RESOLUTIONS ON BRIDGE MATTERS

Commissioners Favor Rim-to-Rim Bridge

REJECT PROPOSAL OF BRIDGE AT THE TWIN FALLS.

Resolution Voted Favorably by Commissioners Albee and Moore. Charles H. Blanton.

The bridge situation in this county was considerably clarified on Friday of last week when the Twin Falls county commissioners met in session at the county courthouse. The meeting was called for the purpose of making arrangements for the building of a permanent bridge over the river at the Billieville district. The question of where to place the bridge, through the various crossings of the river, through out sponsors for the various crossings, in the following order: Joe E. Day, a well known rancher of Billieville, was spokesman for that section and stated that twelve persons, who had been asked to build a bridge, had agreed to build a bridge. This sixty-five feet, cast also had more than that proportion of taxable property.

His statements were a matter for argument on the part of one of the commissioners, that district, who was accordingly withdrawn to the Billieville district. George Thompson and M. E. Probst, of the Billieville district, were also present. Mr. Day's statements were in the nature of a proposal. George Harlan acted as spokesman for the Billieville district, favoring the rim-to-rim bridge and gave a good many arguments in favor of such a bridge.

A resolution was introduced by Mr. Albee, placing the county board on record as favoring the building of the rim-to-rim bridge and one of the commissioners, Mr. Moore, also recorded unfavorable action on the Twin Falls bridge which has been favored by the commissioners. Charles H. Blanton, secretary of the county board, by a direct vote, or by a bond issue. The resolution, which was voted for by both Albee and Moore, is as follows:

Whereas, a petition signed by some five hundred taxpayers of Twin Falls county, who, among other things, proposed a permanent bridge over the river at the Billieville district, and the county board, which bridge can be built for sixty thousand dollars;

And whereas, it appears from a like petition signed by one hundred taxpayers of the Billieville district, who proposed a permanent bridge over the river at the Billieville district, and the county board, which bridge can be built for sixty thousand dollars;

And whereas, the bridge of the former district, which bridge can be built for sixty thousand dollars, is a permanent bridge, and the bridge of the latter district, which bridge can be built for sixty thousand dollars, is a permanent bridge;

FLOWER SHOW AWARDS

Larger Number of Exhibits Than Ever in Are Shown.

The sixth annual flower show, given under the auspices of the Presbyterian ladies, was the center of attraction last week for the local florists and the display was of more than ordinary beauty. The church basement and the parlors were beautifully decorated with flowers and autumnal vines for the occasion and the offerings of the exhibitors and prize committees. Each year has shown an added interest in the flower show with an ever increasing number of exhibits and exhibitors. This year was no exception showing that the thousands of dollars of prize winners are prized by the florists.

Following is the list of successful exhibitors:

- White Aster—First, Mr. Prieb; second, Mrs. Wall; third, Mrs. E. H. Moore.
- Pink Aster—First, Mrs. Peters; second, Mrs. Wall; third, Mrs. E. H. Moore.
- Deep Pink Aster—First, Mr. Prieb; second, Mrs. Wall; third, Mrs. E. H. Moore.
- Yellow Aster—First, Mrs. Wall; second, Mrs. E. H. Moore; third, Mrs. Peters.
- Yellow Aster—First, Mrs. Wall; second, Mrs. E. H. Moore; third, Mrs. Peters.
- Yellow Aster—First, Mrs. Wall; second, Mrs. E. H. Moore; third, Mrs. Peters.
- Yellow Aster—First, Mrs. Wall; second, Mrs. E. H. Moore; third, Mrs. Peters.
- Yellow Aster—First, Mrs. Wall; second, Mrs. E. H. Moore; third, Mrs. Peters.
- Yellow Aster—First, Mrs. Wall; second, Mrs. E. H. Moore; third, Mrs. Peters.
- Yellow Aster—First, Mrs. Wall; second, Mrs. E. H. Moore; third, Mrs. Peters.

BEET FACTORY ASSURED

Amalgamated Sugar Company Makes Bona Fide Offer to Commercial Club.

Factory Will Be Located Near This City When Acreage Is Secured by the Citizens. Ready for 1916 Crop.

Secretary Taylor of the Amalgamated Sugar company, was in Twin Falls Saturday and in conference with the board of directors of the Twin Falls Commercial club over the proposed sugar beet factory. Mr. Taylor made his proposition in plain terms that if the Commercial club would acquire a tract of land near this city, upon a suitable site, the contracts which will be received here Thursday, are aiming to show already in force in the sections around Kimberly and Hansen and call for 45 per ton for the topped beets delivered at the nearest dumping factory. Contracts can be had from Secretary Taylor or from the following citizens: J. F. Felling, L. T. Wright, Samuel Hart, and W. H. Blanton.

On the Seventeenth and Eighteenth committees of business men will go to Kimberly to see the beet factory. The men will visit Eiler and Rupp on Sunday afternoon for the purpose of signing contracts.

In order that the ranchers may learn something of the success of the sugar factory, the Commercial club, in a pamphlet of both ranchers and business men, the following article is reprinted from the Longmont (Colo.) Herald:

(West of the Longmont) Call for a manufacturer of sugar, which steadily employs 150 people and pays \$125 a month in wages. Some large in the middle of the town in which the plant is situated. Yet the Longmont plant is a company here the above number of men and has the above payroll in what is popularly known as thought of as the idle season.

And the large number of men are employed throughout the year, and summer months on the tremendous job of getting the mill ready for the five months of actual manufacturing.

This year nearly 700,000 is being spent on the machinery and buildings of the new factory. The improvements at the rear of the mill, the new pulp mill is being constructed near the old mill at a cost of \$100,000, making it possible for the Longmont sugar factory to produce more than 100,000 tons of sugar and \$5,000,000 is allotted to the construction of a macadam road three-quarters of a mile long, which will connect the factory and pulp plant, making it possible for the pulp hauler to draw maximum loads from the pits to the factory.

rancher raised 5.5 tons of beets on each acre for which he received \$4.60 making a total per acre of \$23.70, while this year it is estimated that the average rancher will raise 10 tons on each acre for which he will receive \$5.00 to \$5.50 a ton.

The Longmont mill as built in 1903 was a small affair with a capacity of 100 tons. Actual statistics show that the average 24-hour run for the first year was 400 tons in 1903 the mill was greatly enlarged and has been improved since then until last year, the average tonnage of beets allowed daily was 400, the largest in Colorado and the second largest in the United States.

The greater part of this more than the sugar factory by the investment of more than \$1,000,000. Yet the amount of investment is largely exceeded annually by the amount paid out right here in the Longmont plant for four items, supplies, labor, freight and beet. During the fiscal year of 1914 the local office will have directed the expenditure of \$260,000 for supplies, \$270,000 for labor, \$200,000 for freight and \$100,000 for beet, making a total of \$830,000.

