TWIN FALLS, IDAHO.

High School Graduates Receive Their Diplomas; A Memorable Occasion

The Commencement Exercises of the Class of 1917, Twin Falls High School, Transpired at the Lavington Theatre Last Thursday Evening, May 24th, With Great Ecstacy.

NOTABLE ADDRESS BY DR. EDWIN GOSHEN

Fifty-Two Young Men and Women Graduate. The Class President, J. E. Holderman, is Present on Fourty-Other Older Members Represented by Mothers.

One would go far to find a more attractive scene and setting than was disclosed when the curtain went up at the Lavington, last Thursday evening. The fifty members of the high school senior class were grouped in a black and white gown, and from the figures, "1917", gleamed from electric globes in blue and gold—the glass colors—while from the blue and gold streamers, same hues were festooned above the class in stage front. President V. H. Decker, with other members of the school board, and Principal Downham led one flank, while Superintendent Blue, the officiating clergyman and the speaker of the evening, supported the other.

MAY WED MRS. VANDERBILT

John McF. Bowman, president of the company operating the Biltmore Hotel in New York, who, according to rumor, is married to Mrs. Alfred G. Vanderbilt, widow of one of the Lustrina victims.

RED CROSS RALLY IN TWIN FALLS ON FOURTH OF JULY

SPEAKER OF NATIONAL REPUBLIC TO BE SECURED AND WHOLE COUNTY INVITED ALL RELIEF NOW DONE THROUGH RED CROSS SOCIETY

Carl Feldhusen Tells of Wonderful Things That Can Be Done Spuds by Proper Methods of Conservation and Treatment.

In order to raise the sum which is expected for Twin Falls county on one day, the Twin Falls Commercial club at the suggestion of Mayor F. F. Brockman, representing the Red Cross committee, voted unanimously that a grand patriotic rally, addressed by a man of national reputation be held on July 4, and that all the county be invited to present, participate and subscribe on that occasion. The Red Cross now has charge of all relief work during war. The club voted at the same luncheon meeting against allowing a carnival crowd to come, and to hold a patriotic rally at a big meeting Saturday night at Pocatello at which it was agreed that the clubs of the state should all get together and at which it was stated that \$100,000 to be spent advertising Idaho by the Union Pacific should they all unite in boosting. Mr. Heckman added that the feeblest represent this city, subject to endorsement by the club.

The new secretary, J. E. Stubbs was present and aroused enthusiasm by a business talk in which he declared that a canvass of the city would be made on Thursday night. The members at which time those joining would be asked to sign for a year. Mr. Stubbs was selected to have charge of the dinner next Tuesday at noon. J. H. Van Tassel reported progress on the creamery plan.

One of the most interesting talks was made by Carl Feldhusen, who is here in the interest of the organization of a factory for the making of potato flour and the utilization of potato waste. He declared that potato meal was imported from Germany before the war and that it was estimated that a ton of six and a half cents a pound when it could have been produced in Twin Falls for three cents a pound. He added that the fear shortage last spring was due to the failure of the people to conserve their resources. He declared that he would consult with businessmen today regarding the putting in of a factory. In substance and in part, Mr. Feldhusen said:

At this time, when the greatest of our needs is being made to increase the production of food, in order to prevent threatening starvation of other people...

LANDS FARMED ON PREVIOUS YEARS GET PREFERENCE

STATE LAND BOARD MAKES RULING GOVERNING CONDITIONS ARISING FROM BIG WATER SUPPLY.

NEW LANDS TO HAVE THE SURPLUS FOR YEAR

Granting of Right to Use Surplus This Year Does Not Carry With It Right to Water Next Year on Newly Cultivated Land.

That those who used their lands during the years 1916 and 1917 shall have preference this year in the distribution of water of Carey projects and that those who begin the cultivation of land this year shall only secure water after such previous users have been served, is the ruling of the state board of land commissioners, who also declare that those beginning to cultivate this year and securing surplus water do not thereby obtain any right to water next year until those previously cultivating farms shall have been supplied.

The resolution covering the subject was received yesterday by Ray M. Deuchamp, secretary of the Salmon River Settlers' association and reads as follows:

"Please be advised that the state land board in session under date of May 16 passed the following resolution which is self-explanatory: "Moved that the state engineer, in the distribution of water on Carey act projects, distribute water first to lands to which water has been heretofore applied and which have been served under the published notice of availability of water and cultivated during the years 1916-1917; that if there be any water available after the above mentioned lands have been supplied, the state engineer should cause the same being cultivated during the present season; and that such distribution and application of water should be considered as establishing any right to receive water any succeeding year, but that it is to be distributed only to lands cultivated during the year, and the register is hereby authorized to give notice of the above action to the state engineer and the secretary of the water users' association or to various projects.

BANKERS ORGANIZE TO BOOST LIBERTY LOAN

Select Committee to Help Government in Raising Money to Sell Bonds Meeting June 6.

The bankers of Twin Falls county organized today for the purpose of forming a committee to boost the liberty loan and appointed the following committee: F. F. Brockman, chairman; J. G. Bradley, secretary; J. M. Macrow, C. J. Holm, Twin Falls; J. W. Parry, R. W. Allred, Butte; E. E. Haag, Piler; W. H. Turner, G. B. Smith, Kimberly; J. W. Heston, H. H. Heston, C. W. Hollister, J. B. Buel, Horseshoe.

ITALIANS CONTINUE TO ADVANCE ON TRIESTE

Duino Expected to Fall and Make Italian Advance Easy—Artillery Fights on the West.

ROME, May 28.—The southern wing of the Austrian line was slowly turned today under the tremendous leverage of the full force of General Carrar's French tanks, surrounded by Italians on two sides is expected momentarily to fall. With the Italians in possession of Duino the advance on Trieste will be comparatively easy. The fighting continues today with terrific violence.

BALCON GAINS BATHING IN TWIN FALLS RUCKY

The Twin Falls Salmon River company reported this afternoon a gain of 77 feet in water level...

IMMENSE CREDIT OF UNITED STATES BEHIND THE BONDS

STORY WRITTEN BY FRANK R. WILSON OF FEDERAL FARM LOAN BUREAU TELLS OF LIBERTY LOAN.

