Citizens Give Trophy Train Royal Welcome

Large Crowd Greets Overseas Veterans Bringing War Relics

GOVERNOR DAVIS MAKES ADDRESS

Senator Adams, Montie B. Gwinn Also Speak. Soldier His Parade a Success.

"This is without doubt the best meeting that we have had yet," Governor D. W. Davis.

Incidentally, the great Twin Falls has attracted the largest crowd in the state.

Representatives similar to the foregoing were made by every man on board the Victory Liberty Loan trophy train.

Victory Campaign Commenced

The opening of the Liberty loan campaign in Twin Falls commenced yesterday. A trophy train, which carries the Liberty Loan trophy, arrived here at 11:30 a. m.

Immediately a large crowd gathered before the train and soldiers, sailors and marines, who had seen services overseas commenced the explanation of the various trophies.

Two cars were in the front of the train. The smaller trophies were in the front car.

Following this was a car on which there was a whippet French tank that had been in the fight in the Argonne for only a few minutes when it was sent out of action.

It was explained to the crowd that the average life of a whippet tank crew was three minutes after entering the fight.

The fighting car had been built square by a German 18-mm. shell that had damaged it.

Several German 180 mm. guns are on the "big car". These guns are the ones that the Germans had used in their long-distance shelling about 25 to 30 miles behind the lines.

Great gun boys in the front of the train were interested in the enormous crowd gathered at the depot was the French 15, for it was guns of this caliber that the boys of Twin Falls had been dealing with since they landed in France.

The French 15 was the American big gun. It was the gun that caused more damage than any other used by the Americans and of which the Germans had the most dread.

The long splendor muzzled air had been used by the French with fair results, but the work of the American carried out on the ventilators of the weapon.

A helmet, post, gigantic shells and a depth bomb were other trophies that rivaled one another in interest.

The listening post is constructed of iron in conical shape. The shells are similar to other shells, but the effect caused by them aroused the crowd.

The depth bomb was aptly called "an ash can," being constructed in a much similar manner to such an implement.

The most popular speaker of the occasion was Percy Bert Datic, a newspaper man from Roseburg and Pendleton, Oregon, who informed a Chronicle correspondent that as a result of this trip that he had decided to locate in Idaho. The best state of "em ali" as a result of what he had seen on this trip.

THREATENED STRIKE WOULD QUICKLY TIE EVERYTHING AFLOAT

By the Associated Press. NEW YORK, April 16.—The Marine Workers' affiliation declared tonight a renewal of the general harbor strike which will involve 15,000 workmen. The new outbreak will tie up everything at 6 o'clock a. m. Thursday, and efforts will be made to tie up "everything afloat" including ferryboats, coasters and transatlantic ships.

"TO HELL WITH FLAG"—THEN FIGHT

Democrat Badly Punished by Mercers at the Sphinx Dinner

By the Associated Press. NEW YORK, April 15.—A sensational incident marked the close of an address by United States Senator George W. Chamberlain at a dinner of the Sphinx club at the Waldorf-Astoria tonight. His oration was a boom.

"The American flag," as the Oregon senator recited the closing line, "one of the diners in the rear of the grand ballroom fell from his seat and shouted:

"To hell with the American flag." Diners from several other tables followed and knocked him down.

Several friends seated with the man attempted to interfere and there was a lively scuffle in which Mr. Mitchell himself was struck in the face. The disturber was rushed out a side door.

Robert H. Scarborough, secretary of the club, immediately began an investigation to determine the man's identity.

Several members of the club, which is composed of advertising men, searched the hotel lobby and barroom for the disturber, but later he had been spotted away in a taxicab.

1,500,000 TONS OF SHIPPING TO LOAD FOR THE STARVING

United States Assigned Giant Task in Feeding the Doomed People of Europe

By the Associated Press. WASHINGTON, April 15.—More than 1,500,000 tons of shipping has been assigned by the United States to the work of feeding the peoples of Europe threatened with starvation. The enormous task of shipping tonnage for this country to a work of charity became known today along with the fact that several experts have been sent abroad in an effort to hurry the "turn around" of American vessels and thereby complete in some measure for the transfer of tonnage from commercial trade.

Still more tonnage is desired by the directors of European relief, and probably will be allocated next month. Thus far in April 600,000 tons have been added to the "mercy fleet" sailing to ports on the North Sea, the Mediterranean and the Atlantic.

