

AUTHORIZE CALL FOR LABOR MEET

President May Now Convene International Labor Conference Under Terms of Versailles Treaty.

By the Associated Press.

WASHINGTON, Aug. 1.—So that the first meeting of the International Labor conference under the Versailles treaty may be held in Washington next October, regardless of whether the treaty is ratified, the senate unanimously adopted today a joint resolution authorizing the president to call such a meeting but giving no authority for American representation.

The action was taken after Secretary Wilson of the labor department had told the foreign relations committee that even if the treaty were rejected here, its acceptance by other powers would validate the request it contains that the president call the first meeting to meet here in October. He said under existing law the executive was without authority to act, and it was necessary to begin preparation as soon as more than a score of nations already had signaled their intention to be represented. In committee the resolution, introduced by Senator Keayon, Iowa, was stripped of all reference to the fact that the conference was created under the treaty, the authorization as finally framed merely referring to "an international labor conference. Plans must consent for convening of the conference in the senate was secured only after Chairman Lodge had assured treaty opponents that action in the matter would have "no effect whatever" toward giving assent to the treaty.

Action on the resolution by the senate is necessary, before the president's authority is complete.

POLK CONFIDENT OF RATIFICATION

DeLann Committee on Foreign Affairs Will Complete Work by Middle of August.

By the Associated Press.

PARIS, Aug. 1.—(Havas).—Frank P. Polk, American assistant secretary of state and head of the United States peace delegation here, told a group of French newspaper men today that the United States senate committee on foreign affairs would complete its report on the German treaty by the middle of August and that the senate would not take more than two weeks to ratify it.

Admiral Koltchak, head of the Cossack-Ali-Russian government will give moral and even material aid by the United States, Mr. Polk said, and added that Bolsheviks is not to be feared in his country. Questioned about the disposition of Thrace, the American secretary said that as the question is pending before the peace conference, he could not discuss it. The matter of an American mandate for Constantinople he declared is a matter for congress to decide, as such a procedure is new in American history. He said it is not certain that the government would accept such a mandate. He declined to discuss the Rhantung question.

DEPARTMENT IS WITHOUT KNOWLEDGE OF LETTER LOSS

By the Associated Press. WASHINGTON, July 31.—The postoffice department is without information whether letters which were mailed by the Herbrand National Bank of New York to three Chicago banking institutions and which contained \$63,000, were destroyed by fire in an airplane accident. Postmaster General Patterson today informed the house postoffice committee. The committee is awaiting the information recommended that a resolution calling for a report on the fire be tabled.

SHIP FLOPS OVER IN CALM WATERS

Clan Gordon Officers Sifted As to Cause for Craft Turning Turtler.

By the Associated Press.

NEW YORK, Aug. 1.—Mystery still shrouded tonight the capsizing of the 3,500 ton British freighter Clan Gordon 140 miles off Cape Hatteras in a comparatively calm sea Wednesday afternoon, with the loss of four members of her crew.

The freighter, bound from New York to China with a cargo of oil and wax, turned turtle in full view of passengers on board the United Fruit company's steamship Abangaree as her way to this port from Jamaica.

Officers of the Abangaree, which arrived here today with the Clan Gordon's survivors, had their attention attracted to the Clan Gordon by her apparent heavy list to starboard and the passenger ship had turned to make closer investigation when, with startling suddenness, the British vessel turned completely over. The crew could be seen jumping from the overturned hull into the water and lifelines from the Abangaree were clearly seen as they reached the overturned ship in time to save all of her crew of 62 except the wireless operator and three Lascar firemen.

Explanation of the accident was requested by the Clan Gordon's officers and representatives of her owners. The Clan Gordon was 325 feet long and of 45 foot beam. Her cargo was stowed. It was said, under the usual system of inspection and approval.

STREET CAR MEN RETURN TO WORK

Big Majority Vote Union Members Accept Offer Once Rejected.

By the Associated Press.

