

BIG HOG SHIPMENT

GOES TO ST. JOSEPH

Fourteen Carloads of Hogs and One of Cattle Leave Duluth-Kansas to Platte.

By far the largest shipment of hogs ever sent from Duluth at one time, and one believed to be the largest ever sent from any Idaho town to market, were shipped to St. Joseph, Missouri, last Thursday morning, says the Duluth Herald. Thirteen carloads were raised and fattened on the lower & Hatfield ranch, and their hogs were valued at about \$22,000 at the present prices of hogs. Two carloads of hogs, and one carload of cattle, belonging to Wm. Cunningham, and one carload of hogs owned by Ed Kinyon, who lives at Castledale, completed the train.

J. M. Gibbs of Blackfoot, opened his new cigar store last Thursday evening in the Macchack building adjoining the Herald office. He has the room divided into two parts by a low partition. In the front part is the soda fountain, confectionary counter and tobacco cases. Six new pool tables are in the other part of the building. This is one of the best lighted interiors in the town. It has a large plate glass front, a glass rear, and a large light.

The Kansas club of Duluth will have their annual summer picnic Thursday, July 27. They will meet at the Sandeaker grove four miles east of Duluth and serve a basket dinner at noon in the park. All Kansans are invited to come and spend the day. The annual election of officers for the club will take place at the conclusion of the picnic.

M. J. Dan and family left for a week's trip in the hills above Duluth last Wednesday in their Buick car. Ralph remained at home, however, to look after things on the ranch.

BOATS SHOULD COME TO

U. S. "UPON THE SURFACE"

Submergence Against Policies of Nathan, Declares Former Russ Agent.

PHILADELPHIA—Wharton Barker, former Russian financial agent in this country, has written a letter to President Wilson, in which he urges the establishment of an agreement with regard to the entry and clearance of foreign vessels from American waters. He believes the government ought to make a rule that no boat should enter or leave this country's jurisdiction except on the surface of the water, and that submergence by any foreign vessel should be forbidden within the three-mile limit. Mr. Barker writes: "I am of the opinion that when foreign vessels, both war and merchant, enter the territorial waters of the United States they must enter on the surface and not submerge. That when they depart from the territorial waters of the United States they must not submerge so long as they are on American waters."

To travel submerged on the territorial waters of the United States is dangerous shipping of the United States of neutrals and belligerents, and gives one belligerent an advantage over another belligerent. The United States cannot grant without liability to the belligerent whose rights are so impaired. If my view of the situation that now exists is correct, the German ship now at Baltimore imposed upon the rights of the United States when she entered the territorial waters of the United States submerged, and Germany should be held responsible for this."

MONEY TRANSFERS TO

BORDER AT HALF RATE

Western Union Announces That It Has Reduced Cost of Sending Money to National Guard Boys.

The Western Union Telegraph company announced yesterday that and further notice it would make telegraphic transfers of money to members of the national guard who have been drafted into the service of the United States at the Mexican border of one-half of the usual charge for such service. Messages may be incorporated in the transfer for the purpose of extra words involved. Under this ruling the cost of sending money transfers in amounts under \$25 from here to the border will be only sixty-three cents.

EAGLESON'S SYSTEM

PRaised BY AUDITOR

BOISE—R. E. Pinney of Spokane, auditor and manager of the Idaho and Deposit company of Maryland, is making Boise his headquarters while engaged in the investigation of the accounts of officials in the southern part of the state whose hands are held by the company.

On Saturday Mr. Pinney completed an examination of the office of State Treasurer John W. Eagleston and Mrs. Anna Moody. He is very much impressed with the system of accounting himself as entirely satisfied with conditions in both offices. "My company bonds the state treasurer in both Oregon and Washington," he said, "and I can say that neither has a better system of accounting than that in use here in Idaho. Treasurer Eagleston has been giving Idaho a maximum of efficiency at a minimum expense."

