THE FEDERAL GAME LAW

The sportsmen of the West are this year for the first time to encounter the full rigor of the Federal migratory bird law.

The Federal game laws made to suit eastern conditions and for the pleasure of the eastern mill-hands, gives the West a good hard blow and practically kills the sport of duck shooting.

All most Western shooters well know the flight of ducks owing to the scarcity of feeding grounds is for the most part in the very early morning and late in the evening.

Strict compliance with Federal regulations of shooting only between sunrise and sunset would make a very slim bag for every Western sportsman.

The law passed to stop the slaughter of ducks on the Chesapeake bay like most Federal laws lacks elasticity because most of the people sent to Washington must kunkle under the Eastern legislators in Congress.

Who in turn are dominated without a doubt by the wealthy leisure class.

The sportsman of the West are a law abiding bunch of men and the Federal authorities will have little trouble in enforcing the law however unpopu- lar it now appears to be to the Westerners.

A CURE FOR LAWLESSNESS

A recent editorial in Leslie's Weekly has much of truth in it that it will do no harm to pass on to the Times readers.

Advocating military training for every man in the nation and establishment of military drill in the public schools, the popular weekly brought out the idea of the effect of rigid discipline of Germany upon the characters of its citizens in making them law abiding and law respecting.

In contrast is shown in particu- lar the attitude of many respect- able citizens toward our National, State and City laws.

It mentioned in particular, the tendency of our civil law abiding citizens to break speed ordinances in the big cities and laugh at the matter of arrest and fine as if breaking of that particular law was a joke, when these same men would cut off their right hand rather than break other laws no more necessary to the public welfare.

There is much truth in the contention of Leslie that we Americans chafe at regulations. There is a tendency to go the pace when we figure that we will not be caught.

If it rested only with automobile speeding it would be bad enough, but when the idea permeates the whole of society, there is serious danger.

Children of today think nothing of stealing fruit and doing the thousand and one things that are just the merest steps over the boundary line of law and order.

The parents laugh at the pranks as a joke with never a thought that the seeds of disrespect for law are thus being sown.

Military training from the standpoint of national defense may or may not be essential, but rigorous discipline which will inculcate the needed respect for laws is authority is the one great thing which the average American now lacks.

Our average citizen, no matter how honest, nationally may be the strongest with individuals who must are the units out of which will come a united and ready nation.

THE SECRET OF GERMAN SUCCESS

Hated as a spur to increased activity has been tried in Germany, and, to judge from recent reports, has not proven an entire success.

Now the Russians are making experiments along the same line, and we learn from the Hamburger Fremdenblatt that the Russian "Cadet" party has issued a pamphlet urging the political leaders to inspire the peasants with hatred of Germany.

In this way it is hoped the Russians will be stimulated to greater efforts to drive back the invaders.

Incidentally the pamphlet pays a high tribute to German efficiency and thoroughness, and says the Fremdenblatt goes on to ask:

"What is the secret of the German successes? Are not our armies just as brave? The Germans had no great leaders; there was no Napoleon

Altogether. It is nonsense to speak of the invincibility of the Germans.

The war will be decided by economic conditions, although we see that Germany's strength has not weakened, but even seems to have increased.

Germany has given the world an example of how success inevitably follows well planned organization of the means of production.

"To do this, the whole nation has to participate in the war, the whole nation has to be inspired by one great ideal, the whole country has to live in feverish excitement, just as do the soldiers at the front.

The front is everywhere in Germany—at the loom, at the clerk's desk, at the sewing machine, as well as in the trenches.

"Turning from Germany to Russia, it is candidly admitted that this particu- larly by the entire nation is lacking and that the apathy of the peasant is a danger to the Russian cause.

"Here in Russia, on the other hand the spur of war does not produce united action as among our enemies. They are fighting, and we are sitting at home—that is the general principle. The desire for victory must be im- planted deep in the heart of the nation.

"The more mobilization of industry is much too narrow a aim. Even today the peasant regards the war utterly without interest.

It is the reason for the great conflict and never been explained to him, and that is why he believes the most impossible rumors. So far no one has been able to point out to him how vitally the war affects the people themselves.

"We must never, not even now, forget the foundation of the entire Em- pire—the peasants."

"We must satisfy the peasant physically and mentally. We must stop the peasant the source of light—a quick, practical war-education. Thus all his hazy ideas will be dispelled, and he will gain strength."

"Only by the thoroughness of hatred as the Russian peasant be roused to effective action, we are told, and the writer proceeds:

"The Germans have been fighting for a year against entire Europe. What gave them the strength to do this? The Krupp factories? By no means. All Germans, high and low, are not only people who can read and write, but also they are efficiently educated, so that the entire nation is able to understand political ideas and to act accordingly."

"United and energetically let us now bring light into the hats of the peasants, the Russian as well as the non-Russian. They shall all learn to Russia and to understand what the enemy is. Let us sow hatred among the people, among the peasants in the villages. Hatred against the Germans is the first bit of knowledge which we must impart to them.

"Only by this means will we be able

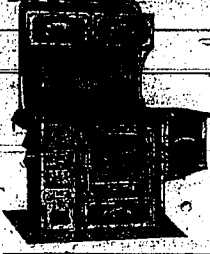

The Men We Know

The sort of men we know, the sort of fellows that buy their clothes of us, are pretty shrewd citizens. Everyone knows that when he spends his good money for one of our Suits or Overcoats, he is going to get full value for every penny. And whether you spend \$15.00 or \$20.00, or more, you'll surely get good returns for your money.

NOT A LUXURY

Those holding securities, insurance policies, valuable documents of any kind, or who have personal jewelry or treasures of small bulk, should not risk them in the desk of a bureau drawer, where they can have the great security of the Twin Falls Bank & Trust Company safe deposit vaults at trifling cost.

These vaults contain thousands of others in cash and securities belonging to the bank itself, and its officers regard their security as absolute, with the protection of steel, stone, concrete, time locks, and burglar alarm. A safe deposit box is not a luxury, it is a necessity.

HALF MILLION CARS SOLD

Having a Value of Almost Half a Billion Dollars.

