

# WAR DEPARTMENT EXPLAINS SYSTEM OF REGISTRATION

### TELLS HOW LAW FOR COMPULSORY SERVICE WILL BE ENFORCED WHEN ENACTED

## GOVERNOR MADE CHIEF OFFICER OF REGISTRATION

### Those Unable to Register in Person May Send Registration by Mail If They Get It To Proper Officer In Time.

(United Press)

WASHINGTON—There was a time in the country's history when military enumerators, backed by bayonets, went out among the people to take a compilation of their names. Now under the principle of universal liability to service the execution of the law is put into the hands of the people, the approval of the new national law and the president's proclamation thereunder will be coincident. All persons within the age limits prescribed by the law will be required to register at the customary places in voting precincts in which they have permanent homes on a day which the president will announce. The probability is that from ten to fifteen days will elapse from the passage of the bill and registration day.

The governor of each state will be the chief of registration therein. The machinery of registration in each county is to be in charge of the sheriff, acting ex-officio, unless a different board shall be announced by the governor. In cities containing a population of more than 3,000 the registration will be under control of the mayor and selected boards of registration. In order that the designated county and city officials, and the people generally, can get a clear understanding of the census methods, the following brief outline is given:

The sheriffs or other designated officials, immediately upon receiving notice from the governor, shall appoint registrars for each voting precinct.

The proprietor of registrars shall be one for each 100 persons to be registered. Each age to be registered will comprise about one per cent of the population. If, for instance, all men between 20 and 25 years of age, inclusive, are to be registered, the registrar would have to enroll about seven per cent of the precinct population.

It is desirable to accept the services of competent volunteer registrars to service without compensation. All registrars must be sworn in the voting place in each precinct must be prepared for registration. Full printed instructions covering every detail of registration will be in the hands of sheriffs and mayors in the 10th day after the president's proclamation.

The mayor of a city containing more than 30,000 inhabitants or the official designated by the government therein, shall, with approval of the governor, appoint for each ward or convenient minor subdivision containing about 300 people, one registrar to be sworn in the hands of one officer of each board to perform the duties similar to those imposed on the sheriff, as heretofore outlined. If the mayor desires, he may appoint a con-

tral board to co-ordinate the work of minor registrars.

On the fifth day after the president has issued his proclamation, clerks of counties and cities of over 30,000 must secure a supply of blank registration blanks filled out. In no case shall such persons be given registration certificates. They are to be instructed by their clerks to have the registration blanks filled out. In no case shall the registrars of their home precincts by registration day.

The absentees will be told how their names may be registered by mail. If so absent, a man should go to the clerk of the county, where he may be staying, on the sixth day after the president's proclamation. If he is in a city of over 30,000 population the city clerk is the official to whom to apply. The absentees will be told how in time to reach his precinct by registration day.

Persons too ill to present themselves for registration must send a competent person to the county or city clerk on the sixth day after the issuing of the proclamation. The clerk will instruct for registration.

Officials of educational, charitable and other institutions should apply for instructions to the county or city clerk on the sixth day after the date of proclamation as to a convenient method of registration.

The wardens of jails, penitentiaries and reformatories should apply to the county or city clerk for instructions on the sixth day.

Five days after the date of the president's proclamation, complete regulations will be in the hands of all sheriffs and of the officials of cities of over 30,000 population.

The president is authorized to call upon all public officials to assist in the execution of the law. It is expected that patriotic citizens will offer their services as registrars. Such services will be gratefully acknowledged.

Volunteers for this service should communicate immediately with the proper officials.

## IDAHO SPUD LATE TO GO TO COMMERCE COMMISSION

The Idaho potato-utility commission has prepared and issued its brief in the celebrated potato case pending before the interstate commerce commission entitled Northern Potato Traffic Association versus the Atchison, Topeka & Santa Fe Railroad company, says the Capital News. The Idaho commission is an intervenor. The decision of the interstate commerce commission is of vital importance to Idaho shippers and growers of potatoes.

Briefly summarized the question involved in whether the Minnesota and northern potato shippers or the Idaho and western shippers shall have preference in the Texas and other southern state potato markets. The Idaho commission holds there is no settlement in the regard that will warrant or justify the interstate commerce commission in finding that the rate from Minnesota to Texas is unreasonable, or that any discrimination exists in favor of Idaho against Minnesota and Wisconsin.

## ARGENTINE TO GO AFTER ALL PRESENTS

(United Press)

BUENOS AIRES, May 8.—The educational authorities here have taken a census of Argentine children of school age. The plan is to compare the total with the total number of children who actually are in school. The officials are understood to suspect that the compulsory education law is being wholly disregarded. There is no question that considerable illiteracy exists.

# FRENCH SOLDIERS TELL THE SON'S IN THE ZONE OF WAR

### REGULAR WORK IMPOSED ON ALL WHO ARE FIGHTING ON THE FRONT AGAINST GERMANS.

## THOSE ON FURLOUGH MUST ALSO "DO A BIT"

### English and Belgian Troops Get the Habit and Are Helping Make Spuds as Well as Gun on the Battle Line.

(United Press Staff Correspondent)

WITH THE FRENCH ARMIES, May 8.—The service of agriculture is now one of the regular "dramas" of the French army.

It is just as much an integral part of the French military machine as a whole as is the infantry, the cavalry, the artillery, the engineers or the aviation.

Military agriculture is one of the latest developments of modern warfare, along with such things as gas masks, the machine gun, the tank, and the airplane. It is a new and vital part of the war, yet the constructive, conservative basis on which the French seek to conduct it has developed numerous possibilities for lessening and repairing the destructiveness.

In a general way the object of this service of agriculture is to keep the farming in the zones war zone and especially in the immediate vicinity of the front lines up to its normal and maximum productivity. It is now as much the duty of every soldier in the French army to help in these agricultural labors, as it is to fight, while the army as a whole contributes not only the farm laborers but also the horses and even part of the implements necessary.