CHICAGO, Aug. 1.—Chicago street car men voted to end the strike by a majority of 336. The service will be resumed tomorrow morning, probably at 4 o'clock, on both surface and elevated lines which have been tied since last Tuesday morning by a strike of 15,000 men.

The vote was taken on acceptance of a proposition advanced upon by representatives of the union and the companies last Monday, but which the membership rejected that night, voting to strike immediately. Radical leaders' dominated that meeting, union officials declining, and the referendum vote was taken today only after William D. Matton, of United International president of the union, had come here and personally urged the strikers to accept the offer.

The men gain an increase from 45 to 65 cents on surface lines and from 51 to 67 cents on the elevated routes, with the 8 hour day, time and material for overtime work and a re-arrangement of runs.

The total vote of both elevated and surface unions showed 5,269 in favor of accepting the offer and ending the strike, and 5,374 against it.

The surprising feature of the voting was the majority of 865 against accepting the offer by the surface lines' men. The "negatives" employed total 1,254 in favor of the proposition and 213 against.

The combined vote rules, however, as both unions are directed by one executive board.

SHEEP JUDGING SCHOOL PLANNED

Success of the recent pig judging schools conducted by the county club leader has led to the decision to have similar schools for club members who are raising other livestock.

The next series of schools will be for sheep judging lessons. There are a large number of members in the sheep clubs throughout the county and it is believed that the schools will be as successful as those in pig judging. There were 46 youngsters who took part in the pig judging work.

BEGIN HOT WATER DRINKING IF YOU DONT FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, had breath and tongue in contact; if your head is dull or aching; if you eat sour and forms gas and acid in stomach, or you are bilious, constipated or nervous, mallow, and can't get feeling just right, begin inside phosphate drink, before breakfast, a glass of real hot water with a teaspoonful of Heston's phosphate in it. This will flush the poisons and toxins from the stomach, liver, kidneys and bowels, and cleanse, awaken and purify the entire alimentary tract. Do your inside bathing immediately, upon arising in the morning 1/2 wash out of the system all the previous days poisonous water, gases and sour bile before putting more food into the stomach.

To feel like young folks feel like you felt before your blood, nerves and muscles became loaded with body impurities, get from your pharmacist a quarter pound of Heston's phosphate which is intensive and almost instantaneous, except for a sourish twinge, which is not unpleasant.

Just as soap and water act on the skin, cleansing, sweetening and freshening, so hot water and Heston's phosphate act on the stomach, kidneys and bowels. Men and women who are usually constipated, bilious, headachy or have any stomach disorders should begin this inside bathing before breakfast. They are assured they will become real cranks on the subject shortly.

IDAHO POWER COMPANY

SEEK TO MAKE RESERVATIONS PART OF PACT

Plan of 7 Republicans Shows Determination for One Ratification Resolution.

PROPOSERS SEEK THE BALANCE OF POWER

Are Negotiating With Administration Leaders; Keeping Away From Lodge for the Present

WASHINGTON, Aug. 1.—The reservation proposal agreed to by seven republican senators as the basis of ratification of the league of nations covenant is so worded it became known tonight that the "reservations and understandings" enumerated shall become "a part of the treaty" and shall not stand simply as a detached interpretation by the senate.

Softens Certain Features. While some of the sponsors of the program regard it as merely interpretative in effect, clarifying the language of the covenant without changing the meaning of any provision, others of the seven believe it goes further and greatly softens certain features which, they say, violate national rights. The reservations as agreed to in

definite terms are embodied in a proposed ratification resolution reading as follows:

"That the senate of the United States advise and consent to the ratification of said treaty with the following reservations and understandings to be made a part of the treaty by the instrument of ratification:

U. S. Sole Judge. "1. That whenever the two years' notice of withdrawal from the league of nations shall have been given by the United States as provided in article 1, the United States shall be the sole judge whether all its international obligations and all its obligations under this covenant shall have been fulfilled at the time of withdrawal. Council Merely Advisory.

