

FINE WEATHER FINDS JARBIDGE VERY OPTIMISTIC

DISCOVERIES AT SOUTH END AND JACK CREEK AROUSES MUCH ENTHUSIASM

NEW CLAIM MAP OF DISTRICT ABOUT COMPLETED

Question of Good Roads Becomes of Paramount Interest—Camp SUII Is Short of Supplies—Jarbridge Unhitt Ten Shows Good Time.

JARBIDGE, Nev.—The long cold spell has at last broken and the Camp is now enjoying some very fine weather. Quite a few new men have been signing on to the working force for the different mines and many of the Old-Timers are beginning to look over their outfits with a view to be ready to take to the hills as soon as there is a possibility of doing anything. The feeling through the Camp is very optimistic for the future and everyone is looking forward to a very lively and profitable summer. There have been many inquiries for properties, nearly every prospect with any showing has been hunted and with there are many desirable located properties which may with development open up a valuable ore deposits on any of these places. Some of the very promising discoveries were made late last fall in the south end of the district, near the head of the Jarbridge river and about nine miles from the town of Jarbridge, and also in the Jack creek section of the district about three miles east of the town. Recent development work has been confined almost wholly to that portion of the district adjacent to the Long Hike and Bluster mines, but the remarkably fine showings made in these mines stimulated prospecting to the balance of the district and much of the ground was relocated.

Many of the old claims, some of which were found either in the rock formation or from float, such as would clearly warrant further work. Engineers have been in the claim map of the district and in a few days will have a complete map showing all the claims of the district both surveyed and unsurveyed. This map will cover more territory than either of his former maps and will prove of great assistance to investors in Jarbridge properties.

The recent opening of the Long Hike vein on the new lower level, which is 200 feet below the 600 foot all level, greatly enhances the value of the mine as well as further proving the continuity of the ore deposits at depth and therefore gives an additional safety margin in the camp, and set more weight to the old saying that "Jarbridge is destined to make a big gold camp."

The new drift in the legitimate tunnel are doing very satisfactory work and the company is well pleased that it went to the expense of installing them. A new cabin and bath house was built near the mouth of the tunnel and water was brought from a spring about 200 feet above the tunnel in the face of the north fork of Bourne gulch, which supplies the drills with a good supply and with abundant pressure, and also furnishes water to the boarding house and for all other uses.

See the New Mitchell Junior with Hundreds of Mitchell Extras

NOW WE INVITE YOU TO SEE MITCHELL JUNIOR. A SOMEWHAT SMALLER MITCHELL—A \$30 LOWER PRICE THAN THE 7-PASSENGER MITCHELL. BUT WITH GENEROUS SIZE AND AMPLE POWER FOR A 5-PASSENGER CAR. AND WITH ALL THE EXCLUSIVE MITCHELL ATTRACTIONS, DUE TO JOHN W. BATE.

Another step in Mitchell efficiency appears in the new Mitchell Junior. We urge you to come and see it.

A 7-passenger car, to have ample power and ample room, can't be smaller than the \$1460 Mitchell, which has won for itself one of the coveted places in the motor world. But 40 horsepower is enough for a 5-passenger car. And a 120-inch wheelbase gives room enough—more than most cars give.

So the Mitchell factory this year brings out Mitchell Junior. Not a new type—simply a size reduction. So a man who buys a Mitchell can get the size he wants.

Thousands of these new cars have been run for months on every sort of road. And they have proved themselves as perfect as the 7-passenger Mitchell car itself.

SEE THE NEW EXTRAS

In both Mitchell models there are hundreds of extra features. They give you at least 20 per cent extra value over any other car in this class.

These extras—most of them exclusive to Mitchell—are paid for by factory savings. They are the result of efficiency methods, applied by John W. Bate.

This great efficiency engineer built and equipped this whole plant. Every method and

machine is adapted to producing this car economically. These methods have cut our factory cost in two. Nowhere else is a car of this class built anywhere near so low.

You will be amazed to see how many extras these new-day methods pay for.

