WOULD DEPORT ALL FOREIGN RADICALS

By the Associated Press. PARIS, May 1.—Serious disturbances occurred today in Paris on the occasion of the celebration of May Day. French blood flowed in the streets and weapons that so lately had been used against the foe were turned against countrymen.

By the Associated Press. KANSAS CITY, May 1.—Mayor Ole Hanson of Seattle, opponent of the I. W. W. and Bolshevism, tonight addressed an appeal to mayors of all cities in the United States, urging the closing of all I. W. W. halls, imprisonment of the leaders and the suppression of the red flag. The appeal was contained in a statement given out tonight.

Particular efforts were made by the mob to invade the Place de la Concorde and reach the chamber of deputies and the ministry where demonstrations had been planned. It was in these attempts that the casualties occurred.

The first bomb to be delivered of the mob was sent to Mayor Hanson's office. He was away at the time.

"Long live the police!" the crowd shouted at the Madeleine in the Place de la Concorde as they surged toward the soldiers and with pale, drawn faces the infantry withdrew and allowed the mob to reach the Place de la Concorde against a wall of pitiless policemen and determined cavalry.

Declaring that the rioting reported in many cities was the evidence of the making of Bolshevism and I. W. W. Principles, Mayor Hanson urged that mayors call upon the national government for the deportation and punishment of all anarchists.

Then shots rang out. One policeman fell, slightly wounded. The cavalry charged and along the Rue Royale the mob wavered, backed toward the Madeleine church. Here also a man was wounded and a woman slain. The remaining mob, however, remained motionless, horns trampling eight or ten entrenched formations flitting the street from the Rue St. Honoré to the Madeleine church.

He declared that the "reds" have a vast organization in every country in the world and to overthrow them all, including ours.

One policeman said to the Associated Press correspondent as shots were heard a hundred yards distant, "They are firing at us and I have a gun (producing a loaded weapon from his coat pocket). But I cannot fire on my own people."

He sought to overthrow the "reds" but a vast organization in every country in the world and expect to be able to overthrow all governments, including ours.

At the Place de la République, the most populous quarter in Paris, all night, the squares were strongly guarded, cavalry charging repeatedly and the crowd turning to the Place de la République and to the Bastille. The crowd "obeyed" singing the "Marseillaise."

He declared that the "reds" have a vast organization in every country in the world and expect to be able to overthrow all governments, including ours.

"Don't mind the police. The soldiers won't hurt you. In one year and for fifteen months I have been fighting for you. I have lost my right but I am not sorry for it. I have saved my country and myself. But I would regret deeply if French blood flowed today."

He declared that the "reds" have a vast organization in every country in the world and expect to be able to overthrow all governments, including ours.

Summary of the International Situation

The peace congress at Versailles has formed a negative conclusion. The world had awaited since the signing of the armistice on November 11 last year has at last arrived.

The German peace delegates had met the representatives of the allied and associated powers and the accord between public has carried out the first preliminary which probably will mean a return to actual peace in the not far distant future.

Severely five minutes were taken up with the proceedings. The formality of addresses was entirely dispensed with. When the brief conference ended the Germans left the Trayan hotel for their place of residence.

President Wilson did not attend the session. Neither did Mr. Clemens, French premier, and David Lloyd George, British prime minister, who were represented respectively by Jules Cambon and Lord Hardinge. Harry Wilson represented the United States and Ambassador Baugh, Japan. The Italians were unrepresented.

No official information has yet been furnished as to the exact date for tenting the peace treaty to the Germans. Friday, Saturday and even Monday have been unofficially mentioned as the probable momentous day.

The Japanese question, having been settled, and neither side to the controversy over Italy's claims to Fiume and the Dalmatian coast, having received a tentative decision of seeking to continue discussion of them, Thursday a peace conference recess was relatively quiet. Numerous small details of the peace treaty, including the disposition of the German cable lines, were discussed by the council of three in the morning, while in the afternoon there was a meeting at the French foreign ministry of the council, the foreign ministers and members of the staff.

Each house of the Chinese parliament have protested against the award of Kiao-Chow to the Japanese and requested the unconditional return of this strategic seaport to China, and the return of the Shantung peninsula. China's delegates to the peace conference have asked for an official statement of the Kiao-Chow decision by the council of three.

An appeal has been made by the American government for cessation of hostilities by the Bulgarians, who recently have been making their way rapidly toward Budapest. A similar proposal has been made by the Japanese.

WATCHING FOR BOMBS. "Every effort will be made to prevent any suspicious packages being delivered to Congressman Smith on his return to Twin Falls, Idaho, yesterday afternoon for the purpose of reading the bomb orators against congressmen and others who have made an attack on the I. W. W. and have stood for restricted immigration. Congressman Smith is one of many representatives who have declared themselves on this question."

SHIPS TO SOUTH AMERICA. By the Associated Press. NEW ORLEANS, May 1.—The New Orleans and South American Steamship company will begin its monthly service to the West coast of South America, only in June, officials of the company announced here tonight.

ONE IS KILLED HUNDRED HURT IN MOB RIOTS

Cleveland Reds Ruin Down By Police and Returned Soldiers.

TANKS EMPLOYED TO QUELL DISTURBANCE

Eleven Policemen Shot Or Clubbed By Fanatical Socialists During the Riot.

CLIVELAND, May 1.—An unidentifiable man was killed by a detective's bullet. 11 policemen were shot or clubbed and about 100 persons wounded, many seriously, in general rioting which brought a dramatic finale this afternoon to a socialist May day demonstration here. About thirty persons, seriously injured, are in hospitals tonight, while scores others, including women, were trampled by rioters and clubbed by police.

Socialist headquarters were totally wrecked by angry civilians bent on putting an end to the demonstration.

Police Commissioner Duffelle has informed the German consulate that rules have been made with regard to them. He told them they were warned that they must not leave the triangle of 250 acres reserved for the German delegation. Any infringement would mean their arrest and probable expulsion.

Thirteen Police Headquarters. A mob of several hundred of the rioters threatened police headquarters when C. E. Rutenber, socialist leader and former socialist candidate for mayor was arrested, and for more than an hour the entire downtown section of the city was a seething mass of socialist, police, civilians and soldiers, the latter riding down the rioters.

