VOLUME IX, NUMBER 108

TWIN FALLS, IDAHO, SUNDAY MORNING, AUGUST 3, 1919.

PRICE FIVE CENTS

## CHASING NEGRO TO HIS DEATH

Above is depicted one of many similar scenes in Chicago during the past week. This mob has cornered a negro under an outside stairway near 45th and Wentworth avenue. The men who "got" him are in the sight of the picture, just running to join the group about the stairway.

## TO PLACE ALL SURPLUS FOOD UPON MARKET

Army Stuff, Such as Meats, Beans and Pumpkins, to Be Sold.

## MAY THROW WHEAT ON OPEN-MARKET

Government Would Absorb Difference Between Price Secured and that Guaranteed by Law.

By the Associated Press. WASHINGTON, Aug. 2.—In the face of growing unrest over the high cost of living, as indicated by the spreading strikes of railroad workers, many government agencies moved today in efforts to effect a return to normal price levels.

To Sell More Surplus Immediate sale of all surplus foodstuffs purchased for the army, instead of only canned goods, was expected by the war department. Millions of pounds of meat, beans, pumpkins, squash and other commodities will be offered to the public Monday, August 18, through the parcel post system at prices materially lower than those now prevailing in the market. Purchasers will have to pay postage charges from the place of storage.

Congress Can Act. Director General Hines, Commissioner Colver and Assistant Secretary Lettingwell, appointed by the conference assembled by Attorney General Palmer to recommend steps to reduce living costs, were engaged today in an exchange of memoranda bearing on the problem. The impression went out that the committee had agreed that steps could be taken by congress which would alleviate the situation at once, but it was said Mr. Hines felt that nothing had been decided upon. The committee was instructed particularly to deal with profiteering and to suggest how law enforcement agencies should proceed to bring to justice men guilty of extortion through unreasoning price rises.

To Absorb Wheat Loss. If any recommendation is made to congress, it is believed most likely that it will deal with sale of the wheat crop at market prices and the absorption by the government of the loss between the price and the \$2.25 guaranteed to the farmer.

Congress continued to discuss the living question and at the white house President Wilson was said to be receiving full reports on all phases of it. The senate adopted a resolution asking the banking committee whether or not reduction of the currency inflation would help the case.

Business Is Blocked. In the house an attempt to recess for two weeks was blocked by Representative Lico, democrat of Missouri, because his resolution to have the federal trade commission investigate the price of shoes was not acted upon.

The new demands of railway companies for more wages to meet the high cost of living drew fire from Representative Dill, democrat of Texas, who said the railway men were acting like "highwaymen" in attempting to raise "another unfair billion dollar" raise.

Introduction in the house of a government ownership railroad bill with the employes participating in the control and profits of the roads, was made the occasion of a statement by leaders of the four brotherhoods that the high cost of living demanded the operation of the country's most important industry for "service rather than for profit."

Investigating Costs. Representative Flood, democrat of Virginia, proposed that the federal trade commission be directed to investigate fertilizers and farm machinery prices, the increase in which, he said, had largely forced up the price of food.

## NEGRO LABOR BARRIED FROM STOCKYARDS

Incendiary Fire Results in Orders Keeping Blacks Away From Work

## LOWDEN BELIEVES LABOR TO BLAME

Fail to End Marks of Violence on Colored Man Whose Death Precipitated Riots.

CHICAGO, Aug. 2.—Sulphur mines in an ally of the eastern section of the "riot zone" attempted to assassinate Captain M. W. Weichlein, D. company, Fourth Illinois reserve infantry, early this morning. He was wounded in the right side by a knife thrust after several shots had been fired at him.

Captain Weichlein was on inspection duty when several shots were fired at him by three negroes who stood a short distance away from the ally. Captain Weichlein returned the fire as he started for the men and as he reached the nearest of the three the negro made a thrust at him with a large knife, cutting through his belt and inflicting a wound which later was pronounced not serious. The captain fired four shots at the negroes and believes he wounded one of the number, as the man fell to his knees, but arose and followed his firing companions.

The shooting aroused all the troops in that section of the "riot zone" and a thorough search of the eastern end of the sector was begun.

CHICAGO, Aug. 2.—As a result of the fire which early today destroyed six blocks of homes of stockyard workers, negro labor at the yards will be barred to prevent a possible recurrence of race rioting. This announcement was made tonight after a conference of Governor Lowden and the packers.

Aggravated Feeling. The stockyards had been a storm center of racial feeling during the riots of five days this week, and with the disappearance of serious outbreaks yesterday, it had been planned to have the 15,000 negro workers to return to their posts at the yards tomorrow. But the fire, which many of the foreign workers who were made homeless declared was started by negroes, aggravated feeling and changed the plans.

Although Fire, Attorney McCabe declared many witnesses had told him negroes had been seen to set fires in the neighborhood, Governor Lowden was inclined to believe that labor (Continued on Page Four)

## BRITAINS TO BUY COAL FROM HUNS

By the Associated Press. LONDON, Aug. 2.—Coal will be brought from Germany this winter to relieve the acute shortage in central Europe and reduce shipments from the United States if the plans laid before the supreme economic council yesterday. The council today agreed that a committee will meet with the reparations commission to evolve a plan by which immediate coal production will be made attractive to Germany.

In the opinion of the council members this would mean a loosening of the reparations strain on Germany through other channels. In order to facilitate the delivery of coal the council even considered special inducements of clothing and food to the German miners to get them to work. This plan superseded that of a Central Europe control, discussed yesterday.

The council is likely to meet at Brussels at a date not yet fixed.

## ASKING \$19 TO \$20 FOR HAY IN STACK

Feeding Stock Being Sent Elsewhere But Farm Cattle-Being Kept Here, Giving Rise for Product

Hay in the Twin Falls section is being held at from \$18 to \$20 a ton in the stack, according to an announcement from the county farm bureau. This is in comparison to \$12, \$13 and \$14 last year at this time.

