CHICAGO, July 21.—Ten persons were killed and twenty-five injured when a large dirigible on its test flight caught fire and fell 800 feet, crashing through the glass roof of the Illinois Trust and Savings bank, Jackson boulevard and East street at 5 o'clock this afternoon.

Most of the dead were employees of the bank, trapped and burned to death in a fire caused by the explosion of the balloon's gas-filled tanks. One passenger, a woman, was killed when she was struck by a bookkeeper and clerk, nearly all girls, were working.

The balloon, owned by the Goodyear Tire and Rubber company of Akron, Ohio, had been flying above the city for several hours when the accident occurred.

Machine Bursts; Plunges Downward. When approximately 100 feet above the bank a spark of flame was seen to shoot from the top of the gas tank near the center of the aircraft. The crown sagged on the street to watch the flight and the machine buckled and quiver as it started on its fatal plunge.

Flames from the occupants jumped and they landed safely in the streets as the blimp, a ball of flame, struck the roof of the bank with a crash audible throughout the downtown district.

There was panic to learn the identity of the employer of the institution of the coming tragedy. A shadow passed over the marble rotunda, where 150 were busy and the crash followed. The bank's clothing for patrons had passed, but the clerks were still at work in various departments.

Bank Seemed On Fire. It seemed, according to the survivors, that the entire bank was on fire. The explosion, through the iron supports holding the glass over head, the fall of the balloon, with two heavy rotary engines of several gasolene tanks, smashed to the floor.

Men and girls with clothing flaming fought their way through the exits. Girls on the second floor screamed to the window and revent jumped.

In an instant the rotunda was dead except for the dead, whose bodies were buried under the mass and the dying, who crawled away from the scorching fire, their clothes burning.

Flames Hinder Escape Work. Flames hinder escape work. It was 30 minutes before the bodies under the craft's fuselage could be dragged out. They were hurriedly ambulance from every hospital and undertaking establishment near the center of the city and the police threw a cordon about the place. Dozens were taken to the city's best hospitals.

SETTLERS MUST PAY DAM COSTS

By the Associated Press. BOISE, July 21.—Settlers on the Boise project must pay actual construction costs of the Arrowrock dam reservoir and the distributing system, said Judge Frank M. Dietrich of the United States district court in an opinion here today. The settlers through the Payette-Boise water users association sought to avoid payment of charges against them. They argued by published notice the boundaries of each division and sub-division of land in the project.

The court ruled that the reclamation service must amend contracts signed by settlers and guarantee to them a specified amount of water and land for paying the construction cost. The Boise project embraces 250,000 acres of land.

ARREST SUSPECT OF BIG FIRES

SPOKANE, Wash., July 21.—Forest fire conditions in northern Idaho, western Montana and eastern Washington seemed critical today with several threatening blazes, according to federal forest service officials and their protective associations wardens.

The most serious fire was reported in the Packer and Hago, Idaho, where 35 to 40 square miles have been burned by flames that today were within two miles of the Great Northern railway tracks and three miles from Naples, Idaho. Neither was believed to be in danger, however.

Between 10,000,000 and 20,000,000 feet white pine timber has been destroyed by this fire and the loss is estimated as high as \$6,000,000. Only the first stage of the fire is to guide the fire away from the richest timber in its path.

One man was arrested at Sandpoint in connection with alleged incendiary fire and it is expected that another man will be arrested. Two fire fighters were arrested at Kooski charged with accepting government transportation and refusing to join fire fighting crews.

The most serious situation in Montana is in the Blackfoot forest where four large blazes are being fought. Many fires in the three states were checked or put under control today and they were thought to be beyond the likelihood of increased damage reports for several weeks, now as conditions develop. The high winds of last week have abated.

FIRES IN WYOMING.

ROCK SPRINGS, Wyo., July 21.—A forest fire which has been burning in the Fall River basin, Fremont county, for several weeks, now is spreading so rapidly that livestock is being moved from the region. Dozens of 6,000 and 7,000 head of cattle already have been driven from the forest reserves. Fire fighters are being taken from here into the basin by automobiles, a distance of 120 miles. The flames threaten to jump the divide into the Green River valley.

MONTANA CROP CONDITIONS IMPROVED, SAYS GRIENPETER

By the Associated Press. HELENA, Mont., July 21.—Charles D. Greenfield, state commissioner of agriculture, said today that newspaper reports regarding Montana crop conditions are exaggerated. He has prepared a review showing that 1,075,000 acres in the state will produce good crops.

HUNS BETRAY HINDY'S PLAN TO PERSHING

Two Germans; Formerly on German Staff, Gave Secrets to Officers. BROUGHT TO AMERICA TO ESCAPE VENDETTA "Consigned" to Intelligence Department—Arrive on a Transport Travelling First Class.

WASHINGTON, July 21.—A story of the betrayal of the German high command through the efforts of the American military secret service and of the organization among German officers of a vendetta aimed at the lives of the traitors was brought to light with the arrival at New York today of two German prisoners of war consigned to the director of military intelligence, Washington, D. C.

According to information here, the mysterious prisoners who landed from the Agamenon under heavy guard formerly were German officers of high rank, occupying positions of great responsibility under von Hindenburg. They were the instigators of the American offensive in 1918, operators of the American military intelligence corps prevailed upon them through inducements which have not been divulged to deliver plans of the German general staff covering the proposed movements on the western front, probable lines of retreat, points at which stands would be made and other detailed information of incalculable value.

Cuts Campaign in Half. With these plans before him the general campaign was cut in half and it is believed that as a result was able to cut the cost of the American advance practically in half.

The German officers later surrendered themselves to the American forces. Certain of their former associates had become suspicious, however, and are believed to have bandaged themselves to meet out stern justice. Timid precautions were taken within allied lines to protect the traitors, but as officials believed that as long as they were kept in France their lives would be in jeopardy, orders were given for their transfer to this country.

Preparations for the moving of the prisoners were kept a close secret and it was only through the carelessness of some clerk that they were included in the roster of the Agamenon when she left France. The plan was to send the prisoners

WILSON IS WEAK BUT NOT SERIOUS

By the Associated Press. WASHINGTON, July 21.—President Wilson was in a weakened but not serious condition tonight after having the day in bed with acute dysentery. Rear Admiral Gray T. Grayson, his personal physician, said the president had been in considerable pain during the day and had been very "uncomfortable." Admiral Grayson said he would think that Mr. Wilson remain in bed until he had completely recovered.

