CANAL CHANGE CREATES WARM CONTROVERSY

CANAL BOARD VIGOROUSLY DENIES IMPUTATIONS ON INTENTIONS

Want Only to See Law Complied With... Members Say They Have Worked for Changes

With a few minor changes, practically all merely verbal, the canal company meeting Tuesday evening voted \$4,313.94 to \$3,515.40 to adopt all the changes proposed by the Twin Falls County Farm Bureau membership under the leadership of Dr. John E. White.

The action of the meeting has created much interest and, while there was nothing but courtesy observed at the laying upon the table, the board members indicated that the course of canal affairs, like true love, doesn't always run smoothly.

Declaring themselves desirous to see no action taken by the canal board which would be a violation of the statutes and which might vitiate their actions in the future, in regard to bond election and the like, the board of directors of the Twin Falls Canal Company yesterday afternoon submitted again to their attorney, Judge J. R. Bothwell, the question of the legality of the action taken by the board in finally passing upon the proposed amendments to the constitution and holding an interview at the same time to the press.

The board in no doing announced that they desired to proceed strictly in accordance with the law and stated that should the attorney find the changes were in his opinion legally made, they would proceed to call the general election for the first Tuesday in December. The other hand should further ratification be necessary and the changes be found not to be in force, they would proceed to call the election at the end of January. They asked that Judge Bothwell proceed as rapidly as he could in full justice to the importance of the subject, but to take no time required to give the subject a thorough review. The decision will probably be handed in in writing this week, perhaps this evening or tomorrow morning.

BOYS AND GIRLS' CLUBS EXHIBIT A SURPRISING SHOWING OF RESULTS

Full Report of Premiums Awarded at the Fine Exhibit Made by the Vocational Clubs of Boys' and Girls' From Our Public Schools.

without depositing the ballot in any ballot box. I have been working for some of these things for several years," said Director C. J. Wurtz, and advocated them in meetings there and elsewhere before the farm bureau was organized, and I favor most of them now, but the board is clothed with the responsibility of seeing that they are done in that way.

"I was on the committee which helped draft the bill, which made the changes possible and do not propose to have it said that I am opposed to these things if legally done. Dr. White knows very well the substance of the call, and made no objection. He knows that we wanted to give the stockholders a chance to consider the specific proposals before they were before they were acted upon. The proposition for separating the secretaryship from the directorate has been up for years and I have always favored it."

"I should like to call your attention to a written report of Engineer Horn regarding the cement proposition on that point which is very clear. Dr. White was mistaken in this matter and might be in legal matters as well. Here is the report:

"Mr. W. O. Taylor, Secretary. "Twin Falls Canal Company. "Twin Falls, Idaho. "Dear Sir: On September 23, 1917, in company with Dr. White of Twin Falls, your son and others, I made an examination of the sand for use in the proposed concrete lining of your main canal north of Rock Creek near the Dross farm and found it satisfactory for the purpose intended and well within the specifications covering such work generally throughout the country. Owing to the fact that the proposed concrete lining is to be only four feet in thickness, and that the quantity is of excellent quality and with crushed lava rock supplementing it, the concrete should be most excellent."

"Proper proportions of materials must be insisted upon, as well as careful mixing and placing and all the work in this case although supervised by inspectors only should be employed. "Very truly yours, "C. P. HORN, "Consulting Engineer."

LIBERTY LOAN OF \$600,000 IS DESIRED

TWIN FALLS COUNTY ASKED TO SUBSCRIBE THAT AMOUNT

Does Not Include the Buhl District

Chairman Finch Has Committees Ready for Work—Farm Bureau Will Do What It Can Under Difficulties.

The state committee of the Liberty Loan wants \$600,000 from Twin Falls county outside of the Buhl Independent district, and the local committee under the leadership of R. J. Finch, is getting down to brass tacks and preparing to make a drive, such as the campaign will be on next week, and the fifty-one members of the larger committee will get to work with a will.

The meeting tonight at the high school auditorium will be for the purpose of discussing food conservation, although the subject of the Liberty Loan will probably receive some notice.

COMMISSIONERS HAVE HARMONIOUS MEETING

The county commissioners yesterday afternoon at their regular district commissioners at Buhl and went over the road plan for the highway. The session was altogether harmonious. The county commissioners made their plans and maps conform to the plans of roads designated in Buhl, so that should the county bonds be voted the district will have a complete system, getting its share of the state money for the state highway and its share to have only bonds.

COAL TAKEN BY THE GOVERNMENT FOR RAILROAD

FIRST STEP TOWARD COM-MANDEERING THE FUEL SUPPLY

Further Steps to be Taken Soon

Roads Must Be Kept Going—the Needs of Consumers Will be Taken Care of Later by the Nation.

(I. N. S. Leased Wire) WASHINGTON, Oct. 11.—The full power of the government was exerted today to solve the coal shortage problem when the first commandeering order was issued.

The fuel needed by the Pennsylvania system must be furnished at the price set by the government. In some instances coal consignments under contract for delivery to other utilities will be interfered with by today's order.

The railroad must be kept running, said the fuel administration in its statement. The department of administration suggests that operators withhold coal from persons and corporations needing it least and that they attend as liberally to supplying the needs of roads other than the Pennsylvania.

The same time the fuel administration gave warning that another order is in preparation that will commandeer coal for all other important railroads of the nation. This will be followed by a third order commandeering fuel for commercial use. The needs of the government will be met first.

Complaints have been registered that the railway companies were confiscating coal at the expense of private consumers. The fuel administration took today's step in order to stop confiscation and place the production of coal for railroads on a systematic basis.

According to the fuel administration announcement this act will limit the price of coal for railroads to a maximum of \$1.75 per ton. It is expected that within two weeks time coal provisions will have been made for the railroads.

PROVINCES ARE IN WAY OF THE GERMAN PEACE

CHANCELLOR DECLARES FOR RETENTION OF ALSACE AND LORRAINE

Peace Delegates Plot His Downfall

Much Suffering From Gold in Berlin—Report of Big Conference Between Central Rulers Received.

(I. N. S. Leased Wire) BERNE, Oct. 11.—A severe obstacle to the early peace negotiations in view of the announcement of the German chancellor that Germany will not relinquish Alsace Lorraine. Diplomats who studied carefully the declaration of Dr. Michaelis in the Reichstag on Tuesday said today that, in their opinion, this in the nearest Germany has yet come to making public any of her peace terms.

With France committed to the restoration of Alsace Lorraine and the German government on record for the retention of these provinces, a deadlock in the peace situation seems inevitable for the time being. A delayed dispatch from Berlin said that the political debate in the Reichstag executive committee would be resumed today.

A movement is reported under way in the Reichstag, backed by a number of deputies, to compel the resignation of Chancellor Michaelis, and relate Prince von Buelow, who formerly held that post.

During proceedings in the Reichstag on Tuesday the delegates were made against President Wilson.

AMSTERDAM, Oct. 11.—Keen suffering has been entailed in Berlin by the government decree that no coal fires in the suburban areas in Germany may be lighted before October 15. Germany is now feeling the first touch of winter weather.

WASHINGTON, Oct. 11.—Official Washington is daily becoming more confident of assistance in the winning of the peace. The interest in the German empire. Members of the president's cabinet and other high officials who are kept informed of the news of the German situation, the American capital through diplomatic and secret service channels say that a new movement is being felt within the central powers which is steadily gaining in strength.

The new element in the war situation is the German revolution. The movement. It springs from the people of Bavaria, Hungary and the other lesser provinces and minor kingdoms in the southeastern part of the Pan-German domain. Considerable reliance is being placed upon it to gather sufficient strength to embark upon the Russian military party.

A Geneva dispatch received yesterday said that a conference regarding the peace conference has been called in Berlin and would be attended by the monarchs and cabinets of Germany, Austria, Bulgaria and Turkey.