Feeders are being shipped out of the county and from the tract to eastern pastures. Nebraska is drawing large numbers of these animals. What hay in Nebraska is now bringing \$10 a ton, according to the word received by the farm bureau.

"That this excess of feeding stock will not be a hamper to the hay growers of the county is the belief of those who have been studying the situation because of the necessity of keeping the better stock here. There will have to be fed as usual, it is claimed. That circumstances governing such farming in this county more than a specific method of farming is claimed to have been proven during the past years. Orders by the government against the feeding of grain to swine has led to a great loss in the amount of swine in the county. The decline has been of no farm because the farmers have received an extra high price for their swine. Hog raising is bound to be resumed when conditions are again normal, according to those who have studied the situation.

It is believed that the same condition will obtain in reference to its hay situation, as it is now constituted.

## HOUSE TO MARK TRIP ALTHOUGH NOT IN DEPOSED

WASHINGTON, Aug. 2.—The house after calling off the fire "work" recess at the urgent request of the president refused today to quit work for two weeks, and adjourned until Tuesday, with republican leaders predicting that no attempt would be made to touch business for a while. Twice during the day Republican Leader Mondell failed to obtain unanimous consent for consideration of a recess-resolution.

## JOCKEY FOR POSITION IN TREATY PACT

Under-Current Shows Plan of Seven Is Being Considered in Cloak Rooms.

## FIGHT REVOLVES AROUND LEAGUE

Believe Shantung Question Will Be Eliminated—Need 20 Republicans to Put Over Treaty.

By the Associated Press. WASHINGTON, Aug. 2.—Public hearing on the economic sections of the Versailles treaty virtually were completed today by the foreign relations committee and early next week Secretary Lansing probably will be questioned by the committee regarding the treaty's political features.

At today's session Bernard M. Baruch and E. W. Taussig, economic advisers to the American peace delegation, explained how the peace conference reached some of its decisions regarding German customs, regulations and indemnity. Their testimony largely was technical in character.

Only Surface Development. The committee's meeting was virtually the only surface development of the day in the treaty situation, the senate devoting its attention to legislation and reverting to issues of the treaty fight only once. That was when, without debate or a roll call, it adopted a resolution by Senator La Follette, republican, Wisconsin, asking the president why Costa Rica "was not permitted" to sign the treaty.

Meanwhile the under-current of private discussion among senators continued to revolve about the program for four reservations presented by seven senators as a basis for ratification of the league of nations. Plans were made for a conference Monday at which the sponsors of the plan hope to gain the accession of other republicans who have been friendly to the league.

Not to Preserve Form. It was made plain today that it was not the intention to try to preserve the exact form of the four reservations through the negotiations to increase the number of their supporters. None of the seven are said to be ready to make some concessions in phrasing in order not to handicap the effort to bring into a final agreement enough republicans to hold the balance of power. Should the number of republicans subscribing to this agreement reach twenty, it was pointed out, the group would be in a position to place in the hands of the administration a definite offer of support for a reservation.

## AVIATOR MAKES A-SPEED RECORD

DAYTON, O., Aug. 2.—Major J. R. Schroeder, army aviator, today set a new world's speed record for high altitude. It is believed, when he flew a mile of 115 miles an hour at a height of 15,000 feet. He used a two-seated Leveco biplane, designed by Captain Leveco of the French army. It was equipped with a 12-cylinder Liberty motor and a super-charger. Lieutenant G. M. Eddy, expert aeronautics observer, was a passenger.

## MARKS GLIDING RECORD

JITHICA, N. Y., Aug. 2.—What is said to be a world's record for airplane "gliding" was established here today when "Tex" Marshall, attaining an altitude of 12,000 feet, shot off the engine of his Thomas Morse machine at the northern end of Cayuga lake and "glided" 35 miles to this city, retaining his power at an altitude of 8,000 feet. Twenty-two miles is said to be the former record.

## TO TRY ALTITUDE RECORD

NEW YORK, Aug. 2.—Icelandic aviator, who last Wednesday established an American altitude record of 30,700 feet, announced tonight he would attempt next Monday, in another flight from Alaska, to smash the world's record of 22,115 feet held by Alphonse Castane of the French army.

## FOGH DISCUSSES MANY PROBLEMS

PARIS, Aug. 2.—Marshall Foch appeared before the supreme council this afternoon in connection with the discussion of the Russian prisoners' problem. The condition of the Bulgarian army also was taken up, Marshall Foch making a report on the number of effective troops Bulgaria still has under arms.

The council decided today to inform Germany of all restrictions on the movement of Russian prisoners held in Germany have been lifted. Germany may now release such prisoners and will hereafter be responsible for their maintenance. There are between 200,000 and 300,000 Russian prisoners in Germany. This has been a great problem for them, as many of the Russians are Polish, Poland heretofore has been unwilling to allow these Poles to cross Polish territory on their way to Russia.

## HIGH TARIFF BILL PASSED BY HOUSE

First Protective Measure Approved Since G. I. Warin Goes to Senate

WASHINGTON, Aug. 2.—The house today passed its first protective tariff measure to be acted upon since the republicans regained control of congress. The measure levies high duties on chemical glassware and apparatus.

Duties of 60 per cent ad valorem are levied by the bill on laboratory glassware, dental instruments, and 45 per cent ad valorem on optical glass, and philosophical scientific and laboratory apparatus. The measure also repeals the duty free provisions for imports of these articles for use by government bureaus and educational institutions.

Debate on the measure, which was framed by Representative Buchanan, republican, New Jersey, opened the fight of the continuing view of the tariff held by republicans and democrats. Representative Kilchlin of North Carolina, ranking democrat member of the ways and means committee which recommended passage of the bill, called the "monopolizing favoritism" by reporting several measures of particular interest and benefit in their own localities. Republicans replied that separate measures were reported to aid industries that sprang up during the war.