The indirect advantages to Longmont and the surrounding district, according with the rapid growth of the sugar industry, are fully as large but much more difficult to measure than the direct benefits. Farm land has doubled in selling value through out north and central sections of Boulder county during the past twelve years and the same proportion has increased in proportion.

Figures from the U. S. department of agriculture reports Bulletin No. 159, on average yields show that in the mountain states, districts average yields of wheat per acre have risen since the crop has been raised with sugar beets from 2000 to 2500 bushels of wheat per acre. The yield of wheat per acre has risen since the crop has been raised with sugar beets from 2000 to 2500 bushels of wheat per acre.

Again the sugar beet industry is inseparable from the cattle feeding industry. The sugar beet crop in the mountain states is planted after grain and prevent this constant loss of fertility, and the soil which bears the sugar beet crop is ready witness to the perfect proportion of the sugar beet crop in the mountain states.

BORAH LEADS IN POLL

Idaho Senator Favored as Republican Nominee for President.

Spokane, Sept. 10.—Senator W. E. Borah, of Idaho, first and Justice Charles E. Hughes, of the supreme court of the United States, second, appear to be the choice of representative Republican voters in Washington state for the presidential campaign of their party in 1916. In response to a letter of inquiry sent broadcast over the state to Republicans of prominence by the Chronicle, views upon the presidential candidates have been given with gratifying freedom.

In one letter in which Justice Hughes is indicated to be the chief of the writer, Senator Borah is repeatedly remarked upon as the more favored man but geographical considerations are pointed out by the writer which make it improbable in his opinion that a western man can be nominated.

Cummins of Iowa, Burton of Ohio, Weeks of Massachusetts, Sherman, Deen or Mann of Illinois, Governor Whitman of New York, former President Taft or others who have outstanding for the presidency attracted and supported among Washington Republicans seem to arouse little interest. Senator Hoop of New York is an exception in that he has been mentioned in responses so far offered, though not all of the leaders, approached have answered as yet, and the statement of opinion as to a pool, attempted reaches a wider field.

GATHERING OF RURAL CLUBS

Federation Extends Invitation to All Clubs to Join in Work.

The Twin Falls Federation of Rural clubs extends an invitation to all other rural clubs of the county to join in the work of the federation. Regular meetings of the federation will be held on the first and third Saturdays of each month, until further notice. All clubs wishing to join the federation should apply to the secretary, Mr. C. H. Church, Kimberly Idaho and it is possible, the president of each club be present at the next regular meeting.

DEATH OF REESE ADAMS

Well-Known Colored Man Called to the Great Beyond.

On Friday, September 10, Reese Adams, a well known colored man of this city, passed away after an illness of some time. He leaves to mourn his wife and three brothers in Arkansas. The deceased has lived in Twin Falls for a number of years and was well respected by all who knew him. The funeral was held from the Grossman chapel Sunday afternoon, the services being conducted by Rev. Mr. Francis, rector of the Episcopal church.

GOOD YIELD OF WHEAT

Frank Palmer, Treasurer 60 Bushels to the Acre From 14 Acre.

The Twin Falls tract is still holding to the record of big yields of grain of all kinds. The latest to report is Frank Palmer, who has raised an average yield of 60 bushels to the acre. Of 14 acres, he raised 840 bushels from the 14 acres. Mr. Palmer had an average yield of 60 bushels to the acre. The yield is not so large as some reported, he says that the wheat was number one.

TAX LEVY FOR YEAR

Levy of Eleven Mills for All Purposes Same as Last Year.

The county commissioners have made the tax levy for the ensuing year which is the same as last year, to wit, eleven mills. The levy is 11 mills for all purposes. The county commissioners have made the tax levy for the ensuing year which is the same as last year, to wit, eleven mills.

MUSIC AND ART STUDIES MOVED

New Location in the Park Building. The music and art studies have been moved to the new location in the Park building. The new location is more convenient for the students and the teachers.

REFER SOLUTION TO COMMISSION

City Council End Negotiations For System.

REPUAL OF CITY'S OFFER PUTS BURDEN ON STATE COMMISSION

Session of City Council Monday Evening Takes Only Action Possible at Present.

The City Council met in the Commercial club rooms Monday night and after some consideration voted to put the matter of the difference between the city and the Twin Falls Waterworks company up to the Public Utilities Commission. The offer of the commission urging settlement was with the understanding that in case of insolvency a writ of necessity could be issued. The matter should be referred back to that body for final disposal. The council to a man voted to refer the matter back believing that further negotiations with the company are useless due to the wide divergence of the two offers.

The Commission has two actions possible in the matter, one to issue a writ of necessity to the city to put in its own system or to suggest to the waterworks company a fair price for its plant and franchises and urge it to sell. It cannot force the water company to sell. A writ of necessity only opens up the question of selling municipal bonds in the face of possible litigation.

CONCERT SUNDAY AFTERNOON

Sacred Concert by the Twin Falls Band in City Park.

On Sunday afternoon the Twin Falls band will give a sacred concert in the city park. The program will commence promptly at three o'clock. The time of the concert has been changed from Thursday evening until Sunday afternoon.

Members of the band are: Fred Smith, conductor; Fred Smith, first trumpet; Fred Smith, second trumpet; Fred Smith, first trombone; Fred Smith, second trombone; Fred Smith, first baritone; Fred Smith, second baritone; Fred Smith, first tenor; Fred Smith, second tenor; Fred Smith, first bass; Fred Smith, second bass.

AUTO COLLECTIONS FOR YEAR

Collections Made This Year Up to and Including September 10.

The collections for the year up to and including September 10, 1915, are as follows: \$100,000.00. The collections for the year up to and including September 10, 1915, are as follows: \$100,000.00.

NUMEROUS DEFEATS IN WALS

On Sunday afternoon the Twin Falls band will give a sacred concert in the city park. The program will commence promptly at three o'clock. The time of the concert has been changed from Thursday evening until Sunday afternoon.

- If I spend my Dollars out of Twin Falls and you spend your Dollars out of Twin Falls; and all the Dollars that you spend are out of Twin Falls; WHAT IS IN THE THUNDER WILL BECOME OF TWIN FALLS? THINK ABOUT IT.

The Times wishes to compliment County Commissioners Albee and Moore upon their stand on the bridge situation for the east end of the county. Dr. Albee, one of the pioneers of the Snake river valley, and a man who has always stood high in the respect of the people of this country has understood the settlement in favor of a rim to rim bridge, and has worked for it at all times. Commissioner Moore, after investigation, has decided that such a bridge is the best investment for the county and the taxpayers. The action of these two men will meet with the hearty approval from a large majority of the taxpayers. The Times does not believe that there is need for extravagant haste in the building of any bridges, and that any action taken should be carefully canvassed. There is no question, however, but that the expenses of upkeep of grades in a few years will more than pay for the first cost of a rim-to-rim bridge and its relatively small cost of upkeep. The fact that the expenditure thinking dollars has been spent upon the Shoshone falls grade in the past four years should be carefully considered. At least another three thousand dollars more will be needed to put the lower part of the grade in shape. Then after all this has been done it is still a dirt road, subject to rapid destruction from sliding wheels, and must each year be repaired. The same can be said of any grade on the Snake river. On the other hand, the rim-to-rim bridge with concrete approaches will be practically indestructible with only a slight expense for minor repairs or possibly none for the first five years. It is a business proposition and should be treated as such, rather than a pork barrel distribution of the county money.

