

TWIN FALLS TIMES

FAIR TONIGHT AND FRIDAY. HEAVY FROST TONIGHT.

VOL. XII, No. 60.

TWIN FALLS, IDAHO.

THURSDAY, MAY 3, 1917.

SHOSHONE ST. BRIDGE LIGHTS ORDERED IN ILLUMINATION UNDERNEATH STRUCTURE PROVIDED BY THE OUT-GOING COUNCIL.

INTENTION TO PREVENT POSSIBLE DESTRUCTION

Salary of James Burns Haisold - Mayor Swoley Authorized to See Manager Brockbridge About Public Drinking Fountains.

A preparedness measure was one of the last acts passed by the Twin Falls city council in special session Tuesday when it granted the request of Street Commissioner W. F. Porter that two nights be placed upon the city's budget for the purpose of clearing up its streets.

Having read and approved the minutes and canvassed the vote of the city council, the council took the proposition to turn the lights on under the bridge went through at once.

Street Commissioner Porter recommended that the salary of Dumpsman James Burns Haisold be increased to \$100 per month.

Councilman F. P. Brackon returned \$100 per month more than a year ago for the indigent poor.

City Engineer James A. Byrnes reported that he had plotted and established grades on certain parts of the Sanger addition.

PHILADELPHIA, May 3 - The big tanker Sun, was sunk by a torpedo in the Mediterranean last night.

# No Eggs, Milk or Butter

The following recipe shows how an appetizing, wholesome cake can be made without expensive ingredients. In many other recipes the number of eggs may be reduced one-half or more by using an additional quantity of ROYAL Baking Powder, about a teaspoon, in place of each egg omitted:

- 1 cup brown sugar
- 1/2 cup water
- 1 cup seeded raisins
- 1/2 cup molasses
- 1/2 cup shortening
- 1 teaspoon nutmeg
- 1 teaspoon cinnamon
- 1/2 cup flour
- 1/2 cup Royal Baking Powder

The old method (fruit cake) called for 2 eggs.

**DIRECTIONS:** Put the first eight ingredients into saucers and beat three minutes. Then cook the flour and baking powder which have been sifted together in milk well. Bake in moderate oven in flat pan (round tin with hole in center is best) for one hour. Ice with white icing.

Hoist of recipe which compares with other expensive ingredients, mailed free by Royal Baking Powder Co., 125 William Street, New York.

# ROYAL BAKING POWDER

Made from Cream of Tartar, derived from grapes, adds none but healthful qualities to the food.

No Alum No Phosphate

# DAIRY FACTS

## CALVES-DROPPED-IN-AUTUMN

More Easily Raised and at Lower Cost Than Those Cared for Spring—More Time for Care.

Calves dropped in the fall are more easily raised and at the lowest cost. Spring calves are not so well cared for because from the first season because for some months after birth the ruminating stomach is undeveloped, not to mention the effect of the annoyance from flies and the summer heat. When given a good start with milk and dry food can be given and the growth is not checked. In the fall there is more time to give to their care and feeding. Fed mostly on sweet skim milk and oatmeal porridge and given warm, well-laid and lighted pen, which should be kept clean, dry and well bedded, they will make a vigorous healthy growth and when spring comes the fall calf is large and strong enough to be turned into the pasture.

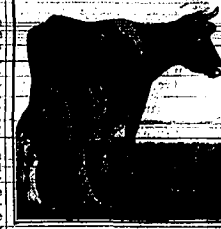

## INCREASE QUALITY

Increase in quality of dairy products can be secured in four ways: "First—By buying only good cows. "Second—By breeding for improvement. "Third—By systematic milk and feed records. "Fourth—By better care and management."

## LARGE PRODUCTION OF MILK

That From Jersey Has Higher Percentage of Protein Than That From Holstein or Ayrshire.

Which do you prefer, skim milk from a Holstein or from a Jersey cow? It is generally known that Holstein milk is a lower percentage of butterfat than milk from other breeds. Does the skim milk from it have a correspondingly lower percentage of its constituents, chiefly protein and sugar? Chemical analyses made by A. E. Perkins, dairy chemist at the Ohio experiment station, show that milk

High-Producing Cow.

from Jersey cows has a higher percentage of protein and sugar than Holstein milk. Guernsey milk is quite similar to that of the Jersey, while Ayrshire milk is intermediate between that of these two breeds and the Holstein.

These analyses indicate that the percentage of protein in milk increases with the fat content, but not in proportion. Skim milk from Holstein milk having 3.8 per cent fat contained 3.6 per cent protein, while Jersey milk testing 4.7 per cent fat had 4.1 per cent protein. The variation in sugar content showed a similar tendency. Thus the fat content of milk offers a practical basis to compute the composition of skim milk derived from it.

## RAISING CALF ON SKIM MILK

Young Animal Should Be Taught to Eat Grain Early—In No Case Feed It in Milk Ration.

The calf which is to be raised on skim milk should be taught to eat grain early. When they have access to it, many of them will begin eating at two weeks of age or three at the latest.

The grain should be placed in a box where they can easily get at it, and they can be encouraged at first by placing a little in their mouths after they have consumed their milk. Grain can best be fed dry after the milk is fed. In no case should it be fed in the milk, as in that case it will be gulped down without chewing, which is bad for the digestion.

## PREVENT BACTERIA IN MILK

Best Way to Hinder Formation is to Cool Liquid as Soon as Possible After Being Drawn.

Perhaps the best way to hinder the formation of bacteria in milk is to cool it as quickly as possible in order to remove the "animal heat" after it has been drawn from the udder. Then heat it to a temperature of 100 degrees or over in the boiling-pot, after which it should be put into bottles, sealed tightly and set away in a place where the temperature is about 50 degrees. Leave it there till you are ready to use it.

# BATTLE STOPPED BY LITTLE BABY

Mysteriously Appears Crawling Between Lines Where Fierce Fight Is Raging.

## IS RESCUED BY A GERMAN

Soldiers Forget They Are Enemies and Cease Slaughtering Each Other While Prussian Carries Infant to Safety.

New York—Edgar von Schmidt, Paul, a Prussian cavalry officer, who is on the western front, has written for the German newspapers the following remarkable incident which he and his men witnessed recently. "Donnerwetter—what a hellish noise! About me shells are bursting and all around me is the rattling of machine guns.

"It is just before dawn, and the fog is so thick that one can scarcely see a yard ahead. All we know is that our troops during the night stormed and captured the French village over yonder. I want to see how our left wing is situated, and therefore, as I see a village where the enemy's bullets are falling as thick as hailstones during a heavy thunderstorm. The fog continues thick, but it is not cold.

