

MEN COMPLAIN OF CONDITIONS

Government Machinists at Watertown Arsenal Formally Voice Grievances.

NOT SATISFIED WITH WAGES.

Claim Made That Scale is Lower Than Those of Private Concerns—Have Been Granted Leave to Strike—Miscellaneous News of the Labor World.

Banition to members of the Metal Trades Council of Greater Boston employed at the United States arsenal at Watertown to leave their jobs unless granted higher wages was given the council. Arsenal employees contended their rates of payment were much lower than those for similar work in outside concerns and in view of the fact that civil-service regulations were not being observed. Fred C. Holm, international vice president of the Brotherhood of Blacksmiths, said that in the last year nearly two hundred machinists had left the arsenal and were now employed elsewhere at higher rates. He said orders of the government were being neglected or delayed through the breaking of machinery and the incompetency of unskilled labor now being employed.

Fifty thousand New York city employees in the municipal building received notice that a system of co-operative buying, selling and profit-sharing, managed by city employees, had been established to reduce the cost of living. If the project proves a success, it will be extended to all the 87,000 municipal employees. Mayor Mitchell and other city officials have approved the experiment.

A commission appointed by former Governor Hatton recommends the abolishment of the convict-labor system in Indiana. The commission favors the state use system for the employment of prisoners and opposes the employment of prisoners on public highways. It is said that Governor-elect Goodrich favors these recommendations.

Wages of six million work people have increased about \$120 to \$3 a week during 1916, employment has increased until the demand is greater than the supply, and the price of food has gone up 87 per cent since the war began, according to an official review by the board of trade.

The French minister of munitions declares the government has in view the imposing of obligatory arbitration between employers and employees in case of wages to avert the many strikes now encountered.

Garment workers numbering about 28,000, employed in independent shops in New York went on strike to compel their employers to endorse the awards made by the board of arbitration in the recent strike.

Brantford (Canada) high-cost-of-living committee has repeated its request to the minister of labor to investigate the prices of canned goods and urged the administration of oleomargarine during the war.

The Union Pacific Railroad company has announced that it has incurred the lives of its 40,000 employees and also against ill health and accident for a year totaling \$30,000,000.

In Germany the most plausible authorities place the number of women who are doing industrial work at 4,703,000— or only 405,000 fewer than men thus engaged.

It was decided to call a public meeting at Stratford, Ireland, to discuss the advisability of erecting a corn mill in that district to be run on co-operative lines.

Dressing the high-speed steel with a portable grinding stone, which makes 1,000 revolutions a minute, is a new branch of munition work of English women.

To create a demand for union-label goods the office of labor agents is being created by the San Francisco Labor council in conjunction with the labor section.

Prisco bread-wagon drivers are negotiating with the American baking companies in effort to inaugurate a system of daylight delivery of bread.

The American Federation of Labor has received up to and including September 30, 1916, \$167,735 for the relief of the Danbury hostess.

Concord (N. H.) Street Car Men's union has raised wages from 23 cents to 29 cents, instead of 22 to 29 cents an hour, as formerly.

Parkmakers on the Canadian government railroads have been granted a minimum wage of 40¢ cents an hour.

Oakland (Cal.) labor unions will have a candidate for a commissioner-ship in the spring municipal election.

A campaign of organization is to be conducted among the wage earners of Santa Rosa and Petaluma, Cal.

There are 203,315 city stenographers and typewriters employed in the United States.

The Western Federation of Miners gained 2,400 members during the past year.

Seven million women are employed in business and the professions in England.

San Antonio (Tex.) electrical workers demand \$3 a day and the union shop.

Prisco's coopers' union wants an eight-hour day.

Carpenters at Seattle, Wash., ask 70 cents an hour.

CHANDLER SIX \$1395

See How the Chandler Checks With High-Priced Cars

Wherein and how does the Chandler excel other cars in its price field, you may ask. In many ways it excels and in all ways taken together it excels tremendously.

Now see how the Chandler checks with eight of the best known high-priced cars in seven features selected as being characteristic of high grade design and most excellent service.

- No. 1—Aluminum Crank Case. Packard, Pierce-Arrow, Winton, White, Stutz, Mercer, Cadillac
- No. 2—Aluminum Crank Case, which ties the frame of the car together at four points at front and rear sides of the motor, giving perfect rigidity to the motor mounting. Packard, Locomobile (bronze crank case), Winton, Stutz, Mercer
- No. 3—Silent Chains for Driving Motor Shafts. Packard, Winton, Mercer, Cadillac
- No. 4—Annular Ball-Bearing Transmission. Packard, Pierce-Arrow, Locomobile, Winton, White, Stutz, Mercer, Cadillac
- No. 5—Annular Ball-Bearing Differential. Packard, Pierce-Arrow, Locomobile, White, Stutz
- No. 6—Annular Ball-Bearings for Rear Wheels. Packard, Locomobile, White, Stutz, Mercer
- No. 7—High Tension Magneto-Ignition. Pierce-Arrow, Locomobile, Winton, White, Stutz, Mercer

CHANDLER HAS ALL THESE FEATURES

Now, what about other well-known cars in the Chandler price field? Of six other medium-priced six-cylinder cars.

- One car, listing at \$1650, checks with the Chandler in only two features;
- One car, listing at \$1495, checks with the Chandler in only two features;
- One car, listing at \$1385, checks with the Chandler in only two features;
- One car, listing at \$1250, checks with the Chandler in only two features;
- One car, listing at \$1325, checks with the Chandler in only two features;
- One car, listing at \$1725, checks with the Chandler in four features.

Not a single one of the six makes of medium-priced Sixes referred to offers you High Tension Magneto

Ignition. The Chandler offers you Bosch, recognized the world over as the best ignition system.

