VOL. XII—NO. 91

NEW FARM BUREAU STARTED AT MEET SUNDAY

BUYING AND SELLING COMMITTEE OF FARM BUREAU MEMBERS IS ORGANIZED

Large Crowd Attends the Gathering

Meeting of Spud Men Wednesday

Bean Men Thursday and Clover Men Friday to Discuss Question of Pools

In order to segregate the work of the farm bureau proper from any activities in buying and selling in which it may be deemed expedient to indulge...

Only members of the county farm bureau will be eligible to membership. The only permanent officers are a chairman and a secretary-treasurer.

There will be a meeting of the potato growers at 7 o'clock on Friday at the Parish hall to discuss the matter of spud marketing and pooling.

In order to start the movement on its way, until the percentage to the money from the pool can be ascertained...

Salmon Settlers Hold a Meeting

Escape Attorney To Carry On Suit And Vote Assessment on Members For Expense

The Settler's association of the Salmon tract held a meeting Saturday night at Hollister and determined to respect the cooperation of the state in the lawsuit now pending in the United States Court.

Will Open Buhl Bank September 1

The Farmers' National Bank of Buhl, capital stock \$25,000, will open its doors September 1.

PLUCKY VETS. MADE THIS YEAR IN HUB

PLAN TO OUT OUT MARCH VETOED BY NATIONAL G. A. R. IN BOSTON

Show That They Still Are Able to Move

Patriotism Over War Stirs Old Soldiers to Sturdily Tramp a Mile and a Half in Procession Along the Streets.

(International News Service) BOSTON, Aug. 21.—Ten thousand men in military uniform paraded with firm step through the streets of Boston today.

The parade formed at 10 a. m. on Commonwealth avenue. Commander-in-Chief Patterson took his position at the head of the line.

Thousands of Grand Army veterans, with their families, here to attend the National Encampment, enjoyed the sights of the city today.

Every one of the forty-four departments of the country is represented.

I. W. W. STRIKE PROVES FLASH IN THE PAN

Miners Organize to Stop Them At Burke—Portland Dist All Quiet Today.

(International News Service) Wallace, Aug. 21.—The threat of the I. W. W. strike at Burke was met by the organization of the miners into a league known as the American League.

PROTEST AGAINST NEGROES IN CAMP IN S. CAROLINA

(International News Service) WASHINGTON, Aug. 21.—Governor Manning and Senator Tillman today protested against the proposed sending negroes to the national army cantonment at Columbia, South Carolina.

GOT BIG DIAMOND

HAUL IN BOSTON

(International News Service) BOSTON, Aug. 21.—Four men stole \$15,000 worth of diamonds and jewelry today, after knocking the clerk in Bolton Robinson's store unconscious.

BATTLE MOST EXTENSIVE IN HISTORY OF THE WAR RAGING ON WEST FRONT

Fighting Along a Line for Four Hundred and Thirty Miles—French Capture 5000 Germans at Verdun—Italians Take 10,000 Teutons and Plunge Forward Toward Trieste.

(International News Service)

PARIS, Aug. 21.—The fiercest fighting of the war on the western front is now raging on a front 486 miles long.

ROME, Aug. 21.—The war office announces that the Italian drive continues today, over 10,000 Teuton prisoners having been taken since the latest battle began.

The Club Lunch Efficiency Exploited

Some Criticisms and Some Excellent Suggestions With Regard to Past and Future Management.

The bi-weekly lunch of the Commercial club was excellently well provided for at the Palace Cafe.

Vice President Blue called the meeting to order, and, after stating that he had just returned from absence and was not informed as to the subject or purpose, turned it over to Secretary Stubbs.

Secretary Stubbs rejoined by saying, "you hear this challenge; let us qualify for its acceptance."

Mr. Stubbs later called upon Messrs. Hackman and Longley, each of whom spoke briefly along the lines followed by previous speakers.

Cried Out and Dropped Down Dead

Edward Noble of This City Expired Suddenly While Helping Thresh Yesterday.

Edward Noble, aged forty-one years, dropped dead while sickening grain, at a threshing in his field on the "Portage Eighty," at 6 o'clock last evening.

HANSEN BRIDGE PLANS ARE SCANNED YESTERDAY

The Hansen bridge plans, submitted by the engineers of the United States government, were given over carefully yesterday by the Twin Falls county commissioners and the commissioners of the Hillside highway district.

HOGS CRACK THE SKY IN SOARING UP

PRICE OF TWENTY DOLLARS A HUNDRED PAID ON THE CHICAGO MARKETS

President Says Coal Matter Is Serious

Cancels Cabinet Meeting to Consider It—Trades Commission Would Curb Trade Associations That Raise Prices.

HOGS REACH THE WORLD'S RECORD

CHICAGO, Aug. 21.—Hogs reaching a world's record price of \$20 a hundred on the market here today.

WASHINGTON, Aug. 21.—So serious does President Wilson consider the coal situation that he today cancelled a cabinet meeting to consider the important engagements to study it.

AMERICAN CAMP, France, Aug. 21.—American troops are descending in trenches captured by the French.

LONDON, Aug. 21.—British aviators made a fourth raid in a night against the military works of the Germans in Belgium.

ROME, Aug. 21.—The British government today transmitted a note to the Vatican, containing the assurance that serious consideration would be given the pope's proposals.

Council Does Much Small Business

No 'Permanent Issue' At Gathering Last Night. But Many Little Things Acted On.

The council meeting last night transacted a good deal of business in a small way, but put over nothing of importance.

A complaint that new arrangements were being made for a motor car on Third avenue and Second street should be made, was referred to the proper committee with power to act.

An intentional ordinance providing for the voting of the assessment roll for the year 1917 was passed.

A petition for the paving of the alley between blocks 102 and 103, was filed. The council agreed to order it in provided that enough stool pipes be provided at once to put in the water main.

The bridge over the ditch on Third avenue north, was ordered in.

It is reported that Secretary Baker has wired to a veterinarian in this city to investigate the possibility of the new animal for war purposes.

SPRIKE TROUBLES IN SEVERAL PLACES WORRY

(International News Service) WASHINGTON, Aug. 21.—Secretary of Labor Wilson has gone to Albany to attempt to stop a strike.

SAN FRANCISCO, Aug. 21.—Rifling took place today between striking carmen and the employes, after which six were arrested, of whom three were strikers.

LAFOLLETTE IS FOR TAX ON THE RICH

OPPOSES REVENUE BILL AS INADEQUATE TO MEET OUR NEEDS

Four Hundred Million for Destroyers

Secretary Lansing Denies Knowledge of Alleged Impending Loan to Mexico by American Financiers.

Good Description Gets Stolen Car

Seattle Officials Spot Auto Taken From This City More Than A Month Ago.

Because the description fit the car so nearly that an effort to disguise it was unsuccessful, a Ford roadster of 1917 which has been restored to its owner, C. R. Winkler, while in Smith, on whom suspicion rested, is in jail awaiting his preliminary hearing which will be held Thursday before Probate Judge Duval.

Burbank a Piker in Unnatural Selection

New Animal in Twin Falls Lot Promises Fair to Revolutionary Legion.

The needless expense, the odorless and the milky milkweed are tame developments compared with the new product of evolution seen yesterday when Anthony M. Sando, master of the Fordule, for a material gain strolled in the "divisor" followed by his coat, which strongly resembled both in appearance and sprang of a chimpanzee.

Another, the sheriff's office is being complimented for its handy work in this case. This is only one of the several cases where men have been traced from the state since F. M. Kendall became sheriff.