"I find a shelter where other cavalrymen are taking a little rest and at once proceed to get some needed sleep myself, ordering the lieutenant to rouse me in case of necessity. "Suddenly I am awakened by a peculiar, uncomfortable stiffness—as in the case often where a sleeper is awakened either by a sudden noise or the cessation of noise. Baby in Battlefield.

"As I emerge from the dugout the lieutenant winks at me somewhat mysteriously and points directly in front of him. Carefully I raise my head over the top of the trench to get a view of things.

"The sun had risen and the fog had disappeared. In front of me is a meadow, and there, midway between our trenches and those of the enemy, is—God, it is impossible; it must be a delusion!—a Fata Morgana; but no—there in the middle of the field, crawling on hands and knees, is a little child, a baby. It appears perfectly happy and contented, and seems to be enjoying itself. Not a sound is to be heard, not a shot is fired. Every man has become dumb with wonder and admiration. "Well, that is about the case, for where else could that child have come from?

"Over there in the enemy's trenches we can see the helmets of the Frenchmen as they peer over the edge. No one is any longer thinking of the enemy or of the war or of danger. All eyes are on the little soldier and the child are being approached. As he picks up that little frightened, helpless bit of humanity and fondly takes it in his arms, a laugh, a low, friendly laugh, passes along our entire column. "The laugh is infectious, and we hear that how it is going along the ranks over yonder. And suddenly—what, are they going to shoot?—no, on the contrary, a great wave of applause with shouts of " Bravo! from thousands of French soldiers. The child is being held as the soldier jumps back into our trench with the child safely in his arms, our ranks too burst into a triumphant shout which passes all along the line.

"Even for some time after not a shot is fired. It is as if the child were a miracle and no one touched a gun while that child was in our midst.

"When the firing did start again it was rather desultory and indifferent, and there was nothing dangerous about it. The child was still in our hands. A wonderful change in the hearts of both friend and foe that morning."

## BLOW RESTORES MAN'S VOICE

Silent for Years, He Recovers His Speech While Boxing With His Cousin.

New Castle, Pa.—Mike Leska has every reason to be grateful to his cousin, John Leska, and all on account of a terrific blow administered on his chin by the latter while boxing. Mike had been unable to speak for a year and had spent several hundred dollars attempting to regain his voice.

The blow on the chin brought blood to the mouth of Mike and John, the cousin, fearing that he had seriously injured Mike, was in the act of going for a doctor, when for the first time in a year, Mike spoke, saying: "You are not hurt me. You have helped me regain my voice."

## ALFALFA DAIRY AND STOCK-RANCH

301 acres, extra good place, 4 1/2 miles out, can irrigate and farm all; private electric pumping plant; part in alfalfa, bearing orchard and other crops; excellent soil; 5 room house with cellar; barn, poultry-house, buggy shed, shop, ice house, outside cellar, good well, county road; school 1.2 mile; R. F. D.; electric light and power available; fine shade, \$20,000. Part cash, balance good terms at 8 per cent. Have other good bargains in alfalfa, dairy, stock, grain, ranches, small tracts. Low prices, easy terms. Don't delay, buy now. R. O. MCKENNEY, Weller, Washington County, Idaho.

## BISHOP TELLS HOW TO SEE YOURSELF GO BY

Chicago—Here are ten rules to "See Yourself Go By," as laid down by Bishop Charles Bayard Mitchell of St. Paul, in an address here.

- Don't think you see yourself in a mirror.
- Don't imitate Charlie Chaplin; be yourself.
- Don't expect somebody to do your job.
- Don't worry about your health.
- Don't wait for dead men's shoes.
- Don't lose your nerve.
- Don't think yourself a failure.
- Don't be a snifter.
- Don't stop until you find your place.
- Don't try to make your children duplicates of yourself.

## THE ROOMS AT THE Oasis Home

MRS. STAPLETON.

NO newspaper can succeed without advertising; therefore we solicit the patronage of our readers for those who by their advertising help to make this paper possible.

## A Home For Your Car

Here's a garage that will be a credit in any place. It isn't expensive to build, yet it combines all the good points of a complete home for the car. Wouldn't you like to have it to round out your group of buildings? You'll notice, first of all, that good lighting has been provided for. You'll appreciate this feature more when you come to do a few jobs of repair work on a stormy day. The work bench is another convenience. You're working at a disadvantage if you haven't a garage. Don't be without one.

## Buhl News

(From Buhl Herald) When the elevator trust and the N. P. railroad tried to pay W. S. Hyde out of business, they found he was "hard to beat." November 11 of last year he ordered the Register to print an order of prohibition against Hyde. He was blocked in that, but he kept after some practical solution of the problem, which was arrived at Wednesday, when he bought the stock of the Fidelity Abstract & Trust company. Associated with him will be Paul Tabor, a young man of experience, who stands high in the estimation of his acquaintances. The formal transfer will take place next Monday and the company will be ready for business Tuesday, May 1. John Buhl, lecturer for the movement which has been instituted by the

National Y. M. C. A. association in connection with the United States Army will be in Buhl on Thursday, May 3, and will be given a lecture at 7:30 the same evening. The place where Mr. Buhl will lecture has not been arranged for, though arrangements will be completed this week. Considerable interest is being taken in the Y. M. C. A. movement among the national guards and regular army regiments, since the break with Germany.

Ralph Morse, manager of the Buhl elevator, E. A. Miller, and Al. Herman have been appointed as a committee by the Commercial club to cooperate with farmers who are having trouble securing seed, or feed, to put in their crop this spring. Every effort is being made to have every acre of ground available planted to some kind of crop. Some of the farmers have not seed enough to put in a crop, or they do not have the money to purchase the high priced hay, and it is these that the committee will try to cooperate with.

E. M. Miller, Jr., purchased the stock to goods formerly known as the Peoples grocery, of which concern Frank Wiese was proprietor. However, Mr. Wiese sold his interest to A. M. Strangle, as was announced in last week's issue of The Herald, and Mr. Strangle in turn sold it to E. M. Miller, Jr. The deal was made last Friday, and Mr. Miller took charge of the store the following day.

The stockholders' meeting of the Farmers Union Trading company will be held in the office of the company on Saturday, May 5, for the purpose of amending the articles of incorporation. Effort is being made to have every stockholder attend the meeting or they are urging him to have his proxy in the hands of someone who will be there, so that two-thirds of the stock will be represented. It requires two-thirds of the stock present to amend the by-laws and the articles of incorporation.

## Put Your Boy Into Two-Horse Brand Overalls

Best-looking, longest-wearing and cost no more than inferior kinds. Banded rib and swinging white drill pockets that so quickly wear through.

**COPY OF MINUTES OF BOARD OF DIRECTORS OF TWIN FALLS CANAL COMPANY**

February 13, 1917.—Board met in regular session, all members present. The minutes were read and approved.