The president's appointments for tomorrow with republican senators had not been postponed tonight, but at the white house it was considered extremely doubtful whether Mr. Wilson would be able to keep them.

While none of these close to the president would say whether his illness would result in postponement of his trip west, there seemed to be an opinion that should the illness be prolonged it could have no other effect. Rear Admiral Grayson was uncertain when the president might be able to resume his duties.

COUNCIL CONSIDERS ITS PAVING PLANS

City council last evening discussed the method that should be followed in carrying plans for the completion of the paving program here. It was the general sense of council that nothing definite should be done until the truck transfer being built by the highway district is completed. It is felt that a considerable saving will be made if the city is purchased through this source. It is probable that steps will be taken to cover the lateral on eight avenues immediately.

Council last evening adopted the budget for the ensuing year. Approximately \$266,000 will be needed to run the city government. Of this amount taxation of 15 mills can be levied against an assessed valuation of \$4,407,890.25.

Representatives of the Blaise Studio and Elgie Millinery store were before council concerning the payment of a bill for \$75 to one claimant last week who had suffered from the bursting of water pipe. It was explained that this payment was made because the bill was contracted by City Engineer Berg. The council was advised by the city attorney that the best method of settling responsibility for the losses would be to file suits.

LLOYD GEORGE ANSWERS HIS WAR CRITICS

Tells Why Kaiser Must Be Tried in Allied Country. WAR MAKER WILL BE GIVEN FAIR CHANCE Maintains His Position in Regards to the Irish Question, English Premier Avers.

By the Associated Press. LONDON, July 21.—The house of commons tonight unanimously passed the second reading of the peace treaty. The treaty bill passed the committee of the whole without amendment. When the third reading was moved Joseph Devlin, nationalist, demanded its rejection as a question of confidence in the premier's reference to Ireland.

The house of commons also tonight unanimously passed the Anglo-French treaty bill in all its stages. George Answers Critics. Premier Lloyd George replied to his critics in the debate in the house of commons in the second reading of the German peace treaty and the Anglo-French convention. His recent announcement that the former German emperor would be tried before a tribunal in London had created much discussion, and several members, including Lord Robert Cecil, expressed doubts as to the advisability of the trial being held in London. The selection of a neutral country for this purpose, it has been contended, would have been better.

The premier, in answer to this, said: "What right have we to assume that any neutral country could desire to be the scene of such a trial? The allies have sufficient confidence in this country that whoever comes here for trial will receive a trial equal to the highest traditions of the British nation, and there are none higher in the world."

War Is a Crime. "It was in to be abolished it must be treated, not as an honorable game with the prospect of personal glory, but as a crime. That is why we decided that the author of this war should be tried."

Another matter of extreme importance which came up for discussion was the Irish question, and to this the premier's answer was considerable. "I had with numerous interruptions by Joseph Devlin, nationalist for Falls division of Belfast. Mr. Samuel Hoare, minister for agriculture, went to the front and said that the question of the settlement of the Irish difficulty was as urgent as did the Irish members. The premier closed laughter by de-

TROOPS AND POLICE UNABLE TO INTERFERE

Both Classes Storm Street Cars—Most Serious Trouble Since the Civil War.

WASHINGTON, July 21.—The known casualty toll of the race riots which broke out in various sections of the national capital last night had at 2:30 reached three killed and twelve seriously wounded, besides numerous minor casualties inflicted by bricks and other missiles. In addition to the killing of one city detective and the fatal wounding of another by two negro women, other persons were being wounded by negro rioters. Two negroes were dead and four others were reported to be dying.

WASHINGTON, July 21.—At midnight tonight the latest count of the rioting in the city was tallied ten, including two deaths and two men probably dying, while uncounted but police reports place the number at a much greater figure. Of the dead, one was being identified through the help of a negro woman, who was being ascertained from the upper story of her house.

The negroes, a girl of about 17 years, also was shot, but not fatally. In another part of the city a black firing from a garage door kept a protest guard of soldiers, sailors and marines at bay for several minutes, but finally was shot down.

The probable death list in the night fighting later was increased to four by the death of a city detective, who succumbed to wounds received earlier in the evening which resulted in the instant death of his fellow detective.

SHOT BY NEGRESS

Harry Wilson, the first detective killed, was shot by a 17-year-old negro who had opened fire from the second floor of a residence. A second negro opened fire from the ground floor of a house across the alley when the police and guardsmen rushed the house which the first was holding. Thompson, the second detective to die, was wounded during the clash. Only one arrest was made, the young negro who was shot through the hip.

RIOTING BREAKS OUT

WASHINGTON, July 21.—Rioting between negroes and whites broke out late tonight in the national capital in retaliation for recent attacks by blacks on white women and at 11:30 o'clock one negro had been killed and four persons wounded. Police stations late tonight were swamped with reports of clashes between mobs of whites, largely made up of soldiers, sailors and marines, and negroes in many different sections of the city. The negro killed was struck over the head by a marine during one of the numerous fights on street cars. Crowds which moved up and down Pennsylvania avenue between the capital and the white house despite the presence in the city of two troops of cavalry and 400 other armed servicemen, grew more determined as the night wore on and outbreaks were reported more frequently. Reports to police headquarters said

WILSON SEEKS TO NAME AN ENVOY

Asks Foreign Relations Committee to Approve Tentative Appointment

WASHINGTON, July 21.—While the senate was debating to approve the treaty relations committee turned its attention to the problem of provisional American representation, pending ratification of the treaty, on the international commissions to be set up under the treaty terms.

President Wilson asked the point in a letter to Chairman Lodge, asking the committee's approval for appointment of a representative on the reparations commissions, which is to have wide powers in fixing the amount and the method of collection, of Germany's reparations bill. Senate response to the president's letter, was highly important to American business interests.

After an hour's discussion, during which Chairman Lodge and others objected that the committee had no power to give consent to the treaty's ratification, it was decided to postpone a decision until tomorrow. Senator Knox, republican, chairman of the committee, declared that neither it nor the president could carry out any treaty provisions while the treaty was pending.