## EXPORTS RECORD EXCEEDS THAT OF LAST YEAR

WASHINGTON, Aug. 2.—Exports for the first five months of the fiscal year ended June 30 reached the record-breaking total of \$7,225,044,267, the department of commerce reported today, against \$5,919,715,871, the record in 1918. For June alone the exports totaled \$1,415,207,672. The trade balance in favor of the United States for the year, on the total of \$2,095,376,562 announced for imports during the fiscal year, was \$4,129,207,672.

## SHOPMEN PLAN NATION-WIDE STRIKE VOTE

Dissatisfied With Wilson's Proposal to Have Congress Handle Question.

## EXPECT MEN OUT NOW TO RETURN

Chicago Reports That More Than 250,000 Members of Federated Unions Lay Down Tools.

WASHINGTON, Aug. 2.—Dissatisfied with President Wilson's proposal to have congress create a special body to pass their demands, or consider their coming problem, the railway shopmen began today to take an official strike vote.

The shopmen contend that the railway wage board of the railroad administration should pass on their demands and failing favorable action a strike of 500,000 men is threatened, labor officials said today.

B. M. Jewell, acting president of the railway employes' department of the American Federation of Labor, said tonight that Director General Hines had been informed by the committee representing the shopmen of their dissatisfaction with the suggestion of a national strike.

"Acting in behalf of the six shop groups, a committee of one hundred representatives to the director general of railroads on January 7 last the request for an increase in the wage scales," Mr. Jewell said. "On February 1 the question was referred to the board of adjustment of railway wages and working conditions. During March and April, the whole subject was threshed out at hearings of the board and on July 16, the board made its recommendation to the director general.

"Following a conference with Mr. Hines on July 22, it is believed that the question had finally come to a head and expected a decision. The letter from Mr. Hines to President Wilson followed and that solution was have positively rejected.

"We have now decided to send out the call for a strike vote, returnable August 24 at midnight to the 500,000 employes of American railroads and the 10,000 employes of Canadian railroads affected. The shop crafts ask for a minimum of \$3 cents an hour for men, an increase of 40 cents for men, a minimum of 60 cents for helpers, an increase of 15 cents, and an increase of 10 cents per hour for apprentices.

"We shall continue to endeavor to settle the demands by negotiation with the railroad men, but if we fail to receive a receipt of the strike vote, that will, when taken, signify center the power for calling a strike in the hands of the committee.

"The first effect of the call for a vote will probably be the filing of the present strike, which has taken out a considerable number of shopmen over various sections of the country who have been impatient of the long delay that so far intervened. Their walkouts have been unauthorized, but we expect that they will return when they see that the organizations intend action in a united fashion."

## STRIKE IN BOSTON THURSDAY

BOSTON, Aug. 2.—Union railroad shopmen of the local district of the New York, New Haven and Hartford railroad, at a mass meeting tonight voted unanimously to strike Thursday unless their demands are granted. The men, who said they had received approval from the Chicago district to join in a general strike, disregarded the advice of their international officers by voting to strike.

## MORE THAN 250,000 IDLE

CHICAGO, Aug. 2.—More than 250,000 idle men in the city of Chicago were today laid off as a result of the strike called yesterday by the Federated Railway Shopmen's union. Officials of the organization said tonight with the strike spreading and the possibility of an immediate settlement in sight.

The men are out on irregular strikes (Continued on Page Four)

# ENFORCEMENT LAW CLAIMED INVALID

Illino Root and Other Counsel for Wet Interests Avert Congress Overstepping Authority.

WASHINGTON, Aug. 2.—The war-time prohibition enforcement bill recently passed by the house and now pending before a senate committee is unconstitutional, according to an Illinois Root, William D. Guibrio and William L. Marbury, counsel for the United States Brewers' association, based in Chicago.

This opinion holds that until the 15th amendment becomes effective on January 16, 1920, congress, under well settled rules of constitutional law, has no express power to prohibit the sale of alcohol.

There is now no valid reason for the war time prohibition act, the lawyers claim, and there is no evidence, they add to support the claim that the proposed enforcement measure is necessary or proper to conserve the nation's food supply.

The opinion, an exhaustive statement dealing with all legal phases of the question was sent to Christian W. Felton, president of the Brewers' association. The lawyers contended that while District Judge Hand and the New York circuit court of appeals had held the war time act constitutional, the decision would not apply to pending legislation.

"Conditions," they said in this connection, "have meantime materially changed during the eight months since November 21 (the date of the bill's passage); the president declared on May 2 that it seemed to him entirely safe to remove the ban on wines and beers; he reiterated on July 10 in his address to the senate that the war had ended last November; the demobilization of the army and navy is complete; and shortly he completed; war necessity or emergency has practically ceased to exist and personal and commercial relations with Germany have been permitted to be resumed and are being conducted.

"During the war and immediately thereafter," they said, "the government has been established by competent evidence that such beverage is not intoxicating, and that it is immaterial that congress for years taxed 'fermented liquors' containing more than one-half of one per cent alcohol on this basis 'as adopted solely for taxation purposes and solely irrespective of the intoxicating quality of the liquor taxed.'"

"If, therefore, according to its proper construction," the opinion continues, "the act of congress of November 21 does not prohibit the manufacture and sale of any intoxicating beer, the proposed enactment extending the prohibition to non-intoxicating liquors would, as to transactions prior to its passage, be in our opinion unconstitutional and void because violative of the letter and spirit of article 1 of the constitution of the United States that no express fact law shall be passed by congress.

"The amendment in the house of section 1 of the Volstead bill by inserting the word 'thereafter' before the word 'contract' was probably for the purpose of avoiding this constitutional point; but it would permit one construction of the name term as to acts done prior to its passage and a different and broader construction as to acts done afterwards. But the enactment cannot establish the true intent of law to enact practically new legislation beyond the scope of the existing enactments."