DOUBLE STRONG PARTS

The result is the Mitchell Standard of 100 per cent over-strength. That is, every vital part is twice as strong as need be.

The Mitchell standard used to be 50 per cent over-strength. That itself was extreme. The Mitchell car has always been a marvel of en-

durance. But, in the past two years, we have double this standard to give you a lifetime car. That fact is announced for the first time in the models now on show.

Over 440 parts are built of toughened steel. All parts which get a major strain are built of Chrome-Vanadium, and built stronger. We pay for steels in the Mitchell as high as 15 cents per pound.

31 UNIQUE FEATURES

There are also 31 extra features in Mitchell. These are features which nearly all cars omit. Things like a power tire pump, reversible headlights, ball-bearing steering gear and never-broken springs.

These extras alone, on this year's output, will cost over \$4,000,000. But all are paid for by these factory savings.

MANY NEW LUXURIES

Our new body plan, gives us for this year another unique extra—All Mitchell bodies, open and enclosed, will be built in our own shops.

This saving enables us to add 24 per cent to the cost of finish, upholstery and trimmings. The finish coats are now heat-fixed. A rare-grade leather is employed. A hundred new touches make today's Mitchell the handsomest car in its class.

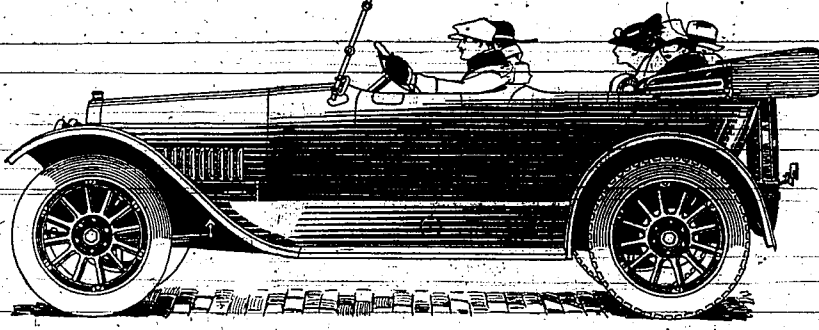

Every Mitchell extra is something that you want. Nearly all are things you don't find in other like-class cars. They are things which can't be given without added price, save under Mitchell methods.

Come and see them. Judge for yourself what they mean to you. And see which size you like best.

met and compiled with this spring. Elko people are well aware of the conditions and they also are very desirous of securing all the Jarbridge traffic which they can and for this purpose they have picked out a route down the river to the state line and then went to Rowland and thence via Gold Creek and North Park to Elko, which will give an ideal auto road in the summer and will probably be a fair freight road during the winter. Twin Falls and Butte are both interested in the matter of better road connections with Jarbridge and it is almost an unspoken thing that there will be considerable road work done by them as soon as the frost is out of the ground. The Elko county commission-ers. It is understood are all ready to advertise for bids for the work on their proposed new road. There will be very large amount of heavy freight into Jarbridge this summer and the best road will secure the most of the business for the city with which it makes connection. The thousands of feet of development work which has been done in the mines of the district during the past year has brought into eight millions in value of a good grade of milling ore, which has greatly stimulated the interest of the investing public in the mines and prospects of the Jarbridge camp, and it is more than a conjecture that there will be much more work done this coming year than has been done in the past twelve months. Besides the

large bodies of ore now opened up will of necessity require large reduction work in the near future, which means that there will have to be a large amount of heavy machinery transported into camp. Also a much larger number of men will be employed, which carries with it a demand for a large amount of supplies, much of which is produced by the farmers around Elko, Twin Falls and Butte. Jarbridge will furnish a good market for the large part of the products of the ranches and a much better market than one thousand miles distant. The great possibilities of the Jarbridge mining district are but just being realized; in fact, the prospecting of the district has but begun, while the development of its vast resources is but in its first stages. The wonderful showings made by the work done the past year have definitely proved the future greatness of the Jarbridge mining district.

MUCH BUILDING IN BUHL EXPECTED DURING YEAR

"Pride of Buhl" Is Name Chosen for New Brand of Flour Marketed in Buhl.