CREDIT OF NATION NOT IMPAIRED TO SLIGHTEST DEGREE

Loan Will Enable Us to Wage War and Strengthen Resources of Nations at War With the Great Enemy of America.

WASHINGTON, May 28.—Uncle Sam signed at his trial balance April 1, 1917, and glanced the following brief statement of his condition:

Assets, \$20,000,000,000 plus. Liabilities, \$1,023,387,250. In other words, the total material wealth of the United States is in excess of the total war debt of the United States by more than twenty-five billion dollars. The last official total of the United States is in excess of eight billion dollars. On April 1, 1917 our national debt was ninety-two billion dollars. The total war debt compared with his assets were about an one to 220. But the smile that decorated Uncle Sam's face was not inspired entirely by the statement of his comparative debts and credits. He looked at the record of national income and saw that the total war debt of the United States a year, or forty times his debts. He took out his pencil and made some comparisons. He found that his national income has increased more than 33 per cent in the last seven years, and more than 115 per cent in the last seventeen years. He compared with the inventory, the old gentleman turned to the page devoted to foreign trade and discovered that our exports had increased \$1,270,000,000 in the last seven years and that the old gentleman turned to the page devoted to foreign trade and discovered that our exports had increased \$1,270,000,000 in the last seven years and that the old gentleman turned to the page devoted to foreign trade and discovered that our exports had increased \$1,270,000,000 in the last seven years.

HOPES REPORTS OF SUCH IN IDAHO ARE GROUNDESS

Senator A. M. Bowen Shows Difference Between Act of Individual Which is Misadventure and Combined Effort to Defeat Law.

Recovering from a long illness which has detained him for some time from his public duties, Senator A. M. Bowen today in a speech before the Idaho legislature, one of the most prominent attorneys in the Gem State, sends a patriotic word of warning to all who would attempt to interfere with the duty of President Wilson to carry out the registration law through the instrumentality of the suburbs of the country of the state. Senator Bowen calls attention to the fact that while an individual who fails or neglects to register is liable only to a fine of \$100, a year in jail, those who would conspire with others to defeat the purpose of the act, or those who are guilty of treason. He calls upon all patriotic citizens to oppose such conspiracy wherever discovered. The article follows: Editor Times:

"I read in the papers that an organized movement is on foot among neighbors or pacifists to refuse to register on June 6th, as required by our recent army law. The statement is made that this party plan to go into the streets and fight in the trenches for humanity, democracy and civilization. A year seems to be the longest time for the army to carry out the bill for refusal to register.

"I want to suggest that if there really is (I can hardly believe it) any such party on foot, it is a party which constitutes more than a failure to register, it constitutes treason and the penalty for treason may be death. Any one who attempts to prevent the carrying out of the draft law is aiding and abetting the enemies of our country and is undoubtedly guilty of treason. "And moreover—they ought to be treated and prosecuted as traitors. The penalty fixed by the army bill was intended merely for those who negligently fail to register, or something like that. It certainly does not cover willful and deliberate acts against our government. I have no quarrel with Socialists as such; they have the right to their political belief the same as any other political party, and so-called pacifists, but they also have their rights of belief. I like my German neighbors as well as my English neighbors if they know and do their duty. "But treason is treason and if any person conspires against our nation in these days, the penalty of treason may not be too good for them. Let every would-be traitor remember that, whether he call himself a pacifist, conscientious objector or anything else, he is a traitor if he conspires against our government. President Lincoln wisely chose to ignore public clamor and refused to permit extreme measures against the traitors of the American Civil War. Our government may deem it wise to not inflict the penalty of treason, but if there are any foot-pacifists who are doing their duty, believe they can safely conspire against the army law, they better think twice. Another suggestion. In view of the new army law, it is suggested that every citizen should be notified of his duty, and that every citizen should be notified of his duty, and that every citizen should be notified of his duty.

OBJECT TO GERMAN POSTERS

Germans occupy by the Kaiser's forces are hereby ordered to be taken down. This photograph shows how they treated the placards representing a speech by Von Bethmann-Hollweg.

CONSPIRACY TO DEFEAT DRAFT IS DECLARED TREASON

PROMINENT TWIN FALLS ATTORNEY POINTS OUT PREVIOUS CHARACTER OF OFFENSE

HOPES REPORTS OF SUCH IN IDAHO ARE GROUNDESS

Senator A. M. Bowen Shows Difference Between Act of Individual Which is Misadventure and Combined Effort to Defeat Law.

Recovering from a long illness which has detained him for some time from his public duties, Senator A. M. Bowen today in a speech before the Idaho legislature, one of the most prominent attorneys in the Gem State, sends a patriotic word of warning to all who would attempt to interfere with the duty of President Wilson to carry out the registration law through the instrumentality of the suburbs of the country of the state. Senator Bowen calls attention to the fact that while an individual who fails or neglects to register is liable only to a fine of \$100, a year in jail, those who would conspire with others to defeat the purpose of the act, or those who are guilty of treason. He calls upon all patriotic citizens to oppose such conspiracy wherever discovered. The article follows: Editor Times:

Another suggestion. In view of the new army law, it is suggested that every citizen should be notified of his duty, and that every citizen should be notified of his duty.

GERMANY PLOTTED BEFORE WAR TO CREATE FRICTION

AGENTS OF IMPERIAL GOVERNMENT ORGANIZED SHIP COMPANIES TO CAUSE TROUBLE

SENATE FINANCE COMMITTEE KILLS TARIFF RAISE

Department of Justice Announces That All Taking Part in Anti-Registration Campaign Will Be Severely Punished.

WASHINGTON, May 29.—Before the decision of war by the United States agents of Germany attempted to promote friction between this country and the allies, declared Secretary Lansing when he appeared today before the interstate commerce committee in behalf of the American people in regard to trading with the enemy. The agents loaned money to buy grain for the purpose of shipping it on vessels of a steamship company organized for the purpose of prior to raise an issue over its seizure by the Germans. "Many cases," said the secretary, "were doubtless inspired by Germany or by organizations formed by Germany for the sole purpose of creating friction with the allies."

