RED MORALE WEAKENS AS ARMY LOSES

Peasants and Workers Desert—Bolshevik at the First Opportunity.

"ON-TO-MOSCOW" IS CRY OF SIBERIAN

New Omsk Bank Institution Secures Many Subscribers to Its Stock List.

OMSK, Saturday, May 17 (Russian Telegraphic Agency)—Reports received by the general staff of the Siberian army indicate disintegration of the morale of the Bolsheviks. Mobilized workmen and peasants are deserting at the first opportunity and the Bolshevik commissaries are reported to be disheartened.

Expel All Bolsheviks
Siberian newspapers print resolutions adopted at recent meetings of peasants in the district of Samara, who decided to expel all those with Bolshevik sympathies, to organize special peasant detachments to fight the Bolshevik and to arm all men between 18 and 50.

The Bolshevik organ Nash Tsu acknowledges that it is impossible to stop the Siberian offensive, saying:

Four Siberian Army.
The army begins to be more powerful than the army we had to face last year. In spite of all our efforts the army moves swiftly toward the heart of our positions.

The Siberian troops as they move toward the front are greeted enthusiastically by the population.

On to Moscow.
The railroad cars bear the inscription: "We are going to Moscow."

The Moscow Narodny bank, financial center of the Russian co-operative organizations, has listed new stock to the amount of 65,000,000 rubles.

Open Series of Branches.
The bank, which now has its main office in Siberia, has opened a series of branches between the Ural and Vladivostok. More than 50 per cent of the new stock already has been taken.

It is announced that the Zemstvo throughout Siberia have united in one union similar to the former all-Russian Zemstvo union.

SIGN 1000 BONDS ON STATE'S BANK

North Dakota Preparing for Innovation in Financing Hill Mill and Elevator Scheme.

BISMARCK, N. D., May 24.—James A. McGovern of Fargo, N. D., was appointed manager of the North Dakota Hill and Elevator association today by the state industrial committee headed by Governor Frazier. McGovern came to North Dakota two years ago as chief deputy inspector of grain grades. The association was authorized by the last legislature with almost unlimited authority to handle and farm products by state management.

Governor Frazier and State Treasurer Olson today signed a thousand \$1,000 bonds on the bank of North Dakota, which are to be subscribed by the state, advising that the bonds were ready for delivery and urging the psychological effect of an immediate popular subscription of at least half a million at a price of 105 1/2. The interest on the bonds has been fixed at five per cent.

PRINCE OF WALES IS RIDING MASONIC GOAT

LONDON, May 24.—The Prince of Wales is taking Masonic orders. He has just been given his first degree. His father, King George, is not a Mason, but his grandfather, Edward, was grandmaster of the craft, and the Duke of Connaught is present grandmaster.

FOUD STRIKES MAXWELL

A Ford and Maxwell collided yesterday evening at the end of Main street. The wheel of the Ford was smashed, while the running board and fender of the Maxwell were damaged.

PERSHING URGES SUPPORT OF SALVATION ARMY DRIVE

NEW YORK, May 24.—Brigadier General Cornelius Vanderbilt, chairman of the Salvation Army home service campaign in this city, made public tonight a cable message from General Pershing, in which the commander of the American expeditionary forces urged the American people to support the activities of the Salvation Army.

Two Aviators Fly 220 Miles In 84 Minutes

By the Associated Press.
WASHINGTON, May 24.—A message to the air service today from New York reported the arrival there of Colonel Gerald C. Grant and Lieutenant Howard Kirkcort, flying from Houston, Texas, in an army biplane, which covered 1,715 miles in 9 1/4 hours, actual flying time. The last leg from Washington to New York, 220 miles, was made in 84 minutes, which was claimed to be a record for the distance.

HAWKER MADE MID-OCEAN IS SHIPS REPORT

Vessel from London Tells of Hearing Signals From Airplane

VERIFIES REPORT FROM THE FARADAY

Also Pick Up Message Telling of Ship Seeing Sopwith with Disappear into the Fog.

By the Associated Press.
ST. JOHN'S, N. F., May 24.—Bolet that Harry G. Hawker, Australian airman succeeded in reaching mid-ocean before his Sopwith biplane plunged into the sea, was strengthened tonight when the steamer Glendovee, arriving from London reported having picked up a wireless message from the steamship Burga early Monday morning, in which the Burga gave her position, apparently in reply to a signal from an airplane.

The Burga was then at 50 degrees 28 minutes north latitude, and 30 degrees west longitude, the same position from which the cable ship Faraday reported to London she had sighted the red light of an airplane early Monday.

The Glendovee's captain said on his arrival here that from the Burga's message he deduced an airplane on the course which Hawker would have followed in his attempted flight from Newfoundland to Ireland had signal-her for position and surface wind.

So Nothing of Plane
At that time—1:10 a. m. Monday—the Glendovee was 30 miles from the Burga—saw nothing of plane or signals. The Glendovee, according to her log, encountered a strong northeast gale Monday on the course over which it is believed Hawker had flown.

The Glendovee also reported picking up a message from an unidentified vessel to the effect that a Sopwith biplane had been seen to disappear in the fog at position for which only the longitude of 19 degrees was given.

Brags Another Contact
The Glendovee, tonight, has a tiny bomber in which Captain Acock will attempt his trans-Atlantic flight.

Field Marshal Seeking Haven In Switzerland

By the Associated Press.
GENEVA, May 24.—Field Marshal von Hindenburg formally appealed to the Swiss government yesterday, asking permission to reside in Switzerland as a simple citizen.

The field marshal, who recently bought a villa on the shores of Lake Constance, said that he had only fourteen days' holiday since the war began.

The Swiss authorities are somewhat embarrassed, as it is known that von Hindenburg is a monarchist and also an intriguer. It is learned, however, that when sufficient guarantees are given, permission for his residence will be granted. Meanwhile, the Germans continue their anti-tilled propaganda in Switzerland.

FOLLOWS U. S. INFANTRYMEN

Youthful Frenchman Comes to United States on Board Transport Agamemnon.

By the Associated Press.
NEW YORK, May 24.—When the transport Agamemnon reached port today, there was found on board Leon Roberts, 14 years old, who followed the allied armies for four years. Returning home from school one day in 1914, he found his home in Lens destroyed by a bomb dropped by a German airplane. All the members of his family had been killed and so he followed a French sergeant until his commander ordered him to leave, fearing he might be injured.

