May Day—was it designed for the Twin Falls country? Blossoms in profusion, promises of the year are all here. And the sunshine. It glows through the mingled green and pink and white, giving a tone to the setting of the whole. Nowhere will more gorgeous beauty bloom the coming of the May month than in Twin Falls. May Day, the true spring festival, as an ancient holiday we find in the calendar. The five surviving rites of the May, which we celebrate by occasional May pole dance, a hatz, of May baskets and sometimes a May walk—are a dim and tattered remnant of the old Roman festival of Floralia, inaugurated to celebrate the start of the growing season for the crops and all the renewed life of nature.

The origin of the May pole is not distinct. The customs of the pole decoration and dance appeared in England in the Middle Ages. The first mention of the custom is by the English people, during the reign of Henry VIII) to go into the woods the night before May day and gather flowers and branches with which they decorated their houses, the next day, the flowers and the leaves of sweet fern, and Maid Marian, probably added something to the woodland festival, and perhaps even the May pole itself. The May poles erected in English villages during the fifteenth century are usually of hawthorn and were topped, during a dance, with flowers and ribbon garlands.

An English writer records the fact that English maidens, once, thought May drew a great advantage, and went out into the fields very early the first of May morning to rub their cheeks with dew and thereby secure rosy cheeks for the remainder of the year. May Day is a great holiday in Sweden where the custom is for each sex to stage a sham fight between the forces of summer and winter, with winter always defeated, burned in a fire, and his ashes strewn over a new-planted garden.

In America, the old New England custom leaves his business for the day and goes to the woods to gather wild flowers and enjoy the spring air—is one well worth cultivating. It also is the custom of giving and receiving flowers and May baskets. In modern world, has become too much either flowers or sentiment. Send a May basket to your best beloved and let her see if she isn't pleased!

The Penlope club will meet at the home of Mrs. F. Lytle this afternoon. Whittans have been extended to the home of Mrs. E. Turner and sister, Mrs. W. R. McFarland. Mrs. Lytle and Mrs. Swank are to be the hostess of the club. The afternoon will be spent playing a hundred.

The grand officers of the Rebecca club assembly who were in Twin Falls for the meeting of the Rebecca club evening, were guests of honor at a four-course luncheon given at the home of Mrs. O. R. Ludlum Tuesday. The luncheon was assisted by Mrs. W. Barber.

The guests of honor were Mrs. J. C. McGregg, Mrs. F. Croson, Miss J. Simpson. Others were Miss C. Gatz, Mrs. Emea, Mrs. E. Watkins and Mrs. J. Lee. After the luncheon the visitors were stored to Shoshone falls.

Mr. and Mrs. W. H. Dwight gave a charming little 6 o'clock dinner party evening honoring Mrs. Fahlgren, who has been visiting her daughter, Mrs. O. P. Duval, during the past winter. The table was tastefully decorated with beautiful orchard blossoms indicative of spring. The guest list included Mr. and Mrs. O. P. Duval and mother, Mrs. Fahlgren and Carl Painter.

The Twin Falls Studio club recently entertained the Bull-Studio club at the studio of Miss Almenberger Tuesday evening. The rooms were artistically decorated with the favorite spring color scheme of yellow and white. Yellow and white carnations formed the main decorations combined with green plants. A short musical program was rendered during the evening. Those that were Mrs. J. J. Miller of Bull-Studio, Mrs. M. E. Duval, Miss Almenberger, a Harold Gamble of Twin Falls. The guests of honor were Miss J. J. Miller, Mrs. Davis, Mrs. Nason, Miss Egan, Mrs. McQuinn and Mrs. J. J. Miller. Light refreshments were served at the close of the evening.

was performed by Father Hoeyer. The guest list included Mrs. Oeder, Mrs. Esther Campbell and the bride and groom.

Among the quiet weddings of the season was the one performed at the Catholic rectory last evening at 7:30, when Miss Louise Oeder was married to Mr. J. D. Stock. Only a few of the intimate friends of the bride and groom were present. Miss Esther Campbell was the bridesmaid and Mr. W. M. Stock was the best man.

The members of the guild of the Episcopal church will hold a meeting at the rectory this afternoon at 2:30 o'clock that promises to be of special interest and importance. Plans are to be considered relative to the Fall-Idaho memorial. Tea will be served during the afternoon.

The Rebecca held their meeting Tuesday evening at the J. O. O. P. hall. The evening was spent with music and speeches. The visiting grand officers of the state lodge spoke on the order's work throughout the state. Light refreshments were served.

IDAHO UNIVERSITY IN MELTING POT FOR STATE Superintendent Blue Urges Twin Falls Graduates to Attend Moscow School.

"It is my policy to urge graduates from the Twin Falls high school to attend the State University of Idaho," declared J. O. Blue, superintendent of schools yesterday when discussing with a Chronicle representative the needs of higher education, for it will be through the Moscow institution that the state will be knit together. "Idaho is a divided state—divided in many ways. In the north the big crown prince of Germany soon will appear in court to get a divorce from Willie, and the four little princelings whose pictures appear and, a little princess born during the war will probably be given to the charge of her mother, who has had charge of her picture in the right line by a score of 26 to 18. The winning team did not capture the honors without a fight, the Bickel lads hitting the Lincoln pitcher heavily themselves. Eddred and Fred Knott did the twirling for the Lincoln, while Justice Kato and Frank Wilks were on the mound for the losers.

TEACHERS ARE NAMED. Teachers at the Poplar Grove school have been named for the ensuing year. Miss Fern Fisher will teach the lower grade while Helen Klana, will have charge of the upper classes.

TRUSTEES NAMED. W. R. Harrison was selected trustee of the Park Lake district at the recent election. It was voted to make the tax levy sufficient to collect \$1787.61. In the Washington district near Piler, P. G. Hall was selected to

succeed P. T. Parrish for the three-year term, while George Leonard was named to the unexpired term of D. O. Lang.

