

# TWIN FALLS CHRONICLE

VOLUME IX, NUMBER 51.

TWIN FALLS, IDAHO, TUESDAY MORNING, MAY 27, 1919

PRICE FIVE CENTS

## WINNIPEG TO STOP STRIKE OF FIREMEN

### Vote to Reorganize Department to Prevent Future Walk-Outs.

### LABOR COUNCILMEN FAIL TO STOP MOVE

### Recent Application of Word "Rebels" to the Leaders Much Bitterness Is Displayed.

WINNIPEG, Man., May 26.—The Winnipeg city council tonight, despite vigorous opposition from the labor members, voted nine to five to reorganize the municipal fire department along lines that will forbid the firemen to join other union forces in a sympathetic strike.

Bitterness marked the council meeting. The word "rebel" was used twice.

### To Fill Vacancies.

The council, by a 9 to 5 vote, also adopted a resolution to provide lists of city employees on strike prepared immediately and commencing Thursday, to have vacancies filled by men who will not desert their posts during sympathetic strikes.

Labor councilmen attempted to amend the resolution pertaining to the firemen by substituting a recommendation that the council committee call upon Premier T. C. Norris and urge legislation to provide for collective bargaining.

### Vote Against Motion.

After the amendment was defeated and the original resolution was passed, the supporters of the firemen resolution reintroduced the labor "aldermen" and urged its passage. It was passed. Four of the five labor aldermen voted against it.

Labor councilmen vigorously objected to the use of the word "rebel" as applied to any person concerned with the strike. Mayor Gray challenged the objection and said that he considered the terms might be applied to "one labor leader."

### STRIKE IS SPREADING

CALGARY, Alta., May 26.—Prominent business and "professional" men and also workers in various trades, opposed to the general strike which went partially into effect here today, took preliminary steps tonight for the organization of a citizens' committee, similar to the Winnipeg citizens committee. This committee plans to guard against any possible violence and to support municipal, provincial and federal authorities.

Acting postmaster J. J. Curley has issued a call for volunteer postal workers.

### New Answer Call.

Only 1500 workers were said to have answered the general strike call here today, the men representing the postal workers, Dominion express employees, flour and cereal employees, the Canadian Pacific railway and the Ogden shops and round houses.

By a vote of 119 to 48 the street railway men refused to quit work. Other unions which have signified an intention of remaining at work are the street car, bakery, city hall employees, teamsters, outside city employees and barbers.

As Calgary is the distribution center for the whole of the province in the matter of remittances for relatives of soldiers it is said that thousands of remittances will be held up by the strike of the postal employees.

### Walk-Out Orderly.

Today's walk-out was orderly and quiet.

Eight thousand miners in district No. 18 struck Saturday afternoon. The clerks at Atholville were reported to be still operating, returned soldiers there refusing to strike.

Federated trades which have not made known their decision in regard to the strike call include printers, printing pressmen, distillery, telephone operators, brick layers and masons, carpenters, sheet metal workers, commercial telegraphers, brokerage house workers, freight handlers, moving picture operators, plumbers and steam fitters.

### FAVOR WALK-OUT

TORONTO, May 26.—Reports early this morning from the meeting called by Toronto labor unions to vote on a general walk-out in sympathy with striking miners went to the effect that the vote was heavily in favor of the strike. The meeting still was in session at 1:30 a. m.

The strike, it was said, would be called tomorrow morning. While no official statement was issued concerning the vote, it was reported that the strike would be called tomorrow morning.

(Continued on Page Eight.)

## Navy Plane Is To Start Flight With the Dawn

By the Associated Press. PONTA DEL GADA, May 26.—The motor of the American seaplane that was tuned up this afternoon for the "plane" under command of the national Commander Head, will probably start for Lisbon at daybreak tomorrow.

The weather experts predict favorable weather with west winds at gale force and certainly would fight to the Azores, dimming to five miles an hour off the coast of Portugal. Cloudy weather may be encountered midway in the course.

PLYMOUTH, Eng., May 26.—The U. S. S. Stockton arrived here today, but did not bring the crews of the NC-1 and NC-3, which she transferred to the U. S. S. Rochester at Lisbon.

The aviators will remain at Lisbon until the arrival there of Lieutenant Commander Head and the NC-4 on the flight from Ponta del Gada and will follow the seaplane to Plymouth.

## Summary of the International Situation

By the Associated Press.

As the day of the Germans to give answer to the French demands of the allied and associated governments approaches and the German plenipotentiaries have announced they will ask no further extension of time beyond Thursday, the limit set by the allied government, it has been made no change in the sentiment of German government circles that the treaty would not be signed.

"Should I, under pressure from our own misfit countermeasures, sign this sentence of death?" an utterance attributed to Count von Brockdorff-Rantzau in reply to a question as to whether the demands of the independent socialists that the compact should be duly signed sums up generally the attitude of German government circles in the higher walks of German political life.

Meanwhile allied commissions are preparing to lead to Austria and Bulgaria the treaties that are to be drawn up for them. The Austrians who have been for some time at St. Germain, are changing under the delay in being called, before the peace congress. The delay is declared to be mainly due to the settlement of conditions regarding the Danube basin.

Dr. Renner, head of the Austrian delegation, has appealed to Premier Clemenceau, urging the hastening of the presentation of the peace treaty, declaring that the delay is creating a "disagreeable" strain on Austria financially.

The belief is expressed in Paris that the allied and associated powers will exempt the new states formed from Paris of the former Austro-Hungarian empire from payments on account of reparation or public property taken over by them. The council of four is now engaged in thoroughly going into the situation of those new states.

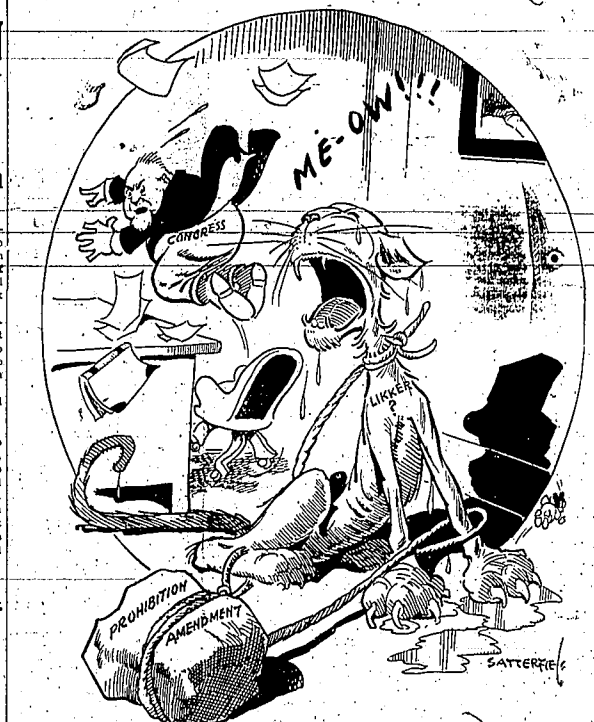

And in Rome the council of four is being urged by Admiral Kolchak and General Denikin are to receive conditional recognition by the council of four, according to a Paris report. The condition is said to be that the governments of these leaders are to accept the verdict of a genuine constituent assembly, which is to determine the future form of government for Russia.

Such a section by the council would enable the allies to assist in the struggle against soviet rule in Russia, by furnishing Kolchak and Denikin with arms, munitions, money and food on a large scale than previously. No troops would be furnished according to the report.

### THREATEN TO HANG FOOD PROTECTOR IN PRAGUE

GENEVA, May 26.—The international commission in Prague arrested a food protector in Prague and threatened to hang them unless they took the oath that they would sell their goods to the government at a dispatch from that city. All took the oath.

## AND THE CAT CAME BACK

## FORCE HUNS TO FORM NEW GOVERNMENT

### Blockade Will Be Used to Compel Rule by Popular Mandate.

### GERMAN PROPOSALS EXPECTED MAY 28

### Brockdorff-Rantzau Declares Treaty to Be Sentence of Death for the Empire.

By the Associated Press.

PARIS, May 26.—The German counter proposals to the peace terms will be ready tomorrow night, according to a statement made in French peace conference circles tonight, and Count von Brockdorff-Rantzau will present them Wednesday.

It was also announced tonight that the council of four had ratified the decision of the economic council to maintain the blockade against Germany until a regular government, based on a free and popular mandate is set up.

### IS SENTENCE OF DEATH

BERLIN, May 26.—In London, Count von Brockdorff-Rantzau in an interview with the Verbatim correspondent of Vorwärts, said he went to Versailles with the firm intention of defending what remained for the welfare and happiness of the German people, but that even this remnant has been destroyed. The peace treaty, he said, is a sentence of death for the empire. It was a question, therefore, whether it could not be better met by refusing to sign than by submitting, as was desired by the independent socialists.

The chairman of the German delegation said he earnestly would fight to the dying altitude of between twenty lot of the working people by negotiation, but that the delegates would be standing against the interest of the working people if they signed conditions which signified only "perpetual famine and unemployment."

"Should I, under pressure from our own misfit countermeasures, sign this sentence of death?" asked Count von Brockdorff-Rantzau.

### Will Not Move Him.

Questions as to whether he feared that the demonstrations of the independent socialists would be successful, he said they would be unsuccessful in the sense of bringing him to the end of his resolve not to sign what he believed would be tantamount to the destruction of the nation.

(Referring to Herr Haase's statement that he might be forced to sign the coming resolution would make a scrap of paper, he said:

"When I came to Versailles I had the firm hope that the time of the scrap of paper had finally passed and that a new era of peace would be opened only treaties would be signed which would be respected by both sides. I have not abandoned the hope of attaining healthy international morality, more scraps of paper will never bear my signature."

## LONDON SOLDIERS CREATE DISORDER

### Make Demonstrations Toward Downing and Buckingham Palace—Parades Follow Meeting.

By the Associated Press.

