VOL. X, NO. 91 TENTH YEAR TWIN FALLS, TWIN FALLS COUNTY, IDAHO, TUESDAY, AUGUST 24, 1915. SUBSCRIPTION \$2.00 PER YEAR

FIVE CHILDREN BURNED TO DEATH

Parents, Living Near Church Hill Go to Sunday School Party

LITTLE ONES LEFT IN BED WITH NO OTHER PEOPLE NEAR

Mr. and Mrs. John Tooth mourn loss of their family's children.

One of the most horrible accidents in the history of southern Idaho occurred at the farm of John Tooth, three miles southwest of Church Hill, Friday evening, August 20, when their lives in a fire which destroyed the house.

As near as can be learned, Mr. and Mrs. Tooth placed their four children, Zola, aged eight years; John, six; Golda, four and James, two; in the kitchen, and left them alone.

When only a short distance from home the party looked and saw the fire but supposed it to be burning sage brush and went on their way.

A little later Mr. Tooth became worried and returned home, only to find the house in flames.

The children were found in different parts of the house, indicating to the searchers that they had endeavored to get out of the house.

It is not known for certain how the fire started, but it is said that there was a kerosene and an oil stove in the kitchen. It is said, however, that the stove had no oil in it.

BACK FROM HARD TRIP

Sheriff Kendall and Deputy Thompson, Trail Staff to Wells, Nev.

Some time ago a stranger went to one of the livery barns in this city and hired a saddle horse for the next morning.

On Saturday morning Sheriff Kendall and Deputy W. G. Thompson started on the trail of the horse.

They finally arrived in Wells, where they found the horse and rider.

HAY WILL BE HAY

Dr. Weather, Over Southern Part of State Reduces Crop

There is no question at this time, but what the hay crop in southern Idaho will be short this year.

Both the Hart river and the Oakley sections are short and will probably be short in the mountains.

FOURISTS FROM TWIN FALLS

Spending Some Time in Wood River Country

Several of the Twin Falls citizens, including the family of Twin Falls, G. A. Johnson, dentist, accompanied by Mrs. Johnson, left for Wood River, Nev., Tuesday evening, traveling in their automobile.

They left yesterday forenoon for the Wood River country.

GERMAN NAVAL REVERSE

Report of Heavy Losses Inflicted by Russian at Riga Bay

London—A dispatch to the Central News from Petrograd says:

"The president of the duma has announced that the German fleet has been annihilated in the Riga Bay.

"The announcement of the president of the duma was as follows: 'In the Riga battle, the Germans lost one super-dreadnought, the Moskva, three cruisers and seven torpedo boats.'

"The German fleet has withdrawn from Riga Bay.

"The German fleet has withdrawn from Riga Bay.

All Odd Fellows, Rebekahs and Their Friends Invited to be Present and Bring Well-Filled Baskets

The members of the local Odd Fellowship and Rebekah lodges are making arrangements to hold a picnic in Water's Grove.

The picnic will be held on Friday afternoon and evening.

The afternoon will be spent with field sports and a grand program of sports has been arranged by the committee in charge.

The picnic will be held on Friday afternoon and evening.

The picnic will be held on Friday afternoon and evening.

The picnic will be held on Friday afternoon and evening.

The picnic will be held on Friday afternoon and evening.

CROPS IN NEED OF WATER

Week Has Been Unusually Hot and Dry in Idaho

The climatological service of the United States weather bureau has issued its weather and crop reports for the week ending yesterday.

The week was hot and dry. The excess in temperature ranged from three degrees in the southeastern portion of the state to ten degrees in the northern and southwestern.

Temperatures of 90 degrees or over were reported except in the mountain regions where maximum temperatures over 100 degrees.

No rain or showers occurred except a few showers in the northern portion of the state.

The crops are in need of water.

The crops are in need of water.

BUCKEYES TO PICNIC

Big Time at Water's Grove, Thursday Afternoon, September 9

On Thursday afternoon, September 9th, the Odd Fellowship of the Twin Falls tract will hold their second annual picnic at Water's Grove.

The picnic will be held on Thursday afternoon, September 9th.

MEETS DEATH BY ACCIDENT

John L. Swicegood Killed By Discharge of Shot Gun

ATTEMPTS TO TAKE GUN FROM WAGON WITH FATAL RESULTS

Accident Happened Last Thursday, Between Jarbridge and Eureka, Nev. Well-Known on Tract

John L. Swicegood, well known as former resident of Eureka, met his death last Thursday evening about twenty miles from Jarbridge, Nevada.

Swicegood was traveling from Jarbridge to Eureka, Nevada, when about twenty miles from Jarbridge, Nevada, he attempted to take his shot gun from the wagon by the muzzle.

The gun was discharged, the contents striking him in the forehead, causing instant death.

The body was taken to Jarbridge and W. B. Swicegood, a brother, residing in Eureka, Nev., was notified.

The body was taken to Jarbridge and W. B. Swicegood, a brother, residing in Eureka, Nev., was notified.

The body was taken to Jarbridge and W. B. Swicegood, a brother, residing in Eureka, Nev., was notified.

BUCKEYES TO PICNIC

Big Time at Water's Grove, Thursday Afternoon, September 9

On Thursday afternoon, September 9th, the Odd Fellowship of the Twin Falls tract will hold their second annual picnic at Water's Grove.

The picnic will be held on Thursday afternoon, September 9th.

EMPTY BARN BURNED

Property of F. C. Dawson in Elm Park Addition

On Thursday afternoon the fire department was called to the Elm Park addition where an empty barn belonging to F. C. Dawson was on fire.

The barn was not destroyed in until the barn was about burned to the ground.

As soon as the department arrived it was found that the fire was under control.

The fire was under control.

CRYSTAL SPRINGS ORCHARD CO'S FAMOUS EBBERTA PEACHES

For sale at all stores, and at Crystal Springs Orchard, 416 miles north of Payson, from August 22nd to September 10th. Regular price 10¢ per bushel. One price throughout the season.

DUCK SEASON OCTOBER-1ST

Upland to Kill Ducks Until the First of October, This Year.

The Times is informed by Deputy State Game Warden Joe Fitzgibbon that the duck season for ducks will not commence until October 1st.

WITHHOLDING JUDGMENT

Government Will Get Full Particulars on Sinking of Arabic

Washington—Judgment still is withheld by the United States government on the torpedoing of the liner Arabic with a loss of two American lives.

Until official information on which to base the course to be pursued against them will be obtained from the government's position and high officials will not discuss the subject.

Both President Wilson and Secretary Lansing were silent Sunday after dismissing interviewers with a negative answer when asked whether any additional reports had been received from Ambassador Padoa.

It was understood that the all-important report awaited before the United States determined whether Germany has committed a deliberate act.

Expect German Claim. Cabled statements of American survivors, however, are being received on board.

The question now is whether the liner was attacked by the submarine before she was sunk.

In addition to this information as to the Arabic, Ambassador Padoa said to have mailed a long report, including affidavits of the American survivors.

President on Move. President Wilson remained at the White House only long enough to catch the train for Arlington Park.

Whether such an action would be taken without first consulting congress is a matter of speculation.

PRICES OF HAY AND MUTTON

North Side News Think Hay Should Higher

The large shepherds are still on the tract buying hay on Monday.

Ernest Frank R. Gooding was personally canvassing for hay, this time not for votes but for hay, and more hay.

With shepherds able to buy winter feed from the farmers at less cost, and able to summer graze their herds on the forest reserve at a charge that is less than the cost of other words at least that of maintenance to the government—who would not be a shepherd's best customer.

But then, we cannot all be shepherds.

Yellowstone "HELP"

Includes Students and Teachers Who Entertain Themselves.

When the Yellowstone hotel and camp men slipped their traps in the park early in June to be ready for the rush of visitors, the special train that carried them across the river was the only one that stopped at route 1.

The special train that carried them across the river was the only one that stopped at route 1.

WILL WORK FOR IDAHO FEEDERS

Western-Pacific Directors Must Decide Issue

PRESIDENT BUSH FAVORS LINES INTO THIS STATE

Twin Falls Line and Boise-Winnemucca Said to be First on Extension

The directors of the Western Pacific Railroad are being contacted and planned by D. F. Bush, system president, according to Col. E. H. Blaine of Winnemucca, Nev., who arrived in Salt Lake yesterday after several months in the east, where he was in close touch with Mr. Bush and his associates.

