

CITY COUNCIL HEARS SPRINKLING KICKS

No Protests Registered Against Supplemental Ordinance

NEW MAN ADDED TO THE FIRE DEPARTMENT OF CITY.

A. H. Corbett Permitted to Continue Improvements on the Old Smith Property.

The city council met in a short session Tuesday night for the purpose of hearing amendments to the supplemental sprinkling ordinance, which provides for the extension of sprinkling to streets not covered by the original ordinance. There were no objections offered and the ordinance will go on final passage at the next council meeting.

The council passed a resolution authorizing the hiring of an additional man on the fire department. Jack Jordan was later selected for the position. This makes a force of eight men. Mr. Jordan was on duty last night. The new arrangement will allow each man and hour for meals and will increase the vacation given every eight days from 12 hours to 17 hours. It will also allow Chief Carlson to make inspections on new buildings without depleting the force so much that it might be insufficient. The fire department has had its present number of members for the last five years, but the city is now growing and the fire risks greater. Moreover there has been complaint continually over the short time allowed for meals.

A resolution was passed favorably on the finishing of the improvements begun by A. H. Corbett on the old site of the Smith Furture company, opposite to the postoffice. Work was stopped there Tuesday afternoon by Fire Chief Carlson who thought that it was contrary to the fire ordinance. The council held that the improvements made lessened rather than increased the risk and were therefore permissible.

The city was officially astonished this week to learn that it was the owner of a fine team of horses which had been acquired with the waterworks system and which was out at pasture on the Wyatt ranch. The city has a team to sell.

PRESBYTERIAL ELECTS OFFICERS FOR YEAR

Interesting Session Largely Attended by Delegates From Several Churches.

The Presbyterian Women's Missionary society meeting of the Twin Falls district closed Tuesday night after a very successful session, which was attended by a pleasant view, Marion, Heyburn, Jerome and Burley. The addresses and talks by Mrs. Aldrich of Oakland, Cal., and Mrs. McElroy of Burley, were of a most instructive nature. The election of officers resulted in the following selections: President, Mrs. George Driscoll, Twin Falls; first vice president, Mrs. McCluskey of Burley; second vice president, Mrs. Campbell, of Heyburn; third vice president, Mrs. Quay, of Jerome; fourth vice president, Mrs. Burney, of Wendell; fifth vice president, Mrs. Anderson, of Burley; sixth vice president, Mrs. Evans, of Maroon; corresponding secretary, Mrs. J. A. Johnson, of Twin Falls; recording secretary, Mrs. H. J. Young, of Twin Falls; young people's secretary, Mrs. Snyder, of Heyburn; secretary of literature, Mrs. Shoddy, of Burley; secretary of box work, Mrs. McCormick, of Rogerson; treasurer, Mrs. Ford, of Wendell.

The next meeting will be held some time in the spring of 1917 at a time and place to be selected by the executive committee, which is comprised of the officers of the organization.

PETITION TO PAVE SHOSHONE CIRCULATED

Asher B. Wilson and Others Will Ask Council to Act—Would Park Street Center.

Asher B. Wilson is out securing papers for the paving of Shoshone street toward the city limits and expects to have the required petition ready to present to the city council at its next meeting. The idea of paving that part of the street seems to be meeting with favor everywhere. Mr. Wilson brought the matter before the city council Monday night but that body, while it seemed favorably inclined, was not able to act except in emergency, without the required petition.

FORFEITURE OF BONDS DECLARED BY LAND BOARD

Summary Action Taken Against National Surety Company and Title Guaranty & Surety Company.

Forfeiture of three bonds aggregating \$70,000, was declared by the state land board at its meeting today. The attorney general was ordered and directed to proceed forthwith to bring suit against the National Surety company to recover the amount of the bond, or \$25,000, given by it to the promoting company, to assure completion and carrying out of the contract with the King Hill extension project, and against the Title Guaranty & Surety company to recover the \$20,000 bond given in the King Hill project, and \$15,000 on the Blaine county project.

This is the first time that the state, through the land board, has taken definite action of this kind, or to recover on the bonds given as a guarantee for the completion of an irrigation works. In all three instances and with relation to all three projects it is alleged that the contract was not carried out so that the promoting companies became defunct and that the state and the settlers suffered.

Governor Alexander introduced the resolution calling for this summary action. The other members of the board stood behind after some little discussion. The resolution was turned over to the attorney general to have the form slightly changed. The surety companies will be notified and the attorney general will, it is understood, proceed immediately to bring the three separate actions.

The King Hill project is now the property of the state. It was purchased under the homestead act and is now under the jurisdiction of the federal court. Since then the state has had a manager in charge of its affairs. The state has advanced from the Carey act fund considerable money to help keep the project on its feet. So far this effort has been successful. The state has advanced for the project is some of the best in the state.

During an argument before the supreme court in litigation wherein an individual action brought suit to recover on the bond of the promoting company, it is said to have been openly admitted that the only party that could possibly have jurisdiction on such a bond was the state. The state has decided, through the land board, to test this matter out.

The only excuse the state has so far been given for its action is that it was why the state had not brought suit before was that more harm would be done the actual settlers on the projects by so doing than could be repaid even if the amount of the bonds was secured.

DUBLIN QUIET AND SNIPERS HUNTED DOWN

Train Communication Is Still Interrupted. Prisoners Being Taken to London for Trial.

Quiet reigned in Dublin today. There was little traffic and the thoroughfares were still strongly held by the military forces of the government. Only a few sniping shots were heard Sunday. It is assumed that the Sinn Feinners still at Liberty have hidden their arms after using all their ammunition and rejoined the ranks of peaceable citizens.

Soldiers are completing a thorough search of the city and it is hoped that within a few hours they will account for the last snipers, a small band of rebels which has been causing a diversion in the neighborhood of Ball bridge. This band was subjected to artillery fire Monday afternoon. A few of the rebels are holding out. Train communication still is interrupted.

SALARIES RAISED BY THE COMMISSIONERS

Deposits in Office of County Clerk and Deputy, Sheriff Get Increase.

The salary of W. G. Thompson, deputy sheriff, and I. E. Finney, E. A. London and S. Claud Stewart, were raised yesterday by the board of county commissioners. Thompson gets a salary of \$12.50 a month, making his salary \$125 a month. The others named got a raise of \$7.50 to \$12.00 a month.

The commissioners inspected the barn on the jail windows today and found that the barn had been covered with mortar. They will be fixed at once.

DELEGATION TO GO TO CASTLEFORD

Body of Merchants and Citizens to Talk Railroad to Talk Railroad

EVERYONE INVITED TO JOIN THE CROWD AND GET ACQUAINTED.

Much Interest Manifested in Railroad Movement and Belief Is That It Will Succeed.

As a result of the meeting Monday evening a delegation of citizens of Twin Falls will visit Castleford next Monday evening for the purpose of conferring with the people there relative to co-operation in the building of the road. The movement here which was largely inspired by the activities of J. A. Crom, is rapidly spreading and everybody is sitting up and taking notice. The work of the movement has been temporarily discontinued but will be resumed in a few days. The idea is to have somebody make a business to see everybody who might be interested in this city and co-operate with the people along the line to the fullest extent. While Harry Hooker said at the meeting Monday that Vice President Calvin of the Oregon Short Line stated to him that they would neither promise to build the road nor to buy it if it were built, there is a feeling that if the road were constructed or if there were the proper amount of local capital behind the proposition, the right of way secured, the company might look at it in a different light. The company has figured on building this road twice this year, as the TIMES stated sometime ago, a statement which was corroborated by the declaration of Mr. Hooker that the company had decided to temporarily defer action seems probable from the fact that the company has not yet taken any action in taken promptly by the citizens of this city and by others interested.

While the movement has the endorsement of the Commercial club the excursion will not be exclusive with a car or who can ride in somebody else's car, as it is believed that it will be to the commercial club and the people of this city and of Castleford for them to all become acquainted.

MUZZLING ORDER IS BEING ENFORCED

Many Dogs Are Killed—Those Who Keep Dogs Fastened Up On Their Premises Immune.

A ruling of the county attorney to the effect that it was questionable whether the muzzling order could be enforced against those who kept their dogs fastened up on their premises resulted in the dropping of several criminal actions brought by Deputy H. G. Jackson Tuesday. This order applies to those who keep animals run at large. The county attorney did not hold the order positively but in the cases named but said that he would endeavor to have the building. They saw the particular case involved was that of a man had his dog fastened up in his barn and who did not know of the existence of the muzzling order.

