TROTZKY SAYS BURN BUDAPEST; SLAY HOSTAGES

Appeals to Bela Kun to Hold Out at All Costs.

PROMISE SUPPORT TO COMMUNIST LEADER

Lenine Declares He Will Not Make Peace—Will Continue Class Warfare.

By the Associated Press. VIENNA, May 21.—"Hold out at all cost" is the advice given to Bela Kun, Hungarian communist leader, by Leon Trotsky, Russian Bolshevik minister of war, in a new cable arranged by airplane a week ago so that the allies might not interpret messages. "Keep promises as a fair face to the allies, thus feeling them until we are in possession of Rumania."

Nikolai Lenine, Russian Bolshevik Premier, is also sending words of hope to Bela Kun. The Hungarian red army has orders it is affirmed to Americans here, to burn Budapest and slay all hostages.

LENINE SENDS MESSAGE

VIENNA, May 21.—Telling the correspondent of the Associated Press that he was quoting the exact words of Nikolai Lenine, the Bolshevik premier in Russia, Dr. Ladislav Rudas, a Hungarian professor, who has just returned from a six-month visit to Moscow, says Lenine declared that he would not make peace, but would continue class warfare until the world was one in brotherhood.

"President Wilson," Lenine is quoted as having said, "does not represent his time nor his ideals. He is merely a puppet over, trying with a pin of oil to still the whole ocean of troubled waters."

"Neither President Wilson nor the allies can make an enduring peace or solve political and economic problems because a world revolution is at hand. The destruction of capitalism may cost many lives, but this will be as nothing when compared with the great war."

Professor Rudas is taking a message from Lenine to Bela Kun, the Hungarian communist foreign minister, urging Bela Kun to hold out, as Bolshevism in Rumania will relieve the pressure on Hungary.

THIRTEEN DIE IN ERIBONS

VINCENNES, Ind., May 21.—Of the original force of 250,000 Czech-Slovaks who went to Russia only 60,000 are still left and these fighters who played a prominent part in freeing Siberia of the Bolsheviks are returning to the home of "Czechdom."

This was the news brought to the discover by Lieutenant Richter, secretary of the Czech-Slovak national council in Russia, who with several brother officers, arrived today from Vladivostok. He is taking hopes to Bohemia that the Czech-Czech campaign in Russia with numerous exhibits.

Half of the total of the original 250,000 Czech-Slovak troops in Russia. Lieutenant Richter asserted, died of typhus or other ailments in Russian prison camps. Shipping for the troops now leaving, he said, is being gathered up and they will be transported home by way of Vladivostok and the Mediterranean.

It was stated that 15,000 Czechs are withdrawing because they are too few to support Admiral Kolchak's dictatorship and also because they fear a republic of their own in Bohemia and northern Hungary.

PESHING SENDS REGRETS

By the Associated Press. LONDON, May 21.—General John Peshing has directed Colonel Lloyd C. Britton to write to express his regret in favor of working for organization with the northern Presbyterian by voting to negotiate for "color relations" with the northern church and other Christian churches. After debating by vote of 115 to 81 the proposed plan for general federation of all Presbyterian bodies.

GEORGE FEDERATION OF ALL PRESBYTERIAN BODIES

NEW ORLEANS, May 21.—The southern Presbyterians expressed their regret in favor of working for organization with the northern Presbyterian by voting to negotiate for "color relations" with the northern church and other Christian churches. After debating by vote of 115 to 81 the proposed plan for general federation of all Presbyterian bodies.

NC-4 Engine Ready For Hop Off at Sunup

By the Associated Press. FONTA DEL GADDA, May 21.—Lieutenant Commander A. C. Reed announced tonight that the engine trouble, which caused a postponement of the flight of the NC-4 for Lashon this morning had been remedied. The plane will start at daybreak tomorrow, weather permitting, he said. The arrested plane NC-4 has been brought into the beach where it is being dismantled, preparatory to shipment to the United States on the tender Melville.

STRIKE TENSION GROWING EASIER

Labor Leaders and Employers Adopt More Conciliatory Attitudes in Winnipeg Affair.

By the Associated Press. WINNIPEG, Man., May 21.—Opinions expressed tonight by both labor leaders and employers indicate that the critical period in the general strike of more than 30,000 Winnipeg union employees had passed and that a settlement of the difference was in sight. Mayor Charles F. Gray is making every effort to arrange for a meeting of union representatives and heads of the iron industry here.

James Winning, president of the Winnipeg Trades and Labor Council has notified Mayor Gray, that the unions are prepared to consider a strike unless the basis of general union recognition is obtained. Officers of labor union locals declared tonight they were ready to discuss conciliation.

"There was no difficulty in maintaining order today, when business concerns remained inactive. The strong force of mounted police on duty here and thousands of troops mobilized in barracks has restrained any semblance of disorder. Hundreds of citizens have signed for vigilance service."

MEXICAN BANDIT HANGED TO POLE

By the Associated Press. DOVIGUAS, Ariz., May 21.—Recognized by a number of Chicanos people as one of the sub-chiefs of the bandit gangs which terrorized the town early on the morning of May 8, killing five policemen, robbing a bank and first taking a Mexican known to the Sonora officers as being an alias, but whose true name is said to be Alberto Alvarez, was hanged to a telephone pole at Omatzen, Sonora, Mexico, by United States military command.

Lieutenant Antonio Flores, a former member of the Maytorelas army and a bandit of Alcatraz at the time of his arrest Sunday in Agua Prieta, opposite Douglas, Arizona, about to be hanged, is said to have begged for his pardon, that if it were spared he would reveal to the officers of the hiding place of the larger part of the \$40,000 gold stolen from the Banco Occidental and the loot taken from four stores.

He was reprieved but probably will be hanged within a few days, according to information received here tonight from Naco.

