On All of Your Related Matter It Represents Good Workmanship, Good Work and Good Conditions.

President Wilson's message on the trusts, easily refuted by the people and the trusts, bears out the same impress that has characterized his previous utterance as the careful conclusions of a masterly mind. Not a sign can be noted of any antagonism toward the trusts which may come under the head of illegal combines in restraint of trade. There is no sign of any grandstanding or playing to the popular prejudices against the manufacturers of great wealth. The whole measure bears the earmarks of the sincere opinion of an honest and able statesman.

There have always been our body-industrial and should not be made the prey of demagogic rule. President Wilson starts with a fair premise of justice in his attitude toward the most complex problem confronting this industrial nation. He weighs right and wrong with equal clearness and then makes the declaration that conformity to anti-trust laws is the sole issue and the protection of the general public.

The greater powers of the Interstate commerce commission over financial operations of railroads is not a new and startling doctrine. It is the inevitable outcome of the great work done in curbing inflation in rates on transportation. The interstate commerce commission has given satisfaction to both sides and the increase in the scope of its jurisdiction striking a pleasant note with consumers and gives the railroads satisfaction in the process of a square deal.

President Wilson is still by many partisan papers be playing a deep political game with all of his moves on every subject out of town—he is making the game worth while to a large number of Republicans and Democrats alike in that it bears the impress of right thinking for the general good of the whole nation.

THE COPPERFIELD RAID.

Something new in law enforcement was seen in Oregon a few days ago when Governor Oswald West sent a girl of twenty-five, his private secretary, to a remote mining district to direct the "cleaning up" of a town.

And the arrest of five officials, including the mayor, by military authority, on charges of illegal liquor selling. Miss Fern Hobbs, the name of the young woman who commands the expedition, and the incident involved, the Nashville Telegram goes to say that

"It needs only a determination to enforce the law to put every villain out of business and into jail," and that "Oregon has magnificent cause to plume itself on the possession of two such fine citizens as Governor West and Miss Hobbs." The New York World, on the other hand, wonders

why the governor should send his private secretary and a detachment of coast artillery to close Copperfield's two saloons, and asks what he expects of the initiative and referendum, and the result in that faraway community.

"Oregon," says the Brooklyn Eagle, "is one of our leading experimental States," and Miss Fern Hobbs is only one phase of a

real toward what is most novel in untried methods."

The story of how lawlessness in the village of Copperfield was suppressed on January 10th will be summed up from the news reports in a few words. The municipal government was read in the Oregon papers, was controlled absolutely by adroit persons who it is claimed, perverted in violating the law. Governor West sent Miss Hobbs to Copperfield with a squad of coast artillerists under Col. W. K. Tolson, superintendent of the state penitentiary. Miss Hobbs demanded on behalf of the governor that the authorities make available the results of their investigation, and when they refused she gave Colonel Tolson the word to declare martial law and demand the saloons be forever closed.

"There was an display of arms," says a Portland Oregonian correspondent, "but when the military authorities had taken control, they searched and informed the citizens and they found virtually every one armed. The citizens, however, were pretty well divided on the question of law enforcement, and in case of violence they would have turned up against each other. Colonel Lawson arrested Mayor H. A. Stewart, City Recorder Clark, and Councilmen Wiegand, Warner and Woodbury, and told them that if they did not shut their liquor and bur fixtures out of town by the following afternoon he would do it himself and burn them. The orders were obeyed.

Another way the bank helps in educating its depositors is to the example of any banker to have publicized money as a means of payment. Those who deal were started, Governor West directed, with banks and study their methods

so that the success of the banker in getting money at work is more than the individual may attain proportionally in handling his own finances through the bank.

When you deposit in the bank, you will find many factors of security for your savings. For one thing, bank officers and directors are men of demonstrated business success. Their combined or "collective" ability, experience and integrity works for your benefit when you are a depositor in the bank.

There are many other advantages of banking connections, so you will learn if your situation is similar to mine. If your situation is similar to mine outlined in the succeeding paragraphs.

