SHEEP OWNERS OFFER REWARD

Would Stop Pilfering of Lambs From Their Big Flocks.

ASSOCIATION FORMED OF SHEEP OWNERS AT SHOSHONE

Five Hundred Dollars Reward Will Be Paid for Information of Such Petty Thieves.

A number of the larger sheep owners of this section met in Shoshone last week and formed the Sawtooth Grazing Association, a corporation. The purpose of the association is the betterment of the welfare of the sheepmen and their protection. T. C. Bacon, of this city has been elected secretary. The association members have been asked for some time by the state and federal governments to take action to correct and prevent the widespread pilfering which is going on. So far, however, some of the sheepmen, who in bands are trespassing the highways that a lamb will be stolen and thrown over in to the chert, later when confronted with the fact that the lamb is in their possession, the thieves will claim that the lamb broke through the fence and claim for damage.

As each lamb is worth about five dollars, the losses are very considerable. Mr. Bacon, secretary of the association, says that the loss of one lamb is the death of one sheep, more than doubling the loss of a lamb. The association is now making a list of the sheepmen who are guilty of stealing from the members.

PALMER BARN BURNS

His Horse Barn at Shoshone, Idaho, Was Destroyed by Fire.

Early Saturday morning the barn belonging to J. W. Palmer, situated on the corner of the city, was totally destroyed by fire. In the barn at the time of the fire were three teams of horses, owned by Curry, Vaughn, J. G. Coker, and the Twin Falls Co-operative Orchard company. As soon as the fire was discovered, the three teams were taken out of the barn and the fire was attempted to be removed. The flames, however, had made such headway when discovered that it was impossible to remove the fire. The fire was caused by a quantity of kerosene which was used in the barn at the time of the fire.

The fire is supposed to have caught from a clear of cigarette stump, as a quantity of kerosene was in the barn shortly before the fire was discovered.

UNDERTAKER SELLS INTEREST

W. A. Eames Has Now Partner of T. C. Eames.

The oldest undertaking firm on the Twin Falls tract is the one now owned equally by P. J. Grossman and T. C. Eames, doing business at number 150-152 Main street, and in the large, imposing brick building owned by E. A. Brice.

Mr. C. A. Eames, a practitioner of medicine, has been president of Twin Falls for the past six years, residing on Blue Lake boulevard, is a graduate of the University of the Pacific, College of Medicine.

The doctor holds undertakers and morticians' certificates, and has been practicing in Twin Falls and New York since 1902. He is now known as the Eames firm, with large, capable, and experienced men, and the necessary equipment for the undertaking business.

DEATH OF MRS. BASLEY

Peace & Love, a Native of South Park, Colorado, Died at Her Home.

Mrs. Basley, a native of South Park, Colorado, died at her home in Twin Falls, Idaho, on Saturday, October 24, 1915. She was 78 years of age. She was born in 1837 and was a member of the Methodist church. She was a devoted wife and mother, and was well known in the community. She is survived by her husband, Mr. Basley, and several children.

ASSOCIATED CHARITIES MEETING

Plans for Aid of Deserving During Winter Months.

The adjourned annual meeting of the Associated Charities, met at the Hotel on the evening of October 22nd. The meeting was for the purpose of electing a president and treasurer, the latter office being vacated by the resignation of Mrs. E. B. Williams.

Mrs. Kennedy Packard was elected president and Mr. Will J. Young, treasurer.

The remainder of the meeting was given up to the discussion of the best methods of carrying on the work, and the question of ways and means to finance it.

Every effort will be made to eliminate all possible red tape. The president, Mrs. Kennedy Packard, will bring a prompt response to any call of need. Emergency relief will be given once and then investigation of the case. Where help calling for cash is furnished, it will be in the shape of a loan, wherever it is practicable.

The president, secretary and treasurer, together with Dr. Shepherd, Prof. Blue, Mrs. Harry Allen and Mrs. G. B. Williams, the board of directors, met to discuss the work of the association. It was decided to ignore suggestions made to raise money by food and clothing, etc., to carry on its work, but to solicit funds from the community.

It is a benefit to any community to be relieved of haphazard giving and have an organization which will prevent funds from gathering up money on the pretenses. For two winters past a great deal was contributed in money and clothing to men in uniform, whom this association at last exposed as the worst kind of impostor. It took considerable correspondence and hard work before facts were gathered and laid before the community.

Not one dollar of all collected ever relieved one case of need, but it was a lesson to the community. It was decided at this meeting to recommend that no second hand clothing or bedding should be donated to any organization outside of our city.

Mr. Will J. Young has kindly donated free the use of a room over his office for our supplies. All the goods will be put in the room. Donors will please see that wool clothing is reasonably clean, as the association never gives out dirty clothing. It is a point which will make patching or cutting very prohibitive.

Already this fall several children have been put in the room with clothing. The girls have been made them fit for school and the boys have been made them fit for work. The girls have been made them fit for work. The boys have been made them fit for work.

Prof. Blue has a little scheme to help finance our treasury. He will explain it to the community. The financial affairs of the association at present are as follows: Assets, \$4,000 in treasury; a very moderate amount of men's and women's clothing; liabilities, \$1,000 in bills for meat and groceries furnished in April to a case of needy and sick.

The association begins its winter work in full faith that this community will see that it has all that is needed to carry it on successfully.

TELEPHONE CASE SETTLED

Castellated and Mountain States Line Will Compromise.

Commissioner John W. Graham, of the public utilities, on behalf of the Castellated and Mountain States line, has heard both sides of the controversy between the Castellated and Mountain States line and the public utilities. The Castellated and Mountain States line has been operating for some time in the Twin Falls area, and the public utilities have been complaining about the service. The case has now been settled, and the Castellated and Mountain States line will compromise.

ON CALIFORNIA TRIP

Party Leaving for Vacation Place Early Next Week.

A party of four, consisting of Mr. and Mrs. J. W. Graham, Mr. and Mrs. J. W. Graham, and Mr. and Mrs. J. W. Graham, are leaving for a vacation place in California early next week. They will be spending some time in the mountains and the beach. They are looking forward to a very pleasant trip.

REST ROOM FOR RURAL SHOPPERS

Made Possible by Club Members' Activities.

MERCHANTS DONATE ARTICLES OF FURNISHINGS TO ROOM.

Success of Venture Is Assured From the Start by Energetic Club Women of Tract.

A rest room under the direction of the Federated Rural Club will soon take its place as one of the established Twin Falls institutions as the result of the energy of the rural club women and the generosity of the merchants of this city. The movement which has been already getting ahead contemplates the fitting up of the brick building at the rear of the Great Shoshone and Twin Falls Water Power company offices into a rest room, which will assure both privacy and comfort for the many women who visit this city on shopping trips.

