VOL. XL NO. 81. ELEVENTH YEAR.

TWIN FALLS, TWIN FALLS COUNTY, IDAHO, TUESDAY, JULY 18, 1916.

SUBSCRIPTION \$2.00 PER YEAR

GOVERNOR VISITS
THE SALMON TRACTChief Executive and Secretary
of State Make TripGOVERNOR ALEXANDER HOPEFUL
REGARDING SITUATION.Declares That Decision in Twin Falls-
Oakley Project Case Will Enable
Board to Solve Problem.

"We are going down to the Salmon tract to look over the situation there and see what can be done," said Governor Alexander, who with Secretary of State George C. Barker, arrived in Twin Falls yesterday on their way to the Salmon tract as members of the state land board.

"We have just won in the Twin Falls-Oakley decision one of the greatest victories for the people in the history of the Carey act projects in Idaho and one that I am confident will do something for the people of the Salmon for the people there," continued Governor Alexander, "but I am not prepared to say just what that will be. Notwithstanding the alarming of the newspapers we have gone ahead and we have a decision that will enable us to deal with the problems on the Carey projects and make certain regulations in the interest of the people. When I suggested the action in regard to the Oakley project lawyers laughed at me, but I insisted and the result has justified my predictions.

"One thing, the people of the Twin Falls-Oakley project stood by us, and that makes a difference. They did not go to the lawyers and pay for a lawyer to win a case when we have a client. However, we are going to do all that we can for the Salmon tract and we are confident that we can do something, though our plans are not yet worked out. In fact we have not had time to work them out since the decision was rendered. About the only proposition put up to us from the Salmon was that we spend \$10,000 for the starting of a new suit. Well, we did not have an amount of money to start a law suit with, the money that we had on hand being for reclamation purposes. The people on the Twin Falls-Oakley project did some things of which I am proud. I told them that I would stay by them in the matter if they would stay by me. After a time, one of them came to Boise and said that it was doubtful if they could all be held in line. I told him to go back and tell them that I would stay with it if they did; that they might be burned out one year, but they would pretty sure be burned out sooner or later.

"I have nothing to say to them, I am flinched, and their problems are in the way of being solved. The North Shore problem is in the way of being solved and I believe that there will be little trouble there hereafter. In the course of time, the Salmon tract will be settled, but I am not sure. I will say that I will stay with it just yet. We shall spend the night on the tract and will go as far as the dam, returning to this city tomorrow. I may have some things to say to my return, but I cannot tell until I see what conditions are.

"No, I do not know anything about politics and you are paying attention to politics and you could not ask anyone who knows less about the subject than I do now. I am too busy to pay any attention to it. I may be my last visit to this city this year. I may make a few speeches for Woodrow Wilson during the campaign, but I doubt if I will. I may not get back here before election."

Governor Alexander and Secretary of State Barker were accompanied on their trip by C. B. Holderman, a Salmon settler, and Manager G. M. Hall of the water company.

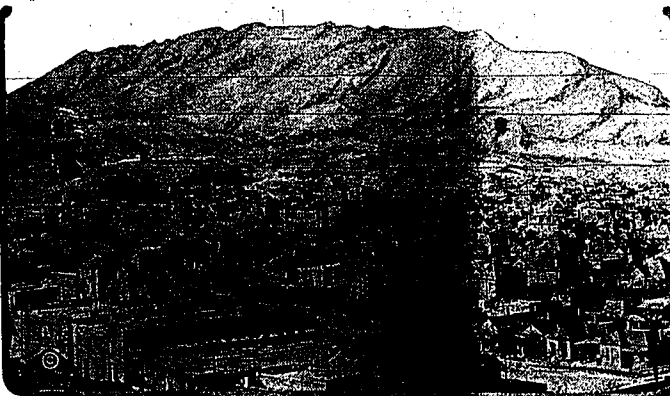

"I have nothing to say at this time," said Secretary of State Barker, "as we are just going out to see conditions and see what we can do. About all that we know is that there is not enough water on the tract for the amount of land under it. That seems to be pretty clear."

WEATHER FORECAST.

During the week temperatures will average near or below the seasonal normal, with local thunderstorms during the week, probably fair weather the latter half of the week.

U. S. BOWIE,
U. S. Forecaster.

EL PASO AND ITS FORTIFIED MOUNTAIN

A bird's-eye view of the city of El Paso, Tex., with Mt. Franklin in the background. All reports from El Paso agree that the mesa or tableland on the right, overlooking the city, is amply fortified, with big guns so located that they command every approach to the city as well as the International bridge over the Rio Grande, and Juarez on the other side of the river.

MEXICAN GUNS IN
POOR CONDITIONShotguns and .22 Rifles Are
Carried by Their GuardsCARRANZA TROOPS WITHOUT UNIFORMS
RIDE ON BOX CARS.Twin Falls Boys in Fine Shape—Are
Located on a Hill—Rainy Season Is
Not at Height.

Ralph Leighton, Times' Special Correspondent.

The Idaho regiment is now encamped one and a half miles north of Nogales on a very steep ridge. We have an ideal camping place as it is well drained. In fact, if a fellow rolls out of bed he is liable to roll until he strikes bottom.

The rainy season is now on and they say it will last six weeks. Weather is cool, although it has been very warm.

Besides the Idaho regiment there are two regiments of regulars here, three regiments California infantry, one battery California field artillery, two troops Utah cavalry, one regiment Connecticut infantry and one regiment Arizona infantry. It is said that more are coming.

The regulars are doing all the guard duty along the line. The Mexicans also have guards. Their guards carry all kinds of guns from a .22 rifle to a double barreled shot gun.

A train of Mexican soldiers arrived yesterday. They came in box cars and had the appearance of being just a little bit of anything else.

The boys all stood the trip down in fine shape. Had no accidents, of a serious nature.

Do not fail to send the papers regularly, as the boys look forward to their arrival. We are all busy making camp today.

ANNUAL CROP REPORT
OF CANAL COMPANY

Increase in Total Acreage With Increased Diversification—Fewer Orchards and More Grasses.

The annual crop and live stock report of the Twin Falls Canal company, which was issued last week, shows an increasing condition of crop diversification, with a total increase of nearly 5000 in acreage. Alfalfa seed, rye and stock feeds have been added to the crops grown. The arrival of two head of Polled Angus cattle constitutes the only new kind of live stock introduced. Alfalfa, red clover, red clover seed and white clover seed show large increases, the acreage of white clover seed being four times as great as in 1915. There is a slight decrease in alfalfa and pasture grass and heavy falling off in wheat, oats, corn, potatoes, apples, peaches, family orchard and berries. There is an increase in barley, beans, peas, miscellaneous fruits and vegetables and in gardens and a great increase in sugar beets.

The total number of live stock on the tract has increased, though there is a falling off in some grades.

LIGHTING PROBLEM
BEFORE COUNCILQuestion of Municipal Ownership
Raised by BobierMAYOR SWEETLEY DOUBTS ECONOMY
OF SUCH SYSTEM.Small Step Taken in Water Matter—
Shoshone and Elm Park Ordinances
Passed—Next Meeting Friday Night.

The problem of municipal lighting was brought before the city council last night and was laid on the table after some discussion, at a meeting in which the Shoshone street paving district was created, the first step taken toward establishing the Elm Park sewer district. Other water matters for outside toilets, a petition and proposed ordinance for the building of short-line spur-railroad and numerous matters of routine taken up. Hearing of protests on the Elm Park sewer will be heard Tuesday evening, July 25. The council will meet Friday morning at 8 o'clock to take up pending questions such as the library bond election, city hall bond election, and other matters that have been before it for some time and have not been disposed of.

The first item of business was the reading of the protests against the paving of Shoshone street, previously brought before the special hearing last week. As they were based on a misapprehension of fact and nobody was backing them, they were denied. The Elm Park sewer ordinance was passed following the passage of the Shoshone street paving ordinance, subject to protests at the meeting next Tuesday night.