There seems to be some misunderstanding concerning the earnings of the Twin Falls Waterworks company, which largely enters into the question of purchase. According to the resolution passed by the council offering sixty thousand dollars for the system, the earnings for a period of six months was slightly over two thousand dollars, which would indicate a yearly earning of much less than the twenty thousand dollars claimed by this paper. The Times believes, however, that the full truth in the matter was not made plain in the resolution. In the first place the six months taken as a criterion for the taxpayers, was at a time when something like twelve thousand dollars had been spent by the waterworks company for permanent improvements out of the gross earnings and charged to expense. Such a charge should rather have been noted as an improvement expenditure and not charged up directly to operations. The Times would suggest that a fair way to arrive at the earnings is to take a period of two years and take gross income and from this subtract the items take the actual expense for operation and improvement. The Times has no hesitancy in declaring that if this is done, that the revenue would be close to twenty thousand dollars per year. In fairness to the voters the council should secure this information if possible and give it without a tinge of figure to the public. After all is said the water problem is not the affair of the council or a few of the group of business men, but of all the people. Every person who pays taxes or by his use of city water is in any way interested is entitled to find out in the proceedings necessary to obtain

OUR PUBLIC FORUM

William Sproule On the Employment of the Employer

The employment of the employer is a phase of the labor problem which is of great importance to the employer but is equally as important to the prosperity of the country. The employer was never known to go on a strike nor to ask for a reduction in hours and the trend of our legislature has been to discuss his activities. Mr. Wm. Sproule, President of the Southern Pacific Company, when asked to discuss employment from the standpoint of the employer, said in part that in this matter it is the habit of the employer to be as-if it related only to those who work for a specific hourly or daily, weekly or monthly wage. It is in thought of relating to those engaged in the humbler duties of life. The facts run quite the contrary. It is the employer who is first out of sympathy. As a natural sequence he is followed by the employee who next finds himself out of work. Unemployment begins only when the employer begins to be unemployed. When the employer is prosperous and his energies are profitably employed, employees have abundant employment and they also prosper. But during this period of unemployment, it is because all business is bewildered and uncertain. It does not know whether it may prosper or not. It does not know with what means its path may be laid. This condition brings with it transportation and now extends to all business. The greatest trouble with this country today is that every business which has been developed by the genius of the American people has become the target of a dangerous attack from some quarter or feels the threat or danger of attack. Our laws, which formerly were precise and definite, have blanketed business with loose generalizations called "laws" which the men who drew the laws and the men who interpret these laws cannot themselves deal with any precision. Even when they endeavor to expound those laws they make them more obscure and mystifying than before.

There is nothing more distressing to an employer of labor than to turn away from a factory, a store or a business and find it closed. It is the fact that unless the employer is prosperous the employee is falling in prosperity, we will have little improvement. When we have learned the lesson that in this matter we are simply a big industrial family in which we all prosper together or we do not prosper at all, we will not be a promise of relief from the misunderstandings and contentions which increase unemployment and destroy the comfort and the prosperity of the average man. A large relief from the fads, fancies and items which have filled our streets with unemployment and put away the dinner pail of the working man empty upon the shelf is the impoverished home. It is the restoring of confidence in the fact that American men of business are the peers of any in the world. I urge that the American workingman cannot be prosperous unless the American employer is prosperous. I urge that prosperity can come to us only with the full dinner pail. Finally I urge that public interest in transportation is that it shall be prosperous in order that it may be a successful and energetic aid to all the business it is designed to serve.

A municipal system. The Times would suggest that the fullest publicity be given every action in the matter and that final referendum be made to the people. There is too much at stake in the welfare of the entire city, for anything so common sense to enter into the matter. The people expect that the city council will go about the business of buying the old plant like they would if it were their own private business. If they do this mistake made will be attributed to errors in judgment and easily forgotten. It is no time for politics or political scheming.

BRITAIN'S "MODIFIED" BLOCKADE. Great Britain's aim to interfere as little as possible with American trade and maintain a blockade which will in itself reveal, think some editors, in the modification of the Order in Council covering shipments of goods of German or Austrian origin through neutral ports to the United States. There are those who sniff at the "so-called concession" which released goods that were contracted for, but not paid for prior to March 1, when the British Order in Council went into effect. As the "Philadelphia Record" points out, a large quantity of the products affected have been lying in warehouses at Rotterdam for several months. Most of the goods have been paid for and are no longer to be regarded as enemy property. So that even if the principle that a neutral flag covers the cargo were no longer recognized as part of international law, continents this journal, this merchandise would not be "involuntarily seized" on the high seas. Consequently, the Record thinks that Great Britain "commits no act that was not due the concessionary of right."

The goods chiefly affected by the new ruling, the press informs us, are toys and other specialties for the Christmas trade, while dyesuffs and chemicals also will be helped. Consignments held at German factories are still the subject of negotiations. As to the practical working out of the "concession" idea, we read in a Washington dispatch to the New York Times that:

The plan is to have American importers submit proofs to the foreign trade advisers of the State Department at Washington, both as to identification of the cargoes and of American ownership and other necessary particulars, and thus establish a system by which the examination of the proofs of claims of American importers can be carried on in Washington, through informal conferences between the trade advisers and Sir Richard Crawford of the British Embassy. The purpose of this arrangement is to facilitate the procedure of procuring the release of those American-owned, German-made cargoes, now at Rotterdam, which the British government may be willing to permit to be shipped to the United States. It is in line with Sir Edward Grey's note of June 21, in which he gave assurance of Great Britain's willingness to "make reasonable exceptions to American importations" and to accord special consideration in all cases where the enforcement of the British Order in Council might be causing undue hardship. Granting that the so-called "concession" is one of Sir Edward Grey's "assurances," the New York Sun is moved to remark that "Great Britain proposes to accommodate certain American importers who want

THE STORE THAT SELLS WOOLTEx

Why We Have Made WooltEx Suits and Coats One of the Most Important Features of Our Ready-to-Wear Department for Fall

SEASON after season WooltEx garments have been the leaders of fashion in all cities all over the country. WooltEx Styles are authoritative. They are correct and beautiful. They are genteel and refined.

- AUTHORITATIVE 1. WooltEx styles in newest fashion ideas gathered from all the world's fashion centers. They are adapted and modified to meet the needs of refined, well dressed women. 2. The Materials—Pure wool outer materials, carefully selected before cutting. Pure silk linings, fitted and adjusted. 3. CUSTOM TAILOR Features—WooltEx garments have hand finished before stitching and purring of seams. Reinforced between shoulders to prevent pulling out of shape. 4. SHAPE PERMANENCE—Lapels and fronts of coats contain soft canvases and are so made that they retain their shape without stiffness. Molton under collar to insure a neat snug fitting collar. 5. OTHER COAT FEATURES—Extra buttons, trimmings, button holes that do not pull out or stretch or ravel. A pocket in every coat or jacket where possible; thin flat edge that you see on the most carefully tailored garments. Double silk shields, where type of fabric demands it. 6. EASY CARE—Alterations Guaranteed.

