TROOPS FAIL TO HALT WAR AMONG TWO MAD RACES

Six Thousand Troops Placed on Duty in Black Belt With Fixed Bayonets Stop Trouble There, but It Spreads Elsewhere.

STABBING AND LOOTING GOES ON IN PLACES NOT REACHED BY THE MILITARY

Negroes Appeal for Aid, Declaring That Many Are Starving Because Trucks are Unable to Reach Them on Account of Fear of Rioters—Death List Remains at Thirty.

CHICAGO, July 31.—Six thousand troops on duty with rifles and bayonets in the most densely populated negro quarters of Chicago and a light fall of rain had not stopped fighting between whites and blacks long after midnight tonight, isolated groups shooting, stabbing and looting in places which the military had been unable to reach. The death list remained at 30. Several hundred have been injured during the four nights of rioting, and a dozen of these may die.

Policeman Daniel Carlson was probably fatally shot late tonight in a street by John Ward during an altercation over the riot. The patrolman shot Ward twice.

A negro boy was probably fatally shot during a clash of races just northwest of the zone patrolled by soldiers.

Two bystanders were shot in Englewood just before the arrival of troops while watching a fight between whites and blacks.

Adjutant General Dickson on returning from the placing of troops reported that military had fired on a company of soldiers on way to Englewood. No one was injured. The general reported that after the troops had taken their stations, quiet had prevailed in the patrolled area.

By the Associated Press. CHICAGO, July 30.—Chicago streets tonight are patrolled by soldiers called out by Governor of Louisiana at the request of Mayor Thompson for the protection of life and property threatened by the race war which for four days has terrorized the city.

Established Hazard Zone. The state troops established barred zones about three miles square embracing most of the colored residential district on the south side. In these zones they searched every person whom they met for weapons. No one could pass in or out without military permission. The district extended roughly from 22nd street, to 65th street, north and south, and from Northman boulevard to Wentworth avenue, east and west.

This happened when riots in the colored district, itself had somewhat subsided, but when there was an alarming report of disturbances out there. New York Central railroad officials reported all their trains being fired on.

Situation in Omlouos. Adjutant General Frank S. Dickson, after an early evening trip through the threatened district, declared that the situation was "ominous."

Hundreds of negroes appealed for protection. Incendiary attacks upon negro homes increased throughout the day and night. Negro leaders declared that many members of their race faced starvation because drivers of supply wagons feared to enter some portions of the black belt.

The military force was under the direct command of Adjutant General Dickson and was distributed in accordance with detailed plans worked out by him and his regimental commanders with the assistance of police officials.

Dismiss the Militant. Four regiments were housed close to the disturbed area and when the orders came to move these troops were quickly dismissed to their barracks.

The police filled in the intervals of the military cordon and searched every person in the street for weapons. A flying squadron of 30 motorcycle policemen was sent through the district with orders to report what they saw to police headquarters.

Plan to Adjutant. The verbal request for troops was supplemented by a formal

request from the mayor in writing to the adjutant general. It read:

"In consequence with your attention by the governor of Ill. to report as in command of the military forces now mobilized in Chicago for the protection of life and property and the preservation of law and order, I now request that such of this force as may be deemed necessary, be called out and moved immediately into affected territory within the city of Chicago where public disorder exists.

"You are requested to assist police in suppressing riots or any other disorderly conduct and to carry into effect the ordinances of this city and the laws of this state, respecting the protection of life and property and the preservation of law and order."

When Reported Killed. Late tonight much of the violence was reported roaming over various localities of the south side and at Fifty-Eighth street and Indiana avenue negroes were said to have clashed with troops. Negroes also were reported to have driven all whites from the streets in the vicinity of Sixty-Fifth and Loomis streets, while fires were burning in two different neighborhoods, one in a white neighborhood and the other in a colored colony. A woman was reported to be shot at Forty-Seventh street and Indiana avenue.

Hounding In Trucks. A disturbing feature tonight was a number of automobiles fitted with siren horns, honking about the district trying to stir up anti-negro sentiment.

While the troops were preparing to march, from the armories a riot broke out at Fifty-first and State streets. Negroes, negroes and whites, clashing, firing, constant shots, the police report said. Police reserves were hurried to the scene.

Fire On Trunks. Officials of the New York Central railroad reported to the police tonight that in the negro district the blacks were firing on all passenger trains. About the same time the police received word that rioting was in progress at Thirty-first and Dearborn streets, near the heart of the black belt.