WANT JAPANESE CONTROLLED OSAKA, Japan, Aug. 2.—Leading business men in Osaka who are trad-

ing with China, have asked the government to try to promote more friendly relations between the Chinese and Japanese.

They ask for stricter control over the Japanese residing in China and want a censorship over the publication in the press of cartoons calculated to hurt the feeling of the Chinese people.

## MONDELL BILL GIVEN APPROVAL

Committee Takes Measure On To House for Action—Bars Conscientious Objectors.

WASHINGTON, Aug. 2.—Passage of the Mondell bill embodying Secretary Lane's project for farms for soldiers and sailors was recommended in a report submitted to the house today by Representative Simon, republican of Oregon, chairman of the public lands committee. The measure carries an appropriation of \$500,000,000 and was reported after exhaustive hearings had been held.

"Amplely recommended by the committee, provide that no conscientious objector can become a beneficiary and that soldiers are to be favored in administrative positions in connection with the development of the various existing projects. Summing up the advantages of the bill the report said it would open the way to work and homes on the land for the nation's war veterans; provide for the development of large tracts of land now held by private owners and provide temporary employment for large numbers of discharged soldiers and sailors while the land projects are being developed.

# SAV W.C.T.U. PLANS WAR ON NICOTINE

Association Opposed to Prohibition Unveils "Evidence" of "Plight" of Dope.

By the Associated Press.  
NEW YORK, Aug. 2.—After a two months inquiry conducted in this city, Chicago, San Francisco and elsewhere to determine whether there was a concerted campaign to bar the use of tobacco now that liquor has gone by the boards, the Association Opposed to National Prohibition issued a statement here today charging that the Women's Christian Temperance Union was backing a movement to have anti-nicotine enacted in every state in the Union.

The W. C. T. U. is hopeful of having congress submit a constitutional amendment before March 29, 1924, forbidding the cultivation, sale, use or export of the weed for smoking or chewing purposes, the statement charges.

James Arthur Reavy, managing director of the association, said the investigation was started to clear up "whether or not the same professional and paid prohibitionists who foisted the eighteenth amendment on the nation without a popular vote, were helping the tobacco crusade, despite their ever denials."

The investigation disclosed, said the statement, that a bill has been introduced in the Georgia legislature to prohibit the use of tobacco in any form and that measures have been taken into the legislatures of other southern and western states to put a ban on cigarettes. The Anti-Saloon League is also accused of actively aiding the W. C. T. U. crusade and of having endorsed the slogan "nicotine next."

Dr. P. Charles Green, of Philadelphia, was said to have protested to the public school authorities of his city for permitting, he said, the W. C. T. U. to establish medal contests and offer money rewards to pupils for the best essays on the "viciousness" of the tobacco habit.

In Evanston, Ill., where is located "Rest Cottage," the national headquarters of the W. C. T. U., former home of Frances E. Willard, founder of the organization and now the home of Anna Adams Gordon, the present president, thousands upon thousands of copies of the pamphlet "Nicotine Next," by Frederick W. Roman, Ph.

## NOTICE

In fairness to out-of-town contestants whose returns mailed prior to 10 o'clock last night count in the "second period," the standing of candidates appears this morning without the vote cast yesterday.

D. professor of economics at Syracuse University, filed one storage room which, it was said, was "guarded as carefully as a safety deposit value." No one but an intimate insider, it was stated, is permitted to know that the W. C. T. U. plans shortly to flood the country with these pamphlets. Meanwhile vast quantities of other kinds of anti-tobacco literature are being distributed, it is asserted.

The regular count will be made tomorrow and will include the votes of the out-of-town contestants, appearing in next Tuesday morning's Chronicle.

## SALVATION ARMY TO SEEK FUND HERE

Questions of Elks Aid to Be Decided Upon At a Meeting Thursday Evening.

At a meeting of the Elks Thursday night it will be decided whether they will conduct the campaign in Twin Falls for funds for Salvation Army work during the week of September 22-23. Major George D. Beaumont of Seattle arrived here Friday and is now conferring with local lodge leaders. Because of the great help that the Elks have given to the Army during the war period, the lodges are now being asked to help in this campaign.

The appropriation for the state amounts to \$100,000. Of this amount it is planned to send but \$25,000 out of the state, the sum to be used in relief work and care of Idaho soldiers who are in hospitals or taking vocational training in other states. It is planned to use \$5,000 for a rescue home to be built in Boise. An additional sum will be set aside for maintenance. An emergency fund of \$5,000 will be set aside for relief work in case of epidemic or disaster.

## BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Guys glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste bad breath and tongue is coated; if your head is dull or aching; if what you eat sours and forms gas and acid in stomach, or you are bilious, constipated or nervous, sallow, and can't get feeling just right, begin inside bathing. Drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from the stomach, liver, kidneys and bowels, and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous days' poisonous wastes, gases and sour bile before putting more food into the stomach.

To feel like young folks feel like you felt before your blood, nerves and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate which is inexpensive and almost tasteless except for a sourish twinge, which is not unpleasant.

Just as soap and water act on the skin, cleansing, sweetening and freshening, so hot water and limestone phosphate act on the stomach, kidneys and bowels. Men, women and children who are usually constipated, bilious, headachy or have any stomach disorders should begin this inside bathing before breakfast. They are assured they will become real cranks on the subject shortly.

