

Society THE PAGE Fashions

As food costs continue to mount it is more and more important that the housekeeper and marketer should get down to brass tacks of purchasing and cooking for her family just what they need, in the amounts required—and no more. Neither food nor money must be wasted by careless, unskilled buying or cooking. Certain definite facts are established about the food needs of the family. Each child under ten years must have 1 quart of milk each day. Older children and adults need 1 pint a day. Spend as much for fruits and vegetables as for milk, supplying each person with potatoes and one other vegetable each day. Four ounces of meat each day for each person is an ample allowance. Children need no meat at all, eating eggs and milk instead. Each child under ten should eat at least one egg a day. Be sure to serve at this season plenty of fresh vegetables and fruits at each meal.

Cav. Anna Kline, Pearl Meyer, Grace Roberts and Dale Beer, H. Beer, Lawrence Kline, George Pfeifer and Walter Roberts of Plover, and Miss Blanche Dole of Rupert.

The hostesses served light refreshments at the close of the evening.

The Rotarians gave their weekly luncheon at the Rogerson hotel yesterday noon.

The Wednesday Bridge was delightfully entertained with a \$20 bridge luncheon at the home of Mrs. Charles Durton yesterday afternoon. The table was artistically decorated with beautiful yellow roses. The place cards carried out the yellow of the flowers.

Miss Libbie Jane Tuttle, who left last evening for her home in Albert Lea, Minn., was the guest of the club.

Mrs. L. P. MURPHY won the prize of the day, a beautiful Madeira handkerchief.

Miss Emma Ferguson and Miss Edith Williams were hostesses at a party Tuesday evening. The evening was spent with games and music. There were about 28 young people present. The out-of-town guests were Misses Helen Kline, Marie Arms, Stella Mc-

more than 71,000 teachers—receive less than \$13 a week. The salaries paid are less than the wages of railway porters. The facts were brought out in the annual convention of the National Union of Teachers.

ROOSEVELT MEMORIAL IS GIVEN ITS BIRTH

BOISE, Idaho, May 27.—The inauguration of what is believed will be one of the great commemorative moments of the people was inaugurated for Idaho in Boise on Saturday, when the Roosevelt Memorial association was given birth.

The association was formed for Idaho, with the following officers: F. R. Gooding, Gooding, president; R. H. Sheridan, Boise, vice president; J. H. Gibson, Caldwell, treasurer; W. H. Gibson, Mountain Home, secretary. These gentlemen and Colonel E. M. Walters, of Meridian, constitute the executive committee.

The initial meeting was a short one. A number of gentlemen, generally personal friends of the late Colonel Theodore Roosevelt, had been called together by ex-Governor F. R. Gooding for the purpose of discussing and organizing an association in this state. A national association having been formed,

They Watch For Lochinvar

TIPT WIDENER

LENOX, Mass.—If Fiti Widener heiress to millions, in love with the son of a poor physician? Did Fiti's mother bring her to Lenox with a retinue of servants—most of whom villagers declare are detectives—to prevent a hasty marriage?

Mother Widener says, "Nonsense!" But villagers speculate on the possibility of a Philadelphia Lochinvar coming up to Lenox and carrying Fiti off by night.

Anyhow, a highpowered car is kept waiting with motors running—so tight such an attempt, the natives believe.

Hotel men have a description of the

young man to whom Fiti has lost her heart.

Fiti's governess is said to watch over her by night as well as instruct her by day.

"This talk about Fiti having a romance is pure tommyrot," says "Widener." "She is entirely too young to have affairs of the heart. She is here on account of her health. The air of the Berkshires, it is hoped, will benefit her."

"She is of a jonesome temperament. There are no young people here for her to associate with, and it is natural that she would be accompanied by members of the household."

In spite of having come into possession of thirty million yen, know how to remain dissatisfied, and have decided unanimously to go dry. No wonder that the Japanese, who are incapable of understanding the American ideal, cannot interpret the intervention of the United States in the war otherwise than as being prompted by sinister motives. They are the words of Onoki, Japanese thinker and writer, criticizing his countrymen's suspicion of America.

BUT PERSHING COULDN'T SEE VANDERBILT OFFER

PARIS, May 28.—Here's a new turning story. A New York Vanderbilt manager offered the general by cable a five-figure offer to appear for a series of about war-lectures. No answer. Two weeks later the producer offered: "Five you guaranteed my offer?" And the general replied, "No, but your offer has entertained me."

WILL PAINT TREATY SIGNING LONDON, May 28.—Sir William Orpen, who has painted Foch and Haig and other military heroes and members of the peace conference, will paint the scene when the Germans sign the peace treaty.

ROBINSON'S

Knit Underwear

THIS STORE has the reputation of selling good hosiery at more reasonable prices than other stores, and I feel safe in saying that you can buy knit underwear to better advantage than elsewhere. The quality of the fabric is not all that counts in underwear. The cut, the finish, the comfort to the wearer are most important features, and I give special attention to these points of merit in making selections.

Kayser on Gloves means excellence. Kayser on hosiery means all that is good in hose, and Kayser on underwear means all that one could wish for in the way of quality, fit and durability. I feel quite sure that my stock of Kayser Gloves, Hosiery and Underwear is more extensive and complete than you will find in other stores in this vicinity, and, as usual, you will find my prices reasonable.

Kayser Vests for the regular tall and stout figures.
 Kayser Union Suits for the small woman.
 Kayser Union Suits for the tall woman.

Kayser Union Suits for the stout woman.
 Kayser Union Suits in cotton, lisle and silk.
 Kayser Union Suits with silk Jersey tops.

Popular-Priced Underwear

- Women's Vests, Swiss ribbed at 25 cents.
- Women's Vests, silk ribbon bands, 60 cents.
- Women's Vests, double extra size, lisle, 85 cents.
- Women's Union Suits, band top, 70 cents. (The Three-Piece Style).
- Women's Union-Suits, double extra size, \$1.00.
- Women's Union-Suits, (Nainsook), Athletic style, \$1.75.
- Women's Union Suits, silk, lisle silk jersey top, \$2.48.

