ADDISON T. SMITH HERE MONDAY

Will Speak in City

WILL DISCUSS NATIONAL ISSUES AND THE WAR TAX

Congressman Smith Has in the Past
Two Years Proven His Worth to the
Voters of the State.

Congressman Addison T. Smith, Idaho's live wire and man on the job at Washington, is coming to the city Monday and will address the voters of the county on the national issues at the Cotton hall. Congressman Smith has only been in Washington about ten days and during that time has been engaged in fighting the Democratic-national policies. In Idaho speech Monday evening Mr. Smith will pay particular attention to the Democratic war tax and will give a large amount of inside information on the subject which will prove interesting to the protectionists of this section.

Mr. Smith has proven a good strong factor in the national politics and has obtained a great deal more for this state in the way of favors than is usually the case with a first term man. He should without question receive a bigger plurality at this election than the handsome one received last.

ARRESTED FOR PASSING CHECKS

Glenn Massey Alleged to Have Passed
A Lot of Worthless Paper.

Glenn Massey, who resides in the Golden Rule addition, was arrested Tuesday morning by Deputy Sheriff P. O. Herrihan, for passing worthless checks on V. H. Decker, the jeweler. It is alleged that Massey had another name had deposited a check, amounting to several hundred dollars in the Idaho State Bank, and had procured to check against the account. It is also alleged that Massey had forced the name of Smith and McMaster to the check. As far as can be learned the check was cashed on or for some time, checks bearing the alleged signature of Smith and McMaster having been deposited in different banks at different times. It is understood that a man answering the description of Massey had cashed a check after the check was cashed drawn on the Idaho State Bank, where he had a checking account.

From the description of the man given by the Bank in the city, the officers made the arrest. Massey was arrested by Deputy Herrihan at one of the lively spots. He had his back to the door and was seen by the deputy. He was bound and taken to the district court. His bond was fixed at \$1000 which up to the present time he has been unable to furnish.

A DOUBLE ATTRACTION

Orpheum Theatre To Have First Class
Vaudeville.

The management of the Orpheum theatre has been able to secure for the last three nights of the week, with Saturday matinee, a first class double attraction. The Juvenile Woodards in comedy, singing and dancing. Williams and Clifford are a pair of clever crooks and are bound to please. The "Wining of Dennis" is a thrilling two part drama of the great northwest. The ever popular Mutual week-end has the latest happening the world over, including scenes from the European war. "Back to the Kitchen" is a fine comedy, which will surely drive away the blues.

ROUSING POLITICAL MEETING

Republican County Candidates Held
Fine Meeting at Mason School.

On Tuesday evening of this week the Republican county candidates held a rousing political meeting at the Mason school house. Before the speaking commenced a splendid musical program was given, with several recitations. Then a fine luncheon was enjoyed by all present. The fine auditorium of the school house was filled to overflowing by the residents of that magnificent part of the Twin Falls County.

A FEW FACTS FOR VOTERS ON COUNTY DIVISION

Every voter who is paying taxes must with the present high taxes, count the cost of any fine every move which concerns this county as a rule. The benefit must greatly exceed the cost before any new venture should meet with approval. The real test must come, whether an actual need exists for the new move and whether it meets with the stamp of real need instead of the spurious article. County division as advocated by a little group of selfishly inclined men in Buhl must stand or fall by this test of actual need and actual benefit. It is not a case of the desire of Buhl for a county seat. That should have little weight with the taxpayer unless he can in the proposed change, see actual benefit to himself as a taxpayer. That benefit, too, should not be merely glittering promises of the future good, but something tangible upon which to base a solid conclusion of benefit.

The Times believes that such solid conclusions have not been produced by the county divisionists, who merely made promises, stated unsupported figures taken from other counties and have by low estimates, made it appear to the advantage of the taxpayers of the new county. They have in a number of cases stated absolute untruths. Lowered costs of conducting county offices have been repeatedly made with nothing upon which to base the assumption from any information obtained from other counties.

For the purpose of inking the voters view the truth about county division. The Times will here advance a number of reasons why county division is both unnecessary and expensive, not only to the new county but to the old.

In the first place the county, as it is now located, is small enough for all purposes and with a county seat centrally located, works no hardship upon any taxpayer in transacting his county business. There are no smaller counties created as a rule, than the present Twin Falls county, back in the eastern states, where expenses are carefully considered. There is a point reached in any county unit, where subdivision must prove costly. That point is usually gauged by the time and expense of rearing the county seat and the ease of serving county papers. Not a single advocate of county division can with truth claim that these two measures of the rightfulness show any basis for further division. Papers can be served anywhere within the county in any kind of weather and over any kind of roads in twelve hours. The usual time here is much less. Jurors and those transacting county business can reach Twin Falls from any point in the county in six hours. So much for the need of a smaller unit.