VISITS TWO SCHOOLS. Miss Britton Wolfe visited two school districts yesterday. She went to the Cedar Grove school first following which she visited the North-view school. Mrs. Larson and Miss Gills, teacher at the Cedar Grove school, are busily preparing for the closing program at the school on May 22.

SCHOOL TO CLOSE ON MAY 15. The Poplar Hill school will close on May 15, according to an announcement made yesterday. The school is busily preparing to present a program on the 15th day.

GIVE UNIQUE PROGRAM. The seniors at the high school gave a very unique program at their senior assembly yesterday morning. One scene of their class play was given to hold May 15. The latter part of the program consisted of musical selections given by the Senior Girls' Glee club.

DEPARTMENTAL PROGRAM. The seventh grade of the Washington school gave a delightful little musical party at the school house last evening. The evening was spent with games and music. All enjoyed a wonderful time. Teachers assisted in the fun by judging the costumes. A "break" band also, caused much merriment.

CLASS BATTLES WAX WARM. General Pershing's campaign at Chateau-Thierry, at St. Mihiel or in the Argonne never required more generalship than the campaigns now being waged at the Twin Falls high school between the Junior and Senior boys. Honors so far have been even. The Juniors were the first to start the battle, putting their flag in a conspicuous position. The Seniors were successful in the efforts of taking it down, but lost their own flag in a later attack. The fighting will be continued until Friday night when the two contending units will meet at a peace parley, the occasion being the annual banquet given by the seniors to their next year's classmen.

TO VISIT DAUGHTER. Mrs. R. J. Clappett left Tuesday evening for Great Falls, Mont., where she will visit her daughter for a few weeks.

NOBLE OLD CRAFT GO TO SCRAP HEAP

Oregon Alone of Famous Battleships of Spanish War, Is Saved From Junk Heap.

By the Associated Press. WASHINGTON, April 30.—Three of the four battleships which helped destroy the Spanish fleet off Santiago in 1898—the Indiana, Massachusetts and Iowa—are to be placed out of commission, the navy department announced today, and their names transferred to new super-dreadnaughts. For historical and other reasons, however, the fourth—the famous Oregon, which circled South America in order to be in the battle against Cerro's squadron, will retain her name and will continue service with the Pacific fleet. The vessel probably will be stripped and sold for scrap or used as targets for ships of the fleet as was the old battleship Texas.

The name-Indiana will be assigned to battleship No. 60, authorized with nine others in 1916, and which is to be built at the New York navy yard. The names Massachusetts and Iowa will be given to battleships Numbers 53 and 64, bids for the construction of which will be opened by the navy department May 22. The Indiana, Massachusetts and Oregon were the first big gun battleships of the navy and were completed more than twenty-years ago and at that time were regarded as the most powerful ships afloat. Each carried four 12-inch rifles, eight 8-inch rifles and many smaller guns.

The Iowa was completed in 1897, and her first commander was Captain William W. Sampson, who in the next year was transferred to command of the North Atlantic fleet, which fought the battle of Santiago. Captain Robly D. (Fighting Bob) Evans, who was the first commander of the Indiana, succeeded to the command of the Iowa and was in charge of her during the Spanish war. The Iowa carried four 12-inch, eight 8-inch and some 5-inch guns.

# GERMANS EXPECT TO PAY HEAVY DAMAGES

Butter No Illusion Relative to the Blotter They Must Assume to Obtain Peace.

By the Associated Press.  
BERLIN, Monday, April 23.—Strong current opinion inside the cabinet permits of the assertion that the ministry of Chancellor Scheidemann is fervently hoping to obtain a peace settlement at Versailles sufficiently tolerable to win the national assembly's ratification and thus obviate the danger of further internal ruptures, which it is believed would be bound to result from a plebiscite.  
Scheidemann's party colleagues and the democratic elements in the present administration seem quite conscious that the peace to be offered to them will hardly be tempered with mercy, yet they are pinning their faith on President Wilson's influence with the entente leaders to the extent of hoping for terms which will not cause the German delegates to board their train for Berlin immediately after the delivery of the peace treaty.  
There are no illusions obtaining in any quarters—political, financial or industrial—but that the bill will be a long and heavy one. Expectation in Berlin today concerned itself with the question whether the entente will permit differences on various items to be checked off and discussed.

# "VICTORY—DON'T WASTE IT." ARMY FLYERS' AIRGRAM Flying Circus Drops 100,000 Messages on San Francisco.

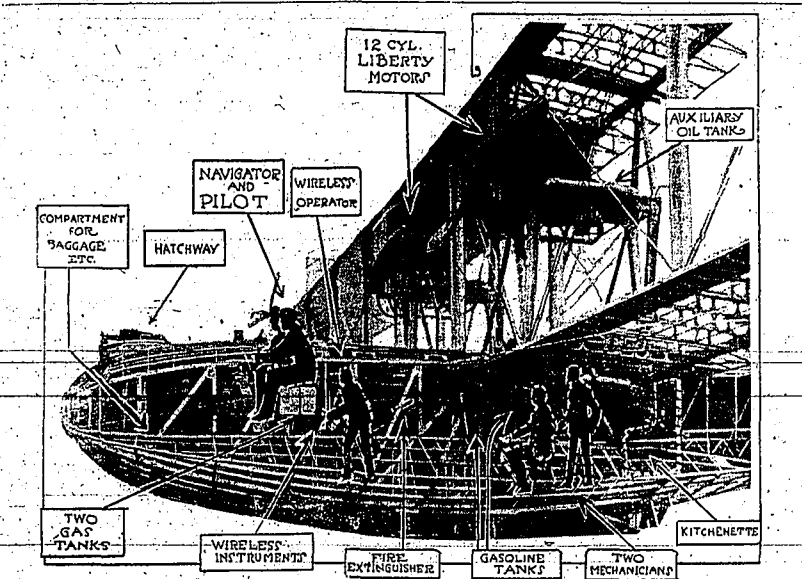

A United States Army Flying Circus observation plane scouting over San Francisco Saturday, April 12, dropped 100,000 airmograms like the following "before it theoretically shot down by combat ships:

Thousands of folks caught the following messages as they fell into the sea and took them home to read in their scrap books.  
Among the 100,000 were several hundred other airmograms similar in character, which were shot for a German helmet when presented at Liberty Loan headquarters with a receipt for the first payment on a Liberty Note.  
There's a lot to think about in the phrase "Victory—don't waste it." Think it over.

