

TWIN FALLS CHRONICLE

VOLUME IX, NUMBER 40

TWIN-FALLS, IDAHO, TUESDAY MORNING, MAY 13, 1919

PRICE FIVE CENTS

BAD WEATHER HOLDS PLANES CLOSE ASHORE

Navy's Fliers Unable to "Hop Off" on Big Flight

EYES CENTERED ON BIG C-5 DIRIGIBLE

Plans Completed For Its Trip Across Atlantic if It Makes First Legs.

By the Associated Press
TUESDAY, N. F. May 12.—It Commander John H. Towers, director of the navy's "warrior" flight, planned a "hop-off" today of the NC-1 and NC-2 for the Azores, a disturbance prevailing late this afternoon in the north Atlantic compelled him to change his mind.

Commander Towers said he would like to have the C-5 join the dirigible before the start, but that he is unwilling to sacrifice favorable weather in waiting.

The Americans were confident that the meteorological conditions which would keep the British aviators, Harry O. Hawker and Captain Frederick P. Rayham land-bound at St. Johns.

Indications tonight were that the weather will be unfavorable again tomorrow.

WATCH BIG DIRIGIBLE

WASHINGTON, May 12.—Official announcement was made today that the navy department that upon the outcome of the proposed test flight of the new navy dirigible C-5 from the new air station, Montauk, N. Y., to St. Johns, N. F., would determine the future plans in regard to the possibility of attempting a trans-Atlantic flight by a dirigible.

The flight to New Foundland, a distance of approximately 1,000 miles, it was said, would be made "under the most favorable conditions possible."

In making this announcement the navy department disclosed much data regarding the C-5 not heretofore published. The new dirigible, which was commissioned only a week ago, is commanded by Commander T. W. Cole, and the members of the crew are Lieutenants J. V. Lawrence and M. H. Easterly, Ensign D. H. Campbell and Chief Machinist's Mate Moorman and S. H. Blackburn. The C-5 is a twin engine, non-rigid ship with two 115-horse power engines.

The dirigible has an envelope displacement of approximately 178,000 feet, an envelope length 192 feet and envelope diameter of nearly 44 feet, making her the largest of the navy's ships.

The normal speed of the C-5 is placed in the navy department's announcement at 50 miles an hour with an endurance at normal speed of ten hours. However, in addition to the useful load of 1,000 pounds due to the crew of six, it was learned that provision can be made for a greater gasoline carrying capacity, thus increasing her cruising ability greatly beyond the estimated 500 miles. At a speed of 45 knots the airship has a fuel consumption of 10 gallons.

Officials of the navy department appear to be entirely confident that the C-5 will be able to cross the Atlantic to Europe without a stop. There is a number of factors which are favorable to that trans-Atlantic attempt will be ordered immediately after arrival of the C-5 at St. Johns and before the naval craft patrolling the Atlantic for the flight of the heavier-than-air machines, the NC-1 and NC-2, have departed.

Prepare for Landing.

ST. JOHNS, N. F., May 12.—Preparations were completed here today for the landing of the United States navy's dirigible C-5 which is to make a test flight of 1,200 miles from Montauk Point, N. Y., to St. Johns.

Arrangements at this port all seem to contemplate the probability of the C-5 continuing on an "eastward passage" to England. At the eastern end of the cricket field at Quivido, to be the mooring ground for the balloon, a number of landing suits are being stored in cylinders brought ashore from the cruiser Chicago. The capacity of the C-5 is 120,000 feet.

In a deserted inn between the cricket field and the hangar at Quivido, Frederick P. Rayham, the British

Geneva, League's Capital, Well Located

Swiss City selected as center of world alliance, accessible to all parts of Europe.

FORMER WIFE MAY GET MAN'S ESTATE

Will, Executed by George B. Holmes, in 1901, Appears in Probate Court.

With the appearance in the probate court yesterday of a will executed in 1901, the settlement of the estate of the late George B. Holmes promises to be complicated. The estate is valued at between \$15,000 and \$18,000.

Under the will, which was received yesterday, a former wife of Mr. Holmes, living in the east, and who has been remarried, is named as the beneficiary. It was drawn by Mr. Holmes when he became a high degree Mason.

Mr. Holmes had told members of the firm of the Irrigated Lands company, who had handled much business for him that he had made several wills but that at the time of his death none of these signed properly and witnessed could be found. In the premises it was thought that a sister living in California, who was the sole relative living, would be the heir.

According to officials of the probate court, several unguessed wills were found in the effects of Mr. Holmes, one of these he designated two children friends to receive a portion of the estate, while the other portion was to have gone to a woman the relative to whom the deceased is said to have been engaged to be married.

On Saturday George P. Sprague at the request of the sister of the deceased man, made application for appointment as administrator. The disposition of the estate will probably be made by the probate court when Mr. Sprague's application comes up for consideration.

Friends of Mr. Holmes in Twin Falls with few exceptions, had believed that he was a single man and were surprised when it was developed that he had been married.

CONSIDER NEW BUILDING.

School Board Goes Over Plans Drawn by Architect.

Twin Falls school board met last evening in regular monthly session. The entire evening was devoted to a discussion of the plans of the architect for the addition to the high school building. At 8 P. M. Walter, Probation Officer Aull and Mrs. T. E. Irwin appeared before the board in behalf of the school children, urging the installation of a swimming pool in the new structure. The board definitely decided to have the pool but no definite decision was taken until the exact cost of the entire structure could be obtained. The board will meet next Monday evening to again consider the plan.

PRESIDENT COMMUTES DEATH SENTENCE IMPOSED ON YANK

By the Associated Press.
WASHINGTON, May 12.—The death sentence imposed by military court martial in France upon Private Buddie E. Ashworth, 21st infantry, after conviction on the charge of having killed Private Thomas A. Jackson, of the same unit, has been commuted by President Wilson to life imprisonment, the war department announced today. General Pershing in reviewing the case expressed the opinion that the circumstances were not such as to justify the execution of the death sentence.

ARE ON TRANSPORT FROM ALL STATES

Santa Olivia Brought Cargo of Boys Scatter to All Points of Country.

PHILADELPHIA, May 12.—Bringing home from France thirty officers and 1,825 men of the 110th infantry and three officers of the 20th machine gun battalion, 48th division, the transport Santa Olivia docked here today.

Units of the 110th infantry returned on the Santa Olivia were the medical detachments of the second and third battalions, and infantry companies F, G, H, I, K, L, and M, including men from every state in the union, except Delaware.

Originally the 110th infantry was made up of the third and tenth regiments, Pennsylvania, national guard, of the 1,000 officers and men of the third regiment who went to France but six officers and 160 men returned today, the others having been killed or sent home as casualties.