One of the claims made by the Buhl divisionists is that they can manage the county office for less money than is now being used in this county, making their estimate approximately \$30,000 dollars per year against the same cost for Twin Falls county of about \$30,000. By evading the truth, they have sought to show the farmers of the proposed new county that the cut in the expense will thus cut down the taxes rather than increase them. If the farmer will take a second thought in the matter he will see that the contention of Buhl is unfeasible. In the first place the large sum represents the whole expense of administering to approximately 15,000 people with a valuation close to \$21,000,000. In the new county they have set one-third this expense for the whole county and will administer to approximately 3,000 people or one fifth of the whole population (mark you) one-third only of the expense. They have not told you Mr. Farmer, that the city of Buhl with only ten per cent of the assessed value in the new county, is getting off much less with its expense. Just remember that your ninety per cent of that estimated expense will not lower your taxes below your present taxes, but must increase them. For you are taking care of the major portion of the expense. Buhl city is paying taxes on less than \$600,000 assessed valuation while the total valuation of the new county is about \$6,000,000. The other ninety per cent is paid by the ranchers, whom Buhl is trying to influence to vote for county division. Those same ranchers are now paying about twenty thousand dollars toward the present county expenses. Ninety per cent of thirty thousand dollars will make their total paid in taxes to the new county \$27,000. Is it worth your while to help Buhl pile up a tax which you must pay almost altogether with no apparent benefit.

Road Work Expense Under Estimated.

They have in their proposed estimate, made little provision for road improvements, which in the Castleford and other portions of the new county, must for a number of years be heavy. They have not told that for a number of years the expenses of road building in the West End of the county has been done at the expense of the road fund rightfully belonging to this end of the county, according to the taxes paid in. In a new county, how much generosity do you think the Buhl contingent will show toward the outlying sections of the new county. You will have to fight for even your just rights. The road tax for the new county to care for the urgent demands will be double that levied by the present county. It must add to your taxes.

Must Bear Proportion of Bonds Issued.

The Buhl divisionists have a number of times told the farmer of the new county that the new county would not have to be responsible for its share of the bonds already issued. Let's go into legislative history a little and see if there is any ground for the claim. Gooding and Minidoka counties each were compelled to pay their proportion of the bond issues of the old Lincoln county. Power county was forced to take its proportion of the bonded indebtedness of the old counties of Bingham and Owyhee. Franklin separated from Owyhee and was compelled to do the same. Madison and Jefferson counties created from Fremont by enabling act, were by legislative enactment

creating enabling act, made to bear their share of the bonded indebtedness. For the proof we will refer them to the Idaho code of the eleventh session. By what means do the Buhl divisionists hope to evade their share of the bond issues of the present county which they helped vote?

Will Want More Bonds.

The Buhl bunch in their attempts to make the ranchers swallow the sugar coated county division pill, have refrained from any suggestion of anything-but-sentimental claims for the county offices. Some kind citizens there have already planned on collecting far more bonds. But don't think for a minute that these active minds have not already bided that court house on property which will fill the pocket books of a few of the bunch. Don't think that Buhl with a control of the voting population in your new county, will stop long in securing a courthouse with which to shut off the rival claims of Castleford or any other contender for the coveted honor. Buhl wants the county seat. Your increase in taxes is not concerning them in the least. Your bigger share of the levy for courthouse bonds will not bother them Buhl in taxes will pay ten per cent of the expenses of that county, while you will pay ninety. How much of that \$30,000 will come back to the farmers who pay the tax. The care of it will not worry you.

County Seats Do Not Always Raise Land Values.

The Buhl enthusiasts have gone to the ranchers living near Buhl with the plausible argument that land values will be raised if Buhl becomes the county seat. Such claim does not necessarily follow. It is true that land values around live cities are increased by their proximity to such cities, but not because of the county seat factor, but rather from the activities which bring people to a marketing center. In Fremont county in this state, Idaho Falls was the big town and city while part of Fremont county, while St. Anthony, the county seat was forced to take a back seat. Nampa has for years been a strong rival of Caldwell, the county seat of Canyon county. A dozen other instances could be pointed out in this state which show that a county seat town does not always prove a booming town. On the other hand, most any rancher who is farming his land for profit can secure that profit on hundred dollar land with a smaller tax than can the man on five hundred dollar land which is assessed and taxed according to its speculative value.

Loss of Prestige.

The word Twin Falls is probably better known all over the United States today as the name of a wonderful irrigation country in the west. It stands out in the minds of eastern people above that of Idaho. This nation-wide notoriety has been caused by the extensive advertising carried on for every irrigation project in southern Idaho, which has tucked Twin Falls to the name of its venture for publicity. Twin Falls county is on the national map. It is a drawing card to bring both capital and settlers into the whole section. Buhl County is, yet unborn, is without prestige, is without anything but a purely local reputation. It has no drawing power with the eastern people. Standing alone as a separate unit in a new county it could receive none of the publicity given Twin Falls. The old name is worth much to every rancher and producer because of the products which bear the famous name. What is the use of a change which brings no benefit to you Mr. Farmer, and only adds to your taxes.

County Division Only a Selfish Rush.

There is not one single good reason for county division existing in the minds of its supporters. There is not one single reason which does not have concealed back of it selfish interests of a few men in and about the city of Buhl, who hope to profit by creating a new county. Statements of lack of a square deal from Twin Falls or any other portion of the county are not substantiated by any evidence. Any bunch of men can trump up grievances when back of that idea is the pocket dollars which accrue to them. The West End has not suffered for the much quoted antagonism which Twin Falls city is supposed to have for that section. In politics Buhl has had her full share of county offices ever since the new county was formed. They cannot deny that fact. She was offered any number of county offices by both parties this year and turned them down, choosing to stake all on the county division fight.

