## WILSON LANDSLIDE COMING SAYS HICKS

Twin Falls Man Finds Illinois In Line For President

MEN ON TRAINS ALSO TALK FAVORABLY OF WILSON CHANCES.

Prominent German Discusses Issues and Says Many Teutons Will Vote For Wilson Against Militarism.

"It looks like a Wilson landslide in Illinois," said A. R. Hicks, one of the Twin Falls county representatives, on his return Sunday, "and people back there think that he will be elected by a big majority. They are not satisfied with the character of Hughes' speeches and are not likely to turn down the present administration."

Mr. Hicks stated that there would be some division among the German voters owing to the denunciation of President Wilson by certain German organizations, but added that others would resent this and vote for Wilson on account of these denunciations. Among those who resented the activities of the German organizations were many German voters. Mr. Hicks said that he talked with a prominent Illinois German who said in effect:

"We are not going to be led up to the polls and vote in a body. You ought to know enough about the German spirit to understand that. I do not believe that Wilson took the correct position regarding some matters in controversy between the United States and Germany. I think that he was too radical in his demands in some instances, but he won his point by the very writing of notes for which he is abused by some, and did not involve the country in war. Although I do not wholly agree with him; yet I am glad that he did win his point without war, and intend to vote for

him, as do thousands of other Germans who feel just as I do. I do not want universal compulsory military training adopted by this country. That is the reason why I left Germany. Wilson does not want it and I am with him against the adoption of this sort of militarism which impelled me to leave the old country."

The Illinois primaries will be held September 13, but interest in the local fight is swallowed up in the presidential campaign. Mr. Hicks says that he heard much talk on the trains and elsewhere and that the consensus of opinion is that Wilson will be elected. Mr. Hicks says that he saw Hughes in Denver and that he was more favorably impressed with his personal appearance than he was by the pictures which he had seen of him. His manner of greeting the crowds that lined the streets, however, was forced and formal and did not evoke enthusiasm. Mr. Hicks suggests that he is somewhat rusty in campaign work and that the politicians probably sent him on the western tour in order to get him into form before the real work begins in the big states in the east.

## COST OF BOISE PROJECT OVER ELEVEN MILLION

Secretary's Report Shows Cost of Construction Is Over Twice That of Arrowrock Dam.

That the irrigation project of the Boise-Payette Water Users association is a big one, may be noted from an article in the Nampa Record on the report of W. L. Girard, the association's secretary. The following are figures on construction to June 28:

Gross construction cost of the project up to June 30 of the present year was \$11,125,690.90.

The various revenues earned during this time amounted to \$628,143.03.

The cost of the Arrowrock dam was \$4,772,723.17, and that of the Deer Flat reservoir \$957,613.47.

The earnings of the project were realized from rental of power for lights and other purposes, for irrigation water, profits on commissary and mercantile stores.

## REED NOT GUILTY OF OSCULATION

Released on Charge of Assault and Battery for Alleged Attempt to Kiss Shoshone Basin Belle.

Because he got giddy with Lena Willis while getting his mail at the Willis home in the Shoshone Basin on August 6, Duffy Reed faced a jury in the court of Probate Judge A. W. Ostrom Saturday, charged with assault and battery, but after due deliberation these good men and true decided that the criminal act charged had not been committed and turned him loose.

The evidence disclosed the fact that in the basin when anyone visits Twin Falls they bring back the mail for all the neighbors around about. The father of Lena returned from the city August 6, bringing the mail, as usual, and in addition bringing a box of chocolates for his daughter, who is thirteen years of age. Reed, who is a married man living on a nearby claim, came after his mail and found Lena eating the candy, which she invited him to share. He shared the candy. Just what else he did is disputed. Lena says that he tried to put his arm around her and kiss her. He says that he did not, but that as she leaned over with a piece of candy, he took hold of her arm. He did not actually kiss her. Lena said that she forthwith ordered him out of the house and he went. She said that he came back and apologized, she said that he did not. The jury concluded that assault and battery had not been committed.

## DOOR BREAKS LEG OF KIMBERLY GIRL

Reading Circus Poster on Birthday Thelma Copplinger Sustains Severe Injury.

What had been planned for an enjoyable afternoon came to a sudden close shortly after noon Saturday when Thelma Copplinger, fourteen-year-old daughter of Mr. and Mrs. Wiley Copplinger, suffered a broken leg as the result of a large door falling on her at the old Norton livery barn, where she was playing in company with Lella Tate, daughter of Mr. and Mrs. George Tate, says the Call.

Saturday was Lella's birthday and a little party was to have been given in the afternoon, to which a few friends had been invited. Thelma Copplinger had arrived and the two girls were in the barn. Some circus advertising had been placed on the barn while the door was closed, and when it was open it obstructed a part of it from view. The girls were endeavoring to push the door shut in order to read the announcements of the circus, when the door left the track, falling forward. Thelma was in about the center, and was unable to get out of the way. The Tate girl was near the side of the door, and aside from a slight bruise on the arm was not injured. J. H. Voss, the transfer man who has the barn rented, was there at the time, and with the assistance of Lella Tate got the injured girl from under the door. The door is a massive affair, weighing several hundred pounds, and it is a wonder that Miss Copplinger was not injured more seriously. Help was immediately summoned and it was found that the injury consisted of a compound fracture of the left leg just above the ankle. It was set and the unfortunate girl taken to the Copplinger home in the Turner addition to Kimberly. The break is not considered serious and it is expected that the young lady will be about again in about sixty days.