Not a single one of them offers you the silent chain drive, though one of them in a higher-priced model (\$2225) incorporates this feature.

Chandler checks with the high-priced cars. Chandler performs with the high-priced cars.

The manufacturer of one Six car makes just as big claims as any other. The Chandler Company likes to deal in facts.

For years, the Chandler Company has made the Chandler a fact car, not a claim car.

Claims sell a lot of cars, but facts sell more cars, just as fast as the buyers learn the facts.

The Chandler is honestly built and moderately priced. There is no other Six selling at anything like the Chandler price which will give you so much dependable service.

So many recognize its superiority that the Chandler has earned a front rank position in the industry. So many recognize it that twenty-five thousand buyers this year will choose the Chandler as the Six to be preferred above all Sixes.

GLADYS BROCKWELL, STARRING IN "ONE TOUCH OF SIN"

The Theatres

ONE TOUCH OF SIN" SHOWS AT IDAHO-FOR-TWO-DAYS

Mary Livingston is a woman with a problem. Starting life as an innocent, carefree girl, she is betrayed by the man she loves and left alone with her child to fight out the question of life by herself.

That is the character which Gladys Brockwell portrays in her newest photoplay for William Fox. "One Touch of Sin," showing at the Idaho Wednesday and Thursday. To add to the doubts and problems which beset Mary, she is forced into a marriage with another man, Walt Taylor (Willard Louis) because he takes the blame for a crime she herself committed.

Then she meets again the man who had first wronged her, Richard Malaby (Jack Standish) demands that Taylor give up the woman and a long series of fights between the two men follow. In the end, Mary is left to decide for herself. She goes with Malaby.

TWIN FALLS READY FOR "EATING IN COUSIN LUCY"

Dressed in a new wardrobe which is said to have cost upwards of \$10,000, famous Julia Ettinge will fill

his engagement at the Lavering theatre Saturday, April 14, in his latest success, "Cousin Lucy." This wardrobe forms a feature of the production, which no woman can afford to miss, as the gowns are so far ahead of the present styles that their duplicates will not be obtainable locally for at least six months.

But the gown feature is only one of the many details of this star's current vehicle, the book of which was written by the late Charles Klein. There are musical numbers by Jerry Kern and Ted Ward, including: "Does Come Hither Eyes," "Call on Me," "Two Heads Are Better Than One," "At Your Service Girls," "Some Time The Dream Comes True," "Summerland" and "Keep on Singing." It will also be found that Ettinge has surrounded himself with a capable chorus to assist in the singing and dancing ensembles.

"PATRIA" BEGINS NEXT WEEK STARRING MRS. CASTLE

Mrs. Varnon Castle, the best known woman in America, is one of the most charming stars ever seen on the screen. She is pretty and attractive—and delightfully feminine. The lot of society—every one has heard of her though comparatively few have been given an opportunity to see her and those that have watching her act—and she really does act—on motion picture prices, beginning next Monday and Tuesday at the Idaho theatre.

"Patria" is by Louis Joseph Vance, the famous author of a score of best-sellers including "The Brass Bow," "The Bronze Bull," "The Story of Patricia Channing," a beautiful young society girl, left sole heir to America's largest munition works and her splendid struggle against Baron Hiroki, a wily foreigner who is endeavoring to gain control of the Chandler, \$100,000,000 "Trust Fund" left to Patricia by her father. She is aided by Capt. Donald Ford of the U. S. Secret Service, with whom she is in love.

THIRTY THOUSAND SALOONS TO CLOSE

British Brewers' Sale in Move to Eliminate Many Small Dealers in East Liverpool.

(United Press)

LONDON, April 10.—Thirty thousand saloons probably will be closed within the next few months.

English brewers themselves have suggested a sweeping measure on these lines as the solution of difficulties arising from the restricted out-

STATE HAND LAUNDRY

All Work Called For and Delivered

GIVE US A TRIAL 328 Main Avenue South Phone 754

put of beer. At present, they say, there are far too many distributing agencies, a third of them should be put out of business without inconveniencing the public, while trade would be carried on more economically.

England must quench its thirst on ten million barrels of beer a year or so shortly, and the brewers are hurrying to meet the contingency. In the rush, however, instead of three breweries competing for business in one locality through thirty saloons, twenty of them will be discontinued and one joint firm will supply all the beer to the ten.

BASEBALL THIS YEAR EXPECTED TO BE BEST EVER

MAJOR LEAGUES OPEN TOMORROW WITH BRIGHT PROSPECTS FOR THE FUTURE

GAME ENTERING MOST SUCCESSFUL YEAR IS PREDICTION

Major League baseball is expected to be the best ever, according to a prediction made by a leading authority on the game. The prediction is based on the fact that the game is entering its most successful year in its history. The prediction is based on the fact that the game is entering its most successful year in its history.

Major League baseball is expected to be the best ever, according to a prediction made by a leading authority on the game. The prediction is based on the fact that the game is entering its most successful year in its history. The prediction is based on the fact that the game is entering its most successful year in its history.

matter, probably would gain up history's pages with records of baseball enthusiasm. These things are in the offing. Baseball is getting ready for it. If they don't come to pass the baseball world's going to be awfully disappointed.

There has been very little locking of teams during the winter months. Most of them will enter the competition in much the same shape as they quit last year, with the exception of the coverages. First division teams are generally picked as follows: American League: Chicago, Boston, Detroit and New York. National League: New York, Boston, Brooklyn and Philadelphia.

The American League and Cincinnati in the National, have provided the fans with some tender morsels of argument during the winter. Under the tutelage of Christy Matheson, the Reds look nearer a baseball team than for several years. He has gathered some youngsters, has attempted to make over his pitching staff and he has Hal Chase. If the Reds improve, everyone will be well satisfied.

