SUGGESTIVE QUESTIONS

On the Sunday School Lesson
by Rev. Dr. Linscott for the
International Press Bi-
ble Question Club

Oct. 5, 1913.

(Copyright, 1912, by Rev. T. S. Lin-
scott, D. D.)

Moses' Cry For Help. Num. 11:1-33.
Golden Text—The supplication of a
righteous man availeth much in his
working. Jas. 5:16.

(1) Verses 1-3—Who were the
"mixed multitude" and what was it
they longed for so much?

(2) What is generally the influence
of worldly, unconverted or backslid-
den people in the church?

(3) Did these Israelites have any
real reason for weeping and finding
fault with their circumstances? Why?

(4) If they had been forced to live
on "manure, refuse, bones, and
garbage" for which they now
cried, instead of upon manna, which
they had in abundance, how would
they have taken it?

(5) Verses 4-9—How is it that peo-
ple long for what they have not and
fail to be satisfied with better things
which they have in abundance?

(6) How much has our disposition to
do in making plain food palatable or
pleasant?

(7) What evidence is there that
these people had reason to re-
joice with great joy rather than to bitterly
mourn? (This is one of the ques-
tions which may be answered in writ-
ing by members of the club.)

(8) Verse 10—Why was God dis-
pleased at their weeping?

(9) Judging from your experience
and observation, what proportion of
our sorrow is imaginary and concern-
ing which God is displeased?

(10) Why were the Lord and Moses
justified in being displeased at their
weeping?

(11) Verses 11-15—Would you say
that Moses shows a right or a wrong
spirit in his complaint to God, and
why?

(12) How would you say Moses
ought to have felt and spoken to the
Lord, and how ought he to act when
in our most trying circumstances?

(13) If a man is in ever so sore trou-
ble, is he ever right in committing sin-
cide, or in wanting to die? Give your
reasons.

(14) Verses 16-17—If Moses had
been brave and cheerful in his trouble,
would God still have appointed this
committee of seventy? Give your rea-
sons.

(15) If the appointment of this com-
mittee of seventy was a step toward a
democratic organized community,
would the circumstances which made
it necessary prove that difficulties are
the necessary forerunners of all law?
Why?

(16) Verses 18-20—Which today is
the greater practical evil, eating too
much or too little? Why?

(17) Would these Israelites have
been better off if they had not
made such a pitiful request for fresh
food?

(18) Verse 21-23—Seeing all the
wonderful things Moses had witness-
ed at the hands of the Lord, how do
you account for his doubting the
promise of God?

(19) All Christians have had expe-
rience of how God always makes all
things to work together for their
good; how then is it that in every
great trouble many are afraid that
God will not this time present a salu-
tion?

(20) Verses 24-26—Would you say
or not, and why, that God has men
who are filled with His spirit in every
church and denomination?

(21) Verses 27-29—What is the
proof that all who sin will as certainly
suffer?

(22) Which are more to be pitied,
and why, those that have too little, or
those that have too much?

Lesson for Sunday, Oct. 12, 1913.
Jealousy and Envy Punished. Num.
25:1-18.

CATARRH SUFFERERS
Get Immediate and Effective Relief by
Using Hymenol.

Hymenol is nature's true remedy for
catarrh. There is no stomach dosing
—you breathe it.

When using this treatment, you
breathe healing balsams and effectively
reach the most remote air cells of
the throat, nose and lungs, the cat-
arrhal germs are destroyed—quick
and sure relief results.

Hymenol often restores health to
sore cases that had given up all
hope of recovery. Its best action is
at the start of the disease when the
breath is becoming offensive, and con-
stant sniffles, discharges from the
nose, droppings in the throat, or that
choked up feeling begin to make life
a burden. At the first symptom of cat-
arrhal trouble, surely use Hymenol.

Ask Sells-Wiley Drug Co. for the
complete outfit, \$1.00. They will re-
fund the money if it does not give sat-
isfaction.

NOTICE TO CREDITORS.
Estate of William D. McCabe, De-
ceased.

Notice is hereby given by the an-
dorsed, Stuart H. Taylor, adminis-
trator with will annexed of the estate
of William D. McCabe, deceased, to
the creditors of and all persons hav-
ing claims against the said deceased,
to exhibit them with the necessary
vouchers, within ten months after the
first publication of this notice, to the
said administrator at his office, 127
Main Ave. East, in the city of Twin
Falls, County of Twin Falls, State of
Idaho, said being the first and last
day for the transaction of the business of
said estate.

Dated September 30th, 1913.
STUART H. TAYLOR,
Administrator with Will Annexed, of
the Estate of William D. McCabe,
deceased. Oct. 3-10-17-22

You can't judge a man by the
shape of his nose—nor an auto-
mobile by the size of its
magneto. The harmonious
working of all its parts makes
the Ford a great car. And
big production makes the
price small.

Five hundred dollars is the new price of the
Ford runabout; the touring car is five fifty;
the town car seven fifty—all T. A. B. Detroit,
complete with equipment. Get catalog and
particulars from Western Auto Co., Twin
Falls, Idaho.

A Little Talk on Home Affairs

There are hundreds of swindlers in this land who take peo-
ple's money for subscriptions and move on to the next town to spend
it. Usually these confidence men offer magazines at greatly re-
duced prices.

No standard magazine, that is, no magazine you really want,
permits anyone to reduce its price. You cannot buy the kind of
subscription you want, cheaper than through your newswoman.

