TWIN FALLS, IDAHO

THURSDAY, MARCH 22, 1917.

Roads From Buhl to Jarbidge Pledged By Boards

Formal Resolutions Favor Fixing Lilly Grade According to Terms Agreed on With Buhl--Big Bond Issue Favored by Meeting--Committee Composed of One Man From Each Community Will Plan Road System for the County.

Pursuant to a resolution adopted at a mass meeting yesterday morning, the Twin Falls county commissioners, and the Buhl Highway commissioners yesterday afternoon in joint session after a long discussion, adopted the following resolutions...

NEW IRRIGATION DISTRICT FORMED

Hansen Bute Watering Is Object of Organization Formed This Week at Murtaugh.

Another project for the watering of Hansen Bute is now being worked along in the nature of the formation of a district at Murtaugh for the irrigation of lands, including part of the land which the Buhl Highway...

Whether connected with the new move or not, it is reported that E. T. Stevens, who signed a contract with the county to take the court to release him, presumably with a view of joining in the district.

The new district has been temporarily organized by the action of O. D. Bille of Hansen as president and George B. Schweizer of Twin Falls as secretary. Other directors are W. H. Taylor of Kimberly, H. B. Burley of Burley, T. Rutledge and M. Boyley of Murtaugh, A. H. Derringer of Hansen and Albert Dunson of Kimberly.

In the meantime the work of preparation by the other companies named above is going on steadily and assurance that the work will be carried out on schedule time.

ALL READY FOR MEETING TONIGHT

A great deal of interest in the meeting tonight is manifested on the part of the citizens and a large crowd is expected. The several sources of water supply possible for the city will perhaps be discussed in addition to planning for the further interests of Twin Falls, though this is not certain as it is expected that everybody will have a chance to talk on the subject before the citizens looking to the public good.

BLUE LAKES WATER FOR TWIN FALLS IS NOW PROPOSED

ENGINEER STURTEVANT GIVES OUTLINES OF PLAN AT MEETING LAST NIGHT POWER WOULD GO WITH THE PROPOSED SYSTEM

A proposition to put Blue Lakes water into the city with clear Lakos power, at the same time to furnish 3000-horse power for electric lighting and power to the municipality for a total sum not to exceed \$380,000, was explained to a number of citizens last night at the rooms of the Twin Falls Commercial club, George W. Sturtevant of Chicago, who claims to have supervised the building or construction of the waterworks in Great Falls, and is now supervising the same on the waterworks system at Indianapolis, Ind., for use before the plans are submitted to the legislature. The cost of the system, proposed according to Mr. Sturtevant will be as follows: Reservoir, \$25,000; pipe to reservoir, \$15,000; Lakos power, \$245,000; distribution system for fifteen miles of pipe, \$125,000; total, \$390,000.

The Clear Lakes power is owned by W. C. Hazard of Buhl, and the water would be furnished by T. B. Perrine without extra cost to any amount needed. The proposition, which is proposed to lay before the city is that the municipality either buy the plants and pipe or contract for the same amount named, when it is completed, and that the city put in the distributing system, reservoir and pipe to the reservoir, and the city pay for the pipe at an agreed price, taking no option on the system, water and power at a stipulated price, the option to expand the system to be left to the city.

The meeting last night was called to order by George Herriott who said that the estimates would be presented for the waterworks by Mr. Sturtevant, Mr. C. Kelsey, Mr. Sturtevant said that his object was not to criticize Mr. Kelsey's plan but to state his own views on the plan. He proposed, adding that he did not have at hand the detailed figures on which Mr. Kelsey based his estimates. He contended the use of only metal pipe, properly coated, so as to be practically indetectable. He opposed the use of wooden pipe, and said that he would not make estimates based on the use of wooden pipe as it would last only fifteen or twenty years, but he did not know within the past fifteen years.

City Clerk R. M. Williams said that Mr. Kelsey had figured on wooden pipe for the wooden pipe, and that the present price of iron and steel was unduly high, and that a rough-sawing would be made during the winter, and that the metal pipes at his office, Mr. Sturtevant said that personally he would not do that, though it might be a justifiable way to save money. The engineer said that Blue Lakes water would obviate the necessity for the use of a filter and would save the city the cost of a water purification plant. The water would always be clear and there would be no settling. Moreover, the supply would not be doubtful at any time and there would be no need to make a change from one source to another.

PROMINENT TWIN FALLS GIRL DIES

Miss Carmen Cox, daughter of Mr. and Mrs. F. R. Cox of this city, died at Long Beach, California, March 20, at the age of 24, following an illness of several months.

Miss Cox was born in Chicago and was twenty-one years, six months and five days of age. She was well and very favorably known in the community, having graduated from the high school here three years ago. In the immediate family, leaving behind her, she has two brothers, three sisters and two sisters-in-law. Her father, F. R. Cox, is a prominent business man in this city. Her mother, Mrs. F. R. Cox, is also a prominent business woman. Her death is a great loss to the community.