In the meantime there are reports on rabies coming in from divers sources. Urie and Hunterford were trapping in the neighborhood of Rogerson and Shoshone Basin, report that during the past week they have killed 19 young and 11 old coyotes, one of the latter being a female. They saw the carcasses of more than 125 head of stock during the time, though whether these died of hydrophobia or from other causes they were unable to say.

Deputy H. G. Jackson reports that he killed 10 dogs Saturday without muzzles and eight yesterday. He is going after all loose dogs without muzzles, and all dogs whose loose or that have been fighting with a rabid animal.

IDAHO: HOGS BOUGHT FOR MAKING SERUM

Oregon Buyer Purchases Nearly 700 Head From Jack France and Ships Them.

Dan Meyer, a well-known Oregon hog buyer, who is now purchasing hogs suitable for the making of cholera serum, found that the animals raised on the Twin Falls tract rank with the best for the purpose. This week he bought 689 from Jack France and shipped them to Kansas City for the purpose named. The hogs averaged 100 pounds apiece and were a cross between some very good ones which had been raised by Mr. France and others bought by him.

SHEEPMEN TO MEET IN CITY SATURDAY

Final Organization of Local Association Planned.

ARTICLES OF ASSOCIATION TO BE SUBMITTED TO MEMBERS.

Warehouse Room For Wool on Hand To Be Discussed—All Urged to Join.

A meeting of the local organization of sheepmen has been called for Saturday afternoon at 2:00 o'clock at the rooms of the Twin Falls Commercial club by its president, C. L. DeLong, for the purpose of adopting articles of association and by-laws and for the securing of warehouse space for the collection and segregating of wool by the members and for the transaction of such other business as may come before it. All sheepmen are urged to join this organization, which it is believed will not only assist in the marketing of wool to better advantage, but will be the means of securing equitable adjustment of freight rates, when such adjustment is needed. At present there is between three and four carloads of wool in the hands of prospective members, and the officers hope that still more can be secured, through increasing the membership of the association.

RARE TREAT FOR TWIN FALLS PEOPLE

20th Century Club to Present "The Butterflies," Monday Evening, May 8, Twenty-five Piece Orchestra.

Society will be present at the Lavering next Monday evening. A crowded house will greet John Drew's and Maude Adams' famous play given here on May 8 by local people of talent if the demand for tickets is any criterion by which to judge. The play, as its name implies, centers around a group of society "butterflies," who have flown to Florida for a winter frolic. Miss Nona Paris, who plays the lead in a charming manner and her mother, a part taken by Mrs. Burton Morse, are visiting at the palatial home of Mr. Hiram Green, an honest soul with much money but little love for society. Boyd Fuller will bring down the house in this part without half trying. Mr. Green's daughter and son, parts taken by Miss Irene Woods and Albert Bennett, fully realize their father's odd ways and endeavor to help him win his social pit falls with the usual results.

Mrs. W. H. Dwight, a pretty widow with lots of debts and a spendthrift son, played by D. H. Wooden, has trying times trying to avoid bill collectors—one of whom, a French tailor, follows her to Florida. Mr. Carl Sove handles this part in an admirable manner. The character of Andrew Strong gives Mr. Douglas Duckner a chance to do strong character work. Coddles, an aristocratic English butler, will be one of the hits of the evening in his attempts to correct his master's bad habits and a spendthrift role and needs no introduction.

Wilfred Olson is staging and directing the play. The Citizens' Electric Co. is doing some very smart writing on the stage and promises surprises in the lighting effects.

Jack Thorpe has organized a twenty-five piece orchestra for the evening, both directors and players donating their services to the club ladies.

Tickets on sale at Skeels-Wiley, 75c and \$1.00. All seats reserved.

MUCH DEPENDS ON KELLEY THIS YEAR

Baseball Teams of Other Towns Likely to Show Good Form—Interest Increasing.

Following the organization of the Southern Idaho League last night and there a great deal of interest and activity manifested and the people of this city felt that they should get in behind Manager Kelly and help him keep the pennant. This sentiment was freely expressed this morning. The fact that Tyler Christin is open to engagement with other teams is interesting in many years, and should the Kimberly aggregation show the same sort of material that they did last year and make the Oakland team in addition, Twin Falls would have all sorts of time getting through. There is much confidence expressed in Kelly, who did some very marvelous pitching last year, and who won the pennant for American Falls a few years ago. It is an old player from the Kearney State league of Nebraska, and has always made good. That he will prove the Moses of the Magic City is the belief and hope of the friends of the diamond here.

The feeling, however, is that unless properly backed, the best of management will not avail and if the local boys act as they talk, they will get the hint in backing the manager.

TWIN FALLS HIGH PLAYS KIMBERLY TOMORROW

Local Boys Will Attempt to Even Up As Kimberly Took the First Game. Fast Game Expected.

Tomorrow afternoon at 3 o'clock the Twin Falls high school team will meet the local Kimberly bunch at the local ball park. This Kimberly boys took the last game from the local high school, and the local boys promise to recover their lost honors on this occasion.

The local team has been handicapped by not having enough games to put it in good trim. The work of the team has also been broken up or less by the senior class exercises and other school activities which have prevented the boys from working out more than a couple of times each week.

The probable line-up for Friday's game follows: Linville, catcher; Fix and Pettit, pitchers; Newman and Thomas, first; Leland, second; Heath and Bigger, third; Pettit and Tottel, short; Newman and Potter, rf; Heath and Bigger, cf; Rowberry, lf.

SIX TEAM LEAGUE FORMED LAST NIGHT

Delegation From Five Outside Towns Attend Meeting

BUHL FAILS TO APPEAR AND SHOSHONE GETS PLACE.

Constitution and By-Laws Drafted—First Game Here Between Kimberly and Home Team.

The baseball meeting called last night for the parlor of the Perrine hotel overflowed that room with enthusiastic fans and on adjournment to the rooms of the commercial club, organized a six-team league with M. J. Macaulay, of Twin Falls, as president, Rupert, Jerome, Shoshone and Twin Falls. The omission of Buhl was due to the fact that no assurance had been given by that city that grounds would be available, and the fact that there was no representative present at the meeting.

In calling the meeting to order at the commercial club, M. J. Macaulay said that the proposition was to organize a six-team league, naming six clubs and including Buhl, but leaving out Shoshone—a club from Shoshone. He said that they were present to try to gain admission but if they were to be ruled out they wanted to know it. The chairman said that the club that he had named had been consulted and while it possible he would be glad to see Shoshone in, as every club would be victorious that would mean that still another town would have to come in as it would mean eight instead of six teams. The manager of the league would have to be even. He called for nominations for permanent chairman, at which a delegate from Shoshone moved the Dr. C. Zeller of Shoshone be made president. The mover said that he desired to force a ruling on whether they would accept or not. If not they would withdraw. At this point Tyler Christin, who has been working up the league, arose to make an explanation. He said that he had spent Tuesday afternoon and night in the west end city and found that they were up in the air about grounds and that he could not promise anything definitely. Some had expressed the belief that they could not get grounds and as a whole the situation was not certain. His personal opinion was that Buhl would not come in. They had promised to have a representative on the ground at a meeting of the different towns. He had appeared and no word had been received from them. He had not been to Shoshone but had visited the place and Buhl had given encouragement and were represented. The chairman wanted to put the matter to a vote, but the admission of Shoshone over until after the regular organization was formed, but Shoshone insisted on a ruling. He said that he was sure that they were considered in the meeting to the extent that their nominee for chairmanship would be recognized.

At the close of the meeting a delegate from Shoshone put the matter to a vote. M. J. Zeller said for chairman, at which point Dr. Zeller said that Shoshone, having gained his point by being recognized as participating in the meeting, he would withdraw his name in the interest of Mr. Zugg, whose election was then made unanimous. R. G. Atkinson of Kimberly, who acted as temporary secretary, was selected as permanent secretary.

A committee consisting of E. G. Bennett of Jerome, W. E. Atkinson, Burley; A. E. Kelly, of Twin Falls; L. H. Atkinson, of Kimberly; L. H. Higgins, of Rupert; and Fred J. Hill of Shoshone, was then selected to work out the details and endeavor to agree on terms and draft a constitution and by-laws.

Mr. Christin has been at work for some time and whose election as president of the league was suggested, then the league was organized. He proposed to manage the league for the season for \$150 and expenses, allowing time between the clubs. Under the plan, 25 per cent of the gate receipts would go to pay all expenses and the balance would be divided equally between the players.

After some talk, the league was organized and a new plan arranged whereby the expense of the president is eliminated, and M. Christin is then put in as president of the league. It is open to any man from any of the clubs and may stand with the league or not. The plan was adopted and the league was organized.