The German propaganda exposed by the state department was designed especially to align South American and Central American countries against the United States. In three republics, Argentina, Venezuela, and Colombia, the movement reached large proportions. Argentina was a hot bed of German propaganda. The evidence submitted shows that the propaganda was directed from Berlin by use of a cable from Spain to Buenos Aires. German firms in Argentina acted as the agents of Berlin in stirring up sentiment. It is believed that the German government has been notified and has indicated that the militia to suppress possible rioting caused by anti-draft agitators.

RACE RIOTS START IN EAST-ST. LOUIS

Six Companies Militia Sent to the Scene—Trouble Caused by Importation of Negroes.

SPRINGFIELD, May 29.—Five companies of infantry and one of cavalry were ordered to East St. Louis today under the command of Lieutenant Colonel Clayton. The troops were ordered out on account of an urgent request from citizens of that city because of race riots. The whites are charging that the Negroes were the cause of the rioting.

EXPLORES RETURN FROM THE FAR NORTH SAFE

NEW YORK, May 29.—All members of the McMillan expedition to the North Pole are safe, having had during four years of isolation in the far north, according to a cablegram received from the Shageluk, Alaska, today. The explorers are already en route to civilization after a trip of 1800 miles on a dog sled across the Arctic.

KNIGHTS TEMPLAR TO REEVALUATE

MEMPHIS, Tenn., May 29.—The Knights Templar are to be reevaluated by the Grand Master of the order, according to a cablegram received from the Shageluk, Alaska, today. The explorers are already en route to civilization after a trip of 1800 miles on a dog sled across the Arctic.

WAR TANK EXPERT TO ADVISE U. S.

Capt. Charles Sweeney, Who Commanded French Battery, Is in Washington.

WILL HELP ORDNANCE STAFF

French Tank Likened to Giant Hog Creeping Forward — Straddles Trenches, Crushes Through Barbed Wire and Rakes Foe With Guns.

Washington.—The French infantry that has been winning so much ground in the Champagne region of late is advancing as a supporting force to numerous batteries of caterpillar tractors or "tanks," hog-like in appearance, that creep forward with a peculiar slouch which the German troops remaining in their shell-battered trenches cannot check, and which assure the poilus of protection as they "dig-in" upon their advanced lines.

So that an American army can know about these tanks if sent abroad, Capt. Charles Sweeney, a native of Spokane, Wash., and a member of the Foreign Legion of the French army, is now in Washington, D. C., where he will assist ordnance experts in preparing similar land crawlers for service. He returned recently from France, where his assignment of late had been with a battery of "tanks."

Captain Sweeney is a West Pointer, but when the fighting began he was found in the French army. He started as a private in the infantry. He was promoted to be in the thick of it, so "chow" that branch of the service, and during his campaigning was in many battles. He was awarded the cross of the Legion of Honor for valor and promoted to lieutenant when, single-handed, he captured a machine gun and six Germans.

Very little has been written in this or any country regarding the French tanks. The first few used by the French army went into action about the same time the British put theirs in the field. It was not until the great offensive began this spring that the poilus trotted forward in support of great numbers of their tanks—"zanzans," as they called them.

The best way to describe a French tank is to compare it with a giant hog, kneeling so that its short legs cannot be seen, and creeping forward as it roots in the ground.

GET \$3.53 AFTER 19 YEARS

Former Secretary Sent It to the Spokane Chamber of Commerce.

Spokane, Wash.—The Spokane Chamber of Commerce Freight Rate Fund has been increased \$3.53 after 19 years. Gordon G. Greenleaf, managing secretary, has received the following letter from D. H. Huntington, president of the Washington Water Power company:

"In looking over some old files we have found \$3.53, which is evidently the remainder of \$10.73 advanced to me some nineteen years ago for expenses as secretary of the Spokane Shippers' association. It was evidently put aside and forgotten, being too small an amount to return you or to the subscribers. As it does not belong to me, and I do not know what else to do with it, I am sending it to the chamber of commerce to be added to the Freight Rate fund, and I doubt if anyone will question the propriety of so doing. I wish that the amount were large instead of small."

TO REDEEM STEEL AT VERDUN

Estimated That \$23,000,000 in Scrap Is Represented in Shells on Battlefield.

London.—Millions of shells have left the battlefield of Verdun holding a mine of ready refined steel. So great is the stockpile of scrap in the industry—figuring the advantages of trying to rake the area when the war is over to recover the fragments.

Military reports on many days estimate that 1,000,000 or more projectiles had fallen into the area in 24 hours. The steel trade, however, prefers to estimate that Verdun was hampered at the moderate rate of 1,000,000 a week.

A total weight of 1,350,000 tons is believed to await profitable redemption from the area of the fortress. At the present price of scrap steel, \$17.50 a ton, the deposit is worth \$23,625,000.

Mississippi Yields Vast Area

Memphis, Tenn.—With the Mississippi river falling to a normal stage, hundreds of thousands of acres of the most productive land in the United States, lying along the banks, are being put to cultivation. Three weeks ago it was feared high water would continue until so late in the season that crops could not be planted.

Fox Adjourns Court

Reading, Mass.—This town has a fox-baiting enthusiast. He is the town's leading lawyer and whenever work is brought of a fox being seen, off the lawyer and his dog go, even if the fox is in the defendant's back yard. The fox is put to rest in the defendant's back yard.

the gun begins when outposts of the German defenders empty the chambers of their magazine rifles by way of short and try to retreat from their observation points just in front of the barbed wire. Then the tanks arrive at the barbed wire and by sheer weight crush it and roll onward to the first line of trenches.

The caterpillar wheels allow the tank to straddle the German trench. It is halted and a cross fire poured into the line. The emplacements of German machine guns are literally blasted away by the field pieces that are mounted in the tanks and the enemy reserve infantry mowed down by machine-gun fire as they crawl from their communication trenches.

At a signal from the commander of such tank the French supporting infantry rushes forward. If all goes well the ground is cleared of the enemy and the "poilus" reach the trench with a minimum loss. Then the second line is taken.

The advance continues with the enemy line all captured, going forward a greater or less distance according to the nature of the ground. Tanks cannot attack batteries of artillery, and therefore their work is accomplished when the trenches are cleared.

With the advance of the French infantry positions there is a relative advance of supporting artillery in the rear and a consequent retreat by the German artillery.

