Prohibition Election In Idaho Willing Today

HORSES DON'T CAMEL

OATS SUPERIOR FOR HORSES

Most Satisfactory Single Grain Ration—Musty Oats Are Dangerous—Feed Roughage.

In comparison with any of the grain rations, oats are the best single grain ration for both mature horses and colts and for mules. There is no other grain so safe to feed and from which such satisfactory results are obtained. The live stock experts of Clemson college advise, however, that it is absolutely necessary that oats be clean and entirely free from mold in order to obtain best results in feeding to colts. "Musty" oats are dangerous to colts.

A safe allowance of oats for colts after weaning is as follows:
Up to one year of age, from 2 to 3 pounds daily.
From one to three years, 7 to 8 pounds daily.

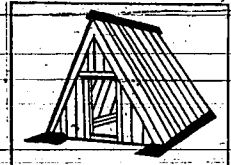

The best way to feed oats is in the whole grain, the expense of crushing not being justified unless colts suffer in feeding, in which case it is advisable to feed steamed crushed oats, which are very nourishing and appetizing. It is always wise to feed plenty of roughage to growing colts. Feeding concentrated feeds in excess is discouraged, as it is important that the digestive tract be developed by digesting it during the growing period. Unusually large amounts of grain may annoy the feeder, but this condition always disappears with maturity.

Proper feeding of colts should always be accompanied by plenty of outdoor exercise for the young animal. In no way can colts be kept so easily and surely as by liberal feeding with lack of exercise. Close confinement and the raising of good colts do not go together.

SUPPLY BROOD SOW SHELTER

Structure May Be Good Without Being Expensive—It Should Be Warm and Ventilated.

By J. A. WEAVER, Missouri College of Agriculture.
Extremes of cold and heat kill hogs more than any other class of domestic animals, and it is especially necessary to furnish good shelter for the brood sow. The shelter may be

Portable "A" Hog House.

good without being expensive, but it should be warm and ventilated, dry and so arranged that the hogs can shine as possible, may get in to keep it dry and healthy.

Sunshine is a great germ killer, but should be aided by lime sprinkled where it will help control cholera and other diseases. Don't cut off the turns from the mortgage miser by supplying wet floors, dirt, and dark quarters.

Individual hog coots and houses serve a good purpose at farrowing time.

ROUGHNESS GOOD FOR SHEEP

Animals Are Able to Consume Considerable Quantity of Stover, Straw, Hay and Silage.

Sheep are able to consume considerable roughage such as stover, straw, hay and silage.

For this reason they are able to convert coarse farm products into mutton and wool. With pasture and roughage not much grain is required to fatten the animals.

WHEN TO WEAN LITTLE PIGS

Nature Teaches Sow Best Time—Litter Suckling at Two Months is Most Profitable.

Nature has taught the sow and teaches the little pigs when they should be weaned.

Sometimes the sow suckling the litter two months old pays big for the pigs made enough more growth to pay for the extra feed.

BOTTLE-TIGHT—SHEEP BARN

Provide Proper Ventilation With Doors Opening to the South—Exercise in Sheltered Yard.

The sheep barn should be bottle tight with the proper ventilation, with big doors opening to the south. These doors should be open on pleasant days, so the sheep can exercise in a sheltered yard.

CHAIN OF PRAYER

Golden Links That Bind This Sin-Cursed Earth to God and Heaven.

"If two of you shall agree on earth as touching anything that they shall ask, it shall be done for them of my Father which is in heaven."—Matthew 18:19.

We are dwelling in the supreme hour in the history of Christianity. While this most terrible war has lifted the curtains of eternity before the gaze of earth's millions, while united prayer and endeavor have opened the doors of heaven's nations to the gospel; while the spirit of unity pervades all denominations of Christians, shall not the Christian world get together and be bound together by the golden chain of prayer, uniting our world to the throne of the eternal?

Oh, for a federation of prayer that will open the windows of heaven and shut the gates of hell and give the only permanent peace and purity to this troubled world! Is not the way to solve the mighty problems of this age the way of the Cross of Christ, and is not the entrance gate to Calvary's summit one of intercession and supplication?

Strength of Unity.
"If two of you shall agree"—Jesus gives just the smallest number possible for unity in petition. "One can chase a thousand; but two shall put ten thousand to flight." Four shall vanquish a million. What wonderful might lies in the unity of Christendom!

There are two gathered in prayer; there are always three, for Jesus is there in the midst. They will save a pre-emption, helping you to ask in his all-prevailing name, and therefore to pray in harmony with the will of God.

We know that prayer is a secret, inalienable power, exerted not by the voice or the heart, but by the direct effort of individuals, not by activities in service, but by the moving of the hand that moves the universe. How like electricity is prayer! It can do everywhere in a moment, as quick as lightning. It can be on a sickbed, helpless, able to do nothing else but pray, and yet mighty like the lightning who is only exerting his own strength. Prayer is very close to the omnipotence and omnipresence of God. Prayer, it has been said, may not change the purpose of God, but it will change his action. God does not correct a soul; he cannot give unless we are ready to receive.

