LIKES TWIN FALLS COUNTRY.

(Continued from Page 1.)

man. A short distance out Mr. and Mrs. C. E. Hughes are nicely located on an 80-acre farm and have some very fine stock. Mrs. Hughes told me that she picked 151 peaches off three trees that she planted herself three years ago.

Albert Heller is the boss farmer at the present time. He is well known with the country.

"I don't attempt to tell you what they do and can raise on the land, for it might sound exaggerated, but while we were there, one farmer sold me 400 lb. of peaches for \$8.00. Mr. Pettin, who is one of the pioneers, has an orchard which will net him \$2,000 per acre. I asked him if the trees got very old. He said he didn't know how old they would get, for he had one 25 years old and just picked 40 boxes of apples off of it. The scenery is something wonderful and the great Shoshone falls won't take a back seat for Niagara at any time. Then they have the Twin Falls, the Salmon falls, the Thousand Springs, Balance Rock, the famous Blue Lakes and the great canyons themselves are a magnificent picture.

From Twin Falls, after investing our money, we went to Boise, the metropolis of the state, and a very pretty city of about 20,000. They have some of the finest hospitals of the west, and some very elegant new buildings.

Dr. Then, Kreeger has a large place in South Idaho and is selling lots and picking fruit in spare time.

P. N. Quast and Alfred are showing shows at the Golden Rule store and Henry is employed at Folks shoe center, one of the largest in the city.

Gustav Kreeger is one of the owners of the Security Abstract and Title company.

Dr. August Holm located in Boise on June 1, and is doing very nicely.

Mr. and Mrs. Hansen have a large Salt House and are well pleased with the country.

Mr. Spidebergers met some old friends from Newman Grove and we had a most delightful time during our short stay.

Salt Lake City was our next stop, and here I met my old chums, Frank Hognobotham and George H. Dorn.

Frank is auditor for the Gifford and Blingham railroad, a company which has just completed twenty miles of road at a cost of \$1,000,000, so you may know it is not a small job.

Mr. and Mrs. Hansen are well pleased with the country.

We made the trip to Blingham and it would take a week to tell all they have up there and the wonderful things they are doing. It is the greatest copper camp in the world, and the payroll of the Utah Copper Co. runs about \$20,000 per day. Here we met Dr. A. L. Hughes, who at one time was the printer's devil in the Sentinel office, and he is doing money in the mining camp. The Salt Lake we had an opportunity of seeing the great Hotel Utah, which is reported to be the finest hotel west of New York. We looked at it all over from the suite recently occupied by President Taft and the price of which is \$50 per day, down to the basement, where they prepare the fine wines and liquors.

Through the courtesy of Judge Erick, formerly of Fremont, we went through the state penitentiary, and saw many things of interest in one of the best penal institutions of the West.

Judge Erick is chief justice of the supreme court, and a member of the board of correction, having charge of the penitentiary.

The Twin Falls country looked so good, that I couldn't resist the temptation and have decided to move to Idaho. I have seen several different parts of this country, but have never seen anything that looked as good as this. They don't have many corn cobs out there, still we saw one field that yielded 111 bushels to the acre, another that went 80 bushels, oats from 80 to 110 bushels, and weighed 40 pounds to the bushel, volunteer wheat that cut from 20 to 30 bushels.

There don't seem to be any limit to the possibilities of the country and one must remember that all of these things have been accomplished in the last three or four years.

Doctor Hauser, Chas. Lyman, Jay Denison, John Nelson and Lucille Bros. all have nice farms there and now have them all in cultivation. You can't raise these bumper crops without any work, and any one that thinks he can, is very badly mistaken, but you certainly are well repaid for your labor.

The altitude at Twin Falls is 2,749 feet and the climate is ideal, the summers are warm but cool nights, and in the winter, the government reports show the weather very seldom reaches below zero.

They have some dust but no thunder storm or blizzards, and while they have good snow, it comes straight down.

After making Hooper my home for more than twenty-nine years, it seems a little hard to think of packing my goods and traveling westward, for I have many, many warm friends here, but I believe the opportunities for a young man are now ripe in the west and I am going to try and pick a few of them.

J. HOWARD HEINE—Hooper (Nebr.) Sentinel.

Mr. Retts, the sheep man from Goldburg, made a visit to his home Tuesday.

The Ladies' Pioneer club of Kimberly will meet with Mrs. H. M. Fletcher Wednesday, Nov. 23. The ladies are all urged to exchange Christmas ideas.