The Western Pacific railroad in its present state, operating as it does without feeders, cannot make a program that with the necessary feeders it can be made a great road.

The two most important feeders so far as this immediate territory is concerned are the Winnemucca-Hatch and Salt Lake-Utah.

If I spend my Dollars out of Twin Falls and you spend your Dollars out of Twin Falls, and all the People spend their Dollars out of Twin Falls, WHAT IN THE THUNDER WILL BECOME OF TWIN FALLS? THINK ABOUT IT

The Times' next issue has a very able article from E. C. McClellan, an irrigation engineer of Salt Lake, that should be read by every citizen in the Twin Falls country. A great many experienced farmers will probably not agree with Mr. McClellan in his contention. They are urged at least to give it more than passing attention. That too much water is being used for successful irrigation is becoming more and more apparent to the ranchers who are studying the water problems. The amount of water used is the crucial point and it is here that the arguments begin. Mr. McClellan is not a "wet-bill" man, and is not in the eye of irrigation promoters with an object in view, but is the owner of an irrigated ranch in Nevada, where the water is available makes economy necessary. His evidence is therefore worth while. It is to be hoped that the knowledge of the local ranchers, "to use too much water and waste it and the land is criminal because it is robbing the future of thirty to thirty-five inches of water with water which is not in excess belongs not to the individual but to the state for use on other arid lands."

If the Twin Falls ranchers have more than enough water by reason of their purchased water rights, have a valuable asset, but nevertheless one which is no asset while it is being wasted year by year.

THE WATERWORKS SITUATION: The Times is going into the question of state in the present water works situation will probably say something that will rattle with some of the obstructionists, who have placed obstacles in the way of the consummation of city ownership. The Times will give credit to some of these men for sincerity in their views, but the bulk of them in opposing the present city administration are actuated by the lowest of human motives, simply the desire for political revenge. For six years in the city affairs, have been manipulating a waterworks system. Every candidate without an exception has pledged himself to that platform. It would seem that honor and integrity of purpose would preclude every one of these men to support any move that will bring about the desired end irrespective of whether they were successful in the election or not. They should take the lead in working for the city ownership.

But the truth of the matter is that above a clear cut duty as a citizen to promote the welfare of the city, a number of citizens are letting unworthy motives gain ascendancy and are in every way trying to stop the consummation of the desired end. To such men the Times can offer nothing but scorn and contempt. To speak against under the guise of hypocrisy. The Times has no respect for the views of the most rabid and interested partisans of the defeated administration would do everything to defeat any attempt at the performance of election promises on the part of the Sweezy administration, but it has hoped that the majority of the citizens were big enough to drop personalities and work for things which will benefit the whole city. It still hopes the small group of obstructionists will become still smaller in numerical numbers. The Times believes that the price asked by the Waterworks company is plenty high and that it does not represent the actual physical valuation by any means. Sixty-five thousand dollars will probably be nearer the actual figures of the investment. But there are a few points which the tax-

players must bear in mind. In the first place the present company has a fifty year franchise with forty more years to run. This franchise is worth at present to the privately owned company twenty thousand dollars in net profits. These profits must be taken into consideration in fixing the value not only to the operating company but to the prospective purchaser, the city of Twin Falls.

Bond issues for a municipal plant have been voted and are promptly being paid down by the bond-holders, who will not buy an interest in a law suit. The present company stands as at present, as a strong obstacle in the way of any further efforts toward a city system, unless the Utilities Commission will after its double barreled decision of some forty days ago which practically forces the city to deal with the Waterworks company. The damage suit for injury to paving may or may not prove satisfactory and it will merely delay action on the main issue.

For the sake of argument the Times will admit that ninety-two thousand dollars is a high price for the poor system now supplying the city, but in the last two years while the city has waited dickering over a price considerably higher than the present offer the private company has taken nearly sixty thousand dollars in profit from this plant. The city not only lost the profit but continued just that much longer the damage to the streets. Twin Falls will eventually win in its fight against the present company.

The Times is certain. But in the victory two years hence will the little consolation for the city of a hundred thousand dollars of lost profits and fifty thousand dollars of damage to city streets. The Times does not believe in giving up a fight for any principle, but when the result can be gained at no sacrifice in principle or in money, it believes that common sense should rule the action of the citizens. It may take two years to get a municipal system. It may take longer, but the fact remains that the city could just as well furnish water through the present system as to allow the private company to do so. Twenty thousand dollars per year in profits means practically forty thousand dollars subtracted from the purchase price of ninety-two thousand. It would seem that we are paying pretty dearly every year that we fight the present company. Let's get them out of our field and then pay the way for an installation of our water difficulties.

THE PROGRESSIVE DRIFT: Whether it was the arrival of the third birthday of the Progressive party early this month, or merely the realization that the 49th campaign is but a short year ahead, something has stirred Progressive leaders to unusual midsummer activity and the serious consideration of their party's political future and their own. So many Progressives of light and leading deem the occasion an opportune time for a declaration of resolve to reform the Republican party hereafter from within that many editors are confirmed in their expectations of a complete reabsorption of the Progressives before election day next year. And the Progressive, say several of the more unsympathetic, is celebrating its birthday by succumbing to infantile paranoias, but fears of approaching dissolution, others note, do not trouble the more militant Progressives as "Victor" Mervyn Johnson as Presidential candidate is said to be quite in line with Western Progressive opinion, and some political forecasters expect to see the California executive enter the Republican primaries, and thus bid for the support of the entire Progressive element. The Colonel himself will enroll as a Progressive in his own state, though he has only kind words for the prominent New York Progressives who intend to vote for him. And that the Colonel will not be defeated in New York is evidenced by the many twenty-nine county Progressive leaders who did solemnly resolve to continue our organization. The New York county committee adopted formal resolutions which one of its members tersely summed up in these words: "As one of our party who favors an alliance with the Republican party, which is as rotten today as it still hopes the small group of obstructionists will become still smaller in numerical numbers. The Times believes that the price asked by the Waterworks company is plenty high and that it does not represent the actual physical valuation by any means. Sixty-five thousand dollars will probably be nearer the actual figures of the investment. But there are a few points which the tax-

roads of privileges fattening on the life of gross materialism and in its practical program of concrete economic remedies, the Progressives' platform has become to hundreds of thousands of aggressive Americans the ark of the covenant, and there is not a township anywhere without its group of fanatics devoted wholly and solely to its preservation. The Progressive leadership, after two and one-half years' trial, has signally failed in solving the nation's economic questions. * * * That this is the judgment of the voter is amply demonstrated by the tremendous anti-Progressive sentiment that has developed at the polls of virtually every election in the last two years. At many of these elections the voter cast Republican ballots because he believed the Republican leadership has learned its lesson and would hereafter take the progressive path. "But now the voter knows for a certainty that when the Republican leadership has been restored to power it has shown more, not less, reaction tendencies, as is notably evidenced by the actions of the legislatures in New York, Ohio and Massachusetts. * * * The spectacle of Republican reaction in New York and Ohio, in contrast to Progressive action in California under Governor Johnson, is a dramatic portrayal of the need of the new strong patriotic party for public service. Therefore the Progressive party will go on with its fight straight out and flatfooted." This statement, says the militantly Progressive Philadelphia North American, "finally disposes of the hopeful, unprogressive predictions of the Tory newspapers, that the Progressive would flounder in the hands of the Barmen and Roof and Spoon and Penrose." The North American concludes: "At this time when the Democracy has made a record which invites repudiation, and when the Republican party emphasizes its subservency to corruptionists and to special privileges, the independent existence and activity of the Progressive party are imperatively demanded by the sentiment of its members and the needs of the nation." Somewhat less optimistic than his fellow-Kennan, and somewhat less bitter than the Progressive editor of Philadelphia, Mr. William Allen White has affirmed no less emphatically the necessity of keeping the party together. As the newspaper quoted him, he said: "Those of us who hold to the creed of the Progressive party have no illusions about the strength of the party that stands pledged to the Progressive platform. We realized that those two million votes cast last November for United States Senators and Governors represent the maximum strength of the party for any Presidential candidate until the popular mind has changed. We do not hesitate to admit that today the American people are not interested in any plan for social justice. It is the very nature of this national situation which calls for a change of mind which is a revolutionary reaction. But an event might dispel the confusion in a day, might turn the minds of the people from particular considerations to considerations of justice. Therefore it seems wise to these party Progressives who have more desire for justice than for jobs or property to sit tight, hold the organization which is still intact, though largely without an organization, and to wait perhaps a year or perhaps two years, perhaps four. For we feel that sooner or later the country must turn from its present confusion to some sincere attempt at adjusting the obvious social and economic inequities of our present system." Literary Digest.

