## Hero Of France Humiliated By Desertion Charge

With six months' service in France to his credit as a member of the Sunset division and with an honorable discharge in his pocket to prove it, Jesse Simpson, a local farmer near Buhl, was arrested Friday evening by the sheriff's office on the request of P. H. Marrison, government agent of Boise, as a draft evader. An investigation yesterday disclosed that the charge, technically called desertion, was without basis. The veteran was released.

John Dewey King, another Buhl lad, aged 19, was arrested at the same time as Simpson, also on information from Marrison. An investigation of his case developed that King had originally tried to be sent into the service in the place of his brother; that he had received several notices of a call, but that in each case the notice had been cancelled later. Judge J. M. Shank of Buhl came to Twin Falls in the difficulty. He stated that the lad had registered before him and had waived exemption, although urged not to do so because of being one of three bro-

thers who own a farm in the Buhl section. King was released pending the receipt of definite information from the federal authorities as to the disposition of his case.

## School Notes

This is commencement week for the seniors of the Twin Falls high school. Above is presented the first of a series of cuts of the graduates to be printed by The Chronicle.

The biannual sermon will be delivered this evening at the Presbyterian church by Rev. A. Moore of the Christiania church. This will be the first of a series of affairs that will mark the close of four years' successful work of the 49 high school students who will receive diplomas Wednesday evening. The signs for the evening program will be arranged by the Presbyterian choir director, Austin D. Thomas.

The class play will be given Tuesday evening at the Lavering theater. Music for the occasion will be given by the high school orchestra. The class memorial address will be given by the president, Ralph Glasco. Dr. Ernest H. Lindley, president of

the Idaho state university will deliver the graduating address to the class of Wednesday evening.

The class will entertain at a dancing party Friday evening at the Coalition while the week's festivities will close Friday evening with a class picnic.

## FARM LOAN SYSTEM HANDLES 16 PER CENT OF BUSINESS

By the Associated Press

WASHINGTON, May 10.—The federal loan system is now doing about 16 per cent of all agricultural land loan business in the United States. A report on the farm land loan board today at the conclusion of the second year of operation shows that loans closed in the last twelve months amounted to \$120,000,000. The aggregate of farm loans made by all agencies, public and private, is estimated at about \$100,000,000 annually. The Spokane district has closed over \$20,000,000 in loans, more than any other.

The Omaha district is second with over \$29,000,000, St. Paul third with over \$18,000,000, and Houston fourth with over \$12,000,000.

By states, Texas leads with \$32,521,000; Iowa second with \$14,328,000; and North Dakota third with \$14,028,000, and Kansas fourth with \$9,007,000. The banks have a surplus of \$42,000,000.

## JAPS CELEBRATE

Removal of Capital to Tokio Commemorated in Fitting Style

By the Associated Press

TOKIO, Friday, May 10.—An impressive celebration of the 60th anniversary of the transfer of the imperial capital from Kyoto to Tokio took place here today. The emperor and crown-prince participated and the occasion was marked by a historic tribute from official Japanese to American Ambassador Roland S. Morris and through him to America and the valor of the American army.

## "Spring Poetry"

I don't know how to advertise the plants I've got to sell. Geraniums and pansies, and "free good" carnages, well, I guess they'll have to go to waste, three hundred thousand stions. Pepper plants and egg plants to help the world along.

I'm getting old and haggard, I think would go to rest; In that glistening, snow-capped, mountains up by the eagle's nest. I look just like a scarecrow on yonder rocky cliff; I'm blown about like tumble weeds, by every windy whiff.

Come thither with your Flier or your Cadillac with eight. Or bring along old Dobbin, but come at any rate. Tomato plants—a revelation, cauliflower plants and kale; Everything to fit your garden grown by old us Nightingale.

Close right by the city tower, seen for many miles and miles. We send by mail and all post paid, many plants, of many styles. Try us once, and satisfaction will your summer days make glad. But here we stand: Our money's gone; you see we've spent just all we had.