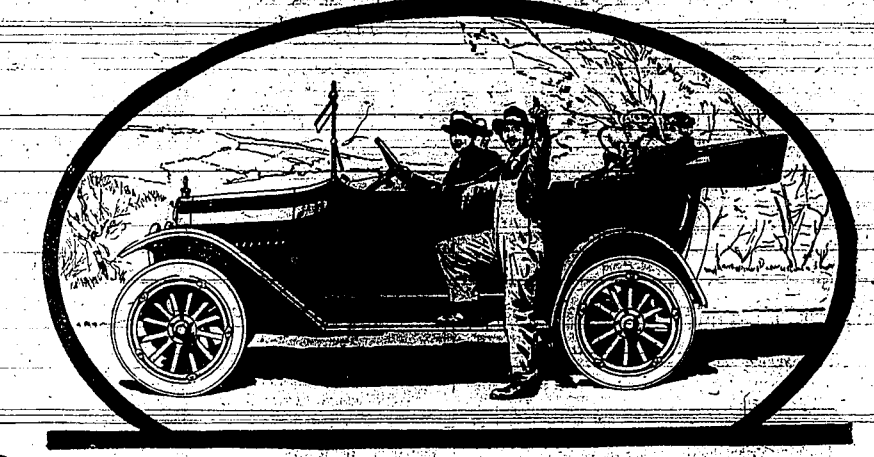

When Heaven and Earth Meet.
Prayer is the moment when heaven meets earth. It is the time when the soul of the mother touches that of his child in loving, sweet communion. In God's left hand he holds the laws of nature, but in his right hand he holds the law of love, that flows out as he showers the children of his bosom. Individual prayer is a duty and an inextinguishable privilege, but united, intercessory prayer for the salvation of others and for the world of lost men is the mightiest human power, ever exerted by the church for the living world. It is exerting supernatural power to move and energize the machinery and methods and missions of unified Christendom.

The prayer that springs from wells beneath.
That hath its sources from above.
The prayer that gives, the prayer that sees.

The prayer that prays from very love;
The prayer that prays unceasingly,
The prayer that prays for friend and foe,
The prayer that prays unselfishly,
The prayer that prays for high and low;
This prayer is prayed to Jesus' name;
This prayer is only Spirit-given;
This prayer will always end in praise—
This is the prayer that reaches heaven.
—Rev. Edwin Whittier Caswell, D. D.

The Will to Act.
Two words are very significant in life—situation and action. The sphere in which a man is situated, or what is called "circumstances" will largely determine what he is to be, but no amount of "situation" will of itself precipitate vigorous action of a noble kind. Many men are made by the right sort of reaction against environment. Whatever may be claimed for heredity and association, a certain amount of free play must be allowed to the individual, who in his turn, by strenuous and selective action, contributes to the formation in future of a new heredity. The progress in human affairs would be at all possible were life simply to the last factor a recapitulation of previous lives. It is part of our heritage as sons of God that we can build upon the fathers and set be different from them, that you can inherit the past and pre-empt the future. It is true that some men are, circumstantially situated more favorably for success than are others; but the man who has in him the will to act, even though he be a poor and physically weak Paul, will in the end, in spite of beatings and shipwrecks, win out among the best.

True Religious Achievement.
If the relentless drift is bearing away some traditional and conventional "household gods" and ecclesiastical sanctities, there is abundant compensation in the unveiling of higher ideals, the realization of the progress in human affairs, and in the dispersion of rubbish which has almost hidden the Divine lineaments of man's nature. Religious advancement is seen in the increased emphasis which is placed upon these living realities about which men cannot differ.—Henry Wood.

Act Now if You Want This Famous Automobile at the Present Price

At Midnight April 30 the Present Low Price on the World's Record Non-Stop Champion Car Goes up to \$665.00

Quick action will save you money on the price of your Maxwell—until May 1st the price remains at \$635.00.

High grade steel and other raw materials used in the Maxwell have been steadily costing the Maxwell Company more and more until at last the factory reluctantly has been forced to increase the price in order to maintain Maxwell quality.

For it is the fixed policy of the Maxwell Company never, by even a hair's breadth, to change the sterling quality of the materials, parts, accessories and refinements of the Maxwell car—except, if it were possible, to change for the better.

The present low price of the Maxwell has been the wonder of the automobile industry. The amazing thing is—even before the cost of the best automobile materials began going up by leaps and bounds—the Maxwell was built to sell for so little as it has.

Of course the reasons are:
—a magnificent factory organization of men and machinery;
—the result of many years of experience and development;
—and a vast quantity production, now at the rate of over 100,000 cars yearly.

Maxwell Leadership Unchallenged

In the Maxwell you have an automobile which, for results, is the equivalent of far higher priced cars. Here is a car made of the very finest materials, with all of the accessories and refinements of costlier cars, with all of the comforts and luxuries that you expect to pay a great deal more for.

—with the famous record-making Maxwell motor that has power and speed to spare,
—with an economy of gasoline consumption that is more than amazing,
—and all these master qualities in the Maxwell at a price which is within the reach of every family.

Master Motor of the Maxwell Car

The Maxwell Motor brings the Maxwell car its enviable reputation for fuel economy—this notwithstanding the fact that it has as much, or more power than the majority of much heavier and costlier cars.

1 1/2 Cents A Mile

One example of Maxwell fuel economy is the recent trip made by Prof. (Mrs.) Miriam Sealey, of the Oregon Agricultural College, from Portland to Boston and back to Portland, a distance of 9,700 miles, and this racking tour over mountains and under every road condition was made at the amazingly low running cost of 1 1/2 cts. per mile for gasoline and repairs.

ANNOUNCEMENT

I wish to announce to the farmers and stockmen of Twin Falls and adjoining counties that I have recently purchased the hospital and practice of Dr. F. P. Knowley, retiring.

I am a graduate veterinarian, with ten years practical experience in veterinary medicine at Jewell City, Kansas, and believe with my experience that I can rightfully serve the owners of livestock.

Arrangements have been made to install modern and up to date veterinary hospital equipment, for the operation, care and treatment of all diseased and afflicted animals. I would be pleased to have you call and view my hospital and equipment; also to talk over your live stock conditions with me. It will be my policy to make no charge for advice where no treatment is given.

Very respectfully,
D. H. R. CROMB
Hospital telephone No. 20; residence 20, two rings.