Blacks, They Premeditated. Three negroes driving an automobile tonight fired promiscuously in Twenty-Fourth street. Thomas Posen, white, was wounded in the side by one of the bullets as he was reading a newspaper in a barbers shop. August Vicia, white, nine years old, also was wounded when the negroes fired at a group of children playing in the street.

Posen and the child were taken to a hospital.

Policeman Is Shot. Arthur Johnson, a policeman, was shot through the abdomen tonight while policeman was rushing in a patrol wagon to the scene of a riot. Three hundred and twenty-five negroes were subdued tonight from the south side, most of them from negro settlements. Incendiary by whites was charged by the police in many cases, especially at one place where a half dozen homes were destroyed. Three

REFERENDUM TO BE USED IN WALKOUT

Lowden and Union Leaders Hope Men Will Rescind Previous Order.

ONLY 6000 PRESENT AT MONDAY MEETING

Expect Different Action When 15,000 Employees Vote on Increase in Pay and Shorter Hours.

By the Associated Press. CHICAGO, July 30.—A move to end the street car strike that has paralyzed both surface and elevated cars for two days, was made today in the form of a conference participated in by Governor Lowden, L. A. Harz, president of the surface lines, William F. Budd, president of the elevated road, and W. M. Mahon, principal president of the street car union.

Will Employ Referendum. The conference agreed to submit to the union men for a referendum Friday night the proposition which they rejected at a meeting Monday night when they voted to strike immediately.

At the Monday night meeting behind the heads of the companies and the union officials have charged radicalism and prevented the rank and file from expressing their best judgment. The proposition which had been formulated in conference of union leaders, street railway heads and members of the public utilities commission, offered an eight-hour day, time and one half for overtime, and a maximum wage of 65 cents an hour for surface car men and 67 cents for elevated men. There are 15,000 car men and 9,000 of them attended the Monday night meeting.

DENOUNCES W.F.M. AS COMPANY UNION

DOUGLAR, Ariz., July 30.—Activities of the I. W. W. in the Warren district were again given in the local justice court today during the preliminary hearing of Gerard S. Brown, consulting engineer of the Phelps-Dodge interests, one of the defendants in the kidnaping charges preferred against 250 Douglas and Dilbeck citizens as the result of their all-pedd activities during the deportations that followed the I. W. W. trouble at Dilbeck.

The Western Federation of Miners was termed an organization controlled by "company men" by George Hies, one of the state's witnesses, who withdrew from the American Federation of Labor organization to join the I. W. W. Hies said he had joined the I. W. W. because it appeared to be the only "good union."

HUNS TO PLACE BLAME FOR WAR

By the Associated Press. BERLIN, July 30.—A state tribunal is to inquire into and fix the responsibility for the war. It will be called by the supreme court of the empire, whose president will be chairman. He will be assisted by the president of the military court and the judges of the Prussian, Bavarian and Hanseatic high courts. In addition, ten assistant judges will be elected, five by the national assembly and five by a committee of the German states.

THE EDITOR TO BE NAME OF SHIP LAUNCHED AT SEATTLE. By the Associated Press. SEATTLE, Wash., July 30.—The first ship to be launched here was given to a 2,600-ton steel ship to be launched here August 16 in honor of the National Editorial Association's convention, which will meet in Seattle. Chairman E. N. Hurley of the shipping board assigned the name. Mrs. Guy H. Hardy, wife of Congressman Hardy, president of the association, will sponsor the vessel.

WIRE CONTROL ENDS TONIGHT AT MIDNIGHT

Burleson Issues Order for Return of Properties to Owners.

TELEGRAPH RATE WAR MAY BE THE RESULT

Phone Rates Fixed by Government May Be Changed by State Utility Bodies.

By the Associated Press. WASHINGTON, July 30.—Government control and telephone rate telephone properties will end at midnight tomorrow night. Orders for their return to private owners were issued today by Postmaster General Burleson as required under a resolution adopted by congress and signed by President Wilson 14 days ago.

Burleson Issues Statement. Mr. Burleson in a statement accompanying his order, said sound public opinion ultimately would determine "how this trust has been met," and that he was content to abide by the result. Besides the reply to the claims of its management of the wire companies, the postmaster general also took a parting shot at the Postal Telegraph company, most of the officers of which were removed several months ago because of what he termed interference with government management.

His Postal Company. The postmaster general did not mention the company by name, but said that "with one month's exception, the reason for which is thoroughly understood by those who have kept informed" every wire company had given him loyal cooperation.

