## CHICAGO'S BLACK BELT BECOMES VICIOUS BATTLE GROUND BETWEEN FRENZIED RACES

### NEGROES FORM IN FOOTBALL FASHION; CHARGE THE WHITES WITH KNIVES, CLUBS RAZORS AND OTHER HANDY WEAPONS

Troops Called to Quell Outbreak Which Spreads Over Wide Area on the South Side—Street Cars Are Stoned.

POLICE CHIEF IS UNABLE TO MAKE AN ESTIMATE OF THE NIGHT'S CASUALTIES

Scores of Conflicts in Separated Districts Take Toll of Lives Hundreds of People Wounded—Four Regiments of National Guardsmen Have Been Mobilized.

By the Associated Press.

CHICAGO, July 28.—Seven persons were killed and more than two score wounded, many of them seriously, in a renewal of race riots in the Chicago "black belt" tonight.

For more than five hours the five-mile area on the south side was a battle ground of scattered fights between whites and blacks and between policemen and negroes, who fired from house tops, from dark alleys and other points of vantage.

#### Troops Are Mobilized.

The call for troops to quell the outbreaks resulted in four regiments of national guardsmen being mobilized, but at a late hour tonight they had not been dispatched to the disturbed districts, and Chief of Police Garrity expressed the belief that the worst of the disorder had passed.

#### No Concerted Battle

There was no concerted battle by the blacks, the outbreaks dotting a large area. Every police station on the south side was flooded with reports of deaths and injuries.

Chief of Police Garrity, at a late hour, said that it was impossible to make an exact estimate of the casualties because of the contradictory reports.

#### Hits Are Renewed.

The riots which started yesterday on the south side beaches, were renewed when negro laborers began leaving the big industrial plants and by dark more than a score of separate outbreaks had occurred. Whites began dragging negroes from street cars, the negroes retaliated with stones and knives. Street cars in the heart of the "black belt" were tied up and the windows smashed.

#### BLACKS SHOOT FROM CAR

A "flying squadron" of blacks mounted a touring car and riding at full speed through the section known as No Man's Land, sent a volley of shots at a group of whites. One white woman was injured, but not fatally. The negroes were overtaken after a long chase and placed under arrest.

#### Four Negroes Fall.

Shortly afterward a mob of several hundred blacks formed at Thirty-fifth street and began stoning a policeman. In a twinkling gun fire was opened and four of the negroes fell, all mortally wounded.

A white man in the same club was dragged from a truck and stabbed to death.

A negro chauffeur was killed by a rifle's fire a few minutes later in the same block.

Scores of arrests were made, but where the rioters were found to be unarmed, they were released.

Negroes' Loot Stores.

Negroes began looting stores of whites in one district shortly after the firing of revolvers by a squad of policemen in an effort to break up a fight over a small package of groceries. The police soon complied their guns. The looting continued until a special squad of police, armed with rifles, arrived. They fired low, felling half a dozen blacks.

ground. Unconscious negroes and whites dotted the street. As they regained consciousness they were arrested or permitted to leave the neighborhood.

While the main battles were in progress, women, blacks and whites, battled away in front yards with weapons and missiles. In one of these fights a white woman was knocked unconscious and taken to a hospital.

#### Negro Soldiers Helpful.

In one battle on Thirty-fourth street negroes knocked two police unconscious and were drawing guns when a group of discharged negro soldiers came to the rescue of the whites. In another battle soon after, three policemen were shot. One may die.

In an effort to prevent quick transportation of rifle bearing policemen from one section to another, the negroes began cutting telephone and telegraph wires.

#### Fire on Street Cars.

The blacks began firing on street car conductors and motormen when they refused to allow negro passengers to board their cars because of threats made by white passengers. One motorist was reported shot in the leg.

Ambulances and patrol wagons threaded their way through the black belt throughout the early hours of the night.

A number of wounded negroes crept from their homes and other dark places. When they found they were buried in the President Hospital for Colored, which for several hours received a virtual procession of injured men and terror-stricken women.