SQUALLS HINDER FLIGHT

By the Associated Press. TEMPERICK, April 15.—Heavy squalls of winter rain and low visibility dampened the expectations of people of America that Major Wood would arrive in his airplane from Paris to prepare for an attempt to cross the Atlantic. Unless the weather conditions improve soon, Wood will have the advantage of the full power of the prospect tonight is that the present weather conditions will continue for some time.

TO HONOR MEMORY OF THOSE WHO PAID SUPREME SACRIFICE

The Twentieth Century club will pay honor to the memory of Homer Young, who made the supreme sacrifice in France. A memorial service was held yesterday afternoon at a meeting of the club for the appropriation of a \$100 memorial towards the Federation of Women's clubs fund for the aiding by loans of funds to students attending the university. This memorial will be available only to a soldier who needs the money to finish his course at the state university. The deceased soldier was a graduate of Idaho university.

LLOYD-GEORGE FACES CRITICS MUST EXPLAIN

House of Commons Asks for Facts, He is Obligated Not to Divulge

By the Associated Press. LONDON, April 15.—Political circles were surprised tonight by the issuance in behalf of Premier Lloyd George of an announcement that as the prime minister, after making inquiries, has reason to believe that there is no desire to assail the action of the British delegate at the Paris conference, has decided to begin the discussion in the house of commons tomorrow.

BOLSHEVKI REIGN IS ONE OF SLAUGHTER

2000 Men Are Murdered in Osa and Perm, Say Red Cross Workers

STORY OF HORRORS TOLD BY AMERICANS

Men Made to Dig Their Own Graves and Their Buried Alive in Them

By the Associated Press. LONDON, April 15.—The horror of the massacre by the Bolsheviki of more than 2,000 men in and near the town of Osa, Perm, and Krasnoyarsk, is being told by American Red Cross workers who returned from these areas last night.

One, which has a population of 10,000, was a school of males by the Bolsheviki that General Casagrande, upon the occupation of the town, was obliged to telegraph to Yakaterburg for men to administer civil affairs.

In addition to the bodies of the victims, the bodies of the Bolsheviki were without exception, and the victims were largely of the military and intelligent classes of the country.

The evidence discloses almost unthinkable atrocities. A man was shot because he lived in a brick house. All attorneys and judges were killed, and factory, whose workers were not required for the moment, were disposed of in a similar manner.

A woman whose husband and two sons had been seized, applied to the commissar for information as to their fate. She was told that they had been taken to Perm. After reporting her visit several times, she was informed that if she believed the commissar she would be shot, and they had been.

Had of Haines in Perm. A woman reported to her husband, and he was taken to Perm.

PRESIDENT CAN REMAIN TO SIGN PACT

Delays Return to America Until German Delegates Appear at Versailles

Man survivor testified that he had seen a man thrown into a pit and buried alive.

Church leaders, the American observers say, showed that there was nothing constructive in any town. Bolsheviki control. Money and property were requisitioned and extravagantly dissipated by individuals without accounting.

In the Perm district everything of value was stolen from the churches. In some places the schools continue but religious teaching is barred, branches of study being dependent upon committees of the pupils.

It is reliably related that theoretical Bolsheviki treated into the new financial army, who went to the front to fight against their brother Bolsheviki, were disaffected on witnessing the results of the Bolsheviki occupation, and developed into the most ardent enemies of the Bolsheviki.

BOLSHEVKI ANTI-DOTE

Glass Urges Widespread Distribution of Loan

By the Associated Press. NEW YORK, April 16.—Widespread distribution of the fifth and final Liberty loan—\$1,600,000,000 "Victory" loan—was urged by Charles Glass, secretary of the treasury, in an address tonight before 4,000 loan beneficiaries of the New York Federal reserve district.

"You want to give it widespread distribution," he said. "Because, in my belief, the surest way to shoot down Bolshevism is to let the people of this country have a material interest in the government. You want to do it in order to ingratiate the treason of saying and of thrift."

HAWTHORN HAS CHANCE

By the Associated Press. ST. JOHNS, N. Y., April 15.—In favorable weather conditions again today the attempt of Harry G. Hawker, Australian aviator, to make his first flight across the Atlantic from St. Johns, the British fleet, virtually an even chance to "hop off" at the same time.

LONG-DISCUSSION IS TO BE PREVENTED

Council of Four Will Doubtless Submit Peace Treaty to Teutons for Speedy Acceptance

By the Associated Press. PARIS, April 15.—Now that the Germans have been called to Versailles on April 16, the indications are that the proceedings may now be held in the city of the peace conference.

