MEN TELL OF THEIR VIEWS ON GERMAN

Declare the Military Leaders Fooled People When the Armistice Was Agreed Upon.

The boys are home. Since early last December when one and then another service man would arrive on by one from training camp, from overseas or from the base hospital, the citizens of Twin Falls had been anxiously waiting for the opportunity when they could express the appreciation felt towards the wearers of the khaki, blue or green—the soldier, sailor and marine.

Home-coming greetings extended to the members of old Company B, scattered during the war throughout the various units of the 144th field artillery, save to the veterans of Twin Falls that opportunity to give its appreciation of the service men who went from here.

Two Fall's "own" company, here in a large delegation of citizens headed by Mayor J. W. Forrier, is the only one of its kind in the city. The company was formed by patriotic citizens who were made by patriotic by a large delegation of citizens headed by Mayor J. W. Forrier.

One of the first men to get off the train was Captain J. W. Forrier. He remained, however, in response to the suggestion that they all looked well that the condition of health of the company was excellent.

Three boys, Chester Boone, Carlson, Rhinaker and Charles Young were being "hoorayed" by the 144th artillery.

James B. Wynne said that he was glad to be home. Lutesborough is interviewed. "Of the war he has been for another week, the German army would have been utterly demoralized," said Lieut. Herbert G. Lutesborough.

The boys and girls displayed great enthusiasm at their meeting Thursday and they performed their work as conscientiously, according to Mr. O'Reilly.

The girls' sewing club finished first in the county. The girls took up Red Cross sewing and completed 128 articles. One splendid feature of their work was the fact that their work had been turned in to headquarters and they have, nothing to enter at the fall fair to compete with other clubs. The girls knew that would be the case when they started their project but decided they would forget that consideration and sew for the relief society. Their member finished with more than 800 points.

NON-PARTISANS WIN REFERENDUM FIGHT

INDICATIONS POINT TO MAJORITY OF 10,000
FOR NOMINATION OF SHERIFF—
League Shows Loss.

By the Associated Press.
SAGBO, Mont. June 27.—This 1918 proceeds out of 814 in the referendum, the Non-Partisan league victory was reported on the yesterday's referendum election, had polled by 324 affirmative votes, with 18,488 negative votes cast in returns received tonight.

Every count with the possible exception of one, in which the opposition to the Non-Partisan league expects a majority has been reported. On the basis of these returns, which represent about sixty per cent of the total vote cast, it was regarded as likely that the Non-Partisan league majority in all the seven affected laws would range round ten thousand. Non-Partisan league forces still maintain they have assurance of a 15,000 margin.

Returns show the Non-Partisan league in the two eastern tiers of counties has lost strength. It has held its own in the north central district, but has lost heavily in the south central regions. It has retained the strength in the northwestern group of counties, but has lost materially in the southwest region.

In the Missouri slope counties the loss of Emmons, Logan, McIntosh and Morton counties, which center around the state capital, constitute the most severe loss experienced by the league.

"We are glad to be home," he said, "and glad to see my airplane again come back on a Zepplin."

"They certainly treated us magnificently on the other side," he continued, "and the British people gave us a royal reception. Judging by the reaction evidenced here today, however, I am beginning to think that it has only just commenced."

"There is only one thing I regret regarding the entire affair and that was that the undertaking was not a complete success in the all details. Instead of one didn't complete the journey."

Commander Towers and Bellinghew, whose machines came to grief near the Azores, were equally reticent regarding the flight and evidently were through the mist over a by a score of small naval craft, which blended into a deafening roar of welcome.

"Among those on the deck was E. C. Howard, formerly mechanic of the SO-4, who was prevented from making the flight by an accident which cost him one of his hands a few days before the departure from Rockaway beach."

Outside the fence which enclosed the dock a great cry had followed the three planes made their appearance, "night cheer" was given them. Hundreds of telegrams of congratulations were awaiting them.

A detailed report of the flight has already been prepared which will be given to the flight by an incident which cost him one of his hands a few days before the departure from Rockaway beach.

THE TWO GREATEST REPUBLICS

There are two United States, both
of them in this hemisphere—the
United States of America and the
United States of Brazil. They may be called
the two greatest republics in the
world. The U. S. A. has more people
than any other republic. The U. S. B.
has more territory.

Brazil's area is actually larger than
that of continental United States. Its
population is only about one-fourth
of ours. On account of that,
comparatively small population, however,
its vast resources are all the more
impressive. It has the largest rivers,
and the largest stretch of fairly
uniform land.

Potentially, it may be the richest
country in the world. Its soil is in-
calculably fertile. There is abundant
rainfall in most parts. It is such
tropical regions as that along the
Amazon, which, some scientists say,
are destined eventually to feed the
world, when the earth's population
has outgrown the food producing
possibilities of the temperate zones.