TAKEN UNDER ADVISORMENT

ST. PAUL, Minn., May 12.—The appeal of Mrs. Rose Pastor Stokes of New York from her conviction under the espionage act at Kansas City in 1918, was taken under advisement today by Judge Walter H. Sweeney of St. Paul. John E. Carland of Washington and Kimbrough Stone of Kansas City.

BREACH GROWS TWIXT CLANS OF MAJORITY

Borah Says Positively He Will "Never Vote for Penrose"

OPPOSES SMOOT FOR PRESIDENT PRO-TEM

Lodge Advises Recalcitrants Their Fight Must Come Before Caucus Monday.

By the Associated Press.
WASHINGTON, May 12.—Republican senators continued today to discuss plans for organization of the new caucus preparatory to the meeting of the party caucus Wednesday. The conference centered about the opposition of the progressive group of senators to the selection of Senator Eugene P. Penrose of Pennsylvania, and Warren H. Rooting, ex chairman of the finance and appropriations committee, respectively.

Situation Not Changed.

Leaders of both the regular and the progressive groups tonight said the situation apparently was unchanged except as to the number of the latter group willing to carry their opposition to Senators Penrose and Warren to the floor of the senate.

Several senators considered as belonging to the regular group asserted that but two or three progressives would carry their attack to the floor, while the progressives said that they did not know how many of them would go the limit.

Borah to Obstaruate.

Senator Borah of Idaho, leader of the forces opposing Senator Penrose and Warren, said he would never vote for Penrose, but added that he was unable to speak for the others, who declined to say whether they would go beyond the party conference.

The progressives were said to have admitted their willingness to support Senator Smoot of Utah for the appropriations committee, but refused to favor him as president pro-tem.

Smoot Easily Satisfied.

The Utah senator was understood among both groups as willing not to seek election as president pro-tem. Senator Johnson of California, and Lenroot of Wisconsin, were mentioned

(Continued on Page Four.)

TWIN FALLS HOLD TO STATE BAKERS

Annual State Gathering Convened Here Yesterday—To Have Three Sessions Today.

Master bakers of Idaho gathered in Twin Falls yesterday for their annual convention. The first meeting was held at 1:30 yesterday afternoon at the union hall. An address of welcome was delivered by Mayor Eldridge following which a reply was made by T. W. Wilson, president of the association. Several short talks were made. Following the appointment of committees, the executive committee held its annual meeting.

In the evening the bakers gathered at the Palace cafe for a banquet. Three meetings will be held today. The first will be held at 10 o'clock this morning, which will be featured by an open discussion. The afternoon session will be held at 1:30 in which time the committees will report and the place of the next convention will be held. A banquet this evening will conclude the meetings.

ADVOCATES USE OF ENGLISH IN AMERICANIZATION WORK

WASHINGTON, May 12.—How to make citizens of foreign born residents of the United States was discussed today at the opening session of a four-day Americanization conference held under the auspices of the interior department.

Use of English in all schools—public, private and parochial—was urged by P. F. Claxton, commissioner of education. Charles F. Towne, of the Massachusetts bureau of education, emphasized the importance of oral over written English to give the alien the ability to communicate with Americans directly, to exchange ideas and learn their customs.

UTAH WOULD QUARANTINE AGAINST AIL IDAHO SHEEP

SALT LAKE CITY, Utah, May 12.—The state livestock board today decided to present to the governor a request for a proclamation placing a quarantine against all sheep shipped from Idaho into Utah. The reason for this action is given as the prevalence of scabies in Idaho. Nevada has already a similar quarantine in effect.

LONGSHOREMEN ARE SPIRIT.

NEW YORK, May 12.—Paul A. Vaccarello, who was recently deposed from the vice presidency of the International Longshoremen's association, by the organization's executive committee, announced tonight that twenty locals of the union had withdrawn from the River Front Workers Union. Affiliation of which he has been elected president. Mr. Vaccarello said the new organization had 28,000 members.

ANOTHER OCEAN CROSSED!

HOUSE HEARS SONNINO TALK FUME CLAIMS

Moot Question of Peace Conference Discussed Between Them.

ITALIAN POPULATION GROWS IMPATIENT

Austrian Delegation Is On Way to France, There to Receive Peace Terms.

A conference between Baron Sonnino, Italian foreign minister, and Colonel E. M. House of the American peace delegation, regarding Italy's claims to Fiume and the Adriatic coast, a meeting of the council of four at which the notes presented by the committee were discussed, concerning prisoners of war and labor were turned over to experts for investigation and the completion of the task of defining the new Austrian boundaries, represented the entire activities in peace conference circles in Paris Monday.

Sonnino and House Confer.

The result of the conversation between Baron Sonnino and Colonel House has not been made public. Meantime, dispatches from Rome indicate that the Italian population again is becoming restive after having learned that the reports of last week that Italy's claims to Fiume had been settled was erroneous.

Added to this irritation is dissatisfaction because Italy was not mentioned as one of the parties to the proposed Anglo-Franco-American alliance, the question of the division of Austria's merchant marine; the treaty provision with Germany that the three principal powers are sufficient to satisfy the treaty, and other similar matters in which the Italians feel that they have been slighted.

Austrians Are Coming.

While the Austrian delegates are well on their way to St. Germain-en-Laye, there to be informed of the conditions for peace which are to be imposed upon their country by the allied and associated powers, the Germans at Versailles are still busily engaged in examining the peace treaty. In addition to the six minor members of the delegation who left Versailles for Berlin late last week, two of the more prominent members, Herr Glathe and Landsburg, have gone to Germany, evidently with the purpose of conferring with the German government.

Germany's Chief regards it continued dissatisfaction over the terms which Germany has been told she must meet in order to obtain peace. Reiteration that it will be impossible to carry out the provisions of the peace treaty, and the demonstrations of protest have been held in Berlin, Breslau and other cities.

Ebert Makes Statement.

No less personage than Friedrich Ebert, president of Germany, has announced his standing on President Wilson's peace proposals. Ebert allied to the peace treaty as a "monstrous document," which, he said, holds no precedent in determination completely to annihilate vanquished peoples.

German governmental circles are hard after the radical slogan, "No peace with the Spartacists," the state of siege has been proclaimed in Berlin.

Every June has been the time chosen for the commencement of the withdrawal of American troops from North Russia. The Americans have not been engaged in the fighting in accordance for several months.

Evacuation of Korea is the present state and the liberation of the country from Japan has been requested of the peace conference in Paris.