# ONLY 6 DAYS

UNTIL ONE OF THE HUSTLERS IN THE CHRONICLE'S JUSTLY FAMOUS BATTLE OF BALLOTS WILL BE PRESENTED

WITH A PRIZE THAT MEANS

# \$1725 in Gold

IN REWARD FOR HIS OR HER ENERGY AND DETERMINATION

## Any Candidate

Can win this mammoth prize as close as the race now stands. Each individual's success or failure—gold and glory, congratulations and commendations of all Southern Idaho and one of the most beautiful cars made in America—everything depends upon what each candidate is able to accomplish in these next few days. Every day, every hour in this short, fateful period should be taken advantage of by the earnest hustlers who want to win. It's "do or die" in the next few days.

## Attention, Readers

Now is the time if ever to help your favorite in this wonderful race for the richest prizes that will ever be offered in Southern Idaho. As close as the race stands, your subscription may be the very one that will bring a small fortune to your choice in the list. Don't wait to be asked, for in their frantic efforts these last few days, the candidate you want to help may not be able to reach you. Pay your subscription direct to The Chronicle office, if you wish and the votes will be credited to any one whom you choose. Here is an opportunity to do a real kindness to a friend—a kindness that many mean \$1725 in the end—without costing you one cent more than you would pay for your paper anyway.

## New Tires From Old

Discarding tires because the tread is worn usually means losing 75 per cent of the original investment.

With Miller Ad-On-A-Tires they can be rejuvenated—made almost as good 'as new' and oversized. Your tires will then deliver 100 per cent value on your investment.

The Miller Ad-On-A-Tire is built of several layers of fabric—braker strip sidewalls, and famous Geared-to-the-Road tread. It is really a tire in itself without beads. It is tough, long-wearing and buoyant. Bring us your worn tires. We will re-mill and then re-mill with the famous Miller Ad-On-A-Tire. The many caterpillar feet engage the ground like cogs, insuring positive traction and safety.

Our process makes the Miller Ad-On-A-Tire an integral part of your old tire. After it is applied you cannot tell the old tire from a new. It can be used on any tire regardless of make. Come in and see this wonderful tire saver.

THE CALIFORNIA PROBLEM.

When Senator Phelan recently made some rather startling statements on the floor of the United States senate regarding the yellow peril in California, eastern newspapers criticized him for exaggeration.

His figures showing the percentage of increase of the Japanese population in Los Angeles county were indeed alarming, but they seemed to be discounted by the known totals and the small proportion of Japs to whites in that state.

A somewhat different aspect, however, is given to the situation by comments from California newspapers that are known to be calm and conservative. The editor of the Woodland Mail, in a characteristic statement, recognizes that Senator Phelan's presentation may have seemed overdrawn, but thinks he was justified in bringing the subject to the attention of the public "in a startling way."

"Those of us on the ground," says the editor, "are convinced that the 'gentlemen's agreement' by which Japanese laborers are supposed to be kept out is worth little. It is conceded that hosts of the little brown men are coming into the state across the Mexican border. And 'contract wives' are coming in by hundreds, apparently for no other reason than to become bearers of children.

"Japanese laborers are creating disaster for the white race in scores of districts, their mode of life making it impossible for white men and women to tolerate them. They have gradually possessed themselves of whole sections in both city and country, and where they locate the value of property immediately depreciates. Possessing themselves of a house in the middle of the block, for example, it is only a matter of a short time until the whole neighborhood languishes their control.

"Men, women and children, who a few years ago made a success of berry and small fruit farms have practically been crowded out of that industry by the Japanese, and the consumer pays more money for inferior products.

"I can realize that the people of the east and middle west may feel that the 'cool people' are making a great deal about a small matter; but if they knew the true conditions I am sure they would not only agree but would become aggressive propagandists against a very apparent menace."

It is quite evident that, whether Americans of other sections can agree with the Californians or not, the latter have a genuine grievance and a big problem on their hands, and deserve at least a respectful hearing.

REFORMED MOVIES.

The film reformers are rejoicing because two movie stars have decided to write and act their own film plays. The pictures are to contain a "moral as well as a story."

The first one is now being produced, and deals with divorce and its effects upon the children of the couple concerned.

It is believed by people who have depreciated the class of moving pictures generally produced that this marks the beginning of better things on the screen world.

But does it affect all?

There is a great need of a clean, wholesome, interesting moving picture just as there is need of such books and such plays. But the people who think the way to reform the screen is by presenting so unvarying and complex a problem as divorce are far removed from the light as are the melodramatists.

The way to counteract evil is by the positive method—making the things

that are good attractive and interesting so that people will become absorbed in them and have no time for evil.

After all possible care has been exercised, the real crux of the matter lies in the attitude of the onlooker. And reforming the attitude of the onlooker must begin, it is so self-evident, at home.

COMPULSORY TRAINING.

People interested in the development of national health and vigor will be gratified to learn that the legislature of this state have adopted compulsory physical training laws applying to all children in the elementary and secondary grades.

The states on this honor roll are New York, New Jersey, Maryland, Delaware, Illinois, Rhode Island, Nevada, California, Maine, Michigan, Utah, Washington and Oregon. It will be observed that the far west is somewhat ahead of the east and south. Hope is expressed that the movement will be extended to many other states next year.

This legislation means that in the states concerned the school authorities will see that the children take enough exercise to keep them in good health and promote their physical development, and also that they are carefully instructed as to the fundamentals of healthful living. They will be taught systems of exercise, and the reason for them, which they can apply themselves after they have left school.

A big impetus in this direction has been given by the discovery, during the war, that only two-thirds of the men in this country were physically capable of military service, and that more than half of the school children were suffering from defects likely to impair their future effectiveness if not corrected.

It is recognized that the best strategic place to undertake the building up of the nation's physical stamina is in the schools. May the 13 original physical exercise states soon go to 41?

TO BE DEARTH OF TEACHERS

NEW YORK, Aug. 2.—The high cost of living will cause a dearth of teachers in the universities of the country next fall unless salaries are materially raised, according to a warning issued today by Professor George S. Strayer of Columbia university, president of the National Education association. The war has emphasized the situation, Professor Strayer said, by opening up a tremendously increased field for college trained men who have been heavily drawn upon for various government posts, and an experience in advising the peace conference. Many of these men have realized the possibilities that are open to them in other directions that teaching and will not return to the colleges, he declared.

