

TWIN FALLS CHRONICLE

VOLUME IX, NUMBER 54.

TWIN FALLS, IDAHO, FRIDAY, MORNING, MAY 30, 1919. WEEKLY EDITION

PRICE FIVE CENTS

U. S. IS READY TO RUSH FOOD TO PETROGRAD

Capture of City to Be Followed by Cargoes of Supplies.

STATION AMERICANS AT VANTAGE POINTS

Churchill Says British Will Be Able to Withdraw Troops From Russia Soon.

By The Associated Press. PARIS, May 29.—American officers already are stationed at various Baltic ports in readiness to rush food into Petrograd, according to a statement issued by the American food commission tonight.

BRITISH TO WITHDRAW

LONDON, May 29.—Viscount Spencer Churchill, secretary of war, speaking in the house of commons today foreshadowed the possibility of the withdrawal of foreign troops from Russia by the end of summer, owing to the favorable situation. As soon as peace was signed, he said, the British army could be reduced from ten to six divisions and still more when it was seen that peace was being effectively carried out.

The British policy, said the secretary, was that Russia must be saved by the Russians and that new Russia must be a democratic state. The five great powers had decided to make it a condition of their further support and formal recognition of the anti-Bolshevik government in Russia that those governments must give a clear undertaking that their victory would be immediately followed by the summing up of a constituent assembly on a democratic franchise.

Mr. Churchill said the military weakness of Bolshevism was becoming apparent. Wherever the Bolshevik had been faced with determination, they had been repulsed and driven back.

With regard to Rumania, continued the secretary, was greatly loosened. The Rumanian army appeared capable of defending the Rumanian frontier, while on the Esthon, Finland, Lithuanian, the Bulgarian and Russian, troops within measurable distance of Petrograd.

Along the whole west front, from Finland to Rumania, the walls of the world, nearly formed, since which a few months ago seemed about to totter, was standing firm and the fact that this wall was able to keep the front, and in many cases to be advanced, was the most telling measure of Bolshevism's weakness.

RECOGNIZE ONE GOVERNMENT

PARIS, May 29.—The royal government of Montenegro announced it has recognized Admiral Kolichak as head of the government of Great Russia.

MAY QUALIFYING ROUNDS

By The Associated Press. CHICAGO, May 29.—Play in the qualifying rounds of the western conference tournament today left matches in the singles semi-finals between Bastian of Indiana and Westbrook of Michigan and between Adams of Minnesota and either Pike of Chicago, or Chaffin Taylor of Lake Forest. A letter two playing their matches in the third round tomorrow morning. In the double semi-finals Bastian and Ploeghert of Indiana, will meet Westbrook and Diaz of Michigan, and Adams and Norton of Minnesota, will play Nath and Pike of Chicago. The finals will be played Saturday.

BOLSHEVISTI PLOTS IN SWEDEN ARE DISCLOSED

STOCKHOLM, May 29.—Plots of Russian Bolsheviks to foment revolution in Sweden were frustrated by the discovery of large stores of firearms hidden by the radicals. Several known extreme socialists have been arrested. Still other caches of arms are believed to be undiscovered.

COLONEL BACON IS DEAD

NEW YORK, May 29.—Colonel Robert Bacon, former ambassador to France, died at 11:30 o'clock tonight at the Eye and Ear Hospital where he underwent an operation Saturday for mastoiditis.

"BUT GRANDPA FOUGHT WITH A SWORD"

ALLIES HAVE GERMAN NOTE FOR ACTION

Counter Proposals Being Translated Into French and English.

\$25,000,000 NAMED REPARATION FUND

France Objects to Teutons Being Admitted Immediately Into League of Nations.

By The Associated Press. PARIS, May 29.—June 16 is the earliest possible date on which the German treaty can be signed if no objections are encountered, but June 20 is the more probable date for its signature and the departure of President Wilson for the United States, according to a member of the American peace delegation who discussed the situation with the correspondent today.

The German counter proposals have been received with the greatest interest by the members of the peace conference, especially the claims for immediate membership in the league of nations, for a plebiscite to decide the disposition of Galicia and for fixing a definite sum for reparations.

With the exception of France all the major powers would undoubtedly agree to the demands for immediate admission of Germany to the league of nations but France is unalterably opposed and in consequence there is no possibility of this being done.

The sum of \$25,000,000,000 fixed by the Germans for reparations corresponds exactly with the amount which the American, American and British conference financial advisers has agreed that the Germans could reasonably be expected to pay and it is not impossible that some changes will be granted in the financial terms.

The translation of the German counter proposal is going on so slowly that it seems improbable that the complete English and French texts for consideration until Saturday.

MEMORIAL DAY MESSAGE

By The Associated Press. WASHINGTON, May 29.—President Wilson has called the following Memorial day message to the American people:

"My Fellow Countrymen: Memorial day warns this year of added significance and I wish if only by a message, to take part with you in its observance and in expressing the sentiments which it inevitably suggests. In observing the day we commemorate not only the reunion of our own country, but also how the liberation of the world from one of the most serious dangers to which free government and the free life of man were ever exposed. We have buried the gallant and great warrior men who died in this new war of liberation with a new sense of consecration. Our thoughts and purposes are directed and concentrated to the maintenance of the liberty of the world and of the union of its people in a single comradeship of liberty and of right. It was for this that our men conscientiously offered their lives. They came to the field of battle with the high spirit and pure hearts of crusaders. We must never forget the duty that their sacrifice has laid upon us of fulfilling their hopes and their purpose to the utmost. This it seems to me to be the impressive lesson and the inspiring mandate of the day."

—WOODROW WILSON.

BOLSHEWISTS SEEK USE U. S. MAILS

Ask Courts of Competent Postoffice Department to Permit Circulation of Pamphlet.

NEW YORK, May 29.—The Rand school of social science announced today a suit had been filed in the federal court here seeking to restrain the postoffice department from interfering with the circulation of pamphlets through the mails of a pamphlet written by Nikolaï Lenin, Russian Bolshevik promoter, and entitled "The Soviets at Work."

The suit, it was stated, was brought by the "American" socialist society and contends that the pamphlet contains "not only an authoritative but a most important statement of the aims and ideals of Bolshevism as distinguished from prevalent misconceptions."

Quotations from the pamphlet are cited, designed to show that Lenin enjoins the Bolshevik officials to "keep accurate and conscientious accounts of the business conditions of every city; do not loaf; do not steal; maintain strict discipline at work."

BRITISH WILL EXTEND NC-4 BIG WELCOME

Commons Is Informed of Plans Being Made by Air Ministry.

EXPECT READ TO HOP OFF TODAY

Wilson Orders Noted Aviators to Report to Paris as Quickly as Possible.

By The Associated Press. WASHINGTON, May 30.—A message relayed to the navy department by Admiral Knapp at London at one o'clock this morning said Lieutenant Commander Read of the seaplane NC-4 expected to leave Lisbon for Plymouth this morning at six o'clock Greenwich time (2 a. m. Washington time). No reference was made to the weather but it was assumed that forecasts had indicated favorable flight conditions.

It was pointed out that the NC-4 might be well on its way before news of the start could be received because of the delay in transmission of cable messages.

LONDON, May 29.—All possible arrangements are being made by the British air ministry to welcome the crew of the NC-4 on their arrival in England. Major J. E. B. Seeley told the house of commons today. The general was replying to a question by Mr. France, who inquired for official welcome "so that the admiration felt in this country at the flight might fully be expressed."

WASHINGTON, May 29.—Although the navy department had received no dispatches up to a late hour tonight from Lisbon where the NC-4 is awaiting the start to Plymouth, England, officials were of the opinion that the seaplane would "hop-off" tomorrow. The department today said a cablegram to Rear Admiral Finkler, commander of the destroyer force at Lisbon, instructing him to cable at least twice a day, hereafter, regarding the weather conditions—conditions of plane and crew and any other details pertaining to the flight should the start not be made tomorrow.

—Navy officials anticipate no difficulty.

Blinded Men Allotted Funds By Government

By The Associated Press. WASHINGTON, May 29.—Discharge from service of 67 soldiers blinded while serving in France, was announced tonight by the bureau of war risk insurance. The men have been under treatment at Holmden Park Institution. Some of the cases still retain sufficient vision to enable them to see objects dimly, but all are totally blind in an industrial sense and all that tests will be paid compensation of first 1 month, in addition to \$2.70, which they will receive from their government insurance.

The number of men in the American forces who were left blinded totals 125.

Summary of the International Situation

By The Associated Press. The representatives of the allied and associated powers at last have before them the answer of Germany to the terms of the peace treaty.

The reply of the Germans, consisting mainly of counter proposals seeking to lessen the severity of the allied terms, will be considered by the members of the council of four, who will digest the views of the enemy and report back their decision as quickly as possible. This decision is to be final, and Germany then will be compelled either to sign or reject the treaty.

In case of a declaration to sign British, French and American troops are prepared to take such steps as Marshal Foch may deem necessary. While it is seen the blockade against Germany is ready to be tightened again. A plan of the allies to have Switzerland, in the event of a refusal by Germany to sign, enforce a more severe blockade against Germany, if necessary, is reported to have failed, Switzerland claiming this would infringe Swiss neutrality.

It had been believed possible that Friday the terms of peace to Austria would be ready for submission to the representatives of the smaller nations. This, however, has been found impracticable owing to the necessity to embody in the treaty the new agreement as regards the Italian claim in the Adriatic region. Nevertheless the envoys of the smaller nations will hear the document read Friday, and it is possible that the early week will witness the handing of the treaty to the Austrians at St. Germain.

Switzerland's "concerning" the settlement of the Adriatic issue are that France is to become independent. Italy, reports have it, to obtain certain of the Dalmatian islands, but whether she is to get the seaports of Zara and Sebenico on the Dalmatian coast seems to be in doubt, one report declaring that she will and

VILLA AGAIN MENACING CARRANZAS

Proclaims Felipe Angeles Provisional Head of Government.