OAKLEY WINS THE CHAMPIONSHIP IN THE TOURNAMENT

FIRST PRIZE IN GREAT CONTEST IN BASKET BALL GOES TO THE ACADEMY TEAM

At the end of a closely contested final game between Buhl and Oakley Academy, last Saturday night, the captain of the Oakley basketball team carried from the floor the silver trophy awarded them as champions of the first Southern Idaho basketball tournament. Hoeyburn, the winner of the consolation cup, was defeated by the final competitors, Shoshone, by two points. This was the first affair of its kind to occur in Idaho and much interest was shown by the spectators.

In order to give all contestants an equal chance, the names of the various teams were written on cards and placed in a box which was blindfolded, and given the box. The first two cards drawn by him were the match for the beginning of the first round, which was between Kimberly and Shoshone. Twin Falls and Jerome, Rupert vs. Buhl, Gooding vs. Hollister, and Oakley vs. Hoeyburn.

The third game, between Buhl and Hoeyburn, resulted in a victory for Buhl. The game was a warm-up game for Rupert, who played all their men for a part of the game. Rupert's team work was excellent. In an eleven game game between Gooding and Hollister, Gooding won by the score of 32 to 13. Hollister showed good play in this game. The advantage was a warm-up game for Rupert, who played all their men for a part of the game. Rupert's team work was excellent.

The result of the first series was that Kimberly, Twin Falls, Gooding, Rupert, and Oakley continued to compete for the first cup, while Hollister, Hoeyburn, and Shoshone were eliminated. The game between Buhl and Hoeyburn was a warm-up game for Rupert, who played all their men for a part of the game. Rupert's team work was excellent.

HOLD INTERSCHOOLASTIC DEBATE FRIDAY NIGHT

Negative Team Against Boise Here on Subject of Military Training--Debate at Boise Also.

The local inter-scholastic debate between Boise high school and the Twin Falls school will be held in the high school auditorium Friday evening. The question for debate is, "Resolved, that the United States should maintain a system of universal military training, similar to that of Switzerland and Australia." The members will represent the local high school. The question is affirmative of the question are Theodore Bowen, Michael Thomas, and Tommie Swain. Those who debate against the affirmative are Phillip Boak, Robert Edwards, and Otto...

LOCAL MEN TO MARKET TWIN FALLS PATENTS

Corporation Formed to Place on Market Various Turbine Patents of J. W. Vance

A number of Twin Falls residents have formed a corporation known as the Franchising Turbine company for the purpose of marketing a number of inventions patented by residents of this city and have incorporated a million dollars under the laws of the state of Arizona. The corporation of each share of \$500, being one dollar.

George Franklin is president of the company and Boyd E. Fuller secretary. Mr. Fuller has resigned his position in the Twin Falls Bank & Trust company to accept the place and to push the enterprise. The incorporators are George Franklin, Boyd E. Fuller, J. W. Vance, D. J. Overy and W. C. Hazard. The corporation is inventors of the contrivances that will be put on the market by the company, except the place and to push the enterprise. The incorporators are George Franklin, Boyd E. Fuller, J. WORK HUSHED AT ALL YARDS AND RECRUITING OFFICERS ARE WORKING HARD

ARMY WILL BE INCREASED BUT NO FORCE SENT ACROSS SEA NOW--PLAN FOR 5000 AIRCRAFT--STAFF DEPARTMENT FROWNS ON NEUTRAL INTERFERENCE.

WASHINGTON, March 22--Following the call for a special session of congress by President Wilson yesterday to consider "grave questions of national policy which should be taken immediately under consideration" the feeling here is that the die has been cast in favor of a vigorous prosecution of a war which is considered as already existing in fact, and which is believed that congress will formally declare as existing now as it convenes and organizes. Today Secretary Daniels issued a call for 75,500 men for the navy and congress will be asked to increase the maximum limit to 100,000. This action is regarded as indicating that the navy will have to bear the brunt of the fighting and that there is no present intention of sending an expedition across the sea.

However, it is understood that a large increase in the fleet has not been provided for. The navy contracts and training order has been removed from all the naval stations and the fleet is being pushed with unusual vigor. The national advisory aeronautics committee today with army and navy experts has characterized the plan of putting 5000 aircraft into commission. Neutral diplomats are believed to have conferred today in an effort to bring about a settlement between the United States and Germany. Great secrecy is being observed. Secretary Lansing said that he had no information on the subject. The state department indicated that it was not inclined to consider peace maneuvers with Germany, but that it was not inclined to consider peace maneuvers with Germany, but that it was not inclined to consider peace maneuvers with Germany.

Excitement was enhanced by the fact that the American steamer Mary Celeste, which was captured by the British, was reported as having been captured by the British. The capture of the Mary Celeste was a great victory for the British. The capture of the Mary Celeste was a great victory for the British. Berger-Items

(Times' Special Correspondence)
T. A. Farrott was transacting business in Piler Monday.

Our genial townsite promoter and representative of the Berger Mill & Elevator company, who left the Magic City on business one day this week.

Vernon Morgan, a director of the Salmon River Settlers' association, was a business visitor at the county metropolis Saturday.

Do not forget that the Emerson literary club will meet in the Berger school house Friday evening, March 23; very interesting program has been prepared by the committee and a large attendance and a good time is anticipated.