New Names for the Twin Falls Streets

A resolution passed by the city council last night provided for a new name for many of the streets in some of the additions of the city.

It is understood that Mr. Sando does not intend to force his material through non-diplomatic means.

It is reported that Secretary Baker has wired to a veterinarian in this city to investigate the possibility of the new animal for war purposes.

BLAKE RE-ARRANGED

Charles H. Blake, who returned from the military training camp at Fort Benning, Ga., today leaves again tomorrow to resume his training there, after a visit with his mother.

COMPLETE OFFICIAL LIST OF TWIN FALLS COUNTY'S PRIZES IN THE WAR LOTTERY

The Entire Corrected Roster of the 2501 Men Registered for Service in This County, With the Order in Which They Will be Called Should the Need Continue.

This official list, now published in its entirety for the first time, with names, numbers and addresses, will appear by sections in three or four consecutive issues of the TIMES. They should be cut out and preserved by anyone who is interested.

\$1500.00 Idaho Falls Money

For twenty-four years we have been advertising to the world that we collect honest debts; that we collect more of them than any other collection agency in the United States. People believe it. From all over the country, east and west, north and south, people are sending their claims to us for collection, and they are doing it now more than ever, because we get such wonderful results.

How many collection agencies have you heard of that would take a note ten years old—\$935.00—follow it up and collect and remit to the client \$1,172.00, namely \$237 more than the face of the note? We also collected our commission in addition to the \$1,172.00.

You never heard of such a thing, did you? Well, that is exactly what we did. And it is nothing unusual for us.

The original note, dated June 15, 1906, was for \$935.00, against parties in Lewiston and Kendall, Montana, and was turned in to us for collection February 7, 1912.

HOW WE HELPED THEM ATTAIN SELF-RESPECT

For four years we worked incessantly to collect that note—to convince the parties that their manhood was at stake, that the ability to look every man squarely in the eye was as refreshing to the mind as the flowers that bloom in the spring, tra la. We reminded them that the interest should be paid, too. And they came through.

As a matter of fact, this is the only agency in the United States that does this sort of collecting.

These two Idaho boys, both happy at the same time, illustrate what is happening all around the country when old claims are turned in to us. We collect claims that run up into the thousands, and for years and years we have been telling the people of the United States of our success. Yet there are some who are so doubtful of our ability to collect the money for them that they hold their claims year after year and wait till they become, moss-backed and mildewed before they turn them in. They might just as well have had the money long before and bought themselves a nice new automobile and been enjoying it all the time instead of waiting and putting it off until some other day.

IT DON'T DO YOU ANY GOOD, OR ANY PERSON ANY GOOD, TO FIGURE ABOUT THE THOUSANDS AND THOUSANDS OF DOLLARS YOU HAVE COMING TO YOU IF IT NEVER COMES.

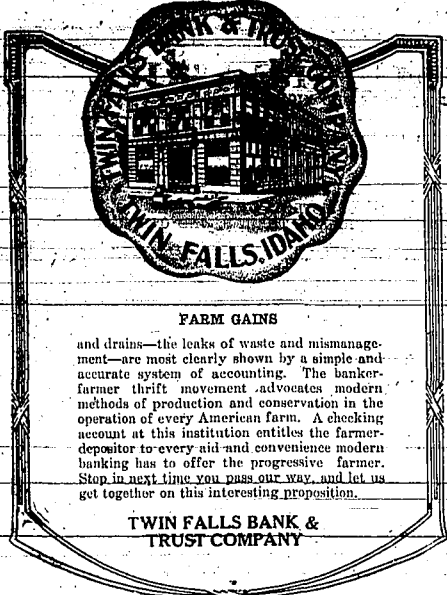

The way to enjoy your money is to have it where you can use it. You can't use it if it is represented by old notes, bills and accounts. The only way you can use it is to turn those old notes, bills and accounts to us for collection—DO IT NOW! Do it while you are alive. Do it while the people who owe you the money are alive. Do it while you are young enough to enjoy the money that we will collect for you. Do it while your wife and children are young enough to help you enjoy the money after we collect it for you. We understand Mr. Warham purchased a brand new automobile. You can do likewise if you turn in your claims. Wake up. Think about it. DO IT NOW. Write, telephone or see us.

FARM GAINS

and drains—the leaks of waste and mismanagement—are most clearly shown by a simple and accurate system of accounting. The banker-farmer thrift movement advocates modern methods of production and conservation in the operation of every American farm. A checking account at this institution entitles the farmer-depositor to every aid and convenience modern banking has to offer the progressive farmer. Stop in next time you pass our way, and let us get together on this interesting proposition.

TWIN FALLS BANK & TRUST COMPANY

FRANCE WELCOMES AID OF AMERICA IN WAR

(By Daniel Dillon)
(International News Service)

PARIS, Aug. 18.—"America must not believe that France has lost her fighting spirit!"

The young French lieutenant's voice rang sharply over a trifle defiantly as he made his initial dip into the conversation. The next instant, though, as he waded his hand politely toward the American interpreter and continued in his polished debonair French officer.

"But my good friend is right; the French spirit has changed in the last six months; he is correct when he says it has been noticeable; but I fear he has misinterpreted the change.

"Six months ago we were delirious with the exultation of Verdun. And in passing it is worth calling attention to the fact that our Americans seem not to have grasped the magni-

tude of the struggle at Verdun. It is the highest this in the military history of the world. Think of it! Eight hundred thousand German lives were sacrificed; our own losses were appalling. You speak of the battle of the Marne, the Somme, Vimy Ridge, but I tell you they pale before Verdun. Germany was vanquished for all time before our French fortifications.

"And to us Frenchmen it was the vindication of centuries—How often have you heard the British say: 'No respite for the French; we have little to follow; splendid at a quick charge; but when it comes to the long hard grind, the stubborn tenacious defense, then you need Mr. Tommy Atkins. The world had been led to believe something like this about us.

"And then came Verdun. Was there ever a greater exhibition of what our English friends claim as their own grim bulldog fighting? Was there ever any other army that stood and took what we took—not for hours or days, but months, the fiercest human animal ever launched and never wavered once? And then after this ordeal to have the stamens and spirit to counter-attack? Pardon me, gentlemen, but when I think of Verdun I feel it a privilege to be a Frenchman.

"We wanted the United States in this war not because we believed we needed them to win, but because we wanted them by their alliance to tell the world that we were the cause of justice, right, humanity.

"Today we think differently, as you have pointed out. We want America with us not merely lending moral and financial aid, but shoulder to shoulder, with us in the trenches fighting the bloody fight for democracy. And we want you there because we now believe we need you to end this war.

"We French are candid. We tell you openly we want you. We want you enthusiastically as deliverers and saviors, out country. In yours we have taken you into our arms as brothers. But please, please do not interpret this to mean that we

have, 'Irod of the light, that we are wearied and sick at heart'; that our day is over, and it is now up to America to take on her young shoulders the burdens of France.

"France is happy because America is with us, not because she expects you to fight her battles, but because she knows it brings peace close to a world at least over the useless carnage of war."

INSURANCE FOR SOLDIERS PLEA OF SEC. M'ADOO

EXEMPTION CLAIMS MADE BY MANY THROUGH FEAR FAMILIES BE LEFT DEPENDENT

Protection Now Not Pensions Later Idea

Morals of Army Will Be Improved By Legislation That Will Insure Safety for Loved Ones at Home

WASHINGTON, Aug. 18.—Secretary W. G. McAdoo, of the treasury department, tonight issued a powerful plea for the enactment of legislation providing for the insurance of all soldiers in the army and navy of the United States instead of waiting until after the war to grant pensions to the injured. He stated that insurance rates were so high as to be prohibitive for soldiers and that the idea of leaving families who would be dependent in case of the death of their head made many try to escape the selective draft. In part he said:

"The number of claims for exemption from military duty under the draft law has caused a painful impression in many quarters, but after all, does not the fact that no provision has yet been made by the government for the support of the wives and children, mothers or fathers, of the men who have been drafted explain many of our exemptions?