Suits Priced \$13.50 to \$37.50 Coats \$9.50 to \$37.50

Beautiful New Furs. All new features shown—ranging in prices from \$2.50 to \$125.00

Blanket and Comfort Time Is Here. Our showing of blankets and comforts this season is larger than ever. In blankets we are showing every possible weight and size in cotton and wool, in plain colors and fancy plaids and extra-fine woolen blankets in stenciled and plain colored borders. In fact, every desire can be satisfied here, as we are the largest purchasers of blankets and comforts in town, and prices are considerably lower. Comforts are shown in cotton, wool and down filling, in beautiful covering, etc. BLANKETS PRICED FROM 50c to \$13.50 COMFORTS PRICED FROM \$1.50 to \$8 Wool and Cotton Bats at Assorted Prices

Musing Underwear for Men, Women and Children. The Musing Quality. In the first place, the underwear itself. Its design is neat, best value that comes into our store. It's for men, women, youth, mistresses and children and each case it fits the man's suit is made to fit the male figure. The lady's suit is made to fit the female figure and it does, as every woman who wears them will testify. The garments are knit from yarns of fine quality. They not only fit well, but wear well. The same are so constructed that they do not irritate the most delicate skin and the woolen garments will not shrink. Now that autumn is a great deal about Musing underwear, but we believe every word of it is true. Men's and Boys' 50c to \$5.00 Women's and Children's 50c-\$3.50

Men's Suits for Fall and Winter. Our showing is now complete and judging from the vast number of suits we've been selling lately, only proves that the styles, materials, and prices are right. Every garment carefully hand-tailored and guaranteed to give perfect satisfaction at the new models and shades are shown. Suits priced from \$12.50 to \$35

Sweaters for Men, Women and Children. In every conceivable style and design in all possible weights for men, women and children and infants. Men's Sweaters From 65c to \$7.50 Boys' Sweaters From 50c to \$2.50 Women's Sweaters From \$1.25 to \$9.50 Children's 50c to \$2.50

Men's and Young Men's New Fall Hats. STETSON HATS. Stetson hats for men and young men in all the new styles, shapes and colors. A great variety of new models to select from; priced from \$4.00 to \$5.00. KNOX HATS. We are solo agents for this celebrated hat for men and young men. The styles are exclusive and attractive. Don't buy before seeing these; priced at \$6.00

Makinnows for Men and Boys. Beautiful new makinnows in pretty plain, etc. They come in all colors and styles from age 6 to sizes 48 and range in price from \$4.50 to \$12.50

Boys' School Suits. Here is the logical place to buy your boys school suits. You'll find a larger and better assortment to select from, and there are no better clothes for boys made than we carry. Ask to see the two-pant suit especially for school wear. Suits range from \$3.50 to \$12.50

DOUBLE HAPPINESS. PAID UP CAR. A large illustration of a vintage automobile with the text 'DOUBLE HAPPINESS PAID UP CAR'.

BLACKLEG-OF-CATTLE
Dangerous Disease Peculiar to Young Cattle. Germs Live in Soil.
Blackleg, also known as black quarter or quarter ill, is a disease of young cattle characterized by bloody swelling under the skin of the lower parts of the body. It is not a contagious disease; that is, animals do not contract it by contact with affected animals. It is an infection of the soil, that is, animals get it from soil or pastures in which the spores or seeds of the disease are present. The disease is confined almost entirely to young cattle, and other species of animals are very rarely affected. It is seen most frequently in animals ranging in age from 6 months to 2 1/2 years, and well bred, well conditioned animals seem more susceptible than scrub stock.
Blackleg is caused by a bacillus, called popularly the "blackleg bacillus." This organism produces spores which remain in the soil for a long period or seedling element of spores spread far. The blackleg spores when once established in the soil remain ready to cause trouble for long periods, sometimes several years, until they gain entrance to the animal body, whereupon they grow and reproduce the disease. When the fact is understood, the persistence of the disease in a locality is readily comprehended. Blackleg is a pasture disease, and the infective agent is found in the soil, and the germs are taken in with the food and water or through slight wounds in the skin, such as the bristly pricks or barbed wire scratches.
The disease manifests itself by swelling under the skin of the fleshy parts of the body, usually the quarters, hence the name "quarter ill." The animal becomes lame and legs behind the head. In experimentally inoculated animals, they frequently run to the point as long as they can stand. The swellings, at first hard, hot and painful, later become cool and indurated, while the skin becomes discolored and leathery. Gas accumulates underneath the skin so that when pressed with the finger, a crackling sound is heard similar to that produced by placing a piece of paper under the coat and rubbing with the hand. The animal then goes down, struggling upon the ground, catching its breath in gasping, and expelling it with groaning, grunting sounds. The head is frequently thrown to the side. After death the animal is found lying in distorted positions, and is usually bloated and stiff. The legs are well held, which causes the legs to stick straight out horizontally in a characteristic attitude. Bloody fluid oozes from the nostrils and is forced in drops from the skin, and collects in large blisters under the outer layers.
On cutting into the swollen parts a sweetish, foul-smelling gas rush out, and a bloody frothy fluid runs from the opening, sometimes accompanied by the black, mushy, indurated muscle, which is forcibly blown out by the pressure of gas. The lungs are found underneath the skin, full of bloody fluid and bubbles of gas, which appear as a quacking, glistening mass. The divisions between the muscles contain the same fluid and have a greenish metallic color, while the muscles are soft and black.
This condition is not general throughout the body but is confined to certain affected portions. The organs seldom show extensive changes.
The disease in its advanced stages is, once fully developed, and death almost invariably results. Some have advocated cutting into the swellings, rowling, and dragging the animals about. Such measures can not be too strongly condemned. The fluids which are liberated contain the germs, and the disease and as a result more infection is distributed over the soil.
Prevention consists in vaccination of the susceptible animals and proper disposal of dead carcasses. Vaccine is manufactured by various firms, it is a white material and must be kept free of charge by the Bureau of Animal Industry of the United States Department of Agriculture. Vaccine and directions for its use are sent to stockmen and to the proper State officials upon application by letter to the chief of the bureau.
Blackleg tends to occur in seasons usually spring and fall, and vaccination should be performed at least one month before the usual time of the outbreak. The best results have followed semi-annual vaccination beginning at six months and continuing until the animal is 2 1/2 years of age.
Too strong emphasis can not be placed upon the proper disposal of the carcasses. They should not be left to rot, and should be buried or burned, to far apart and distribute over the country, but should be buried deeply, without opening, when they die, using suitable means of disinfection to disinfect the carcass and the place where the body has lain.
During the fiscal year 1915, 3,454,828 doses of blackleg vaccine were distributed to stock raisers and farmers in this country. This amount is approximately 46 per cent more than that distributed during the fiscal year 1914. While the percentage of increase of this year's output over that of 1914 is nearly half as great, it does not necessarily follow that blackleg in the United States is steadily on the increase. The difference is due in a large measure to the fact that western and blackleg districts who heretofore did not vaccinate their animals begin now to recognize the practical utility of vaccination.