Sales of pleasure cars of all types up to June 30, according to a statement of Alfred Hoover, general manager of the National Automobile Chamber of Commerce, amounted to 468,847 cars in the United States during the year in the industry. There were sold during the year 37,700 commercial vehicles. The pleasure cars were valued at \$460,941,131 and the commercial cars at \$72,522,692. The call for the big luxurious cars continued throughout the year, the greatest sales during the past year have been in the rural districts. The number of cars increased 35 per cent but the value increased only 10 per cent, indicating that greater value the market have been giving purchasers, as manufacturers costs were brought down and fewer changes made in chassis construction. The demand from abroad has increased remarkably. American matters have thus far been unable to care for the demand.

Auto Freight Cars
There were used for automobiles in August 15,141 freight cars, a considerable increase over 8222, the figure last year for August. The traffic department of the National Automobile Chamber of Commerce has taken the number of keeping automobile trade freight cars in the auto trails and 1500 railroads have agreed to hold one-tenth of the shortage of the special cars for the motor car business. The Detroit office of the traffic department covers each day's shipments with a response sent to the dispatcher that the cars be promptly returned when unloaded.

Mechanical Pollinating Found Unsuccessful.

Mechanical devices for pollinating red clover have not been found successful by investigators of the de-

partment, who have been studying the problem of red clover seed production. On the other hand the investigators found that the honeybees, in order to cross-pollinate, and that under certain conditions the honeybees may also be cross-pollinated.

For some years there has been an inefficient supply of honeybees and red clover seed. As a result not only has the price of the seed been high, but large quantities of foreign seed, which is frequently inferior to the domestic, have had to be imported. In consequence, the maintenance of an adequate clover acreage has become a rather serious problem. To remedy the situation, attempts have been made to ascertain the minimum quantities of seed per acre required to secure a satisfactory stand and the conditions necessary to maintain such a stand. In addition, efforts have been made to develop a heavy-seeding, hardy variety of clover, and finally various mechanical forms of pollination have been experimented with.

Bulletin No. 286, a professional paper of the department, which has been published, contains the results of experiments in the pollination of red clover. These experiments show that that field of seed obtained on heads which were not pollinated or which were self-pollinated by different bees, was practically negligible. The actual amount was less than one-half of one per cent, and this insignificant quantity, it is said, may be accounted for by accidental pollination from outside sources. In contrast with these results it was found that the honeybee was able to pollinate from 30 to 35 flowers, a distance in dry weather. When few nectar-producing plants were available, however, these were found to also collect large quantities of pollen from red clover and in the process cross-pollinate the flowers in the same place.

Hand operated brushes for cross-pollination were also experimented with. Instead of increasing the seed yield, however, these were found actually to decrease it—a fact which is accounted for by the injuries the

IRVING CUMMINGS

Irving Cummings in the \$20,000 "Flying A" Photoplay.

AT THE ORPHEUM, MONDAY, TUESDAY AND WEDNESDAY

You who have seen the remarkable dramatic talent displayed by Irving Cummings as the hero in "The Diamond from the Sky," know that this great film star has set a new high mark in motion picture interpretation. The magnetic personality of Mr. Cummings is one of the factors that has brought such pronounced success to this wonderful "Flying A" continued photoplay. The entire cast is probably the greatest ever assembled for a film production.

Lottie Pickford and Irving Cummings, principals in "The Diamond from the Sky," written by Roy L. McCardell and filmed by the Flying "A" studios for weekly-installment release, are winning the hearts of the motion picture public from coast to coast.

Two more attractive young leads scarcely could have been chosen for this powerful story, which hinges essentially upon the personalities of Esther and Arthur Stanley. The sense of romance is strong in each, and no point does their performance fall short of what would be expected of young persons in their extraordinary situations in life. In this week's chapter, full of thrilling revelations for both hero and heroine, Mr. Cummings proves himself a finished and versatile actor and Miss Pickford's appealing charm is enhanced with every turn of fortune or misfortune the story brings to the little heroine.

Flowers resolved from the bridges of the brushes.

TOWN TURNED OVER TO FILM COMPANY

Santa Ana, California, a town of 15,000 population, with its inhabitants, streets, etc., has been secured to be used for scenes in a picturization of Herbert Quick's novel, "Double Trouble," starring Douglas Fairbanks. Picturization was arranged by Director William Christy Carbone, who received the consent from Mayor A. J. Vessell, which has approved by Chief of Police Sam Jerrigan, Police Judge F. A. Wilson and J. C. Metzgar, secretary of Chamber of Commerce, and Merchants and Manufacturers' Association. Director Carbone contemplates using the fire department, police depart-

ment, municipal bands, and polling booths. This marks the first time in the history of motion pictures that a complete town has been turned over to a motion picture company.

NOTICE TO CONTRACTORS

Bids will be received up to noon, October first, for approximately 250,000 cubic yards of canal work on the high, canal area. Bids may be submitted on all or any part of the work, the canal excavation and lower embankment to be completed by December first, 1916—and the upper embankment by May first, 1915. The work consists of cleaning the present canal, widening it in places, and strengthening the embankments. The preliminary estimates consist of about 90,000 cubic yards of earth excavation, 130,000 earth borrow, 20,000 tons rock, 10,000 cubic yards solid rock. Each bid to receive consideration must be accompanied by a certified check for \$200.00 for each million of work bid on as a guarantee that bidder, if successful will at once enter into a contract with the company to complete the haulage in accordance with the specifications and in the shortest time.

There will also be approximately four hundred cubic yards of reinforced concrete work; and some extensions on highway bridges. The company reserves the right to reject any or all bids.

BOOTH MERCANTILE COMPANY

GAINS MADE ON WESTERN FRONT

(Continued from Page 1)

pas in Champagne, where in December they made a considerable gain of ground. Saturday's attack, however, gave them possession of more territory than they had reckoned from the Germans since the latter dug themselves in after the battle of the Marne.

Take a Big Bite.
According to the French account, the Germans were driven out of their trenches over a front of 25 miles carrying in depth from two-thirds of a mile to two and a half miles.

Apparently the advance is being pressed still further, as the French communication makes only the briefest mention of the operations.