Leon then attached himself to British units, frequently carrying water and cigarettes to the men in the front line trenches. When the Americans arrived, Leon joined the 14th infantry and during an engagement was wounded in the neck. After getting out of the hospital he attached himself to the 341st artillery.

RETURN OF TROOPS HEADS OFF NEW ENTERTAINMENTS

BOSTON, May 24.—The committee on war activities of the Knights of Columbus received a communication from the war department today suspending its authority to send additional secretaries overseas to carry on work among soldiers in France and Germany. The committee had arranged a program of activities and vaudeville entertainments and its athletic directors were to leave New York June 1.

TWO MORE BODIES DUG FROM RUINS

Total Death List Reaches 15, With Probably 30 Still Buried in Debris.

By the Associated Press.
CHICAGO, Saturday, May 24.—What is believed to be the remains of two more men was uncovered at the Douglas Starch works tonight, which places the total dead list at fifteen. Joe Collicke, a workman who was unmasked Thursday night shortly after the explosion occurred, died at a local hospital today.

It is now stated that 30 men are still under the debris. A systematic removal of the debris is under way and it is thought that the remaining bodies will be recovered soon.

Dust explosion experts from Washington, Chicago and Minneapolis arrived today, and will make a thorough investigation as to the exact cause of the explosion.

WOMEN OPPOSE LAW FIXING WORK TIME

Decline They Will Use Law to Prevent Servant Girls Working at Night.

NEW YORK, May 24.—A delegation of 450 women employees of the Brooklyn Rapid Transit company appeared before Governor Smith at the city hall this afternoon to protest against the newly enacted transportation law which bans women from working after 10 o'clock at night and which had cost them their jobs.

A half dozen women employees who testified declared they preferred night work, explaining that this arrangement made it possible for them to visit their husbands. They denied that night-work tended toward immorality.

Before the hearing started Mary Donnelly, representing the women ticket agents, issued a statement criticizing the "society women" for their activities with respect to working women.

"The sooner the society women understand they must keep their hands off the working women, the sooner the working women will be better off," she declared. "If this law is carried out, the smaller girls, the poor girls and the society women, must let their household maids go by 10 o'clock at night, for we intend to show them that what is sauce for the goose is sauce for the gander."

Summary of the International Situation

By the Associated Press.
Germany's scrapping of notes protesting against the British peace treaty have had little effect on the purpose of the allied and associated governments to have the German delegates sign or refuse the treaty.

Paris reports the only changes of moment made in the treaty have been in phrasing and details. Several German notes remain unanswered.

Reports from Germany indicate that the British and the British government is changing, some observers expressing the opinion that it will order the delegates to Versailles to sign the treaty.

Meanwhile in the allied troops approaching the Rhine, the British General Robertson, the British commander, and a conference Friday with Lieutenant General Liggett, commander of the American bridgehead, in regard to their plans should the Germans accede to sign.

President Wilson, Paris reports, has let it be known that the United States probably would not be able to take a mandate for Constantinople in the event of the formation of Turkish empire. It has been suggested that Constantinople either be placed under joint control of the great powers, or that Greece be given the mandate.

Fugher reports indicate that the position of the Bolsheviks at Petrograd is growing weaker. Advantage of the Finns and Estonians from the war department today suspending its authority to send additional secretaries overseas to carry on work among soldiers in France and Germany. The committee had arranged a program of activities and vaudeville entertainments and its athletic directors were to leave New York June 1.

TEXAS CITIES VOTE AGAINST DRY MEASURE

Issue in Doubt With Prohibition Behind—Suffrage Also Losing.

SMALLER PLACES FAVORING REFORMS

Attempt to Raise Governor's Salary Fails as Does the Proposal to Aid Homeseekers.

DALLAS, Texas, May 24.—At a. m. returns from from counties, show the result of yesterday's general election on constitutional amendments for prohibition and woman suffrage still in doubt, but with the vote for both measures in the lead. Figures from 234 towns give: For prohibition, 47,705, against 39,991; for woman suffrage, 47,104, against 43,505.

DALLAS, Tex., May 24.—The fate of both the prohibition and the woman's suffrage amendment to the state constitution were in doubt tonight when reports from two score scattering cities in the state had been counted. The vote then stood: For prohibition, 47,705, against prohibition, 17,758; for suffrage, 15,414, against suffrage, 14,739.

Includes Large Cities.
This count included many of the larger cities, some of which had been counted on to vote against prohibition and suffrage. The country and the smaller cities, however, were the women and the earlier returns piled up substantial leads for both amendments.

San Antonio Hills Dries.
The first setback for the drys came when San Antonio reported 42 precincts out of 93 as giving 1888 votes for prohibition and 3845 against and 2557 for suffrage.

Galveston Also Wet.
Galveston added to the wet advantage when 27 of 31 precincts in the county gave prohibition 1387 votes to 3017 against and 1542 for suffrage to 2214.

The drys gained in Dallas and held the suffrage, the vote being: For prohibition 4003; against 2995; for suffrage 4283; against 2285.

Small Cities Vote Dry.
Ochoco, Wheeler, Grant, Bagdad, Wapakoneta, Denton, Long View, Mineral Wells, Palestine and other of the smaller cities voted strongly dry. Brownsville voted wet, but was outvoted by Cameron county in which it is located.

Mayor, the border county in which Eagle Pass is located, returned a total of 66 votes for and 108 against prohibition.

Won't Raise Salary.
It was estimated that amendments to raise the governor's salary from \$4000 to \$10,000 and to provide means to extend the state's credit to homeseekers had been lost.

Nearly two there been a more varied week in the festivities of the Twin Falls hostesses. The past week has seen the close of one or more club years, a wedding and several affairs for the bridge-club. The usual array of bridge parties complete the week.

The lure of the hills has awakened the call of the wild in the hearts of many Twin Falls campers and the week-ends find the roads filled with hurrying cars on the trail of the wily trout that lurks in the cool streams. This week will see the close of May with her beautiful bright blossoms.

In all the gifts of the spring garden of which there are so many in Twin Falls, this year, there is none more delicious or wholesome than asparagus. Learn to cook it properly, so as to get the finest flavor and best appearance.