Don't pay money for subscriptions—goods not delivered—to
people you do not know. Your dealer pays rent and taxes and
guarantees that your subscriptions will be properly placed with
the publisher. Also he is on the spot as the publisher's agent,
when anything goes wrong.

Do business at home.

Mentor and Munsing Underwear Closing Out

We think Athena is the best on earth, so we are willing to take less to close out other lines.

Booth Mercantile Company

CALIFORNIA EDISON COMPANY

Will Supply California Cities With Plenty of Light.

Secretary Houston has just granted a permit to the Southern California Edison company for the development of additional electric power on the Kern national forest to supply Los Angeles, Pasadena, and neighboring towns.

This company operates seven hydro-electric plants, one of which is on the Kern and five others on the Angeles national forest. The six plants on the national forest are capable of developing 27,000 horse power, although there is not sufficient power in the streams to develop such an amount of power continuously. The company has installed, therefore, a number of auxiliary steam plants, which have a total capacity of about 64,000 horse power.

While it might be supposed that, with such an amount of power at the company's command, there would be little need of an additional supply, especially with other companies operating the same territory, the Edison company was the most valuable for development are on the Kern forest, so application for power permit was made through the forest service in order that the company might develop these sites. It was the permit for this development which was granted by the secretary of agriculture.

The four projects mentioned in the permit are designated by the company as Kern River plants 2, 3, 4 and 5. It is expected that unit No. 2 will be the first to be put into operation, with 1, 5, and 2 following in the order given as the demands of the market increase. It is stated by the company that expensive dams will not be needed, but that the construction of some of the canals will be difficult, and will require a considerable amount of time. Because of this, and also because of the large investment required and the large amount of power that is involved in the development, the department of agriculture allows a period of almost 12 years here the plants will have to be in complete operation.

According to the estimates of the government's engineers the four projects of the company will be able to supply almost 25,000 horse power, except for a few days in a period of five years. Through the use of its steam auxiliary plants, however, the company will be able to obtain considerably more than that amount, and it is planned to install machinery which will have a total capacity of more than 50,000 horse power. This will be transmitted at high tension by means of poles and steel towers over a maximum distance of about 155 miles from the plants to the city of Los Angeles.

FILER NEWS.

(Filer Journal.)

Work on the county bridges will be started at once.

J. T. Cartwright is on the sick list. It seems strange not to see Dad's familiar face at his place of business. Chas. Allen was visiting friends at Cottrell, about 16 miles southeast of Rupert last Sunday. Cottrell is in the great river valley, a dry farming proposition. He says wheat will make from 20 to 45 bushels per acre and other crops in proportion. It is a great country for live stock raising. When they get their railroad they will have a great country. The railroad is about completed now. It is a new country, and the homesteaders and desert climbers are going in very fast.

The O. S. L. have fixed up the yards at this station in a most satisfactory manner for stock shippers. The matter of improving the yards was first taken up by the Townsite company and later by the Commercial club, and the results are very satisfactory to everyone concerned. The railroad company recognized the justness of the requests to enlarge the yards and promptly complied. But few towns about the O. S. L. system exceed Filer in the shipment of stock, and the inadequate facilities appealed to the management and as a result the yards are now what they ought to be.

Earl Walker, from Shoshone, arrived here Tuesday to take a partnership in the P. G. Graves real estate office.

Mrs. Cartwright returned last week from a very enjoyable visit with relatives at Pocatello and other places in that section.

Earl Murry was in Twin Falls Tuesday buying a large line of cigars and candy. He carries the finest assortment of candies in town.

Skittern & Gray unloaded 20,000 head of calves in the yards here Tuesday, from their range up in the Idaho country. Several more carloads are to follow.

Reynolds Bros. have received a sample of the glass for the new church and we are sure that everybody will be delighted with the selection made by the board when they see the sample.

Harry Dinkelacker of Twin Falls has secured the contract for wiring the new church. Mr. Dinkelacker is one of the best electricians on the tract and the church is fortunate in securing his services for this work.

The men who have the contract for laying cement walks in Filer will get busy next Monday morning spreading the dope. They will employ a large force of men and will put down the walks in record breaking time.

Last Sunday in the Filer-Holliester hall came Billy Suckent tried to catch "hot one" on the end of a fence. He couldn't hold it and so he will be obliged to carry it around in a cage for a few days and probably always have a bum finger.

The Journal family in company

with C. W. Case and family, enjoyed a trip in the latter's auto to the home of Mr. Geo. Leonard last Friday evening. The principal object of the visit was to see of Mr. Leonard had really raised enough watermelons to satisfy the appetites of the visitors. It soon developed that he had the lunch buffet. Mr. Leonard had kept tab on the watermelon advice so generously supplied by the Journal during the season that his patch had prospered amazingly. The visitors certainly enjoyed the hospitality of the Leonard home and will call again later.

Frank Brown and wife accompanied by R. E. Persinger and wife, motored to Boise Tuesday to take in the fall livestock show going on.

Isaac Heem and Harry Hannerquist left Monday evening for Boise where they will take in the Indian makers' fair now on in the Capital city.

R. E. Brown left Tuesday for Weiser after several carloads of sheep which he will feed on his place south of town during the fall and winter.

Chas. A. Reynolds is in Boise this week. Mrs. Reynolds, who has been visiting at Seattle, will meet him there and return home together.