RUSSIAN IS HELD UNDER FEDERAL PROTECTION

By the Associated Press.
NEW YORK, May 11.—Charge with violation of the espionage laws being progressed to interfere with the sale of military secrets to the enemy, Robert L. Wilson, a Russian subject, was held here today at the federal grand jury's action. Wilson's detention is reported in the publication in the "freedom" of an article charging the loan for the "windy and profit-making"

Society

Fashions

The past few chilly days have afforded excellent opportunity for Twin Falls housewives to complete their spring housecleaning and prepare for the summer days to come.

Not all of us can have summer homes—but most of us can achieve "summer homes," from our all-year-round dwellings.

The first step is to get rid of all useless furniture and ornaments. The summer house doesn't need any ornaments except bowls and baskets for fresh flowers.

Heavy rugs should be rolled in far corners and stored in the attic. Heavy curtains, stained or painted and covered with rag and matting rugs are cool and easily cared for.

Expensive porch chairs, with gay covers and stored in the attic, have floors, stained or painted and covered with rag and matting rugs.

In refurbishing the house for the summer, whether the changes be made with paint, new wall paper, curtains, or only cushions and furniture slip-covers, remembering to choose the cool colors—green, blue, gray and white.

Flowers and plants used freely about the rooms are an actual necessity in keeping the summery effect. Potted ferns, hydrangeas and pots of red and cool and lovely to look at, and clear glass bowls of fresh flowers repay in coolness and beauty more than their cost in money.

Mrs. George F. Leopold was pleasantly surprised last evening by a group of friends. The occasion was in honor of Mrs. Leopold's birthday.

The M. S. and B. club will entertain a ladies' luncheon at the home of Mrs. William M. Duttler.

Misses Eunice Stafford and Kate Stoltz celebrated birthdays Saturday by entertaining a few friends during the evening.

When She is Graduated

By BETTY DROWN

Her graduation gown.

Her first really beautiful, elaborate, fluffy creation a woman chooses for a public appearance is a rite—and should be a triumph.

In these days all other matters are of minor importance to the momentous decision of what that graduation gown shall be, and how it shall be finished.

Here are three suggestions which in truth deserves the name of inspiration.

Behold at the left a confection of white cotton net, fine net, made over a princess ally of white organza. The net overdress is tucked and set with broad bandings of flax lace. The puffed fichu of organza matches the organza ruffles that peep beneath the net skirt.

The other side of the picture the maiden at the left wears a more elaborate frock of white chiffon, with a becoming lace-bill, and many tiny tufts. Worn over a silk slip the effect is charming.

At the right is sketched the gown of every truly feminine heart's desire—a stately little thing of white organza—but how utterly fetching and demure.

This frock is entirely untrimmed except for small organza ruffles in three and for a narrow ribbon sash of pleated edged, program silk in French blue with a knot of red roses. The square neckline and short sleeves are summer and youth incarnate.

Illustration of two women in long, light-colored dresses, one standing and one sitting, outdoors.

Included Misses Helen Connolly, Lillian Lind, Fayline Torhuno, Maurine Siffler, Carmen Sanger, Anne Wheelon, Zuma Sheneberger, Margaret McAtee and Ruth Whelan.

Mrs. A. Adams will be hostess this afternoon to the Thursday bridge club the day this week being changed to Tuesday instead of the regular time of meeting.

Mrs. L. T. Wright will entertain the Wednesday afternoon bridge club at her home this week.

Miss Cornelia Frazer was honored guest at a masquerade party given Friday evening by the members of the Seventh and Eighth A classes at the Lincoln school.

Farming

HERE FOR MARKETS BUREAU Joseph H. Conn of the bureau of markets arrived in Twin Falls yesterday.

WILLIAM KERR ARRIVES. William Kerr arrived Sunday. He will immediately commence the work of investigating agents here for several farmers who have consented to an experiment work to be made on the efficiency of a combined clover and alfalfa ration.

MR. MOORE STARTS SCHEDULE. Frem Moore yesterday started his schedule of visits to the winter yards of the county.

SOLDIER BOY BACK HOME. Sam Garrett returned to Twin Falls Sunday, after serving with the 91st division overseas.

every effort to distribute the water proportionately to all users.

SECURES MAN TO PACK WOOL. F. N. Watt yesterday secured a man to assist in the packing of wool.

MRS. CHAPMAN VISITOR. Mrs. C. B. Chapman, who resides three miles north and two and one-half miles west of Twin Falls, visited at the farm bureau.

SEVERAL SEEK HELP. Several farmers called at the farm bureau office yesterday seeking help.

HERE TO BUY BEANS. J. M. Hull of Mackay arrived in Twin Falls yesterday.

VISITS CASTLEFORD. Miss Hanna Spence, boys and girls club leader, was in Castleford yesterday visiting with the club in that section.

RETURNS TO WORK. W. P. Christman is at work again after an illness of eleven weeks following an injury received by an accident on the railroad.

GUESTS OF MRS. EBERT. Mr. and Mrs. J. W. Beavers and daughter, Mrs. Susan, are guests at the home of Mrs. W. D. Ebert, daughter of Mr. Beavers.

MOTOR TO ARIZONA. Mr. and Mrs. T. Westbrock motored to Arlesian City Sunday.

JAMES MOGEL LANDS. James Mogel has received staking that Ward Glenn Mogel landed in New York on May 9 and is expected home in about two weeks.

MOTOR TO CALIFORNIA. Bruce Wilker, Mary Straight and Ralph Tisdon are leaving today in an auto for Orland, California.

NOTICE TO WATER USERS. A sudden and unlooked for drop in the flow of the Snake river has made it necessary for all the users to reduce their streams about twenty-five per cent.

The State Commissioner of Reclamation has installed the water master and river riders with the purpose to begin at once the equitable distribution of the water.

Those who are familiar with the behavior of the Snake river are convinced that the shortage will be of short duration and a normal flow can be expected when the Twin Falls canals will resume the service so suddenly interrupted.

The operating department will use every effort to distribute the water proportionately to all users.

The undivided attention to irrigation streams both night and day by water users suggests itself as imperative at this time.

THE TWIN FALLS CANAL CO. J. C. WHELAN, General Manager.

THE TWIN FALLS CANAL CO. J. C. WHELAN, General Manager.

WARRANT FOR REMINGTON

A warrant was sworn out in the probate court yesterday against J. R. Remington on the complaint of F. W. Dunbar and G. H. Sell. It is alleged that Remington secured a loan of \$840 on an automobile on which a previous mortgage existed.

SECURE MARRIAGE LICENSE

A marriage license was issued yesterday afternoon to Paul Barnes, 21, and Pearl Thompson, 19. The former is of American Falls and the latter of Rockland, Idaho.

PROVIDE ROOM FOR DEPUTY

In order to provide room for the recently appointed deputy in the treasurer's office who will handle the delinquent taxes, a door has been put in the wall between the treasurer's office and that of the county surveyor.