Possibly you have certain fixed payments to make. Most persons have life insurance premiums to pay at different times. Many, right after making one payment, begin to prepare for the next. Every week or every month a little money is deposited in the bank and when the premium begins to accumulate the money is there to meet it and along with it a little interest.

Some persons have loans on which interest is due on payments that must be made every year or every six months, and in order to be sure of meeting these payments they deposit a little money when the my principal comes in and in the deposit account the money is on deposit to meet the same.

Perhaps you have children and are planning to educate them; perhaps you want to take a trip to some place of interest next year; perhaps you want to establish a reserve against loss of work, or old age? There are many other reasons why you should start and maintain a savings bank account. Your own needs or desires will suggest them to you—but whatever your needs, when you've got a position or responsibility, it is a good thing to put money into the bank regularly.

invaluable. Her methods have been open. Her tenacity and hammer determination—literary digest.

TALKS ON THRIFT

NO. 33.—HOW THE BANK HELPS.

"It is not often that a man can make opportunities for himself. But he can put himself in such shape that when opportunity comes, he is ready to take advantage of it,"—Theodore Roosevelt.

Men who make money fast often lose it quickly. They run risks and take chances. They are under a nervous strain continually and are never sure when they are coming on.

In the long run, the gain is greater if you do not try to "get rich quick," but systematically save a portion of your income and regularly deposit it in a reliable bank where it will be safely at work for you.

Ready money burns holes in the pocket of the man who has it. To make money safe put it into the bank. Besides being secure there are always "handy" to get at when you really need it. It will not be so easy to get at when the impulse comes to spend it foolishly.

It is one of the principal functions of the bank to safeguard the money of the depositor, and many times it protects money even from the owner himself.

Another way the bank helps in educating its depositors is to the example of any banker to have publicized money as a means of payment. Those who deal

were started, Governor West directed, with banks and study their methods

so that the success of the banker in getting money at work is more than the individual may attain proportionally in handling his own finances through the bank.

When you deposit in the bank, you will find many factors of security for your savings. For one thing, bank officers and directors are men of demonstrated business success. Their combined or "collective" ability, experience and integrity works for your benefit when you are a depositor in the bank.

There are many other advantages of banking connections, so you will learn if your situation is similar to mine outlined in the succeeding paragraphs.

Possibly you have certain fixed payments to make. Most persons have life insurance premiums to pay at different times. Many, right after making one payment, begin to prepare for the next. ROLLING STOCK FOR O. S. L.

New Cars to Handle Big Crops in Idaho Next Season.

According to information recently received from Salt Lake source, the Union Pacific railroad has asked for bids for furnishing \$1,000,000 worth of rolling stock for this year. If this bid is accepted, the cars will be built in Oregon. The Union Pacific, the Oregon Short Line, the Union Pacific and the Oregon & Washington Railroad & Navigation Company and St. Joseph & Grand Island roads, the Union Pacific system, will never be far from their plant, limitation and the ribbons from all their kind that will be the incident, inevitable "general."

"Probably Governor West thought of that," said the Tribune, "when he selected his secretary for that job." The Brooklyn Eagle drops into a somewhat hazy vein in its editorial tribute to Miss Hobbs:

"We have to admit it to Miss Fern Hobbs, of Oregon. She takes the cake. She is the only pebbly in the bunch; she's a darling; she's a dame, and nothing but glam can do her justice."

As a real woman militant, she competes Mrs. Inez Milholland-Brownson to get off her high horse, and makes Mrs. Pinkerton look a diminished host in England's fog.

"The Demon Run plays Sherpa to Miss Hobbs' heel—but out of the treasury of the Kentie woman who drove a tortoise through the head of the tyrant's helmet, the Oregon girl is not

content to let the world know in untried methods."

The story of how lawlessness in the village of Copperfield was suppressed on January 10th will be summed up from the news reports in a few words. The municipal government was read in the Oregon papers, was controlled absolutely by adroit persons who it is claimed, perverted in violating the law. Working on Marlin Creek Cases.

