RANCHER FIGHTS

WITH RUSTLERS

Plans of Horse Thieves Foiled After Battle

EXCHANGE OF HORSES IN DARK RESULTS IN NO DAMAGE

W. E. Mikesell Brings in Story of Activities of Rustlers Only a Short Distance From City

Sunday night a rancher living on the highline, five miles southwest of this city, had a lively experience with horse rustlers. The story comes to this city by W. F. Mikesell who is a neighbor living on the Werthebaugh place, found a couple of men with a pair of ten or twelve animals leading the wires of his fence where a number of his horses were running. The discovery was made about ten o'clock at night. The neighbor, whose name is Sparks, immediately set out help. The rustlers were seen to get back to the marauders' way. PROTEST AGAINST GRAHAM

Water Company World Bids Newly Appointed Officer From Hearing Case

A vigorous protest has been filed with the public utilities commission by the Twin Falls Waterworks company against the designation of Commissioner Graham as the commissioner to hear the application of the city of Twin Falls for a certificate of public convenience and necessity to issue to this city a municipal water works plant. To this application the Twin Falls Waterworks company has intervened. The company has declared that Commissioner Graham is prejudiced against it and has exhibited his prejudices in numerous instances. Some time ago following the filing of the application of the city of Twin Falls for a certificate of public convenience and necessity to issue to this city a municipal water works plant, the commission to investigate, Commissioner Graham, who was appointed to succeed Commissioner Standrod, declined to hear the application and returned to the city. At the time of his appointment and for some years prior thereto, Commissioner Graham was a resident of Twin Falls. The city of Twin Falls has filed a protest against his cause in fighting the city's application having openly expressed his feelings with reference to his service and spoken at mass and club meetings as the present company. No action has as yet been taken on this protest by the commission.

RESEARCH WORK ON BRUNEAU

Mrs. Lucy Tibbs, of Bliss, a Contestant for Nobel Prize

Mrs. Lucy A. Tibbs, of Bliss, Idaho, who has been making biological research work on the BrunEAU river, has received a card from the secretary of the Royal Academy and Nobel Institute, Stockholm, Sweden, advising her work for the Nobel prize for science. Mrs. Tibbs discovered the channel of a mighty river, which before the pliocene age, penetrated the Great Basin. The fill made by the known great granite period is now known to be an old river bed. The channel of the river is in the eastern Idaho, that was found by Russell. This channel indicates the overflow by many thousands of years when the Humboldt river was a part of the Columbia river before there was such a region as the Snake River valley. The Nobel prize for science is given annually and amounts to nearly forty thousand dollars. The award is made on January 10, 1915, in the city of Stockholm, Sweden. Mrs. Tibbs' work was discovered in the fall of 1914.

SENATE AND HOUSE

READY FOR BUSINESS

Albert H. Connor of Bonner Elected Speaker of House

SENATOR HART OF BINGHAM SELECTED PRESIDENT PRO TEM

Speaker Connor Asks for Legislative Investigation of Post-Office, Attache of Both Houses

Representative A. H. Connor, of Bonner county, was elected speaker of the house of representatives of Idaho's thirtieth assembly. He was selected as the cause of the majority of the twenty-fifth ballot, which was taken at an early hour this morning. The total vote gave Connor 141 votes. It required 17 votes for a choice, and until the twenty-fourth ballot Connor, son of Johnston, had received more than fifteen. After the twenty-third ballot, Connor, of Ada, received his support. In so doing he compromised on the harmony that had prevailed in the caucus in spite of a close contest and said he was withdrawing in the hope of continuing that harmony in the Republican ranks. On the twenty-fourth ballot the vote was a tie at 16. Then came the final of 18 to 13 in favor of Connor, who would make it appear that on the deciding ballot he received the Ada county vote. Speaker Connor expressed in highest praise his appreciation of the fact that he had been bestowed upon him and said he would do his best to carry out the duties of his office. He also said he would make it appear that on the deciding ballot he received the Ada county vote. The promotion of Night Policeman
Taylor to chief of police for this city,
is one that will prove pleasing to a
great many citizens. Officer Taylor,
has been on the force for a number of
years and has proven his trustworthi-
ness at all times. He will no doubt
make a most successful chief.

TIME TO GET BURY
Unless the anti-county divisionists
are going to lay down and say that
they are whipped, give up the fight,
and higher taxes and a loss of rights
is in high time that something
be done in Boise to offset the rapidly
growing impression in the legislature
that county division means the disap-
proval of the whole county.