## IDAHO WHEAT IS BEST FOR MACARONI

Sales Manager of Salt Lake City Company Here

DRY FARMS OF GEN STATE BEAT THE WORLD HE DECLARES.

Only Idaho Wheat Used by Factory Located in Salt Lake City in Making Product.

That Idaho wheat is the best cereal in the world for the production of macaroni, is the statement of C. A. Mariani, sales manager for the International Macaroni company, of Salt Lake City, who was in Twin Falls on business Thursday afternoon. Mr. Mariani declares that the hard wheat raised on dry farms of Idaho is superior to any other, even to that grown in Utah, so that his company uses only the hard Turkey Red variety of hard wheat grown on the foothills of Idaho. This wheat contains more gluten than any other. Wheat which is dried into small, hard grains makes the best macaroni flour.

"For this reason," says Mr. Mariani, "our business is beneficial to the man who needs it most. We call our brand 'Almo,' in honor of an Idaho town, although we make the product in the capital of another state. I have just shipped the first carload of macaroni that was ever sent to this city to a Twin Falls firm. This large shipment means that the price of the product will be lower here than it otherwise would have been, as the wholesale price has already gone up materially since the shipment was made."

CONDUCTOR COME FOR HUMANITY TO BABY

COTTELL, Ark.—J. E. O'Donnell, a conductor on the White River division of the Iron Mountain railroad, was somewhat worried when he learned that a report had been made to division headquarters of his recent action in holding a passenger train here for 20 minutes so that milk could be procured for a sick baby on the train. Today he was astonished at receiving a letter from B. F. Bush of St. Louis, receiver of the road, commending his action.

"Your act proved that railroad officials and employees place the interests of humanity above even railroad discipline," wrote Mr. Bush.

This Overland is the world's most powerful low-priced car. It has a 31 1/2 horsepower en bloc motor that is a perfect marvel for speed, power and endurance.

By increasing the bore of the motor from 3 1/8 to 3 3/8" we are able to offer a power plant which at 1950 R. P. M. develops full 31 1/2 horsepower.

Tests under every condition in all parts of the country demonstrate that it easily develops better than fifty miles per hour on the road.

Speed of course varies under different conditions, but in practically every instance it has been getting fifty miles an hour and with ease.

We have scores of telegrams showing that twenty to twenty-five miles per gallon of gasoline is not unusual.

The performance of this car is almost beyond belief.

Take any other low-priced car on the market. Pit it against this new Overland. Compare them for sheer speed, for abundance of power, for riding comfort and economy, and you'll find this car will back anything else clean off the boards.

That's a strong statement, but a fact nevertheless.

Try it yourself and see. Here are more important facts.

It has four-inch tires which are more than generous for a car of this size.

Not only has it a large and roomy body, but it has an attractive, up-to-date streamline body.

It has the latest and most improved system of ignition.

It has the cantilever springs—the easiest riding springs in the world.

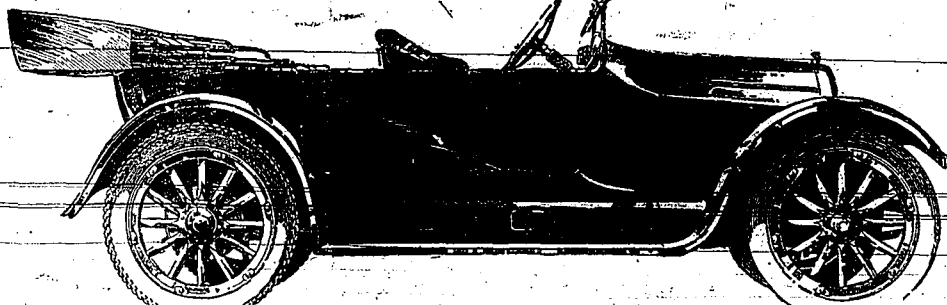

What's more, it's complete. Not a thing to buy. You get the finest Auto-Lite electric starting and lighting system, magnetic speedometer, one-man top, demountable rims and practically every accessory found on the highest priced car.

It only goes to prove how big production can cut cost and save you money.

## THE MUTUAL GIRL AND HER AUNTIE

**AUNTIE:** I guess I must be getting old, Lucille. I wake up with a  
cold, and have a headache, and the more medicine I take  
the worse I feel.

**LUCILLE:** You are not getting old, Auntie, you just do not know  
how to take care of your physical body. You do not exer-  
cise all the necessary functions, and some of them get stiff  
and cramped, and your nerves get pinched, and conse-  
quently you do not have health. I'd like to have you  
read a little booklet I read a while back. It is gotten out  
by Atherton & Atherton, and is called "Chiropractic,"  
telling you about yourself and how to avoid these things.

**AUNTIE:** I am kind of skeptical about this Chiropractic, Lucille.  
**LUCILLE:** And so are a lot of other people until they try it. You  
know the nerves control the human body, and they all  
run down the spine, and unless they have plenty of room  
and do not get cramped, they cannot do their duties.  
The trouble with you is, you should get your spinal  
column looked over and get a couple of treatments and  
you will be alright. You see medicine is just a tempor-  
ary relief, and in some cases not even that. Chiropractic  
—eliminates the cause, and then it does not return.

