TUESDAY, MAY 15, 1917.

AN ARTISTIC AND WONDERFULLY BEAUTIFUL PAGEANT

MAY FESTIVAL OF TWIN FALLS PUBLIC SCHOOLS

SOME TWENTY-FOUR HUNDRED CHILDREN IN GORGEOUS COSTUMES

THE PARK AN ANIMATED KALEIDOSCOPE

The Programme There Consisted of a Series of Patriotic and Fancy Drills, Exercises and Musicals; Concluding With a Transformation Scene.

(1) Red Cross Nurses. (2) Boy Scouts and Middies. (3) Birdseye View of Amphitheatre. (4) The May Queen and Suite. (5) Float—1776-1917. (6) Parade at Shoshone and Main.

A VISITOR'S THOUGHTS

Mr. Longley: I want to thank you for the invitation to be present at the May Festival of the children of your public schools. In my travels in different parts of the country, north, south, east and west, I have viewed many exhibitions given by public school children, but have never witnessed a more successful and attractive festival given by the children of Twin Falls today. It was a wonderful demonstration of perfect drill, and showed not only the remarkable leadership and skillful handling. The particular thing that struck me, if one thing above the other may be mentioned, was the artistic conception and original ideas exemplified throughout the entire program. Those in charge from the least to the greatest should be congratulated for their painstaking and successful effort. Not a child showed me a slip, but clock-like precision marked the entire performance.

I shall go to my home town with a very good opinion of one of the most pleasant entertainments I have ever seen, and moreover, inspired by what your teachers and children showed me was possible in the development of child life when properly taught and led.

Pin Falls need never fear the future with such jewels of growing womanhood and young manhood inspired by your magnificent public schools.

P. S. THE HON. J. H. DICKINSON, Idaho Falls, and the Rev. Wm. Busch, of Weiser, who saw the entire program, were also as enthusiastic as I am in giving this wonderful entertainment.

The Twin Falls public schools are housed in four fine brick buildings, one of which alone cost \$176,000. These buildings are of a class of less than sixty-seven teachers, including the general principal, the high school principal, and the principals in the high school buildings. Each of the buildings and teachers command a brigade of, in round numbers, twenty-four hundred children of ages from five to sixteen. It was possible to fit this skeleton with a world of detail, including the curriculum from finding out what each child needed, to the selection of the material to be used. We will only add the statement that approximately 225 of these young ideas are representing the first grade, 220 in the second, 210 in the third, 220 in the fourth, 220 in the fifth, 220 in the sixth, 210 in the seventh and 200 in the eighth, leaving about 500 in the high school. There is no one who can see that when all these teachers and pupils combine their wits and their interest and enthusiasm in the making of a pageant to be done, sure!

Last Friday saw the culmination of just that kind of combined effort—not only during some of the most successful attempts to do the two previous annual affairs of like character. And that this was accomplished in a spirit of cooperation and commendation of the thousands of spectators, most of whom were patrons of the schools, as well as by the various groups of the community and the promptness and precision with which the entire program was carried out.

The parade formed at the west Shoshone street and started promptly at 7:45. Led by the high school band, which greatly distinguished itself, the little tots of the first grade followed, marching in line to the public square—precisely at ten o'clock. The line was taken up by the other grades in succession, with the high school at the rear. The parade was a bright and attractive coloring, presented a number of novel features, all well worthy of mention. Among these were the floats of the May Queen, Miss Esther Anderson, a high school senior, and her gay party.

Inquire: the girls of the sophomore class as they, from nurse and boys as, Zouaves, the girls of the high school carried banners so arranged as to present a huge flag to each side of the street; the freshman class was armed with long poles and flags, and dressed to match their equipment; a large and striking float bearing various things, contrasted 76 with 17; the Spanish girls; the middle boys and girls; the seniors in a row; and, don't let us forget Cinderella's coach, a gilded carriage drawn by small horses and carrying Cinderella herself in the person of a little lame girl who was unable to walk.

A large amphitheater in the park had been roped off, furnished with a display for the queen; seats for the band and three stanch mypeoples with their pointed streamers of varied colors. About this were gathered the on-lookers, they behind the line, few of whom left before the completion of the program, of which the following is but a brief and imperfect description.

The formal crowning of the Queen of the May was the first event. This was attended by a retinue of ladies with white gowns in court costumes and

Revolutionary Russia Awakens to Its Peril

PRESIDENT WILL MAKE MOVE TO STIR CONGRESS

TIRE OF DILATORY TACTICS ON WAR BILLS AND ASKS THAT WORK BE STARTED

CLAIMS CONGRESS HAS BEEN KILLING TIME FOR 6 WEEKS

Plans Series of Conferences Between Leaders of Both the Parties Which He Will Attend in Person Beginning at Once.

(United Press.) WASHINGTON, May 15.—President Wilson today decided to apply the same old historic tactics that have characterized that action of both the houses during the past six weeks. He particularly displeased with the inaction after they have been injected. The house reversed itself on the Roosevelt division plan, instructing the conferees only way at one time and another way later. The question of war prohibition has taken on several phases. At one time it prohibited the manufacture of liquor and yesterday the senate again. All this, in the opinion of the executive, is killing time without making the necessary preparations for placing the country in a state of offense and defense. A series of conferences with leaders of both parties, with the president in attendance, are being planned to be conducted with a view of getting things done.

inquire: the girls of the sophomore class as they, from nurse and boys as, Zouaves, the girls of the high school carried banners so arranged as to present a huge flag to each side of the street; the freshman class was armed with long poles and flags, and dressed to match their equipment; a large and striking float bearing various things, contrasted 76 with 17; the Spanish girls; the middle boys and girls; the seniors in a row; and, don't let us forget Cinderella's coach, a gilded carriage drawn by small horses and carrying Cinderella herself in the person of a little lame girl who was unable to walk.

A large amphitheater in the park had been roped off, furnished with a display for the queen; seats for the band and three stanch mypeoples with their pointed streamers of varied colors. About this were gathered the on-lookers, they behind the line, few of whom left before the completion of the program, of which the following is but a brief and imperfect description.

The formal crowning of the Queen of the May was the first event. This was attended by a retinue of ladies with white gowns in court costumes and

Council of Workmen and Soldiers Reverses Attitude Toward a Coalition Government and Appeals to Men on the Front to Destroy Power of Kaiser—Stirring Plea Sent to Germans and Austrians to Revolt—Would Have Allies Renounce Conquest—Brusiloff's Resignation Serious.

(United Press.) PETERSBURG, May 15.—The executive committee of the council of soldiers and workmen in this city are beginning to see the peril the situation confronting themselves and the country and today reconsidered the vote of last week which rejected the proposal of coalition government. Ten thousand representatives of soldiers and workmen voted today to disavow coalition to save Russia from disintegration. Foreign Minister Milukoff was sent to the battle front to plead with soldiers to show the enemy an unbroken front and to ask that they demand a responsible and united government at home.

The council of soldiers and workmen made a powerful appeal to the soldiers of Russia not to be misled by the fact that Germany seeks the destruction of free Russia. The meeting called upon the peasants and workmen of Germany and Austria to revolt and voiced a demand that the allies renounce any policy of conquest. "Soldiers, Comrades," the proclamation reads "we speak in the name of Russia revolutionary democracy. Do not forget that the soldiers of the Kaiser are destroying revolutionary Russia. It would be an irreparable catastrophe for us and for the working classes of the entire world should the German military power triumph. Therefore, defend revolutionary Russia with all your power. Separate peace is impossible and must not be allowed to embarrass the world events that are making for the greater freedom of the people."

General Brusiloff and General Gorke today tendered their resignations. They have not yet been accepted. Brusiloff is considered the most notable of Russian generals and conducted the most successful Russian offensive movement. The resignation is considered exceedingly serious.

SWIM PRESIDENT OF THE NEW COUNCIL

Special Meeting Adopts Rules for Free Water, Let Sprinkling Contract and Sets Clean-Up Day.

Pursuant to call of Mayor F. F. Bracken the city council met in special session Tuesday night, electing Councilman Arthur L. Swim as president of the council. Rules governing free water were adopted as follows: Free water will not be supplied where canal water is available and that free water will be guaranteed in view of the inadequacy of parts of the present water system and the preference to be given paying users. The council voted to adopt a system of rotation between the east and west sides of Shoshone street. In case of fire, it is provided under the provisions of an ordinance previously enacted, that all water shall be shut off.

The sprinkling contract for the year was let to Boswell & Robinson. Tuesday June 5, was selected as "Clean-up" day. Although under the plan adopted by the previous administration, cleaning up is a steady process and the town is kept clean all the time, yet a special day which will brush up at the corners and make the city indeed "Spotless Town" was deemed advisable.

Before the Russians make an attack now they have to refer to the committee on the town and give their final readings in the regular order of the day.

CO. 'D'S' ACKNOWLEDGMENT TO THE LOCAL ASSOCIATION

Letter From Captain Meltober to the Treasurer of the Company D Association.