LONDON, May 26.—Thousands of discharged soldiers and sailors out of employment, armed with stones and other missiles, marched today in the house of commons today. They came into conflict with the police, hurled the approaches and were scattered.

Later the procession was reformed and marched toward Buckingham palace, but the demonstration broke up before it reached the palace. There were no further disorder.

The demonstration followed a meeting in Hyde Park where the marching of soldiers and sailors demanded, and a minimum wage made.

### Similar demonstrations were held throughout the country.

### INDIAN BILLYPAGES HOURS

By the Associated Press. WASHINGTON, May 26.—The Indian appropriation bill, carrying \$15,000,000, was passed today by the house and sent to the senate. It will be called on tomorrow morning, but the bill is expected to pass the house.

## CONTEMPT CASES TAKE MUCH TIME

### Differences on Use of Water Rights Result in Lengthy Hearings in District Court.

Differences between Frank B. Damman and family on one side and many others on the other side over the use of irrigation water resulted in two lengthy hearings in the district court yesterday. Two contempt cases which were the outgrowth of these differences were heard.

During the morning Judge Babcock heard evidence on alleged contempt of the part of J. O. Ringer and W. T. Montgomery by violation of a temporary restraining order issued in a case brought by Frank Damman against their own and Arthur Austin. The court held that no contempt had taken place.

"During the afternoon and evening evidence of alleged contempt of a restraining order by Edwin Damman was presented. The hearing was concluded at 9 o'clock last evening and Judge Babcock announced that a decision would be rendered at 9 o'clock this morning.

### NATIONAL GRANGE URGES WORLD ABOLISH NEW TIME

WASHINGTON, May 26.—Congress was asked to repeal the daylight saving law and to provide funds for the continued operation of the federal employment system, by resolutions which the executive and legislative committees of the national grange adopts today.

A petition addressed to contain the names of 300,000 Iowa farmers, asking the daylight saving abolition, was prepared for presentation to congress.

### DOOZE PRICES SOAR IN LAST HOURS; OIL IS WERT STAGE

COLUMBUS, O., May 26.—Soaring prices in the last few hours, a rush of business never before equaled and sale of packing goods in enormous quantities marked the passing today of the liquor business in Ohio. The state became the biggest prohibition state in the union at midnight tonight, notwithstanding prohibition becoming retroactive tomorrow. It was void last November.

### ELDRIDGE LEASES BUILDING

Announcement was made yesterday by W. H. Eldridge that he had leased from Tom Koto the building in which his clothing store is now located. Mr. Eldridge secured the building for a year. He will pay \$150 a month rent and is giving Koto a bonus of \$1500. Koto bought the building through Thomas Woods, real estate agent.

Mr. Eldridge stated yesterday that he had to be able to announce his plans for a five story building by June 15. Plans for the structure have been maturing for the past two months.

## HAWKER TELLS STORY OF HIS EXPERIENCES

### Fog Banks Off New Foundland Force Men to High Altitudes.

### CIRCULATION GOES BAD ON AVIATORS

### Crew on the Little Danish Steamer Risk their Lives to Save Two Intrapid Airman.

LONDON, May 26.—The Daily Mail today prints a dispatch from Thurso, Scotland, giving the simple narrative of Harry G. Hawker regarding the unaccounted attempt to fly across the Atlantic made by himself and Lieutenant Commander Mackenzie Grieve.

"I had very difficult ground to rise from on the other side," said Hawker. "To rise all we had to run continually across the course."

### Into Fog Banks.

"Once we got away we climbed well but about ten minutes up we passed from a firm, clear weather into New Foundland fog banks. We got well over these, however and of course at once lost sight of the sea."

"The sky was quite clear for the first four hours when the visibility became very bad. Heavy cloud banks were encountered and eventually we flew into a heavy storm with rain squalls. The temperature of the water cooling our engine started to rise but after coming down several thousand feet we overcame this difficulty. Everything went well for another four hours, when once again the circulation system became choked and the temperature of the water rose to the boiling point."

### Loosing Motor Power.

"We were of course, realized that until the pipe was cleared we could not fly any higher without using a lot of motor power. When we were about 13 and one-half hours on our way the circulation system was still giving us trouble, and we realized that we could not go on using up our motor power."

(Continued on Page Four.)

## I. W. W. THREATEN TO "GET BECKER"

### Hearing in Seattle Brings Out Something of Wobly Efforts Out of Spokane.

By the Associated Press.

SEATTLE, Wash., May 26.—F. R. Allison, formerly a sergeant in the army, testified here today at the trial of James Bruce that last August in Spokane he heard several Industrial Workers of the World laying plan for "to get" Lieutenant F. W. Becker, Seattle naval intelligence officer. Becker, it was said, was sought in revenge for the arrest of an industrial worker of the world.

Bruce is on trial here charged with criminal anarchy. He was arrested as a result of his activity during the general strike here in February. The prosecution claims Bruce is a member of the Industrial Workers of the World.

### ITALIAN THROPS LANDED SOUTHEAST OF SMYRNA

By the Associated Press.

PARIS, May 26.—The Italians have landed additional troops at Smyrna, Asia Minor, fifty miles southeast of Smyrna.

The Turkish government has protested to the peace conference and has expressed regret that the Greeks were permitted to occupy Smyrna, saying the government felt it would have been wiser to have a joint allied occupation. The protest says it is feared that trouble would ensue as the force advances into the interior of the country.

### HERO JOINS REDHEAD CLUB AND HELPS IN BIG SUBWAY

By the Associated Press.

NEW YORK, May 26.—Sergeant Alvin C. York, Tennessee's famous world war hero, today had his "subway" ambition fulfilled, when in the private car of President Theodore F. Shonts of the Interborough Rapid Transit company, he toured the great underground transportation system like a king. Before taking the trip he telegraphed Senator Miles Folmester requesting more seats to be added to the car.

The demonstration followed a meeting in Hyde Park where the marching of soldiers and sailors demanded, and a minimum wage made.

### SIXTEEN THOUSAND KILLED BY THE ASSOCIATED PRESS.

TOKYO, May 26.—Sixteen thousand persons were killed or injured in a volcanic eruption in central Java, May 20, according to official advices from Batavia.

### HEAR PROPOSALS

Members of the highway board yesterday spent two hours listening to proposals from various concerns for the furnishing of machinery for the rock crushing plant.

Society **INTERPAGE** Fashions

Do you know how to sleep?  
 Many of us waste many of the precious hours in bed tumbling, about and fretting and worrying because we can't sleep, inviting the dreaded insomnia and serious nervous illness by the very fear of their appearance.

As a matter of fact some very simple "going to bed" habits and the use of a little will-power will soon overcome bad habits of fitful sleeping, and the fear of sleeplessness.

A physician who has given some study to insomnia, recommends the following procedure when one "just can't get to sleep."  
 1. For the first place the room should be well darkened and full of fresh air before sleep is attempted. This is the first condition essential to healthful rest, quite as important as "the comfortable bed itself."

2. Lie down on the left in a dark, well-ventilated room. Lie flat on the back, with the hands and arms lying comfortably along the sides, and the head turned easily to the side. Draw in deep but quiet breaths, and exhale slowly, keeping the mind on the simple matter of breathing. Relax, let go the strain on mind and body. Relax the facial muscles. Let yourself slump, in mind and body. Keep up the deep, quiet breathing until sleep comes.

Where the trouble from sleeplessness tends to be chronic or serious the physician advises somewhat more elaborate treatment.

3. Before going to bed take a solitary walk of four, or six blocks, breathing deep and walking with steady, rhythmic step. On coming in undress and sponge the feet and legs with lukewarm water, rubbing them briskly with a rough towel or flannel bath mitten. Take a glass of warm milk and a cracker, or eat an orange and drink a glass of water. Go to bed in a dark airy room, lying in bed on the stomach, face turned to one side. Relax the mind and every bodily muscle. Breathe deeply and quietly until sleep comes.

Mrs. C. O. Longley entertained at dinner Sunday evening. The guest list included Dr. and Mrs. Deane, Mr. and Mrs. Nelson Hayward, Mrs. Warren and C. L. Longley.

The M. S. and B. club will meet at the home of Mrs. Charles Flowerdew tomorrow afternoon.

The Pansage club will meet at the home of Mrs. Ferris Thursday afternoon. The time will be spent with cards.

The Twentieth Century club will hold a picnic in the park this afternoon.

Miss Phoebe Bowen was hostess at a little informal party at her home last Sunday evening.

The meeting of the women's Missionary society of the Presbyterian church will be held at the church June 5, instead of May 25.

Mrs. G. Holloway of Knoll was in Twin Falls Sunday.

 STYLIST & EXPERT

Dear Ladies—  
 The best look I know to which you as a fashionable and a lady to shop on Fifth Avenue!

Behold a few of my latest prizes from Paris on occasion!

First to see these the adorable helmet. It's of white gossamer crepe and it's all except the collar-cuff and top and bottom of the tucked belt which achieve distinction by insisting on white organdy with creamy Valenciennes ruffles. Note: if you please the tiny black patent ribbon and how that prettied to, pinkness!

Speaking of ribbons, one could never be wiser than to adapt this first from Paris, a black patent ribbon about the collar and a good crown.

If extravagance tempts you let it be to this party and choose of brown and gold Russian gophers—a summer fur of exceeding charm.

I leave you—best to return with new treasures!

As per Betty Brown

**SHULL IS ELECTED BY BAPTIST MEET**

By the Associated Press.  
 DENVER, Colo., May 25.—Election of D. C. Shull, Sioux City, Iowa, as president, selection of Buffalo, N. Y., as the 1920 convention city, adoption of a \$100,000,000 budget, covering five years' term, and organization of the general board of planning and promotion were the principal features of today's session of the northern Baptist convention. Aside from the report of the resolutions committee, little remains for the business session tomorrow.