Gather by Thousands.

The more seriously wounded negroes were taken to the street and surrounded the home of a white man. In a twinkling shots began to fly in all directions. More than a score of negroes fell. Some were carried off by companions.

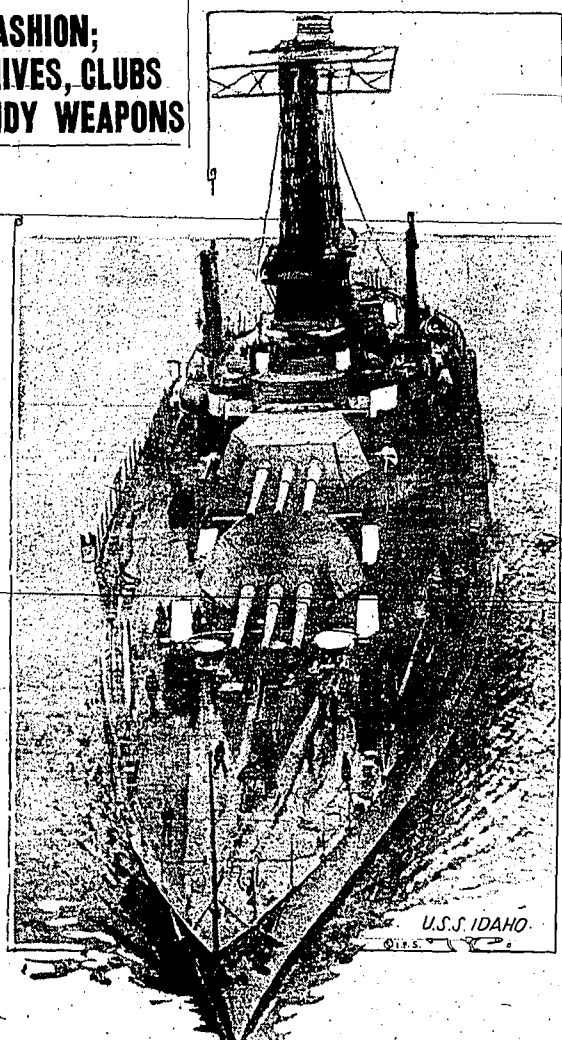

For more than two blocks along one street, negro snipers fired from housetops and windows. Not a single death resulted from this method of warfare, however.

Whites Alike Threatened.

After threats had been made by whites to "clean up" the stockyard district, a small army of negroes formed, ready to meet the challenge. An automobile of negroes started over the district to estimate the number of whites present. They were stoned. Then they drew revolvers and racing at top speed, fired at whites along the road. A white man was shot in the shoulder and a bullet grazed the head of a white woman.

The negroes were overtaken and rescued from the mob by policemen.

### WILSON ASKED TO MAKE STOP HERE ON TRIP

Chairman Day Sends Invitation to Tumulty in Behalf of Twin Falls.

WOULD MAKE THIS CHIEF IDAHO POINT

Could Meet Greater Number of People Here Than at Any Other Place in the State

Invitation has been extended to President Wilson to visit Twin Falls on his tour of the west, and indications are that if the nation's chief executive includes Idaho in his itinerary, the invitation will be accepted. At the request of President Thomas M. Robertson, of the Jefferson club, State Chairman Jerome J. Day has personally addressed Secretary Tumulty, inviting the president to visit Idaho on his tour of the west, and expressly urging that Twin Falls be made the chief stop.

At no place could the president meet more people. At no point in Idaho could he talk to a more appreciative audience.

No president—no ex-president—has ever paid Twin Falls a visit. Idaho politicians have seen to that. Twin Falls will greet the president with a crowd which will surpass any ever assembled in Idaho. Twin Falls will hear him as the leader of a great people just introduced to a world sobbing for its own vicious follies.