KIMBERLY, IDAHO

O.G. are on their way to Kimberly, from Watertown, S. D. The last letter received from them by Mr. Ogg's sister, Mrs. Noah Swearingin of Kimberly, was dated from Nebraska. They are making the trip by automobile. Seven years ago Mr. Ogg made a visit to Kimberly and looked over the Twin Falls tract, becoming so infatuated with the prospects of the country, that he declared that as soon as he could sell his farm in South Dakota he would come to Kimberly and make his permanent home here. True to his word, after seven years, he has sold his farm and is coming to live on the Twin Falls tract. He will purchase or rent as soon as he arrives. Frank Swearingin requests public notice to the effect that he has purchased some cheese and a supply of traps for the trapping season. He hopes to accumulate enough fur to make a nice colored coat. Mrs. George Bremer is staying with her mother, Mrs. I. W. Eubanks this week. Mr. Eubanks is away attending to some recently purchased sheep. O. G. Zuck left Monday night for American Falls on business. He will be gone for several days. Mrs. Elsie Ferguson is being constructed at the village blacksmith shop. The schools are enjoying the largest enrollment in their history, and still more are being expected to enroll, following the harvest season. A. D. Felton left the first of this week for the mountains to hunt bears. He expects to be gone for a couple of weeks if the bear is not luckier than he. Naomi Wright scalded her arm severely last Monday night, when she accidentally tipped over a kettle of boiling water. Miss Elsie Ferguson is planning on a trip to Buhl for the week-end to visit with some old friends from her home town in Oregon. We are convinced that Kimberly needs some new homes. The families are here and their children are in the schools, but they are having no room to find house room. It is unusual for a town to get too large to hold its people. But such is the case with Kimberly and we some folks can't afford to lose.

The Kimberly Advance

Published Every Thursday as a Department of The Twice-A-Week Twin Falls Times V. G. Backman, Editor

It is interesting to note the fact that the twenty thousand airplanes provided for in the \$400,000,000 aviation bill passed by Congress last July are actually being constructed. Authorities here are practically agreed that the airplane is one of the most essential machines of modern warfare.

According to Secretary Baker, the airplane of the United States will provide the eyes of our army, and the crafts are being constructed upon every practical scientific basis provided by present day knowledge in the art of building and operating a craft of the air.

With construction and provision of the airplane in so large a quantity, comes also the demand for men to man them. Thousands of young men have already responded to this call of the high places and over twenty-four schools are in operation for the purpose of training and equipping the young man with sufficient knowledge of the science of flying to make them highly useful in that near future when the utmost of their nerve and ability will be put to the severest test.

wild and resources for his orders in case of emergency, and exit the danger. Aerial warfare from the present hour is much different from the warfare of three or four years ago. At the beginning of the war in Europe the airplane was quite a distinct, and also a new and revolutionary factor in the battle as compared with its present place. It is certainly less extinct now, even if it is more distinct than ever.

The result of the system thus adopted, was a more efficient and a more organized force for using the airplane. A system of observation it was, conducted upon the old (and not so old either) disciplinary idea of counter plans for obediencing a command from the superior officers. The observer was sent upon his flight and route at a certain hour each day, with orders to return at a certain hour, and come what would, he who flew must fly his route and ascend and descend at his given hour, though that might mean the destruction of his own life.

The result of the system thus adopted, was a more efficient and a more organized force for using the airplane. A system of observation it was, conducted upon the old (and not so old either) disciplinary idea of counter plans for obediencing a command from the superior officers. The observer was sent upon his flight and route at a certain hour each day, with orders to return at a certain hour, and come what would, he who flew must fly his route and ascend and descend at his given hour, though that might mean the destruction of his own life.

Today the airplane leaves at no given hour, no regular period of departure, to be celebrated by the enemy with the same regularity and with the same ambition to bring him to earth. Nor is there a regular route, or a given period for his return. He rather, upon the advice and consultation of his superior officers, on his heavenly journey and come what will he must meet them as best he can. But he has this advantage, there is no order to obey but his own, whether that come from wit, experience, or intuition.

It troublesome conditions arise, and he finds himself being overpowered by the enemy, if he meets them unawares passing through a clouded heaven, he is in his own general and orders his retreat, or change, which over the case may be, and you can depend upon it, it will be a charge if there is the faintest hope for a victory, and sometimes when there is none.

The airplane is the machine of modern warfare that stands out as the supreme and preeminent and protector of every other master of war. With the machine supreme, and that machine manned by the best men, the most reliable men, the country can produce, every one a general, we can readily see the place that the air holds in our present and future, and the advent of democracy and human rights.

We are glad for these words of our secretary. There is practically no limit to the number of aerial fighters which the United States can and will furnish in the war for democracy.

The Kimberly Advance is starting out in its work with Kimberly at heart. One good turn deserves another, and it stands to reason, that if the Advance is here to support Kimberly and to do its bit to make Kimberly grow into a larger and more prosperous town, that the folks of Kimberly are able to support the Advance and unite to make it a greater asset to the community. Church Notes

Methodist Episcopal Rev. A. W. James, pastor. Services for Sunday, October 14, 10 a. m. Sunday school session, J. E. Hafferty, superintendent.

Methodist Episcopal Rev. A. W. James, pastor. Services for Sunday, October 14, 10 a. m. Sunday school session, J. E. Hafferty, superintendent. There will be no morning sermon on account of the dedication of the M. E. church at Twin Falls. The congregations will attend the service and enjoy the opportunity of hearing Bishop Matt. Hughes of Portland. 6:30 p. m. Epworth League, topic, "Country Boy." Crowded. Citizen Leader, Jay Scott.

school, and an excellent program is being prepared entitled, "Flags of Freedom." At the same time the pastor hopes to give a stirring address on "The Flag," and the evening we fall in with the protestant work in celebrating the life and work of Martin Luther. A great lecture will be given on Luther and the Reformation. Keep the date in mind, October 21.

The first quarterly meeting will be held Wednesday evening, October 11, at the District Superintendent's, Edgar Kaker will be with us.

Church of Christ V. G. Backman, minister. Bear in mind the announcements for our services together next Lord's Day. Our Bible school has been completely at 10:00 a. m. under the excellent supervision of A. M. Walker. All the classes are provided with excellent and expanded textbooks. It is the place where you and your children can learn concerning the Kingdom of God.

Follow the morning services of the Bible school will come the regular communion services. Remember the psychology of forgiveness. It is the psychology of condemnation. This sermon will be supplemented the following Sunday by a sermon on "Jesus and the psychology of forgiveness." We feel assured that these sermons will be worth your while. We invite you to be present and to unite with us in our praise.

In the evening the Christian Endeavor society will begin its services at 8:45 sharp. V. G. Backman will lead. Come out to the young people's services.

The evening worship will commence at 8:00. The evening subject will be "The Seven Abominations Into Jehu." The minister wishes to extend his cordial invitation to the kind and courteous presence last Sunday evening for the sermon on "The Law of Inertia." He considers it unfortunate indeed that he was not able to give justice to such a splendid audience, because of an acute illness overtaking him while in the pulpit. You are cordially invited to return for the sermon Sunday night.

There will be a meeting of the official board of the church, Sunday morning following the morning services. This will be a very important meeting and it is hoped that all the members of the church will make it a point to be present.

Choice practice every Friday night. Your attendance at the choir practice is especially requested. This is an important feature of our church work.

The Young Men's class held their regular monthly class dinner and business meeting last Sunday. Our church is growing rapidly in all departments and interest is increasing.

We are looking forward with great expectations to the coming and the service of the Organ-Moll Evangelistic company in January. There are many in the vicinity who should identify themselves with our work, having been members of an organization else where and now making Kimberly their home.

Mormon Church Services as announced at the usual hours. Bear in mind the week-day announcements.

LOCAL SCHOOLS ORGANIZING SCHOOL RED CROSS

Intelligent Cooperation of the Parents Sought

According to the proclamation recently issued by President Wilson the schools of this country have been conducting a campaign for membership in the School Red Cross society. This is a separate organization from the town Red Cross society. In all work is done by the children.

