The Socialist Ticket Needs Filing

Rain or Snow Tonight and Wednesday with Freezing Temperature.

Washington, April 17---The navy department officially announces that the U. S. Destroyer Smith was fired on at 3:30 this morning off Fire Island, twenty-five miles south of New York harbor. The torpedo missed by thirty yards. The U-boat submerged and disappeared. This is the first shot of war.

CITY ELECTION CONTEST WILL STIR A LITTLE

SOCIALISTS HAVE TICKET AND WILL WRITE IN NAMES OF CANDIDATES APRIL 24.

Opponents of Waterworks Bonds Are One and Four Friends of Issue Are Playing Part of "Their Habit" Until Election Day.

The campaign in the city promises to be more lively than at first anticipated as the Socialists are out with a list of candidates, the names of whom it is understood they will write on the tickets and ask others to do the same.

Although Clark Williams reported to the TIMES at 8 o'clock Saturday night that no other ticket than the Citizens has been placed for filing, he anticipated things just ten minutes, at 8:10, p. m., the Socialists were filing a certificate of nomination which contains the names of the candidates.

It is herewith announced for the purpose of the Socialist ticket candidates for Twin Falls city election to be held April 24, 1917. The meeting assembled on March 25, 1917, nominated the following candidates for the offices to be filled at said election as follows:

Chairman, W. B. Easterly; Secretary, F. Olson.

The personnel of the ticket is as follows: Arthur E. Reeves; city clerk, Herman G. Schurgis; members council first ward: Floyd Whitel and H. L. Bradburn; the first ward; second ward, Mary E. Holcke and G. Dahlhoff.

City Clerk Williams advised the Socialists that the time for filing had expired Friday night and stated that he had informed Mr. Froelicher, the city clerk, that he would not file the ticket until after the filing would expire Friday.

The formal opinion of the city attorney filed Monday with the city clerk, pointing out the illegality of the filing, and the fact that the city clerk is hereby advised that the last day for filing nominations for the city election on April 24, 1917, was Friday, April 13, 1917.

There must be ten full days elapsed between the filing of the nomination papers and the day when the election is held, as determined by the supreme court in the case of Sewell vs. Gillard, 22 Idaho, 235; 125 Pac. 618; 102 A. M. Ann. 528; 194, A. 1122.

In the meantime, the interest has not died down in the both elections. The principles of the election are to be among the opponents rather than among the friends of the Kelsey plan.

RED CROSS MEETING SELECTS CHAIRMAN

The following committee chairman have been selected by the Red Cross executive board to expedite business in the cross campaign: J. G. Bradley, finance; L. L. Breckenridge, distribution; Mrs. F. W. McRoberts, press and publicity; Miss Jessie Warrington has been added to the board and made assistant to the chairman on the publicity committee.

WILSON ASKS FOR REPUBLICAN HELP FOR ARMY BILL

LEADERS OF BOTH REPUBLICAN FACTIONS CALLED INTO CONFERENCE TODAY

JELLY-SPINED CONGRESSMEN FEAR THEIR CONSTITUENTS

WASHINGTON, April 17--President Wilson today called the Republican leaders of both houses into conference to discuss the military bill.

The president is authorized to call for a million volunteers to be recruited in ninety days. This in the house situation, in the senate there appears to be only one vote on the military committee inclined toward compromise.

It was announced here today that Cuba will send commissioners to confer with the commissioners of the allies and the United States.

The effect of President Wilson's proclamation yesterday, warning all persons of the danger of aiding the enemy, it is believed will have the effect of preventing some unscrupulous nations of the east powers from assisting others.

GERMAN LUTHERANS PASS PATRIOTIC RESOLUTIONS

ALBUQUERQUE, New Mexico, April 17--The New Mexican German Lutherans closed their annual conference here today by adopting resolutions of loyalty to the United States in the war and declaring for a national patriotism against the socialist brand.

The German Lines Now Beaten Back

by the French, While the English Advance Continues. Over 30,000 Captured Altogether, With Guns, Munitions and Stores. Three Millions of French and English Troops Engaged.

PARIS, April 17--The greatest offensive of the war is on. Since the French have captured the position captured in the smashing offensive, they have resumed counter attacks between Soissons and Rheims. The great offensive extends over a line 170 miles in length, with 3,000,000 French and British troops engaged.

Both nations await the result of this with breathless interest, as it is the event for which every man, woman and child in both countries have been preparing for the past six months. The entire forces are today a mile closer to Leclercq than yesterday and are on the main line of communication from St. Quentin to Cambrai, threatening to cut off the German at St. Quentin and Leclercq.

PRESIDENT ASKS PEOPLE FOR THEIR HELP IN THE WAR

APPEALS ALL TO COME TOGETHER FOR THE DEFENSE OF THE NATION

SPECIAL APPEAL MADE TO THE FARMERS

Requests All to Plant Gardens and to Be Careful in Expenditures--All Waste and Extravagance to be Avoided if Possible.

WASHINGTON--In a personal appeal addressed Sunday night to his fellow countrymen, President Wilson calls upon every American citizen, man, woman and child to join together to make the nation a unit for the purpose of winning the war and to uphold of democracy in the world war.

"The supreme test of the nation has come," says the address. "We must all speak, act and serve together."

Putting the navy on a war footing and raising a great army are the two main tasks which are being undertaken by the president, and he urges all the people, with particular emphasis on his words to the farmers, to concentrate their energies, practice economy, prove unselfishness and to demonstrate efficiency.

"It is evident to every thinking man that the nation is engaged with a brief presentation of the causes which led the United States to enter the great war after which a more efficient than ever and that they must be more economically managed and better adapted to the particular requirements of our task than they have been, and that it will be our duty to the man and the woman who devote their thought and their energy to these things will be serving the country and the cause of peace and freedom just as truly and just as effectively as the men on the battlefield or in the trenches.

"The men and women of the country, men and women alike, will be a great nation, a great international force, a great and noble service of the nation and the world, the efficient friend and ally of free men everywhere and engaged in the fundamental, sustaining work of the fields and factories and mines, and they will be as much part of the great patriotic force as the men and women who are engaged in the trenches.

DIFFERENT VERSIONS OF GERMAN STRIKE

Amsterdam Reports Severe Shortage of Foodstuffs. The Importance of an adequate food supply, especially for the present year, is especially emphasized.

Without abundant food, alike for the armies and the peoples now at war, the whole great enterprise upon which we are engaged is bound to fail. The world's food reserves are low. Not only during the present emergency but for some time to come we must have a steady supply of foodstuffs. The importance of an adequate food supply, especially for the present year, is especially emphasized.

HISTORIC RELICS OF WASHINGTON ESTATE FOR SALE

MANY ARTICLES OF RARE VALUE ON EXHIBITION AT THE ANDERSON GALLERIES

SALE HELD TOMORROW IN NEW YORK CITY

Among Collection is Unpublished Journal of Constitutional Convention by James McHenry, A Maryland Delegate.

(United Press.) NEW YORK, April 17.—Perhaps the largest and most important collection of relics of George Washington and his family that has ever been made in this week on exhibition at the Anderson galleries on Fifth avenue and will be sold under the hammer tomorrow evening.

The collector is William Talmud Washington of New York, the heraldic representative of George Washington in the Society of the Cincinnati and a direct descendant of two of Washington's brothers.