For the stalks of young asparagus should be washed, tied in bundles with clean string, and cooked tender in a vessel deep enough to permit the bundles to stand upright, with the boiling water coming up to the neck of the stalks, leaving the heads above water to be cooked by the steam. This way of cooking insures that the whole stalk will be tender and the heads will not be cooked off as often happens with the other method of cooking. Whole stalks of asparagus are also served temptingly in appearance, either served as a vegetable or a salad. To cook fresh asparagus boil 20 minutes in water salted 1 teaspoonful to the quart.

Mrs. R. B. King was hostess at tea Friday afternoon honoring Mrs. Sheels who is the guest of her daughter, Mrs. Lewis at the Perrins hotel. A very delightful afternoon was spent visiting with Mrs. Sheels, who has been a guest in Twin Falls many times before and has hosts of friends to greet her.

Mrs. Mary Hackleroad will leave this morning for Denver, Colo., where she will make her future home.

The B. Y. P. U. will hold a meeting this evening in the Baptist church annex at 7 o'clock.

Three cardinals of friends motored to the home of Mr. and Mrs. Nelson Hayward last evening for a little surly party. The guests took refresh-

ments with whom which they served at the close of the evening.

John Houck was host at a dinner party last Thursday evening at the Perrins hotel. The invited guests were Mr. and Mrs. C. E. Palster, Mr. Shaw and Mr. Clark.

LOCKLEAR SHOWS NEW FLYING STUNT

Grabs Rope Ladder Dangling From Plane Above His Own, and Climbs Up.

By the Associated Press.
ATLANTIC CITY, May 24.—Lieutenant Omar Locklear, formerly with the air service of the army, today gave a demonstration, said to be the first in the annals of flying, of catching a snapping rope ladder from a second airplane and climbing into the craft from which it hung. The feat was done at an altitude of 3,500 feet. He has leaped from one plane to another in the air before, but never made an ascent from one plane to another.

The performance was one of the features of the day's flying events held here in connection with the Pan-American aeronautical convention. The inter-collegiate land plane race over a 21 mile course was held today. Lieutenant Jack Frost of Princeton, won the race in 16 minutes 6 seconds, followed by Lieutenants Locklear and Payne of the University of Pennsylvania in 16 minutes, 15 1/2 seconds. Third went to Columbia represented by Lieutenant Floyd Gathorn, with Lieutenant Karwood as the driver in 16 minutes and 21 seconds; fourth to Yale represented by Ensign A. A. Drake, with Lieutenant Stool at the wheel in 17 minutes and 30 seconds, while Ensign L. Dougherty for Harvard trailed the field in a machine driven by Lieutenant Bob Shpik in 18 minutes and 22 seconds.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe to Darken and Beautify Faded Hair

That beautiful even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundred fold.

Don't bother to prepare the mixture; you can get this famous old recipe, improved by the addition of other ingredients at a small cost, all ready for use. It is called "Weyth's Sage and Sulphur Compound." This can always be depended upon to bring back the natural color and luster of your hair.

Everbody uses "Weyth's Sage and Sulphur Compound" now because it darkens so naturally and evenly that you cannot tell the difference. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

BAPTISTS REJECT AN ORGANIC UNION

Accept Inter-Church Plan for Raising Money, But Go to Alone on Good

By the Associated Press.

DENVER, Colo., May 24.—Rejection of proposals for an organic union of praeligious churches, acceptance of the inter-church work movement and the gift of \$2,000,000—by John D. Rockefeller for mission work were the outstanding features of today's session of the northern Baptist convention.

The Rockefeller gift, contingent upon the completion of the \$6,000,000 church fund, was said to be the largest individual gift ever made to missionary work in any denomination.

Of the sum \$4,000,000 already has been raised and President W. A. Ayer, of Philadelphia, told the convention he was confident the sum would be raised and the \$2,000,000 obtained, one-half for the American Baptist foreign mission society of Boston and the other half for the American Baptist home-mission society of New York.

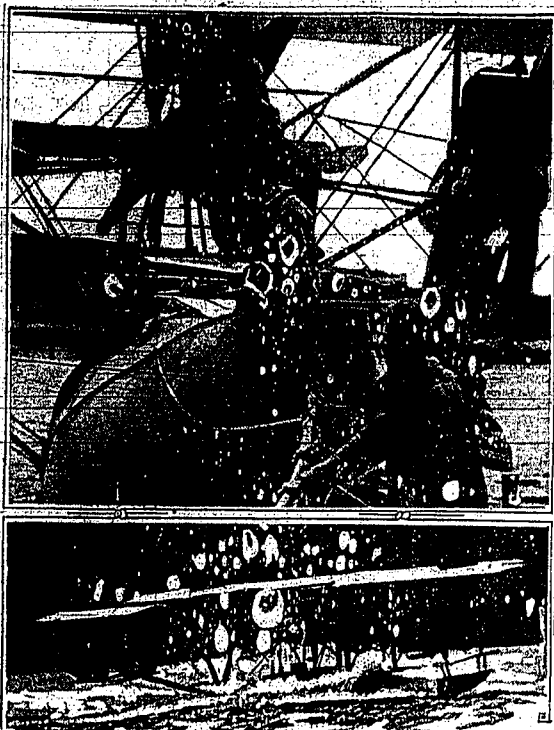

The Rockefeller gift was in addition to \$750,000 already contributed toward the \$6,000,000 fund.

Acceptance of the inter-church work movement, a proposal for merger of financial interests of various denominations for a campaign of money raising similar to the united work campaign conducted by the army welfare organizations, came somewhat as a surprise as considerable opposition had been developed previous to the convention. When the vote was taken, the opposition had dwindled to a comparative few, due to reservations in the acceptance providing that the inter-church federation should sever attempt to effect an organic union of churches and other organizations preserving the independence and traditions of the Baptist church.

This movement was made by the executive committee of the convention which submitted its own statement for the recommendations of the laymen's committee in order to meet the demands of those opposing the federation. There was only a few minutes discussion before the vote. The southern Baptist convention already had rejected the proposal and the Presbyterian church at St. Louis accepted the federation plan only after making reservations along a similar line.

The resolution declaring against organic union of the "evangelical churches of the county was presented to the convention by Dr. Shaller Matthews, dean of the University of Chi-

ago divinity school. It declared that Baptist traditions and principles precluded any organic union with other denominations. The Baptist church is a democratic body, unaffiliated with any other body and looking to no higher authority than its own membership, the resolution stated. It expressed the sentiment of the convention in refusal to send any delegates to the proposed conference on organic union, as suggested by the Presbyterian church.