The league of nations occupied most of the time during senate debate, Senators Pomeroy, Ohio, and Harrison, Mississippi, both democrats, urging its acceptance. Senator Pomeroy analyzed the covenant in a constitutional argument and declared official acceptance of the treaty was the only course consistent with the nation's responsibilities to the world. Senator Harrison attacked republican leaders opposing the treaty, declaring their opposition really was based on political and personal antipathy to President Wilson.

During the day the shouting continued, not yet before the senate again, Senator Williams, democrat, Mississippi, charging that opposition senators had misrepresented the facts in the

case. Denials were made by Senator Lodge and Senator Borah, republican, Idaho.

Tomorrow prepared speeches on the treaty are to be made by Senators McNary, Oregon, and Momen, New Hampshire, republican, and Beck, Iowa, Kentuck, and Johnson, South Dakota, democrats.

Senators Calder, New York, Cummins, Iowa; 1919; New Jersey, and Norris, Nebraska, were the republicans who had been invited to confer with President Wilson today about the treaty. When Mr. Wilson's physician ordered him to bed, however, the conference was provisionally set aside until tomorrow.

MEXICAN SITUATION TENSION LESSENER

Hold on Sailors Was Made by Gen. Erwin in Civilian Clothes, Says Commander.

By the Associated Press.
WASHINGTON, July 21.—The Mexican situation occupied the attention of both the legislative and executive branches of the government today.

Tension which was evident at the state department when first reports were received Saturday of the robbing of sailors manning a small boat from the American monitor Cheyenne on the Tamese river July 6 was relieved somewhat by a more detailed account of the incident received from Commander Flacey of the cruiser Topkap, flagship of the American naval force at Tampico.

The report said the sailors, who were on official duty were held up by three men in civilian clothing, two of them carried off, and that when informed of the incident, the Mexican government authorities at Tampico had expressed deep regret and promised to attempt to establish the identity of the thieves. It was added, however, that up to the present these attempts had been fruitless.

Before this dispatch came, the state department was advised from Tampico that on last Wednesday bandits robbed the Atlantic Refining company's oil loading station at Puerto Blanco near Tampico, of \$16,000 which was intended for the company's payroll.

During the day a number of senators and representatives called at the state department to confer with Henry P. Fletcher, the American ambassador in Mexico, on the situation in the southern republic while the senate foreign relations committee ordered favorably reported the resolution of Senator King, democrat, Utah, calling on the state department for full information as to depredations against American citizens and property in Mexico during recent years.

On the same floor, Senator Fall, republican, New Mexico, reiterated previous statements that among Mexicans killed by American soldiers in repelling raids across the border during the past few months were officers and men in uniforms of the Mexican federal army. He read a telegram giving the names of some of the Carranza officers and men killed by the Americans.

ERWIN DENIES REPORT

EL PASO, Tex., July 21.—Brigadier General James B. Erwin today reiterated his statement of July 19 answering a statement by Senator Fall of New Mexico, that "American troops have crossed the Mexican border 12 times within the last six months to repulse the Mexican raids and, on various occasions have found the bodies of Mexicans, some in uniform of Carranza troops."

When an Associated Press dispatch giving this quotation was read to General Erwin July 15, he dictated the following statement to the Associated Press:

"No men of Mexican clothed in uniforms of the Carranza government have been found by American troops of the El Paso district."
Today, replying to a further statement by Senator Fall, that "troopers

ENFORCEMENT LAW READY FOR PASSAGE

Failure to Have Measure Engraged Along Repeal Bill, Receiving Favorable Vote.

WASHINGTON, July 21.—The prohibition enforcement bill, drafted provisions and all, was adopted today section by section by the house, but a man's right to store liquor in his home stood up against all attacks. On the final count, only three votes were recorded in favor of an amendment to make home possession of intoxicants unlawful.

After all pertinent amendments had been adopted and others designed to make the bill less severe were knocked over in a chorus of "noes," an attempt was made to adjourn overnight. This prevailed, but there was a demand for a roll call and the prohibition forces, announced from all sides by their leaders, who filled the chamber in "official" numbers to keep the house in session tonight for the tedious roll call vote on half a dozen amendments in dispute which had to be passed up before a vote was taken on the bill as a whole.

Demand for a formal reading of the engrossed bill which was not in shape for that purpose, forced adjournment of the house tonight and delayed its passage until tomorrow.

Carl Wins Point

The first fight of the day was over the section giving courts the right to prohibit the sale of liquor to anyone violating the liquor law. This was striking out after Representative Gard, democrat, Ohio, had pointed out that it provided double punishment for the user, man, who might be sent to jail for the first offense, and the prohibitionist opposing its retention.

When the house reached section 25 of the bill dealing with enforcement of constitutional prohibition and which contained the provision that it be not unlawful to store liquor in a home for personal use, the amendment was not unlike that of a stock market on a high-water day.

Everybody wanted to speak or offer an amendment, fully a more clamorous for recognition at once.

Volstead Gets Floor

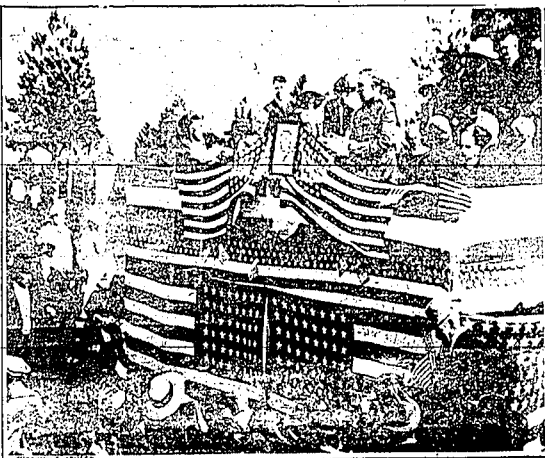

First amendment was given Chairman Volstead, the majority committee, in charge of the bill, who had had two amendments. These fixed the time for reporting possession of intoxicants. In one Mr. Volstead offered, and which the house accepted, the time specified in the prohibition law by the state department as to the effective date of constitutional prohibition—January 24, 1920—was accepted without discussion.