**ROOSEVELT SAID**  
"Don't let Wall Street monopolize the financing of the war, but if you do, then do not let Wall Street. Slaply admit that it is more patriotic and far-sighted than you are."  
—Theodore Roosevelt.  
Theodore Roosevelt was a great American because he saw through to the heart of things and because he had courage enough to tell what he saw. He said something in that quotation above that every American ought to own over.  
Roosevelt practiced what he preached. He bought Liberty Bonds to his limit. He wanted to keep the securities of the United States out of Wall Street. He felt that they belonged in his house and the house of every plain American for the good of the nation.  
"There should be Liberty Bonds in every home in America," he declared another time. Like all great men, Roosevelt knew that the future of America is the future of the millions of humble homes dotting her hills and valleys, her plains and cities. He knew, too, that a Liberty Bond in those humble homes assured America's future.  
"You know it even as did Roosevelt."  
Help mould America with the Victory Liberty Loan.

# How Our Airmen Will Fly Over the Atlantic

This shows how Lieut. Commander N. L. Bollinger, his navigating officer, and his crew of three (one radio operator and two mechanics) will stow themselves away on the giant naval seaplane, N. C. 1 (Navy-Curtiss) during the forthcoming flight across the Atlantic.  
The photograph with one side of the

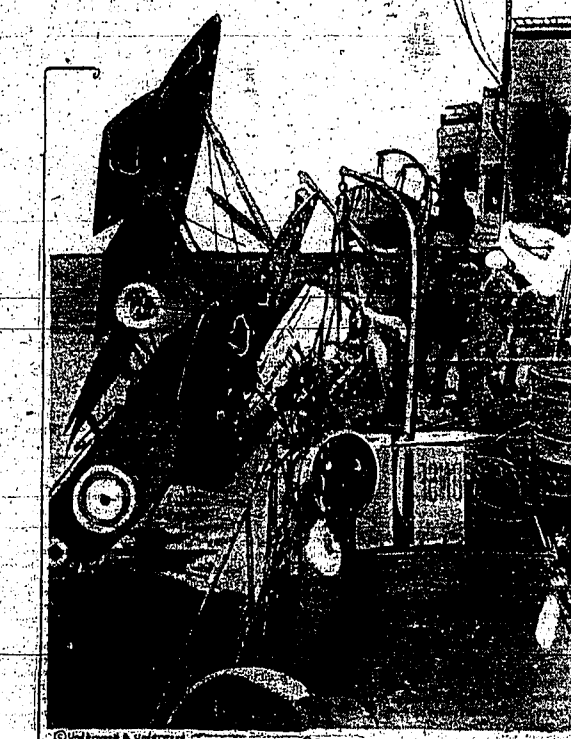

boat and wings stripped of their covering, is of the first type of big seaplane built by Glen H. Curtiss for the U. S. Navy.  
In the compartment of the N. C. 1, occupied by the mechanics, there is room to place two mattresses for the officers and crew to rest upon, and also for a small "kitchenette" for the preparation of food.

Three models have already been built and are being used to train the crew that will attempt the long ocean flight. The N. C. 4 is now being built together with great secrecy at the Curtiss plant at Garden City.  
Several new instruments for use during the flight have been perfected at the navy department but these also are carefully guarded secrets.

# If a Cross Ocean Flier Lands in the Sea Here Is How They Contemplate Rescuing Him

Any old way to get him aboard—that's the way the transatlantic flier will be rescued if they fall into the sea on the first trip across. Boats will be stationed along the route to

be taken, and if a wireless of distress is heard, there'll be a seaborne craft speeding toward the cripple. This picture of the recovery of a straggler after it has vanquished a Boche flier will show how it will be done.

# SEVEN OF THE VICTORY LOAN'S 77 REASONS

Billions are needed to take millions of Americans out of khaki! The official estimated expense of maintaining America's army till demobilization is complete is \$2,356,317,000.  
Of the 3,700,000 fighters called to the colors before the signing of the armistice, 2,002,176 were on overseas duty. Up to the middle of March last, 500,000 were back from the battlefields.  
The cost of outfitting Pershing's conquerors and the men who performed valiant service on this side into civil life will total at least \$1,334,043,250.  
That 400,000 men honorably discharged mean adds \$225,000,000 to the demobilization bill.  
Then come transportation costs abroad and at home. These include the issue of \$70,000,000 for America's superb transportation system in Franco. Water and rail cost estimates for travel oscillate at the \$500,000,000 mark.  
Millions also are due for supplies, equipment and munitions that by ending the war suddenly saved at least 100,000 priceless American lives!

Du-Bols, a French name; Smith, who in this case was an Englishman; O'Brien, "an Irish boy"; Calla, a Bohemian; Hancock, a somewhat different German; Pappandriopoulos, Greek; of course; Andrews, of Hungary; Villotta, of sunny Italy; Lory, of one of thousands of Jews who were with the A. E. F.; Turorich, a Jugoslav; Kowalski, a Pole; Chircasovic, of Russian origin; Knutson, a Scandinavian; and Gosselle, of the blood of the Danes.

### OPEN DIPLOMACY AT LAST

Premier Orlando was offended not so much by what President Wilson said about Italy's claims as by the fact that he said it right out in public.

It was an "address to nations outside of the governments which represent them." And this thing of "addressing nations" directly, complained Orlando, "surely constituted an innovation in international relations."

