CAN HAVE SUGAR FACTORY

Twin Falls Assured of New Industry if Acreage is Secured.

Representatives of the Amalgamated Sugar Company Talk to Farmers and Business Men and Put up Clear-Cut Proposition.

Accompanied by W. T. Jack, president of the Commercial club Monday afternoon and on behalf of the Amalgamated Sugar company of Utah and Idaho, placed the proposition of a sugar beet factory before the assembly. Mr. Jack, as spokesman, gave in a few words the plan of operation by the sugar company. He stated that the growers in Cassia county received \$25,000 from the sugar company last season for a very small amount of beets raised and also stated that the yield was of better quality and quantity than in the older communities. The company where starting the beet growing industry for the first time send out experts who instruct the farmers as to planting, cultivating and irrigating the crops with later instructions as to the plowing of the rows. In the fall the company makes the test for sugar qualities and advise when to harvest and top the beets. The cost per acre for raising the beets was placed at \$32.50 per acre and the guarantees claimed the beets entitle the grower to a minimum of twenty tons to the acre were possible in soil like that of Twin Falls and Cassia county.

Mr. Eccles, when introduced, gave in brief the proposition of his company, that 17,000 acres or more of beets be contracted for a period of five years that his company would build a sugar factory in the locality which would promise the greatest acreage. The company would agree to pay \$4.75 to \$5.00 per ton for the beets provided the sugar percentage reached the 15 per cent mark. If the sugar percentage did not pay \$5.00, however, when the percentage was higher than normal. He stated that the sugar percentage would be handled by the company, which would sign an

BACK-HAUL RATES ARE REDUCED

Reduction of 20 Per Cent Ordered Effective Jan. 1.

WHOLE INTERMOUNTAIN COUNTRY IS AFFECTED BY DECISION.

Examination Shows that Losses to Roadway Will be Less Than One Per Cent of Operating Revenue.

Washington, Nov. 21.—Class freight rates from Oregon, Seattle and Portland to points in Oregon, Idaho and Montana were declared unreasonable today by the interstate commerce commission and reductions averaging 20 per cent were ordered by Jan. 1, 1912.

The decision of the commission affects all railroads operating in the northwest. The proceedings were known as the "back haul cases," the railroads charging for a theoretical back haul from the Pacific coast terminals to intermountain points, although the freight is delivered on the West coast line. The examination of the rates showed that the losses to the roads through the reduction would be less than 1 per cent of the net operating revenue.

SUGAR FACTORY MASS MEETING

Committee Decides to Call Together Farmers of Tract.

MEETING WILL BE HELD IN DREAMLAND PAVILION.

Every Man Interested is Invited to Attend and Take Part in the Discussion.

The committee in charge of getting the sugar factory proposition before the farmers of the tract have decided that the easiest method of reaching the largest number in the short time given would be to call a mass meeting. The date set for the meeting is at two o'clock on Saturday at the Dreamland Pavilion. The question of raising five thousand acres of sugar beets in order to secure the factory will not be the case task and the committee ask that all of the farmers attend the meeting and take part in the discussion and please to contribute some portion of the five thousand acres.

The meeting will be open to discussion by any one interested and the whole question threshed over. Men who have cultivated sugar beets and know the truth about the profit in the business are especially urged to be present and give as much information as possible.

POWER LINE KILLS TWO MORE

W. L. Rose, an Employee Electrocutated at Wendell Friday Evening.

Another Accident at Mountain Home Results in Death of Boy From Gr. Shoshone & Twin Falls Power Co.'s Lines.

Another victim of the power lines here was W. L. Rose, an employee of the Gr. Shoshone & Twin Falls Water Power Co. at the Wendell sub-station, was found dead in the early evening, hanging to a pole where the wires cross the railroad track near that city. The first knowledge of the power company of the affair was when by another employee named Hall, who discovered the body hanging to the pole by the belt strap. The power company turned out the men at once to the spot and did everything possible to preserve life in the unfortunate man. It was found that Mr. Rose had been killed instantly.

As nearly as possible it was supposed that the electric while repairing the power lines crossing the track and which wires were run through a metal conduit, had reached around it.

The pole and touched the wires where they enter the conduit, receiving the shock from the short circuit. The insurance's belt which he wore held him on the pole after it was extinct.