Weaken German Position.
The importance of this gain lies in the fact that every yard of ground taken in this region weakens the German position around Verdun, from which the Germans might be compelled to retire should the French succeed in making any further advance.

The French also have regained the three corners of the trenches east of the "blazing" in the Arras district, which was the scene of heavy fighting earlier in the year. The Germans had built what they considered almost impregnable fortifications.

Attack of British.
This attack was made in co-operation with the British, who attacked on either side of La Bassée canal. The attack to the south side of the canal, Field Marshal reports, was a complete success. Trenches five miles in width and about 400 yards in depth were taken at this point.

This push forward gives the British possession of the road from Lens to La Bassée, which was used by the Germans for moving troops and supplies north and south, and threatened to outflank the German troops which held the town of Lens.

Take Hill No. 70.
Hill No. 70, one of the positions taken on the road, is less than a mile directly north of Lens, while Hulluch, which also fell into the hands of the British, is at the foot of the hill near La Bassée. It is only 12 miles from Hulluch to Lille.

North of the canal the British were unable to hold the ground gained and had to fall back to the trenches which they had left in the morning. The attack, however, according to Field Marshal French, German reserves were sent to check this move thus giving the British an opportunity to consolidate their new positions.

Enable to Hold Gains.
A somewhat similar situation developed to the north and south of the Meuse river, east of Ypres and results were the same. North of the

road the British were unable to hold the ground taken, while to the south they gained about 500 yards of the German trenches and consolidated the ground won. So far as is reported the British took 1700 prisoners with eight guns and several machine guns.

Fighting on Russian Front.
Some of the fiercest fighting of the campaign is in progress on the Russian front. The Germans continue their furious attacks in an effort to drive the Russians out of Drinsk, while in Volhynia, and Galicia, the Russians continue to harass the Austro-Germans, who had designs on Kiev, from which town they now are further away than they were a few weeks ago.

General Ivanoff apparently is determined to hold back the Austro-Germans and his efforts are meeting with a considerable measure of success. The fortress triangle which includes Dubno, Rovno, and Lutsk is almost entirely in the possession of the Russians.

At Galicia the Austrians have been driven back across the rivers which run parallel to the border.

The Italians like the rest of the allies report a number of successes in taking fortified mountains from the Austrians.

LOST IN NEVADA DESERT

Woman Has Had Experience While Lost.

San Francisco, Sept. 15.—Accidental evidence has been offered supporting the claims that the Lincoln Highway, across the State of Nevada is very poorly posted with guiding signs. This time the evidence has been brought home more forcibly than in previous instances, in that a lone motorist driving a car across the continent and seeking to follow the general transcontinental motor road, became lost on the Nevada desert, struck off on the wrong road for a period of more than ten hours was placed in a very perilous position.

Several hours afterwards she was found by Miss Anita King, who is seeking to drive a Klugecar across the continent unaccompanied by anyone—was found in a faint alongside of her car by three prospectors, who placed her in their car and carried her to Lovelock, Nevada, where she was given food and shelter. Miss King could get no definite information concerning the course of the Lincoln Highway and offers returning to her car was started on her way to Winnemucca, Elko, Ogden and Salt Lake City, where she arrived last Thursday.

It is very interesting to know that Klugecar brand Miss King attributes her experience, which was a thrilling and nerve-racking one as any woman motorist has been privileged to describe, to the lack of proper signposting of the Lincoln Highway, a motorist has been privileged to describe, to the lack of proper signposting of the Lincoln Highway, a

motorist has been privileged to describe, to the lack of proper signposting of the Lincoln Highway, a motorist has been privileged to describe, to the lack of proper signposting of the Lincoln Highway, a

allegations of previous transcontinental motorists. There are many motorists here who believe that it is a high time that the route section be taken to see that the Lincoln Highway is accurately marked across the state of Nevada.

NEW GRASS CROP.

Buhl Farmer Has Great Faith in Sudan Grass For This Country.

A grass which is new to this section of the country, and one which is comparatively new to the United States, is being experimented with this summer by John Mills, who lives six miles northeast of Buhl. It is known as Sudan grass, and Mr. Mills is enthusiastic about the future of it for pasture, hay, and silage purposes on this tract. It is said to produce from fifteen to twenty tons of silage per acre.

Mr. Mills has planted one acre of the Sudan grass in rows about eighteen inches apart, and it is about seven to nine feet high and most of it is headed. It is said to be an annual, and must be sown each year as corn or an millet. The grass has a stem somewhat like corn, but much heavier, and the leaves look much like the blades of orchard grass. The interior of the stem is soft and spongy.

However, according to Mr. Mills, the crop will be a paying one. He said that his stock ate it more readily than any other feed he has, and it will make a larger tonnage yield per acre. He will thresh the crop for the seed and feed the straw to his stock. The seed and straw are said to eat the straw greedily.—Buhl Herald.

TOWN REPRODUCED

The town of Anaktodon, Canada, the locale of Sir Gilbert Parker stories being reproduced at the Fine Arts festival, where Sir Gilbert Parker's "Jordan is a Hard Road" is being pictured.

Thrilling trials and bank hold-ups were introduced in this feature picture, in which Frank Campano, as "Bill Minder," the Canadian bandit, and the three Mackensons figure. The latter are a lawless trio, outcasts fugitives from justice, who live in defiance of the law, and are prominent characters in "Jordan is a Hard Road."

NEGOTIATING WITH STAGE STARS

NEGOTIATIONS have been started by the Fine Arts Films station to secure a number of popular present-day legitimate stage stars to head the various Triangle productions. To date the list of proposed stars includes De Wolf Hopper, Douglas Fairbanks, Helen Wayne, and March. Frank Campano, Lillian Gish, Robert Harlow, Dorothy Gish, John Emerson, Sarah Truesell, Thelma Houston, Owen Moore, Paul Gilmore, Jane Grey, Tutty Marshall and Wilfred Lucas.

DROWNED IN SHALLOW POOL

Body of John F. Sanders, of Gooding, Found on His Clover Creek Ranch.