The trouble in the public square started when Lieutenant J. B. Bergen, who served with the 80th division overseas, demanded that general orders among the socialists on the platform, remove the uniforms of the rioters they were on their breasts.

The rioters refused and C. E. Rutenber, scheduled as the principal socialist speaker, interceded for Lieutenant Bergen, followed by Lieutenant John Hardy of Detroit, mounted the platform and tore the red insignia from the khaki uniforms. The act was the signal for a grand rally by thousands of socialist sympathizers.

Mounted police, who had rushed away to other riot clubs, dashed back to the public square and rode down the fighting mob, using their clubs and batons.

Truck rioting broke out here tonight during May Day celebrations adding, slight more to today's list of wounded. Police Lieutenant Mosker was shot in the shoulder and a patrolman seriously hurt when they charged a crowd of about 200 into the street.

RADICALS ARE ARRESTED. CHICAGO, May 1.—A score of arrests were made in the May day demonstrations of radicals in Chicago today. An all day rain and police activity had the effect of quelling any further rioting.

Mounted police, charged and dispersed a crowd of socialists who attempted to reach the hall. They were allowed to hold a meeting.

Germans to Be Handed Treaty Early Monday

By the Associated Press. VERSAILLES, May 1.—In a session beginning at 3:10 o'clock this afternoon and lasting barely fifty minutes, the German plenipotentiaries of the German plenipotentiaries presented their credentials.

It was the first step in the peace negotiations. The German plenipotentiaries were presented to representatives of the allies and the United States.

WILL HAVE 15 DAYS. PARIS, May 1.—The German delegates to the peace congress will have fifteen days in which to consider the treaty and make any counter proposals they desire. It was learned today that they may begin offering their suggestions at any time, but no grace will be given them. Representatives of the allies, it was stated, reserve the right to reply to any of the German objections or proposals at any time but the host is expressed that no more than five days of grace would be required for closing the exchanges of ideas.

The council of three is proceeding with their deliberations, unhampered by the absence of the Italian delegates. Italy still is regarded as a member of the conference.

The Italian ambassador was formally asked today to be present at a meeting Monday when the organization of the league of nations will be considered.

Information coming from French sources tonight is that a secret plenary session of the peace conference probably will be held Saturday and the meeting with the Germans for the handing over of the peace treaty will be held Monday afternoon.

Police Commissioner Duffelle has informed the German consulate that rules have been made with regard to them. He told them they were warned that they must not leave the triangle of 250 acres reserved for the German delegation. Any infringement would mean their arrest and probable expulsion.

COAL COMPANY SUED FOR \$4800 OVERMISS REFUND

Nebraska Bought Fuel At Price in Excess of That Fixed by Director Garfield.

By the Associated Press. LINCOLN, Neb., May 1.—The Nebraska state board of control this evening announced that it had received a letter from the United States fuel administration holding that the Victor American Fuel company of Denver must refund to the state of Nebraska \$4,800 in overcharges for coal furnished the state. It developed that a legislative investigation that the board of control had contracted for coal from a company at a price of \$2.20 a ton at the mines when the government fixed price was from \$1.60 to \$1.70 a ton. The fuel administration says the difference must be refunded.

POLICE POLICE TROOPS

Hold Back Soliders From Raid On Mooney Meeting.

USE THEIR CLUBS ON BOYS IN UNIFORM

May Day Red Strike Forecasts General Meeting Unless Mooney Is Released.

NEW YORK, May 1.—The climax of the May Day celebration in New York came tonight with a mass meeting at Madison Square Garden which adopted resolutions advocating four general strikes, three five days duration and a fourth of indefinite length, unless Thomas J. Mooney and Warren K. Billings are released from prison or granted new trials before July 4.

The meeting tonight was the only one of a dozen planned for today which was not broken up by soldiers and sailors who demanded that the American flag be displayed and "The Star-Spangled Banner" sung. It was not the fault of the service men that they did not "hold up" the garden tonight. They tried hard enough but were overwhelmed by the police.

Police Block Soldiers. An army of 1,218 police, under command of Chief Inspector Daly guarded all approaches to the garden and held at bay more than 1,000 men in uniform, recently returned from France.

Led by a Scotch-Canadian soldier and a bugler who repeatedly sounded the assembly, the soldiers and sailors charged the police lines again and again but only to be beaten back. Back of the officers' job foot with night sticks held ready, were outposts of mounted men. They were reinforced by a strong provost guard.

One mounted officer, chasing the Canadian leader of the crowd and an American soldier pursued them on horseback into the main entrance of the Hotel Latham where the American flag was raised in a night attack. The Canadian escaped through the jazzoom. The police became more enthusiastic in their work after they had been pelted with a shower of bricks.

An American soldier, wounded by a shot on his back from a hospital in this city was knocked down and trampled on by a contingent of mounted police who charged the crowd where he was walking off. He was unconscious when carried away to an ambulance.

While the police and service men were battling in the rain outside, the Mooney meeting was proceeding.

During the day comparatively little disturbance involved radical celebration of the May Day in the United States. The most serious rioting occurred in Cleveland, where only one man was killed and more than 100 persons including 31 policemen, were injured. Next in importance was a battle between police and labor in Boston during which four persons were shot and many arrests made.

A riot club was souped up by Chicago when radicals attempted to hold a parade which had been forbidden. The police broke up the parade and many arrests were made. There were no casualties.

Soldiers Break Up Meetings. Soldiers and sailors in this city broke up several meetings at which ultra-radical meetings were convened and the police arrested many persons who were publishing plans to destroy the quantity handled a dozen meetings.

Police arrested a man who was breaking up a meeting at Madison Square Garden but were beaten off by a patrolman mobilized around the building. Scores of radicals in this city were beaten with night sticks.

Society THEIR PAGE Fashions

Most every woman in Twin Falls is now right in the midst of the dreaded house cleaning. The time-worn custom of cleaning in the spring of the year was started when the first house was built, and has continued down through the ages.

And every time they repeat this weary but exciting process they learn something new about how to do it. Here are "ways" you may have missed, that may give you a lift with a cleaning program.