Dry Goods

Piece Goods. Goods by the Yard

The rather insistent demand by many of the customers of this store for yard goods has been met by putting in a line of dependable goods of this kind, and as usual the prices are reasonable. To illustrate:

- Crash Toweling, good quality, unbleached 18 Cents
- Percales, yard wide, good grade 19 Cents
- Plaid organdies, 40 inches wide, (regular price) 60 Cents

There has been much ridicule on the part of the purchasing public, as well as men in the wholesale dry goods business, of some of the prices offered in special or bargain sales. As an illustration, in a recent advertisement there was mentioned "80 cents 8-4 bleached sheeting at 60 cents." The particular brand offered was then being sold at wholesale for 39 cents. I am only too glad to sell sheeting that costs but 39 cents for 60 cents in a regular way. (80 cents looks like profiteering). Better buy at regular prices as you need goods.

Edward Robinson

- Blue Seal Vaseline, (10-cent size), 11 cents.
- White Castile Soap, 9 cents, 3 for 25 cents.
- Talcum Powder (3 kinds) 10 cents.
- P. S.—Flags, small, medium and large sizes (For Decoration Day).
- Driving and auto gloves for men and women (including limp and folding gauntlets.)

JAPS DRINK MORE

TOKIO, May 27.—"We have made a nation of one million and a half yen out of the war, and, quashed by this sudden gain, are drinking more deeply than in pre-war days, while in the country across the Pacific the people,

MEETING PRESENT-DAY REQUIREMENTS

The war brought with it many problems—reconstruction will also bring its share. More than ever business interests will be in need of the most reliable and efficient banking service possible. This Institution is ready for the test; our trained organization and complete equipment are designed to meet every legitimate banking requirement. Service is our aim; co-operation our watchword.

Conference Is Cordially Invited

FIRST NATIONAL BANK OF TWIN FALLS TWIN FALLS, IDAHO

ed, first in New York about a month ago, and having for its membership practically every leading republican of national standing, in the east, Mr. Gooding was requested to undertake the organization in Idaho. The national association appreciated the great feeling of mutual confidence and esteem which had grown up between Colonel Roosevelt and ex-Governor Gooding dating from the time of the trial of the Steinberg murderers, and felt Mr. Gooding would give the matter of organization his personal attention.

As explained by the officers of the Roosevelt Memorial association the general plan for campaign calls for the raising of at least \$1,000,000 for monument and other memorial purposes in the various states.

The duties of the state campaign executive committee will be organized and conduct the campaign within the state, to appoint county city and town chairman, state campaign director, publicity committee and director. Some time during June it is proposed to hold a conference of state leaders. Plans for the campaign are still altogether in a formative stage.

Mr. Gooding, before leaving for his home said that he felt Idaho should be foremost in the work of fittingly commemorating the life and career of the great world leader, Theodore Roosevelt, who in the hour of extreme trial, when the honor of the state was in the balance, stood firmly our friend.

"The present purpose of the executive committee," he said, "will be to first appoint a chairman in each county in the state. These appointments will be announced as soon as possible. Under the direction of the committee I am writing some prominent citizens in every county in Idaho enlisting their advice and assistance. Idaho has always made a practice of going through with all worthy undertakings, and I do not doubt her willingness to do so again in so important a matter as the present one."

ROBINSON UPHOLDS NATIONS LEAGUE

Arguments Advanced in Speeches of Sherman and Reed on Floor of Senate.

By the Associated Press. WASHINGTON, May 28.—Supporting the league of nations as a practical step toward the prevention of war, Senator Robinson, democrat of Arkansas, testified in the senate today to many of the objections that have been brought forward by senators against the proposal.

Far from creating a super-government, the speaker declared, the league would be "our agent, not our master." It would not be federated with American tradition, he asserted, and could not involve the United States against its will in foreign quarrels. He denied the validity of constitutional points raised by Senators Sherman, Illinois, democrat, Pennsylvania, and others on the republican side, and replied at length to the contention of Senator Reed, democrat of Missouri that the league would endanger the destiny of the white race. There were few interruptions during the two hour speech, and the exchanges which did occur lacked much of the bitterness which heretofore has characterized the debate.

At adjournment the resolution which brought the subject before the senate, a proposal by Senator Johnson, republican of California, to ask the state department for the complete treaty text—remained the unfinished business and will come up again tomorrow.

Senator Robinson took up in detail the constitutional objections to the

league covenant, quoting precedents to show that the edventan provisions same legal lines as treaties now in in many particulars to follow the force. In reply to Senator Reed's argument that the league would give a majority voice in world affairs to the black, brown, red and yellow races, the Arkansas senator declared Mr. Reed had been blinded by prejudice.

"There is no race question involved," continued Mr. Robinson, "would the senator favor a league composed of white nations alone and thus fore creation of a league of nations composed of other races? The senator's contention is totally unimportant when viewed in connection with the fact that decisions of the league must be unanimous."

WILL LAUNCH FIRST BRICK SHIP AT OAKLAND YARDS

By the Associated Press. OAKLAND, Cal., May 28.—What is known as the first "brick" ship in the world, and the largest of the concrete type ever constructed in it, is being launched tomorrow under direction of the United States shipping board. It differs from previously constructed concrete ships in that a mixture of torn cotta, or brick, pulverized, is mixed in the concrete to lessen its weight.

An oil tanker, the vessel to be christened the Palo Alto, is 7,500 tons deadweight, 415 feet long, and has many compartments for fuel carrying of 5,400 tons capacity. The side launching system will be used.

BUSHRANGER SAYS HE'S PAID IN WAR SERVICE FOR OUBES

By the Associated Press. SYDNEY, Australia, May 28.—Dan Kelly, bushranger, claims immunity from punishment for his lawless deeds, Kelly was believed to have been killed years ago when his gang was rounded up in a shanty on the border of Victoria and New South Wales. But he has turned up at Melbeng and says he escaped to India, fought in the South African war under another name and has his service paid for his misdeeds. Dan and his brother Ned and two other desperados terrorized the border land for years. Ned wore a suit of homemade armor and was known as the ironed bushranger. He was wounded, captured, tried, convicted and hanged.