Washington, D. C., Jan. 22.—At the regular meeting of the Idaho delegation committee in the Senate, Senators Borah and Brady agreed with Attorney General Peterson and State Land Commissioner Day in behalf of Marlin Creek land cases. Speeches were made by Senator Borah, Senator Brady writing the early passage of the Borah bill which authorizes the secretary of the interior to make transfers necessary to enable the state to get lands of equal value in the lands in question, and the 2nd and 3rd meritorious, which are now under litigation in the department of the interior, known as the Marlin Creek land cases.

The Idaho delegation are solidly back of the bill, and Senator Peterson has received letters and telegrams from North Idaho asking for immediate action on these claims.

By way of comment Senator Brady had the following to say with reference to the Marlin Creek cases:

"The lands in the Marlin Creek have been in dispute practically since 1901. The whole trouble arises over the fact that the national government did not notify the register and receiver of the land office at Coeur d'Alene that the state had filed its claim for the lands. Several attempts have been made to settle the matter, but without avail. However, I feel quite sure that we have the matter satisfactorily solved and that the settlement will result in about one-half of the Marlin Creek district getting the lands, and the other half will get the lands of equal value instead of lands given to the settlers."

"This is happy endings; the homesteader gets his land, and the state gets ten lands of equal value for our homestead fund, and everybody should be happy."

CONSISTING OF REGISTERED AND HIGH GRADE HOLSTEINS.

3 registered cows, Grand daughters of Beryl Wayne's Full Dolok. 37 producing sons, 23 producing daughters, 1 A. R. O. dam, 1 A. R. O. bull.

3 registered bulls, all very promising. Also have 15 short yearling heifers.

One 23 month old bull whose dam at four years old has 24½ lbs. A. R. O.

His sire is a brother to that great bull, son of Boile Kornlyke, the great foundation cow of the Kornlyke family, who is grand-dam of Beryl Wayne's Full Dolok.

42 A. R. O. dams, all very promising, some having 100% A. R. O. blood.

One registered bull, 13 months old, with A. R. O. dam. A good individual, three quarters white.

We have pedigree for all the registered animals. Will be pleased to have you see them.

LUNCH AT 11 O'CLOCK. SALE IMMEDIATELY AFTER

Terms: A credit of nine months will be given. Notes to draw 3 per cent. When due, if not so paid, to draw 15 per cent from date. 6 per cent off for cash.

MAURER & GARN, Filer, Idaho

CLAYTON & BRADLEY, Auctioneers. GUY J. SHEARIN, Clerk, Filer, Idaho.

last week, spoke in the house of representatives in advocacy of his bill, providing for an appropriation of \$125,000 for the survey of the two million acres of land lands scattered throughout Idaho.

He urged upon Congressmen that these lands have been owned by private companies for ten or fifteen years, but in view of the fact that their surveys, they are not patented and cannot be sold. He also urged that the immediate survey of these lands and the issuance of patents will give the people of Idaho \$75,000 annually in taxes that will be paid by the owners of the lands in question.

There is much interest on the part of Mr. French in his proposition, which he urged upon Congressmen that the immediate survey of these lands and the issuance of patents will give the people of Idaho \$75,000 annually in taxes that will be paid by the owners of the lands in question.

General Batch in Washington.

Adjutant General L. V. Patch of Idaho has been in Washington this week attending the meeting of the adjutant generals of the several states.

The object of the meeting was to confer with the war department concerning the war emergency and to ask the legislature to provide for pay for the militia. In order to keep up their organization the officers and men of the National Guard throughout the country have often been called upon to serve in the various camps and as a result of the meeting here a bill was agreed upon which it is felt will provide proper compensation for the National Guard and greatly promote efficiency so that in case of emergency the militia can be ready to meet any emergency.

Several attempts have been made to settle the matter, but without avail.

However, I feel quite sure that we have the matter satisfactorily solved and that the settlement will result in about one-half of the Marlin Creek district getting the lands, and the other half will get the lands of equal value instead of lands given to the settlers.

This is happy endings; the homesteader gets his land, and the state gets ten lands of equal value for our homestead fund, and everybody should be happy.

TILER NEWS

(Continued from the Tiler-Journal.)

