

**JOINT INSTITUTE IS
TO BE HELD HERE**

County Superintendent Bertha Ne was in Minidoka yesterday attending a meeting of the county superintendents of Twin Falls, Lincoln, Cass, Minidoka and Gooding counties, who arranged for the holding of the Summer Conference Institute in this city on September 5 and 6, and will be in session for a week. The joint institute was held in this city last year.

TRUCK LINE FROM CONTACT AT ONCE

President Marshall of Seattle Contact Company Interviewed

WILL SHIP OUT TWO CARLOADS A DAY OF HIGH-GRADE ORE.

Predicts Building of Western Pacific as Soon as Reorganization of the Company is Completed.

"We expect to put a line of high-power tractor or gasoline trucks in operation within a couple of weeks to haul high-grade copper ore from Contact, Rogerson, and other mines to increase the amount shipped from two cars a week to about two cars a day," said President V. A. Marshall of the Seattle Contact Copper Company to a TIMES representative Friday, while on his way, with other officers of the company, to the scene of operations. "We have a large force at work extracting out high-grade ore at present," he continued, "and are down to a place where we can go ahead with assurance of supply being permanent. We are the only people on the ground who have developed properties so far, though Lussane that others will have good mines developed."

"A number of four and six-horse teams are at present hauling our output to Rogerson, and before we can put a truck line into operation between Contact and the Idaho railroad terminus considerable road repairs will be necessary, the character of the road, decreasing the kind of trucks to be purchased. If we can, we will put on carriers that will haul 25 tons to a trip, but it may be necessary to do the hauling in seven-ton vehicles. We have taken the matter up with the commissioners of Twin Falls county with a view of getting the county to assist in the road improvement, though what sort of arrangement will be made cannot be told at this time. We will be at Contact about a week, and will canvass the situation thoroughly before our return. The commissioners are not going to accompany us, but I assume they are already familiar with conditions."

"I have no reliable news on the railroad situation, though I believe that as soon as the new road is completed, Western Pacific is completed, the road through Twin Falls and Contact will be built at the earliest practicable moment. It has been the policy of Contact for 10 years and have always had the greatest confidence in its ultimate success and believe my anticipations are about to be realized. We do all our banking in this city, which necessarily benefits by the development of the mining district here."

Asked in regard to road conditions between Rogerson and the Nevada line, Chairman U. E. Carlson of the board of commissioners said that the Contact road, which built last year, was in good shape, except that there might be some repairs needed where snows had damaged the highway. The cost of such repairs, he said, would be very small and would require probably not more than a couple of days.

BUILDING ACTIVITIES

IN THE WESTEND CITY

Several Large Business Blocks Are Now Under Way and Contemplated in Buhl.

Buhl has taken quite a building boom during the past few weeks and six new brick and the business houses are under construction. The owners of the lots expect to begin work on them soon, says the Buhl Herald. The new buildings will be used to conduct nearly as many kinds of business concerns.

Perhaps the largest business house that will be constructed during the coming year will be that of Huges & Schmidt. It will be erected on the two lots adjoining the Citizens' Bank building and facing on Main street. The building is to be a two-story brick and the affair, covering the entire two lots, making it 50 by 120 feet. A basement will be put under it, and the main part of the material used will be brick. A red brick front will be put in to match the building adjoining. Excavation for the new building will be begun the latter part of this week or early next week.

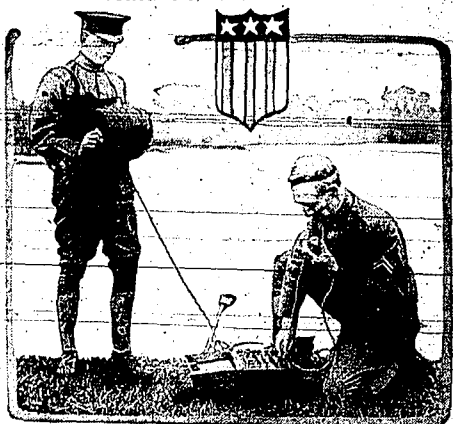

Dr. C. J. Lynch began the construction of a new two-story brick and the building on the lot between the Merck hardware store, on Main street this week, and the main front will be used by S. S. Carson to put in a grocery store. A grocery store, Dr. Lynch lives, North Yakima and said that he has no intention of moving to Buhl, but is merely looking after the interests of Dr. Lynch.

James MacKenzie is contemplating the erection of a building on the two lots adjoining the Herald office, on Broadway street. He has not as yet decided definitely to do so.

M. Kopp is considering the erection of a large three-story brick building facing Main street and adjoining the present Buhl building.

DEMOCRATIC COMMITTEE TO MEET THURSDAY AFTERNOON
The Democratic county central committee will meet Thursday afternoon at 1:30 o'clock for the purpose of determining methods for the selection of delegates to the state convention.

USING THE FIELD BUZZER

An important adjunct of the army on the march is the "field buzzer," which is used to connect the front with the commanding officers and with all parts of the line.

SILCO EXCURSION

SET FOR APRIL 19

Coming Auto Show and Buhl Pioneer Day Causes. Postponement of the Event.

Owing to the fact that the auto show will keep Twin Falls county automobiles busy during the first week of April, and that Buhl Pioneer day is set for the second week, it has been decided to postpone the silco excursion until Wednesday, April 19, the third week in April.

The primary object of this excursion is to give every stockholder a special invitation and opportunity to visit the farms on the ground where it is being used to question owners regarding cost of different silco silos, the satisfaction they are giving, cost of machinery, silco silos to build, value of the feed and any other questions that may occur. There is one half-finished concrete silco silo on the ground, which will be visited, and the forms can be seen at other places.

E. J. Fieldstead of the university extension department, Secretary J. H. Riley of the Buhl Commercial club, O. T. Koster of the Buhl Pioneer Trading association, County Agricultural agent, J. H. Birch and probably others will be present for the purpose of answering silco and silage questions, and owners will tell of their mistakes as well as their successes. Daymen will have an opportunity to visit some of the best herds in the county, to investigate what the best silage has been done in the way of sending "border cows" to the block and decreasing the cost of production of milk and butter. Several cow owners have fed silage to sheep and are especially invited to come and investigate this matter. While silage is especially good for dairy cows, it is equally good for ewes before and after lambing, and fed-to-fattening sheep or cattle will materially decrease the cost of producing a pound of beef or mutton. It is also good horse feed.

Speaking of this work, Mr. Birch said:

"If those who wish to go will get in communication with any of the above-named persons before the due date, a special effort will be made to see that no one is left behind. If you have a car, bring your neighbor. If you have no car, bring him anyhow. In connection with the work, the hours of starting will be published in next week's issue of this paper."

ALFALFA MILL SOON TO COMMENCE OPERATIONS

Anchor Hay, Grain & Feed Company Installs Machinery—Will Be Grinding Hay and Grain.

Part of the machinery is already installed and the rest is on the way for the Anchor Hay, Grain & Feed company, which will start an alfalfa and feed grinding business in the old Kinney warehouse, at 249-251 Sixth avenue west, and the mill will be in operation in a couple of weeks. In the meantime the company, of which John Fink is manager, is purchasing hay and storing it and will have a supply of 500 tons on hand when operations begin. The company will also grind oats, wheat, barley and other feed, both as a custom mill and for shipment by the firm itself. In the meantime Mr. Fink will buy in and load lots for shipment, as he has already contracted 25 cars for delivery to Washington points.