J. H. Strauss went to Salt Lake and closed the first of the week to receive a line of novelties in men's furnishings and fall goods. Since Julius has taken over the store from his brother he has increased the stock and will carry a larger line of fall and winter goods than the store has heretofore carried. He will also increase his line of shoes and rubber goods. He proposes to give Filer a clothing store second to none on the tract.

Miss Marie Sommer is the new "hello" girl at the telephone exchange.

George Patton is helping at the depot while Will Shelsen nurses his broken finger.

Mr. and Mrs. Claude Whitney left yesterday evening for Boise to attend the state fair.

Jacob Musser left Wednesday evening for Boise to take in the fair now on in the Capital city.

G. C. Patton, the chairman, wanted to go to Boise Wednesday to attend the state fair, but his clock was slow and he arrived just as the train was whistling for Curry.

Henry Smith of Contract, Nevada, general manager of the Nevada Copper Mining, Milling & Power Co., is in the city today a guest of J. F. Dinkelacker.

Mrs. Mark Carr, who went to Des Moines last summer for an operation for goitre, is reported as being very low. Her husband and daughter, June, left Saturday morning for her bedside.

LETTER TO MR. R. S. COOKINHAM

Twin Falls, Idaho.

Dear Sir: Some things we take a good deal of risk in lavishing compliments of those we authorize our agent to sell in your line. I am sure that if you have any fault to find with this paper, either now in putting it on, or hereafter in the wear, tell your dealer about it.

"We authorize him to do what is right at our expense."

The following story tells how little the risk is:

J. H. Asher & Co. hardware dealers, Reubens, N. Y., have sold Devoe from 25 to now, have sold thousands of gallons and have had just one complaint in all this time.

Three tins of a house were perfect; the fourth was as bad as the three were good.

Explanation--It rained the night before the fourth tin was painted; and the painters didn't wait for the wood to dry.

What is done in such a case? What ever the dealer who sold the paint considers it fair to do. We leave it to him. He may not do exactly what we should do if we were there; but we are not there. The best we can do is to leave it to him. Yours truly,

F. W. DEVOE & CO.
See York and Chicago

Local and Personal

Geo. B. Miller transacted business in the Magic City Wednesday from Boise.

Attorney J. H. Wier returned Wednesday from Boise, where he had been on legal business.

Lee Jones, who makes his home in the Three Creek country, was a business visitor in the city for a day the middle of the week.

C. M. Hill arrived in the city Wednesday from Boise, and was here for several days on business.

T. B. Faraday was a business visitor in Twin Falls for a day or two of this week from Mountain Home.

Mr. and Mrs. J. W. Outman were visitors in Twin Falls for a day the middle of the week from their home in Rupert.

Sheriff H. C. Armstrong was a visitor in the east end of the county Wednesday, being called there on official business.

Ray Scott arrived in Twin Falls Saturday with a car of stock and farming implements and will settle on the Salmon tract.

Mrs. Sam Hittenbender left Wednesday morning for Pocatello, Nebraska, where she will visit with relatives for several weeks.

J. R. Chisman and mother left Wednesday evening for their old home in Memphis, Tenn., where they will make their future home.

Mrs. J. P. Melvin departed for Shoshone Sunday evening.

Mrs. T. S. Lambing was in the city yesterday on a shopping tour.

Miss Belle Wilson visited in the city yesterday from her home in Milner.

Judge J. M. Shank was on the west end of the tract yesterday looking after business affairs.

J. R. Hinton was a business visitor in the county seat yesterday from the Hansen neighborhood.

Mrs. C. C. Bedford and little son Allen went to Salt Lake last night for a ten days' visit with friends.

Clyde Hughes was a visitor in the city the first of the week from his home in the Hansen neighborhood.

Attorney J. W. Porter left Wednesday evening for Gooding where he will attend the session of the district court.

W. A. Ring left Wednesday morning for the Contact copper camp, where he will look after his mining interests.

Mrs. P. A. Pierce returned Wednesday evening from a visit with relatives in Indiana, Illinois and Kansas City, Mo.

W. R. Priebe, Oregon Short Line watch inspector, spent Thursday on the Rupert-Idaho cut-off on an inspection tour.

Deputy State Horticultural Inspector C. W. Brannan, left yesterday morning on an inspection trip on the Idaho-Idaho tract.

C. H. Brown returned yesterday from an extended visit with relatives and friends in Chicago and other points in the east.

Mrs. Geo. Haglund and children left yesterday morning for a visit with relatives and friends at their former home in Illinois.

Mr. and Mrs. Fred Moore, former Boise residents, who have been visiting in the city, returned to Twin Falls Monday.—Statesman.

Ira Brackett, one of the substantial farmers of the Three Creek country, transacted business in the city for several days of this week.

Mr. and Mrs. J. W. Tanner were visitors in the city Tuesday from their home in Filer, returning to their home the same evening.

W. J. Jenkins arrived in the city Wednesday from the Jarbidge mining camp, and will remain in the city for several days on business.

Rev. Walter E. Harman, pastor of the First Christian church, returned home yesterday from Gooding, where he had been assisting in the efficiency campaign in that city.

H. W. Kautz arrived in the city the last of the week from Sioux City, Ia., and will more than likely stay in the city for a few days. He is well pleased with the country.

First Church of Christ Scientist, 230 Third avenue East, Series Sunday, October 5, 11 a. m. Subject: "On-Reality." Sunday school at 10 a. m. Testimonial meeting Wednesday at 8 p. m.