A boy was born to Mr. and Mrs. S. Turner, of Twin Falls, recently.

Mrs. Schuttehahn attended a meeting of the Woman's club at Pocatello on Tuesday.

Jas. Skeikson and son Clarence, left Monday for Montana. The rest of the family will follow.

F. W. Young, of Alberta, Canada, is here seeking to better his condition and the girl will be expected to help him to hand the mortal banner their precious with the hope that we will get along in the number of his necessities.

The Woman's club will meet at the home of Mrs. J. C. Johnson, 1120 Main Street, on Saturday evening, January 21st. Mrs. Dingle and Mrs. Hammer will speak.

It is hoped there will be a large attendance.

Dr. F. S. Jack of Idaho, is to arrive here, and Dr. Franklin, Mr. Buck will speak.

With the exception of one or two cases, and in this section made such a

man will doubtless prove a blessing to those who need the services of a veterinarian.

David Lyons has concluded his tour of the country, having been present at the stock and game show of the Hull & Burke Manufacturing plant, of the celebrated Twin-Wagon Ranch.

Mr. Lyons is a practical builder and we wish him success in his work.

C. G. Stevens and G. W. Thornton, members of the Thornton family, Mr. Stevens taking the city residence now occupied by Mr. Thornton, and Mr. Thornton becoming owner of a fine 30 acre farm a mile and a half south of town.

The M. E. church next Sunday, Sunday school at 10:00 a. m., and basketball at 2:30 p. m. and Epworth League at 6:30 p. m. and basketball at 7:30. Special music for all services.

The recent condition of the roads has brought Elmer to the front of the leading town of the tract for quick and good blacksmith work. With three blacksmith shops in town and each of them turning out first class work it is no wonder that business is great.

Distances are seen on our streets, coming here primarily for blacksmith work. All shops are working full force and over time.

Dan Connor writer to a Tiler friend from Spokane, says he is having great fun up there. He may be well prepared to give the latest steps in all the dances on his return. He

makes a specialty of the tango. He thinks that is a lack minute with the tango, but in his goal for a fat man, anyhow—and so the tango is his hobby. On his return to Tiler he will be received with glad acclamation and the girls will be expected to help him to hand the mortal banner their precious with the hope that we will get along in the number of his necessities.

HERE COMES SPRING

Just a few more weeks and Spring time will be here.

We want to suggest to you, the buying public, that now is the time to prepare for Spring. Our stock of white goods and wash goods is arriving daily, and by the time you read this, we hope to almost complete our line of white goods. We announce our First Annual Display of White Goods, and we wish to impress it on you that these goods were bought with the greatest of care and at the right prices, quality being first considered. We have marked them at prices that will please you, and we know that you cannot do better anywhere in this whole broad land of ours. Visit our store and let us show you the beautiful line of Embroideries, Laces, Muslin, Underwear and White Goods.

Yours for white goods,

HART'S

FRENCH IN THE OPEN FOR SENATOR

Would Be Pleased to Represent Idaho
In Upper House

Washington, D. C., January 14.—During the last two months, Representative Burton L. French has been receiving many letters from Idaho, writing and advising that he become a candidate for senator, and rumors have persistently associated his name with the seat in the Senate. In spite of the fact that he has consistently refused to make a final statement on the subject.

Mr. French has decided to be a candidate, and today gave out the following interview.

"You may say that I have decided to become a candidate for United States senator," said Senator French, "but I have withheld making any announcement until the present, because I desired to hear from all sections of the state before doing so. Membership in the United States senate affords certain services, and does membership in the Senate?"

He did not frankly admit that it is one of the greatest ambitions of his life to be elected to membership in that body from the state of Idaho. This ambition is not that of worthy citizen who loves his country.

"I would lack in candor if I did not say that my present course in making this announcement is in response to the multitude of letters which have been addressed to me during the past week. These letters have come from every section of the state and many of them unsolicited."