"Under the draft law the government has the power to require every able-bodied man between 21 and 31 years of age to perform military duty. Thousands of the drafted men are wage-earners who married years ago and are sole support of their families. So long as the government has made no provision for the care of those dependents, it is natural that such men should endeavor to protect their loved ones by staying at home. I am sure that if the congress should promptly enact the pending war insurance bill, which makes definite allowances for the support of the dependents' wives and children, fathers or mothers, of our soldiers and sailors, claims for exemption on that score will cease. This is an imperative duty of the government. We cannot derive helpless women and children of the support of the wage-earner by forcing him into the military service of the country unless the government substitutes itself for their support."

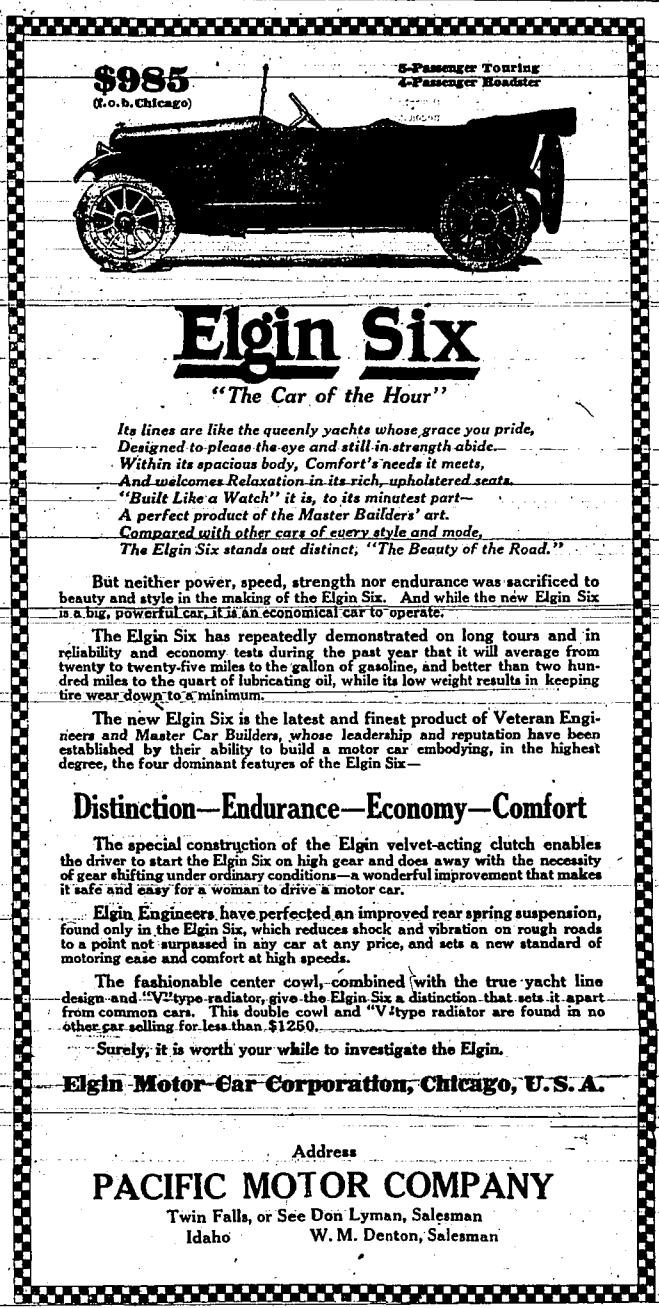

Imagine the emotions of the man who is called into the military service of his country with full knowledge that his loved ones are left at the means of support and may be reduced to want unless the charity of the community in which they live comes to their relief. It would be nothing less than a crime for a rich and just government to treat its fighting men so heartless and to subject their dependent wives and children to the inability to fight, to greater suffering than if they could fight.

"The enactment of an army is as essential to its effective fighting power as guns, ammunition and other instrumentalities of war. Of equal importance is the moral of the fighting force. The purpose of the war insurance bill now pending in the congress is to secure the future of America's soldiers and sailors by insuring their lives and providing adequate compensations and indemnities for loss of life and total or partial permanent disability; also to protect their families against poverty and want by providing them with sufficient means of support during the absence of the man at the front.

"The nation having been forced to resort to the draft in order to create quickly an army to save the country, is under a higher obligation to do these things for its fighting men than if a voluntary army only was created. This great and rich Republic cannot afford to do less, and it must do so in a spirit of a sense of gratitude and not as charity. Every soldier and sailor who serves his country in this war will earn everything he is entitled to. The government will provide; to be a beneficiary of the proposed law will be a badge of honor.

"When we draft the wage-earner, we call not only him but the entire family to the flag; the sacrifice entailed is not divisible. The wife and children, the mother, the father, are all involved in the sacrifice; they directly share the burden of defense. They suffer just as much as the soldier, but in a different way, and the nation must generously discharge as a proud privilege the duty of maintaining them from the war and resume the responsibility.

"We have drawn the sword to vindicate America's violated rights, to restore peace and justice, and to secure the progress of civilization. We can-

Elgin Six

"The Car of the Hour"

Its lines are like the queenly yachts whose grace you pride, Designed to please the eye and still in strength abide— Within its spacious body, Comfort's needs it meets, And welcomes Relaxation in its rich, upholstered seats. "Built Like a Watch" it is, its minutest part— A perfect product of the Master Builders' art. Compared with other cars of every style and mode, The Elgin Six stands out distinct, "The Beauty of the Road."

But neither power, speed, strength nor endurance was sacrificed to beauty and style in the making of the Elgin Six. And while the new Elgin Six is a big, powerful car, it is an economical car to operate.

The Elgin Six has repeatedly demonstrated on long tours and in reliability and economy tests during the past year that it will average from twenty to twenty-five miles to the gallon of gasoline, and better than two hundred miles to the quart of lubricating oil, while its low weight results in keeping tire wear down to a minimum.

The new Elgin Six is the latest and finest product of Veteran Engineers and Master Car Builders, whose leadership and reputation have been established by their ability to build a motor car embodying, in the highest degree, the four dominant features of the Elgin Six—

Distinction—Endurance—Economy—Comfort

The special construction of the Elgin velvet-acting clutch enables the driver to start the Elgin Six on high gear and does away with the necessity of gear shifting under ordinary conditions—a wonderful improvement that makes it safe and easy for a woman to drive a motor car.

Elgin Engineers have perfected an improved rear spring suspension, found only in the Elgin Six, which reduces shock and vibration on rough roads to a point not surpassed in any car at any price, and sets a new standard of motoring ease and comfort at high speeds.

The fashionable center cow, combined with the true yacht line design and "V" type radiator, give the Elgin Six a distinction that sets it apart from common cars. This double cow and "V" type radiator are found in no other car selling for less than \$1250.

Surely, it is worth your while to investigate the Elgin.

not permit our soldiers, while they hold the front, to be nibbled in the back by uncertainty as to what is being done for their loved ones at home. Our tomorrows are in their hands—their in ours. The national conscience will not permit America's soldiers and their dependents to go unprotected with everything that a just, generous and noble people can do to compensate them for the sufferings and sacrifices they make to serve their country.