Under the resolution of congress adopted regarding the return of the companies, government fixed rates in state telephone rates are to remain in force for a period of four months, unless sooner changed by state commissions, but no provision was made as to telegraph rates. NO CHANGE IS MADE BY GHAT WITH WILSON

Republican Senators Discuss Reservations Question Without Apparent Effect.

FEAR OF OTHER NATIONS

Conferences With Majority Members of Senate to Be Continued Today—May Require Weeks.

WASHINGTON, July 30.—The peace treaty with Germany was discussed by President Wilson today with four more republican senators, all of whom understood to be unwilling to accept the league of nations in its present form.

The question of including reservations in the senate's ratification of the treaty is understood to have been the chief topic of discussion some of the president's critics telling him unreserved ratification was impossible, and Mr. Wilson reiterating his aversion to any change or qualification which might require diplomatic negotiations. Each of the senators indicated afterward that his views had not been changed.

See Republican Members. The president saw Senators Dillingham, Vermont, Harding, Ohio, Foran, Maine, and Carroll, Wisconsin, who talked for an hour with each of them, going over many features of the Versailles negotiations. None would discuss his conversation with the president in detail, but Senator Harding, who is a member of the foreign relations committee, made a brief statement saying Mr. Wilson had emphasized the possibility that senate reservations might encourage other nations to qualify their acceptance of the league.

Continues Conferences. Tomorrow the president will see other republican senators who the senate remains debate on the treaty and the foreign relations committee begins public hearings on the economic sections with Bernard Baruch, an adviser to the American peace delegation as the first witness. "The committee" and "the committee" had resumed over today and many reserves went over for the first time the official text of the official definitive treaty with France, submitted for ratification yesterday by President Wilson. It became apparent that the treaty's ratification would be bitterly contested.

Departs From Tradition. "The objectionable" about which debate is expected to continue are that the treaty departs from the tradition of no entangling alliances and that it violates the constitutional provision that congress alone can declare war. Those who base their opposition on the latter ground declare that by the promise to go to the aid of France immediately in case of an unprovoked attack on her from Germany, all future congresses would be deprived of their power to decide for war or peace whenever the treaty terms were invoked.

Clear Monroe Doctrine. To this administration leaders reply that the United States has made similar promises to go to war under certain circumstances in the past, citing the treaty by which country guaranteed Panama's independence and the Monroe doctrine which, they argue, gave notice that the free republics of this hemisphere would be defended against old world aggression at any cost. They also declare reserve action has been bound by treaty to appropriate money, make tariff laws and exercise other powers vested in it by the constitution.

Talk of Trade. Interest in the subject was increased today by the fact that President Harding is expected to be in the chamber of deputies here disposed to delay until the American senate had adopted a defensive treaty. Opposition senators declare that the committee have decided to charge that the president's aid France was given in return for French support of the league of nations. There has been no disposition to hasten action on the French treaty. His plans so far contemplating only

ION WEEKLY IS BACK OF LAND BILL

erican. Mrs. Publication Gives Strong Enforcement of Soldier Settlement.

In the current issue of The American Legion, a copy of which has just been received in Twin Falls, a strong endorsement of the plan for soldier settlement through reclamation of arid lands is given. The editorial is written by Colonel George A. White, formerly a Salt Lake newspaper man.

It attacks the selfish opposition of middle-western and eastern farmers to the bonded bill, and advises members of the legion to watch sharply or the action that congress takes next in the bill. The editorial says: "The question of soldier settlement shortly will come in an acute form. The fundamentalness of the settlement for us they affect the interests of the country, are that the soldier non-employment shall be reduced and soil production increased. This by government co-operation with men who were soldiers and now able to be farmers. This is no matter how broad and well considered, will not solve the problem of soldier readjustment nor will it bring the majority of high living to its knees. But it will be a firm, well-aimed step in that direction. "You need not doubt that the nation's war hero and his family are rolling back of a handholder's lobby has been charted. There are simple remedies that narrow selfishness will undertake to checkmate or defeat the plan to help returned soldiers render productive thousands of acres of dry lands. Let us watch the issue sharply. It will be interesting and profitable to learn just how strong is the survival in congress of selfish, flabby, anti-bullion political chicanery. It will be interesting and profitable to learn just how strong has been the development of a political expediency which can see national good ahead of selfish self-interest."

DEMAND REDUCTION IN COST OF LIVING

Bullman Tell President They Will Ask Another Advance Unless Food Prices Are Reduced.

By the Associated Press. WASHINGTON, July 30.—The alternative of governmental action to force down the cost of living or of demand by the railroad engineers of the country for another increase in wages was presented to President Wilson today by Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers and members of the brotherhood's advisory board.