John F. Sanders, a well known rancher on Clover creek, was found dead in a pool of water on his ranch last Thursday evening. It is supposed that he was stricken with paralysis, causing him to fall into the water and that he was either dead, when he fell in or dead was caused by drowning.

Deposited had been living alone on his ranch and Thursday evening Mrs. Arthur Sanders, a relative who lives near by, went to see how he was getting along. He was not at the house and a search of the premises led to the discovery of the body lying in a pool which is formed by a spring. A bucket and cup near the pool indicated that he had gone to the spring for a bucket of water, the pool is not over three feet deep.

Sheriff Sam Sanders, nephew of the deceased was notified and he immediately started for the ranch, accompanied by County Coroner Lamb, who found that no inquest was necessary.

Body was buried in Benton county, Oregon was 69 years old. He leaves a divorced wife and two grown children, who reside in California. Several months ago the motorist who died in the accident, it is supposed that his death was due to a second attack, which caused him to fall into the water. He had resided on Clover creek about eight years.—Gooding Leader.

REBUILDING SUNBEAM DAM

Force of Men Under Mack Coffin Start Work at Mackay.

Engineer Mack Coffin, of Boise, with a crew of about a dozen men, on Monday morning started work on rebuilding the dam on Salmon river at the mouth of Yankee Fork, which develops the power for driving the Sunbeam power plant of the Custer Slide Mining company.

The plant has been in operation for several years and the action of the water has partially undermined the Sunbeam dam and the big spill way repairs to be made are found to be quite extensive, requiring several weeks time and a large amount of cement and material to buy. The power dam is a safe and satisfactory condition for operation. By making the repairs at this time of the year, with low water it can be done more economically and insure a structure that will withstand the high waters of next spring.

Early next spring the power plant will be put in operation and will deliver power to the Montana mines, the Sunbeam mill and the big spill way that the Custer Slide company will install this fall.—Mackay Miner.

If you are in need of advertising, Times Want Ad. will fill your want.

PROVES EASY VICTIM

Former State Immigration Committee Member Held Prison.

Some months ago Sam Helm, one of the best known farmers of the Blackfoot section, who has known throughout the state as former immigration commissioner, engaged in some sort of speculative scheme with one Franklin Helm, in which it appeared that certain land propositions appeared.

At any rate, it seems that Sam and not the land, was the principal object for speculation on the part of the voracious Helm, who maneuvered in such a manner as to induce Sam to endorse a bogus "draft drawn on a New York bank in the sum of \$2,000; Helm secured the money by cashing the draft at a Blackfoot bank, after which he managed to escape Sam's vigilance and "drifted" to other climes.

He was later located at the Utah hotel, in Salt Lake, and Sam happened—a train and went across the field adventure and found him. He threw a variety of scares into the fellow, who professed to be a wealthy broker, and had him guarded for the time being, inasmuch as Helm claimed his ability to make the crooked action good. While waiting for the crooked money, Helm again attempted to get the money, but was not located again until within the last few days, when he was arrested in the Blackfoot section of San Francisco, where he was still a "wealthy broker," according to press dispatches, but had seen the advisability of twisting his course into a simple application to "Frank Helm," as a little thing like changing his name had no more effect on him than changing worthless paper into real money.

Helm is being held by the Frisco authorities on a felony charge, and Sheriff Sims of Blackfoot will leave for the court within the next day or two to secure his prisoner, following the completion of extradition papers.

Helm, a native of Illinois, declines to make any statement regarding his arrest. Apparently "business" had been as good as dead, and he never was pleased for inasmuch as Helm officers did the pinching. He will be brought back to Blackfoot and will have an opportunity of meeting the first Sam on his face.—Roosevelt Tribune.

PREFABRICATED FICTION VERSION OF PLAY

John Emerson, featured in "The Scarlet Band," is devoting his evenings to the conceiving of a fiction version of "The Scarlet Band," which is his co-author. A prominent agent, who has arranged with him to present his story in serial form.

2000 good ewes—good mouth—owes bred to Hampshire hucks—for February. H. T. W. We kinbly.

DAIRY FACTS

TO COOL BUTTER AND MILK

Device Made of Strips of Steel Iron and Covered With Bleached Linen is Quite Handy.

I consider my cooler the handiest and most practical thing of the kind I have ever seen, says a writer in an exchange. It is made of three two-inch strips of heavy sheet iron, one foot long for side pieces and five round pieces of the same material 3 1/2 feet

Butter and Milk Cooler.

in diameter for shelves. All this is covered with bleached domestic coarse white linen.

A straight strip of the linen reaches from the top shelf to the bottom and a funnel-shaped piece is sewed on top and bottom to make a smooth covering for the ends, which is fastened to the sides by a strap. The water which drips down over the cooler keeps the linen moist and keeps it perfectly cool all day.

Food of all kinds, cooler or raw fruit, milk, butter, preserves, etc., may be kept cool and delicious during the hot summer days. To the woman who can't afford a refrigerator it means a saving of time, trouble and money. The cost is about \$1.50. It may be bought under a tree, in the yard or in a hallway, where the wind will strike it. If in the house a pan should be set under it to catch any surplus water that may be.

Last Saturday night the Misses Fern and Elizabeth Costello were hostesses for a party at their home. Present were Misses Mary Miller, Margaret Williams, Barbara McHugh, Edith Weathers, Edith Moffatt and John Green, also Mr. and Mrs. H. Alexander.

PRESBYTERIAN MEETING

Twin Falls Presbytery Gathered at Wendell. The Presbytery of Twin Falls, with a territory of six counties, recently held its fall stated meeting at Wendell, Idaho, Tuesday, Wednesday and Thursday.

WHY have any doubts when thousands are singing the praises of Priebe GLASSES? W. R. PRIEBE Jeweler-Optician PRICES JUST RIGHT

Organization, Rev. Dr. Shepherd; The Pastor in the S. S. Rev. J. M. Anderson, D. D. Haverdam, holding the Children in the Church Service, Rev. Charles Thomson; Teacher Training: Why? and How? Rev. M. M. Van Patten; Round table mainly on Evangelism and the Graded Lessons System. Rev. J. K. MacCallister, S. S. M. Presbytery adjourned to meet at Twin Falls on the floor of Synod in October.