Mountain Home, Nov. 25.—John H. Hopper, 12 years old, son of C. T. Hopper of this place, was instantly killed by one of the high tension wires of the Gr. Shoshone & Twin Falls Power company here today. Dewey Abbott, who was playing with the young boy, was struck by the shock that killed his playmate, escaped unharmed. The company was in no way to blame for the accident.

The two boys were playing near the company's sub-station here, and with a long wire they reached up and hooked onto the high tension system. Both boys were knocked down and the Hopper boy killed instantly. He is the son of a large family of children.

THE SURPRISE OF TWIN FALLS

Will Take Place on Friday Afternoon and Evening.

A great surprise, doubtless to the crowds which will visit the Methodist church on Friday afternoon and evening will be the numerous attractions offered to all who attend. The first of its kind in Twin Falls—and laughter-making amusements are planned for everybody to have a place in the happy occasion. For those who are suffering from loss of appetite we will strongly prescribe a ride on our railway and you will find that it is just what you need right close by in fact that is what our lunch booth is for. To all who come with their families in their buying—we recommend our booths which are checked full of useful and ornamental articles—will purchase the best in the city. We will have a fancy work stall, art stall, baby booth, domestic booth and all kinds of good things. A wise thing for you to do is to make up your mind to come as you will be surprised at yourself for having had such a good time and also at the same time feeling pleased with yourself by having patronized home industries in a practical way. The bazaar is held for the purpose of "clearing off" the church and Home and take supper with us and spend a pleasant evening.

FEATURE AT ORPHEUM.

Author of Well Known Maritime Songs Will Appear at This Week.

Manager Anderson of the Orpheum theatre, has been very fortunate in securing for Thanksgiving week for his popular play house, Don Harvey, the author of "The Blue Bird" and the author of "Mister Johnson Turn Me Loose" and "I'm a Good Old Wagon, But I Don't Break Down." His engagement started last evening and he was greeted by a good house, who thoroughly enjoyed the evening's entertainment. Mr. Harvey was born in "Old Kentucky" and is the son of John H. Harvey, editor of the Louisville Democrat. He is accompanied by his wife and has just returned from a tour of one year in Australia and Honolulu. This is by far the best attraction Mr. Anderson has been able to book this year and there is no doubt but that it will prove a winner.

BOUND OVER.

Jury Finds Jesse Sawyers Guilty of Gambling.

In the case of Jesse Sawyers brought in the justice court last week on a charge of gambling, the jury found the defendant guilty. The case was carried into the district court, Sawyers' bond being fixed at fifteen hundred dollars, which he easily secured.

Ed Bennett, Sr., and Ed Bennett, Jr., were held to the district court on a charge of violating the local option bond of five hundred dollars upon a joint bond of five hundred dollars. Ed Bennett, Sr., was placed on trial on a charge of permitting gambling in his place of business. He was acquitted by the jury, and a similar charge against Ed Bennett, Jr., was dismissed. These charges grew out of the same complaint upon which Sawyers was convicted of gambling. The complaining witnesses in each instance were alleged victims of the illegal practices said to have been carried on, and their testimony was of a high order of equally reliable testimony for the defense, making the cases difficult ones for the jury to settle—burly Bulletin.

JIM ROBERTS BOUND OVER.

Horse Thief Captured in This City Held for Trial in Shoshone.

Jim Roberts, the man who tried to swindle Sheriff Zuk with a worthless check and who rode Pardour's horse to Jerome and exchanged for a fresh one there and rode to Twin Falls where he offered it for sale, was brought before Judge Pollock on Wednesday for a preliminary hearing and was bound over to the district court on a charge of grand larceny. The witnesses were W. S. Berry, city marshal of Jerome; Geo. T. Bloom of Jerome; and Jus. Gulliver of Twin Falls. A charge of forgery may also be made against Roberts. His bond was fixed at \$500, which he cannot fill. It developed later that after failing to get the short list cash—horse check, he forged Zuk's name to a check for \$20.00, which he cashed here in town. The officers expect to convict him of forgery in Shoshone jail.

UNION SERVICES.

Churches of City to Hold Services at 10:30 Thanksgiving Morning.