These considerations, and many
more are suggested by the visit of
Dr. Epitacio Pessoa, president-elect
of Brazil, to the United States. All
Americans—or North Americans, as
the Brazilians prefer to call us—
should welcome such a visit and ap-
preciate the honor of it no less than
the Brazilians, some years ago, wel-
comed and appreciated the visit of
one of our most distinguished ex-pres-
idents to their country.

A big war has been fought and won.
As allies, these two republics have
drawn closer. There has come
a thorough friendship and un-
derstanding. It is pleasant to have
Dr. Pessoa as the nation's guest, to
show him the hearty good will felt
toward his country, and to have a
chance to sweep away the lies about
the United States of America that
mischievous enemies have been trying
to sow in Brazil.

EMPTY NESTS

The enterprising pigeon fancier
who would like to turn an honest penny
should ship some of his fancy
stock to Belgium and France. In all
of the territory occupied by the Ger-
mans these birds have entirely dis-
appeared. They were either eaten or
stolen by the rapacious Hun.

As high as \$50 a pair is being paid
for extra fine birds, but even at such
rates the lots are being filled.

It has been said a good many times
that the Germans overlooked nothing
which could be destroyed or stolen,
and the empty pigeon lofts bear wit-
ness to another detail of their greed.

A good many fine birds have been
contributed by generous fanciers in
this country, and one can well im-
agine what a sensation of assured
peace, of quiet comfort and home re-
stored, the inhabitants of these rav-
aged towns of Franco and Belgium
will hear once more the soft cooing
of the pigeons in their lofts.

The electric fan certainly has the
palm leaf beaten for efficiency.
That is, if the owner knows enough
to use it for blowing the cool air into
a room, or the hot air out, instead of
merely stirring the same dead air
around and around.

Congress has decided to stop saving
daylight—after this summer's day-
light has been saved. This is the leg
of the chair.

Four hundred scientists have met in
California to discuss earthquakes and
the best means of protection against
them. If they're open to amateur

ideas, we suggest, instead of putting a
few pounds of... re-... concrete
around the earth to strengthen and
steady it. Or if that looks like too
much trouble, why not use bamboo
for building material, as the Japanese
do, so that a little shaking up won't
do any harm.

Some of the Reds are talking about
making a big demonstration on the
Fourth. Didn't they get enough on
May day?

ceptions.

ceptance of the offer and offers are

TWIN FALLS PAYS

Continued From Page One.

calved by the rulers and military
leaders, he continued, "for when the
German leaders say that they would
be defeated utterly in a short time,
they signed the armistice, telling the
people of Germany that they could win,
but that they were signing an
agreement to stop the war, solely be-
cause they wanted to relieve them
from further suffering."

They assured the people that the
terms of the armistice would be lenient
and told them that President
Wilson was their friend and would
see to it that conditions would be easy.
Those falsehoods, told to excuse their
surrender, were accepted by the Ger-
man people as true. When the ar-
mistice terms became known, the
people became indignant and this has
been the cause of a great deal of the
feeling manifested in Germany since
that time.

Food Question Important

Sergeant J. H. Shema was of the
opinion that Germany would eventu-
ally settle down. He said that the
Americans were now shipping food
into the country and after the treaty
had been signed, it would gradually
return to its normal life. Asked
whether the Germans had not too much
sense in view of the conditions con-
fronting them to resort to Bolshevism,
he replied that they were not to be
credulity with an over-abundance of
that but then added that it would
require very few soldiers to keep them
in order. Three soldiers would keep
a town of this size quiet, he said, and
if they should attempt to start
trouble the allied armies would sim-
ply be pushed further into the coun-
try.

Sergeant Shema said that food con-
ditions in the part of Germany oc-
cupied by the American armies were
not bad. Many reports were received

naming specific towns as being in
bad condition, but investigation would
always lead to the disproving of the
statement and the people of the town
investigated would be sure that some
other town was suffering. However,
he added, that he believed conditions
in Berlin and the larger cities were
quite serious. He knew some of the
boys who went to Berlin and almost
starved to death. Conditions in the
smaller cities were not necessarily
as bad as those in the larger cities.
There, any more, than conditions in
Twin Falls could be compared to
those prevailing in New York.

The securing of sufficient food and
the establishment of stable govern-
ment were two things which could
result in adjustment of things in Ger-
many, according to Shema.

Ray Higgins, who yesterday morn-
ing had received notification of his
citation for bravery in action, was
among those present at the train to
greet his "buddies." Brown, who is
in a fortnight, had arrived in New
York from Salt Lake where he is in the
post hospital. He also acted as a
delegate from the Twin Falls post
of the American Legion to the Boise conven-
tion.

dred American soldiers are working
in this out-of-the-way place to keep

put the Germans down and out are
being sent back to the states.

Since last December the ship of Me-
hun has shipped 450 carloads of
war material back home.

Over a thousand '76 have been tak-
en apart, cleaned and crated. Seven-

EXPLAINS WHY THE SHIPS SCUTTLED

No Way to Prevent Action Taken Possibly Under the Armistice.