Try deck chairs for an unruly kitchen on floor of wood with a tendency to splinter and war. If linoleum is too expensive a hard surface, easy to clean and good-looking can be obtained by three or four coats of wood-colored dead stain, mixed with a good-quality green and white tile design, and put it around the kitchen wall like window-casing. Finish the top with plain wood molding, painted white, and paper the upper walls with a tile pattern, washable paper to match.

Put on wiped off with a damp cloth each week and add tremendously to the appearance and cleanliness of the room.

To clean windows one housewife has discovered what she considers a wonderful plan that works, rain or shine. Wipe the dry window with a clean, dry cloth, then prepare a basin of warm water, adding one-third as much household ammonia as there is water used. Dip a small sponge in the water, squeeze almost dry, and go over the pane rapidly, rubbing hard. Wipe at once with a dry, lintless cloth or chamois. Use rubber or leather gloves, as the strong ammonia is hard on the hands. If no gloves are available wash the hands well after the cleaning, rub well with lemon juice, rinse and apply cold cream or a lotion.

Among the many charming May Day functions was the announcement luncheon given by Mrs. W. A. Flower for her daughter, Miss Mary Clark, an one-thirty o'clock in the afternoon.

The house was a bower of exquisite fruit blossoms which perfumed

the rooms with their fragrance. At one-thirty the guests entering the dining room were seated at a luncheon as well as artistically arranged table.

The table had as its center-piece a fairy May pole decorated in shiny colored ribbons. The place cards were in the same soft shades of the ribbon.

While seated at the table a messenger arrived bringing the announcement of the engagement of Miss Anna to Mr. Wendell Allen.

These brides were Misses Alma Denton, Fern Costello, Leslie Williams, Marie Roberts, Marjory Putman and Gladys Dwight, Mesdames Laird, Greenleaf, Rasmussen; Hatley, Gurdner, Wagner, Allen, Green, Smith, Taylor, Thigpen, Stigmanson, Brighten, Mayor and Miller. Mrs. Thompson and Mrs. Putman assisted Mrs. Flower.

The wedding is announced will be some time in June.

The Country Woman's club met at the country home of Mrs. Walkington yesterday afternoon. There were sixty members of the club present and five guests. The guests were Mrs. Brown, Mrs. Crum, Mrs. Gott, Mrs. Parrish and Mrs. Bralley. Mrs. Brown spoke on home dressmaking and plans were made to form a club to continue the study of the work. At the close of the afternoon the hostess served delicious refreshments.

Mrs. Len Chaplin gave a delightful May Day bridge luncheon last evening for a few of her friends.

The house was beautifully decorated with fragrant apple and peach blossoms. The table was cleverly arranged with dainty May baskets filled with May flowers at each corner acting as placecards, while a beautiful bouquet of orchard blossoms formed the centerpiece.

The guest list included Mrs. DeFreese, Mrs. Hugh Lewis and Mrs. Andrew.

Mrs. F. Little delightfully entertained the Panchero club at her home yesterday afternoon.

The house was artistically decorated with the beautiful orchard blossoms of the season.

This afternoon was spent with cards.

At the close of the evening the hostess served a two-course luncheon. The table was beautifully decorated with the same pink and white blossoms and the menu was worked out in the same color scheme.

The guests were Mrs. E. Turber and sister, Mrs. McFarland, Mrs. Heller and Mrs. Swank. The members that attended the meeting were Mesdames Parsons, Van Hornor, Chapin, DeFreese, Hurdolph, Kall, Lewis and Faris.

Plans are being made for a big picnic to be given by the County Women's club for the husbands some time the last of this month.

SUGGESTIONS COME FROM PARIS

By BETTY BROTON

Parisian suggestions are all ways on the way westward from Twin Falls. The latest is a skirt of white crepe de chine. The square yoke effect, embroidered, makes it a charming substitute for a separate corsage. Around the yoke, a yoke and edge of silk, a narrow binding of black crepe de chine adds the Parisian note of chicness and trim completion.

Questions in class and that the betterments discerned among the cadets has helped others in a similar manner.

"Our military course, while now an accomplished fact, has been of great benefit to the students," said Miss Johnson.

"Naturally the lads would benefit physically and they are presenting a much better carriage than formerly, but as of great benefit to them as the physical changes is the obtaining of a better presence when in class, a tendency to speak up more clearly and the overcoming of nervousness when addressed by a teacher."

"Does baby talk to little children ever stop at the highest school?" "I don't think so," answered Miss Johnson to a question as to the causes of the faulty speech of many students which has been attributed by some national educators to the habit of parents to speak to the younger children in this manner. "Neither," she continued, "I believe that it is to be attributed more to natural impediments in the speaking. But there is little or no such trouble found in the Twin Falls high school."

My Garden

What and How to Profit From Small Plot in Back Yard.

Buying the garden seed is not a mere incident of gardening. I have that before last summer, and my husband found it so. This year he's letting me pick the seed.

He came home with a basket full of all kinds of garden seed one evening.

"Thought these from a fellow whose going out of business, and had 'em left over from last year," he said proudly.

He spent the rest of the evening patting himself on the back for getting the garden seed so cheaply.

"But maybe they won't grow," I suggested. "Maybe they're too old, and we ought to have fresh seeds, even if we have to pay a little more."

Oh, No; I couldn't tell him anything. "What he know, he know."

Next day I told a neighbor about it. "She said her husband could test the seeds and see if they were good. That night he came over and explained to my husband all about testing garden seeds. Result: Three-fourths of the seeds purchased were thrown away. And I went out and bought fresh seeds.

It is better-and cheaper to pay top-notch prices for the best seed than to buy cheap stuff, which won't grow or if they do, will produce poor crops.

Last fall we saved much of our this year's seed, having saved the best plants for that purpose.

It is better to buy white to not how deep nor how far apart to sow, as every seed package contains explicit directions which should be followed. Usually the smaller the seed, the nearer the surface it is sown, and the heavier and larger the seed, the deeper it goes. This is variable, though, with soil, lighter seeds going deeper in soft, sandy soils than in hard, clay ground.

STUDENT RULE SUCCESS

Experiment with student government in the Twin Falls high school this year, has been so successful that it will be extended next year, according to an announcement of the school authorities. During the present year the students have had two representatives to whom infractions of school rules have been reported and these representatives in turn have reported the infractions to the highest school authority. Next year it is planned to allow the pupils to have a part in the punishment of offenders.