Aside from the care and protection of these dependents while the soldier is alive, the proposed war insurance act provides for definite compensation for his dependents in case of death, for definite and adequate indemnities in case of total or partial disability, and for re-education of the maimed and disabled man, so that he may take up a new occupation and make himself a useful member of society.

Military service is now obligatory; those who imperil themselves have no election. Their insurance companies do not and cannot permit this fact to affect their calculations. They must protect themselves by charging premium so high that they are secured against loss no matter how severe the rate of mortality may be. Consequently, the very men who are called into the service because their physical condition is of the best and who as civilians would for that reason be able to secure the most favorable insurance rate in peace time, are denied as soldiers the necessary life insurance to enable them to protect their families and dependents. The tremendous rates charged by private insurance companies to protect them against the extra-hazardous risks of

war put insurance entirely beyond the reach of the conscripted soldier.

The pending war insurance bill gives compensation, not pensions; it fixes amounts definitely in advance in case of holding out the more chance of gratuities after the conclusion of peace. It saves the dependents from want and gives them the necessities of life while their men are at the front. It deals with its heroes liberally for the sufferings that result from their disablement on the field of battle, and, if they die, it makes just provision for the loved ones who survive them. It fosters the helpless and dependent, the maimed and disabled, and recognizes the immensity of the nation's debt to the valor and patriotism of her heroic sons.

Salute for the Times and get all the news.

AN I. W. W. PLEA

A pamphlet of the I. W. W. calling a strike in the lumber regions was found thrust under the door of the TIMES office this morning. The first paragraph protested that if the I. W. W. were to be had as pointed there could be no use in lying about it—something that is quite obviously true whether the rest of the pamphlet had any truth in it or not.

In the main it consisted of a lurid picture of conditions alleged to exist in the big lumber camps and called for the men organize, and strike. The TIMES has frequently shown from the official statement of the I. W. W. by Vincent St. John, that the order specifically declares that "the question of 'right' and 'wrong' does not concern us."

It has shown from the same source that sabotage is advocated.

It has shown that the organization advises against any contract or agreement with any employer. "There is but one bargain that the I. W. W. will make with the employing class," says St. John, "CONTRACT SURRENDER OF ALL CONTROL OF THE INDUSTRY TO ORGANIZED WORKERS."

The same work shows that "organized workers" in this case means workers organized in the I. W. W. The main form of organization like the Knights of Labor and the craft form of union like those affiliated with the American Federation are alike denounced. True union workers everywhere oppose the I. W. W. organization, which in the words of "Bill" Hayward has "No God, no flag, no country."

"Trade unions," says the official I. W. W. program, "aid the employing class to mislead the workers into the belief that the working classes have interests in common with their employers."

While the declaration in favor of "complete surrender of all control of industry to organized workers," smacks of Socialism, it is but just to the Socialists to say that their party, in its platform, advocates gaining control of the machinery of government by means of the ballot, and that so far as they adhere to this principle and do not resist the enforcement of laws, they are within their constitutional rights. Their parliamentary and economic program described by Vincent St. John smears at all sorts of parliamentary Socialists, whom he classifies with "labor union fakery," as being among the classes to be avoided by the I. W. W.

Therefore the order is against all society and all men.

From the above statement it must be apparent that anyone who would attempt to lie about the I. W. W. would try to "paint the rose" or to "gild refined gold." Its principles speak for themselves.

That grave wrongs have been committed by lumber barons is unquestioned. By force and fraud great areas of timber land have been locked up. But these and violent and brutal action is neither required nor justified on that account. Only a couple of months ago, the much abused United States courts wrested a vast acreage of land from the hands of the Southern Pacific Railroad company and returned it to settlement. Sooner or later timber lands improperly held will be recovered either by suits or by taxing the monopolists until they go. Political action will prove effective if organizations like the I. W. W. do not bring on chaos—and they will not, for the people will not let them.

The lumber men might have organized as part of the American Federation of Labor, as the skilled workers do, or they might have organized as a part of a great and reliable movement. Anarchy never built up an anarchy, any more than it helped anyone else.

of all production and WORK WHEN WE PLEASE! Just one of the many words from that source, read carefully and thoughtfully and comment will be unnecessary.

SHADE TREES ALONG HIGHWAYS AND THROUGHWAYS

Their Value, Their Dangers, and How To Preserve Them Practically Freely.

Do you question the importance of the "fair number" of trees on our main highways and city streets? No? But the conditions prevailing in many cities and towns seem to define a different viewpoint of real estate owners that shade trees, after being cut out, must shift for themselves.

The invention of telephony and telegraph companion lap off limbs or limbs, and they are used to see that the city's interests are conserved? In some parts of the state, these injured are slighted, just as the laying of electric wires and gas mains suffocate the roots with leaking gas in Boise; likewise streets surfaced with waterproof paving, shakas and other materials, cut out provisions for short gas-pipe or other drains—about the base of the trunk, supplying in this way both air, water, and gas, and the result is the kind of all-around country towns is where a careless driver lets his horse bark—the trunks, keeping open areas ripe for infection from bacteria, fungi and insects.

Very few even of the tree-lovers adequately value shade trees. Certain trees are highly prized, but the schools fail to impress the majority of citizens with the facts of value. Slightly shaded increases the acreage of the city, and the benefits are plentiful 50 feet apart, there will be about 200 trees to the mile of street, both sides. None of these trees, except the best, are worth more than \$100.00.

Figured at the minimum replacement value of \$100.00 per tree, the properly planted city streets must have a shade value of (100x200) \$20,000. The total mileage of the streets of Twin Falls is probably over 20 miles, whose proper shade value should not be less than \$60,000. The total mileage of the county, Twin Falls, approximately 100 miles, although some of the section lines have never been invaded by roads. If all these roads were capable of supporting shade trees, the value of the shade would be about \$3,000,000.

In the northern part of the state, where the roads are better, the value of the shade is not less than \$1,000,000. The value of the shade in the more heated areas follows eastern ways of computing the value, and give an idea of real value involved. The thesis of value in shade trees is not admitted, therefore we can study what is a conservative care for valuable trees.

Eastern cities lose as high as eleven per cent of the shade in the year, or \$2,000,000 loss in taxable property or real estate, due to the ravages of European and American insects, especially the spruce sawfly, the pestilence ways described in foregoing paragraphs, or attracted to trees weakened by man's neglect. Percent responsibility for the loss of shade trees is shared by the insect and the man who neglects to protect his trees.

It is suggested that cities must have an eye to their trees before they get on to their feet, and that they are not so beautiful. On the other hand it is suggested that when roads are being made or repaired is the time to attend to trees. The road builders will provide for adding out trees alongside. It is the time to pipe also for county or road commission to plan concrete curbs for better tree protection against the time when the insect hosts advancing from the east and west shall be upon us. Otherwise our trees shall become as feeble and decrepit as in the coastal cities of the United States. Already Denver, Colorado, has been losing its trees in several parts of the city, and everybody knows Denver is far better isolated by water and water mountain chains and dry climate is better better for protection from insect-borne than any valley settlement in Idaho. To save the extent of such consumption or city foresters as in rich eastern cities, because the aforesaid commissioners, those regular spraymen or commission fruit-growers and fruit-growers, and the few trees that need special attention from year to year, so that

our trees may not become a byword to the stranger that is within our gates.