A supplementary statement issued by Professor Hartley B. Alexander, a professor of philosophy in the University of Nebraska and an instructor in the Columbia summer school, declared that the state universities of the west are asking to be re-adjusted to the situation and are everywhere increasing the salaries of the faculties to a point high enough to offset the increase in the cost of living.

MUST SOLVE LIVING PROBLEM

CHICAGO, Aug. 2.—Governor Frank O. Lowden of Illinois in a statement issued today declared that there can be no lasting relief from the prevailing industrial unrest until the high cost of living problem has been solved. "The question," he said, "must be solved by the federal government without delay if national disaster is to be averted."

He urged the producer, business man and worker to co-operate in obtaining relief from food profiteering, even if it means financial stress to every individual.

"If a too abundant currency be the cause, the federal reserve banks must in some way restrict further issue of money," said Governor Lowden. "If the unprecedented demand abroad be the cause of the increase in prices of the necessities of life, the government must find some way to limit exports of these commodities. Chicago is tranquil today. Whether it is a true respite from an impending price advance upon the solution of this problem."

until their demands for 25 cents an hour for mechanics and 35 cents for helpers are granted, John D. Saunders, secretary, said.

Regardless of what the international officers of the various unions may

be doing at Washington and they are making no announcements, the rank and file of the men have determined not to recede from their demand with back pay to January, according to Mr. Saunders.

No men will be removed from the wrecking crews, Mr. Saunders said, and no violence will be tolerated.

ENTIRE POLICE WALKS OUT

COUNCIL BLUFFS, Ia., Aug. 2.—Two hundred men, said to represent the entire force employed in the shops of the Northwestern and Wabash railroads in Council Bluffs, walked out this evening.

At the same time a mass meeting of workers in all other railroad shops in the city was held to discuss similar action. It was reported that this meeting sent a message to the union regarding the situation in Washington, but the text of the message was not made public.

ORDERED RACE TO WORK

SPRINGFIELD, Ills., Aug. 2.—Electrical workers who went on strike yesterday and today with railway shopmen have been ordered back to work and some of them have returned to their jobs, particularly in Chicago, according to Charles P. Ford, secretary of the International Brotherhood of Electrical Workers, who said the walk-out of electrical workers was sanctioned by the union.

About 3400 members of the craft had responded to the strike call of minor officials, according to reports received here. The entire enrollment of electrical workers affiliated with railroad branches, it was said, is about thirty-three thousand.

Except about the stockyards, racial feeling seemed to have subsided to-night.

Millitamen On Guard.

At the five miles' millitamen were on duty, as well as in the negro district, and houses of refuge for the

burned out families were opened in schools and fire stations.

A surprise was caused today when Coroner Hoffman announced that no marks of violence had been found on the body of Eugene Williams, a colored youth, who was reported strangled and knoeked from a raft into Lake Michigan last Sunday precipitating the riot. The coroner stated that the negro had not been struck by stones, but had been drowned, careful examination by a physician showed George Stauber, white, is being held by the police on a charge of murder in connection with Williams' death.

tion program bearing ratification of the covenant. Forty-five democratic votes are regarded by the leaders of this group as standing now for more severe ratification, but capable of being swung in favor of reservationist disrupting the league principles. The total required for ratification is 64.

Law Requiring Amalgam.

It developed today that the leaders of the group of seven are making no effort for the present to consider terms of the treaty other than the league covenant. Some of them believe that the Shantung issue eventually will solve itself and that in the end serious opposition to the treaty will be limited to the covenant.

Although no decision has been reached, members of the foreign relations committee generally expect that the meetings at which Secretary Lansing is questioned next week will be open to the public.

LUDWIG'S MAKES RECORD.

PHILADELPHIA, Aug. 2.—According to local records, Fred Ludwig, an first baseman of the Philadelphia National League club, today made a new record for playing in consecutive games. In that first game of today's double header at Chicago, Ludwig equaled Eddie Collins' record of 478 straight games, and exceeded it by playing in the second contest.

GLASS OF SALTS IF YOUR KIDNEYS HURT

Don't Let Meas If You Feel Back-ache or Have Bladder Trouble.

Meas (meas) uric acid which excites and overloads the kidneys in their efforts to filter it from the system. Regular courses of meat must flush the kidneys occasionally. You must receive from time to time your bowels; removing all the acids, waste and poisons, can you feel a dull misery in the kidney region, sharp pain in the back or sick headache, dizziness, your stomach seems tongue to be tied, and when the weather is bad you have rheumatic twinges. The uric acid is often full of sediment; the channels often get acrid, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush out the body, you must take from any pharmacy a glass of salt water. It is a pleasant glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice and has been used for generations to clean the system, relieve rheumatism, stop bladder irritation, and salts in inoperative, harmless and makes a delightful effervescent little water drink which millions of men and women take now and then as a refreshing tonic kidney and bladder disease.

# PROPOSE UNITING OF CONGREGATIONS

Baptist and Christian Churches to Hold Joint Meetings to Consider Proposal.

Negotiations are under way looking toward a union between the Christian and Baptist churches of Twin Falls.

A series of joint meetings has been arranged between the congregations from August 18 to August 21. The first three meetings will be held in the Baptist church from Monday to Wednesday evenings. The meetings will begin at 8 o'clock each evening and each pastor will give a thirty minute address. The congregations feel that though they should not be able to effect a union these services will be helpful in adding them to a better understanding of each other and bring them into closer cooperation.