Disposal of the important business of today's session early in the day left little for the afternoon session of the convention except a mission program. The convention sermon to be delivered tomorrow morning by Dr. Fock of Union Theological Seminary in New York and other purely religious meetings were scheduled for tomorrow.

Monday and Tuesday the convention will devote definitely on the five-year program; a program for education; election of officers and selection of the next convention city.

NO START EVIDENCE ON FORD-TRIBUNE LABEL SUIT

By the Associated Press.

CHICAGO, May 24.—The second stage of the Henry Ford-Chicago Tribune label suit was completed today and Monday the taking of evidence will begin. The first stage, the selection of a jury, required a week and the second stage completed today, brought to an end the arguments of counsel on admissibility of evidence which consumed the second week of the trial.

The arguments were pivoted on the demand of the defendant that it be permitted to show that search conducted along the Mexican border at the time the Tribune printed its editorial headed "Ford is an Anarchist." Judge Tucker said that he would not announce a ruling to govern the scope of the evidence but would rule from time to time as circumstances required.

Alfred J. Murphy of the Ford force, denied today that Mr. Ford had ever directly said the word "murder" should be embroidered on the shirt fronts of soldiers.

GLIMPSE IS GIVEN OF BOLSHEVIK LIFE

No Newspaper Permitted Except Those Under Control of Reds—Murder and Pillage Everywhere.

Glimpses into the fantastic life in Moscow under Bolshhevik rule are given by an Armenian engineer who has arrived here from the capital of Soviet Russia. He says the people of the city live in terror of the Bolshhevik Red Guard and that the former bourgeoisie have very few privileges. He is well dressed in a crime. The hated upper classes must masquerade as poorer folk whenever they go into the streets. Good clothes or furs bring down upon them the cry of bourgeoisie. One word of protest or non-submission to the ruling powers is quite sufficient to evoke the damning word, "counter-revolutionary." That means prison and sometimes death. The jails already are full of counter-revolutionaries and the Armenian says he sees daily from 30 to 40 men and women arrested.

The Stranai monetary is now a "people's law court." Where the bourgeoisie are tried and condemned for "prison" of opposition or alleged opposition to Bolshhevik rule.

This church, he says, are safe but their valuables have been removed. Many priests have been killed or imprisoned, because after the death of the former emperor and his family, they pinned it all over for the death of the church. The theaters are still open. The great imperial theater is used for Bolshhevik meetings but in the evening opera and ballet continues. The greatest artists have all escaped from Moscow, but many good actors remain. Other soldiers go to the front. The bourgeoisie apparently dare not.

Most of the banks are closed. Only one bank with several branches exists. It is known as the "Peoples Bank of the Russian Federal Republic." One word of protest or non-submission to the ruling powers is quite sufficient to evoke the damning word, "counter-revolutionary." That means prison and sometimes death. The jails already are full of counter-revolutionaries and the Armenian says he sees daily from 30 to 40 men and women arrested.

It is dangerous to employ any servants, says the Armenian. In some cases were retained secretly. But on the paper showing the number of people in the house the servants are listed as poor-relatives. The streets are filthy and unkempt. Every now and then the bourgeoisie are ordered to clean their own streets, men, women and children are given spades and ordered under penalty of imprisonment to shovel silt away. As a rule the bourgeoisie have to load and carry their own supplies. No one else will work for them.

For arms, take what valuables they can find and sell them in the streets. They loot, rob and even murder anyone daring to say a word against them. The slightest offense in the army is punished by death, but when the Red soldiers are not on duty they seem to be able to do as they like with impunity. Most of the civilians who have been mugged into the army are discontented and are awaiting the first opportunity of turning against the Bolshhevik.

There is no protection for foreigners. A decree was recently published declaring there were no longer any foreigners and that everyone living in Russia henceforth, regardless of race, a Russian and have to submit to Bolshhevik rule. Paper money to the face value of 1,250,000 rubles is printed daily. Only two newspapers are permitted to be published. The Soviet News and the Soldiers' Truth.

CARELESSNESS CAUSE OF MAJORITY OF FIRES

By the Associated Press.

SALEM, Ore., May 24.—Of a total of 1,215 preventable fires during 1918, forty-two were suspected of incendiary origin, according to the annual report of Harvey Well, state fire marshal, made public today.

Deaths from fire during the year amounted to 18, of which eleven were children.

Carelessness has been responsible for a majority of the fires, according to investigations of the department. Defective wiring caused 229 of the losses, while defective chimneys were responsible for 42 fires.

Smoking tobacco caused an even 300 fires.

Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water

Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a good, clear skin is a natural ray of health. Complexion are assured only by pure blood. If any "gray hair" or "wrinkles" should be induced to adopt the morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anemic-looking men, women and girls, with pasty or muddy complexions instead of the multitudinous "nervous wrecks," "run-downs," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus eliminating sweetening and freshening the entire alimentary canal before putting more food into the stomach. These subjects to sick headaches, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are "constipated" very often are urged to obtain a quarter of a pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the calm and remarkable chance in both health and appearance, awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities so "external" as the "inside" while the pores in the thirty feet of bowels do.

UNIFORM MONUMENTS.

Now for are told that the state's approval for soldiers' monuments is "only available" in the event the monuments are uniform throughout the state.

While this probably does not mean that the monuments must be alike in all respects, it does insinuate similarity of plan and uniformity of character.

To bad. The soldier boys protested with loud vociferous when the bill was on the calendar, but the legislators were so busy with the matters on hand they could not hear the voice of the boys in khaki. And now benevolent officials give us the "uniformity" ruling. Twin Falls county will hardly want anything to do with such a "patronizing" effort as "this monument" propaganda proves to be.

We will honor our boys—honor them fittingly and well—with the magnificent Shoshone Falls Park memorial. And there is no place herabouts where we can tolerate one of those "uniform" monuments they want to turn out for us in Boise from a fixed conception and with a fixed idea, unless it be in the yawning canyons of out of the way places.

SUDDEN MILLIONS.

Joe Duke, that poor Texas farmer who has become a multi-millionaire through striking oil, says he will permit himself but one "extravagance"—the giving his family everything they require to make them happy.