CLASS FIGHTS BECOME WARREN

Warfare that has been making headlines between the seniors and sophomores on one side and the juniors and freshmen on the other reached a climax last evening when the two units met in the city park in the hardest battle of the war. The contest had really started early in the morning when the seniors' colors were found waving from the top of the band stand in the park. Later the juniors were able to get the colors down, but the seniors made a counter-attack and re-took the colors in the morning. Another feature of the day's campaign was the injection into the arena of outside aid for the juniors. Several members of the alumni Tuesday evening decorated homes of the seniors with fringe, indicating their dislike.

REDS DESERT PETROGRAD. ESCAPE FINS

Karelians Add to Forces Batling Bolshevik-Rule In Russia.

SOVIET IN HUNGARY IS OVERTHROWN

Rule of Anarchy Breaking Under Force of Pressure From All Sides, Say —Reports.

By the Associated Press.
HELSINKI, April 30.—Petrograd is being evacuated by the Bolsheviks, reports from reliable sources say. Many of the inhabitants are being sent away and the Bolshevik government is taking rigorous measures to prevent the news of the happenings at Olonetz from reaching the people.

Olonetz, 110 miles northeast of Petrograd, has been in the hands of Finnish troops and Karelian non-Bolshevik forces since Sunday. This weakened the Bolshevik position in the region east and north of Petrograd and probably compelled the Bolshevik withdrawal along the Murmansk railway to the west of Petrozavodsk, 65 miles northeast of Olonetz. The Bolsheviks were last reported at Povenetz, at the head of Lake Onega, and about 75 miles north of Petrozavodsk.

The province of Olonetz is populated mostly by Karelians who are opposed to the Bolsheviks and who apparently have joined hands with the Finns against the Russian Reds.

HUNGARIAN RULE OVERTHROWN
By the Associated Press.
BERLIN, May 1.—The Hungarian government has been overthrown, ac-

ording to Vienna reports published in the Berlin newspapers. The Hungarian foreign war and food commissaries have arrived at Vienna with their families.

INDICATES 'BOLSHEVIK BREAK
WASHINGTON, May 1.—Evacuation of Petrograd by the Bolsheviks reported today in dispatches from Helsinki. In the opinion of observers here, may prove to be the final break in the structure erected by the red leaders which, if recent developments continue the normal course, would lead to the complete disintegration of the Bolshevik government in Russia.

This belief was strengthened by the incident telling of the indicated collapse of the Hungarian soviet who, it was said, have sued for peace with Russia.

—'Arranged Has Influence.
Allied successes in the Archangel and Murmansk sectors, although minor, or in conjunction with the great extent of territory involved, are expected by officials here to have material influence, especially when taken in conjunction with the forward movement of Czech, Estonian and Lithuanian forces on wintery apparatus sectors.

Analysis of the military map of Russia, maintained here for the information of the general staff shows that a great encircling of the center of Bolshevikism has been under way for months. The effect has been to throw a wall of anti-Bolshevik forces around central Russia, narrowing the territory held by the soviet to a comparatively small proportion of the area that they had once held.

KOLCHAK STRIKES WEST.
Troops of the anti-Bolshevik leader, Kolchak, according to latest reports, have been striking west in the general direction of Moscow, and now hold a general line through Olgov, Sarapul and Kinel, forty miles from Samara to Orenburg, on the Ural river white due north of Moscow, the allied Archangel front runs south to Volenga and the front to the Gulf of Olga where they meet substantially with the Murmansk coast sector.

The "ring" line is taken up in effect by the Finnish revolutionaries who hold the line down to the Gulf of Finland. The Czech-Slovak armies are actively engaged on a front which stretches from the Gulf of St. Mary to Peking, thence to the gulf at Narva.

Attention of the Bolshevik leaders is held to the east by the energetic Polish forces and, strangely enough, by German republican forces and to the south by the Hungarian and French.

The situation of the Hungarian soviet, is even more critical from a strictly military standpoint. The Czechs are pushing eastward toward Budapest and have already established themselves on a line from Vacs to Eperjes to Karpen, while the Hungarian forces are headed west toward the same general objective.

For Gratification of Conquering Nipponese.

By the Associated Press.
WASHINGTON, May 1.—Japanese administration in Korea was attacked by Dr. Byungnam Rhoo, secretary of state of the "provisional Korean government" in an address here today before the National Popular Government League.

"Japan has seized every available resource in Korea," said Dr. Rhoo. "She has forcibly taken the banks and the schools, and levied oppressive taxes. Her subjects take first place at all times, and Koreans are forced to hold the plow of menial and servile. Thousands of them, Korean children are employed at arduous labor at the plants of Japanese capitalists for five and ten cents a day."

"Japan has declared that she needed Korea for her surplus people. But what about Korean Korea is just as thickly populated as Japan, but this makes slight difference to the imperialistic ambitions of Japanese statesmen. They say they want an outlet for their immigrants and think Korea is an easy victim."

More than 10,000 Koreans have been killed and some 30,000 imprisoned, Dr. Rhoo asserted, in the suppression of the Korean revolution.

The State of Idaho sends greetings to Perry L. Kenner, the above named defendant.

You are hereby notified that a complaint has been filed against you in the District Court of the Fourth Judicial District of the State of Idaho, in and for the county of Twin Falls, by the above named plaintiff, and you are hereby directed to appear and answer the said complaint within twenty days of the service of this summons if served within said Judicial District, and within forty days, if served elsewhere; and you are further notified that unless you appear and answer said complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said complaint.

The said action is brought for the purpose of obtaining a decree dissolving the bonds of matrimony between plaintiff and defendant, and that plaintiff be awarded the custody of a minor child, and restoring plaintiff to her maiden name, upon the ground that defendant has willfully neglected to provide for plaintiff the common necessities of life, defendant having the ability so to do, as more fully appears from the verified complaint of the plaintiff on his behalf. Witness my hand and seal of the District Court, this 18th day of March, 1919.

To Telephone Users

The following is a copy of an announcement which was enclosed with May 1st Bills for telephone service:

No business institution can continue to operate indefinitely if its revenues are inadequate to meet operating expenses. This is precisely the condition that confronts the telephone business today, a condition brought about by increased material costs and increased living costs of employees, necessitating substantial wage increases, and very large increases in taxes, which has affected the telephone industry the same as it has every other industry.