Detaining conclusions reached by the advisory board at its recent meeting in Cleveland, Mr. Stone declared that while the railroad engineers found themselves "obliged to make request an increase to meet the mounting cost of living" they were of the opinion that "the true remedy for the situation and one that will result in lifting the burden under which the whole people are struggling, is for the government to take some adequate measures to reduce the cost of the necessities of life to a figure that the present wages and income of the people will meet."

The brotherhood board outlined no plan of action for the moment, Stone declared, but he believed that "this situation is brought about mainly by conscienceless profiteering by the great interests who have secured control of all the necessities of life."

President Wilson, it was said, at the White House was much impressed with the statement presented and promised to give serious consideration and study to the question of what the government might be able to do. Previous to their conference with the president, the brotherhood officials conferred with Director General Hines, who expressed sympathy with their request that governmental action be taken to lower living costs. The president was told by the brotherhood board "that a widespread spirit of unrest exists among all classes, especially among wage earners, whose wages will no longer provide adequate food, shelter and raiment for themselves and families."

CUMMINGS REPORTS TO THE PRESIDENT

National Chairman Declares Sentiment Is True to One for League of Nations Covenant.

By the Associated Press. WASHINGTON, July 30.—Homer S. Cummings, chairman of the executive committee, discussed with President Wilson today the political outlook for 1920 and the attitude of the country toward the peace treaty and the league of nations, describing his observations during his recent two months' trip through fourteen western states.

The conference was the first the national chairman has had with the president since last December. Mr. Cummings refused to discuss the possibility of Mr. Wilson again leading his party in the 1920 election and would not affirm or deny that this subject was broached during the conference. Chairman Cummings said he told the president the country was overwhelmingly in favor of immediate ratification of the treaty and its league of nations covenant without change or reservation. As to the political situation, Mr. Cummings was understood to have been emphatically confident. Many matters of party interest were understood to have been taken up, and politics and legislation considered from every conceivable angle.

The accident was said to have outlined to Mr. Cummings the tentative itinerary of the trip he will take through the country. The proposed trip was understood to have received the chairman's approval. In the letters just filed, Mr. Cummings informed the president if the people had an opportunity to vote on the question today, a ten to one majority would be given in favor of immediate ratification of the league and covenant without change or reservation.

California, the home of Senator Johnson, one of the leading opponents of the league, Mr. Cummings said he found the sentiment four to one in favor of the league.

SOLONS CONSIDER WAR REVENUE TAX

Impositions On Luxuries to Be Discussed in Finance Committee—Revenue Derisks Effected.

By the Associated Press. WASHINGTON, July 30.—Formulation of a definite policy as to legislation modifying various provisions of the war revenue act of 1917, which proposals have been received from various parts of the country will be discussed at a meeting tomorrow of the senate finance committee. The call for the meeting was issued by Chairman Penrose this today following hearings on house bills repealing the soda water tax and substituting a tax of two cents a gallon on fruit juice beverages for the present 10 per cent gross sales tax. Proposals also have been made in the house looking to the repeal of the luxury taxes as well as certain of the excise taxes especially those relating to imparts on candy, sporting goods and furs. Senate leaders, it is understood feel that the question as to how far congress is to go in this matter should be determined at once. Owing to the house recess Saturday for more than a month, members of the senate committee said tonight the committee would take no final action upon the soda water and fruit juice tax bills before September at least.

The committee tomorrow is expected to discuss also the question of tariff legislation to some extent.

FRENCH WILL ESTABLISH NATIONAL FOODSTUFF PRICES

By the Associated Press. PARIS, July 29.—The first meeting of the Economic Council instituted by M. Clemenceau to reduce the cost of living was held today. It was decided to increase the number of deputies for the sale of food bought by the government at the same rates as for the army and to submit a decree to the cabinet Thursday establishing normal prices of foodstuffs.

ITALIANS SEEK WAY TO BUY OVER UNITED STATES

ROME, July 29.—Both in the newspapers and official circles plans for the establishment of closer relations between Italy and the United States are being daily advanced. The opinion is expressed that the case of Italy was not presented in the ablest manner to the peace conference or before the American commission and President Wilson.

MATURE PLANS TO EXCHANGE WATER

Farm Bureau Clearing House—Say Water Can Be Returned From 25,000 Acres of Wheat Land.

At a meeting held at the farm bureau offices last evening farmers and orchardists in need of water discussed the situation. In addition to the farmers present at the meeting was J. C. Wheleson of the canal company.

