Yesterday the time of the court was taken up with civil matters and it will be a few days before the criminal docket will be taken up again.

There was shipped from this city last night, a carload of various vegetables, grains and grasses to be displayed at the Chicago Land Show. The total weight of the shipment was 2,400 pounds and will be sent by package. On Saturday evening there was another large shipment sent out for the same purpose, and it goes without saying that the Twin Falls tract will have one of the largest and best exhibits at that great exhibit.

The Halloween spirit enhanced by artistic decorations of the hostess, added greatly to the joy of an evening spent by about fifty ladies and gentlemen Monday evening at the home of Mr. and Mrs. P. M. Beckley on Ninth street. The refreshments which were in the nature of a house warming for the host and hostess in the new home, and the hospitable spirit of the pair was in harmony with the occasion. Witches and goblins rode in along on the ray of light from the walls. Colored lanterns lighted by the solemn jack-o'-lanterns added to the festive spirit of the evening. The refreshments served at the close of the evening were used to charity being put both the 200 and 2000 night and the harvest season. The hostess was assisted in the serving by Mesdames Kimball, Malcom, Crockett, Kenney and Miss Kinsball. During the evening Miss Kinsball, Mrs. G. W. Kenney and Mrs. Kimball, and a vocal solo by Mrs. Tucker. The ladies present, gave much pleasure to the guests. The prizes for high score were won by Mrs. L. E. Morris and Mr. H. E. Lewis. ### CATTLE GAUARDS ON RAILROADS

Supreme Court Hands Down Decision of Much Interest to Settlers. The supreme court of the state of Idaho last Friday decided a case of considerable importance to farmers and stockmen residing along the lines of the railroad. Some time ago Mr. George Brown, living out east of town, had the misfortune to have quite a number of cattle killed by a passing train. It seems that the cattle followed the public road until they reached the railroad, and then turned up the railroad track and they were met and struck by the engine. The law requires the railroad to place cattle guards at all public crossings and suit was filed against the Short Line to enforce its liability and the case was related on the grounds that the statute was unconstitutional. Mr. Brown won in both the prolate and the district courts, and the company carried it to the supreme court. The case was argued and submitted on October 10. Paul S. Haddock, of the firm of Johnson & Haddock, present of the case for Mr. Brown. D. Worth Clark of Pocatello, appeared for the Oregon Short Line. The fact that the case was disposed of in nine days would indicate that it was very clear. The court laid down the law very positively, holding that the statute is valid, and that the railroad must comply with it by building cattle guards or be held liable for any damages occasioned by their failure to do so. The decision establishes the law that cattle guards must be built and maintained by the railroad at all wagon road crossings, no matter whether the railroad is fenced or not.—Shoshone Journal.

### WATER RAISING.

Increased During Month of September 46 Second Feet Daily. The natural flow of Salmon river having increased during the month of September to an average of 46 second feet daily, the level of the water in the reservoir behind the big dam has been maintained during that time, and rainfall this week has produced a rate so that water now stands slightly above the normal level. The loss by evaporation of the water in the reservoir this fall, it is stated by Water Master E. B. Darlington, is exceptionally small. In the reservoir in an exposed surface of water of about 17,000 acres. The daily flow of 46 second feet has proven ample to offset the loss of the action of the sun and wind. No other instance furnishes a better record for a minimum loss by evaporation. The loss of water sustained by evaporation in the reservoir in the vicinity of Mr. Darlington's station, is infinitesimal. Continued rise of the water in the reservoir from now on is anticipated. Evaporation will not be so heavy as this fall, because the natural flow of Salmon river is increasing and the fall rains now beginning will contribute to this end, so that a delivery of water for the purpose of mining claims may be warranted in the near future.—Hollister Herald.

### FIRST TELEPHONE EXCHANGE.

Halley Was the First City in Idaho to Furnish Telephone Service. The Halley Times, which was started by T. R. Hooper in May of 1883, was first located in a tent, then in a log cabin with a dirt floor, and two log additions were added to that before the present frame building was erected. The Times was the first daily paper to be published in Idaho. Its dispatches were wired throughout the west 72 miles by stage to Halley, Idaho. The various stages of property are all in evidence today except the tent. Mr. Picotte still publishes The Times daily and weekly—and one seldom meets a more congenial, pleasant and interesting character, and it is through his courtesy the following data was secured. Located in the above-mentioned Times building a telephone exchange was placed in operation on September 17, 1883. It was then that the telephone lines of Idaho formally began, as Halley was the first exchange to be placed in operation in the state. The manager placed in charge was Mr. Horrocks. The Times and the exchange consisted of a grounded system, of some twenty four subscribers. The rate for this service was \$100 per year, payable semi-annually in advance. There was no toll service and the toll lines were not run through all those years later. Mr. Horrocks, then of Halley, was the first plant man, and the first operator was a boy about twelve years old, whose name cannot now be ascertained. At the time the telephone exchange was placed in operation Halley was the usual hustling western mining town, and its prospects for becoming a full-fledged city in a few years were of the best. Halley of today is a little city, beautifully located on the Wood River. Located in a narrow valley, in the north fork of the Sawtooth range, its culture is very limited, but for thousands of sheep that graze on the hills, the country is ideal. To the north the peaks of the Sawtooth range loom up, with Hymann's peak of special interest, for it is more than 12,000 feet in altitude, and is the highest peak in Idaho. All the surrounding country to the north is of special interest to the hundreds of summer tourists who spend their vacations camping at the foot of the Sawtooth range or on the Wood River, where the opportunities for procuring all sorts of game are unlimited.—The Mountain States Monitor.