A SORRY DAY FOR IMPERIAL BIRDS

TURKS OFFER BIG PROBLEM TO DELEGATES

Great Britain Urges That the Sultan Be Left in Europe.

WOULD STRIP HIM OF TEMPORAL POWER

American Delegates Unable to Agree as to Acceptance of Constantinople Mandatory

PARIS, May 21.—The Turkish problem has become most acute in the peace conference. Various delegations are striving to find some solution for the dismemberment of the empire, which will not provoke a religious war.

The United States is looked to by other powers as the only nation which can become the mandatory for Constantinople without danger of precipitating another European war, but the American delegates to the peace conference express doubt of the willingness of the United States to accept the mandate.

Clung to Constantinople. With the sultan removed from Constantinople the American delegates expressed belief that it might be possible for the American people to become reconciled to the mandate. However, the Indian delegation, which has appeared before the council of four to plead for special consideration for the feelings of the Mohammedan world, asserts that the sultan must not be forced out of Constantinople.

It is now suggested that instead of transferring the sultan to a strip of territory somewhere in Asia Minor that he remain in Constantinople, but be allowed to exercise a degree of temporal power over some territory in Asia Minor to be selected, this proposal being in the Ottoman sample. Such a plan, it is asserted, would prevent the obliteration of Turkish pro-war debts and necessitate the signing of a peace treaty with the empire.

Fire Sweeps 10 Square Blocks Of Residences

By the Associated Press

MOBILE, Ala., May 21.—Ten square blocks of Mobile's residence section were swept today by fire which caused \$150,000 property damage. But 1500 people homes are not destroyed, probably 200 buildings. The flames were checked before reaching docks and shipbuilding plants which lay in the path.

Summary of the International Situation

By the Associated Press.

A period of seven days of grace has been extended to Germany by the representatives of the allied and associated governments in which the German peace plenipotentiaries may conclude their study of the peace treaty and formulate such replies to the various clauses as they desire.

The extension of time, which originally was to have expired on Thursday, May 29th, at the request of the Germans who advanced the plea that more time was required in order that they might formulate arguments of much importance.

Almost simultaneously with the request by the peace plenipotentiaries for more time from Berlin a statement of the German cabinet that Germany is unwilling to sign the peace treaty. The document is a reiteration although in stronger words, of the views of the former statement in Germany that the sealing of the compact would spell the ruin of the former empire.

RAILWAY CLERKS PAY BIG SALARY

CINCINNATI, O., May 21.—Protectors which are claimed to be extrajurisdictional were drawn with cries of "cheap" and "pikes" as the national conference of the Brotherhood of Railway Clerks today voted their salaries to national officers:

—Grand president—\$10,000 a year; grand secretary treasurer, \$7,500; grand vice president, each, \$4,000; organizers each, \$3,000; editor, "The Clerk," \$1,500; and members of the board of directors, expenses. The salary of the grand president has been \$4,500.

GIVE GERMANS FURTHER TIME FOR REPLIES

May 29 Has Been Fixed as Date for Hun Reply in Full

EXTENSIVE NOTES DELAY REJOINER

Ask Special Train to Bring Printing Equipment and Men to Prepare the Document.

By the Associated Press. PARIS, May 21.—In response to a request the German peace delegation has been granted an extension of seven days, or until May 29, in which to reply in full to the peace terms according to an official announcement.

The note which the German peace delegation will submit to the peace conference before May 25, will apparently be so voluminous that the entente representatives will require a week for consideration before they can make a rejoinder. It is expected that there will be a new time adjustment for the Germans to sign the treaty.

Count von Brockdorff-Rantzau asked permission for a special train to bring to Versailles, printing presses and a force of workmen in order to hasten the preparation of the German reply for presentation to the allies.

A general summary of observations on the whole treaty is in course of compilation, as well as notes on various specific points.

These notes deal with the eastern boundary of Germany; Alsace occupied territories; reparations; labor; and German properties in foreign countries.

The text of the request of the German delegation for an extension of time follows: "Versailles, May 20.—To His Excellency the president of the peace conference, M. Clemenceau.

"Sir: The German peace delegation intends during the next few days to submit communication to the allied and associated governments on the following points, which in the eyes of the delegation, fall under the definition of suggestions of a practical nature:

NAVY PLANS SCOUT FLEET OF AIRCRAFT

Would Add Dirigibles to the Heavier-Than-Air Craft.

TYPE TO BE BUILT FROM C-5 CLASS

Secretary Daniels Would Exploit Money in Developing Aircraft in Advancement of Others

By the Associated Press.

WASHINGTON, May 21.—Construction of a fleet of scouting aircraft of the dirigible, or lighter than air, type as an adjunct to the American navy, is expected by well informed naval officers to be recommended by the general board of the navy in its report to be submitted within a few days to Secretary Daniels. While the report, which has been in preparation for the past month, probably will include recommendations for every branch of the naval service, the section dealing with development of the peace time aerial policy is considered of greatest importance.

The new naval air policy, some officers believe, will include recommendations that the United States adopt a type of aircraft—herebefore not used in connection with the naval establishment, based on the principles of the German Zepplin plus improvements worked out by Great Britain and American aircraft experts during the war, and from the recent flight of the last dirigible C-4 from Montauk, N. Y., to Newfoundland.

Secretary Daniels in discussing the program today, said that in his opinion the navy should make no effort toward any large aerial expansion during the next year or two, but should concentrate on the development, in experimentation and improvement on existing types.

To develop flyers. The secretary expressed the opinion that funds appropriated for the aircraft program should be used for this purpose rather than for any great increase in flying fleets, ground schools or in building large quantities of new machines.

Mr. Daniels said that while he believed in the effectiveness of the dirigible, proportionate to the size of the fleet should always be in readiness, he did not think large sums should be expended on the present partially developed types of aircraft. He pointed out that the German dirigibles already shown defects in the dirigible balloons, which are now far in advance of the development along this line reached by any other country. He anticipated further flights of this character as new airplanes and dirigibles that are developed, the kind of the experimental flights being that the machines under the hardest conditions possible.