FULL CREW AT LAUNDRY

A 15-pound daughter was born to Mr. and Mrs. E. J. Murray last evening. Mr. Murray is manager of the Twin Falls laundry.

RECENT ARRIVAL DIES

John H. Ayres passed away yesterday morning at his home here. Mr. Ayres was a brother of George Ayres of the O. K. barber shop. He recently arrived here from Hivathia, Kan. The body will be shipped Wednesday to Morrill City, Kansas, for interment.

TWO FILE DISCHARGES

Two discharges were filed in the office of county recorder yesterday. They were those of Fred W. Boehm and Matthew Lundin.

WILL DISCUSS STRIKE

CHICAGO, May 12.—Conference between officials of the Commercial Telegraphers and the Electrical Workers' unions will be held this week to decide whether a joint strike or separate walkout shall be called, according to S. J. Ronekamp, president of the telegraphers, who arrived from Washington today.

NO SIR, I'N NOT TAKING ANY BONDS THIS TRIP. I HAD TO SELL THE 4 1/2'S THAT I HAD, AND I LOST OVER \$6 ON THEM!

YOU LOST 'EM? HOW ABOUT OUR SOLDIERS WHO HAVE LOST ARMS, LEGS, EYESIGHT AND HEALTH?

AW, THAT'S WHAT I'D LIKE TO DISCUSS!

WE SIMPLY DON'T WANT IT.
 "America will not go Bolshevik," said Dr. Frank Crane, in a recent speech, "and for a very simple reason—we don't want it."
 And there you have the gist of the situation. It has been demonstrated clearly enough in Seattle, in Boston, in Cleveland, in New York and wherever else the presumptuous "Reds" have tried to force this alien system on America. The overwhelming majority do not want it, and will not stand for any effort to cram it down their throats.

Some of the deluged radicals still fancy themselves martyrs, persecuted by the police and held from their mission by armed force. They are dead wrong. The police power is only one little manifestation of the big thing that really keeps Bolshevism suppressed in America—the instinctive opposition to it of the scores of millions of natives and assimilated aliens.

It is clear enough when once you start thinking about it, why this big majority, the real American people, is dead set against Bolshevism or any other foreign socialist program. Dr. Crane puts it like this:

"Granting for the sake of argument that socialism is a perfect system of government—we don't want perfection. We want to do things in our own way. We want to make mistakes and learn by our own experience. And nationally and individually we would rather have our own wrong system than somebody else's perfect system."

It is a new way of putting the old statement that Americans are "individualistic" and resent any outside interference or any attempt to restrict their individualism. And though we may be wrong about the Bolsheviks going to do about it!

THRIFT MEANS FREEDOM.

Personal freedom consists of the right of every man to do what he pleases, to go where he pleases, and to be what he pleases so long as he does not interfere with the rights of his neighbors. This is the ideal of individual freedom, but how few of us reach it.

Most of us are weighed down by shackles of circumstances which hamper our every movement. Our progress toward our own ideals of liberty and happiness is retarded and slow. Unmet obligations, the worry over what will become of us in our old age, the anxiety over seeing that our children are given a proper start in life, or battling with the proper weapons for battling with the world—all these hamper our freedom.

There is a royal road to freedom. It is thrift. Thrift will give us independence of all about us, freedom to go where we please, do what we please and be what we please. Thrift is not miserliness. Thrift is sane saving, wise buying, avoidance of waste and safe investment. This is the thrift which our people came to know during the trying days of the war, and which should become a permanent American habit. This is the thrift which the government is trying to foster through the continued sale of thrift stamps and war savings stamps. This is the thrift that will make millions free if they see and use their opportunity.

HOUSING THE HOMELESS.
 Army camps have been obtained from government, and set up in the

churches throughout the metropolis. This is one way New York is providing for those evicted by profiteering landlords, because they could not meet the rentals demanded.

Two thousand cars have already been provided, and the army has furnished 6,000 tents to be set up upon vacant lots adjoining the churches and in other available spots.

This is the method by which one city is meeting its housing problem. In connection with this provision for shelter, drastic investigations are going on to put a stop possible to re-raising at this time.

There is hardly a city right now, nor a village either for that matter, but has its housing problem. We seem suddenly to have outgrown our supply of homes as a child outgrows its clothes.

The public building it is really intended for the public and not a private club, justify its erection at public expense when at such times as this it is turned over to such use as New York is making of its churches, school buildings and town halls should serve their turn as well where they are needed.

necessary at this time because of any increase in traffic and that the order made the renting of his building harder. Council decided to allow the air pump to remain until there is an increase in traffic at this point.

The owner of a mare which fell into a well in the month next to town several weeks ago again appeared before council for redress. He declared that the animal was still lame and asked for \$100. Action on the matter was deferred until it is definitely known how much damage had been done to the mare.

Action on the ordinance providing for the abatement of certain public nuisances was again postponed. Representatives of the Central Meat market and Aloha shop, parties in controversy over a land reclamation plan which caused the introduction of the plans for the ordinance, were present and argued the question.

The question of a fence around the new filtration plant was brought up by Waterworks Engineer Pflieger who stated that a farmer owning land adjoining the plant had asked for the fence and as the city had removed a fence belonging to this man it was necessary to build a new one.

The matter was referred to the water works committee. Councilman McMartin brought up the matter of regrading Washington street near the triangular park. The city attorney was instructed to prepare an ordinance providing for a change of grade on that street. It is the plan of the committee to see the plan this summer in order that trees may be placed on it next year.

BAD WEATHER

(Continued From Page One.)

aviator, 500 gallons of gasoline are stored. This amount is 100 gallons more than the C-5 carries.

A spare motor has been set up in one room of the old inn, ready for immediate installation in the C-5 should either of her engines need to be replaced when she arrives.

Flight to England is believed to be well within the capability of the C-5. Naval aviation experts here said that the C-5, a "water ship" to the C-5 had remained in the air 23 hours and six minutes, and that the C-1 flew 1,385 miles on a trip from Rockaway, N. Y. to Key West, Florida in 23 1/2 hours. The former cruise was a "non-stop" and the latter with three landings.

BREACH GROWS

(Continued From Page One.)

by the progressives as acceptable to them for present program, but neither has signified a willingness to seek the office.

Formal notice of the attitude of the progressive group was given to Senator Lodge of Massachusetts republican leader, by senators Borah and Johnson, and it was stated that they were told by the party leader that their fight was solely for one candidate at Wednesday's conference.

WOMEN MARCH RIGHT IN

LONDON, May 12.—Via Montreal.—Rout's "United" league, that is the event of Germany, not signing the peace treaty, which is regarded as unlikely, all military arrangements have been made for the allied armies to advance in exactly the same way they would have done had Germany not accepted the armistice terms.

