NEGRO LYNCHED BY TEXAS MOB

By the Associated Press. GULFPORT, Tex., July 24.—Chomer was quiet tonight after a night and day of intense excitement brought about by the attack yesterday on a white woman and the lynching today in the courthouse square of Chilton Jennings, young negro, for the crime, after he was identified and had confessed.

Jennings was captured by a sheriff's posse early today three miles from Chomer after an all night search. He was placed in jail at noon. A mob soon gathered and with the aid of sledge hammers broke the steel doors of the jail.

Just as the negro was brought out and a rope placed about his neck, a man on horseback appeared and was handed the other end of the rope. He galloped away, dragging the negro several blocks to the court house square. Jennings was then hanged.

ARE FORCED TO FLY IN BAD WEATHER

By the Associated Press. BELMONT PARK, N. Y., July 24.—Asserting they are forced to fly not only in bad weather, but also in unsafe machines, twenty aerial mail pilots today served notice on Second Assistant Postmaster General Prager at Washington that they would refuse to fly tomorrow unless reinstatement was granted to two brother pilots who they assert were discharged because they refused to take this air Tuesday on account of fear.

The airmen tonight received from Mr. Prager a telegram stating that the orders applying to the two pilots had not been rescinded and asserting that "where flying conditions are such that they cannot operate, they have the option to resign."

According to the men at Belmont field, the strike will affect the aviators of Chicago, Cleveland, Baltimore as well as Belmont Park. They claim the mail to Chicago and Washington will be held up unless the department reinstates the two discharged pilots and promises to make the machines safer for the pilots who remain in service.

DOES NOT FEAR A STRIKE

WASHINGTON, July 24.—Otto Praeger, second assistant postmaster general, said tonight that he did not believe any strike of mail aviators was pending, or that the men in the service would refuse duty.

# WETS TO LAUNCH REFERENDUM FIGHT

Petitions Are to Be Filed in Several States, Declare Anti-Prohibition Workers.

By the Associated Press. CHICAGO, July 24.—Petitions for a referendum on the prohibition constitutional amendment will be filed within 24 or 48 hours in Idaho, Michigan, Missouri and Nevada, according to announcement tonight from the western headquarters of the Association Opposed to National Prohibition. The referendum fight, because of conflicting court decisions, is expected to be taken to the United States supreme court as well as the constitutionality of the amendment, according to Levy Mayer, counsel for the association.

Referendum petitions have been filed in Ohio, California, Colorado, Arkansas, Oklahoma, Nebraska and Washington and court action is contemplated in Arkansas, Oklahoma and Washington, where the petitions have been held up, the statement said. In Oregon, Utah and Idaho the courts have held that the right of referendum does not apply to a resolution ratifying a constitutional amendment, while Mr. Mayer stated, the supreme courts of Washington and Ohio have decided the right does apply. An attempt to have the United States supreme court review the adverse decisions will be made, he said. The legal attack on the amendment will be put into formal form shortly, he said, and action probably will be started soon after the supreme court convenes in October.

# MATERIAL WITNESS FAILS TO APPEAR

Hails Finch of Tribune's Defense of Henry Ford's Libel Suit.

By the Associated Press.

DETROIT, Mich., July 24.—Absence from court today of a material witness in his previous testimony challenged an essential part in the defense of the Chicago Daily Tribune in Henry Ford's million dollar libel suit against the plans of Tribune attorneys to elude their side of the case which has been on trial since the middle of May.

The alleged libelous editorial headed "Ford is an anarchist" was based on an item sent the newspaper by its Detroit correspondent, F. W. Williams, who testified that Frank L. Klingensmith, vice president of the Ford Motor company, was authorized for this statement that the company would not hold open positions of its employees who went with the national guard to the Mexican border in 1916, nor care for their dependents. James A. Connor, who appeared as a voluntary witness earlier in the trial that Mr. Klingensmith had informed him the company would care for dependents of its soldier-employees and hold their jobs. Tribune counsel introduced evidence intended to discount Connor's testimony and also subpoenaed him, but he failed to appear today when called as the defense's last witness.