Moved by Wurtz, second Taylor, that the lateral be taken over by this company, extending 5 1/2 miles in a north-westerly direction around the butte, to a point near the west line of NW 1/4 SW 1/4 22-1-16, and thence into lateral 6, providing easements running to this company be provided, and the ditch necessary hereafter to be constructed to meet the approval of the general manager. Carried.

Moved by Parker, second Taylor, that water rights be transferred as follows from the BE 1/4 BE 1/4 17-11-20, and the NW 1/4 NE 1/4 20-11-20 part, NE 1/4 NW 1/4 and NW 1/4 NE 1/4 20-11-20 to the NW 1/4 NE 1/4 20-11-20, thirty shares, to NE 1/4 BE 1/4 and BE 1/4 NE 1/4 23-9-16, 40 shares, to the NW 1/4 NW 1/4 NE 1/4 14-13-14, 15 shares, subject to the usual conditions. Carried.

Whereupon, second Taylor, had till tomorrow morning at ten o'clock.

February 14, 1917.—Board met pursuant to adjournment, all members present.

Moved by Lincoln, second Barker, that this company sell to Charles Rector the BE 1/4 NW 1/4 28-1-14 (without a water right) for the sum of \$13,120.

Moved by Taylor, second Lincoln, that the contract for medical and hospital services to company employees for the ensuing year be let to Dr. R. O. Boyd of Twin Falls, subject to a contract to be approved by this board. Carried.

Moved by Kennedy, second Taylor, that the city of Twin Falls be permitted to change their point of diversion to a point on the high line canal in section 28-1-16, provided that the construction of the necessary opening in the high line canal be subject to the supervision and approval of the general manager of this company. Carried.

Moved by Wurtz, second Taylor, that the manager be instructed to advertise for bids for the excavation

of approximately seventy-five thousand cubic yards of earth for a cut-off in the main canal into Dry Creek for water right. Carried.

Whereupon, second Taylor, that this company purchase part of NW 1/4 NE 1/4 27-10-17 (14.12 acres) for sixty dollars per acre including the water right. Carried.

Moved by Barker, second Taylor, that the compensation of the two district watermasters be fixed at \$125.00 per month, and an allowance of one cent per mile for each mile traveled on company business. Carried.

Whereupon, second Taylor, that the meeting be adjourned.

February 27, 1917.—Board met in special session, all members present. Minutes were read and approved.

Whereupon, the bids for the Dry Creek reservoir improvements were opened, and there being but one bid submitted, they were taken into consideration. It was moved by Wurtz, second Taylor, that the same be rejected. Carried.

Moved by Barker, second Lincoln, that the bids for the purchase of three tractors be rejected. Carried.

March 13, 1917.—Board met in regular session, all members present. Minutes were read and approved.

Moved by Barker, second Lincoln, that the bills of J. H. Radcliffe and A. D. Hughes, for \$95.00 each for services in auditing the books be allowed, and the report of auditors be approved and placed on file. Carried.

Recess till tomorrow.

March 14, 1917.—Board met pursuant to recess, all members present.

Moved by Barker, second Wurtz, that the claim for damages of Ed Donahue be allowed for the sum of thirty dollars. Carried.

Moved by Wurtz, second Taylor, that the claim for damage of J. M. Kitchman in the sum of \$134.80 be allowed. Carried.

Moved by Barker, second Taylor, that the claims for damages of John Deede and Lloyd C. Stowe be taken under advisement. Carried.

Moved by Wurtz, second Taylor, that contracts with the Laird Concrete Co., and H. C. Stevenson for the lining of a portion of the high line canal be amended and approved by this board, subject to a

proper bond to be approved by this board, and the president and secretary are hereby instructed to sign said contracts on behalf of this corporation. Carried.

Moved by Barker, second Wurtz, that this company buy from the Armstrong Drilling Co. five water pumps, three No. 66 special, and two smaller with complete equipment, for the sum of \$890, f. o. b. Waterloo, Iowa. Carried.

Moved by Taylor, second Lincoln, that a contract be entered into with the Western Construction Co., for moving approximately 75,000 cubic yards of material on what is known as the "Murtaugh Lake Improvement" at the rate of thirty cents per yard for excavation and embankment. Carried.

Moved by Wurtz, second Taylor, that the claim for damages of J. W. Shobon in the sum of \$387 be disallowed. Carried.

Moved by Taylor, second Barker, resolved that for the purpose of maintaining and operating the irrigation works of this company and conducting the business of the corporation, and meeting the obligations thereof, there be and there be levied a special assessment, regardless as to whether water is used on or for said land, and the owners or holders thereof, against all the lands which water is actually used, and the owners and holders thereof, and against each and all the stockholders and water right holders in this corporation, as a toll assessment and charge, the sum of one dollar and fifty cents (\$1.50) per acre, share of stock or water right, the same to be due and payable as follows: On or before March 1, 1917, one dollar (\$1.00); and on or before September 1, 1917, fifty cents (\$0.50). The total amount thereof due from said land owners or holders thereof, or the owners or holders of such shares of stock or water right to be based on the number of shares of water rights owned by the owner of such land, equally and ratably.

Resolved that the officers of the corporation be, and the same are hereby directed and authorized to collect such toll, assessment and charge, and take such steps as may be necessary to proper towards securing, perfecting, maintaining or foreclosing any lien which this corporation may have on the land or on any water right or to collect the same.

And, furthermore, the general manager of this corporation, is hereby authorized and expected to cause to be delivered to any water user or claimant any waters from or through the irrigation works of this corporation, until said toll, assessment and charge has been fully paid, or the same secured to the satisfaction of the secretary of this corporation.

Upon the question being put the yeas and nays were called with the following result: Ayres—Kennedy, Wurtz, Barker—Lincoln, Taylor—Navy—20; Opposed—None. The president declared the motion carried.

There being no other business the meeting adjourned.

**Murtaugh News**

**Times' Special Correspondence.**  
Mrs. and Mrs. R. R. Kondall and Mrs. E. C. Chane spent Sunday in Kimberly, guests of Mr. and Mrs. V. A. Baker.

Rev. Barker, presiding elder of the M. E. church, preached a very interesting sermon here Sunday night, holding quarterly conference after the meeting.

The recruiting officer was in town Monday and examined six of our young men for the army. Joe B. Ringer, Art Williams did not pass. Dave Williams, Edwin Reas, Raymond and Elmer Roberts left on the night train for the Lake City where they will then be sent to San Francisco for training. A large crowd was at the station to see them off.

Mrs. Hoover and wife are both quite ill in the Twin Falls hospital. We hope for their speedy recovery. Mrs. Hoover has chronic tonsillitis and baby bronchitis.

Miss Montgomery of Twin Falls is visiting her aunt, Mrs. A. O. Lee.

Misses Bailey and Gertrude Hall spent Sunday with Miss May Hall and her father.