"2. That the suggestions of the council of the league of nations as to the means of carrying the obligations of article 19 into effect are only advisory, and that any undertaking under the provisions of article 10, the execution of which may require the use of American military or naval forces or economic resources shall not constitute a violation of the treaty. Governors Own Internal Affairs.

"3. The United States reserves to itself the right to decide what questions are within its domestic jurisdiction and declares that all domestic and political questions relating to its internal affairs, including immigration, coastwise traffic, the tariff, coinage and other purely domestic questions, are solely within the jurisdiction of the United States and are not by this covenant submitted in any way either to arbitration or to the consideration of the council or the assembly of the league of nations or to the decision of a

majority of any other power. Monroe Doctrine Inimic. "4. The United States does not bind itself to submit for arbitration or inquiry by the assembly of the council any question which in the judgment of the United States depends upon or involves its long established policy commonly known as the Monroe doctrine, and it is preserved unaffected by any provision in the said treaty.

Seck Balance of Power. It became known tonight that the proposed resolution had not been presented either to Republican Leader Lodge or to Senator Hitchcock, administration leader in the treaty fight and that the efforts of the group sponsoring the plan probably would be directed for the present toward changing their names in order to bring rapidly the balance of power. Negotiations with administration leaders along the general line laid down in the resolution have been in progress, however, for several days.

A DOCTOR SHORTAGE.

Health is its own best reason for being, but there is another reason why the wise person of the future will try to keep well instead of trying to get well.

A shortage of doctors is prophesied. The reason for the shortage is the closing of some of the good medical schools in different sections of the country. One of the foremost of those likely to be suspended is the medical department of Fordham University in New York City.

It costs no more to get the education that it did five years ago. Charges have not been increased in most medical schools, because it is realized that most medical students are poor boys. The hard road which the young doctor must travel does not appeal to the indolent youth in easy circumstances.

But it costs more now to give this education than it did five years ago, and lacking increased endowments, there is no way to meet the expense. Hence there is nothing left to do but close the school.

The world is going to need doctors for generations to come, and no young man or woman having the ambition to fit himself for the medical profession should be denied the opportunity.

Here is a real field for generosity.

ONE CENT IN FREIGHT RATES

There is a current impression that much of the increased cost of commodities to the consumer is due to the higher freight rates. Needless to say, it has been cheerfully fostered by wholesalers and retailers.

Just how much effect this particular factor has had on the situation may be learned from a statement made by Julius Kruttschnitt, chairman of the Southern Pacific railroad. In his annual report.

"No coin," he says, "is small enough to represent any of these increases in cost. But if the dealer should add one cent per case in each case to the 1918 price to reimburse him for the increased cost of his commodity due to increased freight rates, he would grossly overcharge the purchaser in every case. He would make him pay nearly double the proper amount in the case of a pair of shoes and over six times the proper amount in the case of a pound of ham or bacon."

So far, then, as this factor is concerned, there is ground for the New York World's suspicion, that the ordinary American "is the victim of less of oppression higher up than of extortion lower down and on his own level."

It is clear that the burden of carrying the railroads, of which so much has been made, is far less due to the sums actually obtained by the roads, through higher rates than to the multiplication of those sums by manufacturers and dealers in the process of passing them on to the consumer.

EXTENDING NEW YORK.

Plethora writers need to hie to dwell upon the idea of sinking New York into the sea by some Himmish plot to Martin accident. But it is no fiction writer, no dreamy visionary, who has the latest idea of building Manhattan Island two miles more into the sea. It is Dr. T. McKim Thomson, a famous consulting engineer and an authority on pneumatic caissons, who wants to do this.

The pleasure of Dr. Thomson's plan is in the July Popular Science Monthly. It shows an extension built on to the Battery, two miles long and two

miles wide. Great sea walls extend out into the harbor in the direction of Staten Island. Land is filled in behind these walls, and on it are buildings with rooms, that roofs suitable for airplane landings.