The first break of winter which shows any signs of permanency will be the signal for much building activity in Buhl, according to contractors and lumber dealers. More houses are being planned or already are under construction than at this time last year, says the Buhl Herald.

Among the new homes which are being built this winter are the following: Irl B. Sanner's new bungalow near the Sprynga schoolhouse is nearing completion. Work was started on the structure in December.

Work is progressing satisfactorily on the 6-room bungalow which is being built on the Ralph Smailey farm, three miles south and one-half mile east of Buhl. The bungalow probably will be completed in a month.

J. H. Walker is building a handsome residence on his farm, the one-half mile northwest of Buhl. The house will have nine rooms and will be of modern construction.

An attractive 4-room bungalow has been completed by J. T. Campbell on his place six miles south of Buhl.

J. H. Brower, who lives eight miles northwest of Buhl, is building a 5-room bungalow.

Carl Miller is building one of the most modern farm houses in Twin Falls county in this place near Buhl. The house will be lighted by electricity from a plant which is being installed, and will have a modern water system. The Miller home is nearing completion.

Leahy brothers now home on their farm near Buhl is almost ready for occupancy.

H. L. Smith is building a new home on his ranch.

The E. K. Spike house seven miles southeast of Buhl will soon be ready for occupancy.

A meeting of the high school students' association was held Monday morning at the high school. The report of the executive committee was given by Superintendent Manning, who said the executive committee had thoroughly discussed the matter of TWIN FALLS ASTONISHED BY SIMPLE MIXTURE. Twin Falls people are astonished at the INSTANT relief afforded by their bark, glycerine, etc., as mixed in Adler's. ONE SPOONFUL removes such surprising matter. It relieves almost ALL cases of indigestion, flat stomach or gas. Because Adler's acts on BOTH lower and upper bowels, a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. The Bedford Fisher Drug Co.—Adv.

having definite amounts set aside to finance the various school activities. The report was accepted. The program committee announced a program for Friday afternoon, February 23, in the high school building, which will be in charge of the freshman class. Following the business meeting, Rev. M. M. Van Patton made a short talk to the students. Several Victoria records were played.

While returning from Filor Monday evening C. G. Jennings' team ran away, and the driver was forced to dislodge a muskrat that had become "hung up" in the woven wire fence of the Burley corner, Buhl. During his pursuit of the runaway team, Mr. Jennings lost some valuable papers out of his coat pocket, which he has been unable to find. He said the papers contained his name, so they may be readily recognized. The team was caught by other parties before they reached the corner and it has not been learned whether the muskrat got out of the fence. No damage was done to either the team or the wagon.

Buhl will be represented by a full war-strength company within 48 hours should war be declared against Germany. This statement is conservative.

After the showing of the National City evening, when 27 members of the company assembled in the Commercial club rooms in pursuance to a call for a meeting posted the post office the evening before. The attendance at the meeting was considered exceptionally good as the company commander had excused six members who had business engagements, together with the sick and all members residing more than three miles from town.

The high school basketball teams, both boys and girls, will go to Twin Falls Friday, where they will play the teams representing the Twin Falls district. The boys' team is in excellent shape for the game. No games were played last week and CORN Hardin has had two weeks to let his team get into shape. The girls have been practicing regularly, and Friday's game will be their first inter-school game.

Work is about to start this week on the new cottage which will be built by the Twin Falls Canal company for the watermaster. The site of the building is at the end of the High Line canal, 13 miles south of Buhl. The cottage will have four rooms. C. B. Sparks, of Twin Falls, has the contract for the building.

Arrangements have all been completed for the Tenth Annual Buhl Firemen's Ball, to be given in Rugg & Schmidt's hall, Wednesday evening, February 14. The final plans were formulated at a meeting of the fire company last Monday evening. The hall will be decorated by the fire boys. The latter part of the week, probably Sunday-afternoon, and all will be in readiness for the big annual social event of the season. Picnics are not announcing the invitation to everyone as the treasurer bill is the largest attended dance of the year. Last February the ball was given in the Buhl opera house and it was crowded to its fullest capacity.