MISS MCCOY TO QUIT OFFICE AT CLOSE OF TERM

State Superintendent of Public Instruction Will Decline to Accept Re-nomination.

Miss Bernice McCoy, state superintendent of public instruction, has announced that she will not be a candidate for re-nomination for the office which she has filled with such dignity and capability as to win the admiration and respect of her associates on the state board of education, the state board of land commissioners and all with whom she has come in contact during her tenure of office.

At the close of her term she will leave the state board of education to complete a post-graduate course in school administration and theory of education, which she commenced in 1909 and continued in 1910. She expects to spend one year in that institution of learning. Her plans beyond that time have not been formed.

ELM PARK WELL GETS HIGHEST COMMENDATION

All Things Considered, Ahead of Blue Lakes, Says State Chemist in His Report.

Returns were received yesterday afternoon by Mayor E. M. Sweet from the analysis made by the state chemist on water submitted on July 15, 1915, to the state department of chemistry, from the wells at Elm Park, Blue Lakes, Devil's Corral, Rogerson Springs and Clear View Well. The report on the water from the wells considered the analysis shows the Elm Park well to be best, Blue Lakes second, Devil's Corral third, and the Clear View Well fourth. The water from the wells was well or the Rogerson spring, but it is noticeable that no commendation is given the city well specifically on any subject on which the test was made.

After some talk, the league was organized and a new plan arranged whereby the expense of the president is eliminated, and M. Christin is then put in as president of the league. It is open to any man from any of the clubs and may stand with the league or not. The plan was adopted and the league was organized.

NIGHT STAGE TO ARTESIAN CITY

N. McCracken is planning to run an auto stage to Artesian City Wednesday and Saturday nights for the dance.

IDAHO: HOGS BOUGHT FOR MAKING SERUM

Oregon Buyer Purchases Nearly 700 Head From Jack France and Ships Them.

Dan Meyer, a well-known Oregon hog buyer, who is now purchasing hogs suitable for the making of cholera serum, found that the animals raised on the Twin Falls tract rank with the best for the purpose. This week he bought 689 from Jack France and shipped them to Kansas City for the purpose named. The hogs averaged 100 pounds apiece and were a cross between some very good ones which had been raised by Mr. France and others bought by him.

TROOP NOT TO BE WITHDRAWN

Will Remain in Mexico Until Badits Have Been Completely Dispersed

DE FACTO GOVERNMENT RESTIVE UNDER DECISION

Scott and Funtun Study Instructions From Washington—Supplies Go Forward by Freight

WASHINGTON—The cabinet held a brief session today, discussing the German and Mexican situation. Secretary Lansing said afterward that no steps were in contemplation to hurry Germany's reply to his last note on a submarine. It is expected that this week.

Secretary Baker said he had no new information from Gen. Scott at Juarez and did not know definitely when the next conference with Gen. Obregon would be held.

After the cabinet meeting officials reiterated there was no change in the plan of the American government to keep the troops in Mexico until the bandits were completely dispersed.

The first fighting in the Carranza campaign against Zapata forces in southern Mexico was reported today in the state department dispatches. A considerable Carranza force attacked a Zapata band near Acapulco, the west coast seaport of the state of Guerrero, but results of the engagement were not stated.

Release of 19 cars of forage and foodstuffs destined for Gen. Pershing's forces was reported today from Chihuahua City. These cars were recently sent by private shippers at El Paso. Gen. Scott and Funtun at the Mexican border today had further instructions from Secretary Baker at which it was expected they would resume negotiations with Gen. Obregon, Carranza's war minister.

These orders do not alter the administration's attitude toward maintenance of troops in Mexican territory it is asserted.

Although no formal demand has been made by representatives of the facto government for the withdrawal of American troops, the administration has been instructed to discuss with administration officials here, in laying emphasis on the declaration that longer occupation of Mexican territory is reducing the de facto government's authority.

Macaulay Buys Filer Cane—W. H. Macaulay has bought the delicatessen conducted in Filer by J. A. Kilpatrick, taking charge Monday. The place will be named "Macaulay's" and a full line of cigars carried in connection with the other articles for sale.

The Smoke That Wins!

Its stirring appeal to the live, active, youthful spirit makes "Bull" Durham the tobacco that goes with energy and enthusiasm. Roll "Bull" Durham into a cigarette and you have a smoke that is full of vitality and vim and deliciously fresh and fragrant.

GENUINE "BULL" DURHAM SMOKING TOBACCO

In no other way can you get so much solid enjoyment out of a cigarette as by "rolling your own" with "Bull" Durham. Made of "bright" Virginia-North Carolina leaf, "Bull" Durham has an aroma that is unique and a mellow-sweet flavor that is unusual.

Start "rolling your own" with "Bull" Durham today for real smoking satisfaction.

ISSUES STATEMENT TO WATER USERS

Management of Salmon River Canal Co. Announces Allotment For Season, First Run Early in May.

The Salmon River Canal company has addressed a circular letter to water users on the Salmon tract, making a temporary allotment of one acre foot for the season, and advising that further allotments will be made as the run-off of the Salmon river progresses. The notice follows:

"Notice is hereby given that water for the irrigation of grasses or other crops requiring early water will be turned into the Salmon River canal system about May 1, or shortly thereafter; the run to continue for about 16 days. The time of starting the next run will depend on the weather, condition of crops and desire of the majority of the users, notice of which will be duly given.

"The acreage that will be in crop for the season of 1916 is not at this time definitely known, but a canvass of the tract to determine the cultivated area will be made as soon as possible.

"The available storage in the reservoir at this date is 35,000 acre feet. The gain in storage has been at the rate of from 700 to 800 acre feet per day for about four weeks, and it is likely that this run-off will continue for several weeks longer.

"The officers of the Salmon River Canal company, with approval of the board of directors, feel safe in making at this time an allotment of one acre foot per acre; subsequent allotments will be made as the run-off progresses and the crop requirements develop.

"Allotments will be computed upon the basis of the share of water in which maintenance has been put in full, each share or acre being entitled to a delivery of one acre foot, or a water for each acre, subject to reasonable restrictions and regulations for beneficial and economical use of the water. The wanting of water upon lands or into the canal system will be considered evidence that too large a head of water is being delivered.

"Measurements of head used will be made at frequent intervals, and the total quantity used by each shareholder will be computed and memorandums issued at the end of the run. The allotments used during the run will be deducted from the shareholder's total allotment for the season. When the full allotment for any entry is delivered, the water for that entry will be shut off, but it is not expected that any user will draw his full allotment during this first run.

"The heads will be governed by the capacity of the system and the ability of the user to take care of the water efficiently, and as far as possible the water will be shared equally and fairly. Users are asked to give as much notice as possible in advance of their requirements so that withdrawal of water will be made intelligently estimated, the distribution efficiently regulated and waste or shortage prevented, as far as possible.

"It is hoped that water users have their ditches cleaned, regulating devices in good order and land well prepared to receive water, and commence use of water at beginning of run in order to get over their land within the period during which water is in the system. It is very important that diligence and care be used in handling water and every effort made to avoid waste. The co-operation of all water users is asked in the prompt and intelligent application of water, in order that the most beneficial results may be obtained from irrigation.

"It should be in mind that water used now will lessen the available supply later, when it may be more urgently needed, and it is pointed out that users that it will be the part of wisdom to draw against their allotments only such amounts as will meet present necessities."

KING OF SPAIN MAY ARBITRATE SUBMARINE ISSUE

Movement On Foot For Mediation, Ex-Chancellor Von Buelow Is Urging Concessions

LONDON, May 2, 10:45 a. m.—A dispatch to the Exchange Telegraph company from Amsterdam today says it is suggested in political circles that the King of Spain will be asked to arbitrate the submarine question between the United States and Germany.

Diplomatic circles in touch with Germany believe that the reply to the American note will be delivered on "Thursday," the dispatch says, "but that in all probability it will not be in the nature of a final reply. They expect Germany will make counter-proposals regarding the establishment of new rules for submarine warfare."

"Ambassador Gerard arrived in Berlin early this morning."

PROPER USE OF BRAKES AND CLUTCH SAVES TIRES

The effects of sudden use of the brakes after day is found to damage tires by wearing the tread too fast and straining the beads and side walls. The cause of this is that the car is thus overtaxed, and little by little reaches the breaking point. Brakes should always be applied gently, and gradually, and the clutch should be pulled up your car within a short distance, the car should be stopped as gradually as possible.