The Torgue brothers have moved and taken possession of the E. E. Reed farm in Paradise valley, known as the Young place, which they have leased for the ensuing year.

Contractor E. E. Mohr was doing the Magic City Saturday.

On account of the irregularity of the trains on the Twin Falls-Toronton branch last week E. J. Hornbrook secured a literary rig and drove to Twin Falls Saturday evening to spend Sunday with his family.

Sam Crist and family, recent arrivals to the Salmon River tract from Twin Falls, were pleasantly entertained at dinner at the home of Mr. and Mrs. Geo. McGregor Sunday.

D. W. Walton, broker after business in Twin Falls Saturday.

Services will be held in the Berger school house Sunday at 11 a. m. and Sunday school at 10 a. m. W. T. Fricker will care for the service.

Gust Scotch was a Twin Falls visitor Saturday.

Carl Stansburg, who owns a nice farm in the Magic City, has in addition, also owns the Stansburg addition of West Berger, Idaho, with his family returned to Berker after spending winter in Twin Falls.

Mr. Stansburg is now engaged in erecting a house on his place, having the material on the ground and other additions and improvements are being made.

L. E. Edmunds, one of the prominent farmers of the Paradise valley, was a business visitor in Idollater Saturday.

Miss Ethel Lyman, teacher of the Haggard school, spent the week-end with relatives and friends in Twin Falls.

T. J. Douglas, a prominent and progressive farmer of the Haggard valley was a Twin Falls visitor one day last week.

Leonard Huddleston, who recently returned from Oregon in assisting E. J. Hornbrook, who is engaged in the promotion of water works of the golden hood.

Miss Lily Barrett and her brother, Roy, are recent arrivals to this community coming from Whiting, Kansas. They are young people and will come to our community and will be a valuable addition socially to the younger set of this community.

Charles Estline, and family, visited with relatives in Twin Falls Saturday.

A. G. Ayer, one of the energetic and industrious men of the Magic City, has completed his 6000 barrel, cistern.

Frederick Haggard, farmer, orchardist, and general farm producer, and general farm producer, has been transacting business in Twin Falls one day recently.

Mr. Haggard is in the banana business of the Salmon River valley, farming the four hundred acres or more of the most fertile soil the sun ever knows.

Frederick Haggard has some beautiful apple trees and fruit in the forest trees are planted around his premises and also dairy acre and orchard.

Haggard is an ardent potato grower and has a number of potatoes, and plants from sixty to a hundred acres every year.

Mr. and Mrs. J. F. Logue, were visitors in Magic City, and Mr. C. E. Corner Saturday. Mrs. Logue was formerly principal of Berger, Idaho's girls high teaching in Oakdale.

Mrs. G. A. Shaw, who had enjoyed a week's visit with her parents, Mr. and Mrs. Davis, returned to her home in Magic City Saturday.

On account of rush of work the writer will have to discontinue to act in the capacity of reporter for the Times from this section of the Salmon, and will step aside for some one with an abler pen than ours.

Artesian City

(Times' Special Correspondence)
Mr. Hill has sold his dry farm in the Magic City. Mr. Hill has sold his dry farm in the Magic City.

Orson Strong and his wife were here for a few days this week attending to the stock farm.

Means' Hardware and Motor were transacting business in Hanson Saturday.

George Hendrick is working on the railroad of a work crew.

One of the boys in the hall last Friday night was very sick.

Miss Adams of Nurell is staying in the Magic City.

Mr. D. H. Hildahl and Mr. J. H. Hildahl were in Magic City Saturday.

Choose a Chalmers as You Do a Watch

Solid One-Piece Shell
You wouldn't discover that the crankshaft is a single sturdy shaft of drop forged heat-treated carbon steel. Nor would you discover that the Chalmers pistons are die cast from Lynite, a special aluminum alloy, and weigh only 12 1/2 ounces each.

Deep-Lying Differences
The shape of the body you wouldn't realize that the body frame is built with such great care from select steel. That this is covered by one-piece, welded sheet steel. Nor that the engine in the upholstery and the extra deep seats are made of the finest material.

Be Deliberate
So when you examine the Chalmers don't look hastily. That's mainly to the eye, and unfair to yourself. Some things you don't realize when you glance at a passenger Chalmers.

Go Deep
If you are to get the correct idea of the Chalmers you must go deep. There are the big important differences in materials. Differences in methods of building. Differences in quality of workmanship.

To look only at the exterior of the Chalmers you would discover that they are built of the finest materials and carefully heat treated.

All of the above means quality—the kind of quality you need in the car you buy—and the kind of quality you get in Chalmers.

GREENSBORO, N. C., March 23.—Former President Taft arrived here today on his "Paul Revere" trip to stir the preparedness sentiment in

GOOD RESULTS SHOWN IN CONTESTERS' REPORT
Great Increase Over Last Year in Number of Cows and in the Results Attained.

Both in number of cows tested and results shown the report of the Bull Disease contest for the month of February is unusually good, especially considering the bad weather experienced. The following table reports a part of the KC competing table.