Connie Mack a long time ago mentioned in a casual conversation that he expected to have his team back in the fight for the 1917 pennant race. He has had a lot of ball players since that famous saying, but it really looks as if he would cut more of a figure this year than since he wielded the ax on his old time steam roller. He has a fairly good infield, an average outfield, and a ceiling pitching staff.

In addition, he has three splendid catchers. His team will be one of the best in the National League.

It is his pitching staff that will make the team look good for some time, but the gradual climb of lower clubs for several years makes it appear that there will be more action in the national pastime this year than for several seasons.

There is a certain psychology connected with winter baseball. It is either breaks it or it is not. If it is not, it is impossible to see how the game can be better than it is now. The conditions, among which is the existence of a league such as the late lamented Federal and International leagues, such as marked the life of the baseball player's fraternity.

If the fan is given something of this sort to take part of his attention from the real action of baseball, the game is going to suffer. The bad influence of the fraternity was seen in the publicity given to many claims of

BOUL FARMERS TO BUILD AN ELEVATOR

Big Meeting Is Held—Western Man Invests Life Preserve for Aeroplane That Really Saves

One of the largest and most enthusiastic gatherings of farmers ever assembled in "Buhl" was held in the Moose hall last Saturday afternoon, when more than 4,000 worth of additional stock was sold in the farmers-union-company in less than 30 minutes, says the Buhl Herald.

The stockholders were assured of an association with a \$25,000 capital. The meeting was held in the Buhl Moose hall last Saturday afternoon, when more than 4,000 worth of additional stock was sold in the farmers-union-company in less than 30 minutes, says the Buhl Herald.

ball players that they were being fronted badly. It gave the fans something to talk about. It was shown in the crushing of the threatened strike, that the players were not in harmony and the public mind has been diverted.

There was no federal league last year, but the fact that it has had a full year to pass from memory will help the game tremendously.

Big Auction Sale Monday

Monday, April 16, at the Olmsted ranch, one mile east and two one-half miles south of Twin Falls, beginning at 11 o'clock. E. L. Fry will hold a big auction of horses, cattle and household goods and machinery. A free lunch will be given at noon. H. B. Lue will conduct the sale, assisted by Urban Tracey, clerk. The machinery is all in good condition and the stock is all first class.

If you have any valuable article do not give up hope of recovering it. Advertise in the TIMES and it will be returned to you.

BROOD MARE SHOULD RECEIVE GOOD FEED

High Price of Grain Tends to Make Some Owners Stingy With Winter Feeding.

Proper food for the brood mare in winter is not given due consideration in amount of high priced grain. In the opinion of Dr. C. W. McCampbell, associate professor of animal husbandry in the Kansas State Agricultural college.

An increased number of complaints regarding mares which have lost their colts are always noted in years of high priced feeds," said Doctor McCampbell. "This condition is due primarily to two reasons. The mare owner, being desirous of curbing his mares through the winter as cheaply as possible, depends largely upon such roughages as prairie hay, cane, kaffir, and corn fodder. This kind of a ration is exhausting, and such a condition prolonged often causes abortion.

"When feeds are as high as they are at present, one is tempted to reduce the amount given, especially the grain portion of the ration, but he usually finds this to be expensive economy in the case of the brood mare. In order to raise the maximum number of colts the brood mare must be well fed and cared for, and if one is compelled to rely largely upon roughages, bran and linseed oil meal should be added to the ration."

FEEDING POULTRY DRY FEED

Supply of Mixture of Bran, Shorts and Cornmeal Should Be Kept Before Fowls at All Times.

Farmers should keep dry ground feed, such as a mixture of bran, shorts and cornmeal, in hoppers before the fowls at all times. Either four mill or crushed limestone or oyster shell should be before the hens all the time, and the hens should go to roost with full crops.

Entered at the Twin Falls post office as second class matter as twice-a-week publication, October 18, 1916.

An Iowa exchange relates a very striking local incident. When a matter of sending home the German ambassador and thereby breaking amicable relations with Germany, was hanging in the balance, some German farmers in that country got together and signed a "round robin" letter to the president threatening dire action on the part of the German American, including themselves, in case this country went to war with Germany.

GLEE CLUB LEADER KILLED AT BOISE
Program Tonight Cancelled as Result of Sad Tragedy Resulting From Auto Accident.

The University Glee club play which was to have been held here tonight has been called off on account of the death, in an auto accident, of Vernon L. Henry, its manager. Mr. Henry and several other boys were out riding with friends and were following a car containing other friends. According to reports as they were going down the road about a commercial club snooker, one of Mr. Henry's friends called to the driver of the car in front to stop as the lights were out and, as the front car halted one of its occupants leaped out of the back and crashed into the driver of the car behind him. The car "dropped over the embankment. Young Henry's leg was broken and an artery severed and he died from the injuries at 11:30 o'clock Sunday. He was a resident of Moscow and was known to many here.

DOG WASN'T RABBIT INTIMATES THE PIONEER
Mail Newspaper Question Infallible by of Test Victim Reported Getting Well.

As a result of the little dog belonging to Evelyn White biting Mildred Wilson last Thursday afternoon, when the little girl started to go into the kitchen door at the White home, there is another wave of rabies sweeping over the town and the police force will no doubt again be in evidence with their hooks and spray canisters. The dog was killed and a muzzel will be hooked and sent to his eternal rest, says the Bull-Horn.

Mr. and Mrs. White sincerely regret the incident, but it is not nearly so serious as many would try to make appear. An examination of the little girl's leg was made by the editor of THE PIONEER and while there are several scratches and some of them were sunk into the flesh quite deep, the leg is not "all chewed up," "terribly lacerated," nor "the flesh torn off of the bone," as has been reported. The little dog was Evelyn's pet, and had always obeyed to other children entering the house, but had not at any other time shown the least evidence of being crazy. Just before this incident Evelyn had been playing with the dog in the yard, and she had "let it over on the floor," etc. We understand that the state bacteriologist reported that the dog had rabies. That is not surprising. Last summer a perfectly healthy dog was killed over in the Oakley country, and a statement drawn up to the effect that the dog had been acting queerly, running around in circles, etc., which was not true, but this statement was the dog's name was sent to Boise, and the report was that the dog was in the last stages of rabies.