Another important point in driving is the proper manipulation of the clutch. In starting never slip in the clutch suddenly, with a jerk, but gently, and evenly, until you have secured the mechanism of the car as well as the tires.

Corners should always be taken carefully at reducing speed with little or no use of brakes. As a last word, it should always be remembered that tires are rubber and should be kept cool, and that to get the maximum tire service the tires should be treated properly.

Time want ads bring results.

CATTLE MARKET STILL STANDS AT STEADY

Sheep Somewhat Lower and Hogs Reported Weaker—Grass Steers Arrive.

Light cattle receipts had little effect on the general cattle market, says the Live Stock Reporter of Monday. Local transactions, owing to the light showing, were on a rather listless basis. Sellers and buyers claimed that the market was steady.

Outside of a few scattering sales on the best stuff the market was inactive all forenoon.

Cows ruled active and firm. They were scarce.

Veal calves are unchanged on light receipts today.

The first California grass steers of the season arrived today, and went over the scales early a pretty fair figure—seven ninety and eight ten.

For first run of this class of steers salesmen considered them well sold.

Thin steers went at the old price of nine cents.

Spring lambs or any other kind of lambs are still scarce. No change of any consequence. Showings are not getting as wide a spread here as at some other points. A dollar and a half made is the rule.

The morning estimate of hogs showed 4257 had been unloaded over Sunday. This is the largest day's receipts for some time.

Early trading was brisk and offerings moved at the start off on a \$9.10 to \$9.15 basis. Quality shown was rather spotted.

Good hogs were offered and a considerable number of ordinary quality.

Before noon one load got over at a \$9.20 price.

Telegraphic reports indicate a generally lower market in the east.

Steer quotations are: Choice grass and mixed, \$8.75 to \$9.00; choice fed, \$8.50 to \$8.75; good, \$8.00 to \$8.35; medium, \$7.50 to \$7.85; ordinary, \$7.00 to \$7.50; common, \$6.50 to \$7.00.

Cow quotations are: Choice, \$7.50 to \$7.80; good, \$7.25 to \$7.50; medium, \$6.75 to \$7.00; ordinary, \$6.25 to \$6.50; common, \$5.75 to \$6.00.

Heifer quotations are: Choice, \$6.50 to \$6.80; good, \$6.00 to \$6.30; medium, \$5.50 to \$5.80; ordinary, \$5.00 to \$5.30; common, \$4.50 to \$4.80.

Stag quotations are: Choice, \$6.50 to \$6.80; good, \$6.00 to \$6.30; medium, \$5.50 to \$5.80; ordinary, \$5.00 to \$5.30; common, \$4.50 to \$4.80.

Feeder quotations are: Best selected, \$5.00 to \$5.25; good, \$4.75 to \$5.00; medium, \$4.50 to \$4.75; ordinary, \$4.25 to \$4.50; common, \$4.00 to \$4.25.

Other varieties, \$5.00 to \$5.25.

Ball quotations are: Choice, \$5.50 to \$5.80; good, \$5.00 to \$5.30; medium, \$4.50 to \$4.80; ordinary, \$4.00 to \$4.30; common, \$3.50 to \$3.80.

Stag quotations are: Choice, \$6.50 to \$6.80; good, \$6.00 to \$6.30; medium, \$5.50 to \$5.80; ordinary, \$5.00 to \$5.30; common, \$4.50 to \$4.80.

Feeder quotations are: Best selected, \$5.00 to \$5.25; good, \$4.75 to \$5.00; medium, \$4.50 to \$4.75; ordinary, \$4.25 to \$4.50; common, \$4.00 to \$4.25.

DAIRYMEN FIND SILOS INDISPENSIBLE

Half-mile of Live Stock Increasing Use of Silos, Economy and Better Feeding Gained.

"We are feeding 50 cows and our 250 tons of silage has saved us 135 tons of hay in eight months, or \$12,500."

This is the result had by John Gott, proprietor of the Sanitary dairy this last season with his two wood stave silos of one-hundred and thirty-ton capacity each.

Mr. Gott figures that his silage cost him \$2.20 in the silo, including rent of land at \$10.00 per acre and all labor. His yield was about 15 tons per acre. Were it not for this silage Mr. Gott figures he would be paying \$9.00 per ton for alfalfa hay, and hauling it nine miles.

H. H. Sherman, owner of the Blue Ribbon dairy, is also a silo user. His farm having two large silos, S. S. Neher has sixty silos on his ranch just south of the city, from which he is feeding sheep with unusual success.

F. C. Boone and A. C. Boone, in the seed and grain business, have sixty-ton silos. M. E. Thomsen, whose farm is near Godwin, is the owner of another large silo, as is W. O. Jockey.

Speaking of the increase in the use of silos, T. A. Borman says in the presence of the stock farmer must come to the silo. The farm must carry more live stock. Continued market grain growing will bankrupt the farmer and his silo in this as in other states. Successful growing of live stock necessitates better feeding and greater economy in feeding. In this the silo is supreme.

Through live stock we market our products at home in the finished product. We cannot market our corn stalks and hay in distant cities, but we can supply the world with meat and stock products. Live stock husbandry gives us year-around employment, converting idle time during the winter season into profitable labor. We grow feed crops for live stock which do not exhaust the soil's fertility as do grains for the market. Cattle, horses, hogs and sheep grow nights and Sundays, every day in the year. Every portion of our state will grow feed abundantly. A portion of the state will only occasionally grow grains for market in profitable yields.

The silo is the one farm building needed to successfully bring together our feed crops and live stock, and complete a unit which will increase our prosperity.

To Chicago on Wheels—H. C. Campbell and L. S. Mason, two Boise young men, were in the city yesterday on their way to Chicago on wheels to attend college next winter. They left Boise Monday morning. They expect to work their way as they go and arrive in the Windy City in August.

Campbell goes to the Effingham college of photography while Mason will attend the Northwestern University.

INSTANTLY KILLED IN AUTO ACCIDENT

Pocastello Man Thrown From Rear Seat When Car Hits Bump, Skull Crushed.

POCASTELLO, Ida.—Sunday afternoon W. I. Sell, an old time resident of Pocastello, was thrown from an automobile on the road about one mile and a half the side of Idaho Falls, and instantly killed.

In the morning Mr. Sell left with Mr. McGarvey, Jr., Aaron Elliott and Mr. Elliott's two children, for a trip to the Falls. After spending the day in that city they started back to Pocastello in the evening. Mr. Sell was riding in the back seat with Mr. Elliott's little boy and girl, and as the car was on a smooth stretch of road it is stated, was moving at a good clip.

Mr. Sell rose in the back seat and leaned over the shoulder of young McGarvey who was driving the machine in order to look at the speedometer. It is said that he had his hand on the rod on the back of the front seat but the car struck a slight bump in the road about a yard wide and in some manner he was thrown out.

From the appearance of the body Mr. Sell must have fallen on his head, as the skull was crushed to a pulp.

OLD INDIAN CHIEF AND DOCTOR STREPHEN AT GROWTH OF CITY

Dr. A. J. Wah Wadto, Chactaw chief and doctor, who advertises that he will pay \$500 to anyone who will prove he is not the only chief and doctor of the Chactaw nation who travels the states, arrived in town yesterday.

The old doctor says that he is 77 years of age, but does not seem to feel it, and remarks that he has a father 107 years old and a mother 105 years old, besides 19 brothers and sister all alive and well.

Dr. Wah Wadto dresses in the old time frontier style, wears numerous badges of historic interest and wears a large red cross on his arm. He says that he was one of the first to enlist in the International Red Cross society and that he has been in five wars; the civil war and the Spanish-American war, in the country and in the Boer war, the Armenian trouble and the Boer uprising abroad. He tells an interesting story of his work in connection with Buffalo Bill and others about the time of the Custer massacre and relates incidents and anecdotes about events which he personally knew, including Kit Carson, Wild Bill, Texas Jack and other celebrities, known to the younger generation only through story books. Incidentally, the doctor says that the growth of Twin Falls since he was here five years ago is something marvellous, and that it seems only yesterday when this pony express brought passengers to the old log hotel.

BUHL CHRISTIANS TO HAVE NEW CHURCH

Three Lots Purchased and Work Will Begin Shortly—Membership Largely Increased.

Rev. W. E. Harman went to Buhl yesterday to participate in a meeting to take preliminary steps toward the erection of a large Christian church in that city. There was a membership of 60 in the church in that city before the beginning of the Oliver meetings, since which time it has increased nearly 100 per cent. Three lots have been bought on Broadway and work will shortly begin on the building.

