ANXIOUS TO LEARN FATE OF AUSTRIA

Delegation Seeking Peace Terms Arrives in St. Germain.

CHANCELLOR RENNERT IS AT ITS HEAD

High Tension of German Meeting Not Found—Good Spirits and Cheer Prevail.

By the Associated Press. PARIS, May 14.—Karl Rennert, Austrian chancellor, brought his peace delegation and attendants to St. Germain, near Paris, today, and at a later date will appear before the representatives of the allied and associated powers to receive the conditions which will spell peace for the former empire.

A notable feature of the reception was the absence of Germans who had requested permission to greet the Austrians, but were denied this privilege.

Meets Delegates Courtously.

The prefect of the department, M. Chaillet, met the Austrians courteously and although there was an official handshaking, many members of the party were greeted by unofficial handshakes from old acquaintances as they were being shown to the waiting automobiles.

The delegates then proceeded under military escort to the villa set aside for them overlooking the valley of the Seine and Paris and lacking the high fences and sentries so much in evidence at Versailles.

Good Spirits.

Chancellor Rennert was apparently in excellent spirits and in the course of his remarks, said: "I hope to go away with an joyful heart as I bring."

Although strict military regulations were enforced and the crowds of villagers held back by sentries from the railway station and the avenues through which the delegates were hurried to their abiding place, such precautions were unnecessary, for the crowds displayed mild curiosity, rather than hostility.

Under official escort the correspondents and others were conducted through the villa to the station through a side passage. It seemed like a fetid day until connected with war and the good spirits of the crowd awaiting the Austrians appeared to be shared by them, for they emerged smiling from their special train.

Delegation Is Divided.

"I am not a belligerent; I am a neutral," remarked Slatin Pasha, a former official of the Egyptian government who accompanies the delegation. This remark, though made in approval of Slatin Pasha's status as a delegate of the Austrian side, drew the attention of the whole Austrian delegation. They evidently do not regard themselves as in the same category with the Germans.

It is learned from members of the party that the leading representatives are sharply divided regarding the question of annexation to Germany; so that the delegation as a whole can scarcely take a firm stand on permanent prohibitions and restrictions which appears in the draft of the treaties for both Germany and Austria.

By the Associated Press. OREGON CITY, May 14.—A raid was made today by federal officers on a moonshine still, situated about a mile from the Twain, near Genoa. About sixty gallons of "sour mash" ready for distillation, was found and destroyed.

The house in which the still was located was made of heavy wood pulp, covered by brush to avoid detection. The operators of the still escaped. The officers wrecked the still.

Summary of International Situation

By the Associated Press. The Austrian delegates who are to receive the peace treaty drawn up by the allied and associated governments have arrived in the village of St. Germain, near Paris, where they are to await the summons of the peace congress to appear before it.

Unlike the reception given the Germans, the reception given the Austrians, who are to receive the peace treaty drawn up by the allied and associated governments, has been a cordial one. The Austrians had been invited, for no Germans were present.

When the first meeting of the Austrians with the allied peace delegates is to take place has not yet been announced.

The council of four has replied to suggestions incorporated in notes from the German delegates regarding labor and the repatriation of prisoners. Three additional German notes have been delivered to the council.

One of the most notes of the Germans, which deals with the economic clauses of the treaty...

economic clauses of the treaty ascribe that enforcement of the terms will mean the ruin of Germany. Another note touches on the Sarre valley arrangement, the transfer of German territory to Belgium and the evacuation by Germany of Schleswig-Holstein.

No protest is made by Germany to affording reparation for damages to Belgium and northern France, but one of the notes asserts that Germany will not pay damages on the principle that she was responsible for the war.

A member each from the British, French, American, Italian and Japanese delegations has been appointed by the council of four to deal with the objections and proposals of the German plenipotentiaries.

Efforts are being made by the British peace delegation for the pooling, on the basis of tonnage lost during the war, of the German merchant vessels seized by the allies. Poland is making claim to some of the warships surrendered by Germany.

The Italians are declared to be landing large forces on certain portions of the Balkan coast, who are fortifying the ridge and mountain passes to the east.

SOCIETY INTERPAGE FASHIONS

IN ROBES OF WHITE FOR HER WEDDING DAY!

By BETTY BROWN.

There are hundreds of lovely gowns in a woman's life and the climax of them all is her wedding gown. Planned in her little girl days, dreamed of for months before the "perfect day," worn with radiant joy and reverence and cherished until the end of her life, a girl's wedding gown is the symbol of her youth, beauty

and love—expressed in a single dress. Wedding garments know the fewest changes. From year to year the general lines may vary a bit, but generation after generation of brides have put on their bridal gowns and gowns of white—until the marriage vows have come as near to staidness as a woman's gown may be to attain.