Mr. Mann of Twin Falls, was in Kimberly Monday.

The Jarboe freighters were again at the corner store keeping supplies for the new store at Jarboe.

W. M. Van Houten and Ray Pettin are among the Twin Falls jurors in this session of court.

A. M. Scott and son Paul are loading a car of hay for Mr. Day of Twin Falls.

The Day Boys met at the home of Mrs. Ed Claborn Thursday.

PERMANENT DISPLAY.

Of the Products of the Northwest to be Shown in St. Paul.

To exploit the resources and aid in the development of the American northwest, the Northwest Development League will place a permanent exhibit of the products of the soil, lakes, rivers, forests and mines of the various states in a great display room and show them to thousands of people who pass through and visit the city of St. Paul—the gateway to the northwest territory.

This state has been invited to occupy several hundred square feet of this space without cost on the St. Paul Association of Commerce has entered into a contract with the league to furnish the display rooms in one of the new buildings of the city center. If the league will furnish light and maintain the display. The offer has been accepted.

The plan is simply to show every person who transfers in St. Paul as well as those who visit and live there, the common products of the products of the following states: Minnesota, North Dakota, South Dakota, Montana, Idaho, Washington and Oregon. The exhibit will be conducted without prejudice, the league publishing uniform information about each state in attractive booklets distributed free and securing the names of all visitors which will be furnished the Commercial clubs and state legislatures of each state.

We ought to show from ten to twenty thousand people every month this exhibit. We are sure we will show more than five thousand of the average and during the tourist season as high as thirty thousand a month," said Secretary Will A. Canfield. More than one hundred thousand people a year may of them right on their way to look over Canada, will get our literature a lot of personal information, the exhibit, have their names sent to people who will follow them in and become what is possible in the American Northwest.

"It is the biggest thing which has happened for a long time and the St. Paul Association of Commerce shows the breadth of its work for better agriculture and a better developed northwest by the generous offer of space in the great Commerce building."

IDAHO MEN ARE INDICTED.

Charged With Fraudulent Use of United States Mails.

The officers of the American Hardwood company, including very prominent men in this state, who were indicted for fraudulent use of the mails in the promotion of the sale of eucalyptus lands in southern California as officers of the American Hardwood company, were freed by the federal court at Spokane Nov. 2 when the indictment was quashed on the grounds it was faulty, but were re-arrested last Saturday and will be held for trial. A true bill was also returned against several local residents who are in the county jail at Caldwell on the charge of white slavery.

The men indicted in the American Hardwood case are: J. V. Standley, President of the First National bank of Pocatello and a prominent and wealthy Idahoan; A. B. Moss of Payette, president of the First National bank of Payette and principal owner of the Moss Mercantile company of Payette, a wealthy and prominent man; Paul S. A. Bleck of Jerome, engineer in charge of the Twin Falls reclamation project, and Don Davidson of Spokane, a broker.

The two men who were indicted April 8, 1911, Fred Nov. 2, 1911, and the other two were indicted on the same day. The indictment charges four associates, are James A. Murray of Little, Mont., millionaire and president of the National Bank & Trust company of Seattle, and I. H. Perrin of Twin Falls.

The Idaho Hardwood company, the government contends that the defendants made false representations in order to sell stock, and that in order to make these false representations, they were obliged to use the mails for the distribution and circulation of their literature. The company owns a eucalyptus forest in Kern county, Calif., capital \$200,000.

PERISHES IN HILLS.

Eastern Man Lost in Mountains of Idaho.

Lost in the wilds of the mountains and perished from exposure and hunger is believed to be the fate that has befallen George Smith, a man of fifty-five years of age who came west a year or so ago and has been making his home in the country adjacent to Ferdinand. Mr. Smith has been lost since Saturday, November 4th, and all hope of finding him alive has been given up by the parties who have been searching the mountain country around Adams camp for a fortnight. Smith, however, without a number of other men from the west side of the Prairie, went on a hunting expedition in the mountains in the vicinity of Snake Creek. On Sunday, November 4, he left camp early in the morning and since that time no traces of him have been found with the exception of a newspaper in which he carried his lunch for the day. There were four members of the party and the searchers have searched the country most thoroughly but have been unable to find any trace of him. On Saturday last Sheriff Overman and Deputy Thompson, who are familiar with the country around Adams camp, made a trip to the hills and covered the ground thoroughly but came out without securing any traces of the lost man.