Mr. Wheleson stated that practically 25 per cent of the 100,000 acres of wheat had matured and that he believed that water transfers could be made on this. He declared that the water was falling at the rate of eight to ten feet a day and that there was little hope for better conditions for a month or more. He declared that the canal company would aid in every way in making transfers.

But one of those present offered to transfer water. He declared that because of the distance between his 40-acre fruit orchard and the lateral that it was absolutely impossible for him to mature a crop and that he was willing to let the amount of water given to him be used by someone whose crop could be matured.

It was suggested that a communication be sent to the Utah Construction company, which is raising a line on a canal and a half of land, stating that beets could be saved if this water could be transferred from the hay land.

It developed at the meeting that the prospects for a good fruit crop were never better than this year. One man stated that he had already been offered \$36,000 for his apples on 60 acres. Following the discussion it was decided to make the farm bureau office a clearing house for those having water to sell and those wishing to make purchase of it.

STEEL EARNINGS SHOW INCREASE

Improvement Over First Quarter Business Shown In Net Income and Surplus.

By the Associated Press. NEW YORK, July 29.—Total earnings of the United States Steel corporation for the second quarter of this calendar year, as shown by the report issued after a meeting of the directors today, aggregated \$34,331,301 after deducting the usual expenses, including Federal income and war excess profits taxes.

Net income amounted to \$21,354,106 and surplus for the quarter was \$5,985,857.

These figures showed an improvement over the first quarter, when total earnings amounted to \$32,513,384, net income to \$20,874,429 and surplus was reduced to \$4,822,316.

The usual dividends of 1 3/4 per cent on the preferred and 1-4 on the common were declared.

SALMON SETTLERS PETITION DISTRICT

Seek to Take Advantage of Anticipated Decision by Federal Judge District.

In order that advantage may be taken of whatever plan is outlined by Federal Judge District for the reduction of the acreage of the Salmon tract, a petition was yesterday filed with the clerk of the board of county commissioners praying for the erection of an irrigation district.

Some months since approval of the erection of an irrigation district conforming with the lines created by the Whiffen survey. That survey included 46,000 acres in the zone which was held to be irrigable under available water supply, and provided that the lines of the irrigation district be co-extensive with those of the Whiffen survey.

The defeat of the district proposal left the situation as it has been, with contracts out for 60,177 acres of land, and water for far less than this acreage. The problem therefrom became again one of determining the plan for reducing the acreage for which water shall be available.

It is anticipated that in his opinion in the Colwell case, Federal Judge District will outline a plan for the reduction of the acreage. This case has been in court for some time, and raises issues which would seem to assure that the court will define methods for reducing the acreage. Therefore, to be in position to take advantage of this decision, the petition was filed yesterday by Judge James H. Hoiland and W. Orr Chapman, representing settlers on the tract. The petition asks the acreage included at 60,177, which is all the land for which water contracts have been issued. However, this will be reduced under whatever plan is provided by the Colwell decision and to whatever extent is advised by the court.

MAIL CARRIERS TO PEEBLE FOOD STUFF

War Department Will Offer Army Surplus Food for Sale Through Postal Department.

By the Associated Press.

WASHINGTON, July 30.—Through the postmasters of the country the war department tomorrow will offer direct to consumers in present available supply of surplus foodstuffs amounting to approximately 341,000,000 pounds. This surplus, consisting of canned vegetables and meat, is expected to be sold within a week at prices representing the cost to the government plus postage.

Arrangements for the sale of the foodstuffs directed by a resolution passed yesterday by the house, were made today at a conference held by Secretary Baker with postoffice department officials.

Secretary Baker said a price list covering the entire available surplus would be prepared at once. This list would be sent out to each of the 54,000 postmasters of the country and to every rural route carrier.

The postmasters and carriers will act as government salesmen, informing interested consumers of the price and methods of sale and taking orders for the foodstuffs.

LARGE INCREASE SHOWN IN COLD STORAGE PRODUCTS

By the Associated Press.

WASHINGTON, July 29.—Large increases in the quantities of butter and eggs in cold storage this year, over totals a year ago were reported today by the agricultural department. There were 302 storages which reported in 1918 holdings of 48,202,000 pounds of butter while the latter storage July 15, this year, held 108,357,000 pounds. The 372 storages reporting eggs July 15th this year held 7,670,000 cases against 6,292,000 cases a year ago.

Simple Operations Fitted Together

The business of Swift & Company is the fitting together of many simple operations.