The annual Thanksgiving service of the churches of Twin Falls will be held at ten o'clock Thursday morning in the Presbyterian church. The services will be conducted by Rev. Mr. Shoemaker of the Christian church. Special music is being prepared for the occasion and the services, including a splendid interest in the day is herewith given.

THE ISIS THEATRE.

For Wednesday and Thursday of This Week "The Colleen Bawn."

Manager Wilson of the Isis has been able to secure for Wednesday and Thursday of this week "The Colleen Bawn," an Irish drama in three acts. This is said to be the most expensive picture ever made. Every scene is taken in Ireland. Spectacular music and songs that are dear to the heart of every native of the Green Isle will be played and sung. There will also be one reel of first-class comedy. A special Thanksgiving matinee will be given Thursday afternoon from two to five.

Dr. J. C. Patterson returned Sunday from Boise, where he had been for several days on business.

SPECIAL MEETINGS.

Organ and Wife Conducting a Series of Meetings at Church of Christ.

Evangelist C. L. Organ and wife of Des Moines, Iowa, who are conducting the revival in the Church of Christ, are arousing a splendid interest in the beginning of the meeting and large numbers are attending. The services are thoughtful and inspiring and delivered in a pleasing and forceful manner. Several have already responded to the invitations and the church looks forward to a season of

great blessing and the salvation of many. There are many people living in the community who have been invited by the churches of Christ elsewhere. Brethren, we cordially invite you to the services and urge you to identify yourselves with the church for your own good and that of your help in all efforts to win others to Christ. All Christian people and the non-Christian are cordially invited to these services. The special music, both vocal and instrumental, is made a helpful feature. Come and bring your friends.

B. F. SHOEMAKER, Minister.

LAND SHOW GREAT SUCCESS.

Oregon Short Line-Union Pacific Exhibition Shows Feature.

Chicago, Nov. 26.—The United States Land and Irrigation Exposition being held at the Coliseum is proving the most successful of the season. The show was arranged in this country over 50,000 people were in attendance during the first week of the show, these being actually from Illinois, Indiana, Ohio, Iowa, Michigan and other middle western states, and it is estimated that the attendance for the Oregon Short Line will secure many hundreds of new settlers as a result of this attendance. It is safe to estimate that the show will record an attendance of over 200,000 up to its close on December 9th.

The exhibits that are attracting more attention probably than any other are those of the Union Pacific-Oregon Short Line and related lines in which the features, "potatoes" and other products are strongly featured and attractively displayed. Friday, November 24th, was "Potato Day" at the show, and the exhibits were so arranged that the potatoes were given away to those in attendance.

In addition to its great feature exhibits, the Union Pacific-Oregon Short Line system is conducting two lecture courses, where daily lectures are given, illustrated with motion pictures and stereoscopic views.

The related lines' expenditure at this show will pay way up in the thousands of dollars. The association feels that the money will be well spent when it is realized what great benefits the intermountain states will derive from it.

BEEHIVE HOLD SESSION.

Membership Increasing in the New Organization.

The Twin Falls Beekeepers Association held a very interesting meeting in the Commercial club room Saturday and spent the time in discussion of the live bee colonies. The association is making an effort to increase its membership and become affiliated with the national association. In order to do this, the association will require the greater part of this number has been secured and it is hoped that the next meeting will see the full membership an accomplished fact.

The question of a stained bee inspector for this tract was brought up. The association will be made to get an expert for the next year who will put in his time bettering conditions and giving out honey. National Lecturer O. D. Nelson, a president of that state association, will in a short time deliver a live bee lecture. The exact date will be announced later.

Wm. Thompson Asks Damages for Failure to Deliver Water.

William Thompson, one of the successful business men and farmers of the No. 1 Side tract, has entered suit against the Twin Falls North Side Land and Water company for \$2,000.00 damages due to the fact of crop season of lack of water to be furnished by the defendant company. This is the first suit of the kind to be brought to determine the responsibility of the company and will be watched with considerable interest by the farmers of southern Idaho. The case has been filed in this county and it is more than likely it will be transferred to the United States court for hearing. The law office of H. H. Brock and H. H. Brock of this city is looking after the interests of Mr. Thompson.