ATTRACTS HUDSON TOURISTS
California Roads Appeal to Users of Popular Priced Car.
Hudson owners touring in California are finding the roads of the Sunny state an equal attraction with the two states of the San Francisco and San Diego, according to information received by Mr. E. S. Johnson, of the Johnson Auto Sales Co., the local Hudson distributor.
"Southern California enjoys the distinction of having more miles of road good for all-the-year-round touring than any other area of equal size in the United States." One of the particularly attractive features of motoring in Hudson districts is the fact that, according to Mr. Johnson, "the ability to drive in a few hours' time from sea level to mountain heights of over 8000 feet elevation, and over the most beautiful mountains in southern California, none are more attractive now than the wonderful range just north of San Bernardino, along which the Great road was opened to motorists last year. Mountain motorists are being continually thrilled by the great pine forests and rugged grandeur of the scenery in this section of the state."
California highway commissioners are taking deep interest in extending and improving the roads through the mountains. "The Great route has the best asphalt in the world, and is indeed on the very ridge, as it were, of Southern California. Tremendous precipices, canyon depths and mountain peaks alternate from side to side, with the San Bernardino valley on the south and the wide reaches of Mojave desert on the north."
The old roads were not of steep grades, narrow width and rough surface, but was completely rebuilt last year, and is now located with a maximum grade of less than 8 per cent. This puts this famous beauty spot of California within the reach of hundreds of motorists, not only of California, but from all over the country as well, and as many Hudson owners are touring the west for the first time, this attractive tourist boom is the more for numerous Hudson owners.
The especially effective cooling properties of the Hudson radiator makes the Hudson Six ideal for mountain trips, which is another reason for the popularity of this famous tour with many owners of the popular Hudsons.

TRAFFIC TO PARK
Western Entrance Did Fine Business During Season.
There appears to be no slackening in the tourist traffic to Yellowstone park, and two and three sections daily will probably go into the park until the end of the season, which usually is dated about the 15th of September. A phenomenal business has been done through the western entrance this year and up to August 28, 28,287 tourists had gone through of whom 22,403 went the hotel way, 5,885 by Wylie way, 3,247 with the Shaw & Powell Company, and 1,163 with the Old Faithful tour. General Passenger Agent D. E. Burley estimates the number of visitors at the park to date, outside of the "bag-

NOTICE OF APPLICATION FOR PATENT
The undersigned, will apply to the Board of Patents, at Washington, D.C., for a patent on a certain improvement in a certain article of manufacture, the nature of which is fully set forth in the accompanying specification, and which is embodied in the claims hereunto annexed, and which are hereby claimed as my invention.
P. D. NEER, Inventor.
I, J. H. NEER, do hereby certify that the above is a true and correct copy of the application for a patent, as the same appears in the files of the United States Patent Office.
J. H. NEER, Attorney.

FIRE = FIRE = FIRE

SALE!

STRAUS and GLAUBER TWIN FALLS

THE FIRE

This Fire started Tuesday, Aug. 31st, at 1:20 A. M., in the rear of the building adjoining the Straus & Glauber Clothing Store.

Because of the construction of the two buildings it seemed impossible to check the fire until it had burned to the front of the building in which it started, and completely destroyed it.

As the flames swept forward the roof and side of the building occupied by Straus & Glauber was burned through. The firemen chopped down our back door, brought in the hose and extinguished the flames.

Of course a great deal of damage was done by water and smoke, and by embers falling from the ceiling.

**B
E
H
E
R
E**

WHAT TO DO

Considering the general damage by water and smoke, there is only one thing we can do, and that is: Hold a Sale for a limited period on the entire stock. We cannot pick here and there, as the whole stock is damaged either by water or smoke.

Goods that are burned at all will be sold for next to nothing, and we do not expect to get more than cost out of any part of the stock.

The wise buyers will be here and buy at their earliest convenience. Goods will be marked so low that by Oct. 9th, the date set to end this Sale, we expect all goods now on hand to be sold.

A great deal of Fall Clothing is already in, and all goes in on the Sale.

A SATISFACTORY ADJUSTMENT OF OUR FIRE INSURANCE MAKES IT POSSIBLE FOR US TO SELL GOODS AT PRICES NEVER BEFORE HEARD OF IN TWIN FALLS

SALE STARTS **SATURDAY Sept. 18th** SALE ENDS **SATURDAY Oct. 9th**

Mr. and Mrs. A. R. Lewis, of Morrisville, Idaho, are visiting at the home of Mr. and Mrs. R. H. Spafford, 226 Rose avenue, Eastlawn.

Backward STUDENTS

Are often unjustly accused of laziness.

There may be eye trouble. Children's eyes should be examined before going to school.

Send them to our Optical Parlor. They will be well cared for.

W. R. Priche Jeweler-Optician

Bank & Trust Bldg. Twin Falls

His home was wrapped in a flood of flames. Neighbors also came to the assistance, but they were too late to do anything. The loss was estimated at about \$1800 and insurance of \$600 was carried upon the house and furniture.

It is not known just how the fire was started but it is thought that some pipe-work in the kitchen was the cause. The fire started in the kitchen and spread to the living room and the dining room. The fire was discovered about 10:30 p. m. and the fire department was called. The fire was extinguished about 11:30 p. m. and the fire department left about 12:30 a. m.

Mr. and Mrs. Couse were in Buhl Tuesday purchasing clothing and furniture. Mr. Couse said that they were left with nothing but the clothes on their backs and the furniture in the house was well furnished inside. -Buhl Herald.

ONE PIANO GIVEN FREE!

\$350 Piano FREE! \$75 Violin FREE! \$50 Guitar FREE! \$25 Mandolin FREE! It does not cost you one cent to try

To celebrate the opening of our beautiful new Piano Salesroom at Twin Falls, and to relieve the congestion at manufacturers' wholesale quarters, caused by the European war, the Carstensen & Anson Company is going to give away the above articles, also many other valuable prizes. Read this carefully. WHY WE DO THIS—Hundreds of families are coming West daily to make new homes. We want every one of these good people to know Carstensen & Anson Company, its fine pianos and its money-saving facilities to the buyer, just as the old families here for many years known them. We want to greatly increase our sales of the coming year, and jointly with a number of America's leading piano makers, we have set aside a large fund to bring this house to the attention of every home, old and new.

Can You Solve This Puzzle? Can You Solve It?