At present there are no roofs in New York big enough for airplane use. This would provide landings for the air traffic of many years in the future.

It would cost about \$100,000,000, says Dr. Thomson. It would be worth much more than that. Air facilities, building space, added dockage space of some seven miles would far more than repay the cost of building one new city.

"Nothing is impossible" might well be the motto of this new century. To a city which has tunneled under the Hudson and East River in many places and bridged them in many others, a trifling like building a few miles of sea wall and reclaiming the land thus cut out of the harbor seems easy enough.

"Holland to build Vehicular Tunnel Under the Hudson" announces a New York paper. No, the Dutch haven't taken New York. It is the Holland. H. Holland, the man who has dug most of the holes connecting Manhattan Island with the United States.

If all the inventive genius that is going to be expended during the coming year in devising weird drinks were turned into useful channels, it would probably set American industrial development ahead half a century.

A fortune awaits the man who can invent a device for confining coal shortages to summer and ice shortages to winter and money shortages to those who can afford them.

LABOR CRISIS

Continued From Page One

The railroad administration now has before it demands for increased wages which would mean an addition of between \$50,000,000 and \$100,000,000 to the payrolls. All of the demands are backed by strikes with the purpose of showing that steadily mounting prices for all things which in many cases or worse have wiped out all previous advances, leaving the employees perhaps worse off financially than they were before.

Menace of Officers. Indicative of the unrest caused by these contingencies which union leaders have frankly said would result "in upheaval" if not corrected quickly, was the strike today of shopmen in the middle west and south, notwithstanding orders from union officials to remain at work pending discussion of their demands.

New wage demands before Director General Hines, upon which hearings have been held, total \$400,000,000 and include \$210,000,000 asked by the shopmen, \$100,000,000 by the trainmen, who have announced that they would strike October 1 if no relief was afforded by that time, \$50,000,000 involved in the time and a half for overtime demanded by the four brotherhoods, when a general strike was threatened in 1916 and left for future determination and \$40,000,000 which would go to the conductors if the trainmen wage scale was adjusted as requested. Some of the demands would advance wages 125 per cent over the present level.

APPROVE PRESIDENT'S PLAN

CHICAGO, Aug. 1.—President Wilson's request today that congress enact a commission to consider wage increases for railway employees was favorably received by officers of the United Brotherhood of Carpenters and Joiners of America, which called a nationwide strike of railway employees at the close of this morning. The officers stated that the president had suggested that any proper increase be made retroactive to August 1, 1919, and the local union leaders declared that they would remain firm for retroaction to January 1, 1919.

union advances. All over the country and especially in the middle west union locals were voting tonight on the strike proposal. Tomorrow will see a big increase in the number of men on strike, unless officials of the local unions had disregarded the advice of their international officers at Washington, who have been conferring with the railroad administration, and who yesterday instructed the men not to strike. The request for increased wages from 14 to 40 cents an hour for machinists and from 46 to 60 cents an hour for helpers was made the first of the current year, the union men said.

TWO THOUSAND MEN QUIT

HUNTINGTON, W. Va., Aug. 1.—Two thousand employees of the Chesapeake and Ohio railroad shops here went on strike late today. The men claim that the wage agreement, expected several days ago, was a disappointing one. Holtermakers and helpers, car repairers and helpers, machinists and fitters are the strikers. The ranks of the strikers were augmented tonight when the electrical workers and their helpers walked out. The strike here is not a local affair, according to union leaders who claim that before morning every shop on the C. & O. will be shut down.

CONGRESS DEFERS

(Continued From Page One)

During the war was proposed by the British, French and Italian representatives. The proposal was referred to a committee which will coordinate the plan and present it to the American government with an invitation for its cooperation.

The members of the council stated they recognized that profiteering and speculation had been going on since for some time but had not turned toward unwarranted price raising during the past 30 days is considered alarming. This was due, the members believed, to a sharp fall in the current prospects in the past month. It was pointed out there was no reason to believe there was not sufficient food to last throughout 1920 and there was no reason for the undue advance of prices.