Herewith is a photograph of one of the handsomest wedding gowns ever designed by a costume artist. It is of the loveliest quality of white satin, the bodice plain and close-fitting, long sleeved, the skirt draped slightly and caught up in the back. Around the narrow hem is an elegant double fold of creamy chiffon. The court train, hung from the shoulders,

is of satin, faced with cloth of silver and, now not extraordinary, the end of the train is cut in two sharp pointed swallow tails. The long veil of white tulle is gathered into a cap with a slender wreath of orange blossoms, with a narrow fold of the tulle covering the upper half of the face. This gown is displayed in the bridal scene of "Tumble In," now playing in New York.

BACK TO GODEY'S BOOK FOR THRILLS

By BETTY BROWN:

"One might imagine herself turning in the pages of a priceless copy of Godey's Lady Book when she comes upon this most charming frock of art, one that is nearly glazed, for a loaf of bread and a pint of hot water a day is their food unless they have money to provide for better. Vermin, infestations—these are the horrors. In contrast with these, the members of the Communist and Soviet League, who are many things, "marched" for Fashion held by the new Turkish government, Art.

How pretty the girls looked at the commencement exercises last evening! What a wonderful event in her life, a day never to be forgotten. How proudly she displayed her graduating presents, given by friends as a token of esteem. But there are yet the girls from Twin Falls who this year are completing their college course and we are still confronted with the question, "What Shall We Give Her?"

Gifts and gloves are always good taste and are appreciated. Choose either white or black as they are sure of a welcome, and arrange with the shop where the purchase is made for an exchange if the size is not right.

Books, which are popular with girls, are a somewhat difficult choice unless the girl is a book lover and the giver happens to know just what she wants—then give books by all means.

There are numbers of lovely girls in leather—purses, and cases, photograph frames, writing portfolios and even little traveling clocks set in leather cases. Any girl would love the new "santeen" bags in leather, shaped somewhat like an opera or field glass case, and fitted with the feminine paraphernalia of vanity, including a really generous mirror fitted in the lid. They may be had at various prices and are new and smart.

For small gifts of jewelry choose one of the new long bar pins for fastening the tailored blouse collar, or one of the new delectable felt pins or hat pins.

Most girls of graduating age have already begun the collection of an special pattern of silver for the "hope chest" that is to furnish for the NEXT "great day of muddohood." The friends of such will bring congratulating gratitude by adding a piece to "the net."

And any girl, coming home for four years or college, will appreciate the home, for the new trunk, or the smart bag and suitcase that will help her to move home her accumulated belongings.

THE BIG JOB FINISHED.
 Since the publication of the terms of the peace treaty, there is less talk about the "dangling" of the peace conference. Even the most superficial examination of the points covered and the decisions made show what a tremendous task it was. The ordinary citizen hardly gets half way through the briefest summary before he finds his brain in a whirl.

It is not a surprising circumstance that this was the most complex settlement ever attempted in history, dealing with the largest number of nations and the widest scope of interests. It was difficult, however, for most people to gain an adequate idea of the whole because of the scarcity of dependable news from Paris. Here at last is overwhelming evidence.

The range of subjects covered is far beyond ordinary expectation. The conference manifestly set about not merely to patch up a peace with a beaten foe, but to construct a peace that would be enduring, and in order to further that purpose has gone into many fields never before entered by treaty-makers.

The organization of a league of nations is merely the most obvious and comprehensive of a large number of innovations all tending toward the same end. The economic settlement is really more important than the military and political settlement. Machinery is established for the handling of labor and capital for all the world.

Along with the rights of nations the conference has undertaken to secure the rights of women and children. The opium traffic is to be controlled no less than the traffic in arms. All this and much more, added to the enormously detailed program laid down for German observance, will have the almost unanimous approval of mankind.