Mayor Sweetley said the water situation demanded attention and called attention to the fact that as the mayor and the whole council were responsible for the water tests taken, none had been taken. He suggested that the matter be put up to the water

(Continued on Page 10.)

FIRST AID PROVES
TO BE REAL AIDWillard Denton Shot by .22 Rifle at
Boy Scout Camp Goes Fishing the
Next Day.

That first aid to the injured as practiced by the Boy Scouts of Twin Falls is efficacious, was proven one day last week when a bullet from a .22 rifle which severely discharged in the hands of a companion, went through the calf of the leg of Willard Denton, who after first aid treatment, was able to go fishing the next day.

The boys were two and a half miles from camp when it happened. After making Denton as comfortable as possible by means of first aid, his companions ran to headquarters and got back with a stretcher in a very short time and he was carried to camp where a physician had been summoned. The wound was cauterized and Willard was soon in as good condition as ever, for all practical purposes.

Some of the scouts returned Friday, declaring that they had enjoyed the outing on Wood river greatly.

SHEEP EXHIBIT A
FEATURE OF FAIRPresident C. L. DeLong of Wool
Growers in ChargePRIZES FOR THOROUGHBREDS
AND GRADES OFFERED.Mr. DeLong Returning From Kansas
City, Says It Will Prove Good Market
For Mountain Growers.

That the sheep exhibit at the county fair this fall will be something of which the people may be proud is the prediction of President C. L. DeLong of the Twin Falls Woolgrowers' association, who has charge of the getting up of the exhibit. Mr. DeLong says that the sheep exhibit will be a great step to the fair to notify him at once. Although the prize list has not yet been made out, there will be good prizes for both registered and grade stock.

Mr. DeLong returned Sunday from Kansas City, where he brought four carloads last week. The prices were good and he predicts that Kansas City will grow in importance as a market for the growers of the mountain state. There is a shortage in that part of the country and it will be necessary to get a great part of the supply between the ranges.

A meeting of the Woolgrowers' association will be called a little later in the season for the purpose of completing the organization under new by-laws.

'WORLD'S CRISIS' SUBJECT
OF WALTER J. MILLS' TALKSocialist Lectures Before Small But
Appreciative Audience Saturday
Evening.

That Walter Thomas Mills, Socialist lecturer, is a master of the art of oratory, was demonstrated Saturday evening when he delivered his lecture on "The World's Crisis, Its Cause and Cure," at the high school auditorium before a small but appreciative audience.

Mr. Mills made his point against what he termed the present system of exploitation of the whole people by a few individuals, who have delivered the world into the hands of a few. He compared the Rockefeller and England as the Morgan of the world, he attempted to show how the power of financial interests resting in England and the high efficiency of Germany's wonderful industries has kept them the masters of the world, and in the world until now. Among other things of stirring eloquence, he paid a high tribute to the spirit of the American flag.

Mr. Mills laid great stress on the importance of conserving the real interests of the nations of the world by the improvement of the conditions of all the populations. His sure for the economic life, is the public ownership and operation of all collective necessities. Mr. Mills is the author of a work entitled "Democracy or Despotism," and a number of these were sold among the audience at one dollar each. The one drawback to his lecture was his hoarseness resulting from a severe cold.

EXPLOSION BURNS
TWO WOMEN BADLYIgnition of Gasoline Shakes
Town of KimberlyVICTIMS RUSH FORTH WRAPPED
IN FIERCE FLAMES.Both Taken to Twin Falls Hospital
and It Is Now Believed Will Entirely
Recover.

Mrs. Willard McMaster of Kimberly, and her sister-in-law, Beulah McMaster, were terribly burned as a result of the ignition of gasoline and gasoline fumes, by a match intended to be used for lighting a lantern, in a cave at the home of Lee Stettler, in Kimberly, at 8 o'clock Thursday evening. The explosion shook the entire town and surrounding country and brought neighbors hastily to the spot. About 4 o'clock, Lee Stettler, the three-year-old son of Mr. and Mrs. Stettler, got hold of a can of gasoline and bringing it to the top of the steps leading into the cave, began to play with it. The can turned over and the gasoline spilled out. The boy wiped up what was on the steps but a good deal ran out on the ground and the fumes filled the cave. About dusk Mrs. Willard McMaster and Miss McMaster went into the cave to fill pillows with feathers. Without thinking of danger they struck a match to light a lantern when a terrific explosion took place. The heavy door of the cellar was smashed and the door of a cupboard which held fruit jars was broken. Both women found their clothing on fire and rushed out. McMaster being lightly clad, found her clothing burning more fiercely than that of Mrs. McMaster, who wore heavier clothing. Mrs. McMaster rushed to the top of the steps first. Mrs. Stettler, who heard the explosion, ran out and "wringing" flames "wrapping" around Beulah rushed to her assistance. The girl threw herself into the heavy alfalfa growing around the place and began rolling while Mrs. McMaster rushed to the top of the steps and the flames were extinguished.

In the meantime Mrs. McMaster had put out the fire on her clothing. She was in the cave when the explosion took place and at first it was believed that the burns on the body of Beulah would almost necessarily prove fatal. There was a shortage in Kimberly at the time, and came from Twin Falls and the women brought to the Twin Falls hospital, where Mrs. McMaster is now pronounced practically out of danger and Beulah improving with strong probability of her complete recovery.

Mrs. Stettler is a sister of Beulah McMaster and of Willard McMaster. Beulah lives with a brother in this city and was visiting at the Stettler home. Mrs. Willard McMaster, who was formerly Miss Charlotte Wiker of this city and was married last spring. Her husband is in partnership with Lee Stettler in the butchering business in Kimberly.

It is stated that between 10 and 11 o'clock Saturday night, Schoonover made his way to the tent owned and occupied by Jeff Turner and wife, and with a match set fire to the tenting net to the bed usually occupied by the two Turner children, who fortunately happened to be visiting with friends that night. Mrs. Turner were asleep and did not know of the fire until C. E. Byram, a neighbor who happened to see the blaze, woke them up and aided them in extinguishing the flames. The authorities were notified and a search begun for the offender. Prints of hob-nailed shoes were noticed and measurements taken of the print. Doing some detection work on this case, Sheriff Stettler resulted in the location of Oliver Schoonover, the measurements of whose shoes, it is said, tallied with those of the prints. Oliver Schoonover, in an altercation, attacked him and stabbed him with a knife. He had the man arrested and sentenced to a term in the penitentiary.

Two years ago one of the Schoonovers, in an altercation, attacked him and stabbed him with a knife. He had the man arrested and sentenced to a term in the penitentiary. Schoonover was paroled about a year ago and is now in the state. The first time he had encountered Turner. He had come in from Hollister Saturday evening for the deliberate purpose of attacking Turner. He had the man arrested and sentenced to a term in the penitentiary.

MILITIA SALARIES
PROVE INSUFFICIENTCook King Does Not Get Enough to
Keep Family—Private Miller Con-
fronted by Same Problem.

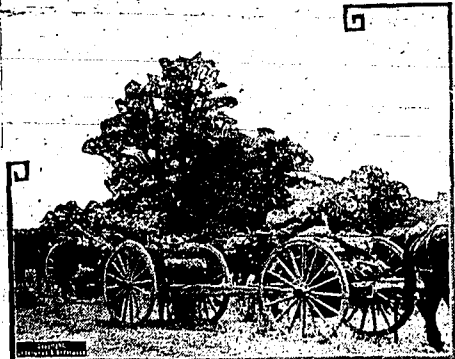

That the wife and family of Charles King, cook of Company D, 1st Idaho Infantry, are in desperate financial circumstances in Ogden, Utah, and that Mr. King is in desperate plight as a result of the story told by Sergeant H. A. King, of that company, in a letter to D. M. Denton, in which it is stated that King left with the understanding that the officers of Twin Falls would look after his family while away, and that he is on the point of desertion in consequence.