Mr. Smith, so far as we can learn, was not at all familiar with the country.

CONSTRUCTION WORK STARTS

Big Force Building Half Million Dollar Power Plant at Thousand Springs.

Without the blast from a single trumpet or a flag from the press, the mysterious builders of the proposed power plant at Thousand Springs, located nine miles south-west of town, began work with a force of 25 men last Monday morning.

The gentlemen in charge of the work state that their orders are to go ahead without delay and complete the plant.

They are short of workmen and offered employment to local people.

The building of this great plant makes three miles within 12 miles of Wendell where something like 20,000 to 50,000 horse-power is generated.—Wendell Irrigation.

SHOWING ON BLUSTER GROUP

R. R. Crook Tells of Good Showing on That Property.

Mr. and Mrs. R. R. Crook were in the city the last of the week from Jarbidge on their way to their home in Fremont. Mr. Crook and his partner have become agents for the Bluster properties and he took with him 100,000 shares of the stock which he will place on the market at fifty cents per share. At the present time there are about 25 men at work on the Bluster property, and they have three shafts at work on a 325 foot tunnel which will cross-cut the ledge at a depth of 245 feet. He said the ledge holds its value at that depth the company will be able to block out \$2,000,000 of ore in a short time.

On the Hazlett lease, which the company is working, the ledge has been encountered at 200 and 600 feet from the discovery shaft and the showing is just as rich as where first encountered. The Hazlett tunnel on the Success, which has been run to within 20 feet of the Bluster line, a six foot ledge has been encountered at a depth of 200 feet.

WILL REPORT ON WATER POWER

National Waterways Commission Begins Gathering Information.

Washington, Nov. 21.—The National Waterways commission was called to order here today by Chairman Senator Burton of Ohio, to hold a series of hearings with a view of obtaining every available information concerning the important subject of water power. The commission will consider fundamental principles pertaining to rights in and utilization of water power, the present collection of the federal government to their development in the public domain or in navigable rivers under the jurisdiction of congress, the best method of utilizing water powers as a problem of hydraulic engineering, the most desirable line of division between state and national control, etc.

Among those invited to attend the hearings are Attorney General Wickes, Clifford Pinckney, Secretary Fisher and Louis Brandeis. It is expected that the commission will embody its findings in a voluminous report to congress.

SITUATION AT SEATTLE.

City Has Used Nearly Half of the Reserve Water Supply.

Seattle, Nov. 21.—The water famine in the residence districts is becoming alarming. The city has used nearly half a million gallons of the reserve supply of one hundred million gallons, and it is thought that the mains broken by the floods cannot be repaired until Saturday. The emergency pumping stations at Swan Lake are expected to furnish about one-third the necessary supply after the failure of the reservoir. The city uses sprinkling wagons to distribute water through the residential district. It is believed the light plant will be sufficiently repaired to light a part of the city tonight.

The floods throughout the state are subsiding but railroad traffic is still held up by the cascades mountains.

TWO NEW STRIKES

Another Rich Strike Made in Jarbidge on the Bluster Group.

A letter just received from Jarbidge states that another strike has been made on the Bluster group. The strike was made in what is known as the Combination lease which is being operated by Christine, Manitowish, Marquette and Benane. The latter is a brother of Ed Benane, one of the principal owners of the Bluster group. No details as to the nature of the strike are given, but it is stated that the strike was made in what is known as the Combination lease which is being operated by Christine, Manitowish, Marquette and Benane. The latter is a brother of Ed Benane, one of the principal owners of the Bluster group. No details as to the nature of the strike are given, but it is stated that the strike was made in what is known as the Combination lease which is being operated by Christine, Manitowish, Marquette and Benane.

E. W. Griffiths is very much pleased with the reported strike on the Combination lease as this work has proven up the ore within a short distance of the Indian Camp group, which Griffiths tied up recently with Jarbidge. He says that the strike is in the camp, that the Indian property carries the same vein as the Bluster, and that he took over the ground only after he had secured title thereto on this point. He will organize a company among Salt Lake and start work on the Bluster lease as the company is incorporated. He says this winter is so severe enough to interfere with development and that they can prospect the vein for its entire length by tunnel.