The plan, which is unique in cities of the size of Twin Falls was inaugurated on July 13 when A. Hollingsworth, W. W. Parish and W. A. Moore, of the Christian church, were to the members of the Twin Falls Baptist church proposing the idea be considered. After consideration a letter was dispatched by a committee consisting of J. C. Sanger, Mrs. J. C. Healy and Conrad L. Owens making a counter-proposal that the proposition be discussed at joint meetings. These meetings were arranged as stated above.

The proposal of the Christian church, in part, follows: "With desire to best serve our community in the name of our Lord Jesus Christ we most sincerely invite and urge your consideration of this communication concerning the union of the Baptist and Christian churches of Twin Falls.

"Neither of our congregations has a suitable building. Rather than for each congregation to erect a building suitable for its needs we respectfully suggest the uniting of the congregations and at such time as may be agreed upon by the new congregation that a building suitable for the need of such congregation be erected.

"Our congregations are free from outside authority and may therefore more easily determine and consummate a union of the congregations.

"Both congregations are already committed to the sufficiency of the New Testament scriptures for the guidance of individuals and for the direction in establishing and maintaining the church of God. This fact assures us that no difficulty will be found in a sincere effort to unite the congregations."

In reply the committee from the Baptist church answered:

"In response to your communication proposing a union between the Christian and Baptist churches of Twin Falls, we are pleased to be able to continue with you that there is no churchly outside a local Baptist church which has similar freedom of government. There are, however, voluntary ties of association into which we have entered with other churches identified with us in the Master's Kingdom which we hold very sacred and which we would be slow, on our part, to violate or change. These would have to be carefully guarded in any new alignment which we might feel constrained to make.

"We feel that if our views of the New Testament teachings are sufficiently in accord to guarantee a free and complete union in Christian fellowship, in doctrine life and in denominational alignments, we ought not to let any personal prejudice or personal interest prevent a union of these two Christian bodies. As a preliminary step looking toward the accomplishment of such a consolidation, we propose that a series of joint meetings of the two congregations be arranged by a joint committee of an equal number in which the pastor of the Christian church will present the fundamental doctrines and practices of the disciples and the Baptist pastor in turn will present the fundamental doctrine and practices of the Baptists, such a series of addresses not to be in any sense a doctrinal debate, but a full, free and prayerful presentation of our respective viewpoints, so that every member of each congregation may have opportunity to know the teachings of each church and that the union, if effected, may be a happy and enduring one. We further suggest that during the series of joint meetings we request each family of our churches to engage in daily prayer for the Lord, to direct and intercede in all that we do and that the two congregations convene for a prayer service together preceding each address."

### FAIL TO REACH DECISION ON CASE OF FRANK CRESS

No decision was rendered by Probate Judge C. P. Duvall yesterday in the case of Frank Cress. Further investigation of the case will be made. Cress was charged with brutally beating his eight-year-old son, Elton Cress. When brought into the court room yesterday the child bore heavy red welts on his body, said to have been inflicted by his father, when the lad disobeyed orders not to go swimming. The child has no mother and lives with another family.

W. F. DeCloux was a business visitor in Twin Falls yesterday.

# Details of the Final Count

In order to maintain the strictest secrecy as to the number of subscriptions turned in by each candidate during this, the last week of The Chronicle's big automobile prize campaign, the race will be brought to a close under a sealed ballot box.

No subscriptions whatever will be accepted through the campaign department this week, but instead, candidates themselves will deposit their final collections in the sealed ballot box—located at the First National Bank of this city. By so doing no one, not even the Campaign manager, nor the publisher, can possibly know the voting strength of the respective candidates, which precludes any possibility of favoritism and insures fairness to the minutest degree.

Locked and sealed, the ballot box now reposes in the vaults of the First National Bank, where it will remain until the closing hour of the campaign—10 o'clock Saturday night, August 9th.

When the final hour arrives the campaign will be declared closed. The judges will break the seals, unlock the box, and immediately thereafter, or as soon as votes can be issued on the subscriptions contained therein, the last count will begin.

The winners will be determined by merely adding the published vote totals, which will appear for the last time in Tuesday's issue, to the reserve votes and those contained in the ballot box. There will be no waiting; no complicated count, but simply a matter of adding the vote totals and announcing the winners.

It is calculated that it will require some time to canvass the findings in the box and to determine the winner. The official results will be published in next Sunday's issue of The Chronicle.

# Out-of-Town Candidates Attention!

Heretofore out-of-town candidates have had the privilege of mailing their letters containing subscriptions from their home town as late as the closing hour of the various "periods." This will not be permitted the last night of the contest. **ALL VOTES AND SUBSCRIPTIONS MUST BE IN THE SEALED BALLOT BOX WHEN THE RACE IS DECLARED CLOSED AT TEN O'CLOCK SHARP.**

Out-of-town candidates should, where it is possible to do so, arrange to deposit their envelopes in person at the bank, but where this cannot be done letters containing final remittances should be addressed to "Campaign Department," Chronicle, Twin Falls, Idaho; and plainly marked, "For sealed ballot box. Not to be opened." Particular care should be taken to post such letters in good time to reach this office before the final hour, and it is advisable that same should be sent under special delivery stamp.

# Important Notice

All subscriptions deposited in the sealed ballot box **MUST BE ACCOMPANIED BY CASH, MONEY ORDER OR CERTIFIED CHECK FOR THE FULL AMOUNT TO COVER.** Personal checks up to \$10.00 are acceptable, providing no two checks are signed by the same party. This ruling is made in fairness to all candidates, and will be strictly adhered to.

# The Judges

Some of the members of the Advisory Board, selected at the beginning of the campaign will be asked to act as judges; to canvass the findings in the ballot box, and to award the prizes. The personnel of this board is as follows:

- W. H. ELDRIDGE, Mayor Twin Falls; LEO F. BRACKEN, Cashier Idaho State Bank, Twin Falls; A. B. COLWELL, Druggist, Twin Falls; E. J. OSTRANDER, City Councilman, Twin Falls; J. M. SHANK, ex-Probate Judge and Attorney, Buhl; W. P. SHINN, Postmaster, Filer; W. H. TURNER, Banker, Kimberly; HON. J. H. SEAVER, State Senator Castleford; R. E. MOOREHOUSE, Postmaster, Hollister.