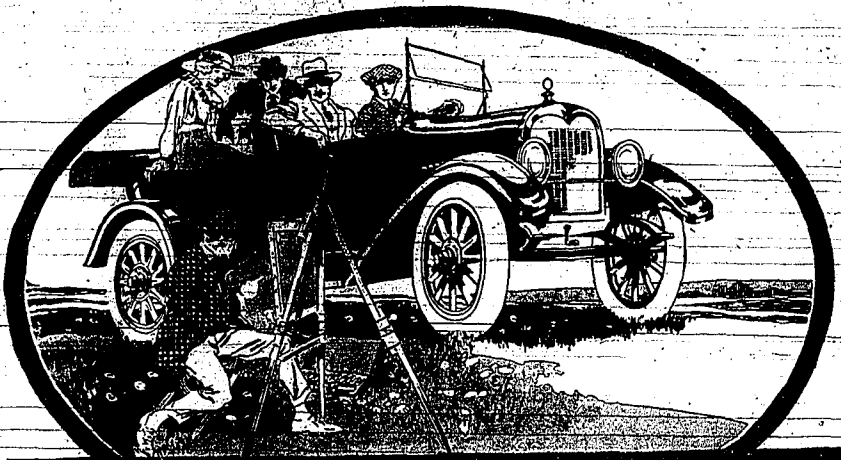

"Mans and Picked Soldiers." Tanks are considered as the property of the infantry and the poilus are proud of them. To be assigned to a "zanzan" is "bumping along" and "chariot" makes the Frenchman happy. If the American army adopts such fighting machines the first-class privates will be given the honor of becoming mechanics and fighters within them.

Every inch of what proportion the French tanks are compared with infantry regiments is a secret, but the constant cry is for more. They are of different sizes, according to the ground over which they operate, but the tendency of late has been to construct them along bigger lines. The armored sides, top and bottom, protect the fighters and the knowledge that their work saves the lives of so many of their fellow countrymen and allies prompts them to do their duty.

When the tank starts over No Man's Land those within have as much ammunition as can be stored in the compartments, and also water, rations, first-aid packages and gas masks.

As to getting over any thing they will be out hours or days—and the soldiers have learned that preparedness for any emergency is the best thing.

Captain Sweeney had such success with the tank he commanded that he was put in charge of a battery of four of them. Later he had 10.

The Maxwell Is Mechanically Right We Waited Four Years To Say That

The makers of the Maxwell spent four years in developing the car. Patient, persistent, scientific refinement of one model—that was the method. An automobile that beats the world for endurance, efficiency, economy—that's the result.

You know the old story about the race between the hare and the tortoise:—how the hare skipped about the fields—snibbled clover tops—cut all kinds of capers, trying to "show off"—how the tortoise stuck to his job—stayed in the middle of the road—kept on going—and won the race—you know that story and its moral.

No Experiment in Maxwell Mechanism

Some automobile makers have run around after novelties—like the hare, trying to add uptried "improvements" which operate better in advertising than on the car. But the Maxwell makers held fast to one model, and when some one made a big how-how about his latest novelty, the Maxwell makers strengthened a pin, or simplified or improved a part of the Maxwell mechanism, or in other big and little ways developed, refined, perfected the one Maxwell model.

The Maxwell World Endurance Champion

A Maxwell stock car—a duplicate in every detail of your Maxwell—without stopping the motor, traveled 27,022 miles in 44 days and nights, at a rate of 25 miles an hour and 22 miles per gallon of gasoline. No other vehicle built by human beings ever did anything to compare with that feat.

The Economy Champion Too

P. D. Armour used to say that his packing houses "utilized all the hog but the squeal." That's the kind of economy you get in a Maxwell.

Mrs. Miriam Thayer Seely, Professor at the Oregon Agricultural College, drove her Maxwell for 9,700 miles across the continent and back, over every conceivable kind of road, across the desert and over mountains, for \$6.19 a month, including gasoline, oil and repairs. Thousands of Maxwell owners get hard daily service out of their cars at a cost of \$6 to \$8 a month.

The Maxwell's Great Vital Organs

There's the frame—combining greatest strength with greatest flexibility. There's the wonderful radiator, that does its work of cooling at any speed and all the time. There's the world champion engine—rugged, simple, with power to spare. There's the great wear-proof clutch, running in oil—the most efficient we know of—38 a year. There's the transmission—simple, trouble-proof—self-lubricating.

The Maxwell is the Car You Want

The Maxwell at \$665 f. o. b. Detroit indeed is every man's car. All we ask is a chance to show you the Maxwell. The car will prove every statement we've made. The Maxwell is mechanically right—and we know it.

JOHNSON AUTO SALES COMPANY Twin Falls, Idaho 214-220 Shoshone St. East Phone 50

Capt. Charles Sweeney.

shell are shovered upon any position where machine-guns of the Germans may remain in action as it. It riddles the enemy trench. Only by landing a shell directly upon a tank can it be put out of commission. Bullets from German rapid fire and the infantry rifles are powerless. Hand grenades do no damage.

Exactly how the French get the tanks to their first line trenches in preparation for attack is a secret and for the present nothing on that phase of the use of them can be published. The mechanical details and the manner in which they are ready when it is time to start and upon the signal the tanks get into action.

Artillery preparations precede the advance of tanks. As the time approaches for the start, the barbed wire entanglement directly in front of the first-line trench is cut. That is done under cover of darkness. Then over the trench goes the tank and all is ready for the invasion of No Man's Land.

Shelling by the French military has silenced the enemy's cannon, and when the commanding officer decides that the remaining Germans in the first line and supporting trenches are sufficiently demoralized the signal to advance is given. One can fancy the advance of the tank as a monster steel cat creeping forward.

WITHDRAWN LANDS ARE RESTORED FOR ENTRY

WASHINGTON, May 15.—Order of restoration No. 242 Power Site Reserve Nos. 283, 330 and 340. Register and Receiver, Halley, Idaho.

Sirs: By executive order of June 27, 1912, January 3, 1913; and February 11, 1913, certain land within your district was withdrawn as Power Site Reserves Nos. 283, 330 and 340, respectively.

By executive order of April 28, 1917, the above orders of withdrawal were revoked in so far as they affected the heretofore described lands.