It is estimated that 80 per cent of sheep are affected with ticks. Dipping will remove these insects, as well as lice and scabies. Dipping should take place in May.

Ticks which hatch out after shearing sheep often pass later from the underwool to the lambs which have longer wool than the shorn ewes.

At the Pennsylvania station, a 2 to 5 per cent solution of coal tar disinfectant is used for the purpose of dipping. Other proprietary dips are used especially for the purpose.

At present prices a combination of 40 parts corn and four parts barley makes per 100 parts of mixture, corn alone and has about the same feeding value as an equal weight of oats. By substituting ten to twelve pounds alfalfa per a day instead of alfalfa hay you can reduce the ration about 20 per cent. Much roughage, like corn fodder, cane or straw, may be utilized when alfalfa is fed, for the richness of the alfalfa causes a craving for other roughages.

POTATO SCAB REMEDY
Water..... 20 gallons
Formalin..... 8 ounces
Dissolve the formalin in two gallons of warm water, then mix in the balance of the water. Soak the potatoes for two hours, then take out and spread out to dry. When dry cut and plant.

SELECT BEST TOMATO PLANTS
Gardener Must Aim at Succession
What Will Provide Supplies Throughout Growing Season.

Much care should be taken in the choice of tomato plants for setting out into the field. The small gardener who depends on plants raised by the more extensive grower must demand the best plants from the standpoint of variety, health and vigor of the plants.

COMFORT IN HORSE COLLARS
Latest Type Is Pneumatic Pad, Built Up Similar to Automobile Tire—Fits Neck snugly.

Comfortable Collar.
built up similar to an automobile tire. Each side of the collar is a chamber of suitable shape to receive an inner air tube, which is blown up with a tire pump. Not only is the collar lighter than the ordinary one, but it will fit better on the neck of the horse.—Popular Science Monthly.

SMALL HOGS ARE DEMANDED
Animals Weighing From 200 to 250 Pounds Are in Greatest Favor—Cheapest to Raise.

The demand would indicate that hogs weighing from 200 pounds to 250 pounds are in greatest favor on the market. The farmer is looking for the hog that he can produce cheapest and the one that will convert the largest amount of plant food into the highest priced pork, and the best hogness comes to supply that requirement.

DIPPING WILL REMOVE TICKS
Pennsylvania Station Makes Use of Solution of Coal Tar—Other Dips Are Efficacious.

It is estimated that 80 per cent of sheep are affected with ticks. Dipping will remove these insects, as well as lice and scabies. Dipping should take place in May.

LOCAL BREVITIES
Phone 98
A. Lindberg, Brookings, made the Times extra late today.

Board of Hensons—The board of county commissioners voted to fund yesterday to meet the highway commissioners of the Illadale district in regard to the Hansen bridge.

Assess Sugar Company—The Assessor (Sugar) company property was assessed this week by County Assessor George Wilcox at \$700,000. The tax on it will approximate \$20,000.

Spinal Meningitis Appears—Vivian Irene Flory, daughter of Mr. and Mrs. E. H. Flory, died Saturday at the home of her parents at 180 Genoa avenue, in this city, of cerebral spinal meningitis, at the age of three years, five months and twenty-five days. The funeral was held Sunday from the home and was conducted by Rev. B. B. Johnson and Rev. J. H. Taylor.

Hansen Man Endorsed—A petition signed by a number of Democrats was telegraphed to Governor Alexander Saturday urging the appointment of W. Frank Brower of Hansen to the position of county commissioner made vacant by the resignation of Dr. P. Albee. The petition called attention to the service of right consecutive for years on the county committee by Mr. Brower.

Two Names Missed—Lawrence E. Carlson and William Lager joined the national guard here last night. They left and did not have their names on the roster when it was copied by a public stenographer. The list was made up by the county clerk before 10 o'clock Sunday morning when he joined the company in Boise.

Steps in Filer—The Anchor-Hay Grain and Feed Company will open a branch office here at the end of the month. Machinery has arrived at Filer for the manufacturing of crushed alfalfa feed. All kinds of stock. The products of the mill will be shipped here.

Mad Mad Itch—Two calves died last week at the yards of Dr. P. F. Meates from a disease which had many of the characteristics of hydrophobia. Dr. Wilson S. Decker, assistant state veterinarian, was called and diagnosed the disease as mad itch, an affliction that is exceedingly rare in this part of the country. It is said to be contagious and care is being taken to prevent its spread.

Biggest Collection Ever—The large returns in fees collected over made up the collection of the County Auditor E. J. Finch to County Treasurer Harvey Coggins. The fee collected was the year amounted to \$588,665 of which \$340,000 were for work as recorder, \$7 for fees as recorder and \$198,665 as county clerk. From this was deducted \$106 paid out to the clerk of the supreme court and \$17 to the department of labor, leaving a total of \$523,455 to go to the county treasurer.

Small Fire Today—A small fire in an attic near McKinley avenue did about \$20 damage to the property of Duncanson—McKinley at noon today. The fire was caused by a candle in a lamp which was left burning.

Boy Scouts—Boy Scouts, Troop No. 2 will meet at the home of the scoutmaster, 401 Main avenue west, at 7 p. m. sharp. Important business and a talk on the human body and its care.

Olden Bible Distributed—About a thousand men, women and young people marched to the parade Sunday from the front of the high school to the hotels, representing churches and Sabbath schools, and carrying Olden Bibles.