Mrs. M. E. Nixon, who has been making her home with her son, W. E. Nixon, for some time, left Wednesday morning for Claremore, Okla., where she will spend some time visiting her daughter.

F. A. Carlson, chief of the Twin Falls fire department, who has been confined to his home for the past month with typhoid fever, is able to be at fire headquarters a part of each day. He will be on duty in a few days.

Clarence N. Beatty departed the middle of the week for Ottawa, Kansas. It is said that when he returns he will be accompanied by one of the fair daughters of the Sunflower state, whom he will introduce as Mrs. Beatty.

District court will convene in this city for the October session next Monday. The county attorney, C. M. Hill, of the court and the sheriff's office has been a very busy place for the past week getting matters in shape for the opening of court.

Alfred C. Gatos of Boer, and Miss Bertha E. Harvey of Burlington, Kansas, were married at the home of Rev. Dr. Shepherd in this city Wednesday evening. They will make their home on the farm of the groom near Berger.

Mr. and Mrs. G. D. Tucker of Portland, Colo., arrived last Tuesday for an extended visit with their daughter, Mrs. W. B. Patton of the South Star Twin Falls tract. Mrs. Patton is also entertaining her sister-in-law, Mrs. Herbert Smith, of Spokane, Wash.

C. W. Hill and family will leave shortly for Lockwood, Mo., where they will spend several weeks visiting with their relatives. Mr. Hill has been on the tract for several years and thinks that the Twin Falls country is the best in the west and will be able to tell the truth while he is in the east.

First Presbyterian church. The pastor, Dr. E. S. Shouder, will preach at 11 a. m. subject: "The Lord's Day and Life's Enlargement." At 7:30 p. m. the subject will be, "A Great Creation." The first of a series on "Great Thoughts of the Bible." Sabbath school at 10 a. m. and Christian Endeavor at 6:30 p. m.

William Stables, who has been visiting at the home of Attorney W. P. Guthrie for some time, left Wednesday evening for his home in Danbury, Illinois. Mr. Stables was greatly impressed with the Twin Falls tract and the result of his home town would hardly believe that he would tell of the productiveness of the great Twin Falls tract.

Mrs. H. J. Woodson, who has been the guest of her daughter, Mrs. Howard Skeel, left Monday evening for her home in Nebraska.

Mr. and Mrs. Herbert Klokner arrived in Twin Falls the last of the week from Halley and may make their home on the Twin Falls tract.

M. B. Haley, one of the progressive farmers of the Murtach neighborhood, transacted business in Twin Falls the first of the week.

Harry Barber of the Model Stock company, left Wednesday morning for Salt Lake City, Utah, to be absent for several days on business.

Mrs. W. B. Hall returned to her home in Murtach yesterday morning after visiting for several days with her daughter, Mrs. A. L. Bradley.

Mr. and Mrs. A. D. Stafford and daughter, Eunice, returned Monday from a three weeks' visit with relatives in Kansas and Nebraska.

Hilshy Swanson left Wednesday evening for Salt Lake City, where he will attend the semi-annual conference of the Mormon church.

C. A. Terhune left Wednesday evening for Burley. Mr. Terhune will here packed his household goods and shipped them to the same city.

Alex Whyte, the well known blacksmith, left Wednesday evening for Salt Lake City, Utah, where he will spend several days on business.

Geo. F. Yates and Miss Viola H. Gilbert of the city were married for the first time Tuesday afternoon by the Rev. Dr. Shepherd, pastor of the First Presbyterian church.

Harvey W. Hurlbain, who is connected with the Twin Falls-Salmon River Land company, was a business visitor in the city Wednesday from his headquarters in Milner.

Mrs. A. E. Stokes left yesterday morning for St. Anthony, where she will visit with her husband for some time. Mr. Stokes is engaged in the milling business in that city.

Mr. and Mrs. N. A. Hamilton and daughter, Mrs. Snow, who have been visiting at the home of Mr. and Mrs. B. A. Hamilton, returned to their home at Kansas City Wednesday morning.

Miss Gertrude Hall, who has been visiting with her sister, Mrs. A. L. Bradley for some time, left yesterday morning for Idaho. Miss Hall had lately returned from California, where she had spent the past year.

Irvin Clay, American Express agent will leave Sunday morning for Boise, where he will visit for a few days. When he returns he will be accompanied by Mrs. Clay and son, who have been visiting with relatives for the past month.

TWIN FALLS GETS MAIL ROUTE

Congressman Smith Succeeds in Routing Jarbidge Mail Here.

Due to activities of Secretary McMillan of the commercial club, the influence of Congressman Addison T. Smith, Twin Falls is to have the star mail route into Jarbidge, which was lost to the city a year ago to the Jarbidge city of Death.

Secretary McMillan took up the matter with Congressman Smith about a month ago and after some delay, the following telegram the past week, showing both the activity of the congressman, and also his success.

Washington, D. C., Oct. 2, 1913. J. McMillan, Secretary Commercial Club, Twin Falls, Ida.

An endeavoring to convince the post office department that the government would save many thousands of dollars yearly by establishing mail route to Jarbidge by way of Twin Falls and Rookerson, and am assured by the Fourth Assistant Post Master General that the matter will again be taken up for reconsideration. The department has always been opposed to having both a north and a south route into Jarbidge. The increased quantity of merchandise per that camp which has to go in by way of Ogden and Death at a great cost, will possibly influence the department to establish a north route into Jarbidge without interfering with the route from the south.