F. Lee Johnson transacted business in Murtaugh Thursday.

Prof. Davis spent Saturday at Castletown looking after his farming interests.

Mrs. J. A. Johnson returned home from Twin Falls Friday evening where she had spent a few days with her son, F. Lee Johnson and family.

Several transacted business in Twin Falls and took the show "The Eyes of the World."

Passengers to Twin Falls Saturday were Headman Kendall, Chancé, Truax, Woodland, Lee, Woodland, Tracy, Misses Blanche Horvack, Bertha Bancroft, Cella True, Gertrude Beers and Ethel Whitman. Mrs. E. D. Hunt, Roy Hunt, P. Worrall, Mrs. James Boyd was in Twin Falls Sunday.

Levy, Jahn and Carroll True spent Sunday in Twin Falls.

Mrs. and Mrs. E. D. Hunt, Roy Hunt and Miss Bertha Bancroft, motivated by the spirit of Sunday devotion, visited the home of Mr. and Mrs. Dave Hossa.

One of R. I. Day's sons has joined the army.

Mrs. F. Lee Johnson of Twin Falls came up on the morning train Monday to attend the funeral of Wm. Walker.

On Saturday morning at 4 o'clock, Wm. Walker, Jr., was called home from this earth after 70 years of suffering. He was a devoted father and the only child of Mr. and Mrs. Wm. Walker. Funeral services were held at the home Sunday afternoon at 1:30, after which the body was taken to the funeral and laid to rest in the Twin Falls cemetery. Rev. Bent of

Twin Falls preached the funeral sermon, assisted by J. I. Tolman, who gave a talk on the young man's life as he had known the parents for 20 years, and the son's death. William had been raised in Cassia and Twin Falls county as was widely known. The choir, consisting of Meadames Tolman, Hunt, Davis, Ellis, Fahy, Childs, and Chancé; Messrs J. I. Clifford and Roy Tolman, Fred Wahlberg, Elmer Chancé and Mr. Childs rendered the music. The pall bearers were his intimate friends and neighbors, Melvin Walker, Charley Walker, Rufus Hanson, Sherman Hanson, Mr. James and Cranter. The floral offerings were beautiful and large in number. He was laid to rest in a bed of flowers as tokens of love from relatives and neighbors. Several relatives of Oakley and Montau attended the funeral. The hearts of the entire community are in sympathy with the parents in their deep sorrow.

**RURAL CARRIER EXAMINATION**

The United States Civil Service Commission has announced an examination for the county of Twin Falls, Idaho, to be held at Twin Falls on May 26, 1917, to fill the position of rural carrier at \$2,000 per year, and vacancies that may later occur on rural routes from other past offices in the above-mentioned county. The examination will be open only to male citizens who are actually domiciled in the territory of a post office in the county and who meet the other requirements set forth in Form No. 377.

Applications may be obtained from the offices mentioned above or from the United States Civil Service Commission at Washington, D. C. Applications should be forwarded to the Commission at Washington at the earliest practicable date.

## My Sunday Biscuit-treat

(Report No. 4) By a light housekeeper

I'm proud of my little kitchen—way up next the roof—in our big apartment house. And every Sunday morning at 8:30 you'll find me here making biscuit. Even after my hard week of office work I don't mind—the recipe is very simple.

First, I'm particular about my shortening. I use nothing but creamy, wholesome Cottolene. It shortens the biscuit, shortens the labor and I find, sometimes time.

If you'll imagine you're watching me, you'll see why.

Into the sifted flour, baking powder and salt I blend a level tablespoonful of my wholesome shortening, very lightly. See how quickly it creams. It feels like silk under my fingertips. I add the milk, working rapidly, pat gently, roll, out.

Now into the oven! I want you to notice how nicely that wholesome biscuit comes to a rich brown. How crisp and flaky it is!

If I neglect to serve these delicious Cottolene biscuits, Sundays, in vain I offer other breakfast dainties. Across the table reproachful glances say—plain as words—'What? No biscuit?'

For a morning treat why don't you try these quick Cottolene biscuits? They'll put wholesomeness into the whole day.

From I. G. S.

**FREE!** Check book containing 239 recipes by famous cooks sent free. Write to The N. K. Falco Biscuit Company, 111 West Washington Street, Chicago, Ill.

# Cottolene

Makes Good Cooking Better

Yes! Cottolene is also superior for frying and for all cake-making.

# THE TWIN FALLS TIMES

Published Tuesdays and Thursdays by the TIMES PRINTING & PUBLISHING COMPANY, Ltd.  
C. L. LONGLEY, General Manager  
\$3.00 PER YEAR IN ADVANCE

Notice—Discontinuance Many subscribers prefer not to have their subscriptions interrupted in case they fail to remit before expiration. Notwithstanding this it is not assumed that continuous service is desired; still, subscribers are expected to notify us with reasonable promptness to stop if the paper is no longer desired.

(Entered at the Twin Falls post-office as second class matter as a twice-a-week publication, October 18, 1914)

The appearance of the Stars and Stripes on the battle line for Freedom, in France, would thrill the heart of every loyal American. But the reasons why such an event could not and should not occur in the near future have seemed insuperable. However, the decision of those in authority at Washington is the decision of the American people, and it now looks as if the dream of again bringing the tricolors of France and of America together on the same battle line might be speedily realized.

The purchase of American bonds to fund a corps of doctors and ambulances, but the flag will go with them, and the man with the gun will not be very far behind, and there is no doubt, as pleaded by the French representatives, that the moral effect will be great.

The "Statesman" pertinently says: "The rats pass of men of American birth but of German descent who are proving disloyal to this country are arousing much comment, but the loyalty of millions of American-born boys of German descent, passes nearly unnoticed. For instance, at Milwaukee, the enlistments of young men of German parentage are four times greater in number than the enlistments of any other class of Americans—but that happy and significant fact is overlooked."

The TIMES has brought nothing to its readers on this tract of more interest or of higher importance than that which is presented by Mr. Swin's article on the canal situation, published elsewhere here. It is in the unchallenged facts in the case, and will, if we mistake not, be followed by further discussion from informed and interested persons—to whom the columns of the Times are always open.

Oregon's governor begs that the war department stop recruiting from the rural districts of that state until the men shall have done their share in alleged serious shortage of agricultural labor. The proposed conscription law will mean that which is one of the things it is intended to do.

While the British mission affirms the rate-of-destruction of our flag during the recent weeks has remained unchanged, Secretary Lano avows it to be great and menacing to the United States as well as Europe.

Lieut. Thomas, commander of naval guard, and William Gardece, of Cincinnati, were lost with many others on the steamer Vacuum, torpedoed Saturday.

In the effort to avoid congestion, Canada is planning to bring all her railroads, except the Pacific, into one system, under a single management.