TALKS ON THRIFT

No. 18—SAVING FOR A HOME: "Thrift and providence are primary qualities necessary to all who are to make the most out of life and its opportunities." Mayor Newton D. Baker, of Cleveland. There have been many plans to force the habit of thrift upon people otherwise careless of their savings, but it is doubtful if any other system excels that which a man voluntarily assumes when he decides to acquire ownership of his own home by means of monthly payments, covering principal and interest of the loan. So, thrift is the human mind that the owner absorbs guarantee of carrying out a good intention in to make it impossible to violate it, and that practically what is done when a man puts himself in a position where he must keep up certain regular payments or run the risk of losing his home. Every normally constituted man has the ambition some time to own the roof over his head. It is the best way to live. To accomplish this object, the average man who must depend largely upon his own efforts, requires energy, self-reliance and a determination to overcome all obstacles. If he starts a savings bank therein and makes weekly deposits therein to accumulate the first cash payment

The Store That Sells Wooltex New Fall Styles

When you choose your fall suit or coat, you want to select it from garments that bear the stamp of style correctness. You want to choose from assortments that afford a wide range of models, materials and colors. Garments among which you are sure to find one that is most becoming to you.

America's greatest organization of fashion designers assumes the style leadership of these garments. Come this week. See the new styles featured. Beginning they are! Try on a few! Get acquainted with the new styles even if you are not ready to buy.

The Store that Sells Wooltex Suits—Coats

variously required of a house builder or buyer, he will learn lessons of method, order and punctuality in business arrangements that he understands in good stead when he undertakes to swing the home-owning proposition later on.

And even if you don't make a life-long home of the first house you buy or build, nevertheless you are doing a wise thing to save and invest in this way. This is illustrated by the typical experience of a young couple who started housekeeping in a New Jersey suburb of New York a few years ago. With the aid of one of the building and loan associations which abound in New Jersey, they built a house, after having paid for their lot with savings withdrawn from the bank for the purpose.

At the end of several years they had an equity in the property amounting to about \$1,000. At that time there came to this man an especially good business opportunity in another state, and he was compelled to sell his home in order to move. This he was able to do easily, recouping a good cash payment on the property and a second mortgage for the balance (the building and loan association holding the first mortgage, which was assumed by the new buyer of the house).

So the original home builder now has the income from the mortgage to add to his other earnings, while his successor in the ownership of the house is steadily increasing his equity by monthly payments, and in time will own his home free and clear. It is plain, that fortune must fairly take some of us by the nape of the neck and hold us to force riches upon us. Few wage-earners, or salaried persons, following their own sweet will, acquire a competence through willing-thrift-and-abstinence. Many there are who are even now reaping dividends from long years of compulsory savings, who have been enriched by the experience in spite of themselves. Start a savings account, buy a home and force yourself to save. T. D. MacGREGOR.

ORDINANCE NO. 162

An Ordinance Declaring the Intention of the City of Twin Falls, State of Idaho, to Acquire a Sidewalk in Certain Territory in Said City to be Designated as Local Sidewalk Improvement District Number 24, by the Board of Public Improvement District and Stating the Estimated Cost of Such Proposed Improvement and That Public Utility is Promoted by the Property Included in Said District and Benefitted Thereby. Be it ordained by the Mayor and Council of the City of Twin Falls, State of Idaho: Section 1. That the City of Twin Falls hereby declares its intention to construct a sidewalk in certain territory within the corporate limits of said city hereinafter specified and for that purpose to establish in said city a local improvement district to be designated as Local Sidewalk Improvement District Number 24.

Section 2. The general character of the improvement to be made within said district is the building of a cement sidewalk five feet in width upon Eighth avenue east in said city in front of Lots 2, 3, 4, 5, 6, 7, and 8, in Block 17, as the same are platted upon the official plat of record in the recorder's office of Twin Falls county, in book One of Plats at Page 7, said sidewalk to be hereinafter established grade and under the specifications

adopted by said City and on file in the City Clerk's office for the construction of sidewalks. Section 3. The boundaries of such proposed sidewalk district shall be as follows: To be composed of said lots 2, 3, 4, 5, 6, 7 and 8 in said Block 17 and the entire space in front thereof on said Eighth avenue. Section 4. The estimated cost of such sidewalk and improvement to be derived by sidewalk improvement shown by the City Surveyor's estimate is the sum of \$282.60 dollars.

Section 5. The cost of making such proposed improvement is to be assessed against all the property included within such sidewalk improvement district, the said assessment to be made upon the lots, parcels, buildings, and other improvements in front thereof on said Eighth avenue, every lot to be separately assessed for the full cost thereof in proportion to the benefits to be derived by sidewalk improvement. Section 6. The 20th day of September, 1915, at eight o'clock P. M., on the day hereby designated as the date of said City or board of public improvement will meet and consider protests against said proposed improvements, and persons affected by the same are hereby notified that protests must be filed in the office of the city clerk of said City on or before the day so designated. Passed by the Council of the City of Twin Falls, this 18th day of August, 1915.

E. M. SWEENEY Mayor Attest: REESE M. WILLIAMS, City Clerk (Seal) Aug 24

ORDINANCE NO. 162

An Ordinance to Amend Section 3 of Ordinance No. 18 of the City of Twin Falls, entitled "An Ordinance Relating to the Construction of Sidewalks and Alley Ways. Be it ordained by the Mayor and City Council of the City of Twin Falls: Section 1. That section 2 of said Ordinance No. 18, be amended to read as follows: That the keeper of a billiard or pool table shall pay to the City of Twin Falls an annual license of \$1.50 dollars for each pool or billiard table, in advance on the first day of January and July each year, provided, however, that if the applicant for license makes his application between the two semi-annual dates of \$2.00 he shall pay the full sum of \$2.00 for the remaining period to the next semi-annual payment period.

Section 2. That section 6 of said Ordinance No. 18 is hereby amended to read as follows: Section 5. It shall be unlawful for any person to permit the use of any billiard or pool table located between the hours of one o'clock at night and seven o'clock in the forenoon of any week day and such use shall not be permitted at any hour of the first day of the week, commonly called Sunday. Section 3. That section 6 of said Ordinance No. 18, be and the same is hereby amended to read as follows: Section 6. Any person or persons who shall keep without a license any billiard or pool table specified in this ordinance, or shall violate any of the provisions of this ordinance or Ordinance No. 18 as amended, shall be liable to a fine in any sum not in excess of one hundred dollars.

Section 4. That section 3 of said Ordinance No. 18, be and the same is hereby repealed. Passed by the City Council the 18th day of August, 1915. Approved by the Mayor the 18th day of August, 1915. E. M. SWEENEY Mayor Attest: REESE M. WILLIAMS, City Clerk (Seal) Aug 24

NOTICE OF PUBLICATION.

Notice is hereby given that J. Oliver Schoonover, who was found guilty of the crime of assault with a deadly weapon in November, 1914, in the Fourth Judicial Court in and for the state of Idaho, county of Twin Falls, and sentenced to the state pen-

itentiary for a term of 6 mo. to 2 years, will make an application to the Hon. State Board of Pardons at its next regular meeting after the legal publication of this notice for an absolute pardon. (Signed) OLIVER SCHOONOVER, P. O. Box No. 53, Boise, Idaho; Aug. 21-17-24.

AUGUST 1 CROP CONDITIONS

Southern Idaho Producer Makes Report on Northwest States.

The last crop information sent to the locals was based on the government's July 1st reports. The 1914 conditions were such that there was 22 per cent for the United States. This percentage was not changed in the August 1st report. The latest yield estimate figures at 25.4 bushels per acre against 1913 last year, and the prospect of a total yield including every state in the Union of 431,000,000 bushels against the 1913 average of 357,000,000 bushels.

One encouraging feature, however, is that the majority of the heavy increases in yield in the states where the crop is out of the way before Idaho's export shipments begin. The government is predicting a considerable increase for Idaho over last year. The condition of the crop, however, has been lowered from 83 per cent on July 1st to 70 per cent on August 1st. We think the government is over-estimating the crop in this state, as the Railroad company is figuring on one thousand to fifteen hundred cars less than last year, while we are figuring on one thousand to twelve hundred cars more. Our estimates are somewhat confirmed by the report given by W. C. Scholtz, director of farm markets of this state, who has visited the principal production sections of the state, except the country north of here. Mr. Scholtz reports that at no place has even a single individual estimated a larger yield as compared with last year. It is impossible to give accurate data until this month is further advanced, at which time the condition of the crops in the different sections is mostly beyond objections to weather conditions.

