WATER RIGHTS IN JEOPARDY

Salmon River Tract Faces New Legal Problem

STATE OF NEVADA CLAIMS STORAGE WATER OF RIVER

Suit Filed by State of Nevada as Injurious to the Utah Construction Company.

The right of a state to appropriate and use waters from streams originating in another state and flowing to this state is the issue involved in an important case argument which opened in the United States district court here today.

The two streams in question have their watersheds and sources of water supply in the state of Nevada and flow into Idaho. Water from both streams are used by the companies involved the Vioyland Land & Stock company said to be the property of the Utah Construction company.

Nevada has 50,000 acres of land on both sides of the Salmon river, of which 15,000 are under irrigation. It believes it is entitled to all of the water from this stream during the main irrigation season.

WILSON REPLIES TO BERNSTORFF

Strong Rebuke Administered to German Ambassador

PRESIDENT WILSON SAYS MUST NOT GO TOO FAR

Relations of United States With Our Great Power Not to be Discussed With a Third.

Washington—The United States government replied Wednesday to the recent memorandum which Count von Bernstorff, the German ambassador declared that if the American people desire to observe true neutrality, they will find means to stop the exclusive importation of arms to one side.

The American note, which is signed by Secretary Bryan, was drafted at the state department but was finally penned by President Wilson himself. After pointing out that the language used by Count von Bernstorff is "incapable of being construed as impugning the good faith of the United States in the performance of its duties as a neutral," the note "takes it granted that no such implication was intended."

The attitude of the United States on the question of exportation of arms is related, namely, that to place any embargo on arms during the progress of a war would be "a direct violation of the neutrality of the United States."

SHOULD BE HONEST

Attempts Made to Bring Wet and Dry Issue Into Campaign.

From number of sources the rumors are coming that the wet and dry issue is being brought into the campaign in the city election.

There is no doubt of the old liquor fight which should be considered. Both tickets contain a big majority of men who are well known as drys. Any man on any ticket attempting to do otherwise than enforce the laws would be in a clear minority and the target for public scorn.

MANY SPECTACULAR SCENES

"A Modern Era" Offers Great Attractions at the Lavender.

Among the most attractive scenes in the latest "Modern Era" production is the Lavender theatre April 27th, the beautiful wedding scene, in which the principals and chorus appear in exquisite costumes; the alluring "Siren" number; the laugh provoking debate, in which the women endeavor to prove their superiority over the men; and the satirical divorce scene.

CLUB WOMEN BREAKFAST

Annual Gathering Closing Year a Brilliant Affair.

SEVENTY-FIVE MEMBERS PARTICIPATED IN BIG BANQUET

The fourth annual breakfast of the Twentieth Century club held Tuesday afternoon was probably the most successful ever held here. From the standpoint of attendance and entertainment of the members, Jewel hall, under the tasteful decorative attire of the committee, proved a delightful place in which to banquet.

The breakfast was a most successful affair. The luncheon was served by the ladies of the Episcopal guild, on the program for toasts were able to give excellent account of themselves in a very pleasing vein.

The Harlan forces have intimidated through their mediums that the objection to Mr. Harlan as mayor, coming from the Times is purely personal and with the editor of the Times wishing to strongly deny that by statement. It is true that the editor does not like Mr. Harlan and has made no bones of the matter, but the editor has not in the past and will not in the future allow personal grievances to enter into his views on public matters.

The records of the Times will show that this paper has constantly supported Mr. Harlan as mayor of Twin Falls, Canal company. The editor has also worked with Mr. Harlan in several campaigns in the past and would do so again if the issues at stake would allow such united efforts. Therefore, in opposing Mr. Harlan for mayor, the issue is not a personal one, but merely of public policy.

The Times does not believe that Mr. Harlan is the logical candidate for mayor at the present time by reason of his associates. It does not believe that Mr. Harlan is broad enough man to fully cope with the situation unaided by interested persons. The issue with the Times is a municipal waterworks system which will furnish pure water in the shortest possible time. The Times does not question Mr. Harlan's integrity in any manner. But the Times does question the ability of Mr. Harlan to carry out the platform upon which he is running while honest with the influences surrounding him.

But the Times promises Mr. Harlan any other candidate elected next Tuesday, that as long as it deems he or the other candidates elected are doing their utmost to keep the pledges made prior to election, that the hearty support of this paper will be accorded. Election day will see the end of the fight which this paper will make except to insist on quick action of a municipal system. It is not the purpose of the editor to harbor malice or to use this paper to the detriment of the city officers, trying to do their duty.

HARLAN CORRECTS TWIN FALLS TIMES

Open Letter to W. S. Hill, Editor of Twin Falls Times.

Twin Falls, Idaho, April 21, 1915. Dear Sir:

I note what you have to say in your issue of April 20th in regard to the 5th avenue ditch.

In reply I wish to say that you have grossly mis-stated the facts in regard to my position in the matter.

I have never taken the position at any time that the ditch should not be covered.