A COMMUNICATION

Twin Falls, Ida., Sept. 24, 1915. Mr. W. S. Hill, Editor Twin Falls Times, Idaho. In a recent issue of your paper was printed a notice to the Board of County Commissioners against the employment of outside engineers to do the county work. This notice was signed by the engineers of Twin Falls. As one of the engineers living in Twin Falls, I wish to call attention to an error in the notice which was directed to Commissioner Carlson. This is obviously an error as he is individually cannot be held responsible for the action of the Board. A protest should have been addressed to the board as a body and as such would meet with my approval otherwise it would not.

Very truly yours, CHAS. H. MULL. STATE BOARD OF THE OVERSEER'S MANAGEMENT, CIRCULATION, ETC.—REQUIRE BY THE ACT OF AUGUST 24, 1912.

Notice of Application for FIDUCIARY NOTICE IS HEREBY GIVEN that the undersigned will apply to the Board of Finance of the County of Blaine, Idaho, for the appointment of a fiduciary to administer the estate of the late W. S. Hill, deceased, who died on the 27th day of August, 1915. W. S. Hill was a resident of Twin Falls, Idaho, at the time of his death. My commission expires Dec. 30, 1917. E. V. LARSON, Notary Public for Blaine, Idaho.

Encouraging and vigorous reports were made also of Sabbath observance by Rev. A. C. Evans; on temperance by Rev. W. S. Young; on foreign missions by Rev. O. Thomson; evangelism by Mr. Brown; and on systematic benevolence by Dr. Shepherd for the executive commission. The Sabbath school work was well to the front will be in the program of the Pre-Presbytery Conference held on Tuesday afternoon, presided over by Rev. W. J. Junkin, the chairman of this work. Devotional, Rev. J. K. MacCallister; Religious Education, Rev. C. M. Junger; Our Lord, Rev. J. K. MacCallister; Adult Class Organization, Rev. W. S. Snoddy; Teen-Ago Class.

PRESERVE THIS AD FOR FUTURE REFERENCE. THE PRESBYTERIAN CHURCH OF TWIN FALLS, IDAHO. Carve the ribs by passing the needle through the holes in the paper.

Glad To Show You Week

With "Glad-to-Show-you-ness" as its keynote this week is devoted to a conscientious desire on our part to be of service to you and your friends, to help you in every way to see the very newest of the season's styles as found in this store. Every nook and corner thrills with the "Glad to Show You" spirit and no effort will be spared to aid you in every possible way.

More lavish displays may be found in many places, but none have been selected with greater discrimination as to style or more exacting care as to quality.

But a short time spent here now will prove to you the value of our months of careful planning to bring together for your choosing merchandise of quality and fashion.

Now the showing is complete, careful arrangement has placed all goods where they can be easily and comfortably seen and examined. Every effort of our entire store will be bent toward making it not only possible for you to see the new styles, but also possible for you to learn what is best for your own individual use.

A "Glad to Show You" spirit that simply emphasizes what you may always expect at this store in the way of service makes you doubly glad that you came.

Glad To Show You Coats

with their rather close fitting waist lines and a graceful flare in the skirt. Some utility coats are cut on lines straighter, which give more fullness to the garment. The longer coats are the most favored. High buttoned convertible collars, set-in sleeves, large side pockets all appeal to those who like novel effects. Plaids are the chief novelties in fabrics with plushes, velours, velvet cords and chevrons holding sway in the more conservative garments. We will gladly show them to you—any time.

Glad To Show You Suits

which reveal in a most attractive way the authentic styles for fall. Striking novelties that reveal in individuality bring forth many expressions of praise. Split jackets are not of any set length, but vary in harmony with the style of the suit. Smart, severe lines predominate, high buttoned neck set-in sleeves and full three skirts are characteristics. Broadcloths, worsteds, poplins, gabardines and serges are the most popular fabrics. Come, we are glad to show you one or as many as you care to see.

FROM **Opening Day**
SEPTEMBER 29TH

UNTIL **Closing Day**
OCTOBER 10TH

We Are Glad to Show You the New Skirts

because they will be nearly as popular for winter as for summer, accordingly, now prepared liberally. Ankle length are most correct. The same general lines are followed as in suit skirts and with a slight variation in materials. Be sure and see them. We are ready and "Glad to Show You."

We Are Glad to Show You the New Corsets

We specialize in makes that we can guarantee as satisfactory to you. The new fall models we've assembled comply with the new style tendencies. Whatever may be your individual requirements, there is a model in our selections that will fulfill them. Come, see them. "Glad to Show You Week."

Glad To Show You Dresses

because we have some of the prettiest dresses ever shown in this store or in the city for that matter. We are glad and proud to show them because we believe that you will be pleased to see the exquisite style and beautiful fabrics that go to make the fall styles for 1915. We know that the prices, too, are right down to the limit, where we always place our goods when first received. We could talk to you for hours on this line, but we are content to let you come and see our pretty dress bargains.

Glad To Show You Piece Goods

from the finest silk and wool goods to the least expensive of cotton fabrics. Silks are especially popular this Fall, novelties being very plentiful. Anticipating a large demand, we bought liberally. Wool fabrics, of course, will be most generally used and plaids will be the popular pattern. Braids and metal embroideries in various widths offer many suggestions for adding attractive touches to new gowns. In every way we are prepared to help the home dressmakers. We are "Glad to Show You."

We Are Glad to Show You the New Waists

simple in design but a very important factor in every lady's wardrobe for Fall. The semi-tailored styles impart and air of smartness by an addition of plaiting, restringing or embroidery. Ribbons are much favored in trimmings. Crepe de chine, crepe, voile, chiffon and lace are the fabrics most used. We are "Glad to Show" them to you.

At this store you will find shopping a pleasure. We want you to come and see the new things; try them on—in a word, see how well you like them.

We Are Glad to Show You the New Footwear

In nearly every leather and in a variety of styles and shapes, that readily help you in finding something to please you in a size that fits.

Just how much care we use in fitting shoes carefully we are always "Glad to Show You."

HART'S

Mellow-Sweet

—like the toothsome taste of a ripe fig—is the rich, juicy flavor you get in a chew of SPEAR HEAD.