They have just made another strike on the Success group of claims, which George Windfield recently bought for \$100,000, paying \$10,000 down. The new ore body was located within about twenty feet of the Bluster vein and it is reported to be a very rich grade ore. At the time of writing the vein had been opened up for six feet in ore that gives returns of \$20 to the ton. This is said to be the best body of ore ever struck in that camp, and all the operators that sections of the district are much pleased with the find. Everyone there feels confident that there will be a big demand for Jarbidge properties a little later on, and next spring they expect to see several started on an elaborate scale in a number of the properties of that district.

Salt Lake are becoming aroused to the importance of Jarbidge as a mineral property. A couple of deals will probably be closed up for the study and couple of weeks. Ed Benane of the Bluster, is scheduled to arrive in town today with his wife. He will make his home here, and is now planning to close a deal for one of the largest properties in that camp with some of the operators in Utah. Should the deal go through as planned, ample capital will be provided for opening up the Bluster and installing a mill plant just as soon as the need of development to insure regular production.—Salt Lake Evening Telegram.

TO STUDY BUSINESS

School to be Started in New York City Which is to be National in Character.

New York, Nov. 21.—Largely through the help of Mr. E. H. Thierman a fund of \$100,000 a year for five years has been given to maintain an experimental school for the study and administration of public business. While the school is to be started here, the group is intended to be national. A statement of the plan by the Bureau of municipal research with which Mr. Thierman has been co-operating, announces that requests for extension of this work in other cities and the inability to secure a sufficient number of men qualified to take it up, suggested to Mr. Thierman the need of providing a training school for public service. Mr. Thierman has recently been consulting personally and by correspondence, business men, jurists, educators and public officials as to the need of such a school, and with their exception, they have replied that training for this work is needed.

In order to make possible a five years' test for the training school, Mr. Thierman has secured the sum of \$40,000 for the first year and \$100,000 a year for the succeeding four years. He has also secured contributions of \$30,000 a year from other sources.

All of the contracting parties are well known and highly respected and have many friends who wish them happiness. The ceremony was pronounced by Rev. P. L. Hartlett, following which a delicious wedding dinner was served, covers being laid for twenty guests. Both couples received many handsome and useful gifts.

They left on the evening train for Seattle, where they will spend the winter, returning to Buhl in the spring to make their home on their ranch west of the city.

M. C. Ware has sold his residence property to R. W. Merryweather, and has moved his family to Twin Falls.

General Passenger Agent D. E. Burley of the O. S. L. was in Buhl Saturday overseeing his sale of fancy thoroughbred Durac Jersey horses, on his stock adjoining the townsite.

The turkey dinner given by the Aid society of the Presbyterian church, Saturday evening, was well patronized and a success in every way.

It is known, formerly of the Elmer State bank, but who is now in the sheep business south of Elmer, was in Buhl Saturday on business.

Geo. Harlan was looking after company business in Buhl, Saturday.

A. J. Lindley is on the sick list.

NOTICE OF SHERIFF'S SALE.

By virtue of an execution in my hands, issued out of the district court of the Fourth judicial district of the State of Idaho, in and for the county of Twin Falls in the suit of J. Benj. Hall, plaintiff, against F. W. Whittier and Frank McDonald, co-defendants, do hereby advise under the firm name and business of F. W. Whittier and Company, defendant, duly attached the 16th day of November, A. D. 1911, I have levied upon all the right title and interest of the said F. W. Whittier and Frank McDonald in and to the following described real property situate in Twin Falls county, Idaho, viz: Lot Twelve (12) Block One Hundred Fifty one (151), of the original townsite of the City of Twin Falls, according to the final and amended plat thereof on file in the office of the recorder of Deeds of said County and State, and lots Ten (10) and Eleven (11), of Block One (1), of Ball Road Sub-division of the City of Twin Falls, according to the plat thereof now on file in the office of the Recorder of Deeds of said County and State.

Notice is hereby given, that on Friday, the 17th day of December, A. D. 1911, at 10 o'clock A. M. of said day, in front of the county court house, in the city of Twin Falls, State of Idaho, I will sell all the right title and interest of the said F. W. Whittier and Frank McDonald, in and to the above described property, at public auction, to the highest bidder for cash in lawful money of the United States, to satisfy said execution and all costs.

Given under my hand, this 22nd day of November, A. D. 1911.

Germs Spread in Skin

Scabies, Eczema and other skin
troubles are caused by myriads of
germs at work in the skin. These
germs are promptly destroyed
they multiply, gnawing their
way deep into the sensitive tissue.
This is what causes that awful itch,
and what seemed at first a rash
may grow worse and develop into a
serious and long-lasting skin disease.
If you have skin trouble, don't
take any chances. Destroy the
germs at the beginning of the trouble
with that soothing and cleansing wash,
the D. D. D. Prescription for Scabies.
A 25c bottle will prove this to you.