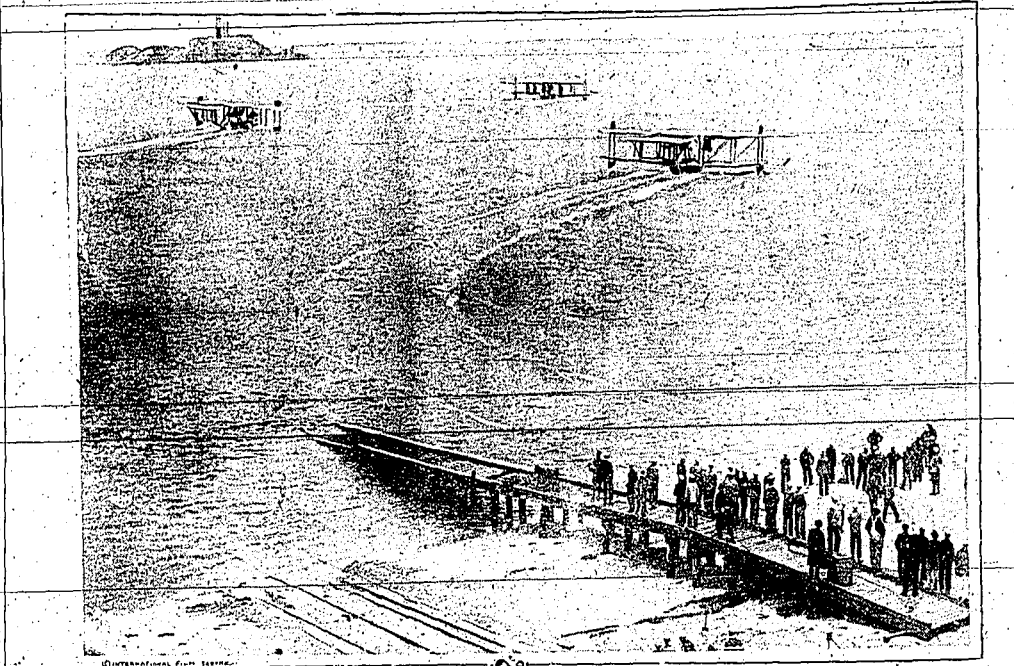

It may be argued that the conference might better have left some of these matters until later, in order to hasten the basic settlement. But there is no question as to the actual value of the things accomplished, and the satisfaction in their accomplishment. There is a feeling, too, that if they had not been worked out in the heat and pressure of the present settlement, and forced through along with the more imperative things, they might not have been accomplished at all.

At any rate, here is the visible proof of such a body of constructive work as no assemblage of diplomats or legislators has ever produced before. The wonder grows that so much should have been done, amid such troublesome conditions, within six months from the cessation of hostilities and within four months from the actual beginning of the conference.

THEY MUST BE AMERICANS.
 We have slowly been forced to the conviction that the hearts of many American citizens are still beating in sympathy with other byways than America. This is not the time to upbraid those whose hearts still throb for another country, and who still have a divided allegiance.

There is no use arguing the right or wrong of the matter; it is a long time to end forever his alien tongue, his alien tongue and alien thought, and alien sermon and alien editorial, and all the rites of the various fatherlands.

By a hair this nation remained a nation recently.

ment within us we are likely next time to have a serious setback, perhaps a major operation; maybe, a well attended funeral.

All over this country foreign songs are sung, where foreign speeches are made, where customs and habits and traditions of nations that we recently were in death grapple with, are uplifted and lauded.

"We don't blame these folks, that's all."

But we do insist that the sooner it is made obligatory on every American citizen to speak English, and teach English, and preach English, and editorialize in English the better.

Those who have been making their daily bread, with a large piece of cake besides, in this country for 40 years have had time enough to learn the 200 words needed to speak business and social English.

There is no excuse for the public school teaching of German, or ANOTHER LANGUAGE BUT ENGLISH.

Just as a clean sweep, let the occasional few who desire French or Spanish, or German, or Russian, or Chinese, or Japanese, or Cherokee pursue their studies privately or after the grammar grades when foreign languages may really be of value in a professional career.

Play no favorites, give no trophies for allegiance. This is the United States of America for American citizens; English-speaking citizens, without any French, or Spanish, or German, or Italian, or Georgian, or Waah, monkey business.

And those who can't be Americans, who must hang up to "vaterland" customs, and traditions and language; while they glean American dollars, let them go back home where their hearts are, and give real Americans a chance.

Recently we have discovered several groups of Hun-minded folks slipping out of the holes they crawled into a year or more ago, and who "good American citizens" are as Hunnish as when they went in.

There is a way to end this. Prohibit public use of foreign languages; prohibit foreign sermons; foreign language newspapers.

chairman, and Mr. Lodge an ex-officio member. A committee on patronage distribution, headed by Senator New of Indiana, also was ordered.

No indication of the fight against Senators Penrose and Warren developed in the conference, which was confined to the routine business of plans for organizing the senate. It was said that the factional dispute mentioned, Senator members of the progressive group met in Senator Penrose's office previous to the conference and agreed to nominate Senator Cummings for president pro-tempora after Senator Johnson of California had rejected a suggestion from a delegation of the 40-called regulars that he had become a candidate.