In the last three years commodity costs have advanced an average of 112 per cent. The average cost of wire, cables, poles and all other materials has increased proportionately. Freight charges have been advanced to a point where they add materially to maintenance and construction costs. Meanwhile, telephone rates have remained practically stationary.

In order, therefore, to secure revenue sufficient to cover the cost of rendering telephone service, it has been necessary to make changes in some of the rates charged for service. These rates are authorized and approved by the Postmaster-General.

Under the revision, effective May 1, 1919, the class of service which you are now receiving is billed in accordance with the enclosed statement. If you desire information with respect to rates on other classes of service it will be gladly furnished upon request, and if you desire any other class of service proper adjustment will be made upon your application.

If it is hoped that you will continue the same helpful co-operation you have rendered in the past to the end that a reliable and satisfactory service may be rendered you.

This Company is operating its telephone property under the direction of the Postmaster-General for the United States Government and all of the revenues belong to the government, and it must secure sufficient revenue to cover the cost of rendering the service.

PEACE FLAGS

Everybody should have his peace flag ready for the glad day when the peace terms are signed.

The peace flag is made by putting around all four sides of the flag a border of white. On the American flag the border should equal four stripes in width.

This use of an emblem signifying a nation at peace with the world is not confined to the United States alone. Before the war forty-five nations displayed flags of this type at the Stockholm peace conference.

One of the most famous occasions on which the American flag was displayed thus bordered was when the flagship, the Cristobal, sailed through the Panama Canal.

The idea is a beautiful one, and the flag large or small, every home and public building should have one prepared for display on the Day of Days.

SPECIAL AND PARADE PERMITS

An ordinance has been proposed in a certain city council to prohibit street games and public meetings without a city permit.

It is meeting with the usual objections from the usual sources, is called unconstitutional and denounced as illegitimate.

These objections savor of the performances of children, who noticeably avoid parental consent when they know that their contemplated schemes are mischievous, when if they intend no harm, asking permission is no hardship at all.

It is the abuse of the privilege of free speech which has made it necessary to curtail it. It is the anarchistic parade with its red flag and its open espousing of the destruction by violence of constituted authority which has brought the parade under surveillance.

Recalling these facts, any loyal individual or group should be willing to apply for a permit to give publicity to its views.

On the other hand, those having in charge the issuance of permits should be of unquestionable loyalty themselves, and also free from narrow personal and political prejudice. They should be persons who, realizing the value of daylight, will grant publicity freely to propaganda, however freakish, which does not menace American institutions, and who will keep endless watch on the thing that is denied the light, lest it send out its evil rays far and wide in the dark.

THE BEER CLINIC

At what point does an alcoholic beverage begin to be intoxicating? The controversy continues without any conclusive results. A test carried out in Newark, N. J., however, is more than passing interest.

The Newark health department undertook to solve this vexing question with special resolution by the decision of New Jersey brewers to manufacture beer containing 2.3-4 per cent alcohol regardless of the federal law. Dr. Charles A. Rosewater, a representative of the health department, conducted what some impatient observers called a "beer clinic."

He assembled 10 men in a restaurant and proceeded to administer 2.3-4 per cent beer to them, carefully observing the results. The men are said to have drunk 10 centin pieces without exhibiting any noticeable symptoms of intoxication. Dr. Rosewater then concluded that 2.3-4 per cent beer is non-intoxicating.

Some people will question the accuracy of his conclusions. They will want to know whether the beer squad employed for the purpose consisted of

TAKE A TIP FROM THE TICKER

normal citizens. Perhaps they may fairly raise the question whether any man capable of holding 10 soldiers—presumably about 10 platoon—of beer at one sitting is not so thoroughly sponsored ideologically that his symptoms are undependable. And if, if any body can absorb that much liquor without staggering or seeing double or acting foolishly or losing the power of articulation, surely there is not much harm in a moderate quantity even for the most sensitive tippler.

It might be well to carry out the test on a wider scale. There would be no difficulty in finding willing subjects in any community.

THE DOLLARISM

A recent letter in the New York Times, entitled "The Dollarism," is worth quoting for its bearing on present conditions.

"One with, yachting experience," says the writer, "knows the depressing effect of tossing about helplessly in a tideway without wind enough to keep the boat in 'her course.' Minutes seem hours. The best of friends—each at one's own—yet, without spirit—fought to resist in vainly against the other's abuse.

"Suddenly the wind springs up. The handlubber lurching carelessly on the main sheet barely escapes disaster as the ropes become taut. The boat plunges through the water, and presently the harbor which all had given

up hope of reaching in any reasonable time is entered.

"The ship of state encounters similar conditions. At times she also is in the doldrums, seemingly drifting aimlessly at the mercy of every current. Then all at once a new spirit appears. Negotiations that seemed in a hopeless tangle unravel, and the desired goal is sighted."

"Gloom is for the defeated. It is not a fitting role for the victors."

SODA JERKERS KEPT BUSY

Explaining New War Tax

Good Nature Permits As Patrons Learn of New Collection On Luxuries.

"So where do you get that stuff, six cents for a coke?"

"Here it's six cents. Didn't you read in this morning's Chronicle that the luxury tax became effective today and that you got to pay your share of our war debt."

"My Joy, I did see that this morning. All right son, here's the six cents—guess I'll have to go a little lighter on my socks."

The first attack made on a "soda jerker" was thus easily settled but throughout the day yesterday the soda fountain workers of Twin Falls had a busy time telling their patrons that the cost of milking and going up some thought the idea were "kiddie" then, others cursed the war and the Kaiser while some young men had forgotten about the innovation that they read of in the Chronicle in the morning and had arrived at the soda fountain with their best girl only to equipment.

"I was spent yesterday afternoon at the Methodist pharmacy by my friend from the Chronicle. A member of the Majesty force has promised to take me out today to some other establishment and I will be well on my way in my journey in Twin Falls.

"The story of my travels will appear each morning in The Chronicle.