Asked in regard to the matter, President E. M. Sweetley of the Company D association, said that the matter had been called to his attention at once on its receipt through the fact with the King family about it. He believed the statements to be substantially true and thought that steps should have to be taken by the association at once to attend to it. He said that he was awaiting a reply to a letter just sent to Ogden and would act at once on its receipt should the facts prove to be as he assumed. He said that a similar state of affairs existed in regard to Mrs. Miller and child, the family of Private Miller, who had turned over the greater part of his salary, which, however, was wholly insufficient.

LIGHTNING STRIKES
V. H. STEARNS HOMEConducted on Line of Electric Light
Wire—Rex Lee Becomes a Severe
Shock That Stuns Him.

While knocking out the lightning system the Electric Investment company between Twin Falls and Kimberly Sunday afternoon, a bolt set fire to the home of V. H. Stearns, the dairy proprietor, mile east of the city limits, stunned Rex Lee, who was in the milk house of the dairy and took a swat at the leg of a boy named John. The electrical company reports that the fire was extinguished before it had done much damage and the boys who had been hit were not much harmed. The fire is thought to have started in the barns suffered on both sides of the river. No damage was done to the telegraph or telephone lines.

FIELD BATTERY FINDS A SHADY PLACE

Battery C of the Sixth Field Artillery, U. S. A., resting on a road in the wooded section of Dolores, Mexico, while en route.

ELEVATOR BUILDING
STARTED IN KIMBERLY

New Structure For Idaho Seed & Produce Company Will Have Capacity of 25,000 Bushels.

The elevator for the Idaho Seed & Produce company was started Tuesday of this week, says the Kimberly Call. It will be 30x50, with a dump house 14x30, and will have a height of about 65 feet. The capacity will be about 25,000 bushels. W. C. Baumgardner, who is superintending the construction work, says that the warehouse will be completed in about ten days, if nothing unforeseen occurs to delay the work. The warehouse is 70x80, with full basement, constructed of concrete. Aside from the warehouse and elevator being built in Kimberly, Mr. Voelger, who is president of the Idaho Seed & Produce company, is also arranging to build elevators and warehouses at Piler, Jerome and Wendell this summer, plans for the Piler and Wendell buildings are now being completed, and work will be started in the near future.

Elvis Laycock, the enterprising manager of the Hansen Milling & Elevator company, at Hansen, was a visitor in Kimberly this week. Mr. Laycock, as usual, had a good word to say for Hansen, stating that at least three new buildings are being erected to build there this summer, and the local blacksmith, Mr. Kempton, will soon begin the erection of a garage and blacksmith shop fronting on the main street of the town. The building is to be of brick and will be a credit to the town as well as to the enterprising citizen who is building it.

Last Thursday evening the Rex Cafe was the scene of a merry time when a number of friends of the Miss Clara Abel gathered there in compliment to the young lady, whose birthday it was. Various games were enjoyed. Among those present were Mr. and Mrs. A. C. Daltrey and their daughters, Alice, Helen and Melba, Ida Farnsworth, Philip Wilson, Leslie Zuck, Clark Whitely, James Dunn, Albert Morgan. All who attended had a delightful time.

Mr. and Mrs. E. H. Butler entertained a number of friends at a delightful luncheon on the spacious lawn of their beautiful country home near the high line canal Wednesday evening. Those present were: Mr. and Mrs. Elmer McIntire, Mr. and Mrs. Frank Swearingen, Mr. and Mrs. B. V. Nowack, Mr. and Mrs. G. L. Gilchrist, Zack, wife and daughters, Dorothy and Charlotte.

The following is a list of recent births near Kimberly: June 9th, to Mr. and Mrs. Clarence C. Alexander, a girl; June 12th, to Mr. and Mrs. John Vollme, a girl; June 13th, to Mr. and Mrs. Clarence C. Alexander, a girl; June 22nd, to Mr. and Mrs. John Dunn, a girl; June 23rd, to Mr. and Mrs. Jesse O. Case, a girl; July 7th, to Mr. and Mrs. John P. Lando, a girl; July 10th, to Mr. and Mrs. Earl McDonald, of Rock Creek, a girl.

Mrs. J. W. White and daughter Evelyn May, who have been visiting Mrs. W. A. Pearson, Mr. and Mrs. Melvin E. Eden, for a couple of weeks, will go to Mounthigh and Artesian City the latter part of this week to visit a sister of Mrs. White, Mrs. Priscilla Eden, and other relatives and friends, after which they will leave for Portland, Oregon, to visit friends the remainder of the summer.

Rev. B. F. Shoemaker will preach his farewell sermon here next Sunday, July 16th. A call has been issued to another minister for the Christian church of Kimberly by the church board, but word has not yet been received whether it will be accepted or not. It is expected, however, that a regular minister will be secured in the near future.

Contractor D. A. Sudewich has begun work on the new residence being built by Mr. J. Pearson in the east part of town. The house is a handsome, modern in every respect, and is the second one to be built by Mr. Pearson this year. It is for rental purposes.

Mrs. W. L. Lauther and daughter, Harriet, arrived Wednesday of this week for an extended visit with her sister, Mrs. A. McDermid. The Lauthers live at Fort Benton, Montana. Mrs. J. W. Nowack and daughter, Miss Ruth, are enjoying a visit with Mrs. Nowack's sister, Mrs. Russ G. Wilson. They expect to be here a couple of months.

A letter from Wilfred Eden states that he is playing baseball this season with the Bruce, South Dakota, team, and is sustaining his reputation as a player. Still Swearingen and family, J. W. Swearingen and Miss Frances Warner, expect to go to Ketchikan next week.

spend a couple of weeks camping and fishing in the Snake river country. C. H. Upton, W. F. Swearingen, Bert Silver, Ed Noble and their families, are planning a camping and fishing trip on Wood river next week.

The Bible class of the Methodist Episcopal church was entertained at the home of Mr. and Mrs. D. F. Taylor Tuesday evening. About fifty guests were present, and a most delightful time was enjoyed. Light refreshments were served at a late hour.

Dr. J. N. Davis has returned to Kimberly and resumed his practice after spending a month in Chicago, taking post graduate work at the Rush Medical college and the South Side hospital.

Contractor Hyard and son have been busy this week building a porch on the rear of the M. E. Eden residence. In the Turner addition to Kimberly, north of town.

NEW SWIMMING POOL
GOING IN AT BUHL

Westend City Finds Present Pool Too Small and Will Greatly Enlarge It at Once.

Plans are under way for the construction of a new swimming pool on the land just below the present pool in the city park says the Buhl Herald. The new pool is to be about twice as large as the present one, and contains about two acres. Two hundred and twenty dollars have already been raised by voluntary subscription and it is expected that twice that amount in addition will be given during the next week.

F. M. Burkett, city engineer in the absence of Captain Hazard, made a survey of the ground, according to the plans of Jess O. Eastman, who is chairman of the swimming pool committee. All subscriptions are being made to Mr. Eastman, who will have the general supervision of the new pool. The bottom of the new pool is to be surfaced with large flat stones, over which cement will be spread to make the bottom smooth. At the same time, the old pool is to be refilled with water, and a settling basin. The sidewalk is arranged so that the water runs off the surface, which will warm the water considerably before entering the new pool. The general plan contemplates building new dressing rooms, for both men and women.

An observation of the number who visit the present pool each evening after working hours, revealed that fully 300 were there between 6 and 8 o'clock, but of this number many went into the water. The rest were onlookers. Several farmers came in from the country to take a plunge, one at a distance of three miles.

"The use of the pool is free to anyone who wears a bathing suit, and an increasing number of men from the country are using it."