REGULARS FACE A SERIOUS SITUATION

Americans in Mexico Are Cheered by Refusal to Allow Troops to Pass.

By The Associated Press. WASHINGTON, May 29.—Villa forces have proclaimed General Felipe Angeles provisional president of Mexico and Villa himself, secretary of war.

The move coming at the climax of military operations conducted by the Carranza government so serious that it has asked the United States for permission to move troops through Texas, New Mexico and Arizona, is regarded here as reflecting a situation more serious than any time since the triumph of Carranza forces over Villa three years ago. Viewed in connection with the activities of the Felix Diaz forces in southern Mexico, the situation is regarded as full of possibilities.

News Appears Authentic. American government officials are refusing to comment on the news until they receive official confirmation. There seems, however, to be no doubt of its authenticity.

Angels' reported first proclamation, announcing that Americans in Mexico would be protected is particularly interesting to officials here coming as it does, on the heels of the refusal of the state department to grant Carranza's request that he be allowed to move troops through American territory for the purpose of protecting Americans in Chihuahua.

Must Protect Americans. Acting Secretary Polk announced he had notified the Mexican government that he could not grant the request made unless assurances could be given that Americans would be afforded protection while the U. S. is in transit. That this could not be done had been admitted previously by the Mexican authorities. Governor Hobbs of Texas declined to authorize the passage of American troops through Texas without a guarantee of protection to Americans and so notified the state department.

Angels' Strong Character. Felix Angeles is well known to American officials through his services to the French government during the European war as a navigator of munitions in the United States. He is held in high esteem by the Carranza government and was elected to the United States government in the title of Nicaragua. Polk said this the best selection of the

Society HER PAGE Fashions

MAKE WAY FOR THE BRIDE AND HER MAIDENS FAIR

By BETTY BROWN.

Plans have been recently formulated to place in the library a large bent pot to commemorate the beginning of the Twin Falls library. The pot is to have a small opening in the top which will receive suggestions from the patrons for new boys and new ideas.

In the year 1904 a Wellesley graduate from Boston conceived the idea of a Twin Falls library, and with this idea in view she began to make her native Boston friends and place them in the Smith Brothers' bakery for sale, the money realized by this shop donated toward the Twin Falls library. This enterprising little woman was Mrs. W. H. Barnes of Twin Falls.

This was the start of the library. With W. Z. Smith as the first president of the library board, the city of Twin Falls library opened with but a few volumes on its shelves and has grown until it now has a building of its own and well filled shelves.

This plan is only in the embryonic stage, however, it is hoped that it will shortly be put in operation. This week's list of new books for the library are: Connor, Sky Pilot in No Man's Land; Van Loan, Secret by In-lings; Grey, Desert of Wheat; Sawyer, Doctor Barny; Curwood, The Grizzly King; Canfield, Home Fires in France; Williamson, Every Man's Land; Lin, coin, Shavings.

Mrs. J. Cior and Mrs. Lewis entertained the Wednesday Ladies club last evening at the home of Mrs. Cior in honor of Mrs. E. M. Sweety, who is soon to leave for Boise. The house was tastefully decorated with mammoth bouquets of yellow roses. Mrs. Sweety was presented with a box of beautiful handkerchiefs as a guest prize.

The Thursday club gave a charming dance last evening at the home of Mrs. Campbell, at which the husbands of the members were invited to attend. The hostess served delicious refreshments at the close of the evening.

The D. A. R. meeting will be held at the home of Mrs. D. Brown, Monday, June 3. Mrs. Gamble will be the leader of the afternoon.

The high school alumni entertained the members last evening with a delightful dancing party. There was a large attendance and a most enjoyable time was had by all.

WIND THROUGH THE CHIMNEYS PLAYS "HOME SWEET HOME"
LONDON, May 25.—Cracks through which the wind whistled so that a soldier could make them play "Home Sweet Home" on a mouth organ were found in some of the houses which British housing commissioners have visited. In many districts work is now commencing on new cottages for the most poorly housed workers as a result of the interest taken by the royal family in the housing problem.

BEZIGIUM IS SEEKING MILLION STOLEN BIRDS
By the Associated Press.
BRUSSELS, May 29.—Belgium has lost 1,000,000 pigeons and as the finest homing pigeons in the world come from Belgium this is a loss of great value. The birds were stolen by the Germans during the occupation. A show a continuous policy of Mr. Belgian commission has gone to Germany to seek out the lost birds and demand their return, but it is believed they have been eaten.

BRUSSELS, May 29.—Belgium is now inviting traders and planters of all nations to assist in the development of the Belgian Congo throughout the war the Congo officials were kept at work directing the development of rail and steamship lines and perfecting the administrative machinery. The colonial minister now directs the attention of the world to the favorable climate and the natural opportunities which the once fertile jungle offers. Cotton, rice, coffee, rubber, cocoa, gold, ivory, diamonds and copper are among the chief exports and machinery, rail and steamboat equipment, food and clothing among the imports desired.

ENTRERS SHED CROSS WORK.
By the Associated Press.
NEW YORK, May 29.—Frederick P. Koppel, third assistant secretary of war, will give up that post June 30 to become director of foreign operations for the American Red Cross, it was announced tonight.

SHIPYARD NOW CAN PLANT.
YOKOHAMA, May 29.—Japanese shipbuilders see a poor year ahead and plan to turn plants into industrial operations in 1920. Motor cars will be manufactured in the Ishikawajima shipyard.

FASHION PAGE

FASHION PAGE

June—when brides and roses bloom!

Long before the calendar announces June's arrival the little bride and her mother, her sisters, and her maids-to-be are in a joyful flutter over the gowns which shall grace the happy bridal party.

Here are bridal costume suggestions for the girls already in the heat of preparation.

First, of course, the bride. Her gown is of ivory satin, the bodice and skirt covered with a tulle of shadow lace. There is a double train, the upper train of white tulle falls from the shoulders and a satin train hangs from the waistline.

For the bride's mother, left, is designed this handsome gown of home colored chiffon, unbrodered in gold, and lorna colored beads, and worn over white, or henna silk. A tulle of cloth of gold and henna satin, and a hat of the same shade is a most effective costume.

The bridesmaid wears an exquisite frock of white net embroidered in white and gold with in daisy design. A sash of apricot satin, and a white chiffon hat with apricot bow add the touch of color.

For the flower girl there is a handsome frock of white organdy with real lace insertion and a bit of gold broidery—topped off with a blue satin sash.

SHOW HOW FORD AIDED DEPENDENTS

Cancelled Checks Given to Relatives of Servicemen Introduced in Court by Auto Man.

By The Associated Press.
MOUNT CLEMENS, Mich., May 29.—Counsel for the plaintiff in the million-dollar libel suit of Henry Ford against the Chicago Daily Tribune, today produced in Judge Tucker's court cancelled checks showing that the company had actually paid relief funds to dependents of employes who went with the national guard to the Mexican border in June, 1916.

The evidence was put in through Edwin F. Clement who was employed in the sociological department of the company when the Tribune editorial was published.

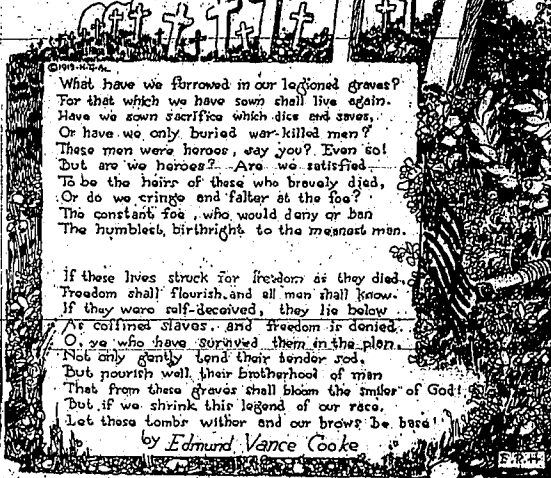

Elliot G. Stevenson of counsel for the defendant, argued that the rules of the department show that among other things how dependents were cared for were inadmissible and contended that testimony should concern only what the department actually did in the specific cases of the dependents of employes absent on military duty.

Attorney Albert J. Murphy of counsel for Mr. Ford argued the right to cancel the checks and contended that testimony should concern only what the department actually did in the specific cases of the dependents of employes absent on military duty.

Cancelled checks showed that payments from \$10 to \$15 a week to 14

Graves and Furrows

MAY 30, 1919

What have we furrowed in our leveled graves?
For that which we have sown shall live again.
Have we sown sacrifice which dies and saves,
Or have we only buried war-killed men?
These men were heroes, say you? Even so!
But are we heroes?—Are we satisfied?
To be the heirs of these who bravely died,
Or do we wringe and falter at the foe?
The constant foe, who would deny or ban
The humblest, birthright to the meanest man.

If these lives struck for freedom as they died,
Freedom shall flourish, and all men shall know,
If they were self-deceived, they lie below
As coffin slaves, and freedom is denied,
O, ye who have survived them in the plen,
Not only gently tend their tender sod,
But pour forth well, their brotherhood of man,
That from these graves shall bloom the smile of God!
But if we shrink this legend of our race,
Let these tomb wither and our brows be bare!
by Edmund Vance Cooke

families were made. They began on July 26, a month after the guard was called out and continued for varying periods some until February, 1917.

TELLS OF RESCUE OF SOPWITH CREW

Captain of Steamer Mary Dickson Men Refused Food That They Might Sleep.

HORSENE, Denmark, May 29.—Danish steamer Mary, which rescued Harry G. Hawker, and Lieutenant Commander Grive, in mid-Atlantic May 25, arrived here today. Captain Duhn and his mates told of the rescue of the aviator.

Hawker and Grive were exhausted after the rescue, the captain said and they declined the offered food in order to obtain needed sleep. Captain Duhn declared the aviators were upset because the Mary had no wireless and that Hawker also was disappointed because he was unable to activate the airplane so that he might learn the reason why he had failed.