### NO DEAD LEVEL IN AMERICA

Secretary Daniels, when he is not running the navy, is a newspaper editor. His mind, therefore, naturally runs to editorial expression. Here are some remarks he made in a talk to some follow-Americans at Paris which serve as a pretty good editorial on the labor question, or socialism, or Bolshevism, according to the particular angle from which the reader chooses to regard them.

"The ideals of America," said Daniels, "are based first of all upon the ability of men of initiative and genius to get on in the world. We wish in America no creed, no politics, no government that denies to men of genius, character and skill the just returns of their brains and effort."

"It is equally true that we cannot carry out these ideals if we deny to labor the bread it has earned. We are never going back to old ideas of exploitation; but neither are we going to lose ourselves to that conception of socialism that puts every man on a dead level and denies the reward of brains and initiative."

There is in this a pretty good hint of the reason why the United States need, have no great fear of Bolshevism, or any other extreme form of socialism. Such systems appeal only to nations in whom there are great classes living in virtual slavery, with no hope of rising above it. From being on a "dead level" of economic serfdom, they dream of a dead level of economic mastery, not the ascer that when they become the master class, they will be little, if any, better off, because the individual will still be unable to rise above his surroundings to the height he is fitted for.

The story and hope of American life is its flexibility; or rather, its ability. The individual is free to move upward, and sink or rise, until he finds the place where he belongs. Thus, so far as we have classes, they are always passing by thousands from one to another. Sometimes they sink lower in the scale. Usually they rise. And there is no limit to the height to which any man, or woman, starting at the bottom, among unskilled laborers, may ascend.

"Our working classes," with the exception of the unskilled, the helplessly prejudiced and the illiterate, are not yet acquainted with our institutions, know this. There are agitators who deny such individual freedom, but facts all around them give them the lie.

## VICTORY LOAN

(Continued From Page One.)

made, and totals may swell to put the county over the top.

**TWELFTH GOES OVER.**  
**SAN FRANCISCO, May 10.**—John Calkins, governor of the twelfth district, federal reserve bank, in a statement this evening said that interest made him certain that the twelfth district was safely over its quota of \$201,500,000 in subscriptions for the Victory liberty loan.

**SAN FRANCISCO, May 10.**—Angels of the San Francisco and Los Angeles districts to reach their quota of subscriptions for the Victory liberty loan will mean, on the face of present returns, failure of the loans in the twelfth federal reserve district. John Eppin, chairman of the reserve bank board in San Francisco, said tonight:

"Over-subscriptions that are expected from some states in the district, Mr. Perrin declared, will not be sufficient to counter balance any great deficit in subscriptions from San Francisco and Los Angeles. A meeting of bank officers here earlier today on the twelfth district was being considered, he said.

Unofficial advice to the twelfth

district loan committee said Oregon, Utah, Idaho, Washington, Nevada, Arizona, Hawaii and Alaska had subscribed their quotas.

In response to an urgent request to Washington for an extension of time for San Francisco to reach its quota, the campaign is not close everywhere in the country probably at midnight. Subscriptions of \$46,000,000 had been tabulated early tonight against this city's quota of \$79,318,150.

## RELEASE OF OBJECTORS CONDEMNED

**American Legion Urges a Strong Hand in Dealing With Disloyal.**

### DEMAND AGITATORS BE NOW DEPORTED

**Aliens Who Evaded Draft and Others of Their ilk Come in For Mention.**

By the Associated Press.  
**ST. LOUIS, May 10.**—The American legion at the final sessions of its three-day national caucus today firmly declared its stand on Americanism by demanding that Congress take immediate drastic action concerning the I. W. W., internationalist socialists, aliens who evaded military service, and the action of the war department in granting honorably discharges to conscientious objectors convicted in courts martial of violating the articles of war.

The caucus of the newly formed organization was vigorously thrown into a wild riot of cheering, denunciations of military service evaders and radical organizations, voted by delegates from all parts of the country.

Oppose Pardoning Objectors.  
 The greatest demonstration came when Major Richard Foster of Kansas City, member of the general court, which convicted 135 conscientious objectors at Camp Funston, Kansas, of violation of the articles of war, denounced the war department and the "men responsible" for pardoning these men and granting them honorable discharges with full back pay.