Take any number from 7 to 15 inclusive. Do not use any number more than twice. Place one number in each of the squares so that when they are added perpendicularly or horizontally the total will make 38. For the nearest correct artistic answer we will give the following prizes in order of merit: All prize-winners will be notified and all prizes must be called for within ten days from closing of contest. It is not wrong to use this paper. Only one person in a family can enter. All prizes in this great publicity event will be given absolutely free. The first, a beautiful \$350.00 piano; second, \$75 violin; third, \$50 guitar; fourth, \$25 mandolin. The next ten largest premiums, each a beautiful and valuable piece of jewelry, lady's or gent's, or a large art picture, and a \$100 credit. The next twenty largest premiums, each a beautiful art picture, and a credit of \$100. The next twenty each a beautiful art picture and a credit of \$125. The next twenty-five each a scarf pin and a credit of \$100. The next twenty-five each a scarf pin and a credit of \$75. The next twenty-five each a scarf pin and a credit of \$50. And all other correct answers will receive a scarf pin and a credit of \$25. The above prizes will be given to the best and MOST ARTISTIC correct answer. Everyone sending in an answer will receive for his trouble a beautiful art picture and a credit which can be used only on the purchase of a new player piano. We are taking this means to reward you for your work in placing our names before the many new comers to Twin Falls and vicinity and to celebrate the opening of our new Piano Salesroom.

AN URGENT PIANO SACRIFICE—Unusual Conditions Create Unusual Opportunities. The Best of Upright Pianos, the Very Best of Player Pianos and the Finest Baby Grand Included in This Ruthless Price Slaughter.

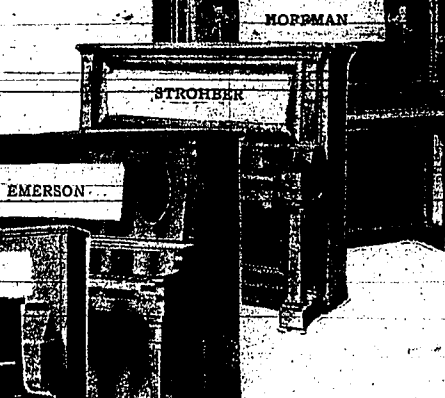

Everyone knows that export business has been practically at a standstill for several months. The world's largest piano manufacturers have accumulated a large number of finished pianos that must be sold immediately. The manufacturers have agreed to give all the discount and sell the stock of pianos we have now on hand, with our agreement that for every two pianos sold by the manufacturer's representative now in charge of this sale we will buy three more—these surplus pianos—European troubles have been the cause of a house full of grand new pianos, nothing show-work, nothing second-hand, all regular high-quality stock, now being offered at cost, and at a price no one would believe. You will find them, the grand new warranted pianos, \$200 value, \$150 and some \$300 value now \$117.50, \$147. A few of the better ones at \$198. The \$200 and \$250 pianos, \$155 and the plain case \$125 and \$118. Payments arranged to suit any customer's convenience—\$5 per month, \$6 per month or \$8 per month. Some for only \$1 per week. The latest and best metal-tube player pianos, with up to one hundred rolls of music free, included at corresponding reduction. A payment of \$10 per month, some for only \$2 per week. Music makes homes what it should be. There is no home in Twin Falls or vicinity worthy to be called a home that cannot now have a choice piano.

NECESSITY KNOWS NO LAW. These finished pianos in large quantities have accumulated in the largest piano factories. With well-founded faith in the future and health of production that the near future will verify, Carstensen & Anson Co. has agreed to take the surplus stock of four leading manufacturers under this special arrangement. The manufacturers will assume all expense of disposing of every instrument in their establishment. The factories' representatives are now here. They do not care for profit. Their purpose is to have these pianos out of the way immediately and commence shipping surplus pianos from the eastern factories at once, hence this opportunity for most unusual price offerings which will never come again, because conditions which have combined to make this sacrificial sale, included at corresponding reduction.

NO PIANOS WILL BE SOLD TO DEALERS. There will be no pianos sold to dealers during this great sale of a very few days except in the morning from 8 until 9 o'clock, and no pianos will be sold if intended for shipment by these dealers into other territory, where those instruments are sold by merchants at the regular established retail prices.

ALL INTEREST-FREE RESTRICTIONS BY SOME MANUFACTURERS NOW OFF. Every piano sold at price, no matter what its advertised price may be. Come at once. **FAMILY BLENDED TAKE NOTICE.** We want your money and will make it an object. However, we are making terms never before heard of. No down payments necessary. Give us a little reference or pay a few dollars now and the balance will be paid for you. Almost any piano advertised will be sold on two to three years' time.

CASH BUYERS TAKE NOTICE! We want your money and will make it an object. However, we are making terms never before heard of. Pay \$1 to \$2 per week. One to three years to pay for almost any piano, player or piano or baby grand piano.

AND LOOK AT THESE PRICES

All New Pianos—Well-Known Makes, \$200 Pianos, \$197; and \$300 Pianos, \$197; or \$250 Pianos, \$198.

All other grades equally low. We are forced to call some pianos used. The reason is for future protection of dealers who must observe the regular prices. However, with a very few exceptions, none of these has ever been sold, and have only been in stock 6 months, some less than 6 months, now direct from the factory. The few that are used are in perfect condition and guaranteed the same as new ones.

LISTEN A Few Pianos, \$250, \$300 and \$350 Values To Me! Now \$98, \$118 and \$145. COME EARLY

We are coming to Twin Falls. We are coming here with the world's greatest pianos. We are opening here with a special sale, the greatest the world has ever known. We are giving several hundreds of dollars in Twin Falls to make the Carstensen & Anson Co. well known in this vicinity.

I will be in Twin Falls for a few days only, to distribute the many valuable prizes we are going to give free. Watch next issues of this paper.
G. R. SMITH, Local Manager.
CARSTENSEN & ANSON CO.
For More Than 20 Years Salt Lake's Biggest, Burliest and Best Piano House.

We Don't Sing the Praises of Player Pianos That Have Failed to Keep Abreast in the March of Progress.

We Are Selling Modern, Metal Tubed, Five-Point Motor, Flexible Finger, Player Pianos, With Perfect Music Roll Trucking Device.

Free Music Rolls Included During the Street Side Sale in Progress.

Don't be misled by antiquated testimonials; a testimonial, without date, does not prove anything. A testimonial given many years ago for a cash net piano cannot possibly apply to the modern piano player. A few years ago in the development stage of the modern player piano, metal tubed player piano, in spite of its many musical shortcomings, was, of course, the best to be had. But the world moves, the player piano has progressed faster even than the automobile has progressed. What was considered a high point of perfection, a few years ago, is now practically obsolete. The necessity of buttons, pointers, empennages, levers and other complex and confusing attachments to player pianos has been overcome. The modern luma touch, flexible finger, the metal tube device, five-point motor, perfect music roll guiding device, play-stand, is sweeping all before it. That's the kind of a player piano we now sell.