"I shall hope to have the opportunity of making a trip home before the end of the month, and I am anxious to receive, however, no news of my work. At present, I am giving very largely of my time to the interests of my bill providing for the survey of all the land selected for the national forest system. This bill will place on the assessment rolls of the counties of Idaho, two million acres of land that now taxation, and that is chiefly owned by large investors. The reason why this land is not taxed is because it is not surveyed."

Representative Adlison T. Smith

of Idaho, who is in favor of the bill, said:

"I am urging my bill for the surface entry under the land laws, of areas classified as phosphate and located from all development. This bill now has the full support of the State Department, and its passage will be of vast benefit to the entire west."

Both of these bills I expect will be reported before long. Many other problems in which Idaho is interested will be discussed during the session.

Representative Smith contends that

congressional action is necessary to

make the bill effective.

A little later I shall take up my campaign actively, and I trust may now that I am more than delighted with the outlook. In announcing my decision to enter the Senatorial race

I am following a course that I think is fair to the State, fair to all other candidates, and fair to my friends. It is my desire that they should all know my position."

Proposed Drainage Law Great Value To Idaho.

There is a bill now pending before Congress for a National drainage law. The Department of Agriculture seems to favor such a law, and this will pass it with the most powerful friends in Idaho. It will enable drainage ditches to be formed under National authority that will make the selling of the bonds an easy matter.

However, this bill goes still further and authorizes the Government to do the work and take the bonds for the drainage districts, and the bonds must be suited to the needs of the people. There are large tracts of land in Northern Idaho, especially in Bonner and Kootenai counties that would be very valuable if drained.

Senator French has studied the matter with the Secretary of Agriculture and is trying to have these lands surveyed and estimates made so that an estimate of the cost of the selling of the bonds can be obtained.

However, this bill goes still further and authorizes the Government to do the work and take the bonds for the drainage districts, and the bonds must be suited to the needs of the people. There are large tracts of land in Northern Idaho, especially in Bonner and Kootenai counties that would be very valuable if drained.

Senator French has studied the matter with the Secretary of Agriculture and is trying to have these lands surveyed and estimates made so that an estimate of the cost of the selling of the bonds can be obtained.

There is a question that arises in Kootenai County in Bonner county that makes it an important question to have a commission appointed to confer with a similar commission to be appointed by the Congress, government to meet, and to draw up a fair and equitable plan for the drainage of the land.

It seems reasonably certain that

action will be taken in the matter and it will be a great step forward toward the accomplishment of the drainage of Rondeau Valley.

More Pay For Rural Carriers.

Representative Adlison T. Smith of Idaho, who is in favor of the bill, said:

"I am urging my bill for the surface entry under the land laws, of areas classified as phosphate and located from all development. This bill now has the full support of the State Department, and its passage will be of vast benefit to the entire west."

pose which he is required to incur in the production and upkeep of equipment and tools—very hopeful—that the bill will be enacted during the present session.

Idaho Officials at Work in Washington.

Attorney General Peterson and State Land Commissioner George A. Day, have been in Washington during the past week in consultation with the Commissioner of the General Land Office with reference to the controversy over lands in Marble Creek country, north Idaho.

They are endeavoring to have an adjustment made such an adjustment of the matter that the settlers will be permitted to perfect their entries and to have a fair and equitable plan for the drainage of Rondeau Valley.

It seems reasonable certain that action will be taken in the matter and it will be a great step forward toward the accomplishment of the drainage of Rondeau Valley.

More Pay For Rural Carriers.

Representative Adlison T. Smith of Idaho, who is in favor of the bill, said:

"I am urging my bill for the surface entry under the land laws, of areas classified as phosphate and located from all development. This bill now has the full support of the State Department, and its passage will be of vast benefit to the entire west."

Representative Smith contends that

congressional action is necessary to

make the bill effective.

A little later I shall take up my campaign actively, and I trust may now that I am more than delighted with the outlook.

In the construction of the building, however, only one of them was within the limit and there are reasons why the department did not desire to accept the lower bid. Senator Hartley has been trying to have the bill passed, and he has been assured that the government should accept either the lowest or next lowest bid, so that the work might be completed immediately.