Furniture For Christmas

Why not Buy Something Useful and Lasting for Christmas Gifts this year.

What could be more appreciated than a piece of Good Furniture?

Is there anything that offers better opportunity for the exercise of good taste or gives more genuine pleasure and permanent comfort? We think not, and with this idea uppermost we have gathered together from the world's best materials the most complete stock of really good furniture ever shown in Twin Falls. Quality comes first but we have taken special pains in the selection of this stock to see that comfort has not been sacrificed, neither has the artistic side been neglected, and while the prevailing modern styles have a tendency to plainness, the rich colorings and soft dull finishes overcome all stiffness and lend a charm that has not been equaled by the craftsmen of any former period.

The Living Room

Is entitled to first consideration. You should see the Luxurious Loose Cushioned Couches, Rockers, Suites and odd pieces that we have provided for it.

The Dining Room comes next and our complete Suites in Waxed, Turned Early English or Polished finish will appeal to your taste and fit your purse.

The Library has not been forgotten and our Library Tables, Book Cases and Desks, all the modern finishes will enable you to furnish this room to suit your particular ideas.

Next comes the Kitchen and if there is anything in the furniture line that goes to make a Kitchen convenient we have it. Starting with the celebrated McDougall and Hoosier Cabinets and going on down the line to the cheapest Kitchen table, there isn't an article in the list that isn't worth more than we ask for it.

FOR THE BED ROOM.

We have White Maple, Birds Eye Maple, Golden Oak, Waxed or Polished Circassian Walnut, Mahogany and white Enameled Dressers, Chiffoniers and Beds. Also a very complete line of Iron and Brass Bedsteads at very reasonable prices. The numerous small items such as Foot Stools, Taborettes, Paper Baskets, Plant stands, Clock Shelves, Smoker's Stands, Cellerettes, Work Baskets, Etc., are all here and priced to suit the times. Don't forget us when doing your Christmas shopping, we want to show you all these things and many more we haven't mentioned.

 A scarlet fever scare was experienced last week and a number of pupils were kept home from school. The quarantine physician was called and found nothing more serious than chicken pox. It was the old story of "The Black Crow," and we feel a sense of delight that such is the case. However, we do not like such reports. Kimbly heard that Twin Falls was alive with scarlet fever and in Twin Falls doubtless heard that Kimberly was thronged with scarlet fever patients, and when the conditions are sifted down there is very little of the disease in either place, and at the present writing none has been at Kimberly. Let us be careful to spread neither the real disease nor the fiction.

HAWLEY WILLING TO RUN.

Governor Announces He Would Not Refuse Second Term.

Spokane, Nov. 28.—Governor Hawley will be a candidate for a second term if the Democratic party demands his re-election. This statement was made by the Idaho executive in Spokane today.

"I do not desire the office and would prefer to devote my time to local practice. I will not be an active candidate for the office. In the event that no active leader should be found for the Democratic state party, I presume I would not refuse to accept the nomination for the second term."

A BANNER YIELD.

High Wheat Farm Leads the Northwest for Production Per Acre in 1911.

The biggest yield of wheat per acre which has been reported this season in the northwest, and one that will probably remain at the head of the column for several years to come, is that of a nine and a half-acre field known by J. W. Snyder for his ranch. The field is southwest of Huhl, which made a fraction over 82 bushels per acre. The strain was of the Ditchlow variety.

Chief clerk of firm 50 to 70 bushels per acre of this same variety, and in the same locality have already been reported in the columns of the Herald. This shows what intensified farming will do.—Huhl Herald.

MORE LAND FOR ENTRY.

Greater Part of 124 Square Miles is Desirable for Farming.

On December 20 southern Idaho will witness a genuine public land opening on lands released for entry by the government, located adjacent to the town of Shoshone and consisting of approximately 124 square miles or 80,640 acres.

Plats covering the land to be thrown open for entry have been received at the United States land office at Halley and will be officially filed there for the use of entrymen on Dec. 20. The land described in the plats is as follows:

- All of township 6 south, range 16 east, excepting sections 1 and 2.
- All of township 14 south, range 16 east, excepting sections 1 and 2.
- The west half of township 14 south, range 17 east. Land included within township 14 south, range 17 east, has been withdrawn for classification as coal lands, and is subject to entry under the act of June 23, 1910.—Nampa Leader Herald.

