BUHL NEWS

(From the Buhl Herald)

The executive committee of the Buhl Auto club met the first of this week and adopted the constitution and by-laws for the organization, an had been recommended at an earlier meeting, and as had been discussed by those who are interested in such an organization. The club has practically been organized for the past several weeks, to the extent of a temporary association, though the formality of adopting the constitution and by-laws was delayed, pending the ratification by the members of the Buhl Business Men's association.

The first donation work for the good roads days that are to be carried on the roads within the townsite, and on the electric highways leading to the four corners of the Buhl townsite, was that done by Bob Barnwell and Eunice Campbell on the two streets, Saturday, / Barnwell and Eunice Campbell donated their big tractor engine and donated the labor, and Eunice Campbell operated the Buhl highway district grader, donating his labor. The work which the men did last week demonstrated what could be accomplished if the people will co-operate when the weather justifies setting aside a day for everybody to help with the work.

Carl Murphy, the young son of Mr. and Mrs. J. D. Murphy, figured in a thrilling incident Tuesday afternoon, one which came close to costing him severe injury. He had driven a small black horse to Buhl for some groceries. As he was starting for home one of the buggy shafts broke, frightened the animal. Running, with the lad hanging on to the ribbons and staying like a veteran, the frightened animal for a few minutes threatened to break loose and follow his mad impulse to run. But the driver pulled into the ditching track just off Broadway, effectively bringing it under control.

Preparations are being made to begin actual construction work on the new building to be occupied by the Buhl Furniture House, and within six weeks it is thought the building will have been completely finished, the old store remodeled to some extent and the concern ready to open on a much enlarged scale. The addition is to be 25x35 feet, fireproof construction and modern in every respect. A fine heating plant is to be installed in the basement. The front is to be taken out of the older building, and steel and plate glass fronts of the latest types will be installed.

E. H. Pugh, the pioneer jeweler of Buhl, has purchased the Quality Jewelry store of J. D. Carlson, who bought the interests of F. B. Carlson the first of the year. Mr. Pugh has taken possession and has combined the two stores in his fine store in the Miller-Perrine building.

W. L. Squires, who has been interested in the publication of The Buhl Herald since 1910, as one of the editors, took a month's leave of absence Saturday, and went to his home in Nebraska. This is the first time that he has taken a vacation from the office for the past three years, and then but for a two weeks' stay. Mr. Squires expects to be back about the first of April. In the meantime he will enjoy an earned vacation. V. J. Amest, of Twin Falls, arrived Monday to the work of printer on The Herald during Mr. Squire's absence.

Emigrants who have purchased land on the Clover settlement are arriving from Nebraska this week, and more are expected to come in time to plant in a crop when the spring season opens. Several of the cars have come to Buhl to unload, one of whom was W. R. Hagler, of Dawson, Nebraska, and he was met by a half dozen teams from Clover settlement. They helped haul his goods out from here, so that they could all the better start their trip. There were ten wagon loads of household goods and farming implements.

At a meeting of the cream producers Monday afternoon in the commercial rooms for the purpose of perfecting plans of the association, the question of forming a stock company of the interested farmers, and erecting a cheese factory to handle the cream of the territory to the north and west of Buhl, was proposed, and it resulted in a call for another meeting which will be held in the commercial club room Saturday afternoon, at 2:00 o'clock, when the cream producers will determine what action they will take in that line.

The flower clear store is undergoing a change this week and has been for the past several weeks, by having new fixtures, including a new counter, a soda fountain, and a soda fountain which the management expect to have in operation by the last of this week. The secretary of the Buhl commercial club will conduct an employment bureau at the commercial club rooms, getting help on the farms, and also help those seeking employment to find a location.

DISCUSS CLUB PLANS FOR COMING YEAR

Twentieth Century Club Held Business Session Tuesday Afternoon To Discuss Coming Year's Work.