Representative Rubey, democrat, Missouri, got the floor after Chairman Volstead was through with the section and he immediately announced intention to throw the searchlight on American wine cellars, reported to be stocked with liquor enough to last for generations. His amendment provided that a person should not possess more than fifty dollars worth of liquor, which a "member" likened to "one white chip in a steamboat poker game," considering the cost of the product in the closing days of the war. The house did not take kindly to this proposal and defeated it.

This picture of the dedication ceremonies at Deadwood, under the auspices of the Black Hills Pioneers, shows General Leonard Wood making the principal speech from a flag-draped stand with the picture of the former president in the center.

lative Baker, democrat, California, offered an amendment to make it unlawful to have liquor in one's own dwelling. Chairman Volstead supported it, saying this section had been given very serious consideration by the friends of prohibition. When the vote was called, only three members, and the amendment—Mr. Baker and Representatives Blanton, Texas, and Ushary, Georgia, the latter an ex-soldier. This section was amended, however, so as to provide that such liquor must be for personal consumption by the owner of the dwelling or his family, and in no case for sale.

Several amendments were added, these including one by Representative Tamm, democrat, Missouri, making provision for the handling of sacramental wine, which the bill had failed to do. Representative Esch, republican, Wisconsin, offered one which would require the government in picking its agents to enforce the prohibition law to also take regard to civil service, and in Representative Steyer, democrat, Pennsylvania, was aimed at the man who might turn his dwelling into a saloon.

Many amendments were defeated and some were ruled out on points of order. A fight was made against the section permitting the manufacture of beverages containing less than one-half of one per cent alcohol, after the house had adopted an amendment to include any liquid such as beer, ale, porter or wine.

An amendment by Mr. Igo, which would make valid the defense of a person charged with violation of the prohibition law if he proved that such liquor or beverage was not intentionally so stored, was defeated 16 to 25. There was not as much speech making

on previous days, the temper of the house being such that it was not inclined to listen to arguments. The one speech since the beginning of debate which was listened to by the house was by Representative man, former republican floor leader, who opposed the elimination of the provision permitting a person to have liquor in his possession for private

LEAVENWORTH PRISON IS FIXED: PRISONERS ARE CALM

By the Associated Press.

LEAVENWORTH, Kan., July 19.—The west wing of the federal prison here was badly damaged by fire tonight.

Flames were discovered near the site of the wing, which is nearing completion, burning in the scaffolding. They spread rapidly, endangering the whole prison plant.

Prisoners numbering more than 1,000 and including a score or more of industrial workers of the World, are confined in the west wing, and according to prison officials, made no disturbance during the fire.

That the fire probably was of incendiary origin was the belief of a prison official.

A small fire declared to have been of incendiary origin occurred at the prison March 12.

CROPS CERTAIN TO BE 100 PER CENT

W. P. Alworth, declares that sufficient water has been furnished to mature major products.

"Crops on the Twin Falls tract this year will be normal and I anticipate a 100 per cent production," declared W. P. Alworth, state and county farm bureau president yesterday. Mr. Alworth, who is one of the leading farmers of the Twin Falls tract, was here to attend the conference of county farm bureau officials of southern Idaho.

"Good farmers here always assessed a crop in this section," continued Mr. Alworth. "It is a fact that practically every year since the farmers cutting down on the water supply at this time because vital crops have matured. Thus, with a diminishing

of water supply this year, the tract is able to have a full crop of wheat, corn and potatoes, while those who understand the situation will have a full crop of sugar beets and beans.

"Where there is a doubt of a full amount of sugar beets, it is due to the attempt at over-production. Farmers should never plant more than 20 per cent of their land in beets; if this is done water used in maturing wheat, hay and potatoes is able to shift its water to the maturing of beets and beans.

"I have heard of the reports that farmers of Twin Falls were suffering because of a water shortage but can see no reason for pessimism.

VALUE OF CREDIT

A checking account is the first step toward establishing credit with a bank.

And credit today is a real asset. Yet it is what you make it.

The right credit at the right time, at the right bank may be worth more to you than a batch of letters presented by you as a stranger.

We seek growing accounts of growing business men—men who will come to us for advice, and who will want the friendship of a strong bank when credit is needed.

This bank will be glad to meet you and serve you. It is a pleasure, as well as good business, to have young men grow with us.

INTERNATIONAL AIR POLICE.

The Germans refuse to fulfil the terms of the peace treaty and enter upon any plan of either passive or active resistance, how are they to be coerced into keeping their pledges?

Formerly, it seems, by an allied air force.

Recent aircraft developments in England and France indicate nothing less than a plan to establish international air police to keep in eye on the enemy and enforce the treaty.

It may be recalled that on one or two occasions after the signing of the armistice, when the people of Berlin grew especially turbulent, they were quieted by the appearance of a big British dirigible war balloon which cruised around conspicuously and then flew away.

The British government has gone right ahead manufacturing those big fellows. The trans-atlantic flight of the R-34 was probably a mere incident in the program of creating a fleet of those monsters and imposing Germany with their power. It is said that a blimp four times as large as the R-34 is now building in England. Also dirigibles of the bombing type are being rushed to completion. France is doing nothing so spectacular, but has made almost as large an appropriation to aircraft as Great Britain has, evidently with the same purpose in mind.

The United States, which would naturally be supposed to play a fitting part in this preparation, has appropriated the comparatively small amount of \$50,000 for the air services of the army and navy together. That will enable this country to do far less than France and Britain.

It seems strange enough that if Germany attacks civilization again, she shows signs of attacking, the way to stop her is by a great allied air demonstration. The planes, which are ready, Congress would do well to enlarge its vision in this respect.

DIVING FOR COAL.

Nearly a million tons of coal are to be salvaged from the bottom of Long Island Sound, and other thousands of tons from the sea along the New England coast. The boats are being especially constructed for this work.

These huge amounts of coal have been deposited along the coast as a result of wrecks covering a long period of years. Much of the coal is only about 150 feet below the surface.

The boats are equipped with modern diving apparatus and a cable connecting with the surface craft. The coal will pass through this tube. The mechanical details of the outfit have not been disclosed.