The agricultural work to be done in the war zone divides itself into three general classes. First of all the extending of enough help to the farmers still living in the zone to enable them to plant and harvest their crops. Secondly, nearer the front where the civil population has been obliged to flee entirely and where the farms are completely abandoned, the army must take over all this ground and cultivate it itself in precisely the same manner as though the farmers themselves were still there. Thirdly, as fast as French soil is won back from the Germans, the Agricultural Service must undertake the restoring of this ground to a state of fertility and the planting of it in crops at the earliest possible moment.

General commanding on the French front is required to divide his portion of the war zone into sectors, each one comprising on an average twenty to twenty-five villages or hamlets. In addition to the general officers that are designated for the administration of the agricultural service are "sector officers," who are chosen because of their agricultural fitness is assigned to each sector and remains permanently in charge of the agricultural work there, regardless of where his regiment may be moved afterwards.

In the meantime the prefect of each department in the war zone is required to make out a list of all agricultural work that needs to be done, together with the degree of urgency and place it at the disposition of the military officer in charge of that sector. The prefect must also provide the tools and the grain and seed for sowing.

Entirely regardless of whether the troops stationed in a given sector are there for repose or whether they are there for fighting, they must perform the agricultural labor that is within their power. Likewise, when troops are on the march, if they stop in any sector, even for only two or three days they must participate in farm labor and sowing.

When the troops move on they leave a report with the permanent military agricultural officer in charge showing just what they have done so that when the next troops come along they can take up the work where the others left off.

There is only one less clear rule has been adopted by the military authorities and that is that under no circumstances whatever must a military troop, whatever its size may be, pass through a sector without where there is agricultural work to be done, leave that sector without the work being further advanced than when it came in.

The army must furnish horses, either from the cavalry, the artillery or the supply trains whenever horses are needed. The mechanics attached to the army are also required to assist the farmers in the shoeing of their horses and in the repairing of their agricultural implements.

Not the least interesting phase of this service is that it has been incorporated into the English and Belgian armies now fighting on French soil in precisely the same manner. English troops lack of the Spudme are now cultivating French fields, with precisely the same order as they are fighting the "Boches" a few miles farther in advance. At the few points where Belgian contingents are stationed on French soil the same system is in progress and it is contended there is no place in all France today where more men are being employed in agricultural pursuits than in the precise strip of territory within which the roar and the rags of the big

—OBITUARY.

Funeral services for the remains of Amos William Walker were held at the family residence in this place on Tuesday, May 1. He died on Saturday, April 25, 1917, after a long illness extending over a period of four years. Mr. Walker was the son of Mr. and Mrs. J. W. Walker, one of the prominent stockmen of Twin Falls county and a grandson of the late David Walker, one of the pioneers of 1786 of the Goose Creek and Snake river valleys. He was a graduate of the University of Idaho and the school of Commerce of Oakland, Calif., while he was a man but 30 years of age at his death he had by consistent application not only been graduated from a number of the higher schools and institutions but in connection with his father had become one of the largest livestock owners in Twin Falls county. He always took an active interest in public affairs and activities, and was a man of extensive habits. He will be greatly missed by his many friends. The funeral was one of the largest ever held in this vicinity, and the floral offerings were numerous and beautiful including designs from the Twin Falls commercial club and various other organizations. The services were conducted by the Rev. Dent of Twin Falls, and Judson Tolman of Murtaugh, each of whom paid a high tribute to the many splendid qualities of the deceased. Interment was made in the Twin Falls cemetery.

## IDAHO LINKS TURNED

—MOSCOW, Ida., May 8.—Potatoey rival golf balls on the links of the local golf club. The club hasn't played up the links to convert the ground into a big potato patch, but it has rented a 40-acre tract of which at least 10 acres will be devoted to the cultivation of spuds. Should the venture be a big success financially, the club will use the money to start construction of a clubhouse.

The neutral nations indignantly deny buying our food to sell to Germany, but whether you would get the same number of people by advertising the Ten Virtues is open to question.

About the only gain achieved by those fellows who get married in escapo military service, is that they get a potatoeod commander.

The potatoes are willing to vote for the army bill for the protection of the country, provided they get their share of pork.

## MONEY TALKS

It is folly to hide money in your home; put it in the BANK

If you hide your money about the home it is earning no interest and is not as safe as when deposited in the bank.

To be thrifty, have your earnings earn money while they are accumulating, and at the same time make them secure.

Savings placed in the bank are safe and are already invested.

Four per cent interest paid on savings.

Absolute safety and privacy is priced low enough so you cannot afford to longer neglect routing a safe deposit box in our modern vault.

**TWIN FALLS BANK & TRUST COMPANY**

**WYOMING OIL FIELDS**

**NEW FACTOR IN MARKET**

**Some Interesting Facts and Figures in Regard to Oil Territory and Production**

An oil boom, which promises to surpass the biggest mining booms of the past, has now struck the Rocky Mountain states, according to W. A. Bartlett, of Pocatello, and formerly a resident of Twin Falls, who is at the Rockwell hotel in the city. He is president of large oil companies operating in the Wyoming oil fields.

According to the Mining, Oil and Industrial Record, the Wyoming oil fields this year produced \$100,000,000 in oil. Most fields are being opened up on 23,000 square miles of oil lands between Casper and the Montana state line, and producing wells are being brought in so fast that it makes the oil speculators dizzy to keep up with the climb of stocks. The Ohio Oil company operating in Elk Basin and the Big Muddy fields has declared a dividend of 45 per cent already this year on a capitalization of \$15,000,000, which means an earning of about seven million dollars in three months time, and the same company has a surplus of \$75,000,000.

The Midwest company has a surplus of \$15,000,000; and its stock has advanced to over \$165 a share from production stock which sold for a few cents. The Great Creek Petroleum company stock has climbed to \$350 a share, an advance of \$130 a share in a month, and \$220 since the start of the year. Glorac Petroleum stock has climbed 300 per cent in a year, and stocks in other companies have advanced from a few cents a share to \$5, \$10 and \$14 in a few weeks time, when all were straggled.