Little attention has been paid to the navy in the past in the matter of aircraft development and very little equipment of that nature has been constructed beyond a few dirigibles designed purely for coast patrol.

The extraordinary flight last week of the C-5, it was learned, was much to bring that type of craft to the attention of the naval experts at the navy department the opinion was made that the C-5 easily could be modified to the extent of the Atlantic coast with a heavy load.

"Easier" to repair. One great advantage of the lighter than air type, as opposed to the dirigible or zeppelin, officials said, is that even though machines of the former type meet with serious mechanical difficulties, which in the case of the dirigible, can remain in the air indefinitely period, while the damage is being repaired.

Officers believe that should the general board make the recommendation and congress agree to the program, it can get practically an even start with foreign nations in the manufacture of this type and even profit by the experimental mistakes of other nations.

The naval bill which was last reported of uncompleted legislation at the close of the last congress and which probably will be re-introduced in the special session continued previously in the 65th congress, has the approval of the higher naval officials. It is considered almost certain that the national board will recommend that the navy should be incorporated in the program.

FOODSTUFFS COST DOUBLED SINCE '09

Information Obtained From Old Scrap Book Shows Advances in Commodities—Compared to Food.

Exploring an old trunk the other day a Twin Falls housekeeper came upon an old household account book of the civil war period.

There, set down in black and white, were the prices her grandmother had paid for the same old list—the butter and eggs, tea, coffee, and sugar, the housewife writes on her grocery list today—but oh, what a difference in the price columns.

The date was May, 1869—just 59 years ago.

Here is a list of grandmother's food purchases, giving first the price of the article enumerated in May, 1860, the price of the same article in the east and middlewest today, and finally the prices obtaining in Twin Falls today.

One-half million molasses, \$1, 63, 66.
One pk potatoes, 25, 45, 50, 66.
Two lbs. butter, 50, \$1.40, 1.10.

One-half lb. tea, 21, 30-40, 34-46.
Two lbs. coffee, 40, 80, \$1.10.

Three dozen eggs, 45, \$1.50, 1.20.
Eleven lbs. sugar, \$1.00, \$1.21, \$1.31.

Fifty lbs. cornmeal, \$1.12, \$2.50, \$3.50.

Five lbs. beef, 70, \$1.25, 1.50.
One lb. flour, \$7.25, \$14.16, \$16.50.

Total, \$12.25, \$24.04, \$27.96.
The totals show that food prices have almost exactly doubled in the fifty-nine years elapsing since the first account was written. In 1860 the population of the United States was over

31,000,000, and in 1918 it jumped to 100,000,000—which accounts in some degree for the price difference. But not altogether for the productive power of the nation should increase at the same rate as the population—and in fact it often exceeds it.

To get back to civil war prices—the old account book shows that after the war, 1865, white flour went as high as \$12.00 a barrel; sugar sold at 3 pounds for \$1.00 and butter jumped to 76 cents a pound. Cereals, vegetables, tea and coffee doubled in price. Coal cost \$19.00 a ton and plain white cotton thread 30 cents a spool. Unbleached cotton sheeting cost 40 cents a yard.

The home of Mr. and Mrs. John Smith was the scene of an informal dancing party Tuesday evening. The house was tastefully decorated with the beautiful flour 40 lbs and bread wheat. The hostess served delicious light refreshments.

The guest list included Mr. and Mrs. W. A. Flower, Mr. and Mrs. Jack McLean, Mr. and Mrs. Harsted, Misses Fern Castello, Rose Murray, Libbie Jane Tuttle, Eva English, Mr. and Mrs. Zena Smith, Messrs Zack North, Charles North, Charles McCauley, Clyde Simpson, Clair Bailey and Andrew Myers.

The degree staff of the Rebecca lodge motored to Kimberly last evening to initiate a class. They returned late last evening.

Mrs. G. F. Baker entertained the Wednesday Bridge club with a 1:30 five-course luncheon yesterday afternoon. The table was beautifully decorated with yellow and white flags with place cards of the same colors. After the luncheon the time was spent at cards. Mrs. W. F. Hill carried off

No Disgrace to Wear Stripes

How to "look like an awning" is a question that the fashion-placed in one parcel and a pair of silk hose—is the title of this diverting lesson in Summer fashion.

Down at dear Atlantic City, Newport, and other resorts of the leaured and fashionable this effect in stripes will be more usual than anything, according to Dame Fashion's whippers. For sports' wear, beach wear and any where—where the object of dress is to be brilliant and striking—such bold bright stripes are indicated to appear. But the lady who wears

them should have a care that the face under the parasol, and the ankles in the history at least approximate the advance notion.

This particular refutation and the argument against the desirability of wearing stripes—is developed in navy blue and white. The stripes in parcel and hose are approximately the same width—but the parcel prefers a darker shade of blue. In spite of its frivolous air it's really sensible parcel—water-proof and made for heat-to-goodness protection against either sun or rain.

For the honors. The invited guests were Mesdames Larned, Senior, Wright, Moran, Hamilton, E. M. Gloyer, M. J. Sweeney, Burton, Greenhow, Clara Hill and Spaford.

Mrs. Harry Alexander was hostess at a delightful, little five hundred party given yesterday afternoon. The dining table was beautifully decorated, was won by Mrs. Carl Painter. At the close of the afternoon the hostess served delicious refreshments.

The marriage license for Miss Vera Amos and Wendell Allen was issued last evening and friends of the young couple say the ceremony will be held at 3 o'clock this morning, following which they will drive to a neighboring town and there take the train for California.

Industry at the home of the bride-elect elicited no information, every precaution being taken to elude the friends of the bride and groom in leaving Twin Falls.