PEACE MISSION ASKS SUPPORT OF FIFTH LOAN

Urges American People to Finish the Job by Taking the Victory Loan

Four members of the American peace mission in Paris, Secretary of State Robert Lansing, Col. E. M. House, General Tasker N. Bliss and Henry White, have sent this message to the American people urging support of the Victory Loan.

"TO THE AMERICAN PEOPLE:
"We have had the opportunity here in France to see and realize the magnitude of the accomplishment of our country in this war and the magnificent spirit with which this great task has been carried through to a triumphant issue.

"What has been done and what remains to be done before normal conditions are restored demand your continued and united support with the same spirit of self sacrifice and determination as that which was manifested by the nation while the German armies faced our men at the Marne and in the Champagne, at St. Mihiel and in the Argonne. We must not relax our efforts until every soldier of the republic is landed on the soil of America.

"To finish this mighty task imposed upon the government of the United States a great financial burden. The Victory Loan must therefore be issued and it would indicate that the Nation is willing to leave its task uncompleted.

"To secure the ideals for which Americans fought and died this great demand on national patriotism and united effort should meet a generous and universal response. Let us do our duty to the end.

NAVY BONDS WILL SPUR PATRIOTISM IN VICTORY DRIVE

Maro Island Commandant Offers Marines and Jackies to Aid Fifth Loan

Captain Edward L. Beach, commandant of Maro Island Navy Yard, Mare Island, Cal., who was in command of the "United States" dreadnaught "New York" in the North Sea at the time the "maro" was captured, ever under the terms of the armistice, has offered three of the crack service bands stationed at Mare Island for use during the Victory Drive.

One of the bands will travel on the troby train which will tour all of the seven states, in the Twelfth District and the other two bands will be used in cities within a day's journey of Mare Island. One of these bands is the famous sixty-piece Marine Band and the other is the forty-piece Jackie Band.

Paymaster Ralph Phelps, U. S. N., has been placed in charge of the literary tour being made out for the two bands which will not travel on the train and any local committee desiring to make use of either of these two bands during the drive should communicate with him.

Complete Plans for Airplane Trip From America to Europe

These are the men in the Trans-Atlantic section of the office of the director of naval operations, Washington. In short, they're the men responsible for America's efforts to first cross the Atlantic by airplane. From left to right they are: Commander J. H. Towers, in charge; Lt. Commander G. de Chavater, operations and liaison; Commander H. C. Richardson, construction corps; Lt. Commander Patrick N. L. Bellinger, operations; Lt. Commander H. E. Byrd, navigation; and Lt. D. L. Smith, marine corps, material; Lt. J. G. Burtat, U. S. N. R. E., aerography.

By the Associated Press.
NEW YORK, May 1.—Three giant hydro-airplanes of the American navy will start on a date yet to be announced, probably early next week, on a 3,125 mile flight, in four stages, to the British Isles. The actual Trans-Atlantic route, details of which were announced today by Commander John H. Towers, in charge of the expedition, is a contemplated cruise, in two stages, aggregating 2,150 miles from Trepansey Bay, New Foundland, to Lisbon, Portugal, while the projected American and European coast-to-coast "stages" extend from Backwater point, Long Island, home stations of

the planes, to Trepansey, and from Lisbon to Plymouth, England. Flying at an estimated average speed of 75 miles an hour (45 nautical miles), the squadron, divided by 10-day notes, expected to cruise from Backwater to Lisbon without a stop.

The plan then is to proceed to Trepansey on the southeastern tip of New Foundland, where the planes would be given a week's "tuning up" before undertaking the trans-Atlantic flight. The second and longest jump, the commander added, would be from Trepansey to Horta, on the island of Bazel, in the Azores, 1,200 miles, or from New Foundland to Portugal,

the conditions were favorable to Plymouth, on the island of San Miguel, also in the Azores, 1,350 miles from New Foundland. The cruise to Portugal would cover eight hundred miles, completing the ocean trip thus leaving only the flight to Plymouth to be made.

The flight to Plymouth from America to England.

In his official announcement Commander Towers gave distances in nautical miles, which are equal to 1.15 statute or land miles. In the latter instance the projected cruise would be 3,600 miles, 2,475 of which is the route mapped out

from America to England.

South Idaho League Ball Players Given Tips on the Game on the "Big Time" by Famous Star Players

Indications that the present baseball season will be the most enthusiastic in the history of southern Idaho has prompted The Chronicle to secure from leading ball players of the country tips on how they play their individual positions. More young players will probably be in the lineup of the various teams of the league this year than ever before in the history of the game in this part of the country. Most of them will have the natural ability to make good, but little tips on the fineness of the game will not be amiss.

COAST LEAGUE

There are nine articles in the series, one on each position in the team, counting the outfield as one position, one on base-running and one on "bating." This series will close on the opening of the league season on May 11. For the pitcher:
Before taking up the different curve balls it would be well for young pitchers to get control of the ball. Control does not mean throwing the ball over the exact center of the plate, but in working the corners and in locating the ball where you know the batter is weak. Don't try to strike every man out, but save the arm as much as possible. Remember there are eight other players besides your-

self. Work in harmony with your catcher and take his advice as to what to throw. He has more opportunity to study the batter than you. Learn to field your position. A pitcher has many chances to handle a batted ball during a game and "bed" fielding on the "writer's part" would be fatal.

FAST AND SLOW BALLS

To throw the fast-ball grip the pill with the first two fingers on top and the thumb, underneath. Throw the ball with a swing of the shoulders and body as well as the arm.
For the slow ball hold the pellet with all four fingers and the thumb. Be sure and use the same motion for throwing each ball whether curve or straight. Mix these two deliveries with your curve as nothing will fool the batter more than a change of pace.
The fastball:
Keep the hand in an upright position; three fingers and the thumb. Drop the ball over the tips of the fingers and with a lateral motion to make it revolve. This ball is thrown with all the speed at your command.
The curve:
Grip the ball with the first two fingers and the thumb. Turn the hand downward. Let the ball pass between the thumb and the first finger, with the thumb "up" to give the rotary motion.
Grip the ball the same as for fastball, with the first two fingers and the thumb; the back of the hand, turned downward. Bring the arm up high and at the highest point of the swing, release the ball between the first finger and the thumb, pulling the arm back at the same time. Try to do this unconsciously. Do not jerk the arm too suddenly as this tends, in time, to destroy the arm.
The splitter:
Hold one side of the ball with the index and thumb if so it leaves the tips of the fingers with the same arm motion you employ for the curve. Throw it overhand from the drop and slide arm for the curve. Greater jumps will result in both cases.
Note to the Captain—Cut this out and give it to the pitcher on your team.