EDUCATIONAL NEEDS AFTER THE WAR

"We realize that education is now not solely a state matter, but a national concern."
 —SECRETARY FRANKLIN K. LANE

By ELIZABETH HARRISON.

At the beginning of the war, Herbert Hoover performed a miracle before our very eyes when he caused a single slice of bread, laid aside every day by each of us, to be transmitted into thousands of food for tens of thousands of women and children in the desolate areas of Belgium. We know the story of how the miracle grew.

And if all came about because he knew that although legislation lies in the hands of government, administration rests in the hands of ultimate civic unity. He appealed to the humblest citizen in the farthest corner of our land and showed him that he, too, was a part of the mighty democratic force that was fighting for the freedom of the world. There was something greater still in this marvelous change that was wrought, almost over night, transforming us from a nation that ate, drank and was merry, with no thought of the morrow, into one that reckoned the cost of every mouthful, not in money alone, but one which saw the bit of bread that we consumed on our breakfast table change into muscle in the fighting men at the front, and the extra lump of sugar saved from our morning cup of coffee bring color to the pale cheeks of 3,000 miles away.

A still greater thing that was wrought through Mr. Hoover's power to awaken our imagination with his "mathematical calculation," was that he aroused our gratifications and proved to the world the mighty forces which lay within our midst.

It has awakened us in many directions. None perhaps so force significant than the realization of the superior importance of education for all American citizens, and the standards we have set up to be maintained.

The present movement inaugurated by the National Education association for 100,000 new members to be added in the membership is to enter all citizens who are interested in the future of our country into a national congress that a distinct department of education shall be established in the president's cabinet of equal significance with that of labor, agriculture or commerce.

Millions of Women Combine.

Another of the significant movements of the day along this line has been the coming together of a number of our national societies in order that they may work more effectively for the improvement and advancement of education. They realize that never before has it, and it should be only that safeguard of the nation. As a result the school department of the National Education association now represents the combined effort of five large and official national associations, namely: the General Federation of Women's clubs, the National Congress of Mothers and Parent-Teacher associations, the National Association of Collegiate Alumnae, the National Council of Jewish Women, and the National Association of Southern College Women. This combination now represents a body of more than 3,000,000 earnest, intelligent, efficient women who have long been in a position to do their best for the present reconstruction effort to mend the scars of the war revealed as existing in our educational system. It is that "new" change which is "vital" made towards establishing the education movement in the United States.

At the beginning of the war, Herbert Hoover performed a miracle before our very eyes when he caused a single slice of bread, laid aside every day by each of us, to be transmitted into thousands of food for tens of thousands of women and children in the desolate areas of Belgium. We know the story of how the miracle grew.

And if all came about because he knew that although legislation lies in the hands of government, administration rests in the hands of ultimate civic unity. He appealed to the humblest citizen in the farthest corner of our land and showed him that he, too, was a part of the mighty democratic force that was fighting for the freedom of the world. There was something greater still in this marvelous change that was wrought, almost over night, transforming us from a nation that ate, drank and was merry, with no thought of the morrow, into one that reckoned the cost of every mouthful, not in money alone, but one which saw the bit of bread that we consumed on our breakfast table change into muscle in the fighting men at the front, and the extra lump of sugar saved from our morning cup of coffee bring color to the pale cheeks of 3,000 miles away.

A still greater thing that was wrought through Mr. Hoover's power to awaken our imagination with his "mathematical calculation," was that he aroused our gratifications and proved to the world the mighty forces which lay within our midst.

It has awakened us in many directions. None perhaps so force significant than the realization of the superior importance of education for all American citizens, and the standards we have set up to be maintained.

The present movement inaugurated by the National Education association for 100,000 new members to be added in the membership is to enter all citizens who are interested in the future of our country into a national congress that a distinct department of education shall be established in the president's cabinet of equal significance with that of labor, agriculture or commerce.

Millions of Women Combine.

Another of the significant movements of the day along this line has been the coming together of a number of our national societies in order that they may work more effectively for the improvement and advancement of education. They realize that never before has it, and it should be only that safeguard of the nation. As a result the school department of the National Education association now represents the combined effort of five large and official national associations, namely: the General Federation of Women's clubs, the National Congress of Mothers and Parent-Teacher associations, the National Association of Collegiate Alumnae, the National Council of Jewish Women, and the National Association of Southern College Women. This combination now represents a body of more than 3,000,000 earnest, intelligent, efficient women who have long been in a position to do their best for the present reconstruction effort to mend the scars of the war revealed as existing in our educational system. It is that "new" change which is "vital" made towards establishing the education movement in the United States.

'ALL OVER THE WORLD'

Mrs. Margaretta Neale, its assistant director general of the United States Employment service in charge of women's work. Her office is in Washington, D. C.

The seriousness of mother's and ignorance of children are to be blamed for most of the fires which occurred in New York during last year.

national department in the president's cabinet.

The next most important object of the school patrons department of the N. E. A. is to see in every way possible in the Americanization of the foreign-born population. It is a matter which that men who have been in our midst, produce by the tyranny from which they have suffered for generations under foreign governments can be transformed into Americans by a course of study, but these women know, many of them from personal experience with servants and through social settlement and church mission work, that knowledge of our language is an absolute necessity if these ignorant and bewildered foreigners are to gain even a glimpse into the meaning of the American spirit, for without that democracy which is the basis of our work can be and must be done outside of the school room and this great body of efficient lay-workers stands ready and willing to assist in establishing friendly relations that will help transform the disappointed and oftentimes indignant foreign laborer into a friendly co-worker.

Especially is this needed by the non-English speaking wives of those men, shut away from all outside influences as they are in their own homes.

Again, the war drift revealed the fact that over 700,000 white Americans in our country are illiterate and the illiteracy is far greater among the negroes. Both of these classes are menaces to our nation's life, and it behooves the women of comparative leisure have large opportunities for assisting and erasing a blot from our education and in helping to point the way of obtaining it.

The fact that one-half the men drafted from the United States during the war proved to be physically unfit was another revelation of our need of a better knowledge of the laws of health, and of the crime which we have been constantly committing by confining children, five or six hours a day in unsanitary buildings. A large national appropriation is needed for the bettering of these shamefully dilapidated conditions. No one knows better than the mothers of our land the value of a better movement in the conduct of our lives that health is a tremendous asset and that lack of health

is a tremendous obstacle on the road to success. It is those who must cause the sick and sorrow with the suffering far more than the teacher can do. It is they who should take charge of and insist upon the maintenance of our schools, inspecting physicians and visiting nurses in our schools.