The report of the nominating committee for convention officers was adopted and all nominated automatically became officials of the convention for the next year. F. W. Freeman of Denver, who was nominated for president from the floor of the convention, subsequently withdrew his name and the election of Shull was unanimous.

Completion of the \$6,000,000 fund, which the state delegation raised by underwriting the unsubscribed portion, makes immediately available to the home and foreign missions societies of the church the \$7,000,000 contingent donation from John D. Rockefeller, announced Saturday. In addition, legacies and bequests announced today brought the fund, including the Rockefeller donation, to \$9,000,000.

The adoption of the \$100,000,000 made that fifty million dollars from the recommendation of the general survey committee and several millions more than the program adopted by the southern Baptist convention, meeting at Atlanta. Every department of church work, including the various state conventions, is included in the budget.

"When the newly formed general board of planning and promotion met for organization this afternoon, Professor Ernest D. Hutson of the University of Chicago, chairman of the committee which formulated the proposal for such a board and temporary chairman of the board, was elected permanent chairman.

# HALF BILLION TO RECLAIM ARID LANDS

Copies of Mondell's Appropriation Bill Received in Twin Falls.

SECRETARY WILL DISTRIBUTE FUNDS

Local Service Men to Aid in Campaign to Secure Portion for Bruneau Project.

Copies of the Mondell bill, which was introduced at the opening of congress, after a conference between congressional leaders and Secretary Lane, providing for a \$500,000,000 appropriation for reclamation work, have reached Twin Falls.

Mondell's measure is similar to that introduced in the last session of congress, but which was defeated as the result of the republican filibuster. The main difference is the increasing of the sum to be appropriated from \$100,000,000 to half a billion.

With the introduction of the measure service men of Twin Falls county are making plans to assist in whatever manner possible the effort to secure a portion of the fund that it is expected will be appropriated for the Bruneau tract. The question is expected to be one of the principal subjects for discussion at the forthcoming meeting of the Twin Falls post, American legion.

To Provide Hard Homes.

The bill reads as follows: "That to provide employment and rural homes for those who have served with the military or naval force of the United States during the war between the United States and Germany and her allies, and who have been honorably separated or discharged therefrom or placed in the regular army reserve, and former American citizens who served with and were honorably separated or discharged from the military or naval force of any of the nations allied against the central powers, and who have been reappointed, all of whom are hereinafter referred to as soldiers, there is hereby established a fund in the treasury to be known as the national soldier settlement fund, hereinafter referred to as the fund, to be administered by the secretary of the interior, hereinafter referred to as the secretary, for the purpose, herein stated and as hereinafter provided.

"Sec. 2. That the secretary is authorized to use the fund for the purposes of this act. He may acquire by gift, purchase, deed in trust or otherwise, the necessary lands for soldier settlement projects, hereinafter referred to as projects, and may withdraw, utilize and dispose of by contract and deed public lands suitable for such purposes. No lands shall be acquired, however, unless the price to be paid, and the conditions under which they are to be acquired shall be approved by (a) a representative of the governor of the state in which the lands are located; (b) an appraiser designated by the federal farm loan board, and (c) the secretary. Projects shall be selected with a view to

## These Wisconsin Girls Can Overhaul Your Car

The development of cars, of more models in each of the several states in which feasible projects may be found.

Lane Has Needed Powers

"Sec. 3. That the secretary is authorized through such agencies as he may provide to engage in such undertakings and do and perform such things as in his opinion is necessary for the permanent reclamation or development of the lands of projects, and when he deems essential to place them in condition for use and cultivation, including the building of essential public roads, the secretary shall, as far as possible, utilize the services of soldiers for such purposes.

"The secretary may also, through agreement with soldiers, make provision for necessary improvements, but the contribution from the fund shall in no single case exceed \$1250, or in excess of three-quarters of the cost or value of the improvements.

"Sec. 4. That the lands of projects shall be subdivided into farms suitable for the support of a family, and in the discretion of the secretary into smaller farm workers' tracts. Dedication may be made for schools, churches, community centers, and other public purposes. Townsites suitable for the purpose of the project may be established, developed, and sold as provided herein.

Non-Farmers Given Tracts.

"Sec. 5. That soldiers who are not the owners or proprietors of farms or rural homes shall be eligible as purchasers of a farm or farm workers' tract. Preference shall be given to those who have been employed in the development of such projects, and as between applicants with a view of safeguarding the settler and the United States, so far as practicable, against loss or failure. The secretary shall make regulations general in character or applicable to specific projects, as to residence and cultivation with a view of carrying out the purpose of making the soldier settlements the permanent home of the soldier purchaser.

"Sec. 6. That the sale prices shall be fixed with a view of repaying the cost of each project, and the price fixed for each farm, tract or lot shall represent as nearly as practicable its relative and comparative selling value. Approved applicants shall at the time of entering into contract of purchase make a first payment of 5 per cent of the sale price. The balance shall be paid in amortizing payments extending over a period to be fixed by the secretary, not to exceed 40 years. The amortizing payments shall bear interest at the rate of

The University of Wisconsin has instituted a course of automobile engineering for women. To the delight of the girls who don overalls three times a week it is known as "Fordology." And the girls have become experts in overhauling and repairing automobiles. Skinned fingers, astringent faces and an occasional bump are minor matters; a thorough job of overhauling is the important matter to them. "We have yet to see the man complain of a job done by these girls," said Professor Hergeman. "The work is done for nothing for we are glad to get the cars and the owner to make happy when he drives away in a machine running like a new one."

4 per cent per annum, payable annually, computed from date of contract. The contracts for the sale of the farms, tracts and lots shall provide for cancellations and forfeitures of payments under the contract for failure to comply therewith.

Be No Transfer.

"Sec. 7. Patents or deeds to project lands issued within 10 years from the date of contract, of sales shall contain the condition that no transfer, assignment, mortgage or lease made during that period shall be valid without the consent of the secretary, and no transfer, assignment, mortgage, or lease of any right, title, or interest held under a contract of sale shall be valid at any time without the approval of the secretary. The secretary shall make all necessary regulations for the carrying out of the provisions and purposes of this act and for safeguarding the interests of the settler and of the United States, and is authorized to issue patents or deeds for the public and private lands embraced in farms, tracts and lots within projects.

Loans Short.

"Sec. 8. That the secretary is also authorized to make short-time loans from the fund, not to exceed \$500 at any one time, to a settler or settler for the purchase of necessary live stock and equipment, and provision shall be made for the repayment of such loans during a period not to exceed five years with interest on deferred payments at 4 per cent per annum, payable annually, computed from date of contract. Provided, that no such loans shall exceed 50 per cent of the cost of the live stock and equipment purchased.

"Sec. 9. That whenever any state shall provide funds to be expended in co-operation with the United States to

provide rural homes for soldiers, the secretary shall have authority to enter into contracts for such co-operation, and when the state shall furnish 25 per cent of the necessary funds, the secretary may authorize the state, subject to his general supervision, to carry on the subdivision of the land, improvement of farms, and the aid and direction of development after settlement. The secretary is authorized to provide for reimbursement of funds so advanced by the state. He may also co-operate with other agencies to the extent he may deem advisable and likewise provide for reimbursement to them of funds advanced.

"Sec. 10. That for the purpose of carrying into effect the provisions of this act the sum of \$500,000,000 is hereby appropriated."

HERE ON BUSINESS

Dick McConnell of Gooding accompanied Adian Schultz to Twin Falls on a short business trip yesterday.

Frank Stephan, county attorney, yesterday asked a dismissal of the charge against Joe Gomez of burglary, second degree. Mr. Stephan stated that the evidence was not sufficient to obtain a conviction on a felony charge, but that man would be given a trial on a misdemeanor charge. Gomez alleged to have stolen a suit of clothes from a department store.

ANNOUNCE JURY LIST

Jurors who will serve in this term of court were selected yesterday. The jury will report on Monday, June 2. Following is a list of those selected:

## Pushers and Pessimists

Pushers are usually in the thick of the business fight, producing. Pessimists grow on the outskirts, waiting to seize the spoils the pushers win. Pushers build and pessimists tear down. Pushers blaze new trails. Pessimists travel in ruts. Pushers are bright, cheerful, joyous, and brave. Pessimists are gloomy, doleful, grouchy and weak.

Pushers boost each other and so, boost all. Pessimists knock each other, and thus they fall. Pushers bring prosperity. Pessimists throw light on all prosperity. PUSHERS BUILD REAL HOMES. PESSIMISTS DELIGHT TO LIVE IN SHACKS. WHAT ARE YOU GOING TO BE?—AND DO? Yours for home building, prosperity and push—

## Jean and the Pup Are Happy

Jean Thebaud and his one best friend, "Polly" are products of a war-torn land. But Jean and the dog are frolicsome and gay, for Jean isn't old enough to remember his brave 22-year-old father who was killed in battle, nor his 18-year-old mother who was killed by an air bomb in Rheims. Jean is only three years old now, and the dog was born in a cave near Chalons during a terrific bombardment. He has served the Red Cross dog, and the world seems very peaceful and bright to him now that the fighting is over. Jean was 18 months in a model baby hospital with 1500 other war orphans until Dr. Heard, who established the hospital, came back to America bringing Jean and his nurse and Polly to her home in Galveston, Texas. Dr. Heard is assisting here in the campaign to extend the work of the American women's hospitals to Serbia and the rest east.

DOLAH AND DAHO.

Senator Borah made no headway in his fight for the defeat of Lousens and Warren as committee chairman. They won, as was expected. Not even the progressives stood solidly behind Borah.

Now, what of Idaho? We are concerned out here in the reclamation bill. It is vital to Idaho. Borah could have been a powerful influence for its passage had he not meddled with little politics and become involved in little place-seeking jealousies.

Can Borah come back now?

Can he do this big work for Idaho? Will he?

The soldier boys have poured into the state from all quarters, waiting for the land reclamation plans to materialize.