Referring to an item published in these columns ten days ago with reference to the fund raised in this city for the benefit of our Company D, and to a remittance just made therefrom, the following letter will be self explanatory.

Hq. Co. D, 2d Idaho Inf. Avery, Idaho, May 10, 1917.

Dr. Fred K. Snook, Twin Falls, Idaho. We are in receipt of your favor of the 7th inst., enclosing check for \$100 for relief of John H. Smith and take this opportunity to thank the Co. D, Assn. and the people of Twin Falls for the splendid support you are giving us.

We are forwarding the check to Smith Hospital, as is at the Military Hospital at Fort Bayard, N. M., and we trust it will be deeply grateful, not only for the money, but because of the fact that the people of Twin Falls are with us in such noble manner. With best wishes from all the boys. Very sincerely yours, Capt. D. L. McCREED, Co. D.

STUBBS SELECTED CLUB SECRETARY FOR COMING YEAR

WILL GET \$400 A MONTH—IS NOW SECRETARY OF THE COMMERCE CLUB CLUB AT IDAHO FALLS

MEMBERSHIP CAMPAIGN TO BE GIN IN SHORT TIME

Club Will Participate on Memorial Day—Protest Made Against the Return of Brunette to Dry Farm System—Want Street Paved.

The Twin Falls Commercial club directors at a meeting yesterday determined to hire J. E. Stubbs, present secretary of the Idaho Falls Commercial club, for secretary for a year at \$150 a month; to encourage a band and otherwise participate in the Memorial Day parade; to take under advisement the question of a celebration July 4 to protest against taking the Brunette project from under the Carey act, and to ask the Oregon Shore line to pave around its new freight depot in the interest of the drymen.

Mr. Stubbs will be here about June 1 to take charge. On his arrival the club will take up the matter of starting a membership campaign. Relative to the Brunette, the club has information to the effect that the new secretary is in favor of united action throughout southern Idaho in favor of keeping the project under the Carey act as it is felt that the salvation of the country lies in restriction and its development would be retarded by putting it back for dry farming. President Hackman said that the only question relative to the celebration July 4, is whether it would interfere with the general plan of re-trenchment now being pursued. It will be taken up at a luncheon later on and popular sentiment ascertained. The freight depot paving resolution resulted from the fact that the conditions around the new building alter, and between that and mud.

It will be impossible to tell whether this anti-unioning device is good for anything until it has been submitted to the crowd around the grocery store stove.

Still another of those men who should be taken firmly by the ear and introduced to the apolo is the man who comes around with that ninety-nine cent kitchen utensil guaranteed to make domestic work wholly a pleasure.

While they are taking baseball and other favorite amusements they might set some revenue by selling licenses to lick the umpire.

GERMANS COUNTER ON THE ALIES ON FRONTAL POSITION

BOTH BRITISH AND FRENCH DIVISIONS FROM INSIGNIFICANT PARTS OF LINE

BELIEVED GREAT GERMAN OFFENSIVE HAS BEGUN

French Council Makes Sweeping Changes in Army Commanders and Make General Petain the Commander in Chief of All.

(United Press.)

LONDON, May 15.—Germany today launched a major counter-offensive on both the French and British fronts, which is probably part of a general counter-offensive movement. Most of the attacks were repulsed, but the British and French were compelled to relinquish insignificant bits of ground. General Haig reported a tremendous German bombardment on the positions gained on the Hindenburg line, particularly at Belleuourt. The fighting has been heavy and General Haig admitted that the situation had been compelled to retreat a short distance in the northern part of Belleuourt. The French headquarters officially reported a major German counter-offensive of the positions recently captured. The assault was repulsed except in one spot where the Germans made and retained a gain.

PARIS, May 15.—General Petain was today named generalissimo of the French forces in supreme command in the field. General Haig, commander of the Meuse, was appointed to succeed Petain as chief of staff. General Haig, former commander of the field forces was given command of certain army corps. These and other sweeping changes of French command were decided on at a meeting of the council of ministers.

GREAT LINER ESCAPED GRAVE IN THE WATERS

Submarine Sends Torpedo That Misses By Ten Feet—Another Ship—Sink With Heavy Loss of Life.

(United Press.) NEW YORK, May 15.—A submarine unsuccessfully tried to sink the White Star liner Baltic with torpedoes, but missed the ship by ten feet according to travelers arriving here today. It was definitely learned today that ten submarine passengers of the British liner Abosso were lost when the vessel was submerged without warning off the coast of the British Isles on the night of April 24, when about 9 o'clock the lookout saw a torpedo struck her and her hull struck three lifeboats, smashing them and crushing and drowning their occupants.

According to the story here, the Abosso was steaming 300 miles south of Fastnet on the night of April 24, when about 9 o'clock the lookout saw a torpedo struck her and her hull struck three lifeboats, smashing them and crushing and drowning their occupants.

That mishap to the French cargo train was of course purely accidental, and probably there are other accidents due to come off about now.

The man who can't cultivate his garden—only the same because it is too cold; finally the same one who can't do it if the next week because it is too hot.

BODY OF HOFFMAN BOY—ROSE AND BANK AGAIN

All doubt as to the fate of Glen Hoffman was removed just before 7 o'clock last evening when a guard stationed a short distance below Auger Falls saw the body arise from the water for a moment and then sink out of sight. He at once notified others and a systematic search was begun and continued all last night and this morning around the spot where the body disappeared, but without result up to this date. The TIMES went to press. Rumors around town that two bullet marks were seen on the body were refuted today from the office of the sheriff in Jerome, as it was stated that the guard was not near enough to determine the exact location of the body on it or not. It was suggested from Jerome that any who desired to volunteer for the search were to be sent to Idaho Falls from the office of the sheriff in Jerome.

MONEY TALKS

A Bank Account is proof of earnest effort and accomplishment

A bank account shows that you are seeking to make the most of your efforts and your time.

It is, therefore, a mark of solidity. It gives a man a standing in the eyes of others as a solid citizen.

The world confers its favors on those who prove capable of doing justice to themselves as well as to others. In justice to yourself you should start a bank account.

4 per cent interest paid on savings.

First National Bank

MEMBER OF REGIONAL BANK FEDERAL RESERVE SYSTEM.

DO IT NOW

JUST MAKE UP YOUR MIND TO WIN AND YOU WILL.

Campaign As a Whole Is Short and Ambitious Workers Will Not Waste Time.

Contestants should exert every effort and exercise every ounce of ambition from now on and the end will bring but one thing, success. Mental suggestion may be used effectively by every candidate in the TIMES great profit sharing campaign. Make up your mind that you are going to win by energetically pursuing your work and nothing can hinder your success. Nothing will stop you from winning the prize you desire.

The energetic contestant refuses to be daunted by a few disappointments but keeps on working and the finish finds her far above the ones who have

entered and have worked in a half-hearted way. Nothing succeeds like success and if you feel that you are going to succeed, keep your mind on that fact and do not allow anything to keep you from your success. You not only arouse the admiration of your friends and acquaintances but you also receive their help, for everyone likes to help a winner.

Only a Few Weeks Remain. Sit down and think this out but do not sit long. Can you earn any more money than the TIMES capital prize in the time this campaign will last. Just think of it! A beautiful Maxwell touring car absolutely free for just devoting your spare time to an enterprise that is fascinating and exciting.

Can you afford to let this opportunity slip by? The campaign, as a whole is a short one and a real ambitious worker who desires to succeed will not waste any of this precious time.

There are only a few days left of the big special vote offer and every ounce of effort and every minute of time should be used until the close.

There are hundreds of subscribers who have not been approached for their back subscriptions. When a contestant is working, it will be advisable for her to call on every family, either for new or back subscriptions. If you miss a family, you may miss a subscription.

From a total of 100,000 votes for every club of \$10.00 in old or new subscription money closes Saturday, May 19. Every candidate should see the people who have promised them subscriptions so they may be able to get as many clubs as possible and when the campaign draws to a close you will be a winner.

MILKMAIDS TRAINED WITH DUMMY COWS

After Examination They Are Introduced to the Real Article in the Dairy.

"LONDON, May 12.—"Where are you going my pretty maid?" Three thousand English girls coddled today very truthfully cap this poetical question with the succeeding line right out of Mother Goose. "The nation's maids are going a-milking."

There is, however, no royal road to the three-legged stool. The first condition to answer the call of national service has gone to training farms in all parts of the country to work out the apprenticeship under 64 agricultural committees.

Dummy cows, with square wooden bodies, thick wooden kickless legs and teils that won't sting you in the face are used to train the novices in the art of milking. The girls who do the fair milkmaids become proficient at perspiring the wooden cows to part with 200 HATER in lieu of milk. They are allowed to practice on some lowland cows kept around the farms for this purpose. After a thorough course of training they will be turned loose on real farms and become acquainted with actual cows.