Summing up conditions, information based on reports to date would indicate conditions somewhat similar to last season which will give Idaho a considerable advantage over northwest and eastern potato states. The majority of markets, but which will confine our shipments to almost the same territory as last year. It is probable that we will avoid the October and November rush of shipments on to the glitzy markets, we can get through the season without loss of time, growers will load their cars in good condition, and where everything else is equal can net them more or less profit.

Price Conditions

We regret very much being forced to make the same report that the facts are not being made to the growers so often before. Namely, our only competition, and the only condition which prevents us making immediate rate of from 15 to 20 per cent on all shipments is the competition in Idaho potato with the growers who are placing their stock in the hands of the buyers.

An example: Last week investigation proved we had shipped every car loaded in the state except one, and to date not a car has been sold at less than \$1.00 loading station, or at least than \$1.25 per cwt. Potatoes, however, are selling at \$1.45, 25c per cwt. When we were receiving these better prices, our competition outside the state was mostly from California, which was being sold at 70c per cwt. Last Friday their prices had worked up to 90 and 95 per cwt. Loading stations and buyers were receiving in this office at prices ranging from \$1.00 to \$1.02 in orders for from three to five cars each, which we were in no position to fill. This sudden increase in the demand and slight advance in price offered, together with competitive prices, led us to decide to make a 6c raise, and if that worked there would make another 5c raise; therefore, stations having early orders were asked to load as rapidly as they desired. Upon receiving the papers covering this, loading we sent out our wire quotations, but from every place we quoted came back the answer that Mr. J. C. Jacobsen had quoted, and in some places sold, stock on a basis of 90c per cwt. loading stations. Investigation showed that he had bought some of this stock in the Deer Flat country at 75c per cwt., as we are informed and other parts on the Twin Falls branch at something near the same price.

Now, this is only a repetition. Every car in the last two years which we have been forced to lower our price has been caused by competition, and in nine cases out of ten, competition in Idaho potatoes. We presume that there are still more of these prices, which are being placed in the freedom they have an American citizen, whose rights we consider it a matter of no other person's business at what price they sell their potatoes. This latter proposition, however, are as a rule, sure about, inasmuch as they have beaten every man in the state who ships early potatoes out of our region per cwt.

Of course, we do not anticipate that Mr. Jacobsen can furnish all these markets at these prices, but, even though he cannot, these quotations have another demoralizing effect, namely, that of causing the merchants to withhold making purchases in hopes of a price rise. This price, which is condition every year materially cuts down the amount of consumption, and other who would be made, and which is so much needed a season like this.

As proof of the above, and since it was written, there have been several calves offered, \$1.00 per cwt. loading station for potatoes. We are rolling two cars of matured Rural to Denver, and the nearest inspection shows them to be in good condition we may ship them on to Texas where the market is from \$1.60 to \$1.70 delivered. To Local Managers.

At the June meeting, it was decided to ask all the local managers to attend the September Board Meeting which will take place September 25th on condition that the local deputy the local manager to be present at that time; therefore, if the local manager is not present, the local manager in close touch with the conditions of the local should attend.

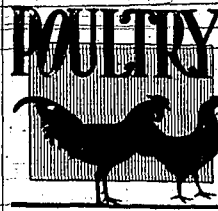

Estimate Asked for. We would like to ask a special

favor, that each one getting this circulation, write us by return mail your estimate of what the shipments from your locality will be compared with last year. This does not refer to Assesting elements only, but to all shipments made.

Blue Ties. Inasmuch as most future shipments will go beyond the state, it is very desirable that blue ties be used in making shipments. These ties are on hand at the central office here, and will be sent to you upon application. The blue ties are available in quantities of \$2.00 per thousand.

Future Shipments. We should advise that it is as good a plan as any from now until September 15th, unless unlocked for changes. In this case we will advise to ship the stock as fast as it will permit. Prices will be better from now until the first of October than for the rest of the half or three months after that time.

SOUTHERN IDAHO PRODUCERS ASSOCIATION. By S. J. DONALDSON, General Manager.

RUNNER DUCK IS PROFITABLE

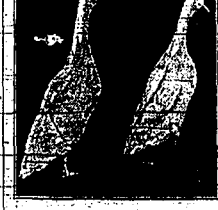

Houses Need Not Be Expensive—Low Fence Will Confine Them—Feed Is Comparatively Cheap.

Seven dollars profit from a duck is pretty good money. At the Hawkebury Agricultural college in New South Wales, Australia, that was the average made by white-headed runner ducks. Each duck laid an average of 207 eggs in a year. A record like this makes the title that has been given the Runner—the Leghorn of the duck family.

Runners are not difficult to raise. The houses need not be expensive, and if the ducks are yarded a low fence will keep them confined. They appreciate a pool of water or a running stream, but will do well with only plenty of water to drink. It must be provided in deep receptacles, however, so that the ducks can wade their heads entirely over. Otherwise their breathing apparatus gets clogged up and the ducks suffer.

Ducks eat more than hens do, but much of the ration must consist of feed that is comparatively cheap. Mashings of cooked vegetables like corn meal, bran, ground alfalfa or clover mixed, make good bulk feed for ducks. But ducks are by no means vegetarians and some meat scraps must be fed—except in summer when they have access to ponds or streams where they may find some animal food.

Duck eggs are heavier than hen eggs. Two duck eggs are about equal

A Nice Pair of Runners.

In weight to three hen eggs. They are rich flavored and have no objectionable strong taste except as it may be caused by improper food.

The pen-fenced Runner is a variety much favored because of the pure white eggs it lays. Some strains of the pure white Runners lay uniformly white eggs also.

SIMPLE WAY OF FATTENING

Place Chickens in Slatted Crate With Feed Trough in Front—Mesh Wire Makes Best Floor.

The simplest way of fattening chickens is to place them in a fattening crate. The crate should be six feet long, 18 inches wide and 18 inches high. The bottom, back and top are slatted lengthwise, and in front the slats are placed on the upright. On the bottom they are an inch and a quarter apart, and on the back top and front two inches apart. The slats are seven-eighths of an inch wide, and five-eighths of an inch thick. The crate is divided into three compartments, and each one opens up separately by a hinged top.

A trough for feed is placed on strips in front. The crate is strengthened by having slats three-quarters of an inch thick and an inch and a half wide in each corner. At the ends and the partition can also be made of solid wood in order to strengthen the crate. Ordinary iron mesh wire nailed to the bottom of the crate will answer the purpose of a floor better than a mesh wire floor. The reason for this accumulation of droppings, therefore making the crate more sanitary.

Striking New Shades

In Fall Dress Goods

Blues, Greens and Browns are the favorite colors for Fall and Winter for both street and evening wear. Dull shades will be the rule. The lighter shades will be Sky Blue, Turquoise and Glazed Pink. Novelty plaids and checks in black and white will be popular, also the new sand, pearl and putty shades. Our display includes them all.

Read This Interesting List

The new blues are rich shades with a greenish cast. Navy blue, delft blue, peacock blues. The new greens are known by the following names: Military green, battle green, laurel green, mountain green. The browns are "Tornado," aviator and golden browns. The greys also have military names: Field grey, battle-ship grey and navy blue grey. There are too many others to mention—all the plaids, mixtures, black and white, military and strawberri reds, etc.

Small house, large cistern, fine storage cellar.

On Shoshone Falls electric line, five feet in line from city limits of T. F.

Place in perfect condition. \$7000, easy terms.

Boyd H. Fuller
Owner, Twin Falls.

NOVEL RAILROAD

Proposed Road to Rockland One of Peculiar Construction.

The first mile of railroad to Rockland will be under construction within two weeks, according to T. S. Becker, who is promoting a road from American Falls into the Rockland valley. The much talked of road to Rockland has been considered a myth for several years, and only then securing right of way, nothing has ever been done. The Double P-P construction company was organized two weeks ago to construct the road and its stockholders consist of the following: M. Patton, of the Rockland section; M. E. Patton, of the American Falls section; and novel plan of construction, is president, Henry D. Moss, of Rockland is treasurer and one of the heaviest stockholders. The majority of the company is an Idaho Falls man. Mr. Becker has been promoting the railroad for several months and has sold stock to the amount of \$20,000 with which to construct the first mile of road. The remainder of the stock will be forthcoming as the road is practically completed.