The association average for the two highest day periods was 333 pounds butter per cow, there being a total of 333 cows on test for the same month last year, average production was 297 pounds per cow, with a total of 378 cows on test.

Several contests were held during the month, including the one in which thirty pounds butterfat per cow, as a minimum, was held in this class one year ago.

Twenty-nine cows met the requirements for admission to the honor roll for the period, having produced more than forty-five pounds butter.

The above record of production for the period of two or three days, and taking into consideration the severe winter weather, and the fact that the weather was exceptionally good.

Several dairymen, however, will probably be disappointed because the contest was held during the winter months, and the weather was not so good as in the summer months.

Seventeen contests were held during the month, including the one in which thirty pounds butterfat per cow, as a minimum, was held in this class one year ago.

Three Junior Two Year Old Contests were held during the month, including the one in which thirty pounds butterfat per cow, as a minimum, was held in this class one year ago.

During the month of February, a number of contests were held, including the one in which thirty pounds butterfat per cow, as a minimum, was held in this class one year ago.

My house-warming Chocolate Cake

(Report No. 6) By the one who wrote it

This happened on my first day back at homekeeping.

On the table looking at Cottolene, I had a can of Cottolene, looking just like an advertisement which read: "Use Cottolene." And that's what I was preparing to do. We were going to have a "house-warming" chocolate cake!

See how the Cottolene whips up with the sugar, like cream. I add the beaten yolks with light high strokes.

It didn't even know what Cottolene was—didn't want it in the house. But now I find myself using it for everything—even for this company cake.—I find it dependable. I measure *exactly*.
Two-third cup Cottolene
2 cups sugar
3 eggs
3 cups flour
1 cup milk
5 level teaspoons baking powder
Quarter-teaspoon salt

Sifted with flour

I wish you would try the same recipe. —From L. G. S.

FREE! Cook Book containing 239 recipes by famous cooks sent free. Write to The N. K. Fairbank Company, 111 West Washington Street, Chicago, Ill.

Cottolene

"The Natural Shortening"

Yes! Cottolene is also superior for frying and for all shortening.

As grocers in tons of convenient sizes.

THE TWIN FALLS TIMES

Published Tuesdays and Thursdays by the TIMES PRINTING & PUBLISHING COMPANY, LTD.

HAROLD M. BIMS, Editor

\$2.00 PER YEAR IN ADVANCE

Notice—Discontinuance: Many subscribers prefer not to have their subscriptions interrupted in case they fail to receive their paper for some reason. Notwithstanding this, it is not assumed that continuous service is desired; still, subscribers are expected to notify us with reasonable promptness to stop if the paper is no longer desired.

(Entered at the Twin Falls postoffice as second class matter as a twice-a-week publication, October 15, 1910.)

A notable change in the tone and spirit of German-American was produced by the publication of the Zimmerman note. Nothing, the Springfield Republican truly says, could solidify the American people like the threat of a hostile enterprise aimed at the dismemberment of the country.

The compulsory arbitration feature of the Adamson law should prevent future railroad strikes. (Continued from page 1.)

Gorman reports up to March 1 show aggregate casualties in killed, died of wounds and disease or prisoners, of 4,148,163. Multiply this by at least five and some idea of the war's human holocaust may be had.

The war department's order suspending the muster-out of the national guard remaining in service, raises the question as to the recall into service of the regiments already discharged.

Any acts of the last legislature neither signed nor vetoed by the governor at twelve last night became laws automatically.

ROADS FROM BUHL AND

(Continued From Page 1)

replied that he had talked with Manager Austin of the Elko company and that while he felt sure that the company would help materially he was not authorized to pledge anything. The citizens and commercial club of Jarbidge would aid. He would donate his team and man for the road. He would like to see the road built in the same way besides money contributions. No definite pledge had been taken regarding the amount of money to be built in six months of the canyon he undertook a survey to say that it would cost about \$25000. He was unable to state exactly what Jarbidge would do but he was sure that he was morally certain that it would do a good deal. Commissioner Carlson said that the government would not be able to build in that canyon, he undertook a survey to say that it would cost about \$25000. Judge A. W. Ostrom speaking for Buhl said that the delegation from his city believed that the main part of the road would come to Twin Falls. The road was a half mile from the Rogerson road to be abandoned or that improvement on it—cess. Jarbidge had become a great camp and people were coming in from all sides somewhere, and should get them from this city. Buhl had helped secure the Hansen bridge for the east end and this would cost about \$10000. This would result in a special benefit. This sum with that of \$7000 that had been previously voted would fall on the taxpayers of the district which would amount to \$12,000 which his district had helped vote on itself, from which it would get no benefit. Should the road be built in the district which would result in a special benefit. This sum with that of \$7000 that had been previously voted would fall on the taxpayers of the district which would amount to \$12,000 which his district had helped vote on itself, from which it would get no benefit. Should the road be built in the district which would result in a special benefit.