UNPRECEDENTED DEMAND FOR AUTOMOBILES. Indications that the 1917 selling season will find the Pacific coast consuming as many automobiles as the big eastern factories can give it, have been evident during the past week.

The states of California, Nevada, Utah, Idaho, Oregon, Washington and western Montana, generally grouped as the "west," are usually figured on for ten per cent of the output of machines from the leading plants. According to the figures of T. J. Maxwell, an expert on all matters relating to the west, the 1917 demand will run far ahead of the usual ten per cent quota.

"Immediately preceding the Maxwell announcement of the 1917 selling season, with no sacrifice in quality or change in model, we thought that approximately twelve thousand cars would fill our demand for the twelve months period," said Mr. Toner. "In less than a week we have been forced to revise our estimate. The demand from dealers and all users has been so great that we are already cutting on the factory to allot us more than our share."

Maxwell shipments are moving across the country from the big Detroit factory as rapidly as the expert traffic department can get them under way. According to the Johnnie Auto Sales Co., which handles the Maxwell in this section, the July local allotment is almost exhausted already, and additional shipments are being asked for to meet the demand which followed announcement of a reduction in price and no change in models.

HOW IS THIS? 1 1/2 acres just outside of the corporation, new house, 90 bearing fruit trees. One block from car line, handy to school. Will sell cheap for cash or will take good automobile as part pay. It sold within 30 days. Terms on part. Add. W. R. C. 20 Times—Adv.

To Achieve Business Success

In the ambition of every man who starts on a commercial career. To many it proves a will-o-the-wisp, impossible of attainment.

One of the principal causes of business failure is lack of sufficient capital. One of the best ways to get capital is to save it regularly from income and deposit it in an interest-earning savings account at a good bank like the

Buhl News

(From the Buhl Herald)

Guy Flemer, editor of the Boise Statesman, and George Frazer, manager of the Statesman, are spending the week at the Bangor ranch. They expect to leave for Halley in a few days, where they will spend a week hunting and fishing at Lee Veder's place.

Miss Charlotte and Nell McQuown, Lilly Lindstrom, Lulu Burr, Annie Ellison, Ray Hammel, Florence Neer of Twin Falls, and Grace Wilkinson of Salt Lake City, Mrs. Ross Ellison, and the Messrs. L. J. Johnson, Taylor, A. W. Ostrom, Ernest Marquandson, John Jacoby, H. J. Iding, Ross Ellison, Wilbur Washburn, and Flora Benoit of Twin Falls, enjoyed a wolverine roast at Clear Lake resort on Friday evening. W. S. Lansing, who lives west of town, believes that he has one of the best butterfat producing cows in this part of the country. Three tests given at three different times showed that her milk was better than six per cent butterfat. Two times Mr. Lansing gave the test himself, and his test was confirmed by the State Dairy station last Thursday. The milk has not been weighed, but Mr. Lansing estimates that she gives about fifty pounds per day.

A musical comedy entitled "Follies of 1916," will be presented at the Rex theatre by a number of Buhl girls on next Monday evening, July 17, for the benefit of Company K. This little play will be given in connection with the regular moving picture program. The girls are enthusiastic about it, and are working hard to make it a success and to reap a real benefit fund for the boys at the front, so that they may have something to eat besides hardtack and beans.

The collection of original poems about Idaho, written by Mrs. F. Darrow, who lives southwest of Buhl, have been sent to an eastern publishing company in Boston, Mass., and they will be issued in book form during the next few weeks. Mrs. Darrow has written nine poems about the people, climate and conditions in Idaho, and it is believed that they will be in demand to eastern tourists who want to learn something about the west, as well as a source of pride to the readers of the west.

L. C. Washburn was appointed recruiting officer for the Second regiment of Idaho National Guards, by Governor Alexander, as a compensation for having been rejected from Company K at Boise on account of being over age. Mr. Washburn is a veteran of the Civil war, 67 years of age, though he can hike as far as most of the men in the company. The officers believe that he can, though the examining physician did not violate the rule of permitting Mr. Washburn to go with his company because he is over age for active service.

TEACHERS EXAMINATION.

Will be held at Twin Falls on July 27, 28, 29th, 1916. Questions will be issued for state, and first, second and third grade county certificates. Candidates for Civil Government, including School Law, and Idaho Manual of the Course of Study will be given Saturday May 19th. BERTHA NOEL, County Superintendent of Schools.

Filer Items

(From The Filer Journal)

J. C. Ritchers has purchased E. B. Ripley's interest in the automobile business. Mr. Ripley will retain the real estate end of the partnership while Mr. Ritchers will continue the garage business. Work of watering the track at the fair grounds has been the order of the day the past week. By using the water wagon nights and keeping the water busy from canals through the day, many programs has been made. Lumber is on the grounds for barns, sheds and other buildings, the contractors are getting busy and soon will be over the top showing.

Yesterday, Wednesday the 12th, at Wynome, Neb., Dr. Carney and Miss Maude Moseley were married at the home of the bride's sister, Mrs. Ida Freese. Immediately after the ceremony the newly married couple drove to Omaha for a visit, after which they will visit at the home of the groom at Battle Creek, Neb., reaching Filer about August 1st, where they will go to housekeeping in the house on Yates street, recently vacated by Mrs. Pierce.

Last Monday the little six-year-old daughter of Guy Blakeslee accompanied him to Idaho City, where he did some work done in the brick shop, and remained so long that the little girl thought he had gone home and forgotten her. She came after her home. At the end of Main street she turned the wrong direction and had gone several miles before she was overhauled by the sheriff. With his telephone when he missed the child, and finally found where she had passed some place on the road, and in that way located her.

A recent letter from Ronald Graves to Raymond Wilcox, says that they are looking at Peabody, Kansas, but will not go for Idaho until the 17th, staying at Colorado Springs for a week. He says Kansas is the hottest place he has ever seen, "awful all day and all night, both." He says four Mexicans were killed and four wounded on the 4th for trying to wreck a troop train. They were caught in the act. They had a very good chance to do it, but the section men are Mexicans but the boss. He saw two troop trains pass through in one day. They were from New Jersey, Connecticut and Massachusetts. The kid says he longs to be home in Idaho.

THE PURE WATER ISSUE.

The people of the city of Twin Falls do not need to be reminded that the pure water issue is not a dead one. Decayed remains of fish and what-not in the drinking water, live fish clogging hydrants and healthy plumbing bills for the removing of same and an abundance of sediment, are constant reminders that the pure water issue is as much of an issue today as it was when the present mayor and council rode into office on it.

The people of this city, some months ago, voted to purchase the present antiquated and inadequate waterworks system at an exorbitant price because such a purchase did away with the necessity of litigating with the water company to determine a reasonable price for its property and its claimant from the local field. THE TIMES supported the bond issue on the grounds that it would secure for the city the right to proceed without delay in the matter of arranging for a pure water system; which right we contended, and still believe, was worth the difference between what the old system was really worth and what its owners asked.

Quoting from THE TIMES for January 28th, we said:

"While the right no doubt remains with the city to ask the utilities commission to fix the purchase price of the present system, it is a right of comparatively little value unless the people of the city of Twin Falls are willing to abide the delay of such negotiations and probable final adjudication in the courts, AND IN THE MEANTIME CONTENT THEMSELVES WITH WATER FROM THE PRESENT SOURCE."

"THE LATTER IS OF COURSE INTOLERABLE, and that the people of the city have long since tired of the delay in STARTING on a course which will finally assure the city of a pure water supply is very apparent to one who studies the municipal elections of the past several years."

The city paid a big price for the old system to save time. WHAT HAS BEEN DONE WITH THE TIME PURCHASED AT SO HIGH A PRICE?

It is nearly six months now since the water works system was bought by the city.

In fairness to the mayor and the council it must be noted that a chlorine plant has been installed to disinfect the water; and another expenditure has been authorized to drain and clean the reservoir.