Some Expenses Not on the Estimate.

The Buhl bunch have not by any manner been frank with their proposed constituents and neighbors in the matter of the expense incidental to the creation of a new county. They have said nothing of the cost of transcribing the records from the Twin Falls records, which will amount to about \$15,000 alone as an item in the first year's expense. They have not told you anything about a hundred and one little expenses for furnishings, office equipment and other matters, which the new county officers will demand and must have for accurate work. There will be premiums on surety bonds for every one of the twelve county officers, which is paid for in this county and which will be a duplicated expense. This list could be added to in every item. For duplicating new sets of books for every office, which is one of the chief costs in any county. The rancher instead of paying only a small proportion under the present county unit will be hit three times as hard as a taxpayer of the new county. When you go into a new vote against a move that has nothing of merit for you and only increase d expense for every taxpayer in the county.

ROCK CREEK MAN COMMITTS SUICIDE

James O. Young Takes Life By Blowing Top of Head Off

DEED DONE WITH SINGLE BARREL SHOT GUN

Had Only Been Married About Eight Months. Insanely Jealous of Wife Without Cause.

Word was received at the sheriff's office in this city Wednesday afternoon that a man had been killed south-east of the village of Rock Creek. Deputy Sheriff Herrihan went out once to the scene, and it was discovered that James O. Young, a resident of that part of the county had committed suicide by blowing the top of his head off with a single barreled shot gun.

Coroner C. J. Crosby was notified, and a wagon was dispatched to bring the dead man to this city.

The inquest was held Thursday afternoon and the following facts were discovered: James O. Young was thirty-two years of age and was married to a daughter of Ben Brackenberry of Rock Creek, about eight months ago. It seems that Young had been jealous of his wife, without any cause, for a good while and made threats of doing her harm at different times in the last few months. The tragedy took place about five miles southeast of Rock Creek, at the Shelby ranch on McMillan creek, where Young and his wife and others were visiting. Wednesday afternoon, Mrs. Young and several of the party, who were visiting at the ranch, started for Rock Creek. Just before the party started for Rock Creek, Young stated that he was going out to shoot a few rabbits for supper. Next Brackenberry, who did not go with the crowd was watching him. He went up a hill from where the house is situated, disappearing over the brow of the hill, but soon returned in sight of the house. Mr. Brackenberry stated that Young was about a quarter of a mile from him and at that time he seemed to have over on the gun, and that in a moment he saw smoke from the gun and heard the report.

As soon as possible he was at the scene of the tragedy, finding Young must have discharged the gun with the aid of a forcing stick, as it would have been impossible for him to have done so otherwise. The gun was a single barreled shot gun, 12 gauge, and was loaded with buck and was killed shot. The jury after hearing the evidence returned a verdict that Young came to his death from a gunshot wound inflicted by himself. Besides his wife, he leaves a father, mother and brother in Lincoln, Nebraska.

ROAD CONTRACT LET

Helmer and Mull Has Contract for
Road and Bridge Work.

Last week the county commissioners let the contract for the road and bridge work on the state road, the way which passes through this county. The contract was secured by Helmer and Mull, of this city, the contract covered the work on the state road, including several bridges. Work will commence as soon as the state engineer sets the survey started. It is understood that the contractor who will do the grading, has established his camp near Murghum. The contractors expect to get the greater part of the grading done this fall.

REPUBLICAN TICKET

For United States Senator
James H. Brady.
For Representative in Congress—
Adrian T. Smith.
Robert M. McCracken.

Senator Borah's letter to Chairman Day appears in this issue and should be read by the Republican voters. It bears date of September 22, a full month before Governor Thayer took action. The utterances in the letter must compel the attention of even the most calloused standard Republican as an indictment not against one man, who is probably the scapegoat, but must include every state official.

SHOULD MAKE IT SOLID VOTE

Twin Falls county has a chance to have a representative on the state ticket in the election of November 3, error by the election of J. W. Tanner, of Filer, the Democratic nominee for that office. Mr. Tanner is an ardent Democrat and makes no apologies for his political belief, but he is above all a man and a loyal citizen of this county. He has in the past five years proven his worth as a citizen and his loyalty. Twin Falls county should know no politics in electing him a solid vote. The voters owe it to the man and citizen.

Constant reiteration of the same thing may produce good results to the voters who have been worked up with hate less than politics in the last few weeks, but the Times believes that the Republican voters should not make a mistake this election of electing a single name on

the ballot with regard to the county candidates. No matter what may be the opinion of any voter regarding the state affairs, there is not a single bit of stigma which can be attached to any one of the local candidates. From the candidate for senator to the last man on the county ticket, they are all men in every respect. They have been proven in a number of ways and their integrity and ability is unquestioned. Through the present campaign they have played the same fair and square in the open and have not in a single case attempted to besmirch the reputation of any of their opponents. They have made a canvass of the county in every legitimate way and attempted to reach the voters of the county and get acquainted with the various sections in a spirit of fairness. You cannot get better men on any ticket and for that reason should give your vote to the men of your own party. These men should have your loyal support next Tuesday.