Washington has no immediate family to leave the relics to and, as he is elderly, he feels that the distribu-

tion of the momentous among American collectors is a duty. The articles are divided into two classes. The first embraces those Washington has inherited through five branches of the Washington family; the other includes the relics collected during the last thirty-five years after Washington's death.

In the first division are many articles of silver and silverware owned by General Washington and used at Mount Vernon; snuff boxes, writing cases, the sword-belt buckle that Washington wore; shoe buckles, money scales and weights, candlesticks which adorned Washington's desk at Mount Vernon, whilst counters used by Washington in his counting house; Martha Washington's teaspoon and money purse, the wedding ring of Washington's mother, Washington's gold seal and, among other articles, the two silver cups used by Washington throughout the Revolutionary war.

Among the relics collected by the present Washington are many busts and statues, a magnificent hand-wrought solid silver head of General Washington, the first bronze bust cast from the model of Washington's head and shoulders by Houdon, and, most important than anything else, two portraits, one of which is the only known portrait of Washington's mother, the other being a hitherto unknown portrait of Washington by Rembrandt Peete, both of which have been examined and authenticated by competent authorities.

The collection also contains some exceedingly remarkable papers and letters on the formation of the Constitution of the United States. The proceedings of the Philadelphia convention of 1787 were secret and all its papers except its journals were burned; most of the members destroyed their names and it happened that printed or written material regarding the work of the constitutional convention is exceedingly rare.

While the debates were in progress two drafts of a proposed constitution were printed secretly for the use of the members, and only three or four of these are known to exist. One of these is in this collection—having letters and documents by Mason, Richard Henry Lee, Edmund Randolph and Edward Rutledge, which set forth the objection to the ratification of the constitution which were held by those members who were opposed, as well as by Clinton of New York and Gerry of Massachusetts.

Another extremely important item is the original unpublished journal of the convention, which was kept by James McHenry, a delegate from Maryland. The existence of this journal has been entirely unknown to collectors; indeed it was not supposed that there was any journal of the convention except that kept by Madison.

"COUSIN LUCY" WAS A SURE-ENOUGH NOVELTY

The Saturday Night Bill at the Lavering Came Across With the Laughing Gas.

With no plot at all, to speak of, and lines that are certainly superior to any other, the distinct and fetching novelty of seeing an apparently handsome woman turned into a certain good looking man, and vice versa, right on the stage and before the bulging eyes of a large audience, made the farce-comedy at the Lavering last Saturday night a howling success—or words to that effect.

The play was evidently constructed for, and about, Mr. Julian Ellings. The noted comedian of femininity, and the liberal spaces left in structure for that artist, in the title role of "Cousin Lucy," were filled amazingly well by the "wit" and Jane Oakley as "Queenie," claimant for widow's honors and emoluments, were both real comedians and added greatly to the amusement of the audience.

There were a bunch of "Angels" who, whenever one might say of their personal charms, were certainly displayed a variety of new and captivating gowns—both long and short! This with some rather attractive songs, with and without, and a really charming and novel solo dance by Miss Waldron, made up an evening's entertainment for which Mr. Lavering's patrons should be, and no doubt are, duly grateful.

BAKING CONTEST TO BE HELD SATURDAY

Every Housewife Urged To Send In Small Loaf of Bread—Rural Clubs In Charge of Affair.

On the last day of Home Products Week Saturday, April 21, there will be a bread baking contest at Peterson's Hardware store under the direction of the Rural Federated clubs. Every housewife in the community, who makes bread, is urged to send in a small loaf, the only condition being that it must be made of Idaho flour. Miss McMullan, in charge of the cooking in the domestic science department of the high school, has said that she will judge the bread.

The Twin Falls Milling & Elevator company has offered three prizes as follows: First, five sacks of Idaho flour; second, three sacks of Idaho flour; third, one sack of Idaho flour.

Those entering the contest are asked to have their bread at the store not later than 3 p. m. and also have wrapped in the loaf a sealed envelope containing name and address. The envelope will be numbered and corresponding numbers to be placed upon the loaves.

April Allotment at Old Price After May 1st, All Cars New Price

Last Chance for You to Own a "World's Non-Stop Record Champion Car" at the Old Price

Constant rise in cost of steel and other raw materials is forcing up the price of the Maxwell Car, because the Maxwell Company has refused to cheapen by a single penny anything that goes into the making of the "world's non-stop record champion car."

The factory has agreed to let us have our April allotment cars (ordered in March) at the old price; that is why we can give you for a few days more the biggest bargain in a real automobile ever offered in the history of the automobile industry.

We can give YOU from now until May 1st to own this world's champion car at the old price.

After May 1st Identically the Same Car—But at the New Advanced Price

- Not a particle of difference in the car itself,
- the same model and design in every detail,
- the same super-product of the best automobile experience, the finest engineering skill and craftsmanship, backed by one of the largest factories in the world,
- the same speed of five-passenger, roomy, comfortable, easy-riding, beautiful automobile,
- the same famous record-making Maxwell motor,
- the same powerful motor that "laughs at hills,"
- the same Maxwell car that by its many records of 150,000 miles actual running (which equals 20 years' regular use) has earned for itself everywhere the proud title, "The World's Greatest Motor Car Value."

A Car of Endurance, Economy and Amazing Mileage Per Gallon of Gas

For 22,022 miles—for 44 days and nights—Maxwell car ran without once stopping the motor.

There is the world's non-stop record for endurance, as testified by the American Automobile Association.

Monthly Expenses \$8.19

For 9,700 miles Mrs. Miriam Sooley, Professor at the Oregon Agricultural College, drove her Maxwell on a total expense account, including gas, oil and repairs, of 1 3/4 cents per mile, making an average monthly running expense of \$8.19.

There's a record expense performance—often lowered by hundreds of Maxwell owners every month.

When You Buy a Maxwell You Buy a Real Car

You don't have to figure up another two or three hundred dollars on "extras" when you buy a Maxwell car.

You get what you pay for and what you are entitled to—a thoroughly up-to-date automobile, complete in every respect.

You know the whole story now—the story of the increased price next month and the story of your last chance to buy at \$835.

If you buy in May you'll get the same car exactly. BUT the price will be \$665.

TODAY the Maxwell is \$635.

The difference is the premium for your prompt action.

BUHL GERMAN'S LINE UP FOR UNCLE SAM

Gathering At Steeler Home Occasion For Expression of Devotion to the United States.

At a social gathering at the home of Mr. and Mrs. Don Sheeler southeast of Buhl last Sunday, at which the majority were of German descent, there was practically unanimous expression of loyalty to the flag and the president in the present controversy with Germany, says the Buhl Pioneer. The entertainment was in the nature of a birthday surprise party for Mr. Sheeler, it being his 62nd birthday anniversary. As the noon hour drew near automobiles, Fords, buggies, wagons, etc., could be seen winding their way to the Sheeler home. To say that Mr. Sheeler was surprised is stating it mildly, but Dan is always equal to any occasion, and a more gracious host and hostess never entertained. The dinner was one of those old-fashioned farmers' rail dinners, the tables being loaded with good things to eat.