There isn't as much hay in the country for shipment as there was once, said Mr. Fink to a TIMES representative Saturday, "and it must be put to the best use. There are more sheep coming in from year to year and this will keep a great part of the hay at home. In the season of 1913-14 I shipped out 1300 cars of hay, but that will not happen again. The face value of alfalfa is increased at least 20 per cent by grinding and there is no waste, so that the crop will be mostly ground up and fed in that way to sheep raised on the tract in future. In connection with the new general business, we will sell grinding machinery. I look for a great increase in the quantity of clover grown and for that reason am putting in a seed cleaner."

Highest market price paid for bale alfalfa hay for the year round. John Fink, Twin Falls, Idaho, Telephone 705-W.

IRRIGATION COMPANY

WINS FORECLOSURE SUIT

Motion of Non-Suit Granted, Judge Holding Company Could Enforce Payments by Retaining Water.

MOUNTAIN HOME—The case of the Idaho Irrigation company against Mrs. Annie M. Zeigler, a foreclosure suit for mortgage on water contract, came to a sudden end Monday afternoon when Judge Bothwell granted a motion for non-suit against the defendant, who had set up counter claims for damages against the company on account of lack of water during the season of 1915.

The case, which was regarded as an extremely important one, both by the settlers on irrigated lands and by the Carey act companies, has attracted a good deal of attention during the past week. The irrigation company was represented by Oppenheim & Hodgins of Boise, and Longley & Walters of Twin Falls, while the defendant had as her attorney Guy Bessell, of Gooding.

From the evidence submitted, it developed that Mrs. Zeigler and her husband, W. O. Zeigler, had bought land on the North Shoshone tract, and about seven miles north of that place, in the spring of 1910, and had lived on the place since that time, improving it generally. It was claimed by the company and admitted by the defendant that no payments had been made on the water right, nor any payments of interest, except the initial payment, although Mrs. Zeigler had paid her yearly maintenance and operation charge for all the years except 1910, until the water was shut off.

Suit for foreclosure of mortgage was begun by the company on January 15, 1915, and the company on the 14th of April of that year refused to deliver water from its canals for this land. On August 15, 1915, the defendant filed a counter claim for damages on account of such refusal, claiming damages in the amount of \$7800. An effort was made by defendant to show that the delivery of water during the 1910 season was so restricted that under the contract interest on the unpaid balance of the water right purchase price did not commence to run until April 1, 1911, nor was any deferred payment due until a year later. The other contention of the defendant was that the provision of the water contract under which the company refused delivery of water in 1915 was invalid as being opposed to public policy. These were the two points which were raised as most important and about which the trial centered.

ADA AND CANYON FOLLOW TWIN FALLS

Cow Testing Associations Like the Pioneer Society of Buhl, Have Been Formed.

Ada and Canyon counties are following the lead of Twin Falls county, and have started cow testing associations, according to H. W. Hochbaum, state superintendent of county agents, who was here this week. The first such testing association in the state was started at Buhl. Mr. Hochbaum said that he and now except that Twin Falls looked better to him on each recurring visit.

SOCIALISTS TO CALL MEETING TO DISCUSS PEACE RESOLUTION
A committee of the Twin Falls Socialist local is arranging to call a mass meeting of citizens for April 15 and 16, to discuss a resolution before the house committee at Washington, calling for a peace congress of the neutral nations.

NEW TRANSFER LINE.

J. L. McCracken is starting a new transfer line and today put on a Stevedecker truck. His son, N. McCracken, has the work of carrying the mail to and from the depot, and Mr. McCracken will look after this and do such other transfer business as he can handle after taking care of the mail.

PREPARATIONS FOR ARBOR DAY.

Preparations are being made in a county for the celebrated arbor day number of schools throughout the county for the celebration of arbor day on April 14. The suggestions of the state superintendent that rural life be celebrated on the same occasion is being considered.

Muslin Underwear at Less Than Wholesale Cost

Sale Starts Wednesday, April 5th Ends Fri., April 7th

See these wonderful values on display in our window. Never before have we sold Muslin Underwear at such prices. Garments are marked at less than wholesale cost. Surely you can not afford to let this opportunity go by. Be sure and come early Wednesday morning as the best selections go first. Muslin Underwear shown in every possible style and material. Sale starts Wednesday and ends Friday, April 7th. Only three days in which to select these wonderful values.

Children's Dresses

A great assortment of pretty styles in Children's Dresses in ages 2 to 18 years, in plain white Gingham, Percales and Fancy Wash Materials. All nicely made and trimmed at 35c and up.

The Thrill of Achievement

There is nothing quite like the glow that comes to you when you have succeeded in some worthy object that you have set out to accomplish.

This was impressed upon us by the enthusiasm of one of our savings depositors when he announced that he had saved his first thousand dollars and was now ready to carry out a plan that he had been cherishing for years.

TWIN FALLS BANK & TRUST COMPANY

GREAT AVERAGES AND BIG LAMB PRICES

Owyhee Company Has Average of More Than 100 Per Cent, and Sells 17,000 for \$4.75.

The Owyhee Sheep company of Castelford has turned its flocks out on the range, according to F. M. Duffield, who was in the city Friday. The lambs saved by the company this year exceeded 100 per cent and numbered about 17,000. It is understood that they have been contracted to Jack Boyle for \$4.75 to be paid on delivery, taking them just as they will stand at that time. This is considered an unusually good price and makes the sale one of the largest in recent years. W. E. Stockton, who was in the city Friday, said the lambs saved were 127 per cent of the Jerry Becker ranch this year.

FILER HAPPENINGS

(From The Filer Journal)

The electric light company will put in the service in the country homes along its lines. This should have been done long years ago.

Frank Brown has let a contract for a large barn on the farm occupied by Charles Dryden. Higgenbotham, Ellis & Jamieson have the job.

H. G. Munyon returned the first of the week from his trip to Nevada in search of cattle. He didn't get any down there, but had pretty fair luck in getting a number since his return.

Earl Walker is back from California, where he was called on a business matter. He is now busy on the country fair grounds proposition, and he is an optimist, insisting on all with the proposition that "he will put it over."

D. C. Bickford has rented his place and moved into the farm south of Buhl recently purchased by his sons. Dad has built a house down there and will attend the chicken and do the fishing for the family.

The officials are renewing their efforts to see that all dogs are muzzled. Another scare has been thrown into the controversy and this time the law will be enforced to a finish. If you have taken the muzzle off a dog, stop.

GENERAL ADVERTISING

"SPEAR HEAD"

THE WORLD'S GREAT CHEW

Famous for Over a Third of a Century as the Leader Among Plug Tobaccos

Even the man who has chewed tobacco for years gets an altogether new sensation when he bites off a juicy chew of Spear Head.

Its deliciously sweet, mellow flavor makes Spear Head totally different from all other tobaccos.

Chewing is the best, most satisfying way to use tobacco. And for a fresh, pure, genuinely enjoyable chew you want good plug tobacco.

In Spear Head plug you get a pure, healthful high-grade product, preferred by the best judges of tobacco for its unique flavor and uniform quality.

Get a cut from your dealer and try it. You'll say your never tasted such delicious tobacco before. Inge and cuts.

ten and restore it for the consequences you must suffer.