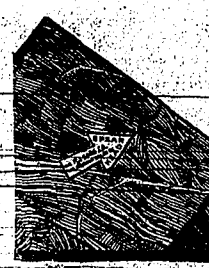

No other plug tobacco is so mellow, so luscious and so satisfying as

SPEAR HEAD

PLUG TOBACCO

The choice leaf for SPEAR HEAD is selected with the most painstaking care, is stemmed by hand, is pressed into SPEAR HEAD plugs so slowly that not a drop of the rich natural juice escapes.

Chew the rich and mellow tobacco that has been the favorite for a third of a century—that's SPEAR HEAD.

GOODENOUGH & GUN

BUHL

From The Herald.
C. E. Stuart sold his 120-acre ranch last week to Joe Ohlweiss, of the same tract, the well known California in the near future on account of his daughter's health.
Les Taylor went to Moscow, just before Sunday morning where he will attend the University of Idaho during the coming year. Leon graduated from the school of agriculture last week and has been working at his father's ranch since then.

Willie Ingstrey, son of C. E. Ingstrey, by south of town, returned home Monday to attend school this winter. Willie has been working on a ranch at Great Falls, Montana, this summer.

Samuel Boston traded his farm last week, and will have a public sale next Monday.

John Moessinger, cattleman from the roseworth country, was at Buhl last week to buy hay for winter feeding. He reports conditions good—up—the range, and thinks that the farmer could demand a higher price for their hay around here if they put up sheets of some kind to use while feeding the alfalfa. Mr. Moessinger thinks it requires so much more hay to feed cattle which have no shelter, that the feeder must pay less for the hay.

W. W. Cramer, stockman from Three Creek, came over to Buhl last week and bought horses to take back with him. He reports that the country in that country, owing to the number bought from here last winter.

Dr. O. Ewing bought a bunch of sheep last week to experiment with, and fed them on his clover stubble. Mr. Ewing made a fortune on clover seed this summer.

S. A. Gillette, who lives south of Castleford, imported one of the best "ambouillet" bucks ever brought to this tract last week. He expects to show him at the Cornucopia fair. The buck was expressed to Buhl from Wyoming, and it has won several state and national prizes.

Mrs. Charles Ketchum arrived here from St. Charles, Mo., last Friday, and will spend several months visiting at the home of her mother, Mrs. E. B. Guthridge, who is employed in the Merrick Hardware Co., received a telegram from his brother, David, of Oklahoma Territory, stating that their father died Friday.

Kelly Heath was taken ill last Monday with a severe attack of influenza, but he is getting along better at this writing. He had been working with a threshing crew this fall.

Clyde Dudley of Starbuck, Idaho, with friends in Buhl last Saturday evening. J. Andrews, who contracted to put in the walk on Main street, between the City Hotel and the postoffice, toward town, completed his work Tuesday and went back to Twin Falls that evening.

E. E. Beeman, who has been spending the summer on his ranch south of town, left Tuesday evening to take up his work as traveling salesman for the John Gidding company, a business which was during the winter. Mr. Beeman travels over the territory of Idaho, Oregon, and Nevada.

Mr. and Mrs. C. M. Davis left Tuesday evening for their old home in Niseno, Missouri. They spent the summer in Buhl, and they will move to their old home in Niseno.

The Farmers Union shipped a car of hogs Wednesday.

The numerous Ladies Aid societies held their annual election, October 7, and the officers reported that every member is present.

George Hobbs, brother of W. L. came up from Salt Lake last week to spend the winter at Buhl at his brother's residence.

Frank Jones went to Rigerson last week to look after his sheep interests up there.

Harold Daly, of Oakley, accepted a position with the Eliseo Drug company last week. Roy Daly began working for Ellison's the week before, and he is from Oakley, but the boys are not related.

Misses Dorothy and Beatrice Johnson, of Livingston, Mont., came Sunday to visit at the home of their sister, Mrs. C. M. Davis, who returned to her home this week, and the other sister will visit for several weeks.

Hobbs and Gillette, south of Castleford, sold 213 head of Rambouillet spring lambs to James W. Port, of Oakley, Monday and they were shipped on Tuesday morning. They were sent to be one of the finest shipments sent from Buhl for some time.

Mr. J. Hays, brother of Robt. Hays and Mr. and Mrs. W. Soars of Grinnell, Ia., have been visiting relatives and friends around Buhl, and they have been here in California, and stopped on their return. Mr. Hays was at this tract several years ago, and says that the present tract is better than any other.

F. E. Carson, jeweler, installed a wall case for showing silverware, cut glass and jewelry last week.

Len Dugman shipped a car of hogs from Buhl this week.

Page Seven, with a cement sidewalk five feet wide and under the existing street grade and under the specifications adopted by city and on file in the Clerk's office.

Section 2.—That the boundaries of said improvement district shall include all of Lots 2, 3, 4, 5, 6, 7 and 8 Block 17 in the City of Twin Falls, County of Twin Falls, State of Idaho, as shown upon the official plat of Twin Falls Township, of record in the Recorder's Office of said Twin Falls County, in Book One of Plats at Page 7; and the sidewalk, space in front of said lots.

Section 3.—That the cost and expense of said improvement shall be assessed upon all the lots within the said improvement district as hereinbefore defined, each lot therein to be separately assessed for the full expense of such improvement in proportion to the number of feet of each respective lot facing or abutting on said avenue to be improved, and in proportion to the benefits to be derived to the said property by reason of said improvement.

Section 4.—That upon the passage of this ordinance the Committee on Streets of said City, together with the City Engineer, shall make an assessment roll in accordance with the provisions of Section 2238, Idaho Revised Codes, as amended, which said assessment roll shall contain, among other things, the names of the property owners affected by said proposed improvement and the description of each lot contained in said improvement district, and the amount assessed against the same, which roll shall be filed with the City Clerk of said city.

Section 5.—On receiving the said assessment roll the City Clerk shall give notice by publication in three successive publications of the official newspaper of the said city that such assessment roll is on file in his office, and the date of filing of the same, and said notice shall state the time when the city council will hear and consider the objections to said roll by parties aggrieved by such assessment.