The modern, adaptable music roll positioner makes possible the very highest order of every member of the family. THE STROHMER PLAYER PIANO AND EVERETT BABY GRAND PLAYER PIANO.

In tone quality and an upright or Baby Grand piano, one instrument cannot be perfect, the exclusive and wonderful features, the intricate striking finger, the automatic guiding device, five-point motor, etc., are all to be found in this Player Piano, and the price is not \$1000, but in this sale these instruments will be only \$334, with \$30 additional for slightly fancier cases and \$50 more for the very fanciest. The liberal payment plan applies to these superb pianos and Baby Grands as to all others.

PRICES THAT ARE ALMOST UNBELIEVABLE

Please depend upon it that this sale of player pianos is of such and intense importance. A musical tubing up-to-the-minute period player piano, usually priced to retail at \$650, is now offered for nearly half price, or \$328! A player model Player Piano is actually only \$240. This is the cash price, but for more additional simple interest will deliver for \$20 down (and this interest will make \$20 payment for you), then you only pay the \$3 a month, free music rolls included, nearly all new.

\$10 a month till \$420 is paid will buy a higher quality piano than most—\$420—now specified as the most unusually priced at \$264. We will give a bill of only when \$420 has been paid for this beauty, and includes a most liberal supply of music rolls. A Weber Player Piano is actually now priced at \$488, payments \$9 a month, free music rolls included. Other Player Pianos, \$418, \$458, etc. like new, no found in this Player Piano.

A very little more will buy a Weber Player Piano, the very highest priced one, but payments are to be arranged at \$16 per month. Free music rolls, too. Superior Player Pianos De Luxe, the very finest yet constructed, and mechanically, instruments that excel any \$1,150 piano to be had, possessing 6 points of superiority over the next best make. We are pricing one of these instruments at \$285, and a player style for \$245, payments \$15 a month, free music rolls included.

Old style Pianos for \$55 apiece. A liberal supply of music is included in our cash offer of the way. Space forbids detailed mention of all of the instruments in this sale, but suffice it to say that every player piano on the floors is marked at corresponding low prices.

In a sale of this kind buyers come from everywhere and they act quickly. There are no duplicates except in a few instances. For this reason we say come at once.

We know of only one way to do business quickly and that is to out-price. Balanceless, uncompromising price reduction, and thus this occasion is presented. Never have modern player pianos been offered for so little money and never again will they be had at such extraordinary savings in price. Any of these instruments will be shipped subject to examination and free trial.

This new reliable make Guaranteed \$350 value, \$145.

A STATEMENT FROM THE HEAD OF THE HOUSE
There has been many occasions in the past whereby we were in a position to offer the finest makes of pianos at very substantial reductions, but never heretofore has there been such a combination of circumstances that has made possible, or let me say, compelled such low prices as have now been arranged for piano buyers of Twin Falls and vicinity by the authorized piano manufacturers' representatives. Read this entire announcement carefully.

Carstensen & Anson Co. has been established and has grown great because it solemnly assures positive satisfaction to every purchaser or money back. The instruments in this sale are our regular stock, nothing reserved, and are offered upon the same definite and binding agreement on our part. No transaction will be considered as complete unless the purchaser is positively satisfied.

I do not know how to say this, more emphatically. Every instrument sold in this sale must prove satisfactory to the buyer in every way, both as to quality and as to its price, or no sale. Our unconditional service guarantee accompanies every instrument sold, no matter whether it is our costliest player piano or our least expensive piano, this guarantee will positively protect each and every purchaser against dissatisfaction.

For over 20 years we have carried out every obligation and agreement to the letter. We do not propose to deviate from this proud record at this time or at any other time. The sale prices will be plainly marked. The prices will be one and the same to all alike. A child may purchase as safely and as satisfactorily as the shrewdest shopper.
A. B. CARSTENSEN, Manager Carstensen & Anson Co.

A STATEMENT FROM THE MANUFACTURERS OF PIANOS THROUGH THEIR AUTHORIZED REPRESENTATIVES NOW IN CHARGE OF THIS SALE

I am the factory representative. I secure an order for the manufacturers I represent for three pianos every time I sell two during this sale. I do not care for retail profit or even wholesale profit. My manufacturers have accumulated a surplus stock. Everyone knows that export trade, particularly in musical instruments is now at a standstill. If you expect to buy a piano in the next ten years you are doing yourself an injustice if you do not see me within the next few days. Your own terms can be had. I will help make, (best suits you). A little every week or every month, or semi-annual or yearly payments may be arranged.

MUSIC ROLL
10 to 100 rolls given with almost any Player Piano during this great sale.

All cigarettes are pure, but

But a pure cigarette that doesn't taste just right wouldn't do for you, would it?

And to be really sensible a cigarette must give you more than purity and a good taste.

It must be cool and friendly to your throat and feeling fine after smoking all day.

Fatimas are not the only cigarette that measure up to all these requirements. There are other sensible ones.

But Fatimas seem to have a big margin in their favor on their good taste. Otherwise they could not outsell all other cigarettes costing over 5c.

You can't tell whether they will just suit your taste until you try them.

At the same time, you can easily prove how sensible they are by these two tests.

Most men who try Fatimas say "Good Bye!" to all other cigarettes right away. That's why Fatimas sell so fast.

Why don't you try Fatimas today?

TWO TESTS FOR ANY CIGARETTE

1. Taste the cigarette carefully. If it tastes good, it is a good cigarette. If it tastes bad, it is a bad cigarette. Fatimas are the only cigarette that taste good.

2. Look at the cigarette carefully. If it is made of the finest tobacco, it is a good cigarette. If it is made of cheap tobacco, it is a bad cigarette. Fatimas are the only cigarette made of the finest tobacco.

LOCAL NEWS

From the Herald.
Miss Helen Calverton spent Saturday and Sunday visiting friends in Buhl.

The latest Circle meets Friday, Sept. 15th, at the private residence of Mrs. W. F. Orr, 220 4th St. West. This will be the first meeting of the season.

Mr. and Mrs. Gaylord Freeman moved into the private residence of Mrs. W. F. Orr, 220 4th St. West, Tuesday.

Mr. and Mrs. A. L. Trout moved to Twin Falls Monday, where Mr. Trout has accepted a position with the City Pharmacy company.

A party consisting of Mrs. E. H. Bader, Mrs. J. W. Fisher, William Russell and Mrs. W. F. Orr, returned Monday from a camping and fishing trip in De'Wold river country.

Mr. Joseph Weber, advertising manager of Jamesville, Wis., arrived Tuesday for a visit with E. E. Beeman and to look after his farming interests in the full center.

Mrs. L. P. Ellis and daughter, Willis of Portland, arrived here Saturday for a visit with Mrs. W. F. Orr at the Lindstrom home. Mrs. Ellis was formerly Miss Helen Henderson.

Mrs. Lucinda Howald, sister of Mrs. Orr, returned from a visit to her home in Buhl Sunday to visit with relatives for several weeks. She was accompanied by Mrs. Mabel Adams and Miss Hatzie Bader.