H. O. Anderson appeared and appeared before the state board of land commissioners in a Carey Act contest case. Mr. Anderson is contesting for a piece of land a few miles from this city and is of the opinion that he has a clear case. J. Vanderberg and S. E. Albersson were with Mr. Anderson to act as his witnesses in the case.

William Grossman, who has been visiting his cousin, Perry Grossman, for the past week or ten days, departed Tuesday evening for Los Angeles, Calif., where he will visit for some time before returning to his home in Pennsylvania. Mr. Grossman was making his first visit to the Twin Falls tract and was well pleased with this part of Sunny Southern Idaho.

The branch train running from Shoshone up the Wood river—country changed time beginning Sunday. The train used to remain all night at Ketchikan, running down to Shoshone to make connections in the morning. It now leaves Shoshone at 8:45 a. m. arriving at Halley at 11:15 and Ketchikan at 11:45, leaving Ketchikan at 2:25 and reaching Shoshone again at 6:25 in the evening.

J. A. Snyder, the potato baron, is entitled to wear another band on his sleeve as he has made another record, this year his honors are from the corn field and he shows a rubout corn at the rate of 126 1/2 bushels to the acre. Mr. Snyder had only a trifling over a quarter of an acre planted in corn and he was not striving for a particularly large yield, but when his corn was measured it produced a little over 28 bushels, which figures out at the rate above stated. The variety was Cassia County Flint. A sample of this corn is on display at the Twin Falls Commercial club.

FILER HAPPENINGS.

Social and Personal Items Taken From the Filer Journal.

Mrs. W. P. Guthrie of Twin Falls, was a Filer visitor yesterday, a guest of the Woods.

Elmer Hase, vice president of the Filer State bank, arrived here Saturday from Chicago to assume his duties for the bank. Mr. Hase, while a young man, is an experienced banker, and will bring to that institution rare ability and sound financial discretion. He is much pleased with what he has seen of Idaho, and will grow an enthusiastic over the country as the result of his Idaho trip here.

Dr. Armes has rented one of the new Dingley houses, and expects to shortly move into the fine home. Filer his home. He will enter actively into the practice here, and in fact is already answering whatever calls are made upon him. The doctor has had large experience, having for several years past been connected with the medical department of the Hot-Springs hospital. Both Mr. and Mrs. Armes will be gladly welcomed, as their coming will add both to the professional and social life of Filer.

W. A. Smith and family left Tuesday for Arcadia, Florida, where they have bought land and will make it their future home. Mr. Smith and family. They retain their farm here so in case they are dissatisfied with Florida they can return.

Something unusual is in the air this week that has caused at least four boys, ranging in age from fourteen to sixteen years, to pull up and start for their homes. Both Mr. and Mrs. Hargis started from Filer and got as far as Filer, when they were caught up with by City Marshal Hartley and stopped in their will corner and taken back to their homes in Filer. Two Filer boys, Vern McHale and Spencer Hill, about sixteen years of age, concluded they would break the monotony of the quiet life of Filer and go east. They reached Salt Lake and found the weather there so heavy cold, and so was the people of the world. They started on their return at once and had reached Pocatello when they were picked up by the officers of the law and held until Sheriff Vanaunderland arrived for them. They were brought before the county judge and were ordered to return to their parents with the request to report to that official every week. The boys say they will report by their own means.

The Filer grammar school basketball team will play the Washington school tomorrow afternoon on the Washington grounds.

W. D. Parsons received word last Thursday that his father had died at his home in South Dakota, and he left on the evening train to be present at the funeral.

Mrs. H. E. Corum left Saturday for Portland, where she will join her husband for the winter. The house here has been rented during their absence to Mrs. Thompson.

Deputy Sheriff Harriman was in town Friday on business.

Mrs. Ed Ripley has a sister from South Dakota, visiting here.

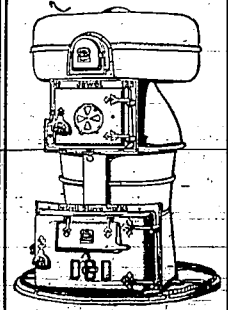

Brother has sold his 1500 sheep and will now get more.