For Joe! He does not understand that that is the extravagance which, almost invariably, is fatal to family happiness. The odds are high that Joe's sudden millions will ruin his family in spite of all he can do.

Those who acquire great wealth through long years of heart-breaking effort usually find that their families are without the joy of anticipating the possession of anything say that of fighting over dad's estate. Upon those who are accustomed to buying anything that attracts their fancy possession falls, because there is the absence of effort and the satisfaction of earning or winning. As a rule, the rich man does not leave behind him family happiness but family envy, jealousy and litigation. He starts out determined to give his children "a better chance than he had," and winds up with the knowledge that the chance that he had was the best that a beginner could possibly have. He sees, when too late, that his trials and hard labor made him strong and useful, and discovers that he has raised parasites or progeny devoted to senselessly increasing his pile.

If this is the rule to such families, what chance of happiness has the suddenly enriched Duke family? Happiness is a condition of mind not a commodity. In the plunge from picking cotton to signing bank checks there cannot be contentment and equanimity. Since Joe announces that he is going to take to farming, it is to be concluded that he has been happy. He has family as thick together, labored together, perhaps suffered together. He is now going to buy their butterfies and rainbows and other things without which there has been family union and mutual happiness. He may live to curse the well that gushed forth his chance to try to buy happiness for his family.

THE AGE OF JAZZ.

A Daptist minister maintains that jazz, contrary to the common view, is not at all confined to music. He finds jazz in present-day magazines, in books, in plays, in art and even in religion. In short, he complains, it is a

JAZZ SINGS.

The more refined standards that prevailed before the war have broken down, and everything yields to this insane and infectious craze for ragtime.

It has gone so far, he says, that many churches are giving vaudeville shows on Sunday evening instead of the spiritual food that people really need. The boys come home from the war expecting to find a spirit of religion, and find only a universal spirit of jazz.

The tendency runs through our whole life, he says. It is shown in the accelerating craze for amusement. People not only demand rapid, rapid jazz amusement, but they demand to be amused continually. They will not be calm, they will not concentrate. There is neither mental repose nor spiritual repose. It is all action, close to jazz music, going to the theater to hear jazz music and see jazz vaudeville and burlesque and running around in automobiles and attending weekend parties. The old, solid standards are gone, the old values ruined. The really good art, music, literature, etc., is displaced.

It may not be quite so bad as this, but the tendency is plain enough. Surely no society that did not have its normal taste and judgment rather badly upset would stand for jazz music and the general system of frenzied motion, noise and change of which it is a symptom.

It may only be, as the minister charitably suggests, a reaction from the strain of war. If people really find this hullabaloo wholesome, let them enjoy themselves, by all means. But it seems a curious way to get rested from a prolonged strain. Few doctors, either physical or spiritual, would be likely to recommend jazz.

OHIO ENTERS DRY COLUMN OF STATES.

But 163 of Her 5000 Saloons Will Do Business Monday, Last Day Before the Drought.

By the Associated Press.

COLUMBUS, O., May 24.—Ohio today threw her lot into the prohibition ring. Although constitutional prohibition does not become effective until next Tuesday, all but 163 of 5000 saloons in the state quit business tonight at midnight rather than pay the tax levied in order to keep open next Monday.

Every "wet" center in the state tonight gave "farewell" parties to John Barleycorn. Some saloons closed their doors early rather than attempt to weather the closing festivities.

As the closing hour drew near, some bars auctioned off their remaining stocks. The "reds" found many have completely sold out. Prevailing high prices did not tumble until near midnight.

Only a few of the larger hotel bars and saloons in the bigger cities will be open Monday.

A number of saloons closed tonight will reopen Monday or some time in the near future as soft drink bars and "beer joints." Most of them will remain open, but many will close for good.

The biggest saloon in the world, located at Bridgeport, O., will not close his doors until Monday midnight. It is owned by Starns Ungersdorf and employs 75 bartenders and clerks. For the past four years it has sold an average of 20,000 drinks a day.

Ohio is now the biggest prohibition state in the country. The state was voted dry on last November 4 by a majority of more than 75,000.

CONSIDER BIDS FOR MACHINERY

Twenty-one bids were submitted to the Twin Falls highway commission, owned by Starns Ungersdorf. These bids are for crumling machinery to be used by the highway board at the quarry site recently purchased southeast of Twin Falls.

There were 16 representatives of machinery makers present at this meeting and each presented an argument for the bids submitted by his concern.

Work of tabulating the offerings was commenced immediately and it is expected by Starns Ungersdorf that this work will be completed by Monday afternoon so that a contract can be let for the needed machinery.

CALM SEAS ASSIST IN RESCUE WORK

Steamer Virginia Burns to Water's Edge but Passengers Are Saved by Other Boats.

By the Associated Press. BALTIMORE, Md., May 24.—Several of the 166 passengers on the Old Day Line steamer Virginia, burned at 1 o'clock this morning in Chesapeake Bay off the mouth of the Potomac river, were injured, but lost their lives. There were many thrilling rescues made by members of the crew of the burning vessel and officers and members of the crew of the Chesapeake liner City of Norfolk, which was close to the Virginia when the fire occurred.

Mrs. R. L. Newberry of Baltimore and Captain W. G. Lane of the Virginia, were the most seriously injured. Mrs. Newberry was hurt when a life boat fell and Captain Lane is suffering from head burns.

The Virginia was bound from Baltimore for Old Point and Norfolk, Va. She carried in addition to passengers a crew of 82, all but three of whom were colored deck hands who have been accounted for. The steamer's passenger list was long.

Captain Lane, master of the Old Day liner, stayed with his boat to the last and was so badly burned that on his arrival he went at once to a hospital.

Captain Lane, Master C. D. Davidson of Camp Meade, who was going to Newport News, and a sailor, were the last persons to leave the stricken plume.

These three men stayed until the fire got so hot their hands and faces were blistered. Major Davidson was picked up by a life boat.

Within fifteen minutes after the blaze burst forth on the Virginia the men on the City of Norfolk could hear the cries for help floating up to them out of the water. The boats of the two vessels picked up all they could find.

The weather was clear and the seas calm; otherwise the rescuers would have been able to do but little toward saving those persons who had jumped into the water. Two lifeboats filled with passengers escaped.

SAVE MANY LIVES.