MANY IN TWIN FALLS

TRY SIMPLE MIXTURE

Many Twin Falls people are surprised at the QUICK action of simple buckhorn bark, glycerine, etc., as named in Adler's-ika. This simple remedy acts on BOTH upper and lower bowel, removing such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. A few doses often relieve or prevent appendicitis. A short treatment helps relieve stomach trouble. The INSTANT, easy action of Adler's-ika is astonishing. The Bedford-Fisher Drug Co.—Adv.

CATTLE LOWER AND OTHER STOCK STEADY

Only Inferior Cattle Go To Portland Last Week—More Sheep Are Coming In.

There was another 100 head of cattle here for Tuesday which were of inferior quality and hard to move yesterday and today have found practically no new offerings except a few loads of feeders, says the Portland live stock reporter of Thursday.

Heavy fat cattle continue in good demand, selling up to \$8.25 for choice steers. Cattle as a rule are selling 25 to 50 cents lower than a week ago on fair grades with prime cattle about a dime lower.

Tuesday found a light offering of hogs with a good demand. Prime lights sold as high as \$9.05 with bulk at \$9.00. As was the case the last couple of days, receipts are very light. Most everything coming forward was from the valley. The market is very strong and there is a good demand.

There were a few more modest \$9.05 today for a few old litters while 9 cents took the bulk.

There have been enough sheep coming forward the last few days to make a market. What were here came in mixed loads. Everything was taken early each day at good steady prices. Demand is better on all classes.

Steer quotations are: Prime light, \$7.75@8.00; prime heavy, \$7.75@8.25; good, \$6.50@7.25; common to fair, \$5.50@6.25.

Cow quotations are: Choice, \$6.00@6.35; medium to good, \$5.00@5.50; ordinary to fair, \$4.50@5.50; canners, \$3.00@4.00.

Heifer quotations are: Choice spayed, \$6.00@6.50; good, \$5.50@6.00; other varieties, \$4.50@5.50.

Butt quotations are: Choice, \$4.50; good, \$3.75@4.25; medium, \$3.00@3.50.

Stocker quotations are: Best selected, 850 to 1000 lbs., \$5.00@5.25; best selected, 600 to 800 lbs., \$5.00@5.75; choice stock heifers, \$5.00@5.60; good to choice stock cows, \$5.00@5.60.

Miller quotations are: Jersey heifers, \$4.00 and up; good grade Holsteins, \$3.50 and up; good grade Durhams, \$7.00@7.50; good Jerseys, \$5.00@7.50.

Sheep quotations are: Common lambs, \$5.50@6.00; common lambs, \$6.00@6.25; choice yearlings, \$8.00; good yearlings, \$5.50@6.75; choice wethers, \$5.75@6.00; common wethers, \$4.75@5.25; choice ewes, \$5.00@5.50; heavy ewes, \$3.25@3.50; common ewes, \$2.50@3.00.

TALKS ON THRIFT.

CLEAN UP.

The home and its surroundings is an outward expression of the character of its occupants. The back yard is a good indication of what you will find in the bed room. No matter how humble the home, if it is clean and neat, it is attractive, for the same reason that no matter how poor a man's clothes may be, if he is neat with all his poverty, he will not be unbecomingly.

As you go around the city you will find little homes that typify all that is desirable in home life. It is clean and neat, the gate with a latch and you conclude that this man is a man of thrift, and he is. You would naturally expect to find a bank book somewhere in the house, and the house as clean as the yard. And you would, for bank books come out of well kept houses.

In the contrary, if you find all of neglect and decay, the fence falling down, the walks full of weeds, the garden unplanted, chickens running around loose and a general air of not care about the place, you conclude that this is a home without thrift. And it is. Inside such a house you will find dirt and disorder holding forth from cellar to garret, and you don't expect to find a bank book therein, and the chances are you won't.

Dirt accumulates. The winter indoors finds expression in the ash pile, the junk heap and the back yard. All over the land cities have been having a clean up week. When each citizen has been urged to destroy all rubbish, remove all winter accumulations and clean up generally. It is a most excellent idea; but homes and cities like individuals need constant cleaning to keep them sweet. The eye needs constant washing to keep it clear. The body needs constant attention to keep it wholesome. The back yard needs constant weeding, hoeing, digging, to keep it presentable. The front yard needs constant mowing, to keep it green and fresh. Life is one long battle with dirt—an endless fight, but only as the fight goes on continually can we win.