This is only one of many interesting salvage adventures going on today. A cargo must be perhaps and lost in very deep water indeed if it is to be entirely lost. Modern precautions have made it possible to explore the ocean bottom, to raise sunken ships and to salvage almost everything not utterly spoiled by the water.

The modern diver may not be so full of rife and thrills as the old-time treasure seeker. But it is far more effective, and probably saves more treasure than the old way.

PITCHING HORSESHOES.

Lorain, Va., is to be the scene of a great sporting event on August 29. Horsemen pitchers from the whole country are going to assemble and compete for the championship. It is an annual event in Lorain county, though it was omitted last year on account of the war. It may be of great interest to know that the present champion is a man named C. T. Short.

Many a man will smile at this an-

ouncement. But the smile is likely to end in a wistful backward turn of memory to barefoot days when much of the joy of life lay in that simple, old-fashioned game, and when he could put over a "ringer" twice or three in succession was a hero comparable to John L. Sullivan or the man who walked the tight-rope at Niagara Falls.

The game isn't so obsolete, at that. It has survived unimpaired in many a rural community, and is regaining popularity many a "ringer" place that would resent any imputation of rusticity. It is being played, indeed, in some very dignified city clubs, though one blunder to report that the game is staged on an ordinary floor instead of pond, honest ground, and the peg is a fancy, movable thing, and the slides are made of rubber. Still, it is better to pitch horseshoes in that molly-coddle way than not to pitch them at all.

And now that this smile over the forehead sporting event is entirely gone, wouldn't the middle-aged male reader honestly give 100 to be the horseshoe champion of his own county?

WOMEN PHILANTHROPISTS.

A fierce discussion is raging over England as to whether women shall be admitted to the Episcopal clergy.

All the old arguments are being introduced by both sides, and thus far the matter is in a deadlock.

The same controversy has raged in almost every religious sect since time began. But truly there is no good reason, scriptural or otherwise, why women should not make just as good ministers as men. Most women are by nature more deeply religious than most men. Many women are good speakers, having a charm and gift of persuasiveness seldom equaled by the stronger sex. Any women are by nature sympathetic and tender. It should be easy for them to deal with questions involving human nature and its sorrows.

Breaking with old customs is always a slow, hard process, and for women to take their place among the clergy in the Church of England will be a notable change, but that any menace to morals or manners would accompany the change is hard to believe.

DEATH STALKS

Continued From Page One.

Street cars had been stoned in various parts of the city, the assailants being both white and negro. One negro was shot, but not fatally, after a mob had boarded a street car and in the ensuing fight two city detectives were wounded slightly.

A mob, composed largely of civilians, according to the police, cornered a negro and in the fight that followed the black was shot and his skull crushed by the butt of a gun.

Many clashes occurred between whites and blacks on street cars. One negro was shot on the back end of a car, fired into the crowd following the car and wounded four persons, but finally was stopped by a city detective who was reported to have sent seven bullets into the negro's body. Each of the four white men were only slightly wounded.

Marine Reported Killed.

The fighting at night had resumed largely to fighting between small groups and in one of these encounters a marine was reported to have been killed. Although serious men had taken part in the early hours of the most serious fighting, the night raids were made up of civilians.

Worse Since Civil War.

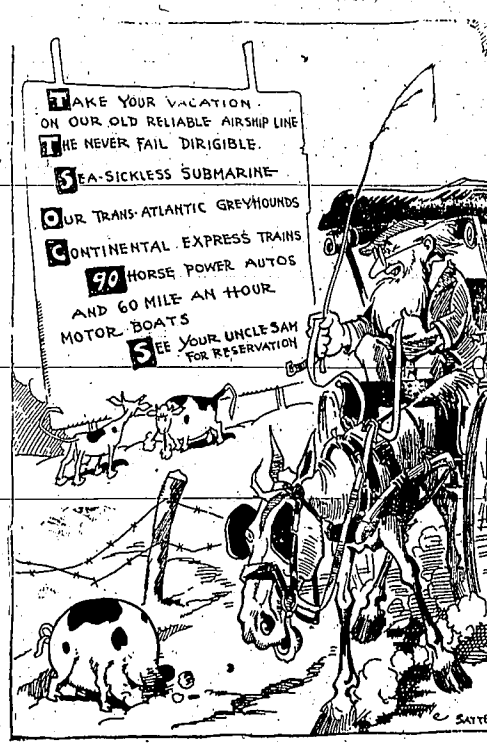

It was said by officials that the riots here were of a more serious nature than anything which had occurred since the outbreaks during the period of the most serious fighting here in the turbulent days after the Civil War before the present form of district government was organized.

The outbreaks started Saturday night following a series of attacks on white women, several natives, actors of color and general lawlessness. Several hundred soldiers, sailors and Marines joined together Saturday night to search for a negro suspect of attacking the wife of an employee of the naval aviation bureau. Unable to find him, they made their way to the center of the city, where they wanted their target on a negro, they met.

The powder guard and police reserves had been called out only that evening, but the disturbances, which had started in the streets, were taken from the street cars and regular automobiles and feet. Fifteen negroes were injured so seriously that they were taken to hospitals. Patrolman McGrath was shot in the breast and several white men were cut and bruised.

The outbreaks continued unabated several hours after midnight and were renewed with increased ferocity Sunday night. Negroes who ventured into the business districts were chased and beaten, while it was unsafe for

"GIDDAP, FANNIE. HEH! HEH! HEH!"

white persons to venture into negro residential sections.

Service Men Exonerated. Officers of the army and navy today declared that there was no proof that enlisted men were inciting and participating in the riots. Secretary Daniels directed officers in the Washington district to spare no effort to prevent participation of men wearing the uniform.

Leaders in the house and senate announced tonight congressional inquiries would be started tomorrow to fix the responsibility for the riots and to formulate plans for preventing further outbreaks.

SIX KILLED IN NORFOLK

NORFOLK, Va., July 21.—Six persons were shot during a clash between whites and blacks in the negro sections of the city tonight. Four of the expected are negroes of whom two are reported to die. The other two wounded are officers.