The room which is about twenty-five by thirty-two will be plainly, but comfortably furnished by furniture donated by the furniture men, and the dealers in rugs and draperies. The rent will be paid by the merchants who have entered heartily into the plan and who are glad to have the problem settled in a manner that will please their shoppers.

Too much credit cannot be given to the leaders of the numerous rural women's clubs who have been working a long time toward this purpose.

APPLE ORCHARD DESTROYED

Fire Probably Started by Match of Some Smoker.

A fire, which was started from some known source, but which is believed to have been lit by someone throwing a match into the dry grass after having been drinking, destroyed about three acres of R. B. Duran's commercial orchard, five miles west of Buhl, Idaho. There were six acres of four-year old trees and just begun to bear fruit. In the orchard and the three acres which burned had been in clover. The red clover had been cut and the white clover had been cut between the trees, there was enough dry foliage to lead the flames down the tree rows, and the flames spread to the trees.

Mr. Duran was hauling wheat and was away from home at the time the fire started, but he thinks that someone lit a cigarette and threw it carelessly threw the match down in the woods along the coupe. It seems that the fire ran up along the coupe and from the land. When Mr. Duran came home from town the blaze was still creeping over the orchard so he had no way of telling just who set it—Buhl Herald.

\$57 PER ACRE FOR FIRST CROP

Amos Howard Gets \$16,500 From 230 Acres.

Amos Howard hauled his seed to town from the 230 acre ranch which he had 4750 bushels of seed, which he put on the cars for \$16,500 and this was the first crop which was harvested from the land. It had been in sage brush previously, and Mr. Howard said that he would have received more if it were not for more water by the time it had been broken up from desert so recently. He watered the grass two times.

Mr. Howard said that he had a good stand of grass and it was the first crop which was harvested from the land. He said that he had a good stand of grass and it was the first crop which was harvested from the land.

Mr. Howard said that he had a good stand of grass and it was the first crop which was harvested from the land. He said that he had a good stand of grass and it was the first crop which was harvested from the land.

TWO MILLION DOLLAR DEED

On Transfer of Land in Idaho.

On Tuesday morning a deed was transferred in the county clerk's office in Twin Falls, Idaho, for the sum of two million dollars. The deed was for a large tract of land in the county. The deed was signed by Mr. and Mrs. J. W. Graham, and it was a very important deed in the history of the county.

GERMAN SECRET AGENTS CONFESS

Bombs to be Attached to Propellers of Steamships.

WOULD BLOW UP SHIPS CARRYING WAR MUNITIONS TO ALLIES

Five Men Charged With Conspiracy to Violate United States Federal Code.

New York — Details of a plot to hamper the shipment of munitions of war to the allies by placing clock-work bombs on the propellers of passenger ships so timed that the ships would be disabled on their way across the Atlantic, were disclosed Monday in the confession of one of five men charged in a complaint filed with a United States commissioner with conspiracy to violate a federal statute.

Following upon the confession of Robert Fay, a lieutenant of the Sixteenth Saxony Infantry, who admitted that he came to this country last April through an agreement with the German secret service to blow up or delay steamers laden with war supplies for the allies, William J. Flynn, chief of the secret service, Monday night filed before United States Commissioner Houston, a complaint in which not only Fay, but four other men are charged with promoting the conspiracy. The hearing on the federal charge was set for November 4.

Fay confessed that, while on the battlefield, he talked with his superior officers about a device to blow up passenger ships by means of clock-work bombs and carrying his scheme through was well received by the German secret service, that he came well equipped with money to act on his own responsibility and that he talked with Captain von Dapen, military attaché and Captain E. Boyd, naval attaché of the German embassy, about the plans, but they refused to have anything to do with it.

The confession of Fay, who said he had been decorated with the Iron Cross for fighting in the Champagne district in France, covers his arrival in the United States on April 23 last, his making of clock-work bombs since then, and his activities in experimenting with explosives along the coast. Quantities of acid in the room occupied by Fay and Walter L. Scholtz in Weehawken, N. J., and boxes containing clock-work bombs, each containing 150 rounds of dynamite, were found in a boat house on the Hudson, had been found after discovery of the plot by the United States secret service.

HALLOWEEN DINNER

Regerson Cafe Will Celebrate Saturday and Sunday.

Mrs. Artoth, manager of the Regerson Cafe is making great preparations for an unusually fine dinner on Saturday and Sunday evening in celebration of the Halloween season. The Alhambra orchestra has been secured for the occasion and everything will be done to make the evening pleasant for the guests. Those desiring reservation of tables should notify Mrs. Artoth.

TWENTIETH CENTURY CLUB MEAS

The Twentieth Century club is to meet at the State Federal of Women's club next October. This gathering will bring a large number of the most prominent women from all over the state to Twin Falls. In order to raise money to defray the expenses of their entertainment, the Twentieth Century club has planned monthly parties for this winter.

The first party will be held on Friday afternoon, October 26, from 3 to 5 at the instance of Mrs. W. H. Norton and Mrs. W. H. Norton. All ladies of the city are invited to attend.

REVENUE NEEDS FORCE CHANGE

President Wilson Now Favors Duty on Sugar and Wool.

Washington — Little by little the Wilson administration is admitting the failure of the Underwood tariff bill to revenue producer, and little by little the administration, in the quest for more revenue, is favoring changes in that law which will make it more of a protective law than was originally intended. How far the president ultimately will go in recommending tariff changes no one knows and he himself probably will not determine until shortly before congress convenes, for not until then will the administration shape up its revenue policy.

When the Underwood tariff law was before congress President Wilson laid stress on two things—he demanded that sugar go on the free list, and that all duty be removed from wool. And it was solely because of this demand that sugar and wool were placed on the free list. Even Representative Underwood, chairman of the ways and means committee, advised against this step, contending that sugar and wool should bear their share of the cost of government. But Mr. Underwood, along with others, surrendered.

Believes He Erred.

The president now seems to have reached the conclusion that he erred when he recommended a duty on wool and sugar, for he has formally declared in favor of repeal of the free sugar clause, and to recent wool tariff. Wool prices in the United States are abnormally high, notwithstanding wool is on the free list. The European demand for our wool is completely closed; often, as Mr. Underwood has said, the price of wool is abnormally low; many lumber-mills have completely closed; often, as Mr. Underwood has said, the price of wool is abnormally low; many lumber-mills have completely closed; often, as Mr. Underwood has said, the price of wool is abnormally low; many lumber-mills have completely closed.

REPORT WORK ON BEET ACREAGE

Encouraged by Results of Geo. Hartan's Work.

TWENTY-TWO HUNDRED ACRES SECURED THROUGH CAMPAIGN

Will Increase Field Force in an Effort to Close up More Contracts With Ranchers.