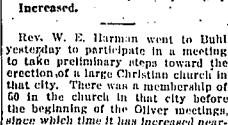

To Chicago on Wheels—H. C. Campbell and L. S. Mason, two Boise young men, were in the city yesterday on their way to Chicago on wheels to attend college next winter. They left Boise Monday morning. They expect to work their way as they go and arrive in the Windy City in August.

Campbell goes to the Effingham college of photography while Mason will attend the Northwestern University.

Cottolene

"The Natural Shortening"

How to make the best doughnuts you ever tasted

A really good doughnut is one of the choicest delicacies that can be set upon a table.

Doughnuts shortened with and fried in Cottolene have an appetizing flavor and a wholesome goodness that cannot be equaled.

Cottolene is a real aid to digestion. Hence doughnuts that are made in accordance with the accompanying recipe not only look tempting and taste good, but can be eaten with thorough enjoyment by any one.

This is true of all foods prepared with Cottolene, the Natural Shortening.

Arrange with your grocer for a regular supply. Pails of convenient sizes.

Write our General Offices, Chicago, for our real cook book, "HOME HELPS."

THE R. E. FAIRBANK COMPANY

"Cottolene makes good cooking better"

To a pint of risen bread dough work in a cup of sugar beaten with two eggs and one teaspoon of melted Cottolene. Mix a little nutmeg or cinnamon with one fourth cup flour; add this and enough more flour to make a stiff dough. Roll and cut and let rise for half hour. Then fry in deep hot Cottolene.

Reliability

OUR absolute faith in the Maxwell car is due to two reasons:

First, we have known that the Maxwell Company uses nothing in the entire car but the very best that money can buy. We have known that the steel is scientifically heat treated, that the car is built under the supervision of able engineers, that every car is rigidly tested many times before it leaves the factory.

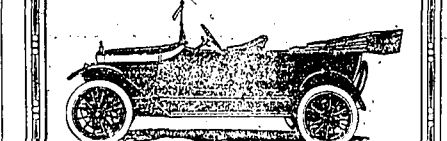

Second, we have known that the big and well established company behind the car is building for the future, that they value a satisfied owner above everything else.

Now that the Maxwell has set the World's Motor Non-Stop Mileage Record, by travelling continuously for 44 days and nights—averaging 500 miles per day—you will understand the benefits you personally may derive from the Maxwell policy. Did you ever hear of any car going 22,000 miles without once stopping the engine, without any repairs or readjustments, with only one gallon of gasoline to every 22 miles?

There is no reason why you shouldn't have a reliable, serviceable and economical Maxwell car. The first cost is low, the operating cost is low and the health and happiness dividends are big.

Let us see you about this now, before our allotment is exhausted.

Touring Car, \$655. Roadster, \$635

Look Around You

Who are the most successful men you know? What is their strongest characteristic? They're shrewd, of course. They have brains and determination; but did you ever see a highly successful man—a man "who made it all himself," who does not preach and practice thrift?

A little letter covered both with the name of a bank on the cover has started many a man irresistibly toward success. Have you one at this strong bank?

TWIN FALLS BANK & TRUST COMPANY

Murtaugh News

Times' Special Correspondence.
Mr. and Mrs. Nelson were shopping in Twin Falls Thursday.
Mrs. Hunt and Mrs. Kendall were in Twin Falls Thursday.

Mrs. Carl Fredericksen was operated on for appendicitis Thursday at the Twin Falls hospital. She is better at present writing.

Mrs. R. R. Kendall is in the P. & S. hospital where she underwent an operation for gallstones Saturday. The operation was performed by Dr. Norton. Charley Miller is home again and much improved.

Mrs. James Boyd and son Kennedy arrived in Murtaugh Friday from their home in Estes Park, Colo., to visit with her parents, Mr. and Mrs. Julian Johnson.

Gertrude Johnson spent Saturday and Sunday with her grandparents here.

Fred Wacholtz purchased a Ford last week.

Mrs. Lulu Lewis is visiting her father, Mr. W. B. Hall, and sisters.

A good program was given by the young people at the L. D. S. church Friday evening, after which a dance was given.

Mrs. and Mrs. Fisher and Mr. and Mrs. Hunsicker spent Sunday in Oakley.

Francis Johnson was in Twin Falls Tuesday.

Mr. and Mrs. John Balch and sons, Arthur and Walter, were guests at the Hunt home Sunday.

Mrs. Chance and Mr. R. R. Kendall were at the bedside of Mrs. Kendall at the P. & S. hospital Saturday and Sunday.

Mr. and Mrs. Deverlin and Miss Blanche Hoveka attended the Sunday school convention in Kimberly Sunday.

Miss Alice Belle Tolman was a guest at the home of Miss Myrtle Pickett the last of the week.

Mrs. and Mrs. Baker of Hansen, were at the home of the latter's parents, Mr. and Mrs. Niemester, Sunday.

Mrs. B. Sauters was shopping in Twin Falls Saturday.

Frank Terrell has purchased a new car.

Miss Francis Myers is visiting at the Dillon home.

The Girls' Sewing club met with Mrs. Hunt Saturday. They are making fudge aprons.

School will be out May 12. A program will be given by the children the last day of school at the close of a successful term and the same teachers have been hired for another year.

On Monday morning a few of the neighbors took Mr. and Mrs. Hunt by surprise and came in for supper. They gathered at 7:00 o'clock. Those present were Mesdames and Messrs. Hunsicker, Chance, Johnson, Engstrom, Weatherly, Mrs. Golden and Boyd; R. K. Wilson and Bob Kendall. A good time was had by all. The occasion was in honor of the anniversary of Mr. and Mrs. Hunt.

Clark News

Times' Special Correspondence.

Some Twin Falls authorities chased a mad dog for some time along the Kimberly road but the animal made its escape before it could be captured.

Later one of the residents of this section discovered a cat with symptoms of the rabies and which showed signs of fight. The animal was shot and its head sent to Boise for examination.

Seven guests were present at the meeting of the Wayside club which was held at the home of Mrs. Trappe-Johnson Thursday.

Following a pleasant business and social session light refreshments were served by the hostess who proved herself a very capable one.

Mrs. Fred Johnson who for some time has been on the sick list, is much improved.

Mr. and Mrs. Van Cliffe, prosperous farmers of this section, were Twin Falls shoppers Saturday.

Fred Wilson, brother of Fred and Ed Wilson, is on the North Side road, looking after land interests there.

Warren Veennim and wife were in Twin Falls visiting last week.

The marriage of Charles Baker to Miss Margaret Cockrell came as an entire surprise to the numerous friends of Mr. Baker who wish them much happiness.

Thieves are rumored to be about this section of the country picking up whatever they can lay their hands on. One entered the home of the Winzlers last week during the absence of the family and searched about for something of value but was unable to discover the secret hiding place. This will serve as a lesson to those who are in the habit of leaving their doors unlocked.

Mr. and Mrs. Van Cliffe were business callers in Twin Falls Saturday.

John Vosherg's family has moved to Ottawa, Kansas, where they will make their future home.

S. K. Nesbitt met with a painful accident while working on the grounds. He suddenly dropped the shears on his foot, cutting it severely.

John Ault, who has rented the large acreage of berries from Charles Overfield, is getting the patch in readiness for the year's yield of berries.

Little Isabelle Clark, who has been a visitor at the Richmond Neglee home in Twin Falls, returned home Monday.

McDonald of the Twin Falls water company, was a guest of friends here Sunday.

D. F. Clark and wife and Mrs. S. K. Nesbitt were among the guests at a dinner given by the domestic science class last week.

Blaine Vosherg and family of the Rosecrans country, were visiting here with Mr. Vosherg's father. The former has a farm near the foot hills and says the range is in an ideal condition for grazing.

Benjamin Holland, wife and daughter Nora, were Twin Falls shoppers last week, also Guy Balk and wife and Mrs. Perry Walshaw.

Miss Faye Hunt of this place, has been elected teacher for the intermediate grade at Curry for the coming year. She has just closed a very successful year out in the sunset district near Castleford, and comes highly recommended.

BAPTIST CHURCH DEDICATED AT BURL ON LAST SUNDAY MORNING

A large crowd attended the dedicatory exercises given in the Baptist church last Sunday morning. The church, which cost a cost of \$3500, is free of debt. The dedicatory sermon was delivered by Dr. Peltz, of Portland.

Highest market price paid for bales alfalfa hay this year round. John Pinka, Twin Falls, Idaho, Telephone 708-77.

MANY NEW BOOKS IN THE LIBRARY SHELVES

List Covers Wide Range and Includes Collection For Grown-ups and Juveniles.