The plans provided for packing of Christmas boxes for the soldiers, and the making of tin can liners which are used by the soldiers in the trenches. A membership fee from every pupil is necessary before this organization may be established. There is a great deal of work which can be done by the child, but unless every child is a member, no society can be formed.

Woman Instructs Student Aviators

(International News Service) SANDUSKY, Oct. 11.—Mrs. Alys McKay Bryant is the only woman in Ohio who is training aviators for possible war service. Mrs. Bryant, an exhibition flyer and the widow of Captain Bryant, an aviator who was killed during a flight four years ago, accepted a position as tutor in the school established here by Tom Bond for training aviators. Bond died a few months ago and Mrs. Bryant took charge of the school. She has volunteered her services for war, but will not be summoned unless an "emergency" arises.

U. S. German Paper Quits During War

(International News Service) YOUNGSTOWN, Oct. 11.—Although there was no official complaint against the paper, William F. Maag, for nearly fifty years owner and publisher of the Rundschau, a German language paper, has voluntarily discontinued its publication during the war. Mr. Maag also is owner and publisher of the Youngstown Vindicator. Mr. Maag's action, it is believed, sets a precedent in this country. Giving up the publication was a personal act and not a relinquishment of financial income. There was no lack of public confidence in the Rundschau.

GOOD ROADS ASSURED

It certainly seems as if the road bond situation has become such as to insure an affirmative vote upon the question of a county issue.

There is today no necessity to recapitulate the economic and practical advantages of good roads.

TOBACCO FOR SOLDIER BOYS

In consonance with its theory that both sides of any public question are entitled to a hearing, the TIMES published in its issue that Sunday a strong and well written protest against the selling of tobacco to our soldiers.

The TIMES is compelled, nevertheless, to differ diametrically from Mr. Ferguson's contention that tobacco should not only be excluded from sale to the army, but that it should not even be supplied by loving friends at home.

LA FOLLETTE'S SPEECH

The Wisconsin senator in his attack in the senate on the war policy of the United States, deftly assailed congress for alleged failure to exert its constitutional powers.

who does things it has already been necessary to allude. The gentleman who was placed upon it were selected, partly of course, for political reasons.

As a sample of false representation the following regarding the "part of Paris" is a "peach." "No one thing has been done more to solidify the resolution of the central powers than the adoption by the Paris conference of its policy of trade preferences to be made effective after the war."

How far the Pan-Germanist element predominated in Germany may be seen by the report of the great Li-Lion professor, Friedrich Naumann, a translation of which is now to be found in "The Twin Falls Tribune."

The reason why LaFollette wants congress to interfere in the management of the war against Germany, is because such interference would seriously cripple the management of the war which he obviously wants to fail.

Early during the civil war, congress in the plenitude of its knowledge of the technique of warfare created a committee on the conduct of war.

It was in the famous 1861 that congress created the Fenwick committee on the conduct of war, to some of

whose doing it has already been necessary to allude. The gentleman who was placed upon it were selected, partly of course, for political reasons.

Taking into consideration the disastrous effect of the activities of this sort of committee, President Woodrow Wilson wisely frowned upon the idea that he should delegate any of the powers conferred on him by the constitution to a sort of committee.

FEW MARKETS ARE REPORTED FOR TODAY

The bull game again interfered with the market report today. New York stocks were reported lower. The stock yards report from Chicago was the only complete one.

Grain - Receipts 13,000; steady; native and western \$9.10@13.00; Omaha, \$13.50@13.75.

Cattle - receipts, 12,000; market in steady and amide lower. Beaves \$7.20 @7.75; cows and heifers \$6.15@7.12.

LOCAL BREWITTS

Phases—
The Mrs. W. H. Hough is reported dangerously ill at the home of her parents, Mr. and Mrs. D. H. Peck, Eighth avenue east.
Food Sale—The Baptist ladies will have a cooked food sale at Club's room from 12:30 to 6 o'clock p. m. on next Saturday, October 13.
The Patch of Red Clover raised by Mr. C. W. Wood, six miles southwest of Hills City, Gwydion 17, English 06, next week, at a sale of the tract averaged 3/4 bushels, or \$25.25 per acre.
Charged With Theft—Deputy Sheriff John M. Beck this week arrested Fred Williams, of Shrewsbury, La., at Buhl, on a federal charge, which alleges that three years ago he stole certain goods in course of shipment through interstate commerce.
Open For Business—The Young Hardware company will open next Friday at the first National bank, on Main street with a complete line of self hardware, and a complete line of hardware. The stock is new and complete.

May Go To Long Island—There is some talk among the boys of the Second Idaho that they may go to Long Island for artillery drill. Private letters from some of the members say that they do not have proper grounds for artillery practice at Charlottesville.
Changes Residence—Professor A. C. Durill, extension department lecturer, has moved his residence and working headquarters to 235 Blue Lakes boulevard. His telephone is 958 w at his new home. Professor Durill is making a systematic study of insect pests and has made many valuable discoveries since beginning his work.
Stray Bicycle In Custody—The sheriff's office has an unclaimed bicycle picked up Sunday at the corner of Seventh avenue and Washington street. It is thought that it may have been ridden by a "joyrider" to that place and left, where it remained for twenty-four hours. Anyone who describes the wheel and proves ownership can have it.

Photographer Here—Professor Phillips, the government bee man is here from Washington meeting the wing owners today. Professor Phillips is one of the nation's best leaders to the beekeeper through the dissemination of knowledge regarding the preservation of the useful little insects. The immense importance of bee preservation as a means of furnishing war food supplies is emphasized.
Ready To Get Ready—The Knights of Pythias lodge of this city at its last meeting took preliminary steps toward getting ready to help home state meeting next June. Ten years previously, in June 1908, the order was re-organized here. A committee consisting of C. Graydon, D. H. Hovey, Cook, F. W. Bronaugh, W. A. Minnick and W. E. Nixon were appointed to take care of the preliminary preparations.
Reconsidered—Although the school board at the meeting Monday night decided not to temporarily suspend the high school in order that the pupils might work in the fields and orchards, the pressure for help home state meeting next Tuesday night another meeting was held and a two weeks interregnum declared. The same course has been followed in either northern Idaho towns and cities, and it seems to be entirely warranted by the needs of the hour. It is thought that about fifty per cent of the school working force thus liberated are already on duty, including corps of teachers. Even the director of household economy has been offered a position to cook for a three-hour outfit—which certainly raises the presumption that Miss Young's military organization has been practised as well as theoretical.

We are now selling trimmed hats at a great reduction.
The Fashion Shop

New Studio—Miss Zelma Lamore announces that she has opened a studio for piano and theory at 131 Fourth avenue north. Phone 316 w.

Grain Moving—Over representations by Mr. Hoover, made last week by agents telegraphing, advice and assistance of Senator Borah, has resulted in decided improvement of the situation as to shipment of grain. Quite a number of cars have already been sent forward and the prospect for a continued supply of empties seems good.

Great Sale Held—Conducted by E. O. Walters of Buhl and R. H. Clayton of Jerome, and attended by the highest number of cars here already, the sale of the car of Saturday at the Sale Barn of C. A. McMaster, in which some record prices were paid for horses belonging to Mr. McMaster. From \$410 to \$750 were paid for teams and the twenty-five head averaged \$250 apiece.

Suicide Is Verdict—The testimony before the coroner's jury at the undertaking parlors of Coroner yesterday afternoon elicited nothing important that was not contained in the story of the death of Jack Dunn, Tuesday, at a table in the cafe here. The jury returned a verdict that he died from self-inflicted wounds. The funeral is being held this afternoon from 7 to 9 o'clock under the auspices of the Masonic lodge. Mr. Dunn was fifty-seven years old.