"When I came on the bridge," Captain Duhn said, "the machine had already alighted on the water. The aviators told me that before coming down they had dropped rockets, but we did not see them. The work of saving the aviators was pretty difficult, because it was blowing pretty hard. Hawker and Grive were in water up to their waists, but their water tight suits kept them dry."

Asked whether the crew of the life-

boat was in serious danger in effecting the rescue, the captain replied:

"I will not say serious danger, but

as I said, it was a rather difficult hour before they succeeded in reaching the aviators."

All the aviators wanted to do was to sleep. They told me that from the very start they realized, everything was not quite in order, but that they had confronted themselves with the hope that later they would get the right effects from their motor. The check, however, became more and more apparent and the speed of the motor steadily lessened.

"They were very pleasant fellows and we were the best of friends with them. When they had finished their sleep and got a good meal with a glass of champagne they were all right."

ROB POOR GAMBLER OF CHANCE TO GO BROKE

PARIS, May 29.—The French government is considering a plan to reopen the gambling casino at Engoulevent—the "Little Monte Carlo" near Paris. One member of the Chamber of Deputies has put forth the very unique plan of providing "protection" for small purses. "Why this favoritism? Why not allow the poor man the right to go broke and commit suicide—if the rich are to have such privileges?"

GABY USES PHOTGRAPH

PARIS, May 29.—The photograph is the actor first aid. No more is it necessary to pore over fine type to learn the lines. It all comes out with the story of Gaby Deslys' loss of a \$4500 photograph which carried the stars to her new place and which she used in photographs.

AUTOMATIC PHONES

LONDON, May 29.—Automatic telephones are being installed throughout the London area at an expense of more than \$2,000,000, but it is estimated the savings by the system will offset the cost in a few years. The installation will take three years.

GREATER YELLOWSTONE NATIONAL PARK

Congress Is Asked to Add 1,000 Square Miles to the South, Including Jackson Hole and the Grand Teton

PLAINS MOUNTAIN JACKSON HOLE

By JOHN DICKINSON SHEPHERD

YELLOWSTONE, National Park, the oldest and largest of our national parks, the first national park to be established in the world, the largest and finest gem-berl on earth and the most famous of big game preserves, will probably receive a large addition of territory to the south from the 81st and 82nd congress. A bill for this addition was introduced in the last congress, was passed by the house and was shelved in the senate in the continuation of the last days of the last session.

Yellowstone has a most romantic history. It was discovered in 1810 by John Colter. We bought the Louisiana territory—the land between the Mississippi and the Rockies—of Napoleon in 1802, without knowing anything about this garden spot of the world—the Lovian and the expedition of 1804-5, which made the round trip from St. Louis to the mouth of the Columbia river to find out what had happened, passed within a few miles of the park, and of the park without even suspecting its existence. Colter was one of the party and secured his discharge before reaching St. Louis to turn back and trap beaver. Colter returned to St. Louis in 1810. The public learned of his story and immediately dubbed this gem-berl "Colter's Hell." Only one man believed him—the old commander, Capt. William Clark, who put his 1807 route on the official map of the expedition.

In the 20s James Bridger, the famous plainsman, trapper, explorer, "Colter's Hell" and told of his wanderings. Bridger was a genius in telling tall yarns—his obdurate cliff, and hot spring stories are classics in the West to this day. "Just another of the Bridger's yarns," said the country bard. "Prospectors who flocked to the region during various gold excursions discovered the Yellowstone the third time. But it was not until 1870 that the country believed in Colter's Hell." These three were paying nothing, and in 1872 the Yellowstone was set aside by act of congress as a national park—a public playground for the people of the United States forever.

MILITARY IMPROVEMENTS. During the first 14 years of its existence as a national park Yellowstone was administered by civilian superintendents good, bad and indifferent. Congress sometimes appropriated funds for the park but often did not. By 1880 conditions were so bad in the park that congress was obliged to do the big game so fast that the management was turned over to the army. The army record was excellent. With the exception of the national park service two years ago, military government was the best thing that the interior department has done in the administration of all national parks.

On the whole, congress has been fairly liberal in appropriations. There are \$75,000,000 for 1919. There are 250,000 acres and nearly 400 miles of fairly well-marked trails. Fifteen ranger stations are maintained; these are connected with headquarters near the north entrance by 270 miles of telegraph.

ITEMS OF INTEREST

The best meat to get in cold weather is mutton, owing to its high heating value.

An official estimate of the forest lands destroyed by the enemy in France places the total at 1,200,000 acres.

During the war nearly 14,000,000 publications, representing a monetary value of something like \$150,000,000, were sent by the British public to the troops.

ELK OF MOUNTAIN RANGE, JACKSON HOLE

The park lies principally in the northwest corner of Wyoming, but runs over a little into Idaho and Montana. Its area is about 3,418 square miles or 214,273 acres. Its altitude is 6,000 to 11,000 feet. There are four entrances: Gardiner on the north; Cody on the east; Moran on the south; and Yellowstone on the west. All except Moran are railroad points. In 1918 the travel by entrance was: North, 1,604; east, 4,001; south, 522; west, 8,702.

Tourist travel goes over a belt road which forms two large loops, resembling a figure 8 and covers the scenic features of the north two-thirds of the park. Three-fifths of the tourist travel is by private automobile and the proportion is growing larger each year.

Yellowstone Lacks Scenery. This, then, is the lay of the land. Yellowstone is by far the biggest of the 18 national parks and is the best developed. Its scenery are as unique as the big geysers of Sequoia, the lake of Greater Lake and the canon of Grand Canon. Why, then, should it be enlarged by the addition of territory to the south approximately equal to one-third of its present area?

The comprehensive answer is: "The Yellowstone is too small." The natural question then is, why is the Yellowstone too small? There are several answers, including these three:

Because it lacks scenery.

Because the region to the south is a natural part of the park.

Because the area to the south are in excess of 100,000 acres.

Yellowstone does lack scenery of the majestic kind. Its peaks are not lofty and rise from a high plateau. Its geysers, hot springs, plain pools, etc., are of the ordinary kind. In short, the Yellowstone does not hold the tourist in the days of the stage coach it took the tourist about five days to see the Yellowstone; then he was ready to leave. Now the automobile has cut its way in half. And he is not likely to stay long. In strong contrast are such parks as Rocky Mountain and Yosemite. There the average stay is at least two weeks, while many thousands go regularly every season, stay a month or three and look upon the park as their summer home.

The official statistical figures for the last year, Yellowstone, last four seasons: 1918, 35,000; 1917, 32,000; 1916, 31,000; 1915, 27,000; 1914, 25,000. The 1918 decrease in the number of visitors was due to war-time conditions; increased railroad fares and government discouragement of pleasure travel. The travel by private automobile held its own. The hotels in Yellowstone were not open.

The national park service would change the Yellowstone conditions and would begin by enlarging the park. In addition it has extensive plans for making the Yellowstone attractive. These include golf, tennis, improved fishing, model automobile camp, new trails and plenty of mountain climbing.

The territory to be added contains approximately a thousand square miles and is known to big game hunters as the Jackson Hole country. It contains the sort of scenery that Yellowstone lacks. The Absaroka Range along the east boundary contains several lofty peaks and Younts Peak runs up to 12,100 feet. The west slope of this range contains the headwaters of the Yellowstone river. The south boundary runs along Buffalo fork to the Snake river at Jackson Lake. The west line runs along the Teton range. Included in the addition are Jackson Lake, Grand Teton (13,741) and Mount Moran (12,100). Grand Teton has been a famous landmark since the early days of the fur trade and Jackson Hole was the last refuge of organized bad men, cattle rustlers and horse thieves. It was Jackson Hole where Yellowstone was established in 1872.

The Jackson Hole elk herd is an entirely different herd than that of Yellowstone. It is supposed to number about 15,000 head. As national parks upon establishment automatically become wild animal life sanctuaries, enlargement of Yellowstone would save the herd.

The addition of the Jackson Hole country will work many changes in Yellowstone. A planned feature is an automobile highway from Moran to the Cody road, around the east side of Yellowstone lake, thus making a third loop. A hotel will be established on the high north of Jackson lake. The south entrance will be developed. The automobile highways to Victor and Lander, both railroad points, will be improved. Improved highway connection with the Lincoln Highway will be made to accommodate private automobiles. These highways will be made to improve. Improved highway connection with the Lincoln Highway will be made to accommodate private automobiles. These highways will be made to improve.

DEMOCRATS LAUD PRESIDENT WILSON

Declare His Administration Will Go Down in History as One of America's Greatest

By the Associated Press.

CHICAGO, May 29.—Members of democratic national committees closed a two-day session tonight by adopting a declaration offered by P. H. Quinn, national commissioner from Rhode Island, reviewing the achievements of President Wilson and the democratic congresses and urging the support of all independent and progressive voters in the 1920 campaign to elect a democratic president.

The statement, after extolling the constructive and progressive legislation passed by the last democratic congress, approves President Wilson's conduct of the war and concludes as follows:

"Within 50 years our nation under a republican administration conducted a foreign war. The record of that party in that war is still a matter of current reading and of public discussion. We simply ask the people to draw their own conclusions as to which party were at fault in the war and in peace. No American president, with the possible exception of Abraham Lincoln, was ever so persistently, purposely and in many instances maliciously misrepresented and maligned as our great leader and we believe you in his principles Lincoln in that respect, so will the future history of our country view his accomplishments with the same high esteem as those of the great emancipator.

The national political organization to record its favor of woman suffrage, and as the first to welcome the women into full participation in party councils, we deplore and condemn the dilatory tactics of the republican party in the closing days of the last session of congress which resulted in the failure of the suffrage resolution at a time when its proponents were assured of the requisite number of votes to accomplish its purpose. The committee also adopted a resolution calling on the republican party of the nation to hold special sessions if necessary to ratify the woman-suffrage constitutional amendment when it has been passed by congress, so as to enable women to vote at the presidential election in 1920.

Ex-2, James H. D. member of the senate committees of new Mexico, read a resolution demanding the repeal of the federal espionage law and opposing all legislation restricting free speech, a free press and the right of free assembly and protesting against the last session of congress and compulsory military training. He asked for the immediate adoption of the resolution, but there were objections and it was referred to a committee, which later announced it would not report on the resolution.