WASHINGTON, June 21.—No effective measures could have been taken by the British admiralty to prevent scuttling of the German fleet at Scapa Flow without violating the terms of the armistice, said a statement issued by the British embassy. The fact that the ships were merely interned and not surrendered, said a statement, prevented the placing of armed guards on board. Been had this been done, it was said, it would not have been a guarantee against the sinking of the ships because the German crews, with their expert knowledge of the complex valve machinery, would have found it a comparatively easy matter to open the valves without detection.

It was originally recommended to the allied naval council by the naval adviser of the British admiralty, the statement said, that the armistice terms provide for surrender instead of internment of the German ships, but that recommendation, it was said, was overruled by the council.

"It should be clearly understood," the embassy statement said "that the decision for the German ships to be interned and not surrendered was made by the hands of the allied governments."

"If a British guard had been put on board these ships it would have been an unquestionable breach of the terms of the armistice."

Admiral von Tontow stated verbally that on his own responsibility he had given orders for the ships to be sunk, being under the impression that the armistice had passed on Saturday.

"Great Britain acted in this matter as she has acted on every other matter in this war. She has adhered to the terms of the armistice."

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphates before breakfast washes out poisons.

If you wake up with a bad taste, bad breath, all feeling is gone, if your head is dull or achy, if when you eat sour and forms gas and acid in stomach, or you are bilious, constipated or nervous, sallow, and can't get feeling just right, begin making hot water before breakfast. A glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from the stomach, liver, kidneys and bowels of the organs, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash-out of the system all the previous days poisonous water, gases, and sour bile before putting more food into the stomach.

To feel like young folks feel; like you felt before your blood, nerves and muscles became loaded with body impurities, get from your pharmacist a quart or pound of limestone phosphate. It is inexpensive and almost tasteless, except for a sourish twinge, which is not unpleasant.

Just as soap and water act on the skin, cleaning, moistening and freshening, so hot water and limestone phosphate act on the stomach, kidneys and bowels. Men and women who are usually constipated, bilious, headachy or have any stomach disorders should begin this inside bathing before breakfast. They are assured they will become real cranks on the subject shortly.

ASK DE VALERA TO TALK ON IRELAND

Movement started in Massachusetts House Is Held Up in the Senate.

By the Associated Press.

BOSTON, June 21.—After the lower branch of the Legislature had unanimously passed an order today inviting Eamon De Valera to address the house while here Monday, a motion made in the senate to invite the Irish revolutionary leader to address that body was withdrawn.

Edwin T. McLaughlin, president of the senate, indicated the motion be considered in the regular order next Monday. The senator who had introduced the motion, however, withdrew it, on the ground that it would be impossible for the senate to act before Mr. De Valera left Boston.

President McLaughlin said tonight he had asked that action on De Valera be postponed because he desired that the senator be given an opportunity to present themselves as to whether the senate wish to receive De Valera as the official head of a recognized government.

"So far as I have been able to learn," he said, "Mr. De Valera has not been recognized by the officials at Washington as representative with authority the people of Ireland. Neither have I been able to learn of any other states in the country that have given official recognition to him."

City accord formal recognition to one who had not already been recognized by our government at Washington might not only embarrass our commonwealth, but it might embarrass the government of the United States as well.

Finance

NEW YORK, June 27.—Dun's tomorrow will say "With the signing of the peace treaty, which is now imminent after months of waiting, gateways of commerce that have long been closed will be reopened and broader international trade relations permitted. Behind the domestic business revival that is vigorously in progress, there is not only the practical assurance of another year of agricultural prosperity and pronounced seasonal retail distribution in this country, but also Europe's dependence upon American markets for products needed during the reconstruction era and it is significant that the export call is already expanding in many quarters. The result of the continuing more extensive manufacturing capacity is engaged farther ahead and still higher prices appear inevitable."

GLASS OF SALTS IF YOUR KIDNEYS HURT

Don't Less Mean If You Feel Back-achy or Have Bladder Trouble.
Meat forms uric acid which exerts and overworks the kidneys in their efforts to filter it from the system. Regular eating of meat must flush the kidneys occasionally. You must relieve the "back" pain by using a glass of salts; removing all the acid waste and poisons; also you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.
This medicine cleanses the kidneys and flushes out the body's surplus waste got about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act freely and bladder troubles disappear. This remedy is made from the acid of grapes and lemon juice and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is non-toxic, harmless and makes a delightful effervescent alkali water drink which flushes out the body and takes new and fresh, cleansing uric acid and bladder deposits.

Germany Signs. She signs it with the pen who thought to sign it with the sword. Blood of her veins and golden gains the freely vainly poured. And prestige she had covered and honors she had stored. Yet day by day her shame and guilt grew like a demon's gourd. Till now she signs it with a pen, who hoped to use the sword. So ever when a pride-ridden prince shall pledge a blood-red day! So ever when wolf men shall lead sheep-minded men astray! So ever when a tribe would crush its brother tribes to clay! So ever to us should we forsake our ancient laws! way Or dare to raise the canted sword the Prussian cast away!