NOW ABLE TO START WORK ON MEMORIAL

Executive Board Organized With C. D. Thomas as President. TO SEEK PLEDGES TO BE PAID IN FALL Sufficient Funds Available to Match \$10,000 Appropriation of the State.

Organization of the executive board of the Blinnish Park Memorial association was completed at a meeting of the board yesterday afternoon. C. D. Thomas was elected president of the board, Mrs. M. G. Tipton, secretary and Carl J. Hahn, treasurer. Those with M. J. Swezey, Mrs. Carrie Harper White, F. L. Brockton and H. H. Stevenson constitute the executive board of seven, which will have charge of the work of raising funds for and constructing the memorial for the soldiers. Already enough money has been raised to match the sum appropriated by the state for the improvement of the park, viz. \$10,000, and further funds will be raised as rapidly as possible so that the memorial may be well under way when the boys return from France. Blanks will be printed at once providing for pledges for the memorial. Those pledges will promise to pay during the coming fall, after crop harvest has been gathered and money will be easier. The members of the board, together with the Victory Loan drive on, and the expenses of seeing to be met, the farmers will have their hands full for the summer months. The plan to ask for pledges payable in the fall. The money now available and such contributions as will come in cash in the meantime, will provide for the work to be done during the summer months. The members of the board will visit the park grounds and will inspect the site for the scenic roadway from Blinn Lake Boulevard along the rim-rock to the Falls. The limits of the state park will be explored and the lands needed for the Clarke property will be carefully examined. The presumption is that the Clarke lands can not be acquired by purchase at a reasonable figure, and that it will be necessary to condemn. However, an effort will be made to acquire the lands by purchase in order to avoid condemnation proceedings will be instituted. Attention was given to the character of the certificates of membership to be provided to subscribers to the fund. It is the plan to provide a certificate bearing the names of all those who have made the supreme sacrifice and those who have been wounded. Committees are now at work preparing these names. It is manifestly impossible to secure the full list of names until the boys have returned from France, so that in the meantime temporary receipts will be issued to those who subscribe. An active campaign for membership will be made in the entire county, and an intense agitation perfected to honor to those who have fought the fight for American ideals and world liberty. The schools, the churches, various societies and organizations, clubs—all will be asked to help in the work of perpetuating the names of our dead and in doing honor to those who have served in the great world war.

J., May 1.—An international exchange of fraternal greetings was one of the notable features of the opening today of the Pan-American aeronautical congress here. Of particular interest was the wireless message from Secretary of War Baker, who is in France. The message reads: "I send greetings to the second Pan-American aeronautical convention. Here is the first time the great triumph which has been achieved in aeronautics during the war." A cable message from Winston Spencer Churchill, war minister of Great Britain, read: "Oceans have divided us, may the air unite us." Hear Admiral Perry sent a word of congratulation, although he himself is ill and may not be able to come to the convention. He is the leader in the formation of the Aerial League of the World. President Mitchell, of Cuba, sent congratulations through Victor Bartrand, who flew from New York, and Captain A. V. Berio, of Uruguay, military attaché of the legation at Washington, brought a message to the convention from his president.

SEIZE BOMBS DESIGNED FOR SALT LAKE MAN

Packages For Senator King and Attorney Nebeker Found In Mails.

SEARCH FOR ORIGIN OF PLOT CONTINUES

Senator Oerman of North Carolina Saved From Receiving Package By Postal Clerk.

By the Associated Press.—SALT LAKE CITY, Utah, May 1.—Two packages bearing the labels of "Gimbel Brothers, 32nd street and 7th avenue, New York City," said to contain internal machines, were intercepted by postoffice officials here today before they could be placed in the hands of those to whom they were addressed: United States Senator William H. King and Frank E. Nebeker, who, as an assistant United States attorney general, prosecuted one hundred industrial workers of the World in Chicago last year.

The package addressed to Mr. Nebeker had been delivered to his office by a mail carrier, but was brought back to the postoffice late this afternoon by a clerk. A few minutes later C. S. Chambers, superintendent of mails in the local postoffice, found a familiar package addressed to Senator King.

Notified by Associated Press.—First information that packages alleged to contain explosives had been mailed to Utah—was received by the local postoffice through the Associated Press and immediately a list of prominent officials and men in public life liable to be objects of vengeance of radicals was compiled. This list included Senator King and Mr. Nebeker, Senator Roy Smoot, Governor William B. Fry, and Department of Justice Agent Dave Gershon and United States Attorney W. W. Roy. According to New York advices two more of the internal machines were in the mails enroute to Utah. One is said to be addressed to Senator Smoot and there is considerable speculation for whom the other is intended.

Both packages were labeled identically to those seized in New York Wednesday and were written in typewriter. No address was placed upon the package sent to Mr. Nebeker, but Senator King's home address was written upon his package. In both instances the addressing was correct with the exception that "Salt" was spelled "Sault."

Prosecuted I. W. W. Members.—Mr. Nebeker left here several days ago to attend to some business duties in Chicago. It was in the latter city that Mr. Nebeker earned the enmity of radicals when he successfully prosecuted one hundred members of the I. W. W. upon conspiracy charges, among those being sent to prison through his efforts being William B. Heywood. Since then I. W. W. trial Mr. Nebeker has been the recipient of several threatening letters, it is understood.

Sentinel King has been particularly bitter in several different speeches directed against the I. W. W. and other radicals. Just what particular vengeance anarchistic plotters desire to wreak upon Senator Smoot is not known.

"I Hate to Get Up In the Morning"

NEW YORK—Five-year-old Rosana Pagano has dropped a month out of her life. But Rosana doesn't miss it. Rosetta slept for a month in a New York hospital, a victim of the strange malady that has gone across the country. When she awoke, she hummed a little tune which sounded like, "Oh, How I Hate to Get Up in the Morning." Then she asked, "Where am I?" Nurses explained to her that she had been very sick and must lie very quiet for a while. But Rosetta insisted that she was not sick and wanted her dolls and wanted to know what her playmates at the kindergarten were doing. Rosetta was fed a pint of milk and two eggs each day through a tube while she slept, and she came out of her long slumber but two pounds lighter than when she went to sleep. Her eyes sparkle and she seems none the worse for the experience.