To take the case of Twin Falls, perhaps the most widespread shade-plant in the woody uplands on the plains. This curls the leaves and kills the twigs all winter as unsightly records of haggardness. It is these same leaf curls which drip sticky resin, which is hatched at the principal interior primary markets. This guaranty shall not be dependent upon the action of the president or said board under the first part of this section, but is hereby made absolute. When the president finds that the importation into the United States materially enhances or is likely materially to enhance the liabilities of the United States under guaranties of prices therefor made pursuant to this section, and ascertains what rate of duty, and the then existing rate of duty on wheat and to the value of wheat at the time of importation; would be sufficient to bring the price thereof at which imported up to the price fixed therefor pursuant to the foregoing provisions of this section he shall proclaim such facts, and thereafter there shall be

al of the president, shall prescribe the terms and conditions upon which any such producer shall be entitled to the benefits of such guaranty. The guaranteed prices for the several standard grades of wheat shall be fixed on this act to the first day of July 1919, shall be based upon number one northern or its equivalent at not less than \$1.00 per bushel at the principal interior primary markets. This guaranty shall not be dependent upon the action of the president or said board under the first part of this section, but is hereby made absolute. When the president finds that the importation into the United States materially enhances or is likely materially to enhance the liabilities of the United States under guaranties of prices therefor made pursuant to this section, and ascertains what rate of duty, and the then existing rate of duty on wheat and to the value of wheat at the time of importation; would be sufficient to bring the price thereof at which imported up to the price fixed therefor pursuant to the foregoing provisions of this section he shall proclaim such facts, and thereafter there shall be

levied, collected, and paid upon, when imported, in addition to the then existing rate of duty, the rate of duty so ascertained; but in no case shall any such rate of duty be fixed at an amount which will effect a reduction of the rate of duty upon wheat under any then existing tariff law of the United States. For the purpose of making any guaranteed price effective under this section, or whenever he deems it essential in order to protect the government of the United States against material enhancement of its liabilities arising out of any guaranty under this section, the president is authorized also, in his discretion, to purchase any wheat for which a guaranteed price shall be fixed under this section, and to hold, transport, or store it, or to sell, dispose of, and deliver the same to any citizen of the United States or to any government engaged in war with any country with which the government of the United States is at war or to any other person, or to any agency of the government of the United States. Any money received by the United States or in con-

nection with the sale or disposal of wheat under this section may, in the discretion of the president, be used as a revolving fund for further carrying out the purposes of this section. Any balance of such moneys not used as part of such revolving fund shall be covered into the treasury as miscellaneous receipts.

BARS UP TO GAMBLERS AT ARMY CANTONMENTS

(International News Service)
MEMPHIS, Tenn., Aug. 21.—Craps shooters, card sharks and other nine-fingered gentry are having a hard time breaking into the camps of working men established at United States army cantonments. In examining applicants for jobs pains were taken to look into the character of the men. The examiners in several instances found that the applicant was not a worker, but a gambler. Six professionals from Memphis arrested at the government cantonment at Little Rock. Within an hour after their arrival they had a game "going." They were deported. Other cantonments had the same experience.

In cases of doubtful damage, local horticultural inspector will be sought for sound advice—and other tree experts, technically trained, should lend a hand in safety-first measures for valuable trees.

A few words about the cottonwood-borer or it can greatly hurt such trees after ten years leeway. Of course, a hardwood tree of other type will not doubt take the place of the cottonwood and Lombard which have done so much to give the first delightful shade to city streets but these borer often creep into trees of related species, such as the chinquapin, etc.

State horticultural inspector stands ready to co-operate with the Entomologist and plant pathologist in helping along the needs tree-protection.

A. C. BURHILL,
Entomologist.

Wheat Guaratee Fixed Absolutely

The Measure Shows That Two Dollar Price Is Not Contingent.

The guaranty of two dollars a bushel for next year's crop of wheat, already announced by the president on the action of President Wilson or any board, is shown by the text of the law. Notwithstanding the statements by the president in the printed, a rumor persists to the effect that the sections require simply subsequent action to put them in force.

Section 12. That whenever the president shall find that an emergency exists, requiring stabilization of the production of wheat, and that it is essential that the producers of wheat, shall have the benefits of the guaranty provided within the United States, provided for in this section, he is authorized, from time to time, seasonally and as far in advance of seeding time as practicable, to require the board of food administration to determine and fix and to give public notice of what, under specified conditions, is a reasonable guaranteed price for wheat in order to assure such producers a reasonable profit. Said board shall thereupon fix such guaranteed price for each of the official grades of wheat, and shall publish the same under the United States grain standards act, approved August 11th, 1916. It shall from time to time establish and publish such regulations as it shall deem wise in connection with such guaranteed prices, and in particular governing conditions of delivery and payment therefor, and the price for the several standard grades in the principal primary markets of the United States, including the principal interior primary markets at the principal interior primary markets as the basis. Thereupon, the government of the United States hereby guarantees every producer of wheat produced within the United States, that upon compliance by him with the regulations prescribed, he shall receive for any wheat produced in reliance upon this guaranty within the period, not exceeding eighteen months, prescribed in the notice, a price not less than the guaranteed price therefor as fixed pursuant to this section. In such regulations the board of food administration, subject to the approval

A Standardized Store

You've been reading of standardized automobiles and later of standardized ships and standardized aeroplanes and it's an era of standardizing. Such standardizing means an article of known worth—that is made according to certain specifications of materials that are known to be the best obtainable for the purpose—certain standard parts to be assembled into a standard whole that makes a unit that can be marketed as the best obtainable and yet at a reasonable price. Who ever heard of a standardized store? What would it be? A store where standard merchandise is assembled and sold at standardized prices—that means that the manufacturer first makes a standard article and standardizes the price from coast to coast—you couldn't buy it cheaper in New York than in Twin Falls. Then these standardized articles are brought to you in one large stock-making a really STANDARDIZED STORE. The U. S. Government is going at its business that way for successful war conclusions. Why isn't it the logical conclusion for a big mercantile institution? Here's a list of standardized goods that are a guarantee of honesty in quality and price that are comprised in a standardized store in Twin Falls:

- PHOENIX SILK HOSE
- KAYSER GLOVES & HOSE
- GENEVA KID GLOVES
- GOSSARD CORSETS
- BON TON CORSETS
- PURITAN UNDERMUSLINS
- KLOSTERSILK EMBROID.
- ERY COTTONS
- SUNLIGHT YARNS
- UTZ & DUNN SHOES
- ATHENA UNDERWEAR
- FISK HATS
- WIRTHMOR WAISTS
- ZION LACES
- BUTTERICK PATTERNS
- COLONIAL DRAPERIES
- DEBEVOISE BRASIERRES

These and hundreds of standardized lines of blankets, suits, coats, notions, etc., are comprised in one large stock at BOOTH'S MERCANTILE CO.

"Another Package From Booth's"

Booth Mercantile Co.

LOCAL BREVITIES

Baby Girl Born - A baby girl was born to Mr. and Mrs. Glen Whitney, August 20.

Carnival Next Week - The Bernadi Greater shows a carnival company with many attractions and 300 people will be here all next week.

Mr. Frank Arthur, a well-known citizen of Jefferson, Iowa, with his son, has been spending a week with the former's brother-in-law, Mr. Sam M. Rice.

Says Sheep Banded on Hill - J. C. Cavanaugh, of the Idaho State Sheep and Cattle company for \$4000 allowed for provender to have been eaten by the sheep of the company.

Works For Columbia - Rev. George S. Marr, of Columbia University, of Portland, is here visiting Rev. N. P. Hahn, pastor of St. Edward's Catholic church, and working in the interest of the institution.

Married - At the pastor's study, at the Christian church, Saturday evening at 5:00, Floyd Batters of American Falls, and Miss Susan F. Lewis of King City, Mo. They will reside on a ranch near American Falls.