It surely does. And America, whatever their attitude toward President Wilson may be, feel like thanking God for it. Here at last is "open diplomacy," of a sort which the world expected from the Paris peace conference, and which until now it has not obtained.

The Italian controversy, it dragged into the light of day instead of being hushed up and glossed over. President Wilson, unable to break the deadlock with the Italian government, appeals over its head to the Italian people, and at the same time to the people of his own country and every other country concerned. Premier Orlando is compelled to reply in this manner.

It hardly seems possible that the Italian public has really understood the issues involved, the selfish nature of the claims made in their behalf and their inconsistency with the professions of the allies and the general peace conference program. The carrying of the argument into the newspapers should prove illuminating to them, and the influence of public opinion in other lands is bound to make itself felt. The allied nations, who are a great deal more important than the statement representing them, and who, as the president has often said, are the real masters of the peace conference, are now laid into the game. One in it, they will see that it plays off squarely.

Most of the big troubles of this conference have resulted from its weak reversion to the secret diplomacy of old. Let us hope that Premier Orlando is right when he expressed the fear that "this new course constitutes the granting to nations of larger participation in international questions," and that such participation will be "the harbinger of a new order of things."

For America is not afraid of this new, "free, democratic diplomacy." America "ents it alive." And America are satisfied that only by such open dealing can the affairs of the tangled-world be straightened out.

### HOOPER IN BERLIN

Herbert Hoover is in Berlin with a goodly company of assistants, and is going about the business of feeling out the "haughty city" with his usual straightforward-American methods. He recently issued a statement which is worth quoting as an assurance to Americans at home that at least one phase of the work for which they are making sacrifices is proceeding in a way to justify self-denial.

Mr. Hoover's warning reads as follows:

"America has no desire to restrict in order that its grain supplies may be sunk in the 22nd and it has kept away from the riot of a few thousand Spartans, or that its potatoes shall rot in warehouses because they cannot be transported. America has the good will to save all from starvation, provided there is no assurance of a state of order in Germany. Otherwise there will be no supplies."

In commenting on this message, a leading Berlin daily remarks additively: "This is Mr. Hoover's ultimatum, which just now for Germany is of equal importance, with the peace conference."

of the entire. And because they know he means it, they will accept it with equal docility.

THE BUTTER BULL SIXTYTWO  
The little New Yorker who, on her first visit to the country, refused to drink the milk she was obtained from a cow, and demanded the kind they had at home, which came in a bottle, and never got any of that "masty yellow sugar" on it, was more truthful than fiction.

But now all of New York, young or old, has had opportunity to see honey and learn all the history of her placed life. For the cows came to New York real, live, milk-giving, cream-creating cows! The dairy show took them. A farmer was there, and the hired man, a creature hitherto known only in the play. But best of all in the Butter Bull Sixtytwo. It consists of six beautiful record-breaking silken loaves from Connecticut.

All the varieties of things made from milk were there, too—a whetting big cheese and zuppers, butter, and ice cream as is cream.

The show was interesting, and attracted many thousands daily. It cannot fail to be of value since it brings facts about the eyes of city folk the sight about milk and other dairy products, concerning which city dwellers are often ignorant or indifferent.

Fewer babies should die of malnutrition or tuberculosis in a city which has been awakened by a first-class dairy exhibit. Probably some child, dread who otherwise would have grown up in city flats will grow brown and strong on farms instead, because father fell for the charms of the Butter Bull Sixtytwo.

Columbus, Laif Erickson and Amerigo Vesputsi, please step back to the end of the line!

Ancient Chinese documents lately discovered seem to indicate without doubt that a Chinese monk discovered the west coast centuries before the modern young upstarts mentioned at the head of this article ever were born or thought of.

The documents contain descriptions unmistakably referring to Mexico, and also to points all along the coast as far north as Alaska.

Just what the Chinese are going to do about this if it proves to be true; we do not attempt to forecast. Possibly it will mean that the peace conference will have to decide whether to return to China or give us into the mandatory control of Japan.

In the meantime all good Americans will just go on "discovering America" every day—its soundness and its sinness, its possibilities and its promise. And we best wish it say to any explorer, be he Italian, Norse or Chinese, "Maybe you discovered it, but if you want to know who runs it—start something!"

### ALLEGES EXTREME CRUELTY

Suit was filed in the district court yesterday by Maudo Daniels of Buhl, seeking a divorce from Thomas E. Daniels of Dan, Iowa. According to the complaint the defendant made the life of the plaintiff so miserable by his cruel treatment of herself and by his attention to other women that it was necessary for her to come to Buhl to escape. The suit was married in November, 1917. Three children were born to the couple. The oldest child is now 16. Custody of the child and title to property acquired in Buhl since Mrs. Daniels came to the west city are sought in the suit as well as a divorce.

### DEFENDANT GIVEN JUDGMENT

Judgment for the defendant was given by Probate Judge O. P. Davall yesterday in the suit of the Goodyear Tire & Rubber company against the Reynolds Motor company. The action was instituted to recover \$40 and costs for goods delivered to the defendant. The court sustained the Reynolds company's contention that the alleged delivery of the goods and the resultant damages had been of sufficient strength to justify a refusal to make payment on the account.

### PHOSPHATE JUDGE IN HURRY

Probate Judge O. P. Davall was a business visitor in Burley between trials yesterday.

### MUST PAY \$25 A MONTH

Frank Darling, who was arrested Tuesday on a charge of non-support of his family, consisting of four young children, was yesterday ordered to pay \$25 a month into the court for the support of the children.

### DEAD METEOR CRASHED OUT

Frank Gillen, 18 years old, was arrested yesterday while molting down on the streets. The lad, who is deaf and dumb, claimed to have lost his

hearing and speech from an attack of scarlet fever. He was brought here by Dr. H. H. Jones, who has been in charge of the "pan-handling." The lad claimed to have saved \$500 in a trip across the continent from Florida which money he said he was going to use to go to school in Kansas, his native state. He declared that he had had correspondence with the superintendent of a deaf and dumb school in that state, towards making arrangements for attending the institution. After a review of the situation the lad was ordered to leave town which he promised to do immediately. He said he was going to return to Kansas to try to get into the school.