The resolutions demanded that congress report all aliens who surrendered first papers to evade military service, all aliens now interned or paroled, all other men who evaded service, condemned the I. W. W., and international socialists for their efforts in behalf of the objectors and asked the immediate investigation of the action of the war department in pardoning the conscientious objectors.

**Sick No Bonus.**  
 The biggest surprise came when the delegates by a vote which virtually was unanimous defeated a resolution calling on congress to grant a bonus of six months' pay at the rate of \$100 a month to every enlisted man who served in the war for six months or more.

"Previous to the session today it was generally conceded that the resolutions would meet no opposition, but when it came up for vote Lieutenant Colonel Theodore Roosevelt opposed it and his sentiment seemed to be reflected by all the delegates. Colonel Roosevelt's opposition was on the ground that the legion should "put something into the government and not take something out."

**Would Help Jobs.**  
 Among resolutions passed was one calling for federal aid for the legion so that it might be formed into soldiers in securing positions, federal aid for reclamation and building work and for any project which will increase opportunities for employment.

Other resolutions condemned the misuse of the uniform by peddlers and beggars and urging re-employment of ex-service men.

The question of Chicago's patriotism was on the verge of breaking out again when the organization committee report recommended Chicago as permanent headquarters for the legion. The threatened outbreak was averted by a motion not to consider the report until the convention in Minneapolis, November 15. The report had been passed by the committee before yesterday's demonstration against Chicago.

Just before the convention adjourn-

## AIRSHIPS TO FLY

(Continued From Page One.)

mander Towers and may be dependent largely on weather conditions.

It may be some days before the men read machines at Trepansey Bay are ready for the long flight to the Azores. This is the longest leg of the journey, 1,500 to 1,350 nautical miles, depending upon the landing place selected.

The NC-1, commanded by Com. Commander Bellinger is considered as having made a remarkable flight from Rockaway to Trepansey Bay, covering just 1,000 miles. The total flying time was six minutes less than 24 hours, or an average of more than 60

per hour. If that average is thorough overhauling before the NC-1 maintained the Azores could be reached in less than 22 hours of flying, preparation of the department how-  
 Lisbon, Portugal, the first European ever, have been completed air-way and stop, is only 800 nautical miles from very brief flights would be required to that place. I mean there has never been any solution put into it.

Unoubtedly, it was said, the air ships between Trepansey and the Azores and men aboard the planes will Azores being, providing the audible best rest and the machines need a guide posts for the air cruizers.

## TROOPS SENT TO PROTECT TOWNS ALONG MEX. BORDER

**Nogales, Sonora, and Agua Prieta Hold Four Depradations of Villa Band.**

By the Associated Press.  
**NOGALES, Arizona, May 10.**—Mexican troops are being rushed to Agua Prieta and Nogales, Sonora, and other border points to protect them from bandit raids similar to that which occurred at Cananea. This information was received tonight by United States Consul J. B. Iyer at Nogales, Sonora, from Acting Governor Pina of Sonora, who is at Hermosillo. Pina's telegram further stated that a report he had received from General Plank, in command at Cananea, Sonora, stated that the rail there "undoubtedly" was carried out by bandits and was not a part of a revolutionary movement, as had been reported. General Plank has taken the field in an effort to found by the bandits, leaving only enough troops at Cananea under Lieutenant Colonel Comago to police the city.

**NEW MANAGER HERE.**  
 W. H. Putnam, W. T. Wallace and M. O'Connell of Boise, arrived in Twin Falls last evening. Mr. Putnam is successor to Mr. Wallace as general manager of the Idaho Power company with headquarters in Boise. The trio motored to Twin Falls from Milner.

"Bone Dry." When I say that about a Willard Battery with Threading Rubber Insulation, I don't mean that the acid solution has been emptied out. I mean there has never been any solution put into it.