The afternoon there was a meeting with state chairman.

W. W. Durbin of Ohio declared that his state would remain in the democratic column in 1920.

Frederick Van Nuys of Indiana made a vigorous attack on the republican party and the VIII-Hays chairman at the republican national committee, and said Hays was a "stand-pat republican" at heart, although he had succeeded in convincing many members of the progressive party otherwise.

MAJESTIC PARK OF THE FUTURE. CHICAGO, May 29.—Attorney General Palmer told the democratic national committee at a banquet tonight that if past achievements assure future victory the party could write today the political history of the next decade, at least.

"But the people do not ask, 'What of yesterday?'" he continued. "They ask, 'What of tomorrow?' Ours is the people's party and we do not desire to live it we cannot solve the people's problems. Therefore we must always be progressive, the new-fashioned democracy.

"The hard won victory of American arms will prove but a hollow and unavailing triumph if we do not make certain that out of it shall come a more secure peace. To these ends the democratic party proposes to concentrate itself."

Reviewing the achievements of the party since a democratic majority was returned to congress at the end of the last administration, Mr. Palmer declared that it was significant that the "old leaders" against the party have been refuted. He cited the nation's participation in the world affairs as justification of the charge that the party was a mere party in power; that the tariff law "built upon the principle of fair competition" and the creation of a nonpartisan tariff board in answer to allegations that the party was willing to sacrifice the property of the country to an economic policy of protection by the income tax amendment creation of the department of labor and the children's bureau, passage of the eight-hour workmen's compensation and federal reserve laws, as other evidences of party accomplishment.

EXCEEDS ITS GOAL. NEW YORK, May 29.—While con-

ditions, also lacking, there is every indication that the "Salvation Army" passed the \$125,000,000 goal in its home service campaign by approximately \$2,000,000, according to an announcement here tonight by former Governor Charles S. Whitman of New York, chairman of the national committee.

BRITISH HEALTH OFFICER URGES BRITISH CONTROL

LONDON, May 29.—Birth control is preferable to emigration when a nation becomes overcrowded, in the opinion of Dr. H. McKel Millard, medical officer of health for Leicester. He advanced arguments for the doctor's statement at a sitting of the National Birth Rate commission. "I decline to see that a man should be accused of falling in his duty if declined to have children merely for the sake of emigrating them to the Antipodes," says the doctor. Instead of the AI classes being encouraged to have more children, the doctor believes, the CI classes are encouraged to follow the example of the Antipodes. "Out of 400 emigrants, 100 are men, 100 are women, 100 are children, 100 are old people," the doctor is convinced that the majority do not regard birth control as necessarily injurious.

DEMOUNTABLE SHIP TO GO WAY OF TIMBER CARGO

VICTORIA, B. C., May 29.—A ship that can be taken to pieces and its timbers used for other construction at the end of its voyage in to transport a cargo of lumber from British Columbia to England. The experiment proves several millions of feet of lumber will be thus transported. British Columbia has 65,000,000 acres of timber, of which the public owns of standing timber of which the lumbering companies own 70 per cent. The British Columbia government is to have the public timber on most of this lumber. Britain's immediate requirements include 5,000,000 railway sleepers.

E. K. HILLIANS READY TO INVEST IN SIBERIA

VIENNA, May 29.—Just waiting for the word go, a group of investors in Vienna is ready to make a huge investment in Siberia, and money will be found originally intended for Greater Russia, but which never reached that country. There is \$1,700,000,000 in the Philippines and elsewhere that was to have been loaned to the Kerensky government. It was part of the big loan the American government authorized, but the Kerensky regime fell before there was time to send the money. Investors in Vienna are waiting for the word to go to invest it.

SAN JUAN IS TO HAVE MILLION DOLLAR HARBOUR

SAN JUAN, P. R., May 29.—The harbor of San Juan is to be made the finest in the West Indies. It will be dredged and enlarged to accommodate a big fleet and the best docking facilities provided. The cost will be \$1,000,000 but the United States will arrange that no payments shall be made until one year after the work is finished, and then payments by Porto Rico will be \$100,000 a year.

HALF MILLION BRITISH ARMY HUTS TO BE HOME

LONDON, May 29.—Half a million British army huts are to be converted into homes for workmen if plans worked out by the disposal board of the ministry of munitions is to be carried out. Each little hut will provide six rooms and bath all on one floor and the cost of moving and fitting each for residence would average

\$1000. Besides the huts in England there are thousands in France that can be used.

CHINA FINDS IT HARD TO STOP OPIUM TRAFFIC

national agreement and efforts of Chinese authorities, opium traffic persists in China. Native governors of the province of Szechuan have been ordered removed because they permitted the harvesting of an extensive crop for the trade and the preparation for a spring crop.

'HEALTHY SINNERS' OF RUSSIA ROY BOLSHIEVSKI

STOICHOLOM, May 29.—A famed boulevard in Russia are not all Bolsheviks. "God Beggars," "The Moles" and the "Healthy Sinners" are organized plunderers from disbanded regiments in West Russia which have been unable to get back to their homes in East Russia and are called "The Healthy Sinners" because they accept no money in hand, and limit what they take rather than work. They prey on the Bolsheviks as readily as on the rest of Russia. "Tying two poor communists to a railroad track that the train might run over even was one of the best of their crimes. The Moles murder and rob along the Ukraine border.

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if you feel hot or aching; if what you eat sour and forms gas and acid in stomach, or you are bilious, constipated or nervous, sad, and can't rest feeling just right, begin—immediately. Drink, before breakfast, a glass of hot water with WALKER'S Laxative of limestone phosphate. It will flush the poisons and toxins from the stomach, liver, kidneys and bowels, and cleanse, sweeten and purify the entire alimentary tract. Do your best to get up early, and begin drinking in the morning to wash out the system all the previous days' poisonous water, gases and sour bile before putting more food into the stomach.

So feel like young folks feel like you get before your nose, nerves and muscles become loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate which is inexpensive and almost tasteless, except for a sourish twinge, which is not unpleasant.

Just as soap and water act on the skin, cleansing, sweetening and freshening, so hot water and limestone phosphate act on the stomach, kidneys and bowels. Men and women who are usually constipated, bilious, headache or have any stomach disorders should begin this daily bathing before breakfast. They are assured they will become real cranks on the subject shortly.

DECORATION DAY.

Just as the family lot in the cemetery gathers majestically to its circle, and the record of births and deaths and wedding lengths little by little in the family Bible, so, as the years roll around, Decoration day gathers to itself new reasons for being.

We decorate this year the graves of soldiers of six great wars—the revolution, the war of 1812, the Mexican war, the Civil war, the Spanish war, and this last great conflict, which took no notice of boundaries or oceans, but spread throughout the world.

We cannot choose among our heroes. All fought for the same great principle, and died for the same ideals. Each has made his supreme contribution to the good of his fellow men, and all deserve alike our flowers and our tears.

It is a day in which the living give in loving memory of the dead. But the living receive far more than any tribute they can pay, for what lessons in history and patriotism are here!

Who, whether or not he goes to the cemetery or attends any public ceremony, can fail to feel the tides of a deep love for his country rise within him if he gives even a passing thought to the day?

Our flowers and our thoughts will be of little worth, our dead indeed will have died in vain, if this Decoration day does not make better, braver citizens and patriots of us all.

WHAT GERMANY WILL DO.

It can be set down as a practical certainty that Germany will sign the treaty. There is nothing else left for her to do. Refusal to sign would mean the immediate military occupation of Germany by the allies, the seizure and control of the customs offices, railroads, etc., and the armed enforcement of the provisions of the treaty. It would mean also the immediate renewal of the economic blockade. That would leave Germany helpless. It is easier for her to sign.

But having signed thus under compulsion, to avoid a worse fate, it may be accepted as a matter of course that there will be slight moral value attached to the signature. Germany will sign without any intention or disposition to fulfill the obligations thus technically assumed. She will sign the treaty frankly as a "scrap" of paper.

Most of the German people will probably justify such attitude by arguing that they are not morally bound because they signed under duress. Others will take their stand on the flat statement that they incur no moral obligations simply because the settlement is "unjust to Germany."

A proper conception of Germany's attitude, of course, would make such a position impossible; but there is no evidence that the German nation has any such conception. It considers itself wronged, and will continue in the future, as in the past, trying to evade all responsibility for the war's consequences, regardless of signed documents.

It follows that the allies will be compelled to use force in order to make the terms of the treaty operative. Their task will be somewhat simpler than it would have been if Germany had not signed, because there will be a definite program to carry out, written down in black and white and having the international sanction that a completed treaty naturally carries. But it will be hard, at best.

Germany may be expected to resist every penalty imposed, actively or passively, perhaps for the most part

peacefully. There will be none of the prompt settlement made by the French after the Franco-Prussian war in order to get on with a disagreeable situation as soon as possible. The allies will probably have Germany in their hands, unresponsive and pulled, for many a year to come.

THE NATIONAL GUARD.

The war department has committed itself to the rebuilding of the National Guard. This is good news to large numbers of people who have feared that the Guard was destined to disappear through federal hostility or neglect.

There used to be a good deal of criticism of this military organization. But there has been little of it for the last year or two. When the Guardsmen were put to the test they met it as creditably as did the regular army or the selective service army. In fact there are those who maintain that the Guardsmen made, even better soldiers than the others.

There had long been spots in the organization due to neglect in some of the states; but the weak units were strengthened by their Mexican experience and by special training to fit them for European service. Thus in the end those little scattered companies and regiments from all over the country made a fine strong homogeneous body of national troops of whom their country has ample reason to be proud.

With the experience and tradition now gained, and with a more generous attitude toward its work it should be easier in the future for the National Guard to maintain itself in ever state as a fine effective organization useful for state duty and invaluable in national emergencies. If new legislation is needed it should be promptly supplied by congress and supported by the legislatures of the various states, in order to insure the most complete re-organization.