The afternoon was pleasantly spent by the older folks in conversation, while the children enjoyed themselves about the lawn and farm-in-play—it was a day long to be remembered by those present, and they departed, wishing Mr. Sheeler and his delightful wife many more such enjoyable affairs. Those present were: Mr. and Mrs. William Hagler and family; Mr. and Mrs. Henry Lewis and family; Mr. and Mrs. Fred Hagler and family; Mr. and Mrs. O. H. Hagler and family; Mr. and Mrs. Fred Weltscher and family; Mr. and Mrs. D. D. Doll, Mrs. William Spence, Miss Doll, Mr. and Mrs. Jake Moyer and family, Ito Howard, Fred Howard, George Childs and family, Robert Turpin and family, Senator S. P. Atherton and family, a total of forty-two guests. Mr. Lewis was present with his camera and took several group pictures.

GREISHABER SAYS CASE MISREPRESENTED

Declares That He Did Not Abuse The Flag and Is Ready To Fight For Uncle Sam In Regulars.

Henry Greishaber of Buhl in speaking to a Times reporter yesterday said that the recent "incident" in Buhl in which he got into an altercation with some of the members of Company K a couple of weeks ago, was the result of misrepresentation of what he said, and that he had not reflected on the United States, its army or its cause. He says that he is willing to go to war if called upon, but prefers to join the regular service rather than the national guard, and that it was a misrepresentation of the last statement that caused the trouble, which, he says, was not as serious as represented by the Buhl press.

BRAZILIAN YELLOW FEVER SCARE FLEW GOODNESS

(United Press) RIO DE JANEIRO, April 17.—Several exports from the Federal Health department were rushed to Campos, a city in this state to investigate reports of yellow fever. After several newspapers had "thrown a scare" into this city over the supposed proximity of a dread plague, the government doctors reported that the cause of yellow jaundice had caused the fright.

GLYCERINE AND BARK

The simple mixture of buckthorn bark, glycerine, etc., known as Adler-ka, antonizes Twin Falls people. Because Adler-ka acts on BOTH lower and upper bowels, ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. It removes such surprising "toil" matter that a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach troubles. The INSTANT, easy action of Adler-ka

Shall American Nation Devote Itself to Growth Along Materialistic Lines?

By MAJ. LOUIS L. SEAMAN of New York

Our nation is now entering the most critical period of its history. Many questions are presenting themselves for correct solution, upon which depend our destiny. The American people must determine along what lines the development of the nation will take place and what shall be its ultimate goal. Shall our people devote their energy to the development of commercialism and materialism at the expense of those things that appertain to the development of the soul, or shall it subordinate itself to self-interests? The support of patriotism will develop those spiritual qualities which make for the betterment of individual and, therefore, of national character. It is the consensus of opinion of the serious observers of our institutions that the great tendency of our people today is to make the amassing of wealth and the enjoyment of pleasure their chief goal. This tendency is so strong as to be alarming. Its effect is to benumb the spirit of patriotism and to paralyze the moral and spiritual qualities of our people.

If this country is to meet and solve the great problems which confront us and fulfill our destiny in the history of the world, there must be a universal revival of patriotism and the adoption of a fixed resolve on our part to school ourselves in those civic virtues and sound principles of citizenship, without which our political institutions will have no permanent foundation. The present situation is now. In the past the great issues we have faced have been more provincial, relating to our own country and its development, and we have solved them. But now we are a world power and we face problems new to our diplomacy. They appertain to our foreign relations.

In a democracy like ours, where leadership is determined by public opinion as expressed by the majority of our people, it is essential that the people themselves master the facts which shed light on these problems, in order that they may intelligently provide wise national leaders. This being so, a systematic and thorough study of our foreign affairs and the history of foreign countries is prerequisite for a correct solution of the present-day issues. Knowledge of history is necessary, because the great war has its roots in the remote past. There can be no conviction without knowledge, and knowledge will entail upon our people close application and study. In order to acquire knowledge more people must turn their attention seriously to the study of civic affairs and the performance of civic duties. The situation calls for self-sacrifice, self-control, and the development of a keener sense of duty to the nation.

HENS CLASSED WITH THE HYTHENATERS BY BUCKEYES
WARREN, O., April 17.—If hens are kept in this city, they must be hand cuffed. This was the edict given by the police chief, who said that all chickens (feathered) running loose will be confiscated. It is said that one industrious hen can do more damage to the food supply of the nation than an ordinary ruppin if permitted to devote her misdirected energies to a garden which is planted a la Vrooman for the preservation of the people through the growth and conservation of the garden.

DAIRY

MILK SUBSTITUTE FOR CALF

Massachusetts Experiment Station Recommends Feeding Mixture Costing Three Cents Poun.

Nothing is better than milk on which to raise thrifty, growing calves, whether they are intended for the dairy, the feed lot or the show ring. The ordinary farmer often finds milk too expensive as a calf feed. The following substitute is recommended by the Massachusetts Experiment station: Twenty-two pounds ground oats, ten pounds linseed meal, five pounds middlings, 11 pounds fine corn meal, 1 1/2 pounds fine blood meal, one-half pound salt. Total cost, three cents a pound.

Prepare by adding one-half pound of meal to two quarts of boiling water for each feed. At each feeding moisten the meal first with a little cold water to prevent it forming lumps, and then pour on the boiling water, and stir well. When this is cooled down to the temperature of milk fresh drawn from the cow it is ready to feed.

It is better to let the calf have whole milk for about a week, then gradually introduce a little of the milk substitute for ten days or two weeks, when you can cut out the milk entirely. As soon as the calf will eat, let it have hay and a little of the meal dry, together with fresh water. Always have the calf meal mixture well warmed when fed. Have the buckets clean and do not overfeed. A young calf will usually begin to eat hay at about three weeks old.

COW NEEDS RESTING PERIOD

Some Animals Maintain Good Milk Flow Right Up to Drying Time Rest Is Important.

The dairying department of the New Jersey agricultural experiment station recommends that the dairy farmer should remember to give his cows a rest of six weeks or more before they freshen. Some cows may maintain a good flow of milk right up to calving time, and in such cases the dairymen hesitates to dry them off for a rest period of several weeks. This should be done, however, and the cow well fed so that she will be in good flesh when she freshens.

The work of producing a heavy yield of milk for ten months or a year is a severe drain upon the cow's strength and vitality, and a period of rest should be given her to reconstitute and prepare for another lactation period. If she continues her milking period until she is in flesh, she should be given a longer dry period and more liberally fed. The loss of what milk the cow might produce during the dry period will be made up several times over by an increased yield during the following lactation period. A good rest and liberal feeding preceding the date of calving helps largely to bring about a good yield during the following year.

RECORD OF LEADING BREEDS

Jersey, Guernsey, Ayrshire and Holstein-Friesian Have 15,155 Animals Registered.

The following are the records of the four leading breeds of dairy cattle for the last year:

Jersey—4,146 cows registered; average yield, 7,810 pounds; average butterfat, 4.15 per cent; average per cent, 6.55.

Guernsey—6,081 cows registered;

Ayrshire—2,183 cows registered; average yield, 6,447 pounds; average butterfat, 5.20 pounds; average per cent, 5.94.

Holstein-Friesian—2,742 cows registered; average yield, 13,919 pounds; average butterfat, 6.04 pounds; average per cent, 5.4.

MILK AND BUTTERFAT FEEDS

Utilize Every Possible Morsel of Food—Teeth and Stomach Wear Out—First in Cows.

Every possible morsel of food fed to dairy cows should be utilized for the production of milk and butterfat. The teeth and the stomach are the two organs of a cow which wear out first, especially the former. This is caused in great part by the cow having to eat hard dry unground grain. There is an old saying: "No chain is stronger than its weakest link." With the dairy cow also this holds true. When one organ of digestion wears out, then the whole cow is useless.