A deposition by Connor's mother, Mrs. Mary Connor, to the effect that her son was on a vacation, was placed in evidence. Her son was not dodging subpoenaed service, Mr. Connor testified, but she was unable to state his whereabouts.

Four other witnesses were called today, among them F. D. Sponcer, who testified that he knew Henry and Edsel Ford well and that the former at the time of the negotiations over the auto French loan of 1918 told him that he would withdraw his funds from any bank that subscribed to the loan.

# PALMER DEFENDS ADMINISTRATION

Reaffirms His Statement Made Through Senator New of Indiana.

By the Associated Press.

WASHINGTON, July 24.—A Michigan attorney today defended his right for senate confirmation of his nomination as attorney general and again vigorously defended his administration as alien property custodian. He replied to charges of improper administration of alien enemy property, made by Harold Remington, a New York lawyer, and Leslie S. Kennard, an Indiana attorney holding a position in the alien property custodian's office.

Mr. Remington, appearing before the committee in person, declared that as the department of justice must pass on many acts and claims of the alien property custodian as attorney general, his appointment as attorney general was highly improper.

General charges of improper administration were made by Mr. Kennard yesterday by Mr. Palmer, who presented an affidavit from Mr. Kennard repudiating his previous statement.

Mr. Palmer also stated that Mr. Kennard, after making his repudiating affidavit before officers of the property custodian, had promised to appear before the committee, but could not be located today.

Answering Mr. Remington's statement that the attorney general must pass on claims of owners and creditors of enemy property seized by the alien property custodian, Mr. Palmer argued that justice of the claims could not be decided by the attorney general, but must be determined by the federal courts in regularly instituted legal proceedings. In reply to Mr. Remington's assertion that Mr. Palmer's construction of the custodian's powers were erroneous, the attorney general replied that these powers had been upheld in every federal court in which they had been tested.

Mr. Palmer declared there was nothing inconsistent in his jurisdiction of claims for property made against the alien property custodian. Declaring that he never had passed personally on a single claim as such matters were handled by subordinates, Mr. Palmer added:

"Besides, these claims must be settled by legislation of congress, after peace is proclaimed. I have no doubt that congress will provide the machinery to prevent men from occupying inconsistent positions."

One of Mr. Kennard's charges, Mr. Palmer stated, was that he had failed to seize property of Turkish subjects in this country.

"In the first place," Mr. Palmer replied, "there was not very much Turkish property in this country."

He said that he had not seized property in this country—fear of harassment regarding non-Americans in Turkey. The president approved of my course in that matter."

Mr. Palmer said he did not know where Mrs. C. E. Tuttle and Miss Louise Keith came, but yesterday called officials of the custodian's office to make an inquiry regarding his statement. When called before the offi-

# LEGION URGES ALL TO KEEP POLICIES

### Will Work for Amendment to War Risk Insurance as Favoring Former Service Men.

Pending adjustment of the war risk insurance act from a war to a peace time basis, the American Legion is urging all veterans to maintain their government policies, according to information received by the Twin Falls members of the organization from La Verne H. Collier, state adjutant.

Amendment of the war risk insurance act will be urged by the American Legion, through its legislative committee in Washington, in order to allow men insured under the act to elect whether their insurance upon maturity will be paid in installments or in one lump payment. Former Senator Luke Lea and former Congressman Thomas W. Miller, joint chairmen of the committee, plan to have legislation introduced immediately to effect this alteration in the act to carry out the expressed wish of the American Legion delegates at their St. Louis meeting.

The present form of war risk insurance is known as term insurance and is payable in monthly installments for a period of 2400 months. This may be converted into ordinary forms of insurance such as straight life insurance, twenty or thirty year paid-up life insurance and endowment insurance. Except in the case of a matured endowment, these forms of insurance, under the present act, are payable only in installments, extending over a twenty-year period, the amount of installments depending upon the amount of insurance.