All the members of the council agreed it was necessary for the United States to cooperate in the collective buying plan because at the present time the United States is supplying such great quantities of food to Europe that the collective system without the United States would not be pitting the buyers against the seller.

As the food restrictions in the United States ended with the coming of peace and the food administration was demobilized, it was pointed out that Herbert Hoover, representing the United States, was not expected to bind the country to any agreement, and for that reason it was decided to place the plan in the hands of the committee.

The members of the council agreed that the nation was in a critical position and will not in the present social condition be subjected to further increases in the prices of necessities. The members expressed of reducing prices much below the level obtained during the war, but they were determined that if possible they would not permit prices to go higher. It was shown that prices in Europe, except where commodities were subsidized by the government, were higher than in the United States.

WORLD-LIMIT PRICES.

WASHINGTON, Aug. 1.—Prices for necessities would be limited to the amounts charged November 11, 1918, under a bill introduced today by Representative Hiram Boren of Oklahoma. The president would be directed to appoint a war trade commission of five members to fix the minimum rate, and service prices for all necessities.

Food, clothing, foodstuffs, medicines, furniture, building materials, tools, iron, steel, coal, gas, electricity, transportation and rents would be defined as necessities. The board, which would coordinate operations for the year, would adopt regulations for the distribution, transportation, sale, handling and storage of the necessities and to issue licenses for dealers to conduct business. Dealers would be required to mark the original cost and sell price of articles on the package.

An appropriation of \$100,000,000 to carry out the act was proposed by the resolution, which was referred to the judiciary committee.

PACKERS WANT INVESTIGATION

CHICAGO, Aug. 1.—Thomas E. Wilson, chairman of the executive committee of the Institute of American Meat Packers telegraphed President Wilson today that the packing industry organization, representing the five great packers and 200 smaller ones, desired to add the right of living inquiry in every way possible. The right of inquiry, the packers stated, is important especially to the American people, said the statement. "It would be found that a variety of causes contribute to the situation. The public is entitled to know the full and exact facts. The Institute of American Meat Packers invites a thorough investigation of their business and audit of their books by capable certified public accountants. Such an examination will disclose, we are sure, that the pack-

NEW YORK 5; DETROIT 4. NEW YORK, Aug. 1.—New York defeated Detroit in the first game of the series today, 5 to 4.

After Detroit tied the score in the first half of the eighth inning, Fawcett won the game for New York in the second half with a home run into the left field bleachers.

WASHINGTON 3; CLEVELAND 2. WASHINGTON, Aug. 1.—Washington defeated Cleveland 3 to 2 in the opening game of the series by hitting five hits off Harper in the sixth inning. It was Harper's first victory after eight straight defeats.

ST. LOUIS 6; PHILADELPHIA 1. PHILADELPHIA, Aug. 1.—St. Louis bunched four singles with two bases and a forced out on Naylor, scoring four runs in the first inning, sufficient to win the opening game of the series with Philadelphia today, 6 to 1.

PHILADELPHIA, Aug. 1.—A bill to prohibit transmission by airplane of distinctly marked "not by air" mail was introduced today by Chairman Stearns of the postoffice committee in order, he said, to protect the public against the despotism of Postmaster General Burleson.

REDS CLIMB INTO NEW YORK'S SEAT

Crowd Glimpsed From First Place in First Fielding Game on Home Lot.

Table with columns: Team, Won, Lost, Pct. Rows include Cincinnati, New York, Chicago, Brooklyn, Pittsburgh, Boston, St. Louis, Philadelphia.

CINCINNATI 6; NEW YORK 2. CINCINNATI, Aug. 1.—The Reds by defeating the Giants 6 to 2 today, passed them and went into first place in the National league race.