Bigger Salaries for Teachers.

This cannot be accomplished by the lofty alone. The school teachers should be better educated on this vital subject. The school patrons department must demand that the teachers of the country shall be better trained concerning the laws of hygiene and sanitation. But when it is officially stated that the average teacher in the majority of our states receives between \$500 and \$600 annual salary how can we expect or demand that the efficient, well-educated, women shall turn from salaries twice the size of this to teach our children, if we remain indifferent to their welfare?—But the agitation for "better salaries" is part of the work of this new organization.

Every man and woman should have some definite means of earning a livelihood, for independence is a necessary part of true democracy. Therefore, these national-wide organizations are interesting themselves in vocational training.

But in order that it may not be the sacrifice of the broader humanities that general culture brings and the beauty and attractiveness which enrich the life there are arising a movement of at least two things: the compulsory school life of our children; in other words, that the children shall remain in school until sixteen years of age instead of being permitted to leave school at the age of twelve to leave school to accept poor wages and handicapped lives at the age of fourteen. In some states they are attempting to advance the school age to sixteen to share the lengthening of the school term is urged. Why should three months of a child's life be spent in idleness, simply because in the early days our rural population needed the help of all hands on the farm during the summer months?

The temptation in families, where financial stress is felt is of course to ignore the false lights of the child and to put him to work as soon as the law allows. Therefore these community centers are also urging that compulsory laws shall be more than merely carried out, and at the same time are trying to have established a mother's pension law, by means of which the state that is hereafter to have the intelligent and the ignorant services of the child shall help to keep him in school by contributing a small sum of money toward the maintenance of the child, and thereby insure greater safety to our national life and funds.

Another revelation which the recent war has emphasized should appeal to the heart and judgment of every citizen—the suggestion of the feeble-minded.

Mrs. Stella Miller, of Trumbullville, Pa., has been killed, for bravery under fire, working just behind the lines in France, during a drive shortly before the end of the war.

The first chaplain of the United States senate was Rev. Samuel Provest of the Episcopal church and bishop of New York. The first chaplain of the house of representatives was Rev. William Brewster of the Presbyterian church. Both of them at the first congressional session organized after the adoption of the Constitution.

TO OPEN PAVING BIDS ON JUNE 16

Council Makes Plan for Work—Designate Cleanup Week May 18-24.

Anticipating favorable action on the forthcoming bond election council last evening adopted a resolution designating June 16 as the date for the opening of bids for the sale of bonds for the paving. This action was taken in an effort to save time if the bonds are approved.

The week of May 18 to May 24 was designated as "Clean-Up-Week" for Twin Falls. It was decided that all trash possible should be gathered up and burned by those occupying premises in the residence districts after which all that can not be burned shall be placed in the alleys and will be gathered up by the city wagons.

It was also decided that the fire chief be instructed to gather all trash in the fire alleys, following which it shall be burned on vacant lots under the supervision of the fire department.

Former City Treasurer Hounds was released from his bonds by council. This action was taken in lieu of a audit of the books.

E. L. McVicar, appeared before council, in behalf of school children who are seeking the installation of a plunge in the addition to the high school building. He stated that the school board had agreed to do this providing the council would donate the water. Council agreed to do so. The proposed tank will be 20 feet by 40 feet, graduated in depth from 3-1/2 to 10 feet, having a capacity of 14,000 gallons. The water will be changed three times a week. The youngsters are elated with the results secured by their friend McVicar.

W. H. Weaver asked council to issue a permit for an air pump on Third avenue north declaring that such action would not be

BOXING SPORTS

FILER LOSER IN CLOSE GAME 1-0

Twin Falls Scnds Man Over Plate in Second—Burley Bonts Buhl, Rupert Wins From Paul.

Standing South Idaho League.

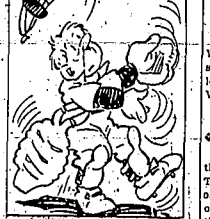

Winn	1	0	1,000
Twin Falls	1	0	1,000
Burley	1	0	1,000
Rupert	1	0	1,000
Filer	0	1	500
Buhl	0	1	500
Paul	0	1	500

Sunday's Results.
Twin Falls 1; Filer 0.
Burley 6; Buhl 6.
Rupert 7; Paul 4.

More than 1000 fans of Twin Falls and Filer were treated to a game of high class ball Sunday afternoon when the local nine nosed out Filer by a 1 to 0 score.

The game was replete with high class plays throughout. Hits were scarce, strike-outs plentiful, sharp fielding cut off runs at the plate and there were just enough misplays to make the game that much more exciting.

After starting off like it was going to put the game into early innings, Showers walked, Stealy flew to left field, Lachance was safe on a fielder's choice, Miller drew a base. Carson was safe and Lachance was caught coming home.

Filson was all there on foul flies, spearing three of the birds.

Twin Falls scored in the second on two errors. Thompson went short to first, Whitel was safe when "Job," Dingle held the ball. He scored when Lavender was called at first.

The climax came in the first of the ninth when Filer threatened to score. Miller, the first man up flew to Denman; Carson was safe when a Texas leaguer hit Denman, Lavender and Whitel failed to give any sign, that they were trying for the ball and all three fell down.

Lester was safe when Johnson failed to hold his fly. Dingle fouled out Carson, was caught when he tried to come in from third and Craig finished the game by rolling down Denman to Thompson.

Twin Falls:

Watson ss.	3	0	1	0	0
Denman, 2b.	4	0	0	2	0
Patton, c.	4	0	0	21	0
Singleton, of.	3	0	0	0	0
Thompson, 1b.	3	0	1	4	1
Whitel, 3b.	3	1	1	0	0
Johnson, rf.	3	0	0	0	0
Lavender lf.	3	0	1	1	0
Oliver	2	0	0	1	0
Tadlock	1	0	0	0	0
Total	19	1	4	27	1

Filer:

Showers, rf.	3	0	1	0	0
Stealy, 2b.	4	0	0	2	0
Lachance, c.	4	0	0	0	0
Miller ss.	2	0	0	0	0

Total	19	0	2	12	0

Summary:

Twin Falls	1	0	0
Filer	0	1	0

Base on balls, off Oliver, 3; off Tadlock 2; off Carson 1.
Stolen bases, Thompson; Lester; Passed ball, Lachance; two base hits.

Call the Guard. Here Comes His Ump

Returned service men provided much interest for those in the stands Sunday with their new lingo.

Watson, Carson, struck out, by Carson, 6; by Oliver 5 in 5 innings; Tadlock, 7 in four innings. Umpire, [Whitel] and Penny.

Time of game, 1:55.