Reservoir Report—Reservoir report for the Salmon River reservoir for the week ending April 7 shows as follows: Group height in reservoir..... 158 ft. 10 in. available storage..... 1,010 ac. ft. Gain during week..... 2,200 ac. ft. (12,000 cu. ft.)

No Rabies Report—According to Hahn newspapers, a dog which bit a little girl, there has been no rabies reported by the state sanitary officers. Dr. C. H. Weaver, the county physician, said today that no report of rabies in Hahn or elsewhere in the county had been made to him, so that he was unable to personally what truth there might be in the report.

Roofing Representative Here—Ervin E. Hill, of Salt Lake, representative of the National Roofing Company, the largest roofing manufacturer in the country, arrived in Twin Falls on Saturday on a business visit with the company's local salesmen. Mr. Hill is greatly pleased with the roofing work done in this county and he is sure that the National Roofing Company will be able to supply the needs of the area.

Among the handsome donations to the Company of fund overlooking in the story of the mass meeting of the Lavering theatre was the donation of the splendid films by A. B. Anderson, proprietor of the Orpheum theatre.

The Easter Cantata—The master of the cantata, "The Easter Cantata," given last Sabbath at the church, was the choir of the Presbyterian church, assisted by the Methodist church orchestra. The work was very well received and filled the auditorium and balcony to its capacity while many were turned away for lack of accommodations. The chorus work of twenty-four voices, under the direction of Mrs. F. S. Hill, not only gave ample proof of training, but of the splendid talent of the city and the church affords. The special numbers, solos, trios, duets, and quartets, were of such a nature that it was difficult to determine which delighted most. At the close of the cantata, Mrs. Schenck sang "The Resurrection," by Shelley, making a fitting close to one of the richest musical treats. The whole program was most becoming. The Holy Cantata, which was given last Sabbath, was a repetition of several cantatas.

Roofing Representative Here—Ervin E. Hill, of Salt Lake, representative of the National Roofing Company, the largest roofing manufacturer in the country, arrived in Twin Falls on Saturday on a business visit with the company's local salesmen. Mr. Hill is greatly pleased with the roofing work done in this county and he is sure that the National Roofing Company will be able to supply the needs of the area.

GOOD ROADS

SNOWPLOW IS EASILY MADE

Effective Device for Clearing Highways in Winter Can Be Put Together by Any Farmer.

A farmer who is a firm believer in good roads in winter as well as in summer, could not get any satisfaction from his town superintendent when snow blocked the six and one-half mile way to town, writes Laurence W. Griswold in Farm Journal. So instead of going to the town-father and bawling him out, the farmer knocked together a snowplow and started out. The work done with the plow that day made it easy for a team to trot all the way to town and not get in trouble when it was forced to turn out for another day. And the job was over before a gang of men with shovels could fairly have started.

Directions for making the plow are as follows: Take a 2 by 3 inch plank, eight feet in length, VA in the accompanying picture, and use it for the side which is to travel down against the side of the bob runner. A ten-inch plank might work, but a 12-inch one would not because it could not swing ahead of the rear bob wheel.

Effective Snowplow.

making—turns. Take another eight-foot plank and saw off two feet for brace (G) and spike this brace at right angles to the longer plank. It may be necessary to let out the reach so that the outer end of the brace will not be too far forward on the shoulder (D). The brace should be raised an inch or two so that the snow which falls in the triangle will spill out readily. When spiked together the plow should have a comparatively small spread, say four feet, which might require too heavy a drag and unnecessary labor. To hitch the plow to the bob use two clevises and a ring attached to the end of the left side of the plow (point marked B). In order to do effective work a man should ride the plow.

One distinctive feature of the plow's construction lies in the fact that the left side of the plow is two feet longer than the right side. The left side is made so it can be snugly attached to the outside of the right-hand front-runner of an ordinary pair of bobs. When traveling, the left (longer) side parallels the runner and the right (shorter) side forms the whole plowing surface.

FIX ROAD FOR AUTOMOBILES

Radical Change in Treatment of Highways That Bear Brunt of Travel is Suggested.

The suggestion made by Francis M. Hugo, secretary of state of New York, that a radical change is called for in the treatment of roads that bear the main brunt of automobile travel, must strike laymen, at least, as highly important. He points out that only a small part of the width of these roads is actually used by most of the vehicles which pass over them, and that when the road has to be repaired or renewed the whole width has to be dealt with, for mere patching in most cases cannot be regarded as the most practical method of maintenance. Accordingly, he proposes the use of prepared tracks, made of special material, continuous and smooth in character, and sufficiently wide, which would bear nearly all the traffic and would lengthen the life of the road ten times in present proportion.—New York Times.

MONEY FOR RURAL HIGHWAYS

Bonds for County Roads Should Never Run Longer Than 30 Years, Say Agricultural Experts.

Bonds sold for county highway improvement, in the opinion of road specialists of the department of agriculture, should never run for more than 30 years, and retirement even earlier is better where the cost is steadily plished without too great an increase in the tax rate. It is dangerous practice to have bonds run for a long period, because in such cases the indebtedness often outlasts the useful life of the improvements made with the money so raised. Money borrowed to build roads should be repaid by those who enjoy the benefit of the improvements that financed, and not be left to those who gain no benefit from the expenditures.

LENGTH OF PUBLIC HIGHWAYS

Total of About 2,482,000 Miles About 277,000, or 11.3 Per Cent, Improved.

The public roads of the United States, outside the limits of incorporated cities and towns, are estimated to be 2,482,000 miles in length, of which about 277,000 miles, or 11.3 per cent, are improved with some form of surfacing. The mileage of surfaced roads is increasing at the rate of about 100,000 miles a year.