WHAT REALLY WON THE WAR.

Five cups of flour, two cups of sugar, five teaspoons baking powder, one teaspoon salt, two eggs, one and three-quarters cups milk, one teaspoon of lard, one-half cup shortening, one-half cup shaps with a doughnut cutter, drop into hot lard. Four dozen may be made with the above recipe.

I guessed it, have you? Certainly Salvation Army Doughnuts.

If Germany keeps on kicking about that treaty, pretty soon even the United States senate will be in favor of it.

VILLA AGAIN

(Continued From Page One.)

which Villa and Angulos captured Parral, one of the largest towns in the state of Chihuahua, is pointed to as proving the inability of the federal forces to even protect themselves.

No Civilian Messages. Miting and other concerns with interests in Mexico made repeated efforts to get into wire communication with their representatives in Chihuahua but were told that the wires were being used by the military and that no civilian messages could be accepted.

The garrison at Casas Grandes, Mexico, consisting of about 250 men of the 44th regular cavalry, arrived at Juarez this afternoon. This is the last of the garrisons of the northern Chihuahua militia to be called in and concentrated at Juarez.

Calls In Train Crews. The Mexican Central railroad has called in all its work trains, track cars and equipment from the territory between here and Chihuahua City.

Inhabitants of Casas Grandes and other points on the railroads south of the city and southwest of Juarez are preparing to come to the boundary because there is little likelihood of being by Villa or Angulos in the near future.

No Fear at Juarez. Colonel Escobar, commanding at Juarez, has about 3,000 men in his command at present and anticipates no attack there.

ALLIES HAVE

Continued From Page One.

the peace conference at this morning's session. In the section treating on territorial questions the German counter proposals, to the terms presented by the allies say, according to a synopsis reaching Paris by the way of Bolele that "the territory of the Saar, inhabited by 600,000 persons, is to be detached from the German empire solely because of claims upon its coal."

It is pointed out that during 15 years the territory to be the subject of the contract of commission "in the nomination of which the population has no choice."

German reply remarks that the frontier which will be voted upon under the stipulations of the treaty "goes much farther over than the Danish government desired."

KAISER IS UNEASY.

By the Associated Press. AMSTERDAM, Wednesday, May 28.—Since the former German emperor has been acquainted with the peace terms he has become more invariable to the outer world. The only possibility of catching a glimpse of him is when he crosses the drawbridge twice daily going to and returning from his log-sawing in the garden of the castle.

Replying to a repeated request for a declaration, the former emperor said the following words: "Tell the Associated Press that my attitude is unchanged."

The messenger gave the correspondent no hope that anything was likely to be given out for publication. It is virtually impossible to glean anything regarding the former emperor's life or plans; as everybody in the castle is under strict orders to maintain silence.

Apparently there is no excitement among the members of his suite over the peace terms. The only portion which interests the important circle is the clause relating to himself.

The former emperor appears to be more affected than his husband and is evidently under the impression that the powers will succeed in bringing him before a tribunal.

CONSERVATIVES CONDEMN NOTE.

By the Associated Press. BERLIN, Wednesday, May 28.—The conservative press of Berlin condemns the counter proposals to the peace terms submitted by Germany, especially the financial and military concessions.

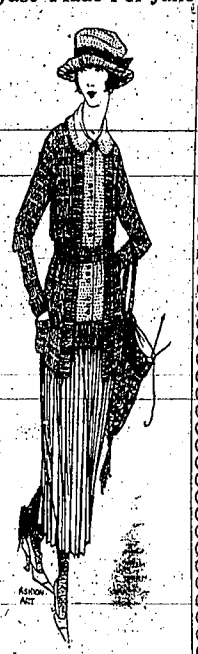

The Pan-German Gazette brands the reply as "outrageous" and the Post says: "The German people are doomed to slavery between two masters until a new Germany arrives to break the chains." The Kreuz Zeitung is skeptical of the success of the counter proposals, despite what it calls "Count von Brockdorff-Rantzau's submissions" and the "Anglicized Rundschau" says: "The German reply is fully as depressing as the entente terms."

CLAIM AMERICANS DISPLEASED.

By the Associated Press. BERLIN, Wednesday, May 28.—The semi-official Wolff bureau is circulating a story under an Amsterdam date which asserts the United States is "becoming increasingly dissatisfied with developments at Versailles" and that there is an "unmistakable strengthening of the inclination, for an understanding with Germany through a modification of the peace terms."

A correspondent of a German newspaper at Versailles claims the Allies "especially favored by the entente because they propose to take over Russia's debt to France, which totals 20,000,000,000 francs."

Just Made For June

By BETTY BROWN.

Cool things, bright things, and smart, effective things are the garments we desire for the outdoor days of June, and here they are all supplied in this cutting consisting of a smart green silk dress with a white vest, stitched in green silk and small green buttons. It is worn with a white pleated skirt of crepe de chene, green hose and white sport shoes. The hat of white silk, stitched crown and pleated brim, is bound with green tulle ribbon.

CHANGES DISCOURTEOUS. YERBAILEN, May 28.—When

Count von Brockdorff-Rantzau, head of the German peace mission, learned that the text of the counter proposals submitted today by the Germans had been sent to American newspapers, he immediately telegraphed a protest to Berlin, declaring it to be the most discourteous act toward the entente chancelleries. He received a reply today explaining that there had been no misunderstanding.

LUMBER ARRIVES FOR GRANDSTANDS

Work to Be Started on Remodeling Ball Park for the Big Elks' Roundup.

Lumber has arrived here for use in the construction of grandstands and bleachers at the ball park for the Elks' roundup on July 4. The bleachers will be nearly around the interior of the ball park. Two carloads of lumber will be used in the construction work.

The Elks committee in charge of the roundup recently made an investigation as to the feasibility of constructing a quarter-mile track at the ball park. A thorough investigation proved that the plan as originally outlined could be followed.

One of the races to take place on the quarter-mile track will be between a Twin Falls racing team and one from Pendleton which has been featured at roundups for several seasons. C. B. Chapman is hard at work training a string of four-loom horses which will take part in the stage coach race, and he expects to give the visiting string a go for the money. Mr. Chapman says that Twin Falls bred horses are just about as good as the Oregon breed.

WILLARD'S CAMP IS CLOSE TO DEMPSEY'S

Willard for Championship of the World-Will-Fight-Within-Mile-Of-Each-Other-At-Manuena.

By the Associated Press.

TOLEDO, May 29.—Selection of a former clubhouse on the shore of Maumee bay, less than a mile from Jack Dempsey's training quarters, was made today as the training camp for Jess Willard, who is due here Saturday.

Dempsey is using his sparring partner as roughly that manager Jack Kearns is having difficulty in retaining them. One-round David, a 200-pounder from Buffalo, N. Y., quit the challenger's camp today after receiving another whipping. He was tearfully knocked out for the second time in two days. Dempsey confined his ring work to seven rounds today, giving four with Sergeant Bill Tate, two with Terry Keller and one with Davis.

DEBATE: TAKEN HAND. COLUMBUS, O., May 29.—Legislative efforts to stop the Willard-Dempsey heavyweight championship prize fight to be held at Toledo July 4th will be centralized in the house of representatives at 10 a. m. June 17th. Representative Damm's bill giving the governor authority to stop prize fights today was made a special order of business for that time.

At Los Angeles: R. H. E. Score: 3 8 0. Batteries: Dell, Houck and Deformer; Brown and Boles.

At Oakland: R. H. E. Score: 0 8 4. Batteries: Kaufman, Green and Holice; Anderson, A. Arlett and Milta.

At Philadelphia: R. H. E. Score: 4 7 2. Batteries: Hogg and Adams; DeWard and Gowdy.

MINIDOKA RECORDS INSPECTION MADE

C. C. Sigfus Reports: Commission Books Show Appropriation for Hansen Bridge.

An investigation made by C. C. Sigfus, clerk of the Hansen bridge commission, Prosecuting Attorney Sigfus and Attorney Shad Hodgins developed that Minidoka county had appropriated on its records its intention of paying \$7000 towards the construction of the Hansen bridge, according to Sigfus.

The three men made a trip to Newport to investigate the records of Minidoka county preliminary to the inauguration of the suit against the Minidoka county commissioners to force payment of the \$7000. Sigfus claims have been made that the records of the neighboring county did not show such a record.

It was also discovered that the Minidoka commissioners had voted an additional \$750 toward the bridge—this sum to be used for the construction of additional railings. This was new information to the Hansen bridge commission.

The investigation disclosed that the Minidoka commissioners have \$4755.83 to the Hansen bridge fund.

BRITISH ARE TO DROP 100 BOLSHEVISTS AT ODESSA.

PARIS, May 29.—Britain has adopted the American method of dealing with alien Bolshevist agitators. The first batch of about a hundred is being deported to Odessa. If there is any threat against the landing ships the boats will be sent in under guard of guns of the British fleet. The agitators will be turned loose on the beach. France continues her policy of quietly arresting revolutionary agitators.

King Is Some Heavy Himself

JACK DEMPSEY AND HIS BULLDOG, KING.

Jack Dempsey... such a likable fellow that he is the recipient of many favors.

The latest is King, the heavyweight bulldog who is one of Jack's most faithful training partners.

King is with the champion from camp-to-camp. He takes out his head work and he waits for breakfast until Jack is ready, King likes to sit on the floor by the challenger's chair at meal time and receive toothsome bits of food from Jack's own hand.

Jack is rather particular about the big dog and isn't willing for anyone to feed him.

He was a gift from a Toledo admirer and after one day in the young heavyweight's camp he was doing so well that he was called him "Jack's dog" and he is his master," suggested one of Dempsey's followers, but Jack said, "No, I'll call him King."

HOLDS MACKMAN TO 4 LONE WALLOPS

Champions Lurch Hits and Feet Off a Winner—Washington Continues to Climb.