There are a thousand of them in Twin Falls county, learning irrigation farming so as to take to their hands a real knowledge.

Six hundred of these boys from various states have applied for farm work through the Twin Falls farm bureau. And they are at work.

All these soldier boys—and all the men and women in Idaho—are watching Congress.

They hope to see Borah cease trying to solve world problems, and do real service to soldier boys and the State of Idaho. Will he?

PEASANT WOMEN NOW ENIT.

The great Red Cross centers in America are closing, one by one, though the activities of the society will be extended in peace no less actively than in war. The knitting needles are being picked away in the attic along with the winter underwear, and American women are turning to other employments, for the fingers once so busy with needles and yarn.

But in the meantime the inhabitants of the devastated villages of Belgium and France are taking up their knitting needles, as one by one they find a doorway to no beside of a bit of cloth to shelter them.

In order that every refugee woman who desires to knit may have supplies, the Red Cross societies abroad will distribute over \$2,000,000 worth of knitting materials including 900,000 pounds of yarn. It is a pleasant variety of better times to come, when the peasant women of Europe once more turn to their knitting.

IN NORA CEMETERY.

Grandma Smith, living near Broad Hippie, died Thursday and was buried in Nora Cemetery.

Our eyes fell on this item in one of the country exchanges.

It is over two lines, but to any of us who knew Grandma Smith as a type it speaks volumes.

For a woman to have been the wife of a grandma in the long battle of life in a country community is a more wonderful, a more sincere honor and tribute than the title general in the battle of death.

Grandma Smith, came to the settlement when it was young and when she was young.

In the lack of all the common magnificence and means of life, amid the privations and struggles of pioneer times, and which we of today know nothing, she reared her family to useful citizenship.

But these early struggles made her resourceful, they gave her courage and a kind heart.

In her broad human sympathy Grandma Smith had heard more individually useful in the upbuilding of the community than any doctor, lawyer or school teacher that ever lived here.

She had been present at more births

land deaths than any doctor in the whole congressional district. She gave wise counsel and sound advice to the wives of the community.

She cared for their children when they came, and while they were growing up—entertaining them with a thousand equal tales of pioneer life, both in comedy and tragedy as they gathered around her rocking chair at evening.

Grandma Smith has in her washes cooked thousands of meals, washed millions of dishes, made scores upon scores of beds and numerable articles of clothing for the whole community.

And nearly all what she did was for others.

And from the time when first she came her hands have known no rest until they were placed across her breast and she was laid away in Nora cemetery.

We are all for her these days; too busy often, but a thought of those about us. We are growing less like Grandma Smith. And up too bad that we are.

MAWKER TELLS

Continued From Page One.

"Then it was that we reached the first fateful decision to play for safety. We changed our course and began flying diagonally across the straits.

"We were flying for about two or a half hour, when to our great relief, we sighted a Danish steamer, which proved to be the tramp Mury.

Send Up Distress Signals.

"We went up our very light distress signals. They were answered promptly, and then we flew on about a half hour, when to our great relief, we sighted a Danish steamer, which proved to be the tramp Mury.

"The sea was exceedingly rough, and despite the utmost efforts of the Danish crew it was ninety minutes before they succeeded in taking us off. It was only at great risk to themselves in fact that they eventually succeeded in launching a small boat, owing to the heavy gale from the northeast which was raging.

"It was found impossible to save the machine, which—however—most probably is still afloat somewhere in mid-Atlantic.

"Although before being picked up we had been fourteen and a half hours out from New Zealand, and we were picked up at 8:30 a. m. Greenwich time.

Splendid Welcome Home.

"From Captain Dahn of the Mary and his Danish crew we received the greatest kindness on our arrival. The crew of the Mury was wireless and we were not not until we arrived off the coast of Lewis that we were able to communicate with the authorities.

"Off Lochebor, where 'he' had a splendid welcome home from the 'President and the men of the grand fleet.

Grive's Story.

Lieutenant Commander Grive's gave the Daily Mail the following statement:

"When a few hundred miles off a storm nearly gale drove us steadily up our course. It was not at all unreasonable, owing to the pressure of dense masses of clouds to take our bearings and I calculated at the time we determined to cut across the straits.

"Flying rate was over 200 miles off our course. Up to the middle of afternoon we had covered about one thousand miles of the journey to the Irish coast."

Showing the faith of Mr. Hawker in his husband's return, the Mall Paris a letter she wrote to Lord Northcliffe Friday regarding his offer to divide the prize of \$50,000 among the aviators, she wrote:

"While appreciating this as a very noble offer I cannot and will not, as you know, believe that my husband is still alive."

Mrs. Hawker also wrote to the Mail the day after the following:

"With the faith in the power of God to succor my husband and his companion, wherever they fell, but with lonely heart, I thank you for your most generous offer."

SENDS CONGRATULATIONS.

WASHINGTON, May 24. On behalf of the American air service Secretary Daniels today sent the following message to Harry G. Hawker and Lieutenant Kenneth Grove:

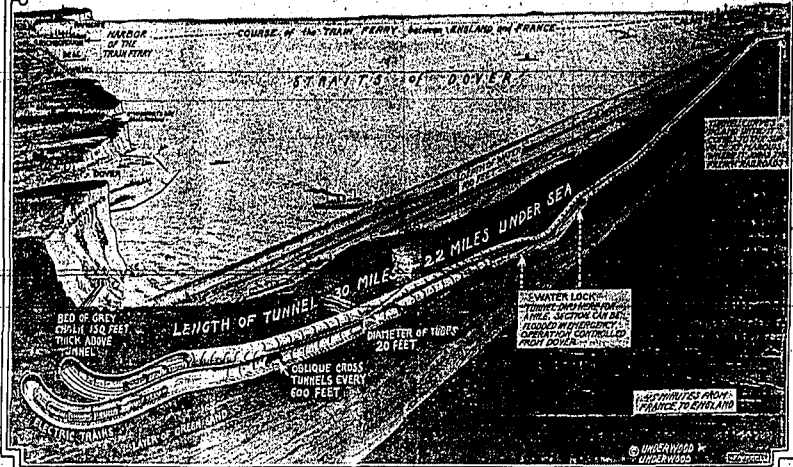

"The American air service co-planes in the most important of air, send greetings and their commendation of the pluck and endurance of their associates. This spirit of high adventure, borne of resolve to open all elements of the world to man, enables our manhood."

CHRONICLE GETS WORD.

At 5:30 o'clock Sunday afternoon The Chronicle picked up its bulletin from the rescue of the Associated Press telling of the rescue of Hawker and Grive by the Danish tramp steamer Mary.

This bulletin was the first information given to the people of Twin Falls of the rescue of the English aviator and his pilot. The Chronicle telephoned was busy Sunday late at night because of the many inquiries as to details of the affair.

PROPOSED TUNNEL from ENGLAND to FRANCE

AMIS—America is not the only nation

in the world that is bidding farewell to a policy of splendid isolation these days.

Great Britain has judged the proposition, in a physical sense, according to plans now on foot, and is about to join herself to the mainland of Europe with a tunnel under the English channel, connecting the British isles with France.

Costing only \$100,000,000, and being at most a seven years' job, the whole task is being approached with a confidence that is typically British.

Compared to war expenses, the \$100,000,000 is trifling. The French favor the plan.

Now, however, with the advancement of the plan of connecting continental Europe with the British Isles by means of a tunnel. According to the story, still going the rounds in Europe, Napoleon's inspiration came from an engineer of the name of Maitley in the early days of the last century during the Napoleonic wars.

"Now members of the British cabinet and parliament are trying to get operations started at once and for some weeks interchanges of views have taken place between the various interested elements in England and with officials of the French government without any official cold water having been thrown in sufficient quantity to dampen the ardor of the several promoters.

"During the war a tunnel under the straits of Dover—the site approved by all promoters of the plan—would have been considered to the English, to say the least, military critics state. Twice at least, before the Germans were finally defeated, the whole progress of the war would have been affected, to the disadvantage of the allies, had the English fleet been compelled to try to protect the French entrance to a tunnel.

"During the retreat from Mons to the Marne, in 1914, a tunnel entrance on the French side would have placed the English general in the dilemma of either retreating toward the tunnel to save it or keeping it open for the French in the general retreat and thereby preventing some kind of a coalition front against the German.

"By breaking from the French and falling back on the tunnel, the British force would have been surrounded and probably forced to surrender, it is figured out by promoters of the plan in England.

"Before the war there was considerable army and navy objection in England to the tunnel project. And when the war came it was found that possession of a tunnel to the first stages of the war would have been a liability rather than an asset.

"Now, however, with the advancement of engineering knowledge old difficulties are removed. It is planned to install in the tunnel an arrangement whereby one mile of the tubes can be flooded, without actually destroying the whole structure, thereby preventing the possibility of invasion of a hostile fleet.

Actual steps have been taken in sound official opinion in France. Donar Law of Great Britain has communicated with Prime Minister Lloyd George in Paris, asking him to approach the French government for its view on the subject.

It is believed by official circles in London that the whole proposition is one for the French and British governments to settle, and not a subject for discussion at the peace conference.

An Old Proposition.

Many years ago the first tunnel was started from the English side beneath the straits of Dover. At the present time the old tubes still extend 2,000 yards toward the French coast. The newer plans, however, will require two tubes, running side by side 300 feet below the surface of the sea. One tube would be used for French-bound traffic and the other tube would be used for English-bound traffic.

Investigation has shown that the water in the straits of Dover is from 150 to 180 feet deep at the low tide. The bottom of the sea is a kind of clay formation that has been rippled by the ebb and flow of the tide. This ripple is of clay sediment. This chalk bed is about 100 feet thick, so that a tunnel 300 feet beneath its surface of the sea, following the channel, would probably be safe enough, the engineers believe.

At fairly close intervals the two tubes would be connected with oblique cross tunnels, which will assist in ventilating the long tubes. By using electric trains the great objection of smoke from the present coal-burning or oil-burning locomotives is removed.