Chicago pitched shut-out ball for five innings, but became wild after a hard shover in the fourth and fifth innings had made the field and ball wet and slippery, and was relieved by Eller in the sixth. Toney was hit hard in the fourth and fifth innings and driven from the mound. The Reds took the lead in the fourth inning by scoring six runs. In the fifth hits by Wingo, Ruth and Baubert, with an error by Young, yielded two more. Dubuc relieved Toney in the sixth and allowed two runs. Descher pitched the last two innings without being scored on.

The Reds played perfect ball in the field, supporting both Hing and Eller in sensational style. The catching and batting of Wingo was a leading feature.

NEW YORK 2; PITTSBURGH 6. PITTSBURGH, Aug. 1.—Boston defeated Pittsburgh today 2 to 1. Nehf held the Pirates to two hits, both coming in the seventh inning when they scored their single run. Boston's first run was scored on a pass to Nehf, Decker's single and Hawkins' single.

CHICAGO 5; BROOKLYN 2. CHICAGO, Aug. 1.—Henrich's bid Chicago munched his hits off Grimes Brooklyn to five hits today, while and defeated the visitors, 5 to 2. The batting and fielding of Magee were features.

ST. LOUIS 6; PHILADELPHIA 1. ST. LOUIS, Aug. 1.—Philadelphia-St. Louis game postponed; rain.

WEDNESDAY BALL IDEA IS DROPPED

Ball Magnates Decide to Play Out Original Schedule—Twin Falls Gets Thompson.

At a meeting of league magnates in Turley last evening attended by representatives of all the east end clubs and Tyler Christian of Twin Falls, it was decided to give up the idea of Wednesday baseball.

There were many questions discussed at the meeting. The league decided to appoint Sherwood of Paul, Felton of Hurley, Melstok of Rupert and Whitson of Twin Falls as of the umpires. Two other umpires will be appointed from Dahl and Eller.

Jimmy Thompson, who played with Turley last Sunday, was awarded to Twin Falls.

In a telephone message to the Chronicle last evening, Manager Christian stated every team is in the fight for the pennant. In order to be in shape for Turley Sunday Christian has lined up Ambrose of Driggs to do the throwing. This bird comes with great "rep" and should be a great help to the team.

POP GEERS PUTS OVER 2 WINNINGS

Veteran Driver With Goldie Todd Wins Handsome Desider Hotel Stakes.

COLUMBIUS, O., Aug. 1.—One bright spot in a rather ordinary race card today, was the victory of Goldie Todd in the Desider hotel stake, the 210 race, purse \$1,000. Frank Dewey's great pacer, was barred in the betting but Geers was able to take up the challenge on the track and won with Goldie Todd after four heats.

The three-year-old colt trot was also a Geer's victory, the veteran winning in straight heats with Molly Knight.

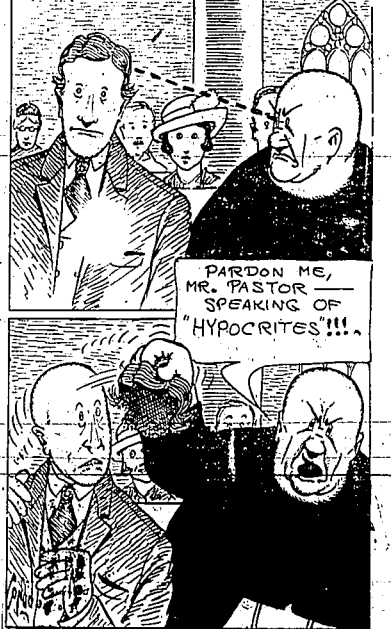

The 2:12 trot was a contest between Edith Carter and Connet. It taking five heats before Edith Carter won.

The 2:15 pace was a four heat affair in which George Volo won the second mile while Geo Quartz took the other three.

MAYS CASE CAUSES SPECTACULAR ROW

Colored Huston Promises to Do All Sorts of Things to Please Him.