Mr. Patton has been in American Falls several times during the spring and summer in the interest of the road which it will be the first of its kind in the world. No road had been required and very little grading has been done. The road will be a small falls of four or five feet high and about eight feet apart, not in any way below the level of the water. The cars are built in pack fashion and carry their load below the level of the rail and on both sides of it. The cars are in capacity for 10 to 120 tons. Present plans call for two lumber cars twenty feet long, one passenger car and twenty-three freight cars for grain, sugar, etc. The road will be used and will have two tractions, one for the top rails and one for the bottom rails. The cars, and crossing, bridge, or trestle, and strong claim is made that a loaded train of twenty-three cars will be able to climb a thirty per cent grade. The right of way to Rockland can be procured with a much lighter grade according to Mr. Becker so it is expected the construction will be a piece of cake. The nature of the engine and cars demand special construction and this is being done in Salt Lake. The road is to be completed by the end of the month. This estimate is less than one-sixth as much placed on a steam road up the valley.

Mr. Patton, who has devoted several years of study to this form of road construction and holds sole patent rights, predicts that the first mile of road will be completed by the end of the month. He has a great drawing card for American Falls. He has traveled over the greater part of the United States in the interest of his plan and his scheme is known and its development is being watched by hundreds of "doubting Thomases" and interested business men prominent in the West. It is on the ground in a week or so to superintend construction work. Attorney T. S. Becker has gone into the promoting business and says that his law library and office fixtures are for sale. He is well pleased with its work in the Rockland valley. Although successful for the new road, he is satisfied that it will prove practically as valuable as an investment to the farmers of Rockland who are hauling their grain from twenty to forty miles to market every year. —American Falls Press.

PICNIC ON ROCK CREEK RANCH

Good Things to Eat and Pleasant Time Enjoyed by Friends of Hansen Family.

Last Sunday night and Mrs. Lawrence Hansen invited about fifty people to attend a picnic at the Rockland ranch home on Rock creek. The crowd gathered from Hineson, Rock Creek and Twin Falls before noon, bringing with them a fine assortment of food which later turned out to be treasures of fried chicken, salads and all traditional garnishments of the picnic dinner. After the guests were seated and had inspected the picturesque little vine covered house on the edge of the creek, the grassy orchard and the fine view of the river, the picnic party, which was a jolly crowd that gathered about that table especially joyful was our county commissioner, Dr. Albee. Pictures of the crowd were taken by the photographer as they they ate and drank and talked to the

delightful music of Mr. Toppel's Victrola, or made attacks on the five-lion freezer-of-the-cream. Alone in the evening the crowd began to start homeward after having enjoyed one of the most pleasant and successful occasions of the season.

After seeing Mr. Hansen's old home we can easily see why he is so devoted to Idaho and his Rock creek ranch. He built it up into a fine place and has built it up into a fine place. He knows every inch of the place, and the orchard is full of all kinds of fruit, but this year the half cut down the crop. It is a fact that the place is a fact and our visit was long to see the place again and know it better. —Kimberly Call.

EQUALIZING BOARD MEETS

Some Radical Changes Made in Assessments Over the State.

The assessment on the property of the Utah Light & Power company was raised this year \$200,000, over the assessment of last year by the state board of equalization. The total assessed valuation of the property was placed at \$1,000,000. Last year it was placed at \$800,000. The board of equalization took this action today. At the same time it decided to reduce the assessed valuation of the property of the Idaho Traction company, and the Boise Railroad company, which operate extensively in western Idaho out of Boise to Nampa and Caldwell, to the same assessed value as last year. The fact that none of these properties has been making money but instead losing money in the last year at a loss influencing the board in its action.

Noise Railroad Valuations.

The board left the assessment of last year as it stands on the main line and on the Oregon Short Line and refused to interfere with the assessed valuation on most of the branches of that company. It ordered an increase of \$3000 per mile on the Mackay branch; \$4000 per mile on the Twin Falls branch; and \$2000 a mile on the Salt Lake and Idaho branches. An increase of \$1000 per mile was ordered on the Payette Valley branch.

Tax Agent Evans of the Oregon Short Line appeared before the board and endeavored to secure a reduction of the rate on the Twin Falls branch, but the board refused to disturb the rate made.

Reductions on a mileage basis were ordered in the assessment of other lines. The board ordered a reduction placed on them last year: Pacific & Idaho Northern, \$1000 per mile; Spokane, Intermountain, \$1000 per mile; Idaho, Washington & Northern, \$500 per mile; Oregon-Washington-Railroad & Navigation, Wallace branch, \$1000 per mile; and Idaho & Northern, \$1000 per mile.

The assessed valuations of the property of the Great Shoshone & Twin Falls Water Power company, the Washington Water Power company were increased from \$2,302,388 to \$2,500,000. The board refused to disturb the valuation placed on the property of the Lewiston-Clarkston Improvement company last year of \$177,280.

Reductions Ordered.

A 10 per cent reduction was authorized made on the reported valuations on assessors' abstracts of business and residential lands in the following counties: Ada, Canyon, Bonner, Bonneville, Coconino, and Washington. While the board refused to change last year's assessment of electric roads in western Idaho, it gave them the advantage of the 10 per cent reduction in road city properties. The Salt Lake Short Line was placed on the assessment rolls of the state for the first time as a result of the order of the board. The board of equalization. Assessor Kincaid of Ada county appeared before the board and asked that the reduction of 15 per cent on agricultural lands in that county be extended to city property in residence

and business lots as well as in this contention he had the support of a delegation of 3000 business men. They were not opposed to the 15 per cent reduction on agricultural lands but thought that the same proportionate reduction should be made on business and residence lots. The board ultimately ordered a 10 per cent reduction in this and allied counties as stated above.

A delegation of Canyon county business men also protested before the board and protested against the increase in the valuations of agricultural property. It is estimated that a large amount of pasture land had been assessed as agricultural by the assessors at the time the rolls were made. The board of the state the general average assessment of agricultural lands should be lower instead of higher.

To Finish Work Today.

The board expected to complete its labors late this afternoon. It has still the telephone and telegraph companies and the private car companies together with many public utilities on its table to assess. It is not believed that last year's valuations on most of these properties will be disturbed by the present board of equalization.

The last legislature fixed the figure of \$750,000 as the maximum to be raised by levy to meet state expenses for the next year. The board of equalization will figure out the levy as the board completes its equalization. It is understood that the governor is in favor of cutting off \$500,000 from the maximum, believing that \$700,000 is sufficient to be raised for the more severe expenses of the state. The board has the power to go below \$750,000, but cannot under the law go above it. —Capital News.

LOST RIVER PROJECT

Company to Spend Million and One-Half on Construction.

Boise, Aug. 23.—The Utah Construction company yesterday announced that it has secured a contract to build the Lost River irrigation project, purposes to spend under it estimates a total of \$1,600,000 on the reclamation of the project, providing the state and the federal government will agree to deliver two acre feet of water to the settlers. This is indicated in a report filed with members of the land board this week. Under this plan the water rights will cost \$40 per acre, payable one-tenth down and the balance in fourteen annual installments. The state lands the water right is to cost \$30 per acre, \$3 down and the balance in fourteen annual installments. On approval of the contract the company will commence work within sixty days on the project. The Mackay dam will be rebuilt together with gates and spillway, all of in concrete. Without consideration of the present work of appearances, except to make the dam in its form as is possible. The down-stream portion of the dam is to be of heavy gravel material. A cutoff wall of sheet piling will be placed across the dam and a coffer dam necessary to counteract any seepage of sufficient velocity to move the fine particles of materials in and about the dam. The cutoff wall will be built, the bottom of which will be below the sheet piling. The water face of the dam will be covered with rip-rap to prevent a drift as is possible. The dam is to be 150 feet long. The company has had its engineers going over the project, in which they are to be in charge of the project. The old Mackay dam would not hold water, the seepage from below being so strong that it is almost impossible to store it. All the vana work, however, was of the very best, having been laid in concrete. Once water is stored in the reservoir of the project believe that with the proposed investment not only can water be delivered to settlers, but they can make a profit. The land board probably will, with some changes accept the proposed plan of the company and then contract with the state. —Idaho Falls Post.