The trouble started when the policemen attempted to arrest negroes fighting among themselves. They resisted interference of the police and were joined by other negroes. In a few minutes there was shooting in several places in the negro district. Fearing a general race riot the city authorities, after calling out all police reserves appointed to the naval authorities for additional protection. A detachment of sailors and marines was sent from the naval base and were patrolling the streets where the trouble started.

At a late hour the city was quiet.

scribing the Irish convention which had failed to agree as his attempt to apply President Wilson's principles in Ireland.

In answering Mr. Dooley's demand for a referendum he argued that the difficulty was that Ireland was not a nation, but three nations in race, religion and temperament and outlook—in fact, in everything constituting the fundamental qualities of a nation. Until this difficulty was bridged, it was useless to talk about self-determination and until Irishmen definitely faced this difficulty he despaired of any settlement.

Canon Force Eldest In. Mr. Lloyd George, emphatic, ridiculed the suggestion that his attitude toward Ireland had changed. He said he adhered to his position announced in the general election and was prepared to carry it into effect.

His advisers, he added, could have been quite for themselves if they wished it, but they could not force it on Mr. Dooley. The house then rejected Mr. Dooley's motion by a vote of 183 to 141 and the bill passed the third reading.

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to Keep Her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for coloring gray, streaks and balding hair, is grand, mother's recipe, and folks are again using it to keep their hair—a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays though, we don't have the troublesome task of gathering the sage and the mussy milking at home. All druggists sell the ready-to-use product, improved by the addition of other ingredients, called "Wych's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw through your hair, taking one small strand at a time; by morning the gray hair disappears, but what softens the locks with Wych's Sage and Sulphur Compound. In fact, besides beautifully darkening the hair after a few applications, it also produces that soft and lustrous appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

SHIPING STRIKE GROWS MORE ACUTE

Marine Engineers Definitely Break Off Negotiations With the Board

By the Associated Press. NEW YORK, July 21.—With no sign in sight of a settlement of the marine workers' strike the situation became more acute today when the marine engineers definitely broke off negotiations with the United States shipping board and the American Steamship association. They aligned themselves with the firemen, oilers, cooks, water tenders and others who have been on strike for more than two weeks and both sides reiterated their determination not to yield.

The possibility of an extension of the strike to involve the railroads appeared today when the firemen, oilers and tenders on two ships of the New York, Ontario & Western railroad walked out.

MOUNT CLEMENS, Mich., July 21.—Zanzitization into locals of the negroes here and at Norfolk, Va. Chinese and Portuguese branches already have been formed.

The American Steamship association decided today to have no further negotiations with the strikers and to make no more concessions.

DEMPEY VISITS IN OLD HOME TOWN

By the Associated Press. SALT LAKE, Utah, July 21.—Jack Dempey, champion heavyweight pugilist, spent today with his mother, the first day at home for him, since his wife's death.

This is the first relaxation he has had since beginning training. Dempey told the few callers who were allowed to pass a manager and several brothers in order to see him. Dempey said that he had not signed any contracts for fights or for future boxing contests, but that he is likely to go with a circus or on a vaudeville circuit shortly.

Referring to the possibility of a fight with Willie Moskos, Dempey declared he was willing to box with the California man if the people demanded it. He intimated that Carpenter would be his next opponent. After a few days' here with his mother Dempey will go to Chicago, he said today. Dempey was to appear publicly tonight in aid of the Salvation Army home service drive.

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If Your Back Hurts or Bladder Bothers Drink Lots Of Water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidney and irritate the entire urinary tract.

Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they attain from 1 to 600 gallons of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Think today of the thousands of people who are suffering from kidney trouble, and of the thousands who are suffering from rheumatism, and of the thousands who are suffering from indigestion, and of the thousands who are suffering from constipation, and of the thousands who are suffering from all these ailments because they have neglected their kidneys.

Ind salts is inexpensive; cannot injure; makes a delightful effervescent drink-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also before the water drinking, and it doubt you will wonder what meaning of your kidney trouble and backache.

SECOND PERIOD

Embracing the next 10 days (terminating Aug. 2) the following number of votes will be issued on subscriptions:

Six months	\$ 3.25	4,000
One year	8.00	12,000
Two years	12.00	12,000

THIRD PERIOD

Embracing the last week (terminating Aug. 2) the following number of votes will be issued on subscription:

Six months	\$ 3.25	3,000
One year	8.00	10,000
Two years	12.00	15,000

The above schedule of votes, which is on a declining scale basis, positively not to be changed during the competition. A special ballot, good for 50,000 votes, will be issued on every "club" of 24 turned in. This arrangement will be in effect throughout the entire campaign and is to be considered a part of the regular schedule. There will be no extra votes offered, extra prizes given, or any other inducements whatever inaugurated during this campaign. Remember this and lay your plans accordingly.

Now For the Home Stretch

Watch them on the home stretch. May the best candidate win!

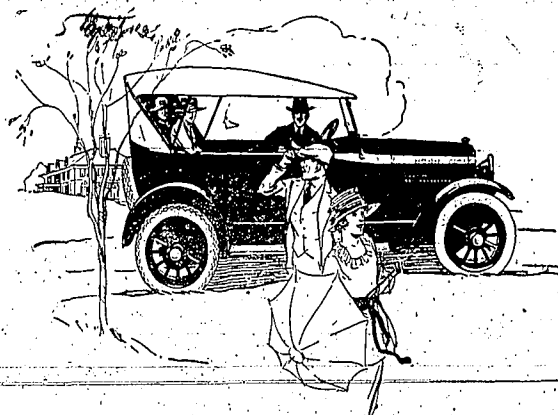

Only a Few Days Remain

As close as the race now stands it can be almost any one of them.

THE TIME IS SHORT

Hustle is the key that will unlock the treasure chest so filled with magnificent prizes, by far the most valuable and attractive ever offered by any newspaper in this section of the state in recognition of enterprise and action. Never before has there been such a glittering array of gifts presented as in the great Chronicle campaign, and never was there such tremendous battles waged to win them. Present indications point to a hair-breadth finish; and, while it is certain that the winning votes will run very high, it is also reasonably sure that the grand capital prize will be won by a very narrow margin. Count your votes; count the other fellow's votes, and then go out and hustle for more votes—always more votes. It would be better to win the prize you most desire by a million more than enough, than to get left by a few hundred thousand.