2nd District—Chas. H. Burton.
3rd District—W. F. Brockton.

The measure of any man's strength can be taken by the opinion of his opponents, and if the hard fight which is being waged against W. P. Guthrie, senatorial candidate for the state senate by the west and county divisionists is a good enough, then he is conceded to be the strongest man which the voters can elect to prevent county division.

The Buhl men are fighting Guthrie and are making no bones of their reason. They claim that Guthrie if elected, would defeat county division. If the Buhl people are so keen for his defeat, it is a pretty good reason to bring forth by the anti-divisionists for sending him to the senate.

If you want an active supporter for your theories on a united Twin Falls county, make your vote count where you know it will do the most good. Mr. Guthrie is a heavy taxpayer in this county and is greatly concerned in keeping down the taxes and the extravagances of the state. He has ideas regarding legislation for the

laboring people which should be heartily endorsed by that element. He has on record for a re-adjustment of the Land Board system in order that the settlers may get a square deal. He is open and above board in his platform for state-wide prohibition. Mr. Guthrie is a settled resident of this county and his interests are such that he can be counted upon as a fixture and for that reason dependable. His property interests are in the Twin Falls country and there is not one reason why the voter opposing county division should not pick a man with interests mutual to his own. There is no question but what the whole fate of a county division measure may depend upon the strength and fighting ability of the senator from this county. Pick the man who can best conserve your interests as a taxpayer in an undivided county. It does not pay to take chances.

KILLS COYOTE

H. M. Coffman Wins in Battle With Coyote.

H. M. Coffman tells a very interesting story of a coyote which he killed on the Big Wood River a few days ago. He and John Byrne were coming in for dinner, to the Byrne place, when a coyote sprang out of the grass ahead of them, seized a chicken in its mouth, and made off out of the barn yard. Byrne was on horseback, and he and his dog gave chase to the coyote, which fled still carrying the chicken. They ran it into the water, which was about four feet deep, and swift and cold. Byrne got across the stream on horseback and got on the other side before the coyote could swim it, while the dog was still yelping at the coyotes heels and preventing him from landing back on that side. The animal drifted down into some willows, where it tried to make some headway against the current, but the dog would not let it land. Mr. Coffman seeing the predicament of the beast waded out into the water, and seizing the coyote by the throat, hauled it up, dragged it up stream until it was almost drowned, when he could land it and beat it to death with a convenient club—Richfield Recorder.

Purity of Ingredients Gives High Quality to HERBST & RAMBO'S CANDIES

Only especially selected, wholesome colors are used bearing the Pure Food Label. Flavors are the best that money can buy and give the candies a pleasant, distinctive taste—not bitterness. The best grade sugars are used, made especially for high-grade confectionery. Herbst & Rambo's high-quality candies cost a little more than otherwise, on account of purity of ingredients, but you get the benefit—the satisfaction of eating the best.

HERBST & RAMBO, Confectioners

Mrs. C. C. Bedford and son returned Friday from California, where they have been spending the past two months.

J. Gary, who has charge of the forests of the Owyhee Land and Shoshone company, was a business visitor in Twin Falls Thursday from his headquarters in Rogerson.

J. R. Roe, and B. E. Baker attended the blacksmiths' convention at Twin Falls the first of the week, the former having gone to that city on Sunday and the latter on Monday—Rupert Record.

Mr. and Mrs. W. W. Taylor and Mrs. S. F. Vandam were in the city Wednesday from Filer. Messrs. Taylor and Vandam are now pleased with their new location in the mercantile business.

Two fellows got into a scrap in a potato field near town early Thursday morning, as a result one of the men is carrying a badly battered face. The trouble was ailed in the Probate Court yesterday evening.

John Peters is able to be around again after being confined to his home for some time with a case of blood poisoning. While going home one evening, he stepped through a hole in the side walk bruising his leg severely.

C. A. Browning arrived in Twin Falls the last of the week from Nez Perce, Idaho, to assume the management of the Capital Life Insurance company, of Colorado, for southern Idaho. The family of Mr. Browning will arrive in this city in a few days.

F. F. Brecken, president of the Idaho State Bank, returned Wednesday evening from Chicago, where he had been for the past two months. Mr. Brecken underwent a successful operation and is now much improved in health. Returning home he stopped a few days in Kansas to visit with relatives.

SOCIETY NOTES

Society items for this column will be gladly received by The Times.

The Luncheon club meets with Mrs. H. J. Felling Friday.

Mrs. Hance was hostess to the Fortnightly Bridge club Tuesday.

Mr. and Mrs. I. D. Ferrine will entertain a number of their friends Friday evening.

Miss Elsie Spafford has issued invitations for a fall home party Saturday evening.

Miss Laura Thompson will give a Halloween party to a large number of her friends Friday evening.

The postponed meeting of the Monday club was held Wednesday afternoon at the home of Mrs. H. B. Johnson.

Mrs. G. F. Baker entertained the Wednesday-Auction-Bridge club this week. Mrs. Everett Sweetley carried off the prize.