NEW YORK, May 24.—But for the splendid seamanship of the crews of several rescue ships there would have been heavy loss of life as a result of the burning of the Old Day Line Virginia in Chesapeake bay last night. James A. Wilder, chief sea scout of the Boy Scouts of America, one of the survivors, declared today. Mr. Wilder was taken aboard the steamship Florida.

It was fortunate, Mr. Wilder said, that the fire broke out at a time when the Virginia was due to meet Chesapeake boats bound in the opposite direction. Mr. Wilder said many of the Florida and other vessels saved the entire company aboard the Virginia with the possible exception of several firemen. The Virginia's officers and crew, he declared, exhibited great presence of mind and the passengers were calm.

A large group of naval officers and their staff did brilliant work assisting in the rescue, Mr. Wilder said.

REFUSES REQUEST FOR A GRAND JURY

Judge W. A. Babcock Holds Conditions in County Precincts Need of Such Step.

Judge W. A. Babcock yesterday refused to call a grand jury for Twin Falls county as requested by J. A. Cron and others in a petition filed the day after the last city election, in which Mr. Cron was defeated for mayor.

He stated that since the law was passed permitting the filing of an information in the district court against wrong doers after a preliminary hearing that a method of bringing indictments through the grand jury had fallen into disuse.

He declared that he had given considerable thought to the petition presented to him, but believed on investigation that conditions in the county were such at this time that the calling of a grand jury was not necessary.

OFFICIALS OF THE COUNTY, ESPECIALLY THE PROSECUTING ATTORNEY, ARE VERY EFFICIENT AND FAITHFUL, THE COURT DECLARED AND STATED THAT HE BELIEVED SUCH ACTION WOULD BE A REPROACH ON THE COUNTY AND COURTS OFFICERS.

Judge Babcock stated that petitioners from the citizens were entitled to full consideration and that he had so treated that new under discussion.

STAKE SETTLEMENT HANGS ON FEW MINOR DETAILS.

By the Associated Press. WINNIPEG, Man., May 24.—So far as surface indications were concerned, the settlement of the general strike of lumber labor in Winnipeg depends on a few details which the conciliation committee of eight are attempting to iron out.

"I am hopeful of an early settle-

ment of the disagreement," said Senator Gordon Robertson, federal minister of labor, Senator Robertson yesterday delivered an ultimatum to the local postal clerks union to either return to work by tomorrow, or consider themselves dismissed from the government service.

E. M. SWEETLEY TO LEAVE THIS WEEK

Qualifies As Commissioner—Congratulates Service Men on Selection of President.

Captain E. M. Sweetley returned last evening from Boise where he qualified as a member of the state public utility commission. Commissioner Sweetley will complete this week for the rest of himself and family to the capital city.

"On my visit to Boise I found that the utility commission has a heavy schedule of work before it. I expect to be busy right from the start."

"I am sorry to have to leave my many friends here. I can say that I am glad to be here to do what I can to further the interests of the Twin Falls part of the American legion."

"I wish to congratulate the service men on their selection of Arthur A. Wood as president of the post. He is a commendable young man and the selection of an enlisted man, who had been over the top in France, was a wise one. I hope to see similar action taken at the state meeting of the Legion in Boise."

WE ARE NOT YET THROUGH WITH WAR

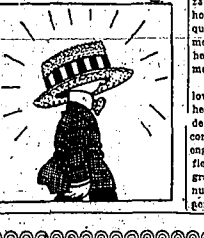

Secretary Mott of International Y. M. C. A. Council Says National Difficulties Are Deep-Cut.

By the Associated Press. NEW YORK, May 24.—"We are not through with war yet," was the warning uttered tonight by Dr. John H. Mott, secretary of the international council of the Y. M. C. A., in an address delivered at a luncheon given by the Methodist centenary movement. Mr. Mott has recently returned from Europe, where he supervised the work of the Y. M. C. A. in the allied countries.

"All peoples are on their nerves," he said, "which are worn and threadbare. The spirit of criticism prevails everywhere. On the other side it is everywhere in evidence. Nations whether victors or vanquished are torn and embittered. Deep chasms exist between nations. We are not through with war yet. I need not particularize. We have the Bolsheviks, and deep chasms not only exist between nations but between classes within nations. They are gnawing and yawning ominously to those who look with their eyes open. The people of the world are awakening to the price they must pay and they are fast drifting into the zone of pessimism."

Commenting on the fact that Russia lost 3,000,000 of her sons in the war, Mr. Mott protested against criticism of that country. "It is the last nation," he said, "with whom we should be most sympathetic. With regard to England, France and the United States have paid had it not been for Russia."

By the Associated Press. TOLEDO, May 24.—Jack Dempsey today—permeated—Manager—Jack Kearns and Jimmy De Forest, his chief trainer, to give permission to start two rounds with Billy Tapp, his negro sparring partner. The challenger cuffed Tapp around the outdoor ring to the delight of 49 visitors. It was the first boxing he had done with his heavyweight partners. Dempsey has decided to drop baseball from the training ground. After covering seven and a half miles on the road, the challenger engaged in a game of "one-on-one" this afternoon. Roger Brennan, who owns the Toledo club of the American association, presented Dempsey with some discarded gloves and bats.

Frank P. Lounery, associated with Tex Rickard in promoting the championship battle July 4, received word from Los Angeles that Willard intended to start for Toledo Monday. Rickard believes Willard is doing enough preliminary training to get his start on his training preparations.

There will be about 100,000 visitors in Toledo on the day of the battle and hotel men said tonight they would be unable to care for only 5,000-67,000. Vacant buildings and stores will be converted into huge sleeping dormitories. Six buildings have been leased and 20,000 cots will be installed in them.

Notice of Allotment and Delivery. To Water Users: The first allotment for the reason is made at one acre foot per acre for each share on which maintenance charges have been paid in full, the water delivered to be put to beneficial and economical use. An additional allotment may be made later should the run-off for June justify. This allotment is based on an anticipated demand for water of 45,000 acres. The present indications are not favorable for a total allotment of to exceed 15 inches per acre, and it is possible that it may not reach that amount.