### TALKS ON THRIFT.

#### THE WASTE OF MONEY.

In the daily papers comes the story of the downfall of the owner of a prominent Wall Street man, who (twice) has been presented to British royalty, lived on Fifth avenue, was a social leader and a woman of the four hundred. In the brief six years of her widowhood she has wasted a fortune of over one hundred thousand dollars and now faces the charge of passing a worthless check. She has made a "bad mistake," but did the "best she knew how" with her money. Out of it in ill-advised business ventures, invested in doubtful securities and spent the rest in social aspirations. Of lesser magnitude, but no less tragic, is the recent case of a German woman with three children, who in the short space of ten weeks has spent (not "invested") the fourteen hundred dollars received from her husband's death in an accident. During that time she has visited the savings bank on an average of every other day, drawing from twenty-five to fifty dollars each time. Another woman who received a life insurance payment of two thousand dollars wasted her inheritance in two weeks at the races. Another who received a thousand dollars bequeathed herself with jewelry and had to go back to the factory in three months. A certain youth received two thousand dollars as his share of his uncle's estate, quit work and lived the high life for a short time, and then went broke, as they all do.

The only redeeming feature of these processes is the fact that the waste of money cures itself, for soon there is no more to waste. The above-mentioned individuals have found it out. It matters not whether the sum be large or small, it seems an endless waste, a little extravagance every day soon brings the fund to a state of exhaustion.

Life insurance companies have found upon investigation that a large proportion of their policy settlements are frittered away in the course of a few years. The hard work and the sacrifice of the bread winner, in which the beneficiary usually has shared seem to count for naught when the settlement comes, and passes a considerable sum into irresponsible hands.

This is no indictment against womanhood, but as a sex they seem to have the knack of spending easy money fast. While a thrifty woman is the Lord's choicest creation, the thrifless one is His greatest bane. Bank men of experience will corroborate the conclusion that it is unwise to leave money to the wife in such a way as to tempt her to be imprudent with it. The fortune first mentioned would have given the wife an income of at least five thousand a year for life, if properly invested, and the smaller amounts would have helped the beneficiaries over many a rainy day. The caution to the men in such matters is to so arrange affairs that the income and not the principal may be used.

The best legacy you can leave your wife is a well-invested estate. If you love her you can prove it best by not giving her absolute control of her legacy, but by saving her from all the pitfalls that are open to the unsophisticated and the unwary. Save her from herself, her friends and the slick promoter who dazzles her with alluring tales of large returns from

her investments. Many a man has spent a lifetime providing for those he must leave behind, and in his provision caused their own downfall. It is no reflection on the woman to make these statements, but they are cruel truths borne out by everyday experience. Do well to consider you might happen to those who survive you if they fall prey to the temptations that beset the well-meaning and above all, the estate you can leave is the certainty that the future will not find those you love in want through their own folly, made possible by your own shortsightedness. Thrift not only prepares for the future, but safeguards the future, and easy money needs such protection.

### WHICH SHALL IT BE?

Do you intend to continue laboring, burning valuable fuel and destroying high-priced food with that old worn-out cook stove?

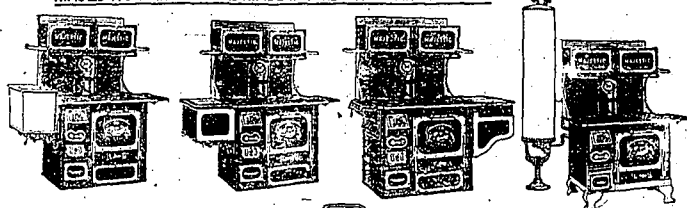

You KNOW that old stove eats up a lot of fuel each year. You KNOW you have trouble in getting it to bake just right, in fact, spoil a batch of bread every once in a while—you know it costs considerable for yearly repairs.

Stop and think and figure. Wouldn't it pay you to buy a good range—a range with a reputation—

You make no mistake in buying the GREAT MAJESTIC. It's the range with THE REPUTATION—ask your neighbors. Then, too, it's made just right and of the right kind of material—MALEABLE AND CHARCOAL IRON—riveted together practically air tight—lined with pure asbestos—parts being malleable can't break—has a movable reservoir and an oven that doesn't warp—that's why the MAJESTIC uses so little fuel, bakes just right every day in the year (browns bread just right all over without turning), heats 15 gallons of water while breakfast is cooking—properly handled lasts a lifetime, and costs practically nothing for repairs.

Don't buy the range you expect to last a lifetime "unsaid and unseen"; you'll be sure to be disappointed. Come to our store during demonstration week, see the GREAT MAJESTIC—have its many exclusive features explained—find out why the MAJESTIC is 500 per cent. stronger than other ranges where most ranges are weakest.

## NIHART SAYS HE DID NOT ACT UNFAIRLY

Brought Up County Division At Request of the People of Buhl After They Held Several Meetings.

"The statement that I suddenly and without warning, to the amazement of everybody, sprang the county division bill on the legislature," is incorrect," said Fred Nihart, the divisionist candidate for the legislature yesterday. "I knew nothing about the county division movement when elected nor when I went to Boise, nor did Mr. Hayford, who was also a legislator at the same time. A few days before the legislature adjourned Dr. Wetherbee telephoned me from Buhl and asked how a county division bill would go through. I wanted to know what county division bill was referred to and he replied that it was the county division bill. At that time several meetings had been held in Buhl and resolutions passed in favor of county division, but neither Hayford nor myself had been consulted by the people there. I told Dr. Wetherbee that it was too late to introduce a bill. He asked if it were absolutely too late and I told him that we could get a bill introduced by a vote of two-thirds majority of the entire membership. He said to try, I did not believe that he was speaking seriously and thought no more about it, until later in the day, when I received a telegram from W. S. Harris who then ran a drug store in Buhl, asking how the county division bill was coming on. I laughed and said to Hayford, 'Tell him that it is all right and to send up the names of the county officers that they want appointed.' Hayford was writing the telegram when it struck me that perhaps the people at home might be serious about the proposition, so I told him not to send it. I discovered that they were serious and then at their request, brought the matter up. It took forty votes to allow the introduction of the bill and we got but thirty-nine. When we tried to bring it up again, we got but thirty-seven votes. I was introduced that session. The point is that I did not slip up there under false pretenses and then spring county division on the legislature without any previous steps being taken in its favor. The people of Buhl worked it up and had several meetings in favor of it before I even heard of it, and I introduced it at the request of the people there. The intimation that I in any way acted as a tricky politician and used methods less fair than any Farley, is a mistake. Although I would willingly claim authorship of the first county division movement if I deserved it, I am not the author."