A good dairy cow should be kept as long as possible, and if she is properly fed and cared for, she will be useful for about fifteen years. Some give a nice mess of milk at the age of twenty years.

ROAD BUILDING

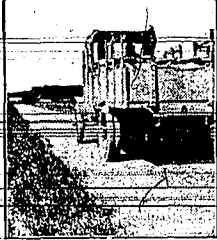

KEEPING UP IMPROVED ROADS

Ample Provision for Maintenance Should Be Part of Highway System—Task Often Neglected.

(From the United States Department of Agriculture.)

Keeping good roads is the most important task in connection with an improved highway system, once the construction work is completed. In the United States in the past this task usually has been neglected, the improved roads in many instances being allowed to deteriorate until they became almost impassable, when they were at heavy cost rebuilt. That states and counties are now coming to recognize the need of careful and thoroughgoing maintenance, however, is indicated by studies of county road systems in different sections of the country recently made by the office of public roads and rural engineering of the department.

While some of the eight counties in which intensive studies were made were found to have no provisions for maintenance—and others have provisions to pay for upkeep of the roads out of bond issues funds, thus creating a debt that would outlive the temporary improvement for many years, two counties in which highway states were found in which maintenance conditions

Automobile Truck Traffic on County Road After Improvement, Franklin County, New York.

were practically all that could be desired. In Mississippi, it was found; there is a state law requiring that a special annual tax of at least one mill be levied for the upkeep of all roads constructed by means of bond issues, the fund to be kept separate from all other funds to be used for maintenance only. Instead of deterioration taking place on the roads of some of the counties in other states on which examinations were made, it was found that in Louisiana county, Mississippi, roads built several years ago and maintained from the special fund have actually improved since their completion.

The county roads of Franklin county, New York, it was found, are maintained with a contribution of 50 per cent by the state and under indirect state supervision. As a result of this system, the roads have been kept up to their condition on completion. While the "road tax" in other states was on the whole not satisfactory in the counties of the other states in which studies were made, this condition since has been remedied in Virginia by the passage of a state law providing that an annual tax of not less than three per cent of the amount of bonds issued shall be levied to provide a maintenance fund for bond-built roads.

The existence of a regulation tending to lessen damage to roads and so called "road tax" in other states was revealed by the studies in Spotsylvania county, Virginia, where the county supervisors had passed an ordinance placing a relatively low limit on loads that may be hauled in wagons fitted with narrow tires and a considerably higher limit on loads for wide-tired wagons. As a result, most of the wagons using the roads of the county have been fitted with tires ranging from three to six inches wide.

ROAD CONSTRUCTION IS SLOW

Estimated That United States Spending About \$250,000,000 Annually on Improvements.

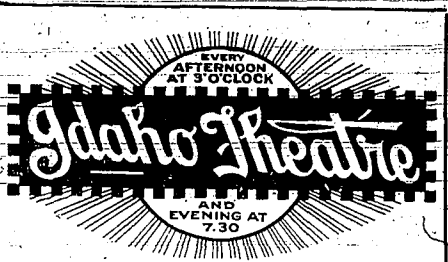

Road construction is bound to be slow because of its great cost. Figures show that the average cost of sand-clay roads in the United States is \$700 a mile, of gravel roads \$2,000, of macadam \$5,000 and of asphalt macadam \$10,000 a mile. It has been estimated that the states are spending about \$250,000,000 a year on roads, and the expenditure is increasing every year.

Europe has a great advantage over us because the old countries have handed down to them the best kinds of roads for centuries.

Plan Comfort.
When the heat of summer persists, it must be provided for them in water, via, warmth and sunshine, animal and green food, in addition to their grain ration.

Improve Roadside.
Has any farmer made to plant the road side in your vicinity with trees or shrubs?

Money for Good Roads.
The states are now spending \$250,000,000 a year on good roads.

THE TWIN FALLS TIMES

Published Tuesdays and Thursdays by the TIMES PRINTING & PUBLISHING COMPANY, Ltd.

\$2.00 PER YEAR IN ADVANCE

Notice-Discontinuance: Many subscribers protest not to have their subscriptions interrupted in case they fail to remit before expiration.

Entered at the Twin Falls postoffice as second class matter under a two-week publication, October 15, 1916.

For once and finally, Marie Henry Waterson and Teddy Roosevelt are shouting "on to Berlin" in concert.

All reports from the great battle line in northern France indicate a weakening of the German resistance and a corresponding increase in our effectiveness.

Without reference to details of the War Department plan, the General Staff plan, in any other plan, the American people are becoming more generally and more deeply convinced each day that military and naval service and training is the only way.

It does not seem possible that a United States Congressman will, in the present emergency, put his own political fortunes before the public necessity.

Most truly, the focus without that binds hearts together. The countless patriots who should be proud to see the ones we love in uniform.

Thirty young men have joined the regular army here since war became inevitable. Enlistments are not only being made but they are being made.

It is surprising how hard the good men will go to prevent the money from getting into the hands of the speculators.

The United States need more patriots as badly as the best have all decided that they are going to be in the front ranks of industry and agriculture.

Good Salaries Paid to Competent Workmen Applications Made to Civil Service Commission.

WASHINGTON-The United States Civil Service Commission has been authorized to supply the needs of the Navy Department for the recruitment of officers and men.

Not merely do you have patriots thrills when you buy government bonds, but it is sure to be worth more money than any other investment.

The park board statement, however, about that \$5,750,000 appropriation, recently made, in the name of that good old hymn, "There shall be showers of blessing, let some droppings fall on me."

The British seem to have neglected to give their usual 30 days notice with citations in the country papers before starting their weekly offensive.

The Edgewater exhibition plant explosion was probably an accident and providential occurrence that came off as planned.

THE ENEMY WITHIN.

(Written for the Times) In war times there are only two kinds of citizens—Patriots and Traitors!

"Don't think that you can sidestep your entrance into one or the other of these ranks. In war you are either for or against—there is no middle ground." Exchange.

Americans will never shrink from honest, open war. The spies, who make our hearts to sink.

Those human-cannibals, black as ink. Who at our vitals gnaw.

We fear no enemy who dares To meet us face to face. But they who cover us with shame. May sometime take us unaware, And plunge us in disgrace.

Our Country's ever-growing fame On unity depends. But they who cover us with shame. Are those deceitful ones, who claim To be our bosom-friends.

A wolf who wears a lamblike fleece. Morally offending. So the traitor who never ceases. In time of war to cheat for peace. To gain their fishy ends.

Mark well, the traitors who have For Peace and freedom howled. Who wish to see the Nation crawl. And lick the hand that would enthrall. Like some well-beaten cur.

Be wary of those men of peace. And their detestable ends. Beware of the wolves with lamblike faces. Who are waiting, among the peace. With their traitorous and subtle.

In war, our Nation should unite. It needs us all to stand. And those who fail to do their duty. Their names, as enemies, we will. Be recorded in shame.

United, we can stand supreme. Divided, we may fall. But patriots, they find and believe. That to do duty has no alternative.

Most truly, the focus without that binds hearts together. The countless patriots who should be proud to see the ones we love in uniform.

The enemy within. Mr. C. Jones.

THIRTY BOYS JOIN REGULAR ARMY HERE Many Take Regular Service From This City and From Surrounding Towns.