No one thing in a packing business is particularly difficult for men trained to do it; but no one thing is enough.

Thousands of other operations, properly performed, are necessary for the completed processes. And someone must fit together all these thousands of simple operations.

The success with which a packing business performs its function of supplying the best possible meat products to the consumer with the greatest possible benefit to both him and the producer depends upon the energy, brains, experience, and faithful effort of the men trained in the business.

Swift & Company turns the producer's live stock into meat for the consumer at a profit of only a fraction of a cent a pound, because it fits these operations together with the least waste, overlapping, and friction.

Do you believe government direction could do better?

Let us send you a Swift "Dollar". It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill.

LET JAPAN SPEAK

It rests with Japan itself to settle the unpleasant Shantung contro, very, and the thing can be done simply, easily and quickly.

All that Japan has to do is to make a formal announcement that she will keep her word, and do so within a specified time.

There seems to be no question of the assurances given by the Japanese delegation to the other delegations at the peace conference.

It is a short story, why delay the revelation of that pleasant fact?

The whole Shantung business has been exaggerated and distorted. Still there is a real wrong thing which, to long as it exists, is sure to be a wall of silence between Japan and China.

DRUGGED AND DRUGLESS. The drugless healers had a convention in Atlantic City recently, and they declared war against the American Medical Society and all its scientific allies.

The convention has changed its name from the National Association of Drugless Physicians to the National Association of Drugless Practitioners.

The organization proposes, through an appeal to the supreme court, to prove "that this country is not ruled by a medical oligarchy."

The American Medical Association has seized the opportunity to exploit its system of hearing unheard of in their brutal harassment, and adventures with terrorism as their only weapon.

It is as bad as all that? Of course these poisonous medicines and vaccines have saved millions of people from death by diphtheria, typhoid and smallpox, but at what risk to their lives.

The "drugless healers" are barging out upon a long road when, through the supreme court, or any other agency, he seeks to abridge the laws which safeguard the health of the people, or tries to discredit the trained doctor of medicine who practices only after long study and careful examination and with a license from his state government.

THE NEEDS OF RUSSIA. The Archbishop of Ekaterin and Odessa, who is now in the United States, sends an open letter to all Christian churches, denominations and Christian societies in general throughout the United States of America.

In this letter, Archbishop Platon, who served in the United States and in Alaska for seven years before being raised to his present position, asks all Christians of whatever sect to come to the aid of bleeding Russia.

ple has been humiliated, derided, profaned. One-half the educated class, small at best, have been massacred. Russian women have been violated and dishonored. Children have been mercilessly butchered. The machinery of government had been destroyed. Agriculture and industry have been deranged. The finances of the country have been completely exhausted.

Ho-ho! all Christians everywhere to pray for his Christianity, and to help it. He tells of hunger, of exhaustion, of epidemics.

"There are no medicines. The most indispensable articles of linen are totally lacking. I beg of you all, brethren, to call upon your Red Cross to make haste to the aid of a perishing people, and upon your Young Men's Christian Association to increase their benevolent work."

This faith of the Russian prelate in these two democratic agencies of American society is appealing.

That the American people would be glad to help Russia is certain. How to go about it is an unsolved question. Nor is there much doubt that it is only after the triumph of the majority child is over, and the emotion subsided, that any help offered would be effective.

SOCIETY

Miss Margery Butler was hostess at a supper party last Tuesday evening for a few of her friends.

The fore part of the evening was spent with a theater party after which the guests adjourned to the Elks home for the rest of the night.

Those who were invited were Misses Thelma Eppley, Hazel Holliman, Dorothy McMillan and Esther McRoberts.

The regular meeting of the YWCA will be held at 7:30 p. m. on Friday afternoon at 2212.

The W. U. M. of the Christian Church will give a picnic for their members and friends on the shore of Lewis Lake, on August 1st.

L. D. S. FORM COMPLETE ORGANIZATION OF STAMM. A meeting of the L. D. S. church was held at the Parley Theater Sunday afternoon.

It was reported, while several three trucks in an effort to prevent them from extinguishing the fire.

Early in the night policemen on duty began to appeal for ammunition. Policemen furnish their own bullets, but a few of them have used up their supplies.

NOT SO TENSE. CHICAGO, July 26.—Within the barred zone of the south side negro district where whites dared not go and "blunder" as their own people, and in the surrounding territory and some only, the streets were a scene of danger, as a result of a racial war of four days and three nights.

Today's outbreaks were scattered, and only in a few instances were there more than a small number of persons involved in the fighting. Of the four deaths, all of which were the result of falling two weeks ago, the other three were negroes, two unidentified, and thirteen whites, one unidentified.