BULLET PROOF TANK FOR PLANES INVENTED

LONDON, May 28.—A bullet proof tank for airplanes is the invention of a Canadian officer, Lieutenant J. Zimber. Where a bullet enters a gas tank the hole is small, but where it passes out it makes a huge opening. A series of "buffle plates" to stop the path of the bullet and a "thin" metal cone with a quarter-inch rubber coating which sprines out with the passing of the bullet, and back into shape closing the opening, is the substance of the invention.

SHOCK RESTORES SPEECH

LONDON, May 28.—Here's one man to whom being struck by a auto was good fortune. He was hit by a lancia carrying the Bishop of Wakefield. And when he had been taken home and his injuries ceased he found the bishop declaring "you have done me a good turn. I was dumb before the accident."

BRICK NEEDED IN BRITAIN

LONDON, May 28.—Nearly ten billion bricks are needed for government housing schemes and private building in Britain in the next two years. The average annual output before the war was less than three billion.

YOUR CHILDREN'S HEALTH SHOULD BE PROTECTED—SEE THAT YOUR PLUMBING IS INSPECTED.

If you want to make certain that your children's health is properly protected and that there are no unwelcome disease germs lurking in your home ask us to look over your PLUMBING and inspect the drainage of your home. It's a health measure you should not neglect.

THE GREAT AMERICAN HOME

SLAYER IS HANGED BY MISSOURI MOB

Man Who Confessed to Killing Sheriff Victim of Judge Lynch—Taken From Court Room.

By the Associated Press. LAMAR, Mo., May 28.—Jay Lynch, confessed slayer of Sheriff John Harlow of Barton county, and the sheriff, was hanged today by a mob which took him from the hands of officers in the court house and lynched him in the yard of the building. Lynch had been taken to the court house and had been given a sentence of life imprisonment by Judge D. G. Thurman. The murder of which he was convicted took place on March 3.

Lynch had been brought here from Butler, Mo., where he has been in confinement since being apprehended at La Junta, Colo., several weeks ago. After sentence was passed Judge Thurman, fearing violence, had the prisoner taken into his private office. About 600 persons were in the courtroom. Lynch was guarded by seven officers. Shortly after 2 o'clock, 24 men came into the private office of the judge, overpowered the guards and putting a rope around Lynch's neck, dragged him into the yard of the court house and hanged him.

The courtyard was filled at the time of the hanging by persons who had come out of the courtroom. Lynch's wife, baby, mother and sister were in the judge's office when he was taken out by the mob. His handcuffs had been removed so that he could kiss his baby and he had just given the child back to its mother when the men entered.

Lamar was quiet tonight and a few persons were on the streets. That Lynch came to his death at the "hands of parties unknown" was the verdict returned by the coroner's jury.

No warrants had been issued this evening, the authorities said. None of those who "participated" in the hanging had been recognized, according to the coroner. Lynch's body will be taken to Joplin, Mo., for burial. Lynch's wife and mother were removed from the mob by 24 authorities immediately after the hanging. The wife was said to be in a serious condition as a result of the shock. Neither witnessed the hanging. Lynch's body swung in the courtyard for two hours before being cut down. He was 28 years old.

TURKS REFUSE BEFORE GREEKS

By the Associated Press. PARIS, May 28.—Information has been received in French circles that Greek troops are advancing from Smyrna toward Magnesia and Aidin, about 80 miles to the southeast, the Turks refusing before them. The statement is made by the Greeks that their purpose is to restore order and to take a census.

ROME, May 28.—Caproni, Italy's builder of airplanes, will make no attempt to cross the Atlantic this year, it is said, but will cross from Ireland to Newfoundland next year in a new machine he is building. Caproni is a believer in big planes and he is building one four times as large as the present greatest, which is a 700-horsepower, tri-plane.

WILL INVESTIGATE WAR EXPENDITURES

Resolution Calling for Probe Com. Initiated of F. I. C. Introduced by House Republicans.

By the Associated Press. WASHINGTON, May 28.—(Special) Early in their first move in congress today began hearing of the proposed investigations of war expenditures. A resolution, approved by party leaders, was introduced by Representative Grafham, Illinois, calling for the appointment by Speaker Gillett of a special committee of fifteen members "to fully investigate all contracts and expenditures made by the war department or under its directions during the present war."

Early action on the measure is planned by the republicans. Party leaders said the resolution merely contemplated enlargement of the standing house committee on war department expenditures consisting of four republicans and two democrats and headed by Mr. Graham. "Provision for the larger committee, Floor Leader Mendell said, will be made because there are a number of branches in the department which it may be deemed wise to examine separately" through sub-committees.

The purpose of the investigation, as far as the committee that will undertake work of that character, added Mr. Mendell, "is accurately stated in the legislative program promulgated by the republican conference at the beginning of this congress as such investigations as to inform the people of war expenditures and serve the public interest."

The resolution was referred to the rules committee, headed by Representative Campbell, Kansas, who said he anticipated that the resolution would

be called to the attention of his committee next week. Party leaders intimated the investigation might assume a wider scope than inquiry merely into the war department. It was said that the committee might later investigate expenditures of the \$100,000,000 war fund given the president for discretionary disposal and also for an investigation of the war risk insurance bureau.

HAWKERS BODY IS FOUND IN WATERS OF LAKE OCHEDA

By the Associated Press. WORTHINGTON, Minn., May 28.—The body of C. E. Kinack, vice president of the German Savings Bank of Harlow, Iowa, was found four miles southeast of Worthington in the water of Lake Ocheda, a short distance from shore, today. It is believed Kinack's automobile was met by speeders on the narrow grade and turned out to avoid them. The bank executive gave way under his machine, throwing him into the lake.

BODY IS DECAPITATED AND SLICED INTO FIVE SHREDS

By the Associated Press. STOUX CITY, Ia., May 28.—The body of Mike Chaponis, a machine operator, was found decapitated and partly sliced into shreds in a fifteen-foot cylindrical churn used in the manufacture of fertilizer at the Armour Packing company's plant. A man discovered Chaponis' head on the floor. The tank had to be taken apart before the body could be removed.