The state chairman knows the great heart of Twin Falls, and the state chairman has had a meeting before Secretary Tumulty. Unless something happens, if President Wilson comes to Idaho, he will visit Twin Falls.

### ROCAP BUYS RICKARD FOR DEBAPAMATION OF CHARACTER

By the Associated Press. PHILADELPHIA, July 28.—William H. Rocap, a local sports writer, has brought suit against George L. (Tex) Rickard to recover \$10,000 damages for alleged slander and defamation of character. The action is based on a statement said to have been made by Rickard on July 6, the day after the Willard-Dempsey fight which Rickard promoted. In the presence of Harry Mack of Toledo, it is charged that Rickard declared that Rocap attempted to blackmail him of \$10,000 in connection with the fight. This statement, Rocap declares, was untrue.

### JOHNNY KILBANE HAS SHADE OVER JOEY FOX OF ENGLAND

By the Associated Press. PHILADELPHIA, July 28.—Johnny Kilbane, featherweight champion, had a shade the better of "Joey" Fox, featherweight champion of England, in a fast six-round bout at National league baseball park tonight.

In the second round Fox was staggered by left hooks and a right cross, but he held his feet. The fight was fast and rough from the start. Kilbane did most of the leading and was the aggressor until the sixth round when Fox forced the fighting. The Englishman covered well and provided Kilbane with a clever boxer.

### CHAMPION DESPITE IT GOT HIS PROSPECTUS PITCHED

By the Associated Press. CHICAGO, July 28.—Jack Dempsey, world's heavyweight champion, arrived today from Salt Lake City by an operation on his nose. According to Dempsey he has been badly injured in incorrect breathing for many months. The champion was besieged by promoters and others who wanted to put him in the ring. In the morning on the stage, Jack Eszara, his manager, declined to wait a few days but considering the propositions.

# LEGION GIVES AID SECURING EFFECTS

Will Help Relatives of Men Who Died in Service to Obtain Personal Articles of Deceased.

Word has been received by the Twin Falls post, American Legion, that the national organization is making a vigorous effort to aid families to receive as quickly as possible the personal effects of soldiers who died in the service.

State branches of the American Legion have been instructed to obtain information through local posts as to all available information in cases in which there has been prolonged delay in forwarding deceased soldiers' effects and to notify national headquarters in each case, in which the assistance of the legion is desired.

"An appropriation for such services here before the American Legion," says the announcement, "and with your help and the help of the officers of every post in your state, the Legion can perform the service and all in contentment of many persons. It is in the matter of aiding relatives to receive as quickly as possible the effects of soldiers who died in service. There has been long delay in some instances in performing this duty.

"Except in isolated cases, there will not be brought to the attention of officers of posts such cases because of non representation of the families in past membership. So inquiry, ener-

getically conducted, will reveal some instances in which the legion can render help that it should be, and is, solicited to give.

"Please make such inquiry, and inform those headquarters of every case in which the legion's help is desired, and the matter will be quickly brought to the attention of the proper officials in Washington and action be protracted."

# DRY LAND FARMERS HELP FIGHT FIRES

Montana Towns Are In Danger From Flames Raging In Timbered Areas.

By the Associated Press.

BROOKHAVEN, Wash., July 28.—Fire in the forests of northern Idaho and western Montana with but several exceptions did not give the federal forest service officials serious concern today. The need of forest fire fighters to replace the men who have been in the woods for several weeks was pressing and dry land farmers from Montana, whose crops have failed, have been recruited in large numbers to fight the fires.

The Lolo national forest fire which broke all controls again, endangered St. Regis, several lumber camps and power lines. The Henderson fire was reported burning northwest and two towns, Stark and Houtan, are in danger from the Nigger Gulch fire. The Nigger Gulch fire is burning privately owned land at present with lumber company and forest service crews fighting to hold it back from the town from which part of the residents have fled.