On account of the formation of the chalk bed, Sir Charles Fox believes the two tubes should be curved enough to keep both lines well within the limits of the chalk formation.

London will be connected by rail with all the

principal cities of the continent, once the tunnel is completed. And the traveler will be able, if suggested plans are carried out, to leave London at regular intervals on through trains for the Far East, the near East, as well as Petrograd, Rome, Vienna, and the Balkans.

When the first channel tunnel was discussed informally by Napoleon with the British ambassador to France during the peace of Amiens, in 1802, the matter was linked over in a spirit of friendly competition. In those days "carriage wars" were prevalent between France and England, the French champion of the tunnel idea had visions of French territory inching to the island of their little island through a submarine passageway.

Those days Gannod, a geographer later, revived the proposal. He was a specialist in cross-channel traffic ideas, and also had a scheme for constructing a stone and rail bridge across the straits of Dover. It was considered to look as if something would indeed be done to realize the dream of Napoleon and Gannod. In that year a company was formed in France which obtained a concession to start work. One year later, in 1875, another company was formed in England, known as the "Channel Tunnel Limited," which obtained permission of the British parliament to begin work.

The French company, which was called the French Submarine railway, took many samples of the silt from the channel bottom; made more than 7,000 soundings; sank a shaft, and actually started a tunnel at Sangatte, driving it a mile and a half beneath the sea, according to present-day accounts of the operation.

Experimental work was carried on by the English company for a year or so. And then its charter expired in 1880.

By 1883 there were two English concerns trying to secure sole rights in the construction of a tube. The second concern went by the name of the Submarine Continental railway, in which Sir Edward Watkin and the Southern railway of England were interested. When Sir Edward's company tried to begin work beneath one of the cliffs of Dover opposition was started by the Channel Tunnel Limited, group.

Stopped by Parliament.

That same year new legislation in the British Parliament which dashed the hopes of both companies. It was decided by a joint select committee of the lords and commons that "It was inexpedient that parliamentary sanction be given to a submarine communication between England and France."

So the Southern railway of England was compelled after a reconnoitering of the two companies interested was closed by government order, and the two rival companies, combined as the Channel Tunnel Limited, determined to keep the idea alive for evermore, even if they were permitted to do nothing.

Today the French and English engineers do not know definitely that a continuous stratum of dry chalk exists beneath the entire channel from the English to the French side.

They do know, however, that at all exposures the stratum is continuous, because drill holes have shown that the formation of the French side is very much as on the English side. The chalk cliffs at Cap Grisnez, in France, are of the identical geological formation as the cliffs of Dover in England, and rest, as do the English cliffs, on a substratum of gray chalk 200 feet in thickness.

It is assumed the same gray chalk is to be found in a solid, water-resisting layer for the 22 miles that separate the two countries.

The Southern railway of England is now interested in starting the tunnel at once. An official of the railway has stated:

"If the British and French governments give the work the channel tunnel can be started tomorrow. All the plans are ready, and have been since 1907. The tunnel is to be built generally, and that, as the French side is to be built first, it is assumed that thousands of demobilized soldiers could find jobs with the enterprise. But it is almost immediately officially stated that a comparatively small number of men would be needed—perhaps half a dozen."

In the meantime the reaction in France to the plan was favorable. The Paris newspapers recalled that suggestion came originally from France in 1802; that realization of the plan would bring immense benefits to the country generally, and that, as the French side is to be built first, it is assumed that thousands of demobilized soldiers could find jobs with the enterprise. But it is almost immediately officially stated that a comparatively small number of men would be needed—perhaps half a dozen."

With trains running at 100 and 120 miles in intervals will be the frequency Sir Charles Fox,

the engineer, estimates will be possible—London will be literally next door to Paris and in direct touch with all of Europe all the time.

This will mean two or three days saved by travelers going from New York to Paris—by way of the comfort of those who will escape the rough channel trip from England to France, when even the sturdiest sailors frequently suffer from sea sickness.

There are many "ifs" about the whole business, but it is certain that has attracted a lot of attention from the public, and that, if the tunnel is built it will cost no more than one day's cost of war—and at most the cost of two days of war."

One or two hundred million dollars expended on any highly enterprise these days is considered as a trifling sum by even the man in the street.

The announcement of the project causes no surprise on this side of the Atlantic. America is rather disposed to wonder that the tunnel was not begun long ago.

The truth is that when Hierot flew from French soil to English soil just before the war, John Bull opened his eyes wide and they have not closed since. His masterly isolation of centuries was gone in a twinkling. A miracle happened, also, in giving such a heretic to the new medium of communication. But the point is that the conquest of the air has given the tight little island a new view of things.

The distance between Dover and Calais—a bit of choppy sea most of the time on the surface—is to be overcome by tunnel. The government leaders in the British house of commons has announced. It will be a joint governmental undertaking to be started as part of reconstruction. A matter of a hundred millions to two nations, innocently believed to be bankrupt from the war, is no barrier, to the construction in the steel rod in the cement of peace cypharans. Both nations are fast becoming bilingual. The tunnel will help along the "entente cordiale" after the war.

As a sense of protection for both nations, the "entente cordiale" will be of great value. It will mean, also, that the tunnel will be built in two stages, each stage will have been different and four-year agony would not have fallen upon the two nations.

Fifty years ago, when the tunnel project was declared to be perfectly feasible from an engineering point, military men opposed it. It is very amusing reading the debates of those far-off days. England, they said, could never afford to take chances with a tunnel; the island would be no longer an island; some dark night the enemy would seize the two ends of the bore, and to add behold! England would be invaded. Straightaway summed the plan, much to the discomfiture of the military.

Before the war broke, when the new discovery in aviation changed this perspective, tunnel reconstruction was being urged. Now as a war measure—and France and Britain are still taking precautions in case the millennium is a false alarm—the tunnel is approved by army men. Commercially, there never was any question about it. France has sought it consistently for almost a century. France has vision.

International tunnel construction is to be the unity of the day. The nations are to be joined closer together. The straits of Gibraltar are to be tunneled if peace carry, and very likely East and West—the Occident and the Orient—will be joined by a tunnel under the Bosphorus. And it is well worth noting that the tunnel is to be built in two stages, each stage will have been different and four-year agony would not have fallen upon the two nations.

VASTNESS OF SIBERIA.

Siberia, that great lone land about which there is now so much discussion, is so vast that the imagination can hardly grasp its extent. A single day of its size may be gained from the statement that it is 45 times as large as the British Isles, and contains, approximately 5,000,000 square miles. In all this enormous territory, there is a population not exceeding that of the city of New York. There are hundreds of thousands of square miles that are entirely uninhabited. It is a land of great rivers, but the value of these rivers for purposes of navigation is greatly restricted, because most of them flow into the Arctic ocean and through their lower courses are ice-bound for the greater part of the year. The great steppe-lands of Siberia, now almost unutilized, are destined, it is said, to become the granary of the world. Their development, begun with the opening of the Trans-Siberian railroad, has been interrupted by the war—People's Home Journal.

BASEBALL

FORMER MACKMAN GETS "HIS" HERE

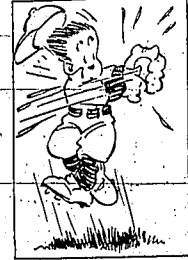

"Hunkie" Schorr, ex-American League Twirler, Falls to Put Game Over for Rupert.

"Hunkie" Schorr, Coast league baseball pitcher, a few short months ago a member of Connie Mack's Philadelphia Athletics, and for a day a member of the Rupert South Idaho league baseball team, got "his" in Twin Falls Sunday.

Brought here at much expense by the Rupert team, the double A league pitcher was expected to put the visitors at the head of the percentage column and give Rupert fans a "little extra" "kale" in the way of winning bats.

Schorr did his da-a-ndest to fulfill his end of the contract. He hit the ball in regular "hube" luth style, garnering a home run in the eleventh inning that should have put the game on ice—except—that he didn't figure on one Whitson or a left-handed lad by the name of Singleton, who took Schorr's game away from him in a rip-roaring, let 'er buck style in the eleventh.

There was plenty of excitement for the fans in the entire eleven innings of the set-to. Rupert started the scoring in the first, held the lead until the fourth, when the score was tied.

"Lefty" game-winning single was too hot for Good to handle in time enough to catch Singleton on first.

and then went behind in the fifth. The score was tied again in the seventh and remained so until the eleventh.

With two down in the eleventh, and with two strikes and three balls called on him "Hunkie" knocked his home run—a drive over the center field fence.

The crowds began to move out of the stands. Some went out of the ball park. It was a good game and a hard one to lose. Was the comment everywhere. What dying hope remained with the rooters almost went fwoofy when Thompson whiffed. It rose again when Bell ridded one for a single.

Patten flew out. Twin Falls fans wail. Then "Whitson" with his name on the Twin Falls' scroll of fans by lambasting a vital pitch—having two strikes and three balls called—a la Schorr—for three bases, scoring Mister Bell. The crowd went wild. It was a tie again. Then Lefty Singleton did his bit—hit one to short for a single that put the contest on ice and left Twin Falls tied with Burley for the leadership of the circuit.

Piler stepped out of the collar Sunday by winning from Paul by a score of 5 to 1, while Bill remained down stairs to keep Paul company when it lost to Burley, 12 to 4.

On Thursday, the only mid-week games to be played on schedule will be staged.

SCHORR HAS GOOD REP Schorr, the visitor's borrowed pitcher, won fame in 1915 by twirling the Spokane Indians into a pennant. He went from there to the big league, made a good impression early in the season, then came back to the coast for a little seasoning. He has been getting fair in the big western circuit, hitting the ball with regularity. In an effort to bolster up the Seattle Coast league team a deal with recently made whereby Schorr was traded to the Puget Sound team owned by Salt Lake. He was on his way to Seattle when he was picked up by Rupert.