This was the view of the president, who today when the president was called to the reports to present papers that his departure had been fixed for April 16. It was stated that no such intention had been formed, and that the progress of the main questions now gave promise that the president would not only attend the opening of the conference, but would also be able to remain in the city.

Whether the treaty and covenant will both be presented has not yet been decided, but it is probable that the treaty portion of the document will not be made public until after its delivery to the Germans.

The procedure with the enemy plenipotentiaries is also receiving attention. One plan under consideration is to have the plenipotentiaries meet the first meeting with the Germans and deliver the document. This would not be a public session, and its attendance would be to arrange to affect the disposal of the business, without public proceedings.

An alternative plan is for the entire membership of the peace conference to proceed to Versailles for a formal session, at which the treaty would be delivered. President Wilson, Colonel House, the members of the cabinet and officers of the protocol are now working out these details.

Premier Clemenceau on Sunday had President Wilson last night gave statements showing the progress of the treaty portion of the document.

It is held that the Clemenceau and Wilson statements were very general, lacking specific details. And there is every reason to believe that the treaty portion of the document will be given out tomorrow, will be of the same general character.

MEXICAN AND AMERICAN GILTS REFUSED MARRIAGE LICENSE

Comptroller's Efforts to Secure "Transport" From County Recorder Failed

Two Mexicans, whose wives were not here, had a public notice of which gave her name as Elizabeth and her residence as Bull, regarding made application for a marriage license for one of the Mexicans and the English girl. The act acknowledged that the woman is 17 years of age resulting in the refusal of County Auditor Stegins to give the couple the license. An investigation of the matter is being made by the probate court officials.

URGES CONVENTION FOR TWIN FALLS

Telegrams Sent to Leaders of Soldiers Association Telling of Advantages for Meeting Here.

Organization of the veterans of Idaho is now under way. The selection of delegates to the national convention to be held in St. Louis on May 1 will be made shortly. Coincidentally with these plans is that of Twin Falls soldiers to secure the first meeting of the state's veterans here.

Major C. M. Booth of Pocatello has been made chairman of the temporary state central committee. Yesterday telegrams urging Twin Falls claims for the first convention were sent to Major Booth, Lieutenant Colonel Theodore Roosevelt Jr., and Paul Davis by D. Harold McGrath, who joined in issuing the call for the national convention.

According to an Associated Press Dispatch to the Chronicle last evening, the St. Louis district staff boards in staging campaigns for the selection of delegates to the organization convention is urged by Lieutenant Colonel Roosevelt and Heneck Clark. The publication was said to be highly predictable as the draft bureau members are in touch with the soldiers.

The executive committee of the national convention has been organized. It has been announced, has appeared to the national convention to grant a rate of one cent a mile to all delegates to the St. Louis convention.

GOVERNOR DAVIS ADVISED

Organization of the entire state is under way it was learned on the arrival of the veterans of the World War. A representative of the veterans association is accompanying the train and has already made arrangements for the soldiers to organize. A meeting will be held in Boise tonight to organize the national organization, while another will be held in Jerome Saturday at which time the veterans of the new county will launch their organization.

"It is my desire to have the soldiers veterans use the method of selection delegates to the national convention," stated Governor Davis to a Chronicle representative last evening. "For that reason we have called a meeting in Boise next Saturday at which time the method of procedure to be followed will be outlined. I certainly will be glad to call the attention of the temporary state committee to the desire of Twin Falls veterans to have the first meeting of the soldiers soldiers and march in your city." It is believed that the veterans will be met in the city and will receive tonight the veterans would find a loyal welcome here.

ABOUT 2300 REGISTRARS

An estimate of those already registered in the coming election was given yesterday by City Clerk Minick. It is the opinion there are 2300 names on the lists now entitled to cast ballots on April 23. These deputy registrars were busy yesterday making a canvass of the city. It is believed that there will be 1500 qualified electors by next Saturday night.

FARM BUREAU NOTES

Twin Falls is the mecca for eastern soldiers and their "friends." Evidence of this is gleaned from the experience of the farm bureau labor department during the past weeks.

The eastern "farm lad" is coming in here in large numbers. "Farm lad" the farm boy is going back onto the farm. At least fifty men from eastern points have applied for and received farm work at the local office during the past three weeks. A large number of men, ex-service men, had been cut out of the list of work when the nation called them and they are looking for a good location. Twin Falls has been praised to them and they are coming here.

"Reports received at this office are to the effect that these boys are making good."