Except for the fire that has burned 3,000 acres between the north and south forks of the Coeur d'Alene river in the Coeur d'Alene national forest, of Idaho and two other blazes, no forest fires in northern Idaho were considered serious. The Pack river fire was reported to have burned over 400 acres in the vicinity of St. Maries.

The forests on both sides of Glacier national park are burning and 500 men are trying to entrench the flames at Coram, Glazier and Bolton. One hundred additional men were sent to the vicinity of the park today.

DeWolter, Pfler.

It has been announced that in addition to the ram sale, a large number of range sales. The sale will be held August 27 and 28.

# WANT CONGRESS TO PROBE LYNCHINGS

Former President Taft and Others Issue Address to Nation Concerning Mob Violence.

NEW YORK, July 28.—Congressional investigation of the wave of mob violence and lynching throughout the United States was demanded in an "address to the nation" issued by former President Taft, officials of several southern states and other nationally prominent citizens, made public here today by the National Association for the Advancement of Colored People.

"Patriotic people throughout the country feel the shame which lynchings have cast upon the nation, but they have assumed partial responsibility for this shame by their silence and their acquiescence," said the address.

"The time has now come when citizens of the United States can no longer contemplate without protest the setting at naught of the fundamental principles upon which their citizenship is based."

The "address" recounts that in 1918, no less than 57 persons "were done to death without trial or any process of law," and declares that it is well known that the "impotent" will the guilty "suffer the cruel inflictions of mob violence." A congressional in-

vestigation is urged so that "means may be found to end the outrage." Prominent signers included: United States Attorney General Palmer, former Attorney General Charles J. Bonaparte of Baltimore, Ethel Root, Charles E. Hughes and Judge Ben H. Lindsey.

# PHYSICIAN WARNS AGAINST TYPHOID

Several Cases of Disease in Twin Falls Urges Inoculation—Gives Results in Army.

With the statement that typhoid has made its appearance in Twin Falls, Dr. C. Q. McGinnes, county physician, yesterday issued a warning to citizens to take precautionary methods to prevent the spread of the disease.

Dr. McGinnes stated that the cause of the appearance of the disease had not yet been discovered so that it was advisable for everyone to do everything to fight the disease.

"While the returning service man is immune from taking the disease," said Dr. McGinnes, "those who stayed at home are not. We can not have confidence in military inoculation in civil life such as they had in the army."

"The best method of combating the disease at this time would be to have oneself inoculated. The efficacy of this method was proven in the late war, where there were only 2328 typhoid cases reported out of an enlistment of nearly five million men and of that number only 232 deaths were reported. Nearly 85 per cent of the deaths in the Spanish-American war were from typhoid fever alone."

Dr. McGinnes also announced that the county commission would cooperate with him in fighting the spread of the disease here.

# GRAVES OF DEAD ARE KEPT GREEN

Soldiers Are Detained in Care for Cemeteries Where Lie Their Fallen Comrades.

By the Associated Press.

NEW YORK, July 28.—Less than one half of one per cent of the American soldiers who died on the battlefields of France were buried under official care, according to Colonel Joseph S. Heron, of Cincinnati, commander of the 15,000 troops who interred the fall of the Americans and who returned today. The men under Colonel Heron's command removed the dead from the temporary graves dug for them under fire or at night on the field where they fell and laid them to rest in large concentration cemeteries.

Each cemetery is surrounded by a palisade fence and the graves on the exterior kept green and cared for by a detachment of soldiers left on duty at each place. The largest graveyard is at Isonniaque where lie 22,000 Americans who died in the Argonne and Meuse sectors, and the next largest is at Trunacourt where 4,200 soldiers who fought at St. Mihiel and Toul are buried.

# JAPAN READY TO YIELD KIAO-CHOW

Counselor of Japanese Legation Tells Associated Press His Government Will Surrender Property.

By the Associated Press.

WASHINGTON, July 28.—Mr. Debusch, counselor of the Japanese embassy, charge in the absence of Viscount Ishii, conferred at the state department today with Secretary Lansing.