Wildness and Errors Break Detroit's Winning Streak—White Sox Win Again From Washington.

By the Associated Press. PARIS, May 26.—Advices to support Bolshevik strikes and disorders gravely hampering the operation of the trans-Siberian railroad, on which Admiral Kolchak is dependent for his supplies. These disorders have been difficult to repress.

RECOGNITION IS REMOVED PARIS, May 26.—Paris was alive with rumors all day concerning the recognition of Admiral Kolchak's government. Several Paris newspapers announced that the council of four had decided to recognize this government under certain conditions. This could not be confirmed in conference circles, although serious consideration of the subject was frankly admitted. The majority of the council of four have apparently agreed on recognition if "proper guarantees" are given of the thoroughly democratic character of the government.

The American delegation, however, declined to confirm the report that a final decision had been reached and the Russian commission was not advised of any formal proposal to the Omsk government with which it cooperates. Advices reaching Paris are that the forces of Admiral Kolchak have met with heavy opposition by the Bolsheviks near Samara and been compelled to fall back along the railroad toward Ufa.

The Esthonian Army, approaching from the north, has reached Peterhof, 24 kilometers from Petrograd.

The council last evening adjourned its regular meeting until next Monday evening.

SUFFRAGE BUMPS SNAG IN SENATE

Opposition Blocks Efforts to Expedite Consideration of Measure—Hope for Early Vote.

WASHINGTON, May 26.—Opponents of woman suffrage succeeded today in blocking efforts to expedite senate consideration of the constitutional amendment—resolution—passed last week by the house, but supporters plan to renew the fight Wednesday with the hope of bringing the measure to a vote Thursday.

Immediately after the senate convened at noon, Senator Watson of Indiana, new chairman of the woman suffrage committee, called on the motion of Senator Jones, republican, of Washington, to take the resolution from the committee and place it on the senate calendar. Southern democratic senators registered opposition, insisting that the resolution come up in the regular way with no opportunity for debate.

The first test of strength between the opposing factions came on a motion to table Senator Jones' motion, which was defeated 45 to 27. Opponents then resorted to parliamentary tactics to prevent a vote on the Jones motion until 2 o'clock, when it was not made under the rule for renewal of debate on the resolution of Senator Johnson, republican, of California, requesting the state department to furnish the senate a copy of the peace treaty. Senator Johnson agreed to have his resolution go over temporarily, but the rules prevented such action.

Opponents freely admitted that there was no doubt of sufficient votes to ensure passage of the suffrage resolution and supporters expect to pass it Thursday after it has remained on the calendar for a day as required by the rules.

Before the senate met, the republican conference called to consider committee selections adopted a resolution pleading prompt action.

DEMISE BOXES WITH DASH OF LIGHTWEIGHT IN WORKOUT

By the Associated Press. TOLEDO, May 26.—Baying with the speed and dash of a lightweight, Jack Dempsey—today—stopped—four rounds with Bill Tate, the giant negro sparring partner, in the fastest work-

out the challenger has had since he began training. Tex Hickard, promoter, was a visitor at the camp. Hickard heard nothing definite in regard to Willard's departure from Los Angeles, but assumed that the champion had started for Toledo as scheduled. Ray O. Archer, Willard's business representative, is on the way here, having left the coast yesterday.

At the Red Cross sewing room, corner Shoshone and Second, there are over 500 garments cut, ready to be sewed. There is yarn enough for 100 pairs stockings and 50 awatears. The sewing will be finished by June 1st, if possible.—If over 500 women in Twin Falls will make just ONE garment we can finish on time. The garments are for the refugees of all Europe and when this quota is finished we will be through with the Red Cross sewing. Beginning Monday, May 26, the sewing room will be open from 10 a. m. to 5 p. m. COMMITTEE.

GODDARD BEATS CURPHEY LONDON, May 26.—Frank Goddard tonight beat Jack Curphey in the tenth round of a twenty-round contest for the heavyweight championship of Great Britain and the East-England belt.

COMB SAGE TEA IN FADED OR GRAY HAIR

If Mixed With Sulphur It Darkens So Naturally Nobody Can Tell.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded and streaked appearance, the simple mixture was applied with wonderful effect. By using at any time before for "White Sage and Sulphur Compound," you will get a large bottle of the old-time recipe, improved by the addition of other ingredients, all ready to use at very little cost. This simple remedy can be depended upon to restore natural color to the hair.

A well known down town druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. It's so easy to use, too. You simply dampen a comb or soft brush and draw it through the hair, taking one strand at a time. By morning the gray hair disappears, after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

DEBATE ON LEAGUE BECOMES BITTER

Reed Attacks It In Vigorous Speech on Senate Floor—Hitchcock Interjects Queries.

By the Associated Press. WASHINGTON, May 25.—The league of nations was debated in the senate again today with an increasing show of bitterness.

Senator Reed, democrat, of Michigan, attacked the proposal in such vigorous terms that he aroused repeated objections from senators supporting it and developed a running debate colored by dramatic accusations and heated retorts. The Michigan senator declared the league would place the destinies of the white race in the hands of ignorant and superstitious nations of black and yellow population, and charged that minor democrats were supporting it for partisan reasons.

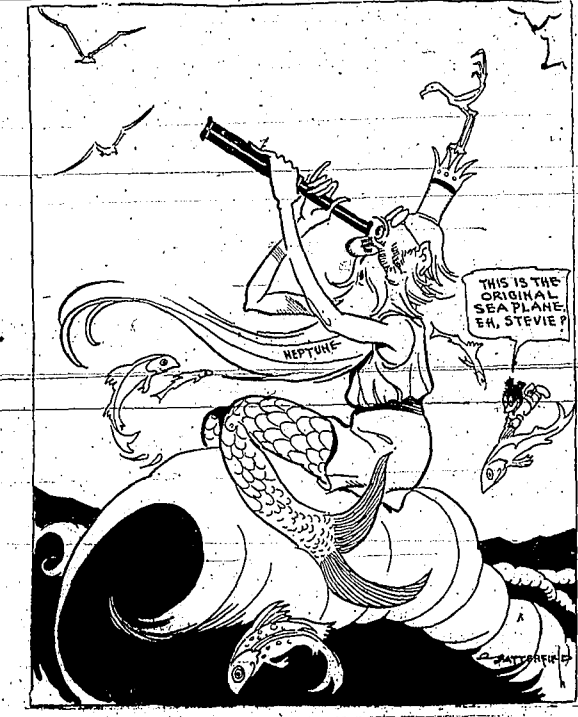

In frequent interruptions of Senator Reed's speech, Senator Hitchcock of Nebraska, ranking democrat of the foreign relations committee, insisted that the promises for these changes drawn were unfair and dangerous. He drew in turn a reply from Senator Knox, republican of Pennsylvania, who suggested that supporters of the league covenant should read it before they heated it.

So heated did the exchanges become at one point that the chair rapped for order and Senator Reed declared that Senator Hitchcock had "lost his temper."

The measure which brought the league issue before the senate was the resolution of Senator Johnson, republican of California, requesting from the state department the full text of the peace treaty. There was no attempt to reach a vote on the resolution, and the measure went over again at unfinished business to come up when the senate reconvenes Wednesday.

Without speaking directly on the Johnson resolution, Senator Reed made a general attack on the covenant itself as a proposal to hand over control of the white race and the civilized world to an assembly of nations where a majority always could be brought together on any race question in opposition to white supremacy. He declared support of the plan never had been explained at home by senators from the south, with its negro problem, or from the west, with its Chinese and Japanese problems, turning dramatically to his denunciation of the plan.

The Seaplanes: "Here He Comes!" "There He Goes!"

Senator Hitchcock interjected that Mr. Reed confused the powers of the league membership with those of the council, but this was denied by Mr. Reed. Analyzing racial and moral conditions in Honduras, Panama and other small nations which would have league membership, Senator Reed said: "Oh, you mean in the south, you say white?" "Yes, want to give Panama, with its ninety per cent of negroes and mulattoes, a vote equal to the United States. Go tell your people that, in the league, one negro outside the United States would have a vote equal to 500,000 whites of this republic."

The senate adjourned without any attempt to bring the Johnson resolution to a vote. It went over as unfinished business and will come up again Wednesday's session.

Southern democrats particularly were chided for refusing to recognize the negro as an equal. At the ballot box, but at the same time accepting South Africa and other nations where the black race predominates as members of the league assembly on an equality with the United States. In his speech of nearly three hours, Senator Reed presented a mass of statistics and other information regarding the smaller members of the league. The member nations in which the white race was predominant, he said, were:

MUCH INTEREST IN LAND SALE

School Sections Disposed of Being as High as \$310 an Acre.

J. H. Nash, state land commissioner, yesterday sold several thousand acres of school land in Twin Falls and Cassia counties. The land sold brought as high as \$310 an acre and as low as \$10. One entire forty west of Twin Falls brought the high price. The sale was held at the commissioner's room at the court house. Approximately 30,000 acres had been advertised for sale and a large portion of this was disposed of at the auction. Tibbard Bros., Incorporated, of Pocatello purchased seven sections of the land offered. This was in the Hansen-Burns section of what is known as the Moorman tract. It was announced by these purchasers that this land would be used for the grazing of sheep at this time.

Word was received from Mrs. B. H. Brown yesterday that her son, Roy, had arrived at the Grand Central hospital at New York.

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colic, rheumatism or gassy acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do. To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless, except a scurly twinge which is not unpleasant. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation. "Morning Young Folks," like you, felt before your blood, nerves and muscles became saturated with an accumulation of body poisons begin this treatment and, above all, keep it up. As soon and as often as you can.

Notice of writ of attachment. In the District Court of the Fourth Judicial District of the State of Idaho in and for Twin Falls County, Twin Falls County, State of Idaho, Plaintiff, vs. J. H. Wolf, defendant. Notice is hereby given that on May 15, 1919, a writ of attachment was issued out of the above entitled court in the above entitled action, attaching the property of the above named defendant in the sum of \$445.10, together with interest at the rate of 7 per cent from January 1, 1919.