The military authorities of Germany have offered reward for arrest of agitators—testimony to active labor trouble.

The bread-leaf has been shrinking, of late, almost as fast as the fabled snowball in Gehenna.

St. Louis hotel and restaurant men have agreed upon one "meatless day" each week.

Although she has broken relations with Germany, Brazil still claims to be neutral.

## PACIFIC COAST HAS ANOTHER STAR PLAYER

Charles Hollocher of Portland Proves Worthy Successor of Previous West-Coast Finds.

By H. C. Hamilton  
(United Press Staff Correspondent)  
NEW YORK, May 3.—Walter McCredie, manager of the Portland-Pacific Coast League club, is ready to send another shortstop to the major leagues, and McCredie has already declared he is ready, and will stick just as surely as some of the others McCredie has turned up.

McCredie has accumulated a habit of sending shortstops to the majors, sprinkled around over both circuits is a smattering of former Beaver shortstops.

Roger Peckinpah, now captain of the Yankees and one of the smallest and cleverest ball players in either league, was the first of the donations of any importance. McCredie dispatched him to Cleveland, but he was dropped there because shortstops were in demand at Cleveland park. But he went to New York and immediately made good.

Ivan Olson was next. Ivan has a "whole of a lot" of talent, and with the stick, but he is recognized as a smart ball player, one of the wise fellows who are invaluable to a baseball manager. Olson was sent to Cleveland, and he went to New York last winter to take over the management of that club, but the big league clubs would not touch him. He was sent to Cleveland for some time and just before Joe Birmingham and the Cleveland owners threw their hats in the ring for the position of shortstop, Olson was named as the possible successor to the Cleveland manager.

Then there came Dave Bancroft, starting the day for the Phillies. It has been said of Bancroft that it was due to him that the Phillies won a pennant in 1915. Of course, every one knows that Bancroft was a great player, and he is recognized as a great player.

## POTATO DAY NEXT

Everyone Who Can Invited to Bring a Spud to the School to Furnish Seed.

The following has been received by THE TIMES in the name of The Associated Charities, asking that all who can do so, especially school children, bring a potato to the school for the spring crop in the manner set forth: Realizing that under existing conditions and prices, the amount of potatoes available is very short, the school next winter is a problem. The Associated Charities plans to collect seed through the school children, and any other children who are able to give a potato to the school, we to furnish seed and sacks. So we are in the market for donations any where from five-pounds to one-hundred pounds.

Children are invited on you. Some of us came to you of homes where not a meal of potatoes has been cooked since last November. Think of it, you who have them twice a day, if potatoes are plentiful at your home. We will be glad to have you bring more than one, but bring one anyway, even if you have without potatoes for dinner one day. Boxes to drop them in will be in the halls, and a captain will be chosen from the boys, with others equally, to will transfer them to sacks after school—ready for the wagon.

## SMALL ITEMS OF WAR NEWS FROM MANY PLACES

(United Press)  
LONDON, May 1.—Final returns in a nationwide census of horses, mules, cattle, sheep, pigs and agricultural instruments are due in Great Britain today under a war department order.

NEW YORK, May 1.—School teachers of New York are completing today a census of all vacant lots in Great New York available for use in the home garden movement.

SHELTON, Pa., May 1.—Ten percent wage increase in Bethlehem Steel Company plants at the Sparrow's Point and at Lebanon are effective today. They affect several thousand munition workers.

NEW YORK, May 1.—Columbia University will open a military training camp for students and alumni at Dyers Park today at the first step in a plan to add courses in military tactics to the regular university course.

## PERTINENT POINTS.

After wondering why the farmer makes such a mess of handling his crops, a husband and wife in the average man decides that he will not have time to cultivate a patch 10 yards square in the back yard.

Another thing occurring on correct schedule time is the accidental burning of all these grain elevators.

The politicians who are trying to make political capital out of the war are fast creating a political deficit.

## GREAT CANAL PROBLEMS THE "SITTING IN TIME"

(Continued From Page 1)

water. Mr. Porterfield's report fixes the maximum capacity of the main canal at Hill at 4,500 second-feet, but year during the height of the irrigating season it was made to carry 3,800 second-feet of 300 second-feet beyond its normal capacity. This overloading was made necessary by the overloading of the abnormal losses which are permitted to occur in various parts of the system. The most important of these overloads are startling, however, when one contemplates the possible loss which may result therefrom. The report says, "A break and the treatment here two miles below Hiller last August resulted in shutting down the canal for two days in an effort to locate and stop the leak by trenching and pumping. It was soon evident that the trouble was too deep to be reached in that way and the leak was finally stopped by driving sheet piling in the bank. The sheet piling was found to be ten feet below the bed of the canal. Measurements made on this part of the canal will indicate a loss of water of somewhere from 300 to 450 second feet.

Certain portions of the canal bank at Dry-Creek reservoir have become so saturated with water that the whole structure is fastening out. This embankment, like every canal bank, has no concrete core. A break at this point, if it occurs at all, will occur almost surely at the height of the irrigating season and by the time that great volume of water stored in this reservoir has torn its way through the canal banks the gap would probably be 100 feet wide. Furthermore, it would be required to repair the damage. The injury to growing crops, of course, would be beyond repair and would amount to several times the cost of putting the canal system in good condition at once. 3,800 second-feet, the amount of water which we flooded into the main canal at Hiller last year, represents a full supply for 282,800 acres. We did not have that much land in cultivation on which to use this water—by more than 100,000 acres. Furthermore, the water in certain sections of the tract had their supply cut 10 per cent during a portion of the irrigating season. We expended a less than average amount of water, but we are not to be faulted for that. The losses disclosed by this report, however, are no inconsiderable subject for correction, that we must face the responsibility and apply the remedy.

Mr. Porterfield estimates that "An expenditure of \$50,000 can be made in concreting canals that will save somewhere between 500 and 600 feet of water. This will not only save the present bleeding shortage but leave an amount, the minimum of which sold at the present price of \$2.00 per acre, will nearly pay the bill."

Which is better business policy, to supply that half million or a million dollars, if necessary, to put the canal system in good condition, making it safe from disastrous breakings and capable of delivering the water to all of the stockholders according to their respective rights, or to save the interest on the half-million or million dollars of expenditure and run the risk of losing through some "disastrous" break several times that amount in crop-damage in a single season?

If any difference is justified in the relative capacity of the Hillier and the Lowell canals, the Hillier should be the larger as any excess from this territory can be used on land under the Lowell.

The highest delivery to the Hillier at the works of the two canals prior to 1916 was 875 feet. This supplied only 75 per cent as much water per acre of cultivated area as is supplied to the Lowell canal. The defects of the Hillier have been remedied to a partial degree by doubling the capacity of the Cottonwood flume and by enlarging the capacity of the whole canal. Cedar Draw west. It seems that this lower end of the Hillier canal now has sufficient capacity to meet the present demand.