Thirty young men have joined the regular army here since war became inevitable. Enlistments are not only being made but they are being made.

It is surprising how hard the good men will go to prevent the money from getting into the hands of the speculators.

The United States need more patriots as badly as the best have all decided that they are going to be in the front ranks of industry and agriculture.

Good Salaries Paid to Competent Workmen Applications Made to Civil Service Commission.

WASHINGTON-The United States Civil Service Commission has been authorized to supply the needs of the Navy Department for the recruitment of officers and men.

Not merely do you have patriots thrills when you buy government bonds, but it is sure to be worth more money than any other investment.

The park board statement, however, about that \$5,750,000 appropriation, recently made, in the name of that good old hymn, "There shall be showers of blessing, let some droppings fall on me."

The British seem to have neglected to give their usual 30 days notice with citations in the country papers before starting their weekly offensive.

The Edgewater exhibition plant explosion was probably an accident and providential occurrence that came off as planned.

This Is Free to You-- \$500.00 In Gold Coin ---Nomination Time

Talk about hard times—these is no such a condition in existence, especially in Twin Falls. The Twin Falls Times is giving away upwards of \$2000 in free prizes. \$500 in gold or a Maxwell car is the first prize, then comes two \$350.00 pianos. This campaign is open to any person residing in the circulation territory of the Twin Falls Times.

There is an opportunity knocking at your door, will you please call up 48 and have a representative call on you and explain the campaign. If you do not want to enter the campaign nominate one of your friends or relatives and if they should be the winner the Times will pay you \$10.00 for your trouble. Call 28 today.

Table with 3 columns: Twin Falls Nominations, Hansen Nominations, and other names with associated values.

Nomination Blank

Use this blank in making nominations. Fill out and bring or send to Campaign Manager, care of this paper. Everyone wins, there are no losers.

CITY PHARMACY

Shoshone Street North TWIN FALLS

Film-Gambling Den is Copied After Real One. After constructing a gambling den for his new film drama, "The New York Peacock," in which Valentin Surtani stars, at the Idaho theatre Wednesday and Thursday, William Fox recruited New York's White Way of its gambling element to populate the great scene.

PERSONALS

Red Cross at Club Rooms—The Red Cross will have headquarters at the Commercial Club rooms and the secretary will be there from 2 to 4 every afternoon.

Bybee Chosen Engineer—County Surveyor James A. Bybee was chosen as engineer for the lease for the Murtagh irrigation district recently formed.

Many Are Employed—Thirty-five farm hands have been put out by the city employment agency since April 1. As soon as the weather clears it is thought that business will pick up with more.

Canal Bank Frozen—While cutting into the bank of one of the canals to fix a headgate Saturday was discovered that there was a layer of frost on ground two and a half feet thick in the bank. This will delay work considerably.

Building Permits—William G. Reed yesterday received a permit for the construction of a building to be used as a garage occupied by the Vaffie cafe. Good Bond will build a two room house on Lot "A" Bartlett block. Work is to be put up a house on lot 4, block 27.

Salmon River Report—We look to follow the reservoir report for week ending April 15, 1917, as follows: Gauge height, 10 feet; rise, 22 feet—available storage, 23,500 acre feet; gain during week, 5,400 acre feet.

Junior Entertainment Postponed—The committee in charge of the junior department of the Twentieth Century club wish to announce that the entertainment planned for Tuesday evening, April 17, has been indefinitely postponed.

Found Not Insane—Joseph H. Robinson was tried for insanity Saturday before Justice Jones. The jury returned a verdict that he was sane. The official Robinson had some trouble about a line fence next to his land near Crystal Springs and is said to have threatened bodily harm to S. T. Hamilton over the difficulty.

Committee Appoints Chairman—The committee of the organization for the preparation in this county announces the following appointments of committee chairman: A. L. Swain, irrigation; Charles H. Thomas, agriculture; G. R. Kirkman, labor; Mrs. John E. White, canning and food conservation. Each chairman appoints other committee members. The number of committees will be increased as occasion demands.

Elder Visits City—Elder J. W. Norwood, the president of the Southern Idaho conference of Seventh Day Adventists, was a visitor in the city yesterday. He came to visit the ministers who have been conducting the evangelistic efforts at the Isis theatre. Saturday he speaks to the large Sunday school in the Isis theatre, where the regular Sabbath services are held. He expressed himself as being very much pleased with the result of the meetings.

Fined For Pell Larceny—Frank Wilson and Alvin (Uncle) entered plans of guilty yesterday to the charge of stealing six pairs of trousers and six yards of silk from the United Stores company Friday evening. They picked up the goods and made away with them and all the articles were later found by the police in a suit case. Frank Sanchez, who was arrested with them, admitted a part of the guilty and being tried today, was found guilty. The others were fined \$25 each, while he got \$50.

The Arabian Nights—Such is the somewhat misleading title of a comedy-drama which will begin at the Parish hall on Tuesday evening. The play will be very bright and exciting and will be put on by an exceptionally excellent company of Twin Falls amateurs under the management of Mr. W. M. Olson, which is a guaranty of success. Proceeds toward payment for the Parish hall scenery and stage fixtures.

A Patriotic Ball—Mrs. W. W. Humphrey, department president of the ladies of the G. A. R., informs the members of the department, ladies of the G. A. R., will give a patriotic ball Monday evening, April 23, in Colton hall. Good music, refreshments, and a reception committee will assist all who come to spend a pleasant social evening. Tickets \$1.00. A good percentage of the proceeds will be sent to Company D. The balance used for patriotic work.

Infly Development in Idaho—Such is the subject that will be discussed, with practical purposes toward the promotion, over, or after the menu at the Hagerman Cafe, on April 22, at the Moose hall. A short programme will be given with refreshments served afterwards. No admission. Free will welcome. The National and International trend is towards public ownership, and these subjects may be handled in the near future by the Hagerman Cafe. The last subject which was given at the above hall was of "Unemployment" and showed careful preparation and good presentation on the part of Prof. Mitchell.

Store Robbed Twice—C. F. Janck's store on Eighth avenue east, was robbed Friday night, by a window being opened and lot of candy taken. This is the second time that the store has been robbed recently, a couple of boys being caught the first time. The police are on the trail of the macrocrats and they will be punished if caught.

Two Sales Reported—D. B. Moore, this week sold to George Deah block 10 in the Moore addition to Twin Falls for \$3,000; William Bohann sold his farm four and a half miles southeast of Twin Falls to Olof Nelson for \$1,000. The latter will be thankful to all real estate dealers reporting sales, with or without the name of the real estate firm.

Box Line Sull Ahead—An item to the effect that Rex E. Luce, secretary of Colney H. B. Luce, who joined the aviation corps recently, had passed the physical examination of anyone joining at the recruiting station here, was inadvertently misplaced during the segregation of copy a couple of weeks ago after it had been written, and failed to appear. Recruiting Officer Steele said yesterday that Rex still held the best place physically among those examined since the war started.

Our Circulation Campaign—The public is now pretty well aware that Rex Foster Circulation Company has under way a "profit-sharing campaign," for securing new subscribers to the Times. As well as the payment of arrears on the terms of this being the case, it gives us pleasure to copy from the Preamble, Idaho, "Citizens" which is a splendid campaign by the same company has just been closed and the prizes awarded; the following voluntary statement by the editor of that paper:

"As we said before we again reiterate, we are perfectly satisfied with the management and result of the contest. We are sure that it was conducted more satisfactorily than any contest that has been pulled off in this county heretofore."