Already some of the newcomers have passed their examinations and are working on a farm containing the most famous herd of Jersey cows in all-England. These valuable bovines are very particular to whom they give their milk, which is why the training course is necessary.

Four weeks is the time allowed by the agricultural committees to test the girls' capacity for farm work. "Home Farms" with model dairies and other fair appointments are the scenes of their initiation into the mysteries of milking and mowing, and mashing the greensward.

Miss "Home Farm" is in charge of a lady bailiff, who leads the maid workers and sees that the girls, drawn from varying social grades, forget their former environments and mingle clubbily.

Most of the girls who have gone out this spring had never fed or even touched a cow, and since wrong handling would ruin the valuable Jersey the committees struck upon the wooden cows as the best way to break in the fair milkmaids.

Girls who play the piano or hockey, according to an Essex bailiff, quickly pick up the art of milking. But the most important thing is to get the cows used to the girls. The girls do this by having the girls feed them, sweep out the stalls, and groom their aristocratic coats.

Diamonds--- An Investment

Probably no commodity---certainly no luxury---has been less affected in value during the present war than the first quality diamond. It possesses a standard value everywhere; it is for this reason that a first quality diamond is universally recognized as a safe investment. DIAMONDS---unlike ordinary merchandise do not deteriorate through age or wear. There is no such thing as a second-hand diamond. From the moment it leaves the hand of the cutter as a finished product, it possesses a fixed value. Its brilliancy does not change or fade, nor can it be scratched or blemished except under extraordinary circumstances.

By investing a sum of money in a ring you get something that not only gives great pleasure day by day but does not depreciate in value.

EACH YEAR SEES INCREASE IN ELECTRICITY'S USE

Iron wire is being used for carrying high tension electricity used for lighting in rural districts.

The monument erected to President William McKinley at Twin Falls is permanently flood-lighted by electricity.

Trees are "topped" with a charge of dynamite placed high among the branches and fired by electricity generated from a dynamo on the ground.

Electrical equipment made in the United States has been ordered to furnish indirect electric lighting in the private office of the president of China.

A course in "household electricity" for the women "co-op" students of the University of California will be offered in San Francisco and Oakland, Cal.

"Minute men of the rails," men ready at an instant's notice to go out on a railroad "wrecker" are kept in touch with the dispatcher's office by means of a portable telephone outfit installed in the wrecking train.

The entire manufacturing facilities of the various plants of the General Electric Company which are engaged in making turbines, generators and motors for Uncle Sam's new electrically driven battle cruisers have been ordered to the United States government.

Manufacturers of electric fans in this country have co-operated for the purpose of standardizing fan equipment and names. The old term "desk and bracket" has been replaced by the term "non-oscillating" and fans are therefore divided into two types, oscillating and non-oscillating.

The quality of conducting electricity which a stream of water possesses to high degree has led to injury to firemen whose water from a hose falls on charged wires. A new extinguisher

uses a liquid which will not permit the passage of electricity.

Special precautions have been taken by the electric generating plants in the event of hostilities between this country and Germany. In some cases generating stations are flood lighted to prevent the police protection provided throughout the full 24 hours.

Barbed wire has also been placed about power house buildings.

A motion picture machine which system to show motion pictures in the home has been commercially placed on the market. It is so small and light that it may be carried about by a child and is absolutely safe for even a youngster to operate. The necessary high tension is applied by a 750 candle-power gas filled Mazda lamp.

Experiments which may lead to the design of an efficient device to generate electricity for farm use from the wind are now in progress at a Kansas state college. In the present test, the electric generator is mounted on the head of a windmill and geared direct to the mill. Previous practice consisted in having the generator to the mill at the foot.

All of the resources and equipment represented by the American Electric Railway Association will be placed at the disposal of the United States government in the event of war, according to the unanimous vote of the members of the association representing more than ninety per cent of the total electric railway mileage and including four hundred railway companies.

A miniature electric lighting plant installed in a wax by a master sculptor is being constructed in Tacoma, Wash. The model will measure 8 feet long and 4 feet wide and will cost \$500.

It is to be used in connection with an industrial exhibit reproducing not only the power plant but the river from which it derives its power, the mountains and the river canyon nearby. The miniature river will be lighted with incandescent lamps placed beneath the water. The heights and the setting basin of the municipal water supply will also be reproduced in detail. Further up the canyon the networks will be shown and in the

Twin Falls Red Cross Has Many Members But Needs More

The Twin Falls chapter, National Red Cross association, is desirous of obtaining as large a membership as possible in the national association. According to the secretary, Twin Falls has gone far ahead of its per capita proportion, but many of the smaller towns in the state have made a much greater per capita increase than Twin Falls.

The campaign for membership has been highly successful and it would appear that almost every man and woman in the city had been reached, but nearly every day the membership committee learns of someone who has not had the opportunity to join.

For the benefit of those who may not be reached personally by the active membership committee, the following blank is printed. Anyone wishing to aid, in a small way the great human work of the Red Cross in this war, is asked to make a cross after the class of membership he wishes to be included under, and to remit cash or check to Mrs. C. H. Kramgol, chairman of the membership committee.

This blank, by making remittance to the proper person, can be used for membership in a circle in any other town.

APPLICATION FOR MEMBERSHIP
AMERICAN NATIONAL RED CROSS,
HEADQUARTERS WASHINGTON, D. C.

Date _____

I hereby apply for membership in the class checked opposite my name and enclose the sum of _____ Dollars (\$ _____) therefor. Please check classes desired and be sure to write name legibly

Check _____

Colonel Roosevelt Sends Warm Words of Praise to Twin Falls Woman

Noted Hoop Rider Congratulates Mrs. T. H. Irwin on Her Splendid Patriotic Address Before the People of Twin Falls in The High School Auditorium—Reply Worthy of Original Address.

(From the Sunday Times)

Mrs. T. H. Irwin, whose impassioned speech stirred and inspired the people of Twin Falls when it was delivered in the high school on the occasion of the organization of the Red Cross is in receipt of an autograph letter from Colonel Theodore Roosevelt. Unfortunately, the wrong initials had been given in the article from which Colonel Roosevelt obtained his information, so that the letter of congratulation did not reach here on schedule. Mrs. Irwin received a letter from J. H. Colt, chairman of the board of trustees of the American Defense Society. These letters, in the order named follow.

Col. Roosevelt's Letter
April 23rd, 1917.

My dear Mrs. Irwin: I just saw a copy of your address in the Idaho Statesman. I wish on behalf of Mrs. Roosevelt and myself, to express our hearty thanks to you and admiration for what you have said, and for your attitude. I wish our people would have realized the proper way to have their country to war, but a probable means of averting it. This nation has been humiliated by its attitude during the past three years, and although it has failed to do its duty, and failed to prepare, it has nevertheless also failed to keep out of war. Moreover, I fully agree with what you feel about the man who would not be conscripted under the obligatory service law, but who ought to go to the front. They are the men I am trying to reach by my proposed volunteer organization, and not as a substitute for the obligatory military system, an necessary supplement in view of our failure to establish the universal obligatory system when that war broke out.

THEODORE ROOSEVELT.

Chairman Collis Letter
April 16th, 1917.
Twin Falls, Idaho.

My dear Mrs. Irwin: From time to time during the past two years I have heard the question asked: What has become of the old New England stock that settled this country and left the old for the "hib" and the parent-of-happiness. And now I have your stirring address delivered at Twin City, with its noble and apposite quotation from Emerson, in which you take a stand squarely with the men and the aspirations of this country. We here in the east have never doubted for a moment the loyalty or nobility of sentiment of the people of the west, but it is heartening and encouraging to come suddenly upon a definite instance in support of that belief. I venture then to write to you in appreciation of what you said, in the hope that every action of this kind will tend to bring our widely-separated country more closely together.

Respectfully yours,
J. H. COLT,
Chairman, Board of Trustees.

In the same tone of modesty and lack of egotism which characterized her celebrated address at the high school auditorium, the paragraph from the distinguished correspondent. Her letter breathes that spirit of patriotism that co-operates with the best power. And shows the same appreciation of the breadth and fundamental wisdom of American policy which was indicated by the paragraph from the address complimented:

"Mr. Wilson's whole policy has been based on the rights of humanity. Disregarding the claims of the more bloodthirsty and impatient

part of the populace, he has gone steadfastly on, in his own integrity, with his ear attuned to the infinite; he has humbled himself; he has humbled the nation; he has done all that human power can do to avert this great catastrophe, and now, unless the hand of Destiny shall interfere, we are hastening on to the verge of a dark and abysmal pit similar to that in which our sister republic—poor, bleeding France, is today."

Mrs. Irwin, replying to Colonel Roosevelt said:

Twin Falls, Idaho, May 10, 1917.

Hon. Theodore Roosevelt,
New York.