Books are arriving with considerable regularity for the Twin Falls library and include volumes both of fiction and non-fiction. A large number were received this week and are now upon the shelves. Among these are many juvenile books. The following is the list:

Virginia, by Walter; McLoughlin and Old Oregon, by Dye; Notes of a War Correspondent, by Davis; Virginia, by Thackeray; In Connection with the DeWitts Claim, by Burnett; Poems, by Dunbar; The Chouinard; Dances, by Corot; by Balzac; Poems, by Huggart; Wood Carver of Lymposium, by Waller; Awakening of Helena Ritchie, by Ireland; Aztec, by Blais; American Commonwealth, by Parsons; Hilltop on the "Marne," by Aldrich; The Doctor, by Connor; First Principles of Heredity, by Herbert; Eugene Grandet, by Balzac; Emerson, by Holmes; Strawberry Acres, by Richmond; Red Pepper Burns, by Richmond; Glenquarry School Days, by Connor; Slipped Wines, by Huggart; Rules of the Game, by Whittier; Shirley, by Bronie; Jane Eyre, by Bronie; Lord Jim, by Conrad; Bridge of the Gods, by Hatcher; Ironsides, by Jackson; Star Rover, by London; Against the Current, by Steiner; Theima, by Correll; House on Henry Street, by Walcott; Cyclopaedia of Social Science, by Roberts; Coals of the Black Folk, by DuBois; Descent of Man, by Darwin; Conquest, by Churchill; What Is Back of the War, by Beveridge; Quo Vadis, by Sienkiewicz; Last of the Barons, by Lytton; Last Days of Pompeii, by Lytton; Life and Gabriella, by Galsworthy; Poems, by Ben King; Penelope's Progress, by Wiggins; Poems, by Sili; Patrialism, by Galsworthy; Road Adventure, by Whittier; Parson's Ballad, by Carleton; Meaning of Education, by Butler; Clara Dagob, by Epier; Wives, by Day; How the Other Half Lives, by Miles; Bunker Bean, by Wilson; Catering for Special Occasions, by Farmer; Cranford, by Gaskell; Ibsen of Sling Lappam, by Howells; Faust, by Goethe; Side of the Angels, by King; History of Art, by Goodyear.

Juvenile books—Lost Prince, by Burnett; Four Great Abominations, by Baldwin; Two Little Knights of Kentucky, by Johnston; Cave Boy of the Age of Stone, by McIntyre; Little Lord Fauntleroy, by Burnett; Magical Experiments, by Good; Hungry Stories, by Jewett; Bird's Christmas Carol, by Wiggins; Mauterman-Ready, by Murray; Madam How and Lady Why, by Kingsley; Little Black Sambo, by Bennett; Adventures of Billy Topall and Company, by Duncan; Astronomy for Dummies, by Clary; Little Lord Fauntleroy, by Burnett; Fifty Famous Stories Retold, by Baldwin; Games for the Playground—Home, School and Gymnasium, by Hays; The Little Red Hen, by Harris; What Katy Did at School, by Woolsey; Not Quite Eloquent, by Woolsey; Merry Adventures of Robin Hood, by Pyle; Lobo, Ray and Vixen, by Selton; Biography of a Grizzly, by Selton; American Girl's Handy Book, by Selton; The Little Red Hen, by Harris; Uncle Sam's Secret, by Austin; Frank the Young Naturalist, by Castleman; Puck of Pook's Hill, Kipling.

LIBRARY BOARD FOR A CARNEGIE LIBRARY

Think That It Can Be Built Before City Hall Could Be Erected.

Mayor E. M. Swetley met with the library board Tuesday evening and discussed the question of building a library for the public library. The mayor said that the question of providing for the library was a live one. If it was decided to build a Carnegie library, the question still remained—whether the money for such building could be obtained in a reasonable time, and if not whether it would be better to provide temporary quarters in the plans for a new city hall. The board members take the position that money can be obtained from the Carnegie fund more quickly than for the city hall, as soon as a deed for a site can be secured. They have an option on two lots behind the Christian church facing the park, for \$2500.

The Midland Bridge company is proceeding rapidly with the erection of the steel bridge on the state highway across the high line canal. With so much concrete work to do, it takes a little longer to get the foundation ready for the superstructure. At present a travel is around the edge of the canal.

The local manager of the Mountain States Telephone & Telegraph company, Mr. Robinson, has just recently received contracts for installing telephones for the following: Carl Burkhalter, T. Richards, J. T. Edwards. Several others contemplate having phones put in at once. The above will be installed as soon as Mr. Robinson can secure the material.

Three miles of new telephone line will be built around Kimberly as soon as material is on the ground. A half mile will be built south of the town, and three-fourths of a mile will be built north of the J. A. Stearns corner and another mile from the Bert Lamborn corner. When these extensions are completed several new subscribers will be added to the Kimberly exchange.

CROWDS ENJOY OUTING AT ARTESIAN CITY

Burley Band Entertains Visitors Sunday With Concert. Many Auto Parties.

Five hundred people enjoyed a pleasant day at Artesian City Sunday, and from early morning until late in the afternoon the grounds were filled with merry-makers from all sections of the county, visited the natatorium and thronged the grounds. The hot wells were viewed by many sightseers during the day and happy family groups took advantage of the orchard bluetrass on which they might appear dressed with lunches. During the afternoon fifteen machines came in from Burley, carrying the Burley band, and for the two or three hours were treated to music by the visitors. The Nat. William Schlick is leader of the band and the concert of Sunday showed conclusively that he is an able director.

Since the opening of the natatorium at Artesian City, April 22, every day and evening has witnessed the coming and going of many auto parties, and on Wednesday and Saturday evenings, when dances are given, large crowds have been in attendance. Sunday was the first day of the season when the conference day of the I. O. O. F. church at Oakley and 40 or 50 people from Twin Falls and vicinity stopped at Artesian City on their return from the quarterly event. One hundred and fifty persons availed themselves Saturday evening to have answered the familiar question: "Where shall we spend our outing?" It is the purpose of the management to give the people of southern Idaho an all-year-round pleasure and health resort of which they may be proud. The grounds about the "Nat" are now being seeded to bluegrass and a fine double tennis court will be laid out. Playgrounds for children, with the usual paraphernalia, will be in evidence shortly and many other improvements are planned for the entertainment of the public.

It is likely baseball games may be arranged during the summer between teams of the Twin Falls-Burley, etc., league and plans for other events to be staged at Artesian City are now in the making.

NELSON FOUND GUILTY SERVES

NOTICE THAT HE WILL APPEAR

Stephen Nelson was found guilty Monday by Judge A. W. Ostrom on the charge of assault and battery preferred by M. Wixom, and alleged to have been committed at the county hospital one day last week. Nelson, who served the law for the first time in 1914, was released from the county hospital one day last week. Nelson, who served the law for the first time in 1914, was released from the county hospital one day last week. Nelson, who served the law for the first time in 1914, was released from the county hospital one day last week.

REPORT OF PRESBYTERIAN

PASTOR SHOWS LARGE GAIN

Rev. J. P. Shepherd, P. M., D. D., pastor of the First Presbyterian church, finished his third year Sunday as pastor. His reports show an active membership of 107 members—45 on the reserved roll and 76 baptized children. During these three years, 437 have been received into the church and 176 have been baptized; 71 couples have been married; 865 sermons and other addresses have been delivered, and 3516 pastoral visits made. The pastor's work among the boys is recognized over the entire state. Dr. Shepherd has been secretary of the Red Cross society in its strenuous work, and a member of the Federation of Churches. In addition to his work in the city he has fostered the work at Pleasant View from the beginning, has been the head of the home-mission work in synod and presbytery. The local church is greatly prospering and harmonious. Not a compunctious member of either the first church or Pleasant View died last year. At the congregational meeting of Wednesday, April 26, the church mortgage was publicly burned. Mrs. H. J. Wall and W. J. Young, two of the seventeen charter members of ten years ago, lighting the fire while the congregation sang "Praise God From Whom All Blessings Flow." Plans for immediate building were adopted.

Saves Money For County—174 fore-

closure suits for delinquent taxes have been brought by this office without one cent extra expense to the county.

John E. Davies, prosecuting attorney, said yesterday, "The county commissioners in other counties have allowed the county attorney from \$500 to \$1000 per county, to \$1000 in Blaine and other counties, for the additional work necessary to bring these suits." As the law allows \$25 attorney's fee for each action brought, one county divided the cases among several attorneys. In Twin Falls county the fee will be collected, but paid into the county fund.