No eventually of the world-war, nor indeed of all history, is so astounding as the late revolution in Russia. Two hundred millions of people, who for a thousand years have been ruled by a czar—the symbol of despotism, have put aside all hereditary leaders and established a practical democracy; and have achieved this result, with almost no bloodshed and without that disturbance in their participation in the greatest war in history. One of the incidents to revolution, it should be noted, was the natural sympathy between the absolutism of Russia and the absolutism of Germany; and, as the new government says in its first manifesto, now "the lofty spirit of patriotism shown in the struggle against the old regime will animate our soldiers on the battlefield." The United States will promptly recognize the new order—the preface being that the end of the war may not leave an absolute monarchy in Europe.

It is significant that the President's cabinet, is unanimous in the opinion that a state of war between Germany and the United States actually exists, "armed neutrality," to the contrary notwithstanding. Confirmatory to this, at a meeting in New York on Tuesday, Charles E. Hughes said, "I regard these attacks (Germanic) and the method of their conduct, as an assault on liberty and on civilization itself." Elthu Root said, "Technically there may not be a war, but Germany is making war upon us and we are all willing to see whether we are to take it lying down." Theodore Roosevelt, at same time and place: "Armed neutrality under these circumstances is war. It is feebler war, but it is war. All one can do is to decide whether we will hit soft or hard. If we hit soft we will not acquire Germany's good will."

Answering the foolish claim that military training in youth makes a man bloodthirsty, one editor says: "Any man who received military training in his boyhood will bear us out in saying that it did not tend to desire war, any more than belonging to a fire department inclines a man to be an incendiary."

The signing by the governor of the road bonds bill promises to give the state three million dollars for improvement of her highways during 1917 and 1918. This should be of very great advantage in the development of the state.

THE BALMY DAYS OF SPRING SUGGEST THAT YOU VIEW THE NEW APPAREL

With the gentle breezes blowing, the birds beginning to sing and nature undergoing the delightful change from sombre winter to cheerful spring it is impossible to keep one's thought from new clothes. Right now is an ideal time to spend an hour looking over our Season's Offerings. Stocks are complete and the wonderful array of apparel presented for inspection is well worthy of the time spent in an examination. We mention in brief some of the new garments.

You Won't Talk High Prices After Visiting This Store

Where Quality Counts

OUR SHOP DEPARTMENT is overflowing with Spring and Summer models. Each model carried in all widths and sizes. Come in and be fitted by men who understand the art of fitting shoes. See our window display of the new silk Sport Material, Pongora Cloth.

BEAUTIFUL-BEYOND-DESCRIPTION-LAKE-THE-BLOUSES. There are so many little "bonnets" to this season's models that the variety of styles offered—make them unusually interesting, especially the prices. The novel dollars, the cluster lucks, the many effects introduced are exceptionally attractive.

Reminded by Commissioner Carlson that this was illegal, he replied that they did it because nobody objected and that this might mean the end of the road. Mr. Carlson moved that the sense of the meeting was in favor of a large bond issue for good roads. This carried by a vote of forty-three to six. J. Peavey moved that it be recorded as the sense of the meeting that the county commissioners and the Buhl highway commissioners do all possible to fix both roads. This went through unanimously. W. H. Harvey moved that the two bodies of commissioners be reunited to get together after the noon hour and attempt to devise means to carry out the plan. This carried by a vote of twenty-one to nine. J. S. Russell moved that the meeting when held, take into consideration the improvement of the Rogerson road. Mr. Harvey said that he intended his motion to imply that also and Mr. Russell said that he would accept that assurance, but the chairman put the motion and it was carried unanimously. Several of the men who voted against the big bond issue explained their votes. Mr. Koppelman was opposed to a large bond issue as Mr. Carlson had suggested, which might run up to a million dollars. Mr. Harvey and George Childs thought that it was not of a nature to meet the immediate issue and was not large enough to fully meet the needs, while Mayor H. W. Herman of Buhl concurred with Mr. Harvey and Mr. Childs also said that owing to the shifting of taxation liable to take place soon; the Buhl district would pay more than its share and get less than its share. Mr. Peavey said he doubted whether the trade could be drawn to Elko, as he had seen that bugabo raised before. Mr. Hudson denied that it was a bugabo this time as he had been on delegations from Jarbidge to Elko and knew how things were going. Commissioner Carlson warned the people against being too sanguine about the commissioners being able to find a solution the same day, especially in view of the fact that the state money was not yet available. Relative to the proposed Castleford crossing, Commissioner Carlson said that Engineer Fox had surveyed it and mailed a statement of conditions which should arrive on the afternoon train. If you built a bridge the grade on the other side would be small. If they did not there would be an unsatisfactory grade from the road. He had no figures as to the cost of the bridge or grade improvement but would have later. The meeting adjourned shortly after noon. Those attending the meeting from Buhl were George Wado, George Childs and E. Molander, road commissioners; Judge A. W. Ostrom, their attorney; and E. W. Harvey, C. H. Taylor, James G. Sloan, J. C. Gates, C. S. Peck, J. P. Constant, William Livingston, M. Koppelman, E. A. Miller, Henry W. Herman, A. J. Tucker, William Cunningham, J. E. Schmidt, of Buhl and J. M. Bartleson, George Roswell and H. A. Kinyon of Castleford. The Rogerson delegation consisted of J. S. Russell, J. B. Langford, H. P. Gibbs, R. W. Lutz, W. Reynolds, Louis Harvey, T. McCros, J. Higgins, George Washington, Andrew Rogerson, R. T. MacNamara and Charles C. Davis. In the discussion of the proposed