The result of the three weeks' campaign for sugar beet acreage was reported to the commercial club members Monday evening by George Hartan, who has undertaken the required amount of contracts to get the factory. Mr. Hartan reported twenty-two hundred acres secured in addition to the contracts already in force on this tract which have been shipped to the Bunker factory.

About fifteen hundred acres more will be needed to make up the five thousand required by the sugar company. Owing to the shortness of the fall season and the possibility of stormy weather it was deemed advisable to put additional force into the field to close up the campaign.

DEATH OF ESTIMABLE LADY

Mrs. C. L. Longley Passes Away After Long Illness.

The many friends and acquaintances of Mrs. C. L. Longley were shocked Saturday of last week by the news of her death as the result of long illness. She was 78 years of age. The death of the estimable lady has cast a deep gloom over the entire city. She was a devoted wife and mother, and was well known in the community. She is survived by her husband, Mr. Longley, and several children.

The funeral will be held from the Episcopal church of this city Wednesday afternoon at two-thirty, after the arrival of the son from Minnesota. Mr. and Mrs. C. L. Longley have been residents of this city for the past four years and during that time have done many true and loving things which speak volumes for their worth to the community. While never in the best of health, the deceased had a kind heart and a gentle nature, and the sympathy of the many friends is recorded.

Helen Elizabeth Phillips was born near Detroit, Michigan, April 9, 1859, and came with her parents to Grinnell, Iowa, in 1883, and thence to Mt. Vernon, in the same state, a few years later, and was there married to C. L. Longley in December 1887. Her home was in Tipton, Iowa, from marriage to 1891; later, for a year, in Seattle, in Washington, and thereafter in Twin Falls, Idaho, where she died. She was a devoted wife and mother, and was well known in the community. She is survived by her husband, Mr. Longley, and several children.

CAR FOR CHILDREN'S HOME

Exact Date of Leaving City Will Be Set in Near Future.

The management of the Idaho Children's home, is planning to have a car loaded for the home some time in October, the exact date to be set in the near future. The car will probably leave in November. V. H. Ormsby, probation officer of Twin Falls county, will assist in getting the car loaded. The car will be used for the children's home, and will be a very valuable asset to the home.

ALL RECORD BROKEN

Washington, Oct. 25.—The record for the longest time a man has been in the United States without being arrested, was broken by a man from the city of New York.

The man, who is 78 years of age, has been in the United States for 10 years without being arrested. He is a very quiet man, and has never been in any trouble with the law. He is now living in the city of New York, and is very well known in the community.

A WELCOME INSTITUTION

The rest room which is being fitted up by the women of the Federated Rural clubs is not only a place where the women who must have some place for rest during shopping trips, but should also have the consistent support of the merchants, who will profit by the trade of the ladies. The rest room proposition is one that has been tried with varying degrees of success by the local merchants, but does not allow the privacy which is desirable. There is no question but what the rest room as

planned will grow in popularity as its convenience to the shoppers is manifest.

SERVICE

In every community, in every social center, a man of woman's value to that community or center should be measured by the service performed. This is true in every unit of the world's social existence, but is often overlooked for the reason false values are times depreciate or greatly exaggerate the service rendered. The big bombastic individual who is forever prating about his ability and accomplishments like the brass band, some times gets the plaudits of the crowd. His blowing of the horn of self esteem will confuse the public mind for real values. There are in the average community men who by reason of their own aspiring efforts get into the limelight repeatedly until they are called leaders. By reason of the reiterations of their prominence and a readiness to dominate the community, they create a false impression of their value to the community. There is too much tendency for the average intelligence to take nerve for merit.

As a result there are in every community men of sterling worth who

never get credit for the every day service to the community. There are the men, who, according to their wealth, give more lavishly than the richest. Men who are making life better for all unaccompanied by the brass band. They are men with firm convictions, but with no noisy demonstration of superiority. Let us not forget the men of that the most occupants of the limelight space who are giving real service. Some of them are not like covered until death shows the lack to the community. Many of them because of reticence never get credit for service. It is a funny world anyway, and a world revolving about false values and throwing the real substantial value into the shade of eclipse.

TALKS ON THRIFT

No. 9—EMPLOYEES' SAVINGS ASSOCIATIONS

"There's nothing like a bank account to develop spunk."—E. K. Woolley.

The Guaranty Club, the membership of which consists of the employees of the Guaranty Trust company, of New York, conducts a Thrift Department as an important part of its organization. Its primary object is the encouragement of thrift. The department is governed by by-laws and its affairs are controlled by a Thrift Committee. It is the duty of the treasurer of the club to receive deposits from members up to a certain amount, and withdrawals are authorized upon thirty days' notice. Interest on such deposits is credited semi-annually. The Thrift Committee, which invests the funds, consists of five members. Its chairman is a member of the executive committee and the others, appointed by him, are men who have had valuable experience in various departments of the company, as, for instance in the bond, loan, and auditing departments.

Seventy-eight per cent. of the employees of a large publishing house in St. Paul are members of an Employees' Preferred Stock Association. The idea of the association is expressed in the application for membership, which reads:

I hereby apply for membership in the Publishing Company and agree to abide by the Articles of Association as they now exist, or as they may hereafter be amended.

I direct the cashier of the Publishing company to deduct from my salary \$_____ weekly, until further notice, beginning _____, said amount to be paid over to the treasurer of the association.

The money is to be used for the preferred stock of the company itself.

Another big printing establishment in the same city has a similar association except that the money does not go towards purchase of stock in the company but is deposited in a savings bank, and from time to time, when there is a fund large enough to invest in a good bond, it is withdrawn for that purpose. The object of this association is thus stated:

"To franchise the employees, to encourage habits of thrift and saving among them and others, by offering them a safe and convenient depository for their weekly or monthly savings and to secure for them a reasonable rate of interest thereon."

In Chicago, and many other cities, there are informal savings clubs among the officers and employees of various companies or institutions. Their simple and efficient plan is an agreement to save a certain amount weekly or monthly and deposit it in a bank where it will be safe and carrying interest while awaiting a larger opportunity.

The chief advantage of the savings associations as an aid to thrift is the fact that people like to do what others are doing, and many a man who would never save a cent "going it alone" can and will save when he has the example and rivalry of others to stimulate him.

T. D. MacGREGOR.

MICA FIELD IN CASSIA

Albion Men Locate Placer Claims Near City of Rocks.

Over in the southern part of this county is some mineral bearing land that is attracting some attention and may be worth thousands and thousands of dollars. It is located in the territory near the famous City of Rocks about 35 miles from Albion. Last week Frank E. Tremayne, and Matthew Tremayne made a trip there and located about 20 acres of placer ground, and in the near future will make a preliminary examination of the ground with the idea in view of development work. So far as is known it is not a gold or silver proposition, but is a mica prospect.