Elk Basin is leading the various fields with 44 flowing wells brought in within the last sixteen months, with the Grand Creek Petroleum company this field contains 50 per cent gasoline, the highest grade of oil found in any quantity in the United States. Oil refineries are being est-

ablished at a cost of \$20,000,000; storage tanks with capacity of from 40,000 to 55,000 barrels have been built, and pipe lines for a distance of 14 to 20 miles are carrying the oil from these tanks to the refineries. Denver, formerly a great mining center, has some oil mud (or oil clad) and heavier papers are printing from 12 to 18 inches of solid oil news and advertisements every week. Four oil stock exchanges have been established in Wyoming for handling oil securities, and they are capitalized for over \$200,000. New companies have been formed within the last month with capital in excess of \$50,000,000 to develop these fields.

The fact that the government is about two years short of its normal storage supply of gasoline and lubricating oils, and the increased demand for these products made by the present war with Germany has made a demand for oil production, and rise in price of petroleum products. According to New York reports gasoline will be selling at 40 cents by August first; and it is estimated that automobiles this year will use 69 per cent more gasoline than last year. With a general shortage of oil from other districts, Wyoming is coming to the front to meet the general shortage and increased demand for this most valuable product.

**FLOUR FROM DREAD-FRUIT BEING MADE IN BRAZIL**

(United Press)

RIO DE JANEIRO, May 7.—A syndicate has been formed here to manufacture bread-fruit flour. The promoters say the flour will make as good bread as wheat, at much less cost. The bread-fruit supply throughout Brazil is declared to be practically unlimited.

When the wages of the coal miners go up 20 per cent, the operators will feel entitled to much credit if they raise the price of the product only 10 per cent.

**The Real Greatness of the Maxwell Is in Its Perfected Mechanism**

Mechanical perfection has made the Maxwell endurance champion of the world—the most economical car to run—a source of complete satisfaction to 200,000 Maxwell Owners.

Let's consider the Maxwell first as a piece of mechanism, —for that's what a real automobile is—a machine. Fancy upholstery, enamel, a highly polished instrument board are excellent things, —but they don't make a great motor car. Motor-car merit depends, first, last and always, on mechanical construction, —on the parts that are hidden from your view. The Maxwell has grace of form and line—travels easily—is roomy and comfortable. —a novice knows that—it's obvious. But, let us pick the car to pieces and see what you actually get for your money.

**The Sturdy, Masterful Chassis**

In the first place, there is one—and only one—Maxwell chassis, —and that chassis is not an experiment, —not the whim of some designer who craves a reputation to be different or original. —Nobody is permitted to tinker with that one Maxwell model, —no smart ideas are allowed to swerve it from its course of development, refinement, perfection along the known, proved, time-tried principles of automobile construction.

**The Maxwell Engine is the Embodiment of Efficiency and Power**

The Maxwell engine is the concrete manifestation of efficiency and power brought up to an almost unbelievable point of perfection. It has much of the velvety smoothness characteristic of the motors to high-priced cars, —plus power, economy, reliability and simplicity.

This marvelous motor is daily taking Maxwells over tens of thousands of miles of the hardest sort of going at an average cost of only \$6 to \$8 a month.

One of these Maxwell engines—just like the one your Maxwell will have—went for 34 days and nights without stopping, carrying a Maxwell over all kinds of roads, in all kinds of weather, at a rate of 25 miles an hour, on 22 miles per gallon of gasoline.

**Some Other Mechanical Factors That Make the Maxwell Great**

The Maxwell axles stand up like the foundations of a mighty skyscraper. —They are designed, forged, heat-treated and built complete in our own factories. The Maxwell transmission—noiseless, self-lubricating, trouble-proof—is the height of mechanical sanity and surety. The marvelous Maxwell clutch—running in oil, simple, smooth, wear-proof—has an efficiency greater than that of any other car, no matter how high-priced. Besides—each part of the Maxwell chassis is made of only the finest metal that can be procured. —and then only after the material has been subjected to the most rigid tests known to science.

**Buy the Car That Stands the Test**

Don't buy a car you look, but find out just what is inside it —if the vital parts of the car are mechanically right. The more you study the Maxwell the more certain you will be, as we are, that the Maxwell is the world's greatest motor car value.

Come to our sales rooms and let us prove to you that the Maxwell is, mechanically, right. Roadster, \$850; Touring Car, \$865; Cabriolet, \$885; Town Car, \$915; Sedan, \$985; completely equipped, including electric starter and lights. All prices f. o. b. Detroit.

\$2.00 PER YEAR IN ADVANCE

Notwithstanding this, it is not assumed that contributors are expected to supply us with reasonable promptness to stop if the paper is no longer desired.

Entered at the Twin Falls postoffice as second class matter on October 11, 1914.

Thirty millions of dollars each hour is the response of the American people to the government's Liberty loan call last Saturday.

England's royal family have no meatless and five potatoes days each week, and also eat war or standard bread—Doing their bit!

The war loans of England, France, Germany and Russia now aggregate over fifty billions—a sum so great as to be absolutely beyond appreciation.

Some German savant is making bread of pulverized spring buds from lime and birch trees. He claims to have thereby added 500,000 tons to Germany's food supply, although the authorities are skeptical.

At least the dispatches voice the growing unrest with regard to the possibility of Russia's withdrawal from the fight against the central powers—a fear that is given point by Bottomm-Holloway's second postponement of his advertised peace address.

CHECKMADE LABOR FAMINE THE CITY WILL ATTEMPT IT

At The Commercial Club Lunch, Two Very Innocent Matters Are Acted Upon—Labor and Publicity.

The third weekly lunch of the Twin Falls Commercial club was greatly enjoyed this noon in the handsome dining room of the Tanager.

The chairman for the occasion, Mr. L. Brockkniridge, first called on Hon. Addison T. Smith, who responded with felicitation over the opportunity.

The speaker occupied ten minutes in presenting a subject that which none is more important to the Twin Falls community, the question of farm labor—or rather, the lack of it.

A reformer company organized with the aid of the new issue is a policy with more liberal features for the policy holder than any other company.

Montana Life Insurance Company

A reformer company organized with the aid of the new issue is a policy with more liberal features for the policy holder than any other company.

the appointment of a committee of three to investigate the organization and secure enlistments therein. The chair as promptly named Messrs. E. M. Sweeley, John E. White and T. K. Mackman to constitute such committee.

The reporter failed to catch the opening sentences of the P. M. Bennett's response to a call by the chairman called the most important matter of it, but he concluded with "Harmony first, and all the things" and sat down under great applause.