Fine Piano to Rent With Privilege of Buying

We have one of our best instruments on hand, located in the vicinity of Twin Falls. Rather than pay storage or repair, we will rent to responsible party at \$5.00 per month, or will sell now at special price on easy monthly or quarterly term. If interested, address The Knight-Campbell Music Company, Denver, Colorado, or George Bowley, district manager, Fort Collins, Idaho. Please give business reference in first letter. Adv.

AUTO OWNERS TO GET NAVY LEAGUE POSTERS

Nation-Wide Campaign Started For Advertising For Recruits For The Naval Service.

All auto owners will have a chance to assist in getting recruits for the navy by carrying advertising matter on their windshields, according to a committee headed by George H. Smith, of this city, to whom the matter will be sent. The communication reads as follows:

Washington, April 17, 1917.

Mr. George H. Smith,
Secretary Twin Falls County Automobile Club.

The navy has asked the assistance of the navy league in securing recruits for the navy and marine corps.

It is suggested that a windshield campaign which consists of putting a recruit poster on the windshield of every automobile in the United States be worked like a great help to us, which you can, by having all of the members of your club use these posters. We are also sending with the posters cards which we would like to have signed by the members using the posters and returned to us. It is unnecessary to say that your patriotic assistance will be greatly appreciated by your navy and country.

Yours very truly,
NAVY LEAGUE OF THE U. S.
Robert N. Thompson, President.

"THE WONDER CAR"

There are two distinct kinds of automobile service. First, the service given by the car itself.

Second, the service given by the manufacturer after the car is in use.

Without the other, either one is of little value. The proper rendering of both is the highest expression of what an automobile maker should give and what an owner should receive.

Maxwell literature has shown how the Maxwell is built to give the first kind of service. The Maxwell Company, through its nationwide organization, extends an equally thorough after-sale service, to Maxwell owners everywhere.

Maxwell Service is assured by fifteen Maxwell owned and operated Service Branches, which have been established at advantageous points throughout the United States and Canada. Every effort is constantly being made to keep this service up to the high standard of efficiency, recognized and acknowledged in the Maxwell car and the Maxwell literature.

One of these wonder cars drives away free, call 38 for information.

Each Maxwell Service Branch is a completely equipped mechanical establishment, with a competent superintendent and office force, commodious and systematically arranged stock rooms and adequate making and shipping facilities. All stock rooms are so arranged that any individual part, no matter how small, can be immediately located. Each such is lettered, each row numbered, and each bin lettered. Every order received is immediately entered on a regular shipping order form, and stock room location of each part noted. This information prompts filling of orders.

The stock at any Maxwell Service Branch consists of an adequate supply of every replaceable part of a Maxwell car, exclusive of certain accessories and optional parts. The Branch is able to make shipment of parts within a few hours after the receipt of any order.

The Maxwell Motor Company does not wait until the end of a year or season to make advantageous minor changes in the construction or equipment of Maxwell cars, but incorporates these changes immediately after it is found that they are desirable and will enhance the value of the car.

Maxwell Service Branches have the authority to replace parts covered by the Manufacturers' Warranty, obviate the unusual necessity of long delays in warrant adjustments.

Expert traveling mechanics are kept constantly in the field conducting a campaign of education among Maxwell dealers and dealers' mechanics in the adjustment and repair of Maxwell cars. This makes it possible for every Maxwell owner to receive the benefits of

(Entered as the Twin Falls publication of second class matter at a twice-a-week publication, October 15, 1913.)

THE OLD CONSCRIPTION

The following is not from the conscription bill whose enactment the president is seeking to secure, but from an act of congress, signed on May 8, 1872, by one George Washington, says the Eugene (Oregon) Guard:

That each and every free abedoned, white male citizen of the United States, residents thereof, who is or shall be of the age of eighteen years, and under the age of forty-five years (except as herein excepted), shall, severally and respectively, be enrolled in the militia by the captain or commanding officer of the company, within whose bounds such citizen shall reside, and that within twelve months after the passing of this act, and it shall at all times hereafter, be the duty of every such captain or commanding officer of a company to enroll every such citizen as aforesaid, and also to cause to be made a list of the names of all such citizens, and to file the same in the office of the captain or commanding officer of the company, within whose bounds such citizen shall reside, and under the age of forty-five years (except as before excepted), shall come to reside within his bounds, and shall, without delay, notify such citizen of the said enrollment by a proper non-commissioned officer of the company, by whom such notice may be proved. That every citizen so enrolled and notified shall within six months thereafter provide himself with a good musket or rifle, a sufficient bayonet and two spare flints, and a knapsack, a pouch, with a box therea to contain not less than twenty-four cartridges, suited to the bore of his musket or rifle, each cartridge to contain a proper quantity of powder and ball, or with a good rifle, knapsack, shot pouch, and powder horn, twenty balls suited to the bore of his rifle, and a quarter of a pound of powder; and shall appear, when called, outed and provided, when armed, to exercise or into service, except that when called out on company duty he may appear without a knapsack. That the commissioned officer shall severally, be armed with a sword or hanger and sponoon; and that from and after five years from the passing of this act all muskets for arming the militia, as herein required, shall be of bore sufficient for balls of the eighteenth part of a pound, and every citizen so enrolled and providing himself with the arms, ammunition, and accoutrements required as aforesaid, shall hold the same exempted from all suits, distress, executions, or sales for debt or for the payment of taxes.

Conscription represents not an innovation, but returns to a principle whose validity was recognized at the country's very beginning. Not only was every abedoned male citizen a soldier, but was required to equip himself at his own expense.

Our forefathers were too well instructed in the essentials of democracy to regard universal service as anti-democratic. They were not afraid of the militarism that assumed it to be the duty of all, when necessity arose, to share in the common defense.

The past told them that a free people must have arms and the ability to use them. So strong were their convictions that they inserted in their constitutions express prohibitions against legislation denying or limiting the right to possess arms. They saw the evils and the injustice of the volunteer system during the Revolutionary War, and one of their first acts was to indorse conscription as a national policy.

