PREMIER ORLANDO RESIGNS WHEN REFUSED A VOTE OF CONFIDENCE BY PARLIAMENT

Effort to Force Secret Session Failure, Latin Member of "Big Four" Steps Down as Head of Government—King Reserves Acceptance.

Declares Peace Problems Are Solved in a Manner Wholly Satisfactory to Delegation—Urges Separation of Internal and External Affairs.

ROME, June 19.—The Italian government resigned this evening following an adverse vote against it in the chamber of deputies.

Premier Orlando, in announcing his resignation and that of the cabinet said King Victor Emmanuel had reserved decision as to acceptance.

The chamber of deputies had, by a vote of 259 to 78, rejected Premier Orlando's motion in favor of discussing the question of confidence which related to the foreign policy of the government, in secret session.

Prior to the vote Premier Orlando in addressing the chamber, said: "Italy's peace with Germany and Austria has been solved in a manner with which, on the whole, I feel satisfied."

"Insisting on the necessity of a secret session, the premier declared the government needed greater confidence and would treat his motion for a secret session as a question of confidence.

The socialist immediately opposed this.

Facilities Aggravated.

Signor Orlando said Italy's position had been considerably aggravated by international events during the second fortnight of April. He referred to President Wilson's message regarding the League of Nations.

"The Italian delegation at the peace conference, the premier added, had followed this policy:

"First—Maintain with firmness all the essential points of the Italian attitude without which Italy is convinced peace will be neither just nor adequate to the immense sacrifices suffered.

"Second—Remain faithful in your duties toward the allies.

"Third—Avoid any blind form of obstinacy. Inasmuch as, indeed, facilitate conciliatory suggestions capable of producing accord in the conference over the problems concerning Italian frontiers."

Urges Separate Discussion.

Signor Orlando urged parliament to separate the discussion of foreign affairs from the international policy of the country, the latter being virtually absorbed in the grave question of the high cost of living. Past history showed, he said, that international perturbations were transitory and that equilibrium soon would be regained.

In summing up the situation, Signor Orlando said:

"The deep threat throughout the world tends to pessimism such as the German experience during the war. Immediately after the armistice was signed the peoples in general, Italy in particular, never went through such dark days as now. This is the most acute phase of the immense crisis arising from the war. Nevertheless, I am not discouraged believing as I do that the situation gradually will ameliorate."

TAFT DECLARES ELECTRIC LINES IN BAD SHAPE

NEW YORK, June 19.—William Howard Taft, as the first witness today at the Federal Electric Railway commission's hearing into the problems of public utility finance and service, said his experience as a member of the war labor board had shown that the car lines were in a precarious condition because of lack of funds and that high rates or the introduction of the "zone system" are imperative to avert chaos and possible loss of \$5,000,000,000 invested in traction securities.

CHINESE WILL SIGN THE TREATY WITH RESERVATIONS

PARIS, June 19.—The Chinese delegation to the peace conference remains firm in its resolve to sign the German peace treaty with reservations. When the German rights in Shantung were awarded to Japan instructions were received by the delegation from the president of China and the Chinese cabinet not to accept this settlement. These instructions have not been altered.

CONVENTION TO GUIDE STRIKERS

By the Associated Press.

CHICAGO, June 19.—Long distance telephone conferences were held late today between union leaders here and representatives of the striking commercial telegraphers in Atlantic City, where the American federation of labor is in convention.

Officers of the Commercial Telegraphers' union declined to discuss the outcome of these conferences, but it was expected that early action would be taken by the convention.

The next move in the strike, which union men claim involves 25,000 operators in addition to some 80,000 railroad telegraphers who are refusing to handle commercial telegrams.

Reports here showed little change in the conditions requiring striking of telegraph operators and linemen in western states.

NON-PARTISAN LEADERS MUST GO TO TRIAL MONDAY

By the Associated Press.