The purpose of the intended amendment is to allow a man to elect how the insurance shall be paid. Service men say that their beneficiaries in many cases are too old ever to realize any usefulness from the insurance if paid only in monthly installments. It has also been suggested that men be allowed to elect payment of part of their total insurance in one lump sum and the balance in installments.

## Delicate Mechanism

Despite its scope Swift & Company is a business of infinite details, requiring infinite attention.

Experienced men must know livestock buying with a knowledge of weight, price, the amount and quality of meat the live animals will yield.

Each manufacturing operation must be done with expert skill and scientific precision. A highly perishable product must be handled with speed and care to avoid loss.

Chemists, engineers, accountants, and other specialists are required to take care of our intricate problems.

Alert wisdom and judgment must be used in getting stocks of goods into the open channels of demand through our four hundred branch houses. Branch house organizations must show activity and energy to sell at the market in the face of acute competition from other large packers, and hundreds of small ones.

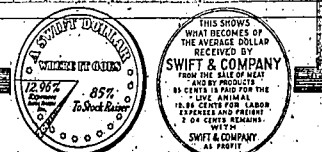

All these requirements of intelligence, loyalty, devotion to the task, are met in the personnel of Swift & Company. Yet the profit is only a fraction of a cent per pound with costs at minimum.

How can the workings of this delicate human mechanism be improved upon?

Do you believe that Government direction would add to our efficiency or improve the service rendered the producer and consumer?

Let us send you a Swift "Dollar". It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill.

THE SUPERIOR PEOPLE.

The word "common" in the sense of vulgar, beneath the average in some of its respects, is a familiar one. Just what does it mean? People in high places often describe the "common" stigma people in lowly ones are often the real aristocrats.

Frank Gruek attempts in the American magazine to define the difference between commonness and superiority in people. He sets forth ten tests by which to try a man's or woman's fitness. Whoever can meet these tests is a superior person. If not, he is common. And Dr. Craggs grants that most people are superior or common in streaks. These are the marks by which you may know the Superior One:

- I. He is spiritual—meaning that his joys are more of the mind than of the body.
II. He likes simplicity. He uses simple words, but simple habits, and simple food, finds pleasure in simple forms of play.
III. He likes to preserve. He is above his pleasures. He has pleasures, but none of them are bigger than he is. He can put by any or all of them a principle.
IV. He is clean. He may have to get dirty in the course of work or service, but at the first opportunity he cleans up. His thoughts and actions are clean and wholesome.
V. He is never bitter. Pessimism is the philosophy of victory. His above disaster marks the better.
VI. He does not like to show off.
VII. He is gentle. All noise is waste. God is in the still, small voice.
VIII. He is humble-minded. Pride learns nothing. Humility is teachable. Pride is a beggar for praise. Humility is royal, walking free of fear and favor.
IX. The superior man is one with whom familiarity does not breed contempt. He wears well. Friends do not tire of him. He has the lasting quality.
X. These, then, are the ten tests. Are you superior? Or are you common? Or are you both in streaks?

DESPICABLE MAJESTY AGAINST SENATE.

Maximilian Harden, the most brilliant of German editors, and the only one of them who has seemed, throughout this war, to understand the spirit and purposes of the American people, discussing the American attitude toward the peace treaty, says:

"In no country on earth, from the time the people advanced from the role of chorus to that of active participation in affairs, has public opinion ever been recentralized from proceedings in the sphere of senators, where naturally conservative and often plutocratic currents flow stronger than in the valley inhabited by the masses of the people."

If Harden had better look a little out, or the senate will lurch a withering resolution at him.

HOW TO LIVE LONG.

Insurance companies have their uses beyond the enforced saving and the payment of benefits. In the course of years of accumulating statistics about human life, which are pretty accurate guide if one wishes to preserve health.

According to the records of one powerful company, the man who is married, who works hard six or eight hours and plays comfortably the rest of the day, who is neither very rich nor very poor, who is not too fat and who does not eat too much, who does not drink and does not worry, stands the best chance of long life and a feeling the principles upon which the

competence to see him thrown to the end of it.