"Pride of Buhl" was the name chosen for the new brand of flour, which will be put on the market by the Buhl Flour & Feed Mill company, according to a decision of the judges yesterday morning. Ten contestants entered in the name and the prize of 1000 pounds of flour will be divided equally among the winners. As soon as a design is made for the brand and the mill begins making "Pride of Buhl" flour, the prizes winners will be notified.

Mrs. Olive R. Biggs, formerly took charge of the post office, Monday, February 5, as postmistress of the Buhl postoffice. Her commission appoints her as postmistress for the next four years, and it bears the signature of President Wilson and of the postmaster general.

The Heller brothers of Gastford and Sam Swanson are the enterprising west-end men who have installed the Safety Light reflector system on Buhl's streets. The systems were placed by the D. C. Watson company of Twin Falls.

So The Public May Know

An article published by me in this paper a short time ago in regard to the un-American principle of censorship seemed to peeve Mr. Shepherd very much, as he comes back at me in an article signed by himself in last week's issue of the TIMES. If his article contained even one half of the truth which he claims for it, I would pass it by unnoticed. But seemingly out of spite he has slandered the theatre and its men engaged therein, in such a manner that most every one agrees it must be a part of his religion and regular routine of business. One statement especially is such an absolute falsehood, that I feel justified in answering so the PUBLIC MAY KNOW:

First, I wish to state I don't want to be misunderstood by people who don't know me. I highly respect ministers preaching the gospel. At the present time I have a very dear relative in the far off interior of China preaching the gospel to the Heathen there, and I claim to be somewhat religious myself. I am willing to respect Mr. Shepherd as a clergyman. But when he is working for notoriety he must expect to get it; and when he slanders an honest business and the most engaged therein and when he becomes a political lobbyist and handles the truth recklessly - then he must expect to be treated accordingly.

In his article Mr. Shepherd states the movie syndicate spent over one hundred dollars in advertising in our city papers in stock ads, but using a local theatre proprietor (I. A. R. Alderson) as their mouthpiece. Mr. Shepherd makes this statement without the slightest foundation in truth! I am the "mouthpiece" of no one, but am fighting for a principle that is bred in the bone of every American citizen - the freedom of expression without being harpooned by a Russian-censor.

Mr. Deets Fickett, secretary of the Methodist Research Society, in his answer to Mr. Shepherd plainly states that the exhibition of indecent pictures can be prosecuted regardless of censorship! Of course they can - he is honest and tells the truth. My last article says the same thing. There are federal state laws enforced by local police, covering indecent exhibitions.

The Methodist Research Society has done good work. They also prove that the motion picture industry put the soul out of business in many states. I can publish that too if necessary. In the third column of their report we read "occasionally you meet a clergyman or an educator who criticizes the motion picture theatres, but if you want to see the motion picture played alive and its skin hung up to dry, talk to a saloonkeeper."

Mr. Shepherd's pet argument is that a little lad of eleven murdered a man because he had seen shooting in a motion picture. Taking into consideration the facts and circumstances of the case, it is no argument. My family sees every show, are my kids going to the bow-wow? Mr. Shepherd doesn't like shooting pictured in the films, he should go and see "The Birth of a Nation" - one of the greatest records of our land unfolded page after page on the screen. Is there any shooting going on? Yes, a little! We see how the wrongs of personal ambitions were overcome; we see how deceit, hypocrisy and political rotteness, after the civil war, were detested; and yet spell-bound and wonder after the closing scenes of this stupendous drama; we leave amazed. Deep down in our soul we feel we are a better citizen, a better American, because of what has been revealed to us on that screen. We know that the most powerful sermon ever preached could not have stirred our dormant religion or patriotism more.

Artesian City

Read and ponder these words by Rev. Cyrus Townsend Brady, one of the most noted clergymen of the world.