Honored Sir: I am in receipt of your very gracious and congratulatory letter, written April 23rd, which reached me in a round-about way, having slightly changed my address. Believe me when I say: I feel, very keenly, the honor of having been allowed to transmit a message of patriotism to our people, and to be so honored and recognized by you, a man of affairs, so noted as "Our Own Teddy."

I appreciate in full measure my good fortune in receiving an autograph letter from one of the truly great men who is going to lead us (please God) out of the mazes of a world-wide disaster.

The Twin Falls country is mobilizing for service in any and all lines and are standing like a solid wall back of the plans and lines of defense and offense as laid down by our great leaders.

Always yours for service,
MRS. T. H. IRWIN.

P. S. The initials as printed were incorrect.

THE MOTHER OF A BOY.

I didn't raise my boy to be a coward; I want my boy to go if there is war. I want to stand and watch him proudly marching; I want to gaze upon him from the door. I do not want to lose him or to keep him. I only long and long to have him be a man when'er his country comes to sweep him. Into her surging legions of the free.

I do not want my boy to be a dragoon; I love him and I'd hate to see him go; And yet I'd rather lose him, sadly lose him. Than have him hide in fear to foment the plots and aims of the spirit of woman.

For peace, and that our struggle might not come; But if it comes I want him brave and human—My boy must march away with flag and drum.

I'd give him, yes, a thousand times I'd give him. With all he means to me of love and joy. Because I would not love him if he wasn't.

My ideal of a woman's kind of boy. I do not harbor hate or yearn for vengeance. I would not crush a violet with my hand. But if it comes to fighting, then I want him To be a man and struggle for his land.

I want my boy to go if he must enter This mad world conflict raging in its might. With all it means to me to have him leave me.

To give him to his country, help him fight for me, I think, a mother does her duty.

Repair Expense
Eight thousand miles—2 1/2% off to the gallon. I got 22 miles per gallon. I was satisfied. L. L. Falls, 6208 University Ave., Chicago, Ill.

All Kinds of Power
My car has all kinds of power. We have up to 40 per cent extra speed here and it is seldom I have even to shift gears. I have had my car run on other than for 24 and still—A. Christmann, Hendricks, Minn.

11,780 Mountain Miles
My Maxwell has gone 11,780 miles wherever the track of any car has been around these mountains. I got 6,000 miles on my first car about 22 miles to the gallon. No trouble or expense whatever. F. C. Healy, Colorado Springs, Colo.

Climbs Any Hill
I've gone 22 miles to the gallon. My car never fails me. I've been in a garage for repairs, and have never failed to climb any hill. W. W. Lacey, Hurley, New Mexico.

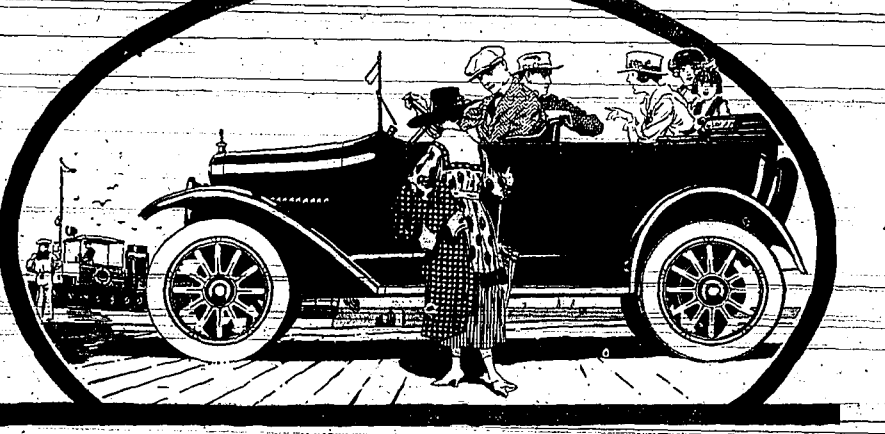

16,200 Miles—No Repairs
Have driven my Maxwell car 16,200 miles—average 24 1/2 miles to the gallon. I have had my repair expense. My car is the best car I ever had at the price—Oscar L. Taylor, Chickasha, Okla.

Amazing Power
Average 27 1/2 miles per gallon. Has driven 4,000 miles, and says "I'll be getting a car tomorrow." J. B. Gardner, Coral, Penna.

These extracts are but a very few of many thousands of letters from Maxwell owners. What the Maxwell has done for these motorists, it will do for you—because the Maxwell is built right—of only the best materials, on sound, sane, time-tried lines of construction. Come into our Salesrooms and let us show you how and why.

Roadster, \$650; Touring Car, \$665; Cabriolet, \$865; Town Car, \$915; Sedan, \$985; Completely equipped, including electric starter and lights. All prices f. o. b. Detroit.

Maxwell Owners Write This Advertisement

200,000 enthusiastic Maxwell owners in the world. The extracts from letters printed below are typical of what they all say:

Perfect Shape After 23,700 Miles
23,700 miles, average 20 miles per gallon. My car has never failed me, no matter how rough the road. I would surely be a Maxwell. F. W. Heron, Portland, Oregon.

Monthly Running Cost, \$3
Has driven a Maxwell for 2 years, and says: "My total expense for tires, oil, gas, and repairs, including gas, oil, tires, etc., average monthly expense of about \$3." C. W. Baber, Carthage, Missouri.

No Equal for Service
We have driven our Maxwell 8,004 miles on about 21 miles per gallon of gasoline. One trip of 1,016 miles, five passengers, tent, bed, and provisions, crossed the Bluff Pass, Snake River Pass, etc. Rainier Park, Sunset Mountains and Blue Mountains. We believe that the Maxwell has no equal at anything near its price. J. M. Burley, La Grande, Oregon.

4,500 Miles on \$58.20
"In seven months I have driven 4,500 miles, getting 22 miles to the gallon, total expense \$58.20 including gas, oil, tires, etc.—average monthly operating cost \$4.51. My drive is over mountains and desert. In my opinion a Maxwell could save a driver 8,000 miles without a single item of expense, except gasoline and oil. It gives full attention, and support, so fairly good roads—Fred Williams, El Centro, California.

Drove Up Pike's Peak
My car has run 10,772 miles through mountainous country and over 20,000 feet. I have called it Pike's Peak Highway, and I have driven 8,521 miles through Arizona and New Mexico. Never had any trouble whatever—Murd J. Black, Avondale, Colorado.

Will Go Where Other Cars Can't
I like the Maxwell because it is roomy and comfortable, easily operated, almost trouble-free, and because it will go just about anywhere. L. E. New, Marshall, Minn.

Economical to Run
My Maxwell is very economical to run. I have gone more than 10,000 miles—average 23 1/2 miles per gallon of gasoline—George L. Clauer, Imbler, Ore.

Wonderful Endurance
My Maxwell has wonderful endurance. It can stand any kind of abuse. Besides, it goes better than 20 miles per gallon. My United States tires have given 4,000 miles so far and are good for many more—George Umberger, La Crosse, Minn.

30 Miles Per Gallon of Gasoline
I have tried a wood wood light car and cannot beat the Maxwell. In the second car is its class. I have driven it 5,500 miles and get 30 miles to the gallon. No repair expense whatever. L. A. Swenson, Freeport, Rhode Island.

Plenty of Speed
My Maxwell is a wonderful hill climber, has plenty of speed, and is a substantial built. I have driven it 4,500 miles—John C. Fracker, Birmingham, Kansas.

SPRING IMPROVEMENTS

Spring is a time when the desire for improvement is felt by self-respecting people. There are too many persons, however, who demand public improvements at municipal cost, and who complain bitterly if the heavy tax-payers do not provide them. Meanwhile, they refuse to take the first step to improve their own places.

A man who owns a house need never think the thing is finished merely because he has paid and discharged the carpenters, masons, and plumbers. There are always things wearing out, and these tend to make the place look unkempt and run down. Standards of living grow higher as time goes on, and to keep up with the procession people must expect to spend a little money from time to time.

It is a poor investment for people to put money into a house unless they are willing to spend a little from time to time to keep the thing up. Before they know it, the property will look seedy and its selling value falls. It gets a reputation as a place not well-maintained, and if they wanted to dispose of it, they would find this out.

One of the most attractive things about a place is a good system of walks from doors to the street. The man who maintains a rough walk built of cinders or mere cinders would find that a good cement walk would add more than double the curb to the appearance of his real estate. Then there are people who put in some forms of a paved walk, but allow it to become broken, in which case it looks worse than no pavement at all. Improvements along these lines help in the general appearance of a neighborhood and a town. No matter how much money is spent on streets and parks and sidewalks, if houses are not allowed to go unpainted, without proper walks, with tumbledown sheds and porches, and without an attractive adornment of shrubbery, the town will look decadent and all real estate will suffer.