"Purely business," was the slogan at the Twentieth Century club meeting last Tuesday when matters of utmost importance to the club were discussed. During the transaction of routine business the "What To Do" committee reported that an eight-foot evergreen tree had been purchased and would be planted in the park to be used at some future time as a municipal Christmas tree.

Previous to the coming election of officers a new law of the club provided for a nominating committee and the following were chosen: Mrs. W. E. Pike, Mrs. E. W. McRoberts, Mrs. C. Schrader, Mrs. H. Alexander, and Mrs. Willet Hance.

Judges—Mrs. S. T. Murphy, Mrs. A. W. Husted, Mrs. V. H. Ormsby, Mrs. J. R. Hall, Mrs. M. G. Ripley.

Mrs. M. J. Jewell and Mrs. Mary Norton were chosen as delegates to the national federation, which meets in New York in June.

On motion the appointment of ten delegates to attend the state federation was left to the president, who will announce the names of the delegates at next week's meeting. Also the delegates to the district federation.

Before taking up the discussion of next year's work the president called on Mrs. Ernest White to read some pithy paraphrases most appropriate to the spirit of the occasion, following which Mrs. D. E. Regan urged the necessity of a deeper interest in music, not only in the club, but throughout the city. She cited the work that is being done by clubs in other cities along the line of musical achievement and expressed her regret that Twin Falls has done so little. The only thing our city can boast of so far as musical organizations are concerned is its band, which has been accorded first place among the bands of the state.

HOW APPENDICITIS CAN BE PREVENTED.

Twin Falls people should know that a few doses of simple buckhorn bark, glycerine, etc., as mixed in Adler's, often relieve or prevent appendicitis. This simple mixture removes such surprising foul matter that ONE CASE OF APPENDICITIS relieves almost ANY CASE—constipation, sour stomach or gas. A short treatment helps chronic stomach trouble. WESTEND PROSPECTS FLOWERY

"Things were opening up in Buhl just like a well developed rose opens in the summer time," was the manner in which James Machacek, a citizen of that city described things in his part of the country Saturday.

Looking to the advancement of civic conditions, attention was called to insufficient lighting of the park and faulty conditions of the band stand. A committee consisting of Mrs. H. W. Clouche, Mrs. Robinson and Mrs. Drake was appointed to interview the council with a view to having more lights placed in the park and the lower part of the band stand enclosed.

Mrs. C. Drake, leader for next week, announced that "Grandmother's Way and Ours" will be the subject for the 14th, when among other features of the program, members will listen to a quartet by grandmothers. Mrs. J. C. Beatty will also read a paper. At the close of the meeting tea was served by the refreshment committee and a social time enjoyed.

Puff your way into the joys of Prince Albert!

Go ahead, quick as you lay in a stock of the national joy smoke! Fire up a pipe or a makin's cigarette as though you never did know what tobacco bite and parch meant!

For Prince Albert is freed from bite and parch by a patented process controlled exclusively by us. You can smoke it without a comeback of any kind because P. A. is real tobacco delight.

ALBERT

the national joy smoke

will do for you what it has done for thousands of men, not only in the States but all over the world! It will give you a correct idea of what a pipe smoke or a home-rolled cigarette should be.

Get this Prince Albert pipe-peace and makin's-peace message, you men who have "retired" from pipe and cigarette-makin's pleasure; you men who have never known its solace! Because you have a lot of smoke pleasure due you quick as you pack-your-pipe or roll-a-cigarette with P. A. and make fire!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

On the contrary, all of those who have tried the Prince Albert pipe-peace and makin's-peace message have made it their own smoke pleasure and have made it their own smoke pleasure.

(From The Filer Journal)

W. R. Bolger and wife of Boise, are recent additions to Filer. Mr. Bolger is a jeweler and has taken a position as "manager" with the Filer Pharmacy. Mr. Bolger is a cousin to Mrs. Shaffner. Word comes from Pocatello that "Grandmother's Way and Ours" will be the subject for the 14th, when among other features of the program, members will listen to a quartet by grandmothers. Mrs. J. C. Beatty will also read a paper. At the close of the meeting tea was served by the refreshment committee and a social time enjoyed.