FARMINGTON, Minn., June 19.—Judge E. C. Dean of the Jackson county district court today refused the request of A. C. Townley and Joseph Gilbert, president and organizer of the Non-Partisan league, respectively, charged with conspiracy to violate the state distillery law, to postpone trial for two months. The trial is set for 2 p. m. Monday.

BUILDING PERMITS FOR DAY \$12,100

Building permits were issued yesterday to Carl Junger for \$2000 for remodeling a building, to J. E. Walte for \$1800 for a residence in Golden Rule addition and to J. E. White for \$8000 for a residence in Blue Lakes addition.

GARRANZISTAS WILL PROTECT AMERICANS

Agular—Assure—State—Department That Proper Precautions Will Be Taken.

By the Associated Press.

WASHINGTON, June 19.—Steps to protect American citizens in the Mexican state of Chihuahua from possible rebel attacks have been taken by the Mexican government, General Candido Aguilar, confidential ambassador from Mexico to the United States, informed the state department today. General Aguilar expressed his satisfaction at the handling of the recent incident at Juarez, centering about the crossing into Mexico of American troops.

Following his final conference with Acting Secretary of State Polk and Ambassador Fletcher, General Aguilar issued a statement as follows:

"The Mexican government has sent a sufficient amount of troops under the command of General Manuel M. Diguera to northern Mexico to fight Villa. American citizens and other foreigners residing in the state of Chihuahua are being removed to well-guarded towns in order to place them out of danger. General Diguera has been instructed by the government to remove to Laredo, on special trains, the foreigners who may wish to go there, thus enabling them to reach in safety the border of the United States.

It was learned from official sources today that the Villistas captured a vast amount of ammunition in the recent attack on Juarez. Nine thousand pounds of ammunition was shipped across the border from El Paso during the week preceding the attack. It is said, all of it consigned to the Carranzista government. Of this Villa is said to have obtained at least one ton.

This is said to have been the real purpose of the Villista attack.

Officials of the state department explained today that the United States authorized the shipments across the border at Carranza's request and that the ammunition was delivered to the federal representatives in Juarez the disposition of the ammunition was no affair of this country. Every effort was made by this government to keep

Count von Bernstorff Urged as Man Who Should Subscribe Signature to Document, Thus Becoming the "Most Hated Man in All Germany"

BERLIN, June 19.—A dispatch to the Neue Berliner Tageblatt from Weimar reports Mathias Erzberger, head of the armistice commission; Gustav Noske, minister of defense; Herr Wissell, minister of economics; Herr Schmidt, food minister; and Herr Bauer, minister of labor, all are in favor of signing the peace treaty, while 90 per cent of the majority socialists, 75 per cent of the clericals, 30 per cent of the democrats and the entire independent faction are ready to yield. The correspondent predicts the cabinet will resign.

FOGH PREPARED TO GO TO BERLIN

PARIS, June 19.—Marshal Foch is forming one front against the Germans from the Rhine to the Danubius. It is understood that he is informed and will henceforth extend his command over the Czech-Slovak, Rumanian and Polish armies.

STOP MOVEMENT OF HUNS FROM COBLENTZ INWARD

COBLENTZ, June 19.—The granting of permission to Germans of military age to travel to unoccupied Germany has been stopped by orders of the intelligence officers in view of the uncertainty of the peace situation. Newspapers from the unoccupied zone assert all army material within the Rhineland Westphalian industrial territory and other districts opposite the bridgehead has been withdrawn. There have been some German troop movements opposite the Americans in the last few days. There have not been in great numbers, however, and the Americans do not expect opposition if they start ahead. But they will go forward, prepared for real war and all its consequences.

NOSE TO BE PREMIER

Latest reports indicate the appointment of Gustav Noske as premier, which, it is considered, will be equivalent to the setting up of a dictatorship.

The Spartacists are seizing the occasion to tie up many of the railroads with the intention of imprisoning the government at Weimar.