GERMAN CONGREGATION IS SINGING "AMERICA"

(United Press) DENVER, Conn., April 24—The Rev. B. R. Gray, vicar of the Episcopal Episcopal church of this city, considers "America" a prayer to the Deity in behalf of the nation.

Although the majority of the members of the congregation are of German descent, the national anthem is sung regularly at the close of the services by them.

And they didn't need the war to inspire their patriotism. The custom was instituted three months ago, when there was a remote prospect.

WINDOW TRIMMING CONTEST STARTS ON MAY FIRST

THREE PRIZES WILL BE AWARDED TO THE WINNERS AT THE CLOSE

EXPLANATION OF CONTEST MADE BY SECRETARY TAYLOR

Three Classes of Stores Are Arranged For the Occasion—Will Run Until the Fifth Day of May—Large Number of Entries Expected.

Secretary Taylor of the Commercial club has announced that plans have been perfected for the conduct of the Window Trimming contest beginning May 1 and ending May 5.

Speaking on the matter today Secretary Taylor said: "It is expected that the big majority of local merchants will enter the contest, and the merchants will be permitted to make up displays of their goods in such a manner that they will not only compare favorably with those of the other entries, but that they will be entered similar contests throughout the country, but will at the same time attract large numbers of purchasers to their stores."

"More and more merchants are daily coming to recognize the value of their display windows for advertising purposes. Time was when the store window was merely regarded as a medium for admitting light. Today, however, it is recognized as one of the most effective advertising mediums the merchant has for promoting the interest of his store. In the large cities thousands of dollars are invested in the appraisal and construction of store windows and in the artistic arrangement of goods thereon. The result is countless sales directly traceable to the window display. This is no reason why every merchant should not proportionate value out of his windows if he gives the proper attention to their most efficient use."

"It is to stimulate interest in what is now recognized as one of the most powerful sales factors at the disposal of merchants that the local window trimming contest will be run. Three complete C. S. B. scholarships will be awarded as prizes. A group of impartial judges will be selected to judge the entries, and the contest will be held on a fair and equitable basis as possible. The stores of the city have been grouped into three classes, as follows:

"Class A—Department, dry goods, clothing, men's furnishing, hats, shoes and millinery stores, ladies' shops, tailors, shops.

"Class B—Drug, stationery, books, music, art jewelry, china, cigar and confectionery stores, photographers, studios.

"Class C—Hardware, carriage and harness, sporting goods, leather goods, automobiles, furniture, wall-paper, paint, grocery and provision stores, bakeries, meat markets, electrical, plumbing, and florists' shops.

"A complete C. S. B. scholarship will be awarded to the winner in each of these three classes. The successful contestant will be given his choice of a Scholarship in Advertising, Salesmanship, Window Trimming, or Show Card Writing.

"Invitations to participate in the contest are being mailed to local merchants. Anyone desiring information regarding the contest should apply to the Secretary of the Commercial club."

WASTE NO FOOD

Food is wasted—When we eat more food than our bodies need or grow and repair and to supply energy for our work. Over eating leads to poor health and fat instead of brawn, also makes us sluggish and indolent. Eat enough and no more. Eat for physical and mental efficiency.

When food is wasted or spoiled in cooking—Improperly prepared or poorly seasoned food will be left on the table and probably wasted. Buy food wisely and then prepare it carefully.

When too much food is prepared for a meal—Uncovered portions are apt to be thrown into the garbage pail or allowed to spoil. Many housekeepers do not know how to use left-over foods to make appetizing dishes.

When anything edible is allowed to go to the garbage pail or allowed to spoil for lack of proper handling.

When food is handled carelessly—Many clean food containers are utilized, and are neat in all details of cooking and serving. This lessens waste and is a valuable health measure as well.

FINED FOR SELLING ICES IN HOME ON SWEETNESS DAY

(United Press) BOSTON, April 24—La Toure and Arango's home's largest cakes have been fined for selling ices and ice cream on "Sweetness" day. Approximately \$4,000 worth of the "forbidden fruit" was sequestered by the municipal authorities and distributed among the city's soldier-wounded and war orphans.

GOOD WEATHER PROMISED

The following is the forecast for the week beginning Sunday, April 22, for the Rocky Mountain and Plateau regions: Good to fair weather, with temperature near the seasonal average.

American Ambulance Cops Great Factor In The War

(United Press) PARIS, April 24—Whom Americans return to Paris, after their tour of duty in the former headquarters of the American Ambulance army during the big war—today's headquarters are extremely active and busy.

It is the American Ambulance Field Hospital, in the Bois de Vincennes, directing the work of hundreds of American youths who drive small swift American ambulances on all the French battle fronts of Flanders, Flandre, formerly of La Porte, Ind. and Gloucester, Mass., and former assistant secretary of the U. S. Treasury in Washington.

None of the commanders in chief of the big armies in the field know more about their forces every minute of the day than does the former "Booker" about his little American army. He knows, by daily reports, every important move made by the hundreds of cars in the field. How many cars are in and out of commission; how many have been wrecked or destroyed by shells; how many cars are en route to the front; how many will help the American service can give the French army next week or next month.

Almost every part of America is represented somewhere in the rambling old Eighteenth Century mansion which houses Andrew's headquarters. Assistants from many of the American Universities and colleges have sent their students to save French life in the field. Never less than 300 ambulances are engaged in active service and over 600 have crossed the Atlantic and have been put into commission during the war. Over seventy and eighty have been destroyed. The first car to leave headquarters for the front is still partly in commission.

Two big garages and workshops attached to the Paris headquarters repair and reequip the American cars and the damaged cars. If it is necessary, the work is done by moving repair shops on the field.