Twin Falls Business Directory

These firms listed below believe in advertising; and that advertising produces the volume of business which makes up for real economy and lowers the cost of doing business, and enables consistently low prices for first quality stock.

THE TIME'S HANDY GUIDE

Divorce

A man sued for a divorce; It later came to trial. He charged her with extravagance, Which caused the wife to smile. The judge did listen to both sides, And time made up his mind. He gave in their conclusions, What the court did really find. The judge said to both parties: 'I'll let this case slide; I'll tell you where to save on clothes That you have not yet tried. That couple now are happy. For she saved a THIRD and more On every SUIT, COAT, DRESS and waist

ALFALFA FAVORED FOR PIGS

Results Given of Experiment Made at Nebraska Station With Various Kinds of Feed.

Ground alfalfa makes a very good feed for pigs; but it is worth more to feed with corn, rye, barley or wheat than with a more bulky food like middlings. At the Nebraska experiment station eight lots of seven pigs each, averaging 25 pounds, were fed on various kinds of feed for 34 days. They found that it took 442 pounds of cornmeal and 147 pounds of bran to produce 200 pounds of gain; 350 pounds of cornmeal and 118 pounds of middlings produced the same results while equal results were obtained from feeding 358 pounds of cornmeal and 119 pounds of cut alfalfa hay. The latter was found equal to ground alfalfa.

GYPSUM OF BIG IMPORTANCE

Best Known Article for Preserving Full Strength and Value of Poultry Droppings.

An authority says: "Plaster is the best-known article for preserving the full strength and value of poultry droppings for sweetening and purifying the air of stables and for preventing the loss of ammonia from manure stored. It may be used with safety under the feet of fowls and animals." The quantity to use in horse and cow stalls is at the rate of one and a half to two pounds per animal per day at the time the stalls are cleaned, mixing it with the manure and bedding, or it may be spread over the manure when piled in the yard.

A SNAP

For quick sale—liberty across the land, buy now, near success at \$250.00 per acre. \$100.00 cash, balance, terms, at 8 per cent. About forty acres in alfalfa and white clover. BARNETT & STILLWELL Jerome, Idaho

TROUBLE WITH CALF SCOURS

Overfeeding, Sour Milk Pails and Irregularity in Feeding are Usual Causes.

Probably the greatest difficulty with which the calf feeder has to contend is scours. Overfeeding, sour milk pails, cold water and irregularity in feeding are usually the causes. Scours is a white or watery excretion of the bowels and is not to be confused with the milk which is added to the milk pail. No dried blood that has not been thoroughly sterilized should be used. In severe cases of scours, the addition of one or two drops of the dried blood has been found to be very effective. In severe cases, it is recommended that the calf be kept in a warm place and that the milk be given in the morning, which is followed in about 12 hours by a drop of kerosene and a teaspoonful of castor oil.

CLEANLINESS IN DAIRY BARN

Two Hours Should Elapse After Feeding, Bedding or Brushing Before Milking is begun.

Feeding, bedding or brushing soiled cows with the same water can carry over disease. The dirt raised by these operations takes a long time to settle, and if these operations are continued shortly after milking, a very considerable quantity will be carried over to the milk. The same can also be said of the water used for cleaning the udders and teats.

MONEY TALKS

As you grow older your earning capacity lessens. What have you got in the BANK

With the passing of years you will not be able to work so hard as you do now. You will not, by labor, be able to earn so much money. You will want to spend more. What must you do?

You must have some of the money you are earning now. As you save it, it will by itself through interest or investment, earn money.

Open an individual BANK NOW. Interest paid on savings.

The Times is headquarters for book wrappers, both in quality and in price. We print them any day in the week, with no extra charge. Our subscribers read the classified columns. Reach those subscribers cheaply and surely by placing your wants in our paper. NO newspaper can do this with out advertising. The publisher will not do this for those who do not want to share the paper.

Outstanding! In every community the name Certain-teed stands conspicuously for quality, good value, satisfaction, and fair dealing.

Certain-teed Paints and Varnishes

get their quality from the character of materials used in their manufacture and from the exactness with which they are mixed.

The formula of ingredients printed on the label shows honestly and unmistakably the real worth of the paint.

Modern, up-to-date machinery eliminates the uncertainties of mixing by hand and insures absolute conformity to the experts' printed formula.

The price of CERTAIN-TEED Paints and Varnishes is based on the most favorable manufacturing, distributing and selling costs, plus a margin of profit smaller than is generally customary. This low price

would not be possible if we had to depend upon an exclusive paint organization to market our paints and varnishes.

CERTAIN-TEED Paints and Varnishes are guaranteed to give satisfaction. This guarantee is backed by the enormous resources of the Certain-teed Products Corporation.

Whether you do your own painting or employ a professional painter your interests will be best served if you insist upon getting CERTAIN-TEED Paints and Varnishes.

Any good dealer can sell you CERTAIN-TEED Paints and Varnishes. If he doesn't carry them in stock, he can get them for you.

Certain-teed Roofing

For factories, office buildings, farm buildings, garages, etc. CERTAIN-TEED is the best roof. It is made of heavy, close, asphalt, weather-proof, and fire-resistant. For residences CERTAIN-TEED Roofing is the best. It has all the advantages of the best roof. It is made of heavy, close, asphalt, weather-proof, and fire-resistant. It is made of heavy, close, asphalt, weather-proof, and fire-resistant. It is made of heavy, close, asphalt, weather-proof, and fire-resistant.

The Dairy

GIVING AN UPWARD SQUEEZE

Illustration Given Herewith Shows How One of Standard Milk Machines is Operated.