The Merry Month of May

We wanted to do something especially nice for our little friends this May time so we invited over so many dolls from Fairy-Town to come and wind the May-poles in our studio windows. They came and you would say they are having a very good time.

Any little boy or girl can look right into our windows and see our pretty May-poles; around them dance bewitching little kewpies, stately little Boy-Blues, sturdy little Hollanders, and tiny, fair-faced ladies in pink dresses, all gaily holding their May ribbons of pink and blue.

See Our May-poles

Then our windows suddenly bloomed with pink and blue forget-me-nots and of course there should be pictures of babies among the flowers. So we put two hundred pictures of little children—just exactly—in the windows.

Indeed the whole display is like a song of spring, a song as sweet as the meadow larks have been singing, and we want all the children to come and see it. Don't forget the name—Bisbee's. It is not a hard name to remember, but if you should happen to forget it, just inquire for the children's studio, and almost anyone would direct you straight to our windows anyway. Ask your mamma to bring little brother and sister down to see the pretty things too; they would like it all, we are quite sure.

The Bisbee Studio

LOCAL BREVITIES

—Phone 38—

Licensed to Wed—J. H. Smith of Buhl, and Vera M. Hays of this city, received a marriage license yesterday from County Clerk Finch.

Plaster Falls—A section of plaster on the ceiling in the rear of Booth's store gave way Tuesday night, causing more annoyance than damage.

False Alarm—The fire department enjoyed a trip to the east end of the city Tuesday evening without encountering wind they were looking for—a fire.

Church Meeting Postponed—The final determination of questions connected with the building of a Methodist church in this city, were deferred Tuesday night to a meeting to be held Thursday night.

Meeting of the G. A. R.—The next regular meeting of the order of the G. A. R. will be held in the I. O. O. F. hall, Saturday afternoon, May 6. Members requested to be present to plan for decoration day.

Boy Dies Yesterday—Van Staley, aged 18 years, died yesterday at the home of his brother, J. Staley, four miles southeast. The funeral will be held tomorrow at the home and conducted by the L. D. S. church.

Charged With Cutting Ditch—C. M. Olson and William Morris were arrested yesterday on the charge of cutting a ditch across the road between the two men seem to have been strained and each was complaining of witnesses against the other.

Meeting of The Circle Girls—The Circle Girls will meet at the home of Miss Ruby Heartfield, 204 8th Ave. east, Tuesday evening. Interesting program will be given. Topic for meeting, "Work in China." All young ladies are invited.

Salmon Reservoir Gains—5,440 acre feet was the net gain of the Salmon river reservoir for the week ending April 29th. The gauge height was 27.5, and the water level was 27.5. The total storage on that date was 43,800 acre feet.

Millinery Supplies Scar—The local milliners are experiencing trouble in securing trimming materials for hats. Flowers that are being made in this country are proving inferior to those made in foreign countries. Silk hats are costing more. Silks have also advanced considerably in price.

Another Salmon Silt—S. L. Matby has brought suit in the district court by his attorneys, Longley & Walters, for the sum of \$232, which he alleges is due him by reason of losses sustained on the Salmon tract through the failure of the company to deliver the amount of water which it contracted to deliver to him.

Theater Cairs Arrive—A carload of the latest patent chairs for the new theatre to be opened the first of June, arrived yesterday. The seats will be installed during the next few days. E. B. Williams, who will manage the theatre, stated today that the new picture house will probably not be opened until the first of June.

Arrested For Cruelty—Walter Miller, Curry, was arrested yesterday afternoon by Policeman Hiam on the charge of cruelty to animals. Miller was trying to teach a young trotter how to pace and hobbled her when he started for town. The officer said that the hobble had cut into the flesh. The case is set for Saturday.

Buhl Highway District Sues—The Buhl Highway district has filed a complaint and motion by Green & Ostrom, attorneys, for the appointing of three viewers and appraisers to fix the value on a certain corner near Buhl, belonging to D. E. Burley, and also to fix the value of a 46-foot road half section line through Mr. Burley's land.

Collects Large Fund—\$7,225.00 was turned over to the county treasurer Tuesday by Assessor Huchenshaw, the proceeds of the collections of licenses on automobiles and motor cycles. One quarter of this fund must be paid over to the state, while the balance goes into the road and bridge fund, to be expended by the county commissioners.

Not Meeting In Hills—Practically no snow in the high hills is melting as yet, is the information brought to the city by Theodore Parks, who has just come from Jarbidge. In some of the canyon Mr. Parks says, the snow is fully fifty feet deep, while on the level in the higher mountains, he says there is about ten feet of snow on the ground.

Officer Stops Highway—Those who saw Police Officer Hiam stop a runaway at the intersection of 34th street and Shoshone avenue Monday afternoon, say that that officer deserves a medal for his bravery. The team, which was attached to the McNichols transfer, came tearing down Main street, and when they neared the intersection the policeman rushed out and grabbed them, holding on until they stopped.

Corbett Opening May 15—Work on the old Smith Furniture company building is being rapidly completed, and the purchaser, A. H. Corbett, says that he will be able to open up in about 10 days, probably on Saturday, May 13. Mr. Corbett has just returned from the city where he purchased a stock of furniture, some of which has already arrived. The walls have been re-enclosed in the building, and the whole repapered and improved. Mr. Corbett says that he will maintain an exchange department in connection with his furniture business.

Has Figures On Running Car—The hog cholera station includes in its annual report the cost of operating and maintaining the Ford car that is used by the bureau. From July 1st, 1914, to April 29th, 1916, the car at the local station has travelled 185,000 miles, at a cost of a little over five cents per mile for gas, oil, tires, castings, repairs, and labor. The cost of gas and oil totals \$447.48, or a cost per mile of 24.45; tires and castings, \$122.00, or .62 per mile; while parts and repairs has cost the government \$283.20, or .374 per mile. These results were obtained under the same conditions as the individual owner experiences; all expenditures being made at the local garages without advantages.

County Agent Active—County Agent W. M. Birch has been on the move during the past two months. During March, according to the reports on file in his office, he traveled 194 miles by rail and 102 miles by road; was in the office four and a half days and the field nineteen and a half days; held four demonstrations himself, attended 19 other demonstrations and eight other meetings of various kinds; visited 81 farmers, received 48 personal calls and 13 calls by telephone at his office; had six articles published in local papers and sent out 482 circulars and 28 bulletins. During April the figures were: Miles traveled by road, 518; by rail, 20; letters sent, 92; local papers, 62; circulars sent, 1104; bulletins sent, 89; articles published in local papers, 9; telephone calls, 71; telephone calls, 32; farm visits, 91; demonstrations given, 12; demonstrations visited, 25.

CHURCHES

First Baptist Church

Servises Sunday morning and evening. Preaching by the pastor, Rev. B. F. Schumaker, at 10:30 a. m. Supt. W. T. Tracy. Music by choir and orchestra. Baptism in evening.

strangers invited. Special music by the choir at morning services. The sacred ordinance of Christian baptism will be administered at the close of the evening service. The public is always welcome.

WALTER E. HARMAN, Minister.

Easter Thank Offering.

There will be a special meeting of the Auxiliary to the C. W. B. M. of the First Christian church in the church parlors, Friday, May 6th. It will be the occasion of the opening of their thank offering envelopes for the special week of Easter. A caterina luncheon will be served at the noon hour, to which all members are requested to make contribution, and the program will be rendered later in the afternoon. The program has been carefully prepared and will be an up-lift-to-every-member fortunate enough to be present. There will be a ladies' quartette. Every member of the Auxiliary and any friend who may wish to come, will please consider this an urgent invitation to be present.

Christian Revival Closes.

The special evangelistic services which have been in progress at the Christian church for the past four

weeks came to a successful close on Sunday night with a special reception for the new members on Monday evening. All told there were seventy-six decisions for Christ in the meetings, all of whom have been added to the membership of the church. About half of the additions were men and only twelve were children, none of whom were under eleven years of age. Better than thirty new homes were entered in the meetings, many of them the whole family or household becoming Christians. Everything considered, the local church holds this revival to have been one of the most successful it has ever held. Previous to the beginning of the special effort, better than forty members had been received already for this year, which number, taken together with these new members, makes better than one hundred twenty added since the first of January, 1916.

Prof. and Mrs. Howe showed themselves to be able and competent musicians in every way and made fast friends for themselves while here. They left Thursday morning for Akron, Iowa, where they begin their next meeting.

Real Estate Bargains

HOME—5 rooms, bath and sleeping porch, cement cellar, barn, garage and chicken house, \$2300. \$500 cash, balance \$25 per month.