ADDISON T. SMITH.

Washington, D. C., Oct. 1, 1913. J. McMillan, Secretary Commercial Club, Twin Falls, Ida.

Fourth Assistant Post Master General has promised to advertise for bids for carrying the mail into Jarbidge from the north, either as an extension of the Three Creek route or from Rookerson. Am writing.

ADDISON T. SMITH.

OPENING MEETING OF CLUB

Parliamentary Section of 20th Century Club Will Start Oct. 6.

The opening meeting of the parliamentary and eloc departments of the 20th Century club will be held at the home of Mrs. J. L. Dube, 401 Seventh avenue North, on Monday, October 6, at 7:30. Every club woman must be present at the opening meeting. The meetings are handled from a parliamentary viewpoint, and the leader urges those who desire to join this department to attend the first meeting. Instruction will be given at the opening of the parliamentary law, the election of officers, resolutions, proposed, adjournment also and adjournment to the next meeting. Any inquiry of the club secretary will be for membership to the parliamentary and eloc department.

BERTHA G. MORSE, Chairman.

NOTICE TO THE PUBLIC

On and after the first day of October, I will not be responsible for any debts contracted by my wife, Ethel McGregor.

ANIMAL CIRCUS COMING

Salt Lake Well Pleased With the Attraction.

The A. G. Barnes Animal circus, arrived in the city at 9 o'clock this morning instead of at 4 o'clock as was scheduled. The delay having been caused on account of a wreck near Provo lake. The wrecked train was ahead of the circus train, which was delayed a few hours. As a consequence the circus was unable to leave the grounds until 12:30 o'clock.

"It is too bad we haven't several pairs of eyes to see to a circus," said a woman to her husband this afternoon when she started for the big tent of the Barnes circus. "There will be too much to see with one pair."

"I saw it before and I wish I could see it twice today," said her husband. They expressed the sentiment of many who have formerly witnessed the performances of the Barnes wild animals.

Hundreds of people, large and small, old and young, high and low, thronged the circus lot all day and evening and Sunday this morning while the big tent of the Barnes circus, which was erected in the city, was being erected. They were like the circus crowds everywhere to get a glimpse of circus life. They were not in the least disappointed, as the Barnes show is an excellent one. The big tent alone is a wonder of wild animals, elephants and camels and scores of beautiful horses and ponies were presented to view. The big tent is equipped with better lights and is fitted to overflowing with entertainments that can be seen at no place but within the walls of a tented circus city.

The beautiful appearance of the street parade was the cause of much favorable comment from the thousands who gathered about the downtown streets. There was variety, size and picturesque presented. The costumes worn were most noticeably neat and sparkling.

There is something in the rattle of the gilded wagons and the "peeps" that one gets at the wild animals, the trumpeting bands and the clowns, and last but not least, the familiar sound of the steam's whistle, the customary faller, that gets one going.

The Barnes parade was a pleasing spectacle, especially the horses and ponies, as a person could not ask to see better anywhere. There were scores of them, some large and some surprisingly small. And the animal cages were open, showing a collection of wild beasts, especially lions, that cannot be excelled with any organization of its kind.

The afternoon performance began at 2 o'clock. Another show will be given this evening commencing promptly at 8 o'clock. The doors will be open at 7 o'clock, which will give the patrons ample opportunity to inspect the menagerie and to feed peanuts to the elephants.—Salt Lake Telegram.

THOUSAND CARS OF APPLES SOLD

North Pacific Distributors Make Record at Nampa.

One thousand cars of apples for future delivery were sold through the North Pacific Fruit Distributors in the last week for a total price of approximately \$1,000,000. The cars averaging \$1,000 each. It consisted of Washington, Idaho, and Grimes Golden. All the 1000 cars averaged from \$1.25 to \$1.50 a box, f. o. b. shipping point. This averages about 25 cents a bushel in apples shipped by independent dealers.

The presence of the North Pacific Fruit Distributors in the northwestern apple industry this season will mean just about \$2,225,000 extra to the growers," said H. F. Davidson of the organization of the organization, Wednesday night. "About August 1 the very best price we hoped for was \$1 to \$1.25 a box and today the price is at least 50 cents a box higher. The northwest apple crop for 1913 is estimated at 7,500 cars, or about 4,500,000 boxes.

The apple crop is shrinking in a manner that is almost startling. It has been very greatly over-estimated. There has been a shrinkage in the last 20 days to just about 50 percent of previous estimates. It has been our custom to have the growers in our districts give an estimate of the crop at monthly meetings at the probable tonnage, and at each monthly meeting the reports have shown a decrease in the crop northwestward. Still the reports show an increased membership in the distributors, and within the last month 25 new locals have joined.

"The organization has been able to maintain the regular prices, but last week quotations were withdrawn on account of the heavy bookings. The crop shrinkage made this necessary, and for several days we refused to accept orders. However, prices will be quoted again immediately in harmony with the rapidly changing conditions."

"At today's meeting the trustees were so well pleased with the shrinkage of the crop that the board decided to leave entirely with J. H. Robbins, the general manager, the matter of prices and the distribution of the crop of the northwest."

W. S. H. Robbins, the general manager, reports on the work of the trustees in the northwest. He reported that the crop of the northwest was estimated at 7,500 cars, or about 4,500,000 boxes. The crop shrinkage made this necessary, and for several days we refused to accept orders. However, prices will be quoted again immediately in harmony with the rapidly changing conditions."