Township 8 north, range 14 east, section 27, NE 1/4 NW 1/4, SW 1/4 NW 1/4, and section 28, SE 1/4 SE 1/4, Boise Meridian.

Township 9 south, range 16 east, section 17, lots 1, 3 and 4, Boise Meridian. Township 10 south, range 18 east, section 11, lots 5 and 6, and section 12, lots 1, 3, 4 and 5, Boise Meridian.

The land restored by said order of restoration No. 240, were not otherwise reserved, withdrawn or appropriated, shall become subject to entry June 30, 1917 under the homestead laws only, and to settlement and entry generally.

The restoration is made subject to the regulations contained in—Circular No. 254 of May 22, 1914, 143 L. D. 254; so far as such regulations may apply.

Between the dates mentioned, settlement on the land, prior to entry, is forbidden, and warning is hereby given that no rights can be acquired or established on account of such prior settlement.

without cost to the government. Very respectfully,

ALEXANDER FLOEGELSON, First Assistant Secretary.

BOY SCOUTS TO PUT A FLAG ON SADDLE MOUNT

Procession to Top of Recently Acquired Park VIII. Mark Ceremony Memorial Day.

ASTORIA, Ore., May 28.—Forty-seven hundred feet above sea level, on the summit of Saddle Mountain, recently acquired as public property by the state of Oregon, Astoria Boy Scouts tomorrow will hoist an American flag tomorrow. Memorial day, Mayor William S. Gilbert of the Third Oregon regiment, resident of Astoria, and scout authorities are helping out the boys in staging the flag raising. Saddle Mountain is 17 miles south of Astoria.

WEEDS

The man who is going to run a garden this summer needs to make up his mind very resolutely on the weed question. He will find that it will take all his philosophy and physical energy. It is simply astonishing to the amateur gardener how fast a weed will grow. He may leave his garden looking as neat as apple pie. After returning from a week's vacation, he finds that the weeds have completely overtopped his struggling vegetables. The persistence of a weed root in the soil is another thing. It is not only the whole thing with your hoe. Then if some little piece of the tap root is left in the soil, up it comes smiling in a day or two, nodding its saucy head at you as it climbs up to its former position. It is some of these root-decapitation. Or you may pull weeds up by the

TWIN FALLS BANK & TRUST COMPANY

ELIGIBILITY OF JAPS TO CITIZENSHIP ISSUE

Question Whether Nipponese Are Caucasian Will Be Tried Thursday In San Francisco.

SAN FRANCISCO, Cal., May 29.—On a case which will be heard Thursday in the United States district court, appeals here restate the citizen status of 75,000 Japanese residents of the United States. **Yukio Ozawa**, a Japanese merchant of Honolulu, is making the fight; having appealed his case to the higher court when denied citizenship in the lower courts.

Ozawa is backed by a battery of American attorneys who based their appeal on the act of June 22, 1906. They assert that this act, in describing eligibility for naturalization, does not refer to race or color. They assert this act repeals the previous naturalization statute.

Assistant United States District Attorney Jared will direct the government's case. The government declares that the 1906 act does not repeal the old statute which specified that only white persons or those of American descent are eligible to naturalization. Jared will contend that Congress intended to bar Mongolians from citizenship rights.

On the other hand Ozawa's attorneys will assert that the Japanese are free and are white having "European" blood and are not Mongolian. They will argue that the Japanese are not of the Mongolian race and are fit for citizenship.

Volumes of arguments will be submitted from the records of ethnologists and anthropologists. Ozawa first began his fight for citizenship in the Alameda county courts in 1902 when he was denied naturalization papers on the ground that he is a Japanese, born in Japan of Japanese parents. Ozawa has lived in this country almost continuously since 1884 and was educated in American schools.

One Day Only

WORK WILL WIN—THE END IS NEAR

Work will win for you, and right now a few minutes work will enable you to stop to the very top with increased interest in your campaign and the very best possible chance for final success.

With practically every candidate now included with the spirit of progress and victory, and all determined to climb in the votes columns, the Grand Prize Campaign is fast traveling toward its end. Not a great while remains before the call of "time" puts an end to the efforts of every candidate, and during this time now, while there is yet time every candidate should put forth her very best efforts and plan for final success. The time is too short to allow any of it to go to waste. Right now it probably seems to you as though you have plenty of time to work and win, but before you know it, before you even think of such a thing the finish will be at hand, and then maybe you will be one of those who will be lamenting because you have not more time to work.

Don't say, "Well I have done as well as the rest." Think to yourself, "I did not do as well as the rest, but I did work with this idea. The time is not long to the finish, and this idea, acted out, is what will determine the success and failure of many. Determine to succeed, work with that idea over in mind, allow nothing to worry or affect you, and yours will prove a most successful campaign at the close.

ARCHITECTS HOLD A MEETING SATURDAY

Many Out of Town Members of Association Here—Officers Elected

For the first time since the organization of the State Architects society met in this city Saturday in adjourned session. A business meeting was held in the rooms of the Twin Falls Commercial club and was attended by all the local architects and by a number of members from all parts of the state. The following officers were elected: President, Burton E. Moore, of Twin Falls; first vice president, G. O. Hammond, of Boise; second vice president, L. E. Fisher, of Idaho Falls; secretary, E. J. Gaters, of Twin Falls; treasurer, S. H. Partridge, of Pocatello. The convention closed with a banquet tendered last night by the Twin Falls Builders' association.

INLAND NORTHWEST

It is estimated that the territory wool clip in the states of Montana, Utah, Idaho and Nevada has been sold to the extent of 80 per cent.

F. H. Hille of Lovelock, Nevada, has filed with the district court at Winnemucca, a petition signed by 70 residents of Lovelock, asking permission to incorporate the town.

Nevada, which was once a separate revenue district, may again be separated from the San Francisco revenue district, if it can be shown that it can be pushed to a successful conclusion.

The Five Mile house, on the Geiger grade about twelve miles from Carson, Nev., burned to the ground May 22. The Five Mile house was a noted landmark, having been built over 45 years ago.

Shearing is in full progress in Utah and Nevada, though operations have been delayed by cold storms to a considerable extent. In some cases shearing has had to be postponed until after mid-July.