The drawing shows here illustrates how one of the standard milking machines draws the milk from the cow's teat. The method of drawing the milk from the teat down through the teat also tends to draw blood from the veins of the teat down into the mammary veins of the teat. It is necessary that something shall keep massaging this blood back from the teat; so that it will continue in circulation. The comfortable upward squeeze does exactly this. This squeeze is adjustable, so that the

MACHINE IN OPERATION.

operator, by turning a little lever, can give a heavier squeeze to a big-teated cow and a lighter squeeze to a small-teated cow. Thus each cow gets just the squeeze needed in her individual case—a feature that makes each cow give her maximum.

When the calf milks, its tongue has a squeezing action on the teat, the same as your tongue does if you place your finger in your mouth and suck it. This sucking action of the calf's tongue keeps the blood in the teat in circulation. If the calf stopped squeezing, just sucked each swallow, it would slowly suck so much blood down into the veins of the teat that the teat would swell and swell—Purveyors Mall and Breese.

RECORD OF BIG IMPORTANCE

Small Amount of Work Required to Keep Books if Done Regularly—Profit or Loss Shown.

It is a good thing to keep records of all the farm operations. They may seem trivial at the time, yet some day are sure to be of great value and are a great help and satisfaction in clearing up difficulties that frequently arise. It requires only a small amount of work to keep them if the work is done regularly and systematically. The very fact that records are kept makes one careful of details and interested in making the things of which the records are kept turn out the best. It helps one to have a firm grasp on his affairs and to know just where he stands in all his work. He knows whether he is running his farm or any branch of his farming at a profit or at a loss.

In no branch of farming are records of more importance than in dairying. It is of actual money importance to know whether a cow is making a profit on the feed she consumes or is eating more than she is worth.

VENTILATION OF DAIRY BARN

Where Air is Good, Cows Should Remain in Stalls at Night Both in Summer and Winter.

If ventilation of the barn is good, cows should remain in the stall all night, both in summer and in winter. If ventilation is imperfect in very hot weather it would be advisable to turn them out in some clean lot or pasture; but in doing this considerable manure is lost.

During some of the colder days of winter it would be advisable not to turn cattle out except during short periods for watering. Chilly weather has considerable influence in reducing milk flow and a good cow should not be exposed to too severe climatic changes.

CULL OUT ALL THE LOSERS

Big Increase in Profits Made by Farmer Who Weeded Out All Unprofitable Animals.

Merely by culling out the unprofitable cows one farmer reports that he was able to raise the milk receipts per cow from \$89 one year to \$180, the next and the live-stock receipts per \$100 worth of feed from \$75 to \$120. This made it possible for the farmer to increase the profit \$1,500 on his farm in addition to what the farm contributed toward the living and after 5 per cent interest on the investment had been subtracted. The year previous the farmer had lost money.

WILLIAM HAS GOOD INVESTMENT HERE

German Kaiser Prepares for Rainy Day—Government Flipping Confronting the Property. That Kaiser Wilhelm has a lot of wealth invested in this country which he has asked down for a rainy day when the German people get tired of his sort of management and decide to make him throw up his job, is the story told in the New York Courier.

Very few people know that the Kaiser has set aside in this country something for a rainy day. If not contacted, when he will pack his trunk. Let us hope it will be soon.

It is told from New York that the Kaiser and his family own far more than ten millions of dollars of securities in the United States which could be confiscated by the government. Facts recently published seem to show that the German emperor is in a position to guarantee against seizure the goods and chattels of German subjects in this country was thinking more of his personal interest than of the German people.

In the beginning of the great war the Kaiser is said to own about 24,000,000 of shares in the Great Northern and Southern Pacific and other western roads. These shares were bought in the name of the German commission houses in New York. The emperor possesses for half million of dollars of American securities and the price Henry is paying for his stay in America bought for several millions of them.

The Kaiser owns part of the German Lloyd and the Hamburg American line which have not more than 280,000,000 of steamers interested in American ports. He also is the owner of more than half the shares of a silk factory at Paterson, New Jersey, and the commission on industrial revenue has proven that this special factory paid the lowest wages and where the conditions under which the workmen had to work were the worst in the district. It is said that the government is looking carefully into the Kaiser's ownership in order to seize his properties even if his subjects are not acquainted with the fact that he is generating power make all what he owns state property.

CONDON COMMITTEE SUICIDE Jack Condon was found dead in his bed at the Condon farm southwest of Duhl Thursday morning of this week by W. A. Thompson, who lives near the Condon place, says the Duhl Pioneer. His throat had been cut with a pocket-knife and he had bled to death. It is reported that he was bitten by his dog and in consequence a report from the state bacterologist was to the effect that the dog had rabies. Mr. Condon is believed to have brooded over the matter and finally decided to take his own life. He has lived in the Duhl country for a number of years and was a bachelor. Efforts to locate his relatives have been without result up to the present time.

LARGE MEETING OF CLUB IS DESIRED

New Officers of Commercial Club Ask All to Attend Important Gathering Tonight.

A full meeting of the Twin Falls Commercial club is desired by the new officers of the association for tonight when they will consult with the members in regard to policies for the ensuing year. Among other matters that will come before the body will be the question of arranging for the entertainment a delegation of twenty-five investors and engineers new men of national prominence, who are on their way from Omaha through the country. They are expected to arrive here, between 11:30 and 12:00, the morning from Sheehane and Jerome, coming from Boise.

The party will consist of commission men, bankers, stock yards men and representatives of leading hotels. Matters of local interest will also be taken up and the question how much it is expected to pay a secretary will be discussed. The new officers are currently requesting a full attendance.

James McMillan resigned his position as secretary of the club a couple of weeks ago to take effect yesterday and he is expected to have resigned this morning to Stuart Taylor who will act temporarily in his place. On leaving his position Mr. McMillan filed the following statement of the financial condition of the treasury:

Table with financial data: Balance in bank, April 1, 1916 \$222.29; Cash collected \$244.75; Rent from city 187.69; General, rent of land, subscriptions, etc. 830.50; Disbursements: House account, rent, etc. \$1,127.85; Advertising 108.09; Entertaining \$1,000.00; Salary 1916 \$1,213.26; General payments on rent of land, etc. 613.15; Balance in Bank \$6.99.