The locators are Albion business men and have had their eye on this ground for some time. They have secured sheets of mica from the surface that range in size around 4 by 6 inches, and it is believed that with development the property will be found to be very valuable in this metal. Mica in certain sizes is now worth between \$3 and \$4 a pound, and the larger the sheet the more it will bring. The formation is of peculiar character and can be easily worked.—Albion Nugget.

W. J. Sengel, manager of Lavering's theatre in Twin Falls, was in the city Monday between trains.

James Port, a prominent sheepman of the Oakley country, was in the city the first of the week on business.

Arthur L. Swin, of the firm of Swin & Aldrich, was in the city for a short time from Twin Falls this week.

D. H. Jones and H. Cunningham were passengers to Pocatello Sunday after a business visit to Buhl.

Alex Ghent was over from the north side for a day last week, laying in a supply of the necessities of life at Buhl's store.

Mrs. P. Woodmansee was a passenger to Pocatello Monday morning, where she went to look after business for a few days.

James Tompkins, a Heyburn resident, was in the West End metropolis last week looking over the town and the surrounding country.

L. B. White, who has been with the fruit pickers in the Buhl country for several weeks, left for his home in Twin Falls Monday evening.

D. E. Burkey and son were passengers eastbound Monday morning. Burkey senior, going to the county seat and the son to Kimberly.

Mrs. M. J. Turner came over from Twin Falls Sunday and visited until Monday evening at the home of her daughter, Mrs. Harry Eaton.

Mrs. W. E. Recob, who has been spending the summer on the George Earl farm west of Buhl, left for her home in Twin Falls Monday evening.

Lowell Newell, of Plattburgh, New York, has bought the G. E. Wilkey farm near the T. P. Bowley ranch and is at work on it. His family will arrive soon.

Mrs. F. O. Eison, who lives near Clear Lake on the north side of the river, left Monday morning for Los Angeles, where she will make an extended visit with a sister, Mrs. J. H. Garrison.

H. B. Tracy arrived in Buhl Tuesday of this week and will be the center of the local activity during the week. The rush of business, the regular local force not being able to handle the increase.

Mr. and Mrs. William Dunn came down from Montpelier Wednesday of last week to visit their son and his wife, of the Studebaker Brothers Company, leaving Monday for their home.

John M. Beck was in the city the first of the week from his home in Kimberly on business. Mr. Beck formerly conducted the Kimberly Meat Market in partnership with J. M. McBride.

M. Dayley, who has been with the Studebaker Brothers Company for several months, left Monday evening for Burley, where he will be with the same company for several weeks, when he expects to return to Buhl.

Mrs. S. E. Miller, who has been visiting her son, J. W. Miller at River Road for several months, left Monday morning for her home at Longmont, Colorado. She was accompanied as far as Minidoka by her son.

Mrs. L. A. Bliz and daughter, Wilma May, left Monday evening for their home in Portland, Oregon, after spending six weeks here visiting Mrs. Bliz's mother, Mrs. John Lindstrom, and other relatives and friends.

DEFINES FARMER'S DUTY

Irrigation Case To State Supreme Court, Company Wins.

The decision of Judge Walters of the Fourth Judicial District, in the case of Dolin Collins versus the Twin Falls North Side Land & Water company, in which the plaintiff sought damages for the loss of his crops through the alleged failure of the company to supply water, was reversed by the supreme court in an opinion handed down on Wednesday. The case was not back for re-trial on the ground that the judge erred in giving several instructions to the jury. The opinion was written by Chief Justice Sullivan and concurred in by Justices Budge and Justice Morgan.

The court held that if an irrigation company carries a proper head of water to a point within one-half mile from each quarter section under the project contracted to be watered it has fulfilled its contract so far as that requirement is concerned and it is up to the settler to construct his distribution ditches and headgates.

Collins asked heavy damages, alleging that the loss of his crops was due to the failure of the company to sufficiently raise the head of water in the ditches from which his supply was taken. The court held that the company was not responsible as the evidence showed that there was sufficient water in the canal, if the distribution ditches been constructed deep enough to make use of it, or had the plaintiff constructed the proper check to raise the water to a height sufficient to send it through his ditches.

It is the work of the settler, not the company, to construct a proper ditch and necessary checks, the opinion stated, and if he fails the aggrieved party, in this matter, he should have done the necessary work to save the crop and brought suit for damages later against the company.

"Where a party can save himself from a loss arising from a breach of contract at a small expense, or with reasonable exertion," said the court, "it is his duty to do so, and then he can recover such expense from the party liable and also such damages only as with reasonable endeavor and expense he could not recover from the State man."

How all ye thirsty, hungry, come to the Main avenue south of the river, just west of the city, and get your new lot of all kinds of goods, clothing, etc. at Mother's and Daughter's. Call on them.

MANY STORES STUNG

Numerous Business Firms in Gooding Fall for Bank Scheme.

The most versatile and accomplished swindler that has ever honored Gooding with his attentions closed a highly successful campaign last Friday and vanished. The man who had partially and played no favorites. He went right down the line, plucking right and left as a score of the leading business houses.

His name is S. D. Maxwell. He arrived at Gooding from parts unknown about six weeks ago and announced that he wanted to buy some land. The real estate man paid him considerable attention and gave him many free rides. Then he went over on Clover creek and contracted to buy half of the stock of the Bray Lake reservoir, which he proceeded immediately to change. The stock was to be paid for in the near future when a very wealthy cousin sent him the money. He employed George Baker and some others to work on the reservoir and the value of their labor amounts to \$300 or more.

On the strength of these active operations, smooth talk and frequent references to large remittances that were on the way, Maxwell established a credit with the business men. He purchased supplies for his Bray Lake force and numerous expensive articles for himself. In fact, he was quite a liberal buyer and ran up accounts amounting to \$40 and \$50 at some of the local stores. All of these accounts were to be paid about the 10th of this month, when his shipment of coin would arrive from the east.

Maxwell's final deal was the purchase of a second-hand Ford, which also was to be paid for on the 10th. On Friday he drove the Ford to George Baker's place, while the latter was away working on the reservoir, and brought in eight sacks of wheat, which were sold to the Gooding Mill & Elevator company, and Gooding has not seen him since. Any information concerning his whereabouts will be gratefully received by Sheriff Sanders.

On Monday one of the Clover Creek ranchers 'told' town to receive \$1800 that Maxwell had agreed to pay on that date for reservoir stock.

There is quite a sentiment among Gooding merchants in favor of doing business on a strictly cash basis—Gooding Leader.