Mrs. E. S. Larned will entertain next Monday with a luncheon, in compliment to her mother, Mrs. Ostrander, of Lansing, Michigan.

Messdames Herriman, Hurman and Rotkoff, have issued invitations to the Ideal Bible class, of the Christian church, for Friday evening.

The members of the Eastern Star enjoyed a dance at the Maunio hall last Tuesday evening. Refreshments were served at a late hour. About twenty-five couples were present.

Miss Alice Varney entertained several of her young friends at a Halloween party at the home of her parents Thursday evening. The house was beautifully decorated for the occasion and refreshments were served.

Miss Margaret Williams was the charming hostess to a group of friends Monday evening. Dancing was the order of the evening and which was followed by a chop suey supper; pink carnations and shaded candles adding a pretty touch to the table. These present were: Messes Hornaday, the noll, Parlin, Libert and Messes Reed, Smith and Flintoff.

Another of the pretty luncheons which are so generally being given by society was that given by Mrs. P. A. Wright, Wednesday afternoon. Her lowen decorations were abundantly given throughout the rooms and on the table. The latter being further decorated with a few flowers. The guests present were Messdames W. H. Dwight, Watson, Snook, Gee, Fisher, Griffin, and Ferguson.

Numbered among the enjoyable events of the week, was the dancing party at the Persson home on Second avenue, Wednesday evening. Jack-o-Lanterns on the porch, lighted the guests into the house, where many decorations of Halloween nature were in evidence. The Altona orchestra furnished the music for the merry dance of the night, which a buffet luncheon was indulged in by the fifteen couples present.

As a complement to Miss Weist, of Portland, was the delightful luncheon given by Mrs. L. L. Breckenridge, Tuesday. The unique decorations were in keeping with the Halloween season, the centerpiece being a pumpkin filled with fruits, while green shaded candles set in hollowed-out apples, were set in cases placed following the luncheon, much amusement was derived by the guests taking part in a "vegetable courtship." Messes Miller, Thomas, Ramsey, Mann, and Glenn enjoyed this affair.

The Twentieth Century club opened its doors last Tuesday afternoon in all neighboring clubs, and very gratifying to the local club women was the hearty response to their invitation. Jewel hall was all too small to accommodate the large crowd who had gathered to listen to the interesting program. Sixty-five out of town guests, representing thirteen clubs, including all clubs between Teyburn and Buhl, were present. After listening to "Tinsel Topics" read by Mrs. Kinkkelly, and a vocal solo beautifully rendered by Mrs. Ripley, of Filer, Mr. C. M. Booth gave an interesting talk urging the women to use their influence for the raising of social standards for the further protection of their own sex. An interesting feature of the afternoon was the splendid paper prepared and read by Mrs. Hestoy of Buhl, which called forth many words of commendation. A social hour followed the close of the meeting. Miss M. Alford, enlightening her hearers with a violin solo, while the guests partook of tea and small cakes, before their departure.

TO THE PUBLIC

We wish to inform the public that the article published in the preceding issue and signed by Heartfield and Budrow was a misrepresentation of facts. Until recent date we were not equipped to do our own dry cleaning and our dry cleaning was sent to Heartfield till the work became so unmanageable we were forced to quit him and install our own machinery to take care of our increasing business. We are installing the latest machinery and have employed the best cleaner that can be obtained to look after our work and we solicit your patronage. TROY LAUNDRY & DRY CLEANING COMPANY. Oct. 30.

Vote for a Twin Falls County Man.
T. E. MOORE.
Republican Candidate for Commissioner, First District.
The office of commissioner is one of the most important in the county and competent men should be selected to insure proper service.
Mr. Moore is one of the oldest settlers of the Twin Falls country, and

now one of the successful farmers of the Marion district.
He is an energetic worker for everything that is right and just and will see that the county gets value for the money expended.
Larvin expenditures mean high taxes, and Mr. Moore is one of those who believe in economy with efficiency.
He is in every way qualified to fill the position, and if elected, will give a good account of himself in administering the duties of the office, and at the expiration of his term there will be no apologies due. A vote for him means support for one of the very best men in the county.—Adv.

J. A. WATERS
Republican Candidate for State Representative.

C. C. SIGGINS
Republican Candidate for Auditor and Recorder.

To the Electors of the Fourth Judicial District:
Having been nominated at the primary election held September 14, for the office of district judge, I desire to make the following announcement to the people of the district.
If I am elected Judge on the third of November, I will exert my utmost ability and conscientiously devote my time and energy to the performance of the duties of the office.
I believe that there is too much delay in the courts. From my experience at the bar I believe a large part of this can be remedied by the judge promising to use my best endeavor to see that the courts are kept as free as possible from delay.
I also believe that the business of the courts can be more economically administered without impairing the functions. To this end I would be willing to try all cases, in which the parties or their attorneys might agree, without a jury, thus expediting business and saving litigants and the public the expense attending jury trials.
I believe in the broad interpretation of the law, and in not allowing technicalities to defeat or impede fair and substantial administration of justice.

MISS LAURA V. HALE
Progressive Candidate for Supt. of Public Instruction.