### PAY FOR DAMAGE DONE

Ivy Dorcas and Charles Russell, arrested Tuesday night on a charge of reckless driving, were yesterday haled before Acting Police Judge W. A. Minnick. After hearing their side of the case, in which the young men contended that the steering gear of the Ford would not work they were released after assuring the court that they would pay the costs of the repair work necessary on the Liberty market front. The damage done cost the young men \$127, they being released on \$1000 bonds by W. Weaver, owner of the building, on giving him a check for this amount.

### HOST TO 28 PRISONERS

Sheriff A. N. Sprague was host to 28 different inmates during the month of April, according to a recapitulation of the month's work at the sheriff's office which was made public yesterday. Most of those who were in the jail remained there but a short time and at present there but one man in the institution.

No strikers are expected in connection with the cessation of work, the government having ordered that no parades or demonstrations of any character shall be held in the city. As a prelude the "admittance" today strikers demonstrated in the Rue de la Paix and the Place Vendome districts, where the great milliners shops are located.

### IN BERLIN, TOO

BEIJING, Monday, April 23.—Not content with just having survived three consecutive Easter holidays, with three holidays to come at the end of May, the workers of Berlin and Germany generally will rest from their labors and enjoy the latest and newest socialist holiday in this country.

All transportation will suspend on the Berlin street cars, the suburban trains and subways, long-distance train service will be limited to food and milk trains. Not even coal shipments will move.

Almost all the workers on Monday will be the postmen and postwomen who will carry out the Sunday journals of the press and the telephone operators.

The theatres will be closed and even the restaurants will shut down unless the unwilling protest of thousands who depend upon public eating places is heeded.

The minister of defense, Herr Noske, has lifted the martial law regulations in Berlin slightly by allowing inmates in closed buildings and parades of such gatherings but there must be no demonstrations.

toward acceptance of one of the various plans proposed by the council of three, whereby Plume would be instrumental in ending some Balkan war in Italy.

It is the declared purpose of the council, as well as President Wilson, not to yield on Plume, men if the peace treaty is signed without Italy's participation. But, should the recent Italian conference end in a definite form of acceptance of some promise; the president's friends say they will remain firm on taking steps which will fully restore the Italian delegation to its former agreeable status in the conference.

### OFFERS GOOD OFFICES

PARIS, April 30.—A message from a French source in Rome says that Thomas Nelson Page, the American ambassador, to Italy, has offered good offices to Premier Orlando with a view to finding a solution of the Adriatic difficulty.

ment enforces here that there will be an announcement at Paris; that full powers have been given to the people and parliament of Italy to the cabinet and, therefore to the Italian delegation, and also that a conciliatory solution of the Adriatic problem may be reached.

### EXCITEMENT IN BRATING

ROMA, April 29.—The excitement throughout Italy has abated after the vote in the chamber of deputies yesterday, expressing confidence in Premier Orlando and the government. Especially is awaiting the effect the vote will have on the attitude of President Wilson and the allied powers and hope is generally expressed that the peace conference will see the necessity of satisfying the Italian claims thus avoiding a complete rupture which in the past has led to grave consequences.

The Popolo Romano sums up this idea, saying: "The world is now confronted with the following dilemma: 'Either the five great powers must agree on the Italian question or Italy will be obliged to act independently of the others.'"

The Italian newspapers are less than ever in their attacks on President Wilson, though the Tempo speaks of "President Wilson's obstinate savagery."

### CHINA IS PROTECTED

PARIS, April 30.—The agreement regarding the Shanghai peninsula and Peking, which has been signed between the council of three and the Japanese delegates provides for their transfer without reserve to Japan which voluntarily engages to hand the Shantung peninsula back to China.

Japan as an economic concessionaire aims at their rights, under the agreement as are possessed by one or two other of the great powers. The whole future relation between Japan and China, as well as the territorial integrity and political independence of China, is at stake once under the guarantee of the League of nations.

## My Garden

What and How to Profit From Small Plot in Back Yard.

My husband won't eat carrots and I like them. He is fond of green onions and I like them. When it came time for us to decide how much of this and how little of that we were going to grow in our garden naturally he wanted to grow garden onions in about every other corner. Mr. Miller marked off his spots for cabbages.

Finally we compromised, as many another married couple has learned to do. We planted a lot of onions, because they're good boiled, too. We also had carrots enough to last us all winter.

What shall I sow. That's a question puzzling to many garden makers. If you're making garden to sell vegetables grow those things you can harvest earliest, before the large truck gardens produce their big crops. If you're making a home garden, grow the things your family likes best.

But don't forget that some things take up altogether too much space for the average small backyard garden. Melons, cucumbers, squashes, pumpkins are great ground coverers. Better buy them, and raise such small space eaters as onions, lettuce, radishes, herbs, beans, peas, carrots, nasturys, parsley, spinach, etc.

Potatoes, corn, tomatoes, cabbage take up much room, and should not be planted in a small garden, although as a rule, there is a sunny space for tomatoes, a few of them even for the smallest backyard. Tomatoes are much better fresh and ripe off the vine than when pulled half grown and allowed to ripen on the way from the truck farm.

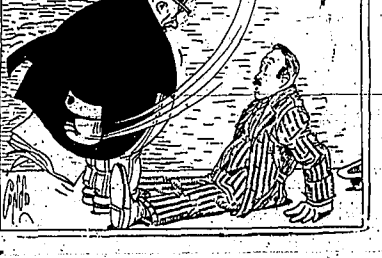

That's true, too, of sweet corn. No one need be taken in by the big ears of corn unless he takes it from his own garden stalk just before it is wanted in the kitchen.