Six elegant cars arrived here from Nebraska last Monday. The cars contain the goods of Messrs. Hagler, Dean, Meyer, Liermann, and Wm. and Arthur Warner, all of whom with their families will locate at Clover. The city marshal has done a good job of trimming the trees that line every street in town. Filer's trees are a big asset, and everybody in town is desirous of seeing them get the best possible attention.

It pays to advertise. Last week the Journal ran a little ad. from a mother anxious to locate her boy. At 8:00 on the paper was out on the routes the boy was located. He is working for Claude Whinnery and got a little careless in his correspondence, consequently an anxious mother desired to locate him.

Tuesday afternoon at 4 o'clock Mrs. Dwight entertained at an informal tea in honor of Mrs. Watson of Twin Falls and Mrs. C. K. Costello in the parlors of the Filer Pharmacy. The following ladies were present: Mesdames Shaffner, Truitt, Costello, Moore, Plerce, Riley, Schiffman, Watson and Tanner.

Geo. Truitt has purchased the Carman house now occupied by Mr. Reeves, who will lease the new house now being built by John Blase. Mr. Truitt will make some changes in the property before he occupies it. This is one of the best located dwellings in town.

RABIES INJURES MEAT

ONLY WHEN DEVELOPED

Dr. Henderson Explains Why He Held That Douglas Herd Could Be Sold—No Proof That Hogs Were Exposed.

"The meat of animals bitten by rabid dogs or coyotes is not affected thereby before the disease has developed," said Dr. L. C. Henderson Friday, commenting on the fact that he had advised T. J. Douglas that he might sell the hogs, which the owner supposed had been exposed, for immediate slaughter. "There is no incubation period of incubation for hydrophobia and until it has manifested itself and the animal becomes sick as a result, its flesh is not infected. Therefore, it is unfit for human food, and the flesh of any sick animal is unfit for human food. I want to be understood on this point. In the case of Mr. Douglas there is no reason why the hogs should not be sold. In the first place, there is no proof that the dog bit any animal. In the second place, there is no positive proof that the dog was mad. In the third place, the hog—when subsequently showed signs of being sick and which Mr. Douglas killed on suspicion that it was affected with hydrophobia, might not have been infected with that disease but might have been troubled with indigestion. There was therefore no reason to assume that any of the hogs were affected with rabies and no more reason for holding up the herd and prohibiting its sale than for holding up any other herd on the ground of suspicion that some animal in it might have been bitten.

TWO BOYS ARRESTED FOR TAKING AUTO AT TABERNACLE GROUNDS
Floyd McDougall and Will Herbat were arrested Monday on the charge of having taken the Humphrey automobile from the tabernacle, Sunday night, and run it into the country and left it sticking in a mud hole. The boys were brought before Probation Officer V. H. Ormsby, who let them go on their own recognizance. Many pranks of this kind have been played recently by boys and even men about town, to the inconvenience and loss of those owning the vehicles. The officers have determined that it must stop and announce that hereafter anyone taking away an auto will be arrested and

NOTED PRE-CHAUTAUQUA LECTURER COMING

Dr. Charles Zuehlke of the University of Chicago, and Famous Author to Speak Here in May.

In a letter announcing that the tentative dates of June 19 to June 25 for the holding of the chauteauqua had been made permanent, the Elliston-White lecture bureau also announced that Dr. Charles Zuehlke of the University of Chicago, the noted civic revivalist, lecturer on literature, education and life and author of a number of books on democracy, municipal affairs and kindred subjects would speak in this city about a month before the opening of the chauteauqua. The announcement was received with pleasure by the local committee on account of the fame and the unquestioned ability and popularity of the speaker.

The date and subject for the lecture has not yet been announced, but arrangements will be made to have it thoroughly advertised.

HOGS CLIMBING UP ON THE MARKET

Portland Shows Higher Prices—Sheep Still Commanding Good Money and Cattle Market Excellent.