Miss Hale is one of the pioneer teachers and residents of this county and with sixteen years experience in scholastic work, in familiar with the needs of the county. School work successfully performed in the states of Michigan, Illinois, Wisconsin and Idaho have given Miss Hale many advantages in preparation for the office which she aspires. The support of the voters of the county is solicited.

T. D. CONNOR A CANDIDATE

Former Mayor of Wallace Running for County Commissionership.

His many friends in Wallace, will be pleased to know that T. D. Connor, formerly of this city, but now a resident of Piler, is now a candidate for commissioner from his home district in Twin Falls county and that his success is likely. Mr. Connor was formerly mayor of Wallace and the pro-

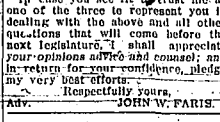

ple of this city heartily endorse to this day the closing out of the street. Later Mr. Connor ran for sheriff and was approached by some men who desired him not to enforce the law in some respects if elected for their votes and influence. This he refused to do although he knew what it would mean to him. But he has never regretted his stand.
Mr. Connor is a successful and competent man and those who knew him in his many years residence in the County of Idaho know that his neighbors in south Idaho will make no mistake in selecting a man so well fitted to be county commissioner.—Wallace Press-Times.—Adv.

TO THE VOTERS OF TWIN FALLS COUNTY.

As a candidate for member of the State legislature from Twin Falls county I desire to make clear my position, since I am accused of representing but a single issue, that of county division.
I am one of three regular nominees of the Democratic party and stand for every principle of good clean government advocated by that party.
Should I be elected, I shall use every honorable means in my power for the betterment of the laws of the state of Idaho.
Some of the vital questions that will come before the next session of the legislature are revision of the revenue laws, public utilities, the primary school, the highway, and the liquor laws. These are problems that only business men and men of experience along special lines should presume to solve.
I believe in economy and business methods in conducting the affairs of the state. Taxation should be based upon actual cash values as nearly as can be ascertained, and all property should be assessed upon the same basis and bear its proportionate part of the burden of maintaining government. Our present revenue law is ineffective in that it discriminates and allows class legislation.
I believe that the state should have a public utilities law but the present law is not sufficient to insure for which it was intended. Instead of regulating it is a delaying and doing very things the people intended that it should not do.
The primary law is sorely in need of revision that it may serve the purpose for which it was intended.
Our public school laws are in a deplorable condition and should be rewritten on new basis.
I am a firm believer in internal improvements in the way of good roads, bridges, etc., but do not advocate a reckless haste in trying to accomplish these improvements in too short a time, and thereby incur an expense the people cannot stand. I believe that a systematic method should be worked out and followed from year to year until completed.
I am in favor of state wide prohibition, and would like to see it enacted every state in the Union.
As to my fitness to serve as a member of the legislature before which the

above questions will come, I am perfectly willing to submit to your judgment. I have lived in southern Idaho for twenty-five years, have been in business in Twin Falls County for seven years, no excuses or apologies to make. I was actively engaged in almost every phase of school work in this state for fifteen years, and am familiar with the wants and needs of the public schools.
The law prescribes the exact procedure in the question of county division, and should I be elected, I shall follow the course outlined in the law without any bias or personality. If I am defeated, exactly the same course will be pursued in regard to this question.
In case you see fit to trust me as one of the three to represent you in dealing with the above and all other questions that will come before the next legislature, I shall appreciate your opinions and counsel, and in return for your confidence, pledge my very best efforts.
Respectfully yours,
JOHN W. FARIS.

JOHN W. FARIS

FRANK M. KENDALL

Democratic Candidate for Sheriff, Auditor and Recorder.
In reply to the article of Mr. Herriman entitled "Mr. Galligan and myself for quelling figures showing the past and present expenditures in the conduct of the business of the sheriff's office," I desire to comment briefly on three or four points.
It will be observed that Mr. Herriman says that if he is elected to the office of sheriff, he will act as jailor himself, and thereby do away with one officer. If it is not proposed to reduce expense in the conduct of the office, why should the addition of expense for 1915 be placed at \$13,575.00 an increase of \$2,523.00 over the year 1914.
Mr. Herriman also makes the statement that during the four years (1909-10-11-12) the number of criminal cases in the Probate court was 111, whereas in the past two or three months the number has been 250, over twice the number in less than half the time. This is cited to show a purported increase in the county's criminal business. An investigation will disclose that there has been no increase; that this purported increase has been due solely to the closing out of the proceedings of the prosecuting attorney to bring all possible prosecutions in the probate court during the past twenty-one months, to the practical exclusion of the justice courts, where they were formerly brought, and which matters would consequently not appear of record in the probate court for the years preceding 1913, but only in the justice courts of the various precincts.
Mr. Herriman further says: "The voters of this county have charged to the sheriff's office, whereas in fact it is properly chargeable to other accounts." The records in the county auditor's office show that V. H. Ormsby, probation officer has drawn a salary of \$145.00 per month as probation officer and a salary of \$125.00 per month as deputy sheriff. Is this properly chargeable to the sheriff's office? It will not be questioned that Mr. Ormsby has not taken any active part in the work of the sheriff's office, and an investigation of his duties as probation officer will disclose that he is not occupied more than three or four days per month.
It is a further fact that the salary of C. C. Siggins has been charged to the county but discontinued by the board of county commissioners. If this be allowed, the office will be chargeable with an additional expense of \$833.33 per month, or \$10,000.00 for the year 1914.
It is a further fact that considerable of the work of the sheriff's office has been performed by practical assistants during the years 1911, 1912, 1913, 1914.
It is a further fact that the records show that in at least 42 criminal cases brought during the past 15 months an entry appears on the docket of the prosecuting attorney's office to the effect that the defendant has not been taken to the sheriff's office. Is it a majority of these cases the charge has been of a serious nature.
No public officer should object to being performed by practical assistants of his from a public standpoint. I am willing to admit that I have not been a deputy in the sheriff's office, but I do believe that the right to perform the duties of the office is a right to perform the duties of the office, and I am willing to accept of it.
I presume that Mr. Dyer thought he was entitled to be qualified for the office of sheriff, and I am sure that he is more than willing to leave it to the voters to decide. Their verdict will be acceptable to me.
As to my qualifications for the office, I refer you to former Governor Stanley Governor Hildreth, my successor in office, Mr. H. Barber, or Mr. S. D. Taylor, former state auditor, who are familiar with the state game laws and the duties of the office, and honor to serve for a short time.
Very respectfully yours,
FRANK M. KENDALL.