From Now Until the Finish is the Time One Hundred Per Cent Efficiency Will Count the Most

Some Person Whose Name appears in the Above List will get \$1725 for their work the next 17 days

AS CLOSE AS THE RACE NOW STANDS, SUCCESS OR FAILURE, GOLD AND GLORY—EVERYTHING—DEPENDS UPON WHAT EACH CANDIDATE IS ABLE TO DO THESE LAST FEW DAYS. "SECOND PERIOD" CLOSING ONE WEEK FROM SATURDAY.

CHICAGO, July 21.—Corn developed an upward tendency today as a result of sharp upticks in the value of hog. Final quotations on corn were unaltered, 1/2 to 2 1/2c net higher, with September \$1.03 to \$1.03 1/2 and December \$1.02 1/2 to \$1.02 3/4. Oats finished 1/2c to 3/4c down, and provisions unaltered. Bullish sentiment ruled the corn market throughout the day, for not only were hog values soaring again, but labor difficulties both in the packing house industry and in other important lines seemed to promise better chance of adjustment than was the case on Saturday. With the movement of wheat necessarily having preference, the arrivals of corn were expected to be small for some time. Profit taking sales by holders failed, however, to bring about any marked downturn, and a fresh break in sterling exchange was virtually ignored. Hoarding pressure weakened oats. Prices, however, all delivered climbed to the highest prices yet this season. The bulge was due to predictions that the 1914 crop of oats would be less than the average. Provisions were lifted by the strength of corn and hogs.

Get the Habit of Drinking Hot Water Before Breakfast. Says we can't look or feel right with the system full of poisons. Millions of folks bathe internally now instead of looking their system with drugs. 'What an inside bath!' you say? Well, it is guaranteed to perform miracles of you could be lousy and hot water enthusiasts. There are vast numbers of men and women, to, who, immediately upon arising in the morning drink a glass of hot water with a tablespoonful of limestone phosphate in it. This is a very excellent health measure. It is guaranteed to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day becomes food for the millions of bacteria which infest the bowels and the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, hot tates, colds, stomach troubles, kidney misery, impure blood and sleeplessness and all sorts of ailments. People who feel good one day and badly the next but who simply cannot get feeling right are urged to obtain a quarter pound of Limestone phosphate from the Twin Falls County. It will cost very little, but is sufficient to make anyone a real crank on the subject of internal sanitation. Just as soap and hot water act on the skin, cleansing, sweetening so hot water act on the stomach, kidneys and bowels. It is vastly more important to bathe on the inside than pores do not absorb impurities into the blood, while the bowel pores do.

CONTESTANTS SWING INTO THE STRETCH-NECK AND NECK

Going up.

Swinging into line, all a throng with high hopes and unclouded candidacies.

In The Chronicle's new justly famous Paigo Campaign have swelled their vote totals to a wonderfully high mark and from now on until the finish, it will be a pretty exciting race between the leaders.

The first period of the campaign which closed last night was a tremendous success. Tens of thousands, you hundreds of thousands of votes were issued, and every "live" candidate credited accordingly.

It is a strange coincidence, too, something unusual in affairs of this kind, but each of the leading candidates who are striving for first honors and the grand prize \$1725.00 Paigo automobile, benefits to an equal degree during the period just closed that without furthering could today's leader be determined.

The competition, therefore, so far as the relative standing of the candidates is concerned depends almost ENTIRELY upon the results obtained by the various contestants between now and the finish as to who the ultimate winners will be.

The above is not mere talk for the sake of telling but a real fact—hence the struggle for supremacy will be fought out during the next seventeen days for the entire campaign comes to a fatal close just two weeks from Saturday night.

ACTUAL TEST NOW AHEAD.

And now for a whirlwind finish. Now for the unexpected and surprises. These are the days that will test the resourcefulness of the candidates. Here is where our courage upholds them and makes them fight, or the lack of it takes the stiffness out of their knees and leaves them trailing in the dust.

Time, too, supreme concern urges them on when they tire and that is the GAMES' FIGHT' OF ALL.

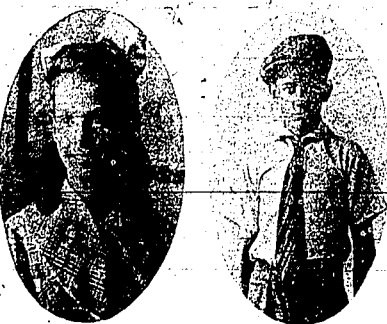

The race is over who gets to the finish.

The brave who changes each.

Then there are his chances away.

The time to succeed is when others

THE YOUNGEST CANDIDATES

Miss Katherine Logan, is probably the youngest candidate in the list from which the big prize winners will be chosen in The Chronicle's campaign. She is bright, ambitious and energetic and is pulling thousands of votes in her race against her older competitors. She lives on the Salmon tract on Route 2.

Miss Katherine Logan, is probably the youngest candidate in the list from which the big prize winners will be chosen in The Chronicle's campaign. She is bright, ambitious and energetic and is pulling thousands of votes in her race against her older competitors. She lives on the Salmon tract on Route 2.

How to Jump Into First Place.

On each 2-year subscription to The Chronicle or approximately its equivalent in shorter term orders, 40,000 votes are allowed—providing same is received at the campaign department before 10 o'clock next Monday night, July 21.

Then, in addition to that, 50,000 SPECIAL EXTRA votes are allowed on every "club" of \$24.00 turned in.

Therefore, two 2-year subscriptions (amounting to \$24.00 in business) means 130,000 votes.

It can readily be seen by glancing at the vote totals below that just a few such subscriptions for any candidate would furnish a new leader in the race; in fact, an ENTIRELY NEW CANDIDATE what at this time has no votes at all, could, by a little enthusiastic action on the part of themselves and friends, climb to the top of the list and thereby acquire the leadership for the big prize automobile.

And, when one takes into consideration the value of the prizes to be awarded and the short time the competition is in force, they are well worth any effort they might take to secure.

CHARGE UNFOUNDED DECLARES WILLIAMS

Controllor Denies That He Received Any Fee in Real Estate Deal.