Section 13. Said grantee, its successors or assigns, shall have a line of railway constructed and in operation between the said City of Twin Falls and the Town of Kimberly, in said county, within two years from the date of this order and franchise is accepted by grantee as its account of said system.

Section 14. Said grantee, its successors or assigns, shall for its third section of said system have a line of railway constructed and in operation between the city of Twin Falls and the city of Hildt in said county, within three years from the date of the acceptance of this franchise and order.

Section 15. The fourth section of grantee's said system shall consist of all those highways described herein and not contained in its first, second or third sections, and grantee, its successors or assigns, shall have in operation a line of railway upon the highways contained in said fourth section within five years from the date of said grantee's acceptance of said order and franchise.

Section 16. If the said grantee, its successors or assigns, shall fail to construct and have in operation its several lines of railway within the several sections of its system within the several times and as provided, the said county of Twin Falls, by its board of commissioners, may revoke this order and franchise in its entirety and apply to the section in which grantee, its successors or assigns, may be in default provided, the said board of county commissioners shall give and grantee, its successors or assigns, a written notice to comply with the terms of this order as to such section within six months from the service of said notice, before said revocation can take place, and provided, that if the said grantee, its successors or assigns, has been delayed in the construction of its said line or lines of railway in such section by the act of God, strikes, or by reason of something over which it or its successors or assigns have no control.

Section 17. Said grantee shall operate at least one car each way each day over each of its constructed lines of railway, unless prevented by the act of God, unavoidable accident, or strikes, or by reason of something over which it or its successors or assigns have no control.

Section 18. Said grantee, its successors or assigns, shall furnish and file with said board a good and sufficient bond to be approved by the board, in the penal sum of five thousand dollars, conditioned to save the county of Twin Falls and its board of county commissioners harmless from any and all accidents, damages, liabilities, loss, costs and expense that may occur by reason of the construction and maintenance of said railway, or from the use of its said apparatus, current, appliances or railway, or the operation of its business.

Section 19. Said grantee, its successors or assigns, shall furnish and file with said board a good and sufficient bond to be approved by the board, in the penal sum of five thousand dollars, conditioned to save the said county of Twin Falls and its board of county commissioners harmless from any and all liability on account of the erection, construction, maintenance or operation of said line or lines.

Section 20. Said grantee, its successors or assigns, shall furnish and file with the said board a good and sufficient bond to be approved by said board, in the penal sum of five thousand dollars, and conditioned that said grantee, its successors or assigns, shall construct and have in operation that part of its first section hereinafter described from the depot to Shoshone Falls, within one year from the date of the acceptance of this order by grantee, and also to have constructed and in operation the balance of said first section along Addison Avenue and in operation within the year last aforesaid. If the grade as the named portion of said section shall have been made or paid for by the owners of property along said line at the time and in the manner specified in section 12 herein, and in default of which, grantee, its successors or assigns, shall forfeit the bond to the said county of Twin Falls, as liquidated damages for the breach of its said contract.

Passed by the Board of County Commissioners of Twin Falls county, this 21st day of September, 1911.

O. C. ZUCK, Chairman.  
E. J. FINCH, Clerk of the Board.

## The Modern Method of Ironing Shirts

is the "press" machine" method, the process we use in our laundry. By this system your shirt bosoms are ironed without motion, friction, or undue wear from any cause. The shirt bosoms are simply placed upon the flat, softly padded ironing boards and pressed against the steam heated ironing plate—being held there until ironed and dry. There is no motion, so no stretching and no pulling of your shirts. They keep their shape better and wear longer. And our process gives a handsome domestic finish that even hand ironing cannot equal.

Continued patronage will prove to you that we both make your lines look better and wear longer.

to you because we believe that it is worth while to any housewife to purchase butter that will give satisfaction for every ounce of the sixteen in the pound.

In the first place it is made by experts who have discovered after years of experience that certain things must be observed in butter manufacture.

It is sanitary because the Lincoc Produce and Refrigerating Company is particular about sanitation and watches ever process from the receiving of the cream until the Golden Butter is placed in the carton to send to the retailer.

It is this care that is making Golden Vesta a household word just as Farbridge stands for gold to the mining men.