Elmer E. Haug has bought the 160 acres from Coffin Bros. at the edge of town farmed by William Hoeg for several years past. The deal was made by Arvid Johnson through the Graves real estate office. The land brought \$150 an acre, \$24,000. This is the largest real estate deal ever made in this section.

James H. Housh, a practical tailor, will open a shop in the building formerly used as a pool hall known as the Pastime about April 1. Mr. McGuffie has been in the business a number of years and comes highly recommended as a tailor.

The Oliver meetings will be transferred to Buhl April 8. A large infirmary will be erected down there and a vigorous campaign started for the reclamation of alibers. If Mr. Oliver can get Jack White and Biegs up to the bench at the same time, he will have accomplished a work that will be worth the expense of the meeting and worthy of the great moments that will accrue to his mighty task. Let us hope he will succeed.

Higgenbotham, Ellis & Jamieson, a new firm of carpenters, have bought the tools and machinery of the Goodpasture shop and will move them to their shop, opposite the Nibbelly-Chelne lumber yard. The Goodpasture shop and lot have been sold to Arvid Johnson and Jake Mattson. Jake will use the front of the building for a paint shop, while Arvid will convert the rear of the building into a garage for his auto.

B. M. Grant, the Seventh-Day Adventist minister, returned last Friday from a two months' visit in eastern Oregon. With the assistance of others he is arranging to hold a series of meetings at Filer, commencing Tuesday, April 4, at 7:30 p. m.

There is no denying the proposition that Filer has arrived at the stage of her growth where a new system is demanded. We have yet to hear of any property owner who does not fully realize this fact. More especially do we need it for our public school for sanitary conveniences, as well as for the homes. The school board had Mr. Horne, the Twin Falls architect, go over the proposition some few weeks ago, and sought his advice. He has gone over the proposition in company with Charley Mall, civil engineer, and has made a rough estimate of the cost. They have considered the lay of the ground and other essentials that go into the installation of an adequate system and will be pleased at any time to take the matter up with our people.

BUHL NEWS

(From The Buhl Herald)

J. A. Sinclair of Twin Falls, one of the sufferers in the Swanston Mercantile store, was in Buhl over Sunday looking over the field on the west end.

Mr. and Mrs. R. Babcock arrived Monday afternoon. Mr. Babcock has accepted a position in the Holmes barber shop. They came here from American Falls, where Mr. Babcock was married some time ago. He formerly lived in Buhl and was employed at the Holmes barber shop about a year ago.

Stanley Leeney spent Sunday visiting with his brother, A. E. Leeney and family. Buhl, going back to Twin Falls on the evening train.

Miss Bertha Noel, county superintendent of schools, visited schools in the Buhl country for the latter part of last week. Incidentally, she planned to have her fifteen-acre orchard seeded to white clover. The acreage lies north of Buhl and across the road from the Chelne home.

Plans are being formulated to observe Decoration Day in Buhl. This will be the first time in the history of the city. Nothing definite is yet given out, but the matter will be brought before the National Guard and the band next Monday evening, the idea being to have the program under the auspices of both organizations.

A. Sydors, who lives southwest of Buhl had the misfortune to get his left leg cut in two by a hay knife sliding down upon his head from a haystack. Mr. Sydors was working on the ranch of A. H. Pember, five miles south of Buhl, and was throwing hay from a stack on a wagon, when he walked too

near the edge and slid off. The knife followed him and cut his leg.

Work on enlarging the high line canal, which was begun last fall and discontinued during the winter months because of the inclemency of the weather, was again resumed the first of this week in earnest, and the contractors estimate that it will take about a month to carry out the construction to its completion. The object of enlarging the canal is to make it carry a larger amount of water to the eastward farmers during the growing season of the year. There is rejoicing among the farmers living near the end of the lateral radiating from the terminal of the canal which is being enlarged. The channel did not carry enough to supply the farms in the Castelford country during the busy ir-

rigating season. Better crops and better times are anticipated from the extreme west and southwest part of the Twin Falls south side tract.

The senior class play, a three-act comedy, entitled "Clutching Claws," which was given at the Buhl opera house last Friday evening, was a success from a financial standpoint, as well as an entertainment point of view. More than \$33 were taken in at the door, and the net proceeds will be larger than of any preceding class play. The graduating class will use the proceeds to purchase a class memorial for the high school building.

Governor Moses Alexander will be in Buhl Wednesday, April 12, and will command in chief of the National Guard of Idaho he will officially inspect the local company. He will address the

Jefferson club in Twin Falls the following night, April 13, and it may be that a meeting will be arranged by the Wilson club of Buhl for the chief executive of the state. Plans have not been carried out for such a meeting at present, though it is probable that they will be.

TWIN FALLS ROADS PRASED BY COLORADO MAN

That the commissioners and people of Twin Falls county are especially interested in good roads and take pride in their development, is the story told in an interview given to the Greeley

(Colorado) Tribune-Republican by George A. Hodgson, chairman of the board of commissioners of Weld county, Colorado, on his return recently to his home, after a visit to several western states. The state highway, bridge improvements and other things were noted by the visitor while here.

The subject of good roads is a live one and more or less discussion is taking place with reference to the question of insuring bonds to still further improve them.

If you are in need of arguments, a Times Want Ad. will fill your want.

The Result of 23 Years' Successful Experience in Building Motor Cars

AMERICA'S GREATEST "LIGHT-SIX" \$1485

Flexibility

It is simply wonderful how the HAYNES Light Six, loaded with passengers, will pick up and maintain a speed of 60 miles per hour, then throttle it down and creep along silently and smoothly at one mile per hour—slower than a walk. The car picks up and gets away instantly. It has made 30 miles per hour in 7 1/2 seconds from a standing start. No matter how suddenly you open the throttle, you can't choke the high speed motor of

The HAYNES

AMERICA'S GREATEST "LIGHT SIX"

You can climb hills on high, with turns so sharp that the car must be slowed down, without touching the gear shift lever. At all speeds and under all conditions you get in the Haynes a smooth flow of power. You really control the car with the foot throttle.

The Haynes motor is a high speed motor, but it develops that wonderful pulling power, that ability to hang on at the lower speeds—that is flexibility.

Don't overlook these qualities. Appearance, upkeep, economy, durability. Haynes "Light Six" does not suffer by comparison with cars of the highest priced consideration. Its upkeep is notably economical. Has averaged 18 to 22 miles per gallon of gasoline, 7500 miles to a set of tires, 400 miles to a quart of oil.

See the Haynes—ride in it—know its flexibility—its performance—its high class in every detail—and we will leave it to your own judgment if it doesn't deserve the name "America's Greatest Light Six."

When may we give you a demonstration?

THE VIEWS OF OTHERS ON THE ROISE RECALL.

We took occasion last week to refer to the efforts of a certain element in Boise to remove the mayor by the recall process, and expressed the belief that Mayor Robinson's opponents, or at least the most active of them, entertained motives other than those set forth in public; that because the mayor's fight on commercialized vice had come unacceptably close to large consumers, some of Boise's most respectable people again announced their intention of putting a stop to the invasion of Private Homes in Lawless Raids. Copies of the Boise New Freedom and the Weiser Signal have since come to our desk, each recording quite closely to our views. TIMES readers may be interested in these comments, for which reason we repeat them below:

Boise New Freedom.