Present conditions may warrant these expenditures, and doubtless do; but the point remains which seems to have been forgotten by some of the city's officials, and that is that they were not put into office to doctor up the water which the old company was serving to this community; nor was the bond issue authorized so that the present officials might have an opportunity to tamper with the ditch water. The present officials were put in office because they pledged themselves to secure for the city pure water.

Nearly six months—time that the city has paid dearly for in bonds, as we are reminded use of impure water, has elapsed with nothing accomplished, or even started.

If, as we are informed, certain members of the present administration are not responsible for this delay, they should, in justice to themselves, take the people into their confidence and point out the trouble.

THE GOVERNOR AND THE SALMON TRACT'S PROBLEM.

We do not want to be unjust with Governor Alexander in discussing his dealings with the settlers on the Salmon river segregation. We do want to be frank, however; and we want the governor to be the same.

Upon his arrival in Twin Falls yesterday the governor was interviewed by a TIMES reporter with reference to the Salmon project. His remarks appear elsewhere in this issue.

The governor says that the state has just won a big victory for the settlers on the Oakley project, referring to the decision of the supreme court of this state, reported elsewhere in this issue. The governor says that this clears the way perceptibly for relief for some of the other defunct projects in this state. He says the state, himself and the people on the Oakley project co-operated earnestly and effectively in gaining what has been gained. On the Salmon tract, he says the people have not stayed with him; that he has been "roasted" and "shamed." Nevertheless, in utter disregard of any personal feelings he may have, he will proceed to serve them a good turn by starting the Salmon tract on the road to salvation, if possible.

Such is the end of the governor's remarks.

We do not question his sincerity, but we think he is forgetful. One striking distinction in the situations of the Oakley and Salmon river settlers is that the former were promised nothing and received at least something; while the Salmon settlers were promised a good deal and got nothing.

We may have strained the truth slightly in the foregoing assertion for the sake of emphasis, for the salmon settlers did get something. After the state had refused to employ whatever steps that might have been necessary to bring the promotion company to time, the settlers themselves, at considerable expense to themselves, undertook to enforce the contract which the state made with the promotion company. They succeeded in every point contended for before the federal court, and secured an interlocutory decree restraining the irrigation company or its assigns from "collecting or attempting to collect" any of the past due installments on the water contracts until the company can show the court that it had complied with the terms of its contract. The court also decided that the settlers' contention was correct, that under the contracts the company was obliged to furnish them 2 1/2 acre feet of water.

That is what they got from the court.

Here is the suggestion they received from the governor, endorsed by the land board: that they take less water than the court awarded; that they agree to pay more for their land; and that they agree to an acreage that would leave the project in practically as bad shape as it is at present.

The character of the warmth with which these suggestions were received evidently has not pleased the governor; and inasmuch as his suggestions were so obviously out of tune with his previous assurances and promises, we can readily understand the settlers' indignation.

The governor has said that the Salmon settlers' federal court decision was "worthless" because it did not get water for their lands. The governor says the Oakley decision is a splendid victory because it forces the company to deliver water (if the company has it) irrespective of whether the settler is behind in his payments or not. But the Oakley decision no more makes water for the some 20,000 excess acreage of that project than the Salmon decision does. One says the company cannot enforce payments by refusing to deliver water; the Salmon decision says the company cannot "collect or attempt to collect" because it has not earned it.

We might forgive the governor for failing to find a way to rem-

edy the Salmon situation. It is a bad one. But we will not overlook an attempt on his part to encourage the settlers on that project to believe that he or the state land board is going to do something UNLESS THEY DO IT.

Now as to a solution of the Salmon project's troubles. The governor has said that the Salmon situation is a "cold-blooded business proposition." Let's see if he believes it. LET'S SEE IF HE DARES TO ACT IN THE FACE OF AN ALMOST CERTAIN TURN-ABOUT ON THE PART OF THE REPUBLICAN MEMBERS OF THE STATE LAND BOARD, WHO HAVE ETERNALLY BEEN PRO-COMPANY.

Here is the proposition: Has the governor the courage to put the land board on record?

If so—ORDER THE COMPANY TO REDUCE THE ACREAGE TO SUCH AN EXTENT THAT IT CAN SHOW THE LAND BOARD THAT IT HAS THE CONTRACTED AMOUNT OF WATER FOR THE LANDS WHICH IT RETAINS—UNDER PENALTY OF ACTION BY THE STATE TO ANNUL THE COMPANY'S CONTRACT.

Such a step will bring matters to a head in short order. WILL THE GOVERNOR DO IT?

SULLIVAN FORSWears

SUNLIGHT BATHING

Animal Industry Man Takes Dip In Mindoko Canal With Painful After Effects.

"Six on the surf," said Dr. W. A. Sullivan yesterday, as he returned to his duties after several days vigorous treatment with Swayne's ointment for sore shoulders. "Nothing stirring among the water-trailers for years," continued the head of the United States bureau of animal industry station for southern Idaho. "I take my ablutions in a bathtub after this."

The trouble from which Dr. Sullivan was suffering was the result of falling to keep in mind the edge of Benjamin Franklin or somebody, to the effect that the longest way around is the shortest way home. Sullivan and Dr. L. C. Henderson of the department, were wandering, around Wednesday afternoon on the Mindoko project, searching for ailing swine, and decided that they could get to a given point more quickly by following a byroad. They were getting along well enough until they ran plunk into a sink hole that carried them into a big ditch full of irrigation water. Sullivan decided to rescue the car and waving aside Henderson, who has a family to look after, discarded his hat and garments and plunged into the "raging canal," clad only in his animal modesty and a sense of duty, which scanty raiment proved poor protection against the rays of the July sun. Sullivan rescued the car, but Old Sol had played such a tattoo on his shoulders that he was compelled to discard a decollete, and venture from society until the new skin grew on.

His appointment at Idaho Falls Friday night was filled by Dr. Henderson.

BULL PROPOSES TO

ENLARGE RESERVOIR

Election Called For July 21, to Vote On \$10,000 Bond Issue For That Purpose.

A city election will be held on July 24, to vote on the question of issuing bonds aggregating \$10,000, for the purpose of enlarging the present city reservoir, the Bull Herald. The source of Bull's supply has been abundant and inexpensive. A sterilization plant was put in about three weeks ago, and the water is now free from contraction of typhoid and other contagious diseases.

As more surface water is used for irrigation purposes and as more and more brush and other uncultivated vegetation and animal matter will get into the canals, a filtration plant will have to be installed, or city water may be obtained elsewhere. But, in either the event of Clear Lake water, as has been proposed, or of a filtration plant, the storage reservoir is necessary.

BAPTIST REVIVAL AT

KNULL WELL ATTENDED

Many New Members Join Church Which Was Recently Erected—Big Sunday School Attendance.

Revival services which are being conducted at Knull are largely attended and much interest is being manifested. The services, which began a week ago last Sunday, are being conducted by Rev. A. W. Littell, pastor of the Baptist Temple of Warsaw, Ill. It is proving to be a powerful preacher. Many have joined the church since the meetings opened.

The Baptists of Knull, with a small membership, built a splendid church this spring, at a cost of \$3500, and since that time the membership has more than doubled and the Sunday school increased to more than 100. Rev. H. L. Caldwell is pastor.

STEELE INVENTS A

NEW MACHINE FEEDER

Improvement of Clover Huller Will Save Work of Two Men—Will be Used This Year.

R. W. Steele has invented a new feeder for his clover huller which will do the work now performed by two men. The new invention permits the feeding of the machine from the ground, instead of from the wagon, so that the services of the men who pitched from the ground to the wagon and from the wagon to the machine under the old method, are dispensed with.

Mr. Steele is fixing up his grain threshing for business and will get out shortly. After a run of about a month, he will go to Canada where he will run during the rest of the season.