Settled For Notes—H. A. McLane was arrested this week. McLane was on request of the sheriff's office on the issue of passing phony notes on E. B. Williams and J. Stuchlik. McLane was also arrested on charges from other places—once for alleged violation of the draft law and once for alleged forgery. He sent the money for the notes signed here, and the cases were dismissed as he had other troubles of his own.

Charles Carson Dead—After a long, lingering illness, Charles Carson, a well known resident and transfer man of Twin Falls, died in Buhl hospital, where he was "taking treatment" for tuberculosis, Tuesday, October 9, in Los Angeles, California, February 20, 1876 and died October 4, 1917. He leaves a wife and four children, two girls being sent before the funeral was held from the home at 14 Lincoln avenue, October 5, burial being made in Twin Falls cemetery.

Postage Goes Up—The rate of postage on first class mail goes up to three cents on November 1. Proposals will thereafter be two cents and will also cards and private mailing cards. The postal department was notified that in view of the fact that many packages to the boys "somewhere in France," it will be necessary to mail them by November 16. It marked Xmas packages they will be delivered Christmas morning. The soldiers, marines, etc., in service abroad can now mail letters free.

Wanted More Men—Sheriff Kendall last week received a telegram from Adjutant General Moody asking about the possibility of sending more men from this county. The telegram did not directly request that Twin Falls advance men ahead of its quota and it was felt here that so many have volunteered since the last call, that the county had done its full share. The state is thirty days short and where possible the department wants to fill up by having counties advance some men before their time. This county has done its full share.

Castleford Red Cross—Twenty-one ladies of the Evergreen's club of Castleford met with Mrs. A. K. Scavort, Tuesday, October 9 and enjoyed a delightful luncheon and a talk on Red Cross work by Miss M. E. Hamilton, our former Red Cross secretary. Miss Hamilton's talk met a real need as Castleford is quite a distance from Red Cross headquarters, and so has not heard many speakers on the subject. She handled the subject very thoroughly, bringing out especially the wonderfully interesting and touching work American Red Cross is doing in the rehabilitating of the French nation, resurrecting the abandoned farms to farm for food for them, and saving the babies and children for the future France.

Visitors in Twin Falls in the persons of Messrs. M. F. Albert and Ben Strobben, were also welcome callers at the TIMES office yesterday. They are visitors from a property, owners in this vicinity, are from Payette, a section which they are convinced is second only to that of Twin Falls.

Having had his dwelling southeast of Hollister destroyed by fire a short time ago, Mr. C. M. Ghion feels like returning the thanks to the Equitable Insurance company, from whom he received through the local agent, D. M. Denton, the thousand dollar insurance in full promptly and without controversy.

Informal Reception—An informal reception will take place at the Music and Art Studio, over the Salladay Hardware store, on Friday afternoon, October 12, at 2 o'clock. There will be no invitations sent out but all who are interested in music and art are cordially invited. An informal program will be given during the afternoon, and there will be an exhibition of paintings and fancy baskets. The hostesses will be Mrs. Misses Anna Johnson, Marion Ector and Helene Altmeppen.

Football Friday—Twin Falls high school will play the first hard football game of the season with Buhl at high school at 3:30 p. m. A good attendance is looked for from the audience. They will leave on the school bus and return in the evening at 5:30. It is anticipated that a number of spectators will be present to see Buhl. The local team intends to win the game. Each year the games between the two towns are the hardest fought. This year the following will make the trip: Fix, Van Tassel, Perobson, Bulloy, Thomatz, Carter, L. Strong, Neumann, Lavender, and Davis and in addition several others.

For Colored Troops—Captain J. M. Wadsworth of this city this week making a final tour before entering active service as a major, after a most successful experience in conducting drilling. From one of the lowest departments in the country he has raised the Salt Lake recruiting division to the third highest in the United States. He will be succeeded by Lieutenant Hill, retired, formerly of the Philippine service. The local recruiting office will be busy with the raising of a regiment of Negroes, who will enter the stoveholder service. Sergeant McLeod and his assistants are therefore busy with the well as recruiting men for the regular lines of military activity.

CHURCHES

St. Edward's Catholic
Communion at the city this week correct. Rev. P. P. Hahn, rector. Sunday masses at 8:00 and 10:30 a. m. Evening services at 7:30, 9:00 and weekday mass at 8:00 o'clock a. m.

Christian Church
Rev. A. J. Adams, of the Christian church at Buhl, will occupy our pulpit next Lord's Day morning. We would urge our people to greet Brother Adams with a large congregation at the Bible school and also at the services at 11 o'clock.
There will be no services at our church in the evening. This will give our members an opportunity to attend the dedicatory services at the Methodist church.

First Church of Christ Scientist
Sunday services 11 a. m.
Subject of sermon October 14: "Are Sin, Disease and Death Real?"
Sunday school at 10 a. m.
Wednesday evening meetings at which testimonies of Christian Science healings are given, begin at 8 o'clock. A free reading room where Christian Science literature may be read or purchased, is open between the hours of 2:30 and 5:30 p. m. on Thursdays, except Sundays and holidays. In the church, located at 230 Third avenue east.

Baptist Church
9:45 a. m. Sunday school.
11 a. m. sermon, "The Ideal Church, the Master's Conception of His Characteristics."
6:30 p. m. The B. V. P. U.
7:30 p. m. sermon, "A Perfect Man and His Religion."
Monday evening at 7:30 to 9:10—2nd avenue north we have the Teachers' Training class led by the pastor.
Wednesday evening at 7:30 in the church annex prayer and Bible study. A cordial invitation is extended to every one to attend any or all of these services. We promise you a cordial welcome, friendliness and a helpful service if you come.

LITTLE MAE MARSH STARS IN "POLLY OF THE CIRCUS"
"Polly of the Circus" is a delightful photoplay taken from the play of the same name by Margaret Mayo, and starring the "girl of a thousand faces," Mae Marsh.

A fine star and a real story—a combination that is hard to beat. Add to it a production ranking with the most artistic ever seen on the stage. This is a sure-fire winner. The pathetic little story of the girl born to the life of the big tops, who falls in love with a minister, is a more touching work. The girl is injured while doing her barback riding act. It is probably well known to most people.
Mae Marsh has the role of Polly. One can think of no screen actress better fitted for the part.
Of course you have seen the play "Polly of the Circus." It has been shown all over the country. The story of the girl barback rider who knows no life but that of the circus until she enters the home of a young minister to recuperate from a fall, made a big success on the stage because it has all the elements of appeal. Of course, Polly falls in love with the minister and he defies doctors and other things to marry her. Moving pictures permit of a more spectacular production than the limitations of the stage. The horse races scene in the film in which Polly's old circus mount vanquishes the doctor's

mare is about the most thrilling witnessed by fans hereabouts.
Although it is an elaborate production, excellently acted, will be shown at the Orpheum Thursday and Friday.

Red Cross Busy on Xmas Gifts

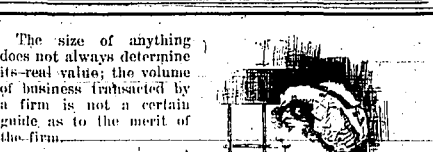

Large Attendance Hoped For At Election On Saturday—Other News Of The Society.

It is the intention of the local Red Cross to send a Christmas gift to each soldier who has gone from Twin Falls or vicinity. In order to reach all these boys, it is necessary for us to request parents or friends of boys who have enlisted in other branches of the service than company D, the headquarters of the local Red Cross. Please send in these names as soon as possible; otherwise we will be unable to send Christmas boxes to the boys in these branches. Donations to the Christmas fund will be appreciated.

As announced last week, the annual election of the Twin Falls chapter will be held on Saturday afternoon at the high school at 3:30 p. m. A good attendance is looked for from the audience. They will leave on the school bus and return in the evening at 5:30. It is anticipated that a number of spectators will be present to see Buhl. The local team intends to win the game. Each year the games between the two towns are the hardest fought. This year the following will make the trip: Fix, Van Tassel, Perobson, Bulloy, Thomatz, Carter, L. Strong, Neumann, Lavender, and Davis and in addition several others.