Tomato and all other kinds of plants at the Greenhouse, South Main avenue. Biggest stock in the country. Here are prices at the greenhouse: Plants for general use, tomato, pepper and eggplant, 25c per dozen, \$1.75 hundred. Cauliflower, 15c dozen, cabbage, 15c per doz, \$1.50 doz. 100c per hundred. Celery, 75c per hundred. Asper plants, 20c doz. Fanated 1st bud, 50c doz. If by mail, 10c extra. Dozen; 25c hundred for packing and postage. UTZ TOWER GREENHOUSE, 127 S. Main, Twin Falls.

ADHERES TO GERMANY. BARLE, Switzerland, May 21. (Havas).—At a meeting at Kalsar, Slavura, in the French area of occupation more than 600 schoolmasters and school mistresses of the Palatinato adopted a resolution asserting their attachment to Germany. The resolution also protested against any attempt to separate the Palatinato from Germany.

PESSOA LEAVES RIO DE JANEIRO. RIO DE JANEIRO, May 21.—Dr. Epitacio sou, president-elect of Brazil, who has been the recipient of many honors during his visit here, left for Paris today by the royal train. The king and crown prince, the streets, acclamating, queen said farewell at the station, and the president-elect and Brazil.

Mr. Wiso. W. A. Goelbert is the defendant in one. He is alleged to owe \$123.28 on an account contracted in 1916. He has paid \$22.07 on the account, according to the complaint. Attorney's fees of \$40.00 are also asked. A judgment of \$131.90 is asked against P. L. Evans, who is said not to have paid the amount of an account of \$29.50. The plaintiff asks \$100 in attorney's fees, \$100 in costs, \$100 in costs for \$123.60 and \$100 attorney's fees. It is against A. L. Evans. Evans is said to have paid \$200 of his account.

SUES HARDWARE COMPANY. Suit for \$920 was filed in the district court yesterday by the Russell Grain company of Kansas City against THE ADMIRALTY Produce company. It is allegation of the plaintiff that in answer to a telegram sent by it to the defendant offering to buy 10 cars of alfalfa hay, the defendant concerned consented to furnish the hay but has since refused to make delivery.

ASKS JUDGMENT ON ANSWER. E. A. Reynolds and H. Voss, yesterday, filed in the district court an answer to the suit brought against them and C. B. Allen by the First National bank on a note given by Allen and endorsed by them. The answer states that Reynolds and Voss have paid the amount due on the note and requests that judgment be granted against Allen and that the defendant be subrogated to any rights and any securities held by the plaintiff.

RUN WATER ON ROADS, CHARGE. Warrants were sworn out yesterday against Fatima, Khan and Nawab Khan, Hindu, charging them with running water on the public highway. The men live on the Shoshone Falls road.

DAMMANS AGAIN SUED. Differences between the Twin Falls Canal company and Frank B. Damman, Mary Damman, and Edwin Damman resulted in the filing of another suit against the trio in the district court yesterday by the canal company. A temporary restraining order was issued by Judge Babcock prohibiting the defendants from using water coming from Coulee 1-3 in a ditch belonging to the Canal company. The defendants must appear in court next week.

EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a Glass of Salt if You Have Urinary or Bladder Troubles

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork, become sluggish; the elimination becomes slow and the result is kidney trouble, bladder weakness and general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizziness; neuralgia, spalls, acid stomach, or you have rheumatism when the weather is bad, get your pharmacist about four ounces of Dr. Sells' Salt. Take a tablespoon in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithine, and has been used for generations to flush and stimulate sluggish kidneys; to neutralize the acids in the urine so it no longer is a source of irritation thus ending bladder disorders.

Dr. Sells' Salt is inexpensive; cannot injure, makes a delightful after-dinner drink, water beverage, and helps you every home, because nobody can make a mistake by having a good kidney flushing any time.

Chairman Hays Says Large Contributions to Campaign Expenses Will Not Be Accepted.

By the Associated Press.
WASHINGTON, May 21.—Chairman Hays of the republican national committee announced today no contribution of more than \$1000 would be received from anyone for the financing of the coming republican campaign and launched a plan of country-wide small individual subscriptions.

The new plan marks the passing of great campaign contributions from corporations and individuals, long the subject of attack by the republican party's political opponents. The chairman will outline the plan in detail at a conference here tomorrow and Friday with the republican state chairmen.

"Everyone recognizes the necessity of meeting legitimate campaign expenses," said Mr. Hays. "There is just one way for this money to be provided and that is by means of small contributions from the great membership of the party. This plan will be followed completely. A general committee of ways and means, acting with Mr. Upham, the treasurer, will carry this work into each state and into the cities and towns with a definite organization for the raising of money. The purpose will be to get small contributions from a great many members of the party. It is planned to have these sustaining contributions run from the 1st of July to the 31st of August next. No contribution of more than \$1000 will be received from any one."

To Build and Foster

A COMMUNITY always welcomes the establishing of an institution that fills a recognized community need; unfortunately it doesn't always manifest a lively interest in the health of such an institution after it is established.

It is one thing to establish industries; it is quite another thing to build up, develop and maintain them.

An industry can be established by the investment of capital; its development and maintenance depend upon the attitude of the public toward the enterprise and toward the product.

Likewise, the permanency of an institution depends upon the willingness of its customers to pay a sufficient price for its product to enable it to continue strong and healthy financially.

The Mountain States Telephone and Telegraph Company's system of wires, furnishing the means of communication over mountains, plains and desert, is a tremendous factor in the development of the West.

Telephone service is a "home product" of every community in the mountain states, and is woven into the very warp and woof of commercial and social life. The permanency and adequacy of telephone service depend upon the same factors as are involved in the security and permanency of every other established industry.

With very few exceptions the people of the West recognize these principles and pursue a "live and let live" policy toward all legitimate business institutions.