Judge Welby and W. C. Honnold, of Cambridge, Nobr., visited Saturday at the home of Mrs. W. F. Orr. Judge Welby, who is Mr. Orr's brother, left that evening for his home.

Hon. G. H. Watt, of Pullman, Wash., arrived Saturday for a week's visit with his wife and children. He is visiting to his home after a week's visit in Ohio. Mr. Watt is engaged in the banking business and also owns a large drug store in Pullman. He served in the Washington state legislature last term.

Kollinger Brothers, of New Orleans, La., arrived Saturday and showed up the check which they received for their delivery of 200 lbs. of soap for the Buseen, an order which they were paid on a check for \$247.50 for the week. The check was a bit of attention from the Buseen's visitors who happened to be in the city at the time.

Charles Buseen started for the Sheehan basin country Tuesday, accompanied by a party of sheep for the Buseen, an order which they were paid on a check for \$247.50 for the week. The check was a bit of attention from the Buseen's visitors who happened to be in the city at the time.

LOGGING OVER BIG DAM

Problem of Getting Out Timber Solved by Government at Arrowrock.

Boise, Idaho, Sept. 8.—Above Arrowrock dam in the basin of the Boise river, it is estimated that there is 8-10 million feet of merchantable timber. Sawed into lumber worth, say \$12 a thousand, this would represent a potential value of \$100,000,000, it is owned by the United States government, the Boise-Payette Lumber company and a number of other with smaller holdings.

This timber is to be cut in the immediate future, driven down the Boise river and converted into lumber at the dam and just outside "the city of Boise."

At the big dam, a log boom is projected a trolley for the purpose of lifting these logs from the reservoir, carry them over the crest, 250 feet above the dam, and dump them in a river in good condition in the stream below.

Nothing would be permitted of course to interfere with this project. 1000 of the dam—the impounding of the 340,000 acre feet of water demand for the irrigation of 240,000 acres of rich soil in the Boise valley. But as the dam backs the water for a distance of 18 miles, converting the river channel into a reservoir, and including both branches of the stream, provides ideal means for the driving of logs. It was early agreed that some scheme must be devised for lifting them over the dam.

Under the direct supervision of Engineer Charles E. Paul, his assistant, Walter Wood, of the U. S. Forest Service, based on principals used where scientific logging is done—this has a capacity of 80,000,000 feet for the purpose of 80,000,000 feet within 48 feet or less of the top log level.

It is estimated that it will take 10 years to drive over the entire 400,000,000 feet.

The equipment located at the reservoir will be of the following type: logs of any size or length will be taken out of the reservoir by means of a crane and dumped on the dam. From this place they will be led by a stop and hauler to power-driven pulleys on the dam. The dam will be under the control of the State Engineer. The dam will carry the logs across the dam and into a river in good condition. The dam will take them down a 250-foot drop at a speed of 1000 feet per second.

WAR IS ON!

Babies Vs. Files and Dirt.

WHO WILL WIN?

WHAT Happened To One Thousand Babies.

One thousand babies were placed under careful observation last summer by the bureau of public health and hygiene A. I. C. P. and the department of health.

In the Dirty Home

Twice as many babies had diarrhoea as had been reported in New York City last year.

Dirty and flies played their part in the matter.

A well-used broom and mop and a yard of nothing may save your baby's life.

If You Love Your Baby,

1. Keep your house clean.
2. Keep your toilet clean.
3. Cover your garbage and make your neighbor do the same.
4. Keep water over the baby.
5. Eat no food that flies have walked on.
6. Buy no food from stores where you see many flies.
7. Report fly-breeding stables to the health department.
8. Combs, pins, files, straight razors, etc., should be straight from the manure pile, the fly's house.
9. The spittoon. They walk of your breath—wash their feet in the manure bowl; they walk of your breath—wash their feet in the manure bowl; they walk of your breath—wash their feet in the manure bowl.

HEALTH BULLETIN

From the Idaho State Board of Health.

"My baby's weak. What shall I do?" That's a very common question from mothers, particularly at this time of the year. It is a very important question, too, and one that is hard to answer fully. In general the chances are more than ten to one that the trouble is from some digestive disturbance. For this reason it is always advised to stop feeding the baby at once. He won't starve if he misses a few meals or even if his rations are shut off or greatly reduced for several days. Of course, the baby should be given all the water he craves for and that will be a considerable quantity in this hot weather. All drinks other than water should be boiled—up, boiled, and served cool but noticed.

The next thing to do for a sick baby after stopping the food supply is to empty the intestines of all fermenting, decomposed food. In general the mother will be justified in using not more than ten to fifteen drops of castor oil or simple enemata by injection. If this does not bring relief the next step would be to try a laxative if such a thing is available, and place the case fully in his hands.

As with many other health matters, prevention is much simpler, cheaper and better than cure. In the case of babies, the use of mothers' milk is always advised and most important single item to be considered. If the mother's breast should be kept cool and alive in the fresh air at all times and carefully screened from mosquitoes.

TWIN FALLS

STORE NEWS

In calling your attention to Dr. Denton's Sleeping Garments one of the first and most important items I would mention is the material used.

The yarn from which these garments are made is absolutely clean and free from all impurities so that there is no danger of irritating the skin of the child who wears them—and at the same time it is soft and warm.

The yarn is not put through a chemical process often used in producing yarn for garments to be worn next to the skin.

After the material is woven it is put through a steaming process of cleaning and purifying but this is done with such care that the fabric is not stretched and pulled out of shape as is the case in many instances, but is really improved.

The feet of these garments are made without seams at the bottom. The pockets are neatly finished. The facings are securely stitched and tacked to keep them in place. The cuffs are made extra deep so they can be turned down over the hands and tied with a cord. The buttons are genuine bone with reinforced facings underneath. The button holes are securely made so they do not tear out readily.

This wonderful little garment already popular is growing in popularity every season, and is one of the best things that has ever been brought out for children.

We have them in all sizes in the best style in the original make as illustrated by the cuts on either side. You will find our price on these are right and lower than you can buy the same goods in many places.

Edward Robinson

BEEF FACTORY ASSURED

(Continued from Page 1.)

Terms of this district. The constant advice of Professor H. M. Simpson, county agriculturist, to increase fertility by carrying stock would be valueless, without the thousand tons of beet pulp to be had at the local factory at a price little if any above the cost of handling it. To sum up, the sugar beet crop means cash in the pocket of the farmer; it means the holiday, second, successful cat-tle feeding, and, third, the maintenance

of fertility on the farms where the crop is raised.

At first glance it may seem ridiculous to speak of an immense sugar factory as a scenic attraction, yet it is a fact that every visitor to this city instinctively looks around for the big plant, which he has heard of as the second largest of its kind, and if he is fortunate enough to enjoy a week's visit in our midst, he at least gets a comprehensive view of the exterior of the big mill.

Big Institution Is Managed by Broad-Minded Men.

The company officials are at great pains to keep the big plant in ship-