So if you have only a fair-sized lot, and you like sweet corn and tomatoes, plant 'em. We did, but from

GO TWENTY INNINGS TO NINE RUN TIE

Philadelphia and Brooklyn, Without Change of Pitchers, Battle, Tied Darkness Ends Contest.

By the Associated Press. PHILADELPHIA, April 30.—Philadelphia and Brooklyn battled twenty innings to a nine run tie in the final game of their present series here today.

Brooklyn led 5 to 4 until the eighth when the Phillies scored two runs. An error by Texas catcher Heckman, who ran for Krueger, to score the tying run in the ninth.

A sensational home run by Myers in the 19th with Olson and Griffith who had singled, on the bases that gave Brooklyn three runs and what appeared to be a victory.

Griffith's muff of Williams' fly in the local's half of the 19th started their rally.—Baneroff forced Williams and Luderus and Whitted singled and after Hainy tapped to Grimes, Meusel batted for Pearce and walked. Cravath, pinch hitting for Cady, batted the half against the right field wall for two bases, but Meusel was run down at third as he heated there.

Score: R. H. E. Brooklyn 9 22 3 Philadelphia 9 15 2 (Called twentieth inning account of darkness). Batteries: Grimes and Krueger and M. Wheat; Oeschger and Cady, Adams.

NEW YORK 4, BOSTON 2. BOSTON, April 30.—A three bagger by Doby and Zimmerman's sacrifice fly tied the score of today's game in the ninth inning and in the tenth two errors gave New York three runs and the game 4 to 2.

Score: R. H. E. New York 4 10 1 Boston 2 10 1 Batteries: G. Smith, Jones, Cusey and McCarty, E. Smith; Nehf, Northrup and Wilson, Trefeggar.

CHICAGO 4, ST. LOUIS 0. CHICAGO, April 30.—Phil Douglas today shut out the St. Louis Nationals while the Chicago club made eight hits off Steadman and won 4 to 0 in a rather one-sided game. Turner Barber, who replaced Mann in left field scored three of the Chicago runs, striking two triples and a double in four times at bat.

Score: R. H. E. Chicago 4 10 2 St. Louis 0 4 2 Batteries: Meadows and Snyder; Douglas and Killefer.

SENATORS PROMISE TO REMAIN QUIET

Lodge and Quirk Receive Replies to Telegrams to Their Republican Colleagues.

By the Associated Press. WASHINGTON, April 30.—Replies were received today from several public senators to whom Senator Lodge of Massachusetts, republican leader, and Senator Curtis of Kansas, whp, yesterday sent telegrams asking them to refrain from discussing the revised League of nations covenant until a republican conference could be held to determine upon the republican attitude toward the document.

Senator Curtis said that about five senators how absent from Washington had replied approving the suggested course. The names of those from whom answers were received were not made public. No date for the conference has been selected.

Republican senators continued to withhold discussions of the revised covenant until although several including Senators Borah of Idaho and Johnson of California are understood to contemplate issuing statements within a few days.

Senator Chamberlain of Oregon, Democrat, in a statement tonight announced his support of the revised covenant.

"There were certain fundamentals," the Oregon senator said, "which I thought ought to be left out and others which I thought ought to be included—and which were not so included. As the constitution of the league now stands these fundamentals have been excluded or included to meet the objections which I had, and it seems to me that it would be unfortunate for the world that the league should be held up or defeated by the minute except on account of an overwhelming emergency.

"It seems to me that if the league of nations and the peace treaty is signed and agreed to, it is better for world peace that America does not assume the responsibility of detaching it for any slight reason."

KING APPROVES DRAFT

SALT LAKE, Utah, April 30.—Senator William King of Utah, in a statement issued tonight declared that the amended draft of the covenant of the league of nations greatly improved the original and in his opinion met the objections urged against the adoption of the original draft. Senator King's statement said: "In my opinion the amended constitution will meet with the approval of civilized nations and the hearty support of the country and will be ratified by the senate. The amended draft of the constitution greatly improves the original and removes any valid objections urged against the adoption of the original draft."

Volume Produced By America In 1918 Never Before Approached.

CONSUMPTION GREW DESPITE MR. HOOVER

Farmer Rallied to Call of Nation and Produced Livestock to Marvel of Nation.

WASHINGTON, April 20.—American dressed meat production, including lard, amounted in 1918 to 20,129,800 pounds—a quantity never before approached in magnitude by the livestock industry of this or any other country. The corresponding figure for 1917 was 16,317,300,000.

Three-fourths of this enormous increase was in pork and one-fourth was in beef. The meat surplus in 1918 was so great that extra export demands made little impression on it, although export shipments of meat and lard nearly doubled the 1917 figures—rising from 1,218,000 tons to 2,380,000 tons. The value of these exports was \$1,100,000,000—more than three billion pounds—and these figures do not include shipments to American military forces abroad.

Consumption Shows Increase. The aggregate production of dressed meats and lard in the United States was approximately 14 1/2 billion pounds, but in 1918 it rose to seventeen and one-quarter-billion pounds. This means, after allowing for increase in population, and the fact that 23 more men, women and child in the country—despite the food conservation campaign which in 1917 caused consumption to decline considerably.

"While the people as a whole thank the assistance exerted in the immediate crisis, it was the farmer who was the really big factor in the ultimate success," says the Bureau of Animal Industry, United States Department of Agriculture. "The production of meat and lard in 1918 has been so great that it has not only met the demand in this country but has also met the demand in other countries. This is a single year the meat shortage was turned into a pronounced surplus. Thus in 1918 there was not only meat enough to supply all foreign demands compatible with the best interests of the country, but a greatly increased quantity was available for home consumption.

Pork Prices High. "To be sure, it cost the farmer more, much more, to feed his animals and get them to market, but the beef and pork he sold to the consumer became more costly, hence the high prices. But the unprecedented prosperity of the people as a whole enabled them to afford the increased cost. In fact, laboring people probably had the most plentiful of any class of food in the previous times.