WILL ENTER FEDERATION

By the Associated Press. ST. LOUIS, May 28.—The Order of Railway Conductors, in triannual convention here authorized its board of directors today to take steps toward affiliating with the American Federation of Labor. Approximately 15,000 railroad men are members of the order. It was said.

GERMAN AIR MAILS NOW TO BE EXTENDED

By the Associated Press. BERLIN, Germany, May 28.—Wannemunde is picked as a starting point for German overland traffic by plane. It is also to be a terminal for passenger traffic and post from Scandinavian countries. Air post already carried on between Berlin, Warsaw and Leipzig is to be extended to include Wannemunde, Hanover, Westphalia, Breslau and Ulmstead in April.

Summer 24, 1919 of Portland will leave this afternoon for Arkansas where he will spend the summer months. He has been visiting Mr. and Mrs. Frank Coleman.

BOLSHEVISM IN THE SCHOOLS

There is a carefully laid scheme on foot to organize the young eighth grade and high school boys of this country into clubs for the study of socialist and Bolsheviki doctrines.

This announcement comes with authority from the principal of a great high school.

It is known that some serious effort was being made in the schools of New York, but that it is discontinued throughout the country is less well understood.

This information should arouse the alarm and interest of every parent and instructor, and a program of Americanism, definite, interesting and inspiring, should be undertaken in every community.

Let them study socialism and Bolshevism if they will, but let them do it under auspices that will endure their understanding the mischievous fallacies and errors of those systems.

BRASIL AND GERMAN TRADE.

An interesting sidelight on the much debated German trade invasion of South America comes in the report of an interview recently held with Dr. Passon, president-elect of Brazil.

Dr. Passon has been making a tour of France and Belgium, and has been greatly impressed with the ruin wrought by Germany to the industries of those countries, especially Belgium, feeling that to both countries restitution in kind for destroyed and stolen machinery should be made by Germany.

"There is great hostility now between Brazil and Germany," says the doctor, "and my greatest desire is to extend economic and political relations with the allies, to carry out this policy will be one of the tasks of my administration. We will no longer deal with Hamburg, selecting Antwerp in its place."

And so it goes, Germany resenting, bitterly the well deserved peace terms imposed by the allies, will find as time goes on, everywhere she turns, the inevitable reaction to her brutal method of waging war. Lies are not the only ill birds that come home to roost.

THE ZOOL OF N.

Every league of nations has its troubles. The New York zoo is no exception. The yellow footed Rock Wallaby does not like the Tasmanian Black Phalanger, and the Negrogor, who is a white stork, detests the Pitta, who screeches about woman's rights from the tree over his head.

The Brazilian porcupine foists his 999 points on the Waterhaws from British-Guland, and the Jabiru says he will never sign the peace treaty until the spotted leopard agrees to change some of his spots, which the leopard refuses to do. And there you are.

A REAL TREASURE ISLAND.

An island all their own is the proud possession of the Boy Scouts of Philadelphia, situated in the beautiful Delaware river, surrounded by mountainous country well adapted to camp-

ing and tramping. It bids fair to be come the Boy's Own Paradise.

The property has been given to the Boy Scout council to be held in perpetuity for the association. The boys have already renamed the island, calling it "Treasure Island," after Robert Louis Stevenson's immortal story. These generations of boys will learn the delights of life in the open, while those not already familiar with the greatest adventure stories in the world will probably become so, as they learn the reasons for the island's name.

The week from June 6 to 14 is set aside for a national observance of Boy Scout week, with the special end in view of showing recognition of the faithful services of the boys during war time, and to extend the membership and the work of the organization everywhere.

The community which, by such a gift as Treasure Island, shows its appreciation of the Boy Scout movement and its understanding of boyish hearts, will profit more than the boys will, which is saying a good deal.

A VACATION MILITARY CAMP.

The war may be over, and peace established for all time, but there are still men in America who feel that military training and camp life are valuable to civilians though he may never be called upon for war service.

In answer to a popular demand for training of this sort, military camps are being organized in various localities, and to them men and boys of military nature will soon like themselves.

One such camp, called "Camp Roosevelt," is to be located at Lake Harbor on Lake Michigan. Boys from 12 to 21 and men under 45 will be admitted. The camp is to be under the supervision of the Chicago Board of Education.

War, or no war, the out-of-door life, the habit of promptness, or military precision, the physical exercises, all are good for any boy or man. The more men who take vacations of this type, the more active, able-bodied, clear-thinking citizens we shall have.

BLOCKADE IS

(Continued From Page One.)

equal right to carry on the administration of her colonies in accordance with the principles of the League of Nations, and in given circumstances as its mandatory.

Point five in President Wilson's 14 points for peace was as follows: "Free, open minded and absolutely impartial adjustment of all colonial claims, based upon a strict observance of the principles that in determining such adjustments of sovereignty the interests of the population concerned must have equal weight with the equitable claims of the government whose title is to be determined."

CONSIDER PROPERTY RIGHTS. By the Associated Press. PARIS, May 28.—The subject of German property in the United States and American property in Germany is receiving the careful attention of the experts preparing to act on an exchange of notes determining the situation.

German property in the United States, outside of ships, is estimated at \$450,000,000. American property in Germany is estimated at about \$150,000,000. The Germans apparently are disposed to return American property if the United States will adopt a similar course.

The merchant ships in American ports undoubtedly will be retained. It is proposed now to purchase the ships, the purchase price being utilized by Germany to meet reparations due the allies.

Vast Undeveloped Regions of Earth Brought Much Nearer to Civilization

By RICHARD SPILLANE, Writer on Economic, Business and Financial Topics.

Wonder crowds on wonder in this age, the most vivid, tragic and adventurous of all time. Now a new marvel unfolds in the conquest of the Atlantic by a ship of the air, synchronizing with the conquest of the same sea by the steam-marking journey.

Today the airship's flight thrills. A little later it will not. An oft-told story does not carry its first rich charm. Within a year or two to fly the Atlantic will not be the globe-appalling act it is today.