MAY ASK EXTENSION

PARIS, June 19.—Advices received in American peace conference circles in Paris from Weimar that there may be a change in the personnel of the German peace delegation and that a short extension of the time limit for signing the peace treaty may be requested by the Germans, but that the Germans will sign the treaty.

CHANGE IN PERSONNEL

PARIS, June 19.—The amended text of the draft of the peace treaty with Germany shows a change in the Canadian plenipotentiaries. In the original document they were named as Sir Robert Gordon, prime minister, and Sir George Foster, minister of trade and commerce. In the amended text Charles J. Doherty, minister of justice, is named with Sir George Foster.

ARF FORCED TO SIGN

COBLENTZ, Wednesday, June 19.—In an article headed "forced to sign," republished in Coblenz from newspapers printed in unoccupied Germany, Representative Vollmann, a leading social democratic member of the national assembly, says he believes Germany will accept the peace conditions.

"Q" EARNS LESS FOR THE STOCKHOLDERS DURING 1918

By the Associated Press.

CHICAGO, June 19.—Although the government guaranteed the Chicago Burlington and Quincy railroad \$2,250,000, the annual report of the company issued today shows that it earned only \$12,931,474 out of which the management saved \$1,000,000 for stockholders \$2,729,499, which after deduction of \$611,892, made a net return on stock of \$19,207,587.

LADIES OF G.A.R. INSTALL OFFICERS

National President Declares Meeting Exceptionally Successful—Twin Falls Praised.

The Ladies of the G. A. R. closed their three day convention yesterday by installing officers elected Wednesday. The exercises were held at the high school auditorium in connection with the installation by the G. A. R. and W. R. C. Mrs. Emma Berry acted as installing officer. Resolutions expressing appreciation on the part of the visitors to the local organization and to Twin Falls citizens were adopted.

Mrs. Rose E. Houghton, national president of the Ladies of the G. A. R., said yesterday: "We have completed a wonderful convention. It was exceptionally successful. We have worked in harmony with the other organizations and the spirit has been splendid. I have never yet attended a convention where I have received such a warm and friendly welcome as I have at Twin Falls, both by the members of our order and the citizens of the community. I am glad to express my appreciation of the delightful time that has been accorded me during my three days' stay here and it will remain a bright spot in my memory."

It will next attend the state convention in Michigan, then in New York, New Jersey and Washington, D. C. "I will then come back to my home in Seattle. I enjoy my travels through the country, but I am a little partial to Twin Falls."

Mrs. Houghton and most of the out-of-town delegates to the convention left yesterday afternoon.

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If Your Back Hurts or Bladder Bothers Drink Lots Of Water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they attain from 1,500 quarts of acid and waste so you can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmaceutical about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of lemons and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and to neutralize the acid in the urine so it no longer is a source of irritation, thus causing migratory trouble.

Jad Salts is inoperative; cannot injure; makes a delightful afternoon lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and a doubt you will wonder what became of your kidney trouble and backache.

GUARD DEMONSTRATES ITS ABILITY TO PROTECT BIG CITY

By the Associated Press.
NEW YORK, June 19.—The 12th regiment of the New York state guard demonstrated tonight what they could do by way of protecting the city in an emergency, when they answered a test mobilization call and quickly threw columns of armed guards about public buildings, power houses, car-

bars, public utilities and the homes of prominent citizens.
The guardmen carried out the practice drill so grimly that in many quarters it was believed they were to remain on guard duty to protect the city from "red" outbreaks.

HUN DYE INTERESTS LOOK TO AMERICA

Choate Declares Protection Is Necessary to Prevent Dumping American Industry.

By the Associated Press.
WASHINGTON, June 19.—German dye interests, barred from France and England, look to America and China for disposal of their large surplus of dye manufactured during the war. Joseph A. Choate, Jr., counsel for the Chemical Foundation, Inc., told the house ways and means committee today in urging a licensing system for the protection of the American dye industry.

Mr. Choate said anti-dumping laws would not suffice because it was no easy for the Germans to conceal their dye shipments that it would be practically impossible to detect all of them.