With a Bone Dry Willard Battery there is not a bit of moisture in plates or insulation from the time the battery is completed at the factory until it is made ready for use on your car. You can get this absolute bone-dryness only in the Willard Battery.

To both users and dealers Bone Dry means two things, both extremely important. First, greater certainty of getting a battery's worth out waiting for factory shipment and, second, assurance of battery novices.

Willard Threading Rubber Insulation, which is in every Bone Dry Willard Battery, also protects battery plates after the battery has been put in service. There's ample proof of this in the record of 35,000 Willard Batteries (all with Threading Rubber Insulation) put into service over three years ago. A large percentage of these batteries are in use today, supplying a current as satisfactory as ever.

There is the evidence—not what engineers say—Willard Threading Rubber Insulation ought to do, or what it could do in a well-constructed battery, but what it actually has done.

Ask us to tell you more about Willard Threading Rubber Insulation, for a copy of the booklet, "The Wick of the Willard."

MISSOURI TRACK TEAM IS WHEEL OVER KANSAS LEADS

By the Associated Press. LAWRENCE, Kansas, May 10.—The University of Missouri track team this afternoon defeated the track and field men of the University of Kansas, 60 to 49. Missouri took both first and second places in the pole vault, the hurdle events and the relay, while Kansas took both places in the shot and discus, and first in the 440, the mile and the two mile, ulcers and broad jump.

TENNIS CHAMPIONS PLAY BENEFIT GAME FOR HONOR

By the Associated Press. MONTECAL, Ont., May 10.—Molla Bjurstedt, America's woman tennis champion, and Walter Merrill-Hall, middle states title holder, defeated Eleanor Steeg of Boston and Vincent Richards, national boy's champion, in an indoor tennis match here today at a benefit for the Children's Memorial hospital. The scores were 7-5; 6-4. Harold Throckmorton and Nathaniel W. Niles of Boston, broke away in two sets with Hall and Richards. A deciding set was not played.

28 Telephone COAL Nibley-Channel Lbr. Co. In the District Court of the Fourth Judicial District of Idaho, in and for the County of Twin Falls, Frank Burke, Plaintiff, vs. J. F. Lohan, Defendant. The State of Idaho sends greetings to J. F. Lohan, the above named defendant.

A base runner who can keep the pitcher and catcher worried by his tactics of the paths is a valuable gem. Many games have been won by a heady runner who drew a wild throw from the opposing battery. In attempting to steal second note how the man covering the base is playing. If he is inside the sack, slide for the outside and vice versa. In regard to sliding, it is best to slide feet first generally. It worries the man covering the bag. When you hit the dirt throw your body away from the man tagging you. Never intentionally pukes an opponent, but do mindfully reach to reach the base.

TROOP THIRTY WINS

Troop 3, Boy Scouts, was the winner of the baseball game played yesterday with Troop 2. The score was 10 to 2. The losers scored the first two runs, but were unable to keep up the pace.

GOVERNMENT LAGS IN ITS PAYMENTS

Milwaukee Road Piles Up Huge Floating Debt Under Federal Operation. By the Associated Press. NEW YORK, May 10.—The Chicago Milwaukee and St. Paul railway's annual report for 1918, made public here today, shows that while the government guaranteed the road \$7,744,000, only \$2,511,000 has been credited and that a floating debt of \$16,722,000 has been incurred. Regarding preferred stock dividends which have not been paid since September, 1917, H. M. Collins, president, says in a statement to the shareholders: "If, after the floating or unfunded debts of the company are paid and a reasonable amount of working capital or surplus has been reserved there remains a balance it would be proper for the board to apply such balances towards the payment of a dividend on preferred stock of the company."

approximately \$4,000,000, but means it would not be proper for the company to make any disposition of the balance.

By the Associated Press  
 PARIS, May 10.—President Wilson will personally direct such answers as may be decided upon concerning German inquiries on the peace treaty differing from the president's fourteen points.

The president announced in high quarters today in connection with the instructions which Chancellor Scheideemann has given the German plenipotentiaries at Versailles to address a note to the allies concerning the terms of the treaty with the fourteen points and making a counter proposal for verbal negotiations.