"People cannot be made righteous by law. When you talk of censorship of motion pictures and of the need of keeping children away, isn't it a fact that there are lots of books and of newspapers which you and I are safe in reading, and perhaps ought to read, but which we would not care to put into the hands of our children. That gentleman, is true of even the Bible. There are passages in the Bible which I would not want my children to read. I tell you that this proposed censorship of motion pictures is a distinct discrimination against the poor man. The motion picture is the poor man's grand opportunity. It is the poor man's motor car, and the poor man's trip to Europe. Can any of you men name five grand opera which, under your proposed law, would be safe from the censor? Take the story of 'Garmen.' We have read the novel, we have seen and heard the opera, and we fall to be shocked, but the moment 'Garmen' was put into motion pictures we censured it. I tell you the motion pictures have done more good than many of the churches."

Many churches and schools all over this land are installing motion picture machines and the possibilities for good are unlimited. Recently a machine was installed in the Burley schools - a smaller town than our city. Mr. J. F. Rey, superintendent of schools there, in writing to one of the leading film exchanges at Salt Lake City said: "It is a big success; they have no trouble in securing suitable subjects for children's matinees." In fact many of the same subjects have been shown for children's matinees right here in our city. Instead of progress, what is the idea of all this spite, slander and muck-raking against an honorable industry? Why not install machines in our schools here in Twin Falls?

My patrons are my friends. They tell me to my face in a friendly way, many subjects they want me to get and if the subjects are of the standard I require, I try to get it. There may be subjects that don't appeal. I have not seen any indecent vile.

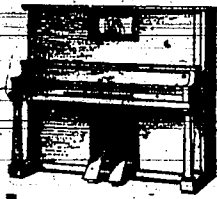

Look for the Best in all things. That man, however, who is always looking for the worst will constantly think about the worst and will fill his mind with inferior thoughts, that he himself will become inferior by such a process. A foregone conclusion. Therefore, what would not be good enough for the Public to see, would certainly be the eternal ruination of the saintly censor.

Very Respectfully, A. E. ANDERSON

SAVE One-Half on a Piano or Player

Buy a Used Piano

We have a number of slightly use Pianos and Player Pianos, which we are compelled to sell to make room for incoming stock. Some of these we have been forced to repossess, others are new pianos that have been returned from rent. Most of them have been in homes where they have had good care; several have been out less than a year! Some are half paid for already! We are going to give you the benefit of what "the other fellow" has paid. Prices have been made that will move them all within the next thirty days.

Our list, with descriptions that would do these instruments justice, is too large to publish. If interested in saving one-half on a Piano or Player Piano, fill out the enclosed coupon, and we will mail you a list with full description of these great bargains.

THE MUTUAL GIRL AND HER AUNTIE

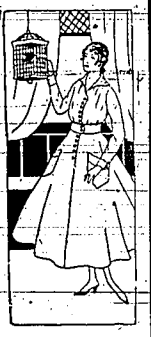

LUCILLE: Auntie, it is time we are getting some coal!

AUNTIE: We have been getting such indifferent coal lately, Lucille, that I hardly know from whom to buy this from. It seems you never get the same kind, and you have to learn all over.

LUCILLE: Auntie, just phone up Nye Bros. Coal & Transfer. They have the coal coming from a new mine, that has assayed just as good, if not a little better than any mine and they get from the same mine all the time, so this will be a big help. You can get accustomed to it, and can be sure of getting the same all the time. They have their place just opposite the Ostrander Lumber Co., on Shoshone street, by the Rock Creek bridge. Their phone is 54, or evenings 681. Their slogan is "Clean Coal" and that is what you want.

AUNTIE: Well, Lucille, you had better call them up and order a ton right away.

MORAL: BUY THE SAME COAL FROM THE SAME DEALER ALL THE TIME AND YOU WILL GET BETTER RESULTS ALL AROUND. MIGHT TRY NYE BROS.

Mrs. Chas. Kovan and children have been visiting the paternal "fish home" in Twin Falls the past week. Little Fern has been quite sick with measles since they were to town.

Mr. and Mrs. Chas. Griewe have been moving to their new home, five miles west of here. We are sorry to have these good folks drive out of the immediate neighborhood—are glad they are going no farther.