Albert Tar, arrested at Fallon, Nev., for selling liquor to Indians, was arraigned before the federal commissioner and held to the federal grand jury under \$500 bonds. Tar is a butcher by trade.

George Wingfield, contemplating building a new hotel in Fallon, Nevada, during the coming summer. Fallon is growing and the need for greater hotel accommodations becomes more apparent every day.

Edw. J. Green, superintendent of the highway department of the city of Denver, was shot and fatally wounded by William R. Sney, former district superintendent of the department, who had been discharged.

F. S. Lusk of Missoula, who represented Montana at the meeting of the federal trade commission in Washington May 1, to discuss war problems, predicts "a frightful shortage of labor in the United States."

INTER-DENOMINATIONAL SUNDAY SCHOOL—JUNE 3

Interesting Program Prepared For Session at Which a Large Attendance Is Expected.

The Twin Falls County Inter-denominational Sunday School Convention will be held Sunday, June 3rd, both afternoon and evening, beginning at 2 o'clock in the high school auditorium. The following interesting program will be given:

Evening—
Song service—A chorus of 150 young children, conducted by Rev. Chas. Butler.
Devotional—Mrs. C. E. Rowcliffe, appointment of committees.
Up-to-date Elementary Work—Mrs. J. E. Steimour of Murtaugh, elementary superintendent.
Duet—Mrs. Brown and Nuenmaker. Effective Methods with the Teen-agers—Rev. M. M. Van Patten—Bible—How to enlist the organized adult classes in practical social activities—Mr. R. H. Young, Twin Falls.
Special music.
Round Table Discussion—Mrs. L. M. Ormsby.
Ormsby, general secretary of state Sunday School Association, Boise.
Report of committees.
Election of officers.
Reces for supper.

Evening—
Song service—A chorus of older children, conducted by Rev. Chas. Butler.
Devotional—Rev. V. G. Backman, Kimberly.
Solo—Rev. Chas. Butler.
Address—"Test of Efficiency in the Sunday School and Church," Rev. Orvis T. Anderson.
Special music.
Address—Mrs. L. M. Ormsby, Boise.
Benediction—Rev. Lahroy.

When the garden does not do well it is always poor soil and bad weather; never lack of cultivation.

OREGON GRANT LANDS OPEN TO SETTLERS
Invalidity of Bean Bill Gives Right to Enter as Soon as Government Issues Proclamation.

ROSEBURG, Ore., May 28.—The action of the state supreme court in holding against the Bean bill has hastened the day when the Oregon & California grant lands will be thrown open to public settlement in the opinion of many of our officials here today.

MONTEREY DESIGNATED AS CONCENTRATION CAMP
The United States has designated Monterey, California, as one of the six concentration camps in the United States, and a practice ground for six machine guns. A new city of 2,000 shacks will be built at a cost of \$4,000,000 to take care of the soldiers.

RECOVERER OF LANDS HAS COMMUNICATED FROM COMMISSIONER
The commissioner at Washington, stating that the opening of the lands would follow immediately the disposition of tax matters. Since this is now practically settled by the action of the supreme court in declaring the Bean bill invalid, all obstacles to the final settlement of the grant are thought removed.

Notice—Discontinuance Many subscribers prefer not to have their subscriptions interrupted in case they fail to receive them for a few days. Notwithstanding this, it is not assumed that continuous service is desired; rather, subscribers are expected to notify us with reasonable promptness to stop if the paper is no longer desired.

THE SERVICE OF THE VETERANS
For many years on the Memorial day anniversary, May 30, the Veterans of the Civil War have been preaching patriotism. Many times their words attracted little attention. It usually proves very difficult to get a crowd out to Memorial day exercises.

The Theatres

LILLIAN WALKER
In 'Hesper of the Mountains'
At the Idaho Wednesday.

POPULAR SCREEN STAR WAS ONCE 'HELLO-GIRL'

Lillian Walker, who plays the title role in 'Hesper of the Mountains,' playing at the Idaho on Wednesday only, first earned her living in the capacity of a high-class artist. Her high-class photographic artists then claimed her and for some time she worked as a model in New York City.

Needless to say the result were unsatisfactory and today, Miss Walker is one of the most popular players in the country.

'MAX WANTS DIVORCE' IN A MINIATURE WAR
When Max Lindler, Esq.'s notable comedian, and his bride engaged in their little marital squabble in 'Max Wants a Divorce,' on the Idaho program Wednesday, it was in the spirit of a European war.

OMITIARY
Ernest A. Campbell, son of Mr. and Mrs. A. R. Campbell, was born at Provo, Iowa, August 18, 1889. Died at Twin Falls, Idaho, Sunday evening, May 13, 1917.

ERNEST A. CAMPBELL
Ernest graduated from the Twin Falls high school with the class of 1913. From his childhood he has been religiously inclined. He secretly knew the day when he was in Sunday school. During his boyhood in Iowa it was his custom of attending Sunday school in the forenoon at the Methodist church, and in the afternoon at the Presbyterian church.

THE PATRIOTIC ARTICLE
The patriotic citizens of Twin Falls county will read with pleasure the splendid letter of Senator A. M. Bowen in this issue of the TIMES, pointing out the penalty involved in forming conspiracies to defeat the purpose of the selective draft law, and will observe with delight the fact that the so-called outlaws which have been understood during the illness from which he is now recovering has left his intellect as bright and his interest in public affairs as keen as ever. It is a dispassionate discussion of a vital question which must be of interest to all.

German opera singers who appear in the United States are to be barred from all operatic performance in Germany during a period of five years. Americans are to hear the music of German ballads, they might get along without German vocalization. A total of 22,419 Germans and Austrians were made prisoners of war.

RUSSELL LANE ITEMS
H. F. Paul has just purchased a new five-passenger car. Several cases of measles have been reported in this community recently. Bert Corcoran has just purchased a new Chalmers car. Arehile Urt has been sick with the grip for the past week but is rapidly recovering.

PRETTY FOOD IS NEITHER WHOLESOME NOR ECONOMICAL

If the war which our housewives think they have begun upon kitchen waste is ever to be anything more than the sham battle which it now appears to be, it will be because it is not being abandoned by the food buyer and the food seller. Many people, however, are not so ready to give up their notions of 'pretty food' as it is called. These people are not so ready to give up their notions of 'pretty food' as it is called. These people are not so ready to give up their notions of 'pretty food' as it is called.