The few hogs cleared an other ten-cent price, making the top \$8.40, says the Portland Live Stock Reporter Thursday.

Tuesday's receipts were 650 head. For the main part they were light and bulk sold at \$8.25. The quality was not as good as the best Monday.

Wednesday the receipts were somewhat smaller, nearly all of them were quality offerings and sold at \$8.30.

Thursday the receipts were light-

less than 300 head on the early market. The general tone of the market is very strong and not nearly enough hogs are coming to supply the demand.

Chicago has been a very important factor in the market right along. The many buyers causing exceedingly interesting competition.

One of the features of the market is the absence of prime heavy hogs. All the prime offerings are of the light-weight class. General quotations are: Prime light \$8.40; prime strong weight, \$8.30; good to prime mixed \$7.25; rough heavy packing \$7.00; pigs and skips, \$7.00.

The receipts are very light again—or yet. Hardly enough coming over the unloading docks to "wad a shot-gun staff," begins to come in. There has been practically no receipts except a couple of thousand brought in direct to a local packer.

After lambing and shearing the sheep market has been in a better position regarding receipts. At the present time there are practically no sheep in fed lots that are ready, and won't be until about the middle of the month.

No lamb receipts or sales show Monday on the open market. Current quotations: Choice lambs \$8.30; good to choice lambs \$8.00; good to choice lambs \$7.75.

No butcher sheep receipts or sales show Monday on the open market. Current quotations: Choice yearlings, \$7.75; good yearlings, \$7.50; good yearlings, \$7.25; good yearlings, \$7.00; good yearlings, \$6.75; good yearlings, \$6.50.

Since Monday there has been practically nothing in the sheep division. Trade outlook is very good in this class. Tuesday there were a few fairly fat steers but lacked finish, they being tough and without any outstanding quality. They brought \$7.15 for eight head and \$8.50 for the balance.

They were considered to have been well sold at these prices. There were only a few steers today—valley offerings. Current quotations are: Choice grain and pulp-fed, \$7.00; choice hay fed, \$7.00; good, \$6.75; medium, \$6.50; ordinary, \$6.25; common, \$6.00.

There were around twenty head of ordinary cows sold yesterday from \$3.00 to \$5.50. Today there were only a sprinkling of butcher stuff of only fair quality. General quotations are: Choice \$6.75; good, \$6.50; medium, \$6.25; ordinary, \$6.00; common, \$5.75.

Present quotations for hogs are: Choice \$8.40; good, \$8.25; medium, \$8.00; ordinary, \$7.75; common, \$7.50.

The week so far has shown but a very few sales of bulls. There is no change in prices. Demand is keen for bulls of good quality. They should be smooth and fat. The receipts today were three dairy bulls of fair quality. Sales were made at \$4.00. General quotations are: Bulls—Choice, \$5.00; good, \$4.75; medium, \$4.50; ordinary, \$4.25; common, \$4.00.

Governor Urges People of the West to Patronize Western Industries

In a proclamation issued yesterday Governor Alexander asks the people of the state to patronize the products of the Pacific northwest, and, finally, purchasing goods made in the United States, endeavoring at all times to give the products of the state the preference, and because this movement has already gained impetus in Idaho.

"Now, therefore, I, Moses Alexander, Governor of the State of Idaho, do hereby proclaim and set aside the week beginning on Monday, the 30 day of April, and ending on Sunday, the 30 day of May, as Western Industries Week, and advise the careful observation of this period by all the citizens of the state, in order that the principles may be thoroughly inculcated and the result be a greater development of our home resources.

"In testimony whereof, I have hereunto set my hand and the seal of the great seal of the state to be affixed this 30 day of March, 1916.

"M. ALEXANDER, Governor
Attest: GEORGE R. BAKER, Secretary of State."

just now are pretty fair and the outlook very good for finished cattle.

Two cars of stocker calves were sold Tuesday by the head at a fairly good figure. They were shipped to North Yakima, Wash. General quotations are: Best selected, \$5.00 to \$5.50; good to choice, \$4.50 to \$5.00; good to choice, \$4.00 to \$4.50.