MRS. GEDDES WINS BUIV
Jury Decides Albert Geddes Eccles Is Son of Late Sugar King.

Ogden, Utah.—A jury in the second district court on Friday declared Albert Geddes Eccles to be the son of the late David Eccles and heir to one thirty-third of the millions left by the sugar and lumber king of Utah. According to the various estimates of the Eccles estate the boy's fortune as a result of the decision may be from \$200,000 to \$500,000.

Mrs. Geddes declared "the verdict is just one. God has aided us in our fight and I feel very grateful to Him and the good men who have given us so much assistance."

It is understood the case will be appealed by the defense.

THAW RELEASED ON BAIL

Slayer of White-Naw-Free to Go Where He Pleases.

New York.—Harry K. Thaw is now a free man, having been released from custody on \$35,000 bail.

For the first time since he fired the shot that killed Stanford White at the Madison Square roof garden, more than nine years ago, Thaw was free on Friday to go and come as he pleased. Supreme Court Justice Hendrick, who presided at the jury proceedings which ended Wednesday with a verdict that Thaw was sane, announced from the bench shortly before noon that he had accepted the jury's verdict. "The writ committing Thaw to Mattawan was years ago thereupon null and void," he said in operative.

PRISONER ATTACKS LEO FRANK

Milledgeville, Ga.—Leo M. Frank, whose death sentence for the murder of Mary Phagan recently was commuted, was attacked by another prisoner at the state prison farm here Saturday night and seriously injured by being cut in the throat. His recovery is said to be doubtful.

Prison officials said that the attack on Frank was made by William Green who also is serving a life term for murder. Frank was attacked while in bed asleep.

Care of Breeding Stock

Prospects are indeed bright for good prices for live stock of all kinds for some years to come. If we are going to make the most of our opportunity we should take the best care possible of the breeding stock we raise. Give them comfortable quarters, plenty of bedding and the right kind of food that they may be in the best of condition for the coming year.

A repetition of your want ad is often wise when it is important to find the most desirable tenant.

Will be on the Market About Sept. 1st

Will sell either on ranch or will deliver anywhere in Twin Falls.

Orders Phoned to 605, Filer Will receive prompt attention. Crop will last one week. Be sure to order early.

TWIN FALLS PHONE 375 **JOHN S. GOURLEY**

A FATAL QUARREL

Pecotello Farmer in Shooting Scrape Over Load of Hay.

J. W. Irwin, a farmer living near Tybee, was shot and instantly killed at noon today by James McNally, at the residence of the latter, at 32 North Eleventh street. The tragedy resulted from an argument over a load of hay, James McNally refusing to let Mr. Irwin place it in his barn and Irwin insisting upon doing so, according to a contract.

But one shot was fired, it passing directly through "the heart." As soon as the act was committed McNally started for the county jail, telling the crowd which was gathering that he intended to give himself up. When he arrived at the court house, he was unable to find the proper authorities, and so went to the city jail, where he committed a murder and wished to give himself up.

In recounting the events to a Tribune reporter, McNally said that the argument with Irwin arose over the fact that the hay he wished to put in the barn was of inferior quality. He stated that the quarrel lasted about three-quarters of an hour.

"Did you shoot in self defense?" he was asked.

"Yes," he replied, "he had a club and was prouing his back, pointing to his stomach, "and here," pointing to his left shoulder. "He hit me here you see," he was next asked.

"No," he answered, "but he would have done so."

McNally then said that he had been out of the hospital but for days having had a fever and had been performing for appendicitis. He stated that he had shot but once. When asked if he intended to leave the city, he had been told that he had not, so he had the revolver with him.

James McNally is the brother of Francis McNally, the well known street contractor and has been a resident of the city off and on for several years.

Deceased was a man sixty-five years of age and is survived by a wife and three sons, Harry, age 24; Earl, age 20; and Glenn, age 14. For some time he has been living on A. W. Harman's ranch near Tybee.

Immediately upon hearing the news the boys came to the city to learn the particulars and make arrangements with the undertaking firm of Geo. W. Larkin Sons Co., where the body was immediately taken. At that time Mrs. Irwin had not been informed of the tragedy as the boys feared that the sudden shock without a full knowledge of the story might prove more than she could stand as she suffers from heart trouble.

At the present time no funeral arrangements have been made.

It appears that there were no actual witnesses to the shooting. — George Pecotello, the driver of the machine, lives just back of McNally's place and was one of the first to reach the scene. He stated that the two men had been quarreling since about 11 o'clock in the morning and that Irwin had once dared McNally to come out of the barn. McNally made the statement to the police this afternoon that the gun was accidentally discharged. —Pecotello Tribune.

Proof of the Popularity of the HUDSON

An Unparalleled Success

Our fifth carload of HUDSONS will arrive about September first. The mere fact that we are able to get cars is sufficient proof of its popularity.

Popularity is obtained by its phenomenal merits, behind every HUDSON is the record of actual hard performance.

Continued usage abstracts nothing from its utility and magnificence, but impresses one even more firmly that the representation of quality, on which the HUDSON was selected, stands true. Let us show you a HUDSON. Phone us for Proof by Performance demonstration.

Mr. and Mrs. E. D. Worden, who have been visiting at the home of Dr. and Mrs. F. C. Beebe, departed for their home in Sidney, Nebraska, Monday morning. Mr. Worden, who is well known in the Twin Falls community, is highly pleased with Twin Falls and the surrounding country.

Gen. W. Saunders, of Annapolis, Mont. and Jessie C. Constable, of this city, were married at the home of Mrs. Avanti, Tuesday, August 17. The ceremony was performed by Rev. E. Parker, superintendent of the Pocatello district of the Methodist church. The newly weds will make their home in Annapolis.

Land! Land!! Land!!!

The best agricultural land in the world for sale.

Do you ever expect to own a good farm of this tract? If you are in shape to tie up a good place, what are you waiting for?

Are you going to be one of those who will ten years hence, be saying that you wish you knew land that was producing agricultural crops worth from \$50.00 to more than \$250.00 per acre while the country was barely out of the experimental stage, would you go to an extremely high price?

Do you ever expect to own a good farm of this tract? If you are in shape to tie up a good place, what are you waiting for?

What will it be selling for here after we again have several years of general prosperity throughout the United States?

We make a specialty of keeping a large listing of the very best farm lands on this tract. We think the best bargains today are to be had on this class of land.

Watch this space for descriptions of some of these farms, the kind that will increase and increase in value while at the same time in producing those enormous crops.

Sanger Realty and Investment Co.
143 Main Avenue East

NOTICE FOR PUBLICATION

Notice is hereby given that I, Frank Dolan, was found guilty of the crime of grand larceny in March, 1913, in the District Court of the Fourth Judicial District, in and for the county of Twin Falls, State of Idaho, and sentenced to the state penitentiary for a term of 1 to 14 years, and I make application to the Honorable State Board of Pardons, at its next regular meeting after the legal publication of this notice for a conditional pardon. (Signed) FRANK DOLAN.
P. O. Box 53, Boise, Idaho
August 3-10-17-24

ELECTION NOTICE

The annual election of the Independent School District No. 1, will be held at the high school building in Twin Falls on the seventh day of September, 1915. For the election of two trustees to take the place of S. H. Kaylor and W. H. Dwight, whose terms expire. Polls open at one o'clock and close at five o'clock p. m.
G. E. BRYANT, Clerk

From The Herald.

Len Wiseman shipped a carload of hogs to Lamoni, Thursday. F. W. Smith went to Pocatello Thursday on business. He expects to return Saturday.

A baby boy was born Friday August 12th to Mr. and Mrs. Wm. Hatfield. A boy was born to Mr. and Mrs. Max Grubbs north of town. Tuesday Miss Lillie Lindstrom has again taken up her work at the Swanner Mercantile after spending a week's vacation in Fremont.

Mr. and Mrs. A. K. Kelly moved into Mr. John Jacoby's residence on Broadway, Wednesday. Miss Velma Murray and Miss Kathleen West from Pocatello, visited with Miss Irene Eubank and Miss Hazel Oue Tuesday. Theo. Glauber and his sister, Mrs. S. Welberger and her son, Alvin, spent Sunday at Hill Lakes on the Portico station.

Mrs. S. Youll, of Kansas, arrived last week for a few days visit with Mrs. C. H. Kreigh and Miss Beasly Stark.