We have had experience with many
remedies for skin trouble but have
never seen such remarkable cures as
those from D. D. D. Prescription. In-
stant relief from the very first applica-
tion.

We are so confident that D. D. D.
will reach your cure that it will cost
you nothing if the very first full size
bottle fails to make you completely clear.
If you have skin trouble of any
kind, we certainly advise you to drop
it and buy the D. D. D. Prescription.
We know that D. D. D.
will help you.

BULLETIN ON VINEGAR

Commissioners Wells Will Protect the
Makers of Pure Vinegar.

It is against the laws of Idaho to
sell vinegar from any cask or keg, un-
less the said cask or keg is branded
or stenciled on the head with the true
name of the vinegar maker of the ar-
ticle or articles from which it is made,
and the name and address of the man-
ufacturer. This placing of a printed
label on the cask or keg is neither
branding nor stenciling. Dealers
should see that the head of the cask or
keg containing this information be on
top, exposed to the view of the con-
sumer, for whose benefit this informa-
tion is required by law.

All dealers who guarantee from the
wholesaler or jobber or manufac-
turer that the vinegars they buy
comply with the pure food laws of
Idaho, have lately been exhibiting
off the market a lot of distilled vin-
egar, colored to imitate the color vin-
egar, which the pure food laws re-
quire to be a good grade of pure clear vin-
egar, and from their apples are pro-
tected from the adulteration of such
vinegar. It is the duty of the dealer to
protect the public from the sale of such
adulterated vinegar. If it is mixed, col-
ored, or otherwise adulterated, it is
damaged or inferiority is concealed. In
our opinion the addition of coloring
matter to any type of vinegar is in-
terfering with the sale of pure vin-
egar, and is therefore prohibited.

spector.

BULLETIN ON INDIAN POULTRY

The sale of unwholesome poultry (i.
e., poultry containing the trichina or in-
testines) is forbidden under the food
laws of Idaho, which prohibit the sale
of "any part of an animal unfit for
food." The following sections of the
law cover the subject, as constructed by
this department:

"An article of food shall be deemed to
be adulterated if it consists in whole
or in part of a diseased, filthy, decom-
posed, infected, tainted, putrid or ro-
ten animal or vegetable substance or
substances. Or any part or portion of
an animal, diseased or otherwise unfit
for food."

"It shall be unlawful for any person
or persons, partnership or corporation to
sell or offer for sale the meat of any
cattle, sheep, swine, fowl, game, fish,
poultry or other animal which is diseased,
infected, tainted, putrid or rotten, or
in any part of an animal unfit for
food."

The possession of any food, the sale
of which is forbidden by law, is prima
facie evidence that it is for sale.

This bulletin is mailed to dealers to
show that they may not violate the law.
Prosecutions will be instituted against
any and all persons found so doing.

spector.

THE GOVERNOR'S SPECIAL.

First of its Kind Ever Undertaken—
Great Advertisement for West.

(By Herbert H. Smith.)
More than one hundred of a county fair, a chautauque course or high school dedication can testify for the trouble of the people in getting the content of a Governor of a state to be present. What, then, can be thought of the colossal nerve of a man who would ask ten governors of as many states to meet in one place not only for one day but for twenty-one days. This is what James H. Brady has done. Twenty governors from the west and recently governor of Idaho. He is now the brains behind the governor's special which will start from St. Paul, November 27 carrying the chief executives of at least ten of the western states. These men are being on a mission of education and good will to the people of the west. Stopping at 21 cities between Chicago and New York this party will travel some million and give an opportunity to 12,000,000 people to know more of the west.

First of its Kind.
This special train is the first of its kind ever run and is the first time any advertising event as large as this has ever been attempted. It is already attracting the attention of business journals devoted to advertising as one of the biggest stunts ever tried, and papers throughout the east are devoting a good deal of space to this visit of the west to the east.

The governors will have nothing to sell. They will have something to say if they are given a chance, but there is nothing of a commercial nature to this flash of governors to the Atlantic seaboard and back. The governors will carry their card cases and will extend to the people of the east the good wishes of the people beyond the Mississippi river. There have been in the past many visitors of one sort or another from the east to the west, but never before has there been an organized method of returning these visits. The governors will extend the thanks for these visits and meanwhile tell a little about the country from which they came.