The total number of cattle slaughtered in 1918 is estimated at 16,750,400 as against 13,728,900 in 1917. Their average weights were practically the same for both years, and the beef production was 5,636,000,000 pounds in 1917 and 7,641,000,000 pounds in 1918. This was a remarkable achievement, as it hardly would have been credited that beef growers could increase their production a billion pounds in one year.

Hog Increase Tremendous. The hog matures quickly, therefore a much more rapid increase would be looked for than was the case with cattle. Even so, the results for 1918 can be described as phenomenal. The hogs marketed in 1918 numbered 69,684,700 as against 57,483,800 in 1917. Furthermore, the average weight of 9 1/2 pounds more per hog in 1918. Thus when the animals were turned into meat, the production was 1,122,564,000 pounds in 1918 as against 8,478,230,000 pounds in 1917, an increase of 2,747,355,000 pounds or 32 1/2 per cent nearly one-third.

Irking Increases in exports and the fact that the average shipments abroad in 1918 were 24 per cent more than in 1917—the chief 1918 items being 514,000,000 pounds of fresh beef and 141,000,000 pounds of canned beef. Exports of pork and lard were 1,218,000 tons in 1918 as against 619,000 tons in 1917, an increase of 71.7 percent more than the quantity sent abroad in 1917. The bureau shows that in the aggregate more meat by far is eaten in the United States than in any other country in the world—largely because of the fact that the standard of living which means a larger per capita consumption. It also says that there is room in the United States for the great expansion in the use of mutton and lamb.

TERORISTS BOMB

(Continued From Page One)

Although the public was cautioned as to the opening of strange packages, the department's detective force realized that if all the infernal machines put in the mails have not been recovered, it is the department's job to get them out of the country.

Every branch of the business of communications was set to work to this end, starting with the men who take mail from street boxes, and ending with the carriers who deliver it at office and home. Not content with these precautions, steps were taken in Washington to safeguard officials to whom other dangerous bombs might be sent. Personal orders went to all departments, including the courts, so that if no possible chance will strange bundles pass, they not spread out to see them.

Groups of men of known anarchist sympathies in New York, Philadelphia, Boston, Chicago and other large cities have been under close surveillance by secret agents of the department of justice and the treasury secret service for several months, particularly since the attempted assassination of Premier Clemenceau in Paris. It was said today that the agencies know where they can find anarchist leaders at this time and are in position to arrest them if there is evidence that they were responsible for maintaining the infernal machines and placing them in the mails. These agencies will cooperate with the postal inspectors in running down the criminals, placing them at the disposal of the courts and being gathered in past months which might shed light on the bomb outrages.

DETECTIVES ON LOOKOUT

NEW YORK, April 20.—With the discovery in the New York postoffice today of infernal machines in a package to halt a "bomb" which has been delivered to prominent men in various cities, federal detectives tonight were endeavoring to run down the organizers of what is believed to be a nation-wide plot to assassinate prominent states and city government in official and private life. Bombs have been delivered at the homes or offices of former Senator Thomas W. Hardwick, of Georgia, Federal Judge Kennasaw M. Landis of Chicago, Mayor Daley of Boston and Senator District Attorney Charles E. Fickett and his assistant, Edward M. Cushman of San Francisco, and Representative John L. Burnett of Alabama. Among those found here today were bombs addressed to Secretary of Labor Wilson, Postmaster General Burleson, Attorney General Mitchell Palmer, Chief Justice Oliver Wendell Holmes, John D. Rockefeller and many other prominent men.

No Victim Is Hurt

While, so far, none of the men for whom the bombs were intended have been injured, Mr. Thomas W. Hardwick and her mail were severely injured by the explosion of the bomb intended for the former senator which was received yesterday, and Representative Burnett narrowly escaped injury by the explosion of the bomb addressed to him, which was received yesterday.

Officials tonight refused to comment (on the motive of the wholesale bomb-landing, but it was declared significant that the discoveries were made on the eve of "May day" which has been the subject of a series of demonstrations will take place. Agents of the department of justice said they believed the mailing of the bombs was timed to cause a "wave of terror" on May day, observed throughout the west by powerful labor organizations, but the most pronounced callous. It was recalled that radicals in this country had threatened a demonstration on May 1. In behalf of Thomas J. Mooney, inferior source of the imprisonment in

California for murder in connection with bomb outrages.

Suspect T. W. W.

From all the information available tonight, it was ascertained that all of the bombs hoped to exterminate every one who has been prominently involved in the prosecution of deportation of members of the I. W. W.

Not only were officers of the Immigration bureau marked for destruction, but also the authors of the bill which would have stopped immigration for a year. This measure would have made it difficult for Italian radicals to gain access to this country.

All of the bombs were identical in form and material, it is said, and all were packed in the same manner with fictitious tags, bearing the name "Gimbel Brothers, New York," on them.

At the same time a warning was issued to all district attorneys' offices to all "public officials," especially judges, to watch for packages which might be delivered to them and which would be thrown around the criminal court building.

The addresses on these packages secured here were all typewritten. The style and a couple of minor errors led officials to believe that the addressing was done by a foreigner. The addresses were inaccurate in many cases, as disclosed by the list as follows:

- William Wood, Boston, Massachusetts.
- Mr. Fred K. Howe, Commissioner of Immigration, New York.
- Hon. Mitchell A. Palmer, United States attorney-general, Washington, D. C.
- Mr. Anthony Caminetti, bureau of immigration, Washington, D. C.
- Hon. William B. Wilson, secretary of labor, Washington, D. C.
- Richard J. Joyce, Dyre, Chester, Pa.
- Mr. William H. Lamar, solicitor-general, Washington, D. C.
- Mr. W. H. Finch, dept. of justice, New York.
- Hon. A. B. Burleson, postmaster-general, Washington, D. C.
- Hon. J. P. Hylan, mayor, New York City, N. Y.
- Rich E. Enright, post office commissioner, New York.
- John D. Rockefeller, Tocantillo Hills, Turkey, N. Y.
- Dr. William I. Shafer, attorney-general, Harrisburg, Pa.
- Governor William C. Sprull, Charleston, S. C.
- Hon. Oliver Wendell Holmes, United States chief justice, Washington, D. C.
- Mr. J. D. Morgan, New York City.