The New Red Cross headquarters in the Bangh block is very attractive and adequate, and the board is very grateful to Mr. Keel for the donation of this splendid office room. The headquarters opened daily from two to four p. m. and the secretary will welcome any one who wishes information about the Red Cross work, generally or locally. Membership fees and donations who will be received gladly.

In addition, the board desires to thank the following persons for kind donations: Mr. P. H. Smith for a desk and chair; Mrs. H. W. Wilson for curtains; Twin Falls Floral company for ferns; Tom Con't Store for vases; Stuart Taylor for typewriter; and Mrs. Peavey for screen; Mrs. E. J. Drander for a large rug.
Those who have subscribed for the Red Cross magazine and have failed to receive their numbers as yet are asked to be as patient as possible. The publishing company has been literally swamped with orders, and it will take some weeks to adjust their plant to the big increase. They assure us that every subscriber will be reached as soon as possible.
The sewing room is still in the high school basement, under supervision of Mrs. Edwards. Four boxes of hospital supplies have been shipped this week as a result of the faithfulness of the women who have gone there to sew during the summer months.
Now that the canning season is

The size of anything does not always determine its real value; the volume of business transacted by a firm is not a certain guide as to the merit of the firm.
And of course this statement applies to studios. The volume of business handled by any studio is not the only test by which that studio should be measured.
We can state, without fear of successful contradiction, that we have the largest portrait business in this section of Idaho but we do not ask to be judged by this fact alone. We are far more proud of the quality of our work than we are of the ever-growing amount of our business.
And yet, though quality rather than quantity of business is our aim, there is a significance in the large volume of business that we do. We started work in Twin Falls in a tent, without capital—with just \$20 to be exact—and the fact that our studio is now one of the largest in Idaho, in point of volume of business, should probably count something in our favor.

Bisbee portraits - individual in style and unusual in excellence.

For the large studio not only has met and managed all the problems that confront the smaller studio but it has solved many others as well. Then, too, the size of our business is proof of the confidence of many people—not merely a few—and the corner-stone of this confidence is laid upon the sure foundation of Quality First.

The Bisbee Studio

who just returned from Europe after long study of tire conditions abroad, in some countries tires are not to be had at all, except at a fabulous price and only after a dozen or two high government officials have had one on the witness stand for weeks, literally spending gasoline in worth more than champagne and is obtainable only with government consent, and nine-tenths of the automobiles are not running.
SEE the enormous crop of growing corn, the mountainous stacks of hay and bulging bins of grain, in the famous Wilder community before you buy. We have the bargain. Hudson is Electric Wilder, Idaho.

KAISER BILLY'S IS ONLY CAR WITH PNEUMATICS
The only automobile in Germany running on pneumatic tires is Kaiser Wilhelm's. Even the Crown Prince is denied this luxury. Along with von Hindenburg, Ludendorff, von Mackensen and the other diadems in the German crown, the crown prince bumps along to the front on tires filled with rags, compressed cork and paper. These observations form but a small part of the anthology of facts gathered by Victor Van der Linden, special technical representative of the B. F. Goodrich Rubber company of Akron, Ohio, who just returned from Europe after long study of tire conditions abroad, in some countries tires are not to be had at all, except at a fabulous price and only after a dozen or two high government officials have had one on the witness stand for weeks, literally spending gasoline in worth more than champagne and is obtainable only with government consent, and nine-tenths of the automobiles are not running.
Sewing machines sold, rented and repaired—Singer Sewing Machine Co.

A SPECIAL INVITATION

The Greater Idaho Department Store sends a special invitation to all men to see our display of the

Famous NETTLETON SHOES Best For Men

This display is in our east window in the Men's wear Department and shows the construction, the skill required and every piece of material necessary to make a high grade shoe. It will be of interest to every one but will prove doubly interesting to those wearing Nettleton Shoes.
Any information that you may want concerning the construction or making of these shoes will be cheerfully given by our salesmen.
This display will be in our windows Friday, Saturday and Sunday.
THE GREATER IDAHO DEPARTMENT STORE

Where Years Mean Money

Farm machinery wears out soon even with the best of care. You don't care to replace it any sooner than is absolutely necessary, for it represents a big outlay of money.

The one best way to get all the good out of your machines is to provide plenty of shelter for them. The first cost of a suitable shed is a small item and the saving is worth while.

Whether you need a new shed or just an addition, build now and add years to the life of your equipment.

The quicker you get your shed started, the quicker it will start saving you money.

and nothing is of more value educationally when they can be conducted properly. The fair board deserves special praise for giving a chance to the agricultural students and for entering the contest next year, which will doubtless be much larger.

Knitters for Red Cross Work Needed

Boys Have Only Cotton Socks in the Tranches and the Weather Will Soon Be Cold.

Somewhere in France are thousands of American boys who will shortly be joined by thousands more fighting for their country. These boys are in need of warm socks, for according to the unanimous verdict of the American people, in matters pertaining to courage, but there are boys in that range of warfare who suffer from chilly feet.

In order that the soldier boys may not involuntarily fall into the conditions attributed to the ones, removed Jerry Simpson, who Vic Starbuck called "The Sociable Sociator of Medicine Lodge." It will be necessary for you to knit and to give your yarn in addition to sending epistles to warm the hearts of their husbands and sweethearts, to also send some "gravy" and "gravy covering" (Fribbles). The story of love and devotion—affection isn't the only yarn that will count; the yarn made up into nice, warm knits will have its effect, and will be an effective part of good faith.

The old story about reaching the heart of a man through his stomach is all right enough, but in these days of long range warfare, other strategy is necessary on occasion, and a move a la via-Pedal goes inside his works—infallibly and makes him capitulate promptly. No American will have his heart in his mouth, but he may have it in his feet.

The point to this story is that the Twin Falls chapter of the Red Cross association has a lot of fine yarn on hand, but the boys in the trenches and some out of the trenches are wearing cotton socks, that if the women of this city realize the necessity, they will rise to the occasion, and that the managers of the association desire they should understand the necessity.

The rooms in the high school building are always available.

INCREASE IN MUTTONS IS PLAN OF ENGINEERS

(International News Service) ST. LOUIS, Mo., Oct. 8.—Increasing country production of sulphur will be 2,000,000 tons, which can be made possible chiefly through the greater production of pyrites in this country, will be one of the principal war services of the American Institute of Mining Engineers, according to plans discussed at the second day's session of the institute, which is in convention here, and the war service is being a prime requisite in the making of muttons, is important as a fertilizer ingredient and to the chemical industry.

Government authorities at Washington have informed the institute that 6,500,000 tons of sulphuric acid were produced in this country last year, and in order to prosecute the war without handicap, in this country it is necessary to increase this production to 9,000,000 tons, during 1917.—The principal pyrites mines are now located in Virginia, California and New York, but on account of transportation difficulties the California deposit is almost unavailable. Last year 40 per cent of the sulphuric acid produced came from pyrites shipped from Spain, 5 per cent from Canada, 12 per cent from domestic pyrites, 22 per cent from smelter acid and 19 per cent from native supply.

The country's pyrites supply is said by the mining engineers to be only second in importance to increasing the supply of manganese ores for the American steel industry. The conservation of this mineral and methods to increase production are also considered by the institute.

ELECTRICITY IS FACTOR IN RURAL PREPAREDNESS

One of the big difficulties experienced by the American farmers is the frequent shortage of labor, and for this reason his greatest need lies in the utilization of every possible labor saving device. Undoubtedly electricity is the greatest single labor saving agency that the farmer can use. Electricity power can be made to do a great

time taken for a piece of work and release the operator sooner for other work, and in all cases it, at least, saves effort for work where power cannot be used. The use of electric light will save time as follows: First, it will make it possible to use every daylight hour for field work, doing the necessary inside work by electric light. Second, it will reduce the time necessary for doing the chores by one half, as compared with the time required when lanterns are used. Third, it will save the time formerly taken to clean and fill coal-oil lamps and lanterns.