LOCAL BREVITIES

Phone 25—Major E. R. Reed was in the city Sunday.

Miss Irene Woods was in the city from Durley Sunday.

Miss Stella Perrine visited in Durley Monday.

County Superintendent Britton visited in Durley Monday.

Mrs. H. C. VanAnden and daughter Gail VanAnden spent the week end in Boise with relatives.

The Royal Neighbors of America will hold their next regular meeting on April 20, 8 p. m. All visiting members welcome.

Mr. Gordon R. Smith, cashier of the National Bank of Kimberly, was in the city yesterday on business.

Still the young men call at the Times office to see a collection of articles for the week.

Mr. R. E. Shepard of the north side canal company, with Mrs. Shepard and a party of ladies, came to the city Saturday to attend the play to the favoring.

Miss Ethel Kirk of New York, Miss Stella Perrine, Miss Jessie Warrington, Miss Geneva Stafford and Miss Anna L. Scott took a supper at the over's retreat at Durley lakes, last Wednesday. They enjoyed the supper and the accompanying rain much.

ANOTHER GERMAN PLEA FOR PEACE SOON

CHRISTIANIA, April 17.—Germany will shortly issue another note to neutral states, stating terms on which she will consider peace negotiations, according to a rumor circulating in diplomatic circles here. This report comes from sources of excellent standing. It is not believed that she will make any concessions differing from her Germany offer. It is apparent that Germany is making every effort to negotiate a separate peace with Russia.

A TWIN FALLS MUSICIAN HONORED IN NEW YORK

Miss Sara Higgins, of this city, makes a hit in the Select Musical Circles of the Metropolis.

The expanded item regarding Miss Higgins' appearance in the select musical circles of New York is in the "Musical Courier," perhaps the foremost publication of its kind in the United States. The devoted success of Miss H. who is herself a pupil of the noted teacher, Springfield, will be pleasing to her many friends and admirers here. "George B. Burlington" invited a company to an evening musical at the home of Mr. and Mrs. Brooks Morris, 115 West 55th street, March 19. Boss Dillard and Brooks Morris, both violin pupils of Springfield, of whom so much is heard nowadays, performed with much credit. Velva Perry, a southern girl, and Mrs. Morris are pupils at the Soangle studio. Mrs. Morris sings with naturalness and with a pleasing personality. Edith Samson, of Denver, played modern piano pieces, and the Collo was played effectively by Sarah Higgins, of Twin Falls, Idaho. An interesting item of the evening was the inspection of various garments, ornaments and curios brought by Mrs. Burlington from the Philippine Islands, at which place she lived some years. Mrs. Burlington has assisted the present writer in critical articles for the "Musical Courier" during the present season.

IDAHO COUNCIL OF WAR IS CREATED

Two Divisions For the State Will Help Fit Idaho—Barton E. Morse Made Examining Agent.

MOISE—The Idaho council of defense has been created at the request of Newton D. Baker, secretary of war, by Governor Alexander, who appointed as its members Harry L. Day, Wallace A. W. Laird, Potlatch, R. H. Alderson, Lewiston; E. C. Parker, Cottonwood; J. P. Albright, Coeur d'Alene; Morris Sommers, Weiser; R. M. Davidson, Dolac; A. B. Stevenson, Pocatello; Nathan Hicks, Richburg; Frank B. Goodwin, Gooding; W. A. Hich, Ampturper.

The northern members of the council are asked by the governor to meet at Lewiston, April 21, at 2 p. m., and those of the southern portion at Pocatello on the same date.

"It will be the duty," says Governor Alexander, "of the council of defense to give every assistance possible to the national and state authorities in preparing and fitting Idaho to its part in the war; to make such suggestions as may be deemed advisable and expedient for mobilization of resources, protection of property and in general to do any and all things within its power to the end that Idaho may not be found wanting."

Director Alfred of the state farm bureau announces the appointment of J. P. Albright, Coeur d'Alene, as northern Idaho deputy for the bureau, with headquarters at Post Falls. He is to take up his duties April 20.

The governor appointed as members of the new state board of examiners of architects: J. B. Corbett, Moscow; P. C. Hummel, Boise; J. B. Dwyer, Pocatello; George Williams, Coeur d'Alene; and Burton E. Morse of Twin Falls.

FRUIT PROSPECTS BEST IN HISTORY

Many Believe That Late Season Will Mean Bumper Crops in All the Orchards of This County.

That the fruit crop will be better than usual in southern Idaho seems to be the consensus of opinion here. The late season and the presence of frost in the ground has kept the trees from blooming and it is believed that when the blossoms come it will be quite late for the frost to hurt them. The fact that there was practically no frost last year, will probably make the trees bear more heavily than ever this year. Unless heavy frosts come after the snow today, it is thought that the best spring will open at once with the ground in good condition. In view of the condition in which canal banks have been left by the long winter, the extra moisture at this time is regarded as fortunate by many.

TYPOGRAPHICAL ERROR In the last issue of the Times (Sunday) our campaign story stated fifty seven prizes was to be given. The statement should have read more and valuable prizes.

Marguerite Clark HAS ARRIVED AND WILL BE SEEN TONIGHT ONLY IN "The Fortunes of Fifi" MRS. VERNON CASTLE Also appears in the nation-wide patriotic film, "PATRIA" COME EARLY TO SEE THIS BIG DOUBLE PROGRAMME

SANGER REALTY & INVESTMENT COMPANY Farm Loans FARM LANDS, CITY PROPERTY, INSURANCE AND RENTALS A Few Real Bargains in Farms: LOWEST RATES AND BEST TERMS: Do not place your loan until you have seen us. We make the most liberal loans at the lowest rates.

Meeting Announcement—A prominent Twin Falls attorney will deliver an address on the subject of "Vicious Boundary Lines" next Sunday at 8 o'clock in the A. P. hall, at the Moose hall. A short programme will be given with refreshments served afterwards. No admission. Free will welcome. The National and International trend is towards public ownership, and these subjects may be handled in the near future by the Hagerman Cafe. The last subject which was given at the above hall was of "Unemployment" and showed careful preparation and good presentation on the part of Prof. Mitchell.

BULL MOOSERS IN MEETING IN ST. LOUIS St. Louis, April 12.—National Progressive Party leaders gathered here today to make under the Moore banner a campaign for 1920. Neither Theodore Roosevelt nor G. W. Perkins was invited. Albert D. Norton, who has been a member of many all parties and an ardent Moore since 1912, is the leading spirit of the convention. The plan is to weld the liberal elements of the democratic, republican, socialist, labor, prohibition and women's parties in a "national" liberty party. Among those interested in the party are Matthew Flinn of Boston, formerly a member of the Moose National committee; J. A. H. Hopkins of New Jersey; John M. G. of Louisiana; and others. It is hoped that Colby, Victor Burdick, and other die western leaders will take an active part in the convention. A committee of five has been named which had been in session here nearly a week will meet with the executive committee of the party.

Classy Suit of French Serge

The prophet who circulated the report that suits would not be in demand this spring is without honor in his own country or anywhere else. But, there nobody paid him any attention or else each woman decided to act independently in this matter and to have a new spring suit, whether anybody else wore one or not. A whole host of prophets might shout in protest French, that suits are not to be worn, without influencing the loyalty of American women to the "tailor-made." Intuition convinces her that it suits her type and it is always the majority of her market.