Mr. Choate read to the committee the report on the outlook for the German dye interests in America written six weeks before the United States declared war on Germany by Dr. Hugo Schweitzer, active head of the American branch of a great German house.

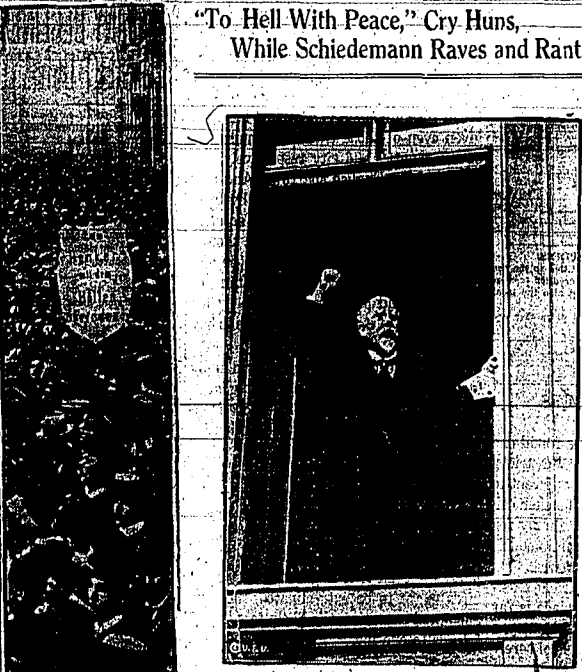

In the report, which was forwarded to Count von Bernstorff, Dr. Schweitzer declared the German dye industry would have no difficulty in holding the American market in the face of the 40 per cent ad valorem duty, but that the specific duties imposed under the law would be mere troublesomeness.

ROTARY DISCUSSES LABOR PROBLEMS

Varied Questions Brought Up—World Compel Arbitration in All Disputes.

By the Associated Press.
SAIT LAKE, June 19.—Action by the International Association of Rotary Clubs, in annual convention here, on resolutions on the relationship between employer and employe, will be taken tomorrow, following the address by Dr. Henry Suzzalo, president of the University of Washington, to whom has been assigned on the convention program the question of "capital, management, labor, and the public."

A resolution, offered by the resolution committee at this morning's session, which called for compulsory arbitration in disputes between capital and labor, caused a lengthy and spirited debate, with final decision to postpone action until tomorrow, after the address of Dr. Suzzalo has been heard.

A ruling by the chair, that an error had been made in allowing the resolution to be introduced today closed debate, although the discussion was spirited up to the time of this ruling.
The report of the committee on employment of discharged soldiers and

ROTARY DISCUSSES LABOR PROBLEMS

allies recommended that the Rotary clubs join in every movement to turn the service men speedily to employment.
Resolutions offered today included one recommending higher pay and more efficiency, for public school teachers and one urging the teaching of thrift. Another resolution, offered by the Rotary club of Charleston, W. Va., would request the editor of "The Rotarian" to discontinue the use of so-called simplified spelling.

GIRL CHARGED WITH AIDING LOOTING OF BANK RELEASED

By the Associated Press.
LINCOLN, Neb., June 19.—Miss Merin M. Hansen, of Salina, Kansas, arrested here last night on the charge of complicity in the alleged looting of the failed bank of Salina, was released today without bond to Lincoln friends who wished for her appearance. The sheriff from Kansas expected here tomorrow to take Miss Hansen back to Salina. She said she would not resist extradition if the papers demanding her return were in proper form. Miss Hansen told Assistant Attorney General Maurice McNeill of Kansas, who caused her arrest, that she was innocent of intentional wrong doing in making out alleged fraudulent certificates of deposit and that, in her work she was following the directions of her superiors.