PHILADELPHIA, May 29.—May held Philadelphia to four hits today and Daxton won, 7 to 1. The champion bunched five hits, including three two baggers, on Rogers in the fifth which, with a run and Burrell error accounted for five runs. Philadelphia went out in order in the last six innings and a man reaching first base. Score: R. H. E. Boston 7 12 0 Philadelphia 1 4 2

Batteries: Mays and Schanz; Rogers, Kinney and McAvoy.

NEW YORK 5—WASHINGTON 4. WASHINGTON, May 29.—Washington's return-home was marked by the club's eighth straight defeat, New York winning today game, 5 to 4. In ten innings, Shaw was given poor support, none of the visitors runs being earned. Score: R. H. E. New York 5 4 2 Washington 1 4 2

Batteries: Russell, Shawkey and Hannah; Shaw and Peipich.

BRITISH WILL

Continued From Page One.

entry in the Lisbon-Plymouth dash, a distance of nearly 800 nautical miles.

HEAD CALLED TO PARIS. PLYMOUTH, May 29.—President Wilson has summoned the crew of the NC-4 to appear as readily as possible from Plymouth to Paris. It was announced here today. He desires to attend the aviation conference in Paris.

The crews of the NC-3 and NC-1 will also proceed to Paris after a visit

to London, where they will be given an official reception and will be presented the King.

To-Most-Will-Experts.

It is presumed the crews have been called to Paris to give experts the benefit of the knowledge they gained from their flight.

The program of entertainment planned here in honor of the crew of the NC-4 when they arrive will embrace the meeting of the incoming seaplane by British seaplanes, a salute with Very lights and an escort to the landing place near the U. S. A. Jockster and Aroostook, which the American flyers will board immediately.

No To Mayflower Landing.

The following morning the Americans will be taken to the Mayflower landing, where, in the presence of a British naval, military and air force contingent, a formal reception will be accorded by the mayor and the municipal authorities and will be followed by a luncheon rendered by the Royal Air Force.

pointed in love. Years ago he was a dentist in Toulouse. He hurriedly romanced and married a girl—now-Daddy's-Expert.

He became an one of the poor among whom he lived. But America entered the war Ford put a suit of khaki and a red, white and blue ribbon and when the Yankees in Toulouse he was on hand to cheer them in their native tongue.

His dental parlors were turned into a reception room where coffee, fruit and cigars were served. The C. Cross helped him to finance and extend his service.

When the first American died in Toulouse hospital, "Daddy" Ford made the little plot on the edge of the city for his burial place and today five white crosses and five American flags mark the graves which "Daddy" Ford keeps green.

BABY PASSES AWAY.

AGED AMERICAN TENDS GRAVES OF FIVE YAN HEROES.

TOULOUSE, May 29.—On the outskirts of Toulouse, in sunny southern France, is a tiny cemetery. Five American soldiers are the only ones who sleep there.

Each day an old man visits the little cemetery to see that the tiny markers stand erect and the green grass and the flowers are kept in this garden of the brave.

The man is "Daddy" Ford. He is an American, but for 47 years he has not seen his native land. The coming of the Yankees and his pride in the land of his birth, and now he would claim his citizenship, but his long absence had barred him from citizenship rights.

Nevertheless "Daddy" Ford has done his bit—America entered the war.

Ford left the United States disap-

LADIES! LOOK YOUNG DARKEN GRAY HAIR

Use the Old-Time Sage Tea and Sulphur and Nohody Will Know.

Gray hair, however hideous, denotes advancing age. It's all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur restores its appearance a hundred.

Don't say gray. Look young! Either prepare the recipe at home or get from any drug store a bottle of "WYETH'S Sage and Sulphur Compound" which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready to use preparation, because it darkens the hair beautifully, besides no one can possibly tell as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two its natural color is restored and it becomes a thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

IN BANKRUPTCY NO. 1142

in the District Court of the United States for the District of Idaho, Southern Division.

In the matter of Lester C. Crozier, Voluntary Bankrupt.

DISCUSS RETURN OF WIRE SYSTEMS

Senate Committee Hears Testimony As to Plans for Guarding Against Financial Distress

BY THE ASSOCIATED PRESS.
WASHINGTON, May 29.—Provision against financial embarrassment of the telephone and telegraph systems of the country in returning them to their owners, was asked of congressmen appearing before the Senate Interstate Commerce committee at its first hearing today on legislation for the return of the wire systems.

The request that the government in turning back the wires were told the answer was made by N. G. Kinsbury, vice president of the American Telephone and Telegraph company; F. P. McClinton, vice president of the United States Independent Telephone Association; E. C. Stevens of St. Paul, representing other independent telephone companies; Edward Reynolds, recently deported by Postmaster-General Burdett as former manager of the Postal Telegraph Cable company; and H. L. Reber of St. Louis, president of the Kinloch Telephone company. Charles E. Elmquist of the National Association of Railway and Public Utility Commissioners urged that the systems be returned without any remedial legislation.

Chairman Cummins said the committee plans to agree upon a bill without delay and would be ready to submit a report to the senate by Monday. The senate committee was told by a host of today's witnesses that wire systems should be returned immediately to private companies.

Vice President Kinsbury and McClinton had Mr. Stevens urged that the rate established by Mr. Burdett be retained until state commissions could determine their justice. Legislation insuring payment of compensation by the government to independent telephone companies also was Mr. Reynolds' severely criticized.

Postmaster General Burdett charging that he has discriminated against the "rental and the favor of the Western Union and that his motive was to destroy competition.

PUT AWAY DELEGATIONS SWISS ADVICE TO KATHI

BERNE, May 29.—Put away your uniform and decorations in the deepest wardrobe of the Chateau Warleg, Thats Switzerland advice to Karl of

Austria. Karl came into Austria searching the temples of society; though a devoted monarch. Swissmen inform him he is among her people as a private citizen and must live as such.

MISS AMY KELLY HERE

Miss Amy Kelly of the extension department of the state university, arrived in Twin Falls yesterday for a conference with Mrs. C. J. Birney.

SELECTS BREEDING PEN

Prof Moore, poultry husbandman, spent yesterday afternoon at the farm of J. G. Glavin of the Pleasant View section. He selected a breeding pen of chickens for Mr. Glavin. Mr. Moore also visited the Howard Conover farm where he culled a flock for egg production.

OUTLOOK IS PLEASING

County Agent Bolrer yesterday visited the south end of the tract and made a report to the farmers. "The outlook for a bumper crop of every kind of product in the county was never better. The wheat on the Salton tract needs a little water and would have profited by the storm that visited this section. It only rained a little here but it freshened things considerably."

INDIA GOVERNMENT LOANS CASH FOR HOUSE BUILDING

BOMBAY, May 29.—The government is giving aid to the India housing problem in a practical way. Government loans are being extended to co-operative societies which build dwelling houses at moderate rental on a co-partnership basis for clerks, workmen and others.

ON ACCREDITED LIST

Word was received yesterday from State Commissioner of Education Bryan of Iowa, saying that the Kimberly high school which was inspected two weeks ago, had been placed on a fully accredited four-year high school list.

WILKIE SETTLES DOWN

AMSTERDAM, May 29.—Vilho Helander hasn't any hope of getting away from Holland for another three months. He has removed his tent on the vicarage he occupies for that period.

TO DISSOLVE BIG SHIPPING COMBINE

British Syndicate to Take Over English Oceanic Ships and Assets of Morgan Corporation.

By The Associated Press.
NEW YORK, May 29.—The International Mercantile Marine company, the great shipping combine organized by the late J. P. Morgan, will be dissolved if the stockholders at their meeting next month approve the proposal to sell to a British syndicate the British owned ships and assets of the corporation. It is then proposed to distribute all the assets of the International merchant marine among the stockholders.

At a special meeting of the directors of the Mercantile Marine company today, the following resolutions were adopted:

"That it is the sense of the board that in case the proposed sale of the British assets should be approved by the stockholders and the sale carried out, the International Mercantile Marine company should be dissolved and its assets distributed among the stockholders."

"That such distribution should be effected by a distribution in kind of stock and then certificates of the International Navigation company, limited, (which represent the British assets) and by a sale of the American assets and a distribution of the proceeds thereof."

TAX DODGERS LINGS \$400,000.

PARIS, May 29.—Now and then but not often—French treasury agents make a big tax dodger come through. The latest got, under the goading of Paris newspapers, was a telephone manufacturer, from whom the government took \$400,000.

15,000,000 FOR SHIPS.

PARIS, May 29.—France is planning to place orders for 15,000,000 worth of ships in Japan as well as large orders with the United States.

"The Garden of the Brave"

by SIR JOHN FOSTER FRASER.

I know that in the United States, just as in Great Britain, thoughts often travel to the torn and tortured battlefields where the poppies bloom in summertime above the dead. I know that many generous Americans are willing to provide money to restore the broken villages and lift up again the prostrate towns. In France it is sometimes thought it would be better if over that sad region a noble, silent forest grew as sentinel. But there comes to me a vision of that fearful land becoming bright as a beautiful garden—the garden of the brave.

In my vision I see miles and miles radiant with the lovely fleur de lys nodding above the plains where over a million brave Frenchmen are taking their long but glorious rest. I see the blooms of Belgium and of Italy, and oh, I see great bunches of American golden rod marking the spot where your own brave lads do sleep away from home.

In my garden of the brave there is a mighty avenue, all gold and crimson, maple trees making splendid sepulchre above the boys who came from Canada. And I find sheaves of wattle so that we shall

know what gallant Australia did. Yonder is a stretch of green, vivid, soft, all of shamrock, providing a coverlet over the Irishmen who played their true part. Oh, and in my garden I see roses, the roses of Lancaster and York, so that we may bow our heads where over 500,000 young Englishmen sleep side by side.

In my garden of the brave I see masses of purple heather; and standing amid it I hear the sound of the pipes, for the pipes are ever to be heard amongst the heather which cleaks the long slumber of my own fighting Highland men. That is the vision I often behold. It can never be real, and yet I would not shut it out.