During his public life, however, he has taken a definite stand against all elements of lawlessness and organizations that threatened the peace and governmental structure of the country.

Days Gershon was particularly active against the I. W. W. while he was stationed in San Diego.

ORIGINATED IN NEW YORK, CHICAGO, MAY 1.—Although the national headquarters of several radical organizations are in Chicago, United States District Attorney Clegg said tonight he believed that the bomb plot directed against many of the nation's high officials and prominent civilians was originated in New York where all of the missiles thus far found were mailed.

Frank K. Nebeker, Salt Lake City attorney, who was chief of the government prosecutors against nearly 100 I. W. W. leaders convicted here last fall, blamed the I. W. W. today when told a bomb had been sent him. "If I was selected to receive one of the bombs then the I. W. W. organization is behind it," he said.

PROTECT PUBLIC OFFICIALS WASHINGTON, May 1.—Bullet was expressed by postoffice officials tonight that most, if not all of the bombs mailed May Day plot against the lives of public men had been found.

Counting of reports showed internal machines addressed to Senator Lee R. Overman of North Carolina, Senator H. King of Utah, and Frank K. Nebeker, an attorney at Salt Lake, Utah, got through the post office twenty-four hours.

The streets of a postal clerk at Salisbury, N. C., Senator Overman's home town, prevented the delivery of the machine to the senator. The ma-

chine was thought to be the fact that chairman of the senate committee in Washington to protect cabinet members and cabinet officials against bomb attacks. There were similar precautions in other cities and that with the entire postal service was working and watching to pick up stray internal machines, lying about like so many floating mines, but apparently dangerous only to those persons with curiosity enough to break the seals.

'ONE IS KILLED'

Two policemen were attacked by members of a crowd outside a hall where radicals were holding a meeting and a near riot resulted. Sixteen men and one woman were arrested. Red flags appeared on two elevated railway stations, on flagpoles in two parks and on a technical college building. They were removed.

Hand bills printed in red ink and bearing among other descriptions the words "walk today, fellow workers, under the red flag of revolution," appeared in small numbers in several sections of the city. Phillip J. Barry, chief of the local bureau of investigation of the department of justice, received a letter signed, "Committee of the Irish-American Party," threatening "you will get the same as the Russian czar." Mr. Barry didn't take it seriously.

Officials of the newly formed labor union at a meeting and issued a statement that an attempt to discredit labor and radicalism had been made, and the recently discovered plot to kill government officials and prominent civilians was being sent through the mails "by means by hirings of Wall street."

ENDOWISE RUSSIAN SOVJET.

DENVER, Colo., May 1.—Nearly six thousand workmen of the federated railroad shop crafters of Denver declared a one-day strike today as a protest against the failure of the government to take any steps to prevent the failure of the railroads. The strike was a demonstration in honor of Eugene V. Debs and other radicals now serving prison sentences. Only enough men were left in the shops to assure that trains could be kept running.

At a mass meeting of the men this afternoon resolutions were adopted urging recognition of the Russian soviet government, demanding the release of Eugene V. Debs and other radicals, declaring for a nation-wide strike of all railroad employes in case of return of the railroads to private management and demanding the re-employment of all employes of the Denver and Rio Grande railroad who were recently laid off under a re-employment policy.

GOVERNMENT IS WATCHFUL.

WASHINGTON, May 1.—Evidence on the series of May Day demonstrations by radicals throughout the country today was gathered by its department of justice agents in each locality and reports will be forwarded to the department here within a few days. The only report which had reached here tonight came from Cleveland.

BLOOD FLOWS

element had congregated a pitched battle lasted several minutes. The leader of the mob was a tall, red-headed woman, who urged her followers to assault the soldiers. Here again the infantry gave way but the cavalry and police held the crowd. At this point more than twenty persons were injured.

American officers and soldiers here were warned to avoid the streets and sidewalks and obeyed this order promptly. But the windows along the boulevards were alive with khaki uniforms. Here and there the crowd would shout: "Live the Americans."

Only one red flag was seen. It was promptly charged by the police. As night fell arrests were becoming more numerous. The crowd seemed less unruly and the police appeared to have the upper hand.

At 8:30 o'clock tonight calm had been reestablished everywhere in the city after the disorders of the day. According to police authorities, at five o'clock 75 persons had been dangerously wounded, fifteen more or less injured and fifty arrested as a result of the demonstrations.

To Wed Pershing Again the Rumor

General Pershing is soon to return from France, and Anita Patton, his marriage with Miss Anita Patton of San Gabriel, Cal., will take place—so says rumor. There isn't any confirmation of the rumor from interested parties from either side of the water. Last year Miss Patton denied reports originating in Paris that she was to marry the commander of the American expeditionary forces, after the war. Pershing is a close friend of the Patton family and a brother of Miss Patton has been on the staff of the general.

POLICE BATTLE

Red plans for the most gruesome May Day tragedy in history miscarried because of the accidental discovery of the bomb plot which had nation-wide ramifications. None of the score or more of internal machines entrusted to the mails has escaped its intended victim.

Explosives Were Deadly.—Explosive experts contend that the bombs were powerful enough to blow a man to pieces but only one person has been seriously injured by the deadly devices. That was a negro mail employe by former Senator Hayward. Three more of the dynamite-filled packages were found in the mails today. They were addressed to Senator Overman, who conducted the senate investigation into killing of Senator William F. King of Utah and to Frank K. Nebeker of Salt Lake, assistant attorney general, who was a special prosecutor during the I. W. W. trial in Chicago. Advices from Senator Smoot of Utah, it is known to have been mailed, but has not been traced.

New York apparently was the center of the plot, but no arrests have been made thus far although scores of agents of the department of justice, postoffice inspectors and detectives have scoured the city for some promising clew. The haunts of radicals have been carefully watched but the chief hope of success in the chase rests in the possibility of finding an internal machine here which may correspond with those of anarchists and radicals who have been arrested previously.