A city's outward appearance advertises the character of the inhabitants as effectively as the looks of the individuals under the spirit of the dwellers. In the development of cities, and the tearing up for betterment, there must be minor disturbances to the orderly arrangement, but there is no reason

COUNCIL FIDDLERS WHILE CITY THIRSTS.

In a spirit of levity the municipal legerdemains handled the water situation lightly at its meeting Friday night and discussed the possible retirement November 5 of Mayor Sweetley and Councilmen Bohrer, Parrott and Smith. The cause of the disturbance of their risibles was a pledge given out before the last city election, that if they failed to have a waterworks system under construction by eighteen months, they would resign. The entertainment started with a reference by Mayor Sweetley, during the discussion of the Shoshone paving, to the delay in taking up the question of a pure water supply for the city which was complained of by THE TIMES. Councilman Bracken, who was a candidate on the opposition ticket, insisted that he or his party had made no such pledge and that he would either fill all the vacancies, or run the thing alone and draw all the salaries, and would hold down the job until May.

SOCIETY NOTES

Items for this department may be mailed, phoned or left at The Times office, phone 38.

The Aetna club met Friday at the home of Mrs. Patterson on Fifth avenue east. There was a short program followed by a social session. The color scheme of the club was carried out in refreshments and decorations.

A very interesting recital was held Friday by Mrs. McKay-Olsen, her studio in the Gilbert building before a number of invited guests. The evening's program follows: "Taps and the Boy," Mildred Conway; "When Mary Lindy Slugs," Dorothy Lamon; "Lawson Strauss," Patricia Munson; "An Appeal," Margaret Showers; "Moo, Cow, Moo," Virginia Sawyer; "Four years old; piano solo," Marion Etter; "And So Was I," Octavia Williamson; "Ma Fira the Cook," Dorothy McGinnis; "Hurt Me Not—Boy," Margaret Calmroser; "The Ride of Jennie McNeal," Anna Louise Scott; "Depravity," Helen Strobeck; "Pantomime work," Dorothy Lamon.

Mrs. G. F. Baker was hostess at a miscellaneous shower on Friday of last week, in honor of Miss Thelma Senior. The afternoon was spent visiting and sewing, a large red box being presented to Miss Senior which would contain many beautiful gifts. After the contents of the box were admired by the guests, dainty refreshments were served by the hostess, assisted by her daughters, Miss Marjorie and Miss Audrey. The invited guests were as follows: Mesdames Senior, Morse, W. T. Wood, Edna, Stuart, Couchman, Thelma, White, Burton, Greenhouse, Williams, and the Mesdames Eva Martin, Pauline Ripley and Lesley Williams.

Mr. and Mrs. S. W. Plaidon and Mr. and Mrs. N. L. Lloyd entertained at dinner Sunday Mr. and Mrs. T. J. Patton and daughters, Miss Patton and Miss Geraldine; also Mrs. Jesse Harwood and daughter Merle of Spokane, who are visiting with Mrs. Harwood's parents, Mr. and Mrs. Patton.

Mr. Wilton Peck was host at a twelve o'clock dinner at the Rogers cafe last Wednesday, in honor of Mr. and Mrs. Max Milnor of Meridian. A color scheme of red and white was carried out, dainty place cards marking the places, a profusion of red roses being used on the table, a large red rose holding a tiny Keokup at each plate. A seven-course dinner was served. The invited guests being: Mrs. Max Milnor, Mrs. Mary Milnor, Miss Vera Thomas, and Mr. Max Milnor, Mr. Charley Smith, and Mr. Wilton Peck.

Mrs. Earl Felt entertained last Saturday evening in honor of Miss Ruth Gray, who is visiting at the home of Mr. and Mrs. H. S. Gray of this city. The guests enjoyed a very pleasant time at the Idaho theatre, after which they returned to the home of the hostess where dainty refreshments were served.