One of the new serge models is shown here and its fine lines and "class" flash themselves into the mind at a glance. The jacket is cut to the most popular length, is belted at the back and front and smartly finished with fancy buttons. The collar may be buttoned close to the neck, but is shown open, with adjustable over-collar in white. An attractive feature of this coat appears in the pockets which are made with extension laps. The sleeves flare at the cuffs, where one of the novel buttons is posed. It is as important here as the dot over an *i*.

The skirt is plain, gathered in full

at the back and has a loose belt at the waist. It is a little longer than the skirts of the past two seasons, reaching about two inches below the tops of the shoes.

Just as pictured this suit is of French serge in navy blue and after all is said there is nothing better. But it has been developed in other colors of serge and is successful in any of them. The jacket is lined with pearl-de-cygne which has become so well established that its name deserves an English translation.

Julia Tomlin

Washing White Silk.
To wash white silk or crepe blouse, white silk gloves, etc., so they will not turn yellow, wash them in just tepid water and use white soap; rinse well and after two waters add a mite of bluing to last rinse water; squeeze out water and roll up silk lightly in a soft towel, but allow the crepe to dry entirely before pressing. See that you use moderately hot iron, as crepe is easily scorched. The silk blouse may be pressed upon the wrong side before it is quite dry.

DANCING ENDORSED FOR NERVOUS AND SLOTTEN

(United Press)
COLUMBUS, April 17.—At last dancing has come into its own. For years it bore the burden of blame for a thousand and one afflictions. "Tango foot," fallen arches, loss of weight and scores of other ailments have been laid at the door of the dance.

But now comes Miss Florence A. Myer, head of the department of physical education at Ohio state university, who is an advocate of the dance, especially the esthetic dance, which is an inherent cure she says for the nervous girl who jumps at every sound and the glaucous, carefree type of girls who are affected by nothing.

"The combination of the physical exercise and the mental stress of remembering the different steps is wonderful for the nerves," said Miss Myer. "Those who formerly started at every little sound can bear almost any shock now."

MARCH OPEN SEASON

(United Press)
LONDON, April 17.—The month of March holds a persistent jinx for European travelers, as shown by a table of royal murders, depositions and abductions following the Czar's removal.

Old Gustavus III—King of Sweden got his in March—16, 1792. Alexander II of Russia on the thirteenth of March, 1881, and George I, of Greece, on March 18, 1913. All were murdered.

Charles III, Duke of Parma also went by the murder route in March 1854.

Gustavus IV, of Sweden was deposed by his affectionate uncle, the Duke of Sudermania, March—12, 1809.

The abdication of Nicholas, of Russia and his abdication at the same time on behalf of his son, completes the list of March upheavals which prove the monarch's life in March is not a happy one.

CONGRESSMAN SEVEN DAYS

Paul G. McCorkle served as a member of congress during the closing week of the last session. His speech record was the shortest to which a man was ever elected. He succeeded the late Congressman Pinley, who served longer than any other member from South Carolina. McCorkle, who is blind, had never before sought public office. W. F. Stevenson of Charaw succeeded him in the Sixty-fifth congress.

VAST SWAMP IS RECLAIMED

German Prisoners Turn Great Waste Into One of Most Fertile Spots in Germany.

Kiel.—The "Wild Moor," a dismal swamp of more than 100 square miles in the district of Husum, Schleswig-Holstein, has been transformed into one of the most fertile spots of Northern Germany in the middle of the world war.

Two years ago several thousand war prisoners were put to work and they have since dug innumerable ditches and trenches in the swamp. The water is completely drained and dry. Last fall hundreds of tons of lime were dumped on the reclaimed land. About 40 square miles are already planted with wheat and winter rye, and the rest of the ground will be used to raise oats, barley, beans, peas, turnips and fodder for the cattle.

The land which a short while ago was practically worthless today represents a value of many million dollars.

BRIDE'S PARENTS ON HONEYMOON FOR HER

Chicago.—Miss Gladys Carpenter and Robert Matherton Krug decided to get married and did. They planned a honeymoon. Then the bride had a unique idea.

"They went out to the home of Mr. and Mrs. Newton H. Carpenter, took charge of the house, and sent the older-couple packing to California," explained Mrs. Krug, "when papa and mamma got married they didn't have time for a honeymoon, so we've sent 'em on ours. Maybe we'll do the same thing twenty-five years from now."

WAR BOOSTS SNAILS AS FOOD

French Farmers Make Tidy Fortunes Raising "Delicacy" Now Much in Demand.

Paris.—French snail farmers are making tidy fortunes out of the war. More than half the French supply of this delicacy has been cut off by the German occupation of Luxembourg, Belgium and northern France, and the market price has risen accordingly. The demand for snails also has been stimulated by the new food regulations, which classes snails with oysters as a "hors d'oeuvre" of which one may eat as much as he wishes.

As many as 500,000 first quality snails, worth \$5 to \$10 a thousand, can be reared on an acre of land. They have to be fed only once a day, preferably in the evening.

A box of 100,000 snails will consume a wagon load of cabbage in a few minutes, and the noise which they make at their repast is like nothing else in the world.

37-Year-Old Suit Dismissed. Blairtown, N. J.—An old-fashioned suit which dates back to 1890 in which Mrs. Sarah Soover charged Hattie Wilver with stealing her husband's affections has just been dismissed. The plaintiff and defendant are now grandmothers.

Twin Falls Business Directory

These firms listed below believe in advertising; and that advertising produces the volume of business which makes up for real economy and lowers the cost of doing business, and enables consistently low prices for first quality stock.

THE TIME'S HANDY GUIDE

A Tip

A man came to see our store. And to our clerk did say: "His wife would be up later. For she was on her way. He said his wife did have good taste— And gave us all her trade; That we were so attentive, And many friends had made. We said to him we realized Our store had many friends— We aim to give great values For the money each one spends. And when it comes to saving— We save you a THIRD and more. GET YOUR COAL IN EARLY SAYS DEALERS

Possibility That Storage Period May be Shortened on Account of Increased Demand.

"Owing to the increased demand for coal, I would suggest that all citizens get in their storage supply earlier than usual this year," said C. B. Chan-

nel yesterday. "Traveling men assure me that the Southern Pacific, I suppose on account of economy, has determined to use coal instead of oil in its engines and this, it is said, would consume about one sixth of the coal supply of Utah. I assume that the high price of oil was the reason why the Southern Pacific went back to coal. Beginning with the first of May there is a period, usually of three months, during which coal is bought for storage. I would advise people to lay in their supply earlier this year."

FOR SALE OR TRADE—Well improved 5-acre tract. Will take good auto in part payment. Also have practically new Studebaker buggy, and a hand-made set of harness, for sale or trade. Address P. O. Box 63, city.

Chandler Power IS Power

Chandler power is not power on paper. It is power on the hills and mountain-sides; it is power in the mud and sand.

Four years of skillful and conscientious manufacturing effort have developed and refined the Chandler motor to a point approximating perfection. Chandler owners long ago named it The Marvelous Motor, and now, more than ever before, it is the wonder Six, powerful, flexible and enduring.

On high gear and without apparent labor it pulls the hard steep grades and winding hill roads where other motors slip to second.

In crowded traffic it responds to every demand.