THE BOY SCOUTS RALLY

Session Will Be Held Friday Night to Reorganize.

The boys with Mr. Macvear, assistant scoutmaster, had a great like and put in Friday and Saturday. A new constitution, new organization, new membership from Friday night. Every one who cares to be a scout will be drawn. Scoutmaster will mean much more from this time on, and with splendid help the work will be pushed with vigor. Future plans for the boys include a city swimming pool and a yearly state camp for scouts all over the state, likely at Guyer. Any boy in the city who would like to investigate or to try it should see the scoutmaster, Dr. Shepherd, or his associates, Messrs. Macvear and Leoney. Absence Friday night will cause a dropping of names.

(Washington dispatch to New York Times, in commenting on the G. A. R. Encampment.)

Every provision that could be made for the care and comfort of these old men has been most minutely arranged. The special police and the prominent Boy Scouts were instantly by the side of the old soldier who showed the slightest sign of needing help. The work of the Boy Scouts deserves the highest praise. They were everywhere, always alert to see or hear any call for assistance. They escorted fainting and sick women through the line of marching veterans and across the avenue to be taken to their homes or to a waiting ambulance. Long before physicians in the ambulance could be called, some well-trained young scout would be at the side of a stricken man or woman with his first-aid kit open and a needful restorative ready for use. Up and down the lines they ran with cold water for some fading old man who, in a few minutes would hearten up and get to his feet to take place in the line and tatter by the head.

All evil is some good gone astray. Much of youthful behavior is misdirected energy. Turn your boy toward the many, clean, worth-while life of a Boy Scout.

NOTICE

NOTICE IS HEREBY GIVEN, That the assessment roll for Local Improvement District No. 21, of the City of Twin Falls, Idaho, for the cost and expense of constructing a sidewalk in front of Lots 2, 3, 4, 5, 6, 7, and 8, in said district, was filed in the office of the City Clerk on the 18th day of October, 1915, and that the city council at its regular session on the said day fixed the 1st of November, 1915, at eight o'clock p.m., at the regular meeting of the city council on said date, as the time for hearing and considering objections to the said assessment roll, or before which said time the owner or reputed owner of any property which is assessed in said roll, may file with the City Clerk objections to the said assessment roll.

CITY

A Wonderful Showing of Dresses

Our early fall shipment of ladies' dresses was so quickly snapped up by the discriminating buyers of the Twin Falls tract that our stock was nearly sold out. But renewed orders have been promptly filled by the eastern manufacturers and we now have a wonderful assortment of street and evening dresses that are sure to please the ladies of this city and tract. We are very eager to show these superior garments at prices that talk right to your pocketbook. We know that if you will come in that the pretty dresses will make the sale.

Street and Afternoon Dresses

These dresses are made of popular materials, such as serge, taffeta, crepe de chine, velvet and combinations. In fact, in this assortment of dresses are pretty styles and good wearing materials and distinctive garments that will please any lady. They include:

Serge Dresses in some very exclusive styles, priced from \$7.50 to \$20.00.

Serge and Taffeta combinations, unequalled both in price and style. You should see them. Prices from \$15.00 to \$25.00.

Afternoon dresses of Crepe de Chine, which are stylish and pretty enough for party gowns. Distinctive designs, in just the kind of dress you have been looking for at from \$15.00 to \$30.00.

All taffeta dresses with that particular charm that only silk can give, made in styles that you will not find duplicated in this city, at \$15.00 to \$20.00.

We have also a varied and beautiful assortment of Silk and Velvet, all velvet and corduroy dresses that will delight the most fastidious.

Evening Dresses

The season for social affairs will soon reach its height and the ladies of this city will be preparing those party gowns that are so necessary to the peace of mind of the fair sex. We have them in ready made, beautifully finished and of very latest styles. We know that these beautiful creations priced at our usually reasonable profits cannot be duplicated for either material or price in this city. See them. Priced \$15.00 and up.

Suits of the Newest Fabrics

Here are some of the newest tailored suits on the market today in the latest of designs and newest fabrics. It is a mighty particular woman who cannot be pleased with out of these suits. We have them in any size from 15 to 46. We know that in the big stock we have your size and the style that will please. Priced from \$15.00 to \$30.00.

Bargains in Suits

We have a line of suits left over from last season not a great many, but suits that are serviceable and neat, of last year's styles. They are bargains. If you can be fitted you will find these unsupplied bargains. Suits worth up to \$25.00 at \$5.98.

Coats

A varied, and beautiful line that is right up to the minute for style, tailoring and fabric. We are proud of these coats made in plain weaves or in the basket and pebbled chevrons. They are handsome. They are warm and with a wearing quality of unusual degree. \$8.00 to \$35.00.

SKIRTS

The person who cannot be pleased with our big line of skirts, expects the impossible. We have them in Serges, Wool Poplins, Silks and Velvets. They are smart and stylish and in a dozen distinct lines and tailoring. You can find your choice in price or size. \$5.00 to \$12.50.

Skirt Bargains

A few discontinued lines, which we are selling at great reductions. You may be interested. Come and look them over.

Silk Petticoats

A varied line of silk petticoats in Taffetas, Messalines. These are the latest offerings from Dame Fashion, and include all of the new lines. They are popularly priced, too.

Sweaters and Sweater Coats

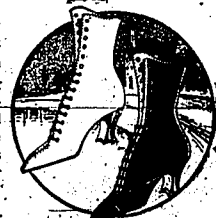

Our stock of sweaters and sweater coats has been recently augmented by large shipments, until we have one of the biggest and most varied lines in the city. A wealth of colors, designs and fabrics that are sure to please. \$2.50 to \$7.00.

Our Shoe Business is Growing—There's a Reason

With the sales in our shoe department steadily climbing higher each month, we are still shipping in to keep up the big stock every month. There is a reason why our shoe sales are growing. We have built up our reputation on shoes of value in lines that are built on merit. They are sold right. But above all we are fitting the feet of our customers. No pinching shoes to create corns and foot trouble.

No shoes in which the customers feet slip around, but purely comfort and freedom of action. Orders are coming in from the outside for duplication of a shoe purchased and fitted. Customers are telling their friends of Hart's shoes. The result is an ever growing shoe business.

HART'S

THEATRICAL NEWS

"AFTER THE BALL"

Six Great Reels at the Isis Theatre Friday Evening of This Week.

The management of the Isis Theatre is proud to present the comic of Twin Falls that has been motion picture to secure the thrilling motion picture play "After the Ball," a six part serial, to be shown Friday evening and one night only. The story is taken from the famous book of the same name and is full of the tears, cheers and laughter.