It is to be noted here the United Press correspondent, called at headquarters a message had arrived that three cars had been destroyed by a single shell on the Somme. Within a short time three newly repaired cars were on their way to replace the wrecks.

The Young American college men who have joined the ambulance service have to date received 87 citations in French army orders for valor. The decorations include medals and citations for Croix de Guerre. Two drivers have been killed by shells, some have died of pneumonia and many have been wounded. Among the latter is William Barber of Toledo, O., who has recovered and returned to the front.

The American cars are known in almost every part of the campaign on the French front—the Yser, Aisne, Somme, in Champagne, at Verdun, in the Argonne, Woivre, Lorraine, Alsace and in Italy.

There is an American atmosphere about the headquarters of the service in Paris. Located in Passy, one of the oldest parts of the city, the Service and within shouting distance of the famous Eiffel tower, the building is surrounded by a ten-acre park in which Benjamin Franklin first made his tests with the lightning rod. The structure contains the offices of the executives of the service in the upper portion and below typical college dormitories where the young Americans rest and sleep while in training for sterner duty at the front. Notwithstanding the German submarine blockade and more cars arrived here in February than during any other month. The number of men was 112. It is estimated as far west as California, and the cars were 140.

The work of the Ambulance Service is carried on by American funds. The all contributions to date have been small though numerous, it was learned today. To face the big campaign in which the French will soon be involved the Service will need great help from the American people.

"We can use all the money, ambulances and men, the folks at home can send," was the word given to the United Press in Passy today.

WEEKLY LUNCHEON REVENUED BY CLUB

Large Attendance and Good Talks Marked Gathering Today at The Noon Hour.

The Twin Falls Commercial club resumed its weekly luncheons today at a gathering attended by the majority of the members of the club. The gathering voted unanimously to close to continue the idea permanently with different men in charge each week until the thing had been passed around to all the members and patrons.

After the luncheon President T. K. Harker introduced Vice President Hal G. Blue, who named the merchants present that the purpose of fouching elbows was to bring about a more harmonious spirit.

Arthur Heaver moved that the affair take place weekly and this was carried by a rising vote. Mr. Peavey and W. R. Priebe then spoke briefly reiterating the idea of community co-operation. Dr. John E. White, president of the farm bureau, assured the merchants of the goodwill of the farmers and suggested that the women's community be taken into the councils.

E. J. Finch proposed that a certain man be appointed each time to look after the "at dinner." The motion prevailed and Mr. Finch was declared "IT" for the next week's report.

E. J. Ostrander, a former club president, was called upon and recalled old times when the luncheons were formerly held. He said that he had always insisted on one thing and would

Phone No. 88
Berg-April 22, to Mr. and Mrs. C. W. Goffman of Anstonand, a boy.
Helen Friedman arrived home Friday afternoon after absence of several months in California.
New Singer Arrives-Miss June Shue the new singer at the Rogerson club arrived from San Francisco last evening. She has an exceedingly sweet voice.
Red Cross Reception-There will be a program given May 4 by the P. E. O. chapter for the Red Cross at a place which will be announced in the Sunday Times.
Ball Was A Success-The patriotic ball given last night by the departmental ladies of the G. A. R. met a great success financially and socially. A large crowd had a good time.
Adds Another Chair-Paul I. Smith has increased the capacity of his tonorial parlors to take care of his growing business and has added another chair over which Ed. Brossau will preside.
Underwent Another Operation-Fred E. Smith underwent a third operation today. He is resting easier since the operation. Congressman and Mrs. Smith will remain here until he is out of danger.
Salmon Reservoir Report-The following is a report of the action of the Salmon River reservoir for the week ending April 21, 1917: gauge height, 22.1 feet; rise during week 3.1 feet; available storage, 33,735 acre feet; sink during the week, 4,559 acre feet.
Arrested in Omaha-Cora Duna was arrested today in Omaha, Nebraska, charged with obtaining \$500 from the First National Bank of Twin Falls on a check drawn on a St. Louis bank in which it was alleged that she had no money. She lives in Nebraska and is said to have been visiting friends at Hansen at the time that the alleged crime was committed.
AN OPPORTUNITY
\$500 Free To You Without Investing Money-Spare Time is 'The Only Qualification.
An opportunity for thousands of extra votes is now at hand as well as a chance to insure final success in the Times Profit-Sharing Campaign. Commencing today 100,000 free votes will be given for every \$10.00 in subscription money. These clubs of \$10.00 may be made up of new and delinquent subscriptions. A candidate may secure as many of these clubs as they can. The next special vote offer will be 100,000 free votes for every \$20.00 in subscription money. THE CAMPAIGN IS PRACTICALLY JUST STARTING-many candidates have been nominated-but few have really started to work. If you have been nominated in the campaign start to work today-a few hours work now is worth days of work later on. This campaign is a profit-sharing campaign where all concerned are paid according to the amount they contribute. In this campaign there are no losers-to those who do not win advanced prizes the Times will refund 50 per cent of the money they collect. All the prizes in the campaign

- are valuable and work ONLY will
If you have been nominated call on 38 and have a representative call on you and explain the campaign. An opportunity now at hand that has never been equalled before in this territory-you have a good chance to win. Why not try it-it is far different than any other campaign ever held in this county before. At the close of the campaign you are your own judge and have a privilege going over the books and verifying every vote and subscription that has been taken in or issued. Don't forget the phone number, 38-Call today.