PARIS, May 10.—The German peace delegation declares in letters sent to the allied and associated powers that on essential points the basis of the peace of right agreed upon between the belligerents has been abandoned.

Two letters have been sent to the allies, to which replies have been made. The first letter reads as follows:

The German peace delegation has finished the first part of the peace conditions which have been handed over to them. They have had to realize that on essential points the basis of the peace of right agreed upon between the belligerents has been abandoned.

Claim Promises History.  
 "They were not prepared to find that the promise, explicitly given to the German people and the whole of mankind, is in this way to be rendered illusory."

"The draft of the treaty contains demands which no nation could endure. Moreover our experts held that many of them could not possibly be carried out."

"The German peace delegation will substantiate these statements in detail and transmit to the allied and associated governments their observations on each article continuously."

(Signed) Brockdorff-Rantzau.  
 Allies Are Firm.

"To the letter the following reply was made today by the allied and associated powers:

"The representatives of the allied and associated powers have received the statement of objections of the German plenipotentiaries to the draft conditions of peace.

"In reply they wish to remind the German delegation that they have formulated the terms of the treaty with constant thought of the principles on which the armistice and the negotiations for peace were proposed. They can admit no discussion of their right to insist on the terms of the peace substantially as drafted. They can consider only such practical suggestions as the German plenipotentiaries may have to submit."

Beck League Membership.  
 The second letter from the German representatives reads:

"The German peace delegation has the honor to pronounce its attitude on the question of the league of nations by herewith transmitting a German

program, which, in the opinion of the delegation, contains important suggestions on the league of nations program.

"The German peace delegation reserves for itself the liberty of stating its opinion on the draft of the allied and associated governments in detail. In the meantime, it begs to call attention to the discrepancy lying in the fact that Germany is called on to sign the statute of the league of nations as an inherent part of the treaty draft handed to us, and, on the other hand, is not mentioned among the states which are invited to join the league of nations.

"The German peace delegation begs to inquire whether and, if so, under what circumstances, such an invitation is intended."

(Signed) Brockdorff-Rantzau.  
 The reply of the allies to this is as follows:

"The receipt of the German program of the league of nations is acknowledged. The program will be referred to the appropriate committee of the allied and associated powers."

"The German plenipotentiaries will find on a re-examination of the covenant of the league of nations that the matter of the admission of additional member states has not been overlooked, but is explicitly provided for in the second paragraph of article one."

In addition, a proclamation has been issued by the German government under the signature of President Ebert, protesting the treaty provisions.

#### Issue Proclamation.

The text of the proclamation follows:

"The first reply of the allies to the sincere desire for peace on the part of our starving people was the laying down of uncommonly hard armistice conditions. The German people, having laid down its arms, honestly observed all the obligations of the armistice, hard as they were. Notwithstanding this, the opponents for six months past continued the war by maintaining the blockade. The German people bore all these burdens trusting in the promise given by the allies in their note of November 8 that the peace would be a peace of right on the basis of President Wilson's 'fourteen points'."

"Instead of that, the allies have now given us peace terms which are in contradiction to the promise given. It is unbearable for the German people and is unacceptable, even if we put forth all our powers. Violence without measure would be done to the German people. From such an imposed peace fresh hatred would be bound to arise because the German people are not prepared to live under new wars. The world would be obliged to bury every hope of a league of nations liberating and healing the nations and insuring peace."

"The dismemberment and mangling of the German people, the delivery of German labor to the foreign capitalism for the indolence of wage slavery and the permanent fettering of the young German republic by the entente's imperialism: is the aim of the German people. The German people's government will answer the peace proposals of violence with a proposal of peace of right on the basis of a lasting peace of the nations."

"The fact that all circles of the German people have been moved so deeply testifies that the German government is giving expression to the united will of the German nation. The German government will put forth every effort to secure for the German people the same national unity and independence and the same freedom of labor in economical and cultural respects which allies want to give to all the peoples of Europe as only one step to their peace."