The management has also made arrangements to show the William Fox pictures each week after the first of November. The first of the series will be the "Little Gypsy," a picture drama which thrills and delights with a wonderful cast of Broadway favorites. Those who have seen the William Fox pictures have learned to know that when they see the name of Fox on a picture, they are getting something more than the ordinary.

THOMAS AND WRIGHT TRIO

Fine Vaudeville Turn at Orpheum for First Three Nights of Week.

For the first three nights of this week the Orpheum is offering an exceptionally good turn in vaudeville. The Thomas and Wright trio are soon to comedy, singing and dancing, featuring Miss Wright, the noted buck and wing dancer. The photo plays are "The Path of Peril" in chapter 16, of the romantic novel, "The Diamond From the Sky," and is one of the most interesting chapters of the series. A juvenile comedy, "The Kid Magician," is a dandy picture for the children, as well as the older people. "The Life of Polliwog" is a most interesting fisher life, showing splendid views of the ocean. There is also a fine Thanhouse comedy, "His Two Patients," making the program one of interest from start to finish.

LAVERING THEATRE NEWS

The drama "The Price of Fame," first of the "Who Pays?" series shown at the Laving Theatre Monday night was well worth seeing. Ruth Roland, a former silent star was featured and rendered excellent support by a most capable company. These dramas are out of the ordinary and deal with the great questions of life. They are a series but not a serial; each subject is complete in itself. The offering was very popular at the Laving on Monday night.

"The Maid of the Wild" is the feature attraction at the Laving for Wednesday night. It is a most interesting drama played amidst picturesque settings. It being a Pathé feature, the quality of the offering cannot be questioned. Two good comedies will complete the bill.

Mr. G. A. Tobey is now at the piano at the Laving and his excellent music is being greatly appreciated by Laving patrons.

"Neal of the Navy" starts Friday and Saturday. It is a genuine American drama, and it is not only exceptionally interesting but instructive as well. Every man, woman and child in Twin Falls should see this masterpiece because of its educational value alone.

Paramount Productions, the critics of all faults, are offering it will be offered twice each week at the Laving in the very near future.

"A PAIR OF SIXES"

Like all things which succeed, the title, "A Pair of Sixes," seems to be just the exact name to fit the supremely funny farce which will be seen at the Laving Thursday, October 28, with Oscar Figman and New York company. It refers merely to the incident in the play which caused two partners to disagree and start a fight of ten which is now being enjoyed by the country over. Beyond that, the title has nothing to do with what has been termed our great American farce and game of chance. Of course, a pair of hearts in the cast. She is a mighty big card and is probably the only instance where a lone queen beat a pair of aces.

Oscar Figman in "A Pair of Sixes."

The Laving theatre will have an attraction next Thursday evening, October 28, with Oscar Figman and New York company. "A Pair of Sixes," which has been anticipated with much interest, for it is now acknowledged the world over as one of the funniest farces ever seen on the English-speaking stage. It has been running for nearly a year at the Longacre theatre, New York, and it is the reigning success in the West. No play has ever received more unqualified praise for its bright and amusing story, clever dialogue and skillfully conceived situations. It is in three acts and is by Edward Peple, the well known author of "The Little Rebel" and "The Prince Chap."

The curtain rises on the office of the Eureka Digestive Pill company. It appears to be a nice orderly office where the attention of the company is first, until the two partners enter and begin to quarrel. The one, T. Boggs John, who runs to fat in figure, claims he is the owner and manager of the pill business, and the other, George B. Nettleton iterates and reiterates that he is by no means the "bone and fat" of the organization. They become all "hot up" and decide to dissolve. They call in their lawyer and quarrel again over the terms of dissolution which he proposes, until he finally suggests that they play a hand of show-down poker, the loser to become the winner. T. Boggs John loses and we next see him installed as the butler in Mr. Nettleton's household. His true position there is a secret to all but Nettleton, and it becomes particularly

embarrassing when his sweetheart arrives for his marital position for fear of the heavy penalties imposed by his contract. So matters worsen, he becomes the victim of an eccentric doctor who makes him her cap "tall hat" and she does not cease until the final curtain.

GEORGE WASHINGTON, JR.

Famous Musical Comedy Now Being Rehearsed.

The people who will appear in Geo. M. Cohan's lively musical play, George Washington, Jr., are now busily engaged in slightly rehearsal and the talent promises to render a surprisingly clever interpretation of the brilliant.

Many of the best voices of the city will appear in the song numbers and the orchestra is whipping "the score" into swingy style.

Revenue Needs Force Change

(Continued from Page 1.)

Influential woolmen in their constitution of law that there has been little direct pressure on the president to assent to a duty on lumber, although the trade commission has made considerable study of the lumber industry, and doubtless would not oppose a lumber duty if the administration should suggest such a thing. Indeed, it is quite possible that a majority of the commission would recommend a duty on lumber if given the opportunity to make a recommendation.

Redfield Opposed.

The trade commission is subordinate to the secretary of commerce. Secretary Redfield is opposed to any change in the Underwood tariff, or was opposed up to the time the president advocated reduction of a duty on sugar. About that, however, the secretary of commerce was not consulted and he naturally must accept the expressed view of the president. Because of the investigation made by the trade commission, for all practical purposes, a tariff commission and having taken that stand the president must consider the commission's report and recommendations, regardless of the views of Secretary Redfield. It is a conflict with the stages of the commission.

Talk of Protection.

It was only a few days after Secretary Redfield declared his opposition to any modification in the tariff that the president announced in favor of the repeal of the free sugar clause and took under consideration the placing of a duty on wool. This marked a difference has given rise to the reports of friction between the president and the secretary of commerce and also has led to talk of further changes. But there has been no specific indication that Mr. Redfield may be asked to retire, because he is not in accord with the president on this big topic. Secretary Redfield at least is consistent; it is the president who has reversed his position.

MANY SHEEP IN BUHL COUNTRY

One Hundred and Thirty Carloads Imported in Last Thirty Days.

According to the estimate of R. E. Ring, local agent of the O. S. L., there have been about 130 carloads of sheep brought into the Buhl country during the past thirty days, which will probably be wintered here. He said that there had been enough bands driven into this country from Iowa along the other side of the river to bring the total up to nearly 80,000 head of sheep. That is the estimate, besides the hundred to two hundred head which had been kept on the farms, and owned by farmers who are in the sheep business on a small scale. Mr. Ring did not give out the foregoing information

Orpheum Theatre

Monday, Tuesday, Wednesday

The Thomas and Wright Trio

Comedy, Singing, Dances, etc. featuring Miss Wright, a noted Lady Buck and Wing Dancer.

FOTO PLAYS

"THE PATH OF PERIL" Chapter 16, of the Romantic Novel, "The Diamond From the Sky."