With ordinary weather conditions the first run will probably continue about three weeks. Crop and weather conditions will determine if and when the second delivery will be made, but it will probably be in the latter part of June and the month of July. It will continue until each person has used his allotment and the head of the reservoir is so low that no further allotment or delivery can be made. Orders for water should be placed well in advance of a possible delivery. Deliveries will be made at any reasonable rate that may be requested, subject to the carrying capacity of the system. J. C. PORTERFIELD, Superintendent. Hollister, Idaho, May 25, 1919. M-21-22-23-24.

SALT IS FINE FOR KIDNEYS, QUIT MEAT

Flush the Kidney At Once When Back Hurts or Bladder Bothers. No man or woman who eats meat regularly can make a mistake by flushing the kidneys, and, possibly, even a well known authority, meat forms uric acid, which clogs the kidney pores so they stagnate filter or strain only part of the waste and poison from the blood, and you get sick. Nearly all rheumatism, headaches, gout, neuralgia, sciatica, kidney stones, etc., come from sluggish kidneys. The moment you feel a dull ache in the kidneys, your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of swelling, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water, before breakfast for a few days and your kidneys will then act fine. This famous Salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush, clogged, kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation thus guarding bladder disorders. Jad Salts is inexpensive cannot injure; makes a delightful effervescent lithia-water drink which all appreciate. Others should take now and then, to keep the kidneys clean, and the blood pure, thereby avoiding serious kidney complications.

DRYS ORGANIZE TO MAKE WORLD ARID

Meeting June 4 Will Coordinate Temperance Forces of All Nations To Make Globe Dry.

By the Associated Press.
CHICAGO, May 24.—The June 4 effort will be made to coordinate temperance organizations for world prohibition, a jury of foreign opponents of alcohol arrived here today to attend a meeting tomorrow when national leaders of prohibition will protest against removal of the July 1 ban against light wines and beer as recommended by Congress by President Wilson. The foreign visitors are obtaining first hand views of the operation of prohibition laws in "dry" states and counties and also are observing ration operation in "wet" communities.

Among those who have arrived or are expected were Dr. C. W. Halsey, of London, authority on the medical side of alcohol; Dr. Robert H. Wood, of the international temperance bureau of Switzerland; Rev. Canon Minterman, honorary secretary of the United Kingdom alliance; Rev. R. B. Hammond, president of the Australian alliance prohibition council, and Larson Ledet, of Denmark, editor of a temperance publication.

Dr. Howard H. Russell, of Westerville, Ohio, founder of the anti-alcohol league, also arrived and announced that today was the league's twenty-sixth birthday having been founded May 24, 1893.

UNCLE SAM DROPS \$486,000,000 ITEM

Government Loss in Operation of the Railroads Is Heavy—Congress Asked for \$1,200,000,000

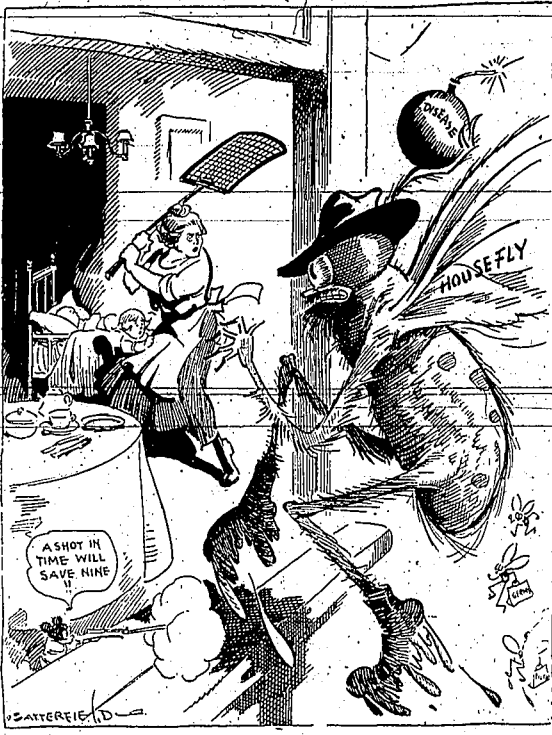

WASHINGTON, May 24.—To finance the railroads for the balance of this year and to pay the government's operating loss for sixteen months up to this month, an appropriation of \$1,200,000,000 was asked of Congress today by Director General Hines. More may be sought later if the government continues to lose heavily.

The \$1,200,000,000 is in addition to the \$600,000,000 appropriated by the last congress, and includes the \$760,000,000 which failed of appropriation. Out of this appropriation railroads will be paid, the same due them month after month as standard compensation, and for which they have accepted the railroad administration's certificates of indebtedness. On security of these certificates they have borrowed from banks and the war finance corporation to meet their current corporate obligations.

Approximately \$486,000,000 represents the government's loss in operating the railroads from January 1, 1918 when private control ended, to May 1. This is the difference between the sums for which the government is obligated to pay the roads on contracts and the net actual operating income from operations.

MATURE PLANS FOR MEMORIAL PROGRAM

Parade to Be Held in the Morning—Hold Meeting at High School in Afternoon.

Definite plans for the observance of Memorial day were announced today by a committee from the Sons of Veterans, which are working with the G. A. R. to make the day a success.

Plans have been made for a parade to be held at 10 o'clock in the morning. The parade will form at the M. E. church and will march to the end of the grounds where cars will be taken to the cemetery, where the usual services will be held over the graves of veterans of the many wars.

Among the organizations which will participate in the parade are the city band, city officials, lodges, Boy Scouts, high school cadets, Twin Falls post, American legion, G. A. R., ladies of the G. A. R. and Sons of Veterans.

Arthur Alvorik, president of the Twin Falls post, American legion, yesterday appointed A. J. Myers to act with C. E. DeLoach and Frank Martin in making arrangements for the participation of the Twin Falls post in the observance of memorial day. Mr. Alvorik took this action at the request of E. M. Bowers, who will be unable to act in making the preparations because of remaining to Boise.

In the afternoon a program will be held at the high school auditorium. T. A. Walters of Caldwell, former territory general, will deliver the address for the day while an orchestra will participate.

The ladies of the G. A. R. will provide a musical program, while the reading of Lincoln's Gettysburg address will be given by a member of this organization.

Further plans for the observance of the day will be made Tuesday evening. At that time line of parade and the position of the various units will be announced.