"Our nation must have itself by its own action; in view of this danger of destruction the German nation and the government which it knows must stand by each other, choosing no parties. Let Germany unite in a single will to preserve German nationality and liberties. Every thought and the entire will of the nation, ought now to be turned to labor for the preservation and reconstruction of our fatherland."

# TREATY TERMS CAN'T BRING WORLD PEACE

## Plans For Reconstruction Will Do That, Says Vanderlip.

### OUTSTANDING FACT IS UNEMPLOYMENT

#### Europe Must Get Machinery, Rolling Stock and Raw Material to Have Peace.

By the Associated Press.  
 LONDON, May 10.—"There are no terms written in the treaty that can bring peace to Europe," said Frank A. Vanderlip, president of the National City Bank of New York, to the Associated Press, before sailing for New

York today after several weeks in England and on the continent.

"The real treaty of peace will be the plan whereby Europe will be able to get machinery, rolling stock and raw materials and be placed in a position to help herself."

"The outstanding feature of the situation is the paralysis of production. 'I doubt if America comprehends the extent of the paralysis of European industry. Of course, we expect idleness throughout the devastated districts, but there is partial idleness throughout the whole industrial area of Europe, in neutral, as well as in belligerent countries."

"In England more than a million people are receiving regular grants from the government because of unemployment, and the number is expected to grow as the British army is further demobilized. In Belgium eight hundred thousand are receiving unemployment aid."

All Europe Stricken.  
 "The government of Holland is giving subsidies food to meet the conditions of unemployment. Italy is dealing with an army of unemployed. Great industries in Poland are prostrate. In Czechoslovakia the limits of disorganization have not reached. In Rumania the farmers are without animals and there is not enough seed to plant the fields."

Mr. Vanderlip conferred with finan-

cers on the continent and in England, but he declined to say whether he had suggested or concurred in the reported idea of floating a high interest Anglo-American loan, the proceeds of which would be dealt out to the affected districts for their rehabilitation.

# SIR BARTON WINS KENTUCKY DERBY

## Stalwart Billy Kelly Finishes Second, Trailing Leader by a Pull Length.

By the Associated Press.  
 LOUISVILLE, Ky., May 10.—Sir Barton, Commander J. K. L. Rose Star Shoot-Lady Stirling colt, won the forty-fifth renewal of the Kentucky derby over a muddy track at Churchill Downs in handsy fashion today gained for his owner \$20,825 and enriched the public to the extent of \$7,120 for a \$2 part-mutual ticket. Sir Barton carried 110 pounds, twelve less than the top weight, and was ridden by Jockey J. Lettus. Billy Kelly, from the same stable, with E. Sande on, was second by a length from the leader, and a length away P. Dunne's

imported colt, Under Fire, finished third. Vulcanito, six furlongs to the rear, led the remainder of the field. The time 2:09 4/8 for the mile and a quarter, was the 8-5 seconds slower than the record.

Eternal, J. W. McClelland's Sweepstakes colt, regarded as a slight public choice, tried after going three-fourths of a mile and finished tenth. Vindex, the Harry Payne Whitney entry, trailed the field after the first hat and finished last.

More than 60,000 persons, the largest in Kentucky derby day history, was present.

Sir Barton, at the rail, shot to the front when the barrier was sprung and apparently was under restraint until the stretch was reached. In the last eighth of a mile, Sande on Billy Kelly made his bid and his mount responded gamely, but was not quite good enough under urging. Under Fire gained steadily from a slow start.

Today's contest was said to have fixed a precedent in derby history. Never before, "track officials" said, have two horses from the same owner, won first and second place and no previous derby—pure—was ever so large. It carried \$20,000 in advent money, which, with fees, for seventy entries and twelve starters made it worth \$24,000 with \$2,500 going to the owner of the second horse and \$1,000 to the third. The fourth saved his fees of \$215.

# ROBINSONS

## TRUTH IN ADVERTISING

In previous advertisements I have called attention to the tendency toward correct statements in advertising and, while most advertisers are now careful to tell the truth in describing goods offered for sale, it is to be regretted that all advertisers have not been won over to this idea.