There has been a few calves since Monday. Today the full quality yearlings brought \$7.00 and some of the very poor ones as low as \$4.00. The market is very good for calves.

"I have always believed," he said, "that a druggist's first duty is to the health of his customers—I tell my people frankly that a safe, gentle, inexpensive laxative, such as SSKI, is kept in the home, will pay the largest dividends of any investment ever made. I recommend it as the best family laxative, because it is put up in tasty minty tablet form that appeals to men, women and children alike, and is as delightful and pleasing to take as it is healthful."

The Smoke of Men Who Win

A fresh-rolled "Bull" Durham cigarette almost says "Speed up!" right out loud. Keen-eyed, clear-headed young fellows smoke "Bull" Durham because it has the sparkle and the "punch"—the youthful vim and vigor. Every time you "roll your own" with "Bull" Durham you open the door to Hustle.

GENUINE

"BULL" DURHAM SMOKING TOBACCO

"Bull" Durham is unique among the world's tobaccos. It is distinguished from all others by its wonderful mildness, its delicious mellow-sweet flavor and its distinctive aroma.

That's because it's made of the very choicest of rich, ripe Virginia-North Carolina "bright" leaf—the smoothest and mellowest tobacco in the world.

You get a lively smoke and a satisfying smoke when you "roll your own" with "Bull Durham."

FREE

An Illustrated Booklet, showing correct way to "Roll Your Own" Cigarettes, and a package of cigarette papers, will both be mailed free, to any address in U. S., on request. Address "Bull" Durham, Durham, N. C.

Diamond Beauty Spot.

A New York man has taken out a patent for an artificial beauty spot for milady's cheek. It is composed of a jewel imbedded in an adhesive base which can be securely attached to the delicate place on the face. The idea is that a beauty with a diamond solitaire will look well blazing upon the blooming cheek of the season, and so give one more place for personal adornment. Will the engaged lassie of the future wear the "diamond solitaire" betrothal upon her face rather than upon her finger?

belt in somewhat broken accents. A period of general amusement and sociability stimulated by music from Fredman's orchestra, was begun and continued throughout the evening. It seems that Mr. Lyons has recently installed a gymnasium and athletic club at Cotton Hall and made a sort of opening exhibition for the entertainment of the guard. The first number of which was a catch-up-catch-can performance on the mat between Tio, Renzo and Geo. Harris. Both the boys were light-weight and would hardly be thought experts, but they were quite evenly matched, both were game and went for three falls with a zeal and zest that made real entertainment and brought hearty encouragement and applause. The first fall was won by Harris, but Renzo developed staying qualities and took the other two.

Mr. C. L. Longley then talked to the boys for some twenty minutes and was complimented by excellent attention although the position of his audience, standing or sitting on the floor, was not too comfortable. The talk consisted chiefly of reminiscences of his own military experience, far from being a real and effective soldier in the patriotic young volunteer who leaves the school room, the playground, the counter to "spring" to arms at the call of his country. Incidentally it was made enthusiastically obvious that however much war, the young guardmen did not favor a peace purchased at the price of National dishonor.

This was followed by a bout with the gloves between Dorman Rice, of Company D, and Jack Kirkman, who is now employed on one of the new buildings here after six years in the U. S. Navy. In announcing this, as in the case of the wrestling match, Mr. Lyons stated that it was merely a match for points and that no rough-

house tactics would be attempted or permitted. The real sporting spirit of this paper is on a vacation and his substitute is unable to give a technical description of this "scrap," discriminating property between "punches," "jabs," "coustings," "biffs," etc., but they were all on hand during the four very lively and quite even rounds of the encounter. Another mat match between Alexander and Putnam, both local boys, claimed attention and received much applause and although the latter secured two falls in succession and won the match, he found vigorous opposition at every turn.