Section 6.—That the assessment herein specified shall be known as "Special Assessment for Improvements" and shall be levied and collected as a separate tax, in addition to the general property tax, and such taxes to be placed on the tax roll for collection, subject to the same penalties and collected in the same manner as other taxes levied and collected by this City Council, this third day of Sept., 1915.

Approved by the Mayor this 23rd day of Sept., 1915.

EVERETT M. GREWLEY,
Mayor.

Attest: BESSIE M. WILLIAMS,
City Clerk.

HANSEN NOTES

The Panama-Pacific exposition is proving a great attraction to the people of this section of the country. Several parties have gone and more are planning to get away just as soon as the harvest is over. Jack Craig left Thursday morning accompanied by Roy W. Gager, Peter Link and Leo Fernandes. They are making the trip to San Francisco and back. Several families are planning on this ideal vacation, and if the roads hold good will see quite a late an experience worth while.

Mr. W. R. Eastbrooks has gone to his former home at Idaho Falls, to spend the harvesting of the crop on his ranch there. Miss Emma Polton has been visiting at the home of relatives and friends for a couple of weeks. Miss Polton moved to Nyssa, Oregon, with her parents a year ago. Both days of the Kimberly Boosters' dance were enjoyed from Hansen, and all were well pleased with the entertainment, the sports and the exhibits. The speaking contest was a great attraction, but the interest taken in the samples of seeds and grain showed the main object of the visit of many.

Mr. and Mrs. M. W. Krumm and children left for their old home in Ohio last week. They have not been back since they first came out here a great many years ago, and so expect to spend some time in visiting old friends and places of interest. The next son of A. E. Pedigrove is rapidly taking shape and will make an attractive addition to his ranch. The house is large and arranged with all modern conveniences. L. Provon and W. F. Sawyer are doing the work. Mr. Ora Meyer also has a new home nearing completion on his block on the corner of W. E. Eastbrooks. A grand party to the appearance of our growing town.

Mr. and Mrs. Emeline Provon left a week ago for Lincoln, Nebraska, where they will attend high school this winter. The annual Methodist conference held at Boise last week, returned Rev. B. E. Yarey to his former post at Hansen and Kimberly, fact which his friends will be glad to hear. Mr. J. B. Poston, of Lovell, Oklahoma, is visiting with her sister, Mrs. Ora Sawyer, for a few days. Mrs. E. F. Provon was the guest of honor at a miscellaneous shower given last Saturday afternoon at the home of Mrs. W. E. Eastbrooks. A number of the young ladies of Hansen were present and enjoyed the afternoon with the bride. A novel feature

of the afternoon was the needwork contest in which various odd pieces of cloth were offered as beautiful and beautiful gifts, according to the taste of the maker. Mrs. Provon was the recipient of many gifts of linen, cloth and aluminum. Beauty refreshments were served during the afternoon. Mrs. W. E. Hubbard took her son Howard to Denver last week, where he is under the care of a doctor. He has been very ill for the last two weeks with typhoid fever, but he is reported to be improving rapidly.

Mr. Denver of Twin Falls, has been over in H. C. B. Smith's block of merchandise and is closing it out. The Farmers' Society of Equity has installed a seed cleaner which is run by electric power and are handling cautiously since the seed crop is being hulled. The cleaner is doing excellent work as is evidenced by the first prize awarded the Kimbly Booster fair for re-cleaned seed. Mr. and Mrs. J. N. Byram, of Bend, Oregon, with their little grandson and granddaughter, have been visiting at the home of their daughter, Mrs. Stewart Severns for the past week. They left for their home Wednesday morning.

Miss Louise Suttillier is taking a vacation this week from her work at the People's General store. On account of the absence of the minister, who was attending conference last Sunday, no church service was held in the morning at ten o'clock, in order to give any who might care to attend the Sunday school rally at Twin Falls a chance to go. Several attended from Hansen, among them being Miss Laura Hale and Mrs. E. L. Ruan. Church will be held as usual next Sunday afternoon.

The Hansen schools opened on Monday the 13th with a large enrollment. The teachers are: Principal, J. S. Stonley; Mrs. Hensley; Miss Maxwell; Miss Orford and Miss McCauley. At the recent school election for Hansen independent district, No. 1, Mr. A. B. Mann and Mr. Geo. Davenport were elected to the board of directors. The graduation recital of Miss Marie Batz was held last week at the Twin Falls high school auditorium. Miss Pettigrove finished the course of the Twin Falls Conservatory of Music last week and was highly commended for the praise of the large audience attending.

As the harvest of the grain and clover crops proceeds, the magnificent yields still hold up and even surpass previous records. L. A. Adams made 32 bushels of wheat per acre on a six acre patch and 34 bushels on twenty acres more. Jos. Froelich reports the record crop of wheat for this section, a yield of 108 bushels. Sampson Jiro, hulled over eleven bushels of al-

Scientifically Built Roofing

The General says:--
The Boss who comes down to his roll-top desk at 10 a.m. and leaves at 2 p.m. may get away with it—but I never could. It took years of investigation and labor to bring 'Certain-teed Roofing' up to its present high quality standard.

Certain-teed Roofing

Certain-teed Roofing is the result of the effort of the thousands of men who have made it a material used—and more than any other—on the roof—a world wide search for the best raw material—a study of the effect of the rain, snow, sun, wind, heat and cold on the material used—and the result is a material which is scientifically built and made in accordance with the latest scientific knowledge. Certain-teed costs no more than ordinary kind.

GUARDIAN'S NOTICE OF SALE OF REAL ESTATE AT PRIVATE SALE

Under authority of an order of sale granted by the Probate Court of the County of Twin Falls, State of Idaho, dated September 22nd, 1915, I will sell at private sale the following described real estate:—

An undivided one-half interest in and to the Northeast Quarter (NE 1/4) of the Southwest Quarter (SW 1/4) of Section Twenty-Nine (29), Township (10) South, Range Seventeen (17) East, B. M., also all of the right and interest of the said John Carroll and Alfred A. Ault, minors, in and to the family allowance made in the estate of Clinton B. Ault, deceased, set apart for the use of the family and being the east fifteen (15) acres of the NE 1/4, SW 1/4, of Sec. 23, T. 10 S., R. 17 E., B. M., and in any event to sell the said right and interest of the said said minors in and to said property, be the same more or less as above set forth, and the sale will take place on the first day of October, 1915, and bids will be received at the office of M. G. Ripley, 125 South Shoshone, Twin Falls, Idaho.