The nomination and election of Mr. A. L. Swin to preside at the next Tuesday's lunch concluded the program, and the company adjourned.

LAND BOARD WANTS BRUNEAU RETURNED

Demand Reason Why It Should Not Be Relinquished—The Hansen Bill Problem Up.

The state land board adopted a resolution introduced by State Senator Clarence Van Dusen at its meeting late Friday afternoon, demanding that the Twin Falls Land & Water company appear before the board and show cause why 580,000 acres of land segregated in southern Idaho, should not be relinquished to the federal government.

The board also went on record to urge the promoters of the Wicki-taw project to make a showing by May 23 as to its plans and financial strength.

The Hansen Bill controversy—the Milner Canal company over the reclamation of lands in what is known as the Hansen bill project were aired before the board.

FRANCE HAS TEN NEW COMMANDMENTS

Economy, Burden of New Rules—Patience and Fertilizer Are Strongly Urged

(United Press.) PARIS, May 7.—Frenchmen have just received the following "ten commandments," circulated by the French League of Patriots.

1.—Do not waste anything. All waste is a crime which compromises national defense and prolongs the war.

2.—Do not travel without necessity. Understand that our trains are, before all, destined for transport of troops, and the needs of national production.

3.—Do not remain inactive. According to your age and faculties, work for the nation. Never continue without producing. Idleness is desertion.

4.—Remember that victory belongs to those who will have to suffer a year of an hour longer. For France to live it is necessary that she must be victorious.

WHITE HOUSE TABOOS ELABORATE DINNERS

Not to Exceed Three Courses to Be Served at One Meal—No Reception for Foreign Visitors.

(United Press.) WASHINGTON, May 7.—Three courses will be the maximum, even for formal dinners in the White House, while the nation is at war, if the women follow the lead of the first lady of the land.

The dinner was in line with the policy of economy recently announced by Mrs. Wilson and the wives of the cabinet members.

There is no trouble in getting instructions about planting the garden, and a list of few fruits you will get just about 167 varieties of conflicting advice.

PORTLAND BREAD PRICES GO HIGHER

Five-Cent Leaven Abolished—Portland Will Make Rose Festival Patriotic Occasion.

PORTLAND, Ore., May 8.—Bakery in red, white and blue will come being at the 1917 Rose Festival, June 13, 14 and 15 for the board of directors decided today to carry the spirit of patriotism into the festival to the last degree.

The successful boy and girl will be known as the Fairy King and Queen. The Oregon Girls' National Honor guard will benefit it to the extent of 10 percent of the net receipts of the king and queen contests, which is under the direction of Mrs. G. J. Frankel, the first woman director ever elected to the festival-directory.

The recent loaf of bread is a novelty here today. A majority of Portland bakers today began putting out only one-cent loaf bread.

The constitution and confession of faith of the church; the printed history of the local church; the roll of officers and members of the church; 850 names, with the names of 76 baptized members additional, and 159 who have gone elsewhere and 40 who have died. The Sunday school and teachers; the same of the Christian Endeavor, the Junior C. E., the school roll of 500 names with officers; King's Daughters; the Young Men's Christian Society; the Ladies-Aid and other organizations. Copies of the Sunday Times, the News and the Chronicle of

There were deposited in the stone, the laying of the cornerstone for the magnificent new Presbyterian church at the corner of Fourth avenue and Second street north Sunday, after the regular church service, was largely attended, and exceedingly impressive. The addresses were delivered by Rev. C. L. Bent of the Methodist church, who spoke on "The Unity of the church," and Rev. Orvis T. Anderson, of the Baptist church, who spoke on "Christ the Head of the Church." The Presbyterian choir furnished appropriate music.

FRANCE GETS HUNDRED MILLION DOLLARS MORE

WASHINGTON, May 8.—The loan of \$100,000,000 to France, mentioned in the United Press dispatches of Sunday morning, was made today, when Secretary McAdoo turned over treasury warrants for that amount to Ambassador Jusserand.

MRS. M. J. SWELEY SPEAKS AT HOUSE THIS EVENING

HOISE, May 8.—The eighteenth annual meeting of the Second District Federation of Women's clubs of Idaho convenes today at the Columbia club house at 3:30 o'clock to listen to Professor M. J. Sweley of the University of Idaho on "Knowing Your Own Country."

TWIN FALLS AND ARMY

(Continued from page one)

Under the different states according to wealth and population, the state quotas again distributed among the cities and towns, and the field managers were sent north.

Under this plan the state of Idaho was called upon for \$18,000, and Twin Falls undertook, with some explanation to be responsible for \$3,000 of that amount. This figure was named at a meeting Thursday evening, hastily called to meet Mr. John H. Rudd, field manager for Oregon and Idaho, at 8:30 p. m. on an executive committee was named, consisting of L. L. Brockkniridge, chairman; C. E. Rowell, secretary; and Messrs. W. J. Tracy, J. E. White, C. C. Bower, B. Frank, A. R. Ostrander, J. M. Maxwell and A. J. Penner. This was subsequently enlarged by the addition of C. E. Munson, C. L. Longley, W. J. Young and Rev. G. T. Anderson.

The aid of the several pastors was next enlisted, each of whom presented the cause to his congregation Sunday morning at 10 o'clock, and the following remarkably liberal subscriptions by the churches, respectively: Presbyterian, \$68.00; Methodist, \$107.00; Baptist, \$18.75; Christian, \$23.70; D. S., \$56.00; Brethren, \$2.85; Episcopalians, \$84.00; a grand total of \$218.05. Of that amount \$566 was paid in cash, the balance being due in either monthly or quarterly payments during the year 1917.

At a meeting held in the club rooms Sunday afternoon, a whirlwind canvass was arranged, and arranged for by putting the workers in two divisions, under the leadership, respectively, of C. E. Munson and C. L. Longley—so appointed by the chairman as commander-in-chief. The two division leaders then selected squad captains, as follows: For the Washington (Munson) division, Messrs. L. F. Frank, A. D. Johnson, C. D. Weaver, J. C. Beach, C. E. Swartz, Lincoln division, Messrs. C. Rowell, V. H. Decker, P. W. Meach, W. J. Young and W. J. Tracy.