The illustration shows a woman in a long, flowing dress, possibly a character from a play or film, standing in a dramatic pose.

Women's Low Shoes \$1.95
150 pairs of Women's Low Shoes consisting of all kinds of leathers, and sizes from 2 1/2 to 7 1/2. Your choice of any low shoes in the lot for the small sum of \$1.95. Sincior's

utal white rice is popular with the women—rice with nearly all the best of them. Milling and the very brown rice is not pretty and it does not 'keep' mainly for the reason that it isn't cooked. Many of the products are discarded because they don't look good on the table. Dried fruit that has had the life bleached out of it is preferred to fruit that is darker color and that contains highly nutritive constituents.

Chandler Price Must Advance \$200 June 30th

The price of the Chandler Six becomes \$1595 on the first day of July. The present model, identically the same car, will be continued after that date.

Until that date the price remains \$1395

**It has always been a basic part of Chandler policy
to keep the Chandler price low**

We have kept it low. Men considered the original Chandler price of \$1785 established four years ago an impossible price. Later when the Chandler Company reduced that price to \$1595 the trade thought we were courting disaster. Further reductions came as a positive shock to the industry.

Meanwhile the Chandler Company prospered and

Chandler business grew to front rank proportions. The Chandler car was never cheapened, but, rather, improved and refined from season to season until the whole motor car purchasing public has come to recognize the Chandler car as a car of surpassing values.

Our whole purpose has been to build the best light-weight Six and sell it at the lowest possible price.

**We have sold the Chandler car for hundreds of dollars
less than cars of similar quality**

We have built into the Chandler car, as fundamental features of construction and equipment, the most important features which are characteristic of the highest

priced cars of all types—features which are not found in other medium-priced Sixes, or found, at best, to very slight degree.

Now, however, the Chandler price must be advanced

It must be materially advanced to cover greatly increased costs which have arisen this Spring by reason of unprecedented conditions in the material supply and labor markets and in problems of transportation.

Production costs throughout the past three months have advanced steadily and in long strides. This is a

condition which we cannot control. It is a condition which we must meet.

So the Chandler price must be advanced. In making this advance we do not depart from our firmly established policy of keeping the price just as low as it can be kept and still provide reasonable manufacturing profit.

At \$1595 the Chandler car will still be under-priced

It will be distinctly under-priced, as compared to other cars which some may consider of similar quality. By test of any conceivable comparison this statement

is a provable fact.

Now you can buy this great Six at \$1395, f. o. b. Cleveland.

**While the \$1395 price holds, the demand will continue to greatly exceed
our production, and we cannot guarantee deliveries**

Serial No. 10699 Treasury Department-Office of the Comptroller of the Currency, U. S. Department of the Treasury, 1917. Whereas, by satisfactory evidence presented to the undersigned, it has been made to appear, that

GLYCERINE AND BARK PREVENT APPENDICITIS

The simple mixture of buckwheat bark, glycerine, etc., known as Adger-Ka, astonishes Twin Falls people. Because Adger-Ka acts on BOTH lower and upper bowels, ONE SPOONFUL relieves almost ANY CASE of constipation, sour stomach or gas. It removes such surprising food matter that a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. The INSTANT, easy action of Adger-Ka is astonishing. (Bedford-Fisher Drug Co. (Advertisement)

LYONNEN CHILDREN ALL REMEMBER INVASION HORROR

LONDON (United Press) - Children of Belgium will never forget those awful days of 1914 when the gray waves swept over the land scouring the country. In London the family of a well-to-do Belgian refugee was driven from home by fire. Upstairs in her little bed the four-year-old daughter, Kimmy, was sleeping when the flames rushed in. English firemen wore shiny brass helmets, which appear similar to the German soldier's head-piece in the dark. The child caught one glimpse of the fireman and screamed "Les Allemands! Les Allemands! The Germans! They will kill me!" But one fireman who had killed his own picked off his helmet and seized the screaming little girl in his arms through the flames to safety. Safe in her mother's arms she still sobbed, "Les Allemands! They kill!"

HEARING ON FREE BY COMMISSION TIME BY COMMISSION

Proposed to Reduce Grains Period in Warehouses From Five Days to Two Heard By Commerce Commission.

NEW YORK, May 29.-A hearing of the utmost importance to shippers of grain was held here today when the Board of the Interstate Commerce Commission heard evidence bearing on the proposed reduction in free time at railroad terminals upon carload freight designed for light-rail delivery.

Under the present rule such freight is held in warehouses at terminals for five days gratis. The proposed rule would cut this period to two days. Members of the merchants association, interested in the reduction, testified.

Building: I am located in Twin Falls to do any kind of job or day work. Bungalow house, store fronts, shelving, remodeling of any kind on short notice. Telephone 440. Fourth avenue north, phone 230 W. Overseeing work a specialty. John Taylor. Advertisement.

Achieving the Thin Silhouette

If you sigh for the slim silhouette, and long, straight lines in a summer frock, consider the virtues of the simple, modern, pictured above. Artists always approve these things and just now, as the fashion is of one mind for fashion, artists and designers approve all things. Let the plump girl convince herself that she can achieve it by picking out one of the new striped cottons or silks and making a faithful copy of this dress. She will realize what startling illusions can be wrought with stripes in the hands of an expert designer.

The blouse is to be made of plain, thin, wash silk or of georgette crepe with the silk preferred if the dress is to be of cotton goods. It has a sailor collar and jabot flounces at the front, full sleeves gathered into deep cuffs and is very plain—all proclaiming it the last word in summer blouses. The cuffs are of the same fabric as the dress. The waistline is a little lengthened by a wide belt which does not set close to the figure. Through a slash at each side wide suspenders come through the belt and are just under similar slashes at the back. These slashes are buttonholed at the edges to keep them from fraying. There is very little fullness in the wide yoke made with stripes running round the figure—here plenty of it in the lower part of the skirt which is planted into the yoke. The platts are pressed flat and the platts almost con-

ceal the plain space between the groups of stripes. The skirt is cut shoe-top length and might be a very little longer and sold to the apparent length of the figure. There is nothing unusual or particularly original in this model but it is in a nice sense of proportion that it is excellent. The adroitness with which the designer has used familiar modes to accomplish his results, proclaims the artist.