Carries Four Exhibit Cars.
This train in which the governors will ride will also carry four exhibit cars, each state to have half a car showing what can be raised in each community. Through these cars the school children and general public of the cities visited will be invited

to pass and look at the exhibits. The governors will act as guides to the parties and explain some of the advantages of living in the west, where life is cheap and yet productive. This in itself will be a great education to the school children of the cities. Many of them have never seen the present governor of their own state. To have a dozen governors from as many states take their time to explain the exhibits will make the lesson one which will abide with them. As a geography lesson it has every advantage of teaching far surpassed.

Here are the cities which will be visited by the governors and the dates as they are now arranged:

Town.	Date.
Chicago, Ill.	November 28
Kalamazoo, Mich.	November 29
Grand Rapids, Mich.	November 30
Detroit, Mich.	November 30
Toledo, Ohio	November 30
Cleveland, Ohio	December 1
Buffalo, N. Y.	December 2
Rochester, N. Y.	December 4
Syracuse, N. Y.	December 5
Albany, N. Y.	December 6
Washington, D. C.	December 7
Baltimore, Md.	December 8
Philadelphia, Pa.	December 9
Harrisburg, Pa.	December 11
Indianapolis, Ind.	December 12
Cincinnati, Ohio	December 13
Columbus, Ohio	December 14
Cincinnati, Ohio	December 15
Indianapolis, Ind.	December 16
St. Louis, Mo.	December 18
St. Paul, Minn.	December 19

Travel on Turkey Day.
No traveling will be done on Sunday, although the Washington will be spent on the road. The party is scheduled to eat the national bird at Detroit. Nearly all the plans will be by night, enabling the governors to spend their days talking about the states over which they preside.

Will Show Old Gotham.
The fact that a dozen governors are traveling in a series of one-night stands, as it were, and reach New York to show that city what is raised on the other side of the continent will be enough to attract attention even from the latest New Yorkers, who cling to their ancient belief that nothing good nor interesting can come from the other side of the North river. This special train of the governors will further aid in impressing them with the importance of the city. It is support in large part. The other cities in the list will

also be forced to pay considerable attention to the governors. Arrangements have been made for a reception of the governors by President Taft for the chief executives of the northwest when they got to his town. December 7. The governors will take along their top hats and whether or not they wear them during the daily lectures on the products of the states they will have them ready for use when they arrive in Washington.

To Be Well Advertised.
It would impugn the dignity of the governors to refer to them as the "greatest aggregation of vote getters in the history of the continent" and

fact that he comes from the west is sufficient guarantee that he is a "live wire," and will see that no detail of this excursion escapes careful attention. Among the governors to be in the party and the states they represent, are: A. O. Eberhart, Minnesota; John Burke, North Dakota; R. S. Vessey, South Dakota; Edwin L. Norrie, Montana; James H. Hawley, Idaho; Oswald West, Oregon; M. E. Hay, Washington; J. M. Carey, Wyoming; J. F. Shafer, Colorado; T. L. Odell, Nevada; St. Paul Pioneer-Press.

*Another of the Knob Hill parties was held at the home of Mr. and Mrs. C. B. Ault when a faraway reception was tendered Mr. and Mrs. H. W. Mund and son Vernon, who departed for Seattle where they will spend the winter. They will return to their farm south of the city when spring opens again. A most enjoyable evening was spent in conversation and music, after which an old-fashioned oyster supper was served. The

friends and neighbors of the Mundts will miss them greatly, but are glad to have such people as Youngs Thomas and family occupy the house vacated. Invitations are out for Friday afternoon when Mrs. A. J. Green will entertain the ladies of her set at her pleasant home on Knob Hill. The Knob Hill telephones will soon be placed in the different homes. Those having phones are J. F. Emery, C. Thomas, E. Hitchcock, A. J. Green and C. B. Ault. A. J. Green who left for Oregon recently, writes that the Hot Springs are benefiting his rheumatism. Mr. and Mrs. E. C. Pitzer were in the city yesterday. Mrs. J. R. Ault attended the Twentieth Century club, Tuesday.

The Ladies of the G. A. R. will meet in the K. P. hall Saturday, December 2, at 2:30 p. m. Election of officers. All members urged to be present.

B. Wilkins was in the city Wednesday from his home in Kimberly on a short business trip.