A slip on the part of the sender of the infernal machine coupled with the slip of a postoffice clerk, were all that prevented the bombs from being delivered. The sixteen packages were mailed Saturday night in a box somewhere in the neighborhood of 30th street and Broadway. They had the correct postage for the parcel post and were sealed with red wafers and therefore acceptable only as first-class matter. Accordingly, they were sent to the chief postoffice to be referred back to the sender.

Each parcel had the name Gimbel Brothers printed on it and the department store was notified, but failed to answer. Early this morning Charles Keating, a postoffice clerk, while on his way home from a newspaper in the neighborhood of 30th street and Broadway. They had the correct postage for the parcel post and were sealed with red wafers and therefore acceptable only as first-class matter. Accordingly, they were sent to the chief postoffice to be referred back to the sender.

It contained a small ball fastened to the top of a polished brasswood cylinder such a manner that the cylinder could not be opened without breaking the bottle. The breaking of one bottle would result in a package which in turn would ignite three fulminate of mercury caps resting on a piece of dynamite. The whole bomb showed evidence of skilled workman's ship.

Later in the day, representative of Gimbel Brothers had been affected by the coffee declared "the wrappings had never originated in the department store. It pointed out that the outside of the box was of rough paper, as would be used by any department store for mere wrapping purposes. The inner box containing the wooden cylinder was also made of a very fine grade of green cardboard, which is ordinarily used in the department store. It measured eight inches in length, two in depth and two in width.

On the back of each parcel was stamped in red: "Novlette—a sample." Inspector Cochran expressed his belief that this was an invention effort on the part of the sender to induce the secretary of an intended victim to hand the parcel unopened to his chief. "The officials who are in charge of the investigation believe that the very carelessness of the sender would be the assassin's preparations may prove their undoing as affording certain clues to their identity."

HONOR MEN LONGLEY

A charming little dance was given at the Parish hall last evening honoring Mr. C. L. Longley for his war service. The affair was given by one of a number of affairs given recently for Mr. Longley who will soon leave for Minneapolis where he will make his future home. At the close of the evening the hosts served a delightful refreshment.

TO SALT LAKE ON BUSINESS

J. A. Dodd left for a short business trip to Salt Lake last Wednesday morning.

United States Senator Thomas W. Hardwick of Georgia, who yesterday received through the mails an infernal machine which was being shipped disguised, containing a bomb, Mrs. Hardwick and nursing a negro maid, said tonight he was convinced the attempt on his life was due to his efforts as chairman of the senate immigration committee to restrict immigration.

Mrs. Hardwick was said tonight to be resting comfortably, although she received several painful cuts and burns. Ethel Blaine, the negro maid, who had both hands blown off and the sight of one eye destroyed by the explosion, probably will die, it was said tonight.

FIND MORE BOMBS

NEW YORK, April 20.—Postoffice officials tonight said packages found, but to those in which bombs were discovered here today, were being held in postoffices along the Pacific coast.

WATCHING AMBASSIORS

SAN FRANCISCO, April 20.—Postoffice officials tonight said they were watching the movements of the public consuls' offices tonight that no suspected packages that might contain bombs were being held for investigation, but that greater care was being taken in the distribution of parcels and packages of all kinds.

TOO PLINY FOR WORDS

NEW YORK, April 20.—"We are not dynamites and bombers and our friends are not bomb throwers," was the comment of Mr. Thomas J. Mooney tonight when told the details of the arrested plot.

"I suppose however that by some egregious mode of reasoning the officials will reach the conclusion that we find a hand in the affair. It is too funny for words."

Mr. Mooney arrived in this city today to attend a Mooney mass meeting at Madison Square tomorrow night at which he will speak.

FILER SOLDIER IS KILLED IN WOODS

Russian Aid Who Worked Way Into Ashton Branch of Soldier

—Accident Victim.

Funeral services over the remains of John Weston, aged 30 of Filer, and one of Twin Falls county's soldiers, were held yesterday afternoon at Filer.

Private Weston, who had been selected in his efforts to get into some branch of the service in April, 1919, after numerous turn-downs, was killed by a falling tree in the woods near Arlington, Washington. Weston, who was a Russian by birth, had seen duty, charged from the service in September, but had remained in the woods after his release. The deceased soldier had a large number of friends in the Filer section where he had resided for five years before entering the army.

When war broke out the young Russian was among the first to present himself to a recruit office. All participants had been in the land devastated by the Germans in the drive on Warsaw and he had not received a word from the front. Later inquiries made through army channels developed that the entire population of his home city had been scattered by the Huns and that no trace could be obtained of them, while doubt was expressed that any of Weston's relatives had come out alive.

Six soldiers acted as pall bearers at the funeral in Filer yesterday.

During his residence in the west one town he had resided with H. C. Parsons of the county treasurer's office and with J. C. Madrell.

4000 SICK ANY WOUNDED

6000 SICK ANY WOUNDED TO AMERICA

Will Be Released and Care For In San Francisco and Carol For In Hospitals.

By the Associated Press. SAN FRANCISCO, April 20.—An agreement whereby approximately 4,000 wounded and ill Czech-Slovak soldiers will be brought from Biber to San Francisco, and Victoria, B. C. for treatment has been effected by British, American and Czech-Slovak officials. It was announced here tonight by officials of the United States shipping board.

Under the contemplated plan, it was said, two thousand soldiers would be brought here and the remainder to the British Columbia port. It was said measures would be undertaken to overcome ship shortage conditions, the only bar to the immediate transportation of the men.