In an advertisement appearing in a local paper there was offered a ladies' hosiery full fashioned hose at 35c the pair. This hose was neither a hosiery nor full-fashioned and not particularly good value at the price.

I have been selling for some time, and still have in stock, a much better hose than this one at the price.

This same advertisement offers a ladies' art silk hose, full fashioned, at 70c. This hose is not full fashioned in any part.

Whether this kind of advertising is due to a lack of knowledge of merchandise or is intentional, it is nevertheless misleading and unfair to the purchasing public.

A merchant who advertises that he is connected with a number of other stores and is buying goods in carload lots from the manufacturer and paying cash for his merchandise, when as a matter of fact he does neither, is apparently doing this with the thought of misleading the purchasing public.

A merchant who is in good standing with those from whom he buys goods and is financially sound does not find it necessary to buy for cash. Confidence between buyer and seller today is the most important feature in business.

To buy merchandise where it can be bought the cheapest is not proof of good merchandising. I believe in buying goods where they can be bought to the best advantage and the matter of quality is far more important than price alone.

I hear more complaints of goods sold in stores where price seems to be the main point than from all others.

What would you think of a storekeeper who advertised that he was the sole representative of a well-known brand of garments when as a matter of fact there were two or three other stores carrying the same line of goods in the same town and who had been carrying them for some time? This has occurred right here in Twin Falls.

How do you regard a man doing business supposedly in a regular way who would conduct a special or closing-out sale and who would send to a competitor and buy men's neckties, sold by this competitor in a regular way at 50c, and resell them under the guise of a big bargain at 65c? This has been done right here in this little city.

What would you think of the methods of a store advertising best quality of Rockford socks at a special price when as a matter of fact they were not best quality and hardly a good second quality? This has been done here.

The business of this store is founded on the following principles:

Reliable Merchandise      Careful Personal Attention  
 Truth in Selling It      Low Expense Account  
 Truth in Advertising It      Prices in Accordance

A STORE WHERE A CHILD CAN BE SENT WITH A FEELING OF PERFECT CONFIDENCE.

### BUY WHERE YOU CAN BUY THE BEST; NOT WHERE YOU CAN BUY CHEAP.

## SHOES

The shoe business of this store has become a most important feature and its rapid growth is most surprising, due no doubt to the excellent value given in shoes for the whole family.

Boys' shoes seem to come first, as they "go" first, so I would mention:

Black Gun Metal for the smaller chaps at \$2.95  
 The same for the big ones, up to size 7 \$3.50  
 Black Gun Metal in the English Toe style, now so much in demand by the larger boys, sizes up to 7, at \$3.75  
 Chocolate or Dark Brown in the Pointed Toe Style, the boys will have them, and they are here for \$4.50

I Verily Believe That You Can Save From 25c to 50c a Pair by Buying Your Boy's Shoes Here.

### PRICES THAT ARE INTERESTING.

Coats Spool Thread..... 5c	RIT soap (for dyeing)..... 50c	Percal, good quality, yard wide..... 19c	Gauze vests, women's size 25c
R. M. C. Crochet Thread..... 40c	Ceppo paper, (20-in wide)..... 10c	Crash, good quality, yard wide..... 18c	Children's hose, double..... 25c
Toilet Paper (ceppo fine)..... 5c	Women's hosiery good quality..... 35c	Cloth napping, good quality..... 18c	Work shirts, extra quality, full cut..... \$1.15
Fish..... 5c	Wool, lion, double hosiery, toes and soles..... 35c	Table Oilcloth, full width, 48x..... 20c	(Not \$1.19, as advertised elsewhere.)
Palmolive toilet soap..... 5c	Silk Gloves (Kaysar double tip)..... 55c	Gingham, genuine Amoskeag..... 20c	Work pants, good quality..... \$3.75 pair

As an evidence of the regard in which this store is held I would mention the fact that the sales for April this year show a gain of one-third, or say 33 per cent, over the same month last year, and last year goods were selling at the highest prices known for a long time.