BRITISH WOMAN DIPLOMAT WAS MARRIED YESTERDAY

(United Press) WASHINGTON, April 9.—Miss Violet Erskine, daughter of the late Clement Erskine of the British Consular service and herself a secretary and an authority on international relations, at the British Embassy here, was married today to Horace Seymour, third secretary of the Embassy. In marrying, Miss Erskine gives up her title and the international diplomat officially connected with the British government. The couple had intended returning to England for a honeymoon but the international situation may cause a change in their plans.

DIED OF ALARM

(United Press) KANSAS CITY, Mo., April 10.—Secretary John Hartman, 55, a policeman, died of heart failure when his alarm clock awakened him too suddenly.

MANHATTAN STUDENTS USE PARCEL POST

Parents of Poor Students Send Them Meals—Through Post Office to Reduce Expenses. (United Press) MANHATTAN, N.Y., April 10.—Ask by the postal authorities of Washington to explain why his office need so much extra help when those in other towns of the same size get along with less. Postmaster Walter informed them that there are 2,000 students at Kansas State Agricultural college most of the year, that they are mostly poor boys and that their mothers help them reduce the cost of living by sending them cake and pie and baked goods and things by parcel post.

AUTOMOBILE AND TWO PIANOS

(Continued From Page 1) to enter, nominate one of your friends—if they happen to be the winner and you nominate them first, you will receive \$10.00.

Remember, the first prize is an automobile, worth \$725; the second and third prizes are pianos, valued at \$350 each; then follow the other prizes. The contestant receiving the greatest number of votes will receive the auto; the second highest will have choice of pianos; one of which will be seen at the Carlson and the other at the Logan Music companies. More prizes will be named from week to week until campaign progresses.

There is no chance to lose and an opportunity for each to win. You can not afford to pass this up without investigating the Club at the Times office and see the campaign manager or phone 28. The following nominations have been made up to this date:

- Rachel Quigley 1000
Mildred Wilkens 1000
Eloise Spafford 1000
Zella Lammer 1000
Vera Smith 1000

Hanson Nominations: Esther Maxwell 1000, Mrs. Adah Provost 1000, Sibil Hall 1000, Mrs. V. J. Ament 1000, Vera Anderson 1000, Amanda Caron 1000, Cora S. Hooper 1000, Charlotth Samuels 1000, Hazel McBoe 1000, Helen Mason 1000, Cora Finch 1000, Elsie Drackley 1000, Elsie Ring 1000, Kimberly Nominces 1000, Della Farnsworth 1000, Malba Dalley 1000, Elsie Ring 1000, Betty King 1000, Ida King 1000, Francis Warner 1000, Louisa Hester 1000, Edith Olson 1000, Gurdy Burns 1000, Charlotte Proctor 1000, Bernice Emery 1000, Filer Nominces 1000, Orifina McCall 1000, Lillian Murray 1000, Lena Lammons 1000

WAR PREPARATION MEETING

(Continued From Page 1) from an exceptionally hard winter which there has been a shortage of forage causing a condition that the planting of our crops has really become a problem that we must solve as patriotic citizens in the interest of all and not the few. This affords excellent opportunity for those who have seed that they can spare to the public to do so for a fair consideration that will not be prohibitive and thus become beneficiaries of the people and the nation.

With a sure conviction that all citizens will be prompt to act for the good of their country and knowing that organized effort is effective in the service to the greater numbers concerned. Now, therefore, I, Moses Alexander, governor of the state of Idaho, do hereby proclaim and request that on Saturday, April the fourteenth, 1917, at 8 o'clock p. m., the county auditor in each county of the state shall call a meeting of the county commissioners, county agricultural agents, county superintendents of schools, and officers from each bank and all agricultural organizations and representative from all the business houses in the county, at the county seat to organize for the purpose of making a list of the seed and the appointment of proper committees for the purpose of obtaining the seed for the state and for each part of the county. To appoint a central committee of state with a sure conviction that shall be to devise ways and means by which the lands may be prepared, the crops planted and cared for and the seed for the state advanced is taken of every opportunity to increase the supply of food products. That the local committees in each precinct make arrangements for a patriotic rally to be held on some future day for the purpose of planning the action that will be of most benefit to the district and nation by way of encouragement in agricultural production. That the state granges, farmers' equity, farmers' unions, commercial clubs and all other organizations invited to participate in this service. That the state department of agriculture, the state department of farm lands, the state agricultural college in all its branches, and all others serving the agricultural needs of this state support this movement. These steps be taken by all these active committees throughout the state to devise ways and means for helping anyone willing to cultivate land by providing farm labor in animal or machine by securing seed and labor through any plan or means deemed advisable or just. The state is rich in its wonderful resources and I appeal to all citizens of this commonwealth to take an active part in this movement to increase the food supply for

THE PROBLEM OF THE AGES CONFRONTS THE POOR MOTHER IN "One Touch of Sin" The Tense Photoplay in Which William Fox PRESENTS Gladys Brockwell The Woman of a Thousand Expressions. Left alone with her child, she turns to the only man who has treated her kindly; but she is confronted by her former lover. WHICH ONE SHALL SHE CHOOSE? See this picture and judge for yourself whether she did rightly. Miss Brockwell was well known to many Twin Falls theatergoers, because of her work in Twin Falls five years ago, when she filled a six month's engagement at a local theatre, with a popular stock company. This great picture offers the opportunity to again see this popular film actress. In addition to "One Touch of Sin," will be shown a two-reel Fox comedy "The Merry Mix-Up."