Twin Falls ex-soldiers are also proving that the farm has a greater appeal to them than ever before. Men who before joining the army, may have been regarded as "farm boys" are now coming here with a demand for farm work. From present reports the various employment centers the supply and demand of this class of labor will remain on a par.

Truck Gardening Notes.
This is the time for truck gardeners to plant radishes, beets, lettuce, peas, onions, onion seeds and spinach, Swiss chard and other greens, according to experienced truck gardeners of the Twin Falls tract. This weather and soil is the proper atmosphere for all this time.

To Experiment On Hogs

Experiments with moats and spring traps for fox, catfish supplemented with a three per cent grain ration were made Monday by William Kerr, hog raiser. This is the time for truck gardeners to assist in the work by feeding according to the directions of Mr. Kerr. The scheme was launched on a visit of Mr. Kerr, County Agent Bohrer, Dr. W. A. Sullivan and Dr. Clifford A. Timmberly, Hansen and Rick Creek sections.

Mr. Kerr will be in the county from time to time weighing and making comparisons.

C. T. A. Meeting Postponed.

Plans for a meeting which took place Monday, C. T. A. specialist, is to hold in this county were changed yesterday as a result of a telegram received from Mr. Noyes stating that he could not come here until next week. The date of his meeting here will be announced shortly.

He came here from Idaho Falls, but spent several years on highway construction work in the Los Angeles, California, section, building many bridges there.

HOLLISTER WOMAN VISITOR.

Mrs. Zoller of Hollister was in Twin Falls visiting her sister, Mrs. Dana yesterday evening.

Everyone Should
Drink Hot Water
in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean, healthy, no sour bile to "cut your tongue and sear your breath or dull your mind; no constipation, without attacks, sick headaches, constipation, indigestion or nervous stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well-known physician.

"Get your bowels moving" means well thought from the stomach, liver, kidneys and bowels, drink before breakfast each day a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse your system from the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of Limestone phosphate from your pharmacist. It is inexpensive and almost tasteless, except a sourish twing which is not unpleasant. It is limestone phosphate. Every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

To feel like young folks feel, like you feel before your blood, nerves and muscles become saturated with an accumulation of body poisons, keep the treatment and above all, keep it up. As soap and hot water act on the skin, cleanse, sweeten and purify it, so limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.

CHICAGO.—A couple of years ago John T. Zaleski was a college boy wearing pig top pants and yelling "rah rah" at the University of Illinois. He just didn't care for nobility nor nobility for an American college boy.

But now—now John T. Zaleski is first lieutenant and the commanding officer of the ordinance department of Camp McClellan, down in Georgia—and personally responsible to the federal government for the custody of \$17,000,000 worth of property.

At 23 years of age, he signed the papers handed him by Major Edward A. Thompson, who had the job before him and more or less it accounts for the U. S. government for all its 308 property in two big warehouses, one all houses and three magazines, all filled with valuable technical property.

John's uncle is a banker on the stockyard district and the friends of the job are getting on the inside of his job. According to U. S. army ordinance property regulations of 1917, Lieutenant John T. Zaleski (first pay grade) is the only first lieutenant in the army who holds the title of first lieutenant. He is the only first lieutenant in the army who holds the title of first lieutenant.

Two thousand leather saddles at \$22 to \$20 a piece are on John's hands. And 500,000 rounds of artillery ammunition and 4,000,000 rounds of rifle and machine gun ammunition.

As they say John is all the time making inventories down at Camp McClellan. They're doing nothing all the time except count guns and count saddles and count ammunition. In the army they call it property accountancy and Lieutenant Zaleski, '23, who changed pig top pants of a college boy for the leather leggings of an army officer knows what it means.

PREDICTED U. S. DOMINATION

ROME, Italy.—Prophecies of the downfall of the central powers by the intervention of the United States and the revolutions in Russia and Germany were made more than ten years ago by an Italian statesman.

The prophet was Ruggero Bonghi, who died ten years ago. He was for several years a minister in the Italian cabinet.

His remarkable predictions now being reprinted in Italian papers.

Bonghi predicted as a sequel of the Great War—the rise of the United States as the greatest power on earth and even the establishing of protectorates over parts of Europe and Asia by the United States.

NOBILITY BOWS TO AMERICAN PRESS

PARIS, March 11.—Newspaper correspondents accredited to the peace conference are more popular than beautiful millionaire debutantes in their first season.