"The movement for the recall of Mayor J. W. Robinson is utterly devoid of merit and should fail. The mayor is endeavoring to enforce the prohibition law and the law for the suppression of commercialized vice. And in these efforts he will be upheld by a large majority of our citizens. The liquor traffic is as dead as the historic door nail in Idaho, and commercialized vice is doomed. Make no mistake about these propositions.

"Just why a so-called Municipal Club should have been organized in Boise, with a blaring of trumpets as to the good work it was to do, is now in full evidence. This organization is back of the efforts to prevent the enforcement of the laws dealing with the liquor and vice questions, and the pretense that it was organized for any other purpose is pure tommyrot. We opine the name was changed when it was shown that the Citizens' Alliance, which it was proposed to organize, was the favorite name taken by the liquor interests wherever they put up a fight, and in Boise it is essential to work under cover. Therefore, Municipal Club instead of Citizens Alliance.

"It will be found impossible to arouse much indignation over the invasion of 'homes' in the raids which have been conducted in Boise; and those who think that the days of winking at violations of law are to ever return in Boise have another thing coming."

Weiser Signal.

"Another effort is to be made to recall Mayor Robinson of Boise. A mass meeting is to be held Friday night to consider the matter, and the chances are Boise is to be subjected to another tearup. It is generally in the smaller communities that factional strife is at its height, but Boise can harbor more turmoil and discord than any town in the United States making the pretensions they do. Business must be mighty quiet in the capital city or there would not be so much time for local gossip."

Flair Journal.

They are recalling the mayor of Boise again. It is about time to change the location of the capitol and get it in some live, up-to-the-minute city. Boise is a pretty fair location for the penitentiary, but that is about all. If the capitol is moved, however, some preparation would have to be made for a poorhouse to take care of the numerous old barnacles who have made the capitol building their meal ticket since coming to the state.

The railroads are busier than they ever were before; the Steel Corporation has the greatest amount of business on hand that it ever had; the greatest trouble of manufacturers is to get labor and materials and make deliveries, and the bank clearings last week approached five billions, being considerably higher than the week before. The business situation moves Dun's Review to say: Only by the use of superlatives can existing commercial and industrial conditions be adequately described. Great as are the gains shown by bank clearings, iron output, unfilled steel tonnage and similar indices, mere statistical records no longer fully reflect a situation for which there is no precedent. — Boise New Freedom.

Recent Resident May Be Indicted in
United States Court for Fraudulent
Shipment.

Caught Thursday night by Sheriff F. M. Kendall with 81 pints of whiskey in a wagon near the city limits, Mike Ryan, who has lived in this city some months, was bound over Saturday by Justice of the Peace W. J. Smith on a charge of having "distilled liquor in his possession contrary to law." He shipped the liquor to Kimberly from Utah. It is thought that charges will be filed before United States Commissioner C. C. Sigging charging Ryan with fraudulent shipment of liquors into the state.

LEGAL PUBLICATION

ANNUAL SCHOOL MEETING AND ELECTION.

Notice is hereby given that on Monday, the 17th day of April, 1916, the Annual School Meeting and Election in and for all the school districts of Twin Falls County (excepting the Independent Districts) will be held at the school house in each of the districts.

The meeting will be held to select a judge and clerk of election, and to determine whether or not the question of a special tax shall be voted upon at the election; to determine the amount of money to be raised by special tax, which shall not be more than ten mills on each dollar of taxable property in the district (joint districts determine the amount of levy in mills); to decide upon the length of school term to be voted upon; and to transact such other business pertaining to school interests as may come before the meeting.

It is important that all patrons and taxpayers in each district attend the Annual Meeting, that they may consider and help solve the various problems connected with the school.

BERTHA NOEL,
County Superintendent of Schools.

ORDINANCE NO. 181.

An ordinance amending Ordinance Number 71 of the City of Twin Falls, Idaho, by adding thereto new sections to be known as Sections 18C, 18D, 18E, and 18F, said Ordinance Number 71 being entitled: "An ordinance providing for the payment of license to the City of Twin Falls, repealing ordinances in conflict therewith, and providing a penalty for the violation thereof."

Be it ordained by the Mayor and the Council of the City of Twin Falls,

Section 1. That Ordinance Number 71 of the City of Twin Falls, providing for the payment of license to the City of Twin Falls and providing a penalty for the violation thereof, be and the same is hereby amended by adding to said ordinance new sections to be termed 18C, 18D, 18E, and 18F, said sections to read as follows:

Section 18C. Any person, firm or corporation, who, either for himself or as an agent for another, by means of coupons, tickets or part payments, solicits business in Twin Falls, Idaho, pertaining to photography, copying or enlarging pictures, shall pay a license as follows: For the first day the sum of \$25.00; for the second day the sum of \$15.00; and for each and every day thereafter the sum of \$10.00.

Section 18D. The license shall be procured and issued in the same manner as other licenses in the City of Twin Falls.

Section 18E. Any person, firm or corporation, violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine not to exceed One Hundred Dollars (\$100.00) for each offense.

Section 18F. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

Passed by the Council of the City of Twin Falls, Idaho, this 3d day of April, 1916.

Approved by the Mayor of the City of Twin Falls, Idaho, this 3d day of April, 1916.
E. M. SWEETLEY, Mayor.
Attest: REESE M. WILLIAMS, City Clerk.

"THE SHOOTING OF DAN MCGREW" AT THE 1818

Robert W. Service's famous poetic masterpiece, "The Shooting of Dan McGrew," has been added into a five part motion picture by the Popular Plays and Player company, with Edouard Bréson, the powerful dramatic actor, in the leading role. "The Shooting of Dan McGrew" tells in its own red-blooded, big-man way of the loss of his wife by Dangerous Dan McGrew; of his months of struggle across the "flat-bellied" trail and his finally meeting with Dan McGrew—the man who stole his wife and he killed.

Robert W. Service's poems have long been recognized as the most potent of American poetic fiction and include, among others, "The Spell of the Yukon," "The Heart of a Sourdough," "The Person's Son," "The Call of the Wild," etc.

The shooting of Dan McGrew is in two parts and two hundred scenes and will be shown at the 1818 theatre Wednesday and Thursday evenings.

FAIRBANKS HAD STRENUOUS TIME GETTING INTO DAD'S FIRM

In the Fine Arts-Triangle play, "The Picture in the Papers," shown at the Orpheum theatre Thursday and Friday, it looked easy for Peter Prindle (Douglas Fairbanks) to get his portrait displayed on the front ranges of all the New York papers—yes, it looked almost too easy. Here's what the hero actually did before he put through the proposition, gained a half interest in his father's firm and was awarded the hand of the girl he loved.

Wrecked an auto and went to the hospital, was thrown off a train, put out a champion middleweight and fought a losing fight with two husky policemen. At last he won by fighting off a band of yeggmen and saving a train from being wrecked.

In these days of strenuous advertising, this comedy is interesting as showing how a man eager to attain notoriety may fall down time after time only to attain it when he is not looking for it. Fairbanks makes an attractive picture as a lively youth who prefers a good, juicy beefsteak to the delicacies that his rich father exploits through the press. He also has a preference for boxing in his bat with his system-loving father. Then he meets the girl of his choice in a restaurant. He meets the father, expecting his congratulations on his engagement to the daughter. He is not rattled at all when the parent tells him first to get a half interest in his father's business. The older Prindle happens to be worked up over Peter's derelictions and gives him time with the offer of the partnership on condition that he get his picture in the papers. Then the fun starts.