Soon, very soon the interest will be commercial, almost wholly. Will the airship develop into a big industry? Will it play a large part in transportation? What may we expect in reason and how soon? Will America lead in this field or is she destined to be outstripped by one of the Europeans?

These are some of the questions likely to be asked. It is difficult to plot a course for or speak with assurance of an industry that is new. One thing certain, however, is that those best informed regarding the airship consider its field much narrower than is imagined generally. Also, it is evident that what large development there is in the field will be due mostly to American enterprise.

Immediately with the close of the war there practically was an abandonment of airship development in Europe. In England Lord Weir advised all firms having any connection with airplane making to get out of it as quietly as possible. His advice was followed despite the fact that many manufacturers thought aviation had large commercial possibilities.

The same general statement applies to France and Italy. As to Germany, she is out of consideration.

It is certain the airship will become a regular vehicle for passengers and high class freight across the Atlantic. This may be within a year or two, but the passenger traffic will be limited by reason of the high rates and the hazards. We are likely to have many tragedies to mark the way, just as there were in the early days of the railroad and the automobile with the kerosene lamp.

Anyone who has dreams of flying to and from business in the city and his home in the suburbs, or say 25 or 30 miles out—traveling in the air as he does now in auto—is in for disillusionment. The use of the airship for a short journey is too costly. Its realm is distance.

Plying will become just as safe as railroad travel some time. Today it is not so hazardous as supposed. As indicated by insurance rates and statistics as to flights it is safe enough. Assuredly it is fast enough, but the time it saves on anything but long journeys is offset by the many and long delays at the starting and landing points.

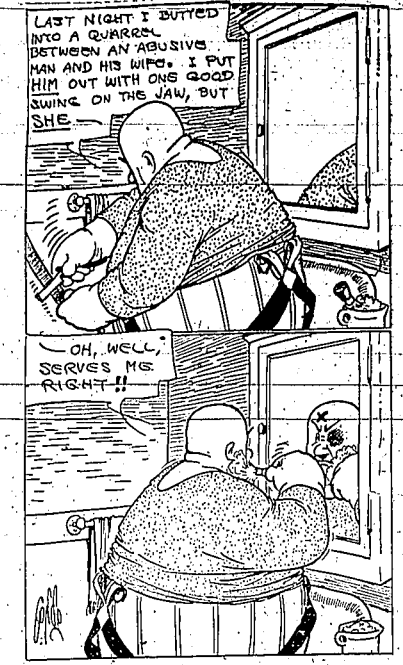

Where the airship is likely to play a really great part is in fields where now it is not considered commercially—Asia, Africa, South America, Australia. Today it is a journey of three to four weeks from New York to Rio, San Paulo and Buenos Aires or Montevideo.

It would be only a few days and there is no such expense of sea to cross as in spanning the Atlantic, for the entrance to the Gulf of Mexico and the Caribbean sea is dotted with islands.

In the vast stretches of South America, Africa, Asia, the aircraft have a clear field and infinitely greater scope than in crowded places like France, Great Britain, Germany and the eastern part of the United States. In the development of overseas potentialities it will do much, but far greater will be its part in drawing all the world closer together. This is its big function.

It is not in drawing the crowded nations closer—they are too close for comfort now in many cases—but in drawing the vast undeveloped regions of the earth so near as to make them real to all the world. Distance is nothing but time. If South Africa is made only four days from America, or Asia three, or the Argentine three, they inevitably will come as much in communion with New York, London, St. Louis, San Francisco and Paris as New York and London are today. What this means in the field of trade is something to fire the imagination.

Outbursts of Everett True

REVOLUTIONS

Continued From Page One.

hus City, where an attack is confidently expected, that the governor of the state has issued an order for all the residents of the city to store all water possible in their homes.

Villa is known to have captured 1,000 rifles and a large quantity of ammunition at Parral on May 8 and to have taken 20,000 rounds of rifle ammunition at Villa Allende in the same district.

Train service between Chihuahua City and Juarez except for military service, has been suspended and the wires were closed to commercial messages today.

BARRS MEX TROOPS. NOGALLES, Ariz., May 28.—The action of Governor Hobbs of Texas in withdrawing his permission for armed Mexican soldiers to cross Texas en route from Sonora to Juarez to cope with Francisco Villa's bands in Chihuahua, has nullified state department arrangements for transportation of the Mexican troops. This statement was made today by Harry Berner, special deputy collector of customs here.

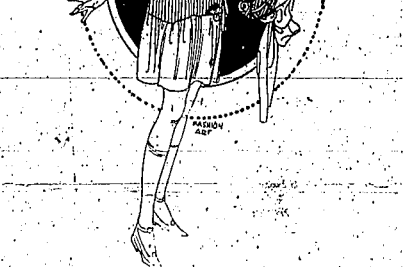

Berner said that he had received a telegram from the treasury department authorizing him to permit 4,000 Mexican soldiers to be passed on bond from Nogales, Sonora, through the United States to Juarez, proving the governors of Arizona, New Mexico and Texas were agreeable.

Following the action of Governor Hobbs in withdrawing Texas acquiescence Berner said he had telegraphed the treasury department for further instructions. He added that

IDAHO WINS.

SPokane, Wash., May 28.—The University of Idaho today was declared the winner of the Northwest collegiate conference track meet at Pullman, Wash., last Saturday, according to an announcement of George Varnell, referee of the meet, who received from L. C. Owen Jr., secretary of the Intercollegiate Association of Amateur Athletics of America a ruling upholding Idaho's protest of the award of second place in the relay race to Washington State college.

Fashions For Flower Girls

Little maids whose big sisters or young lady cousins have invited them to "throw the bridal path with June roses are all agog these days over the subject of the gown. This delectable frock for a flower girl is fashioned Frenchly of pure chiffon, accented pleated over white silk and deep hem and ruffles on the sleeves are of pale rose taffeta. The flower bands are French silk roses, buds in pink and lavender with a knot of the flowers reserved to continue a bobbing curl.

TRIPLES ROUTE PITCHER VAUGHN

Boston Braves Beat Cubs in Spirited Game—Chicagoal-Consue-Back Against Philadelphia.