It is what the doctors have been telling people right along, and the teachers and ministers and all who are concerned with human welfare. "Neither riches nor poverty give me, O Lord," sang the Icelandic, Greek philosopher and Roman poet praised the "middle way." The common life is best—good work during working hours, good play and good sleep, good, simple food taken in moderation, the simple human joys of home and family—enough to get ahead comfortably for the future. And this is best not only for the insurance company, but for all human growth and happiness.

The treaty ratifying body to confer with him. It was said today that President Wilson had known of Mr. Taft's interpretation plan for several days and it also developed that the former president had opened correspondence on the subject with the democratic side of the senate. A formal conference took place at the White House last night to toward bringing some demonstrators and some republicans together on the middle ground on interpretive reservations, but the republicans who favor the league still seemed more confident than they were in the past. Mr. Wilson himself would be found committed to such a course.

Hays Phases to Lodge. Publication today of Mr. Taft's letters to Will H. Hays, the republican national chairman, was followed by a telephone conversation between Mr. Hays, who is in Indiana, and Senator Lodge. Mr. Lodge declined to discuss his talk with the chairman but it was understood the latter called up in regard to the letters, which he said had not yet reached him.

While Senator Lodge also declined to go into his views on the Taft proposal, other senators who have stood close to him in the treaty fight indicated they considered the development a step toward the development of a compromise which eventually would permit radical amendment of the covenant or even rejection of the treaty.

Japanese Discuss Shanghai. Katsuhiko Dehachi, Japanese charge d'affaires, visited the state department today and discussed with various officials the Shanghai problem, the subject of the peace treaty. In this connection it was learned that the Japanese government had been advised fully of the strength of sentiment developed in the senate favoring the restoration of Shanghai to Chinese sovereignty. White House statement that it speedily would clarify the situation by some declaration of its purpose regarding Shanghai.

While so far as known the Japanese government has not authorized any statement on the Shanghai situation, it is suggested by officials that the reason might be found in article 15, section 7 of the peace treaty. The article requires Germany to hand over to Japan within three months of the ratification of the treaty, the archives, records, plans, titles, deeds and documents of every kind relating to the territory of Kiaochow, including all of the treaties bearing on the subject. It is said that until these are submitted, it is not possible to make any statement on the extent of its own holdings in Kiaochow and Shanghai, nor unless Germany should participate the treaty provisions on this point will Japan be in position to transfer title not only before the final ratification of the treaty, but for three months thereafter.

Parliamentary Approval Not Needed. Parliamentary approval is not required in the case of this treaty in Japan, but it is said nevertheless there are mechanical hindrances which must be surmounted that will necessarily change much time—probably several weeks—before the document can be ratified. In the first place it is pointed out the treaty has barely reached Japan, at least 20 days being required to make the trip from Paris to Tokyo. Translation in Japanese, the next step, is said to be a most formidable undertaking and would require several weeks at least.

Once translated the document, it is explained, will be placed in the hands of the Japanese cabinet, which must consider it carefully and submit it with comment and endorsement to the emperor. The latter will turn it over to his privy council, who in turn will give the document its official study and approval. It is then for the emperor's signature. However, it is the last phase and if the emperor is satisfied with the work of his advisers he may conclude the treaty immediately by affixing his signature. No disposition to amend. It has been pointed out that at present no disposition has been shown in Japan to amend the treaty in any respect. But in Japanese circles here it is asserted that in the event that should either the French chambers or the American senate make any reservation or changes substantially affecting the principles upon which the

League Favors Ratification. NEW YORK, July 24.—Following publication of certain interpretations in the senate acceptance of the peace treaty suggested to Will H. Hays, republican national chairman, by former President Taft, officers of the League to Enforce Peace, of which Mr. Taft is head, tonight issued a statement declaring that the league and Mr. Taft as well have been and now are in favor of ratifying the treaty as it stands without reservations or amendments.