Mr. Lafayette Keene of Kennewick, Wash., together with his wife and daughter, recently came to Washington a couple of days last week, and they will go to Florida where they will spend the winter. Mr. Keene is one of the most prominent citizens of Latah county.

The HOUSE of MYSTERY

bore the figures 1313 over its doorway, although it stood down Gramercy Parkway, and that was not its street number at all. The House of Mystery had been unoccupied for many years. And then, one Sunday morning, two young men in a club window across the way noticed that every time the clock struck, someone entered the House of Mystery. They watched, breathlessly, to see what would happen next; and even while they watched, a man was murdered.

That is the beginning of

The Time Lock

the new detective story we have secured and will publish as our next serial. It will lead you through a maze of adventure before the happy climax is reached.

*It's Good Reading—
The Kind You Like*

This fascinating story will be run in the Times in a short time. Watch for it. Don't miss the opening chapters.

LOST—A dark brown for neck place at church. Small engine will fit. Will the finder please leave it at Times Office. Jan 20-23.

JARBIDGE WILL SHIP ORE

Blaster Getting Ready to Ship Several Cars of High Grade Ore.

Howard L. Russell, secretary and treasurer of the Blaster Mining Company, arrived here from the Jarbridge camp Saturday. He purchased a lot of coal and dynamite for the Blaster mine and has departed for Elko Nov. 16. He will go in from the railroad station at Elko, and immediately upon his arrival the stacking of high grade ore will commence. He says George Jackson, manager of the Blaster, has agreed to ship him the gold product and ship it to the local market as quickly as possible.

This ore is coming from the lowest workings in the mine, on what is known as the "soo team level." It was found in the last year at a rate of 100 tons of \$100 to \$150 per ton. This has been followed for a distance of 227 feet on this level and is 4 feet in width. The average grade of mill product in this shot is given as \$19 a ton and the intention is to make an effort to install a mill in early this spring. Eight men are now employed at the property, and Russell says the physical condition of the property was in excellent order.

He points out that the Blaster has not lost in the liquidation for about two years. Russell, who is the receiver of the district, says the cost is considerably less than the amount he has invested in the mining.

The Blaster company has developed a considerable amount of milling ore and is blocking it out with the intention of putting it in a mill as soon as possible. Recently a shipment of sand and gravel was made from the Blaster, which a check was made for \$1000. This material will be shipped to the Salt Lake Tannery. The Blaster company has developed a considerable amount of milling ore and is blocking it out with the intention of putting it in a mill as soon as possible. Recently a shipment of sand and gravel was made from the Blaster, which a check was made for \$1000. This material will be shipped to the Salt Lake Tannery.

FULL WEIGHT GIVEN IN BUTTER

Illustrative Pictures Offer in Annual Report of Pure Food Commissioner.

Big Savings In Short Weight Butter.

"Our expenditure of \$21,723.33 would, at first thought, represent the cost to the people of the department, but, when I have had time to determine the quality, and very likely, compare with the decisions made as a result of such expenditure,

it is evident that we have done nearly twice the amount of work gone before, and at a much lower cost.

In addition to our regular work we have rendered much assistance to the state humane society in the enforcement of its most excellent laws, and complaints being referred to us for investigation, and the party involved in the investigation due to lack of funds for expenses incident to such work. This service is rendered in connection with our regular state work, and no expense is attached to it.

The using law for the employment of women has also received the

utmost regard for the law and the enforcement committee among the merchants and others that this place must be in just a little better condition than his neighbor."

It is evident that the department, in this list of educators, are our merchants, manufacturers and the public generally.

I will write you for advice whenever they are in doubt as to the proper course to pursue, and freely submit samples to you for your opinion, and determine their quality, and very likely, compare with the decisions made as a result of such expenditure.

From a comparative viewpoint we have done nearly twice the amount of work gone before, and at a much lower cost.

Our noteworthy features are the adoption of more general centralization of the administration of tax laws and the classification of property for taxation purposes," says the report.

"When used in a leading article by the author, Wisconsin, in his income tax centralized its administration of assessments and successfully reached intangible property without employing the classification method. Rhode Island has adopted the classification method under which selected classes are

LEGISLATION ON TAXATION

Final Report is Presented to President Wilson.