SAYS CLASS RULE IS BLIND, HATEFUL

Dr. Faunce to Address in Baptist Convention; Links Christianity With Democracy.

By the Associated Press.
DENVER, Colo., May 21.—Declaring the nation's "blind" ought to be brought to the eyes of the nation at the expense of others in a Germanic decline and that the league of nations composed of purely selfish nations can endure, W. H. P. Faunce, president of Brown university, this afternoon told the Baptist National convention that he was earnestly in favor of a league of nations which is backed by the good will of all member nations. "None other could be permanent, he said."

Dr. Faunce's address on the "church and social reconstruction" sounded the keynote of convention work. Settlement of the labor problem by mutual understandings and co-operation was urged.

"Labor that degrades and stunts the personality cannot be tolerated in a christian land," he said. "I trust that underlining failure" that permanent says never get energy, toll that is sinless and hopeless, toll that has no satisfaction in the process and no share in the rewards—that is anti-christian toll and shall not be allowed in a christian land."

"I believe that we should have an industrial unrest, he said: "On the whole I would prefer the tyranny of a single autocrat by the tyranny of the hydra-headed mob. This rule is always the rule of the mob, including the mob that shall not be brought to none. Democracy is democracy, but christianity is smooth running, but none in the end to run upon the rocks."

"Christianity cannot recognize industrial war as the only basis of equality," he said. "The laboring man who regards all employers as his natural foes is blind to the facts as they are. He is a poor, helpless in any enterprise and is not fitted to function in a christian society. The employer who regards all laboring men with suspicion and fear is not fitted to function in a christian society and is a menace to the state."

At tonight's session the convention had before it the report of the survey board which has been examining the people of all departments of church activity for the past five years. A stipulated sum of \$48,354,331 will be needed, the report says, for work in the home and foreign missionary fields, education,

N. F. MINISTRY RESIGNS.

By the Associated Press.
ST. JOHNS, N. F., May 20.—Premier Lloyd tendered the resignation of the ministry to the governor of New

Foundations tonight. The cabinet crisis came to a head after the resignation of Finance Minister Cahill earlier in the day. Premier Lloyd was given to understand that Minister Cahill was supported by the majority of the government party in the assembly.

The Lloyd government was formed two years ago as a war cabinet.

WE CANNOT GO BACKWARD.
If it had been intended that we should not move ahead the Creator would have supplied us with pecked equipment so we might move backward expeditiously. But we were not constructed that way.

How otherwise can be described the motives of radicalism, of Bolshevism and their associated lamas around which gather the malcontent, the professional agitator, the neo-do-well, the political syphilis, the anarchist.

EARLY SESSIONS FOR CONGRESS
Nearly everybody recognizes the absurdity of a session which postpones the assembling of congress until 13 months after election, and which therefore makes it necessary to call an "extra session" at a time like this, when there is no legislative emergency.

A Message About Advertising from the U. S. Department of Labor

If you are not advertising, then advertise, because it saves money for you and it reduces the price to the consumer. Advertising prevents profiteering. It insures honest profits and makes them permanent. The message of the U. S. Department of Labor to merchant and manufacturers and to all progressive American business men is to advertise. Tell the public about your goods. The consumer has plenty of money. He is willing to spend it on American-made products. The easiest, quickest and most economical way in which this can be accomplished is by advertising. Start your campaign right now. The U. S. Department of Labor W. B. Wilson, Secretary. Roger W. Tex Takes No Chances on Health of Boxers

If Anything Happens to Jess or Jack Before Bout He Will Get \$50,000.

If anything happens to prevent either Jess Willard or Jack Dempsey from exhibiting in the ring at Toledo the afternoon of July 4, Tex Rickard, promoter, will receive from Lloyd's London, \$50,000.

One of his first steps after signing the champion and challenger for the big heavyweight bout was to take out this policy. It cost him \$5000. It is signed by 125 men, according to the regular Lloyd's system of issuing a policy. Some of these men are liable for as much as \$500 each. Some are signed for more and some for less. The total of the 125 insure, however, is \$50,000.

Besides this policy Rickard has a second one which insures a policy on himself. It is for \$100,000.

The total cost of the insurance is \$6200. It will cost more to promote the coming championship bout than any other contest ever cost. Before the site for the bout had been chosen Rickard spent something over \$10,000. Of that amount \$1500 was paid down on the ticket engraving. The tickets will cost several thousand dollars.

Rickard has spent a good sized sum in railroad fares, telegraph and telephone bills and incidentals.

And from now on the money will be pouring out in even larger streams. Then on the day of the fight Jess Willard will get \$100,000, Dempsey \$27,500, the government 10 per cent of the amount taken in, which will be close to \$400,000, and the city of Toledo will get 7 per cent of the total, which will go to charity.

What is left Rickard keeps.

MORGAN IS OUT OF TRANSOCEAN RACE

Rayhan Asks for Another Navigator—Hawker "The Hawk" Dropped Soon After Start.

By the Associated Press. ST. JOHNS, N. F., May 21.—Captain Frederick P. Rayhan, the British aviator, whose Martinie plane was wrecked when he tried to take off Sunday in the wake of Harry Hawker, today called builders of his machine in England asking that another trans-Atlantic navigator be appointed to replace Captain Charles W. E. Morgan, declared by physicians to be "out of the trans-Atlantic race" because of injuries suffered in the accident with Rayhan.

Flyers here tonight advanced him one theory to account for the complete disappearance of Hawker and his Sopwith plane. This is that the unfortunate little plane was forced into the ocean within an hour or two of its start from this coast, and sank almost immediately.

Complaint continued today against the service of the British air force's meteorological division, which was charged with a five hour delay in replying to this point storm warning which might have caused Hawker to postpone his flight until conditions were not propitious.

PULLMAN TAX SCANDALS UP BEFORE COMMITTEE

Evidence Falls to Show Charge Made by Deposed Official—Members Testify.