Believing the situation had been slightly relieved today, could not it still serious, but did not believe the time had come for martial law. About 8000 state troops continued to patroll their areas in the area.

Governor's Statement. Governor Lowden declared his confidence almost exclusively in the police and in the National Guard.

in their convictions at an informal meeting in the city hall today that the troops should patrol the streets at night. The officer said he had been shot at four times on the south side. Some of the sidewalk advocates of a resolution to go over the head of the mayor and ask the governor for military rule, but others opposed it.

Negro leaders generally seemed to want the troops. One negro leader declared that many negroes were afraid to leave the negro quarter and were on the verge of starvation.

Whites Oppose Troops. Prominent whites opposed the use of troops and believed that caution and vigilance of the police would stifle the riotous feeling.

Attorney General Brundage assigned an assistant, John E. Burns, to the coroner's office to file the evidence to be produced at the trial. The coroner's office is to file the evidence to be produced at the trial.

Shout Insurance Collector. A white insurance collector was shot by a negro in the district this afternoon and died in a hospital.

In outside districts and even downtown, white shot, but no armed negroes at front of the police. The negroes, however, were in major numbers.

A second attack and rioting were to burn a negro house was seen today when a two-story frame burned in the wood, for south of the north block, but was burned to the ground.

Will Guard C. Robinson. When the troops which led to the riot were ordered to the district in the morning, it will be in a courtyard under heavy guard.

The jury has been impaneled and the deaths are reported will view the bodies and take the preliminary steps in the inquiry.

Attorney Aes, Investigating. Special attention to the legal aspects of the race was situation was paid by State's Attorney Hoyne, who assigned several assistants to the work of gathering evidence.

White Choke Negro. With the sidewalk to the north of the city hall was being patrolled by a force of light power rifles.

Five negro employees of the Booth Fisheries seeking to go unharmed to their homes were hit by a bullet beneath a tarpaulin on an open truck.

TROOPS ORDERED OUT. CHICAGO, July 26.—The state troops were ordered from the armories tonight, to various points regarded as danger centers in the race riots.

Tonight the official death toll for four days showed thirty, of whom seven were negroes, two unidentified, and thirteen whites, one unidentified.

Governor's Statement. Governor Lowden declared his confidence almost exclusively in the police and in the National Guard.

Request for the use of the state troops came today from a number of sources, but the city authorities made no move to request troops of the governor and the latter refused to do so.

readiness to move from the armories to the riot center at once. Mayor Asks Help. The decision to appeal to the state executive for troops to patrol the streets was reached by Mayor Thompson after a long conference with the members of his cabinet.

Map Out Districts. After notifying the regimental commander that the troops would be used, the adjutant general closeted himself with Chief of Police Garrity and with a detailed map of the danger zones.

Enter Heart of Black Belt. The first troops to move were six companies of the First regiment, Illinois reserve militia, who were ordered from the Seventh regiment armory to the Stanton avenue street headquarters in the heart of the black belt.

Troops Are Disarmed. Other companies of the First regiment were marched in Sixth street and Normal avenue and Sixty-third and Boone avenue, where a considerable number of negroes lived and where there was an open riot.

In West Sixth street a mob of whites gathered and pulled from the neighborhood the troops to surround the store. Several negro families carrying bundles of belongings fled from their homes.

Wire Control. The Postal company is trying to provide for speedy return of the properties sold by the company.

CHICAGO, July 30.—Many showers, and a prospect of numerous others did much today to bring about lower prices in the corn market. Except for July which allowed a net gain of 1 1/2c, the market finished weak at 1 1/2c to 1 3/4c net, with September \$1.05 1/2, October \$1.25, and December \$1.65 1/2 to \$1.65. Oats lost 1/2c to 1 1/2c. In provisions the outcome ranged from a setback of 4c to 5c advance.

Fresh produce supplied to parts of Illinois, Iowa, Missouri, Kansas and the northwest tended materially to relieve the condition of the corn crop. Selling of corn was thus from the outset given considerable impetus, which was soon added to by an official forecast of further showers scattered over wide territory. Later, the government weekly crop report—revised—generally bearish construction.

Oats came down mainly in sympathy with corn. Both cereals continued to be depressed in some degree by the rice riots and car strike here.

Provisions were dull and irregular. Renewal of strength in the hog market overbalanced somewhat the weakness of grain.

Imports Show but Slight Gain While Exports Grow in Gross Value.