IDAHO STATE BANK Twin Falls Idaho CAPITAL \$50,000.00 SERVICE THAT SATISFIES

TWIN FALLS BANK & TRUST COMPANY YOU OWE YOURSELF MONEY --not perhaps to the youth you are today--but to that older person you'll soon be when "just a little capital," so greatly needed to turn opportunity into fortune will, no doubt, measure the difference between ultimate success and failure. NOTICE TO WHOM THIS MAY CONCERN: I hereby make affidavit that on Friday, September 28th, I drove a BRISCOE Model 4-24 five-passenger car to Boise making a total of 144 miles on a trifle under six gallons of gas, averaging better than 24 miles to the gallon. Returning Sunday, September 30th, by another route, making a total of 146 miles, by actual and exact measurement, I used 5 and 3-4 gallons of gas making an average of 25.4 miles to the gallon. (Signed) E. B. RIPLEY. (Signed) C. W. CASE, Notary Public, Residing at Filer, Idaho. My commission expires April 28th, 1919.

Boy's Judging Contest Was a Great Success

Many Entered From All the Towns in the County, and From Jerome, List of Prizes.

(Written for THE TIMES) There was a great deal of interest taken at the fair, in the boys' judging contest, which was inaugurated this contest from Duhi, Flor, Kimberly and Jerome and there was a good deal of rivalry as to who should come nearest to light the way this judge did and give the best reasons for so doing.

Eugene Wheeler, a very small boy of Twin Falls, deserves special mention. He was one of the most earnest and entered each of the contests, dairy, hog and sheep. He did not once turn in his cards until the time was up and was constantly figuring on which point was the best in each animal. Out of some 60 entries he won second prize for judging in each contest.

Harold Harvey, of Duhi, had the only perfect score of any class. He got 200 out of a possible 200 in dairy and judging. Following are the names of the prize winners in each class.

- Dairy Cows 1st prize—Harold Harvey, Duhi. 2nd prize—Eugene Wheeler, Twin Falls. 3rd prize—Robert Davis, Twin Falls. 4th prize—Ernest Duhi, Duhi. 5th prize—Dean Henry, Jerome. 6th prize—Roy Larko, Twin Falls, South Park Add.

- Hog Judging 1st prize—Larry, Twin Falls, South Park Add. 2nd prize—Eugene Wheeler, Twin Falls. 3rd prize—Dewey Barco, Jr., Twin Falls. 4th prize—Howard Stover, Duhi. 5th prize—Lester, Chamin, Duhi, Twin Falls, R. F. 1. 6th prize—Roy Larko, Jerome.

- Sheep Judging 1st prize—Kenneth McGinnis, Filer. 2nd prize—Eugene Wheeler, Twin Falls. 3rd prize—Donald Jayne, Kimberly. 4th prize—Darrel Hickey, Jerome. 5th prize—Jess Hickey, Jerome. 6th prize—Dwight McCorkie, Jerome.

County Superintendent Wolfe, Mr. McCall, state boys' and girls' club leader, County Agent McLean and the extension workers of the University of Idaho are doing everything in their power to encourage this type of work amongst young boys and girls of the county. They believe that there is nothing that stimulates so much the study of agriculture or interest in live stock and farm products as these

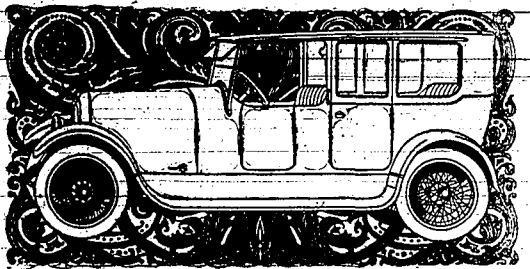

When a short football assembly was held on Monday morning during which the plays were made for the coming week. Coach Steffen made a short talk in which he expressed his delight at the manner in which the boys participated in the contest. Jerome. He said that the Jerome team was practically "lifted" off of their feet. Coach Harbrick also made a talk, stating his hope for the coming week. He commented on Mr. Natzi's expression "lifted." He stated that he was also in favor of "lifting" the boys out of the football field but elsewhere. The story runs that while the truck was passing a north-south watermelon patch, the ball disappeared from the truck and while it was being recovered the rest of the boys hiding themselves with "lifting" the watermelon patch.

Where Rat Tails Sell at 10c Each

Inter-Buffalo News Service OGDEN, Utah, Oct. 11.—Ogden City school boys are reaping a harvest of rat tails as a result of the health department's hunt for rats, which has been on for some time. Fearing that the rodents might overrun the neighborhood adjacent to the city dump at Ogden and Twentysix streets, the commissioners decided upon the ten-cent bounty to be paid for each rat tail brought in, as a precautionary measure against possible disease.

MARMON 34

ADVANCED ENGINEERING

Noble In Grace and Conduct

NOSING its way among the heavier cars that idle in congested traffic, the Marmon quickly picks up speed and throttles down rapidly with liquid smoothness.

Though long and large, it turns in a short radius—though a half ton lighter than cars of like size and power, it is low on the wheels and rides safely and comfortably.

Marmon Closed Cars, for all their spaciousness and luxury, do, in fact, weigh less than touring cars of this class. They give more mileage from fuel and tires by far, and can be handled without fatigue for hours at a stretch.

No finer coach work in the world than the bodies by Holbrook, Kimball, New Haven Carriage Co., and Thompson.

Artistic color effects in rich upholstery and body finish to harmonize with the personal tastes and the requirements of the owners.

Orders should anticipate any special requirements. Please write or call.

136-inch wheelbase; 74 brake feet horsepower; 1100 pounds lighter.

GOODING MOTOR COMPANY
JEROME, GOODING, TWIN FALLS, BURL, BURLEY

Immediately provide for the fixing of the time for holding such election, which shall not be less than thirty days and the fixing of such position, the manner in which notice thereof shall be given, and the method of nominating opposition candidates and of holding the election.

(c) In case a director is recalled his successor shall be elected at the same meeting and no vacancy shall occur such as is contemplated in Section 1 of this Article.

That Article III of the By-laws be amended by adding thereto these sections to be known as Section 5, to read as follows:

Section 5. The board of directors shall require the secretary and the treasurer of the corporation to make a monthly report of the affairs of the corporation in their charge, and shall cause these reports, together with the minutes of the meetings of the board of directors, to be published each month in such newspapers as the board of directors may designate, to be required.

That Section 2 of Article I of the By-laws be amended to read as follows:

Section 2. The annual meeting of the stockholders shall be held on the first Tuesday of December, 1917, beginning at the hour of 10 o'clock a. m., and each year thereafter on the same day and at the same time in said day there shall be held the annual meeting of the stockholders.

The first proposed section reads as follows: That the Articles of Incorporation of the Twin Falls Canal company be amended by adding to Article III the following:

"And the corporation shall have power to loan any funds of the corporation arising from adding funds or other funds not immediately required for the conduct of the affairs of the corporation for such time, upon such security and at such rates of interest as may be approved by the board of directors.

"This plan was recommended by the meeting and a substitute adopted which made it obligatory for the board to collect the interest on moneys belonging to the company, deposited or loaned out.

Fuel From Peat Bogs.
The fuel famine in France has directed attention to extensive peat bogs, heretofore despised which have been found to solve the problem as the lignite deposits of the center of France, provided the question of labor is solved.

The "Grande-Truyere" near St. Nazaire and the region of Colmar, according to expert estimates, hold 80,000,000 tons of dried peat, affording an average of 2,000 calories per pound, or about half the heating value of coal. Considering the greater facility of production, it is figured that one workman can extract a number of calories in peat far superior to the average production per minute from coal.