Remember the big dance at the opera house Thanksgiving night.

J. H. Chisholm, who is a heavy stockholder in the Buckeye at Jarbridge, says he has just received word the company has made a big strike. He has sold his ranch south of town to Klaus Bros. of North Dakota, who have arrived here with their stock and household goods. They also brought 25 head of registered Jersey cows and will go into the dairy business on an extensive scale. They will also plant twenty acres to spuds. They are substantial farmers and will be gladly welcomed to the tract. Mrs. Chisholm will go to Canada on a visit while Mr. Chisholm will look after mining business at Jarbridge.

A GOLDEN NUGGET FOR EVERY HOUSEHOLD.

A Nugget More Valuable in the Household Than The Product of the Mines. That Nugget is

GOLDEN VESTA BUTTER

In full pound cartons. The health of your household is priceless—beyond the purchasing power of gold. No one necessity of the table causes so much trouble if it is bad or unwholesome or so much pleasure if it is sweet and sanitary as Butter. We are talking

Golden Vesta Butter

to you because we believe that it is worth while to any housewife to purchase butter that will give satisfaction for every ounce of the sixteen in the pound.

In the first place it is made by experts who have discovered after years of experience that certain things must be observed in butter manufacture.

It is sanitary because the Lincoln Produce and Refrigerating Company is particular about sanitation and watches every process from the receiving of the cream until the Golden Butter is placed in the carton to send to the retailer.

It is this care that is making Golden Vesta a household word such as Jarbidge stands for gold to the mining men.

BLAZE DESTROYS POWER BLDG
Transformer Plant at Gooding Is Again Burned to the Ground.

For the second time within a few months the transformer plant of the Great Shoshone and Twin Falls Light & Power company north of Gooding was consumed by fire Monday of this week. The building was a temporary one of

which consumed the original early last summer. The transformers, however, were good, and the fire completely destroyed them, entailing a loss of approximately \$4,000.

Last week the transformer burned out and a new one had just been placed and connected. It had been in operation but three days when the fire occurred, lightning being presumably from defective insulation which was overlooked in the haste to make the connections and power and light supplied to Gooding.

Gooding was as a consequence of the fire out light, and power again Monday morning, and for a time Tuesday. The company, as quickly as an engine and crew could be gotten into the yards of the Idaho Southern, made a hurry run to Wendell Monday morning, and directly afterwards, connections were made to the transformer plant at that place, and power and light in limited amount supplied. While this service has not been up to the standard of the company, it has been a means of operation of the motor using plants in Gooding.

The Herald plant has been seriously inconvenienced by the disturbance of power service, but is able to reach its readers nevertheless. The commercial printing department has also been considered tardy in its delivery of printing, but this has been unavoidable.

The magnificent new transformer plant which has been built by the company of brick, on the property of the Idaho Southern in Gooding is ready for the installation of the new type transformers which are to be placed there. These have been craned some time, but are held up in transit somewhere.

COMMISSIONER IN CITY.

Attended a Meeting of the Hay and Grain Men, But No Action Taken.

Mr. Greenbough of the state hay and grain union, was in the city the last of the week conferring with the hay and grain men of this city and district. A meeting was held in the commercial club rooms Friday afternoon and the question of hay inspection was taken up and fully discussed. It was soon discovered that the jurisdiction of the commission did not extend beyond the state and very little good would be derived by having the hay inspected here before shipping as the great majority of the shipments were sent outside of the state. It was the opinion of those present it was better that it would be of little benefit to the shippers so the matter was dropped.

TAX NOTICE.

DR. J. T. EVANS, Optician

Formerly of Boise, Idaho, has moved his office to Twin Falls and located permanently in the room next to the postoffice. Having been visiting Twin Falls for a number of years, I have established a good practice here, but I am better prepared now than ever to attend to my patients. My offices are equipped with the most practical instruments for measuring the errors of refraction of the eye. If objects or words blur or become hazy in reading, or if you become nervous or dizzy from the continued use of the eyes, you must know there is something wrong and come to my office at once. I have many patients in your vicinity to whom I would refer.

TWO COUNTIES ARE WET.