BEAUTIFUL BUILDINGS OF THE WORLD

"Learn One Thing Every Day"

No. 4. SALISBURY CATHEDRAL.

Copyright, 1913, by The Associated Newspaper School, Inc.

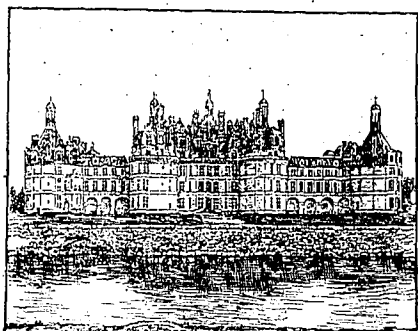

The Cathedral of Saint Mary at Salisbury is not filled with shining and warm colors as the churches of southern Europe are. Its builders did not rather at simplicity such as the fathers used, plain gray walls, unadorned columns and arches, and few paintings. The office of the cathedral is not far from Salisbury. Here we have the outcome of British race feeling in splendidly finished architecture placed almost side by side with the early crude expression of it.

The cathedral was begun in 1220 by Richard Plantagenet, the 1st Earl of Cornwall, who was a man much admired by the officers of the king. It was decided to move the church to a site on his own land which has since been named Salisbury. Old Sarum Cathedral, built on a bleak hill, had suffered for lack of water. In his choice of a foundation Richard Plantagenet was to the extreme; for the swampy fields by the Avon on which this new cathedral was erected were so often flooded that service had sometimes to be suspended for days.

The beautiful Lady Chapel was built in five years. The entire building, except the apse, which was not in the original plan, took only forty-six years to complete. It was consecrated in 1265. But when the apse was erected the architect in charge failed to remember the foundations sufficiently. The pillars and arches bulged; for they had never been intended to support such weight. In spite of many of the towers and buttresses built the tower sagged nearly two feet toward the south, and has remained in that position ever since.

Though simplicity and plainness are characteristic of the original Salisbury Cathedral, they have been emphasized in the point of harmony by the restoration of James Wyatt, who destroyed nearly all the stained glass windows, two chapels, and a belfry, and moved many of the towers. There are niches in the cathedral for over a hundred statues, which for some reason were nearly empty at the middle of the last century. The statues now in place are almost all modern; sculptured, however, with a view to holding the original significance of the architecture. They are arranged to represent the Te Deum.

No. 5. CHATEAU de CHAMBORD

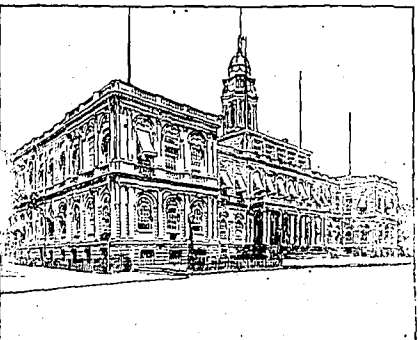

In the park of the chateau, near the banks of the Loire, great ragged trees reach out across the sky, cutting off the light of the stars. It is midnight. Indistinctly from the direction of the chateau comes a baying of deerhounds. It passes overhead through the middle air, with the tramp and the sound of hooves, then dies away into the distance. The ghost of Thibault de Chambord, first hereditary Count of Blois, a black hunter followed by black dogs, is chasing the stars. Even midnight, so the people of that country say, the grim old baron rides by with a full pack.

Count Thibault had a castle thereby the Loire, and for centuries his descendants used it as a hunting resort. In 1547 it passed into the hands of Louis XIV. Orleans, who knew the abandoned structure in his boyhood, developed in the country round this castle of the future of the Loire. Though by no means a ruin today, the royal chateau, when he might have chateau suffers for lack of the material built on anyone of a hundred lovely spots not far away along the Loire.

The king's taste did not please his courtiers, who were less fond of hunting and solitude. They would have preferred a large city, or at least some fertile valley nearby. Chambord was a palace in the wilderness. It could not be seen from a distance, and the view from its windows was only a forest. In the chateau, the architect, after racking his brain over the problem, cut up the roof for projecting windows in that style which has since become known as the Mansard roof. The principal part of the center is also Mansard's work.

In 1793 the revolutionists sold every point of value that could be moved from the chateau, and Chambord was stripped of its glory in a few days. It has never been completely restored.

No. 6. CITY HALL, NEW YORK

With the highest buildings in the world rising in rivalry nearby, it is not surprising that the architect, but it would be safe to say of him as the builder, since most of the designing seems to have been done by a French surveyor, Joseph Mangin. To Mangin are probably more carefully executed than any of

the older public buildings in the country. John McCord is generally accepted as the architect; but it would be safe to say of him as the builder, since most of the designing seems to have been done by a French surveyor, Joseph Mangin. To Mangin are probably more carefully executed than any of

\$100 in Premiums To Our Patrons

In order to stimulate the interest in dairying in this section, we have decided to offer \$100 in cash, to be divided into four premiums of \$50.00, \$25.00, \$15.00 and \$10.00, to the four patrons of our creamery who shall keep a daily record of the weights and take periodical samples to be tested for the butter fat production of their herds of cows and who shall show the four highest herd yields per cow in their dairies for the period from

October 1, 1913 to June 1, 1914

The award to be made June 15, 1914. The cream to be delivered to our driver or agent, or to our creamery in Twin Falls, and all weights, samples and tests of milk made under our direction or supervision, and subject to a check by us on the cream so delivered.