How would my lady of America like the present German dress allowance, namely, "Two everyday dresses, one Sunday dress, one extra skirt, two blouses, one cloak or cape, one shawl, one dressing gown, three aprons, one pair winter gloves, six handkerchiefs, four chemises, three nightgowns, three suits of underwear, three petticoats, one pair stockings?" Mr. Man is allowed, "one everyday suit, one Sunday suit, one overcoat or cape, two smocks or jerseys, two waistcoats, two pairs working trousers, two pairs overalls, one pair winter gloves, six handkerchiefs, three shirts, three suits underclothing, two nightgowns, and four pairs stockings." The trousers not to be turned up and no folds or pleats or belts on coats or overcoats. Both men and women are limited to three and one quarter yards of material for suit or dress. No wonder the dresses are short.

Apropos to America's reputation for inventive genius, the French statesman, Jules Combar, says, "It is not doubted that the end of the submarine is now in sight. American energy and precision will settle the questions of feeding and of freight."

FRESNO MAN SAYS NEW HARBOR GOOD FOR US

Monterey Is Declared Destined to Be The Greatest Port of Entry On the American West Coast.

and cities; the increase of land values in Seattle on the water front within a comparatively short time going \$176 lot to about \$2000 a front foot. Regarding the value of lands in the neighborhood of the short front in San Pedro, the Port Los Angeles, a letter from the Los Angeles Times is cited, which states that Adolph Busch recently purchased land there at the price of \$24 a square foot, according to price of realty at the harbor ranges from \$10 to \$26 a square foot, according to location. In other words land there ranges from \$2500 to \$7500 for one lot. This land was almost worthless a few years ago, and Mr. Harris says that he is confident that Monterey will have a similar, if not more striking experience.

The government of the United States has appropriated the sum of \$600,000 and the state of California \$200,000 more for a breakwater, and this, Mr. Harris believes, will be sufficient. In this connection he calls attention to a report of the case of engineers of the United States government, contained in House Report No. 1084, of the Sixty-first congress, first session; which says, "there can be no question, however, but that a good harbor will lead to the rapid development of the country; that it will be of advantage to freight rates; that it will overcome the loss due occasionally to the lack of care, the California coast is lacking in good harbors. Monterey already has a harbor. It is well protected from all the prevailing winds, deep, safe, has no rivers flowing into it; no shifting sands inflicting a bar, but the fact is practically without any of the obstacles to navigation that usually mar harbors. A short comparatively inexpensive breakwater only is needed to overcome its one trouble, viz: the uncertainty of ground." Mr. Harris cites also a letter from Jno. L. D. Bortis of the Monterey county board of supervisors, written in behalf of that body, relative to the local possibilities of the harbor, among which is mentioned the following advantages: "Monterey is the nearest harbor for a part of California, embracing 13,000,000 a. arable land; the local points in the area east, being forty to 100 miles nearer the water by connection with Monterey, North of the Tehachapi and San Luis Obispo passes; it is the nearest port to the great oil belt of central California."

The final point he makes for the harbor which he thinks will be of importance to the nation are that it is the first really great port of entry to which any ocean vessel can sail after passing the canal, as the great liners such as ply the Atlantic, would enter either San Diego or San Pedro, or indeed San Francisco, and being there they all require the figures that this is the point at which vessels will stop for oil for fuel. The United States government is preparing to spend millions of dollars on a great submarine base and an aviation base at Monterey, and has just purchased 15,200 acres of land near the city for these purposes.

Besides the branches of service needed it is planned to have cavalry and mobile artillery post at this spot, and the laying off of the breakwater are already under way. Another great port on the Pacific, in his opinion, will be of interest to the international statesmen particularly when the railroad lines, particularly from Twin Falls to the California country, as they will soon do.

JOINT FUND PLAN FOUND NOT FEASIBLE

Lumberman's Trust, Special Bond Attorneys Decide Against Proposed Road Issue

The tentative plan suggested some time ago for the construction of roads in this county, including the Dunham highway district, through a certain construction of the law which seemed to forbid such division, was declared not practicable by the special bond attorneys of the Lumberman's Trust company of Portland. An agent of the company originally suggested what he thought to be a way of getting around the seeming inhibition. The law as it appears on its face, and as the bond attorneys construe it, forbids anything less than the whole county to vote bonds, unless such form for a highway district. So if the whole county should vote bonds for roads, the people of Dunham district would have to vote on the issue and help pay it, but could not share its benefits.

The event that the law shall prove to be as construed by the bond attorneys in question, the only practicable way to get a bond issue for good roads in Dunham is independent of the road district of that part of the country outside of the Dunham independent district or to induce the Dunham district to dissolve at least on the roads or being fixed. Otherwise the people of the westward would have a valid claim that they were suffering from taxation without representation.

RED CROSS NEEDS MORE SEWING DONE

Tremendous Task Imposed on Americans in Equipping Army and Helping France At The Same Time.

ROBINSONS

WELL! WELL! IT SEEMS TO HAVE ARRIVED. THAT IS, JUDGING FROM MEN SEEN WITHOUT COATS AND VESTS, AND WOMEN WITHOUT WRAPS OR HATS. BUT, DO YOU THINK THE WARM WEATHER HAS COME TO STAY? HOW-SUM-EVER, WE ARE READY FOR YOU WITH WARM WEATHER "WEARABLES" OF ALL KINDS. LOOK OVER THE FOLLOWING ITEMS AND JOT 'EM DOWN AND COME IN AND SEE.

- Men's fine rib crew color union suits, long sleeves, ankle length, military shoulder, very elastic and comfortable. Looks like a dollar, and sells for a dollar elsewhere, my price **90c**
- Men's fine rib white union suits, soft finish liase, short sleeves, knee length, military shoulder, others ask a lot, my price **\$1**
- Men's extra quality, nainsook union suit. Considered the most comfortable garment made for summer wear. you can buy them here for \$1 or 2 for **\$1.90**
- Boys' Mesh (like Poros Knit) union suits—the kind boys like—short sleeves, knee length, cool and comfortable. You will be asked more for this quality elsewhere, you can buy them here for **25c**
- Nainsook combinations (union suit and waist combined) adjustable shoulder straps, special horse-supporter feature, most comfortable and very durable, and easily laundered. For boys and girls **60c**

PERHAPS WE "SHOULDN'T BE" BUT WE ARE JUST A BIT PROUD, "SORT-O-PUFFED-UP" AS IT WERE, OVER OUR LINE OF MUSLIN UNDERWEAR FOR WOMEN, MISSES AND CHILDREN. BY WAY OF REMINDER:

- LADIES' CREPE GOWNS
- LADIES' NAINSOOK GOWNS
- LADIES' CAMBRIC GOWNS
- IN HIGH NECK
- IN V-NECK
- IN LOW NECK
- Good quality ladies' muslin gown, 40-inches wide at the bottom. Wonderful values at **85c**
- DAINTY CORSET COVERS
- PRETTY UNDER SKIRTS
- EXQUISITE ENVELOPES
- EMBROIDERY TRIMMED
- RIBBON TRIMMED
- LAOE TRIMMED
- Ladies' extra size gowns, 18, 19 and 20 inch neck, Good quality of muslin for **90c**

There are hardly words that will describe Dove brand muslin underwear that will do these splendid garments full justice, that might not seem exaggerations. They are dainty in appearance, faultless in fit, with special features in their make, (really tailored undergarments) that make them the delight of womanhood everywhere.

R. & G. CORSETS, BACK AND FRONT LACE DOBEVOISE BEASSIERES FERRIS MATERNITY CORSETS

If you have not seen them you may have read of them in the leading magazines or heard of them through friends. They are here in almost endless variety. One might say in profusion. All so pretty and wonderfully attractive. You will find the prices lower here than elsewhere, even in the big stores in the big cities and the qualities and styles pleasing beyond description.

Edward Robinson

P. S. MAIL ORDERS GIVEN CAREFUL PERSONAL ATTENTION AND SHIPPING CHARGES PAID.

plains. The American Red Cross is preparing to supply thirty-five base hospitals, six of which are needed in France at once. The personnel of six base hospitals have already been sent to France to attend to needs there. As soon as practicable it is expected that an American army will go to the front but in the meantime the supplies of the French have been exhausted, so that, as recently pointed out by Lord Northcliffe, a tremendous amount of supplies for the food and care of men and horses and especially for the hospital care of the men, must be sent and prepared so that the army, great or small, which goes to the front shall carry everything needed. General Sheridan once said that should a crow fly down a certain valley he would have to carry his supplies with him. The same is true of any American army that now goes to Europe. Hence, there is need for undoubted activity on the part of those who are interested, as all patriotic Americans are, in furthering Red Cross work. A base hospital has twenty-five beds, three doctors, besides nurses, pharmacists, clerks and other assistants. It costs \$25 to equip one. It is believed that if the women of the country, who can spare time can do the sewing for these hospitals, it will expedite matters and allow others in productive industry to take up other needed tasks. All sorts of assistants of both sexes are needed for the front and information on that point can be secured from Miss M. E. Hamlin at the headquarters of the Red Cross at the Twin Falls Commercial club.