Flight "Bitterroot Error" Known With Twins Against Dryers.
Grangeville, Nov. 23.—At 10 o'clock tonight returns received here from all the voting places in Idaho county with the exception of seven, located in remote districts which two years ago voted a wet ticket. It is indicated that the vote have won the day, a majority of 127 in their favor being now recorded, with no possible chance for this to be

materially changed, it being stated that there are not enough votes in the missing precincts to bring this about, even if all were cast in favor of the drys.

The fight was the bitterest ever known here. Up until 8 o'clock it looked as if the wets would have an enormous majority, but with the returns from the reservation towns the prospects for the county remaining dry looked brighter. However, the big minorities rolled up in Grangeville, Cottonwood, Mount Idaho, and other places in favor of the wets seems to assure the election for that side.

Kootenai Joins Wets.
Coeur d'Alene, Nov. 23.—Kootenai county went wet today, and when the returns are officially canvassed and the result formally announced, it is expected saloons will again be opened in the towns, cities and hamlets of the county.

The proposition that up to the voters was, "Shut the sale of intoxicating liquors be prohibited in the county." Those opposed to saloons voted "Yes," those who believed in licensed saloons voted "No." The vote, with four small precincts which all together will cast not more than 150 votes, stands as follows: "Yes," 3,243; no, 3,434, a majority on the face of the returns of 91 for the wet element.

The wets claim the victory by 169. The drys carried the election to the wets by 79 or 80.

The four precincts not yet reported with the votes probably cast are: Alder, 37; Carlin Bay, 55; Rimrock, 29; Squaw Bay, 25. Alder and Rimrock are conceded to the dry element. Carlin Bay and Squaw Bay are conceded to the wets.

Women who are qualified voters in Idaho took an astonishingly active part in today's election, especially in Coeur d'Alene City, where the majority of the women workers appeared to be supporting the cause of the wets. It is learned that women in other precincts also were enlisted in the wet cause, although, of course, in the outside precincts the presence of women voters were on the side of the drys.

At Coeur d'Alene City the wets carried the very quiet campaign, surprising the surprise today by having 20 carriages to take voters to the polls. Most of the carriages contained a woman worker. The election was also noted for its orderliness and the quiet manner in which it was conducted. From no point so far heard from has a report come of any disturbance. The only contested precinct was Iny View, where for a while the anti-wet supporters claimed they had the election by about 90 to 30, but the real figures are 123 dry and 26 wet.

JARBIDGE HAS BIG LEDGES.

Which Are Showing up Values from \$50 to \$60 Per Ton.

R. R. Cook, a young mining operator in Jarbridge, who hails from Fremont, Neb., is in the city for a few days. He has been conferring with John Dera, his fellow townman, and other operators here relative to the new mining camp in northern Nevada. He leaves this afternoon for his Nevada home, where several capitalists want him to give them a report on mining conditions of Jarbridge. He will spend a short time with his folks and after the holidays return to the diggings.

Mr. Cook says that he feels sure that they have a permanent camp. The development work has been more extensive than at any previous time, for the simple

not been able to finance their companies are willing to give capitalists any sort of a fair proposition, up to taking the control, provided they will give assurance of equipping the property and giving it a chance to show what amount of ore is contained in the company possessed. All who have owned the ground for any length of time have had the property incorporated.

"There are at least 1500 people in the camp at this time," says Cook, "and there are now forty children attending school. I have reason to believe that the wets' work will open up a considerable amount of territory which will show large ore bearing ledges. When the spring opens up so traffic can be resumed, or so the roads into the camp are more easily traveled, I expect to see the camp the home of at least 5000 people. I am going back in February, as I have interested in several of the properties and

reason that operators have a better knowledge of the ore bearing veins, and it is less difficult for them to locate the pay ore deposits. They are finding the ore more extensive and thus far a better grade of the precious metals are found with depth.

For the first time in its history Jarbridge is now on a solid basis. The boom has been replaced by the experienced mining man, according to Mr. Cook, and mining carried on in a manner that gives assurance of the best results being attained. They are finding a considerable amount of rock that carries gold and silver values of from \$50 to \$60 to the ton, yet the best that has been claimed for the camp is one that it is a low grade milling proposition.

One of the best indications of the fact that mine-owners have in the district is evidenced by the fact that no one wants to sell out. Those who have