At a meeting of the emergency campaign committee of the League to Enforce Peace held in New York on Tuesday it was the unanimous opinion that the league should not suggest any reservations or amendments whatsoever. The statement was issued by Taft Shores' Senate Opinion. "The statement understands that Mr. Taft shares the opinion, but that he having in view a declaration that would not affect the validity of the ratification, main certain suggestions in the matter of the league, by the friends of the league of nations and in the interest of ratification of the covenant."

should resent this sort of thing, when they should give blow for blow and then some." Speaking of what he termed the "obscure" tactics of the British republicans in the senate as regards the league of nations covenant, Mr. Cummings said: "No man and no nation intentionally place obstacles in the way of a league of nations will survive enough to outlive the memory of such an offense against humanity and civilization."

"The covenant of the league of nations has become one of the great facts of history. The treaty of peace, including the covenant of the league, must be accepted or rejected. Senator critics can no longer find a comfortable hiding place under the pretext that they favor a league of nations, but are opposed to the suggestion of a league of nations. They have to show out and unambiguously. They are either in favor of the particular league or they are opposed to any league at all."

It is said the proposed covenant of peace is too vague. It is one of the chief merits of the draft that it does not leave a single point open to controversy. It is a document which is itself a certain degree of flexibility, so that new adjustments may be made as new conditions develop, and so that, notwithstanding the fact that it does not leave a single point open to controversy, it is the product of superior judgment. COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to Keep Her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe—and folks are again using it to keep their hair a good, clean color which is quite desirable, as we are living in an age when a youthful appearance is of the greatest advantage. Nowadays though, we don't have the troublesome task of gathering the sage and the sunny mixing at home. All drug stores and the grocery store product, improved by the addition of other ingredients, called "Wynth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Highly medicated, it is quite gentle, as we wash with it and draw through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wynth's Sage and Sulphur Compound, in that, besides beautifully darkening the hair after a few applications, it also produces that soft and lustrous appearance of abundance which is so attractive. This ready to use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

TWIN-FALLS MADE ENVIABLE RECORD

Official Figures Make Wild West Appreciation Stand Out Above Easterners

That the 21st division, in which Twin Falls, city and county, were well represented, more than held its own in making an enviable record while in France is evidenced by the publication of "The War With Germany," a statistical summary, which has just been received in Twin Falls.

This book shows that the 21st division spent 29 days in the battle zone, 14 of those days being in an active center. Only three other divisions spent less time on the front. The 21st division advanced their lines 24 kilometers or 4.35 per cent of the total advances made by the American army.

The 27th division with a total of 113 days on the front, more than three times as much, advanced only 7 1/2 kilometers or less than twice as fast as that of the 21st. The 27th is credited with making the greatest advance.

The 21st division also made an enviable record in the number of Germans captured, standing eighth in the list, with a record of 342 prisoners taken or 3.82 per cent of the 65,075 Germans taken by American troops.

Casualties of the 21st division totaled 6476, of which number 1300 were killed, an average of nearly 100 killed during each day of active fighting.

One of the most interesting comments on the casualties follows: "Among the 6476 casualties occurring among 'other units' there is one most interesting and not inconceivable group, some of the members of which are included in 'troops not in a division' and the rest among the casualties of replacement and depot divisions. These are the men who desert from the front. They went A. W. O. L. (absent without leave) from their organization in the zone of supply and in the training areas and found their way up to the battle front, where

many of them took part in the fighting, and some of them were killed or wounded. These cases were so numerous that General Pershing made special arrangements by which trained men who had rendered good service behind the lines could, on a reward, secure opportunity to go to the front and take part in the fighting.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally, now instead of loading their system with drugs. "What an inside bath; you say? Well, it is guaranteed to perform miracles of you could believe those hot water enthusiasts.

There are vast numbers of men and women, in who, immediately upon arising in the morning drink a glass of hot water with a tablespoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day becomes food for the millions of bacteria which infest the bowels of the quick result in poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, cold, stomach trouble, kidney misery, impure blood and sleeplessness and all sorts of ailments.