BOSTON, May 28.—Three triple-rouned Pitcher Vaughn today and Boston defeated Chicago 4 to 0. Vaughn was removed in the sixth when 'George's' single followed 'Pug's' three bagger. Alexander was effective until relieved to make way for a pinch hitter.

CINCINNATI—PHILADELPHIA. PHILADELPHIA, May 28.—Cincinnati bunched six hits with a pass and an error on Smith in the fifth inning, scoring five runs today and winning from Philadelphia 6 to 5. In the sixth Cravath hit a home run into the bleachers. Score: R. H. E. Cincinnati 4 3 1 Philadelphia 5 9 1

PITTSBURGH—NEW YORK. NEW YORK, May 28.—Aided by four pinch hitters Pittsburgh tied the score by two runs in the ninth inning and defeating New York in the tenth by a score of 6 to 2. It was only New York's third defeat by a western team. The Giants closed the first inter-sectional series with ten victories. Score: R. H. E. Pittsburgh 6 14 1 New York 2 9 0

ST LOUIS 2—BROOKLYN 6. BROOKLYN, May 28.—St. Louis made it two out of three in the eighth today winning a 11-inning battle by a score of 7 to 5. It was Prof'or's first defeat in eight starts. Heathcote's batting and Myer's fielding featured.

COAST LEAGUE: At Los Angeles: Vernon 1 6 0 Los Angeles 4 9 1 Batteries: Prommie, Pleneran and Brooks; Perlica and Boles. At Salt Lake City: Sacramento 8 13 2 Salt Lake 9 16 1 Batteries: Fromling, McKenny, Gardner and Fisher; Gould, Dale and Byler. At Seattle: Portland 2 4 1 Seattle 5 9 0 Batteries: Biggs and Schanz; Panzer and Baker. At San Francisco: Oakland 3 9 3 San Francisco 4 15 1 Batteries: Steen and Miler; Cough and McKee.

BAN BOXING TO PREVENT DEMISE FROM GOING STALE. By The Associated Press. TOLEDO, O., May 28.—There will be Jack Dempsey next week as a result of a decision reached tonight by Manager Jack Kearns and Jimmy Donahoe, chief trainer. They decided to prohibit work with gloves because of the danger of Dempsey going stale.

COURT OF APPEALS WILL HEAR 'WAR BEER' CASES. By The Associated Press. NEW YORK, May 28.—Judge Henry C. Ward of the United States circuit court of appeals today called an extraordinary session of the court for June 17 to hear the government's appeal from the decision of Federal Judge Mayer temporarily restraining government officials from averaging the war time prohibition law against the Jacob Hoffman Brewing company pending a decision as to whether beer containing a maximum of 2.75 per cent of alcohol is intoxicating.

First Blow With an Ax

The first blow in the Willard-Dempsey fight is struck with an ax by Rex Rickard. It was on the stake that marks the beginning of the big brawl at Toledo where the fight will be held. Frank B. Flourey, Rickard's partner, holds the stake while Rickard strikes it.

TWIN FALLS BOYS START, CABLEGRAM

Word Received by W. L. Doss From Dunno-Moon-Indicates Departure.

"On Way Home"

These three terse words from Corporal Dunno Moon, headquarters company, 146th field artillery, brought joy to the hearts of Mr. and Mrs. W. L. Doss last evening. Corporal Moon is a brother of Mrs. Doss and has been mail clerk for the 146th ever since it left the United States.

Recently a number of trucks were sent into the Colby section by General Pershing, according to the Long Range Sniper, the official paper of the 66th brigade of which the 146th was a part, and it was reported that these trucks would be "going out" within a short time and were expected in taking the former Idaho boys back to France and then home.

CHALLENGING THE VIEW, Harrison Robinson, representing the Pacific builders, said that it would cost the board \$2 a deadweight ton to cancel the Pacific contract, with no gain, while if the ships were completed at a contract cost of \$189 per ton, the board could sell the resulting vessels at at least \$118 a ton. Costs of construction at Hog Island, Mr. Robinson asserted, were averaging \$256 per ton, which figure Chairman Hurley questioned, though adding that he intended "no defense of Hog Island as it is simply on our hands".

HURLEY TO PROBE SHIP CONTRACTS

Will Ascertain If Injusticed Has Been Done Builders At Pacific Points—Means Delegation.

By The Associated Press. WASHINGTON, May 28.—Pacific coast shipbuilders' obtained from Chairman Hurley of the shipping board a promise to reconsider cancellation of steel ship contracts in their yards, with a view to relinquishing or substituting new work if injustice had been done.

Representatives of 18 yards, together with senators and congressmen from California, Washington and Oregon, told the board in open conference that the western yards had built more than half the tonnage during the war and at a lower cost than did the Atlantic or Gulf coast yards, but had been rewarded by having a larger proportion of their contracts taken away after the armistice was signed.

BASEBALL

ARE TO CELEBRATE BRIDGES OPENING

Will Ask Judge Hansen to Select Party to Drive First Car Over Structure.

Citizens of the Hansen and Eden sections are making suggestions for a big celebration at the time of the completion of the Hansen bridge. The board of county commissioners of Twin Falls county will be asked to appoint a committee shortly to make plans for the celebration.

As a feature of the celebration it is planned to have Judge Lawrence Hanson, father of the Hansen bridge, with a party of friends, to be in the first automobile that is driven across the bridge.

"NC-4 WILL NOT START TOMORROW" Cable Message From 'Read' Leaves Naval Officials In Doubt As to Reason for Change.

By The Associated Press. WASHINGTON, May 28.—The American naval airplane NC-4 will not start tomorrow on the final leg of the flight from Rockaway Beach, Long Island, to Plymouth, England, after the report that it was informed late tonight to depart from the airbase, Portugal, where Lieutenant Commander A. C. Read and his crew of the NC-4 are awaiting favorable conditions for resumption of the overseas trip.

The dispatch which was filed at 9:10 p. m. Lisbon today, and was received by the cable did not explain the reason which impelled Commander Read to postpone beginning the last leg of the flight. The message merely said: "NC-4 will not start tomorrow."

Communication with Lisbon today, and through the American wireless station near Brest, is subject to considerable delay and it was believed that no further word would be received from the American flyers before tomorrow.