Part of of the canal system west of Cedar Draw may be assumed to have a sufficient capacity since the water was done on it in the winter of 1915. At the Cedar Draw the Hillier evidently needs widening in some places, deepening in other places and several miles of cementing in the Rock Creek neighborhood. A heating is now being made by concreting a mile in the neighborhood of Rock Creek. This is a start, but why, so to speak, the work must be stopped at the work places strengthened and the capacity of the canals increased to meet the needs of the water users. Why not push the work along vigorously instead of doing it so slowly?

SOME men do not understand. They are genuine bores. S. Henry Bolton tries to be a gentleman and is considered to be a salesman. Do you know him? Yes. Adv.

The cost of doing it right and doing it now will be vastly less than to do the same thing in ten years or twenty years from now when the water damage in some localities and shortage of water in other localities, to say nothing of practically certain disaster in winter on account of frost damage, it cannot be done in autumn on account of interference with water delivery. We have but two seasons of the year when it could be done—a few weeks in the fall and a few weeks in the spring. It is up to the Canal Board to employ bigger forces of men at these seasons, for the year and to push the work along many times faster than it has ever been done before.

Maintenance charges, it is true, are higher than they used to be. They are likely to go higher yet. It should be borne in mind, however, that our so-called "maintenance" charges represent only a very small part of the cost. These charges will never be less until we have strengthened the weak places and stopped the water thereby cutting out big annual charges for repairing breaks and for fighting seepage.

It should be borne in mind that the water of Idaho are the property of the state and that our so-called water "rights" are privileges granted by the state subject to the condition of beneficial use. These rights are revocable when this condition is not complied with. This is in accordance with common sense and good public policy. It is one more good reason why we must not continue to permit the present extravagant and unnecessary waste of water.

It is almost a criminal waste for us to permit the abnormal and excessive losses of water to continue, when some of our own stockholders are not receiving the water for the full amount of the reasonable cost, conserve not only a full supply for all possible demands under our own distributing system—but a sufficient surplus to solve the water shortage problem for our neighbors on the Salmon tract.

DO now what you wish you had done 10 years from now. Insure in Montana Life Insurance—S. Henry Bolton. Adv.

LOCAL BREVITIES

Back from Trip—Henry Bolton is back from a business trip to American Falls, Blackfoot and Aberdeen.

Corner Stone Laying—The cornerstone of the new Presbyterian church will be laid with appropriate services at 11:30.

Steady Frost Hit—Ten boys of Troop Two, of the Twin Falls Boy Scouts are taking first aid lessons from Dr. Crossland and are giving lessons in it to the other members of the company.

Star Spangled Banquet—What was known as the "Star Spangled Banquet" dinner was served at the Regency Saturday night in honor of S. Henry Bolton.

Here For Conference—F. D. Farrell head of the agricultural demonstration work of the United States and Professor E. F. Hinchey, who has charge of such work on the Mindoka project are here this afternoon.

Organizing Carey—Dr. George O. Bishop is in the Carey neighborhood this week organizing the farmers to fight the hog cholera.

Should Have Said—Police Judge W. J. Smith has been cultivating his right foot with a garden rake, with the result that member no longer performs to 100 per cent capacity.

Short-Handed It Right—The TIMES is decidedly short-handed this issue and has cut things to the essentials.

Dr. Fleisher Coming—Dr. John W. Fleisher, state ophthalmologist and financial agent of the Children's Home Building and Aid society of Idaho, will bring therapy shortly in the form of a new institute for the blind.

These Officially Examined—The following is a list of those officially examined medically by Captain H. W. Wilson for entrance to the officers training camp at Camp Wheeler.

One Good Entertainment—That is what was declared by each one of the two hundred persons who heard and saw the little comedy drama "A Little Night at the Pariah Hall, Tuesday evening.

Behind the Scenes—The intangible, beloved Mary Pickford's latest characterization is that of the little actress in the well-known drama of theatrical life, "Behind the Scenes."

Work Clothes and Furnishings. Special Dept. of Work Clothes and Furnishings.

Auxiliary to C. W. H. M.—The regular weekly meeting of the Auxiliary of the C. W. H. M. of the Pariah Hall church will be held in the parlor of the church Friday afternoon at 3:30.

The F. E. O. S.—The F. E. O. S. for the month of May will be given Friday afternoon, May 4, at the Pariah Hall, from 2:30 until 5 o'clock.

Married at the Baptist—Marriage by the Rev. O. T. Anderson on Tuesday afternoon, May 1, at 4 o'clock, C. W. Second and Mrs. Elita Peterson, both of Twin Falls.

The Boy Scouts—Troop No. 2 will meet Friday night with Conrad Maglio in the Pariah Hall.

Annual Election—May 5.—The Central Parent-Teacher's association and the high school branch will meet next Tuesday evening at 7:45 at the auditorium of the Pariah Hall.

Three Great Men Dies.—The funeral of John H. B. Frank, of Cranford, who died in a local hospital Saturday, was held from the Grossman & Eames chapel Monday.

Fidelity Changes Hand.—The ownership of the Fidelity Abstract & Trust company has passed from H. K. Hughes to Paul R. Taber of this city.

Short-Handed It Right—The TIMES is decidedly short-handed this issue and has cut things to the essentials.

Dr. Fleisher Coming—Dr. John W. Fleisher, state ophthalmologist and financial agent of the Children's Home Building and Aid society of Idaho, will bring therapy shortly in the form of a new institute for the blind.

These Officially Examined—The following is a list of those officially examined medically by Captain H. W. Wilson for entrance to the officers training camp at Camp Wheeler.

My dear Mother: I am sure you will say that having photographs made has become a habit with our family. After we had the children's portraits it really seemed that Frank and I should have ours to make the set complete. Our negatives were made singly and the prints will be mounted together in little folding leatherette books. We are going to lay away one book for each of the children; they are too small now to greatly care for them but we know how they will appreciate the portraits later.

Idaho Theatre. EVERY AFTERNOON AT 5 O'CLOCK. GRAND EVENING AT 7:30. WALLACE REID AND MYRTLE STEDMAN IN "The Prison Without Walls" by Beulah Marie Dix. SEE MAX LINDEE. The comedian with the irresistible smile in a feature comedy "MAX COMES ACROSS". Two Big Acts of VAUDEVILLE. Ball and Sinclair in a clever Banjo and Singing Skit. "Gemini" in Gems of the Dance, a Quick Change Surprise Act. FRIDAY AND SATURDAY.

# FOR BETTER ROADS

## MOTORTRUCK ROAD ARRIVED

First One on Record Being Constructed Between Los Angeles and San Pedro.