There are a few legal citizens of the
treasury who, by their own volition,
have been in the line of the anti-county
divisionists. They are the ones who
are the cause of the trouble. They are
the ones who are the cause of the
trouble. They are the ones who are
the cause of the trouble. They are the
ones who are the cause of the trouble.

LEARNED AT THE STATE CAPITAL
The editor of the Signal, in order to
maintain the reputation of the paper
for dealing frankly and openly with its
readers, visited Boise last week for
the purpose of gathering information
which could be relied upon, and which
would be devoid of partisan coloring,
concerning the misconduct of public
officials of the state. Only 24 hours
were spent in the capital, and the
highly intelligent editor of the Signal
was only visited there, but sufficient
was learned to turn the stomach of
an ostrich, and to bring a blush of
shame to the cheek of every citizen of
the state.

It is not a pleasant duty for a Re-
publican newspaper to announce that
its party administration of state af-
fairs has been guilty of a crime, but it is
a duty nevertheless, and the Signal
never hesitates to do it. It is the
honor of the party, and the honor of
the people, that the Signal is bound
to maintain. It is the honor of the
party, and the honor of the people,
that the Signal is bound to maintain.

But to the narration. What Allied
Haines appointed Axel Ramstedt, head
of the state tax commission, to ex-
amine the affairs of the treasury de-
partment. He did so well when he
completed the task and the report was
made to the governor. It was found
he had gone further than he was in-
tended to go. Others had been im-
plicated and he was not supposed to
unearth their wrong-doing. At least
two other state officials and several
appointees were charged in the report,
and Mr. Ramstedt was called before
them and the governor to explain. He
was told he had gone too far, and
that he was to stop. He was told
that he was to stop. He was told
that he was to stop.

These are the same county divi-
sionists who are the cause of the
trouble. They are the cause of the
trouble. They are the cause of the
trouble. They are the cause of the
trouble. They are the cause of the
trouble. They are the cause of the
trouble. They are the cause of the
trouble.

have him apply the writ and be
tried in public, but a Judge Axel Ram-
stedt, who is a member of the anti-county
division of some of the parties, who re-
sponded when duty called and stood
his ground like a Spartan. He was as
impassable as the granite, and al-
though the governor had promised the
report to the press, he brought his
report to the desk and said: "I will
hold it till I have given it out as
it is."

Learning that the report was to be
suppressed the county attorney asked
for it, but was refused. He was then
urged to call a grand jury, and in this
request the attorney general joined.
It is claimed this action was not taken
in good faith, but as a last resort to
keep the report from being given to
the public until after the grand jury
had acted upon it. It is also claimed
the County Attorney Givens is not
the proper person to present the case
to the grand jury, inasmuch as he was
a director in the defunct Nampa bank
which was wrecked by his brother, and
which had on hand at the time of the
failure over \$40,000 in state money.

A statement given out by Givens that
the report would be given to the grand
jury and the legislature, and that the
legislature would be implicated in wrong
doing in connection with the state
treasury affairs is being quoted as
justification of the demand for another
prosecutor.

There are other things the writer
learned. He found that state officials
had received money from timber com-
panies. They are not for timber com-
panies, but for timber companies. They
are not for timber companies, but for
timber companies. They are not for
timber companies, but for timber com-
panies. They are not for timber com-
panies, but for timber companies.

As the Ramstedt report is in the
hands of the court to be presented to
the grand jury, the Signal is compelled
from quoting any part of its contents,
but murder will out, and our readers
may prepare themselves for some in-
teresting reading in the weeks to fol-
low. Prominent Republicans who are
in the line of the anti-county division
are not all that they are not all. The
anti-Republicans who cannot escape if
the truth is done, Moses Alexander
promised to clean house, but he
should go further. He should call
upon the legislature for funds to en-
able a non-partisan committee of hon-
orable men to investigate the records
since statehood and the combinations
of crooks, whether Republicans or
Democrats, should be brought to jus-
tice in the name of the state, and
should be held to the hot for them to
live in. The people have been long
suffering, and the people have been
long suffering. The people have been
long suffering. The people have been
long suffering. The people have been
long suffering. The people have been
long suffering. The people have been
long suffering.