The New Case 40—\$1090

For 100,000 Miles

The final test of the new Case 40 comes when you put to work those parts beneath the hood. When it comes to a long, hard pull, or to a steep climb, you will realize how faithful this car is. And then after you have owned it a long time and driven it 100,000 miles you will appreciate the Case standard of construction.

Proofs such as these are ALREADY known by Case owners and accepted as a matter of course. They are FAMILIAR with Case ideals, and they know JUST what the Case standard has saved for them in money and how much it has meant in genuine SATISFACTION.

A few years ago men paid \$2300 for the OTHER Case 40, and today

these men are so ENTHUSIASTIC that they say a better car could never be built.

The pleasure will be OURS, if you will let us know when you will come in and go over in detail the new Case 40. Or possibly you prefer ILLUSTRATED description by mail. Familiarity with the new Case 40 will give you NEW standards of comparison.

Reynolds Motor Company

FLIER, IDAHO.

IDAHO'S LEADING GARAGE

A. B. WOOD, Manager

J. W. NANCE, Chief Mechanic

Distributors for Twin Falls, Cassia, Minidoka, Lincoln, Gooding, Owyhee and Elmore Counties

over visited Twin Falls gave the satisfaction that the Lorch company did when they were here in January. Since leaving here the company has been several of the large towns of the state and are this week completing a three weeks' engagement at the Pinyon theatre, Boise, where they have been greeted with capacity houses during that time, and the press of the Capital City speaks of them in the most flattering manner. They need no recommending to the people here. Their previous efforts established them in the hearts of the people and on their return next Monday it is almost certain that the Lorching theatre will be packed.

In order to give the patrons an opportunity to get their seats reserved, Manager Lorching has put the seats on sale as early as the Rexall drug store.

People living in the country can have seats reserved by calling the store by phone, and the tickets will be held for them until 8 p. m. on the evening of the play by calling at the box office of the theatre.

"The Crooks" is the play selected for the opening on Monday night. It is one of the best and the one that made the big hit with the press and theatre public of Boise. The leading part given by Mr. Lorch on opportunity and his style of acting like a glove. Yet it is not a one-man play and every member of the company has a chance to prove their ability and to get the chance slip. The play is full of interest from start to finish and brings to light the story of the underworld in a way that shows a man can regenerate himself. Other plays to follow are "The Smugglers," "The Man Who Does Things" (written by Mr. Lorch), "The Man in the Moon City," one that finds Miss Fay in a role delightfully new.

A large crowd saw and enjoyed the "Birth of a Nation" at the Lorching last night. But few seats were left, and Mr. Lorching said this morning that the indications were that they would all be sold out tonight. The scenery is magnificent and realistic, according to those who attended, and gives a vivid idea of the days of the Ku Klux and a dramatic argument for their existence.

SPECIAL MUSIC AT 1818.
Miss Emily and Laurie Wall are playing at the 1818 theatre this week, during the absence of the 1818 regular musician, E. A. Ahern. Miss Wall is an accomplished player on the piano and Mr. Wall a trap drummer. They will be a special musical program Tuesday evening.

CITY EMPLOYMENT OFFICE OPENED

All persons seeking employment should register with the employment agent at office No. 118 West Shoshone street, Forties building.

All persons seeking employment or help of any kind should register their requests at the office where every effort will be made to furnish such help. REESE M. WILLIAMS, Employment Agent.

THE AMERICAN TOBACCO COMPANY

THIRTEEN CENT

LAMBS ON MARKET

Lower Prices Paid in Portland For the First Spring Lambs of the Season.

The first spring lambs for the season arrived Wednesday and sold at thirteen cents, says the Portland Live Stock Reporter, Thursday.

Just to indicate the strength of the market, a "jackpot" shipment of sheep, consisting of 5 ewes, 5 spring lambs and 3 yearlings, which was sold Monday morning brought exceptionally good prices. The ewes brought \$2.25, spring lambs \$1.85 and the yearlings \$1.85. The month of March will long be remembered by not only the sheep men but other livestock men as a month of exceptionally strong prices at North Portland.

Nothing arrived in the sheep hays during the first part of the week and all prices are on a good strong quotation basis.

Local supply of sheep is so short that killers are forced to rely on their own feed lots for the requirements. Sheep feeders are selling away these days. They have the supply in their hands and are not worrying as to future prices. Prices will probably not start in numbers until after the lambing and shearing seasons are over.

Steers of the better grades have shown no change since Monday. All quotations are on a very strong basis. Receipts for the week of the month that has passed as a whole the steer market is showing up much shorter and stronger than it did last year for the same period.

Only a few cattle have been in the yards since Monday. The only receipts since that time have been in the cow and butter division. No steers whatever having been received. There is quite a bunch of steers marked up for arrival today that will be on today's market. Most of these anticipated receipts are from Idaho points.

All during the week the market on better stock has shown a fairly active spirit and throughout prices were steady to strong. Good to choice cows have met a ready outlet at the best price of the season. There has also been a good call for the better classes. Even plain, half-fat styles have had a good season and there has not been any dragging feeling.

Bulls and stags have not been in plentiful supply this week to date. Prices are very good and quotations would warrant 6 cents for bulls of good quality.

Eastern markets again report a weakness in hogs. Chicago went off 10 to 15 cents and Omaha nearly as much. This seems to be a reaction from Monday's report in the east. Hogs are now averaging around \$2 a hundred more than they were selling at five years ago and at a considerably stronger price than they sold at any year since to date.

Steer quotations are: Choice grain and pulp-fed, \$3.75; choice hay-fed, \$3.50; good, \$3.25; medium, \$3.00; \$2.75; ordinary, \$2.50; 2.50; good, \$2.50; medium, \$2.25; ordinary, \$2.00; common, \$1.75; 6.00.

Cow quotations are: Choice \$5.00; good, \$4.50; medium, \$4.00; \$3.50; ordinary, \$3.00; common, \$2.50; 6.00.

Heifer quotations are: Choice \$4.50; good, \$4.00; medium, \$3.50; \$3.00; ordinary, \$2.50; common, \$2.00; 6.00.

Stag quotations are: Choice \$5.00; good, \$4.50; medium, \$4.00; \$3.50; ordinary, \$3.00; common, \$2.50; 6.00.

Prize quotations are: Best selected, 850 to 100 lbs., \$5.00; best selected, 700 to 800 lbs., \$4.50; good to choice stock cows, \$4.00; good to choice stock cows, \$3.50; 6.25.

Sheep quotations are: Spring lambs \$3.00; choice lambs, \$2.50; medium lambs, \$2.00; good yearlings, \$1.50; good yearlings, \$1.25; choice wethers, \$1.00; good wethers, \$0.75; choice ewes, \$0.50; good ewes, \$0.25; 7.75.

Hog quotations are: Prime light, \$9.25; prime strong weights, \$9.00; 9.25; good to prime mixed, \$8.75; rough heavy packing, \$8.00; pigs and skips, \$8.00; 8.25.

Public Forum

Editor Twin Falls Times:

In a recent issue of your paper appeared a sermon delivered in Twin Falls by an evangelist in which uncompromising references were made to Christian Science and to its founder, Mary Baker Eddy. Were these merely the expression of an unfavorable opinion of Christian Science or a dissent from its views, no reply would be necessary. My purpose in seeking space in your paper is to correct what is so obviously a misstatement of its teaching and an unfair criticism of its founder.