DENIES GOMPERS SPEARS FOR LABOR ON DIX LAY

By the Associated Press.
WASHINGTON, June 19.—Denying that Samuel Gompers, president of the American Federation of Labor,

spoke the general sentiment of organized labor in his opposition to prohibition, Representative Cooper, republican, Ohio, in a speech in the house today declared the liquor traffic aided by German brewers, threatens to ally itself with anarchy and Bolshevism unless it is able to secure some concessions from the government and prohibition.

Mr. Cooper declared "the German brewers can howl their heads off, they can spend their millions, but prohibition is here and it is going to stay regardless of any action or threats on their part."

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to Keep Her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wetly's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply rub your comb or a soft brush with it and draw through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wetly's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft and lustrous appearance of abundance which is so attractive. This ready to use preparation is a delightful and safe result for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

HOUSES FOR TEACHERS

The state of Washington has found one way to keep its teachers in rural districts. A comfortable cottage is built adjacent to each school house, where the teacher can live, rent-free have his or her family for companionship, and enjoy a real home life which would be impossible otherwise.

"Boarding round" is a precarious existence. Often boarding in one place is far from pleasant or home-like, and many a good teacher has given up a school sorely in need of competent instructors because living conditions were intolerable.

It is going to be more and more of a problem to keep the teachers in rural districts. Cities will offer big pay and more life appealing to persons of education, and it will be necessary for the country school to meet these conditions by offering such comfort for the teacher as will make life in the isolated territory attractive.

In fact, comfortable housing arrangements, free or at reasonable prices, might well be considered in every community as one of the factors tending to induce teachers to come and stay.

WOMEN AND TRACTORS

There is no branch of farming which women are unable or unwilling to undertake. The latest field of agricultural endeavor to be entered by the women is that of running the big farm tractors and farm power plants.

Ever since the Kansas Agricultural college opened its farm motors school it has had women students. This year it is graduating four women, and expects to have 20 or 30 more completing its short summer course preparatory to fall plowing.

Says the professor of farm engineering at the college "All the women we have had in our classes do good work, the equal or superior of the men enrolled with them. They go at the work in a systematic, energetic way and are not in the least afraid of grease and dirt. In all trouble work the women are especially good at analyzing the difficulty and remedying it."

Most of these women have gone into the work to help solve the labor problem on their husbands' farms. But if the need for extra farm help continues and farming remains as popular among women as the growth of the land army indicates, the "hired woman" may come to be a customary helper in the fields, as well as in dairy and farm kitchen.

GOOD BIRDS

Ornithologists, sportsmen-lovers of wild life and agricultural experts of late years have been co-operating in a great propaganda in behalf of the birds. Starting with a desire to stop the senseless and thoughtless slaughter of song and game birds, they soon got down to a utilitarian basis, arguing for the preservation of the birds because of their practical value to man.

It is along this line that they have done their most effective work—more people have been moved by interest than by sentiment. And the campaign has gone farther than anyone might have expected, as accurate observation developed facts about

birds that had formerly been ignored.

It has been found that nearly all of the feathered creatures of the woods and fields are of service to the human race because they feed on insect pests and other destroyers of food crops. A good report has been given even of those traditional nuisances of the country and city respectively, the crow and the English sparrow. And now some expert caps the climax by pronouncing the hated "hen-hawk" actually the friend of the farmer, because, though he may kill an occasional chicken, he amply makes up for it by his depredations of field mice and other rodents and by his consumption of insects when he fails to bag larger game.

Perhaps we shall be obliged yet to apply to birds the legendary Kentucky gentleman's judgment on whisky: "There is no bad whisky; some is better than others—that's all."

Can it be that there are really no bad birds? At present, that seems the safest assumption. Certainly, for the non-expert citizen, it is safer and wiser to let them all live than to try killing off those of ill repute; for even if it is granted that some birds ought to be exterminated, the self-appointed executioner is likely to slay ten friends to one foe.