P. S.—Mail Orders will have my personal attention.

tract of land is in the United States or state of Idaho, then the said amount becomes a first lien upon any crop or crops which may be raised upon said tract of land during such irrigation season; and these liens may be recorded and collected as provided by law.

"Upon default of the settler in accordance with his contract with the construction company for the purchase of water right, the company should meet in the security of such statutory procedure which constitutes an exclusive remedy.

"The enforcement of a provision in a contract between a Carey act construction company and a settler empowering the company to deprive the settler of the right to the use of water on his failure to make payments upon the original contract debt, might prevent the settler from making proof which would entitle him to a deed, and prevent the state from procuring patent to the lands within the Carey act project.

"This result would destroy the security of which the construction company seeks reimbursement for the cost of construction and thereby render valueless its lien upon the land. It would also result in the public waters of the state not being applied to the highest-beneficial use. Even from these considerations alone, such contractual provision is contrary to public policy and can only be resorted to as provided by law for the collection of ordinary charges for maintenance of works and operating expenses properly incident to the delivery of water."

S. P. ATHERTON SEEKS REPEAL

LICAN SENATORIAL NOMINATION

S. P. Atherton of Bull has announced his candidacy for the state senate from Twin Falls county, subject to the action of the Republican primaries. This is the first announcement for legislative positions made in this county this year.

SAYS DR. COUGHLIN

Declares That Patients Who Would Go to County Institution Cannot Get Into Twin Falls Hospital.

"There are some things in regard to the proposed county hospital which I think should be made clear," said Dr. Coughlin, Saturday, "and one of these is the fact that it would not come into competition with the Twin Falls hospital, now owned by Dr. Boyd, for the reason that none of the doctors who would bring patients to the county institution, are permitted to bring patients to his hospital at present. Hence, his hospital would lose nothing by the erection of one by the county, since the patients who would be brought there could not gain admission into his in any event."

"I do not question the honesty of Dr. Boyd in taking the position that he does with reference to the proposed county hospital," he is looking at it from his own viewpoint and I have no doubt is sincere, but I simply wish to call attention to the fact that there

Club Secretary Back—After a vacation of four weeks, duration, part of which was spent visiting with his son Bruce, living at Soldier, James McMillan, secretary of the Twin Falls Commercial club, is again at his duties.

Miss Carlyle Goes East—Miss Louise Carlyle, not far from the past three months at the Rogerson cafe, left for the east Sunday morning, to take up a job work there the coming winter. She expects to return to Twin Falls next summer for another engagement.

Nominations Filed—Through Dr. C. R. Scott, H. E. Powers, Republican, last week filed nomination papers with County Clerk Clark, for the office of probate judge, and Will J. Young filed nomination papers for George W. Wilcox, candidate on the Republican ticket for county assessor.

To Motorcycle to Ice Caves—Next Sunday morning at eight o'clock a motorcycle trip under the supervision of the City of Twin Falls will be made to the Ice Caves, 20 miles above Shoshone. Owners of all makes of machines are invited to make the trip and it is hoped that ladies will be able to make the trip also.

Report Gets Robinson—P. M. Robinson, who has been holding down the left field position with the Twin Falls team, has accepted a good offer made him by the management of the Rupert team. He will leave for Rupert Thursday. Robinson has been playing good ball for the locals and has been able to hit in a batting average of .300 while here.

SOCIETY NOTES

Items for this department may be mailed, phoned or left at The Times office. Phone 28.

About twenty couples attended the club dance last Friday evening at the Mechanics hall. In spite of the heat it proved to be one of the most enjoyable dances of the summer.

Mr. and Mrs. H. O. Milner entertained at a family dinner on Monday evening. The out-of-town guests were Mrs. John Milner and Mrs. E. B. Milner of Salt Lake, Mr. and Mrs. Elliot Miller of Buhl, and Mrs. and Mrs. Max B. Milner of Meridian.

E. Kenneth Taylor was host at a matinee party last Tuesday, after which a dainty lunch was served on the lawn at his home on Sixth Ave. North. About sixteen guests were present, the occasion being his eighth birthday. Those present were: Richard King, Mary King, Mildred Wilson, Juliette Mee, Margaret Harrison, Leonard Mee, Katherine Harrison, Jack Neuenmaker, Vera, Lucile and Gerald Mee, John, Albert, Marion, Marion, Johnny Wolfe, Lula Lewis and Mary Tessier.

A wedding of much interest to Twin Falls people was held in Pocatello last Saturday morning, when Miss Irene Hayes and Max B. Milner were united in marriage at the Methodist Episcopal church, the impressive ring ceremony being used. The bride and groom took their places beneath a beautiful arch of pink and white roses attended by Miss Helen Hayes, sister of the bride, as maid of honor, and Wayne Tilgner, best man, the wedding march being played by Miss Mary Milner, sister of the groom. The bride wore a stunning blue tulle traveling suit and a large white hat. Immediately after the

KANSAS CITY "RED SOX"

PLAY LOCALS WEDNESDAY

Game To Be Benefit for the Local Players Who Will Receive 40 Per Cent. of Gate Receipts.

Tomorrow afternoon at three o'clock the local ball park, those interested in the national pastime and those desiring to get a view of near-big league ball, will be treated when they see the Twin Falls team play their scheduled game with the Kansas City "Red Sox," the amateur champions of amateur clubs in the middle west.

The "Red Sox" are making an \$800 mile tour of the west and to date have played 42 games, losing only five of

is another side to the question. I am not opposed to the purchase of the Twin Falls hospital if it is found to be satisfactory in regard to location and possible growth and the price is just and reasonable. However, I fear that it would not be large enough to accommodate all demands, and that the location would not permit the building of additions without crowding. It strikes me that it would be better to have a hospital, built primarily for the indigent, located outside of town where a garden could be kept in which they could work and raise vegetables, and not only improve their health in this way, but help pay for their expenses. The expense of taking care of the indigent in town is always considerable. Before the present county hospital was secured, Dr. Boyd looked after them and the expense ran to something over \$4000 a year.

"With reference to the moral right of a county to maintain a hospital, it seems to me that it is too late in the day to question that. There are county hospitals scattered all over the country. One of the largest in the world is the Cook county hospital in Chicago. There are many other hospitals in Chicago, and the claim is not made that they are injured by the competition of the county hospital. Pocatello has a large county hospital in this state and the county city is now waiting in building a large addition to it. I am, of course, not competent to pass on technical legal points that may be involved."

these by close margins. The visitors are playing every team on the track except Kimberly.

The game was scheduled with the "Red Sox" by the local management in an effort to increase the interest in the baseball situation in Twin Falls. The attendance of late has fallen off and the brand of ball put up by the local club has warranted better support believes them in charge. Two players and management are earnest in their appeal to the baseball enthusiasts to get out to the game and assure them that they will be more than repaid for their attendance, for the local team is going to make every effort to add one more defeat to the "Red Sox" campaign.

Following their schedule with the Southern Idaho league, the visitors will go to the Idaho Falls country.

Hotel Perrine is

REPORTED AS SOLD

Local Company Expected to Take Over Famous Hostelry Tomorrow—Deal Is Still Pending.

That a company of local capitalists expect to close a deal this evening or tomorrow morning for the Hotel Perrine for the consideration of about \$100,000, is a report current on the streets, which bears marks of authenticity, but was not advanced to the company will not be made public until the deal is finally closed.

Asked in regard to the matter this morning, Attorney A. M. Bowen, who is connected with the negotiations, said that the deal was pending and looked as if it would probably go through, but was not advanced to a point where it could be announced as closed, since there was still a possibility that it might not be. It could be either closed or declared off by tomorrow. He said that a company of local business men were interested, but would not give their names, as he said that certain variations in details might make a difference in the personnel of the stockholders and directors, and that it would be improper to make any statement until everything had been decided on.