Fight May Develop.
 The content over the selection of Senators Penrose and Warren to the committee chairmanship is expected to develop in the committee on committee assignments.

Senator Borah declared today that he would not attend the conference unless it was open to the public and under an agreement that senators are not to be bound by a majority vote on committee assignments.

A few of the progressives, it was stated, plan to absent themselves from the committee conference while others were reported to intend to vote against Senators Penrose and Warren in eight years, but proposed to accept temporary vote at the conference. It was said that the progressives would nominate Senator Townsend of Michigan, for chairman of the finance committee, from the floor of the senate. Friends of Senator Penrose expressed confidence that he finally would head that committee, but there was said to be a strong sentiment among the regulars as well as the progressives for election of Senator Smoot of Utah, to the appropriations committee chairmanship.

By the Associated Press.
SA FRANCISCO, May 14.—The unseasonal form of Leo Delvigio, a Slimeless member of a cavalry troop, with his throat tightly bound with strands of wire, was found in a tent at the presidio military reservation here tonight when he failed to appear in the main bout of a boxing contest which was being held at the army post. CONFER HERE ON VOCATIONAL WORK

Representatives of State Board of Education Hope to Again Instruct County Schools in Plan

Professor C. B. Wilson, representing the state board of education, arrived in Twin Falls last evening. "Prof. Wilson is here in the interest of extension of vocational education as provided by the Smith-Hughes law. He will confer with the school authorities of Twin Falls and Buhl on the question of continuing this work as part of the school curriculum.

War interfered greatly with this work, according to Mr. Wilson. With the coming of peace it is anticipated that the work will be greatly extended. An appropriation was received from the legislature at the last session, which, added to amount secured from the federal government gives the state board of education \$50,000 to be used in this work during the coming two years. Seven schools have been

dismantled to receive the benefits of this work in the past, including Twin Falls and Buhl, while ten or twenty more schools will be added this year. Mr. Wilson will go to Pifer to endeavor to secure the cooperation of that school in this class of work.

Mr. E. Lewis, who has been superintendent of schools at Auburn, Wash., for several years, has arrived in Idaho and will have charge of the vocational educational work, including agriculture, economics and industry. The headquarters will be in Idaho where he is under the direction of State Commissioner of Education Bryan.

NARY PLACES BIG ORDER FOR STEEL

But One Bid Is Submitted, Price Being At The Former Allowed Level.

WASHINGTON, May 14.—Action in authority conferred by war emergency legislation, the navy department today placed an order, for what amounts to a requisition, for 14,000 tons of steel with the Carnegie Steel Company. The steel is to be used in the construction of four battleships, work on which must be begun before July 1.

Decision to requisition the steel was reached today at a navy department conference at which it was found that the bids submitted yesterday for 14,000 tons were the same as bids which previously had been submitted and which were based on prices agreed upon between the steel manufacturers and the now abandoned industrial board of the department of commerce.

JAP INFLUENCE IS STRONG IN SOUTH PACIFIC ISLANDS

SYDNEY, May 14.—Japanese trade conquest in the islands of the South Pacific is causing concern to Australia. While the Australian government has restricted the movement of Australian merchants Japanese have extended their influence in the Marshall and Caroline Islands. Besides their commercial advantage the Japanese, during their period of occupation, have made the Japanese language compulsory in the schools and Japanese clothes are rapidly coming into vogue with the natives. If the peace congress gives Australia control of the islands, it will need to exercise care and discretion to avert unpleasant complications with oriental ideas.

no bathroom he asked how my daughters managed. I told him I had to heat water in the copper and they took their bath in the bathroom. He shook his head and said: "That wasn't do; I'll have to look after that."

The prince has been greatly amused at the candid manner of the London tenement dwellers disclosed by visits of members of the royal family.

MOHAMMEDAN UNREST IN BEHIND EGYPT'S TROUBLES

By the Associated Press.
CAIRO, May 14.—Egypt's unrest is but an expression of a feeling against the Christian nations that is growing throughout the Mohammedan world. General Ali Bey has informed the nationalist leaders that disturbances will be delayed the day when Britain can leave Egypt to self-government. British elators here declare the demonstrations for nationalization are but stage managed for the benefit of the conference in Paris, but they are a unit, too, in declaring that Mohammedan opinion is finding too little expression at the Paris conference and that for the future safety of the world it should be neutral.