First Concert June 5. Announcement was made yesterday that the first of the summer's band concerts will be given at the theatre on June 5. Fifteen concerts will be given during the summer.

GRIEVE IS ASKED TO TRY IT AGAIN

Insulting Insults, Hawker's Navigator to Pilot His Martyrship in Fight For Flight Across Ocean.

ST. JOHN'S, N. F., May 28.—Lieutenant Commander Mackenzie Grieve, rescued in mid-ocean with Harry O. Hawker last week, has been invited by Frederick P. Rayburn, British minister, to "try it again" this time as navigator of the Martyrship plane to be piloted by the Australian pilot.

Captain Charles W. Morgan, originally selected as Rayburn's navigator, was seriously injured when the Martyrship plummeted in nose into the surf while attempting to "hop off" with Hawker's Sopwith, that physicians forbade him to think further of flying.

Rayburn said he hoped the commander would be able to accept, but that in any event he was certain of the services of a navigator. The number of British expeditions with representative crews, comprising a transatlantic flight, was increased today to five with the arrival of Lieutenant W. F. Williams, R. A. F. Lieutenant Williams came here to select an airplane for an Alliance mission.

Captain J. Errol Boyd, Canadian aviator, who although shot down by a German anti-aircraft gun while flying over Zebruggen, managed to avoid capture by piloting his plane into Dutch territory, where he was interned October 3, 1915, announced himself here today as an entrant in the race for the London Daily Mail £15,000 non-stop trans-Atlantic flight prize.

WOULD RUSH

The secretary said the department would have time to study carefully the situation and arrive at a definite conclusion as to the country's needs.

HEAVY-MEAT EATERS HAVE SLOW KIDNEYS

Man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidneys, becomes overworked, from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, fragments of masses or attended by a sensation of scaling, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will be fine.

TWIT BORAH FOR HIS VOTE FOR PENROSE

Democrats—Compel—Idaho Senator to Vote in Open.

WARREN ALSO WINS BY PROGRESSIVE VOTE

Women Suffrage Amendment to Be Expedited in Upper House—Organization Perfected.

By the Associated Press.
 WASHINGTON, May 28.—After three hours of sharp and bitter conflict with the democrats the republicans completed organization of the senate today by electing chairman and majorities of all important committees, including Senators Penrose of Pennsylvania and Warren of Wyoming, as heads of the finance and appropriations committees, respectively.

The republican progressives did not carry their opposition to Senators Penrose and Warren to the senate floor, voting solidly against a democratic motion designed to oust Senator Penrose as chairman of the finance committee.

Smoke Out Borah.
 All the republican committee nominations were adopted by an overwhelming majority of 49 to 45, the republicans being successful in preventing separate votes on special chairmanships sought by many parliamentary moves of the democrats, apparently in an effort to force a record vote of the progressive republicans. The democrats, however, succeeded in forcing a vote on the designation of "chairman" by the finance committee after Mr. Penrose's name. The motion was tabled 48 to 45, with Senator Borah, Idaho, and all other progressive republicans voting with the republicans.

After the republican committee nominations had been adopted, the democratic arrangements were approved without objection and the new committee chairman immediately outlined legislative program, arranging to expedite the woman suffrage amendment and other affairs. The interstate commerce commission will meet tomorrow to take up the bill repealing government control of telegraphs, telephones and cables and the labor committee will begin work on vocational education bills.

Progresses Are Swift.
 The republican progressives were twitted during the day's debate from the democratic side for their action on the committee votes and the democrats were criticized by the republicans obstructing the republican organization program. Senator Thomas, democrat, of Colorado, declared the results showed "the republican 'old guard' once more in the saddle," while **Republican Leader Lodge** said the democrats in appointing the majority committee organization had "violated courtesy and good manners."

Senator Fall, republican, of New Mexico, charged the democrats had made overture "to make a trade" and leave the progressives "in the lurch," but this was denied by Senator Pittman, democrat, of Nevada.

Ready for Suffrage.
 WASHINGTON, May 28.—The house resolution proposing submission of a woman suffrage constitutional amendment to the states was reported favorably to the senate late today and Chairman Watson of the woman suffrage committee, gave notice that he would call up the resolution for debate next Monday. A final vote is expected soon after.

Court News

ACTS ON DEMURRERS.
 Judge W. A. Babeck yesterday ruled on several demurrers that were brought before him. The demurrer of the Brown Seed company to the action brought by J. H. Doytaylor, was overruled. That of the county board to the action brought by Nathan Hayshurst was continued. The Western Union Telegraph company withdrew its demurrer to the action brought against it by John Finke.

TRADE JOURNAL COMPANY.
 Suit was filed in the district court yesterday by C. V. Mercer and Jesse M. Armstrong against the Merchants Trade Journal company for \$2463.50.

GO TO MINDOKO MEETING.
 C. C. Sigens, clerk of Hansen bridge commission, said Prosecuting Attorney Stephan and Attorney Shad Hodgins went to Rupert yesterday to attend a meeting of the county commissioners of Mindoko county. The stay was preliminary to the filing of an action against Mindoko county

for \$1000, which is the amount pledged by that county for the construction of the Hansen bridge.

FILE CROSS-COMPLAINT.
 The Twin Falls Canal company yesterday filed answer and cross-complaint to the action brought against it, Carl J. Hahn, Atlanta Hahn, and The Twin Falls Bank & Trust company by H. A. McCormick. The suit involves certain water rights.

WOULD TAKE CASE HIGHER.
 Notification was made yesterday by attorneys for Frank B. Damman, Mary Alice Damman and Edwin Damman that an effort will be made to take the case brought against them by the Twin Falls Canal company from the jurisdiction of the district court to the federal court at Boise.

GOMEZ IS ARRAIGNED.
 Joe Gomez was arraigned in prolate court yesterday on a charge of petit larceny. The man was originally charged with burglary, but on motion of Prosecutor Attorney Stephen this action was changed to the misdemeanor charge.

Miss Libbie Jane Tuttle left evening for her home at Albert Lea, Minn.