By the Associated Press. NEW YORK, Aug. 1.—Huston was one of the most interesting fights in years if not the most interesting of the American league, attempts to hold the suspension of Carl Mays, newly acquired New York American pitcher, in force for the season. This position was won by Lieutenant Colonel T. L. Huston, half owner of the New York American, after having been shown an Associated Press dispatch from Washington quoting Johnson as saying the suspension order would not be revoked unless "evidence of extraordinary circumstances was produced."

I also will promote both Mr. Johnson and the general baseball public that the New York club will not attempt to force the suspension of Mays with its property rights," said Huston. "I will not tell the New York club's plan of action at this time, but if Mays' suspension is kept in force, we will take action and take it quickly."

GLASS OF SALTS IF YOUR KIDNEYS HURT

Don't Let Your Back Ache or Have Bladder Trouble.

Meat forms uric acid which excites and overworks the kidneys in their effort to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must remove from your diet your favorite meats; removing all the acids, waste and poisons, else you face a dull misery in the kidney region, sharp pain in the back or sick headache, dizziness, your stomach roars, tongue is coated, and when the weather is bad you have rheumatic twinges. The uric is cloud; full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush out the body's system, you should take a glass of water before breakfast for a few days and your kidneys will get set free and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice and has been used for generations to flush and stimulate the kidneys, to break up bladder irritation; and salts is inexpensive, harmless and makes a delightful alternative to the water-drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

CHICAGO, Aug. 1.—Wheat—Down 1/2c to 3/4c in the value of grain and provisions today accompanied sweeping fresh industrial disturbances and the progress of efforts to cut the cost of living. The corn market finished undemonstrated, 3/4c to 1/2c lower with September \$1.89 1/2 to \$1.89 3/4 and December \$1.84 1/2 to \$1.84 3/4. Corn lost 3/4c to 3/8c and provisions 2 1/2c to 1c. Although right at the outset, values broke severely in the corn market, it was not until after midday that they appeared to verge on collapse. The increased weakness there was due to the strike of 100,000 railway shovemen and the rapid developments at Washington in regard to measures for lower living cost. Suddenly almost a dead stop in orders to buy became evident, and holders widely trying to unload forced the market lower and lower till the close cleared the pit. Despite some expert buying, outside gave way with corn.

MEXICAN GOVERNOR PLANS TO MAKE TOUR OF U. S.

LADIES! LOOK YOUNG DARKEN GRAY HAIR

Use the Old-Time Sage Tea and Sulphur and Nobody Will Know. Gray hair, however handsome, denotes advanced age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face when it falls, turns gray and looks streaked. Just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold. Don't stay gray. Look young. Either prepare the recipe at home or get from any drug store a bottle of "Weyl's Sage and Sulphur Compound" which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready to use prepara- tion, because it darkens the hair beauti- fully, besides no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one strand at a time. By morning the gray hair dis- appears; after another application or two its natural color is restored and it becomes a thick, glossy and lustrous, and you appear years younger. Weyl's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

HIGHEST SHOE PRICES ARE NOW PREDICTED

By the Associated Press. BOSTON, July 31.—Shoes sold next spring will bring over high prices than those now prevailing, but relief may be expected later in 1920, according to a statement issued today by the National Hide and Shoe Manufacturers association. The cause of high prices, was said to be the depletion of stocks under wartime conditions, the prosperity of the public and European buying.

GIVE KOLCHAK SUPPORT IS PLEA OF DABNEY

By the Associated Press. WASHINGTON, July 31.—Answering the question: "What should be done to help Russia?" Boris Dabney, former ambassador to the United States in a statement tonight said that "fullest moral support should be given Admiral Kolchak's government, leading to full recogni- tion."

EIGHTH INFANTRY PATROLS RHINE

Regiment Trained In West to the Center of Remount of the Army of Occupation.

By the Associated Press. COBLENZ, Thursday, July 31.—All American soldiers expecting about 8,000 who will remain on the Rhine indefinitely, will be sent to Germany by August 25, according to the latest instructions from general headquarters.