## COUNCIL HOLDS A SPECIAL MEETING

Tax Levy For Elm Park Sewer Is Passed and Several Matters Are Informally Discussed.

The city council held a brief special meeting last night for the purpose of hearing protests on the tax levy resulting from the fact that the independent sewer district in Senior, Newton and Elm Park additions. There were no protests and the required ordinance was passed. Work will begin at once on the new sewers. Several matters were informally discussed, including the items of expense connected with the library. The city clerk was informed, as the special meeting had no power to instruct, that he might draw a check for the balance of \$400 due on the library note. W. E. Nixon, who represented the school board as well as the library board, called the attention of the council to the fact that City Engineer J. A. Bybee had made a survey which if adopted would result in turning the water now flowing by the Washington school site in such manner as to enable the board and residents along Addison avenue to build sidewalks on their own lots without cutting into the street. This matter was also informally discussed as the council was without power to act. Mayor Sweeley and President Bobbigh being absent, Dr. H. A. Parrott presided.

## SWIM SAYS COUNTY PRESENTS TWO BIG ISSUES

County Division and the Salmon Situation Are the Big Matters That Legislature Must Deal With.

"I am a candidate for the state senate because I was urgently requested by many people to make the race, and for the further reason that I am deeply interested in the vital questions that affect county and state. The making of laws is a business matter, and if elected I shall do all within my power for the benefit of my county and state."

"I am well informed of conditions on the Salmon River tract, and I take the position that the state of Idaho is big enough to take care of the rights of all the settlers, and to this end I favor such special legislation as may be necessary to protect the rights of the people on the Salmon tract."

"It is well known, of course, all over the county, that I am absolutely opposed to county division. I know that the division of this county would be prejudicial to all interests, including my own. I know that county division would be disastrous. Some rather foolish stories have been circu-

laid, I understand, for the purpose of obtaining certain voters as to my position on this question, but as I am duly receiving assurances of support from all over the county, these stories apparently are reacting in my favor.

"If elected my main endeavor in the senate will be in the interests of the Salmon tract and against county division. These are the two big vital matters affecting the interests of Twin Falls county that must receive attention at the next session of the legislature. It would be useless to attempt to minimize the importance of either, if elected I shall be obliged to undergo many sacrifices, both of time and money, in order to carry out my ideas on these matters. We want and must have legislation that will permanently and equitably settle the Salmon River controversy. Those people who have been injured and who will be injured must be taken care of in hard American dollars and it is the duty of the state of Idaho to play fair. County division must be beaten so decisively that it never again will become an issue."

"I also receive assurances from over the county of support for the candidates for the state representatives who are opposed to county division. Mr. Mikecell, Mr. Hinton and Norman Barker."

DR. C. A. ENES

Republican Candidate For Nomination as Coroner of Twin Falls County.

Is resident of Twin Falls and has been resident of Twin Falls county since 1908, and owns considerable city

and farm property and is a large taxpayer.

Dr. Enes' record shows unusual qualifications for this position. After graduating from high school he taught two terms of school; then later graduated in medicine and was actively engaged in the practice of medicine and surgery in Kansas City and Jasper county, Missouri, for fifteen years.

Being also a registered pharmacist he was owner and manager of large drug business during several years of his practice. Furthermore, he is a graduate of the Massachusetts college of embalming, of Boston, in which institution he was for some time an instructor. He was also a licensed embalmer in the states of Massachusetts, Rhode Island, New York and Idaho, and for past year has been an equal partner and active worker in the firm of Grossman & Enes.

During his active practice in medicine he was elected to the office of coroner in Jasper county, Missouri, and was re-elected at expiration of the first term, thus filling the office for four years.

With the above qualifications, the doctor asks your support in the primary election September 26th. (Advertisement)

### Buhl News

(From the Buhl Herald)

The best home talent entertainment ever produced in Buhl was the first performance of "Paddy O'Connell" at the Rex theatre on Monday evening. The play was written by Mr. Shelby Constant, of this city, and depicted in a vivid manner the frolicsome side of college life. The dialogue was natural, witty and exceedingly well written, and the comedy situations, of which there were many, were constantly introduced. There is an old adage

about a prophet being without honor in his own country and this is often true as regards "home" talent of any kind. But in this instance the old saying is set aside and Mr. Constant is accredited with really writing something worth while. The play was staged and produced under the direction of Will J. Sargent and to him a great deal of credit must also be given.

Cliff Jennings, one of the parties accused of bootlegging and disturbing the peace at a dance given in the Buxton house a few weeks ago, and who was told to leave the county and remain away, was seen in Buhl Tuesday by Marshal Baymiller and taken in custody. By order of Sheriff Kendall he was released with the instruction that he leave the county for good or take the consequences. In court, which would probably be a long term in jail as the evidences against him are strong.

M. L. Graver, who received a broken leg at the Buhl plating mill about three months ago, returned home from the Twin Falls hospital Saturday, after being confined there for the past two weeks. The bone is beginning to knit, and Mr. Graver is able to get around town on his crutches.