In witness whereof, I have hereunto set my hand and the seal of my office this 1st day of May, 1919. (Signed) C. C. Siggins, Clerk of the District Court. By C. L. DOWEN, Deputy.

Frank L. Stephan, Attorney for Plaintiff, Twin Falls, Idaho.

ALIAS SUMMONS. In the District Court of the Fourth Judicial District of the State of Idaho, in and for Twin Falls County, E. J. Finch, Auditor, as Trustee for Twin Falls County, State of Idaho, Plaintiff, vs. E. J. Finch, W. H. Honor Craven, Genevieve L. Craven, his wife, Twin Falls North Side Investment Company, a Corporation, Twin Falls North Side Land & Water Company, a Corporation, and The Continental and Commercial Trust and Savings Bank, a Corporation, Defendants.

The State of Idaho sends greetings to R. B. Leavitt, Twin Falls North Side Investment Company, Twin Falls, Idaho, and to the Continental and Commercial Trust and Savings Bank, the above named defendants.

You are hereby notified that a complaint has been filed against you in the District Court of the Fourth Judicial District of the State of Idaho, in and for Twin Falls County, by the above named plaintiff, and you are hereby directed to appear and answer said complaint within twenty days of the service of this summons, or served within said judicial District, and within forty days if served elsewhere; and you are further notified that unless you so appear and answer said complaint within the time herein specified, the plaintiff will take judgment against you as provided in said complaint.

The nature of the cause of action alleged against you in said complaint is that the County of Twin Falls, State of Idaho, has a lien against Lot Fifteen, Block Seventy-eight (78), of Collier Township, as the same is listed and of record in the office of the County Recorder of Twin Falls County, Idaho, for the delinquent taxes of the year 1918, in the sum of \$1.11 with interest at twelve per cent per annum, from January 10, 1919; for the delinquent taxes of the year 1917, in the sum of \$2.58, with interest at twelve per cent per annum from January 10, 1917, and for the delinquent taxes for the year 1917, in the sum of \$1.87, with interest at twelve per cent per annum from January 14, 1918, and that the plaintiff, as trustee of said Twin Falls County, is demanding judgment for said amounts, plus \$15.00 attorney's fees and cost of suit, including \$1.00 disbursements for abstract of title, and that he desires to enforce the sale of the premises herein described for the purpose of satisfying the amount of the judgment so obtained.

Witness my hand and seal of said District Court this 10th day of April, 1919.

C. C. Siggins, Clerk. By C. L. DOWEN, Deputy. FRANK L. STEPHAN, Attorney for Plaintiff, Residing at Twin Falls, Idaho. First publication April 14, 1919.

## Grain

**CHICAGO, May 26**—Owing largely to a decrease in the visible supply total, strength supplanted weakness today in the corn market. May touched the highest level yet this season. The close was nervous, at 10 to 12% net advance with July 11.65% to 11.75% and September 11.57% to 11.65. Oats gained 1/4 to 1/4¢. In provisions the outcome varied from 10 decline to a rise of 6¢.

Oats were governed chiefly by the changes in the corn market.

Provisions, although sympathizing with the decline, went unswayed when grain advanced. Blackboard houses bought.

**CASH GRAIN**  
**CHICAGO, May 26**—Corn: No. 3 yellow, 11.78 to 11.79 1/2; No. 2 yellow, 11.65 to 11.66; No. 1 yellow, nominal.  
 Oats—No. 2 white, 68 to 68 1/2; standard, 68 to 68 1/2.  
 Rye—No. 2, 11.40 to 11.47.  
 Barley—11.10 to 11.13.  
 Timothy—10 to 10 1/2.  
 Clover—Nominal.  
 Lard—112.65.  
 Rib—127.75 to 128.75.

**MINNEAPOLIS, May 26**—Flour, unchanged.  
 Rye—11 to 11 1/2.  
 Rye—No. 2, 11.40 to 11.40 1/2.  
 Bran—11.75.  
 Corn—11.58 to 11.60.

**OMAHA—Corn:** No. 2 white, 11.65 to 11.69; No. 3 white, 11.67 to 11.70; No. 2 yellow, 11.70; No. 3 yellow, 11.67 to 11.70; No. 1 mixed, 11.66 to 11.67; No. 2 mixed, 11.64 to 11.65; No. 3 white, 65 1/2 to 65 1/2; No. 3 white, 65 1/2 to 65 1/2.

# CONFIDENCE SHOWS IN MARKET TONE

Trading on Changes in Outlook for the First Time in Two Years Exceeds 2,000,000 Shares.

By the Associated Press.  
**NEW YORK, May 26**—For the first time since February 1, 1917, trading in the stock exchange, as measured by a slender margin, the 2,000,000 mark, heavy buying of specialties contributing largely to the huge total.

The market was characterized by a greater degree of enthusiasm and confidence than any of the many active sessions since the middle of last February, when the current boom was inaugurated.

A very rapid pace was set from the beginning, the activity of commission houses suggesting further accumulation for interior accounts, particularly western and southwestern points.

Among the most prominent gains were—Budebaker, Chandler, Stutz, Pierce-Arrow and General Motors at net advances of 2 1/2 to 1 1/2 points; Stromberg-Carlson, Bosch magneto, Goodrich and United States Rubber, Kelly-Springfield Tire and Keayotax Tire at gains of 2 to 6 1/2 points; United States Industrial Alcohol, Western Union, American Woolen, American Oil and several equipments, 2 to 5 points.

United States Steel went to the year's maximum at 11.02 1/2, but forfeited half its two-point gain, amid issues also easing moderately towards the close.

**COW MAKES RECORD**  
 By The Associated Press.  
**SACRAMENTO, Cal., May 24**—The state record for one year's butter fat production by a Jersey cow has been broken by interested Japs. Santa, a Jersey owned by the university farm at Davis, California, it was announced today. The cow produced 338.03 pounds of butter fat and 16,538.02 pounds of milk in 12 months in an official test which ended last night. The record was broken by one of the cleverest best Jersey cows in the world, university farm officials said.

**POLICE ON GUARD.**  
 By The Associated Press.  
**PORTLAND, May 26**—Police officers stationed today in every club building where it is suspected that gambling has recently been carried on. Mayor George L. Baker directed the move. He announced that some action was necessary on the part of the ordinance prohibiting the maintenance of barred doors in buildings has been held by the courts to be invalid.

**SEALED BIDS FOR EXCAVATION INVITED.**  
 The Board of Trustees of Independent School District No. 1, of Twin Falls, will, on Tuesday, May 27, 1919, at 10 o'clock a. m., in the office of the superintendent of schools, accept sealed bids for the excavation for the addition to the high school building. Bids must be made stating separate price per cubic yard for earth, loose rock and shale, solid lava rock, and trenching for footings one foot deep in earth only. Measurements to be made in the excavation. There will be approximately 4000 yds. of earth and loose rock combined; 1070 yds. of solid rock; and 114 yds. of trenching.

All material for the excavation to be removed from the premises and disposed of by the contractor. All lines, grades, and other information for this work will be furnished by Burkett E. Horse and Chas. H. Kaufman, architects, and must be carefully followed.

Each bid must be accompanied by a certified check for \$500.00 and is to be forfeited by the successful bidder on failure to enter into a contract and furnish a satisfactory bond in the sum of \$1000 for the performance thereof under such bid.

The board reserves the right to reject any and all bids.  
 Dated Twin Falls, Idaho, May 23, 1919.

By order of the Board of Trustees of Independent School District No. 1, W. H. DECKER, Pres. A. H. BRYAN, Clerk.

## Mechanics Attention

The Victory Lodge of the International Association of Machinists, which has been recently organized in Twin Falls, has voted to make it a mixed lodge to include all metal trades workers who are not already organized in this section, and to elect such men according to his trade as members of the lodge. It is getting together and of giving every one a change to get in as a Charter member at an exceptionally low fee, we are giving a smoker, Tuesday evening, May 27, 1919, at Union hall, above Murray's candy store, at 3 o'clock. All Metal Trades workers, such as machinists, automobile mechanics, blacksmiths, boiler makers and welders in Twin Falls and neighboring towns are cordially invited to attend. VICTORY LODGE INTERNATIONAL ASSOCIATION OF MACHINISTS.  
 By E. W. FRENCH,  
 Recording Secretary.

### WANT OPPORTUNITY TO MAKE SPEECHES

#### Democratic Membership of Committees Decreased—Nugent Apparently Retains Place.

By the Associated Press.  
 WASHINGTON, May 26.—(Special)—A senate committee assignments, although approved at a republican conference today over the opposition of the progressive group, will come up for discussion at a public party conference tomorrow.

The call was issued by Senator Lodge at the request of progressive senators, who said that given an opportunity to express publicly their opposition to the republican majority, for chairman of the finance and appropriations committees, respectively, they would not carry their opposition to the floor of the senate.

Bornh Easily Placed.

Senator Borah of Idaho said the progressive group to prevent democratic control of the senate; reduction of democratic committee representation, approved today by minority senators, involved retirement of prominent democrats from many important committees. As the senate vote was followed in reducing committee representation all hold-over democrats of senator served retain their places.

The democratic members of the foreign relations committee selected Senator Hiram Bingham of Oregon as chairman; Williams, Mississippi; Swanson, Arizona; Pomeroy, Ohio; Smith, Vermont; Pittman Nevada, and Shields, Tennessee. Retiring members were Thomas, Colorado, and Robinson, Montana.

Nugent Evidently Safe.

On the finance committee all democratic hold-overs remain, except Senator Robinson. From the appropriations committee Senator Chamberlain of Oregon retired and Senator Harlan of Georgia was retained. From the interstate commerce committee Senators Gore of Oklahoma and Pittman retired and Senator Stanley of Kentucky was chosen to membership.