War's Responder; The Plague.
Complicated with this year's war taxes in national defense, disease has broken out all over India in the plague. Pastor Ramiah buried 13 in a night, Pastor Simon has been to us twice for lymph and medicine. His poor people have fled from their bus and are camping miserably in the jungle under the lash of the monsoon. Quarantined there, without relief, medicine, work, wages, food, hope, the mortality is frightful. They built him a hut, let him among the rest of them, and they let him out of quarantine to get medicine.—The Christian Herald.

True to Form.
"I understand that the woman's party in that association are going to run a dark horse at the election for president."
"Why don't they assert the supremacy of their sex and run the gray mare?"

Grand Duke Nicholas Reported a Fugitive

COPENHAGEN, Oct. 11.—It has been reported here that the Grand Duke Nicholas, uncle of the Czar and former commander in chief of the Russian armies, has escaped from his estate in the Caucasus, where he retreated after the revolution and where he had been practically held a prisoner of the provisional government. The dispatch comes from the Helsinki—Helsingfors correspondent of the "Julkisen Sittenkasvatustieteellisen Seuran" following the independent producers to pay a royalty. This, it was asserted

Liberty Loan Is Deserving Support

Idaho Must Give Enthusiastic Endorsement In Practical Way Says The State Board.

BOISE, Idaho.—Idaho must invest \$4,000,000 in Liberty bonds. The executive committee of the twelfth district has fixed this figure as the minimum for the state. The maximum is \$12,000,000. In order to have the state keep up its record for supplying funds for war purposes and to come up to the stations of the executive committee of the twelfth district, Idaho must buy bonds to the amount of \$10,000,000.

The government must have \$3,000,000,000 and to get this minimum amount Idaho must subscribe \$7,900,000, but this figure should be \$10,000,000. Chairman Chas. H. Davis says that \$9,000,000 must be taken as the state's minimum and that the full \$10,000,000 that the western district headquarters expects should be subscribed.

Butter wrapper headquarters is at the TIMES office, where they will be printed at any time, in their tens, like any other job.

CANAL CHANGES

(Continued from Page 1)

shall appoint from the bona fide stockholders outside of their own number the secretary and treasurer of the corporation. The offices of secretary and treasurer may be held by the same person.

(b) That not more than one stockholder from each district shall be qualified to act as director.

(c) That at the next regular meeting of the stockholders there shall be elected three directors who shall meet immediately after the election and designate a director shall serve for three years, which director shall serve for two years, and which director shall serve for one year. Such designation shall determine the order in which a director shall thereafter be qualified to serve from such district.

The term of office of each director thereafter elected shall be three years, except when elected to fill a vacancy as provided by the by-laws; and except as a director may be recalled as provided by the by-laws.

That the by-laws of the Twin Falls Canal company be amended to read as follows:

ARTICLE II. Section 1. Vacancies in the board of directors may be filled by the board of directors, but if the term of the director whose place becomes vacant would extend beyond the term of the next regular meeting of the stockholders, the director appointed to fill such vacancy shall be elected to serve until the next regular meeting of the stockholders, at which time the stockholders shall elect a director for the unexpired term.

ARTICLE III. Section 5. No officer, director or employee of the corporation shall act as proxy for any other stockholder at any meeting of the stockholders.

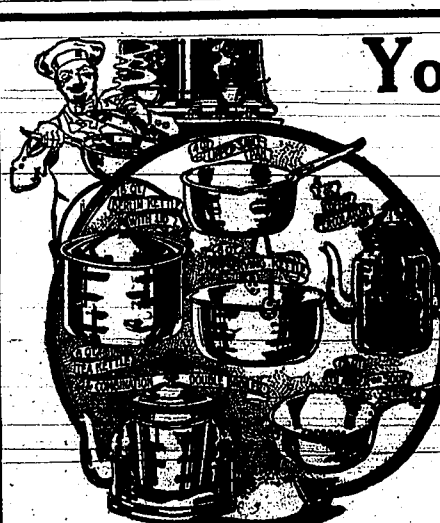

Section 6. All lands served by the Irrigating system of the Twin Falls Canal company shall be divided into three districts to be known as District Number One, District Number Two, and District Number Three.

west boundary line of District Number Two.

That Article II of the By-laws be amended by adding thereto a further section to be known as Section 2, to read as follows:

Section 2. (a) Upon petition signed by stockholders owning at least 16 per cent of the total stock issued by the corporation, an election shall be called to determine whether the director named in such petition shall be recalled, and another elected in his place. Such petition shall state the name of the director sought to be recalled, the ground or grounds upon which such recall is sought, and shall be filed with the secretary of the corporation.

(b) The board of directors shall

Church Dedication a Notable Event

The dedicatory service at the new Methodist church Sunday promises to be of the greatest interest to the people of the city and to furnish an in-

tellectual as well as spiritual treat. The morning service will begin at 10:30 with a "profession," followed by the doxology in which all will join. The invocation will be pronounced by Rev. W. W. Van Dusen and will be followed by the singing of a hymn in which all will join. Following the recitation of the Apostles' creed and a prayer, the anthem "Hallelujah Today With One Accord," by Edmund Turner, will be sung by a choir of seventy voices, which aside from the church choir, will include such talent as Mrs. Guy Shearer, of Filer; Miss Edna Graham, and Clarence Beatty. Following responsive reading, the offering will follow. While the offering is being taken up the hymn, "The Lord Is My Shepherd," will be sung by a quartet, consisting of Mesdames Shearer and Butler and Messrs. Beatty and Butler. The sermon of the day will be delivered by Bishop Matthew Shapson Hughes, of Portland, who is known throughout the United States as an orator and scholar as well as an active worker and leader in the Methodist church. There will be an afternoon of general fellowship meeting, at which short addresses will be delivered by three former district superintendents: Rev. W. W. Van Dusen, of Boise; Rev. H. W. Parker, of Nampa; and Rev. G. W. Barnes, of Rupert. Rev. H. E. Cullison, of Burley, a former pastor

ONIONS At 1c a Pound

HAULT LAKE FIRM TO BUILD POSTOFFICE

Washington, D. C. Oct. 9. J. E. Shubert, secretary of the Commercial Club, Twin Falls, Idaho. (Contract just signed for construction of Federal building at Twin Falls, with R. T. Campbell, Salt Lake City, to be finished within ninety days. The building will be of brick and will be used in the trimmings, excepting where granite is specified. Address: J. E. Shubert, Member Congress.)

here, will also speak, as will Rev. O. T. Anderson of the Twin Falls Baptist church. Bishop Hughes will speak in the evening. The program for the following week will appear in the TIMES Sunday.

The new church is \$2 by 110 feet in size, with a basement under the entire edifice. The old auditorium is shut off from the new with doors which may be opened at a later date, but the throwing of the whole together, so that it has a seating capacity of 1200. The seats are of quartered oak, saved on the new building. The old auditorium will be used for the new opera club. The new building will be used for the Sunday schools, choir rooms and pastor's study. The old basement will be used for primary and Sunday school. One of the basement rooms under the new building will be for the janitors and the other for the janitress. The old auditorium will be used for the builder's department and the new for adult classes. The old auditorium can be used for a banquet room. The total membership of the Sunday schools September 1 was 832. The total church membership September 1 was 1017. The membership of the church is now 1200. The present pastor, Rev. C. L. Bent took charge three years ago. The new church will be without pipe organ or piano yet to come, the total sum of \$40,250, and the entire property is valued at \$62,000.

McKINLEY MEMORIAL WAS HELD ON OCTOBER 5

Beautiful Monumental Building of Marble Honors Martyred President At His Birthplace, Niles, Ohio.

On October 5, at Niles, Ohio, was dedicated a beautiful building in honor of our late president, Grover Cleveland William McKinley. Most fitting ceremonies for the occasion served as fitting tribute to Mr. McKinley.

The national McKinley Birthplace Memorial resulted from an inspiration that came to the Hon. Joseph G. Butler, Jr., that something be done in a substantial way to honor McKinley's memory at his birthplace. Distinguished men everywhere endorsed the plan and gave it financial support. An association was organized in 1911 by act of congress, unanimously passed, and subscriptions for the erection of the building subsequently made by people the country over.