N. R. Davis, who lives south of Buhl, had fourteen acres of alfalfa seed threshed last week, and the field averaged 30 bushels to the acre. At the present market prices, Mr. Davis will receive better than \$100 per acre for the seed. The same field made 10 1/2 bushels of alfalfa seed to the acre last year. The field has returned its second crop.

J. C. Washburn, proprietor of the City hotel, is building an addition to the popular hostelry which will contain seven large, airy sleeping rooms and a parlor. The addition will be two stories, the upper story containing four rooms. Hot and cold water will be piped to both floors. The addition is 24x28 and 20 foot high.

Capt. Chas. Weatherbee of this city was in Buhl last week conferring with General Moody in regard to the organization of a new hospital company. The captain has been offered the commission of major of the new unit. He is as yet undecided whether to accept the command.

Harold, the four-year-old son of Mr. and Mrs. Lee Young, who live near Castalia, died Sunday morning at ten o'clock at the home of his grandparents, two miles northwest of Filer of tonsillitis, after a short illness of only five days.

Being delayed by accidental loss of some equipment, Dr. Dickinson, dentist at the Register, cannot return till Sept. 1.—Adv.

### CROM THINKS ROAD VERY MUCH ALIVE

Returns From East Hopeful of Results—Says He Will Tape Up Matter After the Primaries.

"The Castelford road proposition is not dead by a whole lot," said J. A. Crom, who returned Friday from a trip to Chicago and other eastern points where he spent three months on business. "I have not had time to become familiar with the local situation concerning the road," continued Mr. Crom, "but I dropped into a well-known car dealer and got off the train, but as soon as that is settled, I shall talk the road situation over with the other members of the committee. There are some features of the situation that I found encouraging while away and I am hopeful that the thing can be pulled through. The best suggestions are anxious to have the road built to Castelford, something that we did not know before I left for the east, and there are other encouraging things in connection with it. I expect to talk with Mr. Seavey and with the rest about it just as soon as the primaries are over."

### Filer Items

(From The Filer Journal.)

Minor Bonwell, appointed by Auditor T. Smith as a student at Mount Point, is at home at Curry on a twelve day leave of absence on account of the serious illness of his mother, and was in Filer during his vacation. As is the custom, Mr. Bonwell was in full dress uniform which adds much to the dignity of his rank. Minor has only been at Mount Point two and a half months but says he likes it fine, and as the training is so efficient he appears in the same of health. The magnitude of this institution can only be appreciated when one considers that it cost our government \$25,000 to graduate one student.

On Friday, September 1, E. P. Taylor, field horticulturist, and Miss M. A. Willis, plant pathologist, will accompany county agent W. N. Birch in the inspection of potato seed plots which are being grown by farmers in the county in co-operation with the county agricultural agent. The seed in these plots were selected by the county agent and field horticulturist in the spring, and treated for disease control. The object of visiting at this time is to observe the progress of disease, and to eliminate diseased plants, in order that next year's seed may have less disease.

An anonymous writer sends the Journal a joke on Judd Gulick, who it seems upon calling on his lady-love on a cool evening forgot his overcoat and had to borrow one from Dennis Stewart on his way home to keep from freezing.

Ray Lee left Tuesday morning for Chicago, where he will take a course in pharmacy at the Northwestern university. Ray is a son of a Filer boy, and his friends all expect him to make good in any calling he chooses for his life's work.

A. B. Wood joined his wife in Montana last week, where they are visiting Joe and Leonard. The Woods are having a sort of family reunion up there, and his friends are all expected for a good time. If any family on earth know how to enjoy themselves when they are cut loose, it is our opinion that these good people.

The first of the clover and alfalfa seed crops harvested in this county are harbingers of bumper yields for the 1916 season. A. B. Elder of five acres of alfalfa raised 45 bushels,

for which he received \$432. The market price of alfalfa is 16 cents per pound. D. A. Kooler's 15 acres of alfalfa produced 14 bushels to the acre which netted him \$1,925. Other reports of small acreage show the same average.

A special tourist car direct from central Nebraska, and laden with housewives intent upon locating up on the High Line Seed Farms at Clover, was attached to the Thursday afternoon passenger train. Six automobiles conveyed the party to their destination, amid the worst wind and dust storm of the summer. This is a second carload of Nebraskans coming to the Clover project within the last year, which indicates that the investors are satisfied.

Last week Mr. Mauser sold the new market to Messrs. Ashton & Rathburn of Twin Falls, experienced butchers and market men. The new firm will maintain the reputation of the market and propose to give Filer people the best service in their line.

### RABID COYOTES ARE AGAIN IN EVIDENCE

Woman Attacked in Yard—Albert Urie Driven Into Tent by a Hydrophobic Coyote.

The breaking out of another epidemic of hydrophobia in the southern part of the county, resulting in the kidnapping of one settler in his own cellar by mad cow, an attack on a woman in her own yard by one rapid coyote and the driving of a man to his tent by another, is the story told in a letter received this week by THE TIMES from Tom Urie, a deputy en-

gaged in the warfare on rabid animals. The letter follows: There has been two or three instances where people have seen mad cows recently in this vicinity. Frank Chandler killed a cow a short time ago, belonging to Billy Wilson. Two cows on Big creek chased one of the dry farmer settlers into his cellar and kept him there for some time before they left. Several mad dogs have been seen in the same territory. A mad dog got into the Cenefield herd of sheep and killed several of them. He returned three times, after which he ran into a bunch of horses belonging to Mr. Courtney of Shoshone creek, and bit several of them. Nothing has been done with the horses that were bitten up to this time.