All of these gentlemen are well known to everyone in Twin Falls and surrounding territory, and the final results, as given out by them, will be beyond dispute.

BRITISH RESTRICTIONS HOLDS UNTIL FALL

States Against American Goods Are Expected to be Modified at That Time.

By the Associated Press. LONDON, Aug. 2.—The American chamber of commerce review for July says that the British import restrictions are likely to be continued after September 1 when the government promised they would be revised. The government's trade policy is expected to be modified in the near future...

The drop in sterling exchange, it is asserted, is causing British importers to hold back American orders and, wherever possible, to buy in countries where the value of a pound is higher than in the United States.

Meanwhile, the government, in consultation with banking and trade interests, is preparing to re-establish British export trade by providing sterling credits for the countries not in a position to pay at present by exports for essential imports, says the review. The official shipping report shows that there are two and a half million tons of shipping under construction...

The government has subscribed for 1,700,000 shares of the five million and appointed two directors of the British Dry Dock corporation formed by arrangement with the board of trade to promote the manufacture of essential goods by the government.

MANY PROTEST WATER METER INSTALLATION

Anticipated That Council Session Monday Will Be Attended by Opposers

500 ARE ORDERED BY CITY COUNCIL

Answer Argument That Cost Is Too Much by Declaring They Will Pay in the Long Run.

Protests of a vigorous sort are being voiced throughout Twin Falls against the proposal of the city to install meters throughout the city. As a result of these protests it is anticipated there will be a large number of citizens present at the meeting to make known their opposition to the plan to council.

Five Hundred Meters Ordered. Yesterday the waterworks committee of the city council, acting under authorization from the council at its meeting last Monday, purchased from the Northern Meter company, 500 water meters at a cost of \$110.45 each with delivery in Twin Falls.

Many Reasons for Opposition. Many reasons are advanced for the opposition to the installation of the meters. Citizens declare that the cost is too much to bear at this time. It is believed by the city water department that the total cost of installation on residential lots will be \$244 for each meter set into place. The cost of business lots will approximate \$40.

City to Amend System. Members of the water works department in answering this argument state that the taxpayers will be ahead in the long run declaring that at the present rate water is being used another fifty per cent will be installed within three years at an approximate cost of \$100,000.

Using But Half Allowance. Another argument advanced by those opposing the plan is that the city is using but one half of the amount of water to which it is entitled. An investigation of water feet is now being made and it is said that the city is entitled to 14 second feet. It is declared that water is not being wasted when the city is only using a part of what it is entitled to use. It is also contended that the city is being paid for conveying water to its rightful owners and not for the purchase of the water, each lot owner being entitled to his proportion of the amount of water due from the canal company.

Legal Question Involved. Still another contention advanced by the citizens opposing the meter plan is that the city has no legal right to force the water user to have a meter but this is answered by the water department declaring that the city has the power to make any laws it is deemed advisable for the good of the city, declaring that several attorneys have ruled that the action is entirely lawful.

Install 100 Each Month. The meters ordered yesterday will be delivered at the rate of 100 a month. The order for 500 meters may become it is believed that this bill that can be installed this year. Council plans to eventually install meters at all residences in the city.

HUN HOME GUARDS DISGUISED ARMY WITH THE AMERICAN FORCES IN GERMANY, July 20.—(Continued from page 7.) Information in Germany's new "home guards" organization consists of more than 300,000 men, according to recent estimates made by American army officers. These units are quite apart from the 200,000 soldiers permitted by the peace treaty. Information in the hands of the intelligence officers indicates that these guards, which are centered throughout Germany, and proceed with military preparedness. The units are composed of trained soldiers, who, nevertheless, have subjected themselves to a continued course of military training considerably more active than that of the national guard in the United States.

RANCHES FLOODED CLOSE TO DENVER By the Associated Press. DENVER, Colo., Aug. 2.—Apprehension that a part of Denver's business district might be flooded was allayed early this morning.

Cora Biggs. Because of her well established reputation for business ability, because of her popularity with a large circle of very close friends and because of her energy and perseverance Mrs. Cora Biggs at the start of The Chronicle's big campaign became a contestant of unusual promise. She has been handicapped by lack of time due to the fact that her duties in the abstract business demand press her from her; but nevertheless she has from the start been a vigorous contender and her share in the race has given her "the idea" the hope that she will be able to carry off first honors and receive the Grand Prize, the big Palace car.

Mrs. Geo. Patton, of Elmer, has been a persistent contender in The Chronicle's big contest from the early days of the enterprise. The citizens of the community have pledged support to her with an unannounced but an intended popularity of the candidate and disclosed the especially high esteem in which she is held. The youth of the community, taught in the public schools by Mrs. Patton, the parents of the students who have been the backbone of a support which has not diminished from the beginning.

layed early this morning. A cloudburst at Melvin, 22 miles from Denver, started a wave of water nine feet deep down Cherry creek toward Denver. Hanches near Sullivan between here and Melvin, were inundated, causing heavy losses to growing crops, according to reports. Cherry creek had risen three feet in 12-20 minutes and danger of an overflow was believed past.

PICKERS ARE MAJORED. DENVER, Colo., Aug. 2.—Street car service was partially paralyzed certain sections of the city flooded and three hundred picketers at City Park picketed for two hours, as the result of a cloudburst here today.

The lake in City Park overflowed, covering sections of the park three feet deep and flooding areas in the vicinity. In other sections of the city flood and mud covered car tracks. Police and fire department automobiles rescued the marooned people after several mothers had waded through the waters carrying their children.