TALKS ON THRIFT

WHISKY'S DEGRADING

TAX ON THRIFT
Whatever may be the contention of opinion as to the necessity for and desirability of alcoholic liquors as beverages, no thinking man will deny that drinking is an expensive habit, costly both to the individual and to the state. A dollar can be spent quicker and with less to show for it at the bar than in any other way, and the man who is a "good spender," and keeps pace with the crowd around the social glass must keep a pace that kills him in the end.

Of late years the production and consumption of liquor and beer has increased, enormously, and from observation one would conclude that everybody drinks a little and most people too much. The resultant evils are widespread and far-reaching, even to the third and fourth generation, for the cost does not end with the waiter's check, but with the bills for police, penitentiaries, prisons and Potter's fields.

The man who indulges this habit must realize that he is putting a self-imposed tax upon his thrift for well as a tax upon his energies. Of what avail to work hard and then spend to no useful end? Why work for the man who stands behind the bar? Why spend a day's wages in half an hour and get nothing for it but a thrill? If the state should put the same tax upon his income that he puts upon himself, he would rebel. Then, too, he who spends his money thus must realize that he is simply putting money in the bank for the other fellow. If he may take a circuitous route to get there, but eventually it will find its way to the same place where it would have gone had he not worked for it. And the easiest way to get it in a bank quick—to the other fellow's account—is to buy the drinks for the crowd.

Cheering news along this line comes from government reports on the consumption of liquor for the past year. Alcohol is lessening its tax upon thrift. The consumption of liquor in 1915 was 143,250,056 gallons. In 1914 it was 139,138,591 gallons, while in 1913 it was 125,155,173 gallons, a net decrease of 18 million gallons in two years. Likewise in the matter of tobacco, the revenue for 1915 was \$2,600,000. One hundred and eighty-eight million less cigars than heretofore in a single year, and the government's tobacco revenues for 1915 were \$2,600,000. One hundred and eighty-eight million less cigars than heretofore in a single year, and the government's tobacco revenues for 1915 were \$2,600,000.

Whatever may be the cause for this commendable showing—whether because of the thoughts of war and what it might mean, or whether as a people we are beginning to realize that this is a tax; or whether it is because in many places you can't get a lawful drink, the fact remains that we are drinking less and saving more.

Whether a man figures that drinking is expensive, or harmful, matters little as long as he stops. This conclusion is very apt to fatten his pocketbook somewhat and pad his pay envelope, and make him a better citizen. When he concludes that indulgence in any form of extravagance can get him nowhere but downwards, and thrift will surely get him upwards, he has chosen well; for thrift consists not only in doing some things, but refraining from doing others, the chief of which is that habit which takes you all and gives nothing in return—but regret, and regrets are costly emotions.

AL-RINGLING COMES TO GRIEF AT IDAHO FALLS

IDAHO FALLS, Ida.—A man giving the name of Al Anderson, and who may be the same man who recently tried to buy several thousand acres of land at Pocatello for circus winter quarters, claiming to be Al Ringling, or the circus of that name, is in the county jail.

Anderson, or Ringling, was closing up a deal to buy two of the most prominent garages and automobile agencies in town when he went back on a \$20 check which he cashed to use until his cash money could get here. Idaho Falls Register.

SOCIETY NOTES

Items for this department may be mailed, please or left at The Times office.

Mrs. Jack McLean was hostess to the members of the M. C. B. card club Wednesday of last week. Mrs. Erickson won first prize, a pair of gold beauty pins.

Mrs. Ramsey entertained the ladies of the Blue Lakes Boulevard club last Friday afternoon. A short musical program was enjoyed and several committees made reports. A dainty two-course luncheon was served.

Mrs. Will Young was hostess to the Winemakers club, Monday of last week. Mrs. Sheldon, mother of Mrs. Johnson, was a guest of the club. A dainty two-course luncheon was served to the club of the afternoon. Ten members were present.

A party of young folks spent Sunday at Shoshone falls, making the trip both ways in the street car. In the party were Misses Beale Joyce, Carmen Cook, Fannie Hart and Marguerite Putnam, and Messrs. L. Spier, H. Girdner and Wallington.

A party of Twin Falls people enjoyed an auto ride through the Hagerman valley Sunday, returning home by way of Shoshone falls. The party included Mrs. Sam Hart, Mr. and Mrs. E. Hollingsworth, Mr. and Mrs. Conroy, Mrs. G. H. Graves, Mrs. J. H. Board and Eugene Hart.

Last Thursday afternoon the Youth and Literary society entertained the ladies of the Frisella club at the home of Mrs. Colwell. Mr. and Mrs. Henry Howe of the Christian church and Mrs. Roy Cochran gave an interesting program. A color scheme of pink and white was used in the decorations and refreshments.

The Wayside club held its regular monthly meeting at the home of Mrs. Trapper. "Art" was the topic for the day and was ably handled by Mrs. Hunt, who read an exceptionally fine paper which she illustrated by the ten famous water paintings. Several guests were present and the hostess served a dainty luncheon.

The Mother's Surprise club met on Wednesday at the home of Mrs. P. H. Bryant. A delightful musical program was enjoyed, each member responding at roll call with her favorite folk song or hymn. Mrs. Jameson's solo, "Nobility" was especially pleasing. Mrs. Puckett then gave an interesting talk on "Music in the Home." Luncheon was served by the hostess at the conclusion of the evening. Mrs. Leary was a guest of the afternoon.

The Misses Elgel and Fern Young entertained about ninety young ladies at their home on Second North Wednesday evening. The guests enjoyed the "cocktail," a program which consisted of songs by Miss Kathryn Pearce, accompanied by Miss Mary Douglas; reading by Miss Ann Walkington; a violin solo by Miss A. Shurtliff, and a flashlight picture was taken of the crowd later in the evening. The house was attractively decorated with flowers and dainties and refreshments were served toward the close of the evening.

On Thursday and Friday of last week Mrs. Ernest White entertained at cards. Miss Nellie Tendaville was the hostess, and the guests enjoyed the evening very much. Thursday afternoon, Thursday about thirty-six ladies enjoyed a luncheon. Mrs. T. A. Reed and Mrs. William Hill had high scores and were presented with pretty prizes. Mrs. Hill was given a lunch cloth and a towel and Mrs. Reed a cut glass jar. On Friday, the guests played five hundred and twenty-two of embroidered doilies and a bouquet of roses were won by Mrs. Robier, Mrs. Reed and Mrs. Chas. Johnson. Both days a delicious two-course luncheon was served at the card tables. The decorations were unusually beautiful and the evening was a most pleasant and sweet peace which had been sent from Arizona, decorated the rooms.

A very enjoyable event was the first annual domestic science banquet given at the high school cafeteria last Thursday evening. The affair was under the direction of Miss H. H. head of the department and the girls of advanced and elementary classes of cooking. The room was prettily decorated in pastel shades. Pansies and apple blossoms were used on the tables and throughout the room. Pastel shaded candles were also placed effectively on the tables. Guests included the members of the school board, the officers and directors of the Twentieth Century club and the Parents Teachers' association for the commercial club. The following toasts were given: Mr. C. H. Dowman acted as toastmaster. "Board Visitors," Dr. H. M. Wilson; "As Mothers See Us," Mrs. C. L. DeLong; "Making the Wheels Go Round," Miss Hingate. Miss Hingate closed her speech with the following:

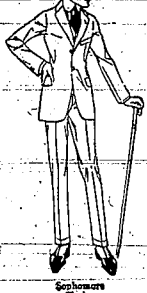

A health to the girls who can like a dream
And the girl who plays the piano;
And here's to the girl who writes verse by the room
And toys with high C in soprano;
To the girl who can dance;
To the girl who cannot;
To the maid and the sweet little singer.
But here's to the cleverest girl of the lot—
To the girl who can cook a good dinner.

DON'T YOU PLAY!

How many times we hear that question asked?
Knowledge of music is as much a part of a child's education today as mathematics or grammar.
Are you going to give your child the education she requires to fit her to hold her place in society, or will she be a "wall flower"?

Spring is here, school will soon be out and your child will be ready to take music lessons.
Don't put it off any longer. Buy that piano now.

THE FLYING TORPEDO

An Imaginary War of the Year 1920.

Whether or not you are interested in the current question of preparedness, this Triangle play will please you. The invasion of this country by a foreign power and the final victory of America by the use of The Flying Torpedo, makes a swift, thrilling, part play so full of adventure that you can hardly keep your seat. "If You Want to See" what would happen if this country was invaded by an enemy, and how the enemy is finally defeated by a wonderful invention of an American scientist, then it's this play you'll like.

Don't Miss It!