Miss Winnie Salsbury, came home from Baker City, Oregon, where she has been spending the summer with relatives.

L. A. Bliz from Portland visited at the Lighthouse home in Buhl Sunday. Bliz married Miss Anna Lindstrom.

Mr. Hubbell said that the best field of corn he had seen between Buhl and eastern Idaho is the field owned by Gustave Kanze.

A big dance has been announced by Leslie Nelson for the Buhl Opera House and Casino, Saturday night. August 28.

Mrs. R. D. Addison, of Boise, has been visiting with her daughter, Mrs. T. T. Addison, at the Buhl Hotel. Mr. Addison is on his return trip from the fair.

H. M. Allen has been ill during several days and has been unable to attend at the Buhl Hotel Market of which he is the proprietor.

William Hazard from Clear Lake called at the Herald office Wednesday and said that the Alberts brothers would be here about August 25.

Mrs. George Lyano, who underwent an operation at the Buhl Hospital, is getting along nicely and is expected home tomorrow.

Mr. and Mrs. Edward Harding from Montevideo, Indiana, are spending a few weeks with the latter's parents, Mr. and Mrs. T. H. Boynton near Castleford.

Mr. and Mrs. George Moeckel, of Cambridge, and Mrs. S. L. Lake, of Weity, were entertained at the Chele home north of Buhl Sunday.

Mr. and Mrs. G. H. Self returned from Twin Falls Sunday to visit Miss Irene and Mac Preston. They drove out to their ranch near Castleford before returning.

Mrs. A. J. Tucker returned from the Salt Lake hospital last Friday to her home near Castleford. She has been gone about four weeks and was operated upon for appendicitis.

A boy was born to Mr. and Mrs. M. E. Dan Monday night. The child is being named "Daw". Dan has been in town several times this week and he is wearing the smile that won't rub off.

Miss Charlotte McQuown left for Salt Lake Monday morning, where she will join Miss Ruth Meas, and from there they will go to California. She spent about a month visiting along the coast. They will attend both fairs during their trip.

Five girls, consisting of Misses Carol Nason, Carrie Sherman, Marguerite Vinger, Hattie Lante and Dora Osborn, are having a dining party at Clear Lakes this week. They are being chaperoned by Mrs. S. B. Affen.

An ice cream social will be given on the Willis Specter lawn, 2 miles west and 5/2 miles south of Buhl, Saturday evening, August 21, by the Springs club. Proceeds will apply to the school house piano fund and come and join the crowd. Special music.

Mrs. J. W. Brown and daughter Mina returned from Laramie, Wyo., Monday where they attended the horse gathering. Her daughter, Agnes Brackley, did not return with her, and will probably attend high school in Laramie this winter. Agnes will enter high school next spring.

Mrs. Charles Thatcher, who lives three miles west of Buhl, was operated upon for appendicitis, at her home last Wednesday. She is reported to be getting along nicely at this writing.

Mr. and Mrs. J. J. Hopkins and granddaughter, Mrs. S. L. Lake, left for Shoshone basin, driving over in a wagon. They expect to be gone about two weeks and will visit friends in that country. Mr. and Mrs. Hopkins were among the first settlers who came to this part of Idaho. They have many friends in the Shoshone basin who were also early settlers in Idaho.

Henry Lehman, manager of the Farmer's Trading Union Co., returned to Buhl Wednesday from his home in Nebraska, where he has been visiting relatives and friends. He was accompanied by his wife and Mrs. E. S. Taylor of Easton, Nebraska, who expect to spend a few weeks visiting their son, Melvin Taylor, Melvin had charge of the Farmer's Union during the absence of Mr. Lehman.

Mr. and Mrs. Charles Whitty, Mr. and Mrs. Chas. Kreigh and Mr. and Mrs. Gustav Kanze are back from their trip to the park. They report that roads are good in the park for autos and the auto regulations are not so strict as they had anticipated. They said that the best road to Yellowstone from Buhl is by way of Shoshone, Arce and Ashton.

The Boy Scouts of Idaho are spending this week camping at the river near Clear Lake. There are 14 in the bunch and the second night was held by M. Van Patton, who has made application for scoutmaster recently. The boys received a visit from Mr. and Mrs. J. H. Johnson and Miss McQuown and Mrs. E. B. Johnson Wednesday evening, who took them a car of provisions.

If you are in need of anything, a Times Want Ad will fill your want.

YANKEE SHREWDRINESS HOLDS THE MONEY CONTROL OF WORLD

New York, Aug. 21.—The American dollar ruled the financial world with an iron grip. Pounds sterling, francs, lire, virtually all foreign exchange went down to now the dollar is in front of bills that poured into the exchange markets from American manufacturers, seeking for the dollar. It was a contest of millions and other supplies purchased here by the warring nations of Europe.

Conquered with the startling decline in exchange rates came the assertion from an unimpeachable source that every contract made by the American manufacturer for supplies sent abroad called for payment in American dollars, and not English pounds sterling, which leaves heretofore the immense losses, therefore, due to the decline in foreign exchange rates will be borne by the last penny by the foreign buyer, and will not be sustained by the American manufacturer—a situation exactly the opposite of what had heretofore been the popular belief.

The maximum depreciation today in pounds sterling was 4 3/4 per cent below normal, in Italian lire, 25 per cent. In the money markets today the pound sold for only \$44.62 francs equalled a dollar and a dollar purchased 6.48 francs. These were the quotations while rates were at the lowest point since the outbreak of the war. In the last hour of the business day the presence of J. P. Morgan for the first time since the attack on his life six weeks ago, stirred an informal conference of bankers to consider the exchange situation next steps upward.

Sterling closed at 4.67 1/2, one half point higher than opened, and a point which established a new low record at the time. France gained 1.75 cents and the record being at 5.99 at the close, and lire returned a point, closing at 6.47. What is to be done? The situation is a delicate one, and the international connections at their informal conference later today, it was said, are doing nothing, because they cannot lay across the water the foreign buyers. They are not the American dealers, it was clearly established, and the American dealers, it was the consensus of opinion, should be the task of settling the money markets to rights.

How the war has been the object of keen consideration and some speculation. It was generally believed that the present abnormal situation would be permitted to continue long. The obvious remedy seemed to be to sell the American securities held abroad and when this contingency was studied the situation is pregnant with unique possibilities. A great many millions of American securities, payable in American dollars, which are held abroad, chiefly high class railroad bonds and preferred stock of a selected list of American industries, Shakers securities, were sold, at the present exchange rates in foreign markets they would fetch far more than the purchase price paid for them, and the entire lot of the prevailing exchange rate bringing approximately 60,000 francs.

Thus, a \$10,000 American bond sold for 100,000 francs, and the entire lot of the prevailing exchange rate bringing approximately 60,000 francs. When purchased at par a year ago it cost the purchaser approximately 55,000 francs. The net profit would be about 500 francs, or about 19 per cent, the percentage of depression in the dollar. In London the profit would be approximately 4 3/4 per cent and in Rome the profits would approximate 10 per cent.

With the prospective profits as an inducement, it was believed that holders abroad would be willing to sell their securities and add to the supply of goods would have little difficulty in procuring a large amount of American securities. The establishment here of a big market for the purchase of American securities at \$500,000, was thought to be absolutely necessary if exchange rates were to be returned to anything like normal.

Measured in dollars and cents, it was learned that the amount of war contracts, on which full or nearly full payments had been made, for more than \$1,000,000,000 were due to Europe to the United States at the close of the fiscal year June 30. It was also learned that the prospective profits on some of these contracts had been greatly exaggerated, that only marginal profits would be realized in some instances, there might be no profits at all.

It is said—was due to the most rigid surveillance extended by inspectors of Great Britain and her allies over all deliveries. Goods contracted for in the United States, and which did not come up to this standard, were rejected by inspectors, entailing proportionate loss upon the manufacturer. An optimistic feature of the foreign exchange situation was the general belief that a large shipment of gold was on the way from the Bank of South Africa to Australia.

What kind of roofing shall I buy?

The answer is: Certain-teed. You can't buy a cheap conventional roofing and save a few dollars in the long run. You can pay this right difference and get a roofing guaranteed by the world's largest manufacturer of roofing and building papers. The final cost is what counts and you'll find it cheaper in the long run to buy Certain-teed Roofing. It is for sale by dealers everywhere at reasonable prices.

of not less than two years nor more than fourteen years in the Idaho State penitentiary, situated at Boise City, Ada county, state of Idaho, will make application to the Honorable State Board of Pardons at its next regular meeting after the expiration of the legal publication of this notice for a full and complete pardon.