NOTES ON THE GAME

Three men were credited with all the put-outs for Twin Falls. Patton, Twin Falls catcher, gets credit for 11 of those. Fifteen came through strikes, outs by Oliver and "Shory" Tadlock, three catches of four flies, one fly caught and two put-outs at the home plate.

Stealy played a nice game at second for the visitors. He handled nine chances without a bungle. Miller's shortstop also handled everything perfectly for Filer. In fact, the entire fielding game was above par on both sides.

Naturally the "umps" got their from the crowd but appearances from the press box indicated that both Patton and Whitel called 'em as they saw 'em.

Games in the other towns on the circuit were as classy as that played here, according to reports. "This all goes well for the success of the league this season."

Mayor Eldridge threw the first ball but Del Sprague failed to catch it, claims it was too high. Anyway the official "umps" added to the rest of the afternoon's sport.

Nearly Half Population of U.S. 12 Hours Away

Forty million inhabitants of the United States are within twelve hours ride to Toledo. The site of the big city, just less a hundred miles from the center of population, a huge town in Indiana. Within a 500-mile radius of Toledo are a majority of the largest and most important cities of the country. New York is barely outside that limit. They'll swarm in from all directions to see the July 4 crop.

Good automobile roads connect Toledo, Detroit, Cleveland and Chicago and parking space will be arranged for thousands of cars. Toledo is one of the most important railroad centers in the country. The city is on Lake Erie and the arena site on Maumee bay. Big boats dock at the arena from Detroit, Cleveland and Buffalo. Special docks will be erected on the bay.

You Want More Than a Wall Covering in Your Wall Paper

The room which surrounds you day in and day out must not clash with the furniture; must harmonize with the conceptions of the room itself. No matter whether the wall paper be cheap or expensive, it can be made helpful to the room by careful selection. Here you will find available wide range for selection—range in design, in shades, in prices. We are able to help with suggestions, and always anxious to show samples in the wide variety you will find here.

Grain

CHICAGO, May 12—Corn took decided upturn in value owing to smallness of receipts and to predictions that there would be a renewal of wet weather likely to result in more delays to planting. Commission houses and shorts were the principal buyers. Opening prices which ranged from 1/2 to 3/4 higher, with July \$1.63 to \$1.61 and September, \$1.64 to \$1.66, were followed by material further gains.

Oats rose with corn. After opening 1/4 off to 1/2c advance, with July \$1.26 to \$1.24, the market scored a moderate general advance.

Subsequently, corn for immediate delivery and for the May option advanced the "topnotch prices" for the season and led to a nearly continuous advance in deferred futures. The close was hurried, 5/8 to 3/4¢ higher, with July \$1.58 1/2 to \$1.63 1/2, and September \$1.59 1/2 to \$1.65 1/2.

Malnutrition Blocks Way for Germany

Why Work, Why Play, Cries Despairing Apostles of Huns.

SAYS IRON WILL OF TEUTONS IS GONE

Emil Aberhalden, Member of Prussian Diet, Tells of Conditions in the Fatherland.

By the Associated Press BERLIN, May 12.—"The Entente powers unaccountably committed an irreparable mistake when they set out to subject the German people to a systematic process of soul-crushing," said Professor Emil Aberhalden, the noted physiologist of Halle university and a democratic member of the Prussian diet, in a statement to the Associated Press.

Professor Aberhalden is one of the newer forces of post revolutionary politics. He said that if peace, including the raising of the blockade, had immediately followed the armistice it would have stimulated Germany's energies. "For a long time after the depressing days of the military collapse," he declared, "what iron will of determination prevailed to mobilize all economic possibilities for the purpose of getting the nation back on its feet. Nothing, one would imagine, could have been more welcome to the entente powers than an orderly, coordinated Germany. Now it is convulsed to its foundations. The inclination to work is lacking in the widest degree."

"No one dares to think of the mother. A new revolution is creeping through the country. Ample food supplies will be necessary to stave off the famine. What is surviving now is just sufficient to maintain the present conditions of hunger and pestilence starvation and catastrophe. Only scanty nourished people are capable of returning to a regular working schedule."

One Blow After Another

"Five months ago staggering psychic 'blows' came from abroad in follow-up another. Night after night this great people goes to sleep without any hope for the future and awakes bereft of all hope. It sees only destruction ahead. Why work? Why fight? Today your poor Germany is told that the left bank of the Rhine is to go to France; tomorrow he is informed that Danzig is to go to the Poles and Posen and Upper Silesia are lost forever. Now it is made to believe that the war indemnity must be five hundred billion marks, the next moment it is fixed at a thousand billion marks. Today he reads that Germany is to be occupied by the entente forces for fifty years and the next day it is proclaimed that the German war prisoners are to remain in slavery."

Professor Aberhalden believes that the existing chaos with its accompanying phenomena of social excesses such as dancing and gambling, which he says, recall the hunger, catastrophe, which followed the epidemics of the Middle Ages, is the worst conceivable soil for the propagation of a pure democracy which primarily demands consciousness of duty and an exalted spirit of sacrifice on the part of the individual for the common good.

"The hunger blockade inflicted mortal wounds" he continued. "Up to the present approximately 1,000,000 persons chiefly children, are dead as a result. The survivors on the average have lost 20 per cent of their weight, which is equivalent to a loss of 50 per cent of their working capacity. Let alone the continuance of the blockade after the armistice and the national system of rationing."

"The mortality due to tuberculosis shows a horrifying increase. The importation of food should be considered at once as the stock of cattle and sheep has sunk to the minimum and their slaughtering weight is half that of peace time."

NOTED EDUCATOR VISITS TWIN FALLS

President Lindley of University of Illinois Scraps of Graduation Addresses in South Idaho.

Dr. E. H. Lindley, president of Idaho University, delivered the graduation address at Piler last evening. He is in Twin Falls Wednesday. He will deliver a talk to the Rotary club at its luncheon, taking as his subject "The Human Factor in Industry."

Dr. Lindley came in yesterday noon on the train and registered at the Hotel Oregon, where he met Mr. Al McCann, chairman of the Twin Falls National bank and member of the state board of education. The two spent much of the afternoon going over educational matters following which calls were made upon Lindley.

The development of the university under direction of Dr. Lindley has been remarkable. The best minds of the state—men who have heretofore taken but slight interest in education—have now been given to cooperation with the state board of education and the president of the university for the building of constructive education work.

This condition is the outgrowth of the confidence the men of affairs of Idaho have in Dr. Lindley and the state board of education. The reason for this confidence will disclose itself to those who will hear the president of the university. It was made plain in Piler last night, where Dr. Lindley received an ovation. It will become evident to the people of Gooding tonight and tomorrow noon at the Rotary club luncheon, and again in the evening, the people of Twin Falls will realize something of the new order of activities which is building for constructive education in Idaho.