dissolution of the Buhl highway district and the voting of a big bond issue for the whole county, the Buhl delegation declared that they were doubtful whether they could get two thirds majority in their end of the county, while the Twin Falls men assured them that the deficiency in votes for bonds would be made up in the east end. At this meeting Commissioner Carlson first suggested the plan of having the county build one side of the grade and Buhl the other on the Lilly trail, a plan later adopted by common consent. County Attorney Stephen has been requested by the county commissioners to examine the law in an effort to find whether a bond issue of half a million dollars for the whole county could be voted in such way that the Buhl highway district could get its share without dissolution. The Twin Falls Steam Laundry will be open for business Monday, March 26. All work guaranteed satisfactory or no money. Phone 788.—Advertisement.

Your Opportunity

to become the proud owner of this HIGH GRADE 7-PIECE SET OF ALUMINUM FOR \$1.00 cash and 50 cents a week on our Diamond Brand Aluminum Club

SOCIETY NOTES

St. Patrick's affairs have been the mode of entertaining during the past week. The numerous parties have been given, many original ideas being carried out in the decorations...

The Wednesday Bridge club met this week with Mrs. A. P. Senter. The bridge was played by Mrs. Senter, Mrs. Everett Sweeley received high score.

The Harmonio club held its meeting Wednesday afternoon with Mrs. E. W. Sawyer. Mrs. Hester was guest of the evening.

The Sophomore class gave a party in the auditorium of the high school March 5. A very delightful program was rendered by members of the class.

Entertaining in honor of Mr. and Mrs. W. T. Wood, who leave soon for California, Mrs. M. J. Sweeley presided over a charmingly appointed dinner at the Rogerson, Monday evening.

The annual P. E. O. "basket luncheon" was held at the home of Mrs. Morgan Hepp Monday evening at 8:30 o'clock.

A most delightful five-course dinner was given by Miss Cleve McCallister at her home, Saturday evening, March 17, 1917, to twelve of her girl friends.

Honoring Mr. Dana Elliott, who spent a few hours last week with the party given by Miss Florence Costello Monday evening.

Mrs. E. T. Baird was pleasantly surprised last week by the Mountain View club, it being the occasion of her birthday.

Mrs. Chas. Spiller delightfully entertained at her home last Saturday evening with a party of her friends.

high and low across were won by Mrs. Coughlin and Mrs. Ernest White. Mrs. Wood was presented with a dainty carriage bouquet.

One of the most charming events of the past week was the bridge party given by Mrs. W. P. Outhrill at her home last Friday afternoon.

The Ladies of the Grand Army of the Republic gave a patriotic program and social at the L. O. O. F. hall Saturday afternoon, March 17.

On Saturday afternoon Miss Maxwell held a diversion at her home on Seventh avenue east, for the benefit of the Twelfth Century club.

On Saturday afternoon Miss Maxwell held a diversion at her home on Seventh avenue east, for the benefit of the Twelfth Century club.

The annual club breakfast will be held on April 24 at the Rogerson cafe. This will be an evening affair to which all members will be invited.

TRACTION MEN GET ADVANCE

Increase of Wages Granted by Indiana Company Without Strike or Ill-Feeling.

MONTANA LAW IS ENFORCED

Shorter Hours for Woman Workers Made Effective - Voluntary General Increase of Wages Announced - End of Year - News of Interest to Labor.

It was announced at the general offices of the Union Traction company of Indiana that interurban conductors and motormen on its entire system will receive an increase in wages of 20 per cent on the 1st of April 1. The advance affects 400 motormen and came unasked for. The present wage scale of from 22 to 32 cents an hour will be increased from 24 to 28 cents.

The number of general wage increases in November and December, 1916, was 236, of which 217 report more than 1,000,000 employees involved. Nearly half of the increases noted were voluntary and the other half were divided about equally between increases forced by strikes and those reached through agreements between employers and employees.

There seems to be no limit to the class of work women can do. At first they occupied a place in England to sell conductors on the buses, girl wire-telegraph operators, and night messengers. But as the war progressed, the field broadened, and now even in building, mining and quarrying scores of women are employed.

To help toward meeting the ever-increasing demand for women workers, the Illinois State Federation of Labor is preparing a bill to amend the Illinois labor laws to provide for the employment of women in the same manner as men.

The officers of the Bakery and Confectionary Workers' union, in their report of the last year show that they have a total membership of 22,355. For sickness and disabled members they have paid out \$4,343. They have 208 local unions.

Woman porters are to take the place of men in the hotels and restaurants of the city. They are to be paid in full. The goods produced by them will be sold at a profit of 25 per cent. The rougher 25s (\$5.75) a week.

It is estimated that between six and eight million persons now employed in the United States are engaged in the work of the United Kingdom, will have to be discharged at the end of the war.

According to Canadian census statistics there are 2,184,000 women in the United States. Of these 1,251,182 were married and 934,818 were occupied paid positions in factories.