SPRINGFIELD, Ill., May 21.—Witnessed by Omar H. Wright, state director of finance, that he had over \$100,000 lower tax assessments for the Pullman company with the state board of equalization or that he had represented Governor Frank O. Lowden in dealing with the board, was made today before a special legislative committee appointed to investigate charges that the company had sought to have its taxes lowered and that Governor Lowden had threatened to abolish the board if the taxes were not lowered. Various members of the board testified that they had never been approached directly or indirectly by one-half of the Pullman company.

Glass of Hot Water Before Breakfast a Splendid Habit

Open sluces of the system each morning and wash away that poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; suffering headache, stuffy nose, cold, foul tongue, noisy breath, acid stomach, lame back, can instead look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten years of bowels the previous day's indigestible waste, sour milk and poisonous toxins thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderful. Ingesting it cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roes begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it and you're assured that you will look better and feel better in every way shortly.

Notice of Allotment and Delivery. To Water Users:
Water deliveries will begin Monday, May 26th for the irrigation season of 1919.

The first allotment for the season is made at one acre foot per acre for each share on which maintenance charges have been paid in full, the water delivered to be put to beneficial and economical use. An additional allotment may be made later should the run-off for June justify.

With ordinary weather conditions the first run will probably continue about three weeks. Crop and weather conditions will determine the time when the second delivery will be made, but it will probably be in the latter part of June and the month of July. It will continue until each person has used his allotment and the head of the reservoir is so low that no further allotment or delivery can be made.

Orders for water should be placed with the riters as soon as possible. Deliveries will be made at any reasonable rate that may be requested, subject to the carrying capacity of the system.

ARRANGING FORD IN COURT ARGUMENT

Label Suit on Hearing in Michigan Takes on Sensational Turn—Takes Evidence Today.

By the Associated Press.

MOUNT CLEMONS, Mich., May 21.—A vehement denunciation in which Henry Ford was characterized not only as an anarchist, but a dangerous one, started spectators in Judge Tuckey's court here today. The assertion came from Elliott G. Stevenson of Detroit, one of counsel for the Chicago Tribune, which is being sued for \$1,000,000 damages by Mr. Ford on a charge of libel. The pivot of the alleged libel published June 23, 1918, was the heading of an editorial reading: "Ford is an anarchist."

In his comment, incident to debate on a brief in which the plaintiff seeks to limit the evidence, Mr. Stevenson alluded to the assassination of Pres-

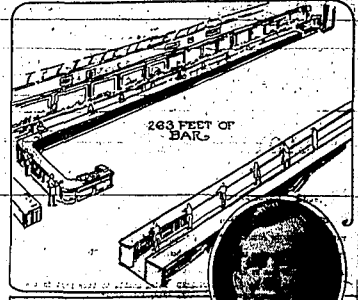

dent McKinley, the bomb outrage during the preparedness parade at San Francisco, the war time offenses of members of the Industrial Workers of the World and devoted some time to the "copperheads" of the Civil war. He quoted President Lincoln as writing in reference to the banishment into the confederate lines of Clement L. Vallandigham, a "copperhead" leader of Ohio, as follows:

"Must I shoot the simple-minded soldier who deserts, while I must not touch a hair of the head of the wily agitator who incites him to desert?"

"So we say to Henry Ford," the lawyer declared, "you are more responsible for the outrages that have been committed during the war than any of the men who used direct action," because you, a great leader and humanitarian, encouraged them and they believed that you must be right."

Earlier in the session Attorney Alfred Lucking, representing Mr. Ford, quoted much law in arguing that military preparedness "has nothing to do with the present case" and that there were many court decisions which would confine the present issue to considering only whether the headline, "Ford Is An Anarchist" was a

Prohibition Will Knock Progs From Under Bridgeport, Ohio

Above is a diagram of the world's biggest bar. The inset is Sam Ungersfelder, proprietor. The big picture is one of the regular Saturday night crowds.

BRIDGEPORT, O.—Poor Bridgett! One might say "Poor Wheeling!" but who sympathizes with Wheeling when Wheeling has been "gotting by" as the greatest dry wet city in the universe for the last few years?

But poor Bridgett is going to suffer when Ohio goes dry May 24. You see Bridgeport has been serving as a dry base for Wheeling tanks since West Virginia went "dry." All the thirsty ones had to do was to cross the Ohio river and bend their elbows and hold the left foot as in the good old days when prohibitionists and reformers were an unheeded minority.

Bridgeport, a little city of 4200 souls, is going to be on the receiving end of an awful hard slap May 24.

libel. It was immaterial, he said, what editorial policy the Tribune had purged before. The Tribune, Mr. Lucking admitted, had the right to show what his motives were in publishing the editorial and might introduce the body of the editorial in that connection, but he said it was far without the issue to introduce witnesses to give testimony on Michigan affairs when there was nothing to show that their stories were known to the editorial writer when he wrote the alleged libelous editorial.

Mr. Stevenson replying to this, said: "It is our purpose to endeavor to show that Henry Ford was just the kind of a man we characterized him as being an anarchist. We are talking about regular dead-in-the-foot anarchists of the kind the article in-

dicates. Henry Ford was the most dangerous kind of an anarchist that can be thought of, a man who, by insidious propaganda, undermines the confidence of the people."

Mr. Stevenson pointed to the assassination of President McKinley as one who wished to destroy the power of the government by violence.

"What was it prompted him to commit the murder?" asked the lawyer. The insidious propaganda that had been spread broadcast picturing McKinley as the public pet of the trust.

"Mr. Stevenson replying to this, said: "It was an attempt to intimidate the men who were working to prepare this country to defend itself and discharge its duties. It was

the propaganda which said that we had no right in the war, and that any one who engaged in it was not a patriot, but a tool of Wall street and trust makers. They hated Henry Ford and others say: "There is no danger of an attack from an enemy, there is no anomy in sight, except the profiteers who want to have this country involved in war."

