# GRAIN GRADING TO BE TAUGHT FARMERS

Representatives of Government to Be Here Monday and Tuesday for Meeting.

Farmers, county grain dealers and millers of Twin Falls county will be given an opportunity next Monday and Tuesday to familiarize themselves with the grading of grain under the federal standards for wheat, shelled corn and oats.

Walter J. Morgan, in charge of the Nat. Lake city office of federal grain supervision, and Ernest J. Crispin, also of that office, will conduct the meeting.

At the meetings a fully equipped grain inspection office will be arranged with exactly the same appliances that are used by the licensed grain inspectors in the large markets and the offices of federal grain supervision. Samples of wheat, shelled corn, and oats will be handled in the same way as in actual inspection to show how the grades are determined. Those in charge will also show a more limited and less expensive set of equipment which has been suggested by the United States department of agriculture as convenient to apply the federal grades at country points.

To make the demonstrations thoroughly practical, farmers will be invited to bring samples of their grain in amounts that will determine the grade which may be selected on their own grain.

Every operation necessary to determine the grade will be conducted exactly as it would be in the office of any inspection department in the large markets, including the equipment and type trays, showing the classes, grades, and varieties of grain, publications of the United States department of agriculture relating to grain grading will be distributed, and photographs will be on display showing the phases of federal grain supervision work.

## SAYS CONDITIONS ON TRACT PLEASING

County Agent Makes Report On Recent Survey. DeLong Denies Boise Story On Crop.

"Conditions of crops on the Twin Falls tract are especially pleasing," stated Charles H. Bohrer, county agent yesterday, "in spite of the water shortage."

"I have been over much of the tract in the past few weeks and believe that Twin Falls county is to be congratulated on conditions as they have turned out in spite of a shortage of water. The success of the irrigation project this year has fully demonstrated the efficiency of the system and while crops will probably fall somewhat below that of former years the year will be above the average."

It is reported that conditions on the Twin Falls tract were discouraging and that the year had been a failure were vigorously denied by Carl E. DeLong on a recent visit to Boise and Caldwell. Mr. DeLong brought back the report that statements appearing in Boise papers had given the impression that

the water shortage had caused a failure on the tract.

Mr. DeLong's visit made recent trips over the tract, verifies the statement of Mr. Bohrer that conditions are satisfactory.

This time every year we start ridding our store of all spring goods. It is part of our policy that none are to be carried over from season to season, and we always aim to live up to it to the letter. Now we know these goods will step along lively; the reductions they cite will make them find ready owners in a hurry. So we would advise all who wish to patronize them not to wait too long before deciding to act, for the cream of the lot is liable to go while you're thinking it over.

VALUE OF CREDIT

A checking account is the first step toward establishing credit with a bank. And credit today is a real asset. Yet it is what you make it. The right credit at the right time, at the right bank may be worth more to you than a batch of letters presented by you as a stranger. We seek growing accounts of growing business men—men who will come to us for advice, and who will want the friendship of a strong bank when credit is needed. This bank will be glad to meet, you and serve you. It is a pleasure, as well as good business, to have young men grow with us.

M. B. PROVOST IS CALLED BY DEATH

Funeral Services to Be Held Sunday—Hopeful Oregon Bank of Housa.

Funeral services over the remains of Milton B. Provost, until a short time ago cashier of the Bank of Housa, will be held Sunday from the Episcopal church. The Masonic order will have charge of the funeral while Rev. Franck will deliver the sermon. The services will be held at 3 o'clock.

Mr. Provost passed away yesterday morning at a local hospital following an operation. The deceased had been suffering from complications following influenza last fall. Mr. Provost came here several years ago from Enchantment, Wyo., where he was in the banking business. Shortly after coming here he became interested in the bank at Housa with which institution he remained until his death resulted in the sale of this stock recently. The deceased was survived by his wife and four children and a brother. Interment will be in the Twin Falls cemetery.

COUNTY AGENTS TO CONFER NEXT WEEK

Large Attendance Expected at Twin Falls Meeting Under Auspices of Extension Department.

County agents, club leaders and other officials of the farm bureaus of southern Idaho will meet in conference in Twin Falls next Monday and Tuesday. The meeting will be under the auspices of the state extension department and it is anticipated that representatives of this department will be here.

Present indications are that the meeting will be largely attended. Membership in the various county farm bureaus had been growing during the past several months and more interest is being displayed in the work. SIXTHS PERMIT TO BUILD. \$1000 HOME 8TH AVE., NOLITH. T. S. Wasson yesterday secured from the city clerk's office a permit to construct a home to cost \$1000 on 8th avenue north. The building will be 21 feet, 6 1/2 feet. E. A. Moore has the contract for the construction of the house.

PROTECTION FOR AMERICAN SILVER

Western silver producers will go to Washington and protest against the move to England by the American government of a hundred million ounces of silver for coinage purposes at 41 per ounce.

All America will await the outcome of the visit, for upon the answer of the secretary of the treasury depends the future control of the world's silver.

America is the chief source of the world's silver. The Western Hemisphere produces practically all the white metal.

The far east consumes most of the world's silver production.

Yet the silver market has been in London, and London has heretofore fixed the price Asia must pay the Americans for the white metal.

For some time, American silver producers have been awake to this situation. And they visit to Washington is for the purpose of breaking this London control for an American industry.

SAVING LITTLE CITIZENS

The doctor was summoned hurriedly to see a sick baby. He did his best, but the baby died. It was a two-year-old boy, and had been eating cherries.

Questioning developed the fact that an older child had died not long before of acute indigestion. A doctor had been called, but the child was dead when he reached the house.

The natural question is, "Did the mother not know better than to feed a two-year-old baby cherries?" And the answer is, she did not. She was a poor, hard-working ignorant, foreign woman, a stranger in a strange land, and she did not know any better.