Aviator Makes Height Record Of 31,000 Feet

PARIS, May 28.—Adjutant, Casale, a French aviator today in a flight for altitude ascended 31,000 feet. This constitutes a world's record.

A former altitude record was made by Captain Lang of the British army, in January of the present year when he flew to a height of 30,500 feet. Lang carried one passenger.

DEMAND FOR FARM LABOR RELIEVES THE SITUATION

WASHINGTON, May 28.—A growing demand for farm labor is decreasing the amount of unemployment over the country, the United States employment service reported, tonight in presenting a summary for the week ending May 24, showing 227,426 persons discharged as unemployed, against 247,116 during the previous week. Over half the unemployed were reported in New York city.

DoB, the middle west farming states and the south reported need of farm laborers, while on the Pacific coast Los Angeles and San Francisco reported a surplus.

A BIG HIT.
 Those who saw Madeline Travers in Gambling in Souls at the Idaho theater say it is one of the big production hits of the year.

Madeline Travers is one of the new stars of filmland and is said to be the most beautiful woman on the movie stage.

Gambling in Souls is a remarkably strong play-vehicle for her ability. Really, the picture is especially good.

One More Step to the Promised Land

UNINTERRUPTED MAKE PLANS FOR CAMPAIGN

Candidacies Are Not Discussed Pending Statement From Wilson.

HORN BROOK LOSES COMMITTEE CONTEST

Chamberlain Man Is Seated By National Committee—Treaty Looks Like Issue.

By the Associated Press.
 CHICAGO, May 28.—Describing the republican party as an organization which "complains and moves backward" and the peace treaty as the "league of nations covenant as the greatest document of human liberty ever prepared," Chairman Homer S. Cummings of the democratic national committee today sounded the keynote for an aggressive presidential campaign in 1920.

Party leaders declared they welcomed the opportunity to make the peace treaty and the league of nations covenant the issue in the forthcoming fight and expressed confidence of victory.

Waiting for Wilson.
 Until President Wilson definitely announces his attitude toward a third term party chieftains say there will be no serious discussion of candidates.

The committee adopted a resolution congratulating President Wilson on his work at Paris in drafting the treaty of peace and the league of nations covenant and calling on the United States senate to promptly ratify the documents.

The resolution was offered by J. H. Moris, national committeeman from Utah.

"No the democratic national committee recognizing the splendid service being rendered by President Wilson in behalf of a just and enduring peace, extend to him the heartfelt good wishes and congratulations, and in his person, that we do hereby record ourselves in favor of the prompt ratification by the senate of the United States of the treaty of peace, including the covenant of the league of nations."

Will Accept Issue.
 J. Bruce Kramer of Montana, vice chairman of the committee, said the democrats would welcome the opportunity to make the peace treaty and the league of nations covenant the issue in the next presidential campaign.

The democratic party had fulfilled all its pre-election pledges. "We welcomed the advent of women into party politics and said that the votes of women in the western suffrage states

were largely responsible for democratic success in 1916.

Mr. Percy V. Pennybacker of Texas, speaking for the woman associate members of the committee said the democratic congress made a blunder when it failed to adopt the woman's suffrage constitutional amendment and that the committee should admit it. She said if the country was to remain democratic the help of the women was needed.

Hornbrook Loses Fight.
 The committee seated Dr. J. W. Morrow of Portland as committeeman from Oregon. Newton McCoy presented the proxy of W. H. Hornbrook, who resigned as committeeman several months ago and protested the seating of Dr. Morrow on the ground that the resigning of the state committee at which Morrow was chosen was not legally called, but the claim was not recognized. This was the only contest.

The committee is considering holding its next meeting in January, 1920, at San Francisco.

Joseph E. Tammity, secretary to

President Wilson, A. Mitchell Palmer, United States attorney general, and Franklin D. Roosevelt, assistant secretary of the navy, will arrive tomorrow to attend the closing sessions of the committee.

ARMY PROMOTION BE BY SELECTION

Baker Would Provide for Close System for Advancement of Officers Under Peace.

By the Associated Press.
 WASHINGTON, May 28.—Promotion by selection for officers of the peacetime army through a system even more radical than that now in effect in the navy is under consideration by Secretary Baker with a view to incorporation in the army bill to be presented to the present congress.

Special boards, appointed to com-

pile from the efficiency reports of officers master lists which would be used in the selection of officers for promotion, already have made their final reports in many cases and the plan is practically ready for adoption as soon as it has been given legislative approval.

These boards will submit to General March recommendations for the final classification of all officers in the regular army.

All officers will be listed in three classes:

First, those found qualified for higher rank regardless of their position on the permanent list; second, those qualified for promotion because of seniority and in the final category, officers disqualified as a result of the low grades indicated on their efficiency records.

Officers in the first class would be jumped into higher positions over the heads of any number of seniors who are placed in the second and third classes, and officers in the second class also would be promoted to the higher rank for which they are qualified. The three lists would include those who, in the opinion of the department, should be eliminated.

The proposal that promotions in the army shall hereafter be by selection is regarded as the only important personnel feature which the war department will attempt to insert in the new army bill. With respect to the war department itself, however, it is considered certain that the bill will include provisions designed to perpetuate the new organization which have grown out of the experience of the great war.

FUME QUESTION HAS BEEN SETTLED

Report Comes Out In Connection With Preparations of Treaty to Be Routed Austria.

By the Associated Press.
 PARIS, May 28.—The question of Fiume and the southern territorial boundaries of Austria has been settled by the allied council, according to the best information here this evening.

An agreement also has been reached on the general Adriatic questions, except regarding economic arrangements. Thus all territorial questions will be presented to the Austrians Friday in the proposed terms.

The matter of reparations will be considered later.

At Italian headquarters it was declared tonight the settlement of the Fiume question was not yet definite.

A plenary session of the peace conference will be held tomorrow afternoon in the foreign office. The terms of the Austrian treaty will then be communicated to the representatives of the countries which broke relations with Austria.

The council of four today heard the Luxembourg minister and Paul Hymans, Belgian minister of foreign affairs. The conference, presumably, was with regard to the relations of the grand duchy and Belgium.