The Principles of Chiropractic

The science of Chiropractic hinges upon the fact that the brain regulates and controls every organ and tissue in the human body. This control is made possible by means of the spinal cord and nerves, which are in reality extensions of the brain. If we compare the brain to an electric power house, the nerves to electric wires and the various organs (stomach, heart, kidney liver, etc.) to the electric lamps, we can form a crude idea in comparison, as to the workings of the human body. So long as the electric wires are properly connected, the electric lamps will perform their function—that is give light. In the same way, so long as the nerves are properly connecting the various organs of the body with the brain, these organs will perform their function. They receive 100 per cent of nerve force and we have health.

State News

—From Exchanges—

Fight In School House—As the result of a fist encounter at the Fargo school house, H. H. Croas, a rancher of that vicinity, is in the Canyon county hospital in Caldwell, recovering from serious wounds, and Charles Crawford and W. H. Rosebury, neighbors of the injured man, are held under bonds of \$5000 each to answer charges that may grow out of the melee. The trouble occurred late Saturday at a school election. Examination showed that he had a broken jaw and an injury at the base of the skull. His condition was serious at first, but he was reported on Monday as doing nicely, with chances excellent for his recovery.—Parna Herald.

Shoshone to Vote Road Bonds—Shoshone county, way up in north Idaho, is to follow the lead taken by a number of the most progressive counties of the state, including Twin Falls, Minidoka, Lincoln, Gooding, Ada, Blaine, Madison, Fremont and others, and vote for a bond issue, the money so secured to be devoted to the building of good permanent roads.—Idaho Falls Register.

Award School Contract—The board of trustees of Jerome independent school district met last week, the particular business before the board being the opening of the bids for the erection of an addition to the school building in Jerome. The contract was awarded to Paul R. Kartze, the building to be completed on or before November 15th, 1916.—North Side News.

Many Park Tourists—Automobiles of all colors, from every state in the union, all sizes, and all manufacturers, are passing through Highway 1st summer, on their way to and return in Yellowstone park. It was a fine day, the opening of the park is a great day, as the same permitted to view the wonders of Wonderland. It would not have been able to do so, if we had done so. A great number of the great number of California people.—Rigby Star.

To Vote Bonds—On Saturday, July 22, the citizens of Burley will be called upon to pass up the bond of the city is an additional sum of \$40,000, to be used in extending the water system and electric lighting system and erecting and equipping a city hall.—Burley Bulletin.

May Build Court House—The board of Boardman county commissioners has decided to submit the question of whether a court house shall be built this year to the people and before adjournment an order will be passed calling for an election. A number of plans have been submitted to the board and they will decide upon its general construction and the cost to be incurred.—Idaho Falls Post.

Good Copper Yield—Mackay, the copper city of Idaho, has been living up to the name for years and in this year producing more copper than ever before, but this is not to be the only metal produced in this section and shipped from this city. Lead in abundance has been developed in the A. W. Canada claims in Lucky Gulch, and a car load of fifty tons is leaving the property each and every day; and is hauled by freight teams to the railroad at Mackay, a distance of four miles.—Mackay Miner.

FILER DOES GREAT SHIPPING BUSINESS

May Reach Fourth Place In State This Year—Business For June Over \$10,000.

The following report of the O. S. L. station at Filer, is indicative of the rapidly increasing business done in this section, says the Filer Journal. Filer last year held 5th place as a shipping point of the state, and from statistics already received, the Journal predicts its rank will jump to at least 4th place this year. June is usually a very lax month in the railroad business, but doubt if it is along this line can equal this showing:

Total pounds freight received and forwarded, 5,061,530.
Total revenue received and forwarded, \$15,275.51.
Ticket sales, \$11,114.35.
Increase in tickets over last year, \$253.20.
Increase in freight over last year, 15,047.56 pounds.
Increase revenue over freight last year, \$1,215.45.
50 carloads forwarded in June. Increase 4.
70 carloads received in June; 40 carloads received year ago; increase 20.
Pounds express received June this year, 10,444.
Pounds forwarded, 5,340.
178 pieces baggage received.
147 pieces baggage forwarded.
Total freight and passenger business for June, \$10,045.46.

K. OF C. PLANS A PICNIC AUGUST 20

Invitation Issued to General Public to Take Free Ride to Clear Lake That Day.

Twin Falls council Knights of Columbus, announces that it will give a basket picnic, Sunday, August 20, at Clear Lake, near Buhl, and has issued invitation to everybody to go along and spend the day. Those who have autos are requested to bring them, but free ride will be provided for those who have no means. The party will leave the park at Shoshone about 10 o'clock and will go to Buhl where others will be waiting for the party before going to the lake for the afternoon. Those going are requested to bring baskets.

Kelly and Orville Kelly, all of Han-
sen, Idaho. BEN R. GRAY, Register.

NOTICE OF SHERIFF'S SALE

John K. Mullen, Plaintiff, vs. I. B.
Perrine and Hortense Perrine, Defend-
ants.—Notice of Sheriff's Sale on
Foreclosure of Mortgage.

Under and by virtue of an order of
sale and decree of foreclosure, issued
out of the district court of the Fourth
judicial district, state of Idaho, in and
for the county of Twin Falls, on the
10th day of July, 1916, in the above en-
titled action, wherein I. B. Perrine and
Hortense Perrine, defendants, on the 23rd
day of June, 1916, which said decree
was entered on the 28th day of June, 1916,
recorded in judgment book 4 of 1916,
at page 153, I am commanded to sell all
that certain lot, piece or
part of land situated in the county
of Twin Falls, state of Idaho, and
bounded and described as follows, to-
wit: Lot 12, block 15, in the first
addition of 16 lots, in block one hundred
(10), in block one hundred and
two (102), in the final and amended
plat of Twin Falls, state of Idaho, as
shown in plat 1, page 7, in the recorder's
office of said county.

Notice is hereby given, that on the
third day of August, 1916, at 10 o'clock
A. M. of that day, in front of the court
house in the city of Twin Falls, county
of Twin Falls, Idaho, I will in obedience
to said order of sale and decree of
foreclosure, sell the above-described
property, or so much thereof as may
be necessary to satisfy plaintiff's
debt with interest thereon and costs,
to the highest bidder for cash, lawful
money of the United States of America.

Dated July 10th, A. D. 1916.
FRANK M. KENDALL, Sheriff.
By W. G. THOMPSON, Deputy.

RUPERT DEFEATED BY TWIN FALLS

Visitors Err and Locals Land on
Pitcher's Deliveries

ANSEL HAS OFF DAY AND MAKES
2 TO 11 ERRORS.

Hart Holds Rupert to One Hit and
Strikes Out Half the Men Facing
Him.

STANDING OF TEAMS.			
	Won.	Lost.	Pct.
Twin Falls	1	0	1.000
Shoshone	1	0	1.000
Barley	1	0	1.000
Kimberly	1	0	1.000
Jerome	0	1	.000
Rupert	0	1	.000

Twin Falls played baseball Sunday and Rupert tried to. The score was six to nothing, but nevertheless the game was interesting. It was decidedly Rupert's off day, and the same developed into a contest, in which Twin Falls tried to see how far she could wallow Frumbach's deliveries, and Rupert tried to see who could make the more errors. Both won. The local boys liberally helped themselves to Frumbach's curves, and Ansel, Rupert's shortstop, was easily high point winner for the visiting team for he garnered five of the 11 errors chalked against Rupert.

Twin Falls started scoring in the first inning, and another, but other talks in the second, sixth and eighth innings. Twin Falls had everything her own way and at no stage of the game was there any great danger of Rupert's scoring. Once, in the second, Frumbach sent the ball over the left field fence but it fell foul. A special rate of \$1.40 round trip will be in effect to Rupert next Sunday to enable the local fans to see the Twin Falls-Rupert game. Every one is expected to take in the game, for it is desired that as large a number as possible go from here to support the local boys.

Another game is scheduled with Rupert for the coming Monday at the Oakley celebration. A purse of \$150 will not count as a regular league game.