Weather Fair and Normal - Forecast for week beginning August 19, Rocky Mountain and Plateau Regions: Normal temperature and conditions, with weather, although local showers probable in southern portion of the Rocky Mountains.

Teachers' Institute - County Superintendent, Miss Brittonart Wolfe, gives official notice in another column of the coming of the teachers' institute of Cassia and Twin Falls counties. It will be in session four days, closing on the 7th.

More Exams Held - Joseph Francis Amador, of Chicago, was examined Saturday night by the local examination board and passed. Charles Kollogg, an algebric I. W. W. from Idaho Falls, who was examined today on suspicion, and Elmer H. Hanson and James Willard, of Seattle, were examined yesterday and failed, on physical examination.

Ladies Aid Society - The Ladies Aid society of the Presbyterian church will give a reception at the home of Mrs. W. S. Campbell, 138 Seventh avenue north, Thursday afternoon at 2:30. All the members of the church and congenial friends and friends are most cordially invited to come. Hostesses, Madeline Campbell, Will Johnson and Asher B. Williams.

Home to Europe - Francis Young was in the city Monday evening, Sunday, visiting his parents, Mr. and Mrs. H. J. Young. He is a member of the Second Idaho, and left Monday evening for Europe. When he was here his parents received a letter from Otago, Utah, from his older brother, Lieutenant Young, who was on his way east from Fremont to join his regiment which is "somewhere in France."

Complu Quilty Wed - Mr. and Mrs. H. E. Cutting announced the marriage of their daughter, Volma Henderson Cutting to Howard Lee Gooding at Gooding. The couple were quilty married Wednesday, August 15, by the Rev. Chas. C. Johnson. They will be at home in Gooding on Saturday, August 19, where they will make their future home. The bride is one of Twin Falls' popular young ladies of the younger set. The ceremony was conducted in the children's state bank at Gooding.

Adverted For Hds - The county commissioners in this issue of The Times advertise for bids for the Jarbridge road along the Idaho and Nevada boundary line between the states of Idaho and Nevada, to the junction of the Jarbridge river and the east fork of the Jarbridge river, and from thence up the east fork of the Jarbridge river to a point where the present road crosses the said river in a place which is commonly called the "Hot Hole."

Prices of fruit seemed rather high when the fruit was sold yesterday, and a hundred miles from the Imperial Valley, or from other points not quite so distant. But the rest, particularly the present crop of water-pump product comes into market at a still higher price. The fruit grower has had a hard haul, time in these parts and 8-12 cents a pound for peaches, and 12-15 cents a pound for tomatoes comes pretty nearly being prohibitive for most of us.

The J. W. W. Strike, called for last week, was a real strike, and a disturbance in this city and vicinity, and not a simple epidemic above the surface. There may have been a number of reasons that kinship, a number of which there are probably few persons who will have known or considered. And that is the general condition of "preparation," brought about by our local peace officers, under the direction and leadership of Sheriff Kendall. This has been a series of "pumpkin" few people have known, or thought anything about it. But the fact is nevertheless, that the sheriff of Twin Falls county is now, and for two or three months has been, so situated that a sworn or organized, thoroughly prepared and fully equipped force of men, ready to be called into action at almost any point in the county upon the shortest possible notice. Now, while this was hardly a "strike" in the ordinary sense of the word, you can be sure that any person or persons who were meditating mischief would be better advised accordingly. In addition to all this, there is a well organized company of "home guards" in Buhl, Piler, and all of which would be at the service of the sheriff in case of need.

Women Are Busy - The women of 200 block on Fifth street are making great preparations for their social Thursday evening at 7:30 on the residence of Judge W. A. Babcock. There will be a party to go with the ice cream and cake which they are preparing.

Telling the Time - The Twin Falls Bank and Trust company is putting up a new electrical clock on the corner of the business streets, which is certain to be quite a classy affair when installed. This is an expensive improvement and will add a little to the civilized appearance of the central corners.

Bussell Did Well - J. S. Bussell, of Rogerson, local agent for the National Surety company, was advised yesterday that he is one of the company's leading 200 agents in relative amount of business produced so far this year in all parts of the United States. The company gives cash bonuses to the best agents, and he is a proper and desirable that the public know all the facts in connection with the finances of the festival, the chairman of the committee having them charge read the following statement:

All Quiet - Today, both yesterday and today, at the Farm Bureau, the office of the city clerk and Branch Employment agency, as well as of the city police, developed no disturbance or disquiet in labor circles. The Twin Falls wing was unexcitedly visited some time since that we had with us at least five hundred members of the I. W. W. - This report did not indicate that an attack on the game; and it would now appear less probable than ever.

Exhibit to Go East - C. C. Gignoux, assistant colonization agent of the Union Pacific system, was in Twin Falls yesterday from Omaha, writing the wording of an exhibit to show at Omaha and to the Chicago Live Stock exhibit, which is held in January. Secretary J. H. Stubbs, of the Twin Falls Commercial club, promised to take the matter up and urgently requests anyone who has fine grain or other products, or who has some of them or to telephone the club and they will be brought in for the shows. The exhibits may be used in other shows or on traveling exhibits.

All Well - A personal letter from Mr. Ralph Morse says that the Twin Falls boys in the marine corps are "all in the boat" and that they are under discipline. It also says: "There has been a rumor circulating about Twin Falls that we, or some of us, are having a dance or some other where in a few days. That is a mistake. In the first place, nobody has authority to give a dance or higher authorities in the second place, it is practically certain that none of us will leave within three weeks. But the only thing that indicates a time for departure, for three weeks may not be anywhere near it. It is a bit of leaving and our friends here in Twin Falls which we do not to be known - either outside nor inside."

Edwards "Passes Buck" - Regarding the statement of seed buyers that the figures for white clover seed prices are high, but the grain market is too high, Secretary W. F. Edwards of the bureau said yesterday: "Yes, some of them called me up and talked to me about it. The price, fifty-two cents was quoted by man in good faith. I got it from the government report, Brunkow, during his recent visit here. It was the same price at the same time on alkali and red clover, and on checking up we found that these agreed with our own records. It was all right. We are not getting white clover quotations, but I supposed that as the other prices named in the report are correct, I do not know personally that they were not right, but am assured by seed buyers that they are too high, and that we are to be true."

AN ACTION THAT IS USUALLY VERBAL - ONLY (International News Service) Chardon, O., Aug. 21 - It's a long way to Barcelona, Spain, but it means nothing to fourteen-year-old Herbert Herborn.

Herbert sought to feed a bull a nice, red apple. The bull roared, quick as a flash Herbert grasped the apple and stepped into the air and landed squarely on its back. Roaring and snorting, the bull reared up and stopped and Herbert was projected through the air for a spell and then landed hard. It looked like it was a fight, but Herbert was not hurt, but fought gamely. When the bull charged he rammed his little hands into animal's nostrils and gripped tight. The bull sank to its knees and Herbert, took a chance and raced for the fence, made it, and vaulted lightly over it to safety. Herbert breathlessly explained to the delight of his father. The older Herborn seized a shotgun and killed the bull.

FARMERS TOLL VICES TAKE FOOD TO MARKET (International News Service) CANTON, N. Y., Aug. 21 - Farmers' wives are bringing their produce to the Canton market and allowing their husbands to continue their idleness in the fields. This all of which is the idea of the local women's committee of the Council of National Defense and was brought about by the operation of a municipal weeks of untiring campaigning in the rural districts. It there is an extra rush at market and the committee aid the farmer women in selling their wares.