We will a little later submit rules to govern this contest, which we shall endeavor to make fair to all. No results shall be published other than those winning premiums, and the general average of all herds, except that any contestant shall have the privilege of publishing the production of any individual cow in his herd. It is worth your while to know just what your cows are doing, both as individuals and as a herd. Let us help you hunt out your star-herders.

Apply to us for rules governing contest.

BEAUTIFUL BUILDINGS OF WORLD

(Continued from Page 6.)

due that shapely and dignified architecture which gives it a place among beautiful buildings, and the official design of its decorations. McComb carried out the work of building with great care, receiving six dollars a day for his time. The construction was begun in 1903. The first intention was to use brownstone. McComb, however, saw that no manner material than marble could be justified to the purpose or the workmanship of the proposed City Hall. Accordingly he persuaded the committee in charge to let him use marble on three sides. The stone was hauled over from the Berkshire Hills by horses and oxen; for locomotives had not yet been invented.

One room of the City Hall was set aside for the state governor's use, and it has lately been restored to the original condition. Many excellent portraits hang on the walls. The furniture of the Governor's Room was largely taken from Federal Hall, where Washington was inaugurated, and the city government was located before the building of the City Hall. Federal Hall had unfortunately been destroyed. It stood at the corner of Wall and Nassau Streets, and was built with stone from the wall that gave Wall Street its name.

A number of years ago there was a proposal to remove the City Hall from its present position because it was no longer large enough for the city government and was too far from the center of Greater New York. Then, because of its architectural merit as well as its history, the plan was dropped, and both building and park have been kept intact.

In each issue of The Times three different human interest stories will appear. You can get a beautiful illustration reproduction of the above picture, with five others, equally attractive, for 10¢. Write to the Editor, "The Mentor," in "The Mentor," a well-known authority covers the subject of the pictures and stories of the "Return of the Mentor." The "Mentor" will know Art, Literature, History, Science, and Travel, and own exquisite pictures. On sale at the Liberty Stand and Clark Book Store, Price, Ten Cents. Write today to The Times for booklet explaining The Associated Newspaper School plan.

Birds Commit Suicide.

A very strange occurrence in national history has been seen in the flooded country of the Fen district in eastern England. A narrow bank runs alongside a flooded area of nearly 2,000 acres. Walking along this with intention of learning what had happened to his partridge, a keeper put up a covey. It flew in the direction of the longest arm of the flood. The birds, which were rather a late-hatched covey, after flying some distance, suddenly and at one moment together dropped into the water and were all drowned.

It has been much discussed lately how the partridges are able to fly, but the curious part of this collapse was that the whole number fell simultaneously, as if they had decided to die together.

Salves Can't Cure Eczema

In regard to skin diseases, medical authorities are now agreed on this: Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all exzematous diseases can be brought about only by using the healing agents in the form of a liquid.

WASH THE GERMS OUT.

A simple wash: A compound of Oil of Wintergreen, Thymol, and other ingredients as combined in the D.D.D.

ROOT CROPS FOR DAIRY COW

Make Valuable Addition to Winter Rations Because They Add to Variety of Feed.

No matter what some people tell you, turnips and other roots make fine milk-producing feed. Turnips will not affect the flavor of milk if fed at the right time.

If turnips are fed in large quantities and two or three hours before milking, they are likely to give the milk an unpleasant taste, but if fed directly after milking no flavor what ever will be noticed.

A peck of turnips to each animal per day is sufficient in most cases. A good plan is to feed directly after hay in the early morning, and once a day is often enough.

A little salt scattered over the turnips, which should be chopped in quarters or smaller, add to their palatability.

Roots make very valuable addition to the winter ration. They add to the variety of the feed and no animal on the farm appreciates variety more than the dairy cow.

In Wisconsin, Iowa and other western states the root crop is becoming a very important part of the crop of the farm.

Avoiding a Cold.

Avoiding a cold is to a certain extent a matter of constitution, of habit, of manner of living and of mental hygiene. Some persons instinctively know the moment a cold begins to come on, and by stamping their feet hard on the floor and mentally defying it break it up at once. Others sit down by a hot fire and drink very hot water and get into a perspiration and then go to bed. Others inhale very hot air before a hot wood fire for a few times. A cold is a sort of nervous disease, caused, probably, by nervous shock from cold air on the neck or the base of the head or abdomen or back or feet or legs. These are the parts most susceptible. By toughening the skin and its nerves they bear cold better and thus colds are avoided. The habitual cold sufferer rarely has a cold, but many do not think they can bathe regularly, and so the skin becomes more and more sensitive, until finally the very least change of air produces a bad effect.

Want Ads pull. Did you ever try "The Times"?

PARISIAN SAGE FOR THE HAIR

If your hair is too dry—brittle—colorless—dull—stringy—or falling out—use Parisian Sage—now—at once.

It stops itching scalp, cleanses the hair of dust and excessive oil, removes dandruff with one application, and makes the hair doubly beautiful—soft—fluffy—abundant. Try a 50c. bottle to-day.

It will not only save your hair and make it grow, but give it the beauty you desire.

LATE WORK IN THE ORCHARD

Thorough Spraying After Rotten Fruit and Other Refuse is Cleaned Up is Recommended.

(By H. C. WEATHERSTONE.)