The motor-truck road has arrived. The first one on record is being constructed by Los Angeles, Cal. It is a 40-foot width of waterproof macadam, covered with eight inches of solid concrete, and with an elastic bituminous "curb" over the whole.

This road is more durable than those built merely for pleasure vehicles or light motor-trucks. In construction and purpose it is a sort of compromise between the ordinary highway and the railroad. It provides the kind of road needed for the heaviest sort of hauling, and by segregating the slow, ponderous, truck traffic it benefits the lighter traffic on other roads.

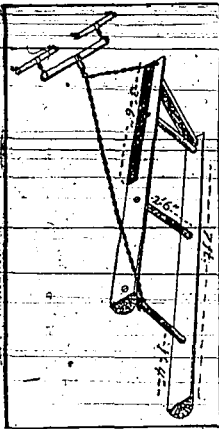

The innovation is sure to be widely followed in this, where conditions are similar. There may be truck roads established in all populous communities. Then we may see steady streams of great gas-driven trucks hauling freight along the established routes, relieving the pressure of traffic on common highways and supplementing the work of the railroads. It will be a valuable addition to our transportation systems. New Bedford (Mass.) Times.

## NEED OF HIGHWAYS SYSTEM

Concrete or Brick Surfaces for Heavy Traffic, With Macadam or Gravel on Other Roads.

(By D. WARD KING.)

What we need, and in time will have, is a system of highways which will result from the largest cities to the doorway of the humblest citizen—villager or farmer. Such a system of highways will include trunk lines with expensive concrete or brick surfaces for the very heavy traffic, including trucks and automobiles. Less used but important roads may be of water-

King Split-Log Drag.

bound macadam or gravel. Perhaps in certain regions where stone and gravel are not at hand oiled roads may prove most economical and practical. Minor wagon ways and remnants of native soil, built and maintained with the road drag. Meanwhile antagonism to road dragging breeds in a lack of information or a narrowness which fails to comprehend the facts.

## IMPROVE ROAD BY DRAGGING

Every Farmer Drags His Front Gate to His Neighbor's Front Gate Towards Town.

Out from all the stories I've heard about good roads, and taxation there is one significant fact: Good roads can be made in normal soils by dragging. The factor in making dirt roads is water. Drag your road so as to make it shed water and you will have the best all-round highway on earth.

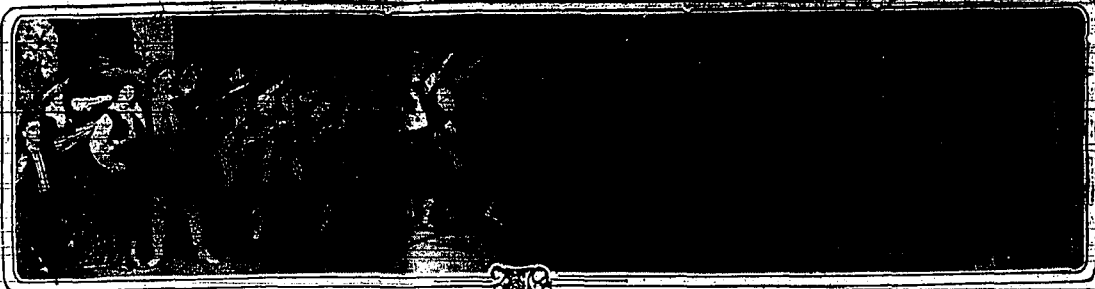

It can be kept in repair with small cost if "every farmer drags from his front gate to his neighbor's front gate towards town."

## Roads Attract City People.

Better roads bringing city families out to the country frequently in their automobiles to visit farm families and to purchase supplies of them will act as an incentive for better general and special methods of farm-food production.

## The "Invisible" Road Tax.

Broken harness, wagon, buggy, automobiles, are part of the invisible tax the owners pay annually to poor roads. This tax is said to be greater than the cost of the road maintenance.

Scene from "The Serenade," a Three Act Comic Opera to be presented at the Lavering Theatre, Thursday, May 10.

## MIDDLE-AGED MAN'S CHANCE

War Gives Him Opportunity to Return to Service in the Business World.

Chicago.—War clouds already have resulted in giving the man of middle age his opportunity to return to active service in the business world. Employers today are giving the preference in jobs which both can do equally well to the man who is not available for military duty, instead of to the man who may be called to war.

So reports the Employers' Association of Chicago, which last fall undertook to put the man whose age has caused him to be regarded as "through" into a position where he will be independent of military duty. "The prejudice against the man of more than forty-five rapidly is vanishing as a result of our experiment," said Peter J. Duane, manager of the employment bureau. "Slowly, but surely, the employer is beginning to realize that the middle-aged man still is able to do a man's work and often better than the untrained youth. There has been a perceptible jump since war has been hovering over us. This oldster will be very useful when the young man is called to the defense of his country."

## OIL KING AT PLAY

New Photograph of John D. Rockefeller playing golf on the links at Daytona, Fla.

## EVEN PICKLES ARE HIGHER

United States Government Buys Thousand Barrels for Army and Navy.

New York.—A government order for several thousand barrels of all pickles in the army and navy has served to increase the price of next season's crop at Riverhead and Calverton, L. I., where a large part of the pickles are grown. Yesterday, J. Fred Smith, buying agent for a large Brooklyn pickling house, was interviewing farmers at Riverhead and Calverton regarding next season's crop. He made as many contracts as he could sign up for the entire crop, the price being \$3 per thousand. The ruling price had been from \$2 to \$2.25.

Farmers expressed the belief that the government's concern over next season's pickle crop indicates a move for food preparedness, all along the line as pickles are regarded more in the light of a luxury than a necessity.

## Urged to Study Chinese.

San Francisco.—Every California schoolchild should be taught to read, write and speak the Chinese language fluently. This was the statement of Julian H. Arnold, American commercial attaché to China and Japan, in a speech at a Commercial club luncheon, at which the China Commerce Club of California was organized.

## Vote Offer of the Campaign

### Do You Want This \$500 IN GOLD?

## The present offer is absolutely the greatest and biggest offer of the campaign. Remember this offer expires May 1, at 9 p. m.

**FARM BUREAU ACTIVELY SEEKING NEW MEMBERS**  
County Agent W. N. Birch is not allowing any grass to grow under his feet in the campaign for new members for the farm bureau. This week he sent out the following circular letter to as many non-members as he could find:  
In the present war the farmer will play a very important part. In order that you may be able to do the greatest amount of good, the executive council of the farm bureau point out that it is necessary for you to become a member of the Farm Bureau at once.  
Show your patriotism by sending your membership fee of one dollar now, without further delay, to the secretary, W. F. Edwards, The department of agriculture at Washington urges co-operative farm organization, therefore we urge you to immediately join your farm bureau. We can help you and you can help Uncle Sam in his present difficulties.  
Communicate your wants to the largest number of people by inserting them in the TIMES' classified column.