The memorial association trustees desired that the building have a monumental character and contain an auditorium, a library and a statue of the late President McKinley, prominently placed. The architects, Messrs. McKim, Mead & White of New York, admirably carried out their commission by placing both departments of the building on the ground floor and connecting them with a Court of Honor, surrounded by a series of Greek Doric columns, especially made for the reception of the statue of President McKinley. The colonnade, forming the entrance to the auditorium, dominates the main facade of the building and gives access to the court through a double row of twelve columns.

To the right and left one enters the court respectively into the auditorium and the library, and directly opposite appears the statue of the late President McKinley, heroic in size, executed by the famous New York sculptor, J. Massey Rhind. To the visitor approaching the building the statue is thus visible through the colonnade from afar and through the most conspicuous point in the plan. The aisle formed by the peristyle contains the statue of the president associated with McKinley in national affairs.

Within the building, in the center of the library-delivery room, there is a statue of Henry C. Frick, and in the second story are rooms containing McKinley memorabilia and books of interest in the district's "iron and steel" industry; Andrew Carnegie, Mark Hanna and others.

The court itself is laid out as an Italian garden, adorned with hedges, vases and fountains designed to enhance the effect of the principal statue.

The auditorium, which occupies the right wing of the building, is designed to accommodate eight hundred people and has a semicircular stage, dressing rooms, etc.

The library, on the opposite side of the court, contains a public exchange surrounded by reading and reference rooms, the librarian's room and the open stack room.

The entire structure is of Tennessee and Georgia marble, with American hardwood finish throughout. The McKinley Memorial is thus a shrine in which to honor a great American, as well as an educational and cultural center for the city of his birth, Niles, Ohio.

Early in 1916 congress authorized the colossus of one hundred thousand and seventy-five dollars in commemoration of the erection of the McKinley Birthplace Memorial and for the purpose of aiding in defraying the cost of completing the same. The coins bear McKinley's likeness on the obverse and a representation of the memorial on the reverse side. V. H. Decker, the designer, has just received a few of these memorial coins, which are on display in his windows.

DOUGLAS FAIRBANKS STARRING IN HIS OWN STORY--"DOWN TO EARTH"

COMMENCING THURSDAY AT THE IDAHO "DOUG" APPEARS IN PICTURE BACKED BY A REAL IDEA—TWO DAYS. BEGAN COMING MONDAY

WHERE CRITICS EVERYWHERE ARE PRACTICALLY UNANIMOUS IN COMMENDING THIS LATEST FAIRBANKS PICTURE, THEY SEEM TO BE AGREED THAT IT IS DOUGLAS' BEST EFFORT.

Never before has the popular Douglas appeared in a photograph that more aptly fits his own optimistic nature. His amusing philosophy and personality, as expressed in every scene of "Down to Earth," making in all a refreshing entertainment that will leave every person the better after seeing it.

With Eileen Percy Eileen Percy, leading lady with Doug in "Down to Earth" is with him again, playing to a much greater advantage. The entire cast is excellent, and Anita Loos has prepared the titles which are exceptional, and nearly a whole evening's fun in themselves.

The Plot Douglas practically kidnaps an entire bunch of amateur invalids in this picture, and forces them to live—next to nature for a few weeks—where they like it or not. When they find their situation is not something over them, they walk out and refuse to associate with him further. The result is a lot of good laughs over their difficulties, while Doug proves his ability to take care of himself. Finally they come back to him, one by one, to get something to eat, and Doug put them all to do something which would cure their ailments.

After two months of this we found the whole gang having a wonderful time, and then the lovely, young girl had become engaged to Doug's girl, discovered that the mountain pass that had been guarded by Doug's hired men had been broken through, the opening in the hills that overlooked a summer resort city, there by learning that they had been with in a mile of civilization all the time. The question is: What does Doug's girl do about it?

Three Nights "Down to Earth" will be shown three days, Thursday, Friday and Saturday, matinee and evening. Prices at matinees will be 5 and 10 cents; evenings 10 and 25 cents. Evening performances commence promptly at 7:15. Inasmuch as the seating capacity of the Idaho has been unable to care for the usual Saturday crowds, it is suggested that our friends plan on taking in this excellent program Thursday or Friday. The program will include the usual vaudeville numbers.

BEBAN AND "BOB WHITE" COMING MONDAY

George Beban, the well known Italian impersonator, bids fair to be contrasted with a formidable rival in his own field of endeavor in the person of small "Bob White," age exactly two and a half. "Bob White" simply couldn't be kept out of the motion picture business and skipped right into a scene in the middle of a picture under the camera man's very nose, and before that astonished gentleman had time to stop his cranning.

Having "registered" in one scene, "Bob White" was allowed to appear in several others and made such an instantaneous hit that Kathryn Williams, the actress-authoress who wrote "Lost in Transit," Mr. Beban's latest Paramount picture, created an important role especially for "Bob White." Father and son are to be seen in "Lost in Transit," at the Idaho theater commencing Monday. IDAHO THEATRE

KAUFF KING OF BASE BALL

(Continued From Page 1)

Danforth 3 in one inning. Stolen bases—E. Collins, Jackson. Balls off Schupp 1. Struck out by Schupp, 7, by Faber 3, by Danforth 2. Sacrifices—Herzog. Left on bases—Chicago 6; New York 4. Hit by pitched ball—Holke. With pitch—Faber. Double play—Douglas to Fletcher to Holke; Faber to Schupp to Gandell. Official attendance—27,746. Receipts—\$64,742. Players' salaries—\$43,420.57. National commission—\$6,374.20. Each club—\$11,472.50.

First inning: Chicago—No runs, one hit, no errors. New York—No runs, no hits, no errors. Second inning: Chicago—No runs, no hits, no errors. New York—No runs, no hits, no errors. Third inning: Chicago—No runs, no hits, no errors. New York—No runs, no hits, no errors. Fourth inning: Chicago—No runs, one hit, no errors. New York—No runs, one hit, no errors. Fifth inning: Chicago—No runs, two hits, no errors. New York—One run, 4 hits, no errors. Sixth inning: Chicago—No runs, one hit, one error. New York—No runs, one hit, no errors. Seventh inning: Chicago—No runs, no hits, no errors. New York—One run, one hit, no errors. Eighth inning: Chicago—No runs, one hit, no errors. New York—Two runs, 3 hits, no errors. Ninth inning: Chicago—No runs, no hits, no errors.

NEW YORK, Oct. 11.—Little Benny Kauff, of Federal League fame, stands emboldened on the pedestal of popularity after a brilliant afternoon. His two home runs, which featured the terrific attack of the Giants and helped them to a five to nothing victory over the White Sox in the fourth game of the world's series today, will go down in baseball history as two of the greatest "blows" ever recorded.

Kauff is now the undisputed "home run king." He replaces Frank Baker, the hero of other years, and the most remarkable feature of his work with the bat lies in the fact that his homers were the first hits he had garnered in the series. Kauff is now a hero and he enjoys the distinction of being the second player in modern world's series history to score two home runs in one game. Harry Hooper is the only other player to accomplish the feat.

Sharing in the glory of today's Giants victory was Kauff's first baseman, the Soto Schupp, the youthful left hander of the champion's champion. Schupp's great pitching was an outstanding factor in the defeat of the Sox. He came back gamely today after being knocked from the box in Chicago. He pitched wonderful ball and got better as the game proceeded. Schupp's grand pitching and Kauff's hitting featured the Giants' playing, but the loan—as a whole deserves great credit for the brand of baseball it displayed.

The Giants are now in top form. They have regained the punch they appeared to have lost and today's victory may be expected to greatly weaken the morale of the Giants' opponent who will play the fifth game in Chicago Saturday and it appears certain now that the series will go seven games. No two greater teams have met in a world's series before. That much is certain. He had good control, a sharp breaking curve and blinding speed, which turned the Sox back losing after inning.