A number of the younger set enjoyed an impromptu dance at Jewell hall last Friday evening. A violin was taken to the hall and punch was

served throughout the evening. Those present at the very enjoyable party were: Mesdames Wagner, Schenck, Berger, and Hong, and the Mesdames Vera Amos, Marguerite Gladys Dwight, Margaret and Mildred Conway and the Messrs. Kermode, J. Green, Carley, Kenny, Dorey, Batley, K. Green, Coulter, Ralph Cox and Wagner.

Following the same patriotic impulse that caused him to contribute the idea of building automobiles in national defense plans, Walter E. Flinders, president of the Maxwell Motor company of Detroit, has announced that Maxwell employees enlisting in government service for any troubles with Mexico, need have no fear regarding their "jobs" now the welfare of the families they leave behind on departing for the front.

According to President Flinders' statement, any employee who has been in the Maxwell organization for four months or more should feel free to enlist for service in Mexico or on the border, if he feels his country needs him. While engaged in the Mexican trouble, the Maxwell company will continue to pay its soldier-workers, should he have anyone dependent on him, one-half the monthly salary he was receiving on enlistment. This will be continued for an entire year, unless the government should find the meantime adopt adequate provision for the families of those at the front. Because of the Maxwell company's attitude toward its employees, it is expected that many members of the organization will enlist for service on the border within a short time.

Lucille, the Mutual Girl, and Her Auntie, will be shopping in the leading business houses in Twin Falls Tuesday Times.

The Theatres

AN IDAHO DRAMA.

The photographers of Clay McGee's company, at the Lubin theatres, were resting on the bench while the shifters were setting the next scene for "Oh, You Uncle!" Lenore Peacock was running through the exchanges to improve her mind and mentally in the hope that some observant photoplay editor had slipped in a tribute to her budding genius. Presently her eye lighted upon a suggestion by the Columbia (Pa.) "State" for a real interlarded romance in one reel as follows:

Friendship, N. Y. Love, Va. Kiss, Imme, Fla.; Ring, Ark.; Parson, Ky. When the whistle blew for luncheon Miss Peacock, instead of heading for the studio dining room with her customary celerity, buried herself in the library in conference with a bulky volume bearing the postmaster general's name as author.

When she emerged she announced that as far as it went, the interlarded romance in one reel was all right. "But," said Miss Peacock, "the subject is a dramatic one. Why not a one reel drama ending with a punch? Here's one that you don't have to go chasing all over the country to make. You'll find it right in the state of Idaho: Greece; Rupert; Reubens; Henry; Sugar; Sweet; Priest; Bliss; Twin Falls. Chorus of jealous photoplay editors in other states:

"Boy, bring me the postcard guide!" Lubin "Screen News."

"CITY BLAMELESS" SAYS RAND.

A brief synopsis of "The City," Clyde Fitch's masterwork filmed by the World Film corporation, which is to be shown at the Idaho theatre on Wednesday and Thursday, falls to do justice to this melodrama of life. The ambitious family of a country town, eager for the wider horizon of the city, are the characters of this play. How they attain their end, through what an awful crucible they pass, these are the things that make the drama. A mere recital of them would give no idea of the grim power with which the dramatist unfolded his theme. The summing up is not put by the dramatist in the lips of his leading character, who cries:

"Do not blame the city. It's not her fault. It's your own! What the city does is to bring out what's strongest in us. If at heart we are good, the good in us will win; if bad, God help us! Do not blame the city. It only gives man his opportunity. It is up to him what he makes of it."

"A man may live in a small place all his life—develop the things that make him—and himself into thinking he has got all the virtues, when at heart he's a hypocrite; but the village gives him no chance to find out to prove it to his fellows—the small town is too easy! But the city! A man comes to the gate of it and knocks! New York or Chicago, Boston or San Francisco; no matter what city, so long as it's big and busy and selfish and self-centered; and the open her gates and takes him in, and she stands him in the middle of her market place—

where Wall street and Herald Square and Fifth avenue and the Bowery and Harlem and Forty-second street all meet—and there she strips him naked of all his disguises and of all his hypocrisies and she paints his ambition on her fences and lights up her skyscrapers with it—what he wants to do and what he thinks he is! And then she says to him: 'Make good if you can, or to hell with you!' And what if he comes out to clothe his nakedness, and to the city he can't lie! I know, because I tried."