So far as is known no formal request has been made upon the Japanese embassy by the administration to issue any statement regarding the Japanese purposes as to Shantung, but Mr. Debusch was willing to discuss the subject with the Associated Press under the distinct understanding, however, that he was expressing his own personal views.

In answer to a question as to what was to be the final disposition of the Japanese troops in Shantung, Mr. Debusch replied:

"Japan has finally determined to retire to China her sovereignty over the Kiaochow territory of Kiaochow, which sovereignty was conferred upon Germany in accordance with the stipulations of the treaty between China and Japan in 1908."

"Japan is not only prepared to restore that property to China, but is also ready to open negotiations to that end with China as soon as possible."

VALUE OF CREDIT

A checking account is the first step toward establishing credit with a bank.

And credit today is a real asset. Yet it is what you make it.

The right credit at the right time, at the right bank may be worth more to you than a batch of letters presented by you-as-a stranger.

We seek growing accounts of growing business men—who will come to us for advice, and who will want the friendship of a strong bank when credit is needed.

This bank will be glad to meet you and serve you. It is a pleasure, as well as good business, to have young men grow with us.

# The "Second Period" Ends Saturday Night

## Entire Race Ends Next Week

Every Hour Counts

# The Grand Capital Prize Is Valued at \$1725

\*\*\*\*\*  
 FIGURE THIS OUT FOR YOURSELF  
 Here's an Example of How Easy It is to Secure Over Half a Million Votes in the Chronicle Campaign.  
 32,000 votes are allowed on every two-year subscription (new or renewal) to The Chronicle, providing same is turned in before the close of the "second period" terminating Saturday night, August 2nd.  
 Ten such subscriptions would entitle you to 320,000 votes, and would also entitle you to 250,000 extra special club votes, making a grand total of 570,000 votes.  
 Therefore, ten such subscriptions, or approximately its equivalent in shorter term orders, would mean over HALF A MILLION VOTES.  
 Haven't you got ten friends who would help you to the extent of a two-year subscription to The Chronicle, only \$125 toward winning that beautiful Paige automobile, valued at \$1725, which is to be given away next week.  
 Surely you have. Try it and see.

Grain

CHICAGO, July 28.—Estimates that the corn crop had already been damaged 25 per cent by drought and heat and that the loss would be doubled by another week of such weather led to an excited advance today in the corn market. Prices closed strong with no reports that the upward trend of general soaking rains had been met, the corn market quickly absorbed all offerings, and throughout the day showed increasing eagerness for more. The December delivery rose to the highest price yet this season, \$1.73 1/2, a rise of 1/2c to 3/4c compared with Saturday's final. But little reaction took place from these figures, for reports at hand were decidedly pessimistic as to Illinois, Missouri, Indiana, Kansas and parts of southern Iowa, South Dakota and Nebraska. Oats reflected the strength of corn. Upturns in provisions came chiefly from the bulge in grain and from announcement of liberal exports of lard and hams. Lower quotations on hogs were virtually grain.

Get the Habit of Drinking Hot Water Before Breakfast

Millions of folks bathe internally now instead of leading their system with drugs. "What an inside bath" you say? Well, it is guaranteed to perform miracles of you could be liven these hot water treatments. There are vast numbers of men and women, to who, immediately upon arising in the morning drink a glass of hot water with a tablespoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the urinary tract of impurities of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day becomes food for the millions of bacteria which irritate the bowels and the kidneys and the toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach troubles, kidney injury, impure blood and sleeplessness and all sorts of ailments. People who feel good one day and badly the next but who simply cannot get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will set you right, but it is sufficient to make anyone a real crank on the subject of internal sanitation. Just as soap and hot water act on the skin, cleansing, sweetening so hot water act on the stomach, liver kidneys and bowels. # CYCLONE CUTS PATH THROUGH MINNEOLA FIELD

## Great Bombing Planes Shattered by Wind and Lightning.

## ROOSEVELT FIELD IN PATH OF FURY-WIND Buildings Are Destroyed, Hangars Wrecked and Havoc Played by Wild Elements.

MINNEOLA, N. Y., July 28.—Three bombing planes, including the Martin machine in which Captain Roy N. Francis was to have next Friday on a transatlantic flight, were wrecked by a terrific electrical storm, which, sweeping over Long Island this afternoon, struck a steel hangar at Hazeheron field.