INDIANA TOWN TO HAVE MUNICIPAL COAL MINE (International News Service) INDIANAPOLIS, Ind., Aug. 21 - Mayor Benjamin Doss proposed to obtain cheap coal for Evansville this winter by the development of a municipal mine. He has taken an option on 640 acres of coal land and if the consent of the Public Service Commission is obtained, the city council will appropriate money with which to develop the mine. The proposed mine would have a capacity of 1,000 tons a day.

Musical Festival People Entertained

The Singers Accepted Invitation of Mr. and Mrs. Butler - Some Business and Much Sociality - A Financial Statement.

The invitation of Mr. and Mrs. Butler for last Friday evening was accepted by a large representation of the singers who participated in the County Musical Festival which was not only the event of last week, but the greatest musical event in the history of the Twin Falls country. The intention had been to hold the meeting on the lawn, for which lights and decorations had been arranged. This is generally a safe proposition at this time of year, but did not prove so in this instance, as just enough rain fell to make the grass wet and drive the company in doors, where it was somewhat crowded but wholly cheerful.

Promising as it was, it was proper and desirable that the public know all the facts in connection with the finances of the festival, the chairman of the committee having them charge read the following statement:

Receipts: August 9th \$465.63, August 10th \$322.12, Music books sold, about \$787.02, Music books sold, about \$4,000, Expenses: Rent on lumber and spoiling \$9.79, Printing and taking \$6.00, Labor, moving chairs from schools, churches and halls \$24.75, Transfer, moving piano and chairs \$43.05, Transfer, lumber \$10.25, Rent, Parish hall \$20.00, Music books and other \$113.11, Music, talent \$105.00, Rent, Moose chairs \$3.50, Public piano \$4.00, Printing, advertising and printing \$214.10, Engravings \$14.90, Postage, Steno, and incidentals \$21.75, Lighting \$45.00, Total \$813.20

Mr. Butler made a short talk with reference to the proposed permanent "East End" building, which was convulsed such a thing was entirely feasible; indeed, that its feasibility was fully demonstrated by the fact that the building was such an organization could profitably give at least two public entertainments annually - one indoors in midwinter, and another each fall, in the order of the Festival. It does not appear that Mr. Butler said this; but it is certain just the same, that if the plan of the county has enough public spirit and interest in music to effect such an organization, they can secure his leadership, if desired.

The "Battle of the Anchors" - At THE OPEUM THIS WEEK As thril latched on thrill-it was just as if one were actually there - a few definite impressions came into the audience's mind.

It was so clear, so close, so tremendously real! A gray tank, filled with soldiers, spitting gasoline fumes driven from a giant motor - you can almost hear the ear-splitting noise of the exhaust as it moves out, like a ponderous ant, toward the enemy line. That was a vivid impression.

A company of Morrians is waiting to go over the line. You can see them, nervously playing with their bayonets - it is the hardest period in the whole day's work, they say, the "Nacht" would say, "That you Men and guns, guns and men, guns, guns, guns. There is an impression that presses deep into the watching hearts of the men.

The guns, the guns! Great massive brutes of steel - they are five feet new, concealed under an artificial covering that hides the airplane scout. It's going into action! Suddenly, raptures are lost. A great shell shall snatched from a pile, on the ground, is shoved into the breach. "All hands back!" "The gun is firing!" "The great gun recoils a dozen feet, a little smoke curling from the reopened breach, a quick wash, another shell, another firing!" Through one's head that silly little nursery jingle is running: "All that goes down to the devil in his fire. What's happen' where those shells are falling?"

Such is the impression of the guns, "There are five feet new, concealed under an artificial covering that hides the airplane scout. It's going into action! Suddenly, raptures are lost. A great shell shall snatched from a pile, on the ground, is shoved into the breach. "All hands back!" "The gun is firing!" "The great gun recoils a dozen feet, a little smoke curling from the reopened breach, a quick wash, another shell, another firing!" Through one's head that silly little nursery jingle is running: "All that goes down to the devil in his fire. What's happen' where those shells are falling?"

which motor trucks of the quartermaster's department can bring supplies from surrounding towns, but the Southern Pacific has beaten this method of transportation by running a belt line entirely around the site of the camp before. As a matter of fact, it can be unloaded directly into quartermaster storerooms without handling.

Between 800 and 900 buildings will be erected. Kitchens and mess rooms will be partially of wood, perhaps noted with canvas. Wooden storerooms also will be erected. The mess halls will be of concrete for the most part, but as Uncle Sam is frankly short of canvas, it is probably that at the last minute rough cantonment buildings will be constructed.

There is a plan on foot to do all the camp cooking with gas. This invention will be watched with much interest, as it has never been used in the army before. As a matter of dollars and cents, it will prove cheaper than wood or coal. Water will be piped through every company range. Since then cantonments will be lighted by electricity. Thousands of acres of rolling country behind the camp will afford a chance for the kind of battle that the army and the guardsmen are going to get, for it is to be a case of hard, intensive training from the moment the first report of cantonments will be lighted by electricity.

The main camp will have its own telegraph, postoffice and telephone exchange. ALIED CATHOLICS IN NUMBER TWICE TERTON (International News Service) NEW YORK, Aug. 21 - Pope Benedict's peace message to the belligerents lends interest to the fact that the Central Powers are outnumbering almost two to one by persons of that faith in allied nations. Roughly, the Central Powers have 55,000,000 Catholics and the Entente Allies 100,000,000. The spiritual leader of about 227,000,000 souls. Catholics living in the principal belligerent countries are divided about as follows: United Kingdom 2,000,000 France 35,000,000 Germany 20,000,000 Austria-Hungary 35,000,000 Belgium 7,000,000 Russian Poland 12,000,000 Canada 3,000,000 United States 17,000,000 Total 171,000,000 From this total allowances must be made for the Catholic of over 100 million in Poland and Belgium, who are not in a position to be belligerents. This is certainly no negligible war. Not only do Catholics and Prot-

estants fight on each side, but Germany's Mohammedan Turkish allies are opposed by millions of those who pray looking toward Mecca, owing political allegiance to Great Britain and Russia, India and the Caucasus and other southern portions of Russia have produced tens of thousands of brave fighters against Prussian atrocity.

WON'T MISS "MADE IN GERMANY" MARK (International News Service) Muncie, Ind., Aug. 21 - American ingenuity has robbed Germany of another of her industries. The famous Hessian clay crucibles, for fifty years a fetish among laboratory workers, are being supplanted by clay crucibles manufactured in this city. Charles Grafton is said to be the inventor and a local factory is making the crucibles, all important in the chemical industry. Thousands of them were imported from Germany every year until the war cut off imports. Since then many inventors have worked to produce a clay compound that equalled the Hessian crucible, and the product of Mr. Grafton is said to be superior.

On the bottom of each crucible is stamped: "Made in the Good Old U. S. A." GIRLS TOLD NOT TO FLIRT WITH SOLDIERS (International News Service) NEW YORK, Aug. 21 - So many girls have allowed soldiers to accost them without the formality of an in-

roduction, according to Dr. Daniel H. Martin, pastor of the Fort Washington Presbyterian church, that he has warned female members of his flock not to flirt with soldiers. "Young women ought to respect the uniform of the nation so much that they will try to help the young man who wears it, preserve his self-respect," said Dr. Martin, in referring to the parks in the neighborhood of his church as "encampments of lovers where all the benches are spread down to the breaking of certain barriers of conventionalities he had observed on the part of young women." FURNITURE FOR SALE Living room furniture, include table, solid oak wardrobe and chest, dining room furniture, buffet, pedestal table, six leather seat chairs, price \$65. ETHEL BARRYMORE—GREATEST OF STARS—AS A DANCE HALL GIRL

"THE WHITE RAVEN" AT IDAHO WEDNESDAY—ONE DAY ONLY

Scenes Reach From the Yukon of Alaska to the Footlights of New York—Plot of Unusual Interest.