PLEASURE PRODUCERS

WILL PRESENT A COMEDY

General Interest in the "Man of Sorrows" Inducement of Popular Appreciation of Efforts.

Encouraged by the general interest in their work as evidenced by the attendance at the production of "The Man of Sorrows," recently shown in this city, the Pleasure Producers are at work on a one reel comedy in which they expect to elicit certain minor flaws noted in their first attempt to "place Twin Falls on the map" through the medium of motion pictures on the regular theatre circuit. They declare that they did not have at hand the facilities which older companies with vast capital have for reproducing scenes of mere photography failed to do justice, and while they realize that the play will have to be worked over at certain places before it can be put on the road, they feel that this is something which was to be expected in their initial effort.

The scenery as a whole, aside from

certain points in which the photography failed to do justice, was magnificent, and elicited much praise from the people who attended the pictures of the Great Shoshone falls and Twin Falls being especially fine. The first production was a revelation of the possibilities of the Twin Falls country and of the Pleasure Producers in the matter of presenting the Twin Falls tract in the movies.

MINNESOTA TORNADO DAMAGES WHEAT CROP

ALBERT LEA, Minn.—A tornado swept Albert Lea and the surrounding territory early Saturday, wrecking buildings here and seriously damaging the wheat crop, already damaged by black rust. So far as known no one was killed. Reports from surrounding towns are meager but any damage was great. Among the buildings destroyed here was Trinity church.

"Red Sox" Take Easy Game—The Twin Falls team took a slinneton to two drubbing from the Kansas City "Red Sox" last Wednesday. The local aggregation, though putting up a plucky fight, was clearly outclassed by the visiting team. The attendance was much smaller than expected, the total receipts being little more than \$100.

Commissioners Go To Buhl—County Commissioners Carlson, Moore and Albion, held a conference with the Buhl Commercial club and citizens Friday in arrangement for a meeting at a later date in order to discuss matters pertaining to the Lilly grade, southwest of Buhl, which connects with the Castleton, Three Creek, Grassy Hill and Jarbridge country.

Senatorial Aspirant in City—S. P. Atcherson of Buhl, candidate for the Idaho senate, subject to the action of the Republican primaries, is in the city today. He lives on a farm five miles southeast of Buhl. Mr. Atcherson was born and raised in Illinois, where he taught school for several years. Later he moved to Oklahoma, where he served as county commissioner and later as clerk of the Oklahoma senate. He has lived on the Twin Falls tract for the past eight years and has always been active in "dry" movements. His nomination was filed by Edgar L. Ashton of this city. Mr. Atcherson has in his possession a letter commending him for his political integrity and efficiency from the then governor of Oklahoma.

AUNTIE: My eyes have been bothering me for some time, and I do not know what I will be doing about it.

LUCILLE: Why, Auntie, that is easy. Just go to the Parrot Optical Co., and I am sure after they make a thorough examination they will be able to diagnose your case correctly. Not only that, if you do not need glasses, they will so state to you, and tell you how to cure your ailment. In case you do need glasses, they can grind them down to fit your individual case, and you will make no mistake about the fact that they will be alright.

AUNTIE: Well, the next time I get around to it, guess I will drop in and see them. Maybe by that time, it will have gone away.

LUCILLE: Don't do it. Go now while it hurts, and then you will have it taken care of once for all. There is no time like the present. "PROCRASTINATION YOU KNOW."

Filer Items

(From The Filer Journal)

Wednesday afternoon from 2:30 to 5:30, Mrs. Guy H. Shearer tendered a reception in honor of Mrs. Elmer E. Haug, at her well appointed home on Yakima Ave. About 150 guests responded, including Truitt, Moore and Tanner assisted in receiving, while Mrs. Childs, the Misses Margaret Shearer, Clara Shearer and Mrs. Cowling of Twin Falls, served at the punch bowl. The out-of-town guests present were Mesdames Austin, Hooley and Cowling of Twin Falls. Mr. and Mrs. Haug will start housekeeping in their new home, purchased from Mr. Austin, where they have fixed it up in a very cozy manner.