Miss Lynn and Miss Sliever, our teachers, were over Sunday guests of the teachers at Berger, last week.

Mrs. Peterson's many friends will be glad to know she is able to be out again.

Mr. A. Fish came out to the ranch, this past week, for the first time since his return from Iowa. Mr. Fish says Idaho looked good to him, when he got back.

Mrs. and Mrs. G. Black have moved to the E. M. Baird ranch. Mr. Black will work for Mr. Baird this year.

Mrs. O. A. Lahr's aged father was stricken with paralysis last Wednesday. He is eighty-five years old, and his friends are anxious about his condition.

Miss Sliever spent Sunday with her sister and brother in Twin Falls.

About twenty ladies attended the Ladies' Aid meeting of the Presbyterian church at the home of Mrs. Gail Chapman last Thursday. The "next" meeting is to be with Mrs. E. J. Colbert.

Mrs. Howard Conover has returned from a recent visit to her parents in Oklahoma. She was glad, indeed, to get home, after the thrilling experience she had on her return trip. Her trip was held for fifty-two hours, in the snow blockade in Wyoming. They were one day without food and a long or time without heat, many of the passengers suffering from hunger and cold. At times it seemed as if the

train would be blown from the track. Mrs. Conover has decided that all future trips will be made in summer time. She has also decided Idaho winters are not so happy as compared with Wyoming blizzards.

The families of T. M. Baird, F. W. Neale, Warner, Nicholson and J. E. McVey were guests of Mr. and Mrs. A. G. Wilson last Saturday evening, to a turkey dinner.

People were rejoicing at Knoll last week over the arrival of another car of coal.

The families of T. M. Baird, F. W. Neale, Warner, Nicholson and J. E. McVey were guests of Mr. and Mrs. A. G. Wilson last Saturday evening, to a turkey dinner.

Messrs. Fred and Charles Griewe have been busy the past week hauling and loading two cars of hay.

Ray King was home over Sunday with home folks, from his school work in Kimberly.

The W. C. T. U. will meet with the president, Mrs. Fred Griewe, next Thursday afternoon. All members are urged to be present and all ladies interested in this good work are most cordially invited to this meeting.

Mr. and Mrs. Ray Jones loaded their goods into a car at Godwin and left for their new home last Thursday.

The Brockstein quartet and their wives were entertained at the Hertz home last Friday night. Those present were Mr. and Mrs. V. E. Morgan, Mr. and Mrs. E. J. Colbert, Mr. and Mrs. Griewe and Mr. and Mrs. E. W. Neale.

Best land seems to be in great demand about Knoll and the prospects for best dump here are looking better every day.

Let us all pull together and add that much more to our land values and other property.

Auto-Pull Attachment Big SUCCESS.
The Auto-Pull Attachment is not an untried experiment. It has been a success from the start. Hundreds of machines have been sold in all parts of Montana, North Dakota and Idaho. We have yet to receive a single complaint, but hundreds have written us expressing their delight and satisfaction with the work the Auto-Pull will do.
We want you to try it out on your farm, for the Auto-Pull Attachment in a community means many more.

LOCAL AGENTS WANTED IN MONTANA, NORTH DAKOTA AND IDAHO
We are now making contracts and reserving territory for agents for 1917.
Our proposition is a liberal one and a money maker. Remember—
One demonstration sells the Auto-Pull Attachment.
Write today for territory. Do not let this opportunity pass. Interesting literature on request.

Convert Your Car Into a Tractor
The Auto-Pull Tractor Attachment, as applied on a Ford car, with 15 minutes convert your car into a tractor that will do the work of six or eight horses. Will do your plowing, digging, harrowing, grading, ballast, grain to market. Not a grain to be lost. Not a cent of fuel. Not a cent of oil. Not a cent of labor. The picture shows a 10-year-old boy, 110 lbs., plowing three acres of good top soil with a 15-minute consumption of three gallons per day.
Efficient minutes to plow—three minutes to remove.
No changes on car except rear hub bolts. Does not hurt your machine in any way.