The captain of the highly organized division of the city into ten districts, they moved forward. We are unable to give the personnel of each of these companies of five. They should be designated, and all to meet at ten Monday morning for two-hour work.

Ten o'clock yesterday morning found the two armies at the club rooms as arranged for in the regular division of the city into ten districts, they moved forward. We are unable to give the personnel of each of these companies of five. They should be designated, and all to meet at ten Monday morning for two-hour work.

Special Production THURSDAY AND FRIDAY

Willard Mack's GREATEST MELODRAMAS

"KICK IN"

THE GREATEST PLAY OF ITS KIND EVER PRODUCED—IT WAS THE BIGGEST HIT NEW YORK HAD SEEN FOR TWENTY YEARS AND PLAYED ON BROADWAY CONTINUOUSLY FOR TWO YEARS AND REPEATED ITS SUCCESS IN LONDON.

A BIG HUMAN STORY ABOUT A CROOK WHO ISN'T A CRIMINAL

For "Kick In" is not the usual play. It is an entirely different play with a "kick" in every situation, yet replete with humor. For every thrill there is a genuine laugh. Willard Mack, the author, has drawn his characters from real life and it is the ring of sincerity that gives the final "punch" to this most remarkable of dramas.

FIRST SHOW 7:15 PROMPTLY—CONTINUOUS TILL 11:00

PERSONALS

These No. 38
Fred Mattson of Gooding visited in the city Sunday.
Mrs. A. J. Schubert of Gooding visited friends in Twin Falls Sunday.

LOCAL BREVITIES

Advertisers in charge of the Twin Falls Times will be gratified to know that the circulation of each and all had been and still is growing rapidly.
Visiting Friends—Mr. and Mrs. D. Hitchcock of Gooding were in the city Saturday visiting the Misses Gill and Coulter, teachers of the Twin Falls Public Schools.

Had Been Sick—Ed. Braun, formerly of this county, is here on business from Russell, Idaho, where he went to recuperate from a long illness. He has just recovered from a long sick spell.

Classics of Twin Falls can read the telegraphic news found in next day's daily paper in each evening's edition of the TWICE-A-WEEK TIMES. In these stirring days that means something.

Crow Eaters Business—General P. H. Crow has purchased an interest in the Electrical Hospital. He is feeling the same again and looking well, although his health will not permit him to engage in the heaviest sort of work for some time.

Install Another "Vim"—The Twin Falls Steam Laundry this week installed another "Vim" truck for service to its customers. Mr. Murray acted as a representative of the Times and it was necessary to do this to enable them to take care of their ever increasing business. The past week also added to the force two skilled workmen.

Everyone, especially those within the age limit for army service, should carefully read the regulations for registration under the new law, which are published in another column here-with. This is very important, since this is not a service to be effected by mail. Each State remains an enemy, and is a civic duty, like voting, to be observed by the citizen personally.

Takes Bank Position—W. O. Smith has resigned as deputy city clerk in order to take the position vacated by Leo F. Bracken, as assistant cashier in the Idaho State Bank, during the absence of the latter who leaves in a few days for the Presidio officer's training camp. J. D. Barnhart has taken the place decided that the work would be less onerous and would be detrimental to his health. Mr. Smith is an experienced book keeper and has performed his duties for the city to the entire satisfaction of our citizens. His successor in his new place is predicted in Twin Falls official circles.

Orpheum Theatre

TUESDAY AND WEDNESDAY

THE STARS AND BARS

Triangle-Keystone-Mack Sensat Production, featuring

FORD STEERING

in a comedy riot of mix-ups.

PEARL WHITE

THE SILENT ARMY

from the thrilling novel Pearl of The Army

FLORENCE ROSE

in latest fashions

ODD FRESH WATER INSECTS

A beautiful hand colored educational topic, very interesting.

2-VAUDEVILLE ACTS-2

First Show 7-15 promptly

Continuous till 11:00

Always a good variety—Always Your Money's Worth.

COMING THURSDAY—WILLARD MACK'S

Greatest Melodrama

Exceptional 5-part production, entitled

"KICK-IN"

Case Dismissed—The case of the state against Thomas Dovy for the alleged libeling of Mayor E. M. Swallow was dismissed by plaintiff Thursday afternoon.

Returns From Ogden—J. R. Bachman, cashier of the Twin Falls factory of the Amalgamated Sugar company, has returned from Ogden, where he has been put in charge of the head office of the company.

Up to "Uncle"—The farm loan bill has passed—probably on the condition of the federal rural credit act and has forwarded its recommendations to the Spokane branch office, where final action will be taken. It is expected that the bill will be forthcoming cannot be determined.

Dog Licenses Due—"Death or taxes, instead of death and taxes," is the synonym of the inevitable in the canine tongue. Which reminds the owner of Pluto and Phido that unless the annual fee of three or five cents, as the case may be, is paid in promptly, the "dog catcher will get" the household pet.

Race Flag at McMillan—The little town of McMillan is not without its evidence of patriotism. The residents of McMillan, by the use of the federal Amalgamated Sugar company took a collection last week and purchased a large American flag, and yesterday the national anthem was raised to the top of a 40 foot pole in front of the McMillan residence.

Will Clean-up Twin Falls—On May 10 to the end of the month of October Oregon, Utah and southern Idaho will assemble in convention in Twin Falls for the purpose of conferring different plans for harmony. The local landowners are very enthusiastic over the forthcoming convention and stated in a timely representative that a large delegation would be in attendance at that time to "clean-up" Twin Falls.

Too Much Married Charge—Walker M. Edwards, who for some time has been representing the local landowners, to use a time honored expression, awaiting for a jury of his peers to be chosen to determine whether he is a "phony" charged on by E. E. Burke, is in more trouble. He was arrested on a bigamy charge, sworn to by one of the alleged victims, who came here from Burley. The defendant alleged she had named to be Georgia Kinser, of Burley, and she charged that he unlawfully and feloniously married her, while having an undivorced wife, living in Colorado. The case is set for this afternoon.