Egg Production

One of the most important problems that confronts every poultryman is that of proper feeding. On this depends to a tremendous extent the health and productivity of the fowls and the resulting profit. By using

Shoshone High School Beats Twin Falls Team. Twin Falls high school lost its second game of the season to Shoshone last Friday. The game was well played and the final outcome was very much in doubt until the last inning, when Davis and Krehgel entered and gave Shoshone two runs, leaving the final score 11 to eleven. Informs that the different teams had just alternated with the scores. Shoshone's one-armed pitcher played a fine game, was phoned for and upon they were again on their way. Forecast for the week beginning Sunday, May 15—Mostly fair. The following is the weather: Rocky mountain and northern regions: Scattered local rains first half of week over central and northern portions; latter fair. Normal temperature.

PERSONALS

Friends of Mrs. Owen Hamp will be pleased to learn that she is rapidly recovering from the operation she underwent on a recent date.

Former Editor Pillsbury, Mr. Henry A. Chambers, writes from here from Omaha, Nebraska, stating that he is now attached to a signal corps, U. S. aviation volunteers, which is in training at Fort Riley, Kansas.

Only One Called—Only one man was called from this county for the first officers' reservo camp at Presho, Idaho, Michigan, being the lucky man.

LOCAL BREVITIES

Go to Boise—Mr. and Mrs. Alvin Caser, Mr. and Mrs. Henry F. Watson and Miss Jessie Warrington left for Boise this morning.

Fined for Larceny—C. Blain of Buhl was fined \$25 and costs Friday for stealing two sacks of alfalfa seed from the Skillean ranch.

Violated Speed—R. E. Oala was fined five dollars yesterday for violating the speed ordinance. Justice W. J. Smith inflicted the penalty.

Assistant Stale Deputy Game Warden Joe Pissalmonno says streams are up all over and that Goose creek dam for the Oakley project is filling rapidly.

George Sanner Buys—George Sanner of Buhl has purchased forty acres of the land near Twin Falls from Miss Anna Gardner and will move here to make his home.

Used Cleaver on Antagonist—Because he tried to make mince meat of his adversary during a quarrel, J. W. Bing was fined \$25 yesterday by Police Judge J. B. Smith.

Blossom Party—Mrs. I. B. Perrino requests the TIMES to say to all the ladies who have hitherto had invitations to the "Blossom Party" at Blue lakes that they will each and all receive a cordial welcome at the takes on May 16, 17, 18 or 19.

Special—Resigned Fred Spencer, street commissioner, last night to take effect Saturday night. J. J. Pilgerim will take his place on Monday morning.

Back to Washington—Congressman and Mrs. Addison T. Smith leave Thursday for Washington, their son, Fred, being now out of danger after a serious illness.

Mr. Frank A. Fisher, Rev. J. B. Price, rector of the Ascension Episcopal church, has been invited to deliver the Buhl school commencement address this evening at 8 o'clock.

Enters Fidelity—S. Claude Stewart has entered the Fidelity Abstract company as a partner, but will not take part in the business actively until after the assessing is completed for the year.

High Water in Streams—The warm rains of the past few days have caused the waters of Dry creek to rise so rapidly that they made it impossible to reach Artesian city on account of the bridges being washed out.

Labor Evers Up Again—That the demand and supply of farm labor have again struck a balance is the report from both Buhl and Twin Falls County, where the city employment bureau.

Made Sweezy Present—in memory of their friend who died together in the fire, water and street department of city government presented Everett M. Sweezy, along with his retiring from Buhl, with a Masonic pin and an Elk ring.

Babies Born—A daughter was born to Mr. and Mrs. Thomas A. Sanderson Friday; also a daughter born to Mr. and Mrs. C. D. Lyon the same day. Mr. and Mrs. James M. Williams are parents of a boy born this morning.

Shipped Daily to Illinois—Mrs. Martha Jane Ennis, mother of Mrs. C. W. Farish, died yesterday after a short illness. The funeral will be held at the Parish home tomorrow. The body will be shipped to Cairo, Illinois, for interment.

Hansen Man Dies—The funeral of Joseph Nelson Byram, aged seventy-seven, was held Monday afternoon from Crosby chapel in this city under the auspices of the G. A. R. Row, C. L. Bent of the Methodist church officiating. Mr. Byram was the father of Bryan Brothers and Mrs. Severance at Hansen. He had been an invalid for several years.

Death of Mrs. Shinkle—The death of Aravia Annie Shinkle occurred in this city early Tuesday morning. May 12, 1917. She was 72 years of age. Her husband, W. G. Shinkle of this city, also two daughters, Mrs. Vernon and Mrs. Clark of Twin Falls, and two sons, Carl and Ray Shinkler of Laramie, Wyoming, and a brother, W. K. Herndon of this place. The funeral was held from the Grossman & Emson chapel.

Salmon Will Break Record—That the Salmon project will have more water than at any time in its previous history is the inference to be drawn from the condition described by Manager G. M. Hall of the company, who with Superintendent Darlington visited the intake yesterday. The gauge at this point showed 85.15 feet. The water in the reservoir increased 1.5 feet in one day, or an increase of 2760 feet per day. The water in the reservoir is now 42.8 of available water or 76,290 acre feet of storage. Manager Hall says that there seems no reason to doubt the water will exceed the maximum of June 5, 1914 of 53.4 feet depth or 102,680 acre feet.

Leo Sisk Bumped—Turning suddenly by between autos on Main street when pursued by two autos at 9:30 Saturday night. Leo Sisk came out on the other side of the auto line at the wrong part of the street in time to be bumped by another.

Qualis to be Tried—Ralph W. Qualls charged with flooding a gas line in the presence of two or more witnesses will be tried shortly by Probate Judge O. P. Davall. The person on whom it is alleged to have done a week ago is George Boswell. The matter was given a preliminary hearing in Castleford recently.

Trip to Blue Lakes—Blue with cold the members of the Business Women club arrived at Blue Lakes on Blue Friday evening after all sorts of heat-tation exercises in the mud in the cooler on the way. The trip was planned for the Great Shoshone falls, but the line was changed on Saturday. The hackett got stuck "s-p-o-l" and "a-c-o-m-i-n", nevertheless the party had a jolly time.

Flag Reliance—On Thursday afternoon of this week, emulating the high school last week Thursday, a flag will be raised at each of the school buildings in the city. The flag is the "A" and the "B" flag. It does not appear that any special ceremony is being arranged, but the high school bands will be present and the colors properly saluted.

Prominent Springfield Boy Dead—Ernest Campbell, aged twenty-two years died Sunday night. He was the son of Mr. and Mrs. A. M. Campbell of Kimberly. He was prominent in Epworth society and was a member of the district church and was a graduate of the Twin Falls high school. The funeral will be conducted in the Kimberly Methodist church at 11 o'clock tomorrow, by the pastor, Rev. A. W. James.

Big Sporthorn Show—The Twin Falls Park bureau is presenting a moving picture of the prize winning sporthorns at the international show. In the several towns and localities it was shown. It was shown on Saturday and much enjoyed. It will be presented in Buhl tonight, in this city at the Isis theatre, Saturday afternoon and at the Kimberly theatre Saturday night.

Charged With Serious Offense—A. J. Henry of Eden is charged with illegal transfer of intoxicating liquors from one state to another, and he, with J. B. Russell and J. B. Dunsell, all of the northside, charged with retaining an other liquor. The charges are being started into this state from Nevada last Sunday, and on being accosted with Sheriff Kendall, are said to have fled to the north side. They are alleged to have been in their possession. Their preliminary hearing will be held before Justice of the Peace W. J. Smith Thursday.

Tomato Growers may care to know a method for transplanting which Mr. G. W. Wickett, of long experience, recommends. It is especially for large four gardeners. He takes a tin can, the larger, up to a gallon, the better, cuts one end clean off and sets a door, or flap-out of the other, hinged at one side by the uncut tin. The tin pieces over the plant at setting, and when in the ground, through the anchor-it. It then becomes a protection against the sun, and against the wind, which is about as bad; and also by being down low the tin is a perfect protection against frost. Plants thus started he guarantees to do well.

Alfalfa Looking Better—County Agent W. N. Birch after a further investigation into the alfalfa situation, declares that about twenty per cent of alfalfa is being killed. He estimates that about twenty per cent of the area which alfalfa is planted will be ploughed up as the killing was more or less widespread and affected most fields on the tract. The killing only a few. As a whole, less damage was done to the alfalfa in the Buhl district than elsewhere in the county. Mr. Birch's first estimate of the damage was twenty-five per cent killed, but since that time fields that looked bad are coming out.

Cousin Killed by Robbers—Mrs. I. A. Appell is in receipt of information that her cousin, Willis Miller who lived in Nederland, Colorado, was shot and killed while on his way home from business by unknown highwaymen. Miller was shot four times with a .38 caliber revolver and his head was then split open by a bullet. Two bullets struck him in the head one in the chest and another in the breast. Water found in his pockets were turned inside out and contained no money, but the robbers overlooked \$15 which he carried in his shirt pocket. He survived by a widow and a daughter, the latter two years of age.