HELP FOR THE DRUG ADDICT

That there are more narcotic addicts than consumptives has been often stated. Dr. E. F. Bishop, clinical professor of medicine in the New York Polyclinic, thinks it may quite probably be true. He is sure, at least, that neglect of proper education of the youth as to danger of such addictions is "largely responsible for the illicit traffic in narcotic drugs." He makes a pointed suggestion as to the direction some of this education might take:

"Every new addict-made of an adventurous youth means a new customer for the smugglers and venders. If that adventurous youth had been taught the facts—if he thought of addiction as he thinks of tuberculosis, instead of it as being something vague and surrounded by a halo of adventure and experiment—he would not fall an easy victim to the agents of the trafficker, male and female."

Dr. Bishop regards narcotic addiction as a disease. The most urgent problem in dealing with it is that "of securing intelligent, competent and humane advice and treatment." In the past, he maintains, "in the minds of most people it had been 'What shall be done with, or what shall be done to, the narcotic addict to make him stop using drugs?' For the last two years it has been gradually becoming, 'What can be done for the narcotic addict, so as to relieve him of the physical necessity of using drugs?'"

"In this change of attitude lies the hope for the future. Some of the narcotic addicts will have to be done with or done to. There are a comparatively few inherently irresponsible, vicious or defective. They should be taken care of irrespective of their addiction. The great mass of addicts, however, need something done for them. They are clinical problems of internal medicine, victims of a definite disease, controllable and arrestable."

Little by little light is beginning to filter through the opacity of general ignorance on this important subject.

Considering the trouble the "big four" have had in arranging the world, it's probably a good thing there are no more big fellows over there. If there were a "big forty" it would take about a hundred years to straighten things out.

If consideration of the peace treaty could only be postponed till next winter, how much more comfortably and sensibly everything would be settled!

Really, the United States senate is beginning to act up like a regular peace conference

COMPANY DECLINES TO MEET DEMANDS

Telephone Operators Remain On Strike in California and Nevada.

By the Associated Press. SAN FRANCISCO, June 19.—Representatives of striking telephone workers in California and Nevada and company officials conferred here today, but, according to understanding which would end the strike, it was announced late today by strike leaders.

Delegates to the conference quoted W. P. Fullerton, plant superintendent of the telephone company, as having said:

"Of course you understand we cannot consider wage demands you have presented in full."

"This was interpreted by some of the workers as amounting to a refusal of the demands while other workers believed it indicated possibility of a settlement at a conference scheduled for tomorrow."

SAN FRANCISCO, June 19.—Failure to arrive at any understanding which could end the present strike of telephone workers in California and Nevada, was announced late today, by representatives of the telephone operators and workers at the conclusion of a conference with telephone company officials.

Union officials said they had submitted their demands and that the company had declined to accept them.

Delegates representing the Pacific Northwest were said to have intimated that all telephone operators and electrical workers in Oregon and Washington would be called on strike if the telephone company maintains its present attitude.

Another conference between the committee representing the workers and officials of the telephone company will be held tomorrow, it was announced.

The strikers reported grief in all of the strike districts with the companies involved generally remaining silent on the issue. In Los Angeles a proposed parade of striking operators was forbidden by the police, it being feared the marchers would be subject to remarks from the spectators which might cause trouble. Woodland and Lodi electrical workers were said to have joined the strike.

The Oakland operators' union began paying strike benefits today, \$50 being given needy girls.

No change was reported in the strike of commercial telegraphers here.

CLAIMS BURLESON OFFICIAL FAILURE

Democratic Representative From Massachusetts Urges Wilson to "Clean House."

By the Associated Press. WASHINGTON, June 19.—Representative Gallivan, Democrat of Massachusetts, in an attack today on the administration of Postmaster General Burleson, declared it would be a great relief to the people of the United States if President Wilson would "bury him and clean house in his official failure."

"If he will do this," Mr. Gallivan added, "it will do more than anything else to check the spread of radicalism and anarchy and make unnecessary a special appropriation of half a million dollars urged by the attorney general to prevent crime by anarchists."