MEMBER OF STATE MEMORIAL COMMISSION VISITS HERE

Harold M. Harris, secretary of the state memorial commission, was a visitor in Twin Falls yesterday. Mr. Harris was formerly a newspaper man in Boise. He is currently serving as deputy clerk of the district court of Idaho county at Grandville. This memorial commission was authorized at the last session of the legislature.

PAINTING MEMBER OF BRIDGE

Work of painting the iron of the Hansen bridge with field paint has now under way, according to an announcement yesterday by R. E. Murray, engineer in charge of the work. The engineer stated that the work being done was being carried on by the late father, Mr. Hansen, who was the contractor for the strike of five trained workmen to do the work now. The five men who left the job last week will be replaced by the men who are coming from Salt Lake. The bridge will probably be opened by July 1.

FARMER PASSES AWAY

John W. Orloby, a farmer who has been living on Fourth avenue, east, passed away yesterday. Mr. Orloby was born in Sweden, Dec. 14, 1841. He is survived by his wife, P. Orloby. Services will be held Tuesday at 4:30 o'clock from the DeWitt undertaking parlors. Rev. W. A. Moore will officiate at the parlors, while the service at the cemetery will be held under the auspices of the local lodge of Masons.

TWO SBOULE LICENSE

Two marriage licenses were secured yesterday at the recorder's office. Nick C. Wisco, 22, and Kaye Abel, 13, both of Twin Falls, secured one of the licenses, while the other was issued to Charles J. Gooping, 40, and Ruth Furber, 44, both of Burley.

TWO FILES PAPERS

Two discharge papers were filed with the county recorder yesterday. Both had were of the S. O. L. class—sure outfit luck—neither having been fortunate enough to get overseas. The papers filed were those of Harold M. Hartwell and Eugene Bog.

TO HAVE FUNERAL TODAY

ORDER SUIT FILED FOR BRIDGE MONEY

Seek to Recover \$100 From Mindokota County for Failure of Funds for Hansen Bridge.

An order was made by the Hansen bridge commissioner to prosecuting attorney Stoyan to make plans for the commencement of a suit to recover \$1,000 from Mindokota county for its share of the cost of the bridge if the commissioners of that county refuse at the next bond meeting to allow the bill.

Attorneys Walters & Hodgins were retained by the filing of the suit. Mindokota county officials agreed to pay the amount involved but at the time of the division of the bounty a refusal to pay any portion of the amount was made. An effort to have Jerome county pay a portion of the amount was successful so far as Jerome county was concerned, but the commissioners of Mindokota announced that they would not allow the bill.

Present at the meeting last evening were the members of the Hillside Highway district, the county commissioners, C. C. Bligh, secretary of the bridge commission, Attorneys Walters and Stephen and R. E. Murray, engineer in charge of construction.

ARGONNE HERO IS BACK FROM FRONT

James Stillwell of the 91st Division Returns to Twin Falls—Wounded in Action.

James Stillwell, who went through the majority of the actions carried on by the 91st division in France and Belgium, returned to Twin Falls yesterday. He will make his home here.

Stillwell was wounded while fighting in the Argonne forest, but was off of the firing line only a few days. He went from the Argonne forest to Belgium, where the 91st finished his campaign against the Hun.

More names are being obtained each day of soldiers who went from Twin Falls and who were killed, died or were wounded in the service.

Among the names that have been added to the list printed in The Chronicle several weeks ago are the following:

Howard M. Holler wounded severely.

Clarence W. Evans, wounded.

Theodore Budrow, severely wounded.

Archibald Howell, Corporal, wounded.

Robert Palmer, Hollister, wounded.

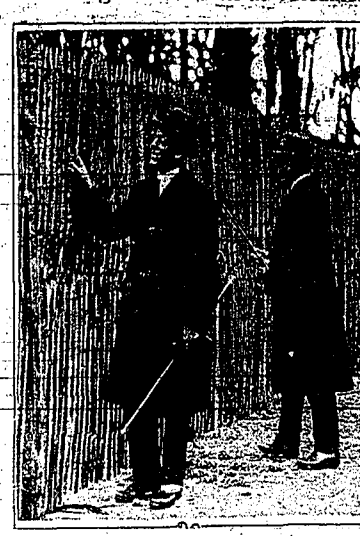

Frank Harrier, Hollister, wounded severely.

Garet Box, Amsterdam, wounded slightly.

IDAHO AND W. S. C. CONTESTING MEET

By the Associated Press. PULLMAN, Wash., May 24.—Whether or not Washington State college this afternoon declared winner of today's northwest collegiate conference track meet here, or the University of Idaho, given second place, was to be awarded the conference championship, was in the hands of a rules committee tonight following institution of a contest by Idaho as to the result of the mile relay race.

By finishing second in the relay, the final event of the meet, Washington state was given 44 points, as against 43 points for Idaho. Idaho's contest, it is based on the provision that the fourth runner in Washington state's relay team, dropped the stick before he crossed the tape. It is maintained that he thus lost second place, and that Montana, which finished third, should have been given second, carrying with it three points. The University of Oregon team was first in the relay.

As announced at the close of the meet, Washington State was winner, with 44 points; Idaho was second with 43; Oregon third with 35 and Montana fourth with 13.

DEMOCRATS SELECT COMMITTEEMEN

Name Minority Members on Caucus—House Committee at 47—Important Work Cared for.

By the Associated Press. WASHINGTON, May 24.—Minority members of 47 house committees were named tonight at a democratic caucus. This takes care of all important committees except the naval affairs, rivers and harbors, and the postoffice and post roads, which will be named Monday.

Membership of the agriculture, banking and currency, foreign affairs, interstate and foreign commerce, judiciary, and military affairs committees were left unchanged except that several former members were dropped from each to allow for the deceased.

Allocations. Two new members were added to the immigration and naturalization committee and one to the merchant marine.

CURTIS PEOPLE BUY PLANES

USED ON AVIATION FIELD

By the Associated Press. NEW YORK, May 24.—The Curtiss Airplane and Motor corporation announced tonight the purchase from the war department of 2176 airplanes and 4600 motors.

Negotiations for the purchase, said to have been the largest ever consummated by a private corporation, had been under way for several weeks. The contract was signed for the war department today by Major-General

IN

"Out of the Shadow"

Here is one of those great love dramas which move you to your very heart—the tragedy of the girl who married for protection, not love, and afterwards found she needed protection from her husband. And through it all flits the romantic figure of a pale musician who murders for love's sake.