French troops who are to take over the bridgehead area on the east bank of the Rhine held by the First division are making preparations to occupy the semi-circular zone as soon as it is vacated by the Americans.

General John J. Pershing is expected in Coblenz Friday on his last inspection of the Rhine area before returning to the United States and to consider the recommendations of officers regarding the delimitation of the zone to be held by the Eighth infantry after the withdrawal of the First division which is due to depart for Brest about August 12.

It is reported that Marshal Foch also is expected in Coblenz shortly. It is understood that he is coming to assist in the final plans of the French troops for taking over the evacuated districts.

It is understood that the Americans have made preparations to garrison the Eighth infantry and the other Americans who are to remain on the Rhine indefinitely within the immediate vicinity of Coblenz, including the fort of Ehrenbreitstein.

The French army is expected also to plan a garrison of troops at Coblenz and have announced a desire to establish corps headquarters in Coblenz. As yet the line has not been approved by any of the higher American officers.

Recommendations to be made by Marshal Foch and General Pershing probably will form the basis upon which the supreme council will make the adjustment of territory to be bound in compound of the Americans in Germany as long as they are on the Rhine.

EIGHTH WESTERN REGIMENT. The Eighth infantry which is mentioned in the foregoing dispatch was the American contingent which arrived in France from the United States. It left New York during the last week of October. It was trained with the rest of the Eighth division, of which it was a part, at Camp Fremont, Cal., in August, 1918, part of the men in the regiment made up a nucleus of regular troops, were sent to Siberia. Leo F. Bracken of Twin Falls was a lieutenant in this contingent. Many Idaho men, including some from Twin Falls, were placed in the regiment in August and went with it to France. Since arriving in France the regiment has been filled with recruits from the United States and with regulars in France, the men making the trip there being sent home.

TELLS STORY OF HUMANITY FLAG

Mr. S. S. Marquis Outlines How He Decided to Draw Model Emblem.

By the Associated Press. MOUNT CLEMENS, Aug. 1.—Dr. S. S. Marquis, head of the educational, or welfare—department of the Ford Motor company, reappeared on the witness stand today as a rebuttal witness in Henry Ford's \$1,000,000 libel suit against the Chicago Daily Tribune and told the story of the "flag of all nations" designed to fly over the Ford factories and typify the harmony in which men of sixty nationalities were working.

"The idea of the flag came to me during a conversation with Mr. Ford in November, 1916," related the witness. "It was one of Mr. Ford's ideas that, given correct industrial conditions, the races and nationalities of the world would get along much more amicably and he believed that his own hands provided the proof of the theory."

"I suggested a flag that would typify the condition and drew up a design. The background was white and blue and in the center the globe. At the equator I placed a circle of red representing the nation which is common to all people—a symbol of brotherhood. Then there were two hands of gold, symbolizing prosperity."

"I was not then connected with the Ford company." Dean Marquis went with Mr. Ford on the peace ship and when he returned he was shown a design somewhat modifying his own, he related.

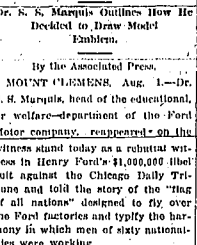

On cross-examination by Weymouth Kirkland, the witness was asked what the yellow stripes at the equator meant.

"Anything you may read in the equator meant."

"You designed it, you ought to know."

"The design called for gold, symbolizing prosperity."

PROTEST LIFTING POTASH EMBARGO

By the Associated Press. WASHINGTON, Aug. 1.—Chairman McFornick of the war trade board was called upon today by the American Potash Producers association not to lift the war time embargo on potash from Germany until at least October 1.

To lift the embargo now, the American producers have told the war trade board, would embolden German concerns to continue the American demand.

McFornick's decision representing 89 per cent of the production in that state which is said to be the principal source in America, have secured the association that if the embargo is lifted until October 1, and the freight rates practically agreed to by the railroad administration because effective they will at once resume operations which eventually will make the American farmer virtually independent of Germany for his supply of fertilizer.