People who feel good one day, and badly the next but who simply cannot get feeling right are urged to obtain a quart-sized pound of limestone phosphate—the drug store. That still cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, penetrating and washing away dirt on the stomach, liver, kidneys and the bowels, because the skin is so important to bathe on the inside than pores do not absorb impurities into the blood, while the bowel pores do.

ARCHITECT IS GIVEN VIEW OF SITE OF PARK

Miss Yeck Makes Survey of Territory That is to be Made Beautiful.

APPRECIATES TASK ASSIGNED TO HER

To Spend Week in Close Study of Falls and Surrounding Territory Before Drafting Plans.

Mrs. Florence Yeck, landscape architect of Los Angeles, yesterday began preparations for her work of planning plans for the improvement of Shoshone Falls park.

In company with members of the executive board of the Shoshone Falls Park Memorial association, Mrs. Yeck visited the park, climbed the rugged buttes about its rugged boundaries, inspected the canyon and the ponds into it, the crown and caves, the benches and the slopes which nature has left in the grand and inspiring solitude, and laid the ground work for her labor.

Appreciates Great Task. Mrs. Yeck appreciates the great task to which she has assigned herself. In all America there are few such spots as that about Shoshone Falls, and the architect whose name will be linked with the park, which present generations will make available for those which are to come, will have a place in the history of our development.

So it is that Mrs. Yeck, who has been given first opportunity to submit her suggestions for the work to be done in the park, has been given the confidence which has been shown in her.

Get Fountain Viewpoint. With the party yesterday, in addition to the members of the executive board, were Mrs. Courchick, Mrs. Stearns and Miss Peterson, the executive board members among its members Mrs. Ripley, its secretary, and Mrs. Carrie Harper White, both of whom take unusual interest in the undertaking. The party therefore had the viewpoint of the sublime mind of the community, in addition to the constructive planning of the nonprofit, all of which was made available for Mrs. Yeck in the furtherance of her work. Mrs. Yeck will spend a week or so in close study of the falls and surroundings before beginning the work of maturing plans for submission to the executive board.

OFF FOR WEEK'S OUTING. Mr. and Mrs. C. D. Thomas and family will go to Robinson Bar today for a week's outing.

DECLARE WAR ON HOLE IN THE WALL

Relative of Former Ogden Men Who Were Murdered in Lewi

By the Associated Press. OGDEN, Utah, July 24.—That the double murder of John Henry Winslow and Hubert Winslow, brothers, former residents of Ogden, whose names were known to the police of their crime in the Jackson Hole country of Wyoming, will result in a fight for the extermination of a lawless element in the famous Wyoming district is the plan of relatives of the murdered boys and their friends in this city.

It is stated that a one of the best detectives in the country has been called into the case and sent to the Jackson county to make a thorough investigation of the Winslow murders as well as a number of other mysterious murders of ranchers in that district. From the information in the hands of relatives of the Winslow, the indications point to a conspiracy to keep the murderers out of a certain district and hold the land for cattle raising purposes only. The murder of the Winslow brothers is similar to that of Paul Morin, in the same district in 1908 and for which crime Thomas Sewell served three years of a 55 year sentence. He was murdered upon the petition of the residents of Jackson Hole. Sewell's son, William Sewell, 22 years of age, is held in the jail at Kemmerer, Wyoming, in connection with the murder of the Winslows. Joseph Johnson, a neighbor of the Winslows and the state's important witness, is held in the jail at Kemmerer against Sewell.

It is stated that Johnson is remaining in Kemmerer under the protection of the sheriff because "it would be better for him during the present time."

FUGITIVE THROUS REACH LEAVENWORTH TO QUELL HOT

By the Associated Press. LEAVENWORTH, Kan., July 24.—Quiet prevailed tonight at the United States penitentiary here, where yesterday morning 2500 prisoners were released from their cells for a holiday walk of the prison. With the arrival today of additional troops from Camp Grant, Ill., the military guards now number 1400 and according to Colonel Schwelker they, consequently, sufficed to maintain discipline.