The Florentine song, "Sweet and fit it is to die for one's country" But may I say that sweeter still and far more fit it is to live for one's country. And you Americans and we British will be best living for our countries if we make our lives worthy of the high opportunities which are before us today, making peace secure and abiding and tying the knot of friendship between our two great peoples, which, please God, shall not be loosened until the very day of judgment.

increased duties, imports of diamonds in 1918 was more than \$1,000,000, while it was about a half million in 1917.

WANT YOEMEN RETAINED.

WASHINGTON, May 29.—Secretary Daniels says the work of the 8,000 yeomen of the navy who seek to be wanted to keep some of them in the service indefinitely. At any rate he is preparing to recommend that a sufficient number be carried out the official work of the navy department be retained for a year.

NOTICE OF WRIT OF ATTACHMENT.

In the District Court of the Fourth Judicial District of the State of Idaho in and for Twin Falls County, Twin Falls County, State of Idaho, Plaintiff, vs. J. H. Wols, defendant. Notice is hereby given that on May 1, 1919, a writ of attachment was issued out of the above entitled court in the above entitled action, attaching the property of the above named defendant in the sum of \$146.10, together with interest at the rate of 7 per cent from January 1, 1918.

In witness whereof, I have hereunto set my hand and the seal of my office this 29th day of May, 1919.

C. C. SIGGINS, Clerk of the District Court.
By C. E. BOWEN, Deputy.

ALIAS SUBMIONS.

In the District Court of the Fourth Judicial District of the State of Idaho, in and for Twin Falls County, E. J. Finch, Auditor, as Trustee for Twin Falls County, State of Idaho, Plaintiff, vs. R. B. Leavitt, W. H. Jones, et al., Defendants. On the 15th day of May, 1919, the above named plaintiff, a Corporation, Twin Falls North Side Land & Water Company, a Corporation, and The Commercial and Commercial Trust and Savings Bank, a Corporation, Defendants.

The State of Idaho sends greetings to R. B. Leavitt, Twin Falls North Side Investment Company, Twin Falls North Side Land and Water Company, and The Commercial and Commercial Trust and Savings Bank, the above named defendants.

You are hereby notified that a complaint has been filed against you in the District Court of the Fourth Judicial District of the State of Idaho, in and for Twin Falls County, by the above named plaintiff, and you are hereby directed to appear and answer said complaint within twenty days of the service of this summons.

The nature of the cause of action alleged against you in said complaint is that the County of Twin Falls, State of Idaho, has a lien against Lot Fifteen (15), Block Seventy-eight (78) of Hollister Township, as the same is listed and of record in the office of the County Recorder of Twin Falls County, Idaho, for the delinquent taxes of the year 1916, in the sum of \$3.38 with interest at twelve per cent per annum, from January 10, 1918; for the delinquent taxes of the year 1917, in the sum of \$2.58, with interest at twelve per cent per annum from January 7, 1918; and for the delinquent taxes for the year 1918, in the sum of \$4.87, with interest at twelve per cent per annum from January 10, 1918; and that the plaintiff, in behalf of said Twin Falls County, is demanding judgment for said amounts, plus \$25.00 attorney's fees and cost of suit, including \$1.00 disbursed for abstract of title, and that a decree be entered ordering the sale of the premises herein described for the purpose of collecting the amount of the judgment so obtained.

Witness my hand and seal of said District Court this 10th day of April, 1919.

C. C. SIGGINS, Clerk.
By C. E. BOWEN, Deputy.

FRANK L. STEPHAN, Attorney for Plaintiff, Residing at Twin Falls, Idaho.

Market News

Live Stock

Grain

OMAHA, May 29.—Hogs, receipts 14,000; market steady to strong; closing weak, mostly 10c lower. No live stock market Friday. Top 20.10; bulk \$15.70 to \$19.00; heavy, \$19.00 to \$21.00; medium, \$18.40 to \$21; light, \$18.00 to \$20.00; Light light, \$15.25 to \$19.75; heavy packing sows, smooth, \$19.75 to \$20.50; packing sows, rough, \$18.00 to \$19.75; pigs, medium, \$17.75 to \$18.75.

Cattle—Receipts 4000; market best and butcher cattle, 25.00 to 25.50; lower; stockers and feeders weak. Best steers medium and heavy, choice and prime, \$12.25 to \$16.25; medium and good, \$12.25 to \$14.50; common, \$10.50 to \$12.50; light, good and choice, \$12.50 to \$14.25; common and medium, \$9.50 to \$11.00; heavy, \$11.00 to \$12.50; stockers, \$15.50 to \$17; veal calves, light and handy weight, \$11.50 to \$12.50; feeder steers, \$10.00 to \$11.75; stocker steers, \$7.50 to \$11.50; stocker calves, \$7.75 to \$11.50.

Sheep—Receipts 2500; market steady; lambs, 14 pounds up, \$11.75 to \$14.35; lambs, 6 pounds up, \$12.75 to \$13; lambs, culls and common, \$9 to \$12; spring lambs, medium, \$17.50 to \$18.50; yearling wethers, \$11.00 to \$12.50; ewes, \$9 to \$10.35; ewes, culls and common, \$6.90.

CHICAGO, May 29.—Wheat, declines in the corn market today resulted from excellent weather conditions and from prospects for large receipts during the remainder of the week. May delivery was especially weak. Sellers much outnumbered the buyers. Opening prices, which ranged from 1/2 to 1/4% lower, with July at \$1.64 to \$1.64 1/2 and Sept. \$1.54 to \$1.54 1/2, were followed by material further setbacks.

Oats followed with corn. After opening 1/2 to 1/4% including July at 77 1/2 to 77 1/2, the market continued to sag.

Subsequently, evening up for the holiday tomorrow led to rallies, and the market closed nervous at the same level yesterday's finish to 8 1/2c down, with July \$1.44 to \$1.45, and September \$1.65 to \$1.65 1/2.

Pork rose to 65c per barrel, a cost well above the civil war record.

NEW AIRSHIP'S SMALLEST, COST LESS, CARRY MORE

BARROW, May 29.—Smaller airship, coating lead and having greater power and durability are being evolved in England even before the huge dirigibles built during the past year are ready for service. Victoria is now building a machine with a cubic capacity of 1,200,000 feet which will carry a smaller crew, cost 25 per cent less than the 103 and its sister ships with 2,000,000 feet capacity and operate for 40 per cent less. The hull will have streamlines which will make for greater speed. Four cars will be attached.

SOMEWHAT PARTY IN ITALY IS AGAINST BOLSHIEVISM

MILAN, May 29.—Italy's soldiers propose to have something to say in the government. They have organized the "marchista" party. The principals of the party are democratic but they are opposed to the socialist group of Italy which has thrown its strength to bolshievism. They are also opposed to those groups which stood for Italy on the side of the allies, and are outraged in their membership.

THEY FIGHT ON SKIS ON ANCHANGEL FRONT

CHRISTIANA, May 29.—Skil regiments have played a big part on the Anchangel front during the winter. And skil regiments have bested the bolshievs and Bolshievist supplied during the months of heavy snow. The allies first adopted the skis and trained several regiments to maneuver on them. Croats organized a skil brigade of Ezechimians and Red Finns. The bolshievs, who well supplied with machine guns and move rapidly from point to point.

MARRY EARLY MOVEMENT PROPOSED IN AUSTRALIA

SYDNEY, May 29.—Australia is considering a "marry early" campaign and perhaps a bonus to young mothers to overcome the declining birth rate. In 1918, only 746 of 1000 women on the side of the preceding 10 years was 42 to 1000.

SEALED BIDS FOR EXCAVATION INVITED

The Board of Trustees of Independent School District No. 1, of Twin Falls, will, prior to 8 o'clock p. m. June 2nd, 1919, the time fixed for the opening of the same, receive at their office in the high school building, sealed bids for the excavation for the addition to the high school building.

100,000 SUMMER SKIRT PATRIOTS WASH BALVAAGE

LONDON, May 29.—Enough linen to make more than 100,000 women's skirts is being sold by the savings department of the nation. Only one of the linen is fine enough for pocket handkerchiefs. However, these women will not have the chance to go down and buy a skirt pattern direct from the government. The department will sell not less than 40 to 100 yards to a customer.

HALF THE PEOPLE DIVORCED IN BRITAIN MARRY AGAIN

LONDON, May 29.—Half the people divorced in England last year re-married, figures of the registrar general show. Other interesting statistics are revealed in his report. One boy married at 15; the youngest girl to marry was 14. Two 17-year-old boys

MANY HOMES IN MONTH'S LISTING

Hope to Have Big Structures, Such as High School Included in List.

As anticipated in The Chronicle last week, this month has been reported on for the issuing of building permits by the city clerk's office. With only one day more in which permits can be secured, 30 already have been granted for construction work at an estimated value of \$14,000.

Permits to do building work in Twin Falls was first made necessary by an ordinance becoming effective December 1, 1910. Since that time the number issued has varied from one to 30, granted this month. Previous to this month June, 1913, when the right to construct the federal building was given, was the record period.

The feature of this month's record is the large number of permits granted for the construction of dwellings. Of the 26 given only two were for large structures, a point of \$20,000 for the Allen Oil refinery and one of \$15,000 for the Magel garage. Five of the permits are for additions to dwellings or for improvements to homes already built at a cost of from \$150 to \$100. The other six are for new houses. This is not a record period, though; for the construction of new dwellings, as the month of March, 1913, just previous to the entrance of the United States into the war, exceeded this month for dwelling construction. Thirty permits were given during that time, 28 of which were for new homes, but that month's total valuation was only \$72,300.

In an effort to make this record month stand out even more than it does City Clerk Minick stated he will endeavor to have several big construction procure permits on Saturday. The high school building, the new building and the improvements to the ball park are among the structures contemplated which Mr. Minick says to have added to the month's

today through a parliamentary vote by Representative Blanton, democrat, of Texas. Unless some other special provision is made immediately, supporters of the appropriation had the prospect of being forced to suspend operations even more strictly than it did in March after the sixty-fifth congress failed to make financial provision for it or to disband completely.