By the Associated Press.

WASHINGTON, July 21.—John Keith Williams, comptroller of the currency, appearing today before the senate banking committee considering his reappointment, denied charges by Representative McFadden of Pennsylvania, that he had received a fee in connection with the purchase by the government of the Arlington hotel site in Washington, for several million dollars. Such charges were declared by the comptroller to be "unfounded and baseless."

Representative McFadden was called on by Mr. Williams to make good his charges before the committee and Chairman McLean announced the Pennsylvania representative would testify. The comptroller will remain in testimony Wednesday afternoon having been taken until that time to permit consideration tomorrow of the bill of Senator Calder, republican, New York, to abolish the office of comptroller.

Mr. Williams denied any connection with the Arlington deal except that he had suggested acquisition of the site to Secretary of the Treasury McAdoo and had introduced a representative of the owner to the secretary.

Accusations of John Poole, president, and Frank J. Hogan, director of the federal national bank of Washington, that the comptroller had discriminated against that institution, were denied by Mr. Williams.

Mr. Williams told of his "indignation" when he heard reports that deposits of the emergency fleet corporation could be obtained through the influence of the Clatham-Phoenix National bank of New York. Such reports, he asserted, were the work of "speculators of the administration" and "infamous slanders" upon officials of the federal bank.

SEEK TO SPEED UP FORD EXAMINATION

Arguments Over Objections Are Eliminated—Record Now Reached—Million and Half Words.

By the Associated Press.

St. Louis leaders began today the oral examination of witnesses in the Ford case which resulted in a ruling by Judge Tucker cutting off debate for and against objections and the reading of a deposition by John Reed, magazine writer, Henry Ford escaped with only one hour on the witness stand today.

The witness, who is suing the Chicago Daily Tribune for \$1,000,000 on a charge of libel developed nothing in the way of views or ideas differing from those expressed on the stand last week.

The elimination of argument over objections was adopted as a means of speeding up the trial, the record of which now runs close to 1,600,000 words.

In his preliminary questions Elliott G. Stevenson, counsel for the Tribune, reminded the witness he had defamed an anarchist as one who throws bombs or seeks to overthrow government and

121 ARE ARRESTED ON CHARGE OF KIDNAPPING I. W. W.

By the Associated Press.

BIBBEO, July 21.—On charges of kidnaping contained in a blanket warrant covering approximately 300 names, all sworn to by one man, Fred W. Brown, a deputy sheriff employed in the office of the county attorney, 121 residents of Bibbeo and 188 Warren district were arrested here today by Sheriff James McDonald in connection with their alleged activity during the I. W. W. deportation incident here two years ago. Sheriff McDonald telephoned to all the men named in the warrant whom he could thus reach, notifying them of the charges. The defendants came to the courtroom, appearing before Justice W. C. Jack of Douglas. Each furnished bonds of \$5,000.

fact of the fire with sparks in the motor.

Origin in the Gas.

It was intended to charge the bag with a pure white mixture of hydrogen gas, but in the haste of the day it was completed, however, that a quantity of oxygen became mixed in the charging process, rendering a highly explosive combination.

When Jack Hootner, an employe of the rubber plant, and his wife, Edna, saw the flicker of flame he shouted a warning to the other passengers and jumped from the front seat.

All Protected by Parachutes.

All were protected by parachutes packed in the motor and before the explosion. Henry Weaver and Harry Weaver, mechanics, followed. E. H. Norton, a photographer, took a morning paper, was the last to leap. The first man, Earl H. Booth, publicity agent for an automobile park, did not get back.

His body struck the roof of the bank and burst in a crisp. Weaver's parachute was able and he was scurried by the streamer balloon and carried down to earth.

Hootner and Weaver landed practically unscathed. Norton suffered broken legs and severe internal injuries.

The other four were crushed and burned in the collapse of the bank. The central portion of the bank was wrecked and it was an hour before the fire could be extinguished.

The ship was on an experimental device-modified after army plans and it had been planned to make a trip daily between an amusement park and Grand park.

Blind States "Saturated."

The following statement was given the police department by Jack Booth, engineer, assistant pilot, who escaped by leaping from the balloon in a parachute:

"I have no idea how the ship caught fire. The two eight-horsepower motors had been running smoothly. We had headed away from the lake when the fire broke out. I saw the flames leap from the side and yelled to the passengers to jump. They were strapped to parachutes and leaped immediately. I think that all of the spectators which were burning died due to the oxygen which the burning oxygen took. My own parachute caught fire and I managed to land safely. The others probably died because they were not strapped to their parachutes. I saw the engine catch fire and I saw the

RETURN FROM TRIP TO ROBINSONS' BAR

C. E. Booth and Leonard Smith Spend Time At Delightful Spot During the Dry Spell.

C. E. Booth and Leonard Smith returned Sunday evening from Robinson's bar on the Salmon river, where they have been sampling for the days of the hot spell.

They drove through in a car, making a record trip without incident. The two families remain for the rest of the summer.

Mr. Booth leaves this morning for New York, where he will do the buying for his department store. He plans to return in a couple of weeks, and will at once join his family on Salmon river. Mr. Smith will also return to camp after a fortnight's spent looking after business in Twin Falls.

Hobbs bar is a beautiful camping place, the property of Hon. Champ Clark, with whom Mr. Booth served in the legislature.

FIVE ARE FINED FOR VIOLATING CITY'S LAWS

Police Judge W. A. Minnick heard charges for petty offenses yesterday morning. Five were charged in five of the cases. Clark Griffith was fined \$5 for being drunk and disturbing the peace; Irvin Williams of Murdock, George Galt of Hanson, J. L. Roberts of Twin Falls and J. C. Veal of New York. Each had been charged with parking cars in prohibited districts. George Chapman was charged with carrying a pistol and being drunk. Twin Falls. He

On Your Street

Watch the summer porches—happy women are there in the cool of the morning or the shade of the afternoon or out on the lawn. Faces bright, carefree, household duties forgotten—they're customers of ours. On the same street maybe you will see also, closed doors, vacant porches and back in the kitchen one who has not yet known the joy of Laundry Service. She is not a customer of ours. But we want her. Efficient service on rough dry and family finish.