The Theatres

"The Bugler of Algiers" to be exhibited in Bluebird photoplay at the Idaho Theatre on Wednesday and Thursday will present Ella Hall, Rupert Julian, Kingsley Benedict and Little Joe Rao in the leading roles. Here is a remarkable photoplay, appealing to loyalty and love of the flag in scenes of inspiring vigor and force. The dramatic combination with the patriotic sentiment a story of great love and human devotion that rings true and will stir the admiration of every beholder. Ella Hall plays the role of a girl, left alone when war calls her brother and her sweetheart to the colors. In all the years that follow she lives to see her brother and her sweetheart decorated with the Legion of Honor, while she represents her brother, who has won this great tribute from his grateful country. The brother has died of exhaustion, marching to be decorated, and then the girl, now grown to old age, goes with the sweetheart of her life to lay upon the breast of the dead hero the tribute she had come to him late. Beautifully told, beautifully pictured and superbly acted, "The Bugler of Algiers" marks an epoch even among Bluebirds.
DENSON REALLY WAR MANAGER OF THE NAVY
Congress Enacts Law That His Orders Are To Be Considered Those of the Department.
(Washington Press) April 23-"What has come to him; he has won by hard work always."
This is what the navy department thinks of admiral William Shophord Denson, chief of naval operations, president of the general board of the navy, and a man who has been selected upon whom rests the success or failure of the fleet.
When congress recently voted into law the Denson's orders were to be considered as emanating from the secretary of the navy and have full force and effect as such. It should be noted that it is not the chief of operations is truly a southern gentleman. He was born on a small plantation in the heart of Georgia in 1855 and has carried with him throughout his brilliant career the best traditions of the old south.
Fair, square, with a most courtly bearing and a full, gentle mustache, much like his predecessor Admiral Dewey, the admiral presents the most distinguished appearance. His rise has been meteoric during the past few years.
His first cruise as captain of a battleship was in 1912, when he plotted the Utah to the fleet penon. He then assumed command of the Philadelphia navy yard, where he did "his bit" with such "great labor and excellence," as he is called to Washington in 1915, when a man was sought to create and take charge of the new vital office of naval operations.
Denson is not a man given to epigrams, especially those of the first person. "I seldom falls from his lips."
If he can't be induced to admit his services in Washington he met with "fair success," the admiral will immediately ingratiate it upon you that it is solely owing to "the loyalty and cooperation" of his associates.
This is what his brother officer say of great ranking officer of the U. S. navy:
This is the happy warrior.
This is he.
When every man in arm would wish to be."
FILER BOY SHOT DEAD ACCIDENTLY
Was Hunting With His Cousin and Was Struck in the Head by a Bullet That Was Meant For a Bird.
Willie Durfee, aged fourteen years, was accidentally shot Sunday afternoon near the home of his father, James Durfee, by his cousin, Orin Durfee. The boys were hunting about and each had a .22 calibre rifle. They went in different directions looking for birds. When out of sight of one another, Orin fired at a bird and missed. Later when Willie did not appear he went to search for him and found him lying with a bullet in his head. Orin said "I aimed at a bird but was loaded; this explanation was untenable. The boys were always friends and the story told by Orin is considered to be straightforward that is not doubted.

LEGAL PUBLICATION - NOTICE OF SALE OF BRIDGE BONDING OF THE COUNTY OF IDAHO.

Notice is hereby given by the board of county commissioners of Twin Falls County, State of Idaho, that said board intends to issue, negotiate and sell, negotiable, interest-bearing coupon bonds of said Twin Falls County, state of Idaho, to the amount of Thirty Thousand Dollars (\$30,000.00) for the purpose of aiding in the joint construction of a bridge across Snake River at a point approximately 3500 feet west of the Range line between ranges 15 and 19 east of the Boise-Meridian, at a point where said first mentioned line intersects Snake River, in section 18, township 19 south, range 18 east, said point being known as the Hansen Bridge Site, pursuant to Section 336 of the Revised Codes of the state of Idaho, Session Laws of 1911, Chapter 36, page 150, Session Laws of 1915, Chapter 84, page 202, and Section 190 of the Revised Codes of the state of Idaho, Session Laws of 1913, Chapter 33, page 132, and Section 1962 of the Revised Codes of the State of Idaho, said bonds to be issued in one or more tranches in denominations of One Thousand Dollars each, but bonds of denominations of Five Hundred Dollars and One Hundred Dollars each may be issued if deemed necessary by the said board; said bonds to bear interest at the rate not to exceed six per cent per annum, said interest to be paid on the first day of January and the first day of July in each year at the office of the county treasurer of Twin Falls County, Idaho, at such bank as the city of Twin Falls may designate by the board of county commissioners. The amount of said bonds to be issued and the principal paid by the county in the following manner: Ten per cent of the total amount issued to be paid ten years from the date of issue, and ten per cent annually thereafter, until all of the said bonds are paid; said bonds shall be redeemed in the order of maturity and numbered and bid for the purchase of said bonds or any part thereof are invited to present sealed bids to the clerk of this board at Twin Falls, Twin Falls County, state of Idaho, up to 2 o'clock in the afternoon of Thursday, May 10, 1917, specifying the lowest rate of interest at which the bidder will purchase said bonds, and the denomination or denominations of bonds desired by said bidder, which may be either in amounts of One Thousand Dollars (\$1,000.00), or Five Hundred Dollars (\$500.00), or One Hundred Dollars (\$100.00); each as above specified. The said bonds will not be sold for less than their face or par value and no bid will be considered which specifies a rate of interest exceeding five per cent per annum. That all bids for said bonds must be accompanied by a certified check in the amount of five per cent of the amount of bonds bid, or such check to be drawn in favor of Twin Falls county and to have no conditions endorsed thereon other than those which are set forth by the resolutions and orders of the board of county commissioners of Twin Falls county, state of Idaho, the laws of the state of Idaho, and the conditions set forth in this notice. The said board shall have the right to reject any or all bids offered and to re-advertise the same. Said bonds will be opened and considered by the said board at the office of the board of county commissioners at a recessed meeting of said board to be held on the 10th day of May, 1917, at Twin Falls, Twin Falls county, Idaho, at 2 o'clock p. m. of said day, and issue of the said check to be drawn upon resolution of said board duly and regularly passed and by a vote of two-thirds of the qualified electors of Twin Falls county, Idaho, for the purpose of being held for that purpose on the 10th day of November, 1916. Any information concerning the issue and sale of the proposed bonds may be obtained from the clerk of the board of county commissioners of Twin Falls county, Twin Falls, Twin Falls county, Idaho.