Mr. Stevenson will finish tomorrow. After he had been answered by counsel for Mr. Ford, taking of testimony will start.

ALIAS SUMMONS.
In the District Court of the Fourth Judicial District of the State of Idaho, in and for Twin Falls County, B. J. Finch, Auditor, as Trustee for

Twin Falls County State of Idaho, Plaintiff, vs. J. H. Wells, W. Homer Craven, Genevieve L. Craven, his wife, Twin Falls North Side Investment Company, a Corporation, Twin Falls North Side Land & Water Company, a Corporation, and The Continental and Commercial Trust and Savings Bank, a Corporation, Defendants.

The State of Idaho sends, together to: R. B. Lovell, Twin Falls North Side Investment Company, Twin Falls North Side Land & Water Company, The Continental and Commercial Trust and Savings Bank, the above named defendants, and you are hereby directed to appear and answer said complaint within twenty days of the service of this summons, I served within said Judicial District, and within forty days if served elsewhere, or the judgment herein rendered will be taken as an answer and the plaintiff will take judgment against you as prayed in said complaint.

The nature of the cause of action alleged against you in said complaint is that the County of Twin Falls, State of Idaho, has a lien against Lot Fifteen (15), Block Seventy-eight (78) of Hilditch Township, as the same is platted and of record in the office of the County Recorder of Twin Falls County, Idaho; for the delinquent taxes of the year 1916, in the sum of \$2.55 with interest at twelve per cent per annum, from January 1, 1917; for the delinquent taxes of the year 1917, in the sum of \$2.52, with interest at twelve per cent per annum from January 8, 1917, and for the delinquent taxes for the year 1917, in the sum of \$4.47, with interest at twelve per cent per annum from January 1, 1918, and that the plaintiff, in behalf of said Twin Falls County, is demanding judgment for said amounts, plus \$25.00 attorney's fees and cost of suit, including \$1.00 disbursements amount of title, and that a decree be entered ordering the sale of the premises herein described for the purpose of satisfying the amount of the judgment so obtained.

Witness my hand and seal of said District Court this 16th day of April, 1919.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She Mixed Sulphur With It to Restore Color, Gloss, Youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and lustrous. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Weyth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not natural, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Weyth's Sage and Sulphur Compound, you can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two your hair becomes, beautifully dark, glossy soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

SUGAR CITY WILL HONOR HIGH HOME-COMING HERO

Young Neubaur, a Sugar City boy, who brought honor to the state of Idaho by being the first private of the American army to receive the congressional medal in coming home. It will be remembered that young Neubaur after he had been in the hands of the Germans for over 20 minutes and disarmed, recovered this ground and single-handed and alone, after killing four Germans, took 21 Germans and marched them back to his regiment. Neubaur will arrive in Sugar City on the 27th of May, and all Commercial clubs of the upper Snake river valley are joining the little town of Sugar City in welcoming American heroism to his home town (Sawtooth Falls, Idaho) and his staff, of which young Neubaur is a member, will be in attendance. Hon. ALFRED BURGE of the supreme court will be the orator of the day.

PLAN FOREST DEFENSE BY AIRPLANE FLEET

By the Associated Press.

PORTLAND, Ore., May 21.—Senator McNary would install an airplane forest fire protection system at Portland, according to a letter received from him today by MILTON R. KLOPPER, president of the Aero Club of Oregon. In response to the club's request for the establishment of the aeroplane fire patrol through co-operation with the forest service.

"The greatest difficulty to the establishment of the aeroplane patrol at the present time is the scarcity of trained mechanics who could properly care for the government planes, Senator McNary said.

HOUSE ADOPTS SUFFRAGE BY 304 TO 89

Leaders of Both Parties Rally to Support of Anthony Amendment.

PARTY LINES ARE SHATTERED BY VOTE

New England Republicans and Southern Democrats Stand Out Against the Measure.

By the Associated Press.
WASHINGTON, May 21.—National suffrage for women was endorsed by the house of representatives for the second time when the Susan B. Anthony amendment resolution today was voted by a margin of 304 to 89. Supporters of the measure immediately arranged to carry their fight to the senate where, although twice defeated at the last session, they are confident of obtaining the necessary two-thirds vote.

Victory for the suffrage forces today was by 42 votes more than the required two-thirds. On the previous ballot on the resolution cast January 10, 1918, exactly the necessary number of affirmative votes were recorded.

House leaders of both parties in the brief debate preceding today's vote urged favorable action, but many of the southern democrats opposed the measure as did several New England republicans.

The favorable vote was more by 14 than it has ever been necessary for all members of the house to present. The political division of the vote showed that 260 republicans, 102 democrats, one independent and one prohibitionist voted for adoption, while the negative poll showed 70 democrats and 13 prohibitionists.

Efforts of opponents to amend the resolution were unavailing. Representative Clark of Florida, democrat, leader of the opposition, proposed that the state's ratification be compulsory within seven years, and Representative Saunders of Virginia, democrat, sought to compel state adoption by popular vote. The overwhelming denial of a roll call on these proposals by a vote of 244 to 52, preceded the vote of adoption, and resulted the relative strength of the resolution's supporters and opponents.

Leaders Aro Gruffified.
Suffrage organization leaders expressed gratification at the large favorable vote and predicted victory in the senate, due to changes in membership. It is expected that the resolution will come up for a vote early next month in the senate.

Both Republican Leader Mondell and Democratic Leader Clark asked adoption of the resolution, the latter referring to the amendment as the "suffrage act." For such action, while Mr. Mondell praised the republican members for their attitude, pointing out that adoption of the resolution was the first legislative act of the new congress.