The appropriation was termed unauthorized by law by Representative Blanton and his point of order was sustained.

The deficiency bill was amended to direct the civil service commission to make reference to application of men discharged from military service for government positions.

ARMY COSTS ARE BEING DISCLOSED

Pay Great Britain \$22,000,000 for Transporting Soldiers to France—Czechoslovak Get Five Million

WASHINGTON, May 29.—(By Associated Press.)—The Associated Press has learned that the bill for transporting a million American soldiers across the Atlantic in British ships is approximately \$22,000,000. This, and the fact that President Wilson authorized \$10,000,000 of his special fund—and probably more—to the Czechoslovak, were the two chief developments of today's hearing of Secretary Baker, General March and other war department officials before the house military committee.

The army appropriations bill which failed at the last congress was under discussion.

"The president assigned two of the Czechoslovak corps, at the end of March, from money at his disposal to the extent of five million dollars and I think he has given them almost as much, so that the Czechs could get away. The charge was to be ultimately against the Czechoslovak country which the allies proposed to organize in central Europe. It is a regular debt-like any other debt between nations."

"This, so far as it is known, was the first information received by the Czechs from the president's fund.

"The British bill for transporting American troops caused quite a little discussion. Brigadier General Hines, director of transportation, said Great Britain originally asked \$100 for transporting each soldier to France but the cost, finally was reduced to \$1.75. Thirty-five million dollars already has been paid. Congressmen asked if the general did not think the charge excessive, but he replied he believed the cost of transporting troops in American ships would turn out to be higher.

WILL VISIT BELGIUM.

By the Associated Press.
PARIS, May 29.—President Wilson today through Brand Whitlock, minister to Belgium, informed King Albert that he had not forgotten his promise to visit Belgium. Mr. Whitlock said the president did not fix any time for the trip.

DETAIL PLAN FOR MOVING WHEAT CROP

Permits Will Be Issued to Shippers in All Fields.

BELIEVE PLAN BETTER THAN AN EMBARGO

Contemplates Shipments As Rapidly as Cars May Be Unloaded at the Terminal Points.

WASHINGTON, May 29.—Plans for the transportation of a permit system to control the movement of this year's through grain crop are being worked out by the railroad administration contemplate the appointment of grain control committees at each primary market, comprised of a representative of both the operating and traffic departments of the railroad administration and a third party representing the transportation division of the United States grain corporation.

Shippers will apply to the grain control committees at the market to which they send their product.

Will Furnish Cars.

"A copy of the permit when issued will be transmitted by the grain control committee to the railroad by which the shipment is to be made so that necessary action may be taken to furnish cars.

"The system is similar to that which was used in clearing freight congestion last year.

"It will be really appreciated," in statement by Director General Hines said, "that not only producers and shippers of grain will be benefited by this regulation, but the entire shipping public will benefit, in that the channels of commerce will be kept free of congestion, car detention largely eliminated and the maximum use of all equipment more highly developed."

Flexibility is Necessary.

"Embargoes without the permit features have proved highly unsatisfactory. An embargo temporarily stops all traffic. It lacks flexibility. The permit system, as applied to grain movement, contemplates a regular flow of grain to each market, to the maximum ability of the consignee facilities at the terminal to unload. It also regulates the current movement according to the ability of the railroad to handle. It contemplates a more equitable distribution of equipment with consequently greater benefit to all shippers. It avoids congestion at terminals and in transit and it consequently results in a freer and heavier movement of grain from

the farms because it is restricted only by the available unloading facilities at the markets."

(Good weather and decreasing business due to the cessation of shipment of wheat supplies have tended to bring up a large car surplus, which will be mobilized in the grain belt by the railroad administration as fast as needed. It is expected that the movement of the new crop will be limited neither by facilities than by railroad equipment.

TO PAY HONOR TO DEAD SERVICE MEN

Graves of Heroes of All American Wars to Be Decorated by the G. A. R.

Citizens of Twin Falls will join with veterans of the Civil, Spanish-American and Great Wars in the observance of Memorial day today.

Stores and public places throughout the city will suspend operations all-day—May 30—this morning. The Twin Falls post, American Legion, will conduct ceremonies. The Twin Falls Post will provide a bugle and firing squad. The graves of veterans of all America's war buried here will be decorated.

In the afternoon at one o'clock the Twin Falls band will give a band concert at the park. At three o'clock a program under the auspices of the ladies of the G. A. R., assisted by a contingent of the local American Legion, will deliver the address for the day.

Every effort will be made to get out as large a representation of the organizations as possible. President Arthur Alworth of the American Legion stated last night his hope to see as many service men as can so participate in today's program, marching if possible. It realizes that it will be hard for many of the boys to be present in uniform for various reasons, but I believe that it is due to members of the G. A. R., Sons of Veterans and the committee of our organization to be present if possible.

Those who wish to France know that this is the one occasion each year when we can do honor to our 'buddies' who will remain over there forever.

Following is the program to be presented by the band concert:

Star Spangled Banner
March "Outlook"
Jewell Medley: Overture "Songs of the Nation"
The Star Spangled Banner
Overture "Bridal Rose"
Lavallo Overture of the Stars and Stripes
March "The Liberty"
Palm Grand Fantasia "Southern Memories"
Hecker March, "Path of Honor"
Jewell

Miss Mary Hartman of Los Angeles, who has been in Twin Falls for a few days visiting friends, left last evening for Denver.

GENERAL STRIKE DUE IN TORONTO

Sympathetic Walkout Announced At Midnight to Be Effective This Morning.

By the Associated Press.
TORONTO, May 30.—A general strike in sympathy with the metal workers will go into effect here at 10 o'clock this morning. The final call for the walkout came shortly after midnight when the United Brotherhood of Carpenters and Joiners of America, committee of 15 declared the offer of the employers' in the metal trades to arbitrate the question of a 44-hour week

QUIET IN EDMONTON.

EDMONTON, Alta., May 29.—Through the work of the citizens committee at street car service in Edmonton was resumed today, the third day of the strike called in sympathy with the Winnipeg strikers.

CALGARY DOES BUSINESS.
CALGARY, Alta., May 29.—The Alberta Federation of Labor has issued a call for a general strike vote of all unions in the province, the result of which will be announced in a few days.

Calgary in the third day of strike activities is continuing business almost as normally.

CLEMKS GO TO WORK.

WINNIPEG, Man., May 29.—Railway mail clerks of the Winnipeg division who went on a sympathetic strike Monday night are returning to work. Late this afternoon the strikers appeared before Senator Gleason Robertson, federal minister of labor, and asked permission to resume their work. They were allowed to do so, having made application before the 24-hour ultimatum of the government had expired.

TRAIN PORTERS STRIKE.

CHICAGO, Oct., May 29.—Strikes having been called porters and waiters from the Canadian Northern trains, passengers on trains going through here have had to make their own beds and serve their own meals. The dining car equipment has been placed at the disposal of the passengers.

Court News

PARENTS ARE ARRESTED.
Warrants were sworn out yesterday for the arrest of Mr. and Mrs. J. C. Linton of Tuhl at the request of Insulation Officer Ault. It is alleged that the pair have allowed their minor children to make for themselves and have not furnished them sufficient sustenance.

ACTS ON DEMOURNERS.

Judge W. A. Babcock ruled on several demourners yesterday. Gray E. Milner were permitted to withdraw their demour to the action brought against them by the Peterson Department store and were given 10 days to file an answer. William Bow-

ling was allowed five days to file an answer after he had withdrawn his demour to the action brought by William Vogel.

DEMOURER ARGUED.

A demour in the case of Freeman against Grims was argued in the probate court yesterday afternoon. The court reserved its decision until today.

HISST SIMS CASE.

Judge W. A. Babcock yesterday resumed the case of the state against Harold M. Sims. The matter will be brought to trial on June 9. O. M. Booth of Pocatello was entered as attorney in place of E. M. Sweeley for Mr. Sims.

MEXICAN FOUND GUILTY.

Joe Gomez was given a hearing on a charge of petty larceny. He is a suit of clothes from a department store here. The man was found guilty. He will be sentenced Saturday.

DEFAULT SET ASIDE.

The default in the suit for divorce brought by Charles E. Simons against Amelia Simons was yesterday set aside on request of attorneys. The demour to the action was sustained and the plaintiff was given ten days in which to amend.

GLASS OF SALTS IF YOUR KIDNEYS HURT

174 Less Meat If You Feel Back-achy or Have Bladder Trouble.

Meat forms uric acid which excites and overworks the kidneys in their effort to filter it from the system. Regular courses of meat must flush the kidneys occasionally. You must remove them like you remove your hair; removing all the acids, waste and poisons, else you feel a dull misery in the kidney region, sharp pains in the back or sick headaches, dizziness, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy; full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush out the body's uric acids get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act firm and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice and has been used for generations to clean and stimulate sluggish kidneys and ease bladder irritation. Jad Salts is an invigorating, harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

This stormy day had a silver lining of love!

ADOLPH ZUKOR PRESENTS

BILLIE BURKE

(by arrangement with F. Ziegfeld, Jr.)

COST REDUCTIONS SEEM IMPOSSIBLE

Street Railway Systems—Must Seek Relief in Other Directions, Is Official View.

By the Associated Press.
WASHINGTON, May 29.—Belief that the country's street railway systems will have to seek relief in directions other than in cost of labor and material was expressed by Professor Irving Fisher of Yale, and T. S. Holden of the department of labor at a hearing on the public utility situation held today by a committee of the chamber of commerce of the United States. The present generation, Professor Fisher said, probably would see little, if any, reduction in prices, because of the inflationary and anti-inflationary. Mr. Holden declared building materials were the cheapest commodities on the market today.

Witnesses asserted street railways throughout the country were in critical condition and that unless relief in some form was given they would be the hands of receivers.

DROP APPROPRIATION FOR EMPLOYMENT SERVICE MEN

WASHINGTON, May 29.—Appropriation of \$272,000 for continuance of the operations of the United States employment service will next July be eliminated from the Federal deficiency bill as passed by the house