Some of the Prizes to be awarded in the Times' Circulation Campaign, are now on exhibition in the window of the room formerly occupied by the real estate office on Main street. All contestants beyond the public generally, will be interested in seeing the two pianos, two kitchen cabinets, silverware and jewelry. The local landowners in connection it may be stated that three subordinates prizes, contingent upon that week's work alone, have already been awarded to the successful young ladies. These are, respectively, fifteen dollars in gold and two hats selected from Riley's millinery store.

Company Association—While Twin Falls is contributing royally to such general needs as that of the Red Cross, the "Eagle" relief committee has by no means forgotten her own Company D. Only recently, a canvass of the city for less than three hours, in that behalf placed a thousand dollars in the treasury of the Red Cross, and only yesterday, in response to a letter from Captain McRoberts, Mr. L. T. Wright, one of the trustees of the fund, forwarded an hundred dollars for the immediate personal needs of one of its members. Mr. John Smith, who had the misfortune of being injured at the transfer him to the general hospital at San Francisco, with the prospect of going to a special hospital in Arizona soon.

Move to Elevate the Hog—Hog culture is one of the things interesting Professor E. J. Ekiel of the university extends his department of inquiry to this city, but now of Boise, who is here in the cause of the roach pig. Heronator Miss Porcine Swine will be championed in a "hog" race, in which her improved manners and increased value will entitle her to enter. Miss Porcine has been something of a parish society, but with the increased wealth, and therefore something of a climber. Her manners have been rather unorthodox or at least, as they are since the time she was born, "somewhat original," but all this is about to be changed, for Professor Flathead said only yesterday that he was here in the interest of "hog" or sheep culture. This would indicate that Miss Ewe Lamb is also about to make a debut into the social swing. Professor Flathead said that he would be here for a few days.

W. C. T. MEETING ANNOUNCED, the Women's Christian Temperance Union will hold its regular monthly meeting on Friday afternoon at 2:30 o'clock, at the home of Mrs. Rudolph, on Third avenue north.

Madames J. W. C. Deake and J. M. Wall will assist the hostess.

All members are urged to be present and join in the farowells extended to Mrs. Deanechamp. Visitors are cordially invited to attend.

ASPIRANTS FOR PRIZES DISPLAY SHARP RIVALRY

Special Offer Will Be in Effect Just a Week Longer.

Remember, candidates in the Twin Falls Times big profit sharing circulation contest, that the special vote offer of 100,000 extra votes for every 30 worth of subscriptions turned in to date. After that date you will be required to collect \$20 for the same number of votes. This is an especially favorable time to go in your hand-to-hand work. Do not neglect the opportunity. With practically every candidate now imbued with the spirit of progress and victory, and all determined to win in the vote column, the grand prize campaign is fast traveling towards its end. Not a great while remains before the call of "time" puts an end to the efforts of every candidate, and during this time—NOW—while there is yet time, every candidate should put forth her best efforts for final success. The time is now so short to allow any of us to go to waste. Think for yourself, if you want to do just a little better than the rest, do a week with this idea. The time is not long to finish, and this idea set out is what will determine the success and failure of many. Determining to succeed, you will not want to mind, avoid nothing to worry or affect you, and you will prove a most successful campaign at the close.

The Theatres

PRESS NOTICES GIVE "KICK-IN" GREAT BOOST

The New York Tribune in its review of "Kick-In" the special feature which offers to the theatre goers on Thursday and Friday said: "There is action enough in 'Kick-In' to satisfy the most hardened theatregoer. All its characters are so full of life, so abundant in humor, but it has the virtue of presenting them without artificiality and with a good measure of Washington sympathy."
The New York World said: "There is a joke or a shiver and a thrill in almost every line of it and however sophisticated the spectator may be, there is something in all the situations to make one's heart thump."
Here it was that Peter Milno says in the Motion Picture News:
"'Kick-In' is going to put the biggest kick yet in the Patrio program. It is all punch, 'Kick-In' never stops moving. Literally it is crammed full of interesting moments and situations, and when it arrives, The masterly way in which George Fitzmaurice has handled his scenes scores further points in its favor. There is no waste here is a plenty. Nothing is false. There is not a single dull moment. It will give offense to none for in its treatment of the subject it is as unbiased and just as it would be a puzzle long over the rating—one hundred per cent, we should say and we think you will too."

PLENTRY OF RAIN MIXES WITH-OUTHERN FIGURE-TAKING

"A Child of the Wild," William Fox's latest June Caprice picture is a travesty in itself. Views of four Southern States are shown in a way that would puzzle long over the rating—one hundred per cent, we should say and we think you will too."

Operations began in Florida, but after a few scenes had been taken semi-troupe trains set in. After a week of waiting, Director Alfred Hitchcock returned to Georgia.
Only a few days passed before the met season overtook them. Again the company packed up and returned to North Carolina. From that state they were driven into Tennessee with headquarters at Chattanooga.
In course of three weeks the company managed to complete the extras for the picture, but only after spending many rainy days in their hotel and being denched on location work.
"and yet they say Tennessee is dry," exclaimed John W. Kelleck, assistant director, when he returned to New York.

GOVERNOR ASKS THAT BOYS FOREGO NOISE

Issues Proclamation Says That Use of Firearms July 4 Might Lead to Abuse.

HOISE—Governor Alexander has issued the following proclamation asking that the use of explosives and firearms be dispensed with July 4:
Whereas, it appears especially fitting that upon this year of all years when this nation has been forced to take up arms and to do battle to save democracy from destruction; and whereas, it should be given to observance of the Fourth of July, and that patriotic meetings and demonstrations should be held upon that day, and
Whereas, the use of firearms and other explosive materials commonly used in Fourth of July celebrations might be made the excuse or pretext of unruly persons to have dangerous may in their possession and afford an opportunity for its use, in case opportunity for such use should be sought for the destruction of life and property in this state.
Now, therefore, I, M. Alexander, governor of the state of Idaho, do call upon all citizens everywhere within the state to refrain from attending public assemblies upon the Fourth day of July to give expression to their loyalty to the nation and their devotion to the principles of self government, and I do call upon all merchants and dealers in explosives, firearms, fireworks and other matter containing explosive material usually used in the celebration of the Fourth of July, to refrain from ordering, purchasing or offering for sale any such articles before the date of the 1st of July, and I do call upon all mayors of cities and chairmen of all

BOOK ON SMALL GARDENS ISSUED BY UNCLE SAM
WASHINGTON, May 7.—The department of agriculture at Washington, D. C., has issued a bulletin entitled "The Small Vegetable Garden." It is almost at the man who has land enough for a small garden, but no definite idea of how to proceed. This booklet should be placed in the right hands as quickly as possible. A copy can be obtained from any person, writing a request for one to the department of Agriculture, Washington, D. C.
M. ALEXANDER, Governor.