Forty temporary wooden buildings, 100 to 200 feet in diameter, which were blown flat, the stables of the Meadowbrook Hunt club and two semi-permanent officers' barracks near there were leveled and general havoc was caused here and in Garden City and Jamaica.

The most serious destruction happened at Roosevelt field, where the machines which were wrecked, while 20 men were trying to hold them down. It was blown half a mile across Hazehuron field and finally reduced to splinters. At Minn field a ten thousand gallon gasoline tank was rolled around. At Roosevelt field the tanks were blown off two frame hangars. The northern end of Camp Mills was struck by lightning.

Two men who were in the steel hangar at Hazeheron field when it was struck by a bolt of lightning died, seriously escaped injury when the roof fell in.

In this paper was the Martin bomber commanded by Captain Francis a "gigant" airplane, and two de Havilland, the Martin and two de Havilland (two de Havilland).

The storm broke out of a clearing with less than five minutes' warning.

REPORTS PLANES LOST. WASHINGTON, July 28.—Lightning struck a Martin bomber which field this afternoon bombing the Martin bomber in which Captain Roy N. Francis was prepared to make a two-day flight across the United States. The machine was completely demolished, but the pilot, Major Francis, was rescued.

Only the two motors in the planes were left undestroyed, the official report said. The trip was to have commenced Friday morning, with the first and only stop between Long Island and San Francisco, at North Platte, Nebraska, 1,600 miles away. Some delay will now intervene before the completion of the flight, but the service announced that if the de Havilland plane could not be reconstructed in a week, another machine would be substituted.

At that time the chief of staff said the return of the bodies would be a violation of the international agreement with France and "would be wrong."

Eight other bodies, those of Lieutenant Herriot, who died in a hospital at Hazeheron, injured in an automobile accident, have been returned from abroad. The report showed, however, that none of the eight exceptions filed in France, returned Major Frederick A. Mahan, retired, military attaché at Paris. He only was returned "without reference to the military authorities for an autopsy." Lieutenant Douglas Littleton, son of former Representative Martin Littleton of New York, was also lying at an unknown place, "but believed to have been overseas," and remains were shipped to New York at expense of father.

The bodies of others returned were listed as follows: Representative William B. Borah of Missouri, died at London, England; Bradford Edson Keith, member of United States labor commission's industrial board, died at Hampstead, England; Jeanette Zinn, Y. M. C. A. secretary, died at Liverpool, England; Helen Burroughs, Y. M. C. A. secretary, died at Liverpool; Captain William L. Egan, body washed ashore in the English channel of Linstinn, considered by authorities that he died on transport and Grant Haley, Y. M. C. A. secretary, died at Liverpool.

In reference to the return of Lieutenant Herriot's body the report said that the body was in a casket (Lieutenant Herriot), Brigadier General George H. Harries, who is in command of base section number 5, Hazeheron, in his explanation of the action in returning the body states that "in the opinion of the circumstances attending the death of the officer, the fact of the accident in France, and the fact that the remains have never been interred on French soil, but were taken on to the hospital for embalming, placed in a casket in an exceptional class, he did not believe that the body could be filed as one in line with the remains to the service but an exception to the inter-departmental agreement and instructions on the subject."

# NO STREET CARS IN CHICAGO TODAY

Tramway Employees' Strike on Vote of the Employees' Union at 4 a. m., Today.

CHICAGO, July 28.—Street car employees tonight voted to strike at 4 a. m. tomorrow, after refusing to ratify an agreement reached earlier by the city between representatives of the employees and employers. The agreement, representatives of both parties had thought, would avert a walk-out.