CARRANZA IS CHARGED WITH LOOTING BANK

Suit in New York Courts Alleges "Colossal Bank Robbery"

AMERICAN BANKERS THROWN INTO JAIL

Held There Under Threats Till They Turned Over \$19,000,000 To Carranza

By the Associated Press.
NEW YORK, May 14.—Venustiano Carranza, president of Mexico, was charged with a "colossal bank robbery" in a suit for injunction filed in the supreme court here today by William B. Mitchell, former manager of the Banco de Londres y Mexico de Mexico City, seeking to restrain Alfredo Catargeli, counsel here for Carranza's "commission" managers, from prosecuting a \$19,000 suit against the bank of Montreal.

The money claimed from the Montreal institution, Mr. Mitchell alleges, belongs to the Banco de Londres y Mexico, which he claims Carranza looted of \$19,000,000 in 1916 by means of a series of illegal governmental decrees.

Revoles All Laws.

In 1916, Mr. Mitchell alleges, Carranza issued a decree abrogating all laws giving precedence to banks of issue of which the Banco de Londres y Mexico was one. The decree, it is alleged, gave the banks 60 days in which to increase their metallic reserves to an amount equal to their bills of circulation. A subsequent decree, however, it is alleged, created the "commission monetaria" with authority to regulate the currency of the country in such a manner as to make it impossible for the Banco de Londres y Mexico to maintain its metallic reserves at the required point.

Bankers Are Imprisoned.

When Mr. Mitchell and other officials of the bank protested,

the complaint continues, they were imprisoned by personal order of Carranza and were compelled by threats of death to sign papers turning over the assets of the bank to the Mexican treasury department.

When released Mr. Mitchell alleges he was permitted to witness the taking over of \$19,000,000 in gold and silver by the government. The government did not take any of the bank's securities amounting to \$64,500,000. The gold and silver seized it is alleged, was used by Carranza for his personal purposes and for "maintaining his political prestige, his armies and general administration expenses."

Hearing of the suit was sent for May 21.

LEAGUE NO SPY ON CLEAN CITIZENS

Will Wage Warfare On Booz Traffic, But Not Upon 'Cops' in Their Homes

By the Associated Press.
COLUMBUS, Ohio, May 14.—A statement issued today from headquarters of the national anti-saloon league at Westerville, says there will be unrelenting and relentless war on the bootlegger, the blind pig keeper, the moonshiner and the blockaded runner, but the decent, reputable citizen need not fear that his wife's belongings will be invaded by an overzealous search for a possible cache in her clothes closet, says the statement.

In short, it is pointed out, all that has been sought or accomplished is substitution of the manufacture, sale, transportation, importation and exportation of the beverage liquor traffic, and now the thing desired is absolute enforcement of that prohibition.

Cruiser Speed Is Impeded by Monster Whale

IDAHO POULTRY SHOW MAY BE HELD HERE

Twin Falls will go after the next state poultry show. Suggestions that a poultry show be held in Twin Falls, made through the columns of the Chronicle several days ago, have received the approval of poultry fanciers on the tract. With

the visit here of Prem Moore, poultry husbandman, the suggestion received further consideration from poultry raisers.

Last evening in an interview with the Chronicle Mr. Moore stated that he believed that Twin Falls was an ideal place for a show. Mr. Moore is president of the Idaho Poultry Breeders Association. He stated that the association, which is affiliated with the American Poultry Association, had not yet selected the place for the holding of its next show and that he believed that if the purebred poultry raisers of the county would organize and make a determined effort that it would be possible to have the Twin Falls show designated as the state show.

"But one of the state shows has been held in southern Idaho," said Mr. Moore "and that at Boise." The association is well entrenched in North Idaho and it is now the desire to develop in the southern part of the state. Twin Falls is the most located place in this section.

There would be a show held every year at Jerome and "interim" among poultry raisers in this entire section was excellent. No doubt, with the aid of the state, this interest can be realized. The main necessity towards securing the state show would be affiliation with the American Poultry Association.

A meeting will be called within a short time to organize the poultry fanciers of the county so that an application can be made for the state exhibition.

SEEKING ROOMS FOR DELEGATION

Grand Army, Pythians and Eastern Stars Solving Problem of Accommodating Visiting Members.

In an effort to provide rooms for the delegates that will be in attendance at the annual convocation of the Grand Army of the Republic and the Knights of Pythias and auxiliary organizations, committees have been appointed by these organizations to devise some method of accommodation.

Several homes of members of the organizations will be thrown open to the delegates according to W. A. Minnick who is chairman of the committee handling the problems for the number has been pledged so far. The same problem faces the G. A.