Work on the high school petitions is almost completed. Yesterday Jake Musser and Prof. Bracken spent the day in Pocatello district and secured 34 signatures out of 56 towns approached. Up to date, majority petitions have been signed in Washington, Clark, Lincoln, Blaine and Elmore. E. D. Smith, a member of the district school board, is circulating a petition in that district and it is hoped the petition will be passed about a month before the end of the week. The judgment in favor of the proposition is plainly shown in the fact that of the 52 men approached all but eight have signed.

On Tuesday afternoon Mrs. F. D. Brown delightfully entertained a number of the young friends of her daughter Marjorie, in honor of her eleventh birthday. Games and music were enjoyed during the afternoon and a dainty luncheon served at six o'clock.

Last Saturday night as Roy Metcalf and the Lowry boy were going to the house to supper, from J. D. Tice's field, the horse they were riding became frightened, throwing both boys to the ground, and rendering them unconscious. Roy regained consciousness Monday and was taken to his home in Filer. The same day the Lowry boy regained consciousness and was taken to his home in Filer.

Kimberly News

Rev. James Leach of Idahofield, occupied the Methodist pulpit Sunday. He was formerly pastor at Kimberly. Mrs. Leach accompanied him. They visited old friends while in the city.

Mrs. Louther of Fort Benton, Mont., who with her daughter Harriet, are here visiting her sister, Mrs. McArthur, accompanied their hosts last week on a visit to Shoshone. Blue Springs, and Twin Falls. Mrs. Louther is delighted with the beautiful scenery of the Twin Falls tract.

The Idaho Seed company is moving its machinery from the old red warehouse to the new modern warehouse now being completed on the other side of the Short Line track.

The announcement that a line through the Raft river country will be constructed at once is pleasing information to J. H. Harbison at this place, as he has long hoped that the right way and within large pieces of the town of Idaho, which will have its value greatly enhanced by the completion of the road.

Postoffice, Robbed—The Rathdrum postoffice was robbed last week, the burglars getting away with approximately \$2000 worth of postage stamps, a little jewelry and probably \$100 in money. The safe was completely wrecked, evidently with a charge of nitroglycerin.—Rathdrum Tribune.

Adds New Department—Business administration, accountancy and marketing is to be an important addition to the work of the University of Idaho next year with A. P. R. Drucker, Ph. D., of Columbia University as its head. The new man is expected to arrive in a short time to assist in the auditing of the university accounts now in progress. He is widely known as an expert in his line of work and has a master's degree from the University of Chicago in addition to his doctor's degree from Columbia.—Moscow Post.

Mackay Dam Safe—Expert engineers have examined the site of the Mackay dam and the work done on the present dam structure, and state that the dam is all right so far as it goes, and that the site is feasible. The engineers spent some time at the dam site, going into the matter thoroughly, and made a report favorable to the site. Apparently this ends the controversy and the Utah Construction company will begin at once the work of reconstruction and complete the project which they have bought.—Idaho Falls Register.

Shoots at Druggist—Crazed with either alcohol or drugs is the only cause assigned by the local police for the actions of a man who entered Book Store Pharmacy No. 2 on North Main street Friday evening at about 8 o'clock and after giving an order to the druggist followed him back to the subscription room and took a shot at him, but missed aim. The individual, whose name is given as Jack Leo, has only been in the city for the few weeks and has been employed as a bell boy and elevator boy in a local hotel. Leo escaped and has not been located.—Pocatello Tribune.

Order Van Looking Over Situation Concludes That Successful Cattle Ranges Are Impractical.

"The Twin Falls neighborhood would be a great dairy country if it were not for the lack of one essential element in the success of the business," said W. C. Rindler of Ogden, secretary and treasurer of the A. I. Brewer Dairy Supply company, who

is in this city today looking over the situation here. Mr. Rindler thinks that with the great supply of feed and the favorable climate only cattle are needed to make this a great dairy center. He pointed out the success of the industry in the Bull country where general conditions are the same as here. He predicts that with the more general use of milking machines more dairy farms will be established.