THE AMERICAN WAR DEBT

There are so many conflicting versions of the nation's war debt that it is just as well to get the matter straight.

The debt is not \$20,000,000,000, according to a common impression. It is not anywhere near that much. The government actually expended, for war purposes, from April 6, 1917, until June 30, 1919, the close of the fiscal year, a little more than \$20,000,000,000. It must be remembered, however, that \$20,000,000,000 nearly consists of loans to the allies nearly all of which are perfectly good. That \$20,000,000,000, therefore, is not a true net war asset. That remains our actual war expenditures to \$27,000,000,000.

Of the latter sum, about \$2,000,000,000 is taken care of by current taxation. As a result, the actual war debt, estimated for the beginning of the present month, is only about \$12,000,000,000.

The war is not over, yet, at least from the standpoint of expenditures. It will still cost many hundred millions to bring the troops home and clear up all the odds and ends of ex-

pona, but against this continuing cost may be set the large sums derived from the sale of ships and military supplies. The government may, get enough, or nearly enough from these sources, to pay all the bills coming due from now on until the war and many departments are re-established on a peace basis.

Making due allowance for the possibility of keeping troops in Germany for a longer time than anyone anticipated, thus postponing demobilization, and also making liberal allowance for other unforeseen demands, it hardly seems likely that the war debt at the close of the present year will be more than \$15,000,000,000. That is one of the smallest debts borne today by any of the big powers. It is absurdly small when measured by the resources of the United States, especially when we consider the proportion of the other powers' debts to their resources. It is probably 6 per cent of our national wealth. We could pay it off in three years, if we chose, without breaking our necks financially.

TRIBUNE'S LAWYER IS GRILLING FORD

Cross-Examination Lasting More Than Week Shows No Signs of Termination.

By the Associated Press. MOUNT CLEMENS, July 18.—ALTHOUGH HENRY FORD today completed a week on the witness stand in his duel with the Chicago Daily Tribune, Elliott G. Stevenson, for the defendant, who began questioning him last Monday, showed no signs of reaching a conclusion. The examination of the witness on the contents of the alleged libelous editorial in the Tribune on June 23, 1916, headed "Ford is an anarchist," was the important feature of the day.

STAGGERING BLOW IS GIVEN TO FLAPPERS' POCKETBOOKS

By the Associated Press.

NEW YORK, July 18.—An increase of 100 per cent in the cost of men's clothing was predicted for next summer by H. Simons, who presided at the

opening tonight of the American Clothing Designers' association's annual convention.

Some slight compensation, however, is to be granted, as coats will be longer, shoulders broader and chests deeper. In addition to this Mr. Simons said, fancy linings of Albe blue, orange and similar brilliant hues will be in vogue, while vents will be cut lower to permit a greater display of dazzling shirts. He stated that no departures in the present style of trousers would be noticed.

"Fazt styles" so-called because of their froakish cuts, will continue popular with the young "flappers."

"Pick pocket proof" pockets were one of the novelties shown at the convention. This is like a "patch pocket." "Pick pocket proof" pockets were one of the novelties shown at the convention. This is like a "patch pocket" except that it is sewed all around with a slit opening in the center.

AMERICAN DAY FEATURE OF LONDON'S CELEBRATION

By the Associated Press.

LONDON, July 18.—Great Britain's peace celebration began informally today with many ceremonies, most of

which were in honor of General John J. Pershing and the American troops who will participate in the victory parade Saturday. A large part of the population stopped work today and filled the parks and streets, watching the many contingents of American, British and soldiers marching about the city. The processions headed by General Pershing and Marshal Foch of France on their way to various functions in their honor.

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to Keep Her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age where a youthful appearance is of the greatest advantage.

Nowadays though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. It is a ready-made, ready-to-use product, improved by the addition of other ingredients, called "Wyneth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply rub it on your roots as it is with brush with it and draw through your hair, making one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyneth's Sage and Sulphur Compound, is that, besides helplessly darkening the hair, it is a few applications, it also produces that soft and lustre appearance of abundance, which is so attractive. This ready to use preparation, is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

## ATMOMHIL COMPANY TO SUSPEND PROFIT SHARING

By the Associated Press.  
TOLLEDO, July 1.—The Whelan-O'Connell company has abandoned its profit sharing plan with its employees for the quarter ending June 30, according to a statement made today by officials of the company.

The statement adds that employees who remain at work may hope to share in the October dividend of profits.

The reason given for suspension of the plan reads:

"Owing to the unjust strike in our plant, instead of making a profit in the quarter ending June 30, we sustained a loss." The company declared its regular dividend at a recent meeting of the board of directors.

# DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If Your Back Hurts or Bladder Bothers Urink Lots Of Water.

When your kidneys hurt and your back feels sore, don't eat and avoid alcohol. Load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which remove the body's urinous waste and stimulate them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they attain from it 600 quarts of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drugs that excite the kidneys, drink too much, also irritate the bladder. Take a table-spoonful of a salt-water solution each morning for a few days and your kidneys will get fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and to neutralize the acid in urino. It is a home remedy of high reputation, now ending bladder trouble. And Salts is indispensable; cannot be cured; makes a delightful after-noon water-drink, which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and I doubt you will wonder what happens of your kidney trouble and backache.

The above schedule of votes, which is on a declining scale basis, positively not to be changed during the competition. A special ballot, good for 50,000 votes, will be issued on every "club" of \$24 turned in. This arrangement will be in effect throughout the entire campaign and is to be considered a part of the regular schedule. There will be no extra votes offered, extra prizes given, or any other inducements whatever inaugurated during this campaign. Remember this and try your plans accordingly.