By the Associated Press.

NEW YORK, July 30.—A gain of more than \$18,000,000 in European importations arriving in New York during the month of June, 1919, is recorded over the corresponding month of last year in figures made public by the custom house today.

According to these figures, last month's imports from Europe totaled \$44,108,875.

Imports from Asia and the orient reaching New York fell off slightly, more than \$1,600,000 for June of this year, while from Australia and New Zealand the gain was less than ten thousand dollars.

CHARGES HUSBAND EXTREMELY CRUEL

Alleged Abuses Followed Attendance at Dance Tuesday Evening Leads to Divorce Court.

Kathryn Ross, through her attorney, Mrs. Doherty & Chapman, yesterday filed suit for divorce, charging extreme cruelty on the part of Harry M. Ross.

Actions following the attendance of Mrs. Ross at a public dance Tuesday evening resulted in the filing of the complaint, which alleges that the wife found the doors of her home locked when she returned with a cousin from the dance and that her husband swore at her while ordering her to return down town. When she managed to obtain assistance, she declares, her husband tore her hat from her head and completely destroyed it at the same time striking her.

The couple were married on September 22, 1914, and have one child, five years of age, whose custody the wife seeks. Furniture to the value of \$300, tools and machinery of a similar value, and \$600 in cash are the community property owned by the wife, according to the complaint. The husband, who is a cement finisher he said to earn a monthly stipend of \$300 and the wife asks that he be given temporary alimony of \$100 a month and permanent alimony of the same amount.

SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is unwise and troublesome. Nowadays, by asking at any drug store for "Wyneth's Sage and Sulphur Compound" you get a spongy cake of this famous old recipe, improved by the addition of other ingredients in a small pot.

Don't say gray! Try It! No one can possibly tell who you darkened your hair; no one does it so naturally and evenly. You dampen a sponge of soap with it and draw this through your hair, taking one small strand at a time, by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyneth's Sage and Sulphur Compound is a delightful toilet regimen for those who desire dark hair and youthful appearance! It is not intended for the cure, mitigation or prevention over the burners and is heated to

LITTLE DISEASE IN CROPS HERE

J. V. Barber of the department of agriculture, with headquarters at Moscow, yesterday completed a two-day survey of soil and crop disease conditions in Twin Falls. Mr. Barber reported that he found more than 1000 cases of the custom house today, averaging from one to three per cent, were found in some grain fields, but that conditions generally throughout the county were satisfactory.

LANE APPEALS FOR ADOPTION OF COVENANT

Tells Government Employees Is Above Plane of Partnership. ROOSEVELT VOICED NEED FOR LEAGUE Plan Should Have Been Inaugurated at Time of His Return From African Trip.

By the Associated Press. WASHINGTON, July 30.—Patriotism of men who held differing views on the wisdom of affixing the peace treaty including the League of Nations covenant is to be changed so long as they think the above plan of partnership. Secretary Lane said tonight before a mass meeting of government employees.

"It is not an easy question to answer," Mr. Lane said, adding that it was one "to which we wish an American to answer." "And I believe," he declared, "that neither we should risk the scorn of a watching, eager world, or break through our inertia and lead into the step that leads to a multitude of new relationships and possible applications."

FIGURE THIS OUT FOR YOURSELF Here's an Example of How Easy It Is to Secure Over Half a Million Votes in the Chronicle Campaign.

22,000 votes are allowed on every two-year subscription (new or renewal) to The Chronicle, providing same is turned in before the close of the "second period" terminating Saturday night, August 2nd.

Ten such subscriptions would entitle you to 220,000 votes, and would also entitle you to 220,000 extra special club votes, making a grand total of 500,000 votes. Therefore, ten such subscriptions, or approximately its equivalent in shorter term orders, would mean for YOU A MILLION VOTES.

By the Associated Press. WASHINGTON, July 30.—The negotiation of arbitration treaties with the United States, Mr. Lane said, "is not an easy question to answer." "And I believe," he declared, "that neither we should risk the scorn of a watching, eager world, or break through our inertia and lead into the step that leads to a multitude of new relationships and possible applications."

TURKS AND TARTARS ATTACK ARMENIA

Additional Military Protection Needed Declares American Officer at Tiflis.

By the Associated Press. TIFLIS, July 30.—Turks and Tartars are moving upon the Armenians from three sides. They have cut off the American relief supplies and threaten all the remaining Armenians with extermination unless additional military protection is afforded, according to dispatches from Major Joseph Green of Cincinnati, who is directing the American relief administration work from Tiflis.