### FRENCH CAPTAIN GETS PROMOTED AN ACE

Remarkable Aviation Record of Captain Matton in the War on Front—Has Brought Down Five Planes.

(United Press) WITH THE FRENCH ARMIES, May 3—Captain Matton of the French aviation service, who has just been promoted an "ace" for having brought down his fifth German machine, has also to his credit aeroplane combat with machine balloons, anti-railway trains and with automobile convoys. The list of his exploits demonstrates to some degree that extensive operations in which the aeroplane has come to be used by the French in the present war. Matton's rise from the grade of second lieutenant to that of captain and his entrance into the ranks of the "aces" is one of the shortest that the war has produced.

Just eight months ago Matton was merely a second lieutenant, without an enemy machine to his credit. His first victory came in July 28, 1916, in the thick of the fighting at Verdun. In company with two other French aviators he attacked a German bombardment squadron of fourteen machines.

The one which he picked out for his victim was quickly forced to land within the French lines near Souilly before it could accomplish its mission. It was an abridgment of the latest type armed with two machine guns. The enemy crew was taken prisoner, the pilot alone being wounded, and the machine itself captured. In such good condition that the French aviators flew it themselves the following day.

In November of last year, Matton had his first combat with a floating military train. While reconnoitering enemy territory north of Montaucaun, he sighted the German train laden with troops and material, extending to within a couple of hundred yards in order to get accurate aim he raked the entire train for its full length in time and time again with his machine gun. The troops whom he put up a vigorous defense with their rifles but Matton exhausted his machine gun magazine before giving up the fight.

In less than a month Matton brought down his second German airplane in a duel in which he killed the machine-gun operator of the enemy machine and forced the pilot to descend. These and other exploits brought him up to the ranks of a captain before the end of his first six months as an aviator. On February of the present year, he took his first try at an enemy sausage. To the uninitiated a sausage balloon looks like "pie" for an aeroplane to attack. In reality, it is the most dangerous and difficult of enterprises. The big stationary balloons are always precariously held in the most possible extent both by the enemy's

airplanes and the anti-aircraft guns. The balloon too is usually so near the earth as to bring the attacking aviator within the closest possible range of the enemy. Worse yet, these balloons are used for anchoring the sausage to the ground. They are practically invisible and it is the attacking aviator inadvertently flies into one of these, his machine is smashed and hurled to the ground.

Matton successfully evaded all these dangers and with his machine gun charged with incendiary balls set fire to his first sausage in the vicinity of Metz.

The bringing down of the other German airplane necessary to rank him as an "ace" then varied by a fight with a German military automobile-convo.

While reconnoitering March 22, in enemy territory near Chavonne, Matton sighted the convoy, headed by "Hoin's" Dropping to within 250 yards of the earth, the aviator made three separate attacks on the convoy, swooping it only time for its full length with his machine gun. The chauffeurs and machines replied hotly with their army rifles, but again Matton was able to exhaust his magazine and escape.

There are only eight more days left of the first special vote offer, the next vote offer of the campaign will be only one-half as great as the present one. The first offer closes promptly at 9 p. m. Saturday, May 12, 1917. The candidate who turns in the most money before Monday, April 30 and Saturday, May 6th will be awarded \$15,000 in gold, the next two highest candidates will be awarded a new patent car at \$10,000 each, the third highest, on Cloushore street. These prizes are well worth striving for.

There is only one way to win in this campaign and that is success in the campaign. Calling on every home in your neighborhood will lead the desirable candidates up the avenue of success which will reach the most valuable prizes at the end of the campaign on June 30th. If there is any candidate that desires any assistance in the campaign they are requested to inform the campaign manager by calling in person or by calling 38. There is no charge for nominations. If you have been thinking about entering do it today by calling 38.

Asked with reference to the instructions received here, Sheriff F. M. Kendall said that he would not give out anything for publication until formally notified that any official communications which might be in his possession had been released.

### IDAHO IS READY FOR SELECTIVE REGISTRATION

Instructions Said to Have Been Sent Out—Sheriff Kendall is Non-Communitative.

BOISE, Idaho, May 3.—Everything is in readiness to proceed under the draft system for the securing of registration, as soon as the army bill has passed Congress and receives the signature of President Wilson. Instructions have been sent to the sheriffs of the several counties so that they can proceed with due expedition. Adjutant General C. S. Moody as agent for Governor Alexander will have charge of the work.

It is understood that when the conscription bill is signed it will be the duty of the sheriffs to have charge of the registration of all males of designated ages, which registration must be made before the usual registrars of the usual precincts, each man eligible for registration to be required under penalty of arrest and imprisonment to appear upon a date to be designated by proclamation of the president and to register and answer such questions, as may be required of the registrars under the law. Forms for this purpose will be sent direct to the sheriffs from the war department at Washington immediately upon approval of the act, and it will be made the duty of the sheriff to see that there are registrars in each precinct and that these blanks and registration supplies are delivered within eight days after the approval of the law even though in order to do so it becomes necessary to send special messengers. It is expected to have this registration completed throughout the nation within ten days or two weeks after the president signs the bill. Precinct registrars will be instructed to make full return of all registrations immediately to the sheriff, executive members of the county board of control, or be tabulated, compiled and reported by that

board after the manner of the county board of canvassers under our state laws. To the county board of control, that is, the sheriff, clerk and the county physicians will fall the duty of having charge of selecting troops under the draft, full instructions for which purpose will be sent in due time.

### EPISCOPALIANS TO HOLD STATE CONVOCAION HERE

Gather From All Parts of the State Wednesday Evening—Public Invited at All Services.

Next Wednesday evening the annual diocesan convocation of the entire Idaho Episcopal church will convene in this city at 8 o'clock p. m., in a meeting at which there will be large delegations of women representing various branches of the guilds and the Women's Auxiliary. The convocation will be opened with special service in Ascension church at which confirmation will be administered by R. Rev. James B. Funston, bishop of Idaho. The sermon for the evening will be delivered by Rev. John H. Dickenson of Pocatello. The services will be followed by a reception in the parish hall in honor of Bishop

and Mrs. Funston, the delegates and the candidates for confirmation. On Thursday morning there will be corporate communion at 10 o'clock with Bishop Funston as celebrant, at which time the annual episcopal address will be delivered. In the evening there will be a missionary rally at 8 o'clock to which all are invited. There will be good speaking and excellent music. Friday morning Bishop Funston will conduct a special service in the church, to which a general invitation is extended. Friday evening there will be another special service with speakers of especial ability and with special music. The subject of this service will be "The church and its Service to Humanity." The convocation will adjourn at noon Saturday.