Lighting Photography—It may be of interest to know that the cuts used in connection with the May Festival are being taken by Mr. J. B. White, the photo expert of the City Pharmacy, with the field camera. The entire series of festival photos, some fifteen or eighteen different views, were printed, developed, finished and mounted on a set of that day. This was impossible, and would be so if the photo making department of the Pharmacy had not been recently fitted up with all the latest electrical and other devices—and conveniences for best and most rapid work in this line. Views are printed over an electric flash by a second camera, mounted so while you turn around and dried while you turn back—and they come out splendidly at that.

CARD OF THANKS—We the undersigned wish to extend our heartfelt thanks to the friends and neighbors who were kind enough to come through the sickness and death of our loving wife and mother. (Signed) W. C. Shinkle, Mrs. Vernon, Mrs. Clark.

THE TUESDAY LUNCHEON

T. F. COMMERCIAL CLUB

The Subject of Good Roads and Incidentally, Good Eats, Given Active Attention by the Club Membership.

The fourth regular Tuesday luncheon of the Commercial Club was held this noon at the Hodgson cafe, with good attendance and a good spread. In advance of serving the soup, the chair was taken by Mr. J. B. Robinson for consideration the very important subject of good roads and called C. A. Robinson to speak on the "Value of Good Roads."

Mr. Robinson alluded to the fact of the multiplicity and diversity of counsel in this matter; but insisted that it had an essential practical side, especially for the farmer. Taking the best culture as example; two miles from the factory the hauling cost approximately six per ton; at four miles, \$1.00; at seven miles, \$1.50; at ten miles, \$2.00. This means that the more distant land, as compared with the nearer, is handicapped from four to twelve dollars per acre, which soon becomes prohibitive. In this way it was clearly shown that the facility of transporting material, and the value of land as to add at least three millions of dollars to the tax rolls of this county—the added revenue from which would pay the interest on four or two millions of road money—located California, where the traveler can hardly get out of a hard surfaced road way, and this was accompanied by showing and the very nature of the state were more than paid for with such expenditure.

Mr. C. A. Robinson was then asked to appear for a few minutes before the committee by showing how many local conditions, such as topography, drainage, accessibility of raw material and the like, are more or less important. He then enumerated the various kinds of road surfaces, and the various kinds of road surfaces, and the various kinds of road surfaces, and the various kinds of road surfaces.

Mr. J. B. Finch, called to state how much money was now available for road purposes, asked that answer that the sum was \$45,000. This statement was, however, preceded by an answer to a question, concerning Mr. Finch, who had been asked to turn out the information, who had not yet drawn any of their increased salary and could not afford the expense—promising him, however, that if he would represent them, they would come across "any way." It was then presented by a full and very interesting and informative statement of the motives of raising the sources and division of the revenues for road purposes—of which more anon. And it was followed by the statement that the committee were now earnestly seeking to put before the voters of the county a million dollar road bond proposition, in which they had been temporarily held up by a legal complication.

The meeting was then turned over to Mr. Mackman, club president, who introduced the motion which was carried, that as incident to a good roads campaign, the local automobile club be revived. A motion also carried to have the committee on the Buhl district against present withdrawal of the Bunnau county from among Charney act lands. Mr. J. L. Cookley was named as the next meeting and adjournment had.

CHICKENS GET MUCH FROM FEED

Unless Food Is of the Proper Kind and Sufficient the Fowl Will Not Take on the Right Hue.

A great many people believe that to raise good colored birds, all that is necessary is to get the right stock or eggs to start with and mate the fowl's property, and the Intermountain Poultry Advocate.

How to Get Color. You will find that to raise birds of good color, it is but half the means of success to start with good birds or eggs; the other half is proper care and rearing of growing stock. One week's neglect of a brood of young chickens—and frequently does—can ruin their color. The best way to show in the under color of the fowl affected when they are grown. To feed, and to properly feed, are two entirely different things. How it may be done in the poultry business really give the "Feeding of Little Chickens," the necessary amount of thought?

As soon as a little fellows are thoroughly dry, whether hatched in an incubator or under a hen, remove them to the brooder or brood coop, and supply with the most nutritious material. Arrange the vessel so they cannot get into the water. Place before them some very fine grit and charcoal in a separate dish. These things will afford them a chance to put their little grinding machines in condition to take care of the first feed that enters the alimentary canal. The charcoal will help aid in digestion and assist in holding bowel trouble. After 48 hours give them a little hard-boiled egg. Feed (feeding) this.

Breakfast Suits
Now is the best time to outfit yourself with some of these dandy new House Dresses, Bungalow Aprons and Breakfast suits. Just received a big line of them. And oh! my—they surely are pretty, and the prices are very low. They are on display on the center bargain tables at THE GREATER Idaho Department Store Twin Falls, Idaho

Announcement
The Lawrence Machine and Iron Works
HAS BOUGHT THE MACHINE SHOP EQUIPMENT OF C. F. RUKES & SON, INCLUDING A CYLINDER GRINDING AND BORING MACHINE.
WE WISH TO CALL THE ATTENTION OF AUTOMOBILE OWNERS TO THE FACT THAT WE ARE NOW PREPARED TO DO HIGH CLASS CYLINDER GRINDING, AND WE WILL MAKE THIS WORK A SPECIALTY AT OUR SHOP.
A trial of this plan will convince the most skeptical that it is not only cheaper and less trouble, but you will raise more chicks in comparison to the number hatched this year than ever done before.
Remember to keep the supply of water fresh and clean. More cases of bowel trouble (as it is called) can be traced to polluted water and muddy food than any other cause.
After the chicks become five or six weeks old, change to the large scratch grain, such as is found in commercial chicken feed, also known as scratch grain. Feed twice a day, keep the water clean and plentiful.

LEEK GROWS IN FAVOR

Belongs to Onion Family and is Used for Flavoring.

Plant is Easy of Culture and Usually Grown as Second Crop, to Follow Vegetables—It is Hardy Perennial.

The leek belongs to the onion family, and is used mostly as flavoring for soups. Well-grown leeks have a very agreeable and not very strong onion flavor. The leek is of the earliest crop, and is usually grown as a second crop, to follow beets, early peas and other large vegetables. In form it is a bulb, flattened bulbous perennial. The blanched stems and bulb are used in cookery for seasoning in the same manner as the onion.

The leek has not, in the past, been much cultivated in this country except near large cities and where there is a considerable foreign population, but of

Leek.

late years its value is becoming more generally appreciated, and now most gardens contain at least a few plants.

The seed should be sown in a seed-bed in late April or early May and the seedlings transplanted to the garden in June or July, when they should be five or six inches tall. At this time the tops should be cut back half and the plants set deep twelve to fifteen inches apart and six to nine inches asunder. The reason for setting the plants so deep is that the neck and lower part of the leaves are to be used in a blanched condition. The soil may be drawn toward the plants in cultivating to further the blanching. One ounce of seed is used to 100 feet of drill.

Being very hardy, the plants may be dug in late fall and stored in the same manner as celery, in trenches or in a cool root cellar.

As the mild flavor and excellent seasoning qualities of this vegetable are beginning to be more generally known, the demand is increasing, and it may now be found on all the vegetable stands.

SUPERIOR MIXTURE FOR HAY

Oats and Canadian Field Peas Make One of Best Crops—Use Grain Drill for Seeding.

A mixture of oats and Canadian field peas makes one of the best hay crops which can be seeded and harvested in the same season. The mixture will produce larger yields than either crop seeded alone. Peas being a legume, make the hay richer for feeding purposes than oats alone and improve the soil. Also, the oats support the peas so that harvesting is much easier. The mixture should be sown two to three inches deep at a rate of two bushels oats and one bushel peas per acre. Use of the grain drill is the best way to seed the crop, but if a drill is not available the seed may be broadcasted and covered with a disk or harrow. Sow at the seedling time or as early in spring as land can be prepared. Cut the hay when the oats are in the milk-ripe or early-dough stage and the peas are well formed, but not ripe. A palatable and nutritious hay, yielding one and one-half to three tons per acre will result.

PREPARE FOR ALFALFA CROP

Four to Six Weeks Should Intervene Between Plowing and Seeding in Eastern Sections.

Where land in the East is plowed to the spring for alfalfa, at least four to six weeks should intervene between the time of plowing and seeding, during which time the land should be harrowed, every 10 or 12 days to keep down the weeds and to conserve the moisture. Where the soil is inclined to be too loose or when there are any clods, the roller pulverizer is an excellent tool to use.

MOST PROFIT IN ASPARAGUS

Where Product is Well Grown and Put Up Acceptably It Will Bring Remunerative Prices.

