desert blossom as a rose in the short time they had been here.

and said that they had not the early settlers, were the true pioneers of this state as they had come in packs and built up the country while the early settlers were here looking for gold. He paid a glowing tribute to the citizens of this tract for the splendid school buildings they had constructed and said that the other scattered communities of the state could

take a great many lessons from this large community. The Governor said that he had lived in Idaho for nearly fifty years and had seen it grow in beauty of the most magnificent states in the Union, and had traveled over this part of the country when there was not a settler from page to page.

Another. The Governor then spoke a number of the citizens of the county and closed with a renewed tribute to the citizens of the Twin Falls tract. The Governor's speech was well received by the audience, who applauded him to the echo when he finished. The Governor and the committee then held a short reception at the close of the exercises and many a number of the citizens of the county.

## BOND HIDDEN UNDER MATTRESS

### Idaho Visitor Creates Sensation in Hotel.

Thomas Brown of Halley, Ida., who stopped over in Salt Lake on his way east, and who is registered at the Moxam hotel, reported to the police yesterday afternoon that he had been robbed of a number of Telluride Paper company bonds, valued at \$5000, while he slept in his room at the hotel.

The announcement caused a sensation at the hotel, as well as at the police station. S. M. Bartlow, chief of police, and Riley M. Beckstead, captain of detectives, hurried to the hotel and at once questioned Brown, concerning the robbery. He told them that about 9 o'clock yesterday morning he drank a cocktail and that, as a result he fell into a deep sleep, not

awakening until about 5 o'clock in the afternoon. He said that upon awakening the first thing he thought of was the bonds, and after making a hasty search of his room discovered that they were not there.

It was at first believed by Chief Bartlow that Brown had been drugged and a portion of the cocktail which remained in the glass was taken that it might be analyzed for poisons. Believing that the whole affair looked rather strange, Chief Bartlow made a careful search of the room. Under the mattress, at the foot of the bed, he found the bundle of bonds. He returned them to the owner.—Salt Lake Tribune.

### IMPORTANT.

To Potato Growers: The Twin Falls Commercial club wants potatoes for the land show at Chicago. Idaho Falls, Blackfoot, Pocatello, Jerome, Wendell, Gooding and other North Side tract growers have agreed to donate one car each for Idaho Day at Chicago. The Twin Falls Commercial club does not want one car—it wants TWO cars. One car by filler, so we can have a grand total of four cars from the South Side tract. We have the potatoes and can easily donate them—each grower giving one to three sacks. Are you a Twin Falls booster and will you give your share? The Twin Falls Commercial club has this week received inquiries from two railroad systems in regard to potatoes for their dining car service. Twin Falls county potatoes are becoming known and appreciated. The representatives of one railroad system will be in Twin Falls within the next few days contracting for potatoes for the dining car service.

The Twin Falls Commercial Club is using its best efforts to sell your potatoes and it is accomplishing results. If you want to know more particulars, go to the club and ask the secretary. Will you help make up these cars? The kind of potatoes wanted for Idaho Potato Day are Idaho Rural, Delmar Challenge, White Peach Snow, and Nette Gem, preferably, although other varieties will be accepted. The potatoes should be oval in shape, something like a globe egg, weighing six to eight ounces, shallow eyes. The large abnormal potatoes are not wanted as they are not marketable potato and we want to use only the best of this day. Do not wash the potatoes, but brush them off with a dry rag and handle carefully so they will not bruise. Put them in sacks or apple boxes and deliver to the Twin Falls Commercial club not later than October 20. Careful delivery will be appreciated as we wish to have the cars ready for shipment by October 20, if possible.

### COIT SHOW REVEALS MERITS

Large Number of Fine Animals In Competition.

The J. E. Ross Coit Show, an important event called by one of the enthusiastic horsemen of this city, was successful to a large extent in getting a number of ranchers interested, although not all of the horsemen of the county participated. Ross said this was the best of showing the merits of his draft stallion, Canon Delaware, all of the coits entered being first by the animal, E. H. Hoston, C. O. Meigs and E. H. Coors, each as judges in the contest, and made the following awards: Docketing cows, Walter H. Hoston, \$25; E. H. Hoston, second and E. H. Hoston, \$10; W. M. Meigs, first. Small cows, T. W. Killebrew, first. The prizes were \$25, \$10 and \$10, in all classes.

We try from the biggest message, and cost the price, in the strongest competition with all small or big houses, Strass & Glauter, Oct 20.

### LIQUID EVIDENCE STOLEN.

City and County Lose Valuable Exhibits From Fair.

Some time during Thursday night, burglars slipped through the outer door of the lock-up and cut through the steel bars of the cell, stole all the liquor held in evidence in the liquor cases and made their getaway. No clue has been discovered as to the perpetrators by the city and county officials. The evidence which was secured by detectives and identified to corroborate verbal evidence given by them, has occupied a prominent part in the trial. The prosecution, while handicapped by the loss, expect to put up a strong fight in any event.

### NEW COMET IN SKIES.

Star Gazers May Have Good View by Early Rising.

A brilliant comet, very much plainer than Halley's comet, is attracting the attention of those stargazers, according to Rev. J. W. Hinnaman, pastor of the United Presbyterian church, who says that this comet has been visible every evening for the last three weeks, up to two evenings ago. Now the comet is clearly visible in the northeastern sky about 5 o'clock in the morning. It appears just ahead of the tail of the dipper, and the tail, which is quite beautiful, and full of light, sweeps across a quarter of the circle.