After all rotten apples, pruned limbs and other refuse have been cleaned up about the orchard, the trees should be given a thorough spraying.

If possible, one should choose a warm day for this operation, so most of the insect pests, crawling out to bask in the sunlight, will be exposed to the action of the spraying solution.

Special attention should be given old knots, rough and rotten spots about the trees. As in these places is where the fruit pests deposit their eggs for next season's crop and at the same time many of these pests themselves are harboring. In these places insects will winter is over.

There are several reasons for this fall spraying. It not only destroys the insect pests, but their eggs also, which have been laid.

After the spraying the trees will be left healthy and clean, and free from the pests while they are developing their next season's fruit crop. Another light spraying next spring will not come amiss, but this fall spraying will insure the work being done—not neglected next spring when the rush season is on and the field turns the farmer's attention from the orchard.

In Installments.

They were experts in many things, but chiefly in the art of bragging. And at the moment they were discussing their own wonderful feats as vocalists.

"Why," said the Englishman, blowing rings of smoke from his cigar, "the first time I sang in public the audience simply swooned me with bouquets. Hence you, there were enough to start a flower shop."

"Faith, an' I can beat you!" cried the Irishman. "The first time I sang was at an open air concert, and, begorra, the audience were that delighted they presented me with a house, they did!"

"A house! You must be off your head!" interrupted the Englishman, scornfully.

"Not at all," answered Pat. "I tell ye they gave me a house—but it was a brick, at a tolme!"—London Answers.

Portuguese Jury Drew Lots.

A new method of administering justice was applied recently at Villa Franca de Xira in Portugal.

A prisoner was charged with counterfeiting, and as the jury were evenly divided and could not agree they determined to draw lots. Two pieces of paper were procured, one was inscribed "guilty" and the other "innocent." They were then folded up, shuffled, and one was then chosen by a jurymen.

It happened to be the one inscribed "guilty," whereupon the prisoner was sentenced to the maximum penalty.

True Benevolence.

It is useless to talk of sacrificing self to others unless there is something in self that others need. It is the full and rich life, not the poor and empty one, that can fill and enrich others. True benevolence, then, must abate that which it would give to acquire honorably money or leisure or power, to cultivate health and happiness, to gain knowledge and wisdom, to develop interest in human affairs, to cherish just principles and generous impulses, to fill the mind with pure and noble thoughts and the heart with tender love and sympathy—these things are essential.

100% DIVIDENDS

In Fuel Saved Each Winter!

How to get more for your money.

That's the rub.

There are ways and ways to economize. Some do without; some buy inferior articles.

Others make a better use of the money they spend.

And that is the kind of economy we want to talk about.

Did you ever figure out how much your heat cost you?

Do you know that 95 per cent of the ordinary heating stoves utilize only *half* of the heat that is in the coal?

Do you realize what this *wasted half* costs you?

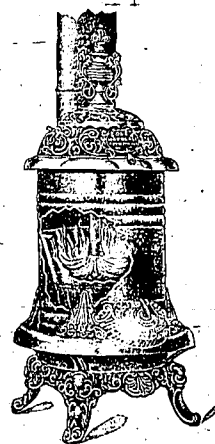

Utilize that lost half and you will make a *real saving* and get more heat in the bargain.

Every stove with numerous air leaking joints wastes more available heat than the stove originally cost. That waste is the gas portion of your coal and the heat that goes up the chimney in the ordinary stove. Save the gas—mix it properly with air—burn it and you develop an immense amount of otherwise wasted heat.

But it requires a stove of special construction. It must be a stove that is scientifically and mechanically perfect. It must be a stove that has no air leaks.

That stove is—

Cole's Original Hot Blast Heater

The stove that absolutely controls your fire.

The stove that burns the gases wasted by other stoves.

The stove that radiates a constant and steady heat from either soft coal, hard coal or lignite.

The stove in which the fire is never out.

The stove that saves its cost in fuel each winter.

The stove that lets no gas or smoke escape into the room.

The stove that gives you every atom of heat that is in your coal.

In fact, the only stove that is absolutely efficient—perfect in construction—perfect in operation.

We sell it under a broad guarantee to do all these things.

COME IN AND SEE IT. YOU WILL BE DELIGHTED.

Twin Falls Hardware Co.

See the name "Cole's" on the feed door of each stove. None genuine without it

WILL FIGHT AUTO TAX LAW

Canyon County Officials Complain of Unfairness.

There is a decided stand being taken on the part of officials in this county against what is said to be the unfairness of the new law relative to the automobile tax. The assessment indicates there is something like 300 automobiles in the county and the assessment will be over \$6,000. Under the new law none of this money will remain in the county but must go to the state and if the county road bonds require as much as 70 per cent of the automobile tax to cover the annual interest that amount will be returned to the county. But it is claimed by state officials that the bonds must have been voted subsequent to the passage of the law. According to that interpretation Canyon county would receive none of the money of the auto tax. This the commissioners have depended on in making up the levy. A fight will be inaugurated in this county to hold this money in the county—Nampa Leader-Herald.

Call at Twin Falls Fruit Growers' Association and get your "Flemish Beauty" Pear at \$1.50 per box. Sept 23-28

A repetition of your want ad may bring a better offer for that second hand article.

Horse Auction WHEN?

Saturday, Oct. 11, 1913

At Smith & McMasters' Barn, Twin Falls, Idaho.

70--HEAD--70