OFFICERS FORCED CRUELTY CHARGE

Former Sergeant Declares "Hard-Ball" Smith-Main-Hill Abuse Men in Prison Camps.

By the Associated Press. WASHINGTON, July 24.—Efforts to fix responsibility of superior officers for the maltreatment of American military prisoners in detention camps and jails in and near Paris will be made by a house war investigation committee next week.

Chairman Johnson announced tonight that former Sergeant Clarence Hill, who is serving a six months' sentence at Fort Jay, N. Y., for mistreating prisoners, will be made a part of one of the camps, would appear before the committee Monday.

"Heat the prisoners or to heat yourself," is the choice that Hill says was given him by superior officers, according to a letter from Hill to Representative Hollister, Massachusetts, who turned it over to the committee. At prison farm number two, where Hill was an "assistant" of Lieutenant "Hard Ball" Smith, who also is in prison for mistreatment of soldiers, Hill wrote a note that he and other guards did their "best not to misuse the prisoners, and that it did not suit Smith."

"I am glad that I hit prisoners," wrote Hill, "but the orders came from lieutenant Smith and sergeant."

Hill's letter mentioned only Lieutenant Smith, but the former sergeant said, "I could tell you a lot more if I could talk with you."

While Hill is before one committee, Homer S. Cummings, democratic national chairman, is expected to appear before another, that headed by Representative Frank Wheeler, charged with inquiry into aviation expenditures. Mr. Cummings is to be asked about publicly said to have been issued by the democratic committee, in which the proposed visit of the House committee to the northwest for investigation of opium production was referred to as a "joy junket" and terminated, according to republican commitments, that the whole inquiry was for partisan purposes.

Mr. Wheeler will be asked to substantiate the charges of partisanship.

HAD TO FIGHT DESPERATE MEN DENVER, Colo., July 24.—Investigation by himself of prison farm number two at Chelles, France, failed to show brutality toward prisoners by American guards, Brig. Gen. A. M. Tuthill, former commander of the 73d infantry brigade of which Lieutenant "Hard Ball" Smith was a member, said here tonight.

"I inspected the camp at Chelles with Major General Frederick S. Stone on one occasion," said Brigadier General Tuthill, "and we both failed to observe any of the conditions complained of. The men appeared to be well fed, well clothed and as contented as prisoners could be."

The brigadier general declared Lieutenant Smith, now serving an eighteen months' prison sentence at Governors Island, was not a member of the committee.

Blasted Rock Fragment CRASHES THROUGH RESIDENCE

A fragment of rock thrown from the basement of the Junior high school building by a shot of dynamite yesterday crushed through the roof of the Dr. Charles H. Scott resident at 222 Seventh avenue north.

The work of blasting out the rock for the basement of the new building is being pushed rapidly, and fragments of rock have been blown about. But this is the first instance of any damage. No one was injured by the accident.

GRUSHER PLANT IS NEAR COMPLETION

Expect to Commence Work Next Week—Busy Digging "Coyote Holes" for First Blast.

Twin Falls highway, district's crusher plant is nearly completed, according to an announcement made yesterday by W. J. Johnson, director of highways. While there are several weeks before the rock producer will commence to furnish the base for the highways to be constructed in this county, due to the slow arrival of machinery, the plant is progressing satisfactorily.

Work has already been commenced on the digging of "coyote holes" under the lava rock for the first blast. Next week the compressor will have been installed and drilling commenced.

Tunnels, 18 inches wide and two feet high will be driven into the rock about 40 feet so that immediately after the installation of crushing machinery the blast can be set off, giving a large amount of rock to work on.

The railroad to the plant should be in operation next week, according to Mr. Johnson.

Members of the highway board's engineering force are busy working on the state highway. Mr. Johnson stated, because of the inability of the highway board to secure help.