RATE ADVANCED ON FRUITS TO EAST Short-Line Files New Tariffs With P. U. Commission

REFRIGERATION COST ONLY RECENTLY RAISED.

Total Increase Amounts to \$20 Per Car in Some Instances; Growers Face Loss in Shipments.

BOISE—An advance in tariffs on fresh fruits east from Idaho points was filed Thursday by the Oregon Short-Line with the public utilities commission. The advance announced by the railroad is in addition to an advance in tariffs made 60 days ago on refrigeration rates east from this state by the common carriers, and will, in some instances, result in freight rates on carload lots of fruit being increased as much as \$20 a car. Shippers who Thursday learned of the proposed advance in the tariffs declared that the action of the railroad will result in all fruits raised in Idaho being sold here, since fruit-growers will lose money if they attempt to sell to outside markets, they say.

In the tariffs on refrigeration filed with the public utilities commission is a charge for carload lots of fruit being increased from \$5 to \$20. These tariffs have not as yet been put into effect. When the advance was announced the freighters filed a protest with the commission, resulting in a motion for a hearing. This hearing is yet to be held.

Points named in Idaho from which the new rates become effective are Huntington, Keckman, Buhl and Hill City in the west side of the state; Idaho Falls, Blaine and Pocatello in the east; and in the south, Blackfoot and Preston in the southeast section of the state. The rates are effective from all intermediate points. The increase of rates on apples in carload lots ranges from 5 to 7½ cents per hundred pounds from all sections of the state to points in the south and middle west. The advance in rates on other fruits from this state to the south and middle west runs from 2 to 12 cents.

Rates on apples to eastern points will be increased very little under the tariffs, amounting to not more than 2 cents a hundred, from the southeastern section of the state. From Snake river points the increase will range from 2 to 5 cents. There is little change from the old rates for carload shipments from Idaho Falls, Blackfoot and other towns in the east end.

Advances on other green fruits to eastern cities from the east end and southeastern section of the state will range from two to six cents, while from Snake river points the increase amounts to as high as 12 or 15 cents.

ANCHOR FEED MILL ADDS TO MACHINERY

New Brand of Poultry Feed Put Out The Proprietor Talks About Early Experiences on Tract.

Having made arrangements to add an automatic carrier and feed table to the machinery now in use, the Anchor Feed company is enlarging the machinery room of its mill and warehouse at 249-251 West Sixth street in order to take care of the new equipment. The company is preparing to begin the sale on a large scale, of a new chicken feed, known as the Anchor chicken feed, as soon as sacks for its shipment arrive. The new feed is a combination of wheat, cracked corn, barley, oats, milo meal, kafir corn and sunflower seed.

"The business is 150 per cent better than I anticipated when I began operations last February," said John Pinks, the proprietor, yesterday, and it has been necessary to add to the machinery and the machinery room to take care of the demand for the several kinds of feed that we produce. We have rollers, grinders and cleaners. The products of the mill have been sold in large quantities in Salt Lake City, Payson and Jarvisburg. Much wheat is being raised here now, putting it up. However, that will be shipped directly to Salt Lake City from there.

"I remember my early experiences as a buyer on the tract. When I came here people were planting alfalfa primarily as a means of getting the ground in shape. The price was about two dollars a ton and some people burned the hay on the field. The first purchase I made here was from John M. Maxwell from whom I bought 500 tons. Many who were then living in claim shacks and raising alfalfa have abandoned alfalfa on their farms and now raise clover seed, live in fine residences and ride around in autos. The development of the country during the past six years and its increase in wealth have been marvelous.

"The success of my venture in making different feeds this year makes me feel that I made a mistake in not seeing into that business when I started here, instead of buying the hay and shipping that."

look right and hodes of no good for the future.

"We have not yet submitted a report of our trip of investigation. The secretary of state is yet studying on the matter and so am I. However, probably our report will be ready to present to the land board within a week. We will then give our views on the matter and probably such recommendations as we observed conditions while there.

"There is no question about it; something has to be done on the tract, and done once, else the people will scatter, and some of them will never return.

"The dam is one of the very best that can be built for the people, no complaint to make on it. The trouble is that there is an insufficient amount of water for the size of the tract."