The walk-out, which will affect both the surface and elevated employes will stop the transportation system of the city except for the "trolley."

All cars on the surface lines will be ordered to the barns at 4 a. m., W. M. Weatherly, superintendent of the system, announced tonight.

He said the cars on the elevated lines would not be operated and that the motor equipment on the surface lines would operate with the elevated lines. The strike will not affect the transportation system in the suburbs west of the city.

The agreement, which was refused at a meeting tonight of the employees, had given them the men a wage of 45 cents an hour, their present wage being 42 cents. They would have had an eight-hour day and were to be paid time and a half for overtime.

His thousand surface line and elevated employes asked for the entire membership of the unions to strike. Their rejection of the compromise, which had been endorsed by Governor Lowden, was unanimous. The vote to strike was taken during a tumultuous session in which cries of "to hell with the Chicago public" greeted International Brotherhood of the Street Railway Employees' union when he announced that "we are fighting the street car companies in this wage matter. We are fighting the public."

# CONGRESS REPEALS ANTIQUATED LAW

## Not to Be Relieved From Operation Under "Voluntary" Plan-Department System.

Twin Falls is no longer working under a voluntary fire department ordinance.

Citizens of the city have not realized that this has been a fact but during the past week, Taylor Cummings, who is codifying the city's ordinance discovered that the ordinance passed in 1910 had never been repealed and that the old voluntary fire department ordinance, in which firefighters were to be paid \$1.00 for attending fire, was still in force.

As a result of the discovery council had not passed a new fire department ordinance, bringing the city's fire law up to date. The ordinance carries the emergency clause.

Council also passed several other ordinances repealing those that were of no more and effect. One of these is the ordinance adopted in 1914 which prohibited the sale of intoxicating liquors. Council felt this ordinance was non-sensical because of the stringent state and federal laws on the subject.

The traffic ordinance adopted in 1911 which was followed a year later by another ordinance on the same subject but which did not repeal the 1911 law was repealed.

An antique ordinance on the governing of dairy products was repealed and another one prohibiting following streamers objection to some of the provisions of the ordinance, which declared that the ordinance as drafted would force farmers to take off the milk to sell them to creameries here.

At Councilman Heveling's request the fire ordinance was amended. The ordinance requires that those who sell milk or cream in Twin Falls must secure a license which will be given on the furnishing of a certificate that the cows from which the milk is taken have been tuberculin tested. All milk must contain not more than 99 per cent water and not less than 11 per cent solids with not more than 100,000 bacteria to the cubic inch.

A request from Addison B. Smith for the payment of damages alleged to have been done to property of his six years ago, was rejected and City Attorney Davley was instructed to write Mr. Smith that the city would have to be shown that it was liable for the damages.

Coach Minkler appeared before council tonight but some had not seen the new school building given to the use of the school. This was authorized if there is no objection from other sources.

# WESTERN RACE IS BEST IN HISTORY

But 50 Points Separate Leaders From Trail-riders in Recall of Sir.

By the Associated Press. CHICAGO, July 28.—The race for the pennant in the Western league is the closest in its history. Only 28 points separate the first and last clubs, St. Joseph being on top with 82 points behind the pack.

recommendation was 440 to 540, less than a two-thirds majority. More than 1,200 organizations voted on the proposals. The recommendations were as follows:

Adherence to the principle of federal ownership and operation, with comprehensive regulation.

Return of roads to corporate operation as soon as remedial legislation can be enacted.

Adoption of a policy of corporate control under federal ownership and control of essential facilities.

Permitting to consolidation in the public interest, with prior approval by government authority, in a limited number of strategic connecting systems.

Requirement that railroad companies engaging in interstate commerce become federal corporations, with rights of taxation and police regulations reserved for states.

Exclusion of federal regulation of capital expenditures and security loans of railroads engaged in interstate commerce, with provisions for notice and hearing for state authorities.