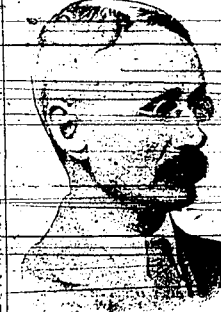

CHAS. J. CROSBY
Present Coroner, Democratic Candidate for Re-Election.

Mr. Crosby is making the support of voters of the county for the office of Coroner. He has made while a resident of the city for several years. As a business man of Twin Falls he has made good after establishing himself as a representative and integrity and has been most actively identified with the upbuilding of the city. Serving a year in the army caused by the death of C. J. Walker, he has afterwards served three years as coroner and has not a single thing against his record in public office. As a graduate of the Hohenshul school of embalming, of Des Moines, and by twelve years actual experience, he has demonstrated that he is fully competent to care for the duties of the office. He has at all times kept abreast of the new ideas in his profession, having this summer taken special work at the Washburn school of Embalming at Chicago. He has for five years been connected as active manager of the Crosby & Company. Mr. Crosby is a young man of good clean morals, well fitted in every way to ask the support of the voters of this county.—Adv.

ABILITY THE QUALIFICATION

Aspirant for County Treasurer Would Submit Record.

George H. Smith, Democratic candidate for county treasurer, is asking

that the voters of the county in an unbiased manner weigh the qualifications for the office before making their election. The office requires not only careful attention to the management of the funds, but a great deal of technical bookkeeping, beyond the ability of the most business men. An employee for many years in the accounting and auditing departments of one of the great railway systems of the United States, Mr. Smith has had a training that particularly fits him for the difficult work of the treasurer's book. Also as deputy auditor for several years, Mr. Smith has had splendid training in the making up of the tax rolls and knows the inner workings of the tax system of the county. Mr. Smith will not have to get his experience at the expense of the county. He has already acquired that experience and can make good.—Adv.

IDAHO EXECUTIVE SENDS MESSAGE TO PEOPLE OF TWIN FALLS COUNTY

Against Division in Twin Falls County, Says Governor John M. Haines

Executive Expresses Himself as Opposed to Propogition and Will Look With Disfavor Upon Any Movement Having for Its Object Change in County Boundaries.

IN THE MATTER OF COUNTY DIVISION AN EXPRESSION WAS BOUGHT WEDNESDAY FROM GOVERNOR HAINES, AND THE FOLLOWING STATEMENT PREPARED AND SUBMITTED FOR HIS APPROVAL. GOVERNOR HAINES IN CONVERSATION WITH THE UNDERSIGNED, ENDORSED THE STATEMENT, WORD FOR WORD, AS GIVEN HEREWITH, AND WE, WHOSE NAMES APPEAR HEREWITH, VOUCH FOR ITS ABSOLUTE AUTHENTICITY.

JOHN M. MAXWELL,
JAMES MCCOLLUM,
JAMES MCNEIL,
JOHN W. GRAHAM,
C. E. BOOTH,
R. A. REED,
P. T. MEATIER.

The Statement Follows:

When the first steps were taken looking to the creation of Twin Falls county, the one thought uppermost in the minds of those having the enterprise in charge was that through the arrangement of the area embraced in the new county, the two big irrigation projects, the Twin Falls South Side and the Salmon River, would be contained in full within the sphere of action of one county seat.

There were many good reasons for this, all of which are still good. It was pointed out that endless difficulties in the distribution of the water and in the care and management of the systems, would in this way be obviated, and the years which have followed have proven a splendid endorsement of this sound judgment.

Twin Falls county is laid out in a manner which makes of it a Carey act county. None of its canal systems spread out into another county. One county seat serves as the common meeting place in connection with the operation, maintenance and management of the systems, and one set of taxes and tax-collection does duty over the entire two projects.