An effort will also be made to obtain the passage of a law abolishing the employment agencies in California. The bill is being introduced in the legislature to investigate the situation.

Illinois politicians are making a third attempt to secure a compensation bill. They have been three times defeated by the legislature to investigate the situation.

Police will proceed against infractors of half-holiday act at Vancouver, B. C. San Francisco employers have secured the right of the day.

SOUNDS GAVE FERGUSON'S

War Department Wants Men and Women for Work in Kitchen and Laundry - out of the Country.

The war department is in the market for a larger number of kitchen and laundry workers and messengers. The department needs approximately 300,000 men and women. The men must be American citizens.

Charles Laverne represented Yucatan, Mexico at the Trades Union International-Sixteen trade union delegates held in Washington. Later he toured South America and urged greater solidarity between the workers of North America and the Latin-American countries.

Toronto (Canada) Building Trades League has issued its first working card. Attached to the league are the bricklayers, masons, carpenters, painters, plumbers and roofers, sheet metal workers, electrical workers, structural iron workers, millwrights, crane cutters, stone masons and laborers.

Under the Canadian dispute act, employers are not permitted to employ 10,000 employees more than 140,000 employees, and 32,000 of them or nearly 22 per cent struck in spite of the award, and in many instances in spite of the law itself striking before making an application.

Labor in California will endeavor to procure amendments to the workmen's compensation act so as to guarantee payment of compensation after some time has elapsed to give the injured worker a voice in the selection of the doctor, and to reduce the waiting period to one week instead of two.

A law regulating and limiting the issuance of injunctions in labor disputes will be asked of the California legislature at its coming session. It is proposed by the California State Federation of Labor representing the organized labor movement of the state.

Billing (Mont.) miners' union has voted to reduce the working day from ten to nine hours. After 90 days wages will be increased to \$23.00, and after another 90 days this rate will be raised to \$28.

A dispatch from Butte, Mont., says that despite numerous complaints that the Montana nine-hour law for women has been repeatedly violated, the first conviction was just secured in that city. The law was passed four years ago.

The Illinois State Federation of Labor is preparing to ask the legislature for an appropriation sufficient to establish branches of the state employment bureau in every city and some of the larger towns of the state.

The number of women applicants for positions in Germany has increased about 20,000 over the number who applied last year.

The board of trade at Mission City, Cal., has opposed the influx of Chinese labor as proposed by the Fruit Growers' association.

Canada's trade unions have unanimously endorsed the national service registration plan of the Dominion government.

Navy yard wage scales for 1917 show a general increase for all classes of labor, ranging from 5 to 45 cents a day.

A campaign or organization is to be conducted among the wage-earners of Santa Rosa and Petaluma, Cal.

OBITUARY

Marion Elizabeth Fay, daughter of Arthur H. and Mable Clara Fay, was born at Appleton City, Mo. April 21, 1912 and died at Kimberly, Idaho, on March 16, 1917, of gastric intestinal toxemia.

Elizabeth was sick less than twenty hours and suffered no conscious pain, but this being the third attack at intervals of about a year each she was unable to rally from the dread disease. The funeral service was held from the Christian Church, a short sermon full of consolation to the sorrowing parents and friends, being preached by Rev. James of the Methodist church.

Sympathizing friends and neighbors of brother and sister Fay and personal friends of this sweet little tot filled the house to overflowing.

Interment was in the Twin Falls cemetery.

Few little ones at the age of Elizabeth have found a warm spot in the hearts of so many, ranging in age from her own to the grandfathers and grandmothers of the community and she had especially enjoyed the company of her grandmother Mrs. Clark for a few weeks before her passing on to the other land.

The church of which she was a regular attendant has had one bright smiling countenance from its midst. The infant class has a vacant chair.

OAKLEY WINS THE CHAMPIONSHIP

(Continued from page 1)

Jerome, Shoshone, Buhl, and Heyburn dropped into the second class to compete for the consolation cup.

The first game in the second series, Friday evening, between Twin Falls and Kimberly, ended in favor of Twin Falls, by the score of 26 to 15. The Kimberly boys played a hard game, but inexperience, and inaccuracy in basket shooting, lost the game to the better organized team. Twin Falls team work showed up better in this game than in any former contest. Irwin Strong at left guard made a val-

uable addition to the local quintet.

The next game, between Rupert and Gooding, proved to be the most exciting of any up to this time. The score at the end of the first half stood in favor of Gooding, by a margin of three points. However, Rupert came back from a thorough pushover with a determination to win, which they did by twelve points, or a total of 44 to 23. The championship now lay among the three towns, Rupert, Oakley, and Twin Falls.

In the third game, Jerome lost her chance for the consolation cup by losing to Shoshone. The score was 35 to 10, Gwin of Shoshone making 19 points of the 35. Shoshone had several trick-plays which worked with great success.

The fourth and last game of the second series, between Buhl and Holliester, resulted in a total of points for Buhl, and for Holliester. There were remaining to compete for the consolation cup, were Buhl, Shoshone, and Heyburn.