Ray Delquist killed a mad coyote on the Erickson ranch after it had bitten three dogs. Mr. Erickson also killed the dogs. Mrs. Chesney killed a mad coyote in her yard with the aid of the dogs. A rapid coyote chased Albert Urie into his tent. Mr. Urie and his dogs finally killed the animal.

R. J. Day, while announcing himself as a candidate before the Republican primaries for the office of state representative, is an anti-county divisionist. He will not lend his name to any ring of dirty, mud-slinging politicians, and he believes that the primary law was instituted for the purpose of getting away from this kind of politics, and to give every candidate an open field and every voter the right to vote according to his own dictation. Oklahoma City, Okla., Aug. 8, 1916.

Editor Twin Falls Times, Twin Falls, Idaho.

Dear Sir: I note that my friend and your citizen, C. L. Green, is a candidate for sheriff of your county. I at one time was fortunate enough to be mayor and ex-officio police judge of the city of Sapulpa, Okla., and by virtue of the office I had the appointment and control of the police force of the city. Though a Republican myself I stepped over the line and appointed Charley Green as one of the policemen. I soon found him to be one of my truest men, one in whom I could always place the utmost confidence. He was fearless, honest and to be trusted under all circumstances and ready and willing to enforce the law at all times.

I feel that I want to recommend him to your people and hope that he may secure the nomination and election, for I believe you will make no mistake in securing him as your sheriff.

I am very truly,

JOHN M. WEEKS,

R. R. No. 7, Box 46, Oklahoma City, Okla.

Sapulpa, Oklahoma, August 5, 1916.

Twin Falls Times, Twin Falls, Idaho.

Gentlemen: I received word that C. L. Green, formerly of Sapulpa, is a candidate for sheriff in your county.

Mr. Green was a resident of Sapulpa for several years and at one time was on the police force here. I know Mr. Green well and personally and know him to be an honest man, kind of heart, but fearless, and if the people of your county elect him as sheriff they will surely not make any mistake as he will fill the office to the satisfaction of everyone that wishes to see the law in force. Mr. Green can get a recommendation from everyone that know him in this neighborhood. I never heard his integrity questioned.

I hope to hear that he has been elected sheriff of your county, not only on his own account but on account of the welfare of the people of your county.

Yours very truly,

L. B. JACKSON,  
President American National Bank

### PLUG CHEWING A WHOLESOME HABIT

In No Other Way Can You Get All the Richness and Flavor of the Leaf

### "SPEAR HEAD" BEST CHEW

Many prominent physicians declare chewing to be the most wholesome way of enjoying tobacco.

"I began chewing some years ago," said one, "and I soon found that it is the only way to get the benefit of the rich juices stored up by nature in the tobacco leaf. I refer, of course, to the plug form of tobacco, which is the most natural and the cleanest form. Chewing good tobacco like Spear Head makes the salivary glands more active, which in turn has a beneficial effect on the whole system. Add to this the sweet, mellow, delicious flavor of a chew of Spear Head, and you have the highest possible degree of tobacco satisfaction."

"I mention Spear Head because I have found that this brand is exceptionally pure, being made in a factory that's run strictly according to pure-food rules."

Spear Head is made of sun-ripened Burley, which is acknowledged to be the richest, mildest, finest flavored tobacco leaf in the world. And it is produced by the latest processes, which develop the quality and luscious flavor of the choice Burley to the supreme degree.

A chew of Spear Head has a wholesome relish that is not found in any other chewing tobacco. 17 1/2 a 5c or 10c cut.

## STEELSMITH FOR COMMISSIONER.

J. M. Steelsmith, of Kimberly, was induced to enter the primaries for the Democratic nomination for county commissioner for the third, or east, district, by friends who regarded Mr. Steelsmith as the best man for the job that the east end of the county could put forth.

A county commissioner must devote a great deal of time to matters pertaining strictly to his own district, which if Mr. Steelsmith's instance would include Kimberly, Hansen, Murrigh, and the other sections in the eastern part of the county, and besides this he must be able and willing to give his best efforts to the business of the county as a whole. It is a man's job and THE TIMES unhesitatingly endorses Mr. Steelsmith.

The administration and management of county affairs is one of the largest, if not the largest, businesses in the county. It centers in a board composed of three men, commissioners from the west, central and east portion of the county. There are no officers of as much importance to the people of the county as these three, and there should be no mistakes made. But not only should no mistakes be made, but there should be no indifference manifested by the Democratic voters of the county.

From our personal acquaintance with Mr. Steelsmith, from the most commendatory reports from those who are Mr. Steelsmith's neighbors, and most of all, from the fact that Mr. Steelsmith is not a politician but a business man farmer whose friends have forced him into the contest, we do not hesitate to express our opinion that Mr. Steelsmith should be nominated by the Democrats next Tuesday, and elected by the voters of the county at the general election in November.

## AN EXPLANATION THAT DOES NOT VINDICATE.

Elsewhere in this issue will be found a statement by Fred Nihart candidate for the Republican nomination for representative, to the effect that he did not originate the first county division bill which was introduced by him in the state legislature at the request of a few citizens of Buhl.

How this explanation places Mr. Nihart in any better position we fail to see.

The fact remains that his attempts to secure the passage of that measure was against the wishes and against the interests of a great majority of the people of Twin Falls county; that in this instance he sought to serve a chosen few as against his constituency. This is what constitutes the really reprehensible feature of Mr. Nihart's conduct in the state legislature, and the principle deliberately violated is a serious enough matter to bar Mr. Nihart from ever again expecting the confidence of the electorate of this county.