Federal regulation in interstate commerce of advertising and information. A statutory rule providing that rates in each traffic section shall follow an adequate return to a fair value of the property, as determined by public authority.

Federal transportation board to prepare department of a national system of rail, water and highway transportation and articulation of all transportation facilities.

In reporting the vote, the committee declared that the chamber called into question the wisdom of the two separate prominent laws associated with important interests affected by transportation needs so that each important interest should have a voice in determining what should be done with the railroads.

Following a suggestion from C. H. Palmer, who has been supervising the installation of the filter plant here council last evening authorized the waterworks committee to make arrangements for the purchase of 500 water meters.

Mr. Palmer declared in a verbal statement to council that the city is paying \$400 a year as the result of present system of flat rate. He stated that Twin Falls is using 4,500,000 gallons of water every 24 hours, a per capita of 450 gallons per day. The average per capita consumption of water in the entire country is 100 gallons a day.

Mr. Palmer estimated that the city was receiving payment for only 25 per cent of the water that is leaving its plant.

He declared that the present grant of \$500,000 to the city by the state is several instances of a line use of water here after the installation of meters. There are 25 meters in operation. Under the flat rate former system the city received \$194, while under the meter system it is receiving \$303.75. Of the 25 meters under meters 12 rates decreased while 13 increased. Much less water is being used under the meter system, according to Mr. Palmer. Citing as an example of the efficiency of the meter he declared that a local factory that he installed in April. At that time it was receiving water at a flat rate of \$2.50 a month. The first month under the meter, the factory company was charged \$5.20 using 28,738 cubic feet of water. After that month the plumbing was improved and since July, 1918, the minimum of \$1.50 has been charged. He is now using an average of 400 cubic feet of water a month in comparison to the former amount of nearly 3000 cubic feet.

It is estimated that the meters can be secured in large lots for \$11.50 each. Installation will cost on an average of \$11. To pay the cost of this the council decided to charge \$10 on the first meter and 40 cents a month thereafter until the meter and installation are paid for by the consumer. The meters will be installed in violation of the present water rules first.

# ACTION GROWS FASTER IN CHRONICLE'S BIG CAMPAIGN

Prize fund at Stakes. So, on the basis of personal honor the competition is being waged zealously. Sluicing liquid in this inspiring fight is the civic pride that in manifesting itself. This might factor in the bulkward behind the various candidates, in short, each community and each "met" is solidly behind their favorite, and no community that values its reputation for "doing" things is going to let some one else walk off with the most desirable prize when a more concerted effort will "bring it home."

For this reason, and for the reason that the difference in value between the grand capital prize of the contest and the secondary awards is a matter of approximately fifteen hundred dollars (quite a tidy sum itself), you can expect to see a desperate struggle on all sides before the big prize is finally awarded.

With but four more days in which to turn in subscriptions and secure "second period" votes, and but ten days to go before the final scene opens into play, the race is steadily being brought to a close and the end may now be said to be in sight. Ten o'clock this Saturday night, is positively your last chance to enter subscriptions—and "necro" second period" votes. Make every day, every hour count while yet you may.

# HOLD FITZGERALD FOR CHILD MURDER

Grand Jury Indicts Within Hour After Coroner's Jury Members' Hearing.

CHICAGO, July 28.—Within an hour after coroner's jury had held Thomas Fitzgerald, confessed murderer of 6-year-old Janet Wilkinson, for the grand jury, the latter returned an indictment before Judge Winter in the criminal court, charging Fitzgerald with the murder and asking for a speedy trial.

Assistant State Attorney James O'Brien said that it is not as common could be obtained for Fitzgerald "we will be ready to try him." As yet no lawyer has offered his services to the player.

Fitzgerald yesterday morning signed a written confession that he had strangled Janet, a neighbor's child, to death last Tuesday. The body was recovered from a coal pile in the basement of the apartment in which Fitzgerald lived.