GLENN E. MASSBY,
P. O. Box No. 53, Boise, Idaho,
Aug. 3-10-17-24 paid

A repetition of your want ad—again and again if necessary—may be required, unless seen if you're looking for work.

You uncork that sunshine tank

by letting some Prince Albert joy smoke sift into your system via a jimmy pipe or makin's cigarette, for you never got such fun out of tobacco in all-your-life.

Get that P. A. flavor? Get that P. A. aroma? Go to it mighty cheerful, because P. A. can't bite! Puff away like you hit perpetual motion in the first round! And keep fired-up till the cows come home. For it's surefacts Prince Albert never groused any other man's tongue and won't grouch yours!

Get P. A. jimmy pipe joy's and cigarette makin's happy, they'll personally understand that no other pipe and cigarette tobacco ever was or ever can be like

Prince Albert. The patented process fixes that—and cuts out the bite and the parch. That's why pipe peaceful and cigarette peaceful men call

You be a sport and take a chance on this say-so, because you've no idea of the bully goodness, of the joy's satisfaction, of the contentment and restfulness and that sort of thing, that hits every man who gets chummy with P. A.

Hammer this home for what ails your smokeappetite, because you've no time to lose getting introduced to this real and true man-tobacco that's ace-high and a yard wide no matter how you swing on it jimmy pipe or makin's cigarette!

R. W. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

PRINCE ALBERT

The national joy smoke

There is another fine-tasting member of the Prince Albert all-time famous pipe-smoking family. This is the Prince of Quality in one of those grand old men who has come to this life with the best of his kind. Prince Albert is the only pipe-smoking brand that has won the highest award ever given to a pipe-smoking brand.

their honeyman-headed-for-the Golden Gate. After a short visit they resumed their journey for Oakdale, where they will visit relatives as well as the above. Special: Unburnable construction. Present office at 200 Cor. Blue Lake Blvd. and Highway Ave. Twin Falls, Idaho.

PROFIT AND LOSS IN HOGS

By E. W. Ferris, Jr.
It is frequently stated by those men that the younger the hog the cheaper the sale. While this may be true in most cases, it is not a hard and fast rule.

I took especial care one season to find a basis for estimating the cost of the hog through the different stages of their growth. I have divided the hogs into three groups: First, first bred sows; second, from grown sows and third, gilts from second rate mothers.

To take the whole number, I have an average of five pigs to a sow and have a record of one of her litters making twenty cents for each pig. I also charge \$1 per sow for her share of interest on butchering on building, etc., and make a like charge for the extra care of sows at breeding time. This puts a first cost of \$1.50 for each pig.

One of my best gilts was killed by an old sow in the winter after she was with pig. She was among the oldest and heaviest but about 300 pounds, so I have a loss of \$12 that I hardly know where to place; possibly it should be charged to my poverty in not being able to provide separate quarters for the old sows and the gilts. At any rate, I have a charge of about fifteen cents per pig.

The sows lost in weight from the time of farrowing to weaning an average of seventy-five pounds. Possibly they were heavier at the time of farrowing than they would have been had they not been with pig, but this amount would not be worth anything. My barrows the same age as the gilts weighed 250, while the gilts weighed 270, just a few days before my first pig and just about 300 pounds. I charge seventy-five pounds lost weight at \$5, making \$4.50 for each litter or ninety cents per pig.

The cost of the feed that reason was not much above \$1 per month for three months for the sows, exclusive of the ration which is unlimited and practically valueless. Though they did eat a little rye and alfalfa, I am sure fifty cents would easily cover my own charge.

The sow feed would be \$3.50 for three months, to which I shall now add an interest charge of fifty cents on each sow, bringing the total to \$4.50.

I have been feeding the pigs corn, skim milk and tankage for over a month. It has cost me about \$10 worth of corn and about \$12.50 worth of the other feeds, so here I have a further charge of thirty cents for each pig. That makes a total cost for each pig as follows:

Share of sow	40.20
Care of Sows	20
Loss of Sow	20
Shrink of Mothers	70
Feed of Mothers	10
Feed to Pigs	30
Total	122.85

The pigs now weigh thirty-five pounds, and while not at all fat, are all good, thirty cents; not one runt, except a pig that had his foot stepped on when a few days old. This brings the present cost of the pigs to almost exactly eight cents a pound. Had I not charged for my own share of the feed, the present cost of the pigs would be only seven cents a pound. I can easily stand ten cents a pound. Nor do I consider ten cents too high a price to make for good weaning pigs when finished hogs are selling at the present level of \$7.

To take up each division of hogs; the first pig division has been cost in service, sheding and care only two-thirds as much. The shrink of the first pig division but the number of pigs is also greater, so this item will not be greatly different from the average.

The sow's feed is a somewhat higher cost than the pig's, because the pig from the old sows weighs forty pounds. I estimate they cost me but seven cents per pound, unless I also count the cost of the young sow to the old sows and their pigs, which is perhaps not fair as to the cost of the sow over the pig.

My gilts from proven lines have an average of five and one-half pigs per sow. The shrink is a little more than that of the sow, but only slightly thirty-two pounds. They cost me a little over seven and a half cents a pound.

The cost of pigs is dependent to a great degree upon the individuality of the dam. I find the gilts from the best sows cost me about thirty-five pounds, and bringing the first charges of service, care, etc., at \$3.00 a litter, \$3 for shrink and \$4 for feed for the first pig, the cost of the pig charge to put up against litters of one, two and three and four. The sow with one pig has not shrunk as much as fifty percent and I am conservative to state that the pigs from these different sows cost me almost \$5 each, and they weigh in thirty-five pounds.

The cost of the pig is almost the same as the price throughout the season. The cost of the pigs from proven brood sows is about \$5 each.

Can we spend any time or thought to better advantage than to make the most careful selection of our breeding stock?

In the foregoing I have not included a few cents charged for the pig, as I considered her too young.

A few poor sows do not make a good average for my average, so for the whole average I have a long time putting the balance on the right side of the ledger with my pigs.

FILER NEWS

(From the Star Journal)

Mrs. Sadie Newberry, of Portland, sister of Dr. Newberry, is visiting here. Mrs. Love and her infant daughter returned from the Twin Falls hospital Tuesday.

Geo. Trullitt has so far recovered from his recent operation, that he is again at his desk at the station.

Mrs. S. Young returned yesterday from an extended visit to friends and relatives in Nebraska and Iowa.

Davis Bros. propose to improve their acre tract at the north end of Yakima just across the track by the building of a nice bungalow.

Mr. W. Damm, whose marriage was recorded last week to Miss Young, has moved to Butte, where he will take a position in the mines.

Mrs. Jeanette Noblett, of Coakville, who has been a guest of her aunt, Mrs. Trullitt, returned to her home Monday, after a very pleasant visit here.

C. E. Wilcox has purchased the tract of land originally designed for a public park from the Iwamoto company, and will erect a new home on same at once.

A number of Filer people will go to Idaho Falls next week to take in the "Bull" Round Up at that place. Claude Whinnery will take his two miniature horses and participate in the races. Mrs. Whinnery will accompany him and they are citizens of going to the park before returning.

Claiming permanent injury to her 50-acre farm south of Kimberly and a resultant loss of \$1,000 due to negligence from the High Line canal, Catherine Andrews, a resident of Washington, has filed suit against the Iwamoto Company against the Twin Falls Canal company for damages in that amount.

Last Friday Judge Wolty of the west end was reviewing the case of Filer who had won his suit against the Iwamoto Company for the firm of Manuel Bros., noted breeders and dealers of pure bred Herefords. Mr. Manuel was looking the best over and was greatly surprised at what he saw. He is of the opinion that the thing is ripe here for farmers to begin to think of best cattle as well as any other stock and may be come interested to the extent of engaging in the business here as well as in Nebraska.

Articles of incorporation for the Mendocino church at Filer were filed with the county clerk last Friday. According to the report of the above two boards of directors named in the articles were elected at a meeting of the members on July 17. The board of directors of each article comprises D. F. Detweiler, Levi Holbert, Harry Knip. The members of the board for promotion, operation and maintenance is composed of the above together with Bill Shank and C. B. Spitzer. The directors are elected to serve in January 1915, and until their successors are elected and qualified.

F. N. Stricklin, of Buhl, was in Filer