"THE KID MAGICIAN"

A juvenile comedy, showing how the little children tried to imitate a magician, with sad but comical results.

"THE LIE THAT FAILED"

A near tragedy of fisher life, showing beautiful ocean scenery.

"HIS TWO PATIENTS"

Thanhouse comedy.

Doors Open at 7 o'clock, Continuous Show till 11.

Program of pleasing variety.

Solve the Mystery of the Romantic Novel, "The Diamond From the Sky."

These are the points to consider

1. What Becomes of the Diamond?
2. What Becomes of Esther?
3. What Becomes of Miss Stanley?
4. What is the Fate of Virginia Marston.

FILER NEWS

(From the Filer Journal.)

Harry Robinson has returned from Nebraska and will remain in Horman Torpita has commenced the erection of a new house on his farm west of Filer.

Charles Strout broke ground this week for his new house on the land he recently purchased.

The fire company have finished their new building and will have a splendid place to store their paraphernalia.

A. A. Timm is building a large sleeping porch on his house, also enclosing the dining room, and building a back porch.

Frank Fehrmann and Ward Blacklock are walking all the remaining lots in block 11, 6th west Main street.

Joe Kilpatrick is at Lava Hot Springs taking a bath for rheumatism, and reports from him indicate that he is getting much better.

There will be a Halloween social and program at Washington school, Friday evening, October 29th. There will be fun for all. Ladies bring box supper for two.

Two new dwellings are in the course of construction on west Main street. John Penney, yard man at Nibbel's, is building a house on the south side of the street and Frank George on the north side.

Work has been started on the basement of Ripley's hotel.

Mrs. Glenn, mother of Mrs. Hance, has returned from her visit to Childwell.

Mrs. W. W. Taylor and little daughter are visiting at the home of her parents in Keyesville, Mo.

Mr. and Mrs. Wilson, of Nebraska, visited here last week. Mrs. Wilson is a sister of the late F. P. Mosley.

Harlan Flier and Earl Walter are in Idaho Falls this week attending the session of the grand jury, I. O. F. A. Holmes has bought a Ford. Al is ready now to go any place in the country to do country work.

A splendid crew of men can now take care of any job that comes along.

A consent walk now leads to David Bros. barn. A very much needed walk. It might also be said, that Filer is pretty well covered by good cement walks. The past season has been an active one in securing walks all over town.

Don't forget that Halloween social at Washington school, the 29th. Ladies will please bring refreshments for two, as several young men out our way have expressed a desire to do with their best efforts on the occasion and we hate to see them disappointed.

Hudson Bros. have just completed a residence for S. D. Taylor on his ranch southwest of Filer, this we understand, is one of the best bungalow ranch residences on the tract.

These gentlemen have just taken the contract for two more fine bungalows, being those of Emil Lerman and Carl Lerman, on the High Line Seed Farms.

Among other things, these contractors have built are those of Grover Beeson on Yakima avenue; Mrs. Hanger's new residence on S. D. Taylor and other smaller jobs. S. D. Taylor, for whom they have just completed a bungalow, is saying things about them which are very commendable in reference to their integrity and workmanship.

Saturday evening as Chas. W. Turner, varolenceous of Filer depot, was bringing the mail up to the postoffice he was attacked at the corner of the lumber yard by a man who was known by Bill Main, the fellow who has been giving boxing matches here.

After Turner was down he struck him several times, hitting on the head. The following Monday Main was arrested for assault and battery and appeared before Judge Lipley in police court, where he pleaded guilty and was fined \$25 and costs, making a total of \$32.50 which he paid.

We understand this does not dispose of the case, as Uncle Sam will not tolerate any interference with the men intrusted with the mail. There is plenty of law in this country to take care of such a case.

Uncle Sam has a grievance against another with out taking the matter in their own hands. What Main's trouble with Turner was, we do not know, but we do know that he settled it in the wrong way. Charles Turner enjoys a splendid reputation with everybody who has had business with him, and he is so far as we have ever heard.

A very enthusiastic meeting of farmers and business men was held in the school house last night with reference to the movable school and the county fair propositions for Filer.

About sixty persons and those who were there had the pleasure of listening to some very able talks on the benefits a community receives in the educational, financial and social side of life by having this school and fair especially pleasing and timely were the remarks of Mr. Gifford.

Horace Adkins, field editor of the Rural Spirit, an agricultural paper published in Portland, was present and gave a very interesting and instructive talk on what a county fair really means to a community and what they have done in various places throughout the country.

The general sentiment was in favor of the county fair and the exact date of the movable school will be announced through the columns of the Rural Spirit.

The following resolution was adopted: "Resolved that the farmers and business men of Filer hereby extend to the Twin Falls Commercial club and the commissioners of Twin Falls county a unanimous vote of thanks for their action relative to the proposed county fair."

DISSOLUTION NOTICE

Notice is hereby given to the public that the partnership heretofore existing between E. S. Minnerly and A. Erickson in the Central Auto Company has been dissolved by mutual consent. A. Erickson continuing the business in another partnership. All accounts due the above firm before the transfer of ownership should be paid at once. Those knowing themselves to be indebted to the firm are requested to pay up promptly and save collection costs.

E. S. MINNERLY,
A. ERICKSON.

RESOLUTION BY THE CITY COUNCIL

A Resolution of the City Council of the City of Twin Falls, Idaho, regarding a Tentative Proposal of said City to Purchase the Waterworks System of the Twin Falls Waterworks Company, Limited, located in the said City of Twin Falls.

WHEREAS, certain officials of the City of Twin Falls have been authorized by the City Council to make a tentative proposal to the officials of the said Waterworks Company in an effort to arrive at such price and terms as may be deemed advisable for the purchase of the said waterworks system and to make such proposal to the citizens and taxpayers of said City; and

WHEREAS, the result of such negotiations has brought about an approval of the Water Company of such price for its plant and such terms of payment as the majority of the said Council believe will be ratified by the electors of said City;

Now, therefore, it is resolved by the City Council of said City of Twin Falls, that an offer be and the same is hereby made, by said City to said Twin Falls Waterworks Company, Limited, for the property and waterworks system of said last named corporation located within and near the City of Twin Falls, subject to ratification by the qualified electors of the said City of Twin Falls to be expressed at a special election to be held for that purpose, as follows:

1. Said City, upon the acceptance of this proposal in writing, shall have and be deemed to have accepted the said Waterworks Company, in consideration of a compromise of the differences and controversies existing between said City and said company, to purchase at any time within six months from the first day of October, 1915, the system and property of said company, hereinafter described, for the sum of eighty thousand dollars, or to purchase the same at anytime within a period of four months from said first day of October, 1915, for the sum of eighty-two thousand five hundred dollars.