Ansel, Whitel, sacrificed, sending Doran to second. Whitel landing safe at first. Watson bunted and made first safely on an error by the first baseman. Doran scored on this play while Whitel waited on third. Butler made the first out with a pop-fly to third, then on an overthrow to second base by catcher both Whitel and Watson came in.

Twin Falls last tally was made in the eighth after Doran had hit safely to first, stolen second and gone third on an error at second. Whitel, the next man up, grounded to the second baseman who had the choice of throwing Whitel out at first or Doran out at home. He chose the latter but made a wild throw, letting Doran score on the resulting error.

The box score follows:

Twin Falls.		Rupert.	
Players.	A. B. R. H. P. O. A. E.	Players.	A. B. R. H. P. O. A. E.

FATHE FEATURE "NEW YORK"

TO BE SHOWN AT THE DIAHO

A. H. Woods' initial contribution to the Tattle Gold Roster program is "New York," his famous Broadway legitimate success by William Hurlbut.

George Fitzmaurice, producer, "New York" and "The Girl in the Red Velvet" produced "New York." The skill with which he chose his cast truly counts for much in itself. Florence, starred in "At Bay," also starred in "New York." The supporting cast is composed of John Milner, Paula Martinoff, Forrest Wynant and Jessie Rait.

Paula Martinoff was featured in "Nedra" and "The Gallopers," earlier released on the Gold Roster program.

Jessie Ralph supported Richard Carle in his film debut in his own success, "Mary's Lamb." Paula Martinoff takes one of the most realistic parts ever recorded by a camera when she is dropped down a staircase fifty feet by a drunken reveler.

The story, although melodramatic, is at all times logical. Oliver King, a patrician, is charmed by a chorus girl and later with her mother she blackmails him by telling a strange boy on him. The girl is killed and King raises the child, but not as his parent. King marries and the boy now grown is a successful collector. His guardian's wife visits him in an endeavor to reform him and under the influence of liquor he attacks her. In the struggle she kills him. The coroner's verdict is suicide. King's wife confesses to him and thinking the boy his son, he turns from her. A touching reconciliation follows when King learns from the chorus girl's mother that the child was not his.

Alice Brady in "THE RACK" AT THE 1916

"The Rack" is a vehicle which gives this charming young artist a chance of still further earning the praise of numerous admirers amongst "movie fans" all over the world.

JUMPED FROM RIG TO BRIDGE STRINGER

Mrs. Eddy Has Narrow Escape
at Rock Creek Saturday

RUNAWAY TEAM SEASHED HER
BUGGY AS SHE SPANG.

Nobody Hurt in Accident Which Happened
in Spite of Most Careful Efforts
of Repair Crew.

A short runaway at the Shoshone street bridge Saturday resulted in the throwing of Mrs. Eddy from her buggy on the stringers of the bridge over the canal, the cause of the buggy and the escape of everybody without physical injury. Mrs. Eddy had just crossed over the place where now plank was being laid down and was followed by a Warberg transfer team hauling lumber, when O. J. Collier drove along. The Collier team seems to have been started at the new planks and started to shy and try to sidle off, finally getting the rig to which they were attached ditched. This frightened the Warberg team, which made a sudden rush forward and ran into the buggy occupied by Mrs. Eddy, who jumped as the collision took place. She escaped unhurt, but was thus saved from a plunge into the chasm which would probably have proven fatal. She was not at all injured. The general public crossing the bridge during its improvement have been unanimous in praising the care taken by the force under the direction of the Warberg team. Porter, to avert any accident, said that those who saw the affair Saturday said that nobody appeared to be to blame for the occurrence.

ANNOUNCEMENTS

The Royal Neighbors of America will hold their next regular meeting on the 1. O. E. hall, Friday evening, July 21, at 8 p. m. All visiting members are welcome.

DR. BEEBE LEAVES ON VACATION

Dr. F. C. Beebe wishes to let his patients know that he will start on his vacation next Monday, to be gone until further notice.

LEGAL PUBLICATION

DISSOLUTION OF CORPORATION.

In the District Court of the Fourth Judicial District of the State of Idaho, in and for the County of Twin Falls.

In the matter of the Application of the Rogerson Mercantile Company, a corporation, for a decree for voluntary dissolution.

To Whom It May Concern:

An application for the voluntary dissolution of the Rogerson Mercantile Company, a corporation, having been filed in the above entitled matter, an order having been entered therein that notice be given pursuant to the statute in such cases made and provided, all persons interested in said corporation holding claim against the same are hereby notified that the said application for dissolution will be brought on for final hearing on the 25th day of August, A. D. 1916, at which time there being no objection to the application for dissolution, the

committee, of which Councilman Smith is chairman, was this done.

M. M. Murtugha called attention to the proposed construction of sidewalk along the Blue Lakes boulevard in front of his place. He said that through agreement with the council some years ago, he had put in a good board sidewalk in front of part of his property. This is in good condition and if not at grade could be brought to it. He said that he was willing to put in a walk in front of such part of his property as had none and willing to replace the present walk with concrete when it wore out. He was informed that the matter had not yet been disposed of and that it would be considered in due time.

The matter of constructing spurs for the Oregon Short Line across Second street south, Third street south and across Block 145, and lying between Block 147 and the northern boundary of the main line of the Oregon Short Line right of way along the Blue Lakes boulevard, was a shifting of the present tracks in town to the center of the right of way in which they run for the proposed purpose of getting more room and providing greater convenience for shippers along the sidewalk. It was passed up to the city attorney.

The Peters judgment for \$300 and costs, against the city for injuries received on a sidewalk, was ordered paid.

Mayor Sweeney started the talk about the lighting by saying that among the things immediately confronting the city and demanding solution, was the question of lighting. The contract of the company, expired February and in the opinion of the mayor the present system is insufficient. He said that he had been on the North Side recently and that all the towns there were well lighted. Looking over the river from that side, Buhl and Piller showed up well, while Twin Falls could be found only after a search. The company had drafted plans for lighting of the city, at little more expense than the present, which would save the defects noted and light the city well. Councilman Bohler asked if the city was not already paying enough to the company to get good lighting. Mayor Sweeney wanted to know what the councilmen would do in regard to the matter, and added that for a trifling increase in cost 10,000 candle power could be secured. Manager King of the Electric Investment company was asked for his plans and presented again those submitted some time ago and published in THE TIMES. To these had been added lights for four spots not already covered which had been tentatively added at the suggestion of the Councilman Bohler. This would raise the total cost to about \$5000 a year. Councilman Bohler reiterated the statement made some time ago, and the work pay interest on \$100,000, for which the city could own its lighting system. Mayor Sweeney replied that this would cost the city \$100,000 a year, certain items of extra cost aggregating \$32,000 additional cost, which left out, he said, many fixtures and made no provision for the depreciation. He declared that after all this city would be at a cost for operation practically as great as it was proposed to pay the city and the contract now being considered. Manager King said that \$10,000 to install the changes needed to make the city lighting a small increase in cost and would like the chance to do so. On motion of Bohler, seconded by Parrot, the matter was laid on the table for further consideration. Street Commissioner Porter reported

ed progress on the Shoshone street bridge improvement, saying that a single accident, which happened to Mrs. Eddy, had caused the city to have a written report showing that the Warberg team becoming frightened by the Collier team, was the only thing that marred the progress of the work. Action on having rates from 50 cents to 25 cents for outside toilets was taken on the recommendation of Water Clerk Rose, M. Williams, who wrote a report showing that the Warberg team becoming frightened by the Collier team, was the only thing that marred the progress of the work. Action on having rates from 50 cents to 25 cents for outside toilets was taken on the recommendation of Water Clerk Rose, M. Williams, who wrote a report showing that the Warberg team becoming frightened by the Collier team, was the only thing that marred the progress of the work.

ANNOUNCEMENTS