COUNCIL PLANS TO GIVE MORE PAVING

Supplemental District to Be Authorized to Satisfy Opposition to Program Voted on June 6.

Action will be taken next Monday, following a council meeting, for the formation of a supplemental paving district to include Second and Third avenues west, Fourth avenue east and Sixth street west, and probably a short portion on Mindoka in front of the freight depot.
This decision was reached last evening after a conference between members of council and D. E. Sullivan and S. H. Bolton, representing opposition to the issue to be voted upon June 6. It is anticipated that as a result of this plan of council that organized opposition to the forthcoming paving issue will be eliminated. Promises of this were made by Messrs. Sullivan and Bolton as representatives of those in opposition.

The question of how to eliminate opposition to the bond issue was discussed for nearly two hours between Mayor Brickeridge, Councilman Channel and Drenckendorff and the committee. At first the committee insisted that the program should be begun over again. It was stated by City Attorney Davies that this would mean a delay of between 40 and 60 days in starting paving.

The councilmen present held that this delay would result in the elimination of any paving this year. Councilman Channel stated that it was the hope of the highway board to have some roads finished this year that would touch the city and it was held by the mayor and councilmen that the paving on Sheahone and Main streets should be finished in time to meet the paved roads.

Council then offered to agree to have the intentional ordinance prepared with the understanding that a resolution be adopted stating that a Class B paving alone be used in the main business section. This step will provide sufficient funds for the additional paving planned according to Engineer R. V. Berg.

The committee then reported to the main body of the opponents following which a discussion of the question resulted in a decision to accept the council's offer.

PLAN PLANT FOR ROAD MATERIAL

Highway District to Reconstruct Highway, Install Once Roads Aro Built, Says Channel.

Establishment of a plant to keep the penetration material for the roads to be built by the highway district is being planned by the highway board. This information was made public by C. B. Channell, chairman of the board last evening.
It is planned by the highway board to use the penetration material used in the roads to be built, according to Mr. Channell. This class of roads can be replaced and a new surface can be put on by the board itself once the roads are in, Mr. Channell stated.

The material that is used will come in large bags. The highway district will construct a receptacle for the material and will buy a distributor that can be used first by the contractors in building the roads and then by the district in keeping up the highways.

FIND SAFETY GAS FOR DIRIGIBLES

Non-Explosive and Non-Inflammable American Gas Makes Craft Safe From Enemy Fire.

By the Associated Press.
CLEVELAND, O., May 21.—Had the war continued the American army would now be sending dirigible balloons inflated with a non-explosive, non-inflammable gas to drop bombs on the Germans without fear that the enemy fire would destroy the aircraft. Franklin K. Lane, secretary of the interior, told delegates of the American Petroleum Institute meeting here today in connection with the convention of the National Gas association of America.

Mr. Lane said the federal bureau of mines discovered the products, known as Heliug gas, and that experts are working to make it available for commercial purposes. He declined to say what uses may be made of the product which is extracted from oil and gas. Thomas H. Gregory, director of the natural gas bureau of the United States fuel administration, told the delegates at the morning session that the supply of natural gas will be exhausted in 20 years if present wasteful methods are continued. He advised a restriction of the use to domestic and small industrial consumers and use of specially designed gas-saving appliances.

ALLIES IN TOUGH WITH ADM. KOLCHAK

Omak Government Will Be Recognized as Soon as Proper Guarantees Aro Given.

By the Associated Press.
WASHINGTON, May 21.—Admiral Kolchak, dictator of the Omak government, has been notified by the Paris peace conference that as soon as he has established a stable government with guarantees of freedom of speech and the press and a constitutional assembly, his government will be accorded recognition as the official representative of all non-Bolshevik Russia, it was learned today from an official dispatch.

The delegates in Paris, it was learned, are in constant communication with the Omak government and are working out details of the formal recognition.
The note, recently addressed by Foreign Affairs to the Soviet government, commander of the American military forces in Siberia, asking that the Americans push no farther inland, was caused by an unfounded report that the American troops were to assume control of Siberian railroad military guard as far west as Omak. Similar notes, it is reported, were sent to other commanders of allied troops in the Vladivostok region.

The purpose of the notes, in the opinion of officials here, was to make it known throughout Siberia that the military establishment of the Omak government had reached such a stage that it was able to take over the policing of the entire territory. While it was not intended to request the allied governments to withdraw their troops, it is not desired to have these troops occupy any more territory than at present.

MRS. DRADLEY AGAIN HEADS TRAINMEN'S AUXILIARY

COLUMBUS, O., May 21.—Without opposition, Mrs. Clara Bradley of Chicago was re-elected national president of the auxiliary of the Brotherhood of Railroad Trainmen at its convention here today. She has held the office since 1917.

W. G. Lee, president of the brotherhood, was unanimously re-elected grand counselor of the auxiliary.
Four vice presidents also were returned to office at today's election. They were Mrs. Ada Marshall of Philadelphia, first vice president; Mrs. Mary Ousack, Toronto, Canada, second vice president; Mrs. Mary Milton, Denton, Tex., third, and Mrs. Mary Connell of Denver, fourth vice president. Election of officers will continue tomorrow.

Sticks as a Yeoman

Miss Bettie Fisher, yeoman female, stumbled into two million, inherited from a distant relative who died in Oklahoma oil, and she still sits at her desk in the navy building. This is her explanation "You see to begin as the weather warms up so yeomen are going to put on our new white summer uniforms. I have mine all ready. So, of course, I simply couldn't leave the service until I get mine."

Gladys Brockwell IN 'THE FORBIDDEN ROOM'

You know the peril to girlhood and beauty that lurks in a great city, even when the police are vigilant. If a corrupt police deliberately plot her ruin to further their grafting schemes—using plain clothes spies and crooked pals to aid them—how is it possible for her to escape? Single handed she smashes a city ring and rescues a city. A stirring romance of feminine nerve and wit.