On Saturday morning, Rupert and Twin Falls played the first game of the third series, Rupert winning by the score of 28 to 27. The game was undoubtedly the fastest and hardest fought contest that Twin Falls fans have witnessed this year. At no time in the entire season has the Twin Falls team exhibited such excellent teamwork, or such accuracy in basket shooting. The score favored Twin Falls by one point at the end of the first half. Throughout the game there was very little difference in the scores. In the last thirty seconds, however, Rupert made a free throw, which broke the tie and won them the game. A record in applause as well as basketball was made that morning. This put Twin Falls out of the race and left the championship to be decided between Rupert and Oakley.

Shoshone and Buhl had a hard-fought game this morning, the final leading to Shoshone by one point. The score was 15 to 16. Hall of Buhl played well in this game, making several difficult shots. Shoshone used their factor to good advantage and showed improvement in teamwork. The final game for the consolation cup now lay between Heyburn and Shoshone.

The finals were held Saturday night, Shoshone and Heyburn playing first for the second cup. Heyburn won by two points, the score at the first half being 14 to 12 in favor of Heyburn, and 22 to 24 in the last half. Bohon of Heyburn made 14 of the 24 points, while Gwin of Shoshone made 23 of the 22 points. For fast basketball these two teams were almost a perfect match. Very few such even games have ever been played in the local gymnasium. Shoshone took their defeat like the gentlemen they are, and were during the entire tournament. Shoshone's conduct was heartily appreciated by every witness of their defeat.

The last game of the last series, to decide the championship of the tournament, between Rupert and Oakley, resulted in Oakley's favor, by the score of 38 to 34. From the standpoint of team work Rupert excels all those who entered the tournament, but from that of accuracy in shooting both field goals and free throws Oakley certainly holds the advantage and came to Twin Falls. In fact the basket shooting of Hale, Harper, and of Openshaw was nothing short of phenomenal. Hale made free throw after free throw, without a miss, and all three of them shot goals from the center of the floor, that appeared to be practically impossible. The silver cup furnished by the Commercial club, was presented to the Oakley captain, by referee Brackon, in the midst of the most vociferous applause ever heard in the Twin Falls gymnasium.

High men in the tournament, were Gwin of Shoshone, making 59 points in four games; Nelson of Rupert, making 57 points in four games; and Neuman of Twin Falls, who made 51 points in three games. High men in single

games were as follows: Neuman, of Twin Falls, 27 points; Gwin, Shoshone, 20 points; Nelson, Rupert, 22 points; Openshaw of Oakley, 18 points; Halo of Oakley, 18 points.

Rupert was high town in the tournament, making 123 points in four games, and Twin Falls was second, making 102 points in three games.

According to popular opinion Openshaw and Halo of Oakley, Neuman of Twin Falls, Gwin of Shoshone, Nelson of Rupert, Hall of Buhl, Sills of Heyburn, Emmerson of Kimberly, Stanwood of Gooding, Long of Holliester, and Robertson of Jerome were the stars in each team.

—Fret Mueser, Leo Brackon, and Harold of Buhl were referees.

—With the exception of the class games, basketball is over for this year. At the rate the local team is now picking up, a splendid team could be formed. However, time from now on is to be devoted to baseball and track.

The prospects for holding another such tournament seems to be very good, according to the opinion expressed by several of the coaches. All were pleased with the way in which Mr. Natsiger superintended the affair, and will heartily support the repetition of such a successful event.

The Twin Falls Steam Laundry will be open for business Monday, March 26. All work guaranteed satisfactory or no money. —Phone 783.

FOR SALE—Choice residence lot at a bargain. 546 Second avenue north.

Experiment Delights Hundreds—The several hundred musical devotees who packed the Lavinger theatre on Tuesday evening were well repaid for their attendance and the crowd left the theatre with expressions of delight at the novel experiment under the direction of the tubistic phenomenon which Elizabeth Spencer, one of the most popular singers in Thomas Edison's musical family, sang side by side with her record. So clearly was the experiment conducted that it was with difficulty that the listening committee detected the place where the record ceased and Miss Spencer's delightful voice began, and then only by watching the movement of her lips. The concert at Twin Falls was one of a chain of concerts conducted by special request of Mr. Edison, in

order to show the public the wonderful reproductive power of the instrument bearing his name.

I. B. Porriano is back from the east. E. R. Dooley is home from Omaha where he shipped hogs.

W. R. Hordenski who recently moved to American Falls is back and will open a machine shop here.

E. Joslyn visited this week in Boise.

R. H. Pitcairn and M. J. Sweeley were in Salt Lake on business Saturday.

**Stands for Style-Superiority
First and Foremost.**

There's a snap and style, a cleverness of design in REDFERN Suits and Coats that cannot be duplicated.

No matter how elaborate a garment is, it is not modish unless the silhouette is approved by Fashion. Every REDFERN Garment conforms to the silhouette created by the best Parisian and American designers, and in every detail the garment is correct.

REDFERN Garments are superbly fashioned from all wool and silk fabrics. The tailoring is as fine as skill can produce. The fitting qualities are perfect. And then they are guaranteed, both by us and the maker, for quality and service.

We are now showing a most complete line of these beautiful garments in the new and different Spring Styles. Won't you come in and let us show them to you?