On open roads it answers every call for speed.

The Chandler motor is a fact-motor.

What any Chandler will do every Chandler can do.

The Chandler Company has never built a special demonstrating car.

The Chandler Company has never furnished to any Chandler dealer a special gear ratio.

Every Chandler is a demonstrator.

Chandler motor features include:

Solid Cast Aluminum Crank Case Extending From Frame to Frame

Silent Chain Drive for Motor Shafts

Bosch High Tension Magneto Ignition

No Inflation In Chandler Price

If we asked one hundred or two hundred dollars more, the Chandler would still be under priced.

Where many makers have added as much as three hundred dollars to their selling price within the year just past, the Chandler price is only one hundred dollars higher than the standard low price established more than two years ago.

There is no inflation in the Chandler price.

And if we asked you to pay hundreds more just because we thought we could get it, that would not make the car better.

HITT WRITES TO MCADOO ABOUT WAR BOND ISSUE

ACTS PROMPTLY ON REQUEST OF GOVERNOR ALEXANDER ON THE SUBJECT.

GOVERNOR URGES THAT EVERY CHILD BUY A BOND

State Bank Commissioner Asks That All Interested Write to Him so That He Can Act Promptly When Authorized to Do So.

The Times is in receipt of a communication from G. R. Hitt, state bank commissioner in which he asks that publicity be given the letter sent him by Governor Alexander, relative to the purchase of war bonds. He requests and the letter of the governor. To the General Public: The following letter addressed to me as state bank commissioner by Governor Alexander is self-explanatory. I have taken the matter up with Mr. William G. Alexander, secretary of the treasury, and if any of our citizens who desire to subscribe for some of these government war bonds will write me a letter, I will, as soon as I have the desired information from the secretary of the treasury, be pleased to advise them the necessary steps to take.

G. R. HITT, April 11, 1917. Mr. G. R. Hitt, State Bank Commissioner.

The national government is about to issue a war loan of billions of dollars which in my opinion is going to be offered at popular subscription to the people of the United States in denominations of \$5.00, \$10.00, \$20.00, \$50.00, \$100.00, \$200.00, \$500.00, \$1000.00. While this loan will be subscribed to many times over, I am very anxious that every child that has \$25.00 and every family that can spare that amount of money, shall be a subscriber to that patriotic fund.

These bonds are better than gold and the possession of one will remind the purchaser that the country has trusted to the integrity of its people for its financial and military support, and that every family that can spare that amount of money, shall be a subscriber to that patriotic fund.

Therefore, I am asking you to make the necessary arrangements and to get your child to buy a bond when this loan will be offered by popular subscription that our people, through you, will be supplied with the honor of the Nation to find that what ever amount of money is necessary to carry on this war will be furnished.

Whatever assistance the executive department can be sent I will be glad to furnish, but prompt action, through publicity and the assurance of your department that every dollar investment is equal to gold and better is recommended.

You may say that the purchase of every dollar of these bonds will be guaranteed his money back on demand, and I individually will pledge my property as a citizen of Idaho.

(Signed) M. ALEXANDER, Governor.

1916. They began by ousting Sagonoff the liberal foreign minister. Sturmer took the job, centralizing all ministerial power in himself. At the same time, the soldiers knew just what was happening. They have always known who were their real friends. They anticipated just what occurred but they thought it would not take place until after return of the soldiers from the war.

Albana precipitated things, and the revolution came sooner than expected.

Such leaders of the provisional government as Livoff (president), Gaidukoff (minister of war), Mikuloff (foreign secretary), Chingareff (Duma leader) and others are known and respected throughout Russia.

At the same time they have been determined to see a victorious Russia.

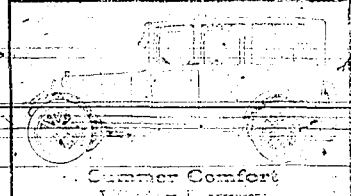

While the old regime grew an easy. It saw the ground slipping from underneath its feet. So it did everything to hamper the patriotic peoples' work. It declared the Zemstvo, the War Industry committee and other such movements 'political organizations.' The Russian bureaucrats did their best to obstruct them.

Things went from bad to worse as this situation developed. The revolutionaries tried their best to seize the reins of control, in the summer of

CITY ELECTION CONTEST WILL

(Continued From Page 1) to make sure that the bonds will be... Such being the condition of affairs, it is not surprising that the fact of the bond issue are being made. They are urging the fact that the wages of supervising the construction which will have to be paid should the bonds carry and be sold will be considered the able, and are pointing to the following provisions of the contract with Mr. Keyes to sustain their contention: For the bonds above referred to, the second party shall pay to first party... The time is short. It is of the most imperative importance that every thing possible be done and done here to that if any one of the things mentioned in this article, the production of their land, will bring about the most effective cooperation in the sale and also the construction of said water works. This let me say to the middlemen of every sort, whether they are hauling our raw materials or our raw materials and helping greatly to solve the problem of the feeding of the nation, and that every housewife who practices strict economy puts herself in the ranks of those who serve the nation. This is the time for America to correct her extravagant fault of waste and help to solve the problem of the feeding of the nation. Let every man and every woman assume the duty of careful provision and expenditure as a public duty, as a dictate of patriotism which no one can now expect over to be excused or forgiven for ignoring.

PRESIDENT ASKS PEOPLE FOR

(Continued From Page 1) To the miner to me say that he stands where the farmer does, the work of the world waits on him. If he Jackson, or falls, armies and state men are hopeless. He also is enlisted in the great service army. The manufacturers do not look to them to spend and perfect every process, and I want only to remind their employees that their service is absolutely indispensable and is counted on by every man who loves the country and its heritage. Let me suggest also that everyone who creates or cultivates a garden helps and helps greatly to solve the problem of the feeding of the nation, and that every housewife who practices strict economy puts herself in the ranks of those who serve the nation. This is the time for America to correct her extravagant fault of waste and help to solve the problem of the feeding of the nation. Let every man and every woman assume the duty of careful provision and expenditure as a public duty, as a dictate of patriotism which no one can now expect over to be excused or forgiven for ignoring.

RUSSIAN REVOLUTION HITS GERMANY HARD

United Press Writer Tells of Cause and Effect of the Fall of Czardom. (By William Philip Stimm, United Press Staff Correspondent) With British Armies Afield, April 15—Evening Petrograd recently was the heaviest blow against the German empire yet struck. This war is the most popular Russian ever waged. From the story the people put their shoulders to the wheel. But also from the start Russian bureaucracy bungled at every turn. The army started without supplies. Patriotic organizations like the Zemstvos or Municipalities Unions, stepped in and saved the situation for two years. The purely 'people's' organization has done every thing. Meanwhile the old regime grew an easy. It saw the ground slipping from underneath its feet. So it did everything to hamper the patriotic peoples' work. It declared the Zemstvo, the War Industry committee and other such movements 'political organizations.' The Russian bureaucrats did their best to obstruct them. Things went from bad to worse as this situation developed. The revolutionaries tried their best to seize the reins of control, in the summer of

WOODROW WILSON

(Signed) WOODROW WILSON Having suffered a stroke of paralysis in December, 1915, I am unable to follow my profession of engineering for a livelihood. I am running as an independent candidate for the office of city clerk. Being a college graduate, I feel that I am competent and qualified to fill this office and your support is earnestly solicited on April 24, 1917. (Signed) W. J. MINNICK.