Religious discussion among professed Christians ought to reflect that charity which is love, rather than that bitterness which has marred with persecution the history of the churches. Let us hope that those who have undertaken to spread the message of the meek and lowly Saviour will learn to observe the dictates of the Golden Rule in discussing the religious convictions of others.

There is nothing in the teaching or practice of Christian Science which even remotely supports the critic's inference that its doctrine is a warrant for immorality. On the contrary, the lives of Christian Scientists show that its entire teaching inculcates a high moral standard.

The fact that the Christian Science movement is a world-wide one, drawing to itself intelligent Christian men and women and ennobling their lives is sufficient to refute the critic's comparison of it to a malignant tumor. The moral code of Christian Science is based upon the Ten Commandments and the teaching of Jesus, the Christ. So far from encouraging the indul-

gence of sin, its whole practice is the overcoming of sin, not by the mere declaration that there is no sin, but by the daily practice of purity and holiness—a practice made possible by the knowledge that sin is not an irresistible force with which man copes vainly, but that all power and the only power is God whom man reflects. It is the knowledge of the omnipotence and omniscience of God which gives man hope in what has before seemed a hopeless struggle with sin and disease and which enables him to overcome both sickness and sin and thereby prove them unreal.

The tendency toward purity and holiness inculcated by Christian Science was first demonstrated by its founder, whose life of unselfishness, righteousness and purity caused her to be respected and honored in every community where she resided. She is now generally recognized as one of the leading women, not only of this age but of all ages. Her life of achievement has placed her beyond the reach of petty scandal or attempted ridicule. Her wonderful work in elevating the moral standard of the community where she resided, and a spiritually minded woman whose influence was exerted only in the direction of righteousness.

The message of Christian Science is one of peace and healing. It offers to tired humanity the same message of comfort where she resided, and a spiritually minded woman whose influence was exerted only in the direction of righteousness.

tion and freedom here and now from both sickness and sin.

MONEY PLENTIFUL AND TIMES GOOD

Representative of Denver Bond House
Is Optimistic—Doubts of Foreign
Development Exist.

"We have half a million dollars that we want to put into municipal bonds," said Charles J. Rice, representative of the Guardian Trust company of Denver, to a TIMES representative yesterday. "Denver banks, like the banks elsewhere, have plenty of money that they want to invest in good securities. Times are good but somewhat allipery, which explains the premium paid for the waterworks bonds. Any bond with

UNITED STATES CAVALRY ON THE MEXICAN BORDER

sound backing if sold for immediate delivery now will command a good premium. We bid \$31,500 for the waterworks bonds, but we would not give the premium if they were to be delivered in 30 days. In the first place if the Kaiser should take a notion to get ugly, or if Carranza and Villa should suddenly make up and join forces against the United States, it would make a difference in the money market. We do not look for either of those things to happen. The country is prosperous and prospects are good for the future, which is the reason that good premiums are paid on bonds, but bankers are the most timid people in the world, and the possibility that things might turn out differently is the reason for not paying premiums where bonds are for future delivery. There is another reason. The late spring and summer are poor times to dispose of bonds even in times of peace, for the buyers are apt to be flailing and not want to bother with the markets."

MINUTES OF MEETING OF TWIN FALLS CANAL CO.

Board met in regular session, all members present, except Kennedy. Minutes of previous meeting were read and approved. Moved by Seaver, seconded by Barker, that water be transferred from part NE 1/4 SW 1/4, SW 1/4 NE 1/4, NW 1/4 SE 1/4, 12.80 shares, to lot 1, 22-16; and 3/4 SW 1/4, 12-14, to W 1/4 SE 1/4, 33-10-13; and from E 1/4 SW 1/4, 17-11-14, 60 shares, to N 1/2 NW 1/4, 19-11-14. Carried unanimously. Moved by Barker, seconded by Seaver, that estate of Bennett and Taber be allowed \$50 in full for all damages caused by shutting off water from their lands for one week during the season of 1915. Carried unanimously. Moved by Taylor, seconded by Barker, that the request of Oren E. Tatt for have his drainage contract cancelled be allowed, provided that all delinquent maintenance charges be paid, and in the event of his transfer of water right he had no devoted to this company. Carried unanimously. Moved by Seaver, seconded by Barker, that the president and secretary

are hereby authorized to sign on behalf of this company a certain contract with Dr. T. O. Boyd for the care of sick or injured company employees, said contract to run for one year from March 1st, 1916. Carried unanimously. Moved by Barker, seconded by Taylor, that this company construct a suitable ditch from lateral No. 19 to the Low Line channel, across the land of P. W. Monahan and others, provided easements for right-of-way are provided without expense to this company, said ditch to be used as a spillway. Carried unanimously. Moved by Seaver, seconded by Barker, that no crop mortgages will be taken by this company for maintenance charges for the season of 1916. Carried unanimously. Moved by Barker, seconded by Taylor, that the manager be instructed to lay off the Armstrong well machines, and the secretary to advise the Armstrong Drilling Machine Co. that their machines are not satisfactory and that this company refuses to accept or pay for same; but, if the Armstrong Drilling Machine Co. are willing to replace them with others that are satisfactory, will be acceptable to this company. Carried unanimously. Moved by Seaver, seconded by Barker, that where fences cross the canals or laterals of this company, gates must be provided by the owners thereof, so that company employees may pass along the banks in the discharge of their duties. The location of said gates, if questioned, to be determined by the manager. Carried unanimously. Moved by Taylor, seconded by Seaver, that it be resolved: That the resolution of the previous board of directors of this company, adopted September 14th, 1915, fixing the maintenance charge for year 1916 at \$1 per acre, payable 80 cents on or before March 1st, 1916, and 20 cents on or before August 1st, 1916, and other matters therein specified be and the same is hereby ratified and confirmed and adopted as the action of

this board. Carried unanimously. Moved by Barker, seconded by Taylor, that leases for water for school lands, held under lease from the state, be made until July 1st, 1916, on the following conditions: That the service charge be \$1 per acre, payable in advance; that the term of the lease end on July 1st, 1916, and the user not be entitled to any water therefrom; that written contracts be made as heretofore with the above provisions incorporated therein. Carried unanimously. Moved by Seaver, seconded by Barker, that any lessee of water on school lands under lease from the state who, during the irrigation season of the year 1916, acquires, by purchase from this company a water right for such lands, shall have the money paid for his lease service applied on his maintenance charges for 1916. Carried unanimously.

Board met pursuant to recess, all members present, as yesterday.

Moved by Seaver, seconded by Taylor, that the salaries of John Iron and J. H. Pearson be increased ten dollars a month each, to date from March 1st, 1916. Carried unanimously.

Moved by Seaver, seconded by Barker, that the manager be authorized to employ a warehouseman to care for the property, tools and equipment stored at the company warehouse, under such rules as the manager may deem proper. Carried unanimously. Moved by Barker, seconded by Taylor, that the president and secretary be authorized to borrow such sums of money from time to time as the needs of this company may demand and give the notes of this corporation therefor. Carried unanimously. Moved by Seaver, seconded by Barker, that water for winter service will be discontinued after Nov. 1st, 1916, on all lands supplied from the Morris, Coulter, and stockholders in said district are hereby so notified. Carried unanimously.