The records of the Twin Falls Canal Company show that they offered to the extent of one thousand dollars to help cover this ditch. This was done through the advice of their at-

torney, Mr. Bowen. They did not admit any liability but as a business proposition concluded that it would cost them a considerable amount to carry this case through the courts. They hoped to avoid litigation and to get this question settled then and there.

I think there never has been a difference in opinion in regard to the necessity of covering this ditch, but the only question has been that of who should pay for the same. In all such matters I followed the advice of my attorney. "What would you have done?"

If you will investigate this matter you will find the facts as they stand.

I call your attention to the fact that during all this controversy up to March, 1915, I was in the employ of the Twin Falls Canal Company, and as an honest man was bound to look after their interest first, also that we attempted to make an equitable adjustment of the matter. If I had served the interest of the same loyalty I served the Twin Falls Canal Company.

Respectfully, G. E. HARLAN, From Twin Falls Chronicle.

RECORDS FROM THE COURTS

In the Case of the City of Twin Falls vs. George Harlan.

George Harlan was arrested as manager of the Twin Falls Canal Company for violating the ordinance regarding the covering of Eighth avenue ditch. Was tried in the public court November 25th and convicted of the misdemeanor.

Appealed to district court December 2nd, 1912, was tried in the district court August 26th, 1913, and was convicted.

Mr. Harlan filed notice of appeal to the supreme court of the state January 18th, 1914. Since that time nothing has been done by Mr. Harlan in presenting his appeal nor by the city in forcing the issue. Fourteen months have elapsed since that appeal. Why does not Mr. Harlan clear himself as speedily as possible. For what reason does the city occasion fall to press home the appeal issue and get the ditch covered if each is so greatly concerned about jeopardizing the lives of the children? The Times will leave the verdict to the voters of the city.

Mr. Harlan has made a statement of a mis-statement with regard to the litigation on the Eighth avenue ditch. The court docket of the district court speak stronger in refutation of Mr. Harlan's denial than any thing the Times need to say. The Times has not attempted to injure Mr. Harlan in any way by a plain statement of facts in this case. In Mr. Harlan's open letter published in the Chronicle to the editor of the Times, he makes charges of false statements and libel upon me in the run of his communication to contradict himself by admitting that as manager for the company he did refuse to admit liability or to cover the ditch when ordered by the city council. Now it is easy perhaps, for Mr. Harlan to evade the issue, claiming that he was merely an employe of the Twin Falls Canal Company and that he was bound to do his duty by his company.

There is a higher code of ethics than loyalty to a corporation. If Mr. Harlan in his heart thought the ditch was a menace to the lives of little children and should have been covered, then his loyalty to humanity should have been stronger than to the corporation. There are some men who would have used their influence to have had the matter settled even at the cost of their job with the corporation. A thousand dollars offered by the Canal company toward covering the ditch, as he admits was merely an attempt to save money through litigation, not from any consideration over living on-

dangered. It will appear to the unbiased reader that Mr. Harlan, by his own statements stands convicted of a very materialistic viewpoint on a purely humanitarian proposition. The Times will let the matter rest with the voters as to their verdict.

TALKS ON THRIFT

No. 12. A SALARIED MAN WHO GOT OUT OF A RUT

No man can afford not to be thrifty. Only the poor are wasteful. - E. H. Harriman.

Living on a salary is a more or less precarious form of existence, but it is not wise for every man to go into business for himself. Some men are not fitted for that responsibility, and there are a great many failures of men who strike out for themselves without sufficient backing of capital or experience.

However, if you never save any money out of your salary, you will never get ahead financially. You always will be the fall of another man's kite, always staking to keep up steam in the bottom of somebody else's business.

Plan your course so that you will not always be dependent upon your salary. Build up a reserve fund. From time to time make wise investments, and in a comparatively few years you can become independent, and in the meantime you will be able to do better work and more of it, because your mind will be relieved of anxiety as to what would happen if your regular income should fall.

How one started man get ahead is told in this letter a Chicago man wrote to his savings bank.

"I was married in 1904 on a salary of \$75 a month. In November, 1910, I was receiving \$135 a month. That winter sickness cost us \$50 and we had very little money in the bank to pay for it. We determined that we would save."

"To show what people can do with a fixed determination to succeed, we began immediately to save from \$37 to \$75 per month, and in eighteen months I paid \$1050 on a lot and sold my equity for \$1200 cash and also paid back a loan of \$50 with interest."

"Two days after I received my cash I redeposited my money in another lot paying \$1200 down on a \$2600 lot. In five months I paid my equity for \$1600."

"When I had about \$1800. Two days afterward I invested again. I paid \$500 cash on two lots at a contract price of \$5000. In two days I sold my contract on one lot for \$575, making \$200 net on the transaction. That afternoon I bought another one for \$2800, paying \$275 down and in two and one-half days I sold my \$275 equity for \$575, making \$200 on that lot."