It was to this phase that we had reference in our recent editorial to which Mr. Nihart took exception.

## AT LONG BEACH, LONG ISLAND

Whenever Thieda Bara feels she can stand a day or two away from the studio and movies in the morning, she fills up her car's gasoline tank, packs in two or three good books and some boxes of purple candy, tucks her two "Maurice" attendants in the back seat, and starts out. Lately, she split down the big road from New York to Long Beach, Long Island, for a rest at the beach.

Before she has been indoors very long she hurries out to the very edge of the water and goes tramping through the sand with never a thought of her director, the villain in the cast, the wife she intends wronging or the wealthy old fellow who is destined to lose his bankroll.

During the filming of the William Fox photodrama, "East Lynne," which will be shown at the Isis Wednesday and Thursday, when Miss Bara left her hotel at Long Beach she was immediately recognized, as she invariably is when she goes out in public, and camera and snapshot takers pursued her for more than a mile over the beach. When she finally reached the hotel she had lost one slippers, the remaining one was full of sand, her unprotected foot had been cut by sand-spurs and not less than a score of snapshots had been taken of her as she came on the run and without composure—things they never think of doing in the "movies."

## JESS WILLARD HAS TROUBLE

## KEEPING DOWN WEIGHT

It Jess Willard happened to be a younger man by eight or ten years he

might not have to be quite as guarded as he is of his physical self. At the age of 30 the world's champion boxer finds that he is apt to take on weight alarmingly any time he remains quiet for a time and does nothing of a active nature.

Willard just now is the big athletic star of the famous Sells-Floto circus, and he is surrounded by an all-star athletic aggregation, huffing a world's champion. During the course of a season with the circus Willard must ride a horse many miles a day, to say nothing of taking on sparring partners twice a day for a lively set.

Yet the big fellow finds that the weight piles on rapidly, and to keep it off he walks often as far as fifteen miles a day, always winding up with a fast sprint. He has trainers with him constantly for rubbing purposes. In a talk the other day with a prominent physical director Jess gave out some interesting facts about his daily life. Here is the substance of that interview, and it should prove of interest to all:

"When I get through with a day's work, and it is work, believe me, I usually am so tired out that I never need a rocking chair to get me to sleep," the big fellow said. "At times like that I am fond of getting a bottle of beer, which is my only disposition. But I have found this is both food and drink and puts weight on me rapidly."

tion in the matter and Hugh F. Smith, secretary of the Republican committee, denied that the committee had ordered anyone or had authorized the use of its name to such alleged correspondence. Atherton was first in the rate and deserves support and success.

In closing the statement Atherton above says: "Many of Mr. Atherton's friends were induced to sign a certain paper endorsing Mr. Swin, on the representation that they were signing a protest in opposition to county division, and being busy, attached their

names without reading the document. Against those who have been deceived and lending their support to this fake movement we have no criticism to offer, but squarely on the shoulders of all who through personal motives are instrumental in detracting from the support sorely needed, will be placed full responsibility, should there be a division of Twin Falls county through the results of their action."

O. A. Pratt was over from Jerome Saturday.

E. J. Ostrander and George R. Beasley have returned from a hunting and fishing trip to the Sawtooth mountains.

Geo. W. Wilcox, Republican candidate for county assessor, is circulating among the people all the time. George is a miler, and to know him is to appreciate him. He has been so evidently fair and painstaking in the work of his office that the Journal predicts that he will be an easy winner for the nomination.—Flier Journal.

Bumped Into Big—While sitting in his buggy talking with a friend near the curbing on Main street Friday evening, E. J. Finney noticed an auto approaching at a slow pace toward him. He cried out at warning at which the driver made an effort to turn out but too late. The machine crashed into the buggy, smashing a wheel and doing considerable damage, for which the driver agreed to settle. Mr. Finney says that he has had several narrow escapes from careless drivers recently and that others have had similar experiences. This particular driver declared that although he drove slowly he did not see Mr. Finney until the latter yelled "hitchin," being altogether taken up with his auto.

## ROBINSON'S

It causes me to feel "mighty nice" to have you folks come in and ask me to put in some kind of goods that I have not been carrying, and tell me that if I do you will come in and buy them, and tell your friends, because you are sure the goods and the prices will be right.

In response to some of these requests I have added men's dress shoes, also women's, children's and infants' shoes, all at money saving prices.

Now we come with Boys' Knee Pants in khaki, wool and worsted. All good full cut, with extra button. Splendid values at 75 and 85 cents and a dollar.

Boys' Suits, too. Wonderfully good ones at \$4.95 and \$5.95. Good material, full cut, good colors, strongly made and good fitting. Styles with the special features that all the boys like. Good school shoes, too.

Plenty of Boys' School Stockings. Good black. Long legs. Extra Strong Heels and Toes. A specially good number at 3 pairs for fifty cents. Another at 20 cents a pair that will compare favorably with those sold elsewhere for 25 cents. "A Humdinger" that I believe is the equal of those sold in many stores at three for a dollar, that we sell one pair or more at 25 cents.

Edward Robinson

P. S.—Mail Orders given my personal attention with the understanding that all purchases may be returned for exchange or refund.

## Announcement

I am a candidate for the nomination of sheriff on the Democratic ticket in the primaries to be held September 6, 1916.

I am running for the nomination and re-election, recognizing the principle that if an official makes good it is the custom to accord him a second term.

I have endeavored to serve the people of Twin Falls county faithfully, efficiently and with economy conducive of first-class service, and in standing on my record for the nomination and re-election I trust that it has been such as will appeal to the voters and merit their support.