Moved by Seaver, seconded by Barker, that the secretary be authorized

to purchase a typewriter desk for the office. Carried unanimously. Moved by Seaver, seconded by Taylor, that the secretary be instructed to take up the matter of repairs and improvements of the Milner dam with the North Side company and ask that they consult with this board regarding same. Carried unanimously. Whereupon, there being no further business, the meeting adjourned till the next regular meeting.

(Signed):
F. D. BROWN, President,
W. O. TAYLOR, Secretary.

PARENT-TEACHERS' MEETING.

The Parent-Teachers' association held a meeting last Friday night in the high school auditorium. Superintendent H. H. Blue spoke on the new school system, and Miss Hunsinger gave an excellent address on playground work. A reading was given by Miss Gladys Dwight. There was a good attendance, this being the 1st meeting of the central organization for the year.

A Sensible, Thoughtful Gift.

"Speaking of unusual presents, my husband is giving me one which is perhaps very unromantic, but thoroughly sensible. It is the kind of thing that shows me that he is thoughtful."

"It is merely an addition that he is having built to our little back porch at home, enlarging it and screening it all in. It will more than double the comfort with which I will be able to do my work; for the kitchen will no longer be my only work-room."

"In warm weather I can get out and away from the heat of the kitchen."

Come to us for assistance in planning porch construction, addition or alteration.

MAD COYOTES AND DOGS STILL ACTIVE

Deputy Jackson Kills Many Muzzless Animals—Tells Story of Rabbits in Several Places.

Deputy H. G. Jackson, has been laughing at the muzzless dogs in his district in the eastern part of the county and says that he is connecting the dots of the rabies with muzzless dogs running through the agency of their owners. He says that he shot 10 in Kimberly recently. Mr. Jackson has in his hydrophobia stories to tell about the dogs in his district, but gives some interesting information about what is happening elsewhere, including the city of Elmore. THE TIMES is indebted to him for the following information on the subject:

While the little daughter of James Young, who lives at 122 Sixth avenue East was returning from school Thursday evening, she was attacked by a large dog, which suddenly jumped at her, grabbed a bunch of ribbon on

her hair, threw her down and then trotted away without further molesting her. The child was so much excited that she was unable to describe the dog and the animal was not found. A careful examination showed that the teeth of the dog had not come in contact with the skin and that no injury had resulted from the attack. It is supposed that the animal must have been going mad, or it would not have acted in such an unusual manner.

One evening last week a coyote suddenly appeared at the ranch of Peter Christensen near Rogerson and attacked his dogs so furiously that they were driven over the fence at the home. The coyote escaped in the gloom. The dogs are still tied, up awaiting developments.

Five-year-old rabbits, in the Rogerson country, reported Saturday that they had lost sheep every day for six days. They had killed three and dogs and three more pigs. Three dogs on their place had been bitten and were tied up to see whether it would affect them. After trying in the same country, lost two dogs, and had an exciting experience with a rabbit cow which chased him for 200 yards. The foreman of the Shoshone ranch killed the cow after shooting her six times. It is said that the company has lost 12 head of cattle with hydrophobia. Rabbits are reported to be dying by the hundreds, but whether from disease, poison or rabies is not known. Last Wednesday E. W. Hangerford, a trapper living near Rogerson, was attacked by a mad coyote which unarméd and dispatched the animal with a club without suffering a scratch.

WOULD YOU DO WHAT BIBBS DID?
If your father were a self-made millionaire, and worshipped himself—the very turmoil of a great manufacturing city, even the smoke of the wealth-making chimneys, and—

If your elder brother and also your married brother had been efficient after your father's own heart, but the one had been killed in an accident and the other had broken down from overwork, and—

If your father had come down to you, in his last chance, had determined to break you into the shop and the business—you to whom business meant nothing, you who looked for something higher in life than making money, you who longed for quiet in which to think and write poems and essays, and—

If the old man had resolved to make you a director in the pump works, a

CLEAN SEED POTATO PRODUCTION UNDER IRRIGATION IN SOUTHERN IDAHO

THE problem of securing healthy seed potatoes is one of great importance in the irrigated west. Growers of Idaho are warned by specialists of the United States department of agriculture that potatoes grown in the east or in foreign countries are no healthier than those grown on their own irrigated tracts, and that there is always the danger of introducing new diseases by planting imported seed potatoes.

Seed potatoes should be grown at home in a specially-selected seed plot. Land which has never been planted to potatoes, but which has for several years been under cultivation with alfalfa or grain, is apparently best adapted for growing healthy seed potatoes. Raw desert land should be avoided, as it is not well adapted to potato growing, until it has first been

in cultivation with other crops, especially leguminous crops and grains. The seed selected for such a seed plot should be wholly free from disease. This can be accomplished in the following manner: Select from your seed potatoes tubers which show no external evidence of disease, such as russet or Rhizoctonia scab, common scab or decay. Tubers having small pockets of storage dry rot may be used, provided the decayed portion is cut out. No trace of the decay should remain. Tubers externally free from evidence of disease should then be cut into seed pieces. The first cut should

be made across the stem end. The stem-end portion should always be discarded. If there is any deep discoloration at the stem-end, the entire tuber should be discarded; but if apparently healthy, the stem may be cut into seed pieces of the desired size. After cutting, the selected seed stock should be treated by soaking for two hours in a solution of corrosive sublimate. The formula for making the corrosive sublimate dip is as follows: To each 30 gallons of water add four ounces of corrosive sublimate which has first been dissolved in a little hot water. In making and using the solution, only wooden, glass or porcelain vessels should be employed. Corrosive sublimate is a deadly poison and both the solution and the potatoes treated should be kept out of reach of farm stock.

The seed plot should be given the best possible care, as potatoes poorly cared for are apparently more susceptible to disease attacks than those which are given the best opportunity to grow and mature. Potatoes selected and planted in this manner should give a product comparatively free from disease, though it must be admitted that the planting of disease-free seed on new land is not a guarantee of a disease-free product. A diseased product will mean that the land is infected and that other land should be used for the seed plot another year.

to speak of Mr. Tarkington's humor or pathos, an imperfection to comment upon his skill in portraying character. Humors and pathos, after all, are literary words, and we seldom think of them in connection with real life; no more do we think of them in connection with Mr. Tarkington's story—though in reading it we are always sympathetic and often greatly amused. As for the characters in the story, we are inclined to accept them as actual persons. To inquire whether they are well "drawn" or not seems absurd, because they are so obviously alive.

Readers of THE TIMES will be interested in the announcement that this story is to be published serially in THE TIMES, commencing with next Thursday's issue.

REV. HOWARTH FEELS THAT COLLEGE FUNDS WILL BE RAISED

Rev. L. Howarth, pastor of the Methodist church of Gooding, was in the city Saturday on his way to Duhl. He said that the campaign for the Methodist college at his city was progressing splendidly and that the committee felt that they could raise the balance of the funds needed by the termination of the campaign, April 15.

James McGuffey of Rogerson went to Filer Saturday for the purpose of entering the tailoring business.

Mrs. J. T. Walters war up from Duhl Saturday.

MISS KARRYN AT ROGERSON CAFE

Miss K. Karryn, the well-known lyric soprano, opened an engagement at the Rogerson cafe Saturday evening and is entertaining the guests at luncheon and dinner hours during the auto show, at which she also sings. The cafe is open every day from 6 o'clock a. m. until 8 o'clock p. m. Adv.