Queens, courtiers, princes, lords, ladies, ambassadors, ministers, premiers assembled, would be presidents, peace delegates and plain citizens who are unique in being mercurious toward the correspondents with invitations to teas, trifles, dinners and occasionally to suppers which have no social acquire.

American correspondents are in especial demand. Everybody wants American ears. Three social secretaries add a squad of motor dispatchers would be required to avoid social errors and land a correspondent promptly at all the functions to which he is invited. And he would have no time for anything so prosaic as the plenary sessions of the peace conference.

Everything from Belgium to the Bolsheviks is discussed at these social functions. Correspondents are whisked from New Guinea to Nova Zombia without waiting. Diplomacy and Pompey are recourated and discussed at such length that one might suspect they narrowly missed being selected as delegates to the Paris conference. Ancient Greece and Rome no longer seem ancient. Phillip of Macedon suddenly becomes Nihilism. Marcellus sings of their countries' prophecies with all the clamor of Omar Khayyam. The Old Testament is introduced as a modern bit of literature designed to establish certain territorial claims.

Countries and peoples are discovered at these conferences which American school geographers apparently hadn't heard of, and even the geographical specialists employed by the various missions to the Paris conference are mystified.

"It's a rare occasion when a delegation of peace conference reporters meet in the Grand Hotel in Paris for the first time. The delegates are revived in an effort to establish the position of the peace conference. The delegates are quoted in their original tongues. Anglo-Saxons are reminded of the perfect civilization which existed in the Orient five thousand years before the Christian era. Names which the "raw" delegates of western Europe never heard of are rolled off in "bible-names" which the Americans trying to make the world safe for democracy and that speedily, don't want to hear.

Such claims as that of Belgium for a re-division of her relations with Holland come as a real relief to dazed newspaper men and weary delegates. That controversy only dates back to 1811, to the prince of paper which Germany probably wouldn't tear up as glibly if it could live the last five years over again.

Discussions of the near-eastern questions are much the same, whether they be in the drawing room of the Prince of Hédias or the meetings of the Big Power—the Great Powers. They are reminiscent of weary classroom days with Homer, Herodotus and Virgil. Efforts to interest busy men in antiquity seem futile. Delegates lose through the exposition of ancient history and correspondents long for brief statements throwing light on the recent history and aspirations of the various peoples who have lived in such discord for centuries along the shores of the Mediterranean.

OFTEN "OVER THE TOP"

LONDON.—British papers are just beginning to find out that the Prince of Wales played the part of a real fighting man, for the British trait to make little comment on personal exploits. The prince went over the top with the Grenadiers in an action the details of which have never been printed. And he again and again went over in the thick of the fight on the Italian front.

CROM SEEKS TO UNLOAD DAN DENTON

of the non-partisan Times in control of the city administration.

By the Associated Press.

The plan was hatched in Denton's office. Now that Denton is found to be a load to carry, political expediency demands some way to get under the jubilee. Hence the story of the split between Denton and Cron.

Meanwhile, T. K. Hackman, who is slated for the city attorneyship in the event Cron is elected, is making the plans for the Cron pump-out, and is acting as the go-between holding the Denton strength to Cron. Hackman was backed by both Cron and Denton for attorney for the Cron company, for which position he had the support of the two non-partisan league members of the board. Cron, it will be recalled, directed the fight for the non-partisan candidate for place on the canal board.

The outcome of the contest will be watched with unusual interest.

HACKMAN IS SLATED FOR CITY ATTORNEY

Acts as Go-Between Holding Denton Followers in Life for "Unimus" Candidate

Finding Dan Denton and The Times too heavy a load to carry in the city election, the Cron followers have decided upon a plan for unloading the non-partisan newspaper and its owner.

Denton is said to be a party to the plan, for he, too, is said to realize that the Cron-Cron cannot hope to land with the support of The Times under its management.

As the Cron headquarters which secretaries have been in the Denton estate office is to be moved and Harry Kingsbury and others will direct the campaign from other rooms. Meetings with Denton will not be held by his office, and circulation is being given to a story to the effect that Cron and Denton have split.

Believed to be Camouflage.

This story, however, does not go so far as to state the cause of the split, but the suspicion at Twin Falls, which causes a severance of the relationship which has been so binding in the years past. It is only said that Denton and Cron have split.

Citizens of Twin Falls are watching this maneuvering with amusement. They admit that Denton is a load to carry, but are inclined to believe the whole story of the split one made for campaign purposes only.

The Cron candidacy has been considered wholly a Denton movement, designed to enhrance the publisher of