AIRSHIP FLEET NATION'S NEED

(Continued from page 1)

coasts from Boston, Maine, to Brownsville, Texas, and from San Diego, California, to Cape Flattery, Washington. A national burglar alarm, as it were, around the entire country. A year ago in a public address, which has also been printed as a United States Senate document, I stated that "We should have at the very minimum not less than 2,000 aeroplanes ready for duty on the Atlantic Coast and an equal number on the Pacific; 5,000 on each coast would be better." On the fifth of last February the Aerial Coast

Patrol Commission, of which I have the honor to be chairman, wrote to the President, stating, among other things, that 1,000 aeroplanes along our coasts would increase the efficiency of our coast protection 200 to 500 per cent.

Second—We need an efficient air patrol of every mile of our Mexican frontier, a line four times as long as the present European western border. I have had there been a dozen aeroplanes and serviceable planes at Columbus when Villa made his raid he would have been located and captured within a week.

Third—We need anti-air craft defenses for our great cities. There should be immediate and energetic ac-

tion to protect our great cities from the possibility of almost indescribable destruction from air raids. Paris furnishes a good example of such defenses. These defenses include numerous expert aviators with swift armed aeroplanes; numerous anti-air craft guns; a number of throwing shells; towers into the air, mounted in and around the city, some of them on wires that can be transferred rapidly on the electric lines; numerous powerful searchlights to cover the air above the city with a network of light-sensitive microphones to detect the sound of an approaching aeroplane; the whole system connected by telephone and wireless with controls in secret underground chambers like the mine chambers of a fortified harbor.

With a separate Department of Aeronautics, with a man like General Cothran at its head, with the assistance of Great Britain and France to guide us, we can have a great air fleet in a year. Under the present system we may never have it.

If we should be crippled or seriously injured by the superior air fleets of a hostile nation, would it not be superfluous irony and tragedy that we should be struck down by a weapon which we ourselves forged?

It would be like the siege of Aeschylus' fable—pierced by an arrow feathered from his own wing.

SILOS SAVE

BECAUSE a greater tonnage of ensilage can be obtained from each acre than any other roughage.

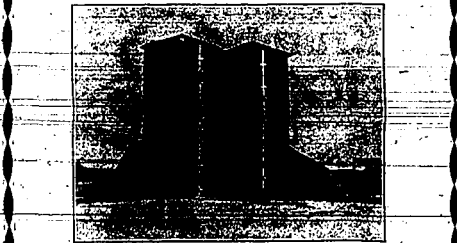

BECAUSE ensilage retains the succulence of the summer pastures; keeps up the milk flow in dairy cows and maintains all kinds of stock in a thrifty condition.

BECAUSE by feeding ensilage with our hays a much more balanced ration is formed than by feeding any roughage alone, and much less grain is needed.

BECAUSE by building the silo near the feed lot, less labor is required in feeding it out. It requires but one-tenth of the space required by hay and can not be damaged by rain as in hay at harvest.

PREPAREDNESS
to the stockman means planting sufficient corn this spring to fill a silo in the fall. **BE PREPARED.**

WINNER & SECURITY SILOS make an ensilage that is unexcelled. They are, not expensive, and are easily erected. They will last indefinitely and can be moved if necessary. They are perfectly air tight and in them the ensilage will not freeze.

ASK THE MAN WHO OWNS ONE.
Let us know how many head of stock you will have to feed and we will quote you prices on a silo large enough to meet your needs.

"The Bugler of Algiers"

A drama of Patriotism Glorified — Scene version of "We Are French" From All-Story Weekly Magazine.

The bugler, a prisoner in the hands of the enemy, was ordered with his life the reward, to sound the retreat! That his comrades, giving battle within sound of his bugle-calls, might hear—but the brave boy sounded, instead, the "charge," and defeat was turned into glorious victory. On this incident hinges the patriotic appeal of "The Bugler of Algiers."

An ideal cast including ELLA HALL, RUFERT JULIAN, KINGSLEY BENEDICT AND LITTLE ZOE RAE.

ALSO A TWO-REEL L-KO COMEDY.

"Murdered by Mistake"
WEDNESDAY AND THURSDAY

LAND BOARD ACTS ON TWIN

(Continued From Page 1)

In reference to relinquishment of certain lands of the Salmon River-Twin Falls irrigation project and presented man, which was ordered to become a part of the minutes.

Moved by Governor Alexander and carried that the lands shown on the map above marked in red and outlined in blue, be relinquished to the national government at a very early date. These lands have reference to the Carey act lands under the project of the Twin Falls-Salmon River tract.

The following resolution was presented by Alexander General, and carried during the past session of the board: "The lands on the Salmon River tract, which was duly carried. It is the sense of the land board that all lands west of range one east and all lands south of township 13-5 south as indicated on exhibit 'A' above, except that portion entered in sections 24 and 25 of township 13 south, and section 24 excluded from the project and that the company should, if possible, absorb such entries by the third Friday of June of 1917, and they are hereby requested to report at the meeting of the board the third Friday of June of this year what progress they have made."

Asked with reference to the effect of the above action, Manager G. M. Hall of the Salmon river company said that he understood this to be simply the expression of the wishes of the board and as presenting a point toward which to work. It was similar to the proposition made last year, and it was possible to forecast the results of efforts which might be made.