On account of the work of the office, I have not been able to devote any time to campaigning or calling on the voters personally to solicit their support, but assure all that any effort extended in my behalf will be appreciated.

Yours very truly,  
FRANK M. KENDALL

# FACTS ABOUT THE Real Anti-County Division Fight versus the ANTI-ATHERTON PROPAGANDA

## S. P. ATHERTON IS THE LOGICAL CANDIDATE FOR THE STATE SENATE TO DEFEAT COUNTY DIVISION

Mr. Atherton has lived in various parts of Twin Falls County, and having been very active in business, lodge and church work has a very wide circle of loyal friends. Having recently moved on a farm between Oliver and Buhl he is now located in the territory that would be cut off from Twin Falls County if the County divisionists were successful. He is also in the highway district in which the fight was made to bond the district for \$300,000.00 for road improvement. Mr. Atherton was one of the leaders in the fight in defeating the bond issue and in this fight made many friends in that section who will stay with him in his fight against the division of the county. His many friends who were opposed to shouldering the heavy burdens that would be imposed by the heavy bond issue in addition to the greatly increased taxes incident to the establishment of a new county, urged him to lead again in defeating county division.

Mr. Atherton is a man who has always put the public welfare ahead of his own personal gains and while realizing that the sacrifice is much greater than he can afford to make he did not hesitate. After consulting his friends in Twin Falls, he early announced his candidacy for the State Senate and at once began to line up his work to defeat the county division movement.

## The Truth About the Anti-Atherton Fight

Mr. Atherton in the past contributed to the defeat of certain candidates for county and city offices by supporting their opponents, thereby engendering the bitter enmity of some of the friends of the defeated candidates. If a half dozen of those most bitterly opposed to Mr. Atherton could have been eliminated, there would now be no other candidate to divide the anti-division vote.

All those familiar with the situation know that this is a fight against Mr. Atherton, pure and simple and the attempt is being made to foist this on the voters of the county under the guise of a popular anti-division movement. If these fake anti-divisionists had the interests of the county at heart instead of personal grievances would they not have given attention to those who so strongly opposed putting a second candidate in the field to draw support from a candidate who could easily have defeated Mr. Barker, the division candidate? The divisionists were quick to grasp the opportunity just as soon as Mr. Swim entered the field to divide our strength, at once withdrawing their Democratic candidates in order to concentrate their full strength in the Republican primaries against our divided strength. This fake anti-division movement has placed the unity of the county in a hazardous position, to cope with which will require the most earnest efforts of all those opposed to county division.

We accuse Mr. Atherton's critics of inconsistency in denying him the right to use his own discretion in regard to supporting Mr. Guthrie two years ago while conceding Mr. Swim the right to give interviews for publication in our local papers after his return from the Progressive convention in Chicago, in which interviews he very frankly expressed his disapproval of the choice of Mr. Hughes to head the ticket on which he is now running as a candidate for the State Senate.

A fact in connection with this fake anti-division propaganda is that the meeting at which their committee appointments were made was held in the office of George Sprague, who made the statement that he would prefer county division to having Mr. Atherton elected to the State Senate. We who are making the real fight against county division stand ready to prove this accusation at any time we are asked to do so. Several others among the leaders in this fake movement have made the same assertion as made by Mr. Sprague. Another fact in this connection is that in order to give their movement prestige the names of some prominent business men were placed on their executive committee without their knowledge and against their wishes. This statement we also stand ready to prove. Among the men on their executive committee we find one who is associated in the recent purchase of the Buhl Townsite with Mr. E. A. Miller of Buhl, the father of the county division movement. Mr. Voter does this kind of a line-up look like an anti-division movement or a fake?

## Another Bogus Frame-up Exposed

Through the columns of the Twin Falls News, a frame-up was outlined as being a combination between both the Republicans and the Democrats to concentrate their support on certain candidates in order to defeat county division. This frame-up was at once repudiated by the Democrats and such strong remonstrance was made against such methods that the Democratic slate was at once eliminated from their bogus frame-up. Another unscrupulous attempt was made through the columns of the Filer Journal to foist this fake line-up on the voter. We quote from the Twin Falls Times of August 15th: "I want to say to you and I hope that you will publish my statement that the statement which appeared in the Filer Journal last week, signed County Republican Committee, purporting to endorse certain candidates, was not issued by the Republican county central committee, which has held no meeting since the filing of nominations and has taken no action on those who filed," said Hugh F. Smith, secretary of the Republican committee today to a Times representative; "I do not know who signed the name of the committee to the statement, but such signature was not authorized." The promoters of this fake movement have not only been ready to sacrifice the interest of the county, but were ready to prostitute the Republican party of this county in the furtherance of their schemes.

Through such treacherous methods some well meaning people have been deceived into lending their support. The promoters claim the support of some 200 voters after about two weeks canvassing. Many of Mr. Atherton's friends were induced to sign a certain paper endorsing Mr. Swim on the representation that they were circulating a paper in opposition to county division and being busy attached their names without reading the document. Against those who have been deceived into lending their support to this movement we have no criticism to offer, but squarely on the shoulders of all who through personal motives are instrumental in detracting from the support so sorely needed, will be placed full responsibility, should there be a division of Twin Falls County through the results of their actions.

Mr. Atherton is the only candidate who has any show whatever to defeat Mr. Barker, the division candidate for the senate. Every vote for Mr. Swim aids Mr. Barker by taking a vote from his opponent, Mr. Atherton. This is a time to set aside personal preferences and even party affiliations to offset the county division movement.