2. It is agreed that the Waterworks Company shall operate and maintain said system as now being operated and maintained until said plant shall be taken over in conformity to one or the other of the two options above mentioned and shall have and retain all the earnings and receipts therefrom, that is to say, if the said City elects to accept the option to purchase under the first period of six months from said first day of October, 1915, the said company shall have all the earnings and receipts for the full period of four months from October first, 1915, and if the said City shall elect to accept the option to purchase under the six months period, said company shall have the earnings and receipts for the full period of six months from said first day of October, 1915, it being understood that the Waterworks company is not required to turn over the plant until it shall have received the full purchase price.

3. If said Waterworks Company shall elect to accept the option to purchase as aforesaid, said City shall call a special election as soon as may be conveniently done, looking into consideration the care necessary to be taken to comply with legal proceedings, to ratify or reject this proposal and to authorize the sale of bonds in said City sufficient in amount to pay for said property and to build such additional plant as may be necessary to repairs and betterments to the present system as may be necessary.

4. That if the electors of said City shall ratify this proposal at the election so to be held and shall authorize the issuance of said bonds, and said bonds shall thereupon be issued in full payment of the purchase price, and shall be and become a valid and binding obligation to said City, free from controversy, the said Waterworks Company shall bid upon such an amount of such bonds at par as shall be sufficient to cover the sum to be paid it by the said City upon the purchase price, said bonds bearing, in coupon, interest at six per cent per annum, interest payable semi-annually.

5. Said bonds shall be bid in at a better price to the City than the bid made by said Waterworks Company, and a sufficient amount of bonds be sold under such other bid to pay the purchase price of said property and the money shall be received under such other bid, then the said City shall pay the cash received from the proceeds of such other bid to said Waterworks Company to the extent of the purchase price, but no better bid is made than that of said Waterworks Company the purchase price shall be paid in bonds at par, bearing interest at six per cent semi-annual interest.

6. The property which shall pass under the sale proposed herein shall be all right, title or interest owned or claimed by said corporation in and to all franchises, water, water rights, lines, tools, implements, rights of way and easements and any and all property of whatsoever kind or nature or wherever situated owned by it or in which it may have any right, title, or interest, except its cash on hand, accounts, past earnings, choses in action

and all earnings to be acquired by it during the pendency of this option for the purchase of said property up to the end of the four months next ensuing period, as the case may be, it being understood that the Waterworks company has not and now has no interest in any part of the Buena Vista Addition.

6. The Waterworks Company shall pay such proportion of the taxes for the years 1915 and 1916, as shall be represented by the portion of said years during which it shall own the said plant and the said City shall pay the balance of the taxes for said years.

7. The property shall be turned over to the City free and clear of all mortgages, liens or other encumbrances. The City Council shall by appropriate action and so far as it may legally be done, pledge the net income from the operation of the water system to the payment of principal and interest of the bonds.

8. It is agreed that the City shall waive all claim it may have against said waterworks company for the damage to and the subsidence in the Buena Vista Addition, Block 132 and Lots 28, 29, 30 and 31, in Block 131 in the said City on Shoshone street and between third and fourth corners east and south of said City, and it is also agreed that in consideration of such waiver by the City, said company shall release the said City and Twin Falls Independent School District No. 1 for water furnished and unpaid for the same.

9. It is agreed that upon the acceptance of this offer, subject to ratification, by said Waterworks Company, the City of Twin Falls shall take such steps as are necessary to hold in abeyance the proceedings now pending before the Utilities Commission of the State of Idaho under a petition of said City for a Certificate of Necessity and Convenience to build its own waterworks.

Passed by Council, October 14th, 1915.

Approved by Mayor this 6th day of October, 1915.

E. M. SWERLEY, Mayor.
Attest: REESE M. WILLIAMS, City Clerk.

WASHINGTON LETTER

Washington, D. C., Oct. 24.—Another session of the House has been added to the Democratic score.

The law to prohibit future trading in cotton, enacted last year, has been declared unconstitutional by a federal court.

A violation by congress of one of the simplest rules of making is the basis for the decision. The constitution directs that all revenue measures must originate in the house of representatives. This cotton tax law originated in the senate. By its title it was "an act to tax dealing in cotton," etc. It has produced revenue.

A plainer case of legislative botchery is hardly conceivable. The court said it could do nothing but pronounce the law void.

The decision unmercifully flays the Democratic Congress for its slovenly methods.

"The act falls into the class of measures void because of the unworkable manner in which Congress used the power provided by the constitution," said the majority of the court.

"Congress did something in such a slovenly manner that (to be effective) it must be done over again."

"The constitution requires that all bills for revenue must originate in the house. It is not seen how this act can be regarded as revenue furnished by Congress itself."

A more humiliating fiasco than this Democratic experiment with the cotton industry has been scarcely imagined.

For years there has been constant agitation on the subject. It culminated in a tremendous demand in the last Congress for legislation to regulate the cotton market. Dramatic appeals came from scores of national law makers from cotton producing centers.

"Unless you enact this law," declared Representative Lever, of South Carolina, House sponsor for the bill, "our people will go on suffering an annual loss of one hundred millions of dollars."

Impassioned orators halted the writing of the statute as the nation's salvation, and pictured its defeat as a "knife thrust at the throbbing heart of the South." Yet in almost the same breath they voted for a bill the very title of which proclaimed its worthlessness.

The machinery of law making is not a mere plaything. It is a powerful instrument controlling national destinies. Public welfare must be the basis of operation. Should not be entrusted to those who over and over again should have demonstrated their utter unfitness for the responsibility.

INVESTMENT

3-room modern house, 1 1/2 blocks from post office, rent to suit, \$15.00 monthly. \$1000.00, terms, acquire at Times office. Oct. 1 15.

A clearing house of building ideas for the prospective home-builder.

—that correctly describes our lumber office, and especially so for the man who wants a combination of attractiveness and moderate cost in his new home.

A few minutes spent in looking over our "Cottage Home Series" of Customers-Aid Plans, may readily prove worth your while.

These Customers-Aid Plans are what their name implies. They do not attempt the completeness and thoroughness available from the professional architect.

—but they will help you to get your ideas carried out by either your architect or your contractor.

And the service costs you nothing.

Ten thousand dollars for a suggestion! Any man, woman or child, regardless of literary ability or "quality." There are no strings attached. All one has to do to win is to write a suggestion for a fitting sequel to "The Diamond from the Sky," the North American Film Corporation's \$800,000 pictured novel.

SOLVE THE MYSTERY OF THIS ROMANTIC NOVEL.

There are the points to consider:

1—What becomes of the Diamond?

2—What becomes of Esther?

3—What becomes of Blair Stanton?

4—What becomes of Vivian Marston?