## FRUIT FAIR GRAND SUCCESS

First Venture of Fruit Growers Well Attended.

EXHIBIT SHOWS THAT TRACT CAN NOT BE EXCELLED.

Large Crowds Attend Fruit Show in Weaver Building and All Well Pleas'd With Exhibit.

The first venture of the organized fruit growers of Twin Falls county, in holding an exhibit of the horticultural products of the tract, is proving a grand success, and the grandeur of the display and quality, quantity and varieties of our home grown fruit has proven a surprise to even our most optimistic growers.

This exhibition of fruit is the first effort to create and promote outside enthusiasm by the Twin Falls County Fruit Growers association, which was formed during the year.

The purpose of this association is to help educate in the line of growing the most perfect fruit, and placing it before the buyers who are looking for fruit of such class.

A beautiful piece of art work, made by Mrs. J. R. Conway, illustrates the finity of our fruit industry to perfection. The artist has portrayed on picture four main commodities which are the fruits, seeds and grasses. Below an arch formed of the products of the orchard and farm, late with bright straw and golden corn, is a painting of an immense beautiful red apple, which represents the fruit of the Twin Falls tract, radiating the sun's rays from the crest of sharp mountain peaks in the distance.

On a panel to the right is a life-like stalk, made of seeds and corn sheaves, arising from a clump of cattails in the border of a lake, a very busy looking infant, inscribed "Twin Falls County Fruit Growers Association," which, judging from his healthy looks, is likely to grow to a giant in short order if properly nourished by the fruit.

On the panel to the left is a perfect picture of the beautiful Bird of Paradise, paradise representing, of course, the Twin Falls county, the entire scene shows the work of a master hand, and reflects much credit to the artistic ability and painstaking effort of Mrs. Conway.

To the right of the entrance is the personal exhibit of Mr. W. S. Starr of Kimberly, showing 35 varieties of fruit from 5 acres of the tract, and a section of the modern commercial orchard. Mrs. Conway has placed over the exhibit a line of pictures which show the evolution of our tract. One picture shows a hand-tracked lot with 1200 two-year-old apple trees, which were taken from the nursery April 9th, 1908.

The result of this planting is shown in the fruit box exhibit of Rome Beauty and Jonathan apples, displayed below the picture. It is this exhibit, grown entirely from the orchard of Mrs. Conway, that took the grand sweepstakes prize, a \$25.00 silver loving cup.

Next in display is a table containing specimens of all kinds of fruit grown on the tract. It is the personal exhibit of J. A. Waters, the first nurseryman here. An artistic show of grapes is a feature of his personal display. John Hainch, an enthusiastic and experienced fruit grower, who harvested this year two thousand boxes of peaches, has a display which shows a knowledge of such and excellent in the building, and he will undoubtedly maintain the success already begun in the fruit business here.

Next in display are several boxes of beautiful apples, conspicuous because of their polish and color.

Perrine Corner

The Blue Lakes Orchard was represented by a large collection of finest apples.

There were many exhibitors contending for honors from plates up to boxes, swelling the number of specimens into many hundreds. It was plainly noticeable that the highly colored red apple is to be the king of this infinitely apple region.

In the department of canned goods there were upward of two hundred specimens, including everything from berries to fruits that are grown on the tract. Most of these prizes show rare skill in fitting them up for show purposes.—Contributed.

Woman and her work are well represented at the Fruit Show now being held in this city by the splendid exhibit of canned, preserved and pickled fruits and vegetables.

There are several who have big exhibits in this department, among them the Meadows, Cogswell, Hammond, Lewis, Howe, Hubbard, May and Otis Sampson. The last named lady has a very attractively gotten up table show of home made preserves, jams and jellies.

Another piece of clever decorating is the large panel on the side wall, a work of art in every sense of the word, it was done by Mrs. J. E. Conway and represents much untiring labor. The sun of prosperity, typified by a red apple, and just rising over a peaceful farm scene, is the center picture of the panel. On either side are a "stork" bearing, the infant "Fruit Show" and a bird of paradise. These are cunningly devised of corn husks, staked and mounted on footstools, and of ground wheat, used on breast of stork, and last for scene on the other side. An artistic border of corn and straws frames the whole.

### MAKING DIRT FLY.

Work Commenced On the Interurban Line Last Saturday.

Men and teams commenced last Saturday on the grade on the new interurban line from this city to Twin Falls. The first stratum to be graded is from the J. A. Waters corner north one mile. It is the intention of those in charge to have the grade completed from the city limits to within a mile of the falls grade within the next thirty days.

a grand lot of apples well worthy any inspection.

A choice lot of apples is also shown by Mrs. J. C. Gardner.

Joe Hammond and wife displayed in profusion for horticultural honors showing many specimens, including clusters of apples and much canned produce. The best award was bestowed upon their exhibit by awarding a \$10.00 silver cup for best in horticultural display, also receiving first prize for best apple, each of Jonathan, Rome Beauty and Winter Bananas.

An exhibit of boxed apples by Fred C. Polden bears several blue ribbons and every box shows would do credit to any apple section.