Ethel Barrymore consented to wear short skirts for the first time in her career by appearing as an Alaskan dance hall girl in "The White Raven," the magnificent production which will be shown at the Idaho theatre Wednesday only, afternoon and evening.

The story William Baldwin, rufed in business by his partner, John Blaisdell, implores Blaisdell's aid, and receives in answer a five-dollar bill across the street, of which is written, "open this for a gun and use it on yourself." Hopellessly Baldwin and his daughter, Nan, go to the Yukon, where the father soon dies, and the daughter comes living by singing in a rough dance hall, where as "Nightingale Nan," she is the idol of the miners.

Plays the Game When she discovers that the little claim on Bear creek, the only thing her father has left her, is worthless, she at first collapses. Then, rallying her forces, she becomes defiant, and tells the miners who have been forcing their attentions upon her that they may have her, the lucky man to be the winner in a card game, she to take the money won in the game and go away to seek fame and fortune. A bearded stranger wins the game, pays her \$1000 a card, and she goes with him for her cabin. Once there, however, she repents her rash

hazard, and implores him to release her, offering the money in return. He makes her sick at the sight of herself, promising to pay the debt at any time in the future that he may see fit.

Meets Success Nan's beautiful voice wins success for her all over the world. Two of the most important patrons of the opera house, John Blaisdell and James Van Brunt, business rivals who hate each other, are united in the admiration of Miss Baldwin, and obtain an introduction.

When Nan discovers the identity of Blaisdell, the man who ruined her father, she says nothing, but quietly plans his downfall. She uses Van Brunt's emity for Blaisdell in planning revenge for her father, inviting Blaisdell to her apartment to dinner, she arranged that Van Brunt, at his downtown office with the receiver at his ear, hears Blaisdell's answers to the carefully prepared questions Nan asks, betraying all his business secrets. As Blaisdell falls across the table in a drunken stupor, after having told everything, Nan's triumph is complete. It is at this moment that two fateful cards, the deuces with which the Alaskan won his game, are thrust under the door, and Nan falls fainting.

But everything is going to end happily just the same.

Idaho Theatre

Hercules Nitrate Co. Effects Organization

A New Twin Falls Corporation Came into Legal Existence Last Saturday Night By Complete Organization.

Mention has been made of the filing of articles of incorporation of the Hercules Nitrate company, the incorporators of which were all Twin Falls people. The charter issued thereunder was returned from the office of the secretary of state a few days ago, and on Saturday evening a meeting of all stockholders was held for the purpose of organization.

A temporary chairman, Mr. John Sahgor, with D. W. Updegraff as temporary secretary, having been chosen, the by-laws and rules of order were read, and after discussion, were adopted. The election of directors was then held, resulting in the selection of the following: Dr. J. F. Austin of Tacoma, and Messrs O. A. Mathews, John Sawyer, C. L. Lonsley and D. W. Updegraff of Twin Falls.

Immediately upon adjournment of the stockholders, a meeting of the directors was convened, with the same temporary officers. The election of the permanent officers of the corporation was had, resulting as follows: President—John G. Sawyer; vice president, Dr. J. F. Austin; secretary, D. W. Updegraff; treasurer, E. H. Williams. The president and secretary were authorized to rent and open an office in Twin Falls for the headquarters of the company and to procure all necessary books, etc. for the transaction of its business. Authority was also voted for the placing upon the general market of fifty thousand shares of treasury stock.

The deposit of nitrate for the exploitation of which this company has been organized is located on the Snake river in Blaine county, Oregon. It was discovered, as the TIMES is informed, by the Messrs. Mathews whose names appear as directors, and who with others, acquired mineral title to 640 acres, all of which had been transferred to the company. Several Twin Falls parties have been in the game, including Messrs. Brackton, Hardy and the Mathews brothers; but a report on the property from a nitrate engineer who is known to be competent and reliable will be secured, we are told, in the near future.

No Court Martial for the Slackers

May Be Shot As Deserters Without Any Trial If They Fail To Report When Called.

(International News Service) CHICAGO, Aug. 21—Hinton C. Claiborn, chief of the Chicago office of the department of justice, today announced that slackers who failed to appear at cantonments after being called, may be shot as deserters without court martial.

The action of Federal Judge Spear of Georgia yesterday in striking down a law constitutional is gratifying to the officers of the department of justice here. The appeal in Georgia was taken by a Negro who was represented by Thomas E. Watson, who contended the law to be contrary to the Constitutional provision prohibiting involuntary servitude.

Uncle Sam Is in "Big Business"

Vast Extension of Activities of The Government Since The War Began With Germany.

(International News Service) WASHINGTON, Aug. 21—Uncle Sam and "Big Business" are synonymous these days. Since the war started, that is, since the United States "entered," the world has seen the government in affairs, business and otherwise, swinging gradually toward the capital of the country.

The United States is the main "operator" in the biggest business deal the world has ever seen. From London the keyboard which handles the war now has an extension run to Washington, and America has entered the market on a scale which in Wall Street parlance is decidedly "bullish."

Millions in gold, millions in men and millions in supplies, ships and munitions are what America is throwing into the market. Two million must be secured exactly as any trust must secure its capital.

The government has had to combine, organize and grid itself the same way a corporation might on entering a fight to a finish with its fierce rivals. The effect of all this has been to transform the scene of government into one of business—big business.

As an example of what one phase of activity has meant, take the shipbuilding enterprise. The United States has had to enter the market first for steel and other materials. Steel must be secured to build the ships. Then the ships must be fitted out when completed. One detail of this alone again illustrates the enormity of the business. Each ship must have refrigerating plants. Even when the whole plan was still in its infancy, scores of experts in this line were conferring or seeking conference with the idea of efficiently carrying out just this one detail.

And that refrigerating plant—a ship is only one of hundreds of other equally important parts. All of this has led to hundreds of the keenest technical and business men of the country being called in.

Shipbuilding is only one part of the country's business, however. Taking every phase of the government's activity since entering the war and comparing it with the one item of shipbuilding, the layman can get some idea as to just how much a "big business corporation" Uncle Sam has organized.

Slim, Slender, Lined Styles for Fall A Showing of New Fall Modes that Are Very Advanced

As we wend our way into the Fall, along Fashion's Highway, it is a pleasure to watch the bright colors of Summer turning, even as in Nature, to the rich tones which lend such charm to the new season's styles. Note the many clever variations of modes, and the beautiful materials of which they are developed.

The Coats--- are all enveloping, though not too full and have many novel belts, numerous variations of the big protecting collars, and unusual sleeve effects, that makes them simply irresistible. We will show only two big exclusive lines this season.

The Suits--- with their long jackets are quite the prettiest ever. They find so many ways of being different that you may be sure yours will be "individual" expressive of your own type, if you get it here.

The Dresses--- with shoulders squared and waist line defined, vie for popularity with those which choose to drop quite straight from collar to hem. One may choose from ever so many charming styles.

In times of prosperity, save your money; deposit it here

The safe, sane place to put your money is in the bank.

And then, should an opportunity occur for an investment, you have the advantage of our advice in the matter.

Many honestly earned dollars have been lost by worthy people with good intentions, but misguided, by glowing investment propositions that were only chance speculations.