"If then had one lot left on which I paid \$1200 down, because the balance for investment. In about five and a half months I sold my equity for \$2000."

"November 19th, 1914, I purchased another lot for \$2500."

"One does not need to deprive himself of the comforts of life to accomplish the foregoing results, for we have lived very comfortably and have given my mother from \$5 to \$100 per month during this time, and last summer I purchased a motor boat and my family and I spent three months at one of the nearby lakes."

"I have a checking and savings account also with about \$4000 to my credit after paying for my last lot. I consider it worth any man's time and interest to save and go without some of the luxuries of life, if he can start with \$40 in November, 1910, and have \$3000 cash in November, 1914, three years thereafter."

It will not take long for a thrifty man like this to become independent of the pay envelope and fearless of the "blue" envelope.

Business was transacted and a new set of officers was elected. Frank Provost was elected president; Spencer Peterson, secretary; and Louis Suttillier, treasurer.

Miss Davonport has taken charge of the work and was re-assured of success. J. C. Corcoran, of Chicago, who is representing Van-Houten and Zoon chocolate is visiting for a few days with George Harris.

Mrs. LaCouras, who has been ill for the past week, was taken to the Twin Falls hospital Sunday. She is reported to be improving.

Miss Godfrey, of Salt Lake, spent Saturday, Sunday and Monday with Mr. and Mrs. Hubbard.

The Hansen ball team vindicated itself Sunday by beating Rock-Creek 10 to 7. The week before Kimberly played at Hansen. The Hansen team ran in 5 and Kimberly scored (too numerous to mention). The team is getting in trim for the season's work and we expect to return the compliment to Kimberly before the summer is over. C. E. Edwards has been elected manager of the team.

Guy McVey and Jim Kirkpatrick are seeding two blocks of the townsite to white clover, from which they expect "big" seed returns. White clover is an easy crop to raise and needs profitably and usually brings a good price and several of the farmers in the vicinity of Hansen have made more clear money on two acres of it than five times that much wheat. It is a good plan to use the vacant property for this purpose as it will keep down the weeds and thus improve the appearance of the town and bring some returns from the lots that are a dead expense to the townsite company and cause for doubt in the mind of the prospective purchaser.

Among those from Twin Falls registered at the Overland Inn this week were: J. C. Moore and W. F. Baker; the hotel has opened for business after three years' vacancy and is welcomed by everyone.

Kempton and Whitehead have been grubbing grasshopper from the townsite this week, completing about two blocks that have been grubbed this spring. Several lots have been sold in the townsite.

T. J. Autry has almost completed his new bungalow which will add much to the appearance of the town. Mr. Emmanuel has also started a house on the east side.

Arrangements are being made for the commencement program at the school and it is reported that there will be some exceptionally fine numbers in the program and all efforts are being made to make it interesting.

By letting her mow the lawn, but let me do it. I will take care of you. I saw any time this summer and I furnish all tools required. Phone 267 or let me know at 244 Ninth avenue east and I will call and give you prices.

Idaho Power & Light Company 137 Shoshone Street North

Perrine Couder in winter time. Buick C-23 the only car to negotiate the Blue Lakes grade at this time of the year.

### What a Buick Has Done For Others a Buick Will Do For You

We are not building an engine or telling what we expect to do in the future. We have been here for the past seven years, we have our own garage and a complete equipment as you will find in the state. We do not use the service, and we are selling the cars. A car that has a better made. Some auto-mobile agents try to forget the past records of their car. They are ashamed of them. We are proud of ours. We believe in showing you by illustrations and actual demonstrations that our cars will go where others cannot follow. Our cars have no weak points and we are never backward in putting our cars to our supreme test you are a mind to suggest. We get affidavits of gasoline mileage to prove to you that our cars do go further on a gallon of gasoline than any other car of equal size. You never see any illustrations of what these other cars do. You never see any affidavits regarding their gasoline mileage.

### THERE IS A REASON

They will tell you that the Buick is geared low. This was true then we wouldn't have the speed, and to prove different we will guarantee to outrun any other car in our class on low, intermediate and high gear. This we are ready to back up with money, chalk or marbles. Our eleventh carload since February 20th is due this week.

### CUNNINGHAM'S NARROW ESCAPE

Buhl Man Has Close Call on Castleford Grade.

W. H. Cunningham narrowly escaped death Sunday afternoon by reason of an accident to his auto on the Castleford grade. He and his wife and mother-in-law were in the auto when the engine gave out before reaching the grade. George Newman undertook to push the machine down the grade, but owing to the bad condition of the brake it was necessary to untie the machine. The auto started down hill, but Newman into the wagon and was thrown off the grade and demolished. The Newman team then ran away and narrowly escaped disaster on the hillside. Mrs. Cunningham and her mother got out of the auto before the wreck, but Mr. Cunningham was in it through it all, and came out unhurt, thanks to the top which saved him from death.—Buhl Pioneer.

Take that bump-bike to Gloystein Brothers, they'll fix it. Mar 9 ft.