Washington, Jan 23.—The legislative session of the United States during 1912 is reviewed in a final report on taxation of corporations presented to President Wilson today by Comptroller Davies of the bureau of corporations. One of the striking features of the legislation is the New York incurred debt law of 1911. The Wisconsin income tax law of 1911 is considered the most important tax legislation in the eastern, central and western states.

"Our noteworthy features are the adoption of more general centralization of the administration of tax laws and the classification of property for taxation purposes," says the report.

"When used in a leading article by the author, Wisconsin, in his income tax centralized its administration of assessments and successfully reached intangible property without employing the classification method. Rhode Island has adopted the classification method under which selected classes are

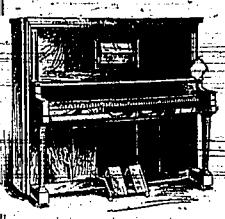

once and advanced knowledge along this line to give instructive lectures at different times, to maintain a bureau and keep in touch at all times with the oilproducingayers and others of the different oil-producing states, and to inform them of the progress of legislation.

On the 21st day of February, (Saturday) there will be a meeting in Plover, Idaho, where a constitution and by-laws will be formally passed upon and that club will be numbered among the charter members.

The temporary organization, composed of the following officers: A. A. Davis, chairman; E. O. Walker, secretary; and J. C. Gandy, treasurer.

It is believed very essential that every rancher who is interested in the dairy business in any manner be present, whether he lives in Butte, Twin Falls, Kimberly, Wendell, Jerome, Gardiner, or any other place in the state.

For any further information a letter to Geo. E. Allen, corresponding secretary, will bring a prompt reply.

What a Player Piano Will Mean to You

DON'T you sometimes feel at the close of a long, hard day? "If you had drifted into a hopeless, dreary round of eating, sleeping and working?"

"when night comes you are too tired to go outside your home for exercise, and you are too fatigued to take up reading and games, engrossed in discussions in which you have no interest, don't you ever feel old and useless and neglected and blue, all over?" You wouldn't buy a Player Piano in the house that every member of the family can enjoy.

Come in and let us show you how easy you can play the good old songs that are woven with your heart aches, pictures of youth in the melodies that never grow old!

Player Pianos \$475 and Up**Logan Piano Co.****One Price Merchants.**

PICTURE DANCING LESSONS

Will Be Seen at the 1st Monday and Tuesday.

ANOTHER FINE feature in making up annual pleasure is a three-reel feature that gives a series of comprehensive dancing lessons called "Motion Picture Dancing Lessons" which are presented on the question of "How to Improve the Situation in Southern Idaho." Able women will lead the discussion, and both sides will be fully presented, after which a vote of the assembly will be taken.

An announcement was made of the colorful ball to be given Friday evening, January 20, in the high school auditorium. "Club members" and their guests are urged to attend in costume.

At 10 o'clock in the afternoon, following the announcement, the subject was

one of mutual interest, "American Wonders of the Twentieth Century."

We may be proud of our achievements in the last decade, prominent among which are the Panama Canal and various electrical appliances.

Mrs. Wright rendered a vocal solo.

Mrs. Kenley's impersonation of John Allen was thoroughly enjoyed by her hearers.

Club Notes.

The Incorporated Board met Tuesday, Jan 16, at the call of the president, Mrs. Aborn.

Rehearsals for the minuet, lancers and Virginia reel are being held at the home of Mrs. M. J. Sweeter on Wednesday, Thursday and Friday evenings.

The anniversary was

on Jan 16, 1912, and the entertainment was the "Tango, Turkey Trot and the Foxtrot."

The dances taught are the Tango, Turkey Trot and the Foxtrot.

As shown in the "Motion Picture Dancing Lessons," these dances are popular among young girls and women in New York's most famous dances. Miss Wallace McCutcheon and Miss Joan Sawyer, this couple was the sensation of the New York Theatre Roof Garden last summer, and at the present time are instructors to the members.