These facts are as important today as was the case when the original Fathers of the County prepared their plans in the days when Cassia County extended clear to the Salmon River.

A division of Twin Falls County sets at naught all of the advantages gained in this way, and substitutes a double set of officials to look after the work now being carried on by one.

The proposed division gives no assurance of a single advantage such as cheapness of operation or easier access to the county seat. Instead of this, a division of Twin Falls County would compel residents of the Salmon tract, for the most part, to come to Twin Falls first, and then take the train to Buhl in order to reach the county headquarters.

One of the surest of all results in the case of a division of the county is the fact that every taxpayer in what is left of the old county will pay a third more taxes for the first year than last, because of the fact that there will be less work in the various offices, no reductions in salaries can be effected until two years from now.

These are a few of the main advantages of avoiding a division and some of the disadvantages of the establishment of a new county. Twin Falls is a young county, and it is not a reasonable proposition to cut it up and disturb its internal arrangement.

Under the circumstances I cannot look with favor upon any movement having for its object a division of Twin Falls County. I am unalterably opposed to the proposition on principle and I make this statement so that there need be no misunderstanding as to my attitude on the whole matter of county division.

CAUGHT BY LIVE WIRE

Employee of Power Company Has Very Close Call Near Hagerman.

Geo. W. Byrd, a lineman for the Great Shoshone and Twin Falls Power company, was caught Monday by a live wire, and received a shock that came near resulting fatally. Byrd was placing a transformer on the line near the Hardies Seed and Grain store standing on a "messenger," when a power wire connected with his face, sending the current through his body. He was rendered unconscious from the shock. H. A. Turley, who was the first to discover the accident, and removed Byrd from the pole. He was taken to the hotel, where Dr. Silverthorn attended him, but all efforts to revive him proved fruitless.

J. H. Seaver, superintendent for the company, was notified and came over. He immediately ordered a physician from Twin Falls, Earnest Klersted

making the trip from that place in an hour with the machine. The patient soon revived, and he is now able to be up and about town. Byrd is a "thorough" of a number of years experience, and has a wife and child in Salt Lake. Aside from a few burns he seems but little affected from the shock, although he was unconscious for several hours. —Hagerman Sun.

OPENING OF NEW LAYERING THEATRE

The 'Shepherd of the Hills' Sat-
urday Eve., Nov. 7th

ONLY ATTRACTION OF NOTE TO BE
HAD BEFORE DECEMBER

Saturday Evening Only Date Which
Could be Secured. Company Makes
Jump From Salt Lake.

As was understood by nearly everyone including Mr. E. C. Layering, the new Layering theatre would formally open November 15th, with "Per O My Heart." John Cort, of Seattle, the booking representative for all attractions of any consequence notified Mr. Layering a few days ago that this date would be changed to Nov. 7th and could not promise definitely that this date would not be changed to a later one. With this in view, and the severe weather conditions, it was necessary as can be plainly seen to secure something to replace the above attraction.

After much parleying, Gaskell and Mr. Cort's Chicago production of "The Shepherd of the Hills," a dramatization of Harold Bell Wright's novel, was secured for Saturday night, November 7th.

Knowing this to be rather an inconvenient night for many of the business people to attend efforts were made to arrange their time so as to come here any other night in the week, but such plans were impossible, which will be verified by one of the telegrams published in this issue. So it was a case of taking this attraction for Saturday, November 7th, or allowing the house to stand dark indefinitely, as no other attraction would be available until December. It is Mr. Layering's wish that the people should know that he has been conscientious in his many endeavors connected with the erection of the theatre and it is hoped that he will be met with encouragement instead of antagonism.

IDAHO HAS LARGE CROP

Two Thousand Cars of Spuds Moved Since October 1.

While Idaho farmers are elated over a 50 per cent increase in their potato crop, the Utah farmer is compelled to be content with a crop that is at least 50 per cent short of that of last year. Disease and climatic conditions were all against the potato in Utah this year in spite of all that the farmers, with the aid of the agricultural colleges could do. The crop in some portions of southern Idaho also suffered from similar causes, but throughout the rest of this border state the yield was a bumper one.

Since the first of October, the Oregon Short Line has handled about 2000 cars of "spuds" from Idaho and northern Utah. The big percentage of the shipments has come from Idaho and some have been consigned to houses here. A good grade of the article has been advertised in the last few days as low as 50 cents a bushel. In Idaho this last week potatoes sold as low as 40 cents a hundred weight. —Salt Lake Telegram.

STYLE PLUS VALUE

Is the usual measure adopted by all women in making their purchases. Everything worn by the fastidious women must first of all be of the prevailing style in order that the desire to be well dressed may be satisfied. The quality or the value measured in dollars and cents is the second requirement and without the second, no good wise shopper will even look at a stylish garment. In our purchasing of Fall and Winter wear for the customers of this store we have looked solely to these two requirements. You may be sure that for every garment purchased here that it is up to the last word for style and that quality and price charged are also in harmony. We fully believe that we can offer you just a little better goods for less money than any place in the county. We are willing to leave it to your judgment, and urge that you will visit our store.