This is a simple dress, appropriate to midsummer wear at any time of day, and so well suited to the plump figure that we must believe it was made with that end in view.

Japanese Parasols.

If you are trying to get through the summer on the minimum number of parasols get one that is odd enough always to look unusual or else get one that is a combination parasol and umbrella. The combination article is really a small umbrella of colored silk, with a short handle supplied with a silk strap for the wrist and a short black ferrule. For the unusual type of parasol nothing is more charming than one modeled on strictly Japanese lines. One of the smart shops shows a figured crepe parasol made exactly like the Japanese paper parasols with the thin wooden or bamboo ribs exposed on both sides.

Little Black Hats

Just the most chic and reliable of all hats is the little black hat that makes its appearance each season, to be welcomed by a waiting world of women. For styles may come and styles may go, but the yogue of the little black hat goes on forever. Those who create it are confronted by the difficulty of avoiding the commonplace, because a large proportion of the buyers of black hats are women of conservative taste. But there is no direction in which successful effort in designing meets with so much profitable appreciation.

Not all little black hats are conservative in shape and trimming. Shapes that are daring or even a bit rakish, are permitted in black, and admired. So that there is a little black hat for everyone, and everyone wants one and should have one. If for no other reason than appearing occasionally in all-black. There is nothing sadder about black in millinery this season, because of the brilliance of beads and trimmings, nearly all little black hats are of lustrous—beaded with a highly polished surface—lacquered ribbons, jet beads and other shiny ornaments add luster to the shape.

The group of three hats in the accompanying picture are representative shapes and trimmings. The cen-

ter hat is the always sprightly and becoming ribbon, in which the popular combination of silk and straw appears to great advantage. Simplicity and exquisite workmanship distinguish it. Its only ornament is a motif of embroidery in silk and beads. At the left a hat with drooping hair takes advantage of its opportunity to become beloved by adding a double frill of lace hair back to its brim-edge, sure to be becoming. The hair brim added to the top of the crown, held in place apparently by a collar of soft ribbon finished with a prim bow at the front. Sprays of burnt ostrich curl about the side crown.

At the right a round lucian, adds to its height by an edge of lace hair braid which helps out the ambitions of the brim in this direction. A brush aligrette and lustrous black ribbon contribute much style to this stunning little model.

IMMENSE CREDIT OF

(Continued from page 1)

The proposed debt, with our resources, compels the conclusion that such a volume of borrowing, under present conditions, will hardly impair, to the slightest degree, the nation's credit and the successful consummation of this loan will not require anything like the financial strain that most European nations have already successfully undergone.

The big factors in modern warfare are men and money. Most nations making ready for war first mobilize their man-power. The United States has reversed the usual order by first mobilizing its money-power. The reasons for this reversal are well evident. This country, not being a military power, did not have its men ready for immediate fighting. But, being the richest nation in the world, its wealth was ready for action. So, in its anxiety to make its might immediately felt in the greatest war of all times, it began by marshalling its dollars.

The Liberty loan means just what its title implies. It is our first big added to the joint activities of liberty loving nations to crush German autocracy and all that it stands for. It is our immediate substitute for the results of the fighting since so they may not be hampered in their grim task, until we shall be able to

place our army alongside theirs in the trenches.

The Liberty loan was authorized by congress within three weeks of the date of our recognition of a state of war with Germany. It outlined the greatest financial program ever undertaken by any nation on earth. It authorized the secretary of the treasury to use the credit of the nation to the extent of seven billions of dollars—five billions to be borrowed by the sale of bonds, and two billions to be raised by certificates of indebtedness. It provided that three billions of dollars of this money should be loaned to our European allies without profit to the United States. It fixed the interest rate at not to exceed 3% per cent and provided that if, at any time during the war, the United States issued other loans at a higher rate, those bonds would be convertible at the higher rate.

Secretary of the Treasury William G. McAdoo immediately began to make available to the allies a portion of the credit represented by the certificates of indebtedness. Through the machinery of the Federal Reserve system banks were asked to subscribe two hundred million dollars of this amount. The response was overwhelming and the offering was almost immediately repaid with the same result. Secretary McAdoo made immediate loans to the allies as follows: Great Britain \$200,000,000; France \$100,000,000; Italy \$100,000,000. A program was outlined to extend additional credit at

the rate of a hundred million dollars a week.

This move for temporary relief compelled the secretary of the treasury to set about the main task of war financing provided in the bond act. He announced the issue of two billions of dollars worth of bonds to be distributed June 15 and for which subscriptions would be received up to that date.

TOURIST BUSINESS TO ORIENT HINED BY WAR

(United Press)

TOKIO, May 29.—The Orient's tourist business, which promised to smash all records this year, has been practically ruined by America's belligerent attitude and the submarine scare on the Pacific. Never in history had indications pointed to such a bumper crop of American spenders as this spring.

The riksha boys and curio men had stashed their loot and extended their palms. All was ready for the American tourist's spring drive on the far east. And then President Wilson called the Kaiser's hand and America dotted her coat and stepped into the big world scrap. The big Toyo Kisen Kaisha liner, Tanyo Maru, due at Yokohama Apr. 30, carried less than 100 passengers from San Francisco. She has accommodations for 350 and—practically every cabin had been sold. And then came

war and the submarine rumors.

It's a sad day here for the hotel keeper and the steamship agent, and the Chinese tailor and the riksha boy and all the rest—but especially it is sad for the smiling, bowing, industrious subject of the Mikado who will show you everything from an ancient print to a cloisonne vase—and make you buy it.

HUNGARIANS CAN NOT AGREE

(United Press)

BELIN, May 29.—Attempts to form a coalition ministry in Hungary failed, according to Vienna reports today. It is understood that Count Aldrey who was selected to succeed Count Tisza was unable to unite all elements into a cabinet.

BRAZILIAN CONGRESS SEVERES WITH GERMANY

(United Press)

RIO DE JANEIRO, May 29.—The Brazilian Congress today authorized the president to announce formally the revocation of the declaration of neutrality made by Brazil between the United States and Germany.