The little bugler who blew the mess call at this juncture was very popular, and the coffee, sandwiches, pickles, pie, cake, etc., with which everyone was abundantly served, ruled the cheerful hour. The special train upon which Company K returned to Duluth was scheduled to leave at 11:30 and claimed its passengers at about the time the lunch had been disposed of, concluded the first of the social meetings of the two companies with a degree of success that should insure against its being the last one.

Heading the commanding officers of the companies, already named "K" was accompanied by 1st Lieutenant R. E. Stee and 2nd Lieutenant E. A. Landerson—white—1st—Lieutenant C. H. Krengel and 2nd Lieutenant Prater further represented Company D. The occasion was also honored by the presence of Lieutenant Colonel J. T. Henderson, of Arco, and Lieutenant Woodbury, of Idaho Falls; and I'm not going to forget that Company K brought along as one of its marksmen, Mr. C. Washburn, a man who not only served with Grant in the 86th Pa. Infantry in 1863, but stuck up to everything going, even qualifying as a marksman in the Idaho National Guard in 1916! Best that, if you can.

military has been held up.

Army officials feel bound to respect the word of General Carranza in American towns that, notwithstanding assurances from General Carranza's representatives, uprisings may follow the actual occupation of Mexican territory by American soldiers. It is felt that the welfare of the border cannot be sacrificed to the doubtful success of a hasty and therefore unprepared pursuit of the fugitive Villa.

General Funston's statement regarding the uncertainty of the punitive expedition's departure was in reply to what he termed the impatience of the American people for speedy action.

"The people must be patient," he said. "We must adequately prepare for this thing. In the first place, we must use, as much as possible, soldiers who are accustomed to Mexican border duty. However, these men cannot be removed from their present posts until they are relieved by troops drawn from other departments and hurried to the border."

Transportation of the relief troops is not an easy matter. Many of these troops consist of scattered detachments that have to be concentrated at the point of departure, and before they can be sent southward.

"Concentration and transportation of troops is our all problem. However, we are going to march into a country that will afford us little or no forage. The commissary must be adequately supplied with food, and if we are not well fed he is to give good results."

"We won't gain anything by sending an inadequate force, unprepared, after Villa. We will have to be sure that we are well prepared, and that we are well equipped with food and other necessities. Speaking regarding the course of the campaign will take General Funston said:

"There will be more than one expeditionary force, although I am not at liberty to say how many or from what point or points they will start. All this will be left to the discretion of the expeditionary commander, who will have complete charge of all the forces in the field. I don't believe in swivel chair campaigning."

"Necessarily, the campaign will develop new situations and the disposal of the troops is contingent upon these developments. I may at intervals visit the field forces."

"Of course the expedition will not wait the arrival at the border of all the troops now being dispatched from other departmental stations. It will be gotten under way just as soon as possible and as other troops arrive they will be sent forward as reinforcements."

"El Paso naturally will be the base of supplies for our army. El Paso will be supplied through Fort Sam Houston, San Antonio."

The general explained that the first aero squadron and the regular scout of the army would not do all of the scouting for the expedition.

"We are hiring civilian scouts," he said, "who are familiar with every foot of the territory we will penetrate down in that country for years."

It is the general's expectation that the aero squadron will be of great service.

"Of course, the fliers have seen duty down on the border," he said, "but couldn't accomplish much, however thickets and stretches of brush make observations difficult. In the open, however, the boys do great service."

Advance-duty service in the detachments that are thrown around armies as "feet" will be the hazardous work the American soldiers will encounter, General Funston believes.

"Villistas will at times surprise these scouting parties," he said, "but ordinary warfare our men might hopelessly outnumbered and resistance was futile, surrender with safety. To surrender to the Villistas, however, would be worse than suicide. Villa's men will kill every American they can lay hands on. Every encounter with them means a fight to the death."

It has been decided that the first aero squadron will not attempt flight to the base of operations. The training of the eight machines, the necessary trucks and motorcycles and supplies, began Sunday but was not completed. The squadron will not go away until Monday, when it will proceed to El Paso.