John Garrett was in the city from Filer Saturday.

TALKS ON THRIFT

GETTING YOUR MONEY OUT OF THE BANK

—If the bank rendered no other service to the community than to protect its valuable it would render a useful one; but it would be a money-trap proposition, you could only go one way; but the bank makes it easier to get money out than in, and in the ordinary process of saving risks and renders benefits too often lost sight of in the busy whirl of business.

We take many things for granted and live in a materialistic age. We want our morning paper at the breakfast table with never a delay and with little thought of what it costs to collect, transmit, type, print and deliver the news. We want our train on the dot or we get impatient.

We want our milk and our coal, blizzards or blizzards. We want our bank to do our business smoothly, efficiently and without thought of the cost or the risks attending.

When your bank hands you a check book, it gives you license to draw as many checks, in as large or as small sums as you wish, with the only provision (except in certain cases where

ALWAYS in the market for good alfalfa hay, baled. John Finks, Phone 708-W.

These Twin Falls people are astonished at the INSTANT action of simple buckhorn, deer, squirrel, etc., as mixed in Adol-lin. Because it acts on BOTH lower and upper bowel, ONE SPOONFUL Adol-lin relieves almost ANY CASE constipation, sour stomach or gas. It removes such surprising food matter that a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. The Bedford-Pfleger Drug Co.—Adv.

HEMSTITCHING—10c per yard, in any color; will pay parcel post one way. Miss Louise Bissanetto, 1115 Franklin St., Boise, Ida.

Idaho, on the 18th day of May, 1914. Claimant names as witnesses: George Vrieling, Steffen Bosa, Popko Van Dyken, Harko Kimm, all of Amsterdam, Idaho.

BEN R. GRAY, Register.

CITY WATERWORKS NOW REALITY

(Continued from page 1.)
Mr. Craig, who now lives at Buhl, came to our rescue with a kettle of water which he poured into the pipe, quickly dislodging the stopper.

Well, there isn't much to tell after the company was organized and incorporated in 1905, as the rest of the history can be obtained from the records of the water company. Some of the things I hope to get a bunch of old-

timers together at a banquet, and if you are present when that takes place, you can get plenty of tales of the early days which have never been printed, but which will make interesting history.

The rest of the story of the company as told by Willard Wyatt, the water superintendent of the company for the past five years, and from the records is interesting if less romantic and amusing. The corporation received its franchise in 1905 and put its system into operation the following

year. The water was at first taken from Rock creek to the present stand-pipe, but in 1909 a contract was entered into with the canal company for water by a gravity system, which is still maintained. Fred Ramsey was superintendent for five years. This first pipe was an eight-inch affair, but in 1910 a 16-inch pipe was added and both remain in use to the present. The people desiring to establish a municipal system, endeavored to put one in after fruitless negotiation with the company, but the public utilities

commission declined to issue a certificate of necessity. Negotiations were renewed and an agreement entered, by which the company sold the system to the city for \$80,000. The people voted the required bonds by an overwhelming majority; the necessary rate was gone through, the bonds were sold at an unusually large premium, the money was turned over and the old company turned over in control to the city.

The first payment of water rent to the city was made by W. B. Eastery.

Mr. Williams will move to the water company office permanently.

GREATEST AUTO SHOW IS OPEN

(Continued from page 1.)

cold storage vault in the jail and the heart of the police judge.

Chairman DeLong then introduced J. O. Gates to accept the keys in behalf of the auto men, with the remark that the automobile makers and dealers were the most progressive in the world, since they were on hand with 1917 cars this early in 1916. Mr. Gates said that they were a lively bunch and perhaps would get into cold storage. He declared the show to be very excellent, saying that it was better in all things except size than the big show in Chicago, in as much as there were no freak cars and none which existed only on blueprints. Mr. Gates, who represents the Haynes car, had previously declared that the display of the Lind Auto company, a rival concern, was better than anything he had seen at Chicago. Mr. Gates, continuing, said that all the shows were good and worth all they cost. They gave the dealers a chance to talk to the people, and the people a chance to compare cars and pick out the one desired. Such shows tended to promote a friendly and co-operative spirit. He closed by proposing three cheers for Boyd H. Fuller and the management, which were heartily given. Then the band struck up, and Miss K. Karryn sang, and Black, the "white magician," put up some stunts, and the show was open in earnest.

Representatives of the car companies say that the show is the largest ever put on between Denver and Portland and are unstinted in praise of its arrangement. It is impossible to mention a few of the cars and pass up the rest without doing injustice, and it would take too much space to adequately describe them all. All give some sort of souvenir.

The Electric Investment company is giving a big cooking display and tonight will turn on the first floodlight ever seen in the state, in front of the tabernacle. This is precisely similar to the one used at San Francisco, at the exposition. The new Jeffery Quad, the first of the kind that has ever come to Southern Idaho, arrived this morning from Salt Lake City, carrying two tons of auto. There will be plenty doing every minute for the week.

Several cars have been entered since the list on the program was published. The following is the complete list:
Apperson, Boem & Hammerquist, Flier, Briscoe, E. B. Ripley, Flier, Buick, Lind Auto Co., Twin Falls; Cadillac, Trist Auto Co., Pocatello; Case, Reynolds Bros., Flier, Challinor, C. A. March....."Triumph of Old Glory"

WILBUR S. HILL WILL REMAIN IN TWIN FALLS

Wilbur S. Hill has opened a real estate and rental office at 137 Shoshone street North, next door to the picture shows, and is prepared to handle all sorts of business in that line. Mr. Hill is back from a two month trip, during which he visited a number of projects in the mountain states and in California, and became convinced that there is nothing like the Twin Falls tract to be found here, hence he has again cast his anchor here. It would be "carrying coal to Newcastle" to endeavor to tell the readers of THE TIMES anything in regard to Mr. Hill, who is known to them all, and whose residence of 11 years in Twin Falls makes him especially competent to pass upon the value of real estate in the city and surrounding country. There are many expressions of pleasure voiced by the people over the fact that he has determined to remain in the city with the establishment and growth of which he has been so intimately identified.

See at our Salesroom
the Car that DETROIT Likes
Better than any other in the World

In Detroit, where people KNOW cars, more Studebakers are in use than any other cars listing at more than \$500.

This is significant.

For the simple reason that Detroit is the Home of Automobiles. More than three-fourths of the cars manufactured in the United States are made in Detroit.

In Detroit a BIG percentage of the residents are either directly engaged in the motor industry—or come into DAILY contact with people who are.

They talk cars. They study cars. They hear gossip from all the great factories established in the city. They know the plants and the efficiency of the manufacturing organizations. They know the men back of the cars.

And as a whole, knowledge of automobiles is far more general and EXACT in Detroit than in any other city on the earth.

So when you know that for the entire year of 1915, registrations in Detroit showed MORE Studebakers in use than any other cars selling at more than \$500, it can mean but one thing: that to the people of Detroit, people who KNOW cars and who KNOW VALUE IN CARS, Studebaker offers the top value of the market!

And this fact is all the more significant when you know that Studebaker has only been selling cars in Detroit for about half as long as its nearest competitors have.

In half the time, Studebaker has outstripped them all, and today you go to Detroit, and you find more Studebakers on the streets than any other make of cars costing over \$500.

Be sure to see the new SERIES 17 Studebakers at the show—The Cars of the GOLDEN Chassis.