There is a man in Boise who has
been a member of the anti-county divi-
sion of some of the parties, who re-
sponded when duty called and stood
his ground like a Spartan. He was as
impassable as the granite, and al-
though the governor had promised the
report to the press, he brought his
report to the desk and said: "I will
hold it till I have given it out as
it is."

These are the same county divi-
sionists who are the cause of the
trouble. They are the cause of the
trouble. They are the cause of the
trouble. They are the cause of the
trouble. They are the cause of the
trouble. They are the cause of the
trouble. They are the cause of the
trouble.

DON'T WAIT
ANY LONGER
TO BUY
YOUR CLOTHES
You can't afford to wait any longer, because our reduced prices
are fast clearing out our winter goods.
Winter has just started and you can use and enjoy a long time
the fine wearables we now sell at short prices.
We have not shipped in a lot of "sale stuff" for this sale. We
don't do business that way.
Suits, Overcoats, Underwear, Shoes—all Winter Goods
at unmatchable prices.
Don't you wait any longer.

coffee, drink coffee from German clo-
thes. Use only German clothes for your
dress, and German hats for your head.
Do not get foreign military district
you from these proceeds; and be firm-
ly convinced, whatever others say, that
the German products are the only
ones worthy of citizens of the Ger-
man Fatherland.

These "ten commandments" are given
to every German factory and business
house.

They will cross rivers over the
bodies of the slain, and these in vain,
will change the course of the waters.
They will bury only the man of noble
families, let leading commanders and
the princes, princes will be buried in
the graves of the common people.

The Antichrist will ask many things
for peace, but the seven angels will
walk in front of the three animals de-
fending the lamb have decided that
victory will only be granted on the
condition that the Antichrist be crushed
like straw on the barn floor.

The executors of the justice of the
lamb will be fighting as long as the
Antichrist possesses soldiers to
fight against them.

That which makes the decree of the
lamb so implacable is that the Anti-
christ has pretended to be a follower
of Christ; and to act in His name, and
if he does not perish, the fruit of the
Reformer will be lost and the door of
Heaven would prevail against the Ser-
vice.

The fight which will take place
where the Antichrist fights the army
will not be in any way a human fight.
(This may have reference to the
battle of the Antichrist and the army
authorities believe that the Antichrist
battle may take place in Westphalia.)

The three animals defending the
lamb will be fighting as long as the
Antichrist possesses soldiers to
fight against them.

That which makes the decree of the
lamb so implacable is that the Anti-

of Christ; and to act in His name, and

WAR FORETOLD

Remarkable Prophecy, Written 300
Years Ago.

In a publication called Omens of the
Great War, the following remarkable
prophecy, written by Brother Johannes
de Witt, appears in describing the
allegory it must be remembered
that France is represented by a cock,
England by a leopard, Russia by a
white eagle, Germany by a black eagle,
and Austria by the "other eagle" while
and land stands for justice, mercy and
truth.

"Toward the year 2000 the Antichrist
will manifest himself. His army will
surpass in numbers, all that can be
imagined."

"There will be Christians among the
legions, and there will be Mohammed-
ans and savages among the defenders
of the lamb."

"For the first time the lamb will be
all red. This will not be a single spot
of red, but the whole lamb will be
red, and red will be in the heaven, the
earth, the water, and even the air. For
blood will flow in the domains of the
four elements, and the cock will
be slain."

"The black eagle will throw himself
upon the cock, and will tear his tail
feathers, but will strike back heroically
with his wings, and will be victorious
over the leopard for the sake of the leopard
and his land."

"The black eagle will throw himself

Windmill of Great Power.
A windmill which stands in the
vicinity of the town of Hasting,
has lately been brought into use
as a means of irrigation. The
windmill is a very old one, and
has been used for many years
as a means of grinding grain.
It is now being used as a means
of irrigation, and is a very
valuable asset to the town.

A TRUE MAIL ORDER STORY

What Tearing Down the Home Cost an Iowa Farmer.

How Garbus is a German farmer in Iowa. He wrote a letter to the Farm Journal, Philadelphia, the other day...

Twenty-nine years ago I began my farm career. I had an old team and 300...

As soon as I owned these few acres the mail order houses began to send me catalogues...

Gradually our merchants sensed their stock of patronage. Finally we began to realize that we needed a bolt quickly for machinery...

Gradually our town has gone down. I regret to say that I was the first in the county to make up a neighborhood...