Recently Dr. Lindley made a trip to coast cities, where he addressed the civic bodies, the commercial clubs and business organizations in all the important cities. He was given an ovation, and the newspapers acclaim him the greatest asset of Idaho. Because he thinks. Because he is constructive. Because he would build, not tear down. His is not a preaching of theoretical socialism. Rather he inspires the individual to effort for achievement. And this inspiration he gives to the citizenship by his mastery of fundamentals, but as he imparts it in the process of education. Dr. Lindley will win Twin Falls just as he has won in Idaho.

the camp, and had had a stove put in every tent. The continuous rain is the only disagreeable feature of Brast now. Commenting on the league of nations, Mr. Smith stated that Europe is almost unanimous in its desire to see a league organized, especially if the United States becomes a party to the pact. He declared that he thought it better to keep an open mind on the matter until the constitution of the proposed league is presented in its official form to the senate. Mr. Smith and the other congressmen who made the trip had an hour and a half conference with President Wilson while in France.

GERMANY WANTS TO KEEP WAR PLUNDER

By the Associated Press BERLIN, May 11.—Sunday—The stipulation in the peace terms that Germany must surrender thousands of domestic animals to replace those lost by the allies through the war, has created violent protest among rich and poor alike. The Tagblatt describes the demand as "monstrous and impossible." It declares that this is a deliberate effort to continue hunger among the German people and is "brutally not to be exceeded." The paper says the cattle would total 2,500,000 hundred weight, as compared with 1,400,000 hundred weight of American bacon promised.

We buy Hides, Wool, Pelts and Fallow

Call and Get Our Prices. Ship your hides direct to us. We receive same day goods are received. No shipment too small, nor too large. THOMAS H. F. NORTON CO., INC. 15th Ave. and Front St. Nampa, Idaho Tel. 81

Free Demonstration

All day Wednesday, May 13, demonstrating Doughnuts and cakes made with SNOWDRIFT Fancy French salad dressing made with WESSON OIL. The ladies of this community invited. Marketaria Cash and Carry Grocery. Phone 215.

Meeting Present-Day Requirements

The war brought with it many problems reconstruction will also bring its share. More than ever business interests will be in need of the most reliable and efficient banking service possible. This institution is ready for the test: our trained organization and complete equipment are designed to meet every legitimate banking requirement. Service is our aim; cooperation our watchword. Conference is cordially invited.

FIRST NATIONAL BANK OF TWIN FALLS, TWIN FALLS, IDAHO

Drive Circumstances

DON'T LET CIRCUMSTANCES DRIVE YOU.

Before spring work comes on with a rush consult your building needs. When you have decided what you need in the way of building for efficient work on the farm plan to erect them, is our advice. Don't put this vital matter off another day. Time is creeping. Napoleon's success was due wholly to his fixed habit of always driving circumstances. In other words always having his plans matured ahead of his need.

In no other business is this motto so essential as it is in the BUSINESS of farming. In addition to the necessity for making routine plans the farmer must plan against the elements and the vagaries of nature. THE PROPER INSURANCE AGAINST THE ELEMENTS IS PROPER FARM BUILDINGS CONSTRUCTED IN THE RIGHT WAY, AT THE RIGHT TIME.

We can show you the right way! The right time is NOW!

FIGHT SEAT SALES APPROACH \$75,000

While Rickard Prepares to Build Arena, Ministers Prepare to Block Fight in Toledo. By the Associated Press TOLEDO, O., May 12.—Reparations seats for the proposed heavyweight title fight between Max Baer and Jack Dempsey July 4, have aggregated \$75,000, according to A. Q. Thatcher, match maker for the Toledo boxing commission, who is assisting Tex Rickard in arranging for the match. Rickard arrived here today and announced that prices for the bout would range as follows: \$10, \$15, \$25, \$30, \$40, \$50 and \$75, with \$2,500 on sale at the highest figure. Rickard estimated from the demand for reservations that there will be 47,500 others ranging down to \$10, which will be 260 feet from the ring. Bids were submitted today for nearly two million feet of lumber for the building of the arena. Battling Nelson, former lightweight champion, wired Rickard today offering his services as referee for the contest. The telegram said: "Open for position as referee of the Willard-Dempsey bout. Price optional. Would do it for nothing. Put it up to Willard and Dempsey." Rickard has not yet replied. Members of the Minister's union of Cleveland at a meeting today voted unanimously to protest to Governor Cox against the Dempsey-Willard boxing match in Toledo. The civic committee of the Federated churches of Cleveland also will file a protest. Rev. E. R. Wright, secretary, said. The match was condemned as a menace to public morals.

ADDISON T. SMITH VISITS TWIN FALLS

Congressman Tells of Trip to Europe—How to See Land Development Plan Succeed.

Congressman Addison T. Smith arrived here in Twin Falls last evening. He will remain here until Wednesday morning. Tomorrow, evening, at the high school auditorium, Mr. Smith will deliver an address on what he in France and on irrigation questions. He will go to Boise from here, after which he will visit one day with his son in Moscow, following which he will return to Washington for the coming of the special session of congress.

In speaking of his trip to France to a Chamber representative last evening, Mr. Smith said, "Our party of congressmen is made from Bryan, across France to Coblenz. Germany studying conditions. Yet the trip was a disappointment to me in that I had made it primarily to see as many Idaho boys as possible, particularly from Twin Falls who were in the headquarters company of the 14th field artillery. I wanted to see something of the hardships which they were forced to endure while on the front, but first of all I wanted to talk with them. In this I was disappointed."

"With two other congressmen, one from Ohio and one from Louisiana, I told the officers at Coblenz of our desire to see men from our own towns who were assigned to the care of an army officer, who was told to take us to the camps where our boys were located. Unfortunately this officer couldn't speak German very well and none of us could understand it, and after an all day trip we were forced to give up the effort. It was necessary for us to leave Coblenz the next day as our itinerary was prepared by army officers. I passed through one town, I found afterwards, where there was a nephew of mine while I discovered later that we were within six miles of the town where the Twin Falls lads were located."

Mr. Smith stated that prospects of the passage of a bill for the reorganization of the lands were unusually bright at the coming session of congress. "Idaho should receive a large amount from any appropriation that is made," said Mr. Smith, "as there is no other state in the union that has so much rich land available nor so much water nor so many miles for the storage of water as this state. The west has been fortunate in the committee appointments secured at the coming session of congress. Congressman French will be on the appropriation committee while I have been appointed to the arid and irrigable lands committee." Conditions at Brast are greatly improved over those obtaining last winter, according to Mr. Smith. He says that General Butler of the marine corps, a commander of the camp, had had sidewalks constructed throughout