Certain-teed
Enduring! Certain-teed is a name which comes thru the storm of business competition stronger than ever. It stands for quality, dependability, satisfaction and fair dealing. On the reputation of this name there has been built the world's largest manufacturer of roofing and building papers.
Roofing
Paints and Varnishes
is the most efficient type of roof for factories, office buildings, farm buildings, garages, etc.
It costs less by far, less to lay and less by year of life than other types of roofing. It does not rust; is proof against gases, coal smoke, acids, fumes, etc. It is a non-conductor of heat and cold, is fire retardant and weather-proof.
These men have at their command all the machinery, equipment, materials and resources necessary to manufacture good paints and varnishes economically. They also have at their disposal the extensive sales organization and warehouse system of the Certain-teed Products Corporation, which specially reduces the cost of distributing and marketing.
The result is that CERTAIN-TEED Paints and Varnishes are high grade products, sold at lower prices than you would expect to pay for good paints and varnishes.
We guarantee CERTAIN-TEED Paints and Varnishes to give satisfaction. Whether you desire our painting or have professional painter you will find it to your interest to see that you get CERTAIN-TEED.
Guaranteed for ten years.

CERTAIN-TEED PRODUCTS CORPORATION

# Save Hundreds of Dollars By Choosing The CHANDLER SIX

The car's beauty is quite as superior as its mechanical excellence.

## Thousands Have Purchased Since We Showed Them How the Chandler Checks With High-Priced Cars

People are buying automobiles now with more good common sense than ever before.

And twice as many are buying Chandlers as ever bought before.

### The Chandler is Under-Priced Several Hundred Dollars

Men know the Chandler is under-priced, as compared to other cars.

They know that among other Sixes two or three hundred dollars more will not buy a car of such splendid design and equipment, such assuredness of satisfying performance.

They know that at a factory list price of only \$1395, the Chandler is, in essential engineering features, like or very similar to the best of the high-priced cars.

Since we told the public—not in an array of adjectives, not in an avalanche of claims, but in just a clear and simple statement of facts—how the Chandler checks in so many vital features with the Pierce-Arrow, Packard, Mercer, Cadillac, Stutz, Locomobile, White and Winton, thousands of men have purchased this great Six.

You, too, will choose the Chandler if you realize how much more high-grade construction the Chandler offers than

other cars in the medium-priced field, and—if you know the Chandler motor.

In choosing your car you are seeking all the dependability and long-life characteristics of the finest cars of every type, and—you surely seek the utmost in six-cylinder flexibility.

These two qualities, coupled with graceful and comfortable bodies, you want at a fair price.

These qualities the Chandler offers you in a surpassing degree. We don't merely say this is so. We prove it.

### What Chandler Price and Quality Have Done

The Chandler price is low. We have kept it low. We have cut into our per car profit repeatedly to keep it low.

And keeping the price so low and the car so good has built, in four years' time, a great coast-to-coast and all-the-world-around business at which the industry marvels.

Still it is just good business policy—or what the Chandler Company and Chandler dealers conceive to be good business policy.

The best light-weight Six that the broadest motor car engineering experi-

ence can build, and at a fair price! That's the Chandler story.

### There is No Inflation in Chandler Price

There is no inflation in Chandler price, no padding, no "easy profit," no "wide margin to take care of long trades."

If there should be any doubt in your mind as to this, if there is a question as to which of the medium-priced sixes would serve you best, just see how the Chandler checks with the high-priced cars and see how the others do not.

The Chandler motor, developed through four years of conscientious and skilful manufacturing effort and brought to a state of approximate perfection, is the heart of this great car.

High tension magneto ignition, separate unit electric system, solid one-piece cast aluminum crank case extending from frame to frame and giving perfect rigidity to the engine mounting, silent spiral-bevel gear full floating rear axle, silent chain drive for motor shafts, light running annular ball bearings in transmission, differential and rear wheels and many other typically high-grade features are Chandler features.

### VOCATIONAL CLUB MOVE PROVES

(Continued from page one)

The boys and girls selected to help into smaller districts in order to give them the work. This plan will prove benefit to the boys and girls who will act as assistants as it will give them experience in supervising work.

"The pledge signed, as you will notice is for membership in Vocational Clubs for Patriotic Pupils, organized in response to the call for President Wilson." This explains its main purpose, but I am convinced that the educational value of the movement will prove to be very great.

Samples of the instructions sent out

therefore, very important.

It is one of the first essentials to good crop production and is a waste of time and money to plant seed in soil that has not been well prepared.

#### Fertility of the Soil.

1. The soil should have a light dressing of 3-10 tons per acre of well rotted manure, uniformly spread over the land. The manure should be from straw.
2. Plow deep—8-inches or more.
3. Plow well so as to cover manure and pulverize the soil.

#### Cultivation Following the Plow

1. If the ground has sod in it, double disc, otherwise, harrow well, 3 to 5 times.
2. Level the land with some kind of drag or float. This will make the seed bed firm which is necessary to bring the moisture near the surface, where the seeds are to be planted, also put the land in good shape for irrigation.

#### Secure Good Seed.

1. The very best seed possible should be used.
2. The best prepared land can not produce a full crop unless seed with good germinating power is used.
3. Test the seed if possible. Ninety-five to a hundred per cent of good seed should germinate.
4. You are sure that the seed you are planting will get 95 per cent.

#### Treat Seed.

(This applies to potatoes)

1. Two ounces of corrosive sublimate to 16 gallons of water or four ounces to thirty gallons of water. Mix in a wooden barrel, stir with a wooden paddle. Soak seed in this solution one hour and a half.
2. Corrosive sublimate is a poison—so care must be exercised in using it.