Terms of Sale: Five Hundred Dollars (\$500) cash; Thirty-Four hundred (\$3400) Dollars upon the execution of a deed and the furnishing of an abstract showing perfect title. Thirty-six Hundred (\$3600) Dollars being the amount of the mortgage to remain upon the property and be assumed by the grantee; the rent already accruing and due for the year 1915 to be assigned to the grantee.

Dated September 22nd, 1915.
M. G. RIPLEY,
Guardian of the estate of John Carroll and Alfred A. Ault, minors.
B. M. WOLFE, residence, Twin Falls, Idaho; attorney for the guardian.
Sept. 22-27 Oct. 3

ALIAS SUMMONS

In the District Court of the Fourth Judicial District of the State of Idaho, in and for Twin Falls County.

Etta Ethel Atwood, plaintiff, vs. Edward C. Atwood, defendant.
The State of Idaho sends greetings to Edward C. Atwood, the above named defendant.

You are hereby notified that a complaint has been filed against you in the District Court of the Fourth Judicial District of the State of Idaho, in and for Twin Falls County by the above named plaintiff, for the purpose of recovering the bonds of matrimony between the plaintiff and defendant, and you are hereby directed to appear and answer the complaint within twenty days of the service of this summons if served within said judicial district, and within forty days if served by mail. If you do not so answer and appear as herein specified, the plaintiff will take such action as may be deemed proper in said complaint.

Witness my hand and the seal of the said District Court, this 13th day of September, 1915.
(Signed) E. I. FINCH, Clerk.
D. DeLack, attorney for plaintiff, residing at Twin Falls, Idaho.
Sept. 14-21-28 Oct. 5-12-19

NOTICE OF TIME AND PLACE SET FOR HEARING PETITION FOR PROBATE OF FOREIGN WILL IN THE PROBATE COURT OF THE COUNTY OF TWIN FALLS, STATE OF IDAHO.

In the matter of the estate of Stanley B. Miller, deceased.
Notice is hereby given that a petition for the probate of the will of Stanley B. Miller, deceased, and for the issuance of letters of administration will be annexed thereto to the file of Mr. Miller, has been filed in this court, and that Saturday the 30th day of October, 1915, at ten o'clock in the forenoon of said day at the court room of said court, in the city of Twin Falls, in the county of Twin Falls, State of Idaho, have been set as the time and place for the hearing of said petition, and where any person interested may appear and contest the same, and show cause, if any they have, why said will should not be admitted to probate, and if a foreign will, the executor's admission to probate in the State of Utah.

Dated this 21st day of September, 1915.
J. M. SHANIC,
Sept. 21-28 Oct. 5-12 Probate Judge.

Talking about the value of plenty of porohorn, here's an Idahoan who evidently has firm convictions on that point.

We'll venture that the medicine cabinet is just that much the smaller.

The more porch and the more it's used, sleeping and awake, the better for health and happiness.

And the cost of adding a porch is not excessive.

Hasten to See the New Waists for Autumn 1915

Delightfully new and pretty. New tailored models; some all white, some in pretty stripe effects; some navy blue, black and the very popular green—all simple and dainty as Autumn waists should be, and with the loveliest of collars; some that button straight up to the chin in military style, and some that can be worn high or low, as is most becoming.

Prices \$4.00 and Up

We Have an Extra Large Line of Misses and Children's Coats--from 3 years up--and the prices are right. All shades and weights.

Before buying elsewhere come in and look them over

We have just received an assortment of colors in Peggy O'Neil, Tam-o'shanters, then all white, navy, tan, gray, brown and red.

This is the most popular head covering for Misses at this season.

JENKINS & COMPANY

(The Store of Originality)

DAILY NOIS

All the nature's beauties in the dairy farm.

Feed the silage after milking or an hour or two previous.

The development of the dairy herds begins with her feeding when a calf.

A calf should be weaned from its mother within three days after its birth.

The cow is the unit of the dairy industry. Upon her quality its success depends.

An abundance of alfalfa and bran insures a sufficient amount of protein and mineral matter.

One of the greatest arguments in favor of fall freshening is that it balances the work of the farm to a steady.

All bulls should be treated as though they were ugly and vicious. Any other method of treating them is careless in the extreme.

Cream that is too ripe is not fit for butter-making. It should be churned as soon as it reaches the proper degree of acidity.

Corn cut at the dent stage of maturity has reached its maximum growth and silage made at this time has its maximum value.

Even under best of conditions calves are inclined to bark apple trees, and should not be turned loose in young orchards.

If milk contains large numbers of blood corpuscles or pus cells, it is an indication that the cow from which it was drawn is diseased.

WELL SUITED FOR MOTION PICTURES

Thomas Jefferson, co-starred with Tully Marshall in "The Sable Lordship" at the Pico Arts Cinema Studio, is well known to the patrons as the result of his performance of "Rip" in "Rip Van Winkle." This play was first introduced by his father, Joseph Jefferson, who, when seriously ill, rechartered his son to his bed and sent him out as his successor.

Thomas Jefferson is well suited for motion picture work as his father taught him never to act to the audience, but for the audience, and the same applies in film acting; act for the camera, and not to the camera.

STRAUS & GLAUBER

FIRE SALE

Since we opened our doors, September 15th, we have been rushed with business, most all day, the first Saturday we had to keep the door locked although we had all the clerks we could hire, we could not wait on the immense crowds. A great many people that could not be waited on the first few days of the sale, have since returned and been fitted out.

Although we have sold thousands of dollars worth of goods in the last few days we have unpacked as much new fall goods and placed on sale at the same FIRE SALE PRICES. Our Fall Stock was bought six months ago, we have to take it and we cannot eat it so it must be sold, and now is the season for it, get what you need.