"The spirit of unrest among the toilers of the country," Mr. Gallivan said, "was breaking out in the most vigorous form of anarchy in many places. The men most directly responsible, he charged, were the misguided officials in the city of Washington clothed with war authority which had turned their heads."

"While the president has been in Europe?" he said, "some of these officials seem to have gone mad in their lust for power and have blindly blundered in the administration of their departments in such a manner as to aggravate the spirit of unrest."

Mr. Gallivan characterized the postmaster general as "one of the blunderers of the administration and one of the worst autocrats the country ever had in official life" and added:

"It is the unanimous sentiment of the people of the entire country that Postmaster General Burleson is the biggest and most complete failure as a public official that the country has ever produced."

Mr. Gallivan asserted that Mr. Burleson forced a strike among telegraph employes and then "got from under" by turning the operation back to "private hands and destroyed all hopes of government ownership of public utilities."

WILL PUT DRY LAW ON REFERENDUM BALLOT

By the Associated Press. SACRAMENTO, Cal., June 19.—Referendum petitions filed with the secretary of state against the prohibition ratification and the Harris enforcement act passed by the California legislature, contains slightly more than 30,000 names. It was announced today. Only 24,434 names are necessary to have the referendum measure placed on the ballot at the next election.

Information received by the secretary of state indicates that petitions from counties which have not been filed would provide more than the required number. It was said.

People who feel good one day and badly the next but who simply cannot get feeling right are urged to obtain a quarter pound of Limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

QUICK CHANGE WILKINS

Before the Murder. A Fugitive. On Trial.

NEW YORK, June 18.—Why has Dr. Walter Keene Wilkins, on trial for his life, charged with the murder of his wife, worn three styles of facial decoration since the day of the tragedy at his Long Beach home?

A few days after the murder the doctor disappeared. He turned up in Baltimore, but he had shaved his face clean.

Now the doctor, during the time he has been awaiting trial, has grown a completely new style of facial appendage—"grandfather beard," depending from his chin, with cheeks clean shaven. The new beard makes

him look much older and more venerable.

Suggestions have been made that the doctor may feel that its effect upon the jury is worth while. Some probability has been lent to this theory by the fact that Dr. Wilkins has taken a leading part in selecting the jurors who are to try him for his life—and has insisted upon elderly men being chosen by his counsel.

By the Associated Press. WASHINGTON, June 19.—Debate on the league of nations shifted to political grounds again today in the senate with a resulting flurry of party feeling which ended in an adjournment by the chair that senate rules must be observed.

The flare-up started when Senator Williams of Mississippi, a democratic member of the foreign relations committee, charged the republicans had attacked the committee again today in the senate...

Other senators quickly got into the discussion and all others were asking recognition which Vice President Marshall called a bait, ruling that the discussion, which had interrupted a speech by Senator Thomas, democrat, of Colorado, was out of order.

Mr. Thomas is one of the democratic senators who have taken no definite stand regarding the league, but in his speech today he read many extracts from historical works to show that in the past, beneficial proposals often had met the same arguments as now confront the league covenant.

The Knox resolution he opposed as improper, in that it would overlook the power of the senate in treaty making and would be interpreted as a pre-emptive effort to dictate to the peace conference. Answering the charge that the people should have more time to consider the league proposal, he asserted there already had been wide discussion of the subject for several years.

Nicholas Girkovius

By PEGGY BULL. "Nicholas Girkovius" is a strange product of the great war. It is small, slender, smooth-checked and thin...

Nicholas is a peculiar combination of a boy and a man. He is intensely anti-Dolchevik, vehement and bitter...

The history is that of a born adventurer. He will soon be gone, will offer for sale by box or crate from wagon next to City Library...

By E. F. Nichols left yesterday with a party for a trip through Yellowstone Park. Those making the trip are Dr. and Mrs. C. S. Jones, and Misses Ellen Carlson, Maude Ehenck, Hilda Anderson and Winifred Young.