"There has been too much land sold and too much land taken up by non-residents. It seems to me the solution of the trouble is to make a reduction of the acreage to be irrigated and a revamping of the project.

"We have discussed this question long enough. It is now time to do it and something has to be done. I believe the company is cognizant of the fact as well as the land board.

"The water right on that project is \$40 per acre, which is not excessive if they had the water to raise the crops.

"With the water supply what overflow and no more to run through the ditches again this year, in my opinion it is a hardship, for it seems to me it is the proper time to make the alfalfa and fill the grain and produce the most valuable product on the tract, alfalfa clover and the raising of alfalfa seed.

"We met with the settlers of Amsterdam and vicinity at the hotel at Amsterdam last Monday night and I am frank to confess that the spirit of politeness and forbearance they have displayed under the most adverse conditions challenge my admiration for these people and also amazed me. I visited some of the people in their homes and talked with the families and they certainly have my sincere sympathy.

"My investigation has led me to the conclusion that so far as I am individually concerned, I shall go on the full limit of my official power to bring relief to these people, and I hope I may have the co-operation of the balance of the land board along the lines which I think ought to be followed to bring relief.

"The day for discussion has passed and the hour of action has come. With the decision of the supreme court, the Twin Falls-Oakley case, we can hope that the court will look upon the Salmon river tract in the light of reason and public service.

"No matter what other bodies may do, I have unbounded faith that the land board will act and act right. Just what action to take I am not fully prepared to state as there are yet a few things in my mind I desire to clear up. I hope we may be able to accomplish something for these people in the very near future."

ADDITIONAL BREVITIES.

Council Tomorrow Night—The city council will meet tomorrow night to hear protests on the Elm Park sewer. As the meeting is for that special purpose no other business will be transacted.

Midget Car Received—Four days after receiving a Woods Motor car, claimed to be the smallest standard automobile made, M. W. Kunkley, of the Auto Agency company of Twin Falls, made a trip to Buhl and back with Dr. C. D. Weaver. The car averaged 28 miles to the gallon and made the trip in two hours. The sales price of the equipped car laid down in Twin Falls is \$440.

No New Hospital Move—Nothing has been done in regard to attempting to restrain the carrying out of the contract for the erection of the county hospital up to this time. Asked if there had been any new developments in regard to the hospital situation, Dr. T. O. Boyd said today that he knew of none. Asked if he cared to make any statement at this time, he said that he did not.

should not allow the company to violate its franchise indefinitely without losing its charter. He also declared that the gas franchise seemed to be in a state where it might be declared forfeited as according to its terms it would expire June 1, unless work should be started by that time. He had seen no sign of work. The council ordered that the manager of the street railway and the gas franchise should be cited before the council at its next meeting to make explanations.

The Johnson Auto company, by Manager Johnson, explained the location of its new gasoline tank and was granted permission to go ahead. Street Commissioner Porter said that the tank on Sixth street was still open, where complaints had been made and stated that he had pipe enough to run the water that way if desired. The matter was turned over to the street committee with power to act.

The matter of the library was brought before the council by E. E. Nixon on behalf of the library board and the action above mentioned taken.

J. J. Nelson, a representative of the lumbermen's trust company, the bonding house which purchased the waterworks bonds, was present and discussed the possible purchase of paving bonds, city hall bonds and sewer bonds. No action was taken. The council is trying to get things in shape so that it can call an election for the bond issues on the same day.

It was reported by Street Commissioner Porter that a silent policeman was on the way to take a stand at the Hogerson hotel corner. The meeting then adjourned.

HOSPITAL TRAIN OF

WASHINGTON—A hospital train of 10 Pullman cars, destined by the army medical department, has been ordered from the Pullman shops at Chicago. Five of the cars are to be equipped with regular hospital beds and have large doors for loading and unloading stretchers, two will be of the regular sleeper type, equipped with extra fans, medicine cabinets and ice tanks, one will carry a complete operating room and another a kitchen large enough to care for over 200 sick.

The train will be painted maroon with the insignia of the army medical department. Others will be contracted for if necessary.