#### Planting in Garden.

1. Firm the dirt around the seed after planting. This insures moisture and quick germination. Of the soil in loose around the seed, it dries out so that the seed fails to get enough mois-

ture to germinate. A poor stand is the result.

#### Irrigation.

1. Irrigate when the plants show signs of wilting.
2. Eighteen to twenty-four acre inches of water should be used during the season.
3. An acre inch of water is water one inch deep spread over an acre of land.
4. Light irrigations of 3-5 inches applied frequently is better than heavy irrigations several weeks apart.

#### Cultivation.

1. Cultivate after each irrigation. This will save the moisture and kill the weeds.
2. Weeds steal the moisture from the crop, so also job it of plant food.
3. Weeds and vegetables do not go well together. If allow to grow weeds will soon crowd out your crop. Your slogan should be "No Weeds."

### WILCOX SENTENCED TO TERM AT HARD LABOR

County Assessor Finds He Must Quiz the Farmers Under Provisions of a New Law.

Just when he was congratulating himself on having "slipped one over" on a democratic county treasurer by convincing him to collect personal property taxes, County Assessor G. W. Wilcox got a figurative jolt at the back of the ear from a democratic state official that means big trouble for himself. Harvey Allred, the new state director of farm markets, Saturday called his attention to the fact that many blanks to those already assessed assessors to furnish certain agricultural information was now in force and effect and that he would have to make blanks to those already assessed and get his deputies busy with them.

Wilcox has taken up the "White man's burden" and is now sending the blanks and getting the information. He says that the work is much more onerous than that of which he was relieved. He says that owing to bad weather not over half of the assessing has been done.

The following is a copy of the letter: May 3, 1917.

County Assessor,  
Dear Sir:

It is found to be imperative that house bills be required by the county assessor to secure certain agricultural data, be compiled with for the year 1917, and additional information called for by the United States government be at the same time procured by state law and national demand are being expressed you today.

Inasmuch as many assessors have already covered a portion or perhaps all of their county, it is now deemed advisable in order to save the assessor's time and expense of visiting to have the assessor mail to every taxpayer of whom this information is required and who has already been visited, a blank requesting the taxpayer to fill out the same with the utmost care, and to properly sign and return to the county assessor at once, by mail or otherwise.

We are unable to determine how many of these blanks you fill require, but are sending you 2000. If your county requires more, please advise us at once. Should you have any remaining, please advise us the number, holding same subject to our order.

The State Farm Markets Department will have ready for you the necessary blank books in which this data can be compiled and forwarded to this office, by the time you have returned from your county.

May we ask that you please use every care to insist that all blanks be properly filled out with accuracy?

HARVEY E. ALLRED  
State Commissioner Farm Markets.

### NEW GOVERNMENT IS

(Continued from page one)

commissioners, for free water for the county hospital, the construction of which is now under way. Mr. Carlson said that it would take a long time to complete the construction of that the institution would use from 3000 to 5000 gallons daily. He pointed out that in return the county compensated taking care of the charges of the patients of the city who might be sent to the pest house, and of those city charges requiring medical and surgical attention. A spirit of co-operation would prove better all around in his opinion. The commissioners would, he said, meet Thursday afternoon to open bids on the Hanson bridge, and would be glad to confer with the council at that time. The matter was referred to the committee on water with power to act.

The council referred to the proper committee of a request of J. L. Lindsay for the right to run a fence across a piece of city property and explained to A. P. Senior that the fire plugs had to be taken care of by the city before the land had been secured for the Senior addition.

The city agreed to rent the present quarters from the Twin Falls Commercial club for another year. On recommendation of the library board Mrs. H. W. Cloucek was appointed to fill the vacancy created by the resignation of Mrs. W. P. Fike and appointed Mrs. Burton E. Morse and Stuart Taylor to succeed themselves. The library board reported that it would need \$250 for the year if left in present quarters and \$1200 more should the new building be completed. This will be taken in consideration in making up the annual budget.

The council at the request of Treasurer Rounds and retiring Clerk Williams voted to secure an auditing of the city books.

The council referred to the proper committee of a request of A. Mianick and Treasurer Rounds both protested against the inadequate protection afforded the city by the smallness of their bonds,

# DIAMONDS

## A Unique Situation

The diamond market today faces a situation unparalleled in the history of the mining and merchandising of precious stones. Never before, fighting forward from September, 1915, has there been such demand for diamonds—not only in America but in many of the belligerent countries. Yet never has the diamond demand found the market at large almost powerless even to begin to procure the gems desired.

The DeBeers Company, an English syndicate, controls the South African fields, source of world's diamond supply. Normally the rough or uncut diamonds are shipped first to London, thence to Amsterdam and Antwerp, the world's diamond-cutting centers.

Today witnesses the practical cessation of diamond mining. Diamonds in the rough—to get from South Africa to the diamond-cutting centers—must pass twice through the submarine zone. This makes insurance rates on diamond shipments almost prohibitive. The imposition of heavy English war tax further discourages production.

Antwerp, under German occupation and blockade by the allies, is isolated and inaccessible. Amsterdam, in the midst of armed neutrality, caretaker of armies of refugees as well—handles the limited supply of diamonds for the world's market.

A careful canvass of American diamond-holders seems to show only three representatives of American importers now on the continent. The few diamonds brought into the country today rarely leave New York.

Diamonds in Europe are no longer prized solely for their beauty and artistic merit. Modern warfare, with shells plying deep and armies burrowing deeper, makes it hazardous to bury hoards of gold and other valuables for concealment underground. Word comes to us that in Russia the demand for diamonds is unprecedented; in Germany far above normal; in all the warring countries exceptional. This condition records the realization of men that only in diamonds are their fortunes safe. Diamonds are transportable to their persons and have an increasing international value.

Those who are anticipating the purchase of diamonds owe it to themselves to inspect my collection.

## L. Rasmussen

TWIN FALLS, IDAHO

and that accommodating body raised the clerk's bond from \$500 to \$6000 and the treasurer's bond from \$500 to \$20,000, and the officials looked much relieved. The question of renting the land around the fire was referred to the water committee. The council then adjourned after voting to close the session street on Friday, for the May Day parade.