Mr. Hall said that he was before the board at their request with men showing lands within the project which had not been filed on or which, having been filed on, were later relinquished. The board determined to relinquish such lands, which restores them to the public domain and makes them subject to either homestead or desert land entry.

The lands included in the part of the project which it was suggested should be retained take in the north-west district, which was at one time thought should be eliminated. Mr. Hall said that the statement that the detention would leave 35,000 acres was simply an unofficial estimate.

Mr. Hall stated that while the runoff this year has been slower than last on account of the late spring and the compactness of the snow, conditions on the tract appear unusually favorable, as there is a great amount of snow yet to melt in the hills.

Attorney C. L. Longley who represents the settlers in the suit pending in the federal court, said that he was not personally informed in regard to the intentions of the land board and the judge from reading of the resolution that it was simply an expression of the wishes of the board and not a peremptory order.

TRIAL IN BALLOT THEFT CASE BEGINS

Brothers of West Virginia Governor against the Men Who Face Federal Grand Jury.

(United Press.)

HUNTINGTON, West Va., April 23—Battle armed with revolvers and with faces hidden behind black masks swept down on the polling places in Kanawha precinct, Mingo county, West Virginia, before the ballots of the 1914 congressional election were counted, held up the entire election staff at the point of gun and the vote and the franchising of the precinct. Poll books, ballot boxes and election paraphernalia were carried away.

Two brothers of a former governor of this state go to trial today in federal court here charged with complicity in that raid. They are Greenway and Valentine Hatfield, brothers of former governor H. B. Hatfield. Three others—Noah White, George R. Maynard, and Jack Brewster, who are mentioned a minute at the September trial, will face the same charge tomorrow.

One lone Bull Moose ballot, found on a wild hillside, miles from the precinct, is the only one of the 800 ballots ever found.

Howard Sutherland, Republican senator from West Virginia and C. E. Cooper, Republican, were the successful candidates in the 1914 election. The alleged fraud favored Democrats, it is claimed, but did not materially affect the Republican count.

WANTED—For all digging, saw clowns and coal pools, call Fred Korlaska, at the Pacific hotel.

The famous hand to hand conflict between two rival lovers on one of California's highest cliffs in "The Eyes of the World" at the Laving next Friday and Saturday afternoon and night.

BRITISH SCHOOL BOYS DOING THEIR BIT

Will Fight Only at Meat, Flour and Will Press Their Own Trousers During the War Period.

(United Press.)

LONDON, April 24—The British public school boy is doing little for England today.

Eton and Harrow, England's two great public schools, have given up "tuck shops" and croses until after the war.

The boys of Harrow decided on their own initiative not to buy any more paucity or candy at the tuck shops and not to have their trousers pressed while the war lasts. The boys of Eton had measures similarly restricting their gastronomics and their nether garments thrust upon them.

Bread, meat and sugar, the A. B. C. of the Food Controller's "four shall nots," are included in the sweeping ordinance the youngsters of Harrow imposed upon themselves. They have suggested similar articles of food containing these three substances except during the regular hours for meals, and then to stay within the suggested limits each week. As for their tailors, they're going to cut them out altogether. The good old "under the mattress" hiding place will have to do the trick to keep the young Harrows from looking as though they were ready to jump.

The Eton boys suggested to adopt similar measures in time and the teachers did it for them. Besides imposing strict regulations for them, Eton is imposing article regulations for the young Etonian's fodding, the faculty has decided to assist the rationing of the country by cutting down unnecessary traveling.

So the Eton boys won't have any vacations this year.

JITNEY DRIVER ON TRIAL AS ALLEGED BOMB THROWER

(United Press.)

SAN FRANCISCO, April 23—Irrational Wolborg, third of the group of alleged conspirators held responsible for the bomb explosion which killed eleven people in San Francisco preparedness parade last year, went on trial before Superior Judge Dunne today.

Wolborg, a jitney driver, is claimed by the state to have driven Thomas J. Mooney, Warren K. Billings and other conspirators, to the corner of Market and Steuart streets, where the bomb was placed. Warren K. Billings and Thomas J. Mooney have been tried and convicted of murder, Billings being under a life sentence and Mooney sentenced to death.

Wolborg, it appears, will claim he was not on Market street the afternoon of the explosion and had no connection with the plot, whatsoever.

MILITARY ROADS MAPPED IN ITALY

Extensive Commissioner Begun Plans Today On New Transportation System.

(United Press.)

ROME, Italy, April 23—Allied railroad commissions today are preparing to redraw Europe's railroad map. They are already planning the destruction of the allied dependence on the German lines in the "war after the war."

For example, a proposed railroad through Turin and the Italian-to-be-Triest. Other lines, perfecting the development of allied territory, are also in prospect.

French and English railroad officials are now in Italy, studying the situation with allied officials. The commission are making a careful tour of investigation throughout the allied countries. It is said, and work on the contemplated lines will be rushed to completion as soon as the war ends.

CARD OF THANKS

I wish to express my sincere thanks to the many friends who were so kind during the illness and death of my wife and for the many and beautiful floral offerings. Also the undertaker for their assistance and manner in which they conducted the funeral.

J. C. MITCHELL.

First Peeps at the Spring Shoe Styles

OUR feet will soon be crying for relief from the heavy, warm shoes of the winter. You'll be looking for lighter, weight shoes to make your feet glad to give them a chance to breathe. So our showing of Spring footwear will interest you.

THE NEW SPRING MODELS

are fashioned with a lightness that charms the eye and wins instant approval. There is here a wide range for selection—to appeal to those who desire the very latest in novelty styles or those who like the more conservative shapes.

No matter what your shoe desires may be, you can always bank on our having a style and shape to satisfy your needs.

The prices are right, and above all, we strive with your help to fit your feet so that the shoes you buy will satisfy. Nothing short of satisfaction, satisfies us. In fact, we insist upon giving our customers satisfaction.