Asparagus is one of the most profitable truck crops grown, for although the marketing season is not very long, the product, when well grown and put up acceptably, will bring remunerative prices. Profits depend upon quality of marketing, size and quality of the product, and close attention to careful grading and good appearance.

WAR PROHIBITION ADOPTED IN SENATE

WASHINGTON, May 12.—The senate by a vote of thirty-eight to thirty-two today adopted an amendment to the Gregory espionage bill providing for partial prohibition during the war. Senator Cummings of Iowa introduced the amendment which provided that after September 1 it would be unlawful to use or employ, directly or indirectly any cereal, grain, sugar or syrup in the production of intoxicating liquors. The law was not to be construed as prohibiting the manufacture or use of wines, alcohol or liquors for medicinal, medicinal or scientific purposes. Violations to be punished by a fine of not more than \$5000 or imprisonment of not more than three years.

The passage of the amendment was preceded by an array of prohibition debate lasting over five hours. Senators Stone and Reed of Missouri fought stubbornly against the prohibition amendment, which would stop entirely the manufacture of all intoxicating liquors. Senator Stone pleaded for the revenues derived from the liquor industry, and Senator Reed declared that the law would be unconstitutional.

"WAR MEANS BUSINESS" DECLARES PRESIDENT

Speech at Dedication of New Hall Dwells on The Gravity of the Situation.

(United Press)

WASHINGTON, May 12.—"This is not a war of spontaneous appetites," President Wilson told a large gathering of delegates witnessing the dedication of the new \$800,000 Red Cross home here this afternoon. "It is not a war for amusements," he said, "this war means business on every side. We need more of the counsel of prudence in our philanthropic as well as in our fighting work. We should act through instruments already here. The historian will remember those momentous years as years a single people of that great body calling themselves Americans. Divisions among us which were predicted did not occur. Americans do not yet realize the

HANSEN BRIDGE BONDS SOLD LAST THURSDAY

County Commissioners Open Bids and Give Issue to H. M. Grant and Company, Low Bidders.

The Hansen Bridge bonds were sold Thursday afternoon to H. M. Grant & Company, for a premium of \$450 on five per cent bonds. There were a number of bidders, mostly with premiums and many offering to take five per cent. The Grant company, however, was the highest and best. The money for the Hildale district has been available some time, with the legislature voted \$20,000 additional. The bids for the structure will be called shortly.

FOR SALE OR TRADE—Well improved 5-acre tract. Will take good price in part payment. Also have practically new Studebaker wagon, and hand-made set of harness, for sale or trade. Address P. O. Box 63, city.

Mr. Farmer! The Martin Ditcher Is "King of Them All"

and because of its great labor saving ability you cannot afford to be without one. Simplicity, strength, durability, long life and Actual performance was the basis on which the NEW MARTIN was finally completed, and on this basis and its own merits it is offered to you at a price the farmer and rancher can well afford to pay. Narrow or wide, shallow or deep, ditch-making with the MARTIN is easier and more thorough than by any other method. It will stand a lot of abuse and with ordinary care will last a lifetime.

FOOD CONSERVATION RALLY ON SATURDAY

People of County and City Urged to Meet at High School Auditorium To Lay Plans.

Next Saturday afternoon at 3 o'clock there will be a meeting of the people of the county and city at the high school auditorium for the purpose of considering the problems of food conservation. This meeting was arranged for yesterday by Mrs. J. E. White, president of the Federation of Countrywomen's clubs and member of the food conservation committee in this county. Though women are especially invited, the men folks are welcome, as the purpose is to devise ways and means for following the requests of the government and utilizing to its highest degree of efficiency, the food supply of the county. White says that important announcements will be made at that time.

HIGH SCHOOL PLAY NEXT FRIDAY NIGHT

Will Be Presented by Senior Class in a Sparkling Comedy Entitled "Cupid at Vassar."

Next Friday evening, May 18, in the high school auditorium the senior class will present the annual senior play. They will give the comedy, "Cupid at Vassar." This is a college play sparkling with fun and college spirit. Besides the usual love story much of the real college life is introduced. The girls will sing college songs among which are "Have a good old Vassar" and a "Basket Ball Song." In the last act occurs the daily chain march. Much attention has been given to the costumes and scenery and the play is sure to please. The following is the cast: John Willitt (a young architect).....Orin Hill

REV. CHARLES U. BUTLER

The arrival of Rev. Butler and his wife, both talented singers, in this city, where he will act as assistant pastor of the Methodist church...

girls as fairies and boys as butterflies, and was very pretty and effective.

The fourth was an Irish lilt by the Bickel seventh grade boys in white trousers and green coats and hats. It made a hit.

March came a first of May folk song, presented in by the small second graders from the different schools...

Sixth was the frolic of the Mother Goose lilt by Washington third graders. The character costuming and the dancing movements of this company were both taking and were awarded much applause.

The Shepherdess dance by Bickel seventh and eighth grade girls came next, and was very pleasing. The costumes were all white, with blue over-drapes, quilt hats with pink and blue flowers and each girl carried a true shepherdess "crook."

As number 8, the eighth grade Bickel boys, in appropriate costume, followed the address' hurrahe to much applause.

Number nine was a physical exercise drill by an assembly of fourth and fifth graders. This brought out a large number of their performing team, admirable in the union and perfection of each movement.

Sixteen high school-misses hand-somely costumed in Spanish gipsies, next received much applause for performing the Tarantella.

The Robin Hood band, comprising such well known citizens as Mr. Robinson, H. H. Littlejohn, Fritz Tack, W. P. Scarlet, the sheriff of Nottingham and Maid Marion, created quite a sensation all over the program. They hailed from the Washington school and were in a way combined with the foresters' dance...

Twelfth came the transformation of Winter into Spring, something for which Hedio has been waiting for at least a year and which appears to have happened just about this moment.

The imaginative force and beauty of the skill which the concepts were developed. Winter snows and winter winds, suggestively costumed, were drawn from the field by umbrellas, in yellow, led by Besse Bowen, and with the personification of grace in Hedio Betty Wilson as avant courier. Then Betty Heltie brought spring breezes and gauzy frocks, and these were followed by the flowers—violets, daisies and apple blossoms. Along with the flowers came the bluebirds, followed by the rich colors of midsummer.

Last came the May polo dance, in which a bevy of sixth grade girls circled each of the three may poles with flying feet—each carrying one of the streamers, which were thus pleased about the respective poles, and then

MAY FESTIVAL OF TWIN FALLS

(Continued from page 1)

As might be expected in these pioneering times of war, patriotic features loomed large, the second number being a patriotic exercise in three sections. Some hundred or more boys and girls from Lincoln school third grade, the girls in white with shoulder sashes and all carrying white wands with red, white and blue streamers, began this number with

remarkably precise and pleasing evolutions. This came a company of eighth grade girls, all in white, carrying flags, with a drill handsomely handled and much applauded. The third section, from seventh and eighth grades, were some eighty boys, one-half in complete boy scout uniform and carrying red caps, and the other half as middles. These boys showed a really wonderful snap and precision in quite intricate drill movements, and were repeatedly and loudly applauded. The dance of "Creative Game" which in which the first grade tots appeared

unpleasant as the movement was reversed. During all this time a number of owls, cats and other birds and animals, including a dragon that was mistaken for a cat and a goose that was called a pelican, prowled about the field and caused much sport by their appearance and antics.

HEALTH RESORT IS LOCATION FOR CHAPLIN'S NEW COMEDY

In "The Cure," which is the attraction at the Orpheum theatre tonight and tomorrow, Charlie is shown seeking rest and recuperation at a modern health resort...

FAVORITE PRISONS MAY BE SEEN IN NEW FOX FILMS

New York state law forbids photographing or depicting penal institutions, but Director James Vincent had to have plans of "Murders Row," the Bridge of Sighs and Criminal courts from which to build models. Several dramatic scenes are laid in these places in "Sister Against Sister," appearing at the Idaho theatre Wednesday and Thursday.

Maning left the prison on a run. In his auto he began to sketch cells, bars and doors and locks. Before he reached the William Fox office he had drawn plans for a complete prison.

Black Squeegee Tread Red Side Walls

Talking about Non-Skid Tires

It seems to us that some tire manufacturers just cut out the raised tread pattern on their tires with a jig-saw at random; while others figure out the tread formation as common sense directs.

The Diamond "Squeegee Tread" is surely a "reason why" tread. Look at the cross bars. When the weight of the car-resis on them, they just naturally get a TOE HOLD on the pavement and stop forward slide.

Then, look at the longitudinal bars. They are continually in contact with the pavement and not only stop side skid ALL THE TIME but roll along as smoothly as a plain tread tire.

So if you want a real non-skid tire, we'll sell you a Diamond at its "Fair-List" Price

Twin Falls Auto Co. Twin Falls, Idaho

Diamond TIRES

"Better put Squeegees all around"

Every Diamond Tire must deliver full value in service. If ever a Diamond Tire fails, a check-up and adjustment will be promptly made.