Senators Wolcott of Delaware and Fletcher of Florida retired, from the judiciary, Senators Reed of Missouri and Smith of Georgia, gave up their places on the military affairs committee.

Senator Randall, Louisiana, retired from the naval committee and Senator Shields of Tennessee from the commerce committee.

Give Up Places.

From the agriculture committee, Senators Sheppard of Texas and Chamberlain retired and Senator Harlan of Mississippi obtained membership. From the banking committee and Senator Walsh of Massachusetts, was chosen a new member, Senator Gerry of Rhode Island retired from the privileges and elections committee.

Of the new democrats from the following the senate committee assignments were made: Dial, South Carolina, postoffice, Cuban, relations and national banks; Harris, Georgia, appropriations, immigration and public health; Harrison, Mississippi, agriculture, relations and immigration; Stanley, Kentucky, interstate commerce, Pacific railroads and expenditures in the department of commerce, and Walsh, Massachusetts, postoffice, banking, manufactures and Canadian relations.

proceeds sent to the Idaho managers of the league and the notes to be bank as security to the state of North Dakota, which, of course, will demand payment.

This disclosure follows on the heels of another that farmers were induced to meet with their liberty bonds for the purpose of Idaho managers of the league.

## Local Briefs

Carl Painter left yesterday morning for Blackfoot on a short business trip. Mr. and Mrs. H. E. Green of Jerome motored to Twin Falls Sunday for the day.

Archie H. Sheehy, who has been visiting his daughter, Mrs. Lewis, at the Gertrude hotel for the past few days, left yesterday morning for Chicago where she will visit with relatives before going to her home in New York. Mrs. L. H. Hensman and her little daughter, Grace, left last evening for Ogden, Utah, where they will visit her parents for the next month.

Miss Lydia Wall who recently gave up her position on the "Twin Falls Daily News" left yesterday morning for Columbus, Ohio.

Miss K. Sprague, who has been visiting Mr. and Mrs. George Sprague, left for Holbe Saturday evening.

Mr. and Mrs. E. J. Miller returned to Twin Falls from Kaniil Sunday. Miss Hildy Jacobs left for Burley Sunday for a few days' visit.

proceeds sent to the Idaho managers of the league and the notes to be bank as security to the state of North Dakota, which, of course, will demand payment.

This disclosure follows on the heels of another that farmers were induced to meet with their liberty bonds for the purpose of Idaho managers of the league.

## First Picture of the Dahomey Cabinet

This is the first picture of the Dahomey cabinet in session over to be sent to America. Self-determination for the individual in the far off African country seems to be lacking, for the cabinet officers protest themselves upon their stomachs, whether the ground be sold or not. And, at the right and the left of the king are presumably the imperial chancellor and the master of the exchequer, looking more lordly than his majesty.

passed by Mrs. Murray, leaves today for Billings, Mont., to be gone for 10 days.

**CHIEF JUSTICE WASHINGTON SUPREME COURT RESIGNS**  
 By the Associated Press.  
 OLYMPIA, Wash., May 26.—Acting Governor Louis F. Hart announced today the resignation of Chief Justice Stephen J. Chadwick of the state supreme court to become effective June 1.

Justice Chadwick's place will be filled by J. B. Briddick of Aberdeen. Judge O. R. Holcomb will become the new chief justice.

**TRIF TAG DAY DISTURBERS.**  
 By the Associated Press.  
 PACOMA, May 26.—Trial of eight men arrested in the "tag day" disturbance here in April, began in superior court today. The defense is being undertaken by the workers' solicitors and sailors council, which defied the city authorities and sold tags ostensibly to raise a fund for returning soldiers. The city officials declared the organization on the model of the Russian soviet.

**BRITAIN TO HONOR PRIVATE**  
 By the Associated Press.  
 LONDON, May 26.—The body of Captain Charles Fryatt, the British merchant officer executed by the Germans in 1916 will be brought to England and given a burial similar to that of Miss Edith Cavell. This was announced in the house of commons today.

**FOR SALE**  
 Only big popcorn wagon. Fine business. Best town. Act quick. O. F. Smith, Caldwell, Idaho.

## GRAIN MOVEMENT TO BE CONTROLLED

Permit System to Be Used in Regulation of Shipping of Nation's Biggest Yield of Wheat.

By the Associated Press.  
 WASHINGTON, May 26.—Permits for the shipment of grain from interior markets will be used by the railroad administration this year to control the movement of the mammoth harvest which is just beginning.

Problems involved in the transportation of 1,200,000,000 bushels of wheat, the yield estimated by the department of agriculture, have been under consideration for weeks by Director General Tamm.

It was apparent that unless some method of restriction was devised congestion which might paralyze the nation's transportation facilities was possible when the farmers, eager to market their wheat as quickly as possible under the standard price guarantee, began to pour the crop into the arteries of trade. After consultation with leading grain men in the west and officials of the food administration's grain corporation, the director general decided that a permanent system similar to that in effect during the freight congestion of last year would be the best solution of the problem.

Machinery for the operation of the system is being worked out at the railroad administration. Grain control committee will be constituted at each market and perhaps shipping zones

and boards. Although the harvest alight, has started on the southern edge of the wheat belt, the system will not be needed or put into use until threshing begins late next month in the middle west.

## ANOTHER BIG DAY IN NEW PERMITS

Allen Oil Company Secures Right to Build a New Refinery—\$18,150 for Day.

Permission to construct an oil refinery to cost approximately \$15,000,000 was given to the Allen Oil company yesterday by City Clerk Minnick. Added to the permits already secured this month a record has already been established for building permits issued in one month in Twin Falls, according to Mr. Minnick.

Plans for the refinery to be built by the Allen Oil company were first announced in The Chronicle on April 13. Ground was broken the day previous.

A permit was granted to Joseph C. Clark for the construction of a home on lot one, block 2, Senior addition, to cost \$3000. John R. Ault secured a permit to build an addition to his place on Third avenue to cost to \$100.

## IF BACK HURTS USE SALTS FOR KIDNEYS

Don't Less Mean If Kidneys Feel Like Lead or Bladder Bothers.

Most folks forget that the kidneys like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe head-aches, rheumatic twinges, torpid liver, acid stomach, pleopneumonia and all sorts of bladder disorders.

You must simply keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Dr. Sells from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Dr. Sells is harmless! Inexpensive, makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well known local druggist says he "lives in" overcoming kidney trouble while it is only trouble.

## STOCKHOLDERS ASK FOR ACCOUNTING

Receivership Is Urged by Farmers Opposed to Scholtz Crowd Control of Newspaper.

NAMPA, Idaho, May 26.—The Nampa movement in the case of the Non-partisan League newspaper, led by W. G. Scholtz, head of the league in Idaho through designation of A. C. Towley, is for a receivership and accounting in behalf of stockholders in the newspaper company and prominent members of the league who are arrayed against the radicalism of the socialist crowd in charge of the party and the paper, and who have not been satisfied with the manner in which funds collected from the farmers have been at work on this action for some time.

One of the developments, according to an attorney for the protesting stockholders, is that Scholtz executed a plea to run for ten years as one means of acquiring control of the newspaper. Action will be taken to have this note set aside.

There will also be disclosures regarding the terms of the newspaper sold to farmers but, as alleged, never issued.

The revelations bearing on the operations of the leaders of the Non-partisan league have caused further interest among the membership and has tended to confirm the truth of other exposures in North Dakota, and in this state regarding to workings of the Non-partisan league leaders.

## STRIKE IN SYMPATHY

By the Associated Press.  
 LOS ANGELES, Cal., May 26.—Union employees of all crafts working for the Los Angeles Shipbuilding company at San Pedro were called out on a strike today in sympathy with the 600 machinists who struck a week ago.

Union leaders said they expected practically all the six thousand employees of the company to obey the call. The machinists alleged the company discriminated against union men in reducing the working force. The company denied the allegation.

Mr. and Mrs. W. W. Craper of Dulh were among the out of town visitors in Twin Falls yesterday.

## HALF OF FLOORING IS DONE ON HANSEN BRIDGE

Seventeen panels of the flooring on the Hansen bridge were laid last evening, according to R. E. Murray, the engineer in charge. The half cent mark on the laying of the flooring, he passed today. Mr. Murray declared, there being 33 panels to be laid across the entire structure. Five new "Hudson files" arrived Saturday and want to work on the structure yesterday. The bridge will now be rushed rapidly to completion. Mr. Murray accom-

## ASK FARMERS FOR NOTES FOR SECURITY

N.P.F. Leaders Want to Borrow for Promotion Purpose—Farmers Would Pay.

CALDWELL, Idaho, May 26.—It develops that the members of the Non-partisan league are soliciting, and securing notes of farmers in an effort to raise \$50,000 for various promotions. Every farmer who signs one of these notes is given a receipt which states that the note will never have to be paid.

Attorneys who have investigated the case, however, say that if the notes are hypothecated, which seems to be the purpose, the "innocent purchaser" can insist on payment and collect notwithstanding the receipt given to the farmer.

It is understood these notes are to be sold to the proposed Non-partisan league state bank in North Dakota.

The "country banker," a portion of the

## WINNIPEG TO STOP

ing the strike vote, one delegate said it stood about 12,000 in favor, against 1000 opposed.

## VOTE TO STRIKE

ROHINA, Sask., May 26.—The strike vote of the labor council tonight voted unanimously in favor of a strike in sympathy with that in Winnipeg. In progress for more than a week. This action was taken after word was received today that a general strike had gone into effect in Calgary and Edmonton.

## VOTE GENERAL STRIKE

EDMONTON, Alta., May 26.—Thirty-four of the forty-five unions comprising the membership of the local labor council, in their Scholtz action, have tended to confirm the truth of other exposures in North Dakota, and in this state regarding to workings of the Non-partisan league leaders.

The vote was taken by an organized labor, whether affiliated with the council or not, said strike
